

## **Bodyguard 9141**

### Chapter 9141

Daniya giggled. "You're indeed a promising child. You're so well-coordinated with each other. Is this ... A telepathic connection?"

"What is this nonsense ..."

Lin Yi's lips twitched, "your thoughts are all written on your face-I'd be blind if I didn't understand!" Although your idea is not bad, I just want to ask Yingluo, are you sure that the clone I create will not be counted as my own?"

Daniya's face paled. This matter ... Could not be confirmed!

If the doppelgangers counted as kills, then it was only counted as Lin Yi's original head-there was no point in running to the light ring! In the end, it was still calculated on the circle of light where Lin Yi was, and the situation was reversed!

"Hehe ... Just pretend I didn't say anything!"

Daniya decisively gave up on this seemingly perfect plan. The risk was too great and not worth it!

As Lin Yi and the other two were discussing, the remaining practitioners started forming groups of twos and threes. The smaller the number of people, the better, but if they were to go in alone, they probably wouldn't even be able to get in.

The second question from the pagoda had already begun. Everyone received the message from the pagoda in their minds.

Would there still be a draw in the second round?

Everyone was dumbfounded!

Then, he was furious!

"What kind of stupid question is this? The star Cloud tower is deliberately causing trouble, right?"

"I have something I must say!"

"F \* ck the star Cloud tower! Can't you leave him a way out?"

.....

They were all big shots of the heaven breaking stage. In the outside world, they all wanted face. Their behavior must be as deep as the ocean and as majestic as the mountain. How could there be such a scene of cursing and swearing?

If it wasn't for the fact that they couldn't help it, no one would want to show this scene of powerlessly barking ...

It couldn't be helped. The questions in the second round of the star Cloud tower were too tricky. The answer was obvious. The only correct answer was no! The scene of him dying together with his teammates in the last round was still vivid in his mind. There were no human or fish attributes present, and the memory was more than seven seconds!

Who would choose Yes? Choosing yes meant that the number of people on both sides of the circle had to be the same, and then everyone would fail together!

The only choice was no!

Therefore, everyone chose no ... Everyone failed together!

"What the f \* ck!"

A heaven breaking cultivator's face turned red with anger. No matter how he looked at it, he was sure to lose. No one would sacrifice themselves to choose the 'yes' Halo. Even if there were, it would not be the majority!

The 30 seconds to choose passed by slowly. The strongest person and the three heaven breaking cultivators beside him gave each other a meaningful look. They had already secretly agreed to form a temporary Alliance.

On the surface, the strength of the four of them was at the top of everyone else. With their joint efforts, they already had enough martial strength to guarantee it.

While the others were still cursing, the four of them had already joined forces and rushed into the circle of light that represented No. They immediately formed a simple battle formation and blocked the edge of the circle of light.

Although the entire circle of light was not small, the attack range of the four of them was enough to cover the front. They just had to prevent others from entering.

"All of you, go to the other side. This place is already off-limits! If you go there, you'll only suffer one failure, and you'll still have one more chance to fail. "

The strongest heaven breaking cultivator quickly opened his mouth and said, "After we pass this round, it will be beneficial for you. If you don't want to go, you will be transported out of the star Cloud tower! Are you willing to see such an outcome?"

Lin Yi's lips curled up as he smiled, "These guys are quick-witted and have come up with a good idea. On the surface, the strength of the four of them is the strongest group. After forming a battle formation, it shouldn't be a big problem to block the others for 20 seconds!"

Of all the people present, Daniya was the strongest on the surface, but she was obviously in the same team as Lin Yi and Qin wunian. Qin wunian had a weak one, and Lin Yi didn't look strong either, so no one wanted to form an alliance with Daniya.

Other than Daniya, those four were the strongest group!

"The four of you are too few. I'll join you. There are still empty seats anyway. With my help, the chances of winning will be higher!"

Someone immediately rushed over to ask to join. There were still 18 people on the platform. As long as there were less than eight people in the 'no' circle, the chances of winning would be higher!

"Get lost! We don't need it!"

The person in the circle of light attacked without hesitation, not giving him the chance to get close at all.

The other three martial artists had originally wanted to follow suit and request to join the team, but when they saw this scene, they were instantly enraged. "Everyone, let's work together and force them out!"

They gathered the first martial artist who had gone there. It was four against four, with the edge of the light circle as the boundary. Both sides instantly broke out into a fierce battle. However, everyone's strength was about the same, and the person in the light circle was stronger. If it was not for the fact that he did not want to leave the light circle to pursue, the four challengers would probably not be able to hold on.

The battle was in a deadlock. The four challengers were anxious. One of them shouted, ""What are you guys still looking at? Was he willing to be their stepping stone? Let's attack!"

Who would be willing to be a stepping stone?

Two people immediately rushed over to join the battle. Unfortunately, there was not much hope of breaking through the joint defense of the four people in a short time!

Lin Yi and the other two didn't move, still watching from the side. The other five turned their heads and charged at the "yes" light.

This was a minority!

Even if the answer was wrong, as long as the number of people in the circle of light was the minority, they would not be punished!

The time to choose would run out very quickly. Rather than staying outside and being transported out of the star Cloud tower, it was better to choose the wrong answer and ensure that it was a minority, avoiding punishment!

Everyone's way of thinking determined their own way of doing things, but it was hard to say who was right or wrong. As long as the final result was favorable, it was the right choice!

A battle broke out when the five of them charged into the circle of light. There were only four of them on the other side, and they would still lose if five of them were left! He had to chase two of them out!

These people had a tacit understanding, and the three stronger ones instantly teamed up to drive the other two out of the circle. Intense battles broke out at the edge of the two circles, and only Lin Yi's group stood on the side as if it didn't concern them.

"Sima, where are we going?"

Daniya turned to look at Lin Yi. There wasn't much time left, and it was time to enter the light. She didn't doubt if he could enter the light.

With Lin Yi around, there was no light that they couldn't enter. Not to mention, she was the strongest person here other than Lin Yi!

Lin Yi smiled and shook his head, "these people all think that this is a losing game. They think that we have to fight to the death to find a way out. As long as they're willing to cooperate, it's not difficult to get through this round."

Daniya laughed. "It's not difficult, but it's a pity that everyone wants to enter the core as soon as possible and head to the third floor. So no one is willing to choose the peaceful way, and no one dares to do so. What if they end up being betrayed?"

Chapter 9142 Power

Qin wunian was silent. He understood Lin Yi and Daniya's words, and he understood the meaning behind them.

It was impossible for the star Cloud tower to create a losing game. It was actually very easy to pass the second round peacefully.

The correct answer 'no' would send ten halos in, and the wrong answer 'yes' would send eight in. Because the correct answer was majority, they could not win and enter the core position, but there would be no punishment.

If the wrong answer was the minority, they could also be exempted from punishment. Everyone entered the third round in harmony. Perfect!

However, no one present would believe anyone else. What if at the last second, the seven people with the correct answer joined forces to expel three people?

The three people who were expelled were teleported out, and the person who gave the wrong answer was punished for a second failure. All the benefits were taken by the seven who betrayed them!

Who would be willing to do that? 30 seconds was not enough for everyone to come up with a plan. Therefore, they could only fight in the most primitive way!

"Let's go to the circle of light with a no answer!"

Lin Yi had made his decision long ago and walked towards the circle of no light with the girls. The four inside the circle were heavily guarded, but the six outside didn't waver at all.

However, when Lin Yi's group of three broke into the formation, the four of them broke through the simple formation like snow in spring!

The four of them didn't even have time to react before Lin Yi's group entered the light.

"What?"

"What's going on?"

"Impossible!"

The four cried out in disbelief, but Lin Yi and the other two were already inside the circle of light, ready to attack them at any moment!

In their panic, a gap appeared in their defense, and the people outside almost took the opportunity to rush in. Fortunately, Lin Yi and the other two didn't make any further moves, and the four were on high alert, stabilizing their position and covering up the gap.

"Actually, I don't mind having more people. There's nothing bad about everyone entering the third round peacefully. Of course, if you want to expel the three of us, you can come and try!"

Lin Yi smiled and raised his hands, welcoming them to attack.

The four men were shocked. They didn't know how strong the three were, and they didn't dare to attack them. However, if they didn't get rid of the three, there was no point in blocking the others.

The other side was the minority! Even if the answer was wrong, they would be fine!

"Stop fighting! Let us in! The result is the same!"

The people outside the circle of light shouted. They no longer considered winning. They only hoped to enter the circle of light and stand on the correct answer. It didn't matter even if they had the majority.

Two of them turned and rushed to the other side of the circle of light. There were already seven people here, and there were only three people in the circle of light over there. They would be the minority if they rushed in while there were still a few seconds left!

The two cultivators who had been blocked outside the 'yes' ring of light went crazy. In order to enter the ring of light and ensure that they would not be teleported out, they directly used their own trump cards. Just then, the two cultivators from the other side rushed over, instantly forming a four-man team. Finally, they broke through the obstruction of the three people and all rushed into the ring of light!

Seven!

Seven!

A draw?

When the four of them rushed into the circle of light, everyone was a little dazed. They had actually reached a choice and a draw? So, the answer of 'yes' was correct?

What would the star Cloud tower do this time? Should he continue to rule as a total loss or change the rules and win the game with the correct answer?

This thought flashed through everyone's mind like lightning, and then the people in the two circles of light went crazy!

Lin Yi and the other two didn't mind, but the four alliances that came in first all turned their guns on the three of them, trying to get them out at the last second!

If they were chased out, they would win. If they failed, everyone would be punished together!

It was the same on the other side. The chaotic situation from the previous round reappeared. As long as one person could be driven out, they would be exempted from punishment as the minority.

A draw was the worst situation!

Lin Yi's group was able to deal with them easily without any pressure. Let alone a second or two, even if they were given a day or two, they wouldn't be able to break through Lin Yi's defense!

At this time, one of the martial artists outside the circle of light seized the opportunity and finally rushed into the circle of light. The other three turned around and went to the opposite side. They wanted to take advantage of the chaotic battle there and squeeze out a few people.

They didn't expect that when they turned around, a flaw would appear on their side ...

At the end of the last second, the three people on both sides were sent out of the star Cloud tower with unwilling roars. At the same time, the people in the two circles of light stopped fighting.

Everyone received a message in their minds. In the second round, the correct answer was 'no', and there were eight people in the circle. The wrong answer was 'yes', and there were seven people in the circle. The correct side was the majority and lost the chance of winning.

Those who made mistakes were in the minority and were exempted from the punishment for failure!

Everyone was happy, or perhaps no one was happy, because no one won!

After six rounds, no one had passed, so the remaining people would have to continue waiting. Once twenty people had been gathered, the final test would begin again.

To be honest, no one present wanted to go through this damn test again!

"Everyone, before the third round begins, please listen to me!"

The two people in the circle of light stood back in the middle, and the warrior with the highest rank other than Daniya said in a deep voice, "We can't continue like this! If no one passes, we'll have to start all over again, and we'll be teleported out if we're not careful. "

"Let's be honest and cooperate to clear the game. We have fifteen people left. I suggest that we draw lots to decide the minority. We'll leave it to fate to decide whether we can go up or not. What do you think?"

As he spoke, he took out a black wooden box and deftly placed fifteen gold certificates into it. "Seven of these gold certificates have been marked. Whoever draws them will have priority in choosing the circle of light, while the other eight will go to the other circle of light."

"If we succeed, seven people can pass the test smoothly, and the remaining eight people will draw lots to decide the minority. In this way, at least half of us will have a chance to pass the test. We won't be completely wiped out, and no one will be able to pass the test, don't you think so?"

Lin Yi's lips curled up as he laughed to himself. If discussing was useful, there wouldn't be that chaotic situation!

Everyone's discussion was the easiest way for someone to pass the test, but human nature was selfish. Who would be willing to sacrifice themselves for the sake of others?

Not to mention that he would lose a lot if he was punished. Furthermore, he only had two chances to fail. The Nebula tower didn't clearly state what would happen after he used them all.

Rather than taking such a risk, he might as well take a gamble!

"I agree!"

"I agree!"

"I agree!"

.....

Lin Yi had seen through everything, and the others weren't stupid. They all agreed, leaving only the three of them silent.

There was no doubt that these people would not follow the plan obediently. They probably all had their own ulterior motives and were prepared to make a move at the last moment!

Chapter 9143 -Power

"What do you three say?"

The martial artist who suggested looked at the three of them coldly. They almost succeeded but failed at the last step all because of the three of them.

If the three refused to join, he'd be able to incite others to target the three first and get rid of the trouble! So he really wanted Lin Yi to reject the plan.

At this moment, the third round of questions from the star Cloud tower was sent to everyone's mind. Will you betray your friends or allies?

Yes, or no?

The two rings of light were dazzling, and the martial artists who received the questions had extremely interesting expressions on their faces!

To hell with the star Cloud tower! Why didn't you collapse immediately?

They had just said they wanted to form an alliance, and the star Cloud tower asked them if they would betray their allies?

All the heaven breaking experts present could feel the deep malice from the pagoda ... How should they choose?

Normally, they would not betray their allies. Otherwise, who would form an alliance with them?

However, if everyone chose not to betray their allies and became the majority, who could guarantee that they would not suddenly kill?

Most importantly, the star Cloud tower had considered all those who had reached an agreement as a whole. As long as one person betrayed, the answer of the entire group would be affected!

For example, if Lin Yi's group of three were a whole and chose not to betray, kicking Qin wunian out at the last moment would make the three's correct answer turn into a wrong choice of betrayal!

Therefore, the answer this time was not fixed. It would change according to the behavior of each person in the group. Different groups would have different correct answers, and the final calculation would be calculated separately.

The three of them didn't have any internal strife, so they wouldn't betray each other. If there were traitors in other groups, then betraying would be the correct answer. The changes were a little complicated, but the star Cloud tower was the existence that controlled everything. If it said it was reasonable, then it was reasonable!

"You should know what we said, right? The three of us won't participate in your game, you can do whatever you want!"

Lin Yi shrugged his shoulders at the practitioner who asked him the question, an apologetic expression on his face. He then led Daniya and Qin wunian into the circle of light that would not betray.

"This is the choice of the three of us. How you play has nothing to do with us!"

The martial artist who received the answer had a gloomy expression. However, time was limited and there was no time to argue. He immediately turned to the other martial artists and said, ""Let's draw lots first. It doesn't matter what the problem is as long as we work together to complete the agreement. Come on!"

The rest of the people had their own plans, but they all nodded and went to retrieve the gold certificates from the boxes with normal expressions.

Soon, the results were out. It was considered average, with five on each side and seven on the other. Now, they had to decide which side would not betray the circle of light and which side would betray the circle of light.

The leading martial artist was in the group of five and immediately said, ""We won't betray the circle of light. You guys go to the other side. Everyone must stick to the agreement and never betray us!"

He glanced at the three, and the others understood that these five were ready to attack the three!

They weren't from the same camp, and there was no such thing as betrayal. They had no qualms about fighting-as long as they could get Lin Yi and the other two out of the circle before the time limit, the people on the other side wouldn't move, and the five of them would have a chance to pass!

"Understood!"

"Don't worry, we won't go back on our promise!"

"I'm willing to accept my loss. I'll send you guys away. I'll accept it!"

The seven cultivators who had betrayed the circle of light all patted their chests and promised, as if they really did not mind losing a chance to fail, and also promised not to betray the Alliance.

Lin Yi smiled,"the louder you speak, the faster you'll betray us!" Do you want to make a bet and see if these people will be the first to attack the people around them?"

"Sima Zhong da, are you certain that they won't succeed? What if they really keep their promise?"

Qin wunian still felt that these heaven breaking elders weren't so shameless as to treat their words as farts.

Daniya had the same opinion as Lin Yi and laughed in disdain, "Just them? Keep your promise! The word "betrayal" has been carved into their foreheads. If you think they'll keep their word, then you might as well believe that they're a vegetarian. "

Lin Yi continued, "these people are calculated separately from the three of us. We don't betray each other. This is the right answer. As long as one of them betrays, the other side is the right answer."

"The initiative is in the hands of those seven people. Do you think they will not make a move? And the five that chose our side are not good people either. The other side may have the correct answer, but it may not be the minority!"

"They plan to force us out and then decide if they want to attack their companions after seeing the situation on the other side. If the other side doesn't attack, they will win. If they attack, they can at least guarantee that they will be the minority!"

It was a good plan, but they chose the wrong opponents. They thought that five people were enough to deal with Lin Yi's group of three-clearly, they hadn't tasted the power of a three-man Group yet.

"Sima, there's no need to be so polite with them. Can't you just kill them? It's not like we can't beat him!"

Daniya pouted. "Let them do whatever they want. We'll break them with force. Won't it be better to kill them?"

It was a pity that the people who had ambushed her had disappeared. She didn't know if they had passed through the second level and entered the third level, or if they had been transported out of the star Cloud tower, or if they had dropped to the first level and started climbing again.

He didn't know anyone here, and he didn't have a reason to take revenge. It was a pity that Lin Yi didn't want to be ruthless!

Lin Yi had thought of driving some of them away-they weren't friends, but they were still enemies. He didn't have to worry about anything.

However, considering the fact that many darkness demon beasts had entered the Nebula tower, and that he had only met one of them, he had no idea how the rest of them were doing.

If he were to get rid of all the human experts, it would be equivalent to helping the darkness demon beast clan. Thinking about it, he felt a little unwilling.

Lin Yi looked up at the five heaven breaking cultivators who had already walked into the circle of light. All of them had a faint evil look in their eyes, and he sighed to himself.

You're asking for it, so don't blame anyone! Don't say I didn't give you a chance!

"How about the three of you go over there by yourselves? You can see the current situation. All of us are working together, but the three of you are not. Even if you can survive this round, you will become the target of everyone before the next round begins!"

The heaven breaking expert who made Zong lianhang his partner smiled coldly as he stopped in front of Lin Yi and the other two, counting the time in his mind. "Don't force us to do it! I don't want to hurt your lives!"

Lin Yi sighed softly before spitting out a single word, "Get lost!"

Chapter 9144-Power

There were only three seconds left!

The warrior's face changed and he shouted in a low voice, ""You refuse a toast only to drink a forfeit. Do it!"

The five of them instantly formed a battle formation and attacked Lin Yi's trio at the same time. They used all their strength and wanted to kill them in one blow!

A dead person was not counted as a head!

They didn't even think about forcing the three out of the light circle-they killed them to solve the problem completely!

Lin Yi's eyes turned cold as anger rose in his heart. As expected, even if he had expected this, he still underestimated them!

The arm that had been behind his back this entire time leisurely stretched out, and the Super pill fire bomb instantly took shape!

Battle formation? Hehe ...

Using a formation in front of Lin Yi was like trying to show off one's skills in front of an expert.

The more they wanted to use a battle formation against Lin Yi, the more they'd be caught and smashed to the ground!

Daniya and Qin wunian stood on Lin Yi's left and right. The three of them were like a sharp knife, cutting into the gaps in the enemy's formation easily.

The hot knife cut through the butter smoothly without any obstacles!

The five-man formation was in chaos, but Lin Yi was like an emotionless Battle Machine, accurately and fatally pressing the Super alchemy bomb on the face of the strongest heaven breaking stage!

Teaming up, sowing discord, killing ... Lin Yi wasn't a Saint-he wouldn't just retaliate after being offended with some light punishment!

The Super alchemy bomb exploded, and under Lin Yi's control, the direction of the explosion was also precise. Most of it hit the face of the strongest person, and the rest split into four groups to attack the other four.

The battle formation had been forced, and the five heaven breaking cultivators had been caught off guard. They were all somewhat flustered, and the one who had been hit in the face by the Super alchemy bomb didn't even have the time to think about defense.

Lin Yi's super alchemy bomb, which was powered by the battle formation, instantly tore his head apart, turning his body into dust.

The other four weren't the direct target of the attack, so with that instant of buffer and reaction time, plus the fact that a small part of the power was split into four, they finally managed to put up a defense at the last moment.

The four of them flew back in unison. Three of them were blasted out of the circle of light. One of them was lucky and landed on the edge of the circle of light. As he vomited blood, he used his hands and feet to roll into the circle of light with a ferocious expression. At least he managed to retain his qualification to stay.

On the other side, the betrayal happened as Lin Yi expected!

Only betrayal would give them the right answer. As for the life and death of the others, who cared?

Unfortunately, none of the seven of them were naive and would believe in a promise that was made at the last minute without any restraint. While they were thinking about how to betray and ambush their allies, they were also constantly on guard against being ambushed by others.

As a result, the chaotic battle that broke out at the last moment did not have a large number of victims. Only the weakest one was focused on by the three people and flew out of the circle of light without suspense. There were still six people left in the chaotic battle.

Time's Up!

The people outside the circle of light roared unwillingly. As they roared, blood spurted out of their mouths, rendering their unreconciled emotions incisively vivid.

However, their unwillingness was meaningless. As the Starlight fell, they were teleported out of the star Cloud tower!

There were seven people left in the betrayer's Alliance, six in the circle of light with the correct answer, and one on Lin Yi's side. It was the wrong answer, but he was in the minority camp and wouldn't be punished.

Lin Yi and the other two didn't betray each other. As the minority, they stood on the correct side. The information of passing the test came to their minds. The stars rose, and the three looked at the remaining seven with ridicule and pity. They didn't say anything and entered the core position of the second floor.

Lin Yi didn't care how the other seven would continue their test anymore. Even if they fought until they lost their heads, it was their own choice.

The center of the platform on the second level was no different from the first level. The lit up sphere was as hot as a star, and the reward this time was nothing special.

In addition to the doubling of the power of the stars entering their bodies, an incomplete pithy formula was also transmitted into the minds of the three. This pithy formula was used to actively guide the power of the stars to refine the body, but because it was incomplete, it could not be cultivated yet.

Lin Yi estimated that if he wanted to get the complete chant, he'd have to pass a few more levels of the star Cloud tower, but that wasn't a big problem. After all, he was best at deducing the complete or even better version of the original from the incomplete parts!

"Sima Zhong da, Daniya, I feel like I'm reaching the limit of the power of the stars ... After entering the third level, I might have to leave the star Cloud tower soon!"

After Qin wunian received the power of the stars for passing the second level, his face turned red. ""It's a pity that the cultivation technique I obtained was incomplete. If it was the complete version, I might be able to control the power of the stars to refine my body and increase my strength by a large margin!"

Her strength was too weak. She was only at the beginning stage of her cultivation. It was indeed not easy for her to pass the second level. From the third level onwards, the target group should be at the initial stage of earth creation or above.

After entering the third level and obtaining the complete reward from the first level, this was the limit of a mountain opening stage cultivator. After leaving the star Cloud tower, if he could completely absorb the power of the stars, his strength would have a qualitative leap!

It was not impossible to skip the earth-splitting stage and enter the sea splitting stage directly. After all, there was much more room for improvement with a low Foundation.

Unlike Lin Yi and Daniya, who were already heaven breaking Masters, the first two levels of star energy had only just seeped through the skin and touched the muscles. What was the limit of their bodies?

What was that thing?

Qin wunian was filled with regret. It was the star Cloud tower!

It was a rare super opportunity, the best chance to revive the Qin family, and she could take two great people with stars as their names with her. However, she was too weak to bear this opportunity!

He was helpless!

If he had put in more effort in his cultivation in the past, even if he had stepped into the earth formation stage, he would have been able to gain two more levels of the Nebula tower. How rich would the benefits he would have gained be?

Qin wunian was immersed in his own regret, unable to extricate himself. He subconsciously wanted to enter the passageway to the third floor, but Lin Yi pulled him back.

"Are you in such a hurry to leave the star Cloud tower? We're not in a hurry to go up, so why are you in a hurry?"

Lin Yi raised a brow at Qin wunian, raising his other hand to signal for her to calm down. "Since your body can't withstand any more power of the stars, why don't you just refine this first?"

"How do I refine it?" Qin wunian asked, stunned. I've tried, but I can't control the power of the stars. It can temper my body on its own, but I can't guide its movements. "

There was one more thing that she didn't mention. Not all of the star energy she had obtained so far belonged to her. Once she left the star Cloud tower, according to the rules, the star Cloud tower would take back a portion of it.

He might seem full now, but once he left the star Cloud tower, he would be much less full. It would be good if he was 80% full.

Even if he could refine the power of the stars, the parts that still belonged to the pagoda would not be refined.

Chapter 9145

"The incantation I obtained, isn't it used to refine the power of the stars? Wait a minute, let me do some research!"

As Lin Yi spoke, he started to deduce the incomplete chant in his sea of consciousness. He didn't need it to be perfect at this stage, as long as it could be used to guide the star energy to refine the body and refine the reward, it was enough.

Daniya and Qin wunian were both stunned. That incantation had no beginning and no end. It was like the entire three-character classic. It only told the beginning of a person's beginning, and nothing else after that.

Those who knew would naturally know, and those who didn't wouldn't know even if they racked their brains. Daniya and Qin wunian didn't understand what Lin Yi was researching.

Lin Yi closed his eyes and focused on the chant-he didn't need the full version, just the first stage was enough.

The requirements weren't high, so the difficulty was naturally lowered by countless times. In three to five minutes, Lin Yi was almost done.

Daniya and Qin wunian had complete trust in Lin Yi. Seeing that he was deep in thought, the two stopped talking and waited quietly.

At the same time, she was also protecting Lin Yi. If someone passed the test and came to the core, Daniya didn't mind attacking with all her strength and extinguishing the threat with lightning speed!

There were only thirty seconds for each round, and there was a bit of time between each round, but it wouldn't take more than a minute. Lin Yi thought that the remaining seven should be able to complete all six rounds.

In the end, none of them appeared ... It was obvious that the seven traitors 'Alliance's brothers did not end up well.

Lin Yi easily completed the first phase of the chant and opened his eyes. Stars flashed in his pupils.

"Qin wunian, try this incantation. It should be able to refine the power of the stars in your body!"

Lin Yi had tried it himself, and the chant was fine, but the star energy he'd gotten so far was too thin for him, and wasn't worth much.

Qin wunian paused-Lin Yi said he wanted to do some research, but how long had it been? She had only been in a daze, and he had already finished his research?

He was still a little confused, but when Lin Yi recited the chant, Qin wunian focused on memorizing it. The first stage wasn't a lot, and Qin wunian memorized it after reciting it once.

It was an incomplete version after all, so remembering it wasn't a problem. Daniya received it as well, but she was the same as Lin Yi-the star energy she received wasn't of much use to her.

After memorizing the chant, Qin wunian started channeling it on instinct. She had her doubts about the chant at first, thinking that Lin Yi's ability to complete it in such a short time might not be effective.

She didn't expect that as soon as she activated it, the star power in her body began to flow according to her will!

Qin wunian was taken aback. Before this, she had never been able to mobilize the power of the stars at all. Even the strengthening of her body was guided by the power of the stars. The result of her passively enduring it was completely different from what she was doing now!

It was effective! It was really effective!

After the initial shock, Qin wunian was overjoyed. He immediately sat down cross-legged to cultivate. The power of the stars was already circulating in her body, and she could not stop it.

"It seems that her comprehension is very high and she has already begun to refine the power of the stars! Let's wait for her!"

Seeing Qin wunian's current state, Lin Yi decided to sit to the side and continue with the chant. He had nothing to do anyway-he could just refine it when he got more star energy, and not wait for the chant reward.

Daniya pouted and teased,"Sima, I think you're a little biased!" You said you would help me take revenge, but you're not in a hurry at all. Those despicable people who ambushed me are probably about to pass the third level, right?"

"Daniya, aren't you overestimating those people? Out of our batch of participants, only the three of us have passed. The rest probably won't be able to come up. Do you think those people who ambushed you are no longer in the Nebula tower?"

Lin Yi smiled as he conversed with Daniya while trying to figure out the chant in his mind. It was no problem for him to split his attention, "Or perhaps he was knocked down to the first step and is now climbing up behind us? If we wait here, we might get something, don't you think?"

Daniya laughed, "yes yes yes, you're the boss, whatever you say is right!" Let's not talk about these unlucky people. How did you get this incantation? Did you really come up with it yourself?"

"What else? Who asked me to be so smart? with just a beginning, I can deduce the follow-up ... Actually, the first stage of the incantation is not that difficult, so it's normal to be able to deduce it. "

Lin Yi shrugged and didn't explain further. He threw a glance at Qin wunian before tossing out a concealment formation disk, shrouding the three of them within. "She might need some time. Someone might come up from behind to avoid disturbing her."

"You're so concerned about her, but you don't care about me. Are you forgetting the old when there's a new one? Hehe, it's true that the new laughed, but the old cried!"

Daniya laughed as she joked, not a hint of an old friend crying.

"You have to be serious when you're acting-you can't get your emotions in. Even an expressionless poker face is more convincing than your current look!"

As they were talking, everyone saw that the third level of the star Cloud tower had been lit up!

The speed of the leading team was really fast! Each level had a different test, which seemed to be useless to them.

Lin Yi's face turned serious. It was fine if the humans were in the lead-even if they didn't behave well, there was still a high chance that they'd fight back against the dark Demon beasts.

But if the one in the lead was a Dark Beast, the more benefits they got, the more difficult it would be for Lin Yi to deal with them!

The rewards for the first few levels weren't much, so Lin Yi could take his time climbing them. He couldn't just give the mid to late levels up to others so easily!

He needed to speed up!

"All three levels have been lit up! Sima, we should hurry up, don't let them leave us too far behind. "

Daniya spoke at the right time, speaking Lin Yi's mind.

"We won't be too far behind ... We'll catch up soon!" Lin Yi nodded.

The latecomers caught up!

Lin Yi and Daniya watched as the ninety people split into dozens of groups and rushed past them, entering the tunnel and climbing to the third floor. These were the fighters who were going to fight after them.

Chapter 9146

He had seen a few of them before, and some he had never seen before. Naturally, they were the martial artists who had reached the Ninety-ninth step later. Their strength demonstrated what it meant to be the latecomers catching up.

Qin wunian's cultivation continued for more than four hours. The fourth level of the Nebula tower had been lit up for some time before she finally opened her eyes. Her strength had also broken through continuously, finally stopping at the peak of the middle stage of earth creation!

She had used up more than half of the stellar energy she had received as a reward, and the remaining didn't belong to her. She couldn't refine the portion that could be recovered by the star Cloud tower for the time being.

However, this did not matter anymore. After his strength level had greatly increased, his body's endurance, which had originally reached its limit, had expanded more than ten times, and could accommodate more star power.

As long as he could keep climbing, he should be able to at least reach the fifth or sixth level.

"Sima Zhongda, Daniya, thank you ... 'Thank you' is not enough to express my gratitude. I, Qin wunian, will remember this great kindness in my heart!"

Qin wunian suppressed the excitement in his heart as his strength increased. He stood up and bowed to Lin Yi and Daniya in gratitude.

If it wasn't for the two of them, she wouldn't have been able to pass the second level and would've been sent out of the tower long ago.

Even if they were lucky enough to reach the Ninety-ninth step, they would inevitably be the main elimination target of everyone in the few final tests. It was even more impossible for them to have the complete incantation to combine the power of the stars and strengthen their physical body.

"We're all family, what's there to be polite about?"

Daniya smiled as she walked up and held Qin wunian's arm. ""If your strength increases, we can climb to a higher level together. It won't be a waste of Sima's effort to deduce the pithy formula for your cultivation technique."

Qin wunian's face reddened slightly as she stole a glance at Lin Yi. She lowered her head and whispered, "You ... You didn't do it on purpose, did you? Aiya, even the fourth level had been lit up! We're too far behind, let's go! I'm holding you up too much!"

Through her God's eye view, she saw that the third and fourth levels of the star Cloud tower were all lit up, and she felt guilty. If she didn't waste time, Lin Yi and Daniya would've passed the fourth level already, right? At the very least, he would be in the middle of the fourth level.

Of course, it wasn't as if she didn't intend to change the topic. Daniya's words had made Qin wunian a little embarrassed. He wanted to continue, but he also felt embarrassed, so he instinctively changed the topic.

"No, no, no! We're just letting the people in front clear the way for us. Don't worry, we'll definitely get the most benefits in the end. Don't you think so, Sima?"

"Whatever you say. I don't care if others believe it or not, but I do!"

Lin Yi replied with a smile and nodded at Qin wunian, telling her not to take it to heart.

The three of them didn't say anything more. Climbing the starry stairway wasn't difficult, but the tests set up on each level were really unexpected, and it was hard to say how much time it would take.

Lin Yi kept the formation disk and walked into the tunnel first. Daniya and Qin wunian held hands and followed closely behind.

The third level of the astral stairs returned to its gravity mode, but the gravity was more than twice as strong as the first level's 99 steps.

If Qin wunian was still at the beginning stage, it would be rather difficult for him to face this level of gravity. It would be good enough if he could climb up to the sixty-sixth step.

Now, there was no pressure at all. With the strength of the peak of the middle stage of earth creation, they could easily deal with the increase in gravity on the third floor. The three of them consciously increased their speed, and they were much faster than when they were climbing the second floor.

The thirty-third and sixty-sixth steps weren't too difficult, and there weren't any practitioners who stayed behind. Lin Yi's group passed without any obstacles and reached the Ninety-eighth step smoothly. One more step and they'd be on the final test platform of the third level.

"Sima, why do I feel that the difficulty of the third floor is not as high as the second floor? No wonder those guys in front were so fast. I didn't see anyone along the way. It seems that they have already entered the fourth floor!"

Daniya smiled with a relaxed expression, "or should I say, this is the difficulty level of the first few levels?" We were delayed by those guys! For example, when facing the Star Beast, if no one made trouble, it would be easy and pleasant to clear the game. "

"Maybe, but we can't be too careless. There are ninety-nine steps up there. We don't know what will happen on the third step. Don't be too relaxed!"

Lin Yi said, but he didn't really think much of it-the third floor really wasn't as hard as the second.

Qin wunian didn't have much to say. She was just a newbie who had been carried and won the entire time, so she didn't have the right to express her opinion. If she had to say something, it felt great to be carried by a Big Shot!

If possible, he hoped to be able to wave flags and cheer for the big shots on the side, giving them likes and shouting 666!

Just as the three of them were about to step onto the Ninety-ninth step, the fifth level of the star Cloud tower lit up in their omniscient view!

The person in the lead had expanded his lead once again-he passed the fifth floor and entered the sixth floor. Lin Yi's heart couldn't help but grow heavy.

It was too fast!

Right now, was the one at the forefront a human expert or an expert from the darkness demon beast clan? Had the reward they received been converted into strength?

To be able to clear the instance so quickly, did he rely on strength or luck?

Daniya went silent as well, exchanging a look with Lin Yi before stepping onto the Ninety-ninth step!

Now was really the time to catch up!

There were indeed other people on the Ninety-ninth step-this was the first time the three had met other martial artists since entering the third level.

Lin Yi scanned the room-there were thirteen practitioners in total, spread out in three different directions. In the center was a sphere that was lit up, illuminating the entire platform like a star.

If he didn't guess wrong, these thirteen ancient martial art practitioners came from the other three directions of the starry stairs. The platform at the end of each level would gather the ancient martial art practitioners from the four starry stairs.

After entering the next level, he might be automatically assigned to another four stairways-no wonder Lin Yi didn't see anyone along the way. The difficulty wasn't high, but being split up by the other stairways was another.

After stepping onto the Ninety-ninth step, Lin Yi only had time to see the situation clearly before the stars shifted and a huge change happened.

Daniya and Qin wunian disappeared without a trace, leaving Lin Yi standing alone in the dark tunnel. At the same time, he received a message from the star Cloud tower.

Similar to the first level, if one wanted to pass the third level, they would have to act alone.

The platform at the top of the third floor had turned into a maze, and the maze would only be activated when people from all four staircases came up. Before Lin Yi's group arrived, the people from the other three staircases had already arrived.

As a result, the labyrinth was activated the moment the three stepped onto the Ninety-ninth step.

Chapter 9147

The third floor's final test didn't have any requirements on the number of people, it only required all four sides to gather. At the beginning, everyone would randomly appear at a certain point in the labyrinth's outer area.

In ten minutes, he would find the correct path to the core and enter the fourth floor!

The labyrinth would collapse once every 30 seconds, and every time it collapsed, it would be in the outermost area. If someone did not leave the collapsed area in time, they would be annihilated along with the area!

He wouldn't be teleported out of the star Cloud tower. He wouldn't fall from the first step and start all over again. He would truly die!

The star Cloud tower revealed its bloody fangs. This might be its warning. If one wanted to obtain the benefits of the star Cloud tower, they had to be prepared to give up their lives at any time!

Fortunately, it didn't kill everyone. Within three seconds before the collapse, a safe spot would appear in the area. Those who entered the safe spot could choose to leave the maze and the star Cloud tower, or they could choose to continue taking the risk.

There was an 80% chance that the safe spot would be intact in the collapsed area and send the people inside to the safe area. The remaining 20% chance proved that staying at the safe spot was not really safe and would still lead to death ...

There would only be one safe spot in the annihilation zone, and the safe spot could only allow one person to enter. If there were two people together, one of them would definitely be greeted with death.

Other than the time limit of the star Cloud tower, the martial artists in the maze were also a source of danger. The star Cloud tower encouraged martial artists to kill each other. Every time they killed a martial artist, they would receive a prompt on the correct direction to go.

Those were the general rules, and Lin Yi couldn't help but sigh after he understood. Daniya wasn't a big problem, and her strength was destined to be the Hunter in the maze.

As for Qin wunian ... Even with the huge increase in strength, she was still a newbie at the peak of the mid-stage of earth creation. Lin Yi had taken a quick look and was sure that none of the people on the other three stairways were lower than the early heaven-breaking realm!

Qin wunian was the lowest level of prey!

Lin Yi was in a dark tunnel, and there was nothing behind him. This wasn't the right path, and the tunnel split into five paths after about ten steps.

The divine sense he released couldn't extend too far. At the fork, it was restricted by the power of the stars. It was obviously impossible to rely on his divine sense to control the situation and find the right way.

Lin Yi's body flashed and appeared at the fork in the road. The Maze's countdown had started, and there were still twenty-nine seconds until the first collapse of the outer area!

The correct channel ... One of the five?

Lin Yi wanted to say that he'd choose all five!

Wood forest thousand transformation!

The five clones turned into lightning arcs and charged into the five paths. With the clones and the lightning movement technique, he had both speed and numbers. How could a maze stop Lin Yi?

Lin Yi's original body stood at the junction, waiting for the clones' results to come back ... In just one second, all five clones were destroyed!

Eh? What was going on?

Lin Yi frowned and understood that the star Cloud tower didn't give him the chance to use his clone!

Was it because he had suffered a loss from the clone, so he was using it now? Could the star Cloud tower patch itself?

Since he couldn't use his clone, he had no choice but to go into the tunnel and find the right path.

Lightning movement ... After 30 meters, Lin Yi broke free from the lightning arcs. The star Cloud tower even banned lightning movement!

The fork could still be used at this point, but if he continued forward from this point, he would not be able to use the Thunder escape technique.

Lin Yi smiled bitterly, feeling like he was being targeted by the star Cloud tower!

So what if he couldn't use it? super limit butterfly microstep should be fine, right?

With a huge amount of pure Qi and a super strong body, Lin Yi activated his super limit butterfly micro steps to his heart's content. His speed wasn't as fast as before, leaving a trail of afterimages in his wake as he swept through the tunnels, leaving a mark on each path he passed.

Repeat, go in circles, eliminate ... Lin Yi didn't even know how much distance he'd covered in thirty seconds, but he was sure that he was on the right path!

The area where the first collapse happened was right where Lin Yi had passed. Looking back, the paths had turned into nothingness.

At the same time, Qin wunian, who Lin Yi was worried about, had also successfully avoided the first collapse. Her strength may be low, and her speed couldn't be compared to Lin Yi 's, but she was lucky!

After Qin wunian entered the Maze's tunnel, he chose a path based on his senses and ran with all his might. When he passed the next path, he still followed his senses. He didn't know if he had taken a detour, but when the tunnel finally collapsed, he was less than five meters away from the edge!

"That ... That was close ..."

Qin wunian couldn't help but wipe away his cold sweat. Looking at the empty space behind her, she turned around and continued running. Thirty seconds later, the labyrinth collapsed again. She had no time to stop and rest.

"What do we do, what do we do? I need to find Sima Zhong da and Daniya! I'm panicking ... Where could they be? How can I find them?"

Qin wunian mumbled to himself as he ran, tears almost falling from his eyes. When she reached the Ninety-ninth step, she also saw the martial artists in the other three directions.

Thirteen seemingly super powerful experts!

Although she had advanced to the peak of the middle stage of earth-splitting, she still couldn't see through the strength of a heaven-breaking cultivator. She couldn't see through any of the 13 cultivators ... She would die if she met any of them!

Without Lin Yi and Daniya by his side, Qin wunian was really panicking!

He said that two big bosses would take her flying, but why was she the only one who was let go in the end?

Qin wunian's mind was filled with the thought of finding Lin Yi and Daniya. His feet were running on instinct, not even considering which path he should take. Whenever he encountered a fork, he would follow his instincts.

If Lin Yi could see this scene, he would definitely think that Qin wunian was the chosen one of the star Cloud tower. To be able to escape unscathed, he was definitely a cheater!

As for the last of the trio, lady Daniya's luck wasn't bad either. The area she was in didn't encounter the first collapse, and after the first thirty seconds, she encountered the first lost sheep in the maze.

Of course, when that lost sheep saw Daniya, she also felt that she was the lost sheep in the maze.

"Hahaha, you're quite lucky. Little girl, come over and submit to me. I'll bring you out of this maze, how about it?"

This tall and sturdy lamb immediately revealed a lecherous smile when he saw Daniya, and hooked his finger at her, "Seeing that you're this Lord's type, this Lord won't kill you in exchange for the correct path. Why aren't you quickly coming to kneel and lick this Lord's boots?"

Chapter 9148

Daniya raised her eyebrows and pursed her lips, forcing out a strange expression. "Since when does the prey dare to be so arrogant? A little lamb showing its teeth at a Tiger or leopard, do you think you're not dying fast enough?"

"Hehe, little girl, you're quite interesting. It's fine, this Lord likes to conquer fierce horses like you. Time is of the essence, don't delay! If you don't come over, this Lord can go over!"

The brawny man, lamb, laughed as he charged at Daniya, his aura at the peak of the middle heaven breaking stage fully released. In the labyrinth, he could be considered one of the people with the highest strength.

It was a pity that he couldn't see through Daniya's strength because she had concealed her aura. She didn't look that strong. The burly man felt that in the star Cloud tower, the strong would only release their aura to intimidate the enemy. Only the weak would deliberately conceal their aura, and even dream of making others feel that they were unfathomable.

So after Daniya concealed her aura, the brawny man really treated her as a rookie and rushed over without any scruples.

However, he did not let his guard down. How many simple people could come here? The brawny man looked reckless, but he had already made a killing move!

The idea of capturing Daniya alive was just a thought!

Every 30 seconds, an outer area will collapse. If you don't find the right way to enter the core of the platform after the 10-minute countdown, everyone in the maze will be crushed and annihilated!

How could the burly man joke around with his life at this time? It must be a hint to prioritize killing to obtain the correct path! Other than his flowery mouth, he had said those words to numb Daniya's vigilance!

"Hahahaha, are you in a hurry to die? Fine, this great aunt is very happy to fulfill your last wish!"

Daniya laughed without restraint. If a peak middle-stage heaven breaking expert ran with all his might, she might not chase after him. After all, this was a maze, and they could lose track of him at a corner.

In addition to the area collapse that occurred once every thirty seconds, if she chased after the other party, it was very likely that she would lose her life. Daniya didn't think that her strength at the great circle of heaven Sundering would be enough to resist the killing of the Nebula tower.

Now that the stronger looking lamb had delivered itself to her door, Daniya would naturally accept it with a smile!

Both of them were laughing and in an instant, they were within reach. Daniya's aura burst out and her slender palm easily penetrated the burly man's attack, easily and happily grabbing his throat.

The brawny lamb's smile immediately stiffened and shattered, replaced by boundless fear. His pupils contracted sharply, and he opened his mouth to say something, but he could only squeeze out a few wisps of weak breath from his throat, barely making a muffled sound.

He finally understood that he thought he was awesome, but he was just bragging. He thought Daniya was bragging, but she was really awesome!

Unfortunately, he realized it too late. With his fate locked in his throat, his fate had already come to an end!

Daniya didn't have a good impression of any human other than Lin Yi, and Qin wunian only became close to her because of Lin Yi.

Daniya didn't have the slightest hesitation or pity for a mere sacrificial lamb. Her fingers gently closed, and his neck made a crisp sound before it powerlessly fell to the side.

Daniya casually took the storage equipment from the burly man. A peak of the middle stage of heaven breaking should have some good things on him, right?

After taking the spoils of war, he didn't have time to look at it carefully. He casually waved his hand and threw his burly body aside like garbage. He raised his eyes and looked at the fork in the road not far away.

Out of the five Forks, the second one on the right lit up with a faint Starlight. This should be the prompt he got after killing someone!

The corner of Daniya's beautiful mouth slightly curved up, and the tip of her nimble tongue gently stretched out, sweeping across her red and plump lips. Coupled with her slightly narrowed eyes, it formed a demonic yet fatally seductive smile.

In the next second, Daniya had already entered the fork with the hint, and was running towards the next area.

Ten seconds later, the area began to collapse, and the brawny man's body disappeared without a trace, as if he had never been there.

Lin Yi's group of three all used different ways to move forward safely-they didn't know when they'd meet again, but at least they all survived.

Four minutes after the start of the maze, the eighth region had just collapsed, and Lin Yi could already feel the maze shrinking!

No matter what shape the maze was in, the result of the collapse of the outer area was naturally that the area shrank rapidly, and in the end, only a small piece of land was left in the core.

Lin Yi had pretty much figured out the pattern of the maze by using his super butterfly micro-steps-it was like a mosquito coil, going in circles. The middle wasn't as smooth, of course, but that was the general direction.

With such a direction, it was naturally much easier to walk. In fact, the shortest distance was definitely a straight line between two points. Unfortunately, the straight line was a dead end or a detour that was even more dead-end than a dead-end.

Lin Yi wasn't strong enough to force his way through the star Cloud tower's dead end, so he could only follow the path he'd found.

If he followed the correct path, there should be a high chance of meeting Daniya and Qin wunian, right?

Lin Yi's heart was filled with such hope, and then he really met Qin wunian!

"Don't waste your time here! It's almost time for the region to collapse again. If you stay here, we'll die together! There's still time to leave now!"

Qin wunian's voice sounded like he was about to cry. Clearly, he had been caught by someone.

Lin Yi's consciousness was limited, and he could only rush in the direction of Qin wunian's voice. In this maze, anyone was countless times stronger than Qin wunian-if she was caught, she would be dead for sure.

Lin Yi was surprised that she could still talk. Could it be that the person who captured her didn't plan to kill her now and wanted to kill her next time?

If that person had encountered Qin wunian and killed someone earlier, it was indeed possible for him to keep Qin wunian alive for the time being. Since they already had a guide, it would be more meaningful to keep Qin wunian alive and kill him after the guide was over.

"Don't put up any unnecessary resistance. We're all short on time. Your item is really good, but it can only save you for now. If you follow me now, you might be able to live!"

Qin wunian's voice was followed by a cold male voice. Lin Yi only understood after hearing it-Qin wunian must have had some sort of life-saving trump card that blocked the killer move!

After all, she was the young lady of the Qin family's direct line of descent. During her exile, she still had a rich Foundation. It was not strange for her to have a few life-saving cards on her!

#### Chapter 9149

After understanding this point, Lin Yi used all his strength, his super limit butterfly micro steps almost catching up to the speed of the lightning escape technique, hoping that he could save Qin wunian's life!

"My companions are the strongest of the 36 heavenly stars in the ancient times, the Tianying star and the Tianhui star. If you dare to attack me, they will definitely find you and kill you! They'll be here soon, you'd better run!"

Qin wunian's voice was trembling. He had no choice but to use Lin Yi and Daniya's nicknames to intimidate people. Whether they could intimidate them or not, they couldn't lose in terms of aura!

What if the other party was frightened? That's hard to say!

"I don't care if you're a Big Dipper or an iron tank. I'll take your head!"

The cold male voice was unmoved, as if he did not care about the name of the thirty-six dippers."If there's a next life, remember not to go to places you can't play! This place is really not suitable for a rookie like you!"

Before he could finish his sentence, Qin wunian cried out in surprise. At the same time, there was a crisp explosion that sounded like something was being peeled off. Clearly, the tool that she relied on to save her life had been broken!

Lin Yi's hair stood on end as he finally caught sight of the panicked Qin wunian and the black-robed man opposite him.

The black-robed man's finger casually pointed at Qin wunian's forehead. Without his life-saving defensive item, the wind from the tip of his finger was enough to pierce through Qin wunian's forehead.

Lin Yi's speed had already exceeded his limit, and he couldn't increase it by even an inch. According to the current situation, he wouldn't be able to stop the black-robed man from killing Qin wunian!

"How dare you rats! Watch my sword!"

Lin Yi's tongue was like spring thunder as he spat out a mouthful of Qi, which was wrapped in his shout. At the same time, he activated his spirit sense to collide with the sword and sent it flying out of his hand!

With the butterfly steps at full speed and the momentum of Lin Yi's throw, the sword was faster than lightning!

The black-robed man's heart was filled with warning signs. He instinctively withdrew his hand and retreated. The demonic devouring sword brushed past the tip of his nose, causing him to break out in a cold sweat. If he had been a second too late and had not taken half a step back, his head would have been pierced through!

As for Lin Yi's spirit sense attack, it didn't have much effect. The spirit sense defensive items worn by heaven breaking cultivators weren't low level. Even Lin Yi and Wu Linghai's spirit sense attack couldn't easily break through it.

Unless Lin Yi could get rid of the suppressed star power in his sea of consciousness, he might be able to rely on the strength of his Wuling sea to break or even ignore the opponent's spiritual defense.

Even so, the black-robed man was already scared out of his wits. He didn't dare to continue targeting Qin wunian, quickly moving a few steps in the direction of the sword before turning around to face Lin Yi.

Lin Yi had already appeared by Qin wunian's side, pulling her behind him to protect her.

"Sima Zhong da! That's great! I knew that you would appear in time to save me!"

Qin wunian's face was covered in tears, laughing and crying at the same time. This feeling of escaping death was too exciting, and she didn't want to experience it again!

"Are you alright? Don't worry, I'm here, no one can hurt you!"

Lin Yi didn't turn around, consoling him in a low voice as his eyes locked onto the black-robed man. "Your Excellency is bullying the weak. As a heaven breaking cultivator, don't you feel ashamed to deal with a girl at the earth opening stage?"

"Little brat, you want to be the hero saving the beauty? He should also weigh his own strength! In the star Cloud tower, there is no such thing as the strong bullying the weak. Being weak is an original sin, and you deserve to be killed!"

The black-robed man saw that Lin Yi's strength was only at the sea Rift realm and was instantly embarrassed and angry. He was almost killed by a sea Rift realm cultivator's sneak attack, which was a great humiliation to him!

He didn't say much and directly attacked!

Lin Yi reached out his hand and tried to pull the sword back. At the same time, he wanted to sneak attack the man from the back. He didn't expect the man to have his eyes on the sword.

When the black light shot back, the black-robed man turned his body slightly and reached out to grab the demon devouring sword. A huge amount of energy burst out, blocking Lin Yi's suction force.

"Hehehe, you want to play tricks in front of me with such a small trick? Without your weapon, what other tricks do you have?"

The black-robed man laughed coldly and continued to pounce on Lin Yi and Qin wunian, trying to kill Lin Yi in the shortest time possible. As for Qin wunian, he could just take him with him and kill him when he needed to!

Lin Yi's lips curled up as he smiled. "Who said I don't have any weapons? But why would I need a weapon to deal with someone like you?"

As he spoke, the Super pill fire bomb that had already taken form in his palm was sent to the black-robed man!

In fact, Lin Yi only raised his arm and stretched it forward, his body didn't move at all. It was the black-robed man's speed that was so fast that he rushed to Lin Yi's palm, as if he couldn't wait to hit the Super alchemy bomb.

In the secular world, this kind of behavior was called Pengci!

The black-robed man's expression changed drastically. Blacksmiths would only obtain benefits while ensuring their own safety. If they couldn't guarantee their own safety, they would be courting death, not blackmailing.

Of course, the black-robed man didn't have any intentions of scamming. He was aiming to kill Lin Yi, but the terrifying ball that was getting bigger and bigger in front of him made him feel like his soul was about to fly out of his body!

It was dangerous!

It was even more dangerous than the sneak attack from the demonic devouring sword!

The black-robed man forcibly stopped his forward momentum, and the bone armor All over his body made a crisp cracking sound under the inertia. At the same time, a Black Shield appeared in his hand in an instant, blocking his entire body behind him.

The Super bomb hit the shield as expected, and Lin Yi could've dodged the shield at the last minute, but he didn't think it was necessary.

Lin Yi didn't care much about a shield-even if it was a mountain, a super alchemy bomb would have enough power to blow it up!

With a loud boom, the shield indeed couldn't withstand the power of the Super alchemic bomb. It exploded into pieces, and fragments flew everywhere. However, the black-robed man behind the shield was completely unscathed. He was only forced back fifteen or sixteen steps before he could stabilize his body.

Lin Yi was a little surprised-that unassuming Black Shield blocked the Super pill fire bomb? Although the shield was destroyed, it protected the black-robed man. The shield had successfully blocked the Super alchemy fire bomb.

The black-robed man was shocked. His shield could block more than a dozen attacks from experts of the same level. It was one of his life-saving trump cards. He didn't expect that it couldn't even block one attack from a mere sea splitting stage warrior!

The power of this attack ... Was too strong!

The black-robed man wanted to retreat. Without saying a word, he turned around and ran.

Chapter 9150 The Power Of The Devil

Lin Yi's face changed-they were already off the right path, and they were at the edge of the outer area-they could collapse at any moment!

It didn't really matter if he killed that guy or not-he wasn't from the dark Demon beast clan, so he didn't have to kill him. What Lin Yi wanted to do now was to bring Qin wunian to the right path, away from the dangerous areas.

The problem was that the idiot was still holding onto Lin Yi's demonic blade!

Lin Yi couldn't easily retrieve the sword from a mid-stage heaven breaking expert, and he had no choice but to give chase.

"Come with me, don't resist!"

Lin Yi couldn't be bothered to say anything else. He grabbed Qin wunian's wrist and whispered a few words before activating his super limit butterfly microsteps again, chasing after the black-robed man like lightning.

With a whoosh, Qin wunian floated up-he really did float up. Both his legs left the ground and he was lifted into the air. Lin Yi was holding onto one of his arms, and from afar, it looked like Lin Yi was holding onto a banner ...

Chaos in the wind!

It wasn't just his mood, his entire being was in a state of chaos. Qin wunian wanted to say that he couldn't resist even if he wanted to ... But the moment he opened his mouth, all he could say was wind. What the hell was he supposed to say!

The black-robed man didn't forget to pay attention to Lin Yi as he ran-he was shocked by Lin Yi's speed and shouted,""Don't chase me! There's not much time left, so there's no need to stay here ..."

He wasn't as fast as Lin Yi to begin with, and the moment he opened his mouth, his breathing became chaotic, and his speed dropped even more. There was no way he could escape.

Lin Yi had already formed another super alchemy bomb in his palm. He didn't have much time left-he had to finish him off in one move!

Seeing that he could not escape, the black-robed man simply swallowed the words he had not finished speaking. He gritted his teeth and turned back, accumulating power and waiting to be released, putting on a posture of either the fish dies or the net splits.

Just as the two sides were about to collide, a warning from the star Cloud tower suddenly rang in their minds, warning them that the area they were in was about to be annihilated!

The only safe spot had appeared, and it was the last three seconds before the annihilation!

Three!

The black-robed man almost went crazy. He had no idea where the safe zone was, and it was obviously unrealistic to leave the dangerous zone in three seconds!

However, there was a hint for the safe spots. The star Cloud tower had given everyone in this area a chance of survival. They didn't have to run around like headless flies in the last three seconds to find a safe spot!

The safe spot was about 300 meters away from where the three of them were. For a heaven breaking expert, it would only take a flash to reach it. However, this was a maze, and there were not only many turns, but also countless forks. 300 meters was definitely not a distance that could be crossed easily!

"Get lost!"

The black-robed man yelled as he swung the demonic blade at Lin Yi, sending out the attack he had been preparing.

When he had first obtained the demonic devouring sword, he had felt that it was an extraordinary sword, so he had wanted to poach it. Now, in order to save his life, he would throw away ten or twenty swords, let alone one!

Two seconds!

After doing this, the black-robed man turned and ran, not caring about the result at all. He didn't care about Lin Yi's pursuit anymore. If ran ran didn't run, everyone would die Here!

The safe spot was the closest to the black-robed man, and he wanted to use the demonic blade and that attack to slow Lin Yi down, giving him the chance to enter the safe spot in the last two seconds!

After that, Lin Yi and Qin wunian would be completely annihilated by the star Cloud tower along with the entire area!

Lin Yi's face was as calm as water, a cold smile on his lips. He didn't slow down at all, pulling Qin wunian closer and closer to him like a fleeting shadow.

The demonic blade was no longer under the black-robed man's control. When it got close to Lin Yi, Lin Yi kept it in the Jade space without any obstruction.

As for the black-robed man's sudden attack, Lin Yi didn't even look at it. He simply dodged it.

The Super pill fire bomb in his hand accelerated and shot out, turning into a super pill fire missile. It caught up to the black-robed man in an instant and exploded behind him.

The black-robed man sensed the danger, but unfortunately, he had already lost his life-saving shield. This time, he didn't have a life-saving trump card. He tried his best to Dodge, but he couldn't. He screamed and was knocked down by the Super alchemy fire missile.

Although he was not dead and still had one breath left, he had lost all ability to move and resist.

Lin Yi pulled Qin wunian and dashed past him without even looking at him. This guy was already dead. When the Nebula tower reached its destruction zone, he would be turned into dust!

With Lin Yi's speed, finding the safe spot wasn't a problem, but he couldn't bring Qin wunian back to the safe zone. Predicting the correct path didn't mean that he was sure of the safe zone!

This was because all the regions that had been annihilated had the correct path!

Lin Yi wasn't sure if he'd be able to avoid the area of destruction if he went back to the right path, so the only thing he could do now was to get to a safe spot!

The last second!

Lin Yi pulled Qin wunian's banner and found a safe spot. That thing that looked like a small black hole was the only chance of survival in the annihilation zone!

"Sima! You ..."

Qin wunian's brain hadn't yet recovered from the rapid movement, and when he realized that Lin Yi had thrown him into the safety point, he screamed out in shock. Unfortunately, before he could finish his words, the small black hole-like safety point had completely closed!

She didn't think and didn't dare to imagine that Lin Yi would send her to a safe spot!

The area outside was about to be annihilated! If the star Cloud tower made a move, there was no way they would survive!

Normally, shouldn't Lin Yi go into the safe spot himself and leave her outside? He had already done all he could to save her from the black-robed man!

Qin wunian couldn't understand Lin Yi's actions. In the end, all she saw was a warm smile on Lin Yi's face. Tears instantly poured out of her eyes, but they were soon engulfed by endless darkness!

Was Lin Yi really sacrificing himself for someone else?

Of course not!

It wasn't that Lin Yi didn't know how to sacrifice himself to save others-he wouldn't mind sacrificing his own life to save his own comrades, but this time it wasn't!

Qin wunian would definitely die if he stayed in the area, but Lin Yi might not!

In the last half a second, the star undying body was activated!

It was an invincibility skill that could only be used once on each floor, and Lin Yi hadn't used it yet since there weren't many people or dangers on this floor.

It was just right now!

The indestructible star body was said to be invincible for 30 seconds. As long as the star Cloud tower was not destroyed, the indestructible star body would never be destroyed!

The area of effect annihilation was also a killer move of the star Cloud tower. Lin Yi wasn't sure who would have a higher priority if the two met.
