

Bodyguard 9221

Chapter 9221 Power

The fist-sized black ball of light was as fast as lightning, and it passed through the ground as smoothly as a knife cutting through tofu, without any obstacles!

A black vacuum tunnel formed behind the black ball of light, and all the obstacles it encountered were turned into nothingness. The black-furred monster suddenly felt a fatal danger!

The horrified black-furred monster's entire body was stiff. It didn't know how to dodge and could only instinctively urge its power. It desperately gathered its black fur to wrap around the black ball of light, trying to slow down or even stop the speed of the black ball of light's advance.

Unfortunately, black hair, who had his star power on him, couldn't even get close to the black light. That small black light was stronger than Lin Yi's icy fire. Anything that got close to it turned into ashes, leaving no trace.

"Quickly Dodge!"

The emaciated man was scared out of his wits. He also felt the danger and horror of the black light that Lin Yi threw out. Even if it wasn't aimed at him, it made his hair stand on end and his soul fly away.

The black-furred monster cursed in his heart. He also wanted to F * cking Dodge! The problem was, could he Dodge it just because he wanted to?

Not to mention that his movement would be restricted when he used his ability, even in his normal state, he might not be able to avoid the terrifying little thing!

That black ball of light seemed to have a terrifying pulling force, pulling the black-furred monster closer. He didn't even know if being unable to move was a good thing or a bad thing.

If he could move, he could choose to Dodge, but he could also be pulled over ... So would it be better to wait for death?

All these thoughts flashed through his mind in an instant, but Lin Yi's attack was faster than expected, reaching the black-furred monster in an instant.

Lin Yi meant what he said-if he said he'd hit your face, he'd never hit your chest!

The black-furred monster still had a dumbfounded expression on his face, and there was only a bit of fear in his eyes.

Then, his head disappeared!

The new type of super pill fire bomb wasn't a real black hole, so it still exploded in the end. After the black-furred monster's head disappeared, it was followed by its body and the surrounding black fur!

Everything melted without a sound. There were no loud explosions or flashes of light. There was only darkness. The surroundings fell into darkness, as if the space had disappeared.

Lin Yi scratched his head-why was the effect different? When he broke through the Ninety-ninth step, a dazzling white light exploded and he almost went blind.

This time, he was prepared, but there was no white light at all. How was a Black Bomb?

Was it because of the change in the composition of the power that was injected? Or was the duration different?

He had to do more research on it later!

After the new super pill fire bomb exploded, it engulfed an area of about fifteen meters with the black-furred monster as the center. Everything within this area was turned into ashes and smoke, turning into nothingness!

The black fur that covered the sky and the earth outside the range instantly lost its vitality. Its original distorted appearance was gone forever. It quickly drooped down, dried up, and broke, falling to the ground and turning into a layer of dust.

The emaciated man's face changed drastically as he looked at Lin Yi with fear."You ... You actually killed black hair!"

Black hair was similar to asreina, having an effect similar to an absolute defense. If one had to point out the differences, black hair might be stronger in terms of control, while asreina's attacks formed from black metal particles were more powerful.

No matter what, black hair's defense was publicly acknowledged to be higher than Aslina 's, but Lin Yi killed him in one strike!

Strong!

If they weren't enemies, the emaciated man would've shouted "six six six" at Lin Yi already ...

"Is it difficult to kill him? It didn't seem to be that difficult! I'm going to kill you next. Are you ready?"

Lin Yi looked at the man indifferently and took out the demonic devour sword, "I'm starting!"

Lightning escape technique!

Without the black hair's restraint, Lin Yi's lightning movement finally unleashed its full speed. He flashed to the skinny man's side and a black light bloomed as the demonic devour sword stabbed towards the man's throat.

The emaciated man's body flashed, and he teleported dozens of meters away with a speed that wasn't any slower than the lightning escape technique. He still had lingering fear from Lin Yi's powerful attack, and he hadn't completely digested the fact that black hair had been killed.

So when faced with Lin Yi's sudden attack, they instinctively chose to Dodge instead of counterattacking!

Naturally, Lin Yi wouldn't let go of such a good opportunity. He continued to activate his lightning movement, and the lightning arcs kept flashing as they chased after the emaciated man.

The two of them kept moving, leaving behind afterimages, but there was almost no real fight. The emaciated man mainly dodged. Occasionally, when he couldn't avoid it, he would use his curved sword to block it slightly, and then use the force to retreat and teleport away.

This was the fastest opponent Lin Yi had ever met, no one came close!

As for the emaciated man, Lin Yi was also the toughest opponent he had ever faced. His teleportation left no trace, and although the distance was limited, no one could keep up with his rhythm.

In the past, countless opponents could not find his shadow, and he would constantly teleport to find their flaws. He would kill them with one final strike, and he would be closely pursued. This was the first time in his life that he had experienced this!

"Do you only know how to run? After losing that black-furred beast, you don't even have the courage to fight back?"

Lin Yi couldn't do anything to his opponent, so he started taunting again. "Such a timid guy is only suitable to hide in the dark sewer like a rat. What are you doing out here?"

The emaciated man didn't say a word. It wasn't that he didn't want to retort, but he didn't have the confidence!

Plus, he wasn't like Lin Yi, who had the ability to multitask. If he opened his mouth to reply and messed up his breathing, Lin Yi might catch up and kill him!

For the sake of his life, it was better to shut up and escape!

"The mission given to you by the star Cloud tower is to stop me from advancing. All you know now is to run for your life. Do you have any awareness of being a fighter for the star Cloud tower? If I don't kill you, will you be able to stop me?"

"The more you talk, the more excited you get. Aren't you tired of teleporting? I really want to know how you'll face me when you can't teleport. Obediently waiting for death?"

Lin Yi wasn't in a hurry—he kept provoking the man as he chased after him.

Lin Yi had an endless supply of Qi from the Jade space, so using the lightning escape technique didn't cost him anything. The skinny man's teleportation ability, on the other hand, was extraordinary, so he would definitely use more Qi than Lin Yi.

Comparing the two, the emaciated man would definitely be the first one to give up!

Just as Lin Yi finished his sentence, a countdown message from the pagoda appeared in his mind. Three minutes left, failure to pass the test will result in death!

Chapter 9222 Power

Lin Yi didn't remember there being such a time limit before. Without a doubt, this was an adjustment made by the star Cloud tower after realizing that the black-furred monster had died and the emaciated man was being suppressed.

He's biased!

He had no choice, he had to speed up!

The lightning escape technique was already activated to its limit, so how could he increase his speed? Restricting the opponent's speed was equivalent to increasing one's own speed.

Just like what the black-furred monster did to Lin Yi!

"The game time is over! I'm getting serious! You'd better be mentally prepared!"

Lin Yi reminded him kindly as he activated the thousand changes of wood forest.

Close to a thousand doppelgangers instantly appeared in all directions. Although it was not enough to cover the sky and earth, it was enough to support a large encirclement!

In a battle at the heaven breaking stage, a single sea Rift clone wouldn't be of much use. However, it was a different story for a large-scale battle formation formed by nearly 1000 clones!

Lin Yi and the emaciated man were surrounded by all the clones, and the battle formation was formed instantly, covering the entire area. The emaciated man's teleportation couldn't break through the battle formation, so he could only move around in this small space!

With the area of his movement reduced, it was easier to capture and determine his movement trajectory. Moreover, other than being able to restrict and defend himself, the battle formation could also produce a certain restrictive ability. Every time The Thin Man teleported, it was as if he was stuck in a quagmire, and his movement ability was reduced by a little.

It was just a slight decrease in power, but when Masters fought, a slight difference could lead to a huge difference, especially when Lin Yi and the emaciated man were moving at such high speeds. Even a slight delay would cause them to suffer countless attacks.

"I've caught you!"

Lin Yi shot out from the lightning arc with a cold smile on his face. The demonic devour sword easily pierced the emaciated man's chest.

This guy was an agile assassin, and his defense wasn't that great. He relied on dodging to make his opponent miss, so Lin Yi didn't even think about using the hammer. The demonic blade was enough to kill him.

The emaciated man finally stopped. He looked at the black sword in his chest unwillingly, and a stream of blood flowed from the corner of his mouth.

"Don't ... Don't be so smug ..."

As soon as he opened his mouth, blood spurted out of his mouth. He also choked on a few mouthfuls of bloody foam and could not continue to make a sound for a while.

After he vomited out some of it, he finally regained his composure and continued, ""We're just insignificant minions. Our strength and status are not high enough. I thought that we were enough to deal with someone like you."

"I didn't expect your combat power to exceed my expectations ... But you won't be so lucky next time! Once we raise our guard, you'll die without a doubt!"

The emaciated man grinned hideously and grabbed the demonic devouring sword in front of his chest, pulling it out bit by bit. "The star Cloud tower won't let you continue either! I believe that you will catch up with us soon, and we will wait for you in the road ahead! I hope you can be quick and not make us wait for you!"

Lin Yi looked at him indifferently and nodded, "I know! Rest in peace, I'll send you off again!"

He thrust the devouring sword forward, and the sword, which he had just pulled out, easily cut the man's palm, then pierced into his body without any resistance.

The emaciated man suddenly raised his head, and a strange smile appeared on his face. After coughing out a few mouthfuls of blood, he said in a hoarse voice, "I ... I'll wait for you!"

Lin Yi suddenly felt that something was wrong, and the Jade space went on alert as well. In an instant, the space around the emaciated man had strange cutting marks, as if an invisible blade had cut through the space curtain.

Lightning arcs flashed, and Lin Yi instinctively activated his lightning escape technique, moving a few hundred meters away in the gaps. The black lines formed an irregular pattern, cutting the space around the emaciated man into countless polygons.

The battle formation formed by the avatars couldn't resist the cutting of this space. It lasted less than half a second before it completely disintegrated, and the nearly 1000 avatars also shattered into nothingness.

Lin Yi was shocked, but luckily he was far enough away and wasn't affected.

The emaciated man's corpse was not spared either. It was turned into minced meat and was collected by the star Cloud tower, turning into nothingness.

"What the hell is this? He's still hiding such a shocking attack power?"

Lin Yi's back was covered in cold sweat as he witnessed the unexpected change up close.

The ghastly thing appeared and said solemnly, "it's a spatial cutting technique. It condenses the spatial power into tiny sharp blades and can easily cut through space. As long as you are in this space, you will be easily torn and cut."

"Unless you can block the blade formed by the power of space, there's no way you can survive this attack. Your reaction speed is quite fast and you managed to escape with the lightning escape technique in time. If not for that ... You would have to find a way to reconstruct your body!"

The demonic thing had done a lot of research on the rules of space, and even though the man's last attack wasn't related to space formations, the demonic thing still understood what happened and came out to talk to Lin Yi.

"Lin Yi, you have to be careful from now on! This time, the darkness demon beasts that entered the pagoda were very powerful! Each of them has their own unique talents. "

"If you're not careful, you'll be killed by them. This is no joke! Especially this race ... Although this old man doesn't know what race he is, he clearly has a talent for space. "

"If we meet again, it's best not to get close. Even if we have to get close, we should immediately escape after killing him, so as not to be cut by the Space Force!"

The ghostly thing warned Lin Yi sternly. He was lucky this time, but who could guarantee that he'd be able to escape the next time?

Lin Yi nodded slightly, his expression serious as well. "I understand. If the black-furred beast hadn't died and I had been bound, I really wouldn't have been able to escape the other party's attack!"

"Fortunately, I got rid of the black-furred monster first. If I had dealt with this guy first, the outcome might have been completely different ... But he didn't use this move before, so it probably isn't something that can be used casually, right?"

If his guess was right, this space cutting killer move should be the emaciated man's final burst at the cost of his life. As long as he had a chance of survival, he would not use it easily!

It was powerful, but it was just a suicidal move, and the threat was reduced a lot. Lin Yi was fast too, and he escaped the attack range. He didn't even get to kill himself!

The damn thing understood what Lin Yi meant and said, "In short, you should pay attention to yourself and don't try to be brave! If it didn't work, he would put his body into the Jade space. At the very least, the Sorcerer spirit body won't be easily killed by such a method. "

Chapter 9223 The Power Of The Divine Realm

The star power in Lin Yi's body and soul had been removed, and the Wu Ling body could completely replace the physical body to move. It was no longer like before, where leaving the body for a long time would cause problems to both the body and soul.

"I know, don't worry!"

The ghostly thing went back into the Jade space after that, while Lin Yi continued his climb.

After taking care of the skinny man, Lin Yi passed the test and received the reward for the eleventh floor. He didn't stop and went straight to the twelfth floor.

After entering the twelfth floor, The Thirteenth Floor was already lit up, and the first group entered the fourteenth floor. The gap between them didn't decrease, and Lin Yi still had to catch up.

However, the 12th step was completely different from before. There was a projection blocking each step, and even if Lin Yi could kill his opponent instantly, it would slow him down.

It was just like how there would definitely be a difference in speed between a 100-meter straight run and a 100-meter steeplechase.

The number of steps doubled from the thirty-third to the sixty-sixth, with three on the thirty-third and six on the sixty-sixth, causing Lin Yi some trouble.

Thinking back to what the emaciated man said, Lin Yi couldn't help but wonder if the star Cloud tower was really helping the dark Beast clan delay him.

Perhaps this was the benefit of the first clear of the first echelon?

Lin Yi couldn't figure it out and could only continue to speed up, minimizing the time loss. He had to catch up to the first group as soon as possible to find out what the star Cloud tower was all about!

Twelve Steps, ninety-nine steps-it wasn't just one or two people in front of Lin Yi, nor was it ten or twenty.

Instead, it was an Army!

An Army of 100000!

"Sima Yi, we meet again!"

The Golden dark shadow Devil's familiar voice resounded, reverberating above the Ninety-ninth step. This was the sound wave formed by the simultaneous opening of one hundred thousand people. Just this momentum alone was enough to shock an ordinary heaven breaking expert to death, let alone facing the threat of one hundred thousand people.

"Yes, we meet again! You're really a lingering spirit, coming out from time to time to annoy me! This time, they even made such a big scene, it's really amazing!"

Lin Yi looked at the 100000 gold-quality dark shadow Demons expressionlessly. That's right, this super Army of 100000 people all looked like gold-quality dark shadow Demons!

It was impossible for him to create so many doppelgangers, so this Army was created by the Nebula tower. There was probably only one golden dark shadow devil doppelganger in it.

While the two of them were conversing, a message came from the star Cloud tower. The test this time was to find the true golden dark shadow Devil's avatar under the siege of 100000 people and defeat or kill it!

The time limit was 60 minutes! If you fail to find the Golden Shadow Fiend's doppelganger within the time limit, you will fail the test and be killed immediately!

Lin Yi's face darkened.

A super Army of 100000 people, each with the strength of a golden dark shadow Demon. This was a super Army of 100000 heaven breaking experts!

Even if there were 100000 pigs, 60 minutes might not be enough to kill them all. That meant that he would have to kill about 28 pigs in one second to barely complete it!

Could he kill 28 Golden Shadow fiends in a second?

Lin Yi felt that it was possible for him to be killed 28 times in a second ...

Star Cloud tower, are you kidding me? This was an impossible task!

Especially with the Golden dark Shadow Demon's shadowshape ability, it was hard enough for Lin Yi to even injure it, let alone kill it.

So, the only chance was to find the real Golden Shadow Fiend? The problem was that finding one clone out of 100000 projection clones was like finding a needle in a haystack!

"What's wrong? Are you scared by my big formation? Hahahaha, don't be in a daze. You don't have much time. If you continue to be in a daze, I don't even need to do anything and you'll be finished!"

The 100,000 golden dark shadow Demons all had a smug expression on their faces. They were truly in sync and did not leave any flaws!

Lin Yi used his spirit sense and couldn't see anything different.

"Since you're so pitiful, I'll be merciful and help you!"

The two Golden Shadow Demons at the front suddenly stood up and attacked each other. They went all out to attack and not defend. In just two to three seconds, the two Golden Shadow Demons died and turned into star power, returning to the Nebula tower.

"You see, I helped you deal with two targets. Shouldn't you thank me? Forget it, seeing your dazed look, I guess there's nothing more to say. "

"Let me remind you again. It's been a few seconds. Every second that passes means that you haven't accomplished your target. There are a hundred thousand targets. Even if you don't take action, you have to confirm almost thirty targets every second, right? Just standing there won't help you confirm your target!"

The Golden-dark Shadowfiend laughed mockingly. He wasn't in a hurry at all. Instead, he felt like a cat toying with a mouse. With such a great power, it was also very interesting to play with his opponent a little!

Lin Yi's face didn't change, but he was thinking about how to break out of this situation. There were too many opponents, and one hundred thousand heaven breaking dark gold shadow Demons ... He definitely couldn't beat them, and he knew what he was doing ...

His strength had indeed improved. He wasn't afraid of a single-digit dark golden Shadowfiend, and he could deal with a two-digit number. Even if it was a three-digit number ... He probably couldn't beat it. However, he had to pay attention to the strategy of slowly exhausting the enemy. It wasn't impossible to retreat in one piece.

What the hell was going on now? A six-digit number of dark gold shadowfiends?

It was ridiculous!

No matter how he thought about it, Lin Yi couldn't think of any way to solve this problem.

When he had no other choice, he would first make a new super alchemic bomb to calm his nerves ...

"Sima Yi, why aren't you saying anything? Was he really stupid? Buzzzzzz! It's so boring!"

The Golden Shadow Fiend didn't get Lin Yi's response and mumbled to itself, making it look a little silly. It split into thirty small groups and charged at Lin Yi.

"Since you don't dare to move, I'll take the initiative to deal with you! I won't bully you. I'll just send a small team over and give you a chance to deal with it. How's that? Isn't that very considerate? Do you feel touched?"

Lin Yi dared to move!

A mere 30 ... He really couldn't ignore them. The new super alchemy bomb that he had condensed for a few seconds hadn't reached the limit of his control, but he could already take it out and use it!

He didn't need to care about which target it was, he just had to throw it out!

This time, it was another white light, blinding Lin Yi's eyes!

The one hundred thousand soldiers were affected as well, losing Lin Yi's vision for a moment. The thirty-man team that came out was caught off guard and wiped out by the new super alchemy bomb.

Chapter 9224 Power

They didn't put up any defense, and they didn't activate their shadowings. They just watched as the new super alchemy bomb landed in the middle of their formation and exploded.

The star Cloud tower must have felt that they had gone too far. Hence, even though the Golden dark shadow Demon they had projected was as powerful as the real one, its defense was much stronger.

To put it bluntly, this Army of 100000 only looked powerful and fierce. If they really fought, unless they successfully blocked or activated shadow, they would be crushed by the attacks of the heaven breaking stage.

Lin Yi's eyes brightened ... The connection would be broken after the explosion, but Lin Yi's own spirit sense would still be connected, so he could control the direction of the explosion.

And so, Lin Yi could feel how weak these Golden Shadow fiends were when he took out the thirty-man team!

This is easy!

He could just directly activate peerless and kill them all!

Previously, he was worried that he could not kill them. After all, the golden-black shadowfiends' life-saving abilities were too strong. One or two of them were still manageable, but it would be difficult to kill more of them. However, he did not expect these projections to be just for show!

The health bar might be long, but it was empty. There was only a sliver of health left. 100000 troops, 100000 critical health!

F * ck!

Lin Yi took out his hammer and laughed. "Golden dark shadow Demon, you're really kind to send another clone for me to kill. I'm really touched! Just you wait, I'm coming to take your dog life!"

Wood forest thousand transformation!

Lightning escape technique!

Nearly a thousand lightning bolts shot out in all directions, charging towards the formation of the 100000-strong Army.

In terms of numbers, the two sides were completely disproportionate. A thousand against a hundred thousand was as laughable as an ant trying to shake a tree or a Mantis trying to stop a chariot.

Besides, Lin Yi's doppelganger was only at the sea Rift stage, an entire level lower than the Golden dark shadow devil. Without a battle formation, there was no way to compare.

Lin Yi didn't expect the clones to fight against the Golden Shadow Devil's projection clone. Every clone was creating a super alchemy bomb as they charged out!

An ordinary instant-type would be enough!

When facing a group of weak players, what he needed was quantity, not power!

"Interesting! He finally dared to charge head-on? This is interesting! It'll be boring if you just accept your fate and wait for death!"

The Golden-dark shadow Demons did not care at all. Instead, they laughed and launched a counterattack.

Countless attacks landed on the thousand changes of wood forest. The power of the heaven breaking stage was no small matter, and Lin Yi's clones were also fragile. They were torn apart without any resistance.

However, before the clone was destroyed, the Super alchemic fire bomb was successfully triggered!

Continuous explosions occurred. The instant-cast super alchemic bombs weren't much of a threat to the true Golden Shadow Fiend clones, but they were very effective against the projections.

In a second, hundreds of projected Golden Shadow fiends were blown up. The efficiency was quite good, far exceeding the minimum requirement of 28 targets per second.

Lin Yi smiled and continued to use the thousand changes of wood and forest. He created more and more clones, and he used super alchemy bombs as soon as they appeared, trying to attack once before he was killed.

A battle of numbers, using human wave tactics?

I'm not scared either!

The star Cloud tower was giving Lin Yi a way out this time. If all the projections had the same defense as the Golden Shadow Demon, then the thousand transformations would be a joke. But now, it had an unexpected effect!

The huge formation of one hundred thousand clones started to show signs of being devoured, with Lin Yi's main body advancing the most obvious.

The hammer was wrapped in lightning and fire, and Lin Yi turned it into a ball of light. The clones that got close died and shattered upon contact.

At the same time, Lin Yi activated lightning explosion to attack a large area. The clones created by the thousand changes of wood forest weren't strong enough, and even lightning explosion might not be able to kill the projection clone, but the real body was different.

The golden-black Shadowfiend's doppelgangers were like wheat being harvested, falling in large numbers. If this continued, it seemed like an Army of 100000 was not a big deal. There was a chance to harvest all of them in 60 minutes!

"Hahahaha, that's more like it! Show me all you've got, or else it'll be too boring! You'll also be letting down the star Cloud tower for making such a big scene for you!"

The Golden-dark shadow Demon didn't care at all. Lin Yi's killing speed was shocking, but he only took out four to five thousand clones. Compared to an Army of a hundred thousand, it wasn't even a serious injury.

Plus, the Golden-dark shadow Devil's doppelganger wasn't completely defenseless-after activating Shadowform, more and more doppelgangers were approaching Lin Yi to launch sneak attacks, and Lin Yi's peerless skill wasn't as smooth as before.

"Eh, why is it getting weaker and weaker? Don't relax, continue, continue! We haven't finished warming up yet, so you have to work harder!"

"It wasn't easy for you to be powerful for a while. Don't tell me you're going to become a noob again? Let me see ... You didn't even kill six thousand. If this continues, you won't have the chance to find my real clone!"

"Why don't you just surrender and beg the star Cloud tower? maybe they'll let you live. Or, you can kneel down and beg me. I might be merciful and let you Live!"

"I've said so much, shouldn't you give me a response? Or do you not have the energy to speak now? That's right, it's normal that you can't speak under such pressure. It'd be strange if you could chat with me. "

Over 90,000 Golden Shadow fiends 'avatars were chattering non-stop at the same time. It was more uncomfortable than having a group of flies around one's ears. It was an invisible blow.

It wasn't that Lin Yi didn't have the energy to argue with him-multi-tasking was enough for him to do many things at the same time.

The problem was that there were over 90000 of them speaking at the same time, and the volume was earth-shaking, creating sound waves. Lin Yi's voice wasn't as loud as theirs, and it was as good as not saying anything.

The speed of the Hammer's light was getting slower and slower, as if it had fallen into the quagmire of the human wave tactic. The shadow projection was immune to most physical damage, and Lin Yi's hammer was effective, but it was still a little bit lacking to kill the shadow projection.

It was not only the main body that was like this. The sea shattering stage clones that the thousand forest illusions created were the same. The Super alchemy bombs that were instantly launched could kill the projected clones, but they could not hurt the projected clones that had turned into shadows.

Lin Yi's progress in clearing the Golden Shadow Devil's clone was slowed down by countless times. The thousand changes of wood forest's clone made almost no progress.

The Golden Shadow Fiend's shadowshape had a time limit, but they were huge in number!

Chapter 9225 Power

As time passed, a new batch of dark gold shadow fiends replaced Lin Yi when the Shadowform ended. They took turns to drag Lin Yi down. There were enough of them to wait until the cooldown was over.

Lin Yi frowned-he'd really die if this continued ... It'd been twenty minutes, and there were still eighty to ninety thousand clones left!

After activating shadow, Lin Yi's speed of clearing the projection was greatly reduced. The result of the seventeen to eighteen minutes of battle was not as good as the previous two to three minutes.

"Sima Yi, you have to put in more effort! Half of the time is about to pass, do you really want to die? I'm not even serious yet, isn't this too boring?"

"Look at me, intentionally or not, I've been throwing my life away, and you've only killed 10000 of them. If this continues, how long will it take for you to complete it?"

"If you continue to be half-dead and half-hearted, I'll get bored and seriously finish you off! Hurry up, what other trump cards do you have? use them all, or you'll have to complain that you didn't have time to use them when you die!"

Lin Yi frowned. If the Golden dark shadow Demon really wanted to kill him, why would it waste so much time? With 100,000 projected avatars attacking him together, he had nowhere to hide!

If he didn't put his physical body into the Jade space, he would probably be killed in seconds. He clearly had such overwhelming combat power, so why did he have to be so long-winded?

Could it be because the test of the pagoda was to stop him and not to kill him?

It made sense-Lin Yi had already predicted that the star Cloud tower wouldn't kill a martial artist without a reason, but if there was a reason, it'd be natural for them to be killed.

For example, now that the star Cloud tower had 100000 heaven breaking dark golden Shadow Demons, they wouldn't kill Lin Yi directly. They would only treat this huge number as an obstacle to completing the mission.

If Lin Yi couldn't get through this obstacle, then the star Cloud tower would have the right to deal with him!

According to the rules of the star Cloud tower, although the test was extremely difficult, there would not be a certain death. There must be a clue or a possibility of clearing the test!

How could he break the situation?

Lin Yi's brain was working at full speed-multi-tasking allowed him to think at high speed in a battle like this without affecting his ability to use several skills and skills at the same time.

He held the hammer in one hand and continued to fly up, forming balls of lightning and flames that rolled over.

His other hand was waving formation flags discreetly. Lin Yi didn't forget that he was an extremely strong formation master. He knew that using formations to deal with a group attack was the right choice.

Not to mention, Lin Yi had a special movement formation that could greatly increase his attack and defense. It was one of the rare methods to deal with the current situation.

After the formation was formed, Lin Yi put away the hammer and used the formation as a barrier, keeping a certain distance from the Golden Shadow Demon's Army.

The lightning explosion was wreaking havoc outside the formation, further widening the battle zone between the two sides. Lin Yi's hands were free now, and he began to form a new type of super alchemy bomb.

"Sima Yi, don't waste your time. It's useless no matter how many tricks you have. If I let you kill me, how many can you kill? After barely holding on, wasn't it still difficult to escape death in the end?"

The Golden Shadow Demon continued to provoke Lin Yi with his words, but he didn't seem to be in a hurry. Time was on his side, and as long as he continued to drag things out, Lin Yi would be killed by the star Cloud tower in half an hour.

The only thing that surprised him was Lin Yi's stamina and strength. Such a powerful and wide-range burst skill should've taken a lot of energy.

An ordinary heaven-breaking martial artist would be exhausted after seven or eight minutes of continuous use of this martial technique. It was like using a big move in a game. Continuously using big moves would quickly empty one's health bar. It was the same in a martial artist's battle.

Yet Lin Yi had been fighting in such a high-intensity area for over 20 minutes without showing any signs of fatigue. His battle endurance was shocking!

The Golden dark Shadow Demon's real body was hidden among the 100000 soldiers, carefully observing Lin Yi. He didn't come to attack Lin Yi on his own initiative, but the previous losses had raised his vigilance against Lin Yi.

If he really wanted to make a move, he would definitely be fully prepared. He would not come alone, as that would be sending himself to die!

Now that he found out that Lin Yi was able to burst out his power continuously, he was shocked. He said it casually, but he was actually hoping that Lin Yi would be killed by the star Cloud tower. That would solve his biggest problem!

"Sima Yi, have you given up? Since you've already given up, then be more straightforward and stop wasting time. Everyone's quite busy, so what's the point of wasting time? The earlier you die, the earlier you can reincarnate, right?"

The 80,000 Golden Shadow Fiend clones continued to blabber, and Lin Yi couldn't turn a deaf ear to them even if he wanted to. They were too loud, and it was annoying!

If it weren't for Lin Yi's multi-tasking ability, he wouldn't be able to use his brain in such a noisy environment.

"Golden dark shadow Demon, don't be so proud. If you have the ability, then kill me with all your might. Otherwise, you can just obediently prepare to die! I already know where you are!"

Lin Yi smiled. This wasn't nonsense. After thinking about it, he did have an idea. If it went well, he might be able to find the Golden dark Shadow Demon's real body.

"Hahahaha, the way you brag is quite interesting. It's okay, go ahead and brag. Although, out of courtesy, I should cooperate ... Alright, I'll cooperate with you!"

The Golden Shadow Fiend laughed wildly at first, then pretended to be frightened and said perfunctorily, ""Aiyaya, you've found me. What should I do? I'm going to die, I'm going to die! 啊啊啊,谁来救救我?!!!"

As far as the eye could see, all the projected avatars were doing the same actions and expressions. They looked extremely neat, but they were also extremely strange and ridiculous!

Lin Yi's veins were popping up on his neck-it wasn't because of the dark golden demonic Qi, but because he was reaching the limit of his control over the Super alchemy bomb. It was a little difficult for him to control it.

"Ha ... You're right. You're going to die, but no one can save you!"

Lin Yi barely managed to finish his sentence as he pushed the new super alchemy bomb into the air. This was the key to breaking out of this situation.

A single super alchemy bomb might not be able to kill many of the Golden dark Shadowfiend's doppelgangers in one go, but its unique nature determined the power it contained!

As long as it was controlled properly, it could be used as a sharp weapon to distinguish between the real and the fake!

Chapter 9226 Power

"Hey, hey, hey, there are so many of us here. Don't tell me you can't aim at all? If he threw it with his eyes closed, he should be able to hit a large area! Was he really giving up? That's why you threw it at the sky?"

The Golden Shadow Demon was on high alert, but it still sneered at Lin Yi. It didn't know what Lin Yi was trying to do.

Lin Yi smiled and let the bomb fly a little longer.

"Don't worry, you should die, no one can stop you! Just wait a little longer, I'll personally send you on your way!"

As he spoke, the small black ball of light had flown high enough that it was almost invisible to the naked eye. Lin Yi then called out faintly, "Explode!"

His right hand, which had not been retracted just now, was still facing the sky. His five fingers, which were spread open, were tightly clenched into a powerful fist.

The sky exploded into a mass of pitch-black darkness as if space had been torn apart and the void had devoured everything!

Lin Yi raised an eyebrow. Black again? There's a lack of lighting effects! It didn't look too gorgeous.

Of course, it didn't matter whether it was gorgeous or not. What was important was whether the plan would be effective!

Countless tiny black particles poured down from the sky, as if it was suddenly raining Black Rain.

Each of these black raindrops wasn't a liquid, but rather an explosive bullet split from the new super alchemy bomb. The body that exploded in the sky didn't release the power contained within, and all the power was transformed into these millions of raindrop bullets that fell from the sky.

During this process, Lin Yi even used the only skill taught by the star Cloud tower, bursting meteor strike!

If not for this, there was no way they could form such a dense group of raindrops!

"An Army of 100000 is a lot, but it's not enough for me!"

Lin Yi took advantage of the fact that the raindrops hadn't fully landed and acted cool as a counterattack to the Golden Shadow Demon.

"Hehehe, I was wondering what kind of move it was. Just this?"

The Golden dark shadow Demon didn't care and laughed in disdain, ""The black ball of light you threw out earlier had terrifying power. It was enough to blow up a large area and could be split into millions of parts ... Are you joking?"

In the Golden dark shadow Fiend's perception, the energy contained in each drop of black raindrop wasn't strong, and there was no possibility of it being fatal.

Not to mention fatal, it would be good enough if he could get a scratch on his skin.

If one had to describe it, it could be seen as the level of damage caused by a mosquito bite. One would lose a little blood, but not much feeling. It was even more impossible to die from blood loss.

"Whether it's funny or not, I naturally know in my heart. I hope you can still laugh later!"

With that, Lin Yi closed his eyes and black raindrops fell from the sky, covering about 80% of the Golden Shadow Devil's clones.

There were still about twenty thousand Yuan left, but Lin Yi didn't mind. He could just do it again, and he'd be able to replenish it soon anyway.

The Golden dark Shadow Demon's Army didn't have any intention of passively receiving the raindrops. They knew that this was Lin Yi's attack, and even if they didn't know the true power, they still had to defend.

Those who had already activated Shadowform had nothing to worry about, while those who had not activated Shadowform used attack as a substitute for defense, trying to use attacks to annihilate the black raindrops, preventing them from falling on their bodies.

However, what they didn't expect was that although those water droplet-like black beads looked unremarkable, they had the characteristic of devouring all the matter around them. They didn't notice it at first, but when they looked closely, they found that in the process of each drop falling, a fine black line was dragged behind it.

It was like the radiance of a falling meteor!

The only difference was that the black raindrops brought up black threads that could devour everything.

Millions of raindrops, millions of Black Death meteors!

The Golden dark Shadowfiend's doppelganger's attack was enough to kill an ordinary heaven breaking expert in a one-on-one battle, but it couldn't destroy these seemingly unremarkable black raindrops.

All of the energy was like tofu that came into contact with a stone that fell from the sky, easily pierced through. The black raindrops fell on the projected avatar, and tiny blood flowers burst out, just like the splashes of water when it fell on the body.

The Golden dark shadow Fiend's projection was stunned. It did hurt a little ...

Moreover, there seemed to be a corrosive force at the place where the explosion happened, which could not be easily dispelled. But in terms of damage ... It was indeed quite touching, not enough to threaten the existence of the projected avatar.

The real Golden Shadow Fiend frowned. He didn't expect the black raindrops to be that powerful, but he still didn't understand why Lin Yi was putting in so much effort to create such a scene.

The area he was hiding in was also covered by the black meteor shower. Feeling the seven or eight raindrops on his body, he had a strange feeling that he couldn't describe.

Lin Yi's eyes widened as he looked through the tens of thousands of clones and his spirit locked onto the real Golden Shadow devil!

"I've found you!"

With a confident smile on his face, Lin Yi activated his lightning escape technique and turned into a lightning bolt, rushing towards his real target!

The movement formation around him formed an invisible fortress, pushing Lin Yi forward and knocking away the clones along the way.

After identifying the real target, there was no need to destroy all of these projection clones. It would be fine as long as he was not entangled by them!

"What? Why can you ..."

The Golden dark Shadow Demon's face changed. He could feel that Lin Yi had locked onto his position, so this was a targeted attack and not a random collision.

The problem was, how could he find the real Golden Shadow Fiend's doppelganger among 100000 identical people?

Black raindrops?

The only connection between before and after was the black raindrops that filled the sky!

After eliminating all the impossible, there was only one solution!

"How did you do it?"

The Golden-dark shadow Demon forced himself to calm down and asked Lin Yi in a composed manner.

Although his location had been exposed, he still had 80000 to 90000 projection clones around him, so things were not out of control.

"It's fine if I tell you," Lin Yi chuckled, " but I don't think you'll understand. I'm not interested in explaining it to you. " Just know that I've already found you, so just wait for your death!"

There was no need to doubt the power of the new super alchemy bomb, but the newly appeared devouring characteristic similar to a black hole was even more mysterious than its own power.

Lin Yi had an idea-the star Cloud tower wouldn't set a death test, so there had to be a way out.

At present, the most obvious clue was that the defense of the projection clones was extremely fragile. Each projection clone was like a fragile skin with low health and could be destroyed at any time.

However, it was impossible to destroy a super Army of 100000 heaven breaking cultivators. If it weren't for Lin Yi, a complete heaven breaking cultivator would've exhausted all their energy and died in a few minutes.

Chapter 9227

Lin Yi's endurance was a special existence in itself, and he still couldn't complete the task of a frontal attack, so after thinking about it, he decided to use a technique to break the game.

By making use of the new super pillfire bomb's special characteristics and the dispersion of the explosive meteor strike, he didn't aim to kill, but rather to use this super powerful skill as a probing tool!

The clone had high attack but low defense. Although the black raindrops couldn't kill the clone, Lin Yi could see how much damage it would cause with his consciousness. The real Golden Shadow Demon's defense was many times stronger than the clone's.

By comparing the two, it was easy to find the location of the real golden dark shadow Devil's avatar. After all, it was the only special existence, so it was not difficult to distinguish it.

It wasn't easy to find a grain of rice from another family's rice bag, so wasn't it easy to find a green bean mixed in?

"It's fine if you don't want to say it. It doesn't matter. So what if you found my location? whether you can come over or not will depend on your ability!"

The Golden-dark shadow Fiend's doppelganger calmed down and felt that the attacks of the projection clones were more ferocious. He relaxed a lot. These were all his clones, so he naturally knew what abilities they had.

But he couldn't control the clone's movements. If he could, he'd have killed Lin Yi already.

Lin Yi used his lightning escape and movement formation together. It was fine at the start, but he was quickly restricted. Thousands of golden dark shadow Demons surrounded him, forming an impenetrable sky of shadows. Even lightning escape couldn't get through.

The movement spell formation could only barely stop them from entering, but it couldn't force away so many shadowings.

The lightning thousandburst was still wreaking havoc outside, but the effect was not very good, barely weakening the projection clone's attack. If it was the real Golden Shadow Fiend, it would be able to unleash its full power against the lightning thousandburst. The advantage of numbers was enough to form a qualitative leap.

Fortunately, the projection clone's defense wasn't strong enough, so Lin Yi was able to maintain his balance ...

"Hahaha, see that? I told you to come over, it's useless even if you found my location. It's still unknown if you can come over, but now it seems that you can 't!"

The Golden Shadow Fiend activated its taunting mode again, "why don't you beg me?" If you beg me to open up a path and let you face me, I might consider it. Don't be shy, it's not embarrassing to beg me!"

"You should be clear about the upper limit of your strength. There is not much time left. You have already tried your best. If you beg me, I will give you a chance to get close to me. Do you want to consider it?"

"I think your ability to beg for mercy should be stronger than your fighting ability. You can move further with words than with a battle. Why are you so persistent?"

Lin Yi smiled and raised his hand, the new super alchemy fire bomb re-condensed in his palm!

"Golden dark shadow Demon, are you feeling guilty? Experts say that the more you're afraid of something, the more you'll act like you're good at it. Are you scared to death, so you're pretending to be at ease to cover up your guilty conscience?"

"You think I can't get close to you? I'm sorry to disappoint you! Now that I know where you are, it won't be a problem for me to catch you!"

The black ball of light flew out from Lin Yi's palm, and under his precise control, it turned into a black beam of light, plowing a path through the dense crowd.

Even the shadow clone couldn't resist this powerful torrent-like explosion. Many shadows dissipated directly, and some of the shadows that had barely survived avoided it, not daring to touch it easily.

Taking this chance, Lin Yi turned into a lightning arc and charged a few hundred meters forward, entering the center of the Army formation!

The Golden-dark Shadow Demon's expression changed drastically. It could not control the actions of its projection clones. At most, it could project its own words and actions on all its projection clones, creating a spectacular scene of 100000 people speaking in unison.

Other than that, the clones wouldn't listen to him at all. If not, he would've ordered the 100000 troops to focus on Lin Yi from the start, killing him earlier. Did he really think that he liked to talk non-stop?

He was forced to do that!

Seeing Lin Yi advancing a few hundred meters in one go, the tens of thousands of soldiers were like nothing. The Golden dark shadow Demon immediately moved and swam among the Army that was like an ocean.

If Lin Yi wanted to move forward, he needed to use the Super alchemy bomb to clear the way, but the Golden dark shadow Demon didn't need it. It could move freely without any trouble.

Comparing the two, Lin Yi's speed didn't have much of an advantage. After the distance between them closed a little, it widened again.

The Golden dark shadow Demon understood this and laughed, ""The way you brag is very interesting! He had only advanced a small distance, so what? You see, I opened it again so easily. Not all efforts will pay off. "

"The distance between you and me is like the distance between heaven and earth. You can never get close to me! I'll tell you graciously that I'll be waiting for you here. What can you do? Hurry up and catch up to me!"

The Golden Shadow Demon activated taunt again. Lin Yi wouldn't be able to catch up to him for a while, so he didn't worry.

once the time limit was up, the star cloud tower would kill lin yi. the golden shadow demon was waiting for that to happen!

lin yi frowned. he knew where the golden-dark shadow devil was, but there were too many clones. it was too much trouble.

even with the new super alchemy bomb, he couldn't kill too many projection clones in one go. the golden shadow demon wasn't dead, and it was annoying that it could run!

it was a good thing that the 100000 soldiers the star cloud tower sent out were the weaker version of the golden shadow demon. if it were the real thing, lin yi didn't know how many times he would've died already ...

"don't be so smug! if i say you can't run, you definitely can't escape! just you wait, i'll catch you soon. i hope you'll still be in the mood to laugh when the time comes!"

lin yi said indifferently and activated the thousand changes of wood and forest again. this time, the thousand clones didn't rush out and kill each other. instead, they gathered within the range of the movement formation and formed a battle formation!

A single wood forest thousand transformations clone had no advantage against the projection clone. In a situation where the strength, level, and quantity of the clone were all crushed, it was not easy to even defeat an opponent.

However, it was different when they formed a large-scale battle formation. When nearly 1000 clones formed a battle formation, the increase in strength was quite astonishing. Against one, two, three, or four projection clones, they would have an absolute chance of crushing the enemy!

If it was the defensive side, they could at least hold on for a while against the scattered attacks of the projection clones.

Chapter 9228 Power

"Sima Yi, stop bragging. What's the point of making these weak chicken clones? The difference in strength is too great. Unless you can create a super-large Army of clones of the level of a million, it will definitely not have any effect!"

The Golden-dark shadow Demon did not care. He had already used the thousand forest transformations from the start, and the effect was just so-so. It would not kill many of his doppelgangers, so he did not need to worry.

"A mere 1000 clones? I suspect you're here to make a fool out of yourself. If your doppelganger could be like my doppelganger and have the same strength as the main body, then I would truly express my admiration and admit defeat. Unfortunately, the power of your doppelganger is very ordinary!"

No matter how he looked at it, Lin Yi's nearly 1000 clones were all hiding in the formation, completely useless. The doppelganger projection after turning into a shadow was not something that the doppelganger of the thousand changes forest could deal with!

"Why aren't you talking? Was he already in despair? If you're desperate, just surrender! I'm more than happy to accept your surrender!"

The golden-black Shadowfiend was mocking Lin Yi without even thinking about it, but he was thinking about what Lin Yi would do to face the situation.

More than half the time had passed, and only a little more than 10000 of the 100000 projection clones had been killed. Less than 20000 had been killed. It was almost impossible to wipe them out in the remaining 30 minutes.

If the Golden Shadow Fiend's doppelganger's position had not been locked, he would have said that victory was in his hands!

"Sima Yi? What's wrong? Did he really turn into a turtle? Hiding in the formation that he had set up and not daring to show his face? You don't even have the guts to reply?"

The Golden-dark shadow Demon mumbled for a while, but Lin Yi didn't respond. It felt that something wasn't right. It tried to stimulate Lin Yi with words while moving away, increasing the distance between them to make sure nothing happened.

However, accidents happened because you didn't expect it. That's why it was called an accident!

The Golden-dark shadow Demon thought that Lin Yi was hiding in the clone formation and couldn't break through the human wave tactic.

He'd just finished speaking when he heard Lin Yi's teasing voice. "Ha ... You still have the face to criticize me? You're the one who's hiding like a turtle, aren't you? Do you think I can't do anything to you just because you're hiding in an Army of 100000?"

The Golden-dark shadow Demon turned pale with fright. All the hair on its body stood on end, and it jumped out like a cat with its hair standing on end. Its projection clones immediately surrounded it, providing it with 360-degree protection.

Lin Yi suddenly appeared behind the Golden-dark shadow Demon with a huge hammer in his hand. He looked at the Golden-dark Shadow Demon's doppelganger with a faint smile.

"Look, didn't I catch you? Do you have anything else to say now? It doesn't matter, just tell me about it, I'll just treat it as a crosstalk. Anyway, there's still plenty of time, I don't mind giving you time to perform. "

The Golden dark shadow Demon suppressed the panic in its heart and its expression returned to normal. It even had a smile on its face. "Amazing! You were actually able to pass through the encirclement of

tens of thousands of soldiers and appear behind me. I've already overestimated you as much as I could, but I didn't think that I would still be wrong in the end!"

"I'm very curious, how did you do this? I clearly didn't see any signs of you moving, nor did I see any signs of you breaking through the formation. Could it be that you've mastered some kind of ability to travel through space?"

Among the darkness demon beasts, the spatial breaching ghost demons had a similar ability. They could open up an entrance on one point and an exit on another. After entering the entrance, they would immediately come out from the exit.

However, he didn't pass through the spatial distance between the two points. Instead, he directly skipped it!

This was the principle of teleportation.

The speed that Lin Yi had displayed earlier was just an illusion created by his lightning movement and super limit butterfly micro-steps. It wasn't real teleportation.

Although the time between the two was similar from one point to the other, in essence, one was jumping over the distance, while the other was crossing the distance at an extremely fast speed. They were completely different.

Lin Yi didn't have the ability to teleport before, which was why the Golden dark shadow Demon couldn't understand!

No matter how fast the lightning escape technique was, he had to pass through the layers of obstacles!

"There's a lot you don't know about me!" Lin Yi smiled. I've said it before, you can't escape! Do You Believe Me Now?"

The Golden Shadow Demon was speechless-if Lin Yi really had the ability to teleport, there was no point in running! So what if they had 100000 troops? An Army of a million couldn't even stop an opponent who could teleport!

Lin Yi found it funny-he didn't know anything about teleportation.

In fact, it was not worth a penny. It was like watching a magic trick. Once it was decoded, everyone would think that I could do it!

Lin Yi didn't use the thousand changes of wood forest's clones to create a battle formation to open up a path, but to use it as a smokescreen.

Close to a thousand doppelgangers suddenly appeared in the field. The main body was mixed in with them and replaced by a doppelganger. It could be said to be seamless!

At the same time, Lin Yi's essence spirit left his body and went into the Jade space. His essence spirit was invisible, flying in the air silently. Neither the projection nor the Golden-dark shadow Demon noticed it.

When he got close to the Golden Shadow Demon, Lin Yi suddenly released his body and returned his spirit to his body, creating the feeling of teleportation!

"Why aren't you talking? Weren't you jubilant when you were ranting just now? Are you mute now?"

Lin Yi used the hammer in one hand and the new super pill fire bomb in the other, provoking the Golden-dark shadow Demon before he could control it to the limit.

When the new super alchemy bomb reached the limit of control, he could make his move!

Unfortunately, the clones didn't give Lin Yi the time to show off. They attacked Lin Yi one after another. The meaning of their existence was to prevent Lin Yi from successfully dealing with the real golden-dark shadow devil.

So the strength of the attack now was completely different from the ones outside. If it was this strength from the start, plus the absolute number of people, Lin Yi would've turned into ashes long ago!

"It's too late!"

Lin Yi shook his head with a smile. He used his super butterfly microstep and swung his hammer, sending sparks and lightning through the air. He instantly broke the clone and faced the golden-black shadow Devil's clone.

This was the so-called "too late" situation!

Lin Yi couldn't do anything if he started off with this kind of attack, and the projection clone didn't have any concerns either-he could just do whatever he wanted!

The problem was, could Lin Yi's clone still do the same thing after facing the Golden Shadow devil? Definitely not!

Once the Golden Shadow Fiend was killed, Lin Yi would pass the test!

Chapter 9229

Lin Yi got close to him, and the projection clone stopped his violent attacks. He could only turn it into a gentle harassment attack to affect Lin Yi's attack on the Golden Shadow Demon!

To be honest, Lin Yi didn't dare to ignore the attacks of the clones. They were all heaven breaking Masters, after all, and there were so many of them. If he really took them on, he'd be dead no matter how calm it was!

He had no choice but to use his super limit butterfly micro steps to move around the Golden Shadow Fiend's doppelganger. He dodged all kinds of attacks while cleaning up the shadow Fiend's shadow clone guards.

If it wasn't for the shield, the clones would've been able to focus fire and Lin Yi wouldn't have been able to Dodge it no matter how exquisite his super butterfly microstep was.

At least he could still hold on for now. Using the fact that the projection clone didn't dare to use his full strength to avoid accidental injury, Lin Yi was slowly approaching the Golden Shadow Demon's clone!

The black ball of light in his left palm had also reached the limit of his control!

It was time to make a move!

"Let's end this!"

Lin Yi shouted and threw out his new super alchemy bomb!

Under the control of his consciousness, the black light ball exploded in front of one of the projection clones. The black light curtain fell like a huge wave, covering the Golden Shadow Demon and the dozens of projection clones around it!

The pitch-black sky devoured all light, even sound. The area within the explosion was empty and fell into a strange silence.

The Golden dark shadow Fiend doppelganger activated its shadowshape, which was its strongest life-saving skill. It was a true golden dark shadow Fiend doppelganger, and its attributes were exactly the same as the original body. There was no difference.

The projection clone's defense was trash. The instant the new super pill fire bomb exploded, the projection clone that was covered in it evaporated. The Golden dark shadow Fiend activated a shield and blocked it for a moment.

A shield that was enough to withstand a strike from a consummate heaven Sundering expert was like paper in front of the power of the new super pill fire bomb. It could only be said to be better than nothing.

Under the shield was the Golden dark shadow Demon. Lin Yi thought that the demon wouldn't be able to withstand the Super alchemy bomb's attack, but he did!

The explosive power that was like a black hole had actually been blocked by this guy! Lin Yi couldn't help but be surprised, but he quickly reacted.

This guy wasn't fighting alone!

The Golden dark Shadow Demon's innate ability, apart from doppelganger and shadowshape, also had the ability to transfer and share damage!

The new super alchemy bomb was indeed powerful, but the damage caused by this clone would be transferred to all the other clones!

After being weakened by the shadowshape and split among the thirty-odd clones, Lin Yi's Golden Shadow Fiend only took less than one-tenth of the damage!

It was not that unbelievable that he could block it!

"Hehehe! Your killer move is only so-so! It's only to the extent of scratching an itch for me! Are there any more powerful ones? At the very least, you have to be able to give me a massage, right?"

The Golden dark shadow Demon smiled calmly. Even if it was still afraid, it had to act as if nothing had happened!

After mocking Lin Yi, he couldn't help but yell, "Be more serious! Attack with all your might, focus on this guy! Kill him! What are you guys doing? Was he deliberately going easy on her? Star Cloud tower! Don't worry about me! Get everyone to attack with their full strength!"

As long as it could kill Lin Yi, the Golden dark shadow Demon didn't care what happened to its clone, and the test wasn't important at all.

As long as they could kill Lin Yi here, not only would they have no opponents in the star Cloud tower, but the threat that humans posed to the dark Demon beasts would also be greatly reduced after they left the star Cloud tower!

As a higher-up of the dark Beast race, with the dark golden bloodline, the Golden Shadow Demon had a strategic vision. The strength and combat power Lin Yi displayed made him feel a huge threat.

He had to kill Lin Yi at all costs!

However, the star Cloud tower wasn't affected by him at all. As long as the Golden Shadow devil was around Lin Yi, it wouldn't attack him in a wide area!

The Golden Shadow Fiend's doppelganger gritted his teeth in anger when he saw the group of projection clones rushing over to protect him ...

Can't you guys be more unyielding and kill me along with Sima Yi? I don't want to live anymore, can't you guys just help me?

A group of idiots who look smart and handsome on the outside but are actually extremely stupid!

It was true that one should not be afraid of a god-like opponent, but of a pig-like teammate!

The Golden Shadow Fiend doppelganger could not help but sigh in his heart. What else could he do? He was also in despair!

Lin Yi was a little disappointed that he couldn't kill the Golden Shadow devil with one strike, but he wasn't too surprised. He was already close enough, and there would be more chances!

The new super alchemy bomb required some time to condense, or to have enough power, it required some time. It wasn't impossible to launch it instantly, but the power was relatively weak, and it wouldn't be very effective.

"Golden dark shadow Demon, I just opened your turtle shell and you want to make a new one? Do you dare to fight me face to face?"

Lin Yi continued to create the new super alchemy bomb while retaliating with his words. Who didn't know how to spout rubbish?

"You don't even dare to take the lead with so many helpers. If the darkness demon beast clan is filled with trash like you, then you won't be a big threat. After all, no matter how big the sheep are, they're just food for the wolves."

"Golden dark shadow Demon, as the possessor of the Golden dark bloodline, you must have a high status in the darkness demon beast clan, right? The higher your status is, the more at ease I am. I truly hope that you can become the king of the darkness demon beast race!"

"You don't even dare to give up a clone. You don't even dare to fight. Calling you a coward is an insult to a coward. I won't say that I look down on you because you don't even have the right to be looked down upon by me!"

When it came to taunting, Lin Yi had never been afraid of anyone. The moment he opened his mouth, he sent the Golden Shadow Demon into a frenzy!

"Bah! You know nothing! Do you think I'm someone who's unwilling to give up a clone? If it wasn't for ..."

The Golden-dark Shadowfiend was so angry that it cursed, almost saying that it couldn't control the projection clone!

"If you really have the courage, don't hide behind these projection clones. Come out and fight me fair and square. Cut the crap and tell me if you dare!"

Lin Yi continued to provoke the clones with ease, and the hammer in his hand didn't stop. Sparks flew as he swung the hammer, dealing with the projection clones!

In the distance, the clone battle formation and movement formation continued to approach this place steadily and slowly. However, they could not be relied on for a short time, so they could only continue to fight alone.

With the hammer in one hand and the Super alchemy bomb in the other, Lin Yi didn't have the time to set up a new movement formation. It'd be much easier to kill the projections if he had a movement formation.

Chapter 9230 Power

The Golden dark shadow Demon was furious!

I can die, but I can't be killed by you!

[If these pig-like teammates could listen to my command, I wouldn't be in such a passive state. I wouldn't even frown even if I had to die with you, okay?]

Lin Yi swung his hammer-there were only five or six clones between him and the Golden-dark shadow Demon. Even one step closer would require a lot of damage.

There were also tens of thousands of clones surrounding them. If the star Cloud tower really wanted to kill Lin Yi, all they needed was for the clones to focus fire and everything would be over.

He'd be lying if he said he wasn't nervous-no matter how big-hearted Lin Yi was, he'd never seen something like this before. He just didn't show it!

"Sima Yi, you don't have to provoke me. I'm not someone who doesn't have a plan. I've been triggered by your few words. If we were to change places, I would fight you to the death even without you saying it. If I live, you die!"

The Golden-dark shadow Demon suppressed its anger and started to fight back as it tried to get away from Lin Yi. It didn't matter if Lin Yi could teleport or not, it couldn't get too close to him.

As long as the Golden dark shadow Demon was too close to Lin Yi, they couldn't use their full power. At most, they could only use 20 - 30% of their full power, which was no threat at all!

"If you want to fight me face to face, that's no problem, but you have to get past my projection clones first. If you can't even beat these weaker versions, what makes you think you can fight me? Do you have the qualifications to fight me?"

"Of course, if you can continue to appear by my side, I don't mind teaching you a lesson. I'll let you know how different I am from these imposters!"

The Golden Shadow Demon's avatar was very cowardly. It wanted to run away, but its mouth was still tough. It was like a child who lost a fight and said harsh words while running.

Of course, he wasn't just threatening Lin Yi-he wanted to test if Lin Yi could really teleport to his side again.

The Golden-dark shadow Demon saw that Lin Yi didn't use teleportation to get closer and relaxed a little. He didn't want to be too lucky, so he needed to test it out. According to his guess, Lin Yi's teleportation had a limit and he couldn't use it at any time.

For example, how long would it take to cool down after using it once, or that it could only be used a few times a day with a certain interval between each use.

On this point, he was completely wrong-Lin Yi didn't know how to teleport at all. He was only using his essence spirit to create the illusion of teleportation!

Lin Yi could replicate this movement pattern, but there was no need for it. He used the thousand forest illusions and a movement formation to cover up his movements before, but he didn't have the time to do it now. There was a more convenient way.

"You want me to get close to you before you teach me a lesson? No problem! I can fulfill your wish!"

Lin Yi smiled. He couldn't teleport at such a close distance, but he had something similar to that!

The clones didn't know what Lin Yi wanted to do when the hammer stopped, but it didn't stop them from surrounding Lin Yi. At least hundreds of attacks hit Lin Yi at the same time, and it was clear how much pressure the hammer had put on them.

Such a shocking rebound didn't cause any damage to Lin Yi. The hundreds of attacks all passed through Lin Yi's body ... His shadow!

Three appearances of the cloud Dragon!

At a close distance, the three appearances of Cloud Dragon was similar to teleportation. It could be said that one could only see the head of a Divine Dragon but not the tail of a Divine Dragon. It was more useful than the Thunder escape technique and the Super limit butterfly micro-step. The latter two were fast, but there was a trace to follow, unlike the three appearances of Cloud Dragon, which could not be seen through until the shadow was broken!

Lin Yi's real body suddenly appeared behind the Golden dark shadow Demon and smiled, "I'm here. You can show me what you've got. Let's see if it's you who's going to teach me a lesson or me who's going to teach you a lesson! I hope you won't let me down!"

"What?"

The Golden Shadow Demon was shocked. The whisper in his ear made his hair stand on end, and his whole body was about to explode. Fortunately, the effect of shadow was not over yet, and he immediately began to defend, Dodge, and counterattack.

His counterattack pierced through Lin Yi's shadow again, and it was still the afterimage of the three appearances of Cloud Dragon!

What the f * ck!

The golden-black Shadowfiend wanted to cry but had no tears. The sense of weightlessness from losing all its power could not conceal the sense of loss and premonition of danger in its heart!

Once again, the hammer created countless lightning arcs and flames in the air, and fell from the back of the Golden Shadow devil.

I'll see if you still dare to talk back to me!

The Army of clones seemed to have sensed the danger of the Golden dark shadow Demon. In order to prevent Lin Yi from winning, they launched thousands of attacks at the last moment. As long as Lin Yi was within this range, he wouldn't be able to escape!

On the other hand, the Golden-dark shadow Devil's doppelganger was also in its attack range. Lin Yi would die, and so would he. However, this was what the Golden-dark shadow devil wanted, so it wasn't surprised. Instead, it was happy. If it could die with Lin Yi, it was worth it!

Moreover, he had a life-saving skill, so he might not die in the end. Seeing his opponent die while he survived, how happy was that?

Everything happened in the blink of an eye. The Army of projection clones probably thought that the dark gold Shadowfiend would die for sure, so they gave up on unnecessary scruples and attacked quickly and densely with great lethality.

Lin Yi didn't even try to Dodge. His body glowed with Starlight as he activated the layer after layer of his life-saving skill, the indestructible star body!

Even if he had to take thousands of world-destroying attacks head-on, he had to get rid of the Golden-dark shadow Fiend's doppelganger first!

The indestructible star body was also a skill created by the star Cloud tower. If it really wanted to kill Lin Yi, the indestructible star body probably couldn't withstand the combined attack of thousands of projection clones, but Lin Yi had to risk it once!

The huge Hammer's powerful strike landed on the Shadowfiend's head. For a moment, the Shadowfiend clearly felt the surrounding space freeze!

Even his connection with his other clones and main body was temporarily cut off!

Endless pain tore at its body, and the golden-black shadow Demon suddenly realized what was going on!

Lin Yi had killed one of the Golden dark Shadow Demon's clones before, but he didn't understand why. The Golden dark Shadow Demon's talent was so special that as long as the clone and the main body weren't dead, they could share the damage. In theory, it was like an immortal body.

Only now did the Golden-dark shadow Fiend's doppelganger understand what had happened!

His connection with his main body and other clones had been cut off!

The damage was naturally unable to be shared and transferred, so it could only be taken by this clone. Not only that, the sledgehammer also carried a special power that linked with the effect of space freezing, forcibly forcing him out of his shadow state!
