

Bodyguard 9171

Chapter 9171

He'd already treated Lin Yi as a chess piece he'd given up on-his final use was to attract the attention of the black side's chess pieces. Who'd have thought that Lin Yi would be able to turn the tables and kill the other side's horse?

That's amazing!

"Soldier number four, continue to take a step forward!"

When it was the red team's turn to act, Lin Yi, who had just made a contribution, was pushed one step forward again. This was a step that would make Lin Yi's identity as an abandoned pawn even more solid!

The soldiers crossed the river with no retreat!

This was the rule of Chinese Chess, but they were not playing Chinese Chess. The main players of both sides were powerful chess pieces that could move freely without any restrictions!

If the soldier went too deep, it would be useless in the end. As long as they avoided the soldier's surroundings, it would be useless no matter how powerful they were.

The red side's commander was afraid that Lin Yi's effectiveness would be reduced, and this move sent Lin Yi right into the enemy's mouth, entering the black side's attack range.

If they could counterattack again, it would be an unexpected surprise. If they failed, it didn't matter if they were killed. At least they had disrupted the defense of the other side's guards and delayed the movements of the enemy's commander.

The guard was a cultivator at the peak of the middle stage of the heaven breaking realm, and his strength was much stronger than that of the bearded man. The commander of the black team hesitated.

Of course, he wanted to take Lin Yi's chess piece, but after losing two people, he didn't dare to do anything to Lin Yi.

After all, if his side failed, the others might still be able to live, but he, the commander, would definitely die!

"Ignore this little soldier. We'll just avoid him!"

The black commander quickly made a decision and pulled away from Lin Yi with the guards, giving up on the idea of fighting Lin Yi. The two who died had nothing to do with him anyway-he didn't have to take revenge for them.

With his retreat, the red team's commander took the initiative. The red team's chess pieces began to invade the black team's half of the chessboard.

Lin Yi seemed to have been forgotten by both sides as he stayed where he was to watch the show.

The chess pieces of both sides attacked each other, and there were wins and losses on both sides. However, the black side was currently at a disadvantage. The red side's main general was not afraid of the exchange tactic, but the black side could not afford to suffer any more losses.

After Lin Yi killed the Black Horse, he didn't kill anyone else. As long as he made the first move, he would be able to take the opponent's pieces. The black side only took the pieces that the red side's leader gave them on purpose. He didn't care about the lives of his own pieces.

Winning The Go Game would be his victory! It didn't matter if everyone else died. It would even be more beneficial to his journey in the star Cloud tower!

Seeing that the situation was looking good, the red team's commander also rushed over with his guards, ready to finish the battle in one go and completely trap and kill the black team's commander.

However, he did not expect the situation to change so suddenly. The black team's commander had deliberately sold out a few of his teammates and triggered the red team's formation. Then, he suddenly broke out and went straight for the middle Palace, killing the red team's commander with his guards.

Shoot the horse before shooting the man, capture the king before capturing the bandits!

The black side's commander grasped the main point. It didn't matter if all the chess pieces died. What was important was that he had to attack the other side's commander before he was about to die!

After enduring for so long, this was his only chance!

"Hahahaha! How naive! Do you think you can get a chance of victory like this?"

The red team's general laughed and shook his head. He pointed casually, "Guard number one, intercept!"

Daniya was the number one guard. Even though she was impatient to protect this dumbass general, her body was unable to resist the power of the Nebula Pagoda. She could only move to the position designated by the general and act as his shield to block the killing aura of the black side's general!

The black team's commander snorted and ignored Daniya for the moment. He commanded the guards beside him to attack the red team's second guard. With the advantage of being the first to attack, he easily killed the second guard and formed a pincer attack on the red team's commander.

The red team's commander could attack this guard, but after eating it, he would also be exposed to the attack range of the black team's commander.

If it was an official game of chess, it would be a checkmate. Now, there was one more step, a direct confrontation between the two main generals, and the winner would be King and the loser would be Bandit!

However, in that case, the red team leader would be in a passive position. There was no way to guarantee her survival!

"Guard number one, move one step to the left!"

Daniya was once again used as a shield. Following the orders of the commander, she moved to the side without any resistance and became the target of the guard and the black side's commander.

The black side guards attacked once again, taking Daniya's chess piece first.

The two of them instantly entered the battle space. The black side guard did not waste any words and immediately used the sure-kill attack given by the star Cloud tower!

A sure-kill attack that could instantly kill a complete heaven breaker!

Daniya was at the great circle of heaven crushing, but if she took this attack head on, she would also be completely torn apart by the boundless power of the stars!

Fortunately, Daniya had the chant that Lin Yi had derived. She didn't need the fourth stage chant to easily direct the star power to the side.

Lin Yi had already used this method once, and while the black side guard was shocked, he wasn't too surprised.

His feet slipped, and his body flashed nimbly, instantly appearing at Daniya's side. He was prepared to launch a second attack. Although he didn't have the star energy from the star Cloud tower, he was confident that once he hit Daniya's vital point, he would be able to kill her in one shot.

"What are you thinking? Do you think I'll be hit by such a clumsy technique?"

Daniya looked at the black side guard with a mocking smile. When he dodged to the side, Daniya had already made a judgment first. A straight and slender long leg was ruthlessly swung in the air, emitting a soft Sonic Boom.

Before the black side guard could react, he was sent flying as if his face had been struck by a meteorite.

He didn't even see how Daniya attacked, but he felt like he was about to die ... And then he really died.

The initial force sent him flying, but Daniya's kick had multiple hidden forces, each stronger than the last. The black side guard didn't even have the chance to land. In the air, he was blasted into ashes by the subsequent hidden forces.

The battle space converged, and the chess pieces of the attacking black side guards shattered and disappeared. Daniya was as steady as a mountain.

The red team General's heart froze. He knew that Lin Yi and Daniya were partners, but he didn't think that Lin Yi wasn't the only one who was strong. Daniya seemed to be as strong as him!

After the game started, the only two counter-kills were Lin Yi's counter-kill on the Black Horse and Daniya's counter-kill on the Black Guard!

If the others were to encounter the opponent's first attack, they would die without a doubt!

These two people were so strong!

Victory was clearly in their grasp, but Daniya had displayed enough strength. In the next move of the red team, Daniya would directly attack the black team's general, which would basically end this chess game.

"Attack!" The red team's commander suddenly ordered, "guard one, take a step forward!"

The black side's commander was stunned. He was within Daniya's attack range, and if Daniya attacked first, there was a high chance that he would be checkmated by the general!

In the end, the other party's general let him off? What did that mean?

Did he not want to win?

Chapter 9172 Power

The black side's commander was suspicious, but he quickly understood that this was an opportunity and immediately ordered the other black side guard to attack Daniya.

The battle space opened up once again. This time, Daniya's opponent was a long range Archer. When the two sides were three hundred steps away, the black side guard did not say anything and took out his bow and began to shoot arrows in succession.

He knew that Daniya was able to avoid Starcloud tower's sure-kill attack. Although he didn't know the reason, it didn't stop him from being cautious.

This was his only chance to kill. Without absolute confidence, he wouldn't make a move easily. Before that, he would use his bow and arrows to exhaust himself.

Daniya was a little impatient. The concentrated arrows couldn't hurt her, but they were disgusting enough. The opponent's movement and speed were not slow either. With the obstruction of the arrows, it was difficult to close the distance.

"Hey! How long are you going to fight like this? Can't we be more straightforward and have a battle face to face? We don't want to waste time!"

Daniya felt like she was being kited and was naturally unhappy, so she opened her mouth to challenge him.

The black side guard sneered, "I'm an Archer, and you want me to fight you in close combat?" Can't you be a little more shameless? If you have the ability, then come over yourself!"

Daniya raised her eyebrows. Are you so sure that I can't catch up to you? Fine, even if I can't catch up to you with the arrows, it doesn't matter. You'll run out of arrows one day, right? I'll see how long you can shoot!"

It wasn't just arrows. Archers also used up a lot of energy to draw their bows. Even if the other party was a heaven breaking cultivator, it was impossible for them to maintain a high intensity of firing, and it was a super strong bow.

When he couldn't draw the bow and finished shooting, he could only become meat on the anvil, at Daniya's mercy!

"Hehehe, don't worry. Before you die, I will definitely have enough arrows to deal with you!"

As the black side guard spoke, he suddenly changed his technique. The number of arrows suddenly decreased, but the speed of each arrow was more than twice as fast.

It was as fast as lightning!

Daniya's heart skipped a beat. Not only did the speed increase, but the arrow also seemed to contain a trace of star power!

Could it be that he had added the sure-kill ability of the Nebula tower to his arrows?

Thinking of this, Daniya didn't dare to be careless. She immediately chanted the incantation to guide the arrow. After deflecting the arrow, Daniya suddenly felt that something was wrong.

The power of the stars on this arrow...Was a little too thin?

Not to mention killing a warrior at the great circle of the heaven crushing stage, being able to injure Daniya was already not bad!

It wasn't the power of the stars that the star Cloud tower had given him!

Daniya didn't have time to think too much because a new arrow had come, and it still carried the fluctuations of star power. Daniya didn't dare to be slow and continued to use the incantation to guide the star power.

The following dozens of arrows were all the same. Daniya finally understood that this guy also had some means to control the power of the stars. Although the power was better than nothing, the fluctuations were enough to make Daniya nervous.

After shooting dozens of arrows in a row, Daniya instinctively relaxed a little. Anyone in such a situation would be like her. No matter how focused they were, they would always relax a little when they realized that there was no danger.

Just as Daniya relaxed!

An arrow wrapped in a huge amount of star power instantly appeared in front of her. It was really as fast as lightning, leaving no time for her to react!

Daniya was shocked. After continuously guiding the arrows of star power, she became more and more familiar with the incantation. As a result, she instinctively controlled her strength to a range that was suitable for dealing with those arrows.

After all, crushing an ant didn't require much strength, so there was no need to use all his strength to smash the ground. That might not kill the ant, and it would be a waste of strength.

Under the effect of inertia, the power Daniya guided was too weak against this sure-kill arrow, and could only shake it a little!

Unable to completely deflect the arrow, Daniya didn't have the time nor the ability to Dodge. She could only grit her teeth and twist her body, slightly tilting her body.

The arrow that was originally aimed at a vital point finally hit Daniya's shoulder. The vast power of the stars exploded and completely tore half of her body apart. Her flesh and blood were completely annihilated by the power of the stars, leaving no trace of blood.

Daniya grunted, blood foaming from her mouth. She couldn't help but take a few steps back, feeling the residual star power eroding her wounds. She immediately used the chant Lin Yi taught her to stabilize the star power.

Fortunately, the star energy was still on the surface of the wound and didn't really enter Daniya's body. Otherwise, she'd become the second Lin Yi.

The first three stages of the incantation were enough to deal with the power of the stars. Daniya's injuries had already stabilized in between her breaths and would not continue to worsen. It was just that it would not be an easy matter to fully recover.

After taking the healing elixir, the effect was not as good as he had imagined. Perhaps it was because of the special nature of the star power that the effect of the elixir was greatly reduced.

The black side Guard's bow and arrows did not stop. The sure-kill attack he had placed his hopes on had failed to kill Daniya, so he was a little panicked.

They had patiently schemed against Daniya, but in the end, they were still unable to achieve their full strength. What else could the black side guards do?

A normal arrow wasn't enough to hurt Daniya. Was he going to wait for Daniya to die from blood loss?

"Dammit! You deserve to die!"

Daniya's eyes were crimson red as her pupils contracted and expanded. After a few times, they became circular and a vertical mark appeared between her brows, as if she was about to open her third eye.

Lin Yi never asked Daniya which race she was from, and she never mentioned it. She always maintained her human appearance so that she could blend in with the crowd.

This time, after being seriously injured by the arrow, she finally revealed some of her original appearance in her extreme anger!

The black side Guard's heart was filled with a huge sense of fear. Being stared at by Daniya's strange eyes, it made his hair stand on end. Even if they were a few hundred steps away, they could not stop the spread of this fear!

"Ah!"

The black side guard let out a wild cry, and the arrows in his storage bag flew out from his bow like flowing water, forming a rain of arrows between him and Daniya!

"You! You should die!"

Daniya suddenly roared, and an invisible fluctuation burst out in the battle space!

The rain of arrows became slower and slower in the air, and finally almost stopped. The Black Guard was the same. The bowstring in his hand seemed to be in slow motion, vibrating extremely slowly. However, his eyes were still moving, and the fear in them was getting stronger and stronger.

The flow of time in the entire battle space seemed to have been slowed down by tens of times. Daniya slowly walked forward. Compared to the rain of arrows in the sky, it was as fast as lightning.

Chapter 9173 Power

Under the normal flow of time, Daniya had appeared in front of the black side guard in a flash, and he was unable to react in time.

But the truth was that the black guards clearly saw Daniya walking over step by step. Her scarlet red eyes, the circles of pupils that seemed to be endless, and the vertical lines on her forehead were all clearly visible!

He watched as Daniya walked over, took the longbow from his hand, and wound the still vibrating bowstring around his neck. With a twist of her strength, his head flew up!

The battle was over, and the red team's guard had once again successfully counterattacked!

The vertical line on Daniya's forehead disappeared, and her pupils returned to normal, black and white. Her aura plummeted, and half of her body was still bleeding. She looked extremely weak.

The wounds corroded by the power of the stars couldn't heal quickly, and even if the injuries didn't worsen, the situation was extremely bad.

After exiting the battle space, Daniya's injuries were clearly displayed in front of everyone. A piece of the chess piece representing the red team guard had also shattered.

The red team's commander's eyes flickered as he laughed, "We only need one guard to defeat you motley crew! The other pieces don't even need to be moved. "

"I pity you. From now on, I'll only use this chess piece to deal with you. If you have the ability, eat her first!"

As he spoke, the red team's general once again moved Daniya to a position that was suitable for the black team's attack. At this time, other than the general, the black team still had one horse and two soldiers. In order to attract the red team's attention, they were basically surrounded.

After the two black side guards were counter-killed by Daniya, the black side's commander had already entered deep into the enemy's territory. As long as he launched an attack, it would basically be a sure kill situation.

However, the red team's main general had no intention of attacking. Instead, he moved Daniya, the red team guard who had continuously counterattacked, to the Black Horse's stallion.

The black team's commander suddenly had a flash of understanding in his heart. He finally understood the red team's commander's intention. They were f * cking trying to kill him with a borrowed knife!

It was obvious that the red team's general was deeply afraid of the strength Daniya had displayed. He felt that if he allowed Daniya to continue climbing the star Cloud tower, she would definitely become one of his strongest opponents!

So he had to take advantage of the opportunity to control Daniya's movements and kill her!

Daniya's injuries were very obvious and her fighting strength had been reduced by more than half. As the saying goes, she could only fight one or two times, but not three. After two consecutive counter-attacks, her fighting strength had been almost exhausted.

"Hehe, it's really like the birds are all gone, the good bow is hidden, the cunning rabbit is dead, and the dog is gone! We haven't even won yet, and you're already plotting against the experts in the same camp!"

The black faction's commander smiled sarcastically as he nodded slightly, "Since you're willing to go easy on me, I won't waste this opportunity. I'll help you with this!"

He had no other choice. Even if he knew that the red team master was going to use him as a knife to kill, he had to willingly hand over the hilt to her.

They were already in a situation where death was certain. Now, at least they had a chance. If they could grasp it, they might be able to turn the tables!

The dark horse was called eat!

The red team guard Daniya suffered the third attack from the black team!

Daniya's condition was terrible. No one present felt that she could withstand this third attack, let alone a third counterattack!

Including Lin Yi!

As a small soldier, Lin Yi not only lost the attention of the general, but he also couldn't retreat at all. He could only watch the show from the enemy's hinterland.

Daniya was seriously injured, and Lin Yi could tell that she was an arrow at the end of its flight. He could also tell that the red team's general had ill intentions towards her!

"Damn bastard!"

Under the command of the opponent's leader, the Black Horse started to jump towards where Daniya's piece was, ready to fight. Once the battle started, Lin Yi didn't know how long Daniya could last.

"What bullsh * t chess piece, what bullsh * t chess game! What stupid general! Whoever wants to play can play, I'm not playing anymore!"

Lin Yi suddenly roared, his body shining with Starlight, completely shattering the outer layer of soldiers around him. The game was unfair, and the commander had his own selfish interests. As a chess piece, his actions were controlled!

Was that why he had to watch his companion die?

Lin Yi made his choice-he'd just flip the board, and everyone was done playing!

After activating the indestructible star physique, the board's restriction on Lin Yi was gone. This was a test set up by the star Cloud tower, and everyone here was a chess piece. The star Cloud tower was the player.

Lin Yi, on the other hand, had activated the star undying body, and was equivalent to the star Cloud tower-he'd changed from a chess piece to a chess player. Naturally, he had the right to flip the board!

The lightning escape technique was activated!

With a flash of lightning, Lin Yi appeared where Daniya was and tore the space apart. Daniya and the dark horse fell out of the space.

Lin Yi didn't say anything and sent a super pill fire bomb to the Black Horse. At the same time, he reached out to hold the weak Daniya and wiped his palm on her wound.

The undying star body's dominance was not only in its invincible state, but also in its control of the power of the stars.

Daniya couldn't suppress the star power that was being expelled, and it was easily wiped away in Lin Yi's palm like a gentle kitten.

"Sima ... You saved me again."

"I'm really weak in front of you!" Daniya laughed bitterly as she stood up straight.

"You're not weak. The weak ones are those who want to harm you!"

Lin Yi's face was cold and his eyes were sharp. The undying star physique's invincibility scared the red and black generals. They didn't understand how Lin Yi could break free from the chessboard.

This was the place where the rules of the star Cloud tower were set up. The kid in front of him hadn't even reached the heaven breaking stage yet, so how did he do it?

If it was Lin Yi's first time killing a Dark Horse, they'd think that he had some sort of secret technique or item, but now that was a different story. Lin Yi's invincible strength didn't need any external help.

"Little brother, there was a misunderstanding just now. Let me explain!"

"It's not what you think. There are other reasons ..." The red team's general smiled awkwardly.

He wanted to come up with a reasonable explanation, but unfortunately he couldn't think of a more reasonable excuse. His intention to get rid of Daniya with a borrowed knife was too obvious.

Lin Yi felt a little awkward for him-he was clearly asking Lin Yi to listen to him!

I don't believe you!

The indestructible star physique only gave him thirty seconds of invincibility, and Lin Yi didn't have time to listen to his nonsense. He raised his hands, and the five elements and Eight Trigrams killing Qi turned into two dragons, roaring as they flew up. They moved back and forth, killing all the black side's chess pieces except the main player.

Lin Yi was able to flip the chessboard because of the indestructible star physique. The others were still restricted by the rules of Xingyun tower. They couldn't even Dodge or defend against Lin Yi's attacks. They could only watch as the Dragon killing intent turned them into dust.

Chapter 9174 Power

"Little brother, well done! The black team's commander is still alive. If we can kill him, we'll win!"

The red commander was panicking-he had a bad feeling about this, and could only force a smile as he urged Lin Yi to attack the black commander.

"You're teaching me how to do things?"

Lin Yi turned to look at the red team's general, a smile on his face, but his eyes were cold to the extreme."Do you think I'm still that little soldier under your control?"

"No, no, no, of course not ... We're on the same side, we're all here for victory!"

The red team's general was scared witless under Lin Yi's gaze. He forced a smile and tried to please Lin Yi, "Both of you are powerful people. We might have some misunderstandings. I will show my sincerity ..."

They were all smart people-Lin Yi didn't kill the black side's general, and while the red side's general didn't understand what Lin Yi's plan was, he'd be very unfriendly to him.

Lin Yi didn't want to waste his breath on him-leaving the black general behind meant that he wanted to kill the red general!

How could Lin Yi let this idiot go so easily when he tried to kill Daniya?

If all of the black team's chess pieces were destroyed, the star Cloud tower might end the game and declare the red team as the winner, allowing that guy to escape.

So Lin Yi needed the black side's general to live, and then take the red side's general down with him!

Lin Yi didn't know who was next, but he didn't care anymore. The red commander was still talking, so Lin Yi grabbed him and threw him with the black commander.

The two Dragon-shaped killing intent pounced at the two generals, and Lin Yi threw a super alchemy bomb over to make sure that the two would be turned to dust at the same time!

Very quickly, the remaining people received the news of the red team's victory in their minds.

Other than Lin Yi and Daniya, there were five other people in the red team. After breaking free from the game and throwing away their identities as pawns, the five of them bowed to Lin Yi and Daniya without a word.

The oldest martial artist lowered his head and said respectfully, "Thank you for saving us. If it weren't for the two of you, we would have been sent to the black side to be killed one by one!"

The red team's main General's intention to eliminate dissidents after gaining control of the victory was too obvious. If Daniya was killed, the other chess pieces would most likely be in danger as well. It all depended on how many people he wanted to kill.

Lin Yi looked at the five men indifferently, "There's no need to thank me. I didn't want to save you. I just didn't want to kill the innocent. Otherwise, I would have killed you all along!"

Cold sweat appeared on the forehead of the martial artist who spoke. He laughed dryly and said, ""Then thank you for not killing me! We won't disturb the two of you, so we'll take our leave first!"

Lin Yi's aura was too terrifying-they wanted to make friends with him, but he didn't seem to be interested. They quickly bowed and went through the portal, entering the sixth floor first.

Daniya's face recovered a little, not as pale as before. After the five left, she looked at Lin Yi, "Sima, these five aren't any good either. Why don't you just kill them all together?"

"If I remember correctly, these five people participated in the fight for the six-point star source instrument and later hunted me down. It's not wrong to kill them in passing!"

Daniya was someone who bore grudges. She had jotted down all the practitioners who had tried to kill her in a small notebook. She might not know their identity, but their appearance and aura were all imprinted in her heart.

Don't even think about running away!

If Lin Yi wasn't here, Daniya would definitely kill them. Even if she was still weak, it wouldn't stop her from killing these five practitioners.

The coldness on Lin Yi's face disappeared, replaced by a warm smile. "You don't have to kill them for revenge. Sometimes, it's fun to make them fear!"

"They must have recognized you and who we are, so they all lowered their heads and didn't dare to look at us. In the end, they left in a hurry. This shows that they are afraid of us. It doesn't matter if we kill them or not."

"Of course, this isn't the main point. The main point is that the star Cloud tower encourages killing each other. I broke the rules and killed the leaders of both sides at the same time. Not only did I not receive any punishment, but I also received some rewards! What's your reward?"

Lin Yi had to confirm Daniya's reward first before he could confirm if it was a lot. Daniya didn't hide anything, naturally, and told him her reward.

There was no difference from before. A certain amount of stellar energy, an incomplete incantation, and the recovery of her body were rewarded. At the same time, the star Cloud tower used the stellar energy to heal her injuries instantly, which was also one of the rewards.

Other than the normal reward for the sixth level, Lin Yi's time limit for the star undying body had increased by ten seconds!

Don't look down on these 10 seconds. It was only 30 seconds to begin with, which was equivalent to a 33% increase. In a life-and-death battle, it was enough to have the effect of turning the tables.

"It'd be even better if I could increase the chance of using it by one. Just extending the duration by 10 seconds is a bit of a waste!"

Daniya sighed, her face full of greed. As far as she was concerned, thirty seconds of Lin Yi's invincibility was enough to take care of all the enemies. Ten more seconds didn't make much difference.

If he could use it one more time, even if it was only for ten seconds, it would be a heaven-defying reward!

"Alright, it's good enough to have this reward. It's better than nothing!"

Lin Yi shook his head with a smile before retracting his smile. "It seems like our previous speculation was not wrong. The star Cloud tower is rewarding me for killing the generals of both sides at the same time!"

"If I kill the remaining five, there might be even more rewards ... Could it be that the more people die in the star Cloud tower, the more benefits it will bring to the star Cloud tower?"

Daniya didn't care about Lin Yi's final deduction, only noticing the first part. She started yelling, "Didn't I say that we should kill those Five Guys together? I really shouldn't have let them go. Compared to making them fear me, killing them for rewards is obviously more worth it!"

"Speaking of which, I've killed quite a few of them. Why didn't they reward me with a temporary skill like the indestructible star body? This isn't fair! I'll definitely kill a few more next time ..."

She felt something was wrong and stopped herself. She smiled at Lin Yi. "Of course, I'll only kill you if you say so. If you don't let me kill you, I definitely won't. You're the boss, so you have the final say!"

Lin Yi's lips twitched helplessly, "Daniya, can you pay attention to the main point? The main point is not what rewards we can get from killing people, but the star Cloud tower encourages us to kill more people!"

Chapter 9175 Power

"We still don't know if there's any conspiracy behind this. I'm not going to say anything about preserving the elites for humanity, but the star Cloud tower encourages us to kill. I think we should exercise restraint!"

If he followed the path of Nebula tower, wouldn't he end up as a puppet of Nebula tower?

Plus, Lin Yi didn't care about the reward from the star Cloud tower. Increasing the duration of the indestructible star physique by ten seconds didn't change the fact that it was only a temporary skill!

If he was in the star Cloud tower, there was a possibility that he could be taken back by the star Cloud tower at any time! He couldn't think that the indestructible star physique was invincible to the extent that it could challenge the star Cloud tower just because he had activated it earlier and had the right to flip the chessboard!

Lin Yi and Daniya discussed for a while and had some basic guesses, but they still had to continue walking and climbing the tower. They entered the sixth floor after that.

The five practitioners who came in first were long gone-perhaps they'd teleported to another star staircase, or they were climbing at full speed, trying to get away from Lin Yi and Daniya.

In short, Lin Yi and Daniya didn't encounter any practitioners on their way up. They thought that it would be as smooth as before, reaching the Ninety-ninth step, but they didn't expect there to be some obstacles on the thirty-third and sixty-sixth steps.

There was no danger in the two labyrinths, and there were no restrictions. He just needed to find the exit normally. Lin Yi used his spirit sense to explore, but the passages were changing all the time. He couldn't find the right one in time.

After an hour, Lin Yi and Daniya finally managed to get out of the two labyrinths. They wasted an hour and a half, and the first group had already reached the ninth floor!

"Sima, why do I feel like we're being targeted? Is the star Cloud tower deliberately delaying our progress? What was the meaning of the two labyrinths? Other than wasting time, it's completely useless!"

Daniya couldn't help but say, "those guys at the very front, are they the illegitimate children of Nebula tower?" In order to prevent us from catching up to them, they set up such a boring obstacle to give them time to continue to widen the distance?"

Lin Yi couldn't help but smile. If the star Cloud tower had an illegitimate child, what would they have to do with it? He would have been killed as cannon fodder long ago, right?

"Daniya, you're thinking too much! It's not impossible for the first team to put some distance between them, but I don't think it's very likely. If I have to say it, I think it's to shorten the distance between us and the people behind!"

Lin Yi had his own thoughts as well, "since the star Cloud tower encourages martial artists to kill each other, the more people the better!" However, the more we climb, the more people will die. If there are too few people left, we might not even have enough to kill. "

"This is the time to slow down the speed of our climb so that the following martial artist teams can keep up with our progress. Only then will we be able to fight better!"

There was one more thing Lin Yi didn't mention-the star Cloud tower probably gave him a heaven-defying temporary skill like the star undying body because they thought highly of his future, right?

So it wasn't hard to imagine that more people would come and give their lives to Lin Yi.

Daniya was stunned for a moment, but then quickly nodded."What you said makes sense, I agree! So, are we going to start a killing spree? Or should we continue to bear with it and let others come to kill us?"

"Why would I let someone else kill us?" Lin Yi chuckled. Their lives aren't more precious than ours, so those who should be killed should still be killed. Those who can be spared should be spared. "

He wasn't interested in becoming a tool for the star Cloud tower to kill, but if they were in danger, Lin Yi wouldn't be soft-hearted at all. In a life-or-death situation, of course, it was one that lived!

"Alright! I hope those guys don't want to deal with us. If they want to die, then they can't blame us!"

Daniya shrugged. She didn't mind killing them all, but she had to listen to Lin Yi.

Soon, the two of them ascended the Ninety-ninth step of the sixth level and welcomed a new test.

As expected, there were already seventeen to eighteen people gathered on the final platform. This was another test with about twenty people participating!

Lin Yi and Daniya only had the time to take a look before the stars shifted again. Soon, everyone was in an empty space with stars shining.

Before anyone could react, many star arenas rose from the ground, dividing everyone in different positions.

The instructions from the Nebula Pagoda were transmitted to everyone's mind at the same time, allowing them to instantly understand what they had to do.

Star Phantom arena!

There were a total of twenty martial artists in the arena, and each martial artist would face nineteen rings at the same time in each round. On the Rings were the other nineteen martial artists, but only one of them was a real martial artist, while the other eighteen were phantoms formed by star power, projections of the other martial artists' real movements!

Every Phantom and the main body were exactly the same, from top to bottom, inside to outside, whether it was their actions, language, or aura. It was impossible to distinguish between the real and the fake with the naked eye.

Of the 19 arenas that each person was facing, only one was the real one. There were 18 Phantom arenas. If they wanted to have an intersection, they had to find the real arena.

Everyone only had three chances to challenge. The real opponent would be chosen from the illusions, defeated, and then advanced to the next round. If one could kill the opponent, there would be additional rewards!

If everything went smoothly, everyone would be able to find a true opponent in each round. After three rounds, the remaining three would successfully pass and enter the seventh level of the star Cloud tower.

If one used up all three chances and still couldn't find a real opponent to fight with, they would be kicked out of the star Cloud tower and lose half of the rewards they had received.

Lin Yi frowned as he digested the information in his mind. He also looked at the nineteen stages. The people on the stages didn't seem to have any problems. They were all looking around with serious expressions. They were indeed giving feedback on their own status.

Daniya even waved at Lin Yi, but she didn't know if she was real or fake, so she couldn't give him any hints.

You have two minutes to choose your opponent. Within these two minutes, you must choose your opponent and challenge him. If you exceed the time limit, you will automatically give up a chance to challenge.

Lin Yi used his spirit sense to scan the nineteen stages and still didn't find anything out of the ordinary. The others didn't make a move either, not wanting to make a move before the time was up.

This is a little troublesome!

The star Cloud tower shouldn't have created illusions that couldn't be identified. If his guess was correct, the star Cloud tower was indeed encouraging killing, so it would definitely leave some flaws to facilitate a real battle.

Chapter 9176

Lin Yi didn't know what to say-it was one thing for the guy to make a challenge like this, but why did he have to do all this?

Could there really be some restrictions that prevented the star Cloud tower from allowing the cultivators to fight each other?

Flaw, flaw ... What flaw was it?

Lin Yi pinched his chin and thought about it. The eighteen images on the stage were real projections, and there wouldn't be any flaws in their appearance. If he could touch them directly, he would be able to tell if they were real or not, but touching them was a challenge!

This would definitely not work!

He couldn't see it with his eyes, and his divine sense scan was also useless. Could it be that he was using his nose to smell? Using his ears to listen?

Lin Yi really tried it out, and he didn't expect the star Cloud tower to be so extreme in this aspect. Everyone in the arena had their own unique scent, and he could hear the faint sound of heartbeats and blood flowing.

He couldn't tell if it was the same for others, but at least it was the same for Daniya. After all, they'd been walking together for so long, there was no way Lin Yi wouldn't be familiar with it.

If this Daniya was an illusion, she could indeed be called a fake!

"Everyone! There wasn't much time left. No one wanted to give up, right? Why don't I make a suggestion, and you all come and challenge me? It's not that I'm underestimating you, but with your strength, none of you are my match!"

Lin Yi was still looking for an opening when one of the fighters on the stage suddenly spoke up with an arrogant face, "I'm a straightforward person. I'm not targeting anyone, but I'm talking about all of you! In my eyes, everyone here is trash. Not a single one of them can fight!"

This haughty middle-aged man had an expression like a proud Dragon as he mocked everyone indiscriminately.

Lin Yi smiled and shook his head. It was a good idea, but it wouldn't go well when he put it into practice.

The haughty man merely wanted to use a mocking method to stimulate everyone, so that everyone would take the initiative to challenge him!

If everyone was infuriated by him and challenged him at the same time, there would definitely be a real ring that would cross paths with him!

What a clever plan!

He didn't care that the person who chose the wrong person would lose a chance to challenge, as long as he didn't waste it!

"Hehehe! You really are an ignorant child, you don't know the immensity of heaven and earth just because you have some strength. This old man can beat ten juniors like you with one hand!"

The old man on the other ring stroked his long white beard and sneered arrogantly, "It's not that this old master wants to say this, but all of you combined are not this old master's opponent. Fighting with you juniors is an act of disgracing this old master's status. "

"Forget it. You've come to challenge me. I'll give you a few pointers. It's an opportunity for you. Come quickly. This is a rare opportunity. If you miss it, you won't have it again!"

Lin Yi's mouth twitched. What old man? He looked like a Sage, but his words were completely like a charlatan's. It was as if he was saying that he would definitely achieve great things in the future, and that he would give this Buddha's Palm to him, but he would only need to pay 10 yuan for the printing fee.

Putting aside the words of a liar, this old man did not live his life in vain. He saw through the haughty middle-aged man's thoughts with a single glance. He even tried to replicate this tactic to provoke others to attack him.

But who here wasn't a thousand-year-old fox? There might be some martial fanatics who were simple-minded among those who could cultivate to the heaven breaking stage, but at the same time, those who could appear in this position were definitely not simple-minded people!

Those who were innocent were sold by others on the first few levels!

"Alright, what's the point of saying all this nonsense? We're not fools, so don't try to goad me into it!"

Another cultivator spoke with an extremely impatient expression, ""The time is almost up. Since we can't find any flaws, then everyone can randomly find an opponent to challenge first!"

"Although three challenge opportunities are not much, it is not little either. Let's waste one challenge opportunity and summarize our experience. Regardless of whether you succeed in the challenge or encounter the illusion, pay attention to the details!"

"It doesn't matter even if I make a mistake this time. Next time, I just have to find the right challenge target! Did everyone agree? If there's no problem, then let's start picking our opponents!"

This scholarly-looking man provided them with a good idea. The three chances to challenge was probably the space the star Cloud tower gave them to try and make mistakes.

If he couldn't see any flaws, he might be able to see some flaws if he tried!

When the scholar finished, there were only three to four seconds left. There was no time for the others to discuss anything. They could only follow his instructions and randomly choose an opponent.

One by one, the fighters disappeared from the stage in front of Lin Yi-perhaps they'd gone to the stage they'd chosen to fight, but it wasn't possible for the star Cloud tower to eliminate the illusionary image on its own. The more reasonable explanation was that someone had chosen the right person!

As expected, a martial artist stepped out of the void with an arrogant smile on his face. When he saw Lin Yi, he grinned, ""Looks like I'm quite lucky. You're not an illusion, are you? As expected, I'm the chosen one. Even with my eyes closed, I can still choose the right arena!"

This was the arrogant man who first activated the group taunt, and he didn't expect Lin Yi to be his first choice!

Lin Yi couldn't help but laugh at the guy's arrogance."My blind friend, are you sure you're the chosen one? I think you chose me because you think I'm the weakest among all of us, right?"

Whether it was a real person or a Phantom, the aura wouldn't change. Lin Yi still hadn't reached the heaven breaking stage, so it was normal for people to target him.

The haughty man probably wasn't the only one who chose Lin Yi, but the others would all waste a chance to make a mistake.

"So you also know that you're a weakling? Since you're so obedient, I won't kill you. Just admit defeat!"

The haughty man didn't seem to hear Lin Yi's mockery as he continued to be in his proud mode and waved his hand at Lin Yi in disdain, ""You don't have to thank me. You don't have to kneel. My time is precious, and I don't want to waste it on a weakling like you!"

Lin Yi was amused-this guy was only in the mid-stage of heaven breaking. He wasn't even the top of the twenty, he was just barely in the middle.

She didn't know where he got his confidence from, acting all high and mighty in front of Lin Yi. Did he really think that Lin Yi was that weak?

"Don't say that, I'm really grateful to you!"

Lin Yi said with a smile as if he was showing weakness, which made the haughty man very proud, thinking that Lin Yi was a sensible person.

Chapter 9178 The Power Of The Devil

Some people who couldn't find a real martial artist and lost a chance still had to go through the first round of challenges. It didn't mean that they would pass the first round if they made a mistake.

"Everyone has gone through a round of challenges, so you should have some experience, right? In order to successfully pass the trial, why don't we discuss the clues that can determine the authenticity of the

trial? we don't want to be kicked out of the star Cloud tower after three free passes and have to take back half of the rewards from before!"

It was still the scholar who stood out to speak. He did not ask who had passed the first round, but only asked if there were any clues to distinguish between the real and the fake, to prevent others from hiding the clues out of vigilance.

The scholar slowly swept his gaze around, but no one responded.

Everyone wanted to hear what other people had discovered. Even if they had clues, they would not easily reveal them, as that would only benefit the enemy!

"Since everyone is embarrassed to speak, then I'll throw a brick to lead the way. There's not much time, so someone has to start!"

The scholar smiled slightly and did not get angry. He said, ""I didn't pick the right opponent this time. I met an illusion and wasted an opportunity. After defeating the illusion, I became a mass of star power."

"Speaking of clues ... I really didn't find anything special. Looking at everyone now, they're exactly the same as the real body. There's nothing unusual about them."

He said he was throwing a brick to guide the Jade, but in the end, he didn't even see a brick. He simply threw out a mass of air, which was equivalent to saying nothing.

"Hehe, I'm the same. I met an illusion, but I didn't get anything! If you have any clues, tell me now. If you can't, then come and challenge me!"

The haughty man came online again, continuing his taunting, "'I'm not targeting anyone, I'm talking about everyone here. In my eyes, you're all weaklings! All of them can't even withstand a single blow!"

There was no doubt that the haughty man was already dead. Not even a trace of him was left. The one who spoke was naturally the projection of the star Cloud tower. It was a projection that was simulated based on the haughty man's previous performance.

Lin Yi looked at the image of the haughty man with a strange look in his eyes. The star Cloud tower sure knew how to play tricks. They knew how to change the image into a fake one!

Only Lin Yi knew that this guy was a fake. In the eyes of the others, the haughty man was still alive and well, and the way he spoke was very much in line with his previous style.

"Ignorant brat, if it weren't for my status, I would definitely teach you a good lesson! If you really think you're invincible, then come and challenge me! This old master won't be stingy in teaching you how to be a good person!"

The old man who had spoken earlier jumped out once again to attack the haughty man. His goal was also to make others take the initiative to challenge him. If everyone chose him as their target, the right opponent would definitely be among them!

In this way, he would be able to grab the opportunity without having to choose!

The scholar's face turned black. It was back to the situation just now!

They were really two damn disrupters!

"Alright, there's not much time. Let's cut the chit-chat!"

The scholar interrupted the two guys who were ridiculing him. He did not know that the haughty man was already dead. He was still thinking that if he met this guy, he would torture him to death!

"If there are no clues, everyone can just tell us who your opponent is, and then tell us whether the opponent is real or fake. This way, we can more or less deduce some clues."

The scholar's thoughts were still clear, but as soon as he said this, a strange expression appeared on his face. He then waved his hand and said, "Forget it, pretend I didn't say anything. The rules don't allow it!"

It was obvious that he had received the warning from Star Cloud tower. He felt that such an exchange had crossed the line and that he would be punished if he continued. Thus, he immediately changed his words.

Some people were tempted, thinking that if they said it, would the scholar be punished? It was a good thing to have one less competitor.

However, he also thought that if things didn't go well, he might be the one who would be punished, so he gave up and stopped thinking about those crooked thoughts.

Lin Yi looked at the scholar, deep in thought. He felt that the star Cloud tower had a weakness, and there was no need for this kind of pointless exchange. Besides, was The Phantom just a Phantom? It shouldn't be this simple!

In that case, he would choose a random challenge for this round. If he chose the right one, he would be lucky. If he chose the wrong one, it didn't matter. He could also see the illusion created by the star Cloud tower and see what was going on!

Time passed quickly, and everyone had to make a choice. Lin Yi didn't wait for the rabbit this time, choosing the stage the scholar was in.

As he went, Lin Yi was also thinking about what would happen if the only practitioner he had crossed paths with chose him this time, just a little slower.

An empty arena? Or was he facing an illusion? Or was it because he had made the wrong choice, and the other side's arena had changed instantly?

There was no answer to any of these questions, and the scenery changed. Lin Yi appeared in the scholar's arena, and the scholar gave him a big smile.

"Congratulations, you've made the wrong choice!"

The scholar's face changed as he spoke, as if to prove that Lin Yi had picked the wrong opponent.

After the transformation, it was Lin Yi himself!

"So choosing Phantom means you're facing yourself?" Lin Yi blinked.

"That's right, everyone's greatest enemy is actually themselves. If you want to be strong, you can't be invincible after being The Enemy of the World, but to constantly defeat yourself, all kinds of yourself! I'm just one of them!"

The illusionary Lin Yi spread out his hands, a teasing smile on his lips. "In this place, I am you. Whatever skills you have, I have them all! If you can't defeat yourself, then your journey in the pagoda will be over!"

"Of course, even if you beat me, it doesn't mean anything, because Phantom doesn't count as a successful challenge! You still have to continue looking for the right opponent to challenge. "

Lin Yi's lips twitched-this was a scam! They fought him with all their might, but they didn't get any benefits after that. They wouldn't even get the qualification to pass the second round.

Play my ass!

"Alright, let's stop the chit-chat here. As the Challenger, I'll give you a chance to make the first move! You don't even have the chance to make a move, and you'll be instantly killed by my Youyou, which is your own Phantom! I guess you don't want to see that, do you?"

The illusionary Lin Yi said with a smile, a hint of contempt on his face.

Lin Yi was pissed-all the skills were copied! Even his posturing was flawless!

Speaking of which, what did it feel like to be looked down upon by oneself? Lin Yi didn't want to savor it, so he decided to do it!

Lin Yi wanted to say that his brother would hit himself when he was ruthless!

Chapter 9179 Power

Wood forest thousand transformation!

There were no restrictions when fighting with The Phantom, and Lin Yi could use all his skills as he pleased. Hundreds of clones appeared instantly and rushed at The Phantom.

The battle between the doppelganger and The Phantom started immediately!

But The Phantom only smiled casually, not trying to Dodge or resist-it did the same thing as Lin Yi!

Wood forest thousand transformation!

Lin Yi almost exploded!

Not only did you copy the skill, but you also broke through the limit and got a double experience?

Lin Yi's thousand changes of wood and forest had always been limited to a thousand clones, and this didn't break through just because he was stronger.

On the other hand, the illusionary Lin Yi had created 2000 clones after using the thousand changes of wood forest!

That damned cheater! Is there any fairness in this?

Lin Yi didn't think that one day he'd experience what it felt like to be beaten up by his enemies "clones ...
The pain was indescribable!

"I told you, if you don't grab this opportunity, you will be killed in seconds! The result is just like this?"

Phantom Lin Yi continued to taunt and formed his 2000 clones into a battle formation.

Lin Yi's array skills were naturally Phantom as well, so when Lin Yi used his clones to form a battle formation, he would follow. With twice the number of Lin Yi's side, it was very convenient to do anything, and the scale and power of the battle formation far exceeded Lin Yi's.

This was really F * cking impossible to play with!

Lin Yi once again experienced the same feeling his previous opponents had-The Phantom's battle formation was the same as his, and even if he knew a flaw, he couldn't break it. They were all the same, and it was a battle of numbers!

"You're right. There's no point in fighting with clones. Let's have a face-to-face battle!"

Lin Yi took out the demonic devouring sword and activated his lightning movement, instantly appearing in front of the Lin Yi illusion. A black light bloomed, completely enveloping the Lin Yi illusion.

The thousand changes of wood and forest was Lin Yi's own skill, and it didn't take much effort to find the real Lin Yi.

Shoot the horse before shooting the man, capture the king before capturing the bandits!

Wood, forest, and thousand changes had a limit of two times, and Lin Yi didn't believe that Phantom was twice as strong as him. If that was the case, he'd just have to surrender!

"Hehe ... It's as I expected! Your actions are all within my calculations, and our thoughts are the same. Therefore, sneak attacks and such are meaningless to me!"

The illusory Lin Yi still had time to talk. Facing Lin Yi's demonic sword, he calmly used his lightning escape technique to put some distance between them. He also took out a demonic sword to counterattack.

The two lightning arcs kept on flashing, and two balls of black light rolled back and forth in the lightning. Lin Yi and The Phantom Lin Yi's speed of fighting was faster than any previous battle because the sword moves and skills were exactly the same. Neither could do anything to the other.

"Good replication! You've really copied all my abilities. Unfortunately, a counterfeit will always be a counterfeit. Whether it's your Phantom or the demonic devouring sword in your hand, they can't be compared to the real one!"

The two swords clashed, and the two stopped for a moment. Lin Yi smiled and said, "It's a counterfeit condensed from the power of the stars. The quality is quite good, but the real one is stronger!"

The demonic devour sword started to shake, and so did the illusory Lin Yi's sword. However, small cracks started to appear on the sword's body under the high-speed collision.

Just as Lin Yi said, a fake was still a fake. Even if it was a fake made from star energy, it was still a godly weapon in the outside world. However, in the collision with the demon devouring sword, it was still a bit weaker.

The two lightning arcs exploded, and the two of them were sent flying. Lin Yi checked the demon devouring sword-he couldn't guarantee that it wouldn't be damaged from the high-speed collision.

Although the quality of the replica was not as good as the real one, it was undeniable that it was as sharp as the real one. As expected, there were also tiny nicks on the body of the demon devouring sword. Fortunately, this little damage would not affect the sword.

The battle between thousand transformations 'clones was over, and both sides had basically died together. Lin Yi didn't have enough people, so he decided to use a super alchemy bomb to kill everyone.

The two main characters were busy fighting each other and had no interest in continuing to create clones. Therefore, after the vigorous explosion, the ring returned to its initial calm.

"Ha ... Not bad, you even found out! It's true that a weapon condensed from the power of stars is not as good as the one in your hand, but the problem is that you don't rely on weapons to fight. Even if you're empty-handed, you're still a threat!"

The illusory Lin Yi smiled as he looked at the replica demonic devour in his hand. He threw it casually, and the sword turned into star energy in the air and disappeared.

He could've used the power of the stars to repair the damage, or he could've just made a new one, but he didn't do that-it was obvious that he wanted to use other skills against Lin Yi.

The killing intent of the five elements and Eight Trigrams!

Two Dragon-shaped killing intent roared out from the palms of the illusionary Lin Yi, baring its fangs and brandishing its claws as it charged at Lin Yi. If he was hit, Lin Yi wasn't sure if he could take it.

The lightning flash disappeared, and Lin Yi reappeared a few hundred meters away, putting some distance between him and the Dragon.

"It's useless. The killing intent of the five elements and Eight Trigrams is very powerful, but it's not as fast as the lightning escape technique. If you want to hit me, you'll have to accelerate the killing intent of the five elements and Eight Trigrams to the speed of lightning escape technique!"

Lin Yi waved his hand and put away the demonic sword as well. He sent out two killing Qi of the five elements and Eight Trigrams at the distant Lin Yi. "It's still my skill even if you copy it. I'll prove that the counterfeit is not as powerful as the real one!"

The four Dragon-shaped killing Qis met in the air, fighting each other. Lin Yi couldn't tell who was stronger yet, so he didn't care after he attacked.

The Qi deification was able to attack on its own, and Lin Yi didn't need to control it anymore. He activated his Thunder escape and appeared in front of the illusion again. He flipped his palm and revealed the Super alchemy bomb!

"Haha!" Lin Yi laughed, "small tricks!" I've already said that we're all thinking the same thing. I know all of your tactics. Any surprise attack is within my expectations. There's no way you can catch them off guard!"

As he spoke, the illusionary Lin Yi flipped his palm, and the same super alchemy bomb appeared in his palm!

The two of them pressed their palms together, and a violent fluctuation exploded from the intersection!

Super pill fire bomb VS super pill fire bomb!

The violent energy formed invisible shock waves that spread out from the palms of the two. Fortunately, there was nothing nearby, so the flowers and grass were not destroyed.

Chapter 9180 The Power Of The Divine Realm

Lin Yi and the illusionary Lin Yi both flew back, both controlling the direction of the explosion to move forward. The power gathered was about the same, and as they offset each other, the explosive force dissipated to both sides. The two who attacked were not injured at all, they just borrowed the force to retreat.

"Not bad! But it was still not enough! I've given you so many opportunities to make a move. Although I'm not disappointed, it's hard to say that I'm satisfied. Next, I'm going to make a serious move!"

The illusionary Lin Yi stretched his neck and opened his arms, "I've duplicated you, including the injuries in your body! For you, it's a bit troublesome, but for me, it's not a problem at all!"

Lin Yi's eyes went wide!

The Phantom Lin Yi was talking about the suppressed star power in his body?

Because he couldn't deal with the power of the stars, Lin Yi had to suppress his strength-he couldn't even reach the heaven breaking stage!

But was the power of stars a problem for the illusory Lin Yi? He was completely made up of the power of the stars!

To resolve the star power in his body was as simple as breathing.

As expected, the illusory Lin Yi's aura started to rise as he spoke. He actually solved the hidden injury of the copied version and completely unlocked Lin Yi's combat strength!

Lin Yi didn't know what to say-why did it feel like he was the fake?

"Are you ready? I'm coming!"

The shadow Lin Yi smiled at him, and Lin Yi immediately used his lightning escape to put some distance between them.

The illusionary Lin Yi was still at Lin Yi's original position, looking at him with a mocking look in his eyes. The illusionary Lin Yi was still at the same spot where he'd spoken.

Three appearances of the cloud Dragon!

Lin Yi didn't hesitate to turn into a lightning arc again and realized that there was an extra lightning arc beside him. The shadow Lin Yi followed closely behind and casually slapped at him, making it impossible for him to Dodge!

Wild fire Eight Trigram palm!

Lin Yi's Phantom was using a skill he hadn't used for a long time-the raging fire Eight Trigram palm. It was an old skill, but it had a magical effect when used by Lin Yi's Phantom.

Lin Yi tried his best to block it, but was still sent flying. He rolled over a dozen times on the stage before he stood up in a sorry state.

"It's too slow!"

Lin Yi's Phantom sighed in his ear, and a shadow of a kick came from the corner of his eye!

Wild fire thousand legs!

Lin Yi crossed his arms in a defensive stance and was sent flying again!

"His defensive ability is not good either! It seems like that simple little trouble was very difficult for you to deal with. It actually caused your strength to drop so much!"

The Phantom Lin Yi used his footwork and continued to mock Lin Yi while using his lower level martial arts, "What do we do? The genuine one was about to be killed by the counterfeit! In the future, if there are no more authentic ones, the counterfeit will become the authentic one!"

Lin Yi calmed himself down and thought of a way to break out of this situation. The opponent was him at his peak, and with his current strength, he was no match for him at all. He could only be in a passive situation where he was beaten up.

Only those at the same level could have the chance to kill the illusory Lin Yi!

Release the suppression of the star power in his body and his sea of consciousness in exchange for a short burst of full power?

After deducing the fourth stage of the chant, Lin Yi's suppression of the star energy in his body had loosened up a lot. A short burst shouldn't be a problem!

Getting beaten up wasn't a solution, and Lin Yi didn't want to end up getting killed by his own shadow. Other practitioners wouldn't be this tired when facing his own shadow, would they?

After all, if everyone was at their peak, there wouldn't be much of a difference. In fact, because they were familiar with their own abilities and skills, the main body would have a higher chance of winning.

Lin Yi was an anomaly! The injury was caused by the power of the stars, and Lin Yi could easily deal with The Phantom, which was why the main body was in a passive state!

The illusory Lin Yi suppressed Lin Yi's real body completely, taunting and trying to anger Lin Yi.

"Hey, hey, aren't you going to think of something? Didn't you claim that you wanted to teach a fake like me a lesson? Just this? Was it a joke? I don't seem to have copied your comedic talent!"

"I'm going to hit your shoulder. Aiya, I already told you that I'm going to hit your shoulder, but you couldn't even defend against it. What a pity. Even a terminally ill old man's reaction is several times faster than yours!"

"I kicked your ankle this time ... I hit it again! You should be more serious. If you don't feel any sense of accomplishment after winning like this, aren't you too weak? Can't you show me some colors? What's the point of just talking and not practicing?"

The taunting was like a knife stabbing into Lin Yi's heart, but he didn't move at all.

Wasn't it just mocking? he was an expert in it. Now that he was being ridiculed by him, that was called self-mockery. What the hell was that?

However, he couldn't continue to be suppressed by The Phantom-the difference in strength was too big. He didn't know how long he could last if he just took a beating. He might be killed by his own fake soon!

Take a gamble?

Take a gamble!

Lin Yi gritted his teeth and suddenly gave up all the suppression of the star power in his body, his strength instantly returning to its peak!

The two were finally back on the same level, and Lin Yi quickly used the three appearances of Cloud Dragon, leaving behind an afterimage as he got rid of The Phantom Lin Yi.

The hammer was taken out again, it was Lin Yi's strongest weapon at the moment. He couldn't even completely copy the demonic blade's Phantom image, let alone the hammer.

"Go to hell!"

Lin Yi roared, and the hammer brought with it Rolling Thunder, smashing onto the illusionary Lin Yi's head. It went all the way down from the body without any obstruction, and it was also an afterimage!

Three appearances of Cloud Dragon versus three appearances of Cloud Dragon!

"Hahaha, whatever you can do, I can too! I told you that sneak attacks are ineffective Against Me!"

The illusory Lin Yi appeared beside him, holding an identical hammer in his hand. He aimed at Lin Yi's head and smashed it down!

The star power condensed into a hammer was just as powerful-Lin Yi would die without a doubt if he was hit!

However, only one of the three Cloud Dragon phantoms had appeared, and Lin Yi expected it to still be an afterimage. He didn't stop attacking, but his battle instinct was already searching for Lin Yi's next appearance.

As long as he could predict Yun longsang's next position, he would be able to attack Lin Yi!

He didn't expect Lin Yi to stop using the [three appearances of cloud and Dragon] this time. He raised his hammer like it was going to burn the sky, and slammed it against the illusory Lin Yi's hammer!

Dayin Ruoxi!

The collision of the two hammers should've made a deafening noise, but the sound was so deafening that Lin Yi couldn't hear anything at all.

The illusory Lin Yi wasn't having a good time either-Lin Yi's actions were a little out of his expectations. It wasn't an ordinary strategy, and he was caught off guard.

The difference in strength between the two was huge, and Lin Yi finally had the upper hand!
