

Bodyguard 9161

Chapter 9161 The Power Of The Divine Realm

"There's a path to heaven, but you refuse to take it. There's no Door to Hell, but you barged in! You're only at the sea splitting stage. Who gave you the confidence and courage to fight against me?"

The first controlled warrior let out a strange laugh and said in a sinister voice, ""I thought you were a smart person and would at least hide or come with more people. I didn't expect you to come to your death alone!"

"I've really overestimated your intelligence! Forget it, since you want to die, I'll fulfill your wish. Unfortunately, you're too weak and don't even have the qualifications to be my servant!"

The black shadow used the puppet fighters to show off and ordered two of them to attack Lin Yi.

In other people's eyes, Lin Yi should be a warrior from the Hunter camp, rushing out to kill the enemy after getting the enemy's location, a representative of young impetuosity.

Only the black shadow knew that Lin Yi's wisdom and vision were at the top of all the participants. He was mocking Lin Yi, but he was actually a little concerned and decided to kill Lin Yi now!

As for Lin Yi's demonic devour sword, it posed no threat to the shadow at all. He hid in the shadow of the puppet martial artist and was completely immune to physical damage.

"Don't be proud too early, you're just a rat in the gutter who likes to hide his head and show his tail, what's there to show off? The two puppets you controlled were pretty strong, but in your hands, they can't even use half of their strength. What can they do to me?"

Lin Yi used his super butterfly steps and dodged the attacks of the two puppet fighters with ease. He dodged all the attacks with his high-level movement technique and missed the two puppet fighters.

The three people from the same camp fought for seven to eight seconds, and they didn't even touch each other. It wasn't easy at all, and all the spectators had basically confirmed that Lin Yi was from the Hunter camp!

The two puppet fighters were toyed with by Lin Yi's movement technique, and the one who was controlled from behind accidentally hit the first one, exposing his identity and position.

"You're a golden dark shadow Demon from the darkness demon beast clan? Is this your clone again?"

Lin Yi thought about how to deal with the shadow as he fought, and he tried to figure out the background of the other party.

In some ways, this black shadow was similar to the Golden Shadow devil he'd encountered before. Of course, there were many differences as well. Lin Yi decided to test it out.

"Brat, you're quite smart, but it's a pity that you're only half right. I'm indeed from the darkness demon beast clan, but I'm not a golden dark shadow Demon!"

The black shadow continued to use the puppet to communicate with Lin Yi, trying to distract him. Fortunately, there was a flaw in the battle, "I'm surprised that you know the name of the Golden dark shadow Demon. Since you know about it, don't you know that it has a branch called the heart confusing Shadow Demon?"

Lin Yi rolled his eyes internally. There were so many races in the dark Demon beast race, who the hell knew all their names!

Daniya didn't mention it before, she only introduced how strong a dark gold bloodline dark gold Shadowfiend was, but didn't say anything about the mind confusing Shadowfiend.

"I've never heard of it! I only know of the Golden dark Shadow Demon's reputation, but what the hell is a mind confusing Shadow Demon? Is it a fake? What branch? you're not famous at all. Are you trying to be distant and claim to be a relative of the Golden dark Shadowfiend?"

Lin Yi acted like he didn't care at all and started taunting, "The dark golden bloodline is so powerful. You're a mind-confusing Shadow Demon, but you don't seem to have inherited the dark golden bloodline, right? Did he have the scrap iron bloodline? Isn't it very useless?"

The puppet warrior was enraged, and its attack speed increased. The black shadow didn't say anything else, as if Lin Yi's words had hit its sore spot.

If Daniya was here, she'd explain to Lin Yi that the heart confusing Shadow Demon was indeed a branch of the Golden dark shadow Demon, and it didn't have the Golden dark bloodline, but that didn't erase its power.

The mind confusing Shadow Demon could actually be considered a race with the bronze bloodline, but these guys were too proud. Even if they were from the branch family, they wanted to obtain the glory of the dark gold bloodline and refused to acknowledge the bronze bloodline.

The bewildering heart Shadow Demon was proud of the Golden dark shadow Demon, but it also wanted to replace it. It was in a very contradictory mood. It wanted to be recognized and recognized as equal to the Golden dark shadow Demon, so it absolutely couldn't hear that it was inferior to the Golden dark shadow Demon!

Lin Yi laughed to himself-the puppet's attack frequency represented the demon's attitude, and it proved that words were effective. He continued,"I was right, wasn't I? Trash will always be trash! I can't believe that you can't deal with a mere sea splitting stage warrior like me even though you're controlling two heaven breaking stage puppets. "

"What's the use of you? If I were you, I wouldn't mention anything about the Golden dark Shadow Demon's branch. Isn't that just humiliating yourself? Comparing the two, both of you are Shadow Demons, but why are you bewildering Shadow Demons so useless? What a piece of trash!"

"Shut up!" The puppet warrior roared. You're dead! You'll suffer a thousand cuts, and I'll make sure you die without an intact corpse!"

Lin Yi's sharp senses picked up on the heart confusing Shadow Demon's violent emotional fluctuations. It was a cunning old fox, but Lin Yi accidentally hit its sore spot. Under its rage, it lost its usual calmness and cunningness.

The puppet fighter's shadow shook violently. Lin Yi had tried using his consciousness to attack it before, but it didn't hurt the heart confusing Shadow Demon.

At this moment, the heart confusing Shadow Demon's Black shadow had separated from the shadows somewhat. Because it had to control two heaven breaking cultivators, it had lost its sense of propriety in its rage and revealed a few flaws.

Lin Yi's heart skipped a beat as he activated the chant he'd just derived. He activated a trace of star energy from the outside world and slammed it onto the shadow!

The heart-confusing Shadow Demon let out a shrill cry. If it wasn't for the fact that the star Cloud tower didn't give him any hints, he would've suspected that Lin Yi was really from the Hunter faction!

A sure-kill technique enhanced with the power of the stars, it was the trump card that Star Cloud tower gave to the Hunter faction!

The incantation obtained by those who were currently at the fourth level was not even complete for the first stage, so it was impossible for them to attract the power of stars from the outside world.

Lin Yi didn't have much star energy to use, and it was a world of difference compared to the Hunter camp's three killer moves.

At most, it was just a form, so the heart confusing Shadow Demon did not suffer any fatal injuries. It only suffered the great pain brought by the power of the stars, and it would pass after enduring it!

But Lin Yi suddenly activated his soul-hooking hand and took advantage of the demon's confusion and lowered defense to successfully put it into the Jade space!

Even Lin Yi was surprised that it went so smoothly-it was just an attempt, and there were other methods he'd use if it didn't work, but it worked!

Chapter 9162 Power

The heart confusing Shadow Demon had been hiding in the shadows on the ground, so no one on the other floors saw Lin Yi take it away.

Without the heart confusing shadow devil, the two puppet martial artists' bodies went soft, and they collapsed to the ground, losing all signs of life.

Two heaven breaking experts had fallen!

Lin Yi's face turned serious. He had achieved his goal of stopping the heart confusing Shadow Demon, but the result wasn't what he wanted.

He had thought that after dealing with the heart confusing Shadow Demon, the two puppet martial artists that were controlled would return to normal. He did not expect that they would die immediately!

What was even more unexpected was that the heart confusing Shadow Demon that was captured by the soul-hooking hand was not its true body. It was only a wisp of divine sense. When it entered the space of the jade pendant, it suddenly dissipated.

This made Lin Yi's plan to get the ghostly thing and the others to interrogate the heart confusing Shadow Demon fall through completely. He wasn't sure if the demon had a clone here, either.

The Golden dark shadow devil could have thirty-five avatars apart from its main body. Even if the heart confusing shadow devil was a bit weaker, it shouldn't have just one avatar.

This thing's ability to control people was indeed terrifying. If Lin Yi was caught off guard and attacked by it, he wouldn't be able to escape safely.

The people watching the battle from every floor all looked back. Lin Yi's strength was beyond their imagination, and no one from the hunted camp wanted to touch Lin Yi.

Even in the Hunter camp, they didn't want to come into contact with Lin Yi first. Who knew if Lin Yi would suddenly kill people from the same camp? From the looks of it, he was a ruthless person!

It was safer for everyone to stay away since they couldn't reveal their identities.

No one would have thought that Lin Yi wasn't from the Hunter faction. After all, two people from the Hunter faction had already been proven dead in front of Lin Yi, and the star Cloud tower didn't send out any new identity disclosures or location.

Lin Yi stood in front of the fence and looked at the situation on each floor. He was now a Hunter, so it didn't make sense for him not to go after the people from the Hunter camp.

It was a pity that the doppelganger of the heart confusing Shadow Demon did not get to interrogate it, and its understanding of the Hunter camp was still zero!

Time continued to pass, and Lin Yi didn't know when the Hunter's camp would find the tunnel. All kinds of thoughts were running through his mind, trying to find the easiest way to break out of this situation!

After thinking for a while, Lin Yi decided to find Daniya first. The most convenient way would be for her to come out on her own.

Lin Yi's palm pushed lightly on the fence, and his body flipped over, landing in the middle of the empty space. No one had been here since the beginning, and Lin Yi was the first one to step on this empty space.

"Daniya! Where are you?"

Lin Yi channeled his Qi and shouted, his voice rumbling like thunder and spreading to every corner of the ninth floor.

The ring-shaped building model caused the sound to reverberate back and forth. As long as Daniya was here, there was basically no situation where she could not hear.

Everyone was stunned, not understanding what Lin Yi was trying to do. Calling his friends to join forces?

In a situation where no one could reveal their identity and faction, to be honest, even if they were friends, it would be difficult to entrust their backs to each other, right?

This was also why there were basically no people who joined forces on each floor. They were all lone wolves, unless both sides knew each other's camp very clearly.

Something even more shocking happened-before Lin Yi's voice could settle down, Daniya really did come out from a room on the sixth floor. She looked down at Lin Yi and smiled brightly.

"Sima, I'm here! You made quite a commotion looking for me, but fortunately, it was quite effective!"

Daniya smiled and waved as she jumped over the fence to meet up with Lin Yi.

A burly man rushed out of the room behind her and said in a deep voice,""What are you doing? Come back quickly, don't delay the matter!"

Not only did the robust man say that, he even reached out to pull Daniya, but was slapped away by her.

"Who Do You Think You Are? You dare to interfere with my actions?"

Lin Yi blinked. Daniya's actions ... Didn't count as attacking someone from the same camp, did they?

The star Cloud tower didn't move-it seemed like they'd decided that the two didn't have the intention to attack each other, and so didn't punish them. As for the possibility that they weren't from the same camp, Lin Yi didn't think that was possible.

If they weren't on the same side, Daniya would have gotten rid of that robust man long ago. He was only a middle heaven breaking expert, nothing in front of Daniya!

The robust man's expression was somewhat unsightly, but he really didn't dare to take any further action. Daniya's strength was above his, and if they really fell out, he wouldn't be her match!

He was also afraid that falling out with Daniya would affect the big picture, so he could only watch as Daniya jumped down the stairs.

Lin Yi's eyes flickered as he looked at the burly man at the entrance of the sixth floor.

He had just thought that the information received by the Hunter camp might be different from the hunted camp. They might have known the correct location of the passage from the beginning and then set up an ambush in the passage.

They didn't need too many people to ambush them. Just two or three experts were enough to kill the people who came to find them and ensure that the opponent's camp couldn't win. The rest of the people would chase after them outside. It was almost equivalent to an invincible start!

Daniya and that robust man ... Could they be the experts in the ambush? So, that room was the passageway that the Hunter faction needed to find?

Wasn't his luck a little too good?

"Sima, do you have any ideas about clearing the level?"

Daniya walked over to Lin Yi, smiling without waiting for him to ask, "I'm from the Hunter faction. Since we've met, it doesn't matter what faction we're from. We'll kill everyone in front of us!"

As she said this, everyone received a message from the Starcloud tower. Because Daniya had voluntarily revealed her identity, she had changed her faction to the Hunter's faction. She had taken back three of her sure-kill opportunities that were supported by the power of the stars. At the same time, she had given a mark to inform them of her location.

"Hehe, it was the Hunter faction just now, but now it's the hunted faction. Anyway, I know where the passage is. Sima, let's go up!"

Daniya knew that Lin Yi was from the Hunter's camp, so she didn't just reveal her identity and switch camps on a whim.

If Lin Yi was from the Hunter camp! He wouldn't use this method to find Daniya! If he couldn't see her from the outside, he would naturally go to the tunnel. Since Lin Yi chose to call for Daniya! It meant that the Hunter camp people had already found her!

As the guard of the tunnel, Daniya didn't feel any burden in switching camps-she couldn't become Lin Yi's enemy, anyway!

Chapter 9163 Power

"Daniya, how many people are there in that room?"

Lin Yi nodded with a smile. The two of them understood each other very well, and they didn't need to say anything to know what the other was thinking.

That was why it was said that talking to smart people was a waste of time and effort!

"Other than me, there are two more. You saw the big guy just now and a skinny guy who looks like a dried corpse. He used some kind of invisibility prop to hide in the dark and thought I couldn't see him."

Daniya laughed. "They're not powerful people. Usually, I'll teach them how to behave by myself. Now, it's a bit troublesome!"

"The Hunter faction initially has three sure-kill chances with the help of the power of the stars. Those who guard the passage will also have various attribute increases when they join forces. After I changed factions, I was punished to a certain extent, and the remaining two received a certain increase."

"The number of sure-kill chances they can use now is five each! At my level, I'll be dead on the spot if I get hit! You're probably in the same situation, so be careful. Don't let them touch you. "

Daniya didn't mention what the punishment for changing factions was, so it definitely wasn't as simple as marking her location to announce her identity.

"What other punishment did you receive?"

Lin Yi's sharp senses picked up on this point. He stopped and turned around, "Now we must explain the situation clearly to avoid any mistakes that will lead to irreparable consequences."

Daniya was silent for a moment before she laughed indifferently. "It's nothing. It's just that if I'm hit by the power of the stars, the damage will be multiplied. What kind of punishment do you think this is?"

"It's already a sure-kill attack, but isn't it still a sure-kill after taking double the damage? What an unnecessary move! It's so fancy!"

Lin Yi smiled bitterly inside. Was this unnecessary? Daniya was an expert of the darkness magical beast clan, and her body's strength and defensive abilities far exceeded that of a human of the same level.

The power of the stars that the Hunter camp obtained was said to have the ability to kill cultivators below the great circle of heaven breaking in one blow. In other words, it might not have a fatal effect on cultivators above the great circle of heaven breaking.

Daniya's defense might have already exceeded the fatal range of a sure-kill opportunity. She could be guaranteed to not die even if she was attacked, but with this punishment, she would definitely die!

"You must be careful too, don't let them touch you!"

Lin Yi didn't say anything more and returned Daniya's words. He jumped up to the sixth floor, and Daniya smiled brightly as she followed.

The people who were watching Lin Yi didn't understand. They thought that Lin Yi was from the Hunter camp and that Daniya was from the hunted camp after changing camps.

Although the two were friends, the Hunter camp's condition for victory was to kill everyone in the opposing camp. As long as Daniya wasn't dead, Lin Yi couldn't win, unless he became a member of the Hunter camp.

What was going on now?

Two people from different camps could live in peace?

The sturdy man who stopped Daniya didn't see the battle between Lin Yi and the heart confusing Shadow Demon and naturally wouldn't mistake Lin Yi for a Hunter. Seeing Daniya change camp and come back up with Lin Yi, his instinct told him something was wrong.

"Brat, you're courting death!"

The burly man grinned as he attacked Lin Yi, using his star energy to boost his chances of killing. He didn't want to waste it after two more chances.

Anyone who could threaten the passage must be killed immediately!

Lin Yi's face was calm. He was in the air and had nowhere to go. He seemed to be in a desperate situation facing the strong man's attack.

However, the attack, which was enough to kill a normal complete sky-breaker, passed through Lin Yi's body without any resistance. It didn't cause any damage.

A shadow?

The burly man was stunned. A warrior at the sea splitting stage could actually accelerate in the air and leave a shadow behind?

"Don't think that you can escape from such an insignificant skill!"

After the shock, the man was a little angry. He instantly changed his attack and continued to chase Lin Yi!

The attack pierced through another shadow, but it was still useless!

How was that possible?

The burly man's eyes were about to split. He felt that there was no problem with his eyesight. He had completely captured the boy's trajectory. Why did it turn out like this?

How could he Dodge his sure-kill attacks in the air?

Lin Yi's voice came from behind the man, "I dodged it, but can you?"

Three appearances of the cloud Dragon!

Lin Yi used the mysterious movement technique to trick the man, and before the man could react, he was already behind him, his hand pressing on the man's head.

The Super pill fire bomb exploded!

With an expression of disbelief on his face, the burly man struggled dejectedly for a moment. His head exploded like a watermelon. From a distance, it looked like red fireworks had bloomed and turned into nothing in the flames.

Lin Yi didn't stop, turning around and running into the room, super limit butterfly micro steps at full speed, so fast that no one could react.

"He's not from the Hunter's camp! He's from the Hunter's faction!"

Someone exclaimed, finally understanding the situation. Both camps looked at the room Lin Yi went into.

In an instant, everyone began to rush to the room on the sixth floor. Those who could make it to this place basically had high intelligence. Before the paper window was broken, they might not have understood, but once the paper window was broken, they basically understood what was going on!

The Hunter camp knew where the room was. Lin Yi had just killed one of the guards and charged into the room. If they didn't stop Lin Yi now, they would be done for!

"I'm from the Hunter's camp. Brothers from the same camp, reveal your identity and go help!"

A martial artist shouted loudly and self-destructed his identity. The mark of the star Cloud tower proved the authenticity of his words.

"I'm also from the Hunter's camp. Let's go together!"

"Me too ..." He said.

"Me too ..." He said.

With someone taking the lead, a few other cultivators immediately followed suit and revealed their identities. With the star Cloud tower as proof, no one had to worry that this was a lie.

Previously, he had to stay hidden to avoid being attacked by the Hunter camp, and at the same time, he didn't want his position to be known by others at all times.

Now, there was nothing to worry about. It was already the final decisive battle, so what was the point of keeping it a secret! He would have done it immediately!

Of course, not everyone responded. Some people were carefully considering if this was Lin Yi's scheme. After all, Lin Yi's identity hadn't been revealed yet. What if he really was from the Hunter camp?

Was he digging a hole to bury someone just now?

"Brothers who want to reveal their identity, gather together. Those who continue to maintain their identity are enemies. Kill them on sight, don't show mercy!"

The first martial artist who self-destructed had a clear mind. As he climbed over the fence from upstairs to the sixth floor, he loudly commanded the other martial artists in the same camp to take action.

It was either one or the other, so it was easy to choose one of the two.

Chapter 9164 Power

If he was not willing to reveal his identity at this time, he was undoubtedly an enemy. There was no need to hold back!

In this way, those who still had concerns were at a loss. Helplessly, they could only reveal their identities and gather together to attack the rooms on the sixth floor.

Including Daniya, who had switched camps, ten heaven breaking cultivators had gathered in the two seconds after Lin Yi entered the room. They gathered in the corridor on the sixth floor from different floors.

At the same time, the people from the Hunter Union also quickly assembled. However, their momentum was much weaker in terms of numbers. There were only six heaven breaking stage cultivators, which was nearly half of the total number.

"I'm from the Hunter's camp, state your identity!"

Before the six of them gathered, someone shouted coldly. The current situation seemed to be disadvantageous to them, but they still had the chance to kill the star Cloud tower in their hands.

If they were to really fight, they wouldn't be afraid of the enemy's numerical advantage, but if they were stabbed in the back, it would be a tragedy.

The other side had already made it clear that they were going to fight head-on, so there was no need to continue hiding their identities. On the contrary, it would leave a loophole. If one or two people from the other side hid their identities and pretended to be one of their own, and sneaked in during the battle, who would they reason with?

Originally, if they self-destructed, they would automatically switch to the side of the hunted. To be honest, that didn't seem too bad. There was strength in numbers, and it was easier to clear the game.

Unfortunately, after Daniya switched factions, the people in the Hunter faction were notified that self-destruction would no longer change factions. They would only lose one chance to kill!

The hunters who received the news couldn't help but curse in their hearts. Wasn't this differential treatment?

They had no choice. The rules were set by the star Cloud tower. If they wanted to play, they had to abide by them. Hence, they didn't mind exposing their identities. Compared to losing a chance to kill, it was obviously more tragic to be plotted against from behind.

The other five also understood this point and followed suit to reveal their identities. With the confirmation from the pagoda, the six Warriors quickly formed a team and charged at the ten people in front of them without showing any weakness.

It'd only been two to three seconds since Lin Yi rushed into the room, and they didn't know what happened. Would the outcome be decided before they even started fighting?

As someone was thinking this, the room suddenly shook violently. A figure flew out like lightning, broke through the fence of the floor, and flew straight out.

"Sima!"

Daniya's eyes were sharp, and she saw that it was Lin Yi who was sent flying. She panicked. Although there was only one fighter left, the other party had the chance to kill him given by the star Cloud tower. Lin Yi might not be able to block it.

Had he been hit? He wouldn't die just like that, would he?

Thinking about how Lin Yi was killed in one shot, Daniya felt a little flustered ...

Lin Yi threw out a rope, tied it to the fence, and pulled hard, pulling his body back in an instant.

"Daniya, Don't worry, I'm fine!"

Before he could finish his sentence, Lin Yi had already rushed back into the room.

The two teams that were about to clash in the corridor did not know whether to continue or not. They stopped and looked towards the room.

Everyone was just about to start a fight, but with this sudden attack, their emotions were all in disarray! This was great, even the thought of making a move had faded.

Whoever wanted to go in couldn't, and the two sides were in a stalemate. Everyone's attention was on the room, waiting to see if Lin Yi could take care of the last guard!

Daniya was the one who was worried about Lin Yi the most, but she had complete faith in Lin Yi, the blind kind. She really didn't need to worry when Lin Yi told her not to.

There was only one heaven breaking cultivator left inside, and even if the star Cloud tower gave him a chance to kill, he had to hit Lin Yi first!

What Daniya didn't know was that the heaven breaking expert in the room actually hit Lin Yi, using the star Cloud tower's sure-kill opportunity!

If it weren't for that, Lin Yi wouldn't have been sent flying out of the room.

If it were any other practitioner, they'd probably be dead by now, but Lin Yi was different. His body had touched the threshold of the late-stage heaven breaking realm under the refinement of the star power, but he couldn't use his full strength because of the star power in his body and soul.

This wasn't a big deal-the most important thing was that Lin Yi had already reached the peak of the third stage and was starting on the fourth stage.

The other practitioners here didn't even have the complete first stage of the chant. The star Cloud tower gave the Hunter faction a chance to kill, but it didn't work for Lin Yi.

Lin Yi was ambushed by the Ambusher, and he felt that he could guide the power of the stars. It worked after trying it out. He couldn't completely dissolve it, but he was hit by some of the aftershock. He was only sent flying without any injuries.

In the room, Lin Yi's butterfly steps allowed him to move around in the narrow space, not giving his opponent a chance to hit him.

The hidden Hunter's face was gloomy, and his thin body was slightly hunched. He held a shield in one hand and a single sword in the other. The sword light flickered continuously, filling every corner of the room.

However, Lin Yi's butterfly steps was always able to find the weak points in the blade light, and he was like a butterfly dancing in the small gaps.

"Brat, what's the use of just hiding? If you want to enter the passage, you have to beat me! I'm standing here without moving, what can you do to me?"

The Thin Man suddenly retracted his Saber Light. Realizing that his attack was ineffective, he decided to withdraw his attack. He crossed his saber and shield in a defensive posture. With a mocking smile on his face, he said, "If you have the ability, come and try and see if you can enter the passage under my defense!"

As he spoke, the man's body exuded a heavy aura, standing in front of Lin Yi like a mountain. That thin and Hunchback figure also seemed to have become a towering mountain that was difficult to cross.

Shield stance: immovable mountain!

This was a martial artist who specialized in defense. His thin and small figure was very deceptive. In fact, he was extremely famous in the heaven's legacy continent. When he used all his strength to defend, even seven or eight experts of the same level would find it very difficult to break through his defense in a short time.

As a middle heaven breaking expert, his attack power could only barely reach the peak of the early heaven breaking stage, but his defensive power was really unmeasurably strong!

The person the star Cloud tower had chosen to defend the tunnel was not simple. He was the final defensive trump card, and Daniya's complete heaven splitter's strength was also one of the strongest.

He just didn't know how strong the strong man Lin Yi killed was. He didn't have the chance to know now.

"What are you so proud of? Was it glorious to stand still and get beaten up? I've never seen such a shameless person before. Since you want to be beaten up, I'll fulfill your wish!"

Lin Yi stopped in his tracks and opened his hands, forming two super alchemy bombs. In terms of explosive power and destructive power, these were one of the strongest skills Lin Yi had.

Chapter 9165 Power

Half of the skinny man's face was hidden behind the shield, and a hint of disdain flashed in his eyes."Such a gaudy thing. It won't even make a splash if you throw it into the water, right?"

"Try it and you'll know whether it can make a splash or not!"

Lin Yi smiled faintly and didn't argue. After the Super alchemy bomb was formed, he raised both his hands and hit the shield.

It wasn't that Lin Yi didn't want to attack The Thin Man directly, but the shield was quite interesting. The invisible force field covered the tunnel behind him, and if you wanted to touch him, you had to break through the invisible force field first!

Under Lin Yi's precise control, the power of the two super alchemy bombs was concentrated at one point. Even a peak of late earth-opening stage wouldn't dare to face such power head-on.

However, The Thin Man didn't even move his eyebrows. The shield was as steady as a mountain and didn't move at all!

There were some fluctuations in the invisible shield force field. With the point of explosion as the center, circles of transparent water-like ripples appeared in the air. When the power of the explosion dissipated, they also disappeared.

"Just this? I have to admit that I have underestimated you. You can indeed make two small splashes. Shouldn't I give you a good compliment?"

The skinny man laughed, continuing to taunt Lin Yi. "You haven't eaten, are you so hungry that you don't have any strength? Why don't you make something to eat first before fighting? Don't worry, no one can get there first. With me here, no one can break through my defense!"

"Tsk," Lin Yi snorted, "I didn't expect your turtle shell to be so hard. What are you afraid of with this protection?" Just stick out your tortoise shell, what do you want to do with half of it? Is it because you know you're too ugly to be seen?"

When it came to taunting, Lin Yi wasn't afraid at all-he was the one who was scared!

"Are you afraid of being beaten up since you were young, so you deliberately put on a turtle shell and think that you can protect yourself? Have you ever thought that if your turtle shell is broken, what other methods do you have to avoid getting beaten up?"

Lin Yi was spewing trash talk with the skinny man while thinking about how to solve the situation. The skinny man's defense was indeed stronger than he imagined.

The Super pill fire bomb could only cause a few ripples, and his other skills would probably not be of much use.

As he spoke, Lin Yi tried to use his spirit sense to break through. Unfortunately, The Thin Man's shield not only blocked physical attacks, but it also perfectly dissolved spiritual attacks.

It was ridiculous!

It wasn't a lie to say that he was wearing a turtle shell ... The key was that this turtle shell was really F *cking hard!

"Kid, stop talking nonsense. You don't have much time left. If you can't enter the passage within the time limit, the Hunter faction will lose!"

"Old turtle, stop talking nonsense. You don't have much time left! If you can't kill everyone in our camp within the time limit, you'll lose for sure! Do you think you can kill me just by hiding in your turtle shell?"

Lin Yi didn't even need to think of words-he just retorted with logic and reason.

The situation was a little awkward-the Hunter camp was supposed to be on the defensive, and the skinny man should be the one attacking, but he couldn't attack properly and was just defending. Lin Yi didn't know what to do with the turtle shell.

"I don't need to kill you. I just need to guard the passage and not let you steal the chicken. As for killing you, my companions will do it!"

The Thin Man chuckled and said, "aren't you worried that your companions outside will all be killed?" Perhaps you have more people, but the attack from our camp can't be stopped by numbers!"

The star Cloud tower had given them a chance to kill, and to these heaven breaking cultivators, it was really a one-hit kill!

Only a weird guy like Lin Yi would be fine after taking a direct hit-the skinny man felt like he'd just swallowed a fly!

What happened to the chance to kill? If he couldn't be killed, he should at least be crippled, right? Why did he come back alive and kicking?

"Ha ... You don't have to worry about my companions. It's more reliable for you to worry about yourself. Don't think that you can hide behind a Tough Turtle shell forever. It's not difficult for me to break your turtle shell!"

Lin Yi really wasn't worried about the situation outside. Daniya's strength was above the others, and no one outside was her match. More importantly, she had learned the third stage chant that Lin Yi had derived!

The skinny man had used the killing chance in Star Cloud tower and couldn't kill Lin Yi. At the same time, the people from the Hunter camp outside couldn't kill Daniya!

Putting aside the battle outside, Lin Yi was more concerned with how to break through the opponent's heavy defense. If super alchemy bombs couldn't do it, what else could he do?

The answer was yes, but Lin Yi didn't really want to use it ...

"Boastful brat, if you have the ability, then quickly use it. You can't waste time like this! Could it be that you want to wait until the end and then say that you didn't have time to use it?"

The Thin Man naturally didn't believe it. He was completely confident in his shield power. He was sure that no martial artist within the heaven breaking stage could break through his defense by relying on their own strength.

He then saw Lin Yi take out a hammer ... Or a hammer, to be more precise. After all, the Hammers used by generals were all round, not cylindrical things like this.

Lin Yi had brought out his trump card-he'd kept it away ever since the king of junk made the hammer, since it didn't really look that cool.

In comparison, the demonic blade was much prettier and cooler to use ... Of course, Lin Yi wouldn't admit that he didn't want to use it because of the embarrassing shape.

It's because this thing is too powerful, and it's not usually used!

Moreover, in order to fully exert the power of the hammer, it was best to have the support of true Qi. On the sub-Island, in the case of not being able to use true Qi, the difference between lifting the hammer and using the demon devouring sword was actually not that big.

The skinny man was stunned for a moment, then he laughed and said, ""Little brat, are you here to make a joke? Do you think that a big hammer can break my shield form, unmoving mountain? Too naive! You can't kill me, so you want to make me laugh to death?"

Lin Yi spat on his palm and held the hammer tightly, a cold smile on his face. "It's best if you die of laughter soon, or you'll cry to death later! You should feel honored to see me use it against you!"

"By the way, do you have enough money on you? The big hammer here costs 80 yuan and the small hammer costs 40 yuan. The price is open and honest! Don't go back on your word when the time comes!"

The skinny man laughed wildly. "What an interesting kid. You have a way with jokes. If we were outside, I would really want to take you in as my personal servant. It's not bad to listen to your jokes when I'm free!"

Chapter 9166 The End

Before he could finish, Lin Yi had already raised his hammer and smashed it on the skinny man's shield. He shouted, "Eighty!"

With a loud explosion, the entire room shook violently. The Thin Man's expression changed greatly. The surface of the shield flashed with lightning and flames. The invisible force field trembled rapidly, and even the air was distorted.

The power of Lin Yi's hammer was even stronger than the two super alchemy bombs combined. Although the Super alchemy bombs were just casually formed, Lin Yi didn't use his full strength this time!

"Eighty! Eighty! Eighty! Eighty! 80!"

Lin Yi didn't stop. The hammer turned into a windmill, hitting the shield.

The shield that was as immovable as a mountain only lasted for two seconds before cracking sounds began to appear. The invisible force field was filled with cracks and was already on the verge of collapse.

The skinny man's face turned green. What the hell was this? A demolition team? Did he have to be so overbearing?

He really didn't think that his immovable mountain of a shield would be smashed by a person with a hammer. He couldn't even dream of such an absurd plot!

"Hey, hey, hey! Didn't you say little hammer is 40? Show me what little hammer looks like!"

The skinny man panicked and blurted out, telling Lin Yi to use the small hammer ... The big hammer couldn't take it, but the small one should be able to hold on a little longer, right?

He didn't care if Lin Yi would care or not-the hammer was still hitting his heart!

"You want to see little hammer? That's fine too!"

Lin Yi, on the other hand, followed the advice-the shield's invisible force field was pretty much broken, and the hammer in his hand no longer flew up. He changed to a spear technique and stabbed out.

"Forty! Forty! Forty! Forty! Forty!"

Lin Yi was having fun-he wanted the skinny man to last a little longer. It was rare for him to bring out the hammer, and the feeling of intimacy and the smooth attack was fascinating!

The skinny man spat out a mouthful of blood. This F * cking ... Small hammer was not inferior to a big hammer!

Lin Yi used the stabbing technique to hit the skinny man's shield again and again, and the shield only took two hits before it collapsed. The skinny man was relying on the shield to block Lin Yi's hammer attacks.

However, this thing was too powerful. When it hit the shield, the huge force was transmitted, and The Thin Man took at least half of the impact!

Even if he was a heaven breaking cultivator known for his defense, he still couldn't withstand the attack of the hammer!

The Thin Man wanted to cry, but no tears came out. He kept wailing in his heart. What the hell is this damn hammer? Why was the power so strong? I've never heard of such a thing!

The skinny man didn't last long either-he only held on for a second after his shield was broken, and Lin Yi smashed him into pieces!

"What a fool. The star Cloud tower gave you the opportunity to use the power of the stars. It's not just for attacking. If you use it for defense, it can also strengthen your defense!"

Lin Yi put away the hammer and looked at the skinny man's body. He turned back to the tunnel.

Without the skinny man's obstruction, the tunnel was completely in front of Lin Yi. He only needed two or three steps to walk into the tunnel.

It didn't matter what happened outside as long as Daniya was fine. Lin Yi's spirit sense was restricted, but it wasn't to the point where he couldn't feel it at this distance.

Not only was Daniya fine, she was also very fierce. In the Hunter faction, she was the only one who was at ease and killed in all directions. The others were all suffering because of the killing opportunities given by the star Cloud tower to the Hunter faction.

Out of the ten, five had already been killed. The remaining five, with the exception of Daniya, were in a sorry state. Their faces were covered in dirt, and it wasn't enough to describe their situation.

Lin Yi wasn't interested in going out to help, so he stepped into the tunnel. Everyone received the message in their minds-the test was over!

The Hunter's camp won the battle, and Lin Yi entered the tunnel alone. The others from the same camp won automatically and appeared at the center of the platform together.

It was still burning like a star, and other than Daniya, there were four other Warriors from the Hunter camp.

They were previously comrades in the same camp, but after passing the test, they immediately subconsciously distanced themselves and guarded against each other.

In the star Cloud tower, how could there be any friendship between strangers? They were all competitors. Who knew who would suddenly be ruthless enough to eliminate dissidents?

Daniya stood beside Lin Yi naturally and looked around in disdain, "What are you all so nervous about? If I wanted to deal with you, I could have done it in minutes. Why would I wait for you to be on guard? If there's nothing else, then hurry up and leave! Don't be an eyesore here!"

"The next time we meet, you'd better pray that we're not enemies. Otherwise, you'll know that your vigilance now is meaningless!"

The four practitioners were a little embarrassed. They'd seen how strong Daniya was, and Lin Yi was even more mysterious. On the surface, he didn't even look like he was in the heaven breaking stage, but he was the one who took the most credit for passing the test.

And looking at the combination of Lin Yi and Daniya, the strong Daniya wasn't the main one ... This was something worth thinking about!

The rewards were given out after the test, and the four didn't want to have too much to do with Lin Yi and Yushu. After all, they could still form an alliance if they were of similar strength, but if one of them was too strong, it would be like joining someone else.

"I have to thank the two of you this time. Although we are all from the same camp, it was thanks to the two of you that we were able to pass the test. I can only thank the two of you here."

One of the cultivators said in a distant and polite manner, cupped his hands slightly, and then smiled, "I won't disturb you any further. I'll take my leave first, farewell!"

After he finished speaking, he still maintained his vigilance and teleported to the fifth floor.

The other three didn't dare to delay and cupped their fists to bid farewell before entering the fifth floor. They were afraid that they would be killed by Lin Yi and Daniya if they stayed any longer ...

After everyone left, Daniya looked at Lin Yi strangely, "Sima, are we still not leaving? What are you waiting for?"

The first team had already lit up the seventh level of the star Cloud tower. Daniya felt that they should make great progress and catch up with the first team as soon as possible. They could not afford to dawdle.

Lin Yi pinched his chin and frowned, "Daniya, don't you think that ... The star Cloud tower is a bit subjective?" I can feel that I'm being targeted ... It might not be accurate to say this, but some of my abilities were indeed restricted by the star Cloud tower after I displayed them. "

Chapter 9167-

This wasn't nonsense. Lin Yi's spirit sense, wood forest thousand transformation, lightning escape technique, and so on were all restricted in the crucial test. For example, in the test just now, if he had wood forest thousand transformation and lightning escape technique, he could find the tunnel in minutes.

It was a coincidence that Daniya was in the Hunter camp, and she was assigned to guard the tunnel. Lin Yi's shout exposed the tunnel's location.

At the same time, another guard was drawn out, and the man died a very sad death. He didn't even have the chance to use his strength before he was killed by Lin Yi.

If it weren't for Daniya, it wouldn't be so easy for Lin Yi to break into the room that the three of them were guarding.

"Hmm ... Are you trying to say that the star Cloud tower is being controlled by someone? Someone is watching us from behind the scenes?"

Daniya mimicked Lin Yi and pinched her chin, "That makes sense. It seems like the star Cloud tower is slowly encouraging the cultivators to kill each other! But what's the point of that?"

"If the star Cloud tower wanted to kill someone, they could have just killed him! Who among those who entered the pagoda could withstand the attacks of the pagoda? This is simply a small matter of catching a turtle in a jar!"

Lin Yi nodded slightly. It was true that the star Cloud tower was slowly encouraging the martial artists to kill each other, but it wasn't the case that the purpose of the tower was to kill the martial artists who entered.

Just as Daniya had said, if the star Cloud tower wanted to kill someone, they would just kill them. Even a master at the great circle of heaven crushing like Daniya would not be able to resist the star Cloud tower.

"That's why the probability of the star Cloud tower being controlled by someone is not high. I'm more willing to believe that the star Cloud tower itself has a certain level of intelligence and will make some limited adjustments according to the situation."

Lin Yi's eyes lit up at the thought. "Some of my skills have touched the bottom line of the Nebula tower. Thus, after I used them, the Nebula tower imposed some restrictions."

"As for why it encourages killing but doesn't kill directly, I think it's because of the restrictions of the star Cloud tower. It can't kill anyone who enters on its own accord. It can only guide others to attack and kill each other within the scope of the rules!"

Daniya blinked in confusion, ""So? What can we do even if we know this? Are you leaving the star Cloud tower?"

"Of course not!"

Lin Yi smiled, "if I'm not wrong, the star Cloud tower really has its own consciousness. Perhaps we'll be able to obtain more opportunities than we can imagine ... Although it has restrictions on me, thinking about it, it doesn't really apply to that level."

To put it bluntly, the star Cloud tower seemed to be preventing Lin Yi from cheating, but it also gave Lin Yi a temporary star undying body skill.

This thing, to put it bluntly, was equivalent to a plug-in!

Activating invincibility at the critical moment, swinging a big hammer and randomly smashing with 80 - 40 big hammers and small hammers, who could withstand this?

"Alright, you're the boss, so you have the final say!"

Daniya shrugged, "I'll listen to you, whatever you say!" So what should we do now? Should we continue chatting here, or should we hurry into the fifth floor to catch up?"

"...Let's go!"

Lin Yi didn't say anything and entered the portal. Of course, he was on full alert this time, ready to activate the star undying body at any time.

He had already been ambushed by the golden-black Shadowfiend once, and he would not be able to survive another one!

The opportunity to use the star undying body was too precious. If he could save it, he would. Wasn't it nice to use it as a trump card at the last moment?

Fortunately, it went smoothly this time. No one was lying in ambush at the entrance of the fifth floor. After the Golden dark shadow Demon failed once, it seemed that it did not intend to repeat such a small trick.

Or perhaps the Golden dark shadow Fiend's clone was lying in ambush at another entrance. After all, there were four stairways of stars on each level, and no one knew which stairways they would be teleported to.

No matter how powerful the Golden dark shadow Fiend was, it was impossible for it to send its doppelgangers to the four entrances to ambush them.

"Oh right, I wanted to ask you about the mind confusing Shadow Demon. If I didn't think about the ambush of the Golden dark shadow Demon, I would have forgotten about it!"

Lin Yi remembered the Golden dark Shadow Demon's sneak attack and the mind confusing Shadow Demon. "I just encountered a doppelganger of the heart confusing Shadow Demon that could control heaven breaking cultivators. It seemed very powerful."

"According to him, the heart confusing Shadow Demon is a branch of the Golden dark shadow Demon. Tell me the details. This guy is a little strange. I need to know more information to avoid suffering losses next time."

Daniya was stunned for a moment, "you actually encountered the heart confusing Shadow Demon?" I don't even know. "

She was in the room and didn't see the fight between Lin Yi and the shadow Demon. People from the same camp wouldn't tell her what race they were, so it was normal that she didn't know.

"The bewildering Shadow Demon is indeed a branch of the dark gold shadow Demon. Although it did not inherit the dark gold bloodline, this race is very powerful and is enough to be listed as a bronze bloodline."

"However, the mind confusing Shadow Demon is determined to become a dark gold bloodline race, so it never acknowledged anything like bronze bloodline. They worship the dark gold shadow Demon, but at the same time, they hate it. They want to replace it."

"If you want to anger a bewildering Shadow Demon, you can just say that he's inferior to the Golden dark shadow Demon! Their abilities are similar to the Golden dark shadow Fiend, such as doppelganger and shadowification. "

"But the bewildering Shadow Fiend has far fewer doppelgangers than the golden-black shadow Fiend. Those with poor talent can only have two doppelgangers. The most talented bewildering Shadow Fiend can only have five doppelgangers. That's six if you include the original."

"However, the mind confusing Shadow Demon can control the enemy and turn them into its puppet fighters. This is an ability that the dark gold shadow Demon doesn't have."

"The number of golems each mind-confusing Shadowfiend can control is determined by the number of doppelgangers it has. Each mind-confusing Shadowfiend has two doppelgangers, and each doppelganger can only control two golems. That's six golems in total, including the original."

"The most talented heart confusing Shadow Demon can control five puppets with each clone. Including the main body, it can control thirty puppets. In terms of numbers, it can be compared to the Golden dark Shadow Demon's clones."

"It's precisely because of this that the bewildering Shadow Demon feels that it can be compared to the Golden dark shadow Demon, or even replace it. However, in the darkness demon beast clan, the Golden dark shadow Demon is the publicly acknowledged golden bloodline, and its status as a branch of the bewildering Shadow Demon can not be shaken."

Daniya and Lin Yi climbed up the stairs as they talked about the heart confusing Shadow Demon, not delaying their progress.

Lin Yi smiled and nodded, "I understand now. The heart confusing Shadow Demon worships the Golden dark shadow Demon so much that it wants to replace it. It's because it feels inferior, right?" Then, how did this race control Warriors to become their puppets?"

The scene of the heart confusing Shadow Demon easily controlling the two heaven breaking cultivators was still vivid in his mind. If this thing wanted to infiltrate human society, it would really be a great disaster!

Chapter 9168 The End

"Heart-confusing shadow fiends...I'm not too sure how they control people to become puppets. I heard that their primal souls are very powerful, and their clones are formed from divine will. I guess it's a technique related to the primal soul."

Daniya didn't look very sure and pouted, ""Sima, you were able to escape unscathed from the heart-confusing Shadow Demon, so you should have gained some insight. You're an expert in primordial spirit, do you still need to ask me?"

"I think you're the heart confusing Shadow Demon's nemesis. Your primordial spirit is definitely stronger than the heart confusing Shadow Demon 's, so you don't have to worry about being at a disadvantage when you encounter it. You should be worried about the heart confusing Shadow Demon. They should be praying that they don't encounter a nemesis like you!"

Daniya laughed as she finished. She had full confidence in Lin Yi and truly believed that he could handle the heart confusing Shadow Demon.

Lin Yi laughed and didn't comment on that. The two soon arrived at the thirty-third step as they talked. They thought they'd have a test, but it didn 't.

The reward and the choice to withdraw from the thirty-third step still existed, but there were fewer obstacles, and he could pass directly.

"Could it be that there's too few of us, and the star Cloud tower doesn't think it's necessary, so they let us pass?" Lin Yi asked, confused.

Daniya rolled her eyes and immediately laughed. "I think the star Cloud tower has recognized our strength and wants us to hurry up and fight those guys."

"Rather than trapping us in the back and wasting time, it's better to catch up as soon as possible. The star Cloud tower doesn't want to see the first echelon leave us in the dust. They want us to be the disruptors!"

Lin Yi raised an eyebrow and nodded in agreement. "Daniya, your analysis is very reasonable! Then we might as well slow down. We can't let the star Cloud tower control us, right?"

Although he said that, Lin Yi wasn't slow at all. He continued to climb at a fast speed with Daniya. Whether or not it was like what Daniya said, Lin Yi wouldn't give up on the opportunity to shorten the distance between them and the first group.

Unsurprisingly, there were no obstacles on the sixty-sixth step. The two of them went up smoothly all the way and did not even meet anyone else here.

Lin Yi only stopped her when they reached the Ninety-eighth step.

"Sima, what's the problem? Did you notice something wrong?"

Daniya immediately went into a defensive position. Lin Yi's sense of danger was very accurate, and she had seen it before. Seeing Lin Yi's movements, she instinctively thought that someone was lying in ambush, but after careful observation, she didn't find anything.

If he didn't find anything, he had to be even more vigilant!

Lin Yi smiled and waved his hand, "it's not dangerous. I've just figured out a part of the fourth stage's chant. It shouldn't take too much time to try it out here. Give me a while."

Daniya relaxed a lot. She'd tried the chant Lin Yi had come up with, and it was really awesome!

If not for this, Daniya wouldn't have been so relaxed when she faced the Hunter camp. After all, even a warrior at the great circle of heaven crushing would have been killed by the power of the star Cloud tower in a second.

Lin Yi sat down cross-legged and started to practice the chant. The first three stages didn't require Lin Yi to practice at all—he could practice it while walking.

It was different this time. He hadn't finished the fourth stage yet, and he realized that it was helpful in removing the star energy from his body and sea of consciousness. He had to focus on it to avoid any accidents.

He didn't encounter any problems on the thirty-third and sixty-sixth steps, but that didn't mean that it would be calm on the Ninety-ninth step. What if the essence of the fifth step was concentrated here?

Lin Yi didn't spend too much time trying. Three minutes later, he opened his eyes and stood up.

"Sima, what's the situation? Are there any problems with the fourth stage?"

Daniya asked curiously, surprised at the same time. It had only been three minutes, and Lin Yi's aura had gotten a lot stronger. It was clear that the effect of the fourth stage was quite good, but she didn't know if it was complete.

If it was complete, Lin Yi shouldn't have only cultivated for three minutes, right?

"The situation is not bad, but there is still room for improvement. For now, I can only remove a little bit of the power of the stars in my body, about one-tenth."

Lin Yi had a smile on his face, a bit of joy in his heart. "Don't look down on this one-tenth of it. After it was removed, it was immediately refined into harmless star power and used to temper my body. "

"It's equivalent to releasing the power I need to suppress the power of the stars and increasing the upper limit of my body at the same time. With this, the power I can exert will be much stronger."

Compared to before, Lin Yi's strength had indeed increased greatly. He wasn't at the heaven breaking stage yet, but he was half a step into it.

Normal heaven breaking cultivators couldn't be compared to Lin Yi when he could use pure Qi.

"That's great! The more power you recover, the faster we will be able to climb. I don't know where those who tried to plot against me are now. If they have left the star Cloud tower, then it's fine. But if they are still ahead of us, we will catch up to them and teach them a lesson. "

Daniya's joy faded and she began to speak ruthlessly. She still couldn't forget the losses she had suffered previously, and was looking forward to finding those despicable people who had ambushed her!

"Hehe, maybe we've already gone too far. They might still be floating behind us. But it's okay. It won't be too late to find trouble with them after we get out of the star Cloud tower!"

Lin Yi teased as he looked up at the Ninety-ninth step. "It's time to go up. I wonder what kind of test it will be this time?"

It didn't matter what test it was, the most important thing was to not make any enemies. If Lin Yi and Daniya became enemies, and only one of them could live, then it would really be death!

Lin Yi was a little worried, but he couldn't split up. He could only take it one step at a time. Fortunately, he still had a chance at this level of the indestructible star body-there was still a chance to turn the tables.

The two of them collected their thoughts and climbed the Ninety-ninth step at the same time. As expected, there was a test on the last step. It was not as easy to pass as the thirty-third and sixty-sixth steps.

As soon as Lin Yi and Daniya went up and saw some people waiting, the scene changed.

This time, everyone appeared on the same star chessboard. There were 18 people in total, but the number was not full yet, so they could only continue waiting.

Chapter 9169 Power

The Xingyun tower's notification was sent to Lin Yi and Daniya's minds at the same time, explaining the rules and content of this level clearly.

There were 20 people participating in the test at the same time. They were divided into two teams and played as chess pieces on the chessboard. The form and rules of chess were somewhat similar to Chinese Chess, but the number of chess pieces was fewer than Chinese Chess.

Each side had a commander, two guards, two horses, and five soldiers, which were all the chess pieces. There were no elephants, no chariots, and no cannons. The rules of movement of the chess pieces were basically the same as that of Chinese Chess, but the commander was not limited to the "mi" grid and could move freely.

This was closer to chess. In short, the rules of the game were not complicated, and everyone could understand.

In addition, there was another very important point. Eating a piece did not necessarily mean eating it. The piece who ate first had the advantage of rules, but the two pieces still had to fight to the death.

The chess piece that attacked first would receive the star power from the star Cloud tower. If the chess piece that was eaten could resist and kill the opponent, it would be the other party sending their head to the door.

The condition for victory was the general's death. The power to play chess was in the general's hands. Therefore, if the general didn't want to die, he had to do everything he could to protect himself.

After the game started, the chess pieces could not move on their own and had to be commanded by the master. The chess pieces had no power to resist after being commanded. Even if they were to die, they had to stick out their necks to block it!

After understanding the rules, Lin Yi and Daniya's faces didn't look too good. If they weren't the leader, it was equivalent to losing all their autonomy. It wasn't a happy thing to have their lives in someone else's hands!

"Sima, what if we're not on the same side?"

Daniya couldn't help but whisper, "The number of people is not full yet, so we are not splitting up. If we split up, wouldn't we be killing each other?"

It was precisely because no one was in a team that everyone else was quietly observing the people around them. Anyone could become a teammate or an opponent. No one was willing to speak and reveal their information, causing the chess space to be very quiet.

Daniya and Lin Yi were naturally soundproof, but even so, she still lowered her voice subconsciously, afraid that someone would hear her.

Lin Yi sighed and shook his head with a bitter smile. "This is not easy ... If we really become opponents, we can only try our best to survive ..."

The general was about to die, but the chess piece that wasn't eaten wouldn't die. They would only be sent out of the star Cloud tower, so if Lin Yi and Daniya became opponents, they wouldn't die if they didn't get eaten.

Unless there was a duel between the two of them, that would be troublesome!

Lin Yi's head hurt at the thought of this-he'd been worried that something like this would happen ... He hoped he wouldn't be so unlucky.

After waiting for a while, two more cultivators appeared on the chessboard. They were obviously the people who had climbed up later. Finally, the number of twenty people was gathered.

The star Cloud tower began to split up into groups randomly, and Daniya couldn't help but pray that she could be on Lin Yi's side. It didn't matter who she was fighting-she wouldn't be a coward, but fighting Lin Yi ... She really didn't want to!

Perhaps the star Cloud tower had heard her prayers, or perhaps she was just lucky, but Lin Yi ended up on the same side as her. She let out a breath of relief.

"That's great! We're in the same team. We've finally avoided the terrible situation of fighting against each other!"

Daniya patted her chest with a look of lingering fear. She didn't care about the identity of the chess piece she was assigned.

As long as it wasn't a 1v1 fight with Lin Yi, anyone else was just a piece of cake!

"Daniya, what is your identity as a chess piece?"

"I'm a soldier!" Lin Yi said with a weird expression.

A team of ten, half of them soldiers ... It was obvious how normal this chess piece was ... Lin Yi thought that he was a good commander, and he was good at chess too. Would he be the main commander?

He had never expected that he would not even be able to find a corner horse, let alone a general. He was just an ordinary soldier, a soldier who could only advance and not retreat!

"Tsk!" Daniya snorted. "They didn't let you be the main commander. They were afraid that you'd be too good and directly destroy the suspense?"

She made a random guess and then revealed her identity as a chess piece. ""I'm a guard ... I'm so bored, I have to follow the commander! They're not even as good as your little soldiers!"

In the rules, the general could move freely, but the guards had to follow closely around the general. So, when the general moved, it was actually three pieces moving together. Of course, when playing, only one piece could fight.

Lin Yi felt helpless-neither of them had the right to command the team, so they could only follow orders. He hoped that this general wasn't a bad chess player.

"I am the red team's commander. From now on, I will exercise my right to command. All the chess pieces will return to their respective positions!"

A square-faced martial artist's eyes flashed with a trace of ecstasy. The commander was able to control his own fate, and was much luckier than the other nine.

He was only at the peak of the middle heaven breaking stage, which was considered a decent level among the people present. However, he was still far from Lin Yi and Daniya's level. He really didn't know how the star Cloud tower arranged the identities of their chess pieces. All because of his character?

Just how bad was Lin Yi's character to be a soldier who only knew how to advance and not retreat?

With the square-faced man's order, Lin Yi and Daniya felt an irresistible force dragging them to the original position of the chess piece. As expected, after becoming a chess piece, they couldn't disobey the general's orders.

"Daniya, it's not bad for you to be a guard. Protect that main commander and we'll definitely win this round!"

Lin Yi said before they parted, "It's called a game of chess, but in the end, it still depends on the individual strength of the chess piece. If we can keep the main general alive, we'll be in an invincible position."

"I understand. Be careful ..."

Before Daniya could finish, the two were forced to separate. She didn't know how the chess pieces would fight, but under so many restrictions, could Lin Yi still display his superhuman combat power?

With a trace of worry, Daniya, the guard, took her position. All the chess pieces were in formation, and so was the black side.

It was a good start.

The square-faced man said without hesitation, "Soldier number four, step forward!"

When Lin Yi stood in his position, his body was covered in a layer of star power, turning into a soldier. The chest armor had the word "soldier" on it, and the word "four" on the back, representing soldier number four.

The general's first step was to let Lin Yi take the lead!

Lin Yi didn't think much of it. He used his astral powers to move his body one step forward, opening the curtains to the game.

The black side's commander immediately responded, and the black side's soldiers didn't want to be outdone. They also took a step forward, and the two sides met!

Chapter 9170 The Power Of The Divine Realm

"Soldier number four, step forward! Eat the soldiers!"

The square-faced guy didn't need to be polite-this was just a probing attack, and Lin Yi was in position with the enemy soldiers, so he'd definitely test the waters first!

The commander of the black team probably had the same idea. He had never participated in a chess game before, so he wanted to use a small soldier to try out the battle of chess pieces and see what was going on.

Lin Yi's chess piece moved forward again, crossing the river between the two sides and launching the first attack on the black side!

The rules of the game stated that the first player would have one attack supported by the power of the stars, and the power of the attack would not exceed that of a martial artist at the great circle of heaven crushing!

Kill the opponent and eat the chess piece successfully. If the winner is decided within 30 seconds, the first to eat the chess piece wins and the loser dies!

Only by counterattacking and killing the opponent within 30 seconds could the devoured party continue to stand tall!

Lin Yi had a huge advantage as he was the one who attacked first. The moment the two collided, an independent fighting space was created around them, allowing them to fight as they wished.

Only in this space did Lin Yi feel that the restraint of being a chess piece disappeared, and he could control his body perfectly again.

There was no need for any special martial skills. The star Cloud tower gave the first attacker an attack. Not everyone could withstand an attack that did not exceed the power of the great circle of heaven crushing.

Lin Yi's opponent was only an early heaven breaking expert. He could only scream in despair, ""No!"

Before the ending note was even heard, his entire body exploded from the power of the stars!

In the first clash of the chess game, the red team won!

"Hahahaha, with your lousy chess skills, you might as well surrender! It'll be too late to have a psychological shadow if we kill him again and again!"

The red team's commander laughed out loud. All his caution was gone in this first battle. Lin Yi was able to take down a soldier so easily and cross the river. If this continued, he would be of great use ...

"Hehe, you've only eaten a soldier and you're already so proud. You really haven't seen the world! It's still too early to say who's going to win, but your little soldier is already destined to come here and never return!"

The black team's commander was not to be outdone, and the two began to bicker. A war of words was also a kind of battle, and it required the participation of all the members to make the momentum even greater.

Lin Yi couldn't be bothered with these two generals playing a psychological game-he carefully studied the black side's General's formation and realized that this guy really did make him the main target!

It wasn't just the two horses that were jumping up and down to attack Lin Yi, the commander was also moving closer to Lin Yi with his two guards.

The pawns that crossed the river did not have much room to Dodge!

Lin Yi didn't know what to do-he was just a small soldier, did they have to surround him like this?

The square-faced general didn't really care about Lin Yi-he even thought of throwing him away after seeing the black side move their pieces.

While the black side's attention was on Lin Yi, he secretly adjusted the red side's forces, preparing to kill their way into the enemy's territory and then launch a continuous attack.

Daniya was pissed, and wanted to ask the square-faced guy why he didn't care about Lin Yi anymore, but couldn't say anything.

After the game started, a chess piece was just a chess piece. If the general did not ask you to speak, you could not even think about speaking.

Fortunately, Daniya had full confidence in Lin Yi and believed that the black side's pieces wouldn't pose a threat to Lin Yi. However, confidence was confidence, and the square-faced guy's actions still pissed her off.

Naturally, she noted down this square-faced man in the little notebook in her heart!

If he had the chance later, he would deal with him!

Lin Yi didn't have any instructions, so he just stood there and didn't move. Soon, he was ambushed by one of the black side's twisted horses. This time, the black side had the advantage. Not only did Lin Yi not have the help of the star power, but he also had to kill the opponent within the time limit.

Other than that, all of them would be dead!

With the star Cloud tower taking action personally, even with the star undying body, Lin Yi wasn't sure if he'd be able to make it through again!

"Kid, your general has abandoned you. Just accept your death so you don't have to suffer any unnecessary pain!"

In the fighting space, both sides were given full freedom. The twisted horse of the black side was a big man with a full beard, at the peak of the early stage of sky-breaking, wielding two broad axes filled with star power. He swung them at Lin Yi's head.

Lin Yi wasn't even in the heaven breaking stage yet, and the reason why he killed the black side was because of the star energy from the star Cloud tower. The bearded man didn't even put Lin Yi in his eyes.

According to his thoughts, their strength level was already in a crushing state, and the star Cloud tower's star power when they took the first move was enough to match the attack power of an expert at the great circle of heaven crushing.

Was there any question about Insta-killing Lin Yi? Not at all!

The result was, of course, unexpected. Lin Yi was calm and composed as he faced the two axes that were wrapped in the power of the stars. He didn't look scared or panicked at all, and even had the mood to smile mockingly.

He was so confident!

"I'm afraid you're the only one who's so happy to die! Did he really think that he would have an advantage just because he attacked first? You're wrong, I'm the one with the advantage! Those who go against me are all at a disadvantage!"

Lin Yi raised his hand to guide the star energy as he spoke, "It's a pity that you don't have the chance to surrender. Otherwise, I might really let you off!"

The bearded martial artist's eyes suddenly opened wide, his pupils contracted sharply, and his face was filled with disbelief and horror. Unfortunately, the outcome was already decided, and no one could change it.

The axes wrapped in star energy were pulled by Lin Yi to the left and right, cutting down from both sides.

The violent force landed on the empty space and didn't affect Lin Yi at all, but the bearded man was exposed. He thought he could kill Lin Yi instantly, but who knew this would happen?

Caught off guard, the bearded man watched as Lin Yi took out a black sword and pointed it at his throat.

Lin Yi didn't even need to exert any strength-the bearded man seemed to be tired of living, and he sent his throat to the tip of Lin Yi's sword.

A sword to the throat!

The red team's soldiers had successfully counterattacked!

The black team's chess piece, which was a twisted horse, suddenly shattered and dissipated into the air, causing the other members of the black team to be somewhat stunned.

It wasn't strange that Lin Yi, the red side, attacked first and instantly killed the black side, but what was going on now?

Where did the Dark Horse's advantage of being the first to attack go? Why did attacking first seem to become sending him off first?

The red team's commander was also stunned for a moment, then he grinned and laughed, ""Hahaha, what a pleasant surprise! This little soldier was quite interesting, he could actually kill a horse! I've earned it!"
