

## Bodyguard 9201

### Chapter 9201

Activating his Thunder escape technique at full force, Lin Yi instantly closed in on the dark shadow huanmo. The hammer was wrapped in endless thunder and ice Flames as it smashed down!

Unparalleled might!

The shadow phantasmagoric spirit was currently replicating Daniya, and even without using its innate ability, it was still strong enough to fight Lin Yi's sudden attack without panicking.

She glided a little and flicked out a soft whip, hitting the handle of Lin Yi's hammer and slightly affecting the fall of the hammer.

The big hammer smashed down in front of her, less than three inches away from the tip of his nose. The lightning arcs and ice Flames that were released scraped her face, leaving a slight scar, but it immediately recovered.

The darkness demon beast clan's self-healing ability was extremely strong, so it didn't matter if they had this kind of small injury or not.

Lin Yi had never seen Daniya use a soft whip before, and he didn't know if it was Daniya's doing or if it was the shadow phantasmagoric's own skill.

He didn't take it to heart ...

If he wanted to use softness to overcome hardness, both sides had to be about the same. The grade of the big hammer was far higher than the soft whip in the Shadow Demon's hand, and the power it could exert was also extraordinary. The shadow Demon could not easily deal with it.

It's true that softness can overcome strength, but there's also the saying of using force to overcome technique!

Lin Yi swung the hammer, and under the effect of inertia, every swing became the process of storing power, so each strike was stronger than the last. The dark huanmo only used his whip to block two or three strikes before he realized that the whip was no longer useful.

The power carried by the big hammer was too strong, and the whip was bounced away by the external Qi when it came close. It couldn't even touch it, so how could it be said to be able to deflect a thousand Jin with four Liang, or use softness to overcome hardness?

Fortunately, she had copied Daniya's strength, otherwise, The Dark Illusion would've been blown up within ten hits!

The problem was that the shadow Demon couldn't fully utilize Daniya's strength. If it was Daniya herself fighting Lin Yi, she might be able to keep going, but the shadow Demon couldn't do it to Daniya's level. After losing the initiative, it was in a worse state.

Lin Yi's sledgehammer was getting more and more active, and after twelve hits, the space for The Dark Illusion to Dodge was very, very small. It might not be able to Dodge the next hit, and it would have to take Lin Yi's sledgehammer head on.

Helplessly, the shadow Phantasm activated Daniya's innate ability again, freezing the space around it. Lin Yi still couldn't figure out if it was time or space, or both.

Lin Yi felt like time was slowing down, and his body was being restricted. He couldn't tell what was causing it.

"I've caught you!"

The corners of the shadow phantasmagoric demon's eyes burst open, and blood flowed out from both eyelids and corners of his eyes. The same was true for the vertical pupil on his forehead. It was obvious that he was suffering from unbearable pain.

Lin Yi stopped three feet in front of her, and the hammer was less than ten centimeters away from her head. If she took a second longer to control Lin Yi, The Dark Illusion would have no chance to control Lin Yi at all!

"You really caught me?"

Lin Yi suddenly smiled, and his spirit sense collided into the shadow illusion demon's sea of consciousness.

The clone from the star Cloud tower didn't have a spirit, so any spiritual attacks were useless. The shadow huanmo wasn't a projection clone made of star energy, so it couldn't be immune to Lin Yi's spiritual attacks.

The distance was too close and the dark shadow huanmo wasn't prepared at all. The defensive items he had on him couldn't block Lin Yi's sudden burst of spiritual attack.

Wu Linghai's deified soul attack had a chance of ignoring the deified soul defense. The shadow huanmo let out a scream and lost control of the space around him.

The sledgehammer continued to fall, but The Phantom had already shifted its position slightly when it had just regained control. Under the inertia, the sledgehammer slid past The Phantom's body by a millimeter, not causing any fatal damage.

But this wasn't a problem. The Shadowfiend held his head with both hands and suddenly removed Daniya's copy state, returning to his original appearance.

Lin Yi didn't let him off easily and swung the hammer down again. Shadow huanmo couldn't Dodge and could only watch in fear as Lin Yi's hammer came down.

Lightning and fire intertwined, blood and flesh flew!

The Dark Illusion demon couldn't resist at all and was killed by Lin Yi in one blow!

The Starlight flickered, and the scene changed. The stage quickly disappeared, and Lin Yi and The Dark Illusion demon's bodies appeared on the stage. Not far from them was the core area.

Lin Yi frowned. He passed the last test, so it was obvious that he won, but why was the body still there?

The cultivators who had died earlier had all been disposed of by the star Cloud tower. There was no reason for The Dark Illusion demon to be special. Did the star Cloud tower pick people? The darkness demon beast clan didn't want it?

While he was thinking, a light flickered under the shadow phantasmagoria's body, and an almost transparent shadow appeared beside him, grabbed the shadow phantasmagoria's body, and disappeared in an instant.

Another space-trapping ghost devil?

Was this the backup plan for The Dark Illusion demon? Could it be that the shadow phantasmagoria was not truly dead?

Lin Yi didn't stop him-everything happened too fast, and he didn't have time to react. He just didn't think it was necessary.

The air-sinking demonic spirit had a special ability, and Lin Yi wasn't sure if he could stop him. The dark illusionary demon was dead, so what was the point of snatching his body?

Could it be that the darkness demon beast clan still had the possibility of resurrecting the shadow phantasmagoric demon?

After thinking for a while, he still couldn't figure out the main point. Looking left and right, he didn't see any traces of other people, so he could only collect the reward for the ninth floor first.

After receiving the usual star energy and the incomplete chant, Lin Yi received another piece of information-it was a common martial skill from the star Cloud tower.

[Explosive meteor strike]!

There were no restrictions on how it could be used, be it empty-handed or with a weapon. The demonic devouring sword could be used, and the hammer could also be used.

Generally speaking, it was to condense the power of the stars and then burst out, instantly forming a dense attack like a meteor shower, which felt a little similar to the Pegasus meteor fist.

Of course, this explosive meteor strike could only be used with a strong star power. Without the star power, it was useless.

With sufficient star power, it could exert a very strong power, which was a good attack skill.

Lin Yi wasn't in a hurry to move forward. He stayed where he was and familiarized himself with the explosive meteor strike, preparing for the battle later on while waiting for Daniya.

After another two minutes or so, there was a flash of light on the platform, and Daniya really appeared.

When she saw Lin Yi, Daniya instinctively went into a defensive position, her guard up very high. It was obvious that she'd been at a disadvantage before.

However, he quickly put away his posture and waved his hand, ""Sima, you've indeed passed the test!"

Lin Yi's expression was a little weird-he'd already seen three danias before, so this should be the real one, right? The problem was that there was a shadow phantasmagoric race, and the star Cloud tower didn't care about martial virtues. Lin Yi couldn't be sure if the person was Daniya!

Chapter 9202

"Daniya, I just encountered a shadow phantasmagoric again!"

Lin Yi nodded in response and said something that didn't seem related.

Daniya was stunned for a moment before she smiled."Sima, release your primordial spirit and take a look at mine."

She knew that Lin Yi's essence spirit was strong and special. He could change his appearance but not his essence spirit.

This was especially so for the replica made by the star Cloud tower. In essence, it was just a projection and had no primordial spirit. Using the primordial spirit to verify one's identity would never be wrong.

Lin Yi complimented internally-this really was the real Daniya, she was smart!

He released his sorcerer spirit body to let Daniya confirm his identity. Then, he used his consciousness to probe into Daniya's sea of consciousness after she had let down her guard to confirm that she was not a fake.

"I've finally reunited with you! You don't know how many times I've seen you on this level of the star Cloud tower!"

"It's not just the star Cloud tower that copies you, shadow huanmo copies you as well. You're really popular!" Lin Yi teased.

Daniya also laughed. "Don't just talk about me. You're the same. I've met you a few times too. I've suffered!" By the way, did the shadow phantasmagoric Devil Run away again?"

"I don't know how to calculate it ... The Dark Illusion was my opponent in the third ring. He still appeared in your appearance and was killed by me in the end."

Lin Yi scratched his chin, his question popping out. "However, after passing the test, the shadow phantasmagoric body was taken away by the space-trapping demon. Daniya, I want to know if the shadow phantasmagoric body can be resurrected?"

Daniya was silent for a moment, as if she was searching through her memories.

"It's hard to say ... The shadow phantasmagoric demons don't have the ability to resurrect themselves, but if they haven't been dead for too long, they have a chance to retain the vitality of their bodies and primordial spirits. If they have the cooperation of other darkness demon beasts who are good at healing, there's a chance of resurrection."

"So far, we still don't know which races are among the dark Demon beasts, and we only have the tip of the iceberg. However, the spatial breaching ghost demon took the risk to snatch the corpse of the shadow phantasmagoric demon, so there's a high chance that he can be resurrected."

As she spoke, Daniya had already received the reward from the ninth level. She had also received the general skill of the explosive meteor strike. This thing looked quite high-end and its power was also quite impressive. However, looking at the bulk of it, it was probably just an entry-level martial arts skill that the star Cloud tower had thrown out.

"Sima, let's not talk about the shadow huanmo for now. I have something to say."

Daniya's face was serious, and Lin Yi stopped smiling, signaling for her to continue, "The arrangement of the star Cloud tower on this level gives me a bad feeling. We've both met each other's clone ..."

"This might be a warning from the star Cloud tower. If we continue to advance together, we will most likely be arranged to kill each other."

"For example, in the arena just now, I met your clone. If it wasn't your clone but the real you, one of us would have to die to pass."

"If we don't want to kill each other, the star Cloud tower will kill us all when the time is up! I don't want to see this happen, so I've thought about it. I want to leave the star Cloud tower!"

Daniya's voice was calm, and her emotions didn't fluctuate much. Lin Yi, on the other hand, listened quietly. The general idea of what she said was similar to what the shadow phantasmagoric had said when she was in Daniya's form.

It was just that she didn't think it through properly in the arena, and that was why Lin Yi found out. It was normal for Daniya to think like that now.

"You don't have to think too much about it. My strength has only increased not long ago, and my Foundation is still a little weak. Even if I continue to climb, I won't be able to break through. Anyway, I just want to strengthen my Foundation. It doesn't matter whether I stay in the star Cloud tower or not!"

After Daniya expressed her thoughts, she laughed, ""Actually, I'm not making way for you. I'm just afraid that I can't beat you and will be killed by you for nothing. Although I'm on your side now, I'm still from the darkness demon beast clan, and it'll be awkward to face so many of my clansmen. "

It wasn't a lie-Daniya had basically decided to become Lin Yi's companion, abandoning her identity as a Dark Beast. However, she still felt a little uncomfortable fighting a Dark Beast.

He could use this opportunity to leave the star Cloud tower and speak his mind. It might be a good thing to get rid of the burden.

Lin Yi nodded slightly. If it wasn't the shadow Demon but the real Daniya in the arena, it would be a difficult situation.

It wasn't a bad thing that Daniya wanted to leave the star Cloud tower. Going to the star Ink River to strengthen her Foundation wasn't necessarily any worse than continuing to stay in the star Cloud tower and risk her life.

"I understand. After you go out, go to the Black Star River and cultivate. I'll come to find you after I come out!"

Lin Yi didn't waste any more time-there was no need to talk him out of it.

Daniya smiled and nodded."I think so too. We can also go and find Qin wunian. He might already be in the inky Star River. We can wait for you to come out together."

They didn't know where Qin wunian had been sent to, but she wanted to leave the star Cloud tower to avoid becoming a burden to Lin Yi and Daniya. In the end, she was tricked by the space-wrecking devil.

There was no news of her until now. If Daniya could find her outside the star Cloud tower, it might be a good thing!

"Good! Let's go to the tenth floor first. It won't be too late to quit when we reach the thirty-third step!"

Lin Yi entered the tunnel first, with Daniya following closely behind.

Even though the ninth floor's rewards would be greatly reduced if she left the tenth floor, it didn't really affect Daniya.

The star energy could be replenished and absorbed in the star Ink River, and Lin Yi had derived much more chants than the star Cloud tower. As for the explosive meteor strike, he had already learned it ...

Even if the star Cloud tower took back the explosive meteor strike and erased this part of his memory, Lin Yi could just teach him again.

The two finished their discussion and walked up to the thirty-third step. Daniya didn't hesitate to leave the star Cloud tower, leaving Lin Yi to continue on his own.

The first group's speed had slowed down-the eleventh floor was lit up, breaking the thousand-year record, but the twelfth floor wasn't cleared yet. Lin Yi might be able to catch up if he sped up.

What Lin Yi was more interested in was how many of the elites of the dark Demon beast clan had died under Xingyun tower's arrangement.

By the time they caught up, would the dark Beast clan have been destroyed by the star Cloud tower? It was possible that only two or three of the dozens of heaven breaking cultivators would be left. That would be a huge profit!

## Chapter 9203 The Power Of The Devil

Lin Yi sent Daniya off and continued on his own. The tenth floor was back to normal, and the thirty-third step didn't have any tests. He could pass it.

According to this situation, Daniya could actually choose to withdraw after reaching the Ninety-ninth step, but she was decisive and left immediately after reaching the thirty-third step, not continuing to dawdle.

Lin Yi climbed up the stairs all by himself, and there was no obstruction at all. He quickly reached the Ninety-seventh step, and the twelfth level of the Nebula tower suddenly lit up. From a bird's eye view, the twelfth level was lit up!

The first team had passed through the 12th level of the star Cloud tower, setting a new record!

Lin Yi subconsciously stopped and looked up at the stars, sighing at the speed of the first group!

At that moment, the Jade space's warning sign appeared. Lin Yi didn't hesitate to use his Thunder escape technique to teleport to another place. There were more than ten black arrows in his original position.

"Hehe, you're quite alert, and you're also quite fast. You do have some strength!"

Two figures appeared five steps away from where Lin Yi was standing-one of them was the Golden dark shadow Demon he'd seen before. It should be another clone.

The other one was a woman in a tight-fitting black combat suit. The most eye-catching thing about her was her long, slender legs, which belonged to the excellent category of players in her age group.

Other than that, there was nothing special about her. She was not considered pretty, but she was not ugly either. She could only be said to be average ... Her looks were average, and her fierceness was also average ...

The leg fanatic would probably say that long legs were enough, why would he need a bicycle?

Lin Yi wasn't a leg maniac, and he was on high alert against these two people. The Woman in Black waved her hand, and the black arrows on the ground turned into black metal particles and disappeared into her palm.

Needless to say, this was definitely a kind of innate ability. The one who was with the Golden dark shadow Demon was definitely an expert from the darkness demon beast clan. From the looks of it, he was also an elite with a bronze bloodline!

It was a pity that Daniya had left the star Cloud tower of her own accord. Otherwise, he would have been able to find out more about this black-clothed woman's background.

"You've killed our people. We can't let this matter rest. Even if you didn't kill our people, you'll still die if you get in our way. I'll give you a chance now. Surrender to us and we'll consider letting you Live!"

The Golden Shadow Demon had a victorious look on its face as it hooked its finger at Lin Yi. "Come here, kneel down and beg for my forgiveness. Swear your loyalty to me, and I will give you a chance to perform. Don't worry, as long as you can satisfy me, you will definitely get many benefits!"

Lin Yi's eyes flickered, and he suddenly smiled. "What's wrong? Your men have suffered heavy casualties, so you're changing your strategy and recruiting more people to help? No, to be more precise, you want to find some cannon fodder to replace the casualties of your men?"

They'd fought a few times already, and even if it wasn't a direct clash, the hatred between them wasn't small. It wasn't wrong to say that they couldn't stand each other-if the Golden Shadow devil really wanted to ambush Lin Yi, it would've sent more Masters.

Perhaps the four staircases were the reason why they split up, but no matter what, they shouldn't have recruited Lin Yi, unless the elites of the dark Demon beast race felt the pressure from the star Cloud tower.

It didn't matter if they suffered heavy losses or not-it was beneficial to recruit cannon fodder, and that was why they asked Lin Yi to surrender.

If that wasn't the case, he could have just carried out the ambush to the end, why would he need to talk so much nonsense?

"Hehe, you're thinking too much! What you should be thinking about now is whether you can survive the next second. I'm giving you a chance. If you don't know how to cherish it, then be prepared to welcome death!"

Something flashed in the Golden Shadow Demon's eyes, and it didn't answer Lin Yi directly. It threatened him with a strong attitude before changing the topic, "Are you alone? Where are your companions? If you choose to resist, you still have a chance to live with her here!"

Lin Yi's heart jumped. The Golden dark Shadow Demon's target ... Could it be Daniya?

The Shadowfiend had copied Daniya's innate ability and naturally knew about her background. Although he was killed, he might have already passed on information about Daniya to the Golden Shadow Fiend.

So ambushing him was just a side goal, and their biggest goal was to find Daniya and have her join them?

After all, Daniya was a powerful Dark Beast, and she was the first choice to strengthen the team. Lin Yi would be great if he could be cannon fodder.

"Heh ... If my companions were here, you would all be dead! Don't talk nonsense, if you want to do it, hurry up. "

Lin Yi knew that things weren't going to end well today, so he took out his hammer and prepared to fight.

"You're so stubborn. Since you want to die, I'll fulfill your wish! Do it!"

The Golden Shadow Fiend waved its hand and the Lady in Black beside it nodded. She raised both her hands and two torrents of black metal grains covered the sky and covered Lin Yi.

Countless black arrows shot out from the flood, forming a dense rain of arrows. Lin Yi was blocked from all directions, leaving no room for him to Dodge.

Lin Yi didn't hesitate to activate his lightning escape technique. A lightning arc flashed out the instant before the rain of arrows descended, dodging the first wave of concentrated attacks by a hair's breadth.

However, this wasn't the end. The arrows didn't land on the ground but followed the direction of Lin Yi's lightning arc. They drew an arc in the air and chased after the lightning arc like a swarm of bees.

However, it wasn't as fast as the lightning escape technique. Not only did it fail to close the distance, it was getting further and further away. It was obviously not enough to threaten Lin Yi.

The Woman in Black waved her hand expressionlessly, and the black metal particles spread out in the air, forming a black screen that covered the sky.

The Golden dark shadow Demon didn't just sit around. Although it was only a clone, it had the strength of its original body. It worked with the woman to stop Lin Yi.

Other than the cloning and shadowshape abilities, the Golden dark Shadow Demon's own strength couldn't be underestimated either. It was extremely fast too. Even if it couldn't keep up with the lightning movement technique, it could predict and block Lin Yi's lightning arc.

His goal was to prevent Lin Yi from escaping from the black sky. With a clear route, it wasn't hard to predict.

Lin Yi was fast, but with the layout of the stairways of the stars and the folding effect of space, he really couldn't escape the pursuit of the two masters.

Since dodging didn't work, Lin Yi decided to charge at The Woman in Black. Lightning flashed and the hammer came down with the force of a Thunderbolt.

The black-clothed woman did not Dodge. Her expression did not change at all. The black metal particles around her quickly formed a huge shield, protecting her within it.

Chapter 9204

The huge hammer smashed onto the black Shield, sending up countless tiny lightning arcs and flames. The shield was easily shattered, but the remaining black particles condensed into a new shield half an inch below the shield.

The broken shield turned back into black particles, and as they fell, they formed a new shield behind the new one.

In the blink of an eye, the hammer broke through eighteen layers of shields and was finally exhausted. It was completely blocked by the nineteenth layer of shields and no longer had the power to smash the shields.

After missing his first attack, Lin Yi immediately shifted to the other side and swung his hammer. The opponent had used eighteen layers of shields to block the impact-it was complicated, but it was actually just one swing.

If he couldn't break it, then he'd just have to change directions and continue!

The Woman in Black controlled the black torrent to surround her body, and no matter which direction Lin Yi's attack came from, there was enough black particles to form a shield, weakening the power of the hammer layer by layer. In the end, it seemed like Lin Yi's attack was easily neutralized.

"Hahaha, it's useless! You are indeed fast and powerful, but in front of asreina's absolute defense, you are still far from enough!"

The Golden dark shadow Demon came to the side and crossed his arms. He had stopped Lin Yi and the black sky curtain was formed, so he could watch the show.

"Absolute defense?" Lin Yi chuckled. There's no such thing as an absolute defense in this world. The only reason it hasn't been broken is because it hasn't reached the limit of what it can withstand!"

Speaking of absolute defense, one would think of a dark-eyed teenager who didn't get enough sleep in an anime. If The Woman in Black carried a big gourd, her image and ability would be somewhat similar.

He was also an amazing person who had the so-called absolute defense, but in the end, wasn't he still beaten up so many times that he couldn't even find his bearings?

Lin Yi put some distance between them and looked at The Woman in Black from a distance. He started off with his lightning escape and used his super limit butterfly micro steps along the way, charging forward with the momentum of his lightning escape.

The lightning and ice Flames on the sledgehammer intertwined and exploded, and Lin Yi swung it down with all his might the moment it got close to the woman.

The two methods of acceleration combined together brought about an extremely strong inertia and kinetic energy, along with Lin Yi's unreserved full-strength output and the Hammer's own attack power.

This hammer strike was simply earth-shattering!

And this wasn't the limit. At the last moment, Lin Yi used the chant he'd just derived and transferred all the star power he could, both inside and outside of his body, to the hammer!

[Explosive meteor strike]!

Someone else might not be able to master a skill they just learned from the previous floor, but Lin Yi was different. Even if it was an incomplete skill, he could derive it completely, not to mention a complete skill. He could master it perfectly after learning it.

This was the first time he had used the full power of the exploding meteor strike. In addition to the star power, it also contained lightning, ice, and fire. It hit the black Shield that The Woman in Black had created.

The Golden Shadow Demon's smile froze on his face. Lin Yi's attack was beyond his imagination. He was just watching from the side, and he was already trembling from the bottom of his heart, let alone The Woman in Black who was facing it directly.

The black particles gathered together like crazy, forming new shields to offset the violent damage of Lin Yi's hammer. This was a well-tested move, and The Woman in Black had blocked Lin Yi's attacks many times with this move.

However, it was different this time!

The explosive meteors exploded upon striking the shield. The countless attacks were like duskgold Shadowfiend's doppelgangers. Their power did not decrease in the slightest, but the number increased several times.

Boom! Boom! Boom! Boom! Boom! Boom!

A series of explosions rang out. Aslina had already used all her strength, but more than 20 layers of her shields had been torn apart in an instant. There was no way to replenish them!

The speed was too fast, the force was too strong, and asrina's expression finally changed!

His calm eyes couldn't help but reveal a hint of panic!

He would die!

Being hit by a big hammer, one would really die!

Despair rose in the black-clothed woman's heart. She had already used all her strength, but she could only slow down the Hammer's momentum by a thousandth of a second!

It was almost useless ... And she had exhausted all her strength, so she didn't even have the chance to Dodge!

They could only watch as the hammer fell and die in such an aggrieved manner?

A black shadow flashed by the side. The Golden-dark Shadowfiend seized the thousandth of a second that asreina had fought so hard for and appeared under the hammer, kicking asreina away.

The posture of being kicked away was not very good, but at least he survived!

The hammer landed on the Golden dark shadow Demon. It thought that it would be immune to Lin Yi's attack, but it didn't expect that the explosive meteor that was mixed with star power, lightning power, and icy blaze could hurt it in shadow form!

The violent explosion was mixed with continuous screams. The Golden-dark Shadow Demon's shadow was shot out of the explosion circle. It looked ragged, like a piece of rag full of holes in the air, leaving a shadow on the ground.

If it wasn't for the Golden Shadow's ability to reduce the damage by half and sharing the damage with the other clones, Lin Yi would've destroyed his clone in this careless rescue!

"Ha ... Absolute defense ... Just like that?"

Lin Yi's face was full of mockery as he slammed the hammer into the ground, glaring at Aslina and the Golden Shadow Demon. "Didn't you want to kill me? Be serious, I can't possibly die before I even finish warming up, right?"

The Golden dark shadow Demon almost exploded in anger. You're still not done warming up when you're about to kill us? There should be a limit to acting tough, right? Does that mean that after warming up, you're going to fly up to the sky and stand shoulder to shoulder with the sun?

"Don't be too proud. I was just careless just now and you seized the opportunity. If you have the ability, try again!"

The Golden dark shadow Demon forced himself to be alert and retorted in a low voice. Although the situation was a little ugly, he didn't lose face and couldn't lose his momentum!

"It doesn't matter. If you guys want to do it again, I have no objections!"

Lin Yi lifted the hammer with one hand and retreated to the edge of the black barrier, ready to use the same move again.

It didn't consume much energy, so he could do it ten times!

The only problem was that he didn't have much star power in his body, and he didn't have enough time to replenish it. He could only use the star power of the pagoda, but it wasn't as powerful as before.

Aslina was shocked. The golden-black Shadowfiend had saved her life at the last moment. If it happened again, she would really be dead!

Didn't you see that even the Golden Shadow was riddled with holes after transforming into a devil? her defense couldn't withstand it!

"Go to hell!"

In her desperation, Aslina pressed down with both hands, and the entire black barrier crumbled, forming countless sharp dart-like objects that shot at Lin Yi!

Since he couldn't defend against it, he would attack instead of defending.

## Chapter 9205

The black metal quickly covered Lin Yi, but Aslina didn't feel safe at all. Instead, she panicked even more because she didn't feel that Lin Yi was injured by her innate ability at all.

As expected, the next second, the black metal tide was pierced through by a meter-wide beam of light. Lin Yi flew out of the hole and swung the hammer without saying anything!

The metal shield was torn apart as if it was paper. Aslina gritted her teeth and crossed her arms above her head, controlling all the black metal shards to return to Lin Yi's back.

The sledgehammer fell without care, breaking asreina's metallic arm. The dark-gold Shadowfiend appeared once more, pulling asreina away in the nick of time.

Lin Yi swung his hammer, and the Golden dark shadow Demon shook again. The Qi from the hammer entered its shadow and almost knocked it out of shadow mode.

As Lin Yi said, there was no such thing as an absolute defense in this world. If there was, it would just be that there was not enough power to break it!

With a chant that far exceeded his current level, Lin Yi could use the dense star energy in the tower to support the hammer and then use the explosive meteor strike. Even if the power didn't exceed the heaven breaking stage, it was still at the peak of the heaven breaking stage.

The power of the stars was not an ordinary power. It could hurt both the body and the primordial spirit, including the Golden dark Shadow Demon's Shadowform.

"Asreina, retreat!"

The Golden Shadow Demon ordered to retreat without hesitation. He thought that he could perfectly suppress Lin Yi with Aslina, and if Lin Yi didn't want to surrender, he would kill him.

They didn't expect Lin Yi to be able to burst out with such strong combat power. It was unbelievable!

Especially the explosive meteor strike, this universal skill was also obtained by the dark Beast clan. Anyone who passed the ninth floor could learn the explosive meteor strike.

The Golden Shadow Demon, on the other hand, didn't have the same level of power as Lin Yi.

If he could have one-tenth, no, one-fiftieth of Lin Yi's explosive meteor strike, it would be pretty good already!

It was ridiculous!

"Understood!"

Aslina had wanted to run away for a long time-Lin Yi's strength made her heart palpitate. A man who could tear through her defenses at will was her nemesis. If she couldn't win, why didn't she run?

The black metal continued to rush towards Lin Yi, not to kill or trap him this time-it was just to buy him some time to retreat.

"You come and go as you please? Did you ask for my opinion?"

Lin Yi smiled coldly as he increased the speed of his hammer. Exploding meteors rained down like a meteor shower, smashing everything in their way. Aslina attacked with all her might, but she couldn't stop Lin Yi's pursuit.

At this moment, the spatial Rift ghost demon's teleportation light had already appeared beneath asreina's feet. The golden-black Shadowfiend had also followed her over. They only needed half a second to leave together.

Lin Yi didn't plan on letting them escape so easily. Did they really think they could ambush and assassinate them again and again with the abilities of the devil?

Lightning escape technique!

The twisted lightning arc passed through the broken black metal tide, and Lin Yi charged in front of the two with an overbearing attitude.

The large hammer formed a ring of lightning and fire, exploding on the dark gold Shadowfiend and Aslina's heads.

"Ah!" Aslina screamed as she raised her arms. Her broken wounds had been healed by the black metal pellets, and her arms were like black pellets as she rolled around, trying to block Lin Yi's attack.

The Golden Shadow devil didn't just sit around and do nothing-they were standing on the spatial-sinking ghost Devil's teleportation light ring, and they only needed to hold on for a while before they could leave. If they dodged, Lin Yi's hammer would destroy the light ring without a doubt, and they would have no way out.

He had no choice but to throw his shadow body out and wrap it around Lin Yi's hammer, blocking it with Aslina's Black particles.

No matter what, he had to protect Aslina!

Lin Yi's face was expressionless as he continued to swing the hammer, ignoring all the obstacles and breaking through them with brute force!

The sounds of violent collisions, explosions, and screams mixed together. The golden-black Shadowfiend and Aslina's blocking had ultimately delayed the Hammer's descent.

However, they couldn't be considered to have succeeded either, because when the spatial-sinking demonic Spirit's teleportation light ring was activated, the golden-black shadow devil had recovered from its Shadowform and was torn apart by the great hammer.

Aslina's Black metal shards exploded as well, making it look like she'd lost both her arms. Luckily, she managed to leave through the ring of light and wasn't killed by Lin Yi.

It was a pity that the teleportation circle had been affected and hadn't been fully activated. Even if Aslina took the opportunity to leave, she wouldn't be able to return to the place she had planned.

This situation was a little similar to Qin Wunian's, but Aslina was much stronger than Qin Wunian, and her survival skills were also on a different level. She would probably be fine.

Lin Yi smacked the hammer into the ground, frowning as he looked up. From the spatial fluctuations, Aslina didn't teleport too far away-perhaps she was still on this floor?

As for the Golden dark shadow Demon, Lin Yi didn't pay much attention to it. It was just a clone, so it didn't affect the demon's main body much. It was just a lesson.

If the Golden dark shadow Fiend could not easily create a clone, it would probably feel heartache.

After making sure he didn't miss anything, Lin Yi put away the hammer and continued climbing.

The Ninety-eighth step didn't seem out of the ordinary-he reached the last step, the Ninety-ninth step. This time, the star Cloud tower sent him into the trial space without waiting for him to observe the situation.

The rules were sent into his mind, and Lin Yi quickly digested them. He started observing his surroundings.

This test didn't state how many participants there were. It was an exploration-type competition. The venue was a honeycomb-like space divided into many small hexagonal independent spaces.

The participants had to shuttle through these identical small spaces to find the correct exit. On the surface, it looked like a maze-type test, but in fact, it was not that simple.

Everyone would only be in a normal state for the first minute. After that, they would be suffocated. Only by finding the props scattered all over the place could they temporarily relieve the pain of suffocation.

Suffocating wasn't as if he couldn't breathe-at Lin Yi's level, holding his breath for a day or two wasn't a problem at all. His body could already form an internal circulation, providing him with enough energy.

The suffocation state given by the star Cloud tower was a suppression on the cellular level. Not only was there a lack of air, the final result was similar to a normal person being unable to breathe without air. In reality, all the cells in the body had lost their vitality and strength!

It seemed similar, but there was a huge difference in essence.

Chapter 9206

After entering the state of asphyxiation, the duration of the state was determined by everyone's strength and ability, just like how ordinary people could hold their breath for a long time after losing air.

Some people couldn't hold their breath for a few seconds, while some could hold their breath for a few minutes and still move. The state of suffocation caused by the star Cloud tower had a similar meaning, and they were not the same.

However, it would basically be within a certain range, about two to five minutes. If they exceeded the limit and couldn't find a relief prop, they would directly suffocate to death. There was no possibility of survival.

The time limit of the relieving device was two minutes. It was a one-time device. Once it was used, it could not be stopped for more than one use. In the two minutes of using the relieving device, it could return to its normal state and display its full combat power.

After entering the state of suffocation, one would continue to be weak. If one were to use the game's data panel, it would mean that one would continue to lose health, blue, and various attributes. Whether it was health points or combat power, they would continue to fall.

Lin Yi was deep in thought as he digested the information. The test's goal was to find the exit, but it was actually to fight for the item to relieve the suffocation.

Without a doubt, it was going to be another intense battle. Lin Yi didn't know how many opponents he would have to face, but it wouldn't be an easy test.

If he was in a state of suffocation for too long, and then met an opponent wearing a relief prop ... The consequences would be unimaginable!

Lin Yi didn't doubt that they'd encounter something like that-the star Cloud tower was encouraging more and more killing, and they'd definitely arrange something like that!

At this moment, he was rather glad that Daniya had chosen to withdraw. The last time, they had not truly become life and death opponents in the arena. If they continued to stay, there would always be a time to fight.

Daniya was worthy of admiration for being able to retire at the peak of her career!

The test officially started. Lin Yi chose a direction and left the original hexagonal space in a flash, entering another almost identical hexagonal space.

There were light doors on the six sides of each space, which made it easy to get lost. As a maze, this was already qualified.

Lin Yi made a mark under the light door he came from and entered the same light door in the same position. With the mark, he could at least avoid going in circles.

At first, they would only have one minute to move normally. After one minute, they would enter a state of suffocation.

He had to explore as many areas as possible within this one minute to find an item that could relieve his suffocation!

Lin Yi used his lightning movement at full power, and he didn't stay in each hexagonal space for more than a second. He left two marks to make sure there was nothing wrong before entering the next space.

He chose the same light door every time. Within 50 seconds, he had passed through more than 120 hexagonal spaces and finally returned to the space he had been in before.

Lin Yi had left his own markings on the two doors, one in and one out. The only difference was that he came out from the other door this time, not forming a closed loop with the original markings.

It was obvious that just by choosing the same light door, they would not be able to leave the maze. They would still be trapped in an endless loop!

A minute was almost up, and there were only four or five seconds left. Lin Yi chose the other light door without hesitation and went in.

But this time, the situation was different. As soon as he entered the new hexagonal space, Lin Yi was hit by a storm of attacks.

There were actually two martial artists here. When they saw the light door flash, they did not even ask who the newcomer was and directly exploded with their full strength.

Lin Yi had the Jade space to warn them beforehand, so he used the three appearances of Cloud Dragon as soon as he came out, leaving an afterimage to attract the attention of the two while his real body quietly appeared behind the two.

Lin Yi also saw that there was a small platform in the center of the hexagonal space, with two half-face masks on it.

When he saw the two half-face masks, the instructions from the star Cloud tower appeared in his mind. They were tools to relieve suffocation!

Each person can only carry or use one item to relieve suffocation at a time. The extra items can not be picked up!

In other words, the two cultivators each had one. If they wanted to take both, the star Cloud tower wouldn't allow it, so they didn't fight for it.

The intention of the star Cloud tower was naturally to prevent the participants from hoarding too many relief devices. They could only obtain two minutes of relief time at a time and then continue to search for the exit and new devices.

If there were no restrictions, and someone kept a bunch of relief items, it would mean that they could be in a normal state at any time, crushing the others. This was not a situation that the star Cloud tower wanted to see.

After the two martial artists received the information, they tacitly reached an agreement to each use a relief prop. There was not much time left, and they did not want to fight for no reason.

In this test, time truly represented life. Wasting time on boring battles was wasting one's life!

But Lin Yi appeared before the two could get their hands on the item. With one more person fighting for the item, it meant that there was a chance that they wouldn't get it.

The two fighters didn't need to say a word as they attacked Lin Yi in an instant. Their chemistry was as if they were battle partners that had been fighting together for years.

They could still live in peace after getting rid of Lin Yi-they could each take a relief item and go their separate ways, or they could use this chance to work together.

If it was any other martial artist of the same level, they would've been killed by the two's sneak attack, but it was Lin Yi they were facing!

The afterimages were torn apart by the violent attacks, but Lin Yi's real body appeared behind the two unscathed, ready to launch a fatal counterattack at any time.

It was only after seeing the item in the center that Lin Yi changed his mind. Killing people was something the star Cloud tower wanted him to do, and there was no need to follow the route set by the star Cloud tower. Getting the item was more important!

"An afterimage! He's fine!"

One of the practitioners cried out in shock and turned around to throw a punch, his fighting instinct strong. The other one was only one-tenth of a second slower and turned around to attack Lin Yi.

He still had three to four seconds to move, and Lin Yi's lips curled up into a mocking smile as he faced the two's second wave of attack without fear.

Then ... The two's attacks once again missed, only hitting the second afterimage of the cloud Dragon's three appearances!

"The two of you are in such a good mood. Time is so tight, but you still have the mood to practice and compare notes. I won't disturb you any longer. You two can continue!"

Lin Yi's real body appeared on the small platform in the center with a smile on his face. He picked up a mask and mocked, "I'll leave first. I hope we'll have the chance to meet again. See you again!"

Chapter 9207

He also tried to pick up the other mask, but he really couldn't. He had no choice but to give up. He couldn't waste two minutes here and use the mask in his hand just to get the other mask, right?

Did he have nothing better to do?

"Bastard! Put down my mask!"

The practitioner with the fastest reaction cried out in shock. He felt a little uncomfortable after missing his attacks, but he couldn't care about it anymore. He was scolding Lin Yi, but his hand didn't dare to slow down as he reached for the remaining mask.

Everyone could only have one item at a time, and it didn't matter if Lin Yi took one-he'd just take the other one!

"This is mine! Yours has already been snatched by him, go and get it back yourself!"

The other martial artist was not to be outdone either. He used his words to shut him up while launching an attack at him at the same time.

The two of them were allies just a moment ago, but in the blink of an eye, they'd become enemies. Lin Yi, who'd been their target, was completely ignored.

They had no choice-Lin Yi's speed and movement far exceeded their own. It wasn't easy to get the relief item from Lin Yi, so they might as well go for the mask!

The two of them had the same thoughts, so their actions were naturally similar. In order to relieve the pain, they had to go all out!

Lin Yi chuckled. He wasn't interested in watching them fight, so he took the item and entered the next hexagonal space.

As the last bit of time passed, Lin Yi's body tensed up, and he fell into a state of suffocation. It was like he was sealed in a sealed bag with an air pump on the outside to pump out all the air in the bag and compress it into a vacuum.

It was uncomfortable and painful!

Moreover, his power was also continuously weakening. If this state was maintained for a period of time, it could indeed be fatal!

Lin Yi instinctively opened his mouth to breathe, but he couldn't. This was to be expected, nothing special.

He didn't use the relief device immediately-the suffocation wouldn't kill him right away, and it would only last for a while. It mainly weakened his attributes, and Lin Yi decided to save it for when he couldn't hold on any longer.

He didn't know how big this maze was, and he didn't know how long it would take. He had to make careful calculations to ensure that he wouldn't be suffocated for too long before he found a new relief prop.

After passing through ten or so hexagonal spaces, Lin Yi encountered another enemy, and it was someone he knew-Aslina!

As expected, she couldn't leave the tenth floor-there was a problem with the teleportation, and she was left on the Ninety-ninth step. It was clear that she entered the test before Lin Yi, but she still hadn't completed it. She was still looking for the exit, and they were at the same starting line.

Aslina's face changed as well, and she went into a defensive stance as she spoke in a hoarse voice, "We can talk about our grudges later. Now is not the time to fight!"

"We're all here to find the exit. Time is precious, and there's no need to kill each other for no reason. Do you think what I said makes sense?"

Aslina knew that she wasn't Lin Yi's match, so she wanted to call it a truce. In this maze, time was life. Even if she could defend against Lin Yi's attacks with weakened attributes, she didn't want to waste her life on a meaningless battle.

"Meaningless? I don't think so! You guys want to kill me, so why can't I kill you?"

"Don't you think this is your best chance?" Lin Yi smiled. Everyone's in a state of suffocation, so the chances of you killing me have suddenly increased a lot!"

Aslina's eyes narrowed. She was really tempted!

Her innate ability wasn't affected as much as she had imagined under the state of suffocation. Perhaps ... She really had a chance?

No! Now, it was not a question of whether there was a chance, but a question of whether there was time!

Asleena shook her head inwardly, then immediately said with a serious expression, "I hope that we can live in peace and leave separately. If we fight, no one will benefit. What's the point?"

As she spoke, time continued to pass by, and the suffocation continued. Asreina slowly retreated, not wanting to waste any more time on this.

"Killing you is the greatest meaning!"

Lin Yi raised his arm, and the hammer appeared in his palm. It turned into a lightning arc and flashed in front of Aslina!

A word of disagreement and he swung a big hammer to smash!

Aslina was shocked, and immediately released a large amount of black metal particles to block Lin Yi's sudden attack. At the same time, she put on a relief item to get out of the suffocation.

Aslina didn't want to let herself be suffocated in a fight with Lin Yi-she'd be instantly killed by Lin Yi's sledgehammer if something went wrong!

After all, there was no dark-gold Shadowfiend's clone to save her, and asrina had to consider her own life. She couldn't be too careful!

He didn't expect Lin Yi to change directions halfway through his violent charge. That determined aura was a feint! No, it should be called a feint!

Lin Yi stopped immediately after Aslina put on the mask. He appeared at the other side of the door and turned back with a smile. "I thought about it again, and I think you're right. It's meaningless for us to fight now, so I'll let you go for now!"

Lin Yi didn't really want to fight-time was of the essence, and it'd be fine if it was just for the props, but there was no point in fighting over old grudges.

Lin Yi's true goal was to force Aslina to use the item. It hadn't even been two minutes, but Lin Yi felt like Aslina had already gotten the item.

If asrina didn't have any relief items, Lin Yi wouldn't mind making it real-he'd make it real, and it'd be best if he could kill her.

As expected, Aslina really did have a relief tool, and she used it immediately under Lin Yi's pressure!

You could only bring one item with you at a time, and once you used it, the effects would be irreversible. Aslina was a smart person, and she made the same choice as Lin Yi-she didn't use it immediately after getting the item, keeping it as a trump card to increase her stamina.

After forcing out Aslina's last resort, Lin Yi felt much more relaxed. He didn't forget to wave at her in a friendly manner before entering the next dimension.

Aslina almost went crazy with anger. Why did she have to scare people? Will you be responsible if I scare you?

Damn it!

Lin Yi had already left, and she didn't even have a target to curse at. She could only choose a light door and continue exploring, praying that she could find a new relief device as soon as possible.

Chapter 9208

After Lin Yi left, he'd put Aslina to the back of his mind. He couldn't resolve the enmity with the dark beasts, but he wasn't in a rush. He'd deal with Aslina when he had the chance.

The most important thing now was to find the exit and catch up with the progress of the first group as soon as possible!

After passing a few more hexagonal spaces, Lin Yi finally found a place with relief items. He put on the mask to ease the suffocation and quickly returned to normal. He rested for two minutes and checked out the space he was in.

There were two masks on the central platform, and it was unknown if anyone had been here before. There seemed to be no signs left around, so it was difficult to tell if anyone had passed by here.

Lin Yi looked around and walked a few steps to the light door on the side. He went through it for a look and turned back, repeating the same action to the next door.

Very quickly, other than the light door he came through, the other five were all checked. The other side of the light door was the same hexagonal space. The only difference was that there was a slight resistance when he passed through one of the light doors.

If it weren't for Lin Yi's slow movements and vigilance, he wouldn't have noticed this abnormality.

At the very least, he wouldn't have been able to detect such a slight resistance when he was moving forward at high speed!

After Lin Yi stepped back, he was deep in thought. He tried the light door again, and there was no resistance. In other words, there was only one abnormality out of six light doors. Did that mean that was the right way?

While he was thinking, a person rushed out of a door of light. When he saw the mask on the small table in the middle, his eyes suddenly lit up. He rushed up without a care and raised his hand to grab the relief prop.

The veins on his face were popping, and he probably couldn't hold on any longer. It wasn't easy for him to find a relief item, and he had to grab onto it as a life-saving straw, completely ignoring Lin Yi who was standing beside him.

Lin Yi glanced at him indifferently and didn't bother with him. There were two relief devices here, and he could only take one. The other one wasn't of much use, and anyone could take it.

As he continued to think, Lin Yi felt that he could try the light door with the resistance and find it in every hexagonal space. Maybe he could find the exit!

At least it was in a direction. It was better than running around aimlessly!

With that thought in mind, Lin Yi decided to switch to another item. The one he was wearing still had a one-minute time limit, but he didn't have to wait until it was used up before changing it. If he wanted to leave now, he had to give up.

Seeing Lin Yi walk to the center stage, the practitioner who just entered was on guard. He immediately pulled out a Katana that looked like an Japanese samurai sword, the tip of the blade shining with a cold light, and pointed it at Lin Yi.

"Don't come over! This mask is mine now! Since you already have one, you should leave quickly! Don't covet other people's things. "

After the martial artist put on the mask, the suffocation was quickly relieved, and his strength returned to normal. Naturally, he had the confidence to face Lin Yi.

He had already suffered enough from the state of suffocation, so he was not prepared to give up the other mask. He wanted to consume one first and then continue exploring with the other mask.

Naturally, the guy wouldn't let Lin Yi take the mask he thought was his.

Lin Yi frowned, "you can only take one mask. The other one is useless. Plus, I came here first. According to your logic, everything you're wearing on your face is mine!"

There was still a minute left before the mask's time limit was up, and Lin Yi didn't mind having a little chat with the guy.

"Stop being so long-winded, it's mine now! You want to use one and take another, can't I? If you know what's good for you, leave quickly. Otherwise, my blade doesn't have eyes!"

The martial artist wasn't interested in reasoning with Lin Yi and used his Bandit logic. If Lin Yi didn't agree, then they'd fight!

"Ha ... If a Tiger doesn't show its might, do you think I'm a sick cat? Since you want to take it by force, then let me see if you have the strength!"

Lin Yi pulled out the demonic blade-the mask still had time, so he could use it to teach him a lesson!

He didn't mind the mask, but the guy was asking for more-this was the type of person who didn't want the beating of society. Lin Yi decided to change his name to society.

"Hehehe, you're quite bold! If you want to die, I'll fulfill your wish!"

The practitioner thought that since he still had one mask, it wouldn't be a waste to use it first. He charged at Lin Yi, both hands holding the blade and slashing at him like lightning.

For a moment, the saber Light shone brightly, and the saber Qi was unparalleled. It had to be said that this guy did have some strength. Otherwise, it would be impossible for him to climb to the tenth level!

When he first came in, he looked like a dead dog, but that was because he was suffocated, and his attributes were greatly reduced. Now that he had returned to normal, he immediately bared his fangs.

Unfortunately, his opponent was Lin Yi. These moves were good at scaring others, but not Lin Yi.

The demonic devouring sword exploded into a ball of black light, as if thousands of meteors were falling down. It was the increasingly mature explosive meteor strike!

The layers of blades from the opposing practitioner met Lin Yi's Black meteor shower and instantly melted away like snow under a hot sun!

"Just this? I thought you were more powerful!"

Lin Yi mocked casually. Even the Golden-dark shadow Demon and Aslina were suppressed by Lin Yi and had to run for their lives. The martial artist in front of him was strong, but he was a lot more ordinary compared to Aslina, so how could he compare to Lin Yi?

If he used a hammer, this guy would probably be on his knees by now. Lin Yi had already gone easy on him, using the demonic blade instead of the hammer. He couldn't block a technique, after all!

"Explosive meteor strike? How can he be so strong?"

The warrior on the other side exclaimed in shock. The blade in his hand was in a mess. Those who could come here had naturally passed the test of the ninth level and received the reward from the star Cloud tower, the universal skill, explosive meteor strike.

However, what they got was really just what they got. Under the premise of the current incomplete incantation, there was no way to use the star power to form the attack conditions of the explosive meteor strike.

How could the martial artist not be shocked by Lin Yi's sudden use of the explosive meteor strike?

"Ha ... He's strong just like that? I'm afraid you haven't seen true power, right?"

The demonic blade pierced through the blade screen with ease as Lin Yi chuckled, accurately stabbing into the opponent's wrist. He then twisted the handle skillfully, causing the opponent to lose control of the long sword and fly out of his hand.

Lin Yi waved his hand, and the long blade that had flipped in the air landed in his palm. The opponent had lost his weapon in just one exchange-the difference was too big!

Chapter 9209

"Stop! Stop! I admit defeat, you can have the mask!"

The cultivator's face changed in horror and he took a few steps back, hurriedly admitting defeat.

As the saying goes, once an expert makes a move, one will know if he has it or not!

He didn't know how strong Lin Yi was, but he knew that it would be easy to kill him. At this time, he had to be decisive!

"You can fight and stop whenever you want? What do you think I am?"

There was still some time left on the mask, and Lin Yi decided to tease the guy a little more.

He put the sword away and swung the long blade around casually. After a few moves, he clicked his tongue."This saber is not bad. You're giving it to me so sincerely. It would be impolite for me to refuse, so I'll accept it reluctantly!"

The quality of the weapons used by the top experts of the heaven's legacy continent would definitely not be too bad. Even if this long blade could not compare to the demonic devouring sword, it was only slightly inferior. It was indeed a very good weapon.

Lin Yi didn't really use a knife, but it wasn't like he didn't know how to use one. Having a good knife as a backup weapon was good.

The martial artist's face turned green. Who the F \* ck is sincere ... Bah! Who the hell wants to give it to you? That is my personal weapon! Give it back to me, you bastard!

Since it's so forced, don't accept it, you bastard!

He was roaring in his heart, but he didn't dare to show any opposition on his face. He could only force a smile and say, ""It's this saber's honor to be able to gain your favor! But you're an expert swordsman, and this saber doesn't suit your status. How about I give you a treasured sword in the future?"

He could only suppress his frustration-the martial artist was still hoping to get his weapon back. After all, there was no point in keeping Lin Yi if he didn't know how to use a saber.

But Lin Yi just made a casual pose, and a sharp blade Qi surrounded him. A blade aura shot up into the sky, stronger than the practitioner's.

"I'm an expert in swords, but I'm also an expert in sabers, so I'll accept this saber. If you want to give me a treasured sword, I won't refuse. Let's set a time and place, can you give it to me?"

"Other than swords, I've dabbled in Spears, hammers, bows, and arrows. They're all about the same level. Do you want to give me one?" Lin Yi teased.

The cultivator's face turned even paler, to the extent that it was a ghastly green. He couldn't respond to that!

No matter what, you're just digging your own grave ... Are you a F \* cking demon?

The joke was over, and Lin Yi's mask had run out of time. He took it off and threw it away, picking up another one and putting it away. He waved at the practitioner, whose face was getting paler and paler.

"It's a pleasure to meet you today. Time is of the essence. Let's meet again next time. I'm leaving first!"

After saying that, he walked into the light door he had chosen with ease, leaving the martial artist sitting on the ground and barking helplessly. Then, he found that the time limit of the mask was about to run out, and he was going to suffocate again.

He quickly got up and went to the other hexagonal space to find an exit or a new item to relieve his pain. Of course, he didn't dare to follow Lin Yi. If they met again and he had to make an appointment to give him swords or halberds, who could handle that?

Lin Yi entered the new hexagonal space, but he didn't choose a light door as quickly as before. Instead, he continued with the previous method and tried all five of them.

With the guarantee of super limit butterfly micro-step's speed, it didn't waste much time. One second was enough to complete all the tests. As expected, he found the only light door with resistance!

His train of thought was clear!

Lin Yi didn't hesitate to continue through the light door, not forgetting to leave a hidden mark to avoid going in circles.

This was the only lead he had right now, and Lin Yi felt that the chances of success were quite high. He didn't have any other leads anyway, so he'd just walk to the end first.

After passing through six spaces, Lin Yi suddenly saw a pile of relief devices-there were at least ten of them. It was the first time he'd seen so many relief devices, only two the last two times.

The large increase in relief items proved that Lin Yi's thinking was correct. The route he found was very likely the right one-this was a very important supply point!

He immediately used the masks he had brought with him. Since there were plenty of masks here, there was no need to save them. He had to recover his state first to deal with more unforeseen circumstances.

Lin Yi looked for the only door with resistance after he was out of the suffocation, and he finished testing all the doors in less than a second. He found the only door with an abnormal light.

But what was surprising was that this was not only resistance, it was completely impassable!

The light door seemed to be closed, and Lin Yi only bounced back with a gentle force when he slammed into it.

A dead end?

Was the correct one the other light doors?

Lin Yi rubbed his chin as he fell into deep thought. According to his deduction, the sealed light door was the correct one, but what did he mean by "can't pass"? Was there a mistake in his deduction?

He couldn't think of anything, so he took out the hammer and smashed it into the door. It didn't matter if it was big or small, he'd just smash it open first!

But the invincible hammer lost all of its power in front of the light door. No matter how much strength Lin Yi used, it would be bounced back by the light door.

This kind of gentle power really achieved the soft overcoming the hard. The big hammer seemed to hit a ball of cotton, and no matter how much power it had, it would be absorbed and dissolved.

This was ridiculous!

At this time, two people walked out from another light door. They smiled when they saw Lin Yi and the dozen masks.

"What a coincidence! I actually met you here again! It's really a small world!"

The one walking in front was a burly man, and beside him was a petite woman. The one who spoke was the burly man, but both of them had a happy smile on their faces.

Lin Yi was surprised. He put away the hammer and cupped his hands. "I really didn't expect to meet you two here. I'm wearing a mask, but you recognized me at a glance?"

The people who had just arrived were none other than the life chasing couple, the burly man Meng buzhuai, and his wife Yan Wuming!

Lin Yi hadn't seen the two since the auction, not even in the star Cloud tower. He didn't think he'd run into them on the tenth level.

"Don't even mention wearing a mask, I can recognize you even if you change your appearance. Who asked you to be so outstanding? You can't hide it no matter how many disguises you put on!"

Meng buzhuai laughed as he greeted Lin Yi and asked politely, ""You don't mind if we take two of these masks, right?"

"Of course I don't mind, please enjoy!"

Lin Yi smiled and made an inviting gesture. They were acquaintances, and although it was just a nod, they could be considered friends. The life chasing duo didn't join in the fight for the six-point star source instrument when all the Masters of the Tianji continent were fighting for it.

They had the ability to make a move on Lin Yi, and they'd seen Lin Yi win the bid with their own eyes, but they'd left after giving him a kind reminder.

Chapter 9210

Lin Yi wouldn't say that they didn't help-please, they were strangers, and it was already very loyal of them not to hit him when he was down. Putting their lives on the line against all the Masters of the Tianji continent?

If it was Lin Yi, he wouldn't do something like this either. Only a fool would hate the double killer for this!

"Many thanks!"

Meng buzhuai nodded with a smile. He took a mask and passed it to Yan Wuming before he took another one and put it on.

"Where's your pretty girl friend?"

Yan Wuming put on her mask and asked with curved eyes, "Your names are now very famous. The Tianying star and tianhuixing of the thirty-six heavenly stars, I'm sure there's no one in the entire Tianji continent who doesn't know about you, right?"

Lin Yi chuckled and shook his head. It seemed that this random nickname Daniya came up with really made her name!

"She has already left the star Cloud tower. I will let her see you guys after she leaves!"

Meng buzhuai let out an "Oh" to express his understanding. There were simply too many tricks up his sleeve in the star Cloud tower, so leaving the tower was not something unimaginable.

"Alright! It's not a good time to reminisce. It's more important for us to find a way out!"

Meng buzhuai took a look at the remaining masks. After using two, there were twelve left. The three of them split the masks equally, so each of them could get four, which could maintain their normal state for eight minutes.

"There are so many relief devices here. It should be a more important passage node. If we want to find the final exit, we must pass through here."

"Tianying planet, you arrived before us. Did you find anything?" Yan Wuming scanned the light door.

Lin Yi raised an eyebrow. Yan Wuming's deduction was the same as his. She only looked at the number of masks and didn't check the light door to make such a guess. Her deduction ability was quite outstanding!

"I did find something. That door of light is sealed and I-can't be used. I guess that it should be the correct passage. Before you came here, I was thinking about how to open that sealed door of light."

Lin Yi pointed at the unusual light door he found, sharing it with the couple without hiding anything.

Meng buzhuai was a man of action, he directly walked over to try. After being blocked, he attacked a few times, then nodded and said, ""It's very tough and can't be broken by normal attacks! Looks like I'll have to think of another way!"

Yan Wuming rolled her eyes and said softly, ""Do I need you to tell me? The Tianying planet brothers had already said it just now! Do you think your attack power is stronger than the Tian Ying brothers?"

Meng buzhuai laughed and waved his hand, ""Of course I'm not as strong as the Tianying brothers. If it were the two of us who were being chased by so many experts, we would probably be dead by now! But that doesn't stop me from trying!"

"After all, sometimes it doesn't just matter if you have high attack power. Who knows, maybe this place needs my attribute power to open it? There's no harm in trying anyway, so what's the matter!"

Speaking of which, Meng buzhuai and Yan Wuming's abilities had improved by leaps and bounds since their last encounter. It seemed like the two of them had gained a lot from the star Cloud tower.

However, Meng buzhuai was right. Compared to what Lin Yi and Daniya were doing, even if their strength had increased, it was still far from enough.

Hence, in front of Lin Yi, Meng buzhuai and Yan Wuming were very humble, not at all like those from the Tianji continent who pursued both lives.

"Alright, alright, I don't have time to listen to your nonsense now. Hurry up and think of a way!"

Yan Wuming glared at Meng buzhuai, but there was no blame in her eyes. Instead, there was a flirtatious look in her eyes. Lin Yi's mouth twitched when he saw this. 'You're showing off just because you don't like it? are you bullying me because I don't have anyone around me?'

Although they were joking, it was not suitable to waste too much time in this situation. The three of them began to think of ideas. Meng buzhuai thought for a few seconds, then suddenly clapped his hands and said, ""Could we have been wrong?"

"A sealed door of light is actually a dead end. Is there no other meaning? Sealing it means that this path is closed. Is it eliminating a possibility for us?"

Lin Yi shook his head, "that's not the case. I noticed that only one of the six light doors in the hexagonal space had a weak resistance. It's easy to miss if you don't look carefully."

"Because there was only one abnormality, I chose to enter that door of light. Then, I found that every subsequent space was the same, with a unique abnormal door of light."

"We followed this clue all the way to this space. I've checked just now, and the other five light doors don't have any abnormal resistance. Only this sealed light door fits the conditions."

"If my previous deduction is correct, then this door of light must be the correct passage. The only thing we need to do is open it!"

Yan Wuming nodded thoughtfully. "So that's how it is! Your deduction is very reasonable! I just thought about it. Perhaps the condition for opening this sealed door of light is a sufficient number of people?"

"Look, there are more than a dozen relieving props prepared here. It's obvious that they are prepared for more than a dozen participants to use. Of course, it's more difficult to gather more than a dozen participants at once. After deducting the number of repeated consumption for people like us who have to wait, I think we need at least five or six people, right?"

"The space we passed through was hexagonal, so I guess it's more likely for all six of us to gather. Now that there are three of us, three more might be enough to open the sealed door of light!"

Lin Yi's eyes brightened. He couldn't say for sure that Yan Wuming's theory was correct, but it was a direction. If he thought deeper, he might not just have to gather a few people, but a certain number of people and then kill each other!

The star Cloud tower was obviously encouraging killing. Although the rules didn't specify that killing was required, the star Cloud tower would definitely create opportunities for them!

"That makes sense, makes sense! This must be it! What should we do now? Should we go and find a few people first?"

Meng buzhuai brainlessly praised his wife. Whatever his wife said was right. Even if it was unreasonable, it was reasonable. Moreover, it was indeed quite reasonable.

Lin Yi sighed and waved his hand, "I don't think there's a need to look for people. There should be people who will find us quickly. The rules give very little time. After I found this place, you came very quickly. This should increase the chances of finding this place, right?"

Yan Wuming was stunned for a moment before she nodded in agreement.

What Lin Yi meant was that if someone found the light door, the maze itself would have a weak guiding effect, allowing them to find their way here without them knowing.

After all, the star Cloud tower had created a suffocating state, so there was not much time for people to waste.

As soon as he finished speaking, someone walked out of a light door, and his face changed when he saw Lin Yi and the other two.
