

## Bodyguard 9191

### Chapter 9191

Lin Yi raised an eyebrow and pointed at the person beside the practitioner. "No! I believe that the person beside you is one of the moles, and the second one! It's because there's an extremely subtle change in his aura, which proves that there's unknown mutation that occurred between the first and second rounds. "

The practitioner was enraged, and his companion was about to retort when Lin Yi interrupted him. "Don't say anymore, the time is almost up. Trust me, choose him first!"

"You're talking nonsense ..."

The warrior who pointed Daniya out was furious, but before he could finish his words, the time was up!

The other three-man team's eyes flickered. This dispute had nothing to do with their team, but the final choice would affect the final outcome!

In just three minutes, the arguments were meaningless. There was no conclusive evidence. Who could they convince with empty words? They could only trust their own judgment!

Of the eight people, no one had the right to vote twice. The final result was five, four, four, three votes!

The one with the highest five votes wasn't Daniya, but the practitioner Lin Yi was pointing at. He couldn't believe that he had turned the tables at the last moment!

Other than the three members of his team, the other five had all chosen him as the mole!

He couldn't figure out what went wrong-why did Lin Yi knock him down with one sentence?

Two of the four votes were for Lin Yi and Daniya, while three was for Daniya. It was clear that the other three had voted for three different people, causing this situation.

Due to the fact that there were two people with four votes tied for second place, the star Cloud tower gave up on the verification of second place and only opened the verification of first place.

In the end, the martial artist Lin Yi was talking about really was a mole!

After verification, it was immediately turned into ashes!

The two men's faces paled instantly, afraid that Lin Yi would call them moles. If that happened, they'd be skinned alive!

However, Lin Yi didn't take the chance to speak. Instead, he activated the indestructible star physique. A hidden Starlight was bounced away by the indestructible star physique just as it was about to touch Lin Yi's back.

"I didn't expect that the first mole was really you, Daniya?"

Lin Yi turned his head slightly and looked at the beautiful lady beside him with a faint smile. "No, you're not the real Daniya! It's the illusion of Daniya arranged by the star Cloud tower. Amazing, they actually replaced Daniya without my knowledge!"

The other fighters' gazes all fell on Daniya. They clearly didn't expect the plot to take such a turn and reveal that Daniya was a spy!

In that case, brother Dumiao was right ... Poor brother Dumiao, he really died unjustly!

"Sima, what are you talking about? It's ridiculous!"

Daniya didn't admit it, but showed a stunned expression, "It's fine if they say I'm a mole, but why do you say the same? Are you the mole?"

Of course, she wouldn't admit it so easily. She looked at Lin Yi suspiciously and sized him up. "Your words and actions are really suspicious ... Did you deliberately blow up a mole just now to confuse me and then push me out?"

"No need to argue. If I'm the mole, what's the point of self-destructing?" Lin Yi shook his head. "You were the target just now. If we two moles pushed you out, we could have directly determined the victory!"

The other five didn't say a word as they watched Lin Yi and Daniya fight. They didn't have a goal anyway, so they'd just wait and see!

"I didn't really believe that you were the fake Daniya after being switched since you and I have always been together and have never been separated. But your behavior is somewhat different from Daniya's, so it's hard not to be suspicious."

Lin Yi shrugged, thinking that perhaps the familiar scene at the Ninety-ninth step made him a little careless. It was only then that the star Cloud tower had the chance to swap Daniya out without anyone knowing.

The Phantom Daniya's attitude, tone, and movements were all fine-the only problem was that she was too active. The real Daniya would never say anything before Lin Yi.

In the first round, the first one to speak was Daniya! Brother Dumiao's words were really right, Daniya was the mole, she opened her mouth to guide public opinion!

Lin Yi saw that Daniya was about to speak and interrupted her, "Alright, there's no need to say more. When you develop a new mole, there will be a weak fluctuation of star power on the other party. It was because of this that I discovered the identity of the new mole."

In fact, the illusionary Daniya also had signs of her star power overflowing, but the real Daniya just happened to be practicing the chant Lin Yi had derived and wasn't able to control it well, so some of the star power was overflowing and out of control. The two were very similar, so Lin Yi didn't notice her at first.

"Even now, I still can't be sure who the first mole is. It's you who couldn't hold it in and wanted to attack me!"

Lin Yi smiled, "you're afraid that I'll find out if you start a new mole. Even you won't be able to escape. That's why you decided to turn me into a mole. That way, you can rest easy."

"It's a pity that everything was within my expectations. Only when you attacked me could I be one hundred percent sure that you were the first mole. You only have one chance to attack in each round, right? A mistake is a mistake, there's no way to redo it!"

Lin Yi's star undying body was a temporary skill given by the star Cloud tower, but the clone didn't think about it, or maybe he did, but he wanted to try a sneak attack. It was a tragedy.

"I just want to know, where did the real Daniya go? There's no reason for it to disappear into thin air, right?"

Lin Yi had a guess in mind, but he wanted to test it out.

"I am the real Daniya! Sima, you're thinking too much! There must be some misunderstanding here! We're companions, so don't blame each other for internal strife and let outsiders see us as a joke!"

The fake Daniya still wouldn't admit it and changed her strategy. She stopped calling Lin Yi a mole and wanted to play the emotional card, but Lin Yi had already decided that she was the fake Daniya. Nothing she said would help!

The other five agreed as well. After all, Lin Yi had just caught a mole, and now that he had the evidence, who else could they believe if not Lin Yi?

In a life and death situation, no one would be charmed by beauty, not to mention that Daniya was a fake ...

In the end, everyone voted for Daniya, but she gave up and voted for herself. She passed the test of the star Cloud tower and turned into pure star power, returning to the star Cloud tower.

Chapter 9192 Power

The test was considered successful-only two practitioners died in the end, and six passed, including Lin Yi. The other five simply greeted Lin Yi and went to the next level, not intending to make friends with him.

It was probably someone who had chased after Lin Yi or Daniya before and had some impression of the two. Plus, Daniya was nowhere to be seen, so they didn't want to touch Lin Yi.

Lin Yi was happy with the peace and quiet, and after waiting for a few minutes in the center of the star, Daniya suddenly appeared three steps away.

"Sima, you've already come out!"

A bright smile appeared on Daniya's face as she saw Lin Yi, "I knew you would come out faster than me! It's just as I expected!"

Lin Yi sensed Daniya's aura carefully and smiled, "Daniya, it's really you this time!"

"Haha, you've also met my clone, right? You didn't recognize me? Sima, your eyesight has deteriorated! I could tell at a glance that the person beside me wasn't you!"

"It's clear that I don't have much weight in your heart," Daniya teased with a smile. "If not, you'd definitely find out that I've been switched at the first moment, right?"

"Ha ... Although I didn't discover it immediately, I didn't waste too much time either. I don't believe you when you said that you could tell that the person beside you was a fake me!"

"Why not? Why wouldn't he believe it? I saw it at first sight!"

Daniya expressed her dissatisfaction and pouted to announce that she was very angry.

"Did you pass the test alone?" Lin Yi chuckled.

Daniya had obviously entered another group for the test, and the mole on her side must be The Phantom Lin Yi, just like how Lin Yi's side was Daniya's Phantom.

Lin Yi, on the other hand, had five people with him!

Daniya was stunned for a moment before she laughed, "Boring, boring, I really can't hide anything from you! That's right, that's right, I didn't recognize you at first sight, are you satisfied now?"

"By the way, you're the person I trust the most! Sima, do you think I'll doubt you? That's impossible! We were clearly moving together, but suddenly we were switched out. We've never experienced this before, would you believe me if I told you?"

Daniya patted her chest with conviction, "If you didn't recognize me, it means that I trust you. If you recognize me, does that mean you don't trust me?"

Lin Yi couldn't help but smile. As expected, women were born with unreasonable things!

There was no point in continuing the discussion, so Lin Yi wisely changed the topic and asked about Daniya's test. She passed the test alone, which was quite unbelievable.

After all, when there were only two of them left, it meant that they would definitely win. How did Daniya win alone?

Daniya waved her hand without a care, ""It's very simple. When there were three people left, two of them chose me. Then, I wasn't the mole, so I entered revenge mode."

"He killed someone from the same camp and fought the mole. After he won, he came out alone!"

Lin Yi's mouth twitched. He really didn't know what words to use to describe Daniya's awesomeness!

It seemed to be even more powerful than his own star undying body ...

After chatting for a while, the two of them digested the reward and directly entered the ninth floor!

After passing through the portal, Lin Yi was surprised to find that there was no one beside him. Daniya was supposed to be the one who entered the portal side by side, but she wasn't standing beside him.

"Daniya? Daniya!"

Lin Yi looked around and called out, but his voice spread far and wide, disappearing into the endless starry sky. There was no response.

Even his divine sense could not find any clues!

Lin Yi frowned. What the hell was going on?

He wanted to look back, but the portal was already closed, so there was no way to turn back. So where did Daniya go? Was it moved away by the star Cloud tower again?

After all, it had just happened, and Lin Yi's memory was still quite deep. The star Cloud tower had already secretly swapped Daniya away from him, so it wasn't strange for it to happen again.

Just now, he had taken advantage of the time when the scene on the Ninety-ninth step changed. Now, he was using the short chaos during the teleportation to attack?

Lin Yi rubbed his chin as he scanned the area. Did the 9th floor require one person to climb it? Daniya had been teleported to another stairways of the stars? Or were they on the same flight of stairs, but in a different space?

The star Cloud tower had the ability to divide space and also to set up overlapping spaces in space. This had been shown before, and it was completely possible.

Since he couldn't find any traces of Daniya, Lin Yi could only put it aside for now. He looked up at the endless starry stairs. Perhaps he'd be able to meet Daniya again when he reached the Ninety-ninth step?

In any case, this wasn't the first time they had been separated after arriving at the heaven's legacy continent, so they had already gotten used to it.

Let's climb the astral stairs first!

Lin Yi stepped onto the first step, and the huge gravity rushed towards him. It was twice as strong as the top of the eighth step, and even ordinary sea split realm Warriors would feel the pressure.

Lin Yi, of course, wasn't one of them. The star energy in his body was being extracted and refined, and his strength was recovering. His upper limit was slowly increasing, too. If this continued, Lin Yi estimated that he'd be able to reach the peak of heaven-cleaving in the star Cloud tower.

As for whether he would have the chance to break through the shackles of the great circle of heaven crushing and enter the Supreme realm ... It was hard to say. The chances should not be high, right?

After all, the gap between the two major realms was too huge, and it was not so easy to break through.

He climbed the stairs of stars alone, and there was no one to chat with to pass the time. Lin Yi could only continue to deduce the chant while thinking about some things and clues about the Xingyun tower.

When he reached the thirty-third step, the long-lost test appeared again. He thought that the test on the thirty-third and sixty-sixth steps would disappear just like that, but he did not expect it to start again.

Was it because the ninth level had some special meaning?

Lin Yi looked at the three practitioners in front of him, still in the mood to think.

"Make your move. If you defeat the three of us, you can pass the thirty-third step!"

The leader was at the peak of the middle heaven breaking stage, while the other two were at the middle heaven breaking stage. The three of them faced Lin Yi in a triangular formation. They didn't form a battle formation, but it felt like they were one.

Lin Yi's eyes flickered as he pondered, "Are they all clones made by the star Cloud tower? The test this time is very simple and crude!"

The only reason he was sure that the opponent was a clone made from the star Cloud tower's star energy was because he still remembered two of the practitioners. He didn't know their names, but they did die in the tests of the previous levels!

#### Chapter 9193 Power

Their bodies had been collected by the star Cloud tower, and he didn't know if they were pure star energy or if they had reincarnated in someone else's body. It should be more likely that it was formed by pure star power. After all, the star Cloud tower had this ability, so there was no reason to use corpses as puppets.

"If you give up the challenge, you can choose to leave the star Cloud tower! We won't stop them!"

The leader of the martial artists said coldly, "If you want to continue, then start the battle. You can skip the meaningless conversations."

"I'll take it then!" Lin Yi nodded.

Wood forest thousand transformation!

Hundreds of clones appeared in an instant and formed a battle formation to attack the three-man Group. Although they were all clones at the sea splitting stage, a battle formation formed by hundreds of people could already threaten a mid-stage heaven breaking expert.

It should be enough to test the depths of the other party, right?

Lin Yi's real body stood leisurely at the back of the formation, his arms crossed in front of his chest as he observed. With a loud bang, the result of the first collision was out!

A large number of thousand transformations' clones were destroyed. Although they were in a battle formation, they were at an absolute disadvantage against the three of them.

"Hehe, is that all you've got? I'll give you one more chance. If you choose to leave the star Cloud tower now, we can still let you go. If you want to continue fighting, then we'll have to fight you to the death!"

The leader brushed his sleeves, not thinking much of it. He told Lin Yi to skip the meaningless bullshit, but he enjoyed the thrill of talking nonsense, "I'll give you a piece of advice. Don't embarrass yourself with those trashy things. They're useless!"

"Ha ... You guys are just imitations created by the star Cloud tower. Do you really think you're human?"

Lin Yi looked at him in disdain. The thousand changes of wood and forest was just a test, and he didn't expect it to do any damage. It was enough to find out what he wanted!

The three people in front of him were indeed clones of the star Cloud tower. Their powers came from the same source, so they were three in one. The destructive power they could unleash was even stronger than a battle formation made up of more than 100 clones.

It was normal for the thousand forest illusionary transformations to be broken!

In fact, the three practitioners could be seen as one entity, and their combined strength was close to the peak of late heaven-breaking stage or even peak heaven-breaking stage. Lin Yi noticed this and confirmed it after testing it out.

"It seems like you've chosen to continue the challenge! Then we won't be polite!"

The leader snapped his fingers, and the three snorted at the same time before charging at Lin Yi. A violent aura exploded, and a vast amount of star power surrounded them from all directions.

As a replica of the star Cloud tower, it was not difficult for him to borrow the power of the stars. Previously, he might not have been allowed to do so, but this time, the star Cloud tower clearly did not set any restrictions.

It was as if there were no restrictions on Lin Yi at all-whether it was the thousand changes of wood and forest, or the lightning movement technique, or even the spiritual sense, he could use anything he wanted.

Unfortunately, these were all useless!

The clones couldn't even withstand a single blow due to the huge difference in strength. The omnipresent star energy could easily tear all the clones apart. No matter how endless Lin Yi's pure Qi was, it couldn't be compared to the boundless star energy in the star Cloud tower.

The lightning movement technique could help Lin Yi Dodge the opponent's attacks, but the dense star energy formed an invisible force field. Even with the lightning movement technique, it was difficult to move in there as if he was stuck in a quagmire, losing his previous super speed.

The divine sense attack was even more meaningless. These replicas made by the star Cloud tower didn't have primordial spirits. The divine sense attack wouldn't hit anything. It wasn't even as effective as a clone.

"Don't make any more pointless struggles. You're no match for us! If you obediently admit defeat, you might have a chance to be kicked out of the star Cloud tower and leave with your life ..."

"You sure talk a lot of crap," Lin Yi chuckled,"and your words don't even make sense-you're all brainless fakes!" Didn't you just say that once you start, you won't rest until you die? Now, he could surrender and admit defeat? So casual?"

The leader of the martial artists was suddenly at a loss for words. He was just saying it casually, why did you take it so seriously?

Didn't he know that he would lose if he got serious?

The leader finally stopped talking after Lin Yi's rebuttal and focused on attacking Lin Yi.

The three's coordination was flawless, and it was many times tougher than a battle formation. Lin Yi activated his super butterfly micro steps and barely managed to leave a sliver of space to Dodge the storm of attacks.

But the star energy was getting thicker and thicker, locking down the space around him. If he continued to Dodge, he would only give up on retreating completely. Lin Yi's eyes flashed-he had to fight back!

In the current situation, skills were not of much use. He could only break the situation with force!

The big hammer appeared once again. Although the shape was not very handsome, one would know after using it that it felt very handsome when swung!

"Break!"

Lin Yi held the handle with both hands and swung the hammer in a circle as he shouted, landing in the path of the three enemies "attack.

Lightning and flames scattered in all directions, and invisible shock waves spread out in circles. The condensed star power suddenly loosened and scattered. After all, the star power that these three cultivators could control had not reached an incredible level.

Even if the star Cloud tower lifted the restrictions, it would still depend on the strength of these clones. The amount of power of the stars that they could use couldn't exceed their own limit.

Otherwise, Lin Yi wouldn't be able to play anymore. If the star Cloud tower wanted to deal with Lin Yi, they wouldn't need to go through so much trouble. He could kill Lin Yi so easily!

The three cultivators' unified offensive was suddenly interrupted. Under the fierce counterattack of the big hammer, a faint crack actually appeared on the three people.

Lin Yi's eyes flickered as he sharply caught the fleeting crack. This was the first time since the start of the battle that the three of them made a mistake in coordination-a huge mistake when they went from one to three!

The big hammer was indeed powerful, and it really didn't disappoint!

Lin Yi pushed his super limit butterfly steps to its limit, and he charged forward as if he was teleporting. The powerful shock wave temporarily cleared the star power's restraints, and this was the best chance for Lin Yi to display his speed!

80 sledgehammers! I'll send you to your death for free!

The big hammer slammed into the crack and then smashed down with a destructive power. The cultivator who was targeted looked calm and tried to raise his crossed hands to resist this attack.

It was a pity that he lost his overall strength, and the level difference between him and Lin Yi was almost the same. There was no way he could block the full-powered hammer.

Lightning and flames erupted again, and the targeted cultivators were unable to resist at all. They were instantly reduced to ashes under the hammer, turning into star power and dissipating.

Lin Yi flicked his wrist, and the hammer didn't continue to fall. Instead, he used a method that defied the laws of physics to draw a 90-degree angle and swept to the side.

Chapter 9194 Power

Beside him was the leader of the group. The crack appeared and Lin Yi's sudden attack happened in an instant. He wanted to save his partner but he didn't have time to react. When he saw clearly, his partner was already gone. There was only a hammer rapidly growing in his eyes, aiming at his chest.

In fact, the clone made of star energy didn't have any weak points, and Lin Yi knew that. But it didn't matter-the hammer would destroy the target's body if it hit the target, and even if it didn't have any weak points, it meant that the target's entire body was weak!

The leader's eyes narrowed-he couldn't Dodge in time, and could only do a simple defensive move. From the force of Lin Yi's hammer, it was no different from being defenseless.

In a split second, he didn't have time to think and immediately used form displacement transposition, switching his position with another martial artist!

This was a combination of abilities between the clones of the star Cloud tower. When used in an attack, it could catch the enemy off guard. In this situation, it could also play a role in saving his life.

The cultivator who was suddenly switched over didn't even have time to think before his body was smashed into pieces by the sweeping hammer, following in the footsteps of his first companion, turning into star power and dissipating.

The practitioner didn't show any emotion after using shifting forms for a while-he attacked Lin Yi from the side as soon as he appeared behind him.

This was the last chance to turn the tables. His strength was the strongest among the three, so he naturally had to grasp this opportunity in his own hands.

He felt like he had at least a forty percent chance of success, and as long as he could kill Lin Yi, the mission wouldn't be considered a failure. As for his dead comrades ... They could be reborn at any time, so what was the point of being dead?

"Just this?"

Lin Yi's mocking voice rang out, and the last practitioner's vision blurred as his attack missed. Below his eyes, there was a hammer wrapped in lightning and fire rising rapidly.

Little hammer, 40, I'll send you to your death for free!

So fast!

This was the last thought of the leader. Then, his chin was hit by the hammer, and his entire body flew up and boiled backward. In mid-air, his head exploded, and his body turned into star power and dissipated into the Star Cloud tower!

The tables were turned in just one second-the three who had the upper hand were all killed by Lin Yi's hammer without even putting up a fight!

Lin Yi played a trick with the hammer and put it back into the Jade space.

After silently receiving the reward for the thirty-third step, he continued to climb up, as if the battle just now had not happened.

He quickly climbed up the sixty-sixth step, and as expected, another group of martial artists appeared in front of him. This time, the number of people had increased to six!

Three of them looked very familiar. They were the cultivators who had died in the previous levels. Needless to say, these six were also replicas made by the star Cloud tower. The 9th level's Meridian seemed very clear. It was a test of individual strength for cultivators!

"If you want to continue, you have to defeat the six of us. If you choose to give up, I can send you out of the star Cloud tower now!"

The leader of the group was still at the peak of the middle heaven-breaking stage. The other five did not exceed this level. They were either at the middle heaven-breaking stage or the peak of the middle heaven-breaking stage.

"Then let's start!"

Lin Yi didn't waste time and took out a hammer as he spoke. The six practitioners in front of him were twice the number of people on the thirty-third step, and their strength was naturally stronger when they worked together.

He had the battle strength of a complete heaven splitter!

"Yes." The leading martial artist nodded slightly. "You've chosen to continue forward and challenge the six of us. Then ..."

What's there to say about that? It's over!

Lin Yi didn't wait for him to finish-he activated his lightning movement and appeared in front of the six in a flash, swinging his hammer at their heads.

It was simple and brutal, without any fancy tricks!

The leader of the martial artists could not continue speaking. He raised his left hand and a shield appeared on his arm, protecting his head. Then, he raised it to meet the big kun's head.

The power of the others converged, and the shield glowed with faint Starlight. With a loud bang, invisible impact waves suddenly spread out.

Lin Yi couldn't help but take two steps back. The shield's defensive power was beyond his expectations. Not only did it block the hammer attack, but the strong recoil even made Lin Yi's hand numb.

But the opponent wasn't having a good time either-the hammer was Lin Yi's strongest weapon, and while the shield blocked most of the force, a small portion still seeped through the shield and into the fighter's body.

The leading martial artist felt as if he had been struck by lightning. His entire body was slightly numb and trembling. His feet also uncontrollably took two steps back, and the other five people also took two steps back.

Although they did not form a battle formation, under the premise of sharing their strength, the impact they suffered also became shared.

However, their influence was minimal. They instantly started to counterattack, surrounding Lin Yi from the left and right, launching lightning attacks.

"Take this!"

"Die!"

With two loud roars, the fighters on the left and right hit Lin Yi at the same time, but their attacks didn't feel like they touched anything solid. It was like they hit air, passing through Lin Yi's body.

Three appearances of the cloud Dragon!

Lin Yi had used this skill long ago, leaving an afterimage on the spot as he appeared on the other side, swinging his hammer at a practitioner with the force of a Thunderbolt.

This person didn't join in the attack, nor was he in a defensive position like the leader-he was probably in charge of supporting the enemy. Lin Yi locked onto him first and activated his hammer attack mode without hesitation.

The formation of these six people hadn't been broken yet, but that didn't mean they wouldn't be injured. With Lin Yi's full-power attack, even a complete heaven-breaker would be blown apart if he wasn't in a defensive state.

The strength of these clones didn't exceed the peak of the middle stage of heaven breaking, so their reaction speed was naturally within this limit. As a whole, their combat strength would have a qualitative improvement, but when divided into various aspects, they might not all be at the level of the great circle of heaven breaking.

Facing Lin Yi's sudden attack, the martial artists beside him reacted and chose to attack or defend, trying to interrupt Lin Yi's surprise attack.

Lin Yi's target, on the other hand, managed to raise his arm, trying to stop the hammer from falling. Unfortunately, he didn't have the shield of the leader, so he couldn't block Lin Yi's attack.

The explosion of lightning and fire successfully took the practitioner away. After Lin Yi succeeded, the attacks and defenses of the other practitioners only just arrived, but it was too late to save anything!

The target of the defense had been destroyed, and the target of the attack ... Was yet another afterimage!

Chapter 9195 Power

The three Cloud Dragon forms wasn't a high-level skill, but it had rare mobility and confusion, and it was even more useful when combined with the Super limit butterfly micro-steps.

As Lin Yi left behind an afterimage, his real body had already appeared behind another practitioner. This person was one of the supporters, and his attack had just pierced through Lin Yi's afterimage. He didn't know that Lin Yi's hammer had already landed on his skull!

After taking out another warrior, the six of them fell apart. Lin Yi turned back into a lightning arc and returned to where he was at.

There were still two practitioners there, but they didn't hit anything. They only had their own strength level, and Lin Yi didn't care about them at all.

The big hammer was swung continuously, and it directly exploded!

A series of lightning-fast attacks stunned the few clones. No, they were directly broken apart. In the end, only two were left.

Lin Yi turned around calmly and slammed the hammer on the ground. "Do you still want to continue?"

The last two were both mid heaven breaking peak-they looked like they could still fight, but they knew that with Lin Yi's speed, strength, and destructive power, they couldn't stop him at all!

In the blink of an eye, four out of the six had been killed. What could the two of them do?

"You're very powerful, but we can't just give up without a fight. Let's continue!"

The leader's face was calm as he squatted down and raised his shield to protect himself. They were clones made by the star Cloud tower, and they didn't care about life or death. They only cared about completing their mission, so Lin Yi couldn't ask them to stop.

"Alright, I'll fulfill your wish then!" Lin Yi nodded.

There was nothing much to say to these imitations. Since they refused to stop, then they would stop fighting!

The hammer continued to swing down, and even the shield of the leader couldn't block it. The six of them were only able to stop Lin Yi, and now there were only two left. They were no match for Lin Yi.

With just three sledgehammers, the shield shattered, turning into star power as it fell. Without the shield, the two peak mid-stage heaven crushing cultivators were no match for Lin Yi at all. Two sledgehammers were all it took to settle the problem.

He was getting more and more used to using the hammer now. If the shape could be more beautiful, it would be fine to hold it in his hand all the time!

Every time Lin Yi thought of this, he wanted to grab Fei daqiang and smash his head with a hammer.

He put away the hammer and accepted the reward for the sixty-sixth step before continuing up. He didn't meet anyone else along the way, and it seemed like this was the solo mode of the stairs. Perhaps he'd be able to see Daniya after he passed.

He successfully reached the Ninety-ninth step and reached the final platform. The scene changed as he stood on a ring. On the other side of the ring was the Tianji Mei house's master, Mei Tianfeng!

This was the first time he'd seen Mei Tianfeng in the star Cloud tower-he was a late-stage heaven-breaking cultivator. Lin Yi sized him up and guessed that this wasn't the real Mei Tianfeng, but a clone made by the star Cloud tower.

"Who are you? Report your name!"

Lin Yi acted as if he didn't know Mei Tianfeng and nodded indifferently as a greeting, "'I don't kill nameless people. Even if you're my opponent, you still have to report your name!"

The star Cloud tower had already sent the requirements into Lin Yi's mind-the final test of the ninth level was to fight three times in a row, with a time limit of ten minutes each.

Mei Tianfeng was the arena Lord of the first arena.

There would be two fighters on the second stage, and three fighters on the third stage. In terms of numbers, it didn't seem like there were as many as the thirty-third and sixty-sixth steps, but the quality of the fighters couldn't be compared.

For example, Mei Tianfeng, as the first person in the starting lineup, was already a late-stage heaven-breaking expert. The later ones would only become more and more powerful.

"Stop pretending. You know I'm not a real martial artist from the outside world!"

Mei Tianfeng laughed coldly. "I'm just a projection that the star Cloud tower has conjured using the power of the stars. It doesn't matter if you know this person before. If you want to pass the test, then come and fight me!"

"Of course, if you feel that there's enough time for you to waste, you can continue to chat with me. I don't mind spending time chatting with you. After all, I won't be the one to fail after the time limit is up!"

Lin Yi raised a brow, "that's honest!" It was not bad to chat. What was the point of fighting and killing all day? Speaking of which, I've always been very curious. Do the projections created by the star Cloud tower represent the will of the star Cloud tower?"

"Or to be more clear, your thoughts are the thoughts of the pagoda? Or did you completely copy the thoughts of the person you project?"

Mei Tianfeng furrowed his brows slightly as if he was considering whether to continue this topic. After thinking for a moment, he said indifferently, ""My actions and thoughts have nothing to do with the star Cloud tower. Most of them are just copies of the behavior and habits of the projected object."

"However, everyone's thoughts are very complicated and can not be completely replicated, so there will be some differences with the original. If you think that you know this person and can judge my action pattern from his previous actions and thoughts, I'm afraid you will be very disappointed."

It wasn't a secret, and the projected Mei Tianfeng told Lin Yi everything.

Lin Yi nodded silently. So it was like that!

If not for that, when he was looking for the mole, the projection Daniya beside him wouldn't have acted slightly different from Daniya's own actions from the start.

"What else do you want to know? ask them all. I will answer everything that I can so that you can continue the challenge without any questions. Otherwise, you won't be able to rest in peace when you die."

Mei Tianfeng looked as if he had Lin Yi in the palm of his hand. He raised his chin slightly and pointed his nose at Lin Yi arrogantly.

Lin Yi shook his head with a smile-he was being looked down upon by a projection!

However, it didn't matter. He wasn't a real person anyway, so there was no need to be angry with such an illusory figure.

Since Mei Tianfeng was willing to cooperate, Lin Yi was happy to get more information,"What I don't understand is why the star Cloud tower would use you projections as the test of the 9th level? Is there no one else on this floor?"

According to his previous speculations, the star Cloud tower was meant to encourage the cultivators who entered it to kill each other, but it was not supposed to directly attack the cultivators.

But this ninth floor completely overturned his previous speculations. Not only were there no real martial artists coming out to fight, but there were also these projected martial artists to test Lin Yi.

The star Cloud tower's projection was basically attacking Lin Yi with its own body-this went against the rules of the star Cloud tower.

Lin Yi was very confused. If Mei Tianfeng could give him some clues, he might be able to find out the purpose of Xingyun tower.

Chapter 9196

Mei Tianfeng shook his head expressionlessly. "This has nothing to do with your test. If you don't have any other questions, you may begin. Of course, I'll give you a chance to give up before you start!"

"Once you have decided to start the challenge, the test will not stop unless you pass three rings or die halfway. I hope you can consider your choice carefully."

Lin Yi's lips twitched. How was this not related to the test? Normally, shouldn't the real martial artist be the ring master? What's the point of making a projection?

It was a pity that Mei Tianfeng was unwilling to answer. Instead, he assumed an offensive stance.

He said he was willing to chat and was willing to answer questions. What a liar!

Lin Yi didn't waste any more time. He took out the demonic devouring sword and activated his Thunder escape technique. He instantly moved from one side of the stage to the other. A black light bloomed and covered Mei Tianfeng in the sword light.

Mei Tianfeng flipped his palms, and Starlight appeared in his palms. A mass of star power condensed into a shield, blocking in front of him.

When the demonic devouring sword's tip struck the barrier, it was as if it had struck a tough piece of sticky candy. Although it had managed to sink in, it was unable to penetrate the barrier. Instead, it had been repelled by a repulsive force.

Lin Yi didn't mind. He struck out with his left hand, and the Dragon-shaped killing intent bypassed the shield and attacked Mei Tianfeng from the side. If it hit, it would be enough to make Mei Tianfeng suffer.

Mei Tianfeng turned a blind eye to the Dragon-shaped killing intent. His body trembled slightly, and the power of the stars around him quickly gathered, forming a new shield to block the Dragon's path.

The two of them clashed, and there was still no clear winner.

Lin Yi didn't know if the real Mei Tianfeng really had this kind of defense, but the power of stars was definitely something that the star Cloud tower had smuggled in. Mei Tianfeng might have these skills, but the effect of elemental Qi and the power of stars were completely different!

It's shameful to cheat!

Lin Yi couldn't help but look at Mei Tianfeng with disdain. Without the support of the stars, the real Mei Tianfeng wouldn't be able to withstand Lin Yi's attacks in his current state.

But now, both sides were in a stalemate. Unless Lin Yi took out a hammer, it would be hard for him to break through Mei Tianfeng's defense. This shameless cheater clearly used a cheater, but he was still focused on defense. He was determined to waste all the time!

But Lin Yi didn't want to use the hammer too early-how was he supposed to fight the rest of the stage if he used his strongest weapon on a mere late-stage heaven breaker?

Seeing that Mei Tianfeng was starting to set up a star energy shield around him, like a turtle shell, Lin Yi decided to use all his strength to form a super alchemy bomb.

Didn't you say you wouldn't attack? Aren't you defending?

Alright, I'll make the biggest bomb for you to eat!

It wasn't the first time he'd used a super alchemy bomb since he'd entered the star Cloud tower, but they were all instantaneous. They were fast enough, but the power wasn't that great.

The power of a super alchemy bomb was directly proportional to the amount of true Qi, alchemy fire, and divine sense alchemy fire that had been poured in. A truly powerful super alchemy bomb required more than just a little amount.

This time, Lin Yi spent a full minute before he felt the limit of the Super alchemy bomb. He was much stronger than before.

The Super pill fire bomb that was instantly condensed now was countless times more powerful than the first one or two hours of condensation, let alone the one minute preparation time.

Mei Tianfeng, who was in the shield, could also feel the terrifying aura of the light ball in Lin Yi's palm. Even if he was a clone who didn't fear death, an insignificant projection, he couldn't help but be shocked when faced with the terrifying light ball.

The demonic blade in Lin Yi's hand never stopped. He only put it away with a smile after he finished preparing the Super alchemy bomb, and beckoned Mei Tianfeng with his finger.

"Turtle shell, come, come, come, I'll show you a big treasure!"

The Super alchemy bomb wasn't that big, and its power was compressed to the extreme. It looked only slightly bigger than a fist. Lin Yi pressed it on Mei Tianfeng's shield.

With precise control of the direction of the explosion, it was concentrated on one point of the shield. The shield condensed from star power had no resistance at all and was easily torn apart by the powerful explosion.

Not only that, but the highly concentrated explosive force also formed a beam of light. Tearing through the shield did not consume much of its power, and the remaining force bombarded Mei Tianfeng's chest!

Mei Tianfeng's eyes were filled with shock. He had not expected the shield to be so fragile. He had wanted to rely on the shield to block for a moment and then Dodge.

In the end, the shield wasn't able to block it for even a moment. It was like air, easily pierced through by the Super pill fire bomb, causing him to face the vast majority of the explosive power.

In the blink of an eye, he disappeared in the light of the Super alchemic fire bomb, turning back into the power of the stars and returning to the space of the Nebula Pagoda.

Lin Yi let out a breath, a smile on his face as he slowly retracted his palm. It'd been a long time since he'd managed to gather a super alchemy bomb that was close to his limit. Using it once in a while was still a very happy thing!

It was all thanks to the fact that the projected Mei Tianfeng wanted to be like a turtle and didn't have the slightest intention to attack, that Lin Yi had the time to create such a powerful super alchemy bomb.

At this level, you could fight several rounds in a second. Who would let you use your big moves for a minute?

After killing Mei Tianfeng, the Starlight swirled around again, and the stage seemed to spin. Lin Yi returned to his original position, and two more fighters appeared.

Lin Yi blinked. Mei Tianfeng again?

Not counting that, there was actually Daniya!

"Oh, we meet again! Are you surprised?"

"That's right, it's still me!" Mei Tianfeng shrugged. And I brought you a friend, shouldn't you thank me?"

Lin Yi raised an eyebrow and observed Daniya carefully, ignoring Mei Tianfeng's turtle shell.

Daniya glared at Mei Tianfeng impatiently, "What are you talking about? hurry up and do it. Don't waste time!"

At the same time, Daniya's body flashed and appeared in front of Lin Yi, her fist like thunder, rumbling towards Lin Yi.

"Oh," Mei Tianfeng replied and followed closely behind, appearing beside Lin Yi to support Daniya's attack.

Lin Yi was sure that this was a projection of Daniya too, so he didn't need to be polite.

Wild fire Eight Trigram palm!

He used the icy flame, and the flames of extreme cold and extreme heat mixed together and surged out to meet Daniya's fist.

Lin Yi took Daniya's attack head on and was sent flying back five or six steps, but he wasn't injured at all.

On the other hand, Daniya only took a step back, but her fist was stained with the icy flame. While her skin was burned, a layer of frost also formed.

Chapter 9197

As for Mei Tianfeng, his attack didn't hit Lin Yi at all. Lin Yi dodged it as he retreated.

"Interesting, you've simulated Daniya's combat power very similarly! I really haven't had a good fight with Daniya before, but I've finally gotten my chance today!"

Lin Yi grinned and shook his numb wrist.

The projected Daniya was also at the great circle of heaven Sundering, and could not be underestimated!

Lin Yi let out a breath, his eyes serious. Daniya at the great circle of heaven-Sundering wasn't an easy opponent to deal with. If the star Cloud tower completely simulated Daniya's abilities, it would be even more troublesome!

"Get out of the way, don't get in the way!"

Daniya shook her hand and rebuked Mei Tianfeng with a look of disdain. At the same time, the injury on her fist was rapidly healing. The physical body of a darkness demon beast had an outstanding self-healing ability. Even if it was a clone, it had also inherited this property.

The icy blaze fire was just a Spirit Fire derived from the ice flame serene lotus fire. It was one of Lin Yi's trump cards in the past, and it wasn't enough to be used against heaven breaking realm practitioners, especially against a Dark Beast like Daniya.

"It would be easier for me to defeat him if I cooperated with you! How was he in the way? Without my support, your fighting strength will drop by a level!"

Mei Tianfeng mumbled unhappily. They were all projections created by the star Cloud tower. There was only a difference in the strength of the clone, not the identity of the clone. What was he so arrogant about?

"Hmph, it doesn't matter if you're here or not. Just hide at the side and watch!"

Daniya was full of pride, and Lin Yi didn't know if it was her original personality or if it was just her clone's personality, but he found it strange.

In fact, Daniya was right. When the two of them worked together, their battle strength would be stacked. However, no matter how much they stacked, they were still within the range of the heaven breaking realm and could not directly break through to the venerable realm.

And Daniya herself already had the strength of a complete heaven-cleaving cultivator, so it really didn't make much of a difference whether she had Mei Tianfeng.

With that, Daniya continued her attack. She had learned the butterfly microstep from Lin Yi before, and although she didn't know the Super limit, her speed wasn't any slower than Lin Yi 's.

The two of them didn't have much to say. In just a few seconds, they had exchanged hundreds of blows.

Lin Yi had to use all sorts of skills to barely block Daniya's attacks. If he didn't use his most powerful skills, he wouldn't be her opponent ...

The star power that was suppressed in his body and primordial spirit began to stir under the high-intensity battle. Fortunately, most of it had been resolved. Even if it exploded, the consequences would not be too serious.

Mei Tianfeng retreated to the side and no longer interfered in the battle. He consciously became a cheerleader for Daniya.

Lin Yi thought the guy was too noisy, so he suddenly used the three appearances of cloud and Dragon, leaving an afterimage behind him. He appeared behind Mei Tianfeng, took out his hammer, and gave him an eighty-Yuan hammer service.

Lin Yi didn't hold back because Mei Tianfeng had a shield that couldn't be broken easily. He swung the hammer with all his might. Mei Tianfeng didn't expect Lin Yi to break free from Daniya's battle and attack him. He was caught off guard.

The shield that was hastily condensed was of no damn use. With just a light touch from the big hammer, it immediately fell apart. Daniya only turned her head to take a look and had no intention of supporting him.

One thing worth mentioning was that Lin Yi's afterimages didn't confuse Daniya at all. She retracted her attack before it touched the afterimages, and her eyes followed Lin Yi's body.

If she wanted to go and help Mei Tianfeng, she had enough time, but she didn't do so, as if she was happy to see Lin Yi kill Mei Tianfeng.

Mei Tianfeng struggled for a while, but he was smashed by the hammer and returned to the arms of Nebula Pagoda.

"You seem to be eager for me to kill your companion? Did the clone have his own thoughts? Is it the same train of thought as the main body?"

Lin Yi saw that Daniya wasn't moving, so he slammed the hammer on the ground, ready to chat. She looked like Daniya, after all, and it would be more friendly.

In the end, Daniya only snorted. Her beautiful eyes suddenly widened, the whites of her eyes turning red, her pupils turning into circular lines, and a vertical line appeared in the middle of her eyebrows, as if a third eye was about to open.

Lin Yi jumped-wasn't this Daniya's innate ability?! As expected, the clone was unconcerned and casually used Daniya's hidden skill.

Lin Yi didn't dare to waste any more time. He activated his lightning escape technique and turned into a lightning bolt, trying to escape the effective range of the ability. However, the space around him seemed to have frozen. The lightning bolts moved like snails in this frozen space as if a slow-motion button had been pressed.

Lin Yi had never encountered such a powerful binding ability before. He didn't even know if it was related to the flow of time or the freezing of space.

Daniya raised her hand slowly and pointed it at Lin Yi from a distance. She put some strength into her fingers and slowly, slowly started to close them.

An incomparably strong force started to press down on Lin Yi. His lightning escape technique was broken, and Lin Yi's body stayed in the air. He was twisted by the invisible force, and his body made a soft cracking sound.

The hammer didn't affect him much, but Lin Yi had lost control of it. He had to think of another way to escape.

Daniya's innate ability was really overpowered!

Lin Yi felt a little emotional and helpless. This was the star Cloud tower's projection of Daniya. It seemed to be on par with Daniya's strength, but it was actually harder to deal with than her actual strength.

If the real Daniya was here, Lin Yi could still use his spirit sense to turn the tables. After all, Daniya's defense against spirit sense skills wasn't that strong.

This clone didn't have a spirit at all, and no matter how Lin Yi attacked her with his spirit sense, she was immune to all attacks.

This was very infuriating!

Feeling the invisible pressure getting stronger and stronger, Lin Yi didn't plan on using the star indestructible body. After all, there was still a three-person arena later, and who knew what kind of opponent would appear.

Other than the indestructible star body, Lin Yi still had other ways to get out of this situation, such as Suan NI's yuan spirit leaving his body!

The spirit came out of the body and The Witcher spirit body replaced the body without any flaws. The body that lost the spirit was instantly sent back into the Jade space, and Daniya didn't even notice that Lin Yi's body had been replaced.

The congealed sorcerer spirit body did not look any different from a physical body on the surface, but the invisible pressure could not be applied to the Sorcerer spirit body.

Lin Yi slipped away from the pressure and quickly escaped from Daniya's ability. This ability also had a restraining effect on The Witcher spirit body, but it wasn't as obvious.

Perhaps Daniya didn't specifically target The Witcher spirit body ... Lin Yi wasn't sure if that was the case, but he had to get out of the range first!

Chapter 9198

The speed of the Sorcerer spirit body was raised to the limit. It was not easy for him to rush out of the skill's range. His body came out of the Jade space again and perfectly contained the Sorcerer spirit body without any flaws.

Daniya's brows furrowed, her eyes red as blood as she activated her ability again!

This time, Lin Yi was prepared for it. He used his super limit butterfly micro steps and put some distance between them before activating his lightning escape.

As the lightning arc flickered, he narrowly avoided Daniya's skill range!

Two thin streams of blood flowed down from Daniya's eyes, sticking to her fair face. The vertical line in the middle of her brows opened up a little, revealing her blood-red pupils.

Lin Yi's hair stood on end as the Jade space started to alert him. He could feel the great horror, and he didn't know where the invisible danger was coming from.

He didn't know if he'd be able to block the attack if he let Daniya unleash it. He couldn't just put his body back into the Jade space, could he?

What if even the Sorcerer spirit body could not withstand this attack?

Under the premise of not using the star undying body, the only way to break it was to stop Daniya from launching an attack!

It could be seen that Daniya's burden was very heavy. The main body was a little overloaded using this ability, and the clone was also unable to easily activate it.

He activated all his movement speed skills and teleported behind Daniya. The hammer came down like lightning, but stopped an inch above Daniya's head!

The veins on Lin Yi's neck popped up, and his arm muscles expanded to the limit, but he couldn't push the hammer any further!

"I've caught you!"

Daniya spoke coldly and turned to Lin Yi. The vertical pupil between her eyebrows was completely open, and Lin Yi's figure was reflected in the blood red pupil.

More blood flowed out of his eyes, making him look extremely terrifying. Lin Yi's body was in mid-air, but he was completely frozen. This time, he couldn't even replace his body with the Sorcerer's spirit body and put it into the Jade space.

He would die!

Lin Yi was ready to activate his star undying body to save his life.

He didn't expect Daniya's ability to be so terrifying. She was invincible in both attack and defense just by standing still!

What he didn't expect was that Daniya's head exploded on its own before Lin Yi could even activate the star undying body!

After that, his body turned into Starlight and re-integrated into the space of the pagoda.

Lin Yi was stunned. He almost activated the indestructible star physique, why did Daniya self-destruct? Was it because the power used had exceeded the limits of the clone's tolerance?

Or to put it another way, Daniya's innate ability was too strong, so the clone did not have the same endurance as the original and forcefully used it, causing it to self-destruct?

Then would the real Daniya die after using her innate ability to this extent?

He was indeed strong, but if the price was to die together with him, it didn't seem so good ...

After losing the source of energy, Lin Yi, who was trapped in the air, suddenly fell down. After stabilizing himself, he was still a little scared. He really didn't expect Daniya to be this terrifying when she exploded!

Speaking of which, Daniya was so strong, so he didn't have to worry about her ... Even if she was alone, it wouldn't be easy to make her suffer.

Lin Yi let out a breath of air as he tried to think about Daniya's situation. The scene in front of him changed back to the beginning of the stage, and there were three people in front of him.

"Yingluo, we meet again!"

Lin Yi resisted the urge to roll his eyes at Mei Tianfeng's gesture. He wanted to curse at someone.

Among the three of us, there's not only me, but also Daniya. There's also a warrior that I don't recognize. I've never seen him before, but he's at the late-stage heaven breaking realm.

Let's not talk about the other two, but why Daniya again? Daniya's terrifying power was still fresh in his mind, and Lin Yi really didn't want to experience it again!

The first to attack was the stronger, the second to attack would suffer!

This time, Lin Yi wasn't going to give Daniya a chance to use her talent. He activated his lightning movement and instantly got close to the three of them, swinging the hammer at Daniya!

I don't know if it's a one-shot deal, but I'll go all out first!

Daniya frowned and used butterfly steps to Dodge, not wanting to take Lin Yi's hammer head on.

The problem was that the butterfly microstep was something Lin Yi taught her, and he knew all the variations. How could she Dodge the attack so easily?

The sledgehammer followed like a shadow, constantly approaching Daniya's head. Mei Tianfeng and the other martial artist didn't have any intention of helping, and were actually watching the show from the side.

Lin Yi felt that something wasn't right. Mei Tianfeng was helping Daniya attack just now, and even if his attacks were useless, he wasn't even going to defend this time?

Could it be that the projection created by the star Cloud tower could inherit memories? Was this revenge for clone Daniya leaving him to die last time?

"Sima! Are you for real?"

Daniya, who was being chased by the hammer, suddenly spoke up, her eyes staring at Lin Yi.

Lin Yi was shocked. This Daniya, could she be real?

Lin Yi's back was covered in cold sweat at the thought. The ninth level of the star Cloud tower was filled with clones, and at the last moment, the real Daniya appeared, making him and her kill each other under normal circumstances?

It was completely possible!

After all, he had already guessed that the star Cloud tower was encouraging martial artists to kill each other. How could it possibly use the projected martial artists to replace the real martial artists?

How sinister!

Lin Yi pulled the hammer back and backed off, wanting to ask more.

Daniya didn't move, but the unknown practitioner suddenly jumped up and sneaked an attack on Lin Yi.

Lin Yi turned into a lightning arc to pull away and avoid the sneak attack, but he didn't expect the stranger to turn around and become Daniya.

The two danias had the same expression on their faces, and the unfamiliar fighter who had transformed into Daniya said, ""Sima, are you for real or fake?"

Lin Yi's head hurt ... Sima wanted to F \* ck his mother ...

Then he raised the hammer and smashed it towards Daniya's head!

No matter if the first Daniya was real or fake, the second one was definitely fake. Changing into Daniya in front of me, do you think I'm stupid or blind?

It was obviously fake. Who was he trying to fool?

The fake Daniya quickly pulled away and dodged Lin Yi's hammer. At the same time, she activated her innate ability. Her pupils changed, and vertical lines appeared between her eyebrows. The space around her froze.

Lin Yi's mouth twitched.

Are you done?

He immediately activated the star undying body!

This was the last battle. Was he going to keep the star undying body for the new year? Use a big move to attack!

With a flash of lightning, Lin Yi appeared in front of the fake Daniya and swung his hammer down.

It didn't matter if it was 80 or 40, he would beat him until his face was full of peaches and his head was full of buns!

The fake Daniya was dumbfounded. Such a domineering innate ability was wasted just like that? There wasn't even a single sound ...

Chapter 9199 Power

The other Daniya raised her eyebrows and watched as Lin Yi smashed the fake Daniya to death. The fake Daniya turned back to her original appearance before turning into a star and disappearing.

Mei Tianfeng shouted, "Daniya, Dodge first. He's activated the star indestructible body. You can't kill him!" Let's wait for his time to pass before we fight!"

The corner of Daniya's mouth twitched as she narrowed her eyes and said indifferently, ""Do I need you to tell me?"

Before she could finish her sentence, Daniya had already arrived beside Mei Tianfeng and neatly smashed his head.

Poor Mei Tianfeng's projection, he died three times out of the three times ... He must have offended the star Cloud tower.

"Sima?"

After killing Mei Tianfeng, Daniya looked at Lin Yi hesitantly and asked, "Do you remember where we first met?"

"In one of the tents. Do you know which tent it is? Do you still remember whose camp that tent is?"

Lin Yi's heart moved-was Daniya trying to confirm each other's identity through this kind of question? The clone should not have any specific memories, right?

"Of course I know, it was in my tent! The tent is in the camp of Senlan wuhun!"

Daniya's body relaxed and she revealed a bright smile, ""Looks like you're the real Sima and not a projection created by the star Cloud tower! This place is really making me nervous! I can't be sure if I've met a real person!"

Lin Yi let out a breath of relief. As expected, the star Cloud tower wanted him and Daniya to kill each other in the end!

He'd been numbing Lin Yi earlier, using inertia to influence him so that Daniya, who'd appeared last, would be a projection as well.

"Daniya, why did you appear with the two projections? Isn't your mission to pass the test alone?"

Lin Yi was curious as well-if he was playing solo mode, there was no reason why Daniya wasn't!

Daniya laughed,"why don't we go through it alone?" The projection created by the star Cloud tower was not considered human! I've met your projection before and was almost killed by it. I'm so nervous to see you again!"

Lin Yi couldn't help but laugh,"what a coincidence. I've met your projection before and was almost killed by it. I was also very nervous when I saw you!"

After that, the two of them looked at each other and laughed. However, after laughing, they still had to face the reality. It was the third round of the challenge. The two of them were enemies, so one of them had to be eliminated!

"Sima, I will admit defeat later and withdraw from the star Cloud tower. You can continue to advance!"

Daniya took the initiative to ask this question, ""I'm already at the great circle of heaven-Sundering, and the chances of breaking through aren't great. After all, I've only reached this level not long ago, and I need time to settle down."

"It's meaningless for me to continue walking down this path. On the contrary, you still have a lot of room for improvement, so it's most appropriate for me to withdraw."

"I will wait in the Black Star River outside the star Cloud tower. That is enough for me to consolidate my cultivation. You can continue to climb without worry. I believe that you will definitely be able to reach the top!"

Lin Yi frowned as many thoughts crossed his mind. He smiled, "This doesn't seem to be very good, but what you said is not without reason, so I will be impolite to refuse! Thank you!"

Would the star Cloud tower be able to break through to the Supreme realm?

Lin Yi wasn't sure-he might not be able to, but Daniya was already at the peak of heaven-Sundering, and if she could get to the eighteenth floor, she might have a chance!

Daniya gave up just like that, was it friendship?

"What's there to thank? Do we still need to be so distant?"

Daniya waved her hand nonchalantly and suddenly changed the topic, "The one who took on my appearance just now was also a projection clone, but it wasn't a projection of me. It was a dark shadow phantasmagoric demon of the darkness demon beast clan. We've seen him take on my appearance before, and that's his original appearance."

"I didn't expect the star Cloud tower to project the shadow Demon. Sima, when you go up alone, you must be careful. Be careful not to be ambushed. "

Daniya said with concern, and Lin Yi's star undying body ended when she finished.

The moment Lin Yi returned to normal, Daniya's eyes opened wide. Her pupils were blood red, and circles of deep lines appeared in them. An invisible force appeared out of thin air, binding Lin Yi within.

A vertical mark appeared on her forehead, and it cracked open slightly. Her blood-red pupils could be seen. She was going all out, attacking Lin Yi at all costs.

Lin Yi, who was within the attack range, was crushed by the huge pressure.

Daniya didn't look happy at all. Instead, she was a little surprised and couldn't help but cry out, "An afterimage?!"

"Yes, that's just an afterimage!"

Lin Yi's deep voice came from behind Daniya, "As expected, you're not the real Daniya!"

The big hammer smashed down with the force of a Thunderbolt. Daniya was aghast, the vertical line between her brows expanded again, and the blood pupil became more obvious.

An invisible force field surrounded Daniya, and she didn't turn her head around, but she blocked Lin Yi's sneak attack.

Lin Yi's attack missed and he left an afterimage behind as his real body backed away, putting some distance between him and Daniya.

"You've been on guard against me?"

Daniya's power tore apart the second afterimage, and tears of blood flowed from her eyes. She had already reached her limit when she used all her strength, but it ended up hitting nothing.

"Could it be that you've already seen that I'm not the real Daniya? That's not right, if you're sure I'm not Daniya, you should have attacked me before your invincibility disappeared!"

The vertical pupil between Daniya's brows contracted and disappeared, her pupils returning to normal. She nonchalantly wiped away the blood on her face, "So you're still on your guard against me when you're not sure? Hehe, what a cautious guy!"

Lin Yi shrugged and smiled, "You're really good at acting as Daniya. You even know about the first time I met Daniya. It was Daniya's real body that was tricked by my projection, right?"

If he could see Daniya's projection, Daniya could naturally see Lin Yi's projection as well. It was normal to ask each other to confirm their identities, so even if the clone couldn't copy the memories, he could still get some information and use it on the other person.

"Tsk, tsk, tsk, not only are you careful, but you're also very meticulous. That's why I hate people like you the most! I don't have any room to display my skills!"

Daniya couldn't help but shake her head and sigh, "it's really unpleasant! I thought I had fooled you, but I didn't expect that in the end, I was still the one who was fooled by you!"

"Speaking of which, I'm very curious. When did you start suspecting that I'm not Daniya? You said it yourself, my acting was very successful, there's no reason for you to see through it so easily!"

Daniya wasn't in a rush to attack, and instead started chatting with Lin Yi casually. She really did want to know what went wrong for Lin Yi to be on guard.

Chapter 9200 The End

Only by knowing the mistakes could he improve next time!

Lin Yi smiled, "there's nothing special about it. I felt something was wrong when you said you were going to admit defeat. After all, there's no such thing as admitting defeat in this test."

Before the three arena matches began, the first clone Mei Tianfeng had said that one could choose to withdraw before the match began. Once the match began, there was no possibility of stopping. The only option left was to fight to the death.

Either the Challenger died, or the one who stopped him died!

If Lin Yi and Daniya really did meet in the arena, it meant that the two were each other's challenger and obstruction, with the same goal-to defeat and kill each other!

This was a true battle of life and death!

To admit defeat was to give up one's life!

It wasn't that Daniya wouldn't give up her life for Lin Yi. With Lin Yi's trust in Daniya, if she was in danger, Lin Yi would risk his life to save her. There was no doubt about it. Lin Yi also believed that his companions would treat him the same way.

But being able to give up their lives for each other didn't mean that Daniya would give up her life without any resistance!

There was still time in the arena. Why would he admit defeat until the last moment? He had to think of other ways and see if there was a way to satisfy both sides.

Directly saying that she would admit defeat didn't match Daniya's character!

Lin Yi had a strange feeling because of this sentence, and it turned into a slight suspicion.

"You said you were going to admit defeat, but you didn't put it into action. Instead, you talked about something else to distract me. It's hard for me not to suspect that you admitted defeat just to numb me, and that your real purpose was to stall for time."

Lin Yi continued as he organized his thoughts, "Because I had activated the star undying body, you couldn't do anything to me. So, you killed Mei Tianfeng's clone first, then said that you would admit defeat and let me continue to climb the star Cloud tower."

"In fact, all these are just to delay the time of my use of the indestructible star body, so the moment I leave the state of the indestructible star body is the time for you to launch your attack!"

"Although I was suspicious, I definitely wouldn't do anything to Daniya without any evidence. I could only guard against possible sneak attacks. As expected, I was really unlucky!"

Daniya admitted defeat and said she'd wait for Lin Yi outside the star Cloud tower. He'd been suspicious from the start, and that's why he'd said "I'd rather do as you say. "

If it was the real Daniya, how could Lin Yi just watch her die and continue to climb the star Cloud tower?

"Tsk, tsk, tsk, you're indeed the kind of person I hate the most! It was just a sentence that couldn't be considered a flaw, and you caught it! It's really annoying!"

Daniya held her forehead with her right hand, looking very unwilling, "I will be more careful next time and not make such a mistake again! Of course, you might not have a next time!"

"Ha ... Are you ready to reveal your true intentions? It seems that our chat time is over and we're going to enter battle mode?"

Lin Yi swung the hammer and put it on his shoulder. "That's good. The earlier I get rid of you, the faster I can pass the test. I think the real Daniya is already waiting for me. Don't you think so, Shadowmancer?"

Daniya's body shook as she looked at Lin Yi in shock, "How do you know that I'm not the Daniya that the star Cloud tower projected? How did you know?"

She was really annoyed. In such a short time, so many flaws had been exposed? It was simply a ghost!

"Do you really think you're so good at acting like Daniya?" Lin Yi smiled. It's too easy to see through your identity, alright?"

"First of all, I've already said that your words exposed the possibility that you aren't the real Daniya. Secondly, we met once on the platform of the sixth floor and you ambushed me. Do you still remember that?"

"Although you didn't leave any flaws at that time, I had a deep impression of you, especially when I found out that you could copy other people's abilities but couldn't fully exert the opponent's strength."

"The star Cloud tower has projected your clone, and after it becomes Daniya, its strength will definitely not be as strong as the real Daniya 's. And the sneak attack you launched on me just now, although it didn't hit me, the power ..."

Lin Yi smiled mockingly, "you look exactly like your clone Daniya!" Isn't this enough to prove your identity?"

In the second Battle, the star Cloud tower projected Daniya's clone, and the power of her innate ability was about 15% stronger than this time. This was no small number.

This level of destructive power, even if it was only one or two percent, it was still a huge difference. If Lin Yi still couldn't see through this Daniya's true identity, then he'd be either stupid or blind!

There was another reason that Lin Yi didn't mention. He'd guessed that the star Cloud tower encouraged martial artists to kill each other, but the 9th level was just a projection of the tower itself. This didn't match his previous guess.

So in the last round, Lin Yi felt that it was reasonable to have real opponents. They were all clones projected by the star Cloud tower, which was wrong!

To be honest, Lin Yi was grateful to Daniya for being a Shadow Demon. He really didn't want to meet her in this situation!

Lin Yi didn't even know how to deal with a battle where one of them would die!

If it was the shadow huanmo, it would be simple. He would just go up and kill him!

"So that's how it is! I understand now ... I really hate people like you!"

Shadow phantasmal Daniya suddenly revealed a sinister smile. "If a human has a good brain, wouldn't they be fresher when dug out to eat? I can give it a try this time!"

"You?" Lin Yi shook his head, a smile on his face. I'm afraid you don't have a brain in your head, right? Daniya's innate ability is very strong, but it's a pity that you can't use your full strength. You won't be able to withstand the backlash from the burden. "

"You can't even fully replicate Daniya's fighting strength. Do you think you can beat me? You're too naive!"

Daniya was at the great circle of heaven Sundering, and The Phantom demon's clone was also at the great circle of heaven Sundering, but he couldn't display Daniya's full strength.

Other than Daniya's innate ability, Lin Yi didn't have much to fear. Now that he had recovered his strength, he could use the hammer to fight The Dark Illusion demon!

"Do you have some misunderstanding? On the sixth floor, if it wasn't for Daniya's timely arrival, I would have killed you long ago!"

"What makes you think that you're a match for me without Daniya?" Shadowfiend sneered. You've already used up the star undying body you used to save your life. I really want to know what other means you have to save your life. "

"I'll save my life if I kill you!" Lin Yi tilted his head.

Before he finished speaking, lightning flashed!
