

## Bodyguard 9211

### Chapter 9211

Lin Yi looked up and sized up the man. It was a middle-aged man, tall and well-proportioned, with a short beard around his mouth. He was very well-trimmed, and had the image of a handsome uncle. His level was around the peak of the mid-stage of heaven-breaking, perhaps not higher than that in the late-stage.

They hadn't met before, so Lin Yi didn't think much of it. They were strangers after all, and the most important thing was to know their strength.

Meng buzhuai and Yan Wuming knew each other. He took the initiative to nod and greet, ""Brother Huang, long time no see. You've also come to the star Cloud tower! What a coincidence!"

The life chasing duo had traveled all over the heaven's legacy continent, and they had offended many people. They also had many friends, and it could be said that they had a wide range of friends. The one who had returned was obviously one of their friends!

When the handsome uncle saw that it was the life chasing duo skill, his face immediately relaxed. He immediately cupped his hands and smiled, "It's brother Meng and lady Meng. Long time no see. It's really nice to meet you here!"

"Brother Huang, let me introduce you to a young man. I'm sure you've heard of him!"

Meng buzhuai grabbed the handsome man's arm and walked to Lin Yi's side, introducing him to Lin Yi. "One of the 36 heavenly stars, the Tianying planet. Brother Huang, you must have heard of it before, right?"

"Tianying brothers, this is Huang Tianxiang, brother Huang, who is nicknamed the Dragon in the sky. He is a straightforward and righteous man. You should get closer to him!"

Huang Tianxiang was slightly stunned, and his expression immediately became serious, "So it's the 36 heavenly stars" Tian Ying planet, it's an honor to meet you!"

He seemed polite on the surface, but Lin Yi's sharp senses picked up a hint of fear in his eyes, along with a hint of gloominess.

This was very strange!

Lin Yi didn't remember seeing this Huang Tianxiang before. The fear and gloominess in his eyes ... Was actually hostility?

There must be a reason for them to be so hostile the first time they met, but Lin Yi didn't want to find out. He was the enemy of the whole Tianji continent, and there were very few people in the neutral camp like Meng buzhuai and his wife.

It didn't matter if Huang Tianxiang was hostile, it was best if he didn't do anything unnecessary. Otherwise, Lin Yi didn't mind teaching him a lesson, even if he was friends with Meng buzhuai and his wife.

"Brother Huang's name ... I've never heard of it. I'm not familiar with the Tianji continent, and it's my first time here, so please understand!"

Lin Yi was telling the truth. He didn't plan to give Huang Tianxiang any face.

Huang Tianxiang's face darkened, but he hid his emotions well and laughed, ""So the famous Tianying planet isn't an expert from our Tianji continent. No wonder we've never heard of them before, and they've only risen to fame recently. This is like a fierce dragon crossing the river!"

"I wonder which continent the Tianying planet's expert is from? Did he come here for the Black Star River? That's such a coincidence, I've struck it rich when the star Cloud tower opens!"

As he spoke, he took out a mask and put it on."Since we're all friends now, I'll take the liberty to ask, Tianying planet is a code name, right? May I know your name, Sir?"

"You wouldn't know even if I told you, so it's better not to mention it!"

Lin Yi waved his hand."It's not the time for chit chat. The time of the item is limited. We have to think of a solution as soon as possible."

As he spoke, Lin Yi took off his mask and threw it away. He was the first to arrive, and the time limit was up.

He didn't use the new mask immediately. It should be fine to resist the suffocation for a while.

There was not enough time to use the masks for a few minutes. Now that Huang Tianxiang was here, the amount of masks each person could use was further reduced.

Meng buzhuai could tell that Lin Yi and Huang Tianxiang didn't have a good relationship. He laughed and pulled Huang Tianxiang, explaining his previous deduction and pointing out the closed light door.

Huang Tianxiang quickly understood and agreed with this deduction. He waited for the others to come over and see if they could open the closed light door after the number of people increased.

The four of them did not have to wait for long. Meng buzhuai and Yan Wuming had just used up the time limit of their first mask when someone else entered this space through the light door.

This time, it just so happened to be two people, making up the estimated six people!

Meng buzhuai was very familiar with them. Although the two of them did not know each other, they could immediately become familiar with each other. After a brief explanation, he went to see if the light door could be opened.

"It's really open! As expected, the passage would only open when there were more than six people! This is the correct route!"

Meng buzhui stretched his hand through the light door and was overjoyed. Although he unconditionally supported his wife's deduction, he still had some doubts in his heart. Now that it was confirmed, it was an unexpected surprise.

There were still some masks left, so they all changed into new ones and carried them with them until they could no longer hold on to the suffocation. Then, they passed through the light door together.

The star Cloud tower didn't explicitly state that they were going to kill each other, so the six of them tacitly agreed to form temporary teams and act together. After all, there was a passageway that required more people to open, and there would definitely be a second one. They didn't have to worry about not having enough people.

Lin Yi walked in front without a word, still looking for a light door with resistance. He walked through a dozen hexagonal spaces without encountering anything.

Some people couldn't help but use their masks to relieve the suffocation, but Lin Yi was still fine. After two minutes, the first person who used the mask went into the suffocating state again. Huang Tianxiang, Meng buzhui, and the others also started using their masks.

One of the last two came in after the time limit ended, and the way he looked at Lin Yi wasn't right after he entered the state of asphyxiation.

"Tianying planet, do you know the route or not? Did you go the wrong way? Why haven't we found a new mask yet? Or are you deliberately leading the wrong way to trick us?"

After walking for so long, Lin Yi was the only one who didn't use his mask. Everyone else put it on sooner or later, and within two minutes, everyone except Lin Yi would be suffocated!

Lin Yi felt that he was reaching his limit as well-this kind of suffocation wasn't easy to handle. Even if the Qi in the Jade space entered his body, it couldn't be converted into Qi to replenish his Qi.

Lin Yi put the mask back on after hearing the guy's words."If you doubt me, you can leave by yourself. There are six paths in each space, so you don't have to follow me all the time!"

Among these people, only Meng buzhuai and Yan Wuming could barely be considered Lin Yi's friends. Huang Tianxiang was hiding his hostility, and the other two were just passersby.

Lin Yi didn't mind bringing the passersby along, but if they were unhappy with him, then sorry, no one had the time to entertain them!

The people who doubted him choked and blushed for a moment. Other than being embarrassed, it was also partly because they were suffocated, so no one would notice anything wrong.

Chapter 9212 Power

Huang Tianxiang's eyes flickered. He suddenly smiled and said,""We're all on the same boat now, so there's no need to argue. The star Cloud tower won't force us into a dead end on purpose. As long as we're on the right path, there will definitely be a supply point after a short distance."

"I believe that the Tianying planet would not harm us for no reason. We have nothing worth their schemes for, right? Don't worry, a new supply point will appear soon! It's impossible that we can't find a new relief prop, so everyone, please be patient!"

It seemed like he was speaking up for Lin Yi, but he was actually insinuating that Lin Yi was up to no good, walking down the wrong path on purpose. The fact that he couldn't find the mask was the best proof.

The practitioner's eyes flashed as he pointed at Lin Yi, "Let me use your relief prop. Since we're all in the same boat, we should help each other!"

Once the mask was used, it would enter an irreversible state. After two minutes of relief, it would become completely useless.

However, the rules did not mention that after one person used it, would it still be effective if he took it down and passed it to another person? If they could be used in turns, it would undoubtedly be a loophole that could be exploited.

After all, they only needed to put on the masks for one or two seconds to get rid of the suffocation. Six people took turns to use one mask, and with the suffocation, it was enough for everyone to last for several minutes.

The star Cloud tower wouldn't leave a loophole like this, so it was likely that when the mask was taken off, it meant that the remaining time was given up. Lin Yi had never tried it before, and he didn't want to try it.

"Do I know you very well? If you want the mask, go to your companions! Don't bother me!"

Lin Yi glared at him coldly and didn't bother to say anything more. The guy's companion was still wearing a mask, but it was almost used up by the time Lin Yi finished speaking.

He took off his mask and gave it to his friend, "You can try."

His original intention was to try and see if he could wear the same mask. Anyway, he only had one or two seconds left, so it was not a bad idea to use it as a favor.

The problem was that the guy was targeting Lin Yi, not his mask. What was he going to do with it now that it was all used up?

He was stunned for a moment. If he didn't take it, it would hurt his ally's face. He could only take it awkwardly, put it on his face, and then pulled it off and threw it on the ground. "It's already useless!"

They couldn't tell if it would be ineffective after the substitution or after the time limit was up. It was equivalent to being a clown for nothing.

"This bastard! He's going to die anyway, so let's get rid of him first!"

The martial artist was furious and gave his partner a look, ready to attack Lin Yi.

Both of them had fallen into a state of suffocation, and all of their attributes were starting to decrease. The longer this dragged on, the weaker they would become. In the end, they would even lose the ability to attack.

At that time, Lin Yi wouldn't even need to make a move-they'd be dead already! They had to attack first while they still had most of their strength!

His companion wasn't a good person either-the two were Birds of a Feather, and they understood the look in his eyes. They sneaked up to Lin Yi on the left and right, ready to attack!

However, each hexagonal space wasn't very big, and it was very fast for them to explore. Before they could do anything, Lin Yi had already entered the next space.

The two exchanged a look, ready to make their move as soon as they caught up-they'd be able to increase their chances of success while Lin Yi was looking for the door.

Meng buzhuai and Yan Wuming were beside Lin Yi, so they didn't notice their eye contact. Huang Tianxiang, on the other hand, was different. He had the intention of provoking the two to go against Lin Yi from the beginning, so he was naturally concerned. He saw the silent exchange between the two and already knew what was going on.

If it went well, Huang Tianxiang didn't mind joining in and helping them attack Lin Yi, but if it didn't go well ... Then he'd see how it went!

Everyone followed Lin Yi into the light door, and the two who were about to launch a sneak attack suddenly realized that something was wrong!

In this hexagonal space, the six light doors were dim, including the light door they had just entered. Huang Tianxiang subconsciously reached out and touched it, only to find that the light door they had just entered had been sealed.

In other words, the light door he had just passed through only allowed entry but not exit. The other light doors should be the same. The other side could enter, but the other side couldn't leave.

"What's going on? What is this ..."

"What's going on?" trouble-finding brother asked subconsciously. Before he could finish, a small platform rose up in the center of the space, just like the one he had seen before.

There were three relief props on the small stage, indicating that only half of the six people could get the mask and temporarily escape from the state of suffocation.

As for what would happen to those who didn't get the mask, there was basically no suspense!

After using all their tools, the people who were in a suffocating state couldn't hold it in any longer when they saw the mask. They immediately rushed to the small stage and reached out to grab the mask. In front of the mask, they forgot about killing Lin Yi!

Lin Yi looked at them coldly without any reaction. Yan Wuming's attitude was similar to Lin Yi's as she watched coldly from the side. Meng buzhuai looked at his wife and did the same.

Huang Tianxiang's eyes flickered. He wanted the mask too, but he was very patient. Lin Yi and the other two didn't move, so he didn't move either. From Lin Yi's appearance, it didn't seem like it would be easy for him to take off the mask.

Sure enough, when the two men's palms got close to the small platform, they were blocked by an invisible film. No matter how hard they tried, they could not move an inch.

This was very awkward!

If they could snatch the mask, they would put it on. After all, they were already in a state of suffocation, and no one could blame them for their behavior.

But if he didn't manage to snatch it ... His attitude would be very ugly!

"Why? Why is there a barrier here? it wasn't like this before!"

The troublemaker's face turned red, and his veins popped out. He had the worst resistance to suffocation, so he was the first one to use his mask. At this time, he began to feel uncomfortable all over again, and his attributes were falling wildly.

He just needed a relief tool. It was right in front of him, but he couldn't get it. The pain was no less than suffocation.

"You! Was it you who did something? What kind of restriction was set up here? Because there are too few masks, you want to kill us?"

The troublemaker pointed at Lin Yi and yelled, "I've long seen through your wild ambitions, but I didn't expect you to be so vicious! I'm telling you, I won't let you have an easy time! Even if I die, I'll drag you down with me!"

Lin Yi's eyes had a trace of pity as he revealed a slight mocking smile, "If you're stupid, just stay at home. What's the point of running out and embarrassing yourself? Everyone, come in together. Who saw me doing something?"

Chapter 9213 The Power Of The Devil

"There are three relief devices sealed here, but it required six people to pass through the door of light. In the star Cloud tower, the six people who passed through the light door have to kill each other. Only the three who survive have the right to use the mask. "

It was the same for the six light doors to be sealed. The six people who came in had no possibility of escaping. The only choice was to kill half of them, open the light doors, and continue moving forward.

If they were unwilling to fight ... Then they would die together!

The star Cloud tower clearly didn't mind a few more deaths!

Lin Yi had been guessing that the star Cloud tower would do something in the dark and continue to let the participants kill each other, so he instantly understood the purpose of the star Cloud tower when he saw this arrangement.

Yan Wuming didn't say anything, but she should have thought about the same thing, so she didn't find it strange at all.

Logically speaking, the people who could reach the tenth floor were all at the top of the Tianji continent in terms of strength and intelligence. The two brothers shouldn't be as stupid as they appeared.

Perhaps the state of suffocation had affected his intelligence. It was understandable for people to act a little stupid when they were flustered.

After hearing Lin Yi's words, the two paused and looked at each other before erupting.

Since he had to kill people to get the relief prop, what else was there to say? It's over!

If they didn't act now, they would lose the ability to do so!

They'd already made a plan to deal with Lin Yi, and now was the time to execute it!

Lin Yi looked at them indifferently, as if he was watching a show. The two martial artists who had promised to fight him together suddenly aimed their attacks at their companion at the same time!

As expected, no one who could make it to the tenth floor was a simple person. He betrayed them without any hesitation!

If they were in their normal state, teaming up against Lin Yi would be the best choice-they'd probably follow the agreement seriously.

The problem was that both of them were in a state of asphyxiation, and all their stats were dropping. Lin Yi, on the other hand, was wearing a mask and was at his peak condition.

More importantly, Lin Yi's attention was on the two of them. Sneak attack? What a joke!

He might not even have the confidence to launch a sneak attack, let alone a frontal attack!

They both wanted to live, and that was why they had to fight for the item, but attacking Lin Yi would only make them die faster ... The best choice was naturally to kill the two brothers ...

The two of them moved at the same time, and they were both surprised to see each other's actions, but they felt that it was only natural and not unexpected.

"You dog thief! I knew you had bad intentions!"

"Bitch! Do you think I can't tell that you want to kill me?"

The two of them cursed at the same time, but their subordinates did not hesitate at all. Instead, they increased their strength and launched an attack openly, trying to kill each other in one blow!

Because they had the intention of ambushing and killing, the two of them did not put up any defense, and their attacks did not cancel each other out. Instead, they passed by each other and hit the targets they wanted to attack.

Both sides were injured!

The two brothers were sent flying backward at the same time. The troublemaker was in a more miserable state because he had been in the suffocating state for a longer time, and all his attributes had dropped more.

Normally, the two of them might be on par with each other, but at this time, there was a fundamental difference. The troublemaker brother hit the spatial barrier and bounced back to the ground. His body twitched a few times before he breathed his last.

It couldn't be helped. He had lost too much of all his attributes. In terms of data, his attack had decreased and he couldn't threaten his opponent. His defense had decreased and he took more damage. His HP had decreased and it was easier for his opponent to kill him.

Everyone attacked with their full strength. The troublemaker died on the spot, while his companion stood up cursing after falling down. He had only suffered some minor injuries.

Huang Tianxiang's eyes flickered. He quietly appeared behind the winner. A dagger with a cold glint appeared in his hand. He easily stabbed the opponent's body. He twisted it a few times, enlarged the wound, and pulled it out. He raised his hand and cut the opponent's throat!

The victor, who had just killed his companion and didn't have time to be happy, died in an instant and rushed to meet up with his fellow brothers in distress!

"Hmph! This kind of person who betrayed his companions should be killed by everyone! Killing him so easily is letting him off easy!"

Huang Tianxiang quickly wiped the blood on the dagger on the other party's body, finding a righteous excuse for his sneak attack. He also spat on the ground to express his strong contempt.

Lin Yi, Meng buzhuai, and his wife didn't say anything, quietly watching Huang Tianxiang's performance.

Huang Tianxiang put away his dagger and laughed, ""I know that brother Meng and your wife are chivalrous men who abhor evil and hate this kind of shameless person the most. Therefore, I killed him first so as not to dirty your hands!"

Yan Wuming looked at Huang Tianxiang with a faint smile and a playful look in her eyes, ""In that case, we should thank brother Huang for helping us? You're really fair!"

"Brother Huang, she's being sarcastic, please don't misunderstand!" Meng buzhuai said seriously.

The smile on Huang Tianxiang's face almost couldn't be maintained. It was not easy to maintain a stiff state. She was being sarcastic, but you were being serious? I don't want to hear it, okay?

Huang Tianxiang glanced at Lin Yi, collected his thoughts, and continued to laugh, ""Brother Meng and his wife are really good at joking! But then again, since we're destined to fight here, the two of them also have their own ways of dying. If they die, then so be it, it's no big deal!"

"Brother Meng, we've known each other for many years and have a deep friendship. How about the three of us join forces? Don't worry, I'll follow your lead and whatever you say!"

Huang Tianxiang wanted to use these two to deal with Lin Yi, but they ended up killing each other. He could only make use of the waste and get one kill quota first.

If one had to kill someone before they could retrieve the mask, he had undoubtedly fulfilled the condition.

However, the problem now was that one of the four would die. Huang Tianxiang chose to draw Meng buzhuai and Yan Wuming to his side at the first moment. In his opinion, it didn't matter if they had a deep friendship or not, at least they had known each other for a long time.

Lin Yi already said that he wasn't from the Tianji continent. Let's not talk about whether he could leave the star Cloud tower alive. Even if he could, who knew how long he would stay in the Tianji continent?

In comparison, Huang Tianxiang felt that the life-chasing duo would most likely choose him as an ally, and it was the most in line with everyone's interests. In order to be safe, he even expressed that he was willing to listen to the life-chasing duo, and his posture was as low as the floor.

As long as Meng buzhuai and Yan Wuming agreed to the Alliance, the three of them could work together to deal with Lin Yi!

Huang Tianxiang believed that this was the best plan and the plan with the highest success rate!

It was a pity that Meng buzhuai and Yan Wuming did not want to follow his script!

Chapter 9214 The Power Of The Devil

Yan Wuming refused without hesitation. "I'm sorry, brother Huang. Before you came, we had already reached an agreement with the Tianying planet to advance and retreat together! I can only regretfully reject your good intentions!"

Huang Tianxiang suddenly felt like he had fallen into an ice cave. His whole body was cold, and his heart was also cold.

He didn't know if Yan Wuming was telling the truth. Whether the life-chasing duo and the Tianying planet had really joined forces was not important. What was important was the stance that Yan Wuming had revealed!

The couple was on Lin Yi's side!

He, Huang Tianxiang, was the one who was alone and should be targeted!

After all that, he was the real clown!

"No, no, no! Brother Meng, lady Meng, we're friends. You can't give up on being friends just because of someone you've just met with an unknown background, right?"

Huang Tianxiang forced a smile and took a step forward, trying to redeem something.

Facing the three of them working together, he had no power to resist at all. He was really dead!

Meng buzhuai said seriously, "brother Huang, you're wrong. We're indeed friends, but my wife and I are also friends with the Tian Ying planet. We're all friends, so we naturally have to follow the order of first come, first served. We can't possibly go back on our word, right?"

"You've said it yourself, we hate evil as if it's our enemy, so we definitely wouldn't do that kind of thing, right? That's why we can't form an alliance with you!"

The corner of Huang Tianxiang's mouth twitched. He opened his mouth as if he wanted to say something, but suddenly he rushed to the small platform in the center and reached out to grab the mask on it.

After the death of two people, the seal on two masks had been broken. Huang Tianxiang had been secretly paying attention to it. Although it was an invisible barrier, he could still find some clues after careful observation.

His only hope now was to get a mask and put it on, so that he could maintain his condition and stay out of it!

When there were only two masks left, he did not believe that Meng buzhuai and his wife could easily say that they would not go back on their word!

Two masks, would the couple take one or give one to Lin Yi?

Who would they choose to die if they gave it to Lin Yi? Meng buzhuai or Yan Wuming?

Huang Tianxiang's plan was very cunning. As long as he got a mask, the life chasing duo would have to work with him to deal with Lin Yi!

Unfortunately, no matter how good one's calculations were, there would still be times when one made a mistake!

He thought that it was a sudden move, but he didn't know that everything was under Lin Yi's control.

When Huang Tianxiang's hand was about to touch the mask, he couldn't help but feel excited. However, he was shocked to find a knife suddenly appearing in his palm.

In his shock, Huang Tianxiang immediately pulled back his hand and stepped back. He then saw Lin Yi standing on the edge of the small stage with a long Katana in his hand.

"You've been talking for so long, aren't you tired? You look like a handsome uncle, you're quite decent, why are you doing all these boring things of jumping up and down?"

Lin Yi put the back of the knife on his shoulder and smiled teasingly, "Actually, it's not a problem to watch your performance, but have you asked for my opinion before you want to take something that doesn't belong to you?"

Huang Tianxiang was furious, "how is it something that doesn't belong to me? I killed an opponent, so I should have a mask. I'm taking my own things, what's it got to do with you?"

"Tianying planet, don't think that just because you're powerful, you can do whatever you want. The three masks here belong to everyone, do you want to monopolize them? Did you ask for the opinions of brother Meng, his wife, and me?"

This fellow's brain turned quickly, and he directly brought up Meng buzhuai and Yan Wuming as he spoke. He did not forget to sow discord when he turned around, "Brother Meng, lady Meng, as you can see, this guy has wild ambitions. We can't count on him at all!"

"It's obvious that he wants to keep all the masks for himself. This is definitely not a good thing for you, right? My proposal is still valid. If we join forces to take him down, we can at least guarantee that everyone will get a mask. "

Meng buzhuai and Yan Wuming remained unmoved. They still maintained their calm smiles, clearly not helping either side.

Unless Lin Yi and Huang Tianxiang teamed up, they wouldn't be able to threaten the killer duo to get the mask, but Huang Tianxiang was targeting Lin Yi. Lin Yi wasn't easy to deal with either, and there was no way the two would let go of their past grudges and team up.

Therefore, Meng buzhuai and Yan Wuming were both stable. No matter who had the upper hand between Lin Yi and Huang Tianxiang, the couple's two spots would definitely not be less.

"I can only take one mask at a time," Lin Yi laughed, "and I'll take all the masks?" Your imagination is a little too rich. Meng buzhuai, you don't need to move, these two masks are yours!"

At the same time, the long blade in Lin Yi's hand swept across the small stage, sending the two unlocked masks flying towards Meng buzhuai and Yan Wuming.

The duration of their masks had run out, but the duration of suffocation was not too long. They could hold on to their masks for the time being.

The only one who was still in peak condition with a mask on was Lin Yi!

"Do you see that? Now, there's only one mask left, and only one of us can get the mask. Do you want to take advantage of the fact that you still have power to quickly come over and take action? I'm afraid that if I wait any longer, you won't even have the strength to move. Wouldn't it be embarrassing if I let you off so easily?"

Lin Yi's long blade clanked against the top of the mask-this was the last item that was still sealed. As he'd guessed, the seal would only open when one person died.

Cold sweat dripped down Huang Tianxiang's forehead, and his eyes kept flickering. Since Meng buzhuai and his wife had gotten the mask, they naturally wouldn't meddle in other people's business. He could only rely on himself now.

The longer it took, the more dangerous it would be for Huang Tianxiang, who was suffocating without the mask. He had no choice but to rush at Lin Yi with a loud shout.

The long blade disappeared from Lin Yi's hand, and in its place was the hammer. The time limit of the mask was almost up, and he didn't have time to play around.

"I'll kill Huang Tianxiang with the most powerful Thunderbolt to save some time!"

Huang Tianxiang felt a strong sense of danger in the air, but he had no way out, so he had to fight.

Lin Yi swung his arm and smashed down with the hammer. Lightning and fire intertwined, heavily bombarding Huang Tianxiang's only path. Huang Tianxiang couldn't avoid it and could only use his weapon to resist.

However, the hammer was like a hot knife through butter, easily breaking Huang Tianxiang's defense and tearing him apart. Although he was a good master in the Tianji continent, he was suffocating in front of Lin Yi and the hammer. He couldn't resist at all.

His defense was like a Mantis trying to stop a car-all the hostility he had towards Lin Yi disappeared in the fire and lightning. Lin Yi didn't even want to know where the hostility came from-he didn't need to care about an opponent who couldn't even take a hit!

Chapter 9215 Power

"Brother Meng, Huang Tianxiang is your friend. You won't hold a grudge against me for killing him, right?"

Lin Yi put away the hammer and turned to Meng buzhuai,"After all, we're acquaintances. You two should not hate me."

Meng buzhuai laughed heartily."The Tianying brothers are too kind. We husband and wife aren't people who don't know what's good for us. We're friends on both sides, so the best we can do is not help either side."

"In terms of mood, we naturally hope that everyone can be harmonious. However, the rules of the pagoda are clear. One of you must be sacrificed. What can we do?"

"To put it bluntly, I'm still very grateful to you for not involving us in this. That would have made things more difficult for us. Don't worry, we understand this. There will definitely be no resentment."

Meng buzhuai and Yan Wuming weren't Saint goddesses. Their reputations in the Tianji continent were neither good nor evil, and they did things based on their hearts. Or to put it more bluntly, they did things based on their mood, and didn't have a strong sense of right and wrong.

Huang Tianxiang was their friend, and Lin Yi was their friend too. He chose to support Lin Yi, so Huang Tianxiang was basically dead. The couple wasn't surprised at all.

Lin Yi smiled and nodded, "that's good!" Before we continue, I have two things to say to brother Meng and his wife. I hope you can listen. "

He threw away the mask and put the last one back into his pocket. "The Nebula tower seems to be encouraging the martial artists to kill each other. Powerful martial artists might be one of the nutrients for the Nebula tower."

This was Lin Yi's guess all along, because most of the dead bodies would disappear or be recycled by the star Cloud tower, including Huang Tianxiang and the other two who just died.

As Lin Yi spoke, the three bodies disappeared without a trace, confirming Lin Yi's guess.

Meng buzhuai was stunned, while Yan Wuming was calm and emotionless. It was obvious that she had a similar guess.

Lin Yi looked at Yan Wuming deeply and continued with a smile, ""I think the same situation will happen again on the way. We have to kill people to pass through, or we'll be trapped and die painfully from suffocation."

Yan Wuming nodded and said, "I understand what you're trying to say. The Tianying brothers want us to give up, right?" Or should we leave from another passage and not go with you?"

Lin Yi smiled. "Lady Meng, you're smart. That's what I meant. If we continue to travel together, we'll most likely end up killing each other. That's not what I want to see."

"Moreover, you two are of the same heart. I hope you can choose to withdraw here, so as to avoid the virtuous couple from fighting against each other in the future, which would become a great tragedy!"

Meng buzhuai's expression changed. This wasn't impossible. If only the two of them were left, and only one person was allowed to pass the stage, what would they do?

Meng buzhuai and Yan Wuming might be both good and evil, doing whatever they wanted, but their love for each other was stronger than gold. Neither of them could leave the other. When the time came, they would probably choose to sacrifice themselves for the other.

Or die together? It was terrifying!

Meng buzhuai immediately turned to Yan Wuming and said, ""The Tianying planet brothers are right. Let's not continue. Let's give up!"

In fact, Yan Wuming had considered such a situation before and had even encountered it before. However, the couple's fusion martial technique was two in one, and they had taken advantage of the loophole in Nebula tower.

Therefore, Yan Wuming had always thought of it as a fluke. However, she also knew that the star Cloud tower had the ability to make up for loopholes.

For example, every time Lin Yi used a skill to pass the test, the star Cloud tower would restrict the skill the next time. Lightning movement, wood forest illusion, thousand changes, and so on had all been subjected to this.

Yan Wuming's wisdom was far-reaching, and she could naturally tell what was going on. She hesitated when Lin Yi mentioned the possible situation.

At this moment, the six light doors around them had all lit up, and they were now accessible. The star Cloud tower also sent a weak message that there was a chance to choose to leave. The time limit was 10 seconds!

Lin Yi's lips curled up. Was the star Cloud tower trying to say that it wasn't a bad tower that would kill everyone, but a good tower that would give people a way out?

The problem was that at this time, they might be able to pass the test immediately. If they gave up now, it would be as unreconciled as stopping at the finish line and giving up.

Would Meng buzhui and Yan Wuming choose to give up?

Perhaps the end would be after this door of light?

Yan Wuming's forehead was covered in sweat. She knew that she might face danger if she continued, but the door of light before her was full of temptation. She was reluctant to give up!

Opportunity or life, which was more important?

Meng buzhui said solemnly, "we withdraw!" Luan 'er, enough! We're backing out!"

Meng buzhui and Yan Wuming had already gained enough benefits from this trip to the Nebula Pagoda. Yan Wuming had advanced to the heaven breaking stage, and if the two of them joined forces and used their fusion martial skills, their power would not be inferior to that of a cultivator at the great circle of heaven breaking. In fact, ordinary cultivators at the great circle of heaven breaking might not even be their match.

If he continued, he might gain more, but when he thought of the possibility of losing Yan Wuming, Meng buzhui simply chose to give up.

Every adventure was life-threatening. Meng buzhui was not afraid of death, but Yan Wuming was. She was the real winner in life!

Yan Wuming's tense body relaxed and she smiled sweetly. "Good! I'll listen to you!"

Lin Yi's mouth twitched-what a rich man!

Come to think of it, Daniya had chosen to withdraw in order to avoid killing each other. At this moment, he had also persuaded Meng buzhuai and Yan Wuming to withdraw. Did he have his own Halo of persuasion?

Meng buzhuai and his wife decided to leave immediately after making their decision. Before they left, they both smiled and waved at Lin Yi, ""Tianying planet brothers, take care! We will go out and find your companion, Tian Huixing. After you come out, let's have a drink together!"

"Alright!"

Lin Yi nodded quickly and waved at the two as they left.

After the two left, the masks that were not used on them fell off and reappeared on the small platform. Lin Yi took out his own mask and put it on. He looked at the place where Huang Tianxiang's body was.

Poor guy-he'd lost his life for a mask, and now he had so many of them that he couldn't even use them all. What could Lin Yi say if he lost one after another?

After adjusting his condition to its peak and finding a light door with a slight resistance, Lin Yi threw away the used mask and picked up an unused one before flashing in.

#### Chapter 9216

After the light door was not the end. It was still the same hexagonal space, and he did not know how many more he had to pass before he could really reach the exit.

He didn't meet anyone else after that, and Lin Yi walked through the exact same hexagonal space alone. There seemed to be no end to the doors of light, and it was as if he was repeating the same action.

If Lin Yi didn't make a mark on every light door, he'd really think he was going in circles!

After going through 150 to 160 light doors, the mask's time was up. Lin Yi struggled for a long time in the state of suffocation, and just as his consciousness was about to go blurry, he finally came to a hexagonal space with the mask.

Old rules, kill the enemy and remove the seal to get the mask!

And this hexagonal space only had one mask!

If Meng buzhuai and Yan Wuming didn't choose to back out, it would be Lin Yi's turn to take on the life-chasing duo Masters. It was fine if Lin Yi won, but the life-chasing duo Masters would be annihilated.

If Lin Yi lost, Meng buzhuai and Yan Wuming would have to kill each other!

The situation that he had expected had happened, and the two of them had left already ... Lin Yi felt a little awkward!

What should he do when he was alone and had no opponents?

Kill the air? That was a little too much!

He wondered if using the thousand changes of wood and forest to create a clone to kill him would be considered a pass.

Lin Yi tried to find joy in his misery as his face turned red, his meridians erupting. The effect of the suffocation was getting worse and worse, and he only had half of his combat strength left!

If he delayed any longer, he would die without an opponent!

It didn't matter if it worked or not-he'd just have to try ... Lin Yi activated the thousand changes of wood and forest, created a clone, and killed it. He went to get the mask on the counter.

The result was, of course, no!

As expected, he continued to try other methods!

Lin Yi chanted the chant and absorbed the star energy. The suffocation was a negative state caused by the star energy of the star Cloud tower, and he could more or less relieve it by absorbing the star energy.

It was a pity that Lin Yi's deduction level wasn't high enough, and he couldn't resolve the effects of the suffocation. He could only make it feel better and extend the time a little.

Even with the power of the stars, there was no way to break the seal on the mask, and the six light doors were all closed, so it was impossible to leave this place and find other masks.

Was he going to die like this?

Lin Yi had even let out The Witcher spirit body to test it out, but it didn't work. The asphyxiation state could directly affect The Witcher spirit body, and it was even worse than the physical body-it went back the moment it came out ...

He was at his wits 'end!

Just as Lin Yi was about to give up, a door of light flickered, and someone came in!

Lin Yi was overjoyed. Who cared who came in at a time like this? In any case, Daniya had already gone out, and even the life-chasing duo that he knew had been persuaded to leave.

The remaining people in the star Cloud tower were basically all enemies!

"I'm sorry! You've come at an unfortunate time!"

Lin Yi muttered as he swung the hammer while he still had energy left.

The person who came in was shocked and couldn't help but exclaim, ""You again! Why are you so persistent?"

The black metal particles quickly formed a shield, blocking Lin Yi's sudden hammer.

"Asreina? It was really a small world! Ha ..."

Lin Yi finally saw who it was-it was asrina from the dark Beast clan. She was unlucky to have been left behind to ambush him, and tried to use the spatial breaching ghost demon's tunnel to escape after failing, but it was destroyed and she couldn't leave the tenth floor.

Instead, she was sent to the Ninety-ninth step, stuck in the test with Lin Yi.

When they met before, Lin Yi didn't want to waste time and didn't want to kill her by force, but it was different this time. In order to live, Aslina had to die!

Lin Yi let out a breath of relief. Aslina was a real enemy, and he wouldn't feel any guilt if he killed her. If it was a stranger, he'd probably feel guilty.

"Dammit! Why are you everywhere!"

Aslina wanted to cry as well-she'd accepted the mission to assassinate Lin Yi, only to find out that she wasn't his match at all, and the defense she'd been so proud of was destroyed too.

She wanted to hide as soon as she saw Lin Yi, but who knew that she wouldn't be able to ...

Of course, she noticed that Lin Yi wasn't in a good state-the strength of the hammer had been reduced by more than half, but she herself wasn't any better.

The star Cloud tower only had one mask in this space, and Lin Yi had gone through 150 to 160 hexagonal spaces before coming here. He'd used up most of the mask he had prepared and his resistance to the suffocation.

Aslina was no exception-she was in the same situation as Lin Yi, and they were on the same level.

After breaking the shield, Lin Yi raised the hammer again and shouted, "Aslina, stop struggling. You can't escape!"

She sounded like a villain ... Lin Yi didn't care anymore-it'd save him a lot of energy if Aslina really stopped struggling!

"Go to hell!" Asreina said through gritted teeth.

The black metal shards spun around like a tornado, wrapping Aslina within. At the same time, countless shuttles shot out, all of them concentrated on Lin Yi.

Aslina was in a very bad state, but her innate ability was still there. Even though the power had been reduced, it was still very powerful.

Lin Yi turned into a lightning arc and instantly widened the distance between them. He moved in a ring shape in the hexagonal space and found the weakest spot of the black Tornado. He swung his hammer and rushed forward.

The sledgehammer borrowed the inertia from its extreme speed to violently tear apart the black Whirlwind, smashing through the layers of defensive shields that asreina had set up, and bombarding her crossed arms.

The scene was familiar, and asrina felt bitter. Her arms had been shattered, and although she could quickly recover with her innate ability, she couldn't squeeze out that little time!

Lin Yi's attacks didn't stop there. He took advantage of Aslina's moment of distraction and sent his spirit sense into her sea of consciousness, causing her to lose her focus for a short while.

The sledgehammer didn't stop either, and it swung in a circular motion before striking with all its might again!

With a dumbfounded expression, Aslina exploded in the lightning and flames, and then turned into nothingness!

Lin Yi quickly turned around to grab the mask on the counter, and as expected, the restriction on the mask disappeared after killing Aslina. He was able to put the mask on his face without a problem.

The suffocating state immediately receded like the tide, and the feeling of weakness gradually receded. It was as if his entire body was rejuvenated, and every cell was like thirsty sand, constantly absorbing water to nourish itself.

Chapter 9217

The six light doors were back to their open state! And Lin Yi did a simple search before deciding on the light door he wanted to go through!

What Lin Yi didn't notice was that after Aslina exploded, she didn't completely dissipate. There were still some black metal particles on the ground, and when Lin Yi stepped into the light door, these black particles were swept up by a silent whirlwind, forming a small vortex and following Lin Yi into the light door.

Lin Yi didn't go into another hexagonal space after the door, but the core of the Ninety-ninth step was there.

A message came from the star Cloud tower, proving that Lin Yi had passed the test and could receive the reward.

Lin Yi's whole body was relaxed, so he didn't notice a small pile of black metal particles on the ground behind him. It was like a speck of dust in the starry sky.

It was hard to tell if one didn't pay attention. Lin Yi used his spirit sense to scan the area and made sure there was no one else around. He relaxed and didn't find the black metal particles that came out of the light door.

After receiving the reward, Lin Yi teleported to the eleventh floor. The black metal particles didn't leave, still lying quietly on the ground.

Was Aslina really dead?

Lin Yi thought that Aslina was really dead, and he was happy that he could get rid of one of the dark Demon beasts.

The eleventh level, a record from a thousand years ago!

The first group was now on The Thirteenth Floor, and Lin Yi was only two floors away from them.

As soon as he stepped onto the 11th level, Lin Yi felt a force that was far stronger than the 10th level. The two forces were constantly changing without any pattern, making it hard for him to stand on the stairs. Anyone below the heaven breaking stage didn't have the right to stand here!

The star energy in Lin Yi's body had been completely guided out and refined into nutrients for his body, and his strength level had also broken through rapidly, just barely standing on the threshold of heaven breaking late stage peak!

The gravity on the eleventh floor wasn't enough to affect Lin Yi's speed.

This was an unprecedented peak strength, but it wasn't his limit yet. As he continued to climb the star Cloud tower and absorb more and more star energy, Lin Yi's strength would rise even higher!

He didn't encounter any obstacles all the way up to the 33rd step. On the 33rd step, the star Cloud tower didn't give him any test, but there was someone waiting for him.

"Sima Yi, from the starsource continent. He's a rare Grandmaster in both array and alchemy. He's also extremely powerful and has always been against the darkness demon beast clan!"

It was the Golden Shadow Demon's clone-it wasn't Lin Yi's first time seeing it. He'd ambushed it with Aslina, and one of the clones had been destroyed.

This time, it was only a clone, and no other Dark Beast Masters came along. It didn't look like they were going to fight Lin Yi.

"What I said was right, right? Sima Yi, you've come all the way from the star source continent. Is it for the ink Star River, the star Cloud tower, or for the darkness demon beast clan?"

The Golden Shadow Demon had a smile on his face, as if he were a big brother next door, making Lin Yi feel a little weird.

"Have you investigated my background? It seems like you have an expert from the darkness demon beast clan who came from the starsource continent with you! Then you should be very clear about my purpose! Why are you asking me so hypocritically?"

Lin Yi looked at the Golden Shadow Demon calmly. "My greatest goal in coming to the heaven's legacy continent is to find my parents. You might be able to help me with this, right? Can you tell me where they are?"

The darkness demon beast clan's experts should be very clear about the whereabouts of Sima Yunqi and his wife. The Golden dark shadow Demon, as a higher-up of the darkness demon beast clan, should also know.

The Golden dark shadow devil shrugged and chuckled, ""I'm very busy every day and have no time to pay attention to those small things. I can't give you an answer to your question. I'm here to tell you that you won't have a good end if you go against us!"

"Since you have my people by your side, I can give you a chance. Pledge your allegiance to us and work with us to build a better world. How about it?"

"The fact that you can accept our people by your side shows that you are not a pedantic human. This is why I am willing to let go of our past grudges, ignore the losses you have caused us in the past, and tolerate you killing my companions. This is the reason why I am giving you this opportunity."

"Think about it and accept my kindness. This is the premise for you to keep your life and continue to find your parents! Of course, if you really submit to us, I'll help you keep an eye on your parents whereabouts. This is much better than you running around like a headless fly!"

Lin Yi's lips curled up into a mocking smile. "Thank you for your kindness! Unfortunately, I'm not willing to accept it! Daniya is my companion. She's different from you, so don't compare her to you!"

"Do you understand? I've rejected you so directly, what are you going to do next? Are you going to kill me now? I'm afraid that just your clone is not enough, right?"

Lin Yi took out the demonic blade and pointed it at the doppelganger. "It seems that you don't care much about your clone, so you sent it over for me to test my sword, right? It doesn't matter, I don't mind killing a few more of your clones!"

The Golden Shadow devil shook its head and chuckled, "you're refusing a toast only to drink a forfeit!" Fine, since that's the case, I won't try to persuade you anymore. Although you're a rare talent ... Perhaps we can still have a chat when you regret it, but at that time, we won't be as polite as we are now!"

Lin Yi's body flashed, and a black light bloomed. "Are you done? Go to hell if you're done!"

The Golden Shadow Demon did not Dodge. Its body instantly turned into a shadow, and the teleportation light lit up under its feet. At the same time, an invisible force protected the teleportation channel.

"I know you have the ability to interfere with teleportation and hurt my Shadowform, but I'm not completely unprepared!"

The Golden-dark Shadow Demon's voice carried a hint of pride. "The dimensional gateway is ready. I can choose to leave with a single thought. You can't stop me! So, there's no need to waste your energy. "

"I'll give you one last piece of advice! The star Cloud tower isn't as simple as you think. Believe me, you'll see how terrifying the star Cloud tower is. Of course, I'll also leave you a gift in this terror. I hope you'll like it and enjoy it!"

With that, the Golden-dark shadow Demon disappeared in the light. Lin Yi put away the sword and thought about the demon's words.

Chapter 9218

What did he mean by that? Did he specially create a clone here just to say these boring words? Even though he knew that there would be no results in recruiting them to surrender, he still had to try. Even though he knew that threats and threats were useless, he still had to say a few harsh words.

Could it be that he wanted to waste some of his time?

Then he had succeeded, and he had indeed wasted dozens of seconds ...

Lin Yi shook his head and stopped thinking about the Golden Shadow Demon's intentions. Perhaps the demon wanted him to overthink? Instead of thinking about his intentions, it would be more convenient to catch up to him and grab his neck to ask!

Let's continue forward!

There weren't any more hindrances for the rest of the stairs, and he reached the Ninety-eighth step smoothly. One more step and he'd reach the top, the Ninety-ninth step. Lin Yi was still trying to guess what test this would be, but he realized that there was no way forward!

The Ninety-ninth step still existed, but he could not climb it. The entire Ninety-ninth step was covered by a layer of black, furry thing!

The final test of the eleventh level of the Suan ni is about to begin. Climb the Ninety-ninth step within sixty seconds to participate in the test. If you can't climb the Ninety-ninth step within the time limit, you will be regarded as failing the test!

This was the message that the star Cloud tower sent to Lin Yi's mind, and the last sentence was that Wuwu failed the test and was killed!

In other words, Lin Yi might not even get to see what the test was before he was killed by the star Cloud tower!

What were those black hairs covering the ninety-nine steps?

Lin Yi tried to cut it with the demonic devour sword, but it didn't mean that it wouldn't work. It would recover immediately after cutting it, so there was no point!

He put away the demonic devouring sword and used the large hammer to swing it down. Lightning arcs and flames continued to flow, but it was still useless against this layer of black fur.

It wasn't fire-resistant, but its black hair was more resilient than wild grass. Wild grass was like a wildfire that couldn't burn out, but it would grow again when the spring wind blew.

After these black hairs were burned to ashes, they didn't even need the spring breeze to blow over them. As long as the flames didn't burn anything, they would automatically extinguish and return to normal.

As for the great impact and destructive power of the hammer itself, when it fell on the countless black hairs, it was like falling on a thick layer of cotton. All the force was scattered and consumed.

Forget about 80 or 40, this effect was at most 50 cents ...

Lin Yi frowned, his face serious. Even the hammer couldn't break through this layer of black fur, its defense was shocking!

The fire did burn the black fur for a short while, but there was still a layer of black light under the black fur. Even the icy fire couldn't burn it. Lin Yi wanted to use this gap to get through, but he couldn't.

Sixty seconds was a very short time-it was only a minute, and ten to twenty minutes could pass if he was in a daze or in a daze. Sixty seconds wasn't enough for Lin Yi to try!

He had to use his most powerful attack!

With the hammer on the ground, Lin Yi began to form a super alchemy bomb, and he mixed in the star power, making it even more powerful. It could be said to be the most powerful attack he had at the moment, without a doubt!

Even a sledgehammer couldn't compare!

An instant-cast super alchemy bomb might not be as good as a hammer, but a super alchemy bomb that Lin Yi spent time to gather and control ... The hammer couldn't compare!

The last ten seconds!

The veins on Lin Yi's neck were bulging. Even with his peak late-stage heaven breaking strength, he felt like he couldn't control the Super alchemy fire bomb in his hand!

The black ball in his palm did not emit any light at all. He had thought that there would be flames, Starlight, and other light shadows surrounding it, but there was none.

If he had to describe it, Lin Yi felt like he was creating a black hole, devouring all the energy around him!

It was still within Lin Yi's control, but if this continued and he lost control of it, he couldn't guarantee that this thing wouldn't really turn into a black hole.

"Ha ... Astonishing defense? If this can't be solved, I'll accept my death!"

Lin Yi gritted his teeth and laughed coldly. He pushed the Super alchemy bomb towards the layer of black hair covering the Ninety-ninth step!

A black tunnel was drawn in the air. The Black Sphere seemed to have devoured everything in its path, leaving behind such an obvious mark.

The black ball crashed into the black, furry defensive layer and exploded with an intense white light!

Negative to positive, black to white?

Lin Yi subconsciously closed his eyes. The light was too bright, he couldn't even look at it directly. He felt a slight pain!

He extended his divine sense to check the situation, but it was melted the moment it came into contact with the white light!

Lin Yi was shocked. It could even melt his spirit sense, was this the effect of the new super alchemy bomb? Or was it an additional effect after the collision?

He didn't dare to use his spirit sense to check anymore-he waited for a second or two before the light disappeared. He opened his eyes and saw that there was a huge hole in the black furry shield.

It was at least a hundred meters in diameter!

At the edge of the hole, the black hair was struggling to reproduce and try to repair the hole. However, the edge of the hole could not move an inch forward, as if there was an invisible wall blocking the black hair.

Lin Yi relaxed-if even this couldn't break through black hair's defense, he'd really have to prepare his last words ...

Lin Yi didn't waste any more time after opening the tunnel. He turned into a lightning bolt and charged into the hole, reaching the Ninety-ninth step.

After standing still, he scanned the area and saw the situation on the 99th step, which was covered in black fur. The star Cloud tower then sent a message to Lin Yi.

The 60-second countdown ended!

The final test of the eleventh floor had begun!

There weren't any fancy rules. It was a very simple test. As long as they defeated the two-man team in front of them, they would be able to pass the test and enter the twelfth level!

Lin Yi saw the two people he had to beat up in the test, or rather, the two masters of the dark Demon beast clan!

One of them had a tough appearance, covered in black hair. Lin Yi saw that the black hair was the defensive layer covering the entire Ninety-ninth step!

That's right, the one who stopped Lin Yi was a master from the dark Beast clan!

The other man was much thinner and weaker in comparison. He was playing with two curved sharp blades in his hands. They were about 30 centimeters long, and the blades emitted a dangerous light.

"Aiyo! It was really surprising! To actually be able to break through black hair's defensive layer, this attack power is amazing!"

The thin and weak darkness magical beast laughed as it looked at the intrepid darkness magical beast. It should be called black hair, a very striking name ...

Black hair grinned and said, "it's quite unexpected. If I wasn't in the star Cloud tower, I'm afraid that one attack would have killed me!" It's a pity that this is the star Cloud tower. Unless he can continuously use this level of attack, then I have nothing to say. If he can't ... Then he can only obediently accept his death!"

Chapter 9219

Lin Yi's heart sank. Star Cloud tower? What did these two dark beasts have to do with the star Cloud tower? Could it be a projection clone created by the star Cloud tower?

It shouldn't, right? In the final test of each level of the Nebula Pagoda, as long as it was a combat type, the clone would not be the one to take the lead. At most, he would only be able to provide some support!

So what was the relationship between the dark Demon beasts and the star Cloud tower?

"Alright, don't waste time, quickly kill him! I'm not interested in playing games with such a dangerous person!"

The emaciated man raised his right hand, stuck out his long tongue, and licked the blade of the scimitar. His eyes were filled with crazy killing intent.

Black hair grunted in acknowledgment, and countless black hairs spread out from under his feet, instantly covering the entire platform of the Ninety-ninth step.

Lin Yi could feel that the black hair contained a trace of the power of the stars. This guy's use of the power of the stars was definitely not below his!

After understanding this, Lin Yi was even more surprised. He had to deduce the rest of the chant to be able to use the power of the stars to this extent, so what did this black-furred monster have?

A normal reward chant wouldn't be able to reach this level. The black-furred beast either had the same ability as Lin Yi, or there was such an existence in the dark Demon beast race, or ... The star Cloud tower gave the black-furred beast the right to use the star energy!

According to what they'd said, Lin Yi suspected it was the third possibility!

The star Cloud tower had assigned these two members of the darkness demon beast clan to take on the task of testing them, so they were given a boost in strength!

This is troublesome!

These thoughts flashed through Lin Yi's mind like lightning. What he needed to think about now was how to deal with the enemy's attack!

Lin Yi jumped up and dodged the wriggling black hair under his feet, but the entire space was covered in black hair. It wasn't something that could be dodged with a simple jump.

"Hahaha, it's no use, kid. You can't escape from my control here. If you want to suffer less pain, then obediently accept your death!"

The black-furred beast laughed as it raised its hand. Countless black fur shot up into the sky and chased after Lin Yi, surrounding him. It didn't matter if some of them missed. They intertwined and formed an extremely tough black fur net, covering the sky and earth.

Lin Yi didn't know if this was the black fur's skill or an innate ability, but it was undeniable that it was a super strong control skill, especially when the black fur was supported by the power of stars. Not only were they tough, but they also had super strong recovery abilities.

Once one was bound, there was no possibility of breaking free!

"If I was really that awesome, how would you have let me reach the Ninety-ninth step? Shouldn't you suffocate me to death on the Ninety-eighth step?"

Lin Yi replied with a cold smile. He already had a plan in mind!

Icy blaze!

The ice-colored flames flickered on Lin Yi's body, and the temperature outside the range of the flames dropped sharply. The black fur slowed down as it approached, slowly freezing into ice.

Although it was still stubbornly drilling forward, when it came into contact with the flames, the ice crystals shattered, and the flames rose, instantly burning it to ashes.

The black-furred monster's face changed-his black fur wasn't immune to the ice Fire, and while it could regenerate and regenerate, the problem was that it couldn't get close to Lin Yi and lost its ability to restrict him!

"You're indeed a braggart. You can't even break through my protective flames, and you say that I can't escape your control ... You should control me first!"

Lin Yi laughed coldly. On the surface, he was attacking the black-furred beast, but in reality, most of his attention was on the weak Dark Beast.

The black-haired beast's methods were indeed quite powerful. Whether it was in terms of defense or control, after adding in the power of the stars, these black-haired beasts could be considered to be at the peak level of the heaven breaking stage.

If Lin Yi didn't have the icy blaze fire, he would be able to counter the black-haired beast for a while. He wouldn't be able to avoid it now, and would be completely bound by the black-haired beast.

Unless he kept his physical body in the Jade space and used The Witcher spirit body, it would be hard to fight against him. But the thin Dark Demon beast hadn't shown its strength yet, and the unknown always harder to control than the known. Lin Yi couldn't help but pay attention to its movements.

"Hehe, you're quite capable indeed. You even have such a rare spiritual fire of heaven and earth! It seems like I have to be more serious!"

The emaciated man chuckled sinisterly. Then, he stuck out his tongue and licked the blade of the scimitar in his left hand.

Lin Yi was getting sick of him, thinking of putting some poison on the blade if he had the chance-let's see if he'd still lick it.

Before he could finish his thought, The Thin Man's figure flashed and disappeared. Lin Yi's scalp went numb as the Jade space went crazy.

Lin Yi didn't dare to waste any time and immediately activated his lightning escape technique. He forced his way through the black fur and instantly covered dozens of meters.

He looked back and saw the scimitar of the emaciated man swing at the place where it had stopped before. If he was not wrong, it should be the neck ...

If Lin Yi didn't Dodge, his head would've been chopped off by now!

"Eh? He was really fast! Old black, you should put in more effort and tie him down! I'm in a difficult position!"

The emaciated man mumbled unhappily. His body flashed again, and he appeared behind Lin Yi as if he had teleported, "I hate wasting energy, so can you stop running? There's no point in doing so!"

Lin Yi turned into a lightning bolt again and kept changing his position.

"Tsk, it's easy for you to say that. The spiritual fire of heaven and earth on his body is a great counter to my black hair! Moreover, he can transform into lightning and pass through the gaps between my black hair. What can I do? I'm also very helpless!"

The black-furred beast wasn't as helpless as he had said. His tone was very frivolous. As his hands moved, more and more black fur interweaved, filling up all the gaps.

The net was only so-even with the icy fire, Lin Yi couldn't burn off all the black fur in an instant. It was like a piece of paper that would burn when it came into contact with fire, but a thick stack of paper wouldn't burn so easily if it was put on fire.

After all, the Thunder escape technique wasn't an invincible wall-crossing technique. When encountering such dense restrictions, without spatial flash, he could only rely on the ice flame to open a passage, so his speed was naturally less than one in a hundred.

Lin Yi felt like he was stuck in a quagmire, unable to move at all!

"Tsk, tsk, tsk. I can feel your helplessness. Can you please not be so helpless?"

The emaciated man teased his companion as he teleported behind Lin Yi again. He drew a beautiful arc in the air and aimed at Lin Yi's neck!

This time, Lin Yi didn't seem to have time to react and remained in the same spot. The emaciated man was happy, thinking that the black furred's binding finally worked, but after the curved sword slashed, he realized that it was only an afterimage in front of Xuanji!

Chapter 9220 Power

The scimitar pierced through Lin Yi's neck without any resistance. The man had just killed loneliness, and he was happy for nothing.

Three appearances of the cloud Dragon!

Lin Yi barely broke free from the black fur's restraints and turned towards the black fur monster!

The emaciated man had already displayed his ability. He was indeed very powerful!

With teleportation-like speed and a sharp scimitar, this was a top-tier assassin!

If caught off guard, he could easily kill someone who was stronger than him, but Lin Yi wasn't afraid of Masters like this.

Lin Yi was a top-tier assassin himself, and his speed was on par with everyone else. His lightning movement was like teleportation, and he had super butterfly micro steps and could use the three Cloud Dragon appearances to escape and kill.

If the emaciated man fought Lin Yi one-on-one, Lin Yi was confident that he could defeat him, so the black-furred monster was the one he needed to deal with now!

The endless black hair was disgusting, and it restricted Lin Yi's movement space. He had the icy fire, so he wasn't completely restrained, but with the emaciated man's help, Lin Yi couldn't go all out against him!

He had to kill black hair first!

"Yo! Blackie, this kid saw your weakness and knew that you can't move, so he's going to kill you first! Be careful, don't die!"

The emaciated man turned to where Lin Yi had appeared, not angry at being tricked by the afterimage. Instead, he continued to tease his companion.

Black hair grinned, "you still have the face to laugh?" I didn't manage to touch anyone's hair for a few times in a row, and instead, someone came up to my face! Do you have any good intentions?"

The two were laughing and cursing, not putting Lin Yi in their eyes at all. They didn't think Lin Yi's sudden attack was a threat at all.

Countless black hairs gathered and formed a thick wall in front of Lin Yi. Even the icy fire couldn't burn these black hairs easily.

With every layer burned off, a new one would appear to fill the gap, not giving Lin Yi a chance to break through at all!

This scene was similar to the shield formed by the black metal particles that he had used against asreina. It seemed to be stacked endlessly.

Unless he could break it in one go, he could only grind it down slowly!

In such a dangerous battle situation, where was the time to slowly grind?

"Ah! It seems like you can't break my defense! How did you manage to break through my barrier and reach the Ninety-ninth step? Why not try it again? Is it because you've consumed too much energy that you can't use that move again for a while?"

The black-furred beast was very wary of Lin Yi's ability to break through the defense and get to the Ninety-ninth step. He spoke in a carefree tone to test Lin Yi and see if he'd trigger that move.

"Thank you for the reminder! I will fulfill your wish!"

Lin Yi said faintly as he dodged the skinny man's attack with the three Cloud Dragon appearances. He threw a super alchemy bomb at the wall made of black hair, creating a deep hole but not penetrating it.

"Hehe, just like that? You're not lying to me, right?"

The black-furred beast pretended to be disdainful, but in reality, he was secretly happy. If it was really just this level, he wasn't afraid at all!

If they couldn't break through his defense at all, then wouldn't they be standing in an undefeatable position?

"Yes, I'm lying to you. If you have the ability, don't defend yourself. Let me blow on your face, and you'll know!"

Lin Yi dodged the black fur's restraints and the skinny man's teleportation as he retorted. His left hand continuously threw out normal super alchemy bombs to divert their attention.

He hid his right hand behind his back, secretly rubbing a new super alchemy fire bomb in his palm. He continued to pour in true Qi, alchemy fire, consciousness alchemy fire, icy flame, star power, and other forces.

The final product of the hodgepodge fusion was not messy garbage, but a black hole that could devour everything!

Of course, this was not a real black hole, but it was undeniable that there was a shadow of a black hole in it!

"I'll stand here and wait for you. If you have the ability, come and slap me in the face. If you don't have the ability, then be honest and stop bragging. You can't even break my most ordinary defense, what qualifications do you have to talk to me?"

The black-furred beast started a war of words with Lin Yi. The move he used not only restricted the enemy but also himself. If he wanted to use its power, he couldn't move. To make an analogy, it was like a fixed formation eye, and the black fur was the formation he set up.

He had nothing to do, and since black hair couldn't stop Lin Yi, he could only rely on his mouth.

It just so happened that Lin Yi was sneakily preparing his ultimate, so he was exchanging taunts with the black-furred monster.

The emaciated man, on the other hand, concealed his aura and didn't join the two's bickering. He used the black fur as cover and entered stealth mode, ready to ambush Lin Yi.

What he didn't know was that Lin Yi had the Jade to alert him of any fatal sneak attacks. This kind of stealth attack was useful to others, but it was almost useless against Lin Yi.

Lin Yi's spirit sense was fully activated, and the black fur couldn't completely block his spirit sense. Lin Yi couldn't see the emaciated man, but his spirit sense had already locked on to him. No matter how he used the black fur to hide, he couldn't escape Lin Yi's lock.

"Black hair, be careful. He might be trying to mislead you!"

The emaciated man's sneak attack failed again. He suddenly realized that Lin Yi's right hand was hidden behind his back. He was shocked and couldn't help but remind the black-furred monster.

The old man understood the schemes the best, and naturally guessed that Lin Yi had some sort of backup plan. The endless scolding and the seemingly useless attacks were just a distraction!

The black-furred beast laughed disapprovingly, "mislead what?" What tricks could he have? I think if we wait any longer, he will die of exhaustion!"

He thought that Lin Yi had used too much strength to reach the Ninety-ninth step and was now too exhausted to fight, making it easier for him.

It wasn't that he had ignored the emaciated man's warning, but he didn't think so.

Lin Yi was almost at his limit, the new super alchemy bomb in his right palm had turned into a super small black hole. He smiled when he heard the conversation between the emaciated man and the black-furred monster.

"You are all right! I should have cooperated with you. After such a long misdirection battle, I can finally attack with all my might! Therefore, take my most powerful attack before you die!"

Lin Yi continued to talk nonsense as he threw the new super alchemy bomb at the black-furred monster. This guy couldn't move-it was a fixed target!
