

Bodyguard 9151

Chapter 9151

The sharpest spear met the strongest shield ... This was the star Cloud tower's version of using the spear to attack the shield!

Even after using the indestructible star body, Lin Yi still didn't dare to be careless. He couldn't completely rely on the rules of the tower-what if the area annihilation had a higher priority than the indestructible star body?

For safety's sake, Lin Yi's essence spirit entered the Jade space, leaving only his body with the undying star body to withstand the destructive force of the pagoda!

The star Cloud tower was too strong, and Lin Yi's spirit didn't want to take the risk. After all, the power of the stars was harmful to the spirit as well, and he could at least rebuild his body if he hid in the Jade space!

It didn't end up in the worst case scenario-after activating the star undying body, the Nebula tower's destruction zone directly bypassed Lin Yi's body, just like in a game where people from the same camp were immune to attacks.

That area was completely turned into nothingness, leaving only Lin Yi's body, which was an eyesore. The destructive power of the Xingyun tower pushed Lin Yi's body out, sending him to the nearest safe area.

Lin Yi saw this scene in the Jade space. Although he expected it, he still let out a breath of relief. Being able to keep this strong new body was many times better than thinking of ways to rebuild it!

His primordial spirit returned to his physical body and suppressed the slight agitation of the power of the stars.

He'd already reached the third stage of the chant, but it wasn't enough to draw out the power of the stars from his body and spirit yet. Lin Yi estimated that he'd be able to solve this problem when he reached the next stage.

"Sima Zhong da!"

Qin wunian's excited voice rang out beside Lin Yi. ""That's great, you're not dead! I thought you were dead! I thought you were dead! Waa ..."

Qin wunian burst into tears as he reached the end of his sentence, throwing himself into Lin Yi's arms. Lin Yi didn't know what to do, and could only Pat her on the shoulder to comfort her.

"Why are you crying? We're all fine, isn't that great? It's something to be happy about!"

Lin Yi tried to comfort Qin wunian with a gentle voice, but Qin wunian cried even louder. "I thought you were dead! I thought you had sacrificed yourself to save me! I almost didn't want to live anymore ..."

Perhaps she was really excited, or perhaps she had too many grievances in her heart, and she wanted to take this opportunity to vent them.

Lin Yi was a little embarrassed, not knowing how to deal with the situation. The time limit of the undying star body wasn't over yet, but even such a powerful undying star body couldn't do anything about this.

"Alright, alright. We have to leave this place quickly. If we wait any longer, we might have to face another region's annihilation!"

Lin Yi could only bring out the threat that was right in front of him to warn Qin wunian. If this happened again, one of them would die for sure. After all, the indestructible star physique could only be used once per level.

"Right! Let's hurry up and leave!"

Qin wunian came back to his senses. She didn't want to go through another life and death experience. After quickly escaping from Lin Yi's embrace, she realized that her actions just now were a little inappropriate.

Qin wunian's charming face flushed slightly. Finally feeling a little embarrassed, he lowered his head and walked away without looking in the direction he was heading.

Lin Yi took a moment to make sure that Qin wunian was heading in the right direction. He didn't say anything and followed.

"Sima Zhong da, the next time this happens, you have to take care of yourself first ... I ... I'm just a burden. You've saved me, and I can't survive in the star Cloud tower alone ..."

Qin wunian lowered his head and walked in front, speaking in a low voice, ""I'm very grateful that you risked your life to save me ... But I don't want this to happen again!"He said.

"Alright, I'll remember that!" Lin Yi said nonchalantly.

Qin wunian was stunned. Why was this different from what he had imagined? Shouldn't you say something more touching? For example, I will never abandon my companions ... What the hell do you mean by 'I remember'?

Although it was Qin wunian's own request, Lin Yi's acceptance of it so easily still gave him a strange feeling. He didn't know whether to laugh or cry!

Lin Yi replied casually. He didn't think much of it-he'd think about what to do next time.

Lin Yi was more interested in Qin wunian's non-stop walking as if he knew the correct path.

One had to know that Lin Yi only managed to deduce the correct route because he used his pure energy to cover all the forks with his extreme butterfly micro steps, and it took him who knew how many rounds to reach that conclusion.

This was a method unique to Lin Yi. Not to mention Qin wunian, even Daniya's strength couldn't achieve this!

"Qin wunian, do you know how to get out of this maze?"

"I don't know!"

Qin wunian was still trying to figure out what Lin Yi meant when he said he remembered her. Would he give up on her next time, or would he remember her but still do the same the next time? He didn't mind Lin Yi's question.

"Then why are you walking so smoothly?"

"Aren't you afraid of getting lost in this area?" Lin Yi asked with a raised brow.

Only then did Qin wunian come to his senses. He immediately stopped and said, ""I'm sorry, I'm sorry. I just felt that this was the right way to go, so I just left ... Sima Zhong da, you should lead the way! You already know how to get there, don't you?"

Lin Yi was speechless. A woman's sixth sense? It was indeed as accurate as the legends said!

To be able to follow his gut in such a deadly maze, Qin wunian was truly lucky!

If she hadn't met that black-robed man, she would probably have been able to follow her feelings all the way out of the maze.

"The route I've deduced is the same as yours. However, in order to speed up, I'll lead the way. If you feel that something's wrong, remind me!"

Lin Yi wasn't 100% sure that his route was correct. What if the star Cloud tower changed their route? This kind of trick might appear, and with Qin wunian as a human-shaped walking radar, it was an extra layer of insurance.

Qin wunian's speed was too slow, but it was enough for the correct path. Lin Yi didn't plan to drag her along like a human banner anymore, and the two of them ran through the maze at Qin wunian's maximum speed.

After seven turns, there were two heaven breaking cultivators in front of him. Lin Yi remembered that they were on the same path, and they should be companions.

To be able to meet a companion in the labyrinth was a pretty good fortune, just like how Qin wunian met Lin Yi.

At this time, almost twenty-two seconds had passed from the thirty second interval, and a new area would be destroyed soon. The two heaven breaking experts were hesitating at the fork in the road, and their eyes lit up when they saw Lin Yi and Qin wunian!

The speed was so slow!

Two rookies who just gave their heads away!

The two heaven breaking cultivators attacked at the same time, one capturing Qin wunian and the other killing Lin Yi.

Chapter 9152-

Qin wunian's strength was too low. In the eyes of a heaven breaking expert, an earth splitting expert was no different from a defenseless infant. He could wait for the next time to kill Qin wunian after he was controlled.

It wasn't that they couldn't capture Lin Yi, who was only at the sea splitting stage, but he was definitely much more dangerous and troublesome than Qin wunian, who was only at the earth opening stage. Therefore, there was no need for them to hesitate or communicate. Lin Yi was their target.

"Isn't it good to live? Why must you seek death?"

Lin Yi sighed with a frown. He'd figured out the correct path, and with Qin wunian's sixth sense or unparalleled luck, there was no need to kill people to find the path.

If these two were smart enough to follow Lin Yi and Qin wunian, they would be able to walk out of the maze easily. Lin Yi didn't mind them taking advantage of his discovery.

Unfortunately, their hostility was too strong, and they were not even willing to talk much. They came up to kill. This was their own death, and they could not blame anyone else!

Lin Yi was still in the 30 seconds of invincibility effect of the undying star body, and he didn't try to Dodge the attack. He took out the demonic devour sword and stabbed it at the throat.

In theory, Lin Yi's attack speed was too slow, and it looked like a meaningless struggle before death. The opponent would kill Lin Yi first, and the demon devouring sword would stop halfway, ending the attack.

The heaven breaking practitioner was confident that Lin Yi wouldn't be able to hurt him. In a fight between Masters, a slight difference was a thousand miles away, not to mention that Lin Yi's demonic devouring sword missed him by a few meters. What was there to be afraid of?

And so, this confident heaven breaking cultivator didn't put up any defense either, determined to kill Lin Yi first and then watch the demonic devouring sword fall powerlessly in front of him.

As expected, his attack hit Lin Yi first, but the scene of a one-hit kill didn't happen. Lin Yi's body was covered in Starlight, and his attack, which could easily kill an early heaven breaking expert, didn't even lift Lin Yi's clothes!

The star undying body!

30 seconds of invincibility!

During the invincibility period, Lin Yi's clothes were also indestructible-he would live and die with the star Cloud tower!

How could an attack from a mere heaven breaking cultivator possibly shake the star Cloud tower?

The dazzled heaven breaking cultivator was stunned. He instinctively wanted to withdraw his attacking arm, but found that his arm seemed to have fallen into an endless black hole. A huge suction force wrapped around his arm, not allowing him to withdraw at all.

His miscalculations and accidents caused him to be delayed many times, and it was only when the black light bloomed in front of him that he realized that Lin Yi's demonic devour sword was already in front of him!

Originally, there was still a difference of a few meters, but now it was really just a millimeter!

"No!"

He roared in horror, but it was already too late for him to react. The sharp tip of the demon devouring sword pierced his throat, cutting off the rest of his words!

Lin Yi didn't pay much attention to the dead guy. With the indestructible star physique, his death was certain the moment he made a move. On the other hand, the other martial artist who wanted to capture Qin wunian seemed to be a bigger threat. After all, Qin wunian had already used up his trump card.

She didn't have the star undying body, so she would be easily injured.

So after Lin Yi stabbed out with the demonic devour sword, he pulled her behind him and turned his body slightly to block the attack from his opponent, blocking the other practitioner's attack.

Lin Yi let go of the sword hilt as the demonic blade pierced through his opponent's throat. A Dragon-shaped killing intent of the five elements and Eight Trigrams appeared in his palm.

It was still the same routine. The star indestructible body was a bug-level skill. While completely ignoring the opponent's attack, it would seize the flaws created to launch the most incisive counterattack!

The heaven breaking cultivator was also taken aback-he didn't think that Lin Yi's body could take his attack without feeling anything, and he'd never seen the killing intent of the five elements and Eight Trigrams before.

The Dragon-shaped killing intent roared and rushed into his body, but he didn't have time to react. His body was extremely strong, and his body cultivation had reached the heaven breaking stage. Ordinary attacks might not be able to break through his body's defense.

However, the killing intent of the five elements and Eight Trigrams was different from all the other attacks on the sub-Island. It would only burst out with terrifying destructive power after entering his body!

Lin Yi was a heaven breaking practitioner himself, and he knew how to destroy a heaven breaking practitioner's body like the back of his hand. Using the killing intent of the five elements and Eight Trigrams when the opponent was unprepared was like planting a bomb in the body of a practitioner who practiced the Golden Bell iron Shirt!

The outcome was already decided, and Lin Yi didn't even bother to look at it!

The fight seemed to have taken a long time, but it hadn't even been a second. From the moment the two heaven breaking cultivators rushed over to the moment they were killed by Lin Yi, it had only been half a second.

In the time it took for a spark to fly off a Flint, the battle had already ended!

Lin Yi grabbed the handle of the sword as if he'd never let go.

The tip of the sword left the pierced throat, spraying a trail of blood in the air. Lin Yi pulled Qin wunian past the two dead heaven breaking cultivators and continued to run through the maze.

After the kill, the correct path appeared, but Lin Yi and Qin wunian didn't need any hints. This was the path they were taking anyway, so the hints were unnecessary.

Qin wunian was a little dumbfounded. She was indeed too weak-she didn't even understand the fight, let alone participate in it. All she knew was that Lin Yi had pulled her behind him, and the two heaven breaking cultivators had died.

Awesome!

Other than that, he really had nothing else to say!

The rest of the journey was smooth-sailing for Lin Yi and Qin wunian. They didn't encounter any other practitioners, nor did they experience another region of destruction. They passed through the maze easily and arrived at the core region, where they saw the star-like sphere.

There were only three minutes left in the labyrinth. Other than Lin Yi and Qin wunian, there was no one else around. If they were not on the fourth floor, then no one had passed.

"Daniya still hasn't come out?"

Qin wunian didn't see Daniya after Lin Yi brought him out, and he was worried.

Although Daniya's strength was incomparably powerful, the might of the Maze's area annihilation was not something that Daniya could contend with! If she was unable to leave the dangerous area when the region was destroyed, it was not impossible for her to die there.

"Don't worry, Daniya can take care of herself. There's still some time, so let's wait for her here!"

Lin Yi consoled. He wasn't really worried about Daniya.

After all, with Daniya's complete heaven-Sundering powers, even if she couldn't find the right path for a while, even if she stopped in a dangerous annihilation area, with her power, she should be able to find a safe spot to hide in at the last moment and not be killed by the star Cloud tower.

As for the other heaven breaking practitioners in the labyrinth ... Lin Yi felt that they'd better pray that they didn't meet Daniya. If they did, they'd probably be dead!

Chapter 9153

"Yes," Qin wunian replied in a low voice, but his eyes were still filled with worry. Even though he had not known Daniya for a long time, they had developed a certain level of friendship along the way.

She didn't want Qin wunian to die in the star Cloud tower, so she sincerely hoped that Daniya could successfully walk out of the maze and continue climbing up with Lin Yi and her.

Qin wunian's prayer seemed to have worked-Daniya walked out of the maze easily after a minute. She smiled and waved at Lin Yi and Lin Yi when she saw them.

"Yo, you two are pretty fast! I thought I'd come out and wait for you, but you've been waiting for me for a long time! If I had known earlier, I would have sped up!"

Qin wunian welcomed her with a smile, 'Daniya, I knew you would come out! We've just come out as well, and we were just around the time you left!"

"Is that so? That's really unfortunate, we must have missed it at some fork!"

Daniya smiled as she held Qin wunian's hand and walked towards Lin Yi. "Sima, why didn't you say that you were going to look for me in the labyrinth? what if I'm stuck there and can't get out?"

Lin Yi's sharp nose picked up the faint scent of blood. It was clear that Daniya had fought in the maze, and it was easy to deduce how she found the correct path.

"I'm very confident in your strength. If you're trapped in the maze, it's useless for me to go!"

Lin Yi smiled and shook his head, waving to the girls. "Let's hurry, we've already wasted a lot of time. "

As he spoke, Lin Yi opened up the passageway to the fourth floor. The three of them received the rewards for this floor as well. Other than more star energy, there was also a chant, which was the continuation of the chant from before.

Lin Yi compared his and his, and there wasn't much difference between the two-it meant that his version was perfect. He didn't know what happened next, but at least the first part was fine.

In fact, he had already verified this point. If there was a problem, how could Qin wunian not have any abnormalities?

Daniya and Qin wunian followed Lin Yi into the tunnel, not planning to stop here for a while. After all, the gap between them and the practitioners at the front was getting bigger and bigger, and Lin Yi was starting to pay more attention to them.

After entering the fourth floor, Lin Yi didn't even have time to use his spirit sense to check his surroundings when the Jade space started sending out warnings like crazy.

A fatal threat!

And it was an all-directional attack-no matter how hard Lin Yi dodged, there was no way he could escape the danger zone!

The star undying body!

Lin Yi activated the life-saving skill that could only be used once per level without hesitation. He couldn't Dodge even if he used spatial flash, let alone the Jade space's danger perception.

Because he had Daniya and Qin wunian behind him!

If Lin Yi dodged, Daniya and Qin wunian would be the first to bear the brunt of the attack. With Daniya's strength at the great circle of heaven-Sundering, her reaction speed was completely instinctive, and she might be able to keep her life under such a threat.

Qin wunian would be killed without a doubt!

So Lin Yi couldn't Dodge!

The Starlight of the indestructible star body bloomed, and seven or eight heaven breaking attacks landed on him, but they didn't move Lin Yi at all.

Qin wunian was right behind Lin Yi, and with Lin Yi's intentional protection, he was completely unscathed. On the other hand, Daniya's strength was outstanding, and when she sensed that something was wrong, her reaction was lightning fast. She immediately moved closer to Lin Yi and got into a defensive stance to the side of Lin Yi, blocking the attacks for him.

The chemistry between the two was at its peak, and Daniya didn't even consider what kind of damage she'd receive if Lin Yi dodged or couldn't block the attack from the front.

Fortunately, with the star undying body, no attack could hurt Lin Yi, so Daniya was unharmed.

After the dust settled, Lin Yi's spirit sense finally had the time to observe his surroundings. The ones who attacked were eight identical martial artists, and because they used their full strength, their auras exposed their identity.

The darkness demon beast clan!

"Interesting! It's really surprising that there's such a strong defensive existence among humans, and he doesn't look too old either!"

"What's even more surprising is that there's actually a Clansman lurking around this human, and his strength is quite astonishing! Do you think this human has some secret to dig out?"

"Ah, will she be affected if she is exposed? It's not good to ruin her plan and mission!"

"Forget it. This human is going to die anyway. No matter what her plan and mission is, I can consider changing it now!"

.....

These eight darkness magical beasts were all speaking in the same voice and tone. If one closed their eyes, they would think that they were all talking to themselves!

Who would have guessed that these words were actually spoken by eight people? However, these eight darkness demon beasts looked exactly the same, and no matter how he tried to tell them apart, he couldn't tell any difference.

Lin Yi frowned. A clone?

He had a lot of experience in using the thousand forest transformations to create clones. When he saw the familiar scene in front of him, he could naturally associate it with the clone.

However, the strength of the thousand changes of wood forest's doppelgangers was one level lower than his main body's. If these eight heaven breaking experts were also his doppelgangers, how strong would his main body be?

"Golden dark shadow Demon?!"

Daniya also clearly saw the opponent who sneaked an attack on her. Her eyes slightly narrowed and she said in a deep voice, "I didn't expect to encounter a high-level golden dark shadow Demon here. I'm really ... Unlucky!"

"Daniya, what's the background of the Golden dark Shadowfiend?"

Lin Yi hadn't heard of the name before, but fortunately Daniya was by his side.

Daniya didn't hesitate and directly replied, "The Golden dark shadow Demon is one of the top races of the darkness demon beast clan, and it has a golden bloodline that is said to be second only to the Royal bloodline. It is extremely powerful, and if it wasn't for the difficulty in reproduction and their low numbers, it would definitely be a pillar of the darkness demon beast clan."

"The Golden Shadow Fiend's strongest skill is shadow 36! A mature golden dark shadow Demon can split into thirty-five clones, thirty-six in total. That's why it's called shadow thirty-six, and the strength of the clones is exactly the same as the original. "

"Not only that, the clone's cultivation will be reflected back to the main body. The clone's experiences will also be transmitted to the main body. Thus, the Golden dark Shadow Demon's growth rate is beyond imagination, and its strength has increased to a shocking level!"

"If a clone is killed, the Golden dark Shadow Demon's original body won't be injured, but it will take some time to create a new one. I'm not sure how long it will take."

Daniya quickly told Lin Yi everything she knew about the Golden dark shadow Demon, giving him a deeper understanding of the enemy.

Chapter 9154

"Golden dark shadow Fiend ... What a troublesome opponent!"

Lin Yi's eyes flickered as he laughed coldly. "You want to deal with us just by leaving behind eight clones? Aren't you underestimating us?"

The invincibility effect of the indestructible star physique wasn't over yet, and Lin Yi didn't want to waste this trump card. As soon as he finished speaking, he turned into a lightning arc and appeared in front of the first Golden Shadow Demon.

His divine sense trembled!

Lightning thousand explosion!

The killing intent of the five elements and Eight Trigrams!

At the same time, Lin Yi split his attention and did a three hit combo!

His spirit sense covered all eight clones-it would be great if it could affect their souls, but Lin Yi wasn't sure if they had any souls. After all, everyone only had one soul, and it was naturally in the body.

Therefore, as a supplement to the shock of the divine sense, not to mention its own destructive power, the numbing effect contained in the lightning was also a very good control method.

The last five elements and Eight Trigrams killing intent was the real killing move. Even if the other party was a heaven breaking expert, he would definitely not be able to withstand the power of it if he was hit directly.

It was a perfect ambush, and Lin Yi expected to kill at least one of the clones instantly, but the result was unexpected!

The deific consciousness shock didn't work, and that was within Lin Yi's expectations. The clone didn't have a spirit, so it was reasonable for it to be immune to deific consciousness shock, but it was surprising that the thousand Thunder burst didn't work!

Countless bolts of lightning struck down, and a dazzling light burst out in this area. The rumbles and explosions seemed to be able to tear the sky apart, but they were no threat to the Golden dark shadow Demon!

The clones of the Golden Shadow fiends turned into eight shadows in the lightning. No matter how the lightning raged, they were still bathing in the lightning.

Of course, they weren't just standing there. When Lin Yi attacked, they attacked him as well, but their attacks were useless in front of the indestructible star body.

The last of the killing intent hit Lin Yi's target, causing it to let out a shrill cry. The damage from the true Qi demigod had pierced through his shadow-like body, dealing considerable damage.

"How is that possible? You can actually hurt me!"

The eight Golden Shadow Fiend clones roared in unison, and the eight shadows combined together like lightning, sharing the damage from Lin Yi!

"Sima, this is the Golden Shadow Fiend's other innate skill, shadowshape. It can last for about two minutes after use, and it can only be used again after an hour." Daniya raised her voice.

"After Shadowform, the clones can merge together and share the damage. Their attack power will also increase by about three times, equivalent to a top-tier battle formation!"

Lin Yi was stunned. It was the best of the best, but there were no signs of a battle formation-there was no way to break it!

The Golden dark shadow Fiend ... Was really powerful!

As expected of the dark golden bloodline, second only to the Royal bloodline of the darkness demon beast clan!

If it wasn't for the indestructible star physique, Lin Yi would've been killed in an instant ...

"Traitor! He was actually helping the humans so brazenly and selling out information about his own people! You can't redeem yourself even if you die a hundred times!"

The eight silhouettes cursed in unison. Daniya's actions had clearly angered this Golden Shadow Fiend, and his killing intent was locked onto Daniya without any concealment.

Lin Yi's star undying body was too overbearing, and even with their triple attack power, it was like an ant trying to shake a tree. It wasn't strange that they changed their target to Daniya.

Daniya's heart relaxed. She had originally felt some guilt for completely betraying the darkness beast clan and turning to the humans, but now she had completely let it go!

Or rather, she didn't side with the humans, she only sided with Lin Yi!

When Lin Yi had a conflict with the dark Beast clan, she stood by Lin Yi's side without hesitation. If it wasn't for Lin Yi, she wasn't sure what she would've done in the battle between the dark Beast clan and humans, but she definitely wouldn't help an unrelated human against the dark Beast clan.

"You're the one who should die!"

Lin Yi hmphe coldly and sent out another killing intent of the five elements and Eight Trigrams. The Dragon surrounded the eight shadows, not giving them a chance to attack Daniya.

If it was just Daniya, it wouldn't matter much if she was attacked. Even if she couldn't hurt the dark gold Shadowfiend with her complete heaven splitter's strength, she would be able to protect herself.

The problem was Qin wunian, who was only at mid-stage earth split-a single swipe from him would be enough to kill him. Lin Yi didn't dare let the Golden dark shadow Fiend go over.

Fortunately, the killing intent of the five elements and Eight Trigrams had some restraint on the shadow-formed. They did not have to attack Daniya and Qin wunian without any restraint.

"Kid, don't be too arrogant! Even if that traitor told you about us, what can you do? Just by relying on such a ridiculous thing?"

The ridiculous thing the Golden dark shadow Demon was talking about was the killing intent of the five elements and Eight Trigrams. The eight shadows worked together to bear the damage of the killing

intent of the five elements and Eight Trigrams. In addition, the shadow form itself had the ability to weaken the damage. Although the killing intent of the five elements and Eight Trigrams could hurt them, it was still within the acceptable range.

"Today, all of you will die. Don't even think about running! If you kneel down and beg for mercy now, I can still give you a quick death. If you are stubborn and insist on resisting, then you can only wait to beg for death!"

The Golden dark shadow devil laughed wildly in unison. The eight voices overlapped together, appearing somewhat strange and difficult to understand.

"You're just boasting, aren't you?" Lin Yi sneered * If you have the ability, then hurry up and do it. I really want to see how you can't even die!"

"Then open your eyes and look carefully! Watch how your companion shrieks and begs for death! You won't be able to escape in the end!"

The eight voices overlapped, and it was as if an echo had appeared, rumbling and reverberating in the open area.

Four of the Golden Shadow Fiend's doppelgangers attacked Lin Yi while the other four went around to attack Daniya and Qin wunian.

Even though Daniya was strong, it was difficult for her to escape from the three golden dark shadow Demons. The remaining one could easily kill Qin wunian and then surround Daniya.

The Golden dark shadow Fiend avatars were mentally connected, sharing their attacks and damage. Even Daniya might not be able to deal with the encirclement of four golden dark shadow fiends.

No wonder the Golden Shadow Demon was so confident-even if it couldn't break through Lin Yi's star undying body, it was confident in winning.

"You think you're the only one with a clone?" Lin Yi hmped coldly. I have far more clones than you. What did I say?"

Before he finished speaking, he activated the thousand forest transformation!

Hundreds of Lin Yi's clones appeared in an instant. Although they were only at the sea shattering realm, they had already formed a hundred-man battle formation under Lin Yi's arrangement!

Chapter 9155

A battle formation formed by a hundred Lin Yi's at sea split realm would definitely not be weaker than a single golden dark shadow Demon. In fact, it might even be stronger than the Golden dark shadow Demon!

Each hundred-man formation surrounded a Golden Shadow Demon and bombarded it. Although the clones created by thousand changes of wood forest would be destroyed by strong attacks, they were no different from Lin Yi at the sea-shattering realm.

Hundreds of Dragon-shaped killing auras surged and roared, surrounding each Golden Shadow Demon. Although the damage was not high, there were many of them!

The Golden-dark Shadow Demon's doppelganger was a little dumbfounded. Having thirty-five doppelgangers was his proudest innate ability. Who would have thought that a human could create hundreds of doppelgangers without any effort?

What the hell?

Especially after forming a battle formation, these clones that didn't look too strong could already threaten the Golden Shadow Demon's clones. If it wasn't for the fact that they were still in the shadow form, they would have been destroyed at any time!

"Are you really a human? Or are you actually a mutated Golden Shadow Demon?"

The Golden-dark shadowfiends surrounding Lin Yi started to wonder if Lin Yi was one of their long-lost clansmen. If they could get close to him, it might be a great thing!

Especially Lin Yi's ability to create hundreds of clones in an instant, it made the Golden-dark shadow Demon extremely envious. If he could learn this technique, his innate ability would experience an explosive growth. By then, it wouldn't just be the Golden-dark bloodline-it would be comparable to the Royal bloodline!

"You're thinking too much! I'm a real human, and I'm the mortal enemy of your darkness demon beast clan! You'd better hurry up and think of how to make me suffer a fate worse than death!"

A mocking smile appeared on Lin Yi's face as a few hundred-man battle formations surrounded the four Golden Shadow fiends.

"I don't know how long it will take for your clones to recover, but you have no hope of keeping these few! I hope I can see all of your clones next time, including your main body!"

Without waiting for the Golden Shadow Fiend's reply, Lin Yi ordered his clone formation to launch the final attack. Taking advantage of the last few seconds of the indestructible star body, he rushed into the four clones and started attacking.

The Golden dark shadow Demon had lost its momentum, and even if they joined forces, they still couldn't withstand the attacks of hundreds of Lin Yi's clones. After all, after forming a battle formation, the strength of the clones wasn't any weaker than a single golden dark shadow Demon. They had the absolute advantage in numbers, and this led to a qualitative change.

Lin Yi wasn't afraid of the end of the indestructible star physique because the Golden dark shadow Demon had lost its ability to threaten Lin Yi in the sea of clones.

By the time the golden-black Shadowfiend's shadowshape ability ended, all eight of its doppelgangers had been destroyed one by one. It had lost in an extremely sullen manner.

At the top of the sixth floor, the Golden-dark Shadow Demon's true body suddenly stopped and turned to look down. Of course, he couldn't see the fourth floor, but it didn't stop him from seeing Lin Yi's image.

"Interesting! Such a powerful human had actually appeared. As expected, one could not underestimate the strength of humans! I don't know if this is his innate ability or some kind of skill ... I hope you can catch up. I'll let you see the strength of all my clones and main body as you wish!"

After saying that, the golden-black Shadowfiend turned around and continued to move forward, leaving a doppelganger on the fourth floor. Its goal was to ambush and eliminate the human experts who came after it.

However, this matter was just a casual act. If he could kill some people, he would kill them. If he couldn't, it didn't matter. He would just treat it as investigating what kind of experts would come later.

For example, now that Lin Yi had entered the Golden dark Shadow Demon's line of sight, it would naturally be more cautious and use all its strength to fight Lin Yi when the two met!

Lin Yi knew that the Golden dark shadow Demon was angry at him, but it didn't matter. There was no way he could make peace with the dark Demon beast race, and it would be a life or death situation.

Being hated by the Golden-dark shadow Fiend would not make any difference.

"Sima Zhong da, Daniya ... I ... I'm preparing to leave the star Cloud tower!"

After dealing with the golden-black shadow Fiend's eight clones, Qin wunian spoke with some hesitation, ""I can't help you with anything. I will only drag you down time and time again. So, I'm ready to leave the star Cloud tower!"

"If I continue to climb, I'll only be able to obtain more power of the stars. Sima Zhong da has already given me the most important technique! After I leave the star Cloud tower, I can cultivate in the Black Star River outside. "

Qin wunian was well aware of his own capabilities. Perhaps he could continue climbing a few more levels under Lin Yi and Daniya's lead, but she didn't want to become a burden to them.

If it wasn't for Lin Yi's star indestructible body and Daniya's intentional or unintentional protection, she would've died!

And if she wasn't here, Lin Yi didn't even need to take the attacks head-on-he'd take all the damage, and he'd be able to choose a more flexible way to deal with it!

Qin wunian wanted to continue climbing, but in order not to drag Lin Yi down, she chose to back out!

Lin Yi was silent for a moment before nodding. The star Cloud tower is indeed dangerous, but danger and opportunity always co-exist. If you are sure that you want to leave the star Cloud tower, I will not stop you."

Everyone had their own aspirations, and Lin Yi wouldn't force Qin wunian. He wasn't a child anymore-he had to take responsibility for whatever he wanted to do.

Daniya tilted her head, 'Qin wunian, are you really going to give up on climbing? This is a rare opportunity. Other people are trying their best to climb higher, but you've only passed the third level, and you're already satisfied?'

Qin wunian's lips curled into a bitter smile, but it disappeared in an instant. Of course, she wasn't satisfied with just passing the third level, but the situation was clear. She would only drag everyone down if she continued to follow Lin Yi and Daniya.

If he acted alone, he would probably die even faster. Up until now, those who could reach the fourth floor were probably all heaven breaking experts. Qin wunian didn't think that he could be compared to them.

"That's right. I'm already very satisfied with what I've obtained so far. I'll properly digest it after I leave this place. Then, I'll search the entire Star Ink River. I should be able to reach a higher level. "

Qin wunian's attitude was firm, and he didn't hesitate at all. Lin Yi nodded slightly. "In that case, I'll tell you all the cultivation techniques I've derived so far. It should be helpful to you."

Lin Yi's current version of the technique was complete, and the one he got from the third level was incomplete. Even the first stage wasn't complete.

Therefore, it was reasonable for Qin wunian not to continue climbing after obtaining these cultivation Arts. If he wanted to obtain the complete third stage of the cultivation Arts, he would probably have to climb to the ninth or tenth floor at the very least.

Chapter 9156 The Power Of The Divine Realm

Qin wunian was both surprised and overjoyed to receive the complete third stage of the art from Lin Yi. Lin Yi's magic had once again refreshed her knowledge. With this third stage art, even in the star Ink River, she was confident that she could become a sea Rift Warrior, and even have a glimpse of the heaven breaking realm.

Reviving the Qin family did not seem to be an unattainable goal!

"Qin wunian, why don't you continue to climb with us? Let's not talk about the top, but there must be a sixty-sixth step. After all, there are new rewards and redeeming quotas at the sixty-sixth step. "

It wasn't that Daniya couldn't bear for Qin wunian to leave. She just felt that it was a waste of resources to leave on the first step of the fourth floor."The golden-black Shadowfiend set up an ambush at the entrance, so the fourth floor shouldn't be dangerous anymore. There shouldn't be any trouble at the sixty-sixth step."

Qin wunian's heart skipped a beat, but he still shook his head and declined after a moment of silence."Thank you, Daniya, but I won't be going up. The reward for the sixty-sixth step isn't that great anyway, so there's no need to delay."

After making up his mind, Qin wunian was extremely decisive. Daniya nodded slightly at his words and did not try to persuade him anymore.

"Let's go. We'll go to the 33rd step first, then you can choose to leave the star Cloud tower. "

Lin Yi turned around and walked to the first step. Qin wunian had to reach the thirty-third step before he could choose to leave and get the full reward for the second step.

After she left the star Cloud tower, she would be able to continue refining the power of the stars in her body that she had been unable to refine before. Her strength would also increase again.

Qin wunian and Daniya followed behind him. The three of them didn't say anything else.

When he stepped onto the first step of the astral stairs, a change occurred!

A dim Bronze Light suddenly lit up under the three's feet. There was a strong binding force within it, and there was a teleportation force that could tear the space apart.

And this teleportation wave was different from the teleportation that the star Cloud tower had. The meaning behind it was worth pondering!

To be able to bypass the star Cloud tower and set up a transfer channel, how powerful must the person who set it up be?

Lin Yi didn't have the time to think about that-he could feel the malice in the bronze ring the moment it lit up, and he couldn't just give up like that!

He couldn't use the indestructible star body at this level anymore, and he could only rely on his own strength to get out. Thunder escape and super limit butterfly micro steps couldn't break free from the restraints. Lin Yi gritted his teeth and formed a super alchemy bomb, pressing it on the light ring under his feet!

If they weren't in the star Cloud tower, the tunnel might've teleported the three away the moment it lit up, but the star Cloud tower wasn't just for show. It wasn't easy to go around the tower.

It was normal for him to be restricted.

Lin Yi and the other two were relying on the interference of the Xingyun tower to resist the bronze Light ring's restraint and teleportation power. Lin Yi now had the chance to try all kinds of methods.

The Super alchemy bomb landed on the circle of light, and under Lin Yi's control, the power of the explosion was accurately concentrated in the bronze circle of light.

The bronze Halo flickered violently a few times before it shattered. However, before it shattered, Qin wunian was teleported away by a beam of light!

"Sima Zhong ..."

Qin wunian didn't even manage to call out Lin Yi's full name before he disappeared.

Lin Yi and Daniya wanted to save her, but because of the restrictive force of the light, they were too slow and could only watch as she was teleported away!

Daniya's own strength level was strong enough to resist the pulling force of the teleportation, so after the circle of light shattered, she stayed in place without any damage, but her expression was not good.

"What's going on? This isn't a teleportation formation, nor is it a teleportation passageway formed by the power of the stars. Why would it appear here?"

Lin Yi wasn't in a good mood. Qin wunian was ready to leave the star Cloud tower, but something so disgusting happened. He didn't know what the reason was.

Daniya lowered her head in deep thought before looking up at Lin Yi. "I think I know what this is!"

"What is it?"

Lin Yi turned around. He needed to know if Qin wunian was safe and where he would be sent to. "Will she be alright?"

Daniya shook her head slightly. "I'm not sure if something will happen to Qin wunian. This ring of light should be a teleportation channel set up by a darkness demon beast of the darkness demon beast clan called the spatial Rift ghost demon."

"The xiankong ghost demons have always been mysterious among the darkness demon beasts. Their bloodline is one of the top bloodlines among all the darkness demon beasts, and the upper class usually calls them the bronze bloodline. Although it's not as noble and rare as the dark gold bloodline of the dark gold shadow Demons, it's still an extremely rare bloodline."

"There are thousands of races in the darkness demon beast clan, and only one in a thousand has a bloodline inheritance. I didn't expect to meet a dark gold bloodline and a bronze bloodline this time!"

Lin Yi rubbed his forehead, helpless. "Daniya, I'm interested in all of these, but can you get to the main point first? what's Qin wunian's current situation?"

"How are you going to understand Qin wunian's situation if I don't explain it clearly?" Daniya glared at Lin Yi.

Lin Yi didn't know what to say, so he continued to listen.

"The innate ability of the air-trapping ghost demon is to create a teleportation channel at will. The only restriction is that it has to personally go to the place to open the entrance. This is the teleportation portal left behind by the spatial-wrecking ghost devil. "

"As for the teleportation exit, I don't know where he'll set it up. I guess it's some step above. If I'm not mistaken, there'll definitely be a stronger ambush at the exit."

Daniya frowned and said in a deep voice, ""The golden-black shadow Devil's clone was the first wave of ambush, while the spatial Devil's teleportation channel was the second wave. There was a powerful binding force during the teleportation process."

"Once we are teleported over, we will be unable to move, and it will be very easy for us to be killed by the experts in ambush! Fortunately, the innate ability of the spatial-wrecking devil is greatly restricted in the star Cloud tower, which is why we have the chance to resist. "

"Qin wunian's strength is too low. Even though the dimensional gateway has been weakened by ninety-nine percent, the binding and pulling force contained in it is still not something she can resist. That's why she was teleported away."

"It's a good thing that you reacted in time and destroyed this dimensional gateway, Sima. When Qin wunian was teleported, there's a high chance that he won't appear at the exit set up by the spatial breaching ghost devil. He won't have to face the fatal ambush."

"So, Daniya, you're saying that there's no way to know where Qin wunian is being transported to?" Lin Yi asked, stunned.

After losing the exit and being sent into the dimensional gateway, it was uncertain if they would be able to leave the dimensional gateway in the end. Even if they could come out, it was unknown where they would be left behind.

It was hard to say whether Qin wunian was lucky or unlucky ...

Chapter 9157

Lin Yi immediately called for the ghostly thing's help after learning the result. He wanted to use the spatial fluctuations left behind by the shattered dimensional gateway to track down Qin wunian's whereabouts. Unfortunately, even though the ghostly thing had made great progress in its research on space, it still couldn't do such a difficult thing in the Nebula tower.

The innate ability of the air-trapping ghost demon was indeed terrifying!

"Sima, let's continue up there. We won't be able to find anything here."

Daniya waited for a while before finally persuading, ""The dimensional gateway created by the space-wrecking ghost demon's innate ability is completely different from the dimensional gateway created by formations. No matter how high your attainments in formations are, there's no way you can find the relevant clues after destroying the dimensional gateway, right?"

"Instead of wasting time here, why don't we speed up and catch up to the spatial breaching ghost devil who set up the teleportation channel? we can force him to open the channel again. Perhaps we can find Qin wunian's traces."

"You're right," Lin Yi sighed as he straightened his body, "the only thing we can do now is find the devil!"
I hope Qin wunian is fine ..."

If he was really fine, it didn't matter if they could find the xiankong ghost demon or not. What they were afraid of was that there would be no exit once they entered the teleportation passageway. If Qin wunian was torn apart in the passageway, what was the point of finding the xiankong ghost demon then?

The worst case scenario had already happened, and Lin Yi could only say that he was doing his best to find the xiankong ghost demon. If it really didn't work out, he would just kill him to avenge Qin wunian.

The two of them began to speed up the stairs. Without Qin wunian, Lin Yi and Daniya's speed had increased greatly, and the fourth level's influence had almost no effect on the two.

Only on the thirty-third and sixty-sixth steps, where there were tests, would the pace slow down a little. These two tests weren't difficult, though, and Lin Yi and Daniya passed them easily.

It didn't take long for Lin Yi and Daniya to reach the 4th level's 99th step, the final platform!

The dark Demon beasts didn't set up any more obstacles or ambushes along the way, and everything went smoothly for the two. Lin Yi couldn't understand why the Golden dark shadow Demon and the air-trapping demonic demon would set up an ambush like that.

Since he had already started, why not continue?

He stepped onto the Ninety-ninth step and did the usual star shift-he didn't even see if there was anyone left on the platform before he was sent into the test grounds.

As expected, Daniya was sent to another random location, and Lin Yi faced the test alone again.

He felt a familiar wave in his mind. The star Cloud tower's description of this test and mission had been sent over.

The Hunter!

There were an uncertain number of participants in the venue, divided into two camps. One was the Hunter camp, which required all the opponents to be killed to pass the game.

The other party was naturally the Hunter's camp. Their way to clear the game was to find the only hidden passage in the field to leave. As long as one person succeeded, the entire camp would succeed.

To put it bluntly, the first thing the Hunter camp had to do was to prevent the other camp from finding the passage. Then, they would consider killing the opponent. Otherwise, as long as the other camp found the passage to leave, it would basically be considered a failure of the Hunter camp.

The Hunter faction could retaliate and attack the Hunter faction. The star Cloud tower did not restrict this, so in order to balance it out, it gave each person in the Hunter Faction Three chances to attack with star power.

As long as the Hunter's attack hit the opponent, it could theoretically kill an ordinary martial artist at the great circle of heaven crushing realm in one blow!

In the star Cloud tower, there shouldn't be any cultivators who had surpassed the great circle of heaven crushing. Thus, these three chances of adding the power of the stars were equivalent to three sure-kill skills.

If the hunted wanted to resist, he had to first think about whether he could resist such a sure-kill attack.

The last and most important rule was that all the participants, apart from their own identity, did not know which side the others were in. They had to find the answer by themselves!

They couldn't reveal their identities to each other. If the Hunter faction revealed their identities, they would become a member of the Hunter faction and be marked by the star Cloud tower. Their location would be transmitted to everyone in the Hunter faction.

It was the same for those from the hunted faction. If he revealed his identity, he would be marked by the star Cloud tower. All the Hunter faction members would be able to know his location and kill him at any time.

People from the same faction could not attack each other. If they attacked someone from the same faction, they would be marked by the star Cloud tower and their identity would be exposed.

The time limit of the test was half an hour. When the time limit was up, if the Hunter's camp didn't find the passage and the Hunter's camp didn't kill all the people from the opponent's camp, both sides would fail and be sent out of the star Cloud tower!

Lin Yi massaged his temples as if he had a headache.

There were so many rules in this test ... It was really troublesome!

I wonder which camp Daniya is from? Lin Yi was from the hunted camp, and if Daniya was the Hunter, then the two of them would be on opposite sides!

No matter what, he had to find Daniya first!

Lin Yi lifted his head and looked at his location. This time, the star Cloud tower had created a circular arena, like a Stadium. There was an empty space in the center, surrounded by stands. The only difference was that the stands weren't seats, but small rooms, all of which were locked with black doors.

There were a total of nine levels in the grandstand, and there were nearly a thousand rooms on each level. Adding up the nine levels, there were almost ten thousand rooms!

Out of the ten thousand rooms, there was only one room with a passage. Lin Yi's camp needed to find the only room in half an hour, open the passage, and win!

Lin Yi didn't know how many people he had with him, so he hoped that he wasn't the only one ...

Lin Yi had already tried it-he couldn't use his lightning movement and thousand changes of wood forest in this place, and his divine sense couldn't go too far. It was better to use his eyes ... He felt like the star Cloud tower was targeting him!

If he could use the thousand changes of wood forest, what was a mere 10000 rooms? He could do it in minutes, why would he need 30 minutes?

Lin Yi was somewhere on the third floor, and there was a closed black door behind him. In front of him was a fence about 1.5 meters tall, the top of which was at Lin Yi's chest. It didn't affect his vision.

If a person was less than 1.5 meters tall, they would not be able to see the situation in other places when they moved in this corridor.

Lin Yi walked to the edge and stuck his head out to take a look. It wasn't easy to see the upper floors, since there were fences blocking their vision. Unless someone stuck their head out, it was hard to tell if there were people up there.

The lower two floors were much clearer-as long as one didn't hide under the fence and walked around, Lin Yi would be able to see them.

Chapter 9158

After a quick glance, Lin Yi took two steps back, thinking about what to do as he tried to open the black door.

He didn't think it would be easy to open the door, but it opened with a light push. Surprised, he used his spirit sense to check the room, and only walked in after finding nothing unusual.

In this area, the range of his spirit sense was just enough to observe the entire room, making sure that there were no ambushes. Of course, before opening the door, Lin Yi's spirit sense would be blocked by the door, and he wouldn't be able to use it to find a way in.

If he wanted to find the passage, he had to open the door and enter the room to confirm it!

As expected, there was nothing in the room. Lin Yi wasn't that lucky, and he didn't expect to find the passage in one try.

Lin Yi saw five people on the first and second floor, one on the third floor, opposite him, and one on the fourth floor and above. Due to the limited vision, he could only confirm that there were seven people, and Daniya wasn't one of them.

Lin Yi left the room and decided to go to the ninth floor first. He had to find the room where the tunnel was, but he had to confirm how many people there were in the test. Only by standing at the top of the ninth floor would he be able to see the whole situation.

There were a total of four staircases in the ring-there was one to the left of Lin Yi. He didn't look at the other doors after exiting the room, turning to the stairs and climbing up quietly.

The thirty-minute countdown had started, and Lin Yi was on the eighth floor in no time at all. He met the first fighter on the stairs.

The other party was on the eighth floor and seemed to be preparing to go up to the ninth floor as well, but he immediately went into a defensive position when he saw Lin Yi suddenly appear from the stairs.

Lin Yi looked at the man and smiled."Hello, I don't have any ill intentions. How about we pretend we didn't see anything and go our own ways?"

Both sides did not know each other's camp identity, so they naturally could not act rashly. The rules were like this. Under the premise of not being able to reveal one's identity, who knew if one was from the same camp?

If they attacked each other and exposed their faction identity, they would be in deep trouble if everyone's real-time location was sent!

The person opposite him was a white-haired man, but his face looked very young. His skin was smooth and delicate, even better than that of a young woman.

The white-haired man's brows raised slightly as he heard Lin Yi's words, a devilish smile on his face. "You're from the Hunter's camp, right?"

Lin Yi's face darkened, his eyes turning cold. He didn't even ask this question himself, and this guy asked it without hesitation. Was he trying to dig a hole to bury him?

It didn't matter if Lin Yi answered yes or no, he'd be revealing his identity. If he said yes, he'd be marked by the star Cloud tower and sent to all participants.

If the star Cloud tower didn't respond, the other party would immediately know that Lin Yi was lying. Lin Yi was in the Hunter faction, which meant that he admitted it himself and was marked by the star Cloud tower ... The result would be the same, just that there was an extra step.

It was clear that the white-haired man was a smart man-his actions showed that he had the same thoughts as Lin Yi. They were both planning to go up to the ninth floor to observe the situation, and observe everyone's movement patterns to determine the other side's camp.

How could he not understand the trap of this question? She was clearly trying to get on Lin Yi's bad side.

"I'm showing kindness, but you don't think so. Do you think I'm stupid and that I'll be easily won over by you?"

Lin Yi laughed coldly as he took out the demonic devour sword. A black light bloomed as he stabbed it at the man without hesitation.

In fact, the rules of Star Cloud tower did not have as many restrictions on the Hunter faction as one would think. If hunters attacked each other from the same faction, so what if their identities were exposed?

In any case, they wouldn't lose anything. Wouldn't it be nice to let the people in the same camp learn from them and join forces to kill the enemy camp?

After his identity was exposed, anyone who ran away upon seeing him was undoubtedly in the Hunter's camp. There was no need to think about it, they could just chase after him and kill him.

The white-haired man was taken aback-he didn't think that Lin Yi would attack so decisively. He was only in the early stage of heaven breaking, and the threat from Lin Yi's demonic devour sword made his hair stand up.

It was dangerous!

The white-haired man dodged instinctively. He saw that Lin Yi was only at the sea shattering realm, and he thought that he could crush Lin Yi with his early heaven breaking realm. He didn't think that a harmless-looking lamb could threaten a Wolf with its fangs!

"Stop! Stop! We're not enemies, we're allies on the same side!"

The white-haired man was undoubtedly a smart man. He immediately guessed that Lin Yi belonged to the Hunter faction when Lin Yi made his move. After all, smart people understood that the restrictions of the star Cloud tower on the Hunter faction were not very useful.

On the other hand, the Warriors in the Hunter's camp would not dare to make a move easily. Once their identity and position were exposed, they would be hunted down, ambushed, and so on by all the hunters!

Lin Yi did the exact opposite, and the white-haired man was too smart for his own good-he fell into Lin Yi's trap!

He dodged quickly and didn't get hit by Lin Yi's attack, so there was no risk of triggering an attack from the same camp and exposing his identity. Just by shouting, Lin Yi was sure that the white-haired man was a Hunter!

Since that was the case, what was there to be polite about?

Lin Yi revealed a mocking smile. He suddenly increased the strength of his sword, and a black light screen appeared. At the same time, a super alchemy bomb formed in his other palm.

Not only that, Lin Yi's spirit collision was activated as well. He didn't care if the white-haired man had a spirit defense item or not, he just attacked first.

The white-haired man's face froze. If the demonic devour sword made him feel danger, then the killing intent Lin Yi was giving off right now made him feel like he was being stabbed in the heart.

"Are you crazy? We don't need to fight ..."

The white-haired man continued to retreat in fear and tried to defend himself. Then, he tried to explain that his actions just now had no ill intentions and were just a normal and simple test.

Unfortunately, he didn't have the chance to say it. Although Lin Yi couldn't use Thunder escape, he could still use super limit butterfly micro steps. In a short distance burst, super limit butterfly micro steps wasn't inferior to Thunder escape.

In fact, it was even more stable.

The sudden increase in speed made all of the white-haired man's calculations miss. He always liked to win with strategy, but he didn't think that Lin Yi's impact and explosive power would be so fast, and that Lin Yi's strategy would be way better than his.

Chapter 9159

The situation had developed beyond his expectations-this unexpected change made his heart skip a beat, and when he reacted, Lin Yi's attack was right in front of him!

Go all out!

The white-haired man didn't think that he would really lose to a warrior at the sea splitting stage. Even if he met the enemy in a hurry, there should still be a high chance that he could turn the situation around!

The only thing to worry about was that both sides would reveal their identities in the end. For the white-haired man who liked to hide in the dark and scheme, this kind of ending was not very pleasant!

Damn the star Cloud tower, it only said that you can't fight with people from the same faction, but it didn't say how serious the consequences would be ... It was a rule in name only!

He was still complaining about the star Cloud tower when Lin Yi's attack arrived!

The collision of spiritual sense was unsurprisingly blocked by a spiritual sense defensive tool. Almost all of the heaven breaking cultivators of the heaven's legacy continent had at least one spiritual sense defensive tool, and they were all high-grade ones.

Wu Linghai could ignore normal deified soul defenses, but it was a little weak against these high-grade items. Unless Lin Yi could remove the star power suppressed in his soul and return to his peak state, he might be able to recreate Wu Linghai's ability to ignore deified soul defenses.

The first wave of attacks had no effect, and the black light released by the demonic devouring sword had also been easily blocked by the white-haired man. He immediately revealed a smug smile, "Just this? I thought you were powerful, but you're just so-so!"

"Wait! Why was there no reaction? You're not a Hunter ..."

The white-haired man was pleased for a second before he realized what was wrong. The two sides had come into contact, which meant that they were attacking each other. In theory, if two people from the same faction attacked each other, they would immediately be marked by the star Cloud tower and expose their identity and location.

The white-haired man didn't see any signs from the star Cloud tower, which meant he wasn't on the same side as Lin Yi!

"So you really are from the Hunter's camp! Hahahaha, I've worn out my iron shoes in a long search, but I've found it without any effort! Who gave you the courage to attack me first? Do you really think that you can defeat me with your strength at the sea splitting stage?"

The white-haired man's face changed into a ferocious smile again. Changing continuously in such a short period of time was almost the same as changing faces, which was also rare and commendable.

Lin Yi's other hand reached out from the black light, his face calm, "Don't you know that villains die because they talk too much?"

The white-haired man was about to die, so he was the villain!

The Super bomb was easily pressed on the white-haired man's chest, and the Super speed from the Super butterfly micro steps caught him off guard, taking a direct hit.

The violent energy exploded instantly, and under Lin Yi's precise control, all of it gathered at the white-haired man's heart, contracting and exploding!

The white-haired man's smile froze, his eyes filled with shock. He felt the threat from Lin Yi, but he thought he'd blocked it!

He didn't underestimate Lin Yi, and decided to use one of the three opportunities the star Cloud tower gave him to kill Lin Yi in one shot. Unfortunately, it was too late!

The power of a super alchemy bomb was no small matter. If it exploded in the heart, even a heaven breaking cultivator wouldn't be able to withstand it.

In the blink of an eye, this heaven breaking expert, who had self-proclaimed outstanding wisdom and strength, was completely torn apart by the powerful explosion!

Lin Yi flicked his wrist, and the demonic blade flickered in the air as he put the storage bag away. He didn't even look back as he went up the stairs, and in a flash, he was on the ninth floor.

As for the white-haired man's corpse, it had already been completely incinerated by the flames from the Super alchemic bomb!

Maybe someone saw the brief battle, but Lin Yi didn't care. He was the one who initiated the attack, and even if someone saw him from afar, they would only think that he was from the Hunter camp!

This would be beneficial for him to hide his faction identity!

If a Hunter saw what just happened and came to form an alliance with Lin Yi, he could kill him in secret ...

Lin Yi scanned his surroundings to see if there was anyone else on the 9th floor. From the surface, he seemed to be the only one on the 9th floor, but he couldn't be sure if there was anyone hiding in the blind spots of the fence. He couldn't be sure if there were already people in the rooms on the 9th floor.

He tried the black door next to him, but it didn't open successfully. The door was locked, and there was a keyhole, but no key. Lin Yi wanted to use brute force to break it open, but the black door from the star Cloud tower wasn't something he could easily break open.

Lin Yi noticed that there were a few patterns on the side of the key-he'd seen them before, but hadn't paid much attention to them. Now that he thought about it, they were similar but different.

After comparing it to the black doors on the side, Lin Yi confirmed that the patterns were different, meaning that it might be a number, like 9001,9320, or something.

So, was this to get someone to find the key to the corresponding house number and come back to open the door?

Lin Yi was speechless-what an old trick, but he had to admit that it was very effective!

It was already an impossible task to open nearly 10000 doors in half an hour, but they still had to find the keys and compare them with each other before opening the door ... Did they think that half an hour was too much?

Lin Yi tried two doors and stopped. He stood by the fence and looked at the other floors. From the highest floor, he could see if there were people walking inside the fences on the lower floors, but those who were crawling on the ground weren't in that category ...

Time was tight, and most of the people from the hunted camp would choose to use their time to find the exit. Lin Yi could see eleven people, moving quickly from floor to floor, trying to open the door. If he was right, these eleven people were all from the hunted camp.

Daniya was still not among them!

Lin Yi pinched his chin, deep in thought. Could Daniya be in the Hunter's camp? Was he hiding somewhere and preparing to make a move?

Come to think of it, were all the people searching for the passage really from the Hunter's camp? Would there be people from the Hunter camp among them?

Lin Yi thought that it was normal for him to try to guard the door-the Hunter camp needed to find a way out too, and they could set up traps and ambushes.

Now, he suddenly thought of another possibility. What if the Hunter camp itself knew the correct location of the passage?

The information he had received was from the Hunter faction. The other faction might not have received the same information as him. He didn't think of this at first ... Now that he thought about it, the star Cloud tower might have given the Hunter faction such a hint.

Chapter 9160 The Power Of The Devil

If he had known this earlier, he wouldn't have killed the white-haired man so thoroughly just now. At least he would have gotten some information!

Lin Yi's eyes moved around as he continued to search the floors. He was more and more certain of his guess.

The Hunter camp was preparing to ambush a wave of people, right?

Just as Lin Yi was thinking about the possibility of the Hunter camp hiding in the right room, the fifth floor suddenly changed!

A martial artist opened the black door and a black light flashed inside. Before he could react, he was instantly wrapped in it. After a short one or two seconds, the martial artist was released by the black light again, but there was an additional layer of black liquid on his body.

Lin Yi's pupils contracted as he focused. The distance between the two sides was a bit far, but there wasn't anything in the way. Lin Yi's vision was clear, and he could see a faint black shadow beside the martial artist.

If one didn't pay attention, one might mistake it for a human shadow. However, the human shadow was on the other side of the ground and had completely different characteristics from the black shadow.

The black shadow seemed to have felt Lin Yi's gaze-it turned its head a little, as if it was looking at Lin Yi's eyes. The practitioner did the same, his eyes dull like a puppet without a soul.

Lin Yi's hair stood on end-other people might think that the practitioner turned his head, and so the shadow turned its head as well. It was a normal phenomenon.

But that wasn't the case. Lin Yi felt that the martial artist was following the black Shadow's movements. The black shadow was the master, and the martial artist was the secondary. To be more precise, the martial artist with the black sticky liquid on his body was like a puppet, his movements completely under the control of the black shadow.

Soon, the shadow merged with the one on the ground, and Lin Yi couldn't see anything strange anymore. The martial artist's mouth curved into a strange and mechanical smile. His face was obviously stiff, but it was full of ridicule.

Lin Yi felt like he was being watched, but it wasn't a big deal. He'd been watched the whole time anyway, and one or two more wouldn't make a difference. If they really were to line up, who was the martial artist or the shadow that hid in the shadows?

The question was, what was that black shadow? Without knowing the other party's background, if they were to really face each other, they would not know how to deal with it.

That martial artist was obviously controlled by the black shadow. His own strength was not bad. He was an expert in the early stage of heaven breaking. In front of the black shadow, he could not even last two seconds. He silently lost his self-consciousness and became a puppet controlled by the black shadow!

Such an ability was terrifying!

Even Lin Yi couldn't guarantee that he'd be able to counter it without understanding the theory behind it!

The people on the other floors might've seen what happened, but they didn't see it as clearly as Lin Yi did. They didn't know how terrifying the shadow was, and they didn't even know that the martial artist had become a puppet of the shadow.

After being controlled by the black shadow, the martial artist began to move again. He continued to open the door and look for the passage as if what had happened was just an illusion and had never happened.

Lin Yi split some of his attention on the man, not forgetting to observe the others as well. Soon, the man met another man who was running from the other side of the fifth floor, doing the same thing-opening the door, checking, and continuing the search.

When the two sides were about to encounter each other, both sides were very vigilant. They kept a distance from each other and did not get close. Then, they seemed to say something.

Lin Yi received a signal from the star Cloud tower-the martial artist controlled by the black shadow must've revealed his identity as a Hunter to gain the other's trust.

When he self-destructed, his identity and position were transmitted to everyone who was involved!

The warrior opposite him received the message at the same time and immediately relaxed. He was also from the Hunter's camp. Since the other party was so sincere and did not hesitate to reveal his identity to gain his trust, what reason did he have to guard against the other party?

"Brother, you're too careless. How could you expose your identity so easily? Now that you've become the target of public criticism, take care of yourself. I'll be leaving first!"

The martial artist, who was relieved, did not answer which side he was on. He turned around and prepared to leave. Such a performance was already enough to show which side he was on.

He didn't say it out loud because he didn't want to expose his position.

"Brother, wait a moment, I have something to tell you!"

The martial artist controlled by the black shadow sped up and chased after him. At the same time, he raised his hands to show that he had no ill intentions.

The other martial artist did not suspect him. He turned around and saw the raised hands. His vigilance dropped to the freezing point, waiting for the other party to come closer and speak.

As a result, when the two of them got close, the black figure hidden in the shadows pounced on them silently. In just over a second, the puppets he controlled became two!

Lin Yi was shocked. This guy wasn't just strong, he was also very cunning!

Although he didn't hear what they said, he could guess what he had done from the results and the process.

He would self-destruct his puppet's identity to gain trust and take the opportunity to get close to the new puppet without shedding a drop of blood!

Lin Yi didn't know what the limit of the Shadow's power was, or if he could control more puppets, but if he didn't do anything, the number of puppets the shadow could control would only increase!

His fake identity and position as the puppet to be hunted had already been exposed. He was like a bright light in the dark, attracting more people in the Hunter camp to form an alliance and protect him. Even if they did not form an alliance, they would definitely let their guard down against him!

There weren't many people who could tell what was happening other than Lin Yi!

He had to kill this black shadow!

Lin Yi made up his mind and gave up on observing. He turned around and rushed down the stairs. Even if he didn't know what the black shadow was, he had to fight it now.

It didn't take long for Lin Yi to get from the ninth floor to the fifth floor. He rushed out of the stairs and ran along the corridor to where the black shadow was. At the same time, many people appeared by the railings of each floor, looking at the black shadow.

It was the best time to observe and confirm the identities of the others when someone revealed their identity. No matter if it was the Hunter camp or the hunted camp, they would not let go of such a rare opportunity.

Lin Yi was as fast as lightning. When he saw the two puppet Warriors, he took out the demonic devour sword and cast a black sword curtain. However, the target was not the two puppet Warriors. All attacks avoided them.

If he hit them, his identity would be exposed as well. He couldn't do that.

The man in the shadows wasn't surprised-he'd noticed Lin Yi watching him from the ninth floor when he'd taken control of the first fighter.

They weren't sure which side Lin Yi was in back then, but now they were!
