

## **Bodyguard 9231**

### Chapter 9231 Power

This attack was simply terrifying!

Following the hammer was the new super alchemy bomb that Lin Yi had just created, but he hadn't reached his limit yet!

The Golden-dark shadow Demon was still in its shadow form, and it didn't know what to do. It hadn't even digested the bad news of losing contact with its clones yet, and it had to face Lin Yi's multiple sure-kill attacks!

In the blink of an eye, the Golden dark shadow Demon was torn to pieces by the violent attacks. Because it had lost contact with its main body, its main body did not know about this.

The next time it faced Lin Yi, it still didn't know how Lin Yi killed its clone!

Lin Yi slammed the hammer on the ground and let out a long breath. The eighty thousand projection clones around him stopped moving in unison, dissipating with the sound of the hammer hitting the ground and returning to their original Star power.

The entire Ninety-ninth step was filled with dense star energy, and Lin Yi could absorb quite a bit with every breath he took. His strength was subtly increasing, and even if it was small, it was obvious!

After seven or eight seconds, Lin Yi finally calmed down and put away the hammer and the movement formation flags.

This test seemed to be more dangerous than dangerous, but the pressure it gave Lin Yi was unprecedented!

A super Army of 100000 heaven breaking Masters, just thinking about it was enough to make people despair. Not only did Lin Yi face it, but he also survived without any injuries!

It was ridiculous!

It was an epic miracle!

Lin Yi knew that this had to do with the attitude of the star Cloud tower-they weren't even going easy on him, they were just releasing the flood ...

Let alone a hundred thousand, even if a thousand heaven breaking Masters were to attack him at the same time, Lin Yi wouldn't be able to survive unless he hid in the Jade space.

After all, the indestructible star body was a skill given by the star Cloud tower, and he could just cancel it at a critical moment.

Fortunately, he won the bet this time. The indestructible star body was still powerful, blocking the concentrated attacks of thousands of projection clones. Lin Yi couldn't help but feel scared when he thought about it!

He received the reward from the twelfth level in his mind. The fixed stellar energy and the incantation were nothing new. After the projection dissipated, the stellar energy left behind was more than the reward, and he couldn't absorb too much in a short time.

The chants were still only for verification, and it was far from Lin Yi's own deductions.

Other than that, there was another skill. It was not a new skill, but an advanced version of the explosive meteor strike, which was more complete and more powerful.

To Lin Yi, it was still useless. It was tasteless, but it was a pity to throw it away. Lin Yi had the ability to improve his own skills, and he had already improved and used the exploding meteor strike a lot.

How good would it be if he could get a new skill ...

Lin Yi shook his head and threw away these useless thoughts. What he needed now wasn't skills, but to speed up and catch up with the first group!

The 14th level had not been lit up yet. The gap between the two parties was already closing. However, there were not many levels left. If the first team could successfully light up the 18th level, they would be completely doomed!

After sorting out his loot, Lin Yi quickly stepped into the light door and entered The Thirteenth Floor. This was an area that no one had set foot in for a thousand years, but today wasn't the first time.

He stepped onto the stairs-it was the same recipe, the same smell, and a projection clone appeared on each step, interfering with Lin Yi's progress.

The number was twice that of the same steps on the twelfth level!

After seeing a super Army of a hundred thousand heaven breaking Masters, Lin Yi felt that this small scene was nothing. Who was he looking down on?

He didn't need to swing a hammer, as he also shot out a trail of sparks and lightning, and it was over after a few hits. He successfully reached the Ninety-eighth step, and if he went up, he would reach the Ninety-ninth step.

The first group was still on the 14th floor, and they didn't light it up yet. Lin Yi saw the hope of catching up, and he was getting more and more anxious. He wanted to pass the 13th floor immediately and catch up to the first group!

He wondered what kind of test would be waiting for him.

After easily taking out the stumbling block on the Ninety-eighth step, Lin Yi took a deep breath and stepped onto the last step!

What was the new test?

The sky and earth were spinning, and the stars were moving!

Lin Yi felt as if his spirit had left his body-this feeling was way too familiar!

However, he did not want his primordial spirit to leave his body. What was going on?

As soon as this thought came to his mind, he felt a familiar feeling of his primordial spirit returning to its original position. The only difference was that ... His primordial spirit seemed to be uncomfortable and uneasy!

It was only one-tenth of a second later when everything returned to normal. There were twelve rooms in a ring, and Lin Yi was in one of them.

There was a person in each room, and there was an empty space in the center. The ground still looked like stars in the void, but that wasn't a big deal. The thing was that Lin Yi saw himself in the opposite room!

Well, this didn't seem too strange. The projection clones created by the star Cloud tower could perfectly clone anyone. The dark phantom demons could also disguise themselves as others and copy their skills.

So, what was there to be surprised about? Just treat it as looking in the mirror!

Lin Yi was very calm about this-he'd seen a lot, after all, so he wouldn't be surprised by everything.

But there were still things that made Lin Yi uneasy, like Wu Linghai!

As Lin Yi observed his surroundings, his essence spirit finally found the source of the discomfort. Wu Linghai had disappeared and turned into a normal sea of consciousness.

Plus, this sea of consciousness was very narrow. If Lin Yi's sorcerer spirit sea was the real sea of stars, then this sea of consciousness was just a sea in the mortal world.

Lin Yi's essence spirit was in this level of sea of consciousness. Let alone swimming freely, it was difficult to even provide for the essence spirit. It was already not easy to just feel cramped.

What was going on?

Lin Yi's shock was no small matter-he couldn't care less about the people in the other rooms anymore-he had to solve the problem with his body first!

Wait a minute!

'This ... Is not my body!'

Lin Yi immediately realized that it wasn't just Wu Linghai that was wrong, his entire body was wrong!

His current body was that of a female, and her strength was at the peak of early heaven-breaking realm. The difference between her and Lin Yi was too big!

What the hell? Primordial spirit exchange?

Lin Yi was a little confused-he'd never encountered something like this before. He'd lost his body before, and he'd possessed someone else's body before, but he'd never tried to accept something like this!

Wait a minute, so the 'him' in front of him ... Was not a projection clone or a Shadow Demon, but his real body? There was also an unfamiliar primordial spirit in his body?

Chapter 9232

Lin Yi's mouth twitched, not sure if he should say it out loud ...

There was no rush-his spirit would return to his body as soon as it left his body ... Lin Yi consoled himself as he tried to get his spirit out of the female body.

He didn't know who she was, but he had no interest in staying inside a woman's body. He wasn't a cross-dresser, after all, and he didn't have that kind of hobby!

Unexpectedly, the primordial spirit leaving the body that he had done countless times in the past was actually unable to be used this time! His primordial spirit seemed to be confined in this body, unable to leave at all!

No hurry, no hurry ... My ass!

Lin Yi didn't even know what was inside his body-what if he damaged it?

One could already see the ecstasy in Lin Yi's eyes in the opposite room. It was clear that Lin Yi's perfect body and strength after remodeling surprised the possessor to the point that he was so happy that he didn't even think about home!

It all happened in an instant-the star Cloud tower's explanation came, and Lin Yi finally understood what was going on!

The primordial spirits of the participants of the Kongtong Sect had left their bodies and randomly entered someone else's body. You know whose body your primordial spirit is in, but you don't know who is in your body!

[Youyou has passed the first test: find the body of the primordial spirit in your body and destroy it with your own hands. Then, the primordial spirit in your body will die with his body. At this time, your primordial spirit can return to your body, but the body you possess will die within three minutes!]

Needless to say, when the body dies, the primordial spirit in other people's bodies would also die. This was a chain reaction. Moreover, the explanation of the star Cloud tower did not mention whether the primordial spirit of the original owner could return after leaving the body.

Lin Yi guessed that she couldn't. As expected, the star Cloud tower's explanation was that she had to find and defeat the spirit within three minutes before she could return to her body and stop her body from dying.

The key here was the word "personally". Whether it was the initial destruction or the subsequent defeat, they all needed to be personally done. If they let others do it, they would lose the opportunity to return to their own side forever!

In short, I want you to fight each other!

Moreover, he was the one doing it, so he couldn't let others do it!

Pi Xiu had passed the second test, which was to completely occupy the body that he was temporarily possessing, find the primordial spirit of the original owner of the body, destroy the other party, and keep the occupied body.

In conclusion, the first thing he had to do was to protect his body from being killed by others. Then, he could choose two paths to develop his body. One was to find the current owner of his body and kill him to complete the second mission of taking over his body. The other was to find the primordial spirit in his body and kill him to complete the first mission of returning his body to its rightful owner.

if the others did not take action, killing everyone else would be the most perfect situation. unfortunately, the quest's restriction required one to personally take action in order to complete the return. no one would sit by and watch someone mess around.

lin yi went through the rules in his head and frowned. he released his spirit and carefully observed everyone's expressions.

especially his own body. the primordial spirit inside might be a little surprised when it saw his body. this way, it could lock onto the target, kill the other party as soon as possible, and take back its body.

unfortunately, the person occupying lin yi's body wasn't an idiot. his eyes were wandering around, and he stayed in every room for the same amount of time. there was nothing special about it. it was as if he had abandoned his body and was determined to take over lin yi's body.

lin yi didn't want to reveal that his body was his ... that would double the danger!

what a f \* cking test!

the time limit of the suan ni's test was sixty minutes. if one failed to complete one of the two conditions within the time limit, the test would be considered a failure, and the loser's primordial spirit would be completely obliterated!

the last sentence didn't make a difference, and lin yi knew that.

"Hehehe, who is the master of this body? Do you want to get your body back? Why don't you come out and let me see? I can tell you which body I am in, and you can try to deal with it. "

The spirit that was occupying Lin Yi's body was the first to speak. It walked out of the room and stood in the middle of the room. The people in the other rooms also came out and stood at the door, still in a circle, keeping their guard up.

"Everyone can take the initiative to reveal their identities! No matter which quest you want to do, we can discuss it openly, right? It was better than running around like a headless fly, right? We don't want to see our target get killed by someone else and die in the end, right?"

Lin Yi's spirit continued to speak. It was clear that this was a scheming person, and his words were not completely unreasonable.

If everyone could be open and honest with each other, at least they would not get the wrong target. Then, everyone would fight with their own abilities, and the chances of survival would be higher.

But Lin Yi knew that this suggestion was impossible to pass. Who would dare to reveal their identity? He would immediately become the target of public criticism!

"Since you said so ... Then tell me which body you are in! As the initiator of the proposal, shouldn't you at least show some sincerity?"

Someone spoke up. It was a muscular man, his arms crossed as he looked at Lin Yi's body teasingly.

The woman Lin Yi possessed glanced at the man, immediately eliminating him from the list.

The owner of his current body was a woman, and his primordial spirit had changed bodies, so his daily habits should not have changed much. The burly man's action of crossing his arms was very masculine, and it was definitely not what a woman should look like.

There were eleven targets in total. Excluding one, there were ten left. The primordial spirit in his body didn't look like a woman. Moreover, the primordial spirit was randomly assigned to different bodies instead of being swapped. The possibility of the primordial spirit in his body being the target was very, very low.

So, he could eliminate another target!

Lin Yi continued to observe the others. The others didn't speak, and their actions were normal. They didn't look feminine at the moment ... No, there was a man with a feminine face, and his body shape and clothes were a little feminine.

No matter who the primordial spirit inside was, at first glance, they would feel that he was somewhat feminine ... If his usual behavior was also feminine, then if it was someone else's body, it would also be feminine. This was an unstable factor!

Lin Yi sighed to himself-his luck wasn't good today, this troublemaker!

No matter, he would kill anyone who had feminine movements!

Chapter 9233

Wait, something's not right!

Lin Yi suddenly realized that he wanted to take over this body. What a joke!

The damned test and this narrow sea of consciousness had left him in a daze. This wasn't about completing mission two, so the only target he had to find was the primordial spirit body that had taken over his body!

The primordial spirit in his body laughed and responded to the burly man's words, ""It's true that I'm the initiator of the proposal, but I'll only tell the owner of my body which body I am. This is a small privilege that I enjoy as the initiator. So, are you?"

If that was the case, he would have to kill her!

The brawny man smiled noncommittally, his face looking like he was asking for a beating. "Do you think I am?"

"Guess if I'll guess?" Lin Yi smiled.

"Do you think I'll make a guess or you'll make a guess?"

The man didn't back down at all as he started playing tongue twisters with his body ...

Primordial spirit Lin Yi scratched his head. That guy was using his body to joke around, it didn't look right! She knew who he was, so she had to teach him a good lesson!

"alright! are you all very free? such a childish trick! do you think you have a lot of time to waste?"

another person stepped forward to speak. he was a shriveled old man with a calm tone, but it was hard to say what the origin of the primordial spirit inside was.

however, he immediately revealed his identity. the shriveled old man pointed at the brawny man and expressionlessly said, "let's hurry up. i'll say it first, and we'll use it as a bait! this is my body, and i will definitely take it back!"

"Whose body do I belong to now? If you want it back, then fight with my body! i'm confident that my body is very strong, and i will definitely not lose to you!"

when he said this, everyone was a little surprised. was he telling the truth?

it was very dangerous to expose one's identity. if the primordial spirit that occupied the body was not capable, it would be easy for it to be killed!

however, on second thought, if he was strong, it didn't seem to be a bad thing to expose his identity. at least he could avoid being accidentally injured.

The burly man chuckled and said, "so that's how it is. My current strong body is yours, huh?" Did you take the initiative to say it because you wanted the primordial spirit of the body you occupied to deal with your own body, and then you could take the opportunity to kill him?"

"What, are you not satisfied with such an excellent body? It can't be that you like that shriveled old man's body and want to completely occupy it, right?"

The brawny man squinted his eyes, and his pupils shone with a light that seemed to see through everything. "I'm afraid normal people wouldn't do this, right? So, I'm making a bold guess that you're actually making things up!"

"This body is very powerful, but it's not invincible here. If it's really your body, would you say it so easily? If I'm not wrong, you're just throwing out a bait to fish out those greedy and ignorant fish, right?"

Whether it was the primordial spirit that wanted to return to the shriveled old man's body or the primordial spirit of a real strong man, as long as it was exposed, it would be targeted by people with ulterior motives.

The shriveled old man said that the brawny man's body was his, but it might not be fake or true. Now, no one came out to claim it because even if there was a real owner, he would not take the risk to prove his identity.

Lin Yi didn't say anything and just observed quietly. He tried to keep a low profile and used his spirit sense to observe everyone's expressions and actions, hoping to find some clues.

The words these people were saying now were basically testing each other and didn't have much value. On the contrary, their eyes might reveal their true thoughts.

Unfortunately, everyone present was an old fox with profound cultivation and would not give themselves away so easily.

Lin Yi was curious-why were there so many people on this floor?

Were there many people in the first tier? If he didn't guess wrong, the first group was mainly composed of experts from the darkness demon beast clan, and there were probably not many human experts.

And out of the twelve people here, at least seven or eight were humans, and the remaining three or four could be dark beasts or humans. Lin Yi couldn't be sure after his essence spirit changed bodies.

Other than Lin Yi's body, there was another woman present. She didn't look 30 years old, and she was pretty and well-dressed. She should be a lady from a big family.

Of course, it was hard to say which primordial spirit was in her body now.

At this moment, the woman smiled and suddenly said, ""Stop quarreling. You're all just talking nonsense. There's nothing useful at all. How troublesome!"

"I'll be honest with you! I'm very satisfied with this body! It's young, beautiful! and has extraordinary potential and strength. Changing into a beautiful woman's body seems to be very good. "

"So, I've decided to take this body! You'd better not show your face. If I find you, I'll definitely kill you!"

The beautiful woman smiled sweetly, but the words she spoke were filled with killing intent. Her beautiful eyes swept over everyone present, but no one showed any strange expression.

Lin Yi was sure that she was speaking the truth-the body was young indeed, and for it to have the strength it did today, it was undeniable that it had talent and potential. It was possible for it to break through to the heaven-breaking stage in a few more years.

Most people would naturally prefer their own bodies, but it wasn't impossible to change to a young body with potential. Lin Yi's body, for example, was perfect after remodeling.

Anyone who took Lin Yi's body would want to keep it for themselves, especially the Wu Linghai in the body. This time, Lin Yi's Wu Linghai still stayed in the body and didn't leave with the soul. It was a super treasure!

Lin Yi knew that he'd be tempted to take this body for himself if he were to encounter it!

"hehe, beautiful lady, your primordial spirit can't be that wretched uncle, right? you've taken a fancy to a young and beautiful woman's body, so you don't want to return to your old and weak body?"

the brawny man smiled evilly and glanced at the shriveled old man from the corner of his eye. he continued to probe,""there are only two women here. unless they exchange primordial spirits, the others will enter the bodies of the opposite sex. who would be willing to be a woman? only a perverted uncle like him would like to take over a beautiful woman's body and not return it, right?"

The woman's beautiful eyes flickered, but she was not angry. She still had a sweet smile on her face."Yes, yes! So if you want this beautiful body back, quickly go and kill that uncle!"

True and false, real and false, no one could be sure which of the words they were saying was true and which was false.

"What's the point of saying so much? Was there really someone who naively thought that he could determine who the primordial spirit in these bodies was just by words? What a joke! Don't you think that it's useless to say anything more and that we can only know if we make the first move?"

Chapter 9234 The End

Another practitioner laughed coldly. Lin Yi thought that he might be one of the dark Demon beast clan's targets. After he finished speaking, he threw a stream of Qi at the shriveled old man and attacked first.

Everyone was slightly shocked. Could he be the primordial spirit of that woman? Even if it was true, he wouldn't be easily provoked by such an obvious flaw, right?

Before the old man could retaliate, the practitioner suddenly turned around and attacked someone beside him. That person hadn't said a word since the start, just like Lin Yi, watching from the side. He didn't expect to suddenly become someone's target.

Shocked, the man immediately took a defensive posture, while the other cultivator on the other side also moved, rushing over at full speed to help him block the attack.

Lin Yi quickly analyzed the situation-the fighter didn't seem to have a specific target, and was just randomly attacking the people around him.

There was a sure-win method for this test. As long as Youyou killed all the possible targets by herself and left her original body behind, she would naturally be able to obtain the final victory!

At that time, whether he wanted to return to his body or occupy a new body, he could slowly choose and compare. Therefore, killing everyone would be the best choice for the strong!

The martial artist who launched the sneak attack seemed to be very confident in the body he obtained, which was why he took the initiative to start a chaotic battle. It didn't matter if he killed useless people, and it had nothing to do with him if he made others lose their target!

Don't think that starting a chaotic battle rashly will make you a target for all. Because of the special rules, as long as you kill one, it is equivalent to killing two!

Moreover, this person's sudden sneak attack had also broken the nervous nerves of the others. For example, the martial artist who had rushed over to help had undoubtedly been attacked physically!

The martial artist who incited the battle was not afraid at all, and a smug smile even appeared on his face. He had long since thought it through. The nonsense that those people had said just now was a complete waste of time.

Because of each other's scruples, they would always maintain the balance. Only by breaking the balance could they find their desired goal!

The sudden sneak attack was the breakthrough to break the balance!

The martial artist who rushed to the rescue had exposed his identity, and he was intercepted halfway before he could even reach his body!

He did not know what the martial artists who intercepted him were thinking, but the chaotic battle suddenly broke out!

In an instant, ten out of the twelve were caught up in the battle, leaving only Lin Yi and Lin Yi outside. That's right, it was Lin Yi and Lin Yi, the body and the soul!

The primordial spirit Lin Yi retreated at once, and so did his body. The two of them looked at each other as they retreated.

"This friend, I don't know if you're my brother or sister. Can we have a chat?"

Lin Yi pondered for a moment before getting closer to him to express his goodwill. "Should we join forces? What's your target?"

Primordial spirit Lin Yi raised his hand to stop his body from getting any closer, his face cold, "Stop! Do you think I'll believe you? Who knows if you'll suddenly attack me? It's better for everyone to keep their distance!"

"No problem, no problem. I'll just stand here and say it. Do you think it's meaningful to fight one on one in the current situation?" Lin Yi said with a smile. We can only have a future if we work together!"

"Unless ... You're the primordial spirit of my body? They want to take my body back from me. That way, we'll be irreconcilable enemies. Other than that, there's no harm in us joining hands!"

This guy was still testing the waters, trying to see if Lin Yi's body was the same body he had taken over.

Lin Yi maintained his expressionless face and continued, "Why didn't you mention the other situation? You want to take back my body? Or are you trying to kill me and take back your real body?"

"Hahaha, you're right. I really can't prove my sincerity, but if this continues, they'll soon fight to the death. What if our targets all die?"

Lin Yi didn't mind his body and smiled, "Let's work together and lock onto the target. You and I will help each other get rid of the opponent. Isn't that good? Moreover, if we work together, we have a chance to capture anyone alive. It will be much easier to identify the target!"

At this time, the battle on the field had already turned white hot, and everyone wanted to put their opponent to death!

It was true that capturing them alive and interrogating them would make it easier to lock onto the target, but for a lone wolf, it would be more convenient to kill them all. Why did he have to go through the extra trouble of capturing them alive and interrogating them? Are you so free?

Lin Yi knew that this method was only suitable for team-ups!

the problem was that his body was right in front of him, so how could they join forces? that guy's wild ambition had been revealed without a doubt. he wanted to take over her body.

what if the guy saw something and stabbed him in the back when they were working together? wouldn't lin yi be sending himself into the tiger's mouth?

"what you said makes sense! then let's do this!"

primordial spirit lin yi muttered to himself before nodding his head, "let's join forces and capture them alive! you can choose your first target!"

He knew that this was like asking a Tiger for its skin, dancing with a Wolf, but Lin Yi had no choice. If he continued to reject, it might cause Lin Yi's suspicion. This guy was testing him, both openly and secretly.

If he felt guilty, he'd be targeted instead-Lin Yi knew how strong his body was!

Even if the spirit that was occupying his body didn't move and couldn't use Lin Yi's martial arts, his body was strong enough to stand tall.

Plus, Lin Yi's body had the star undying body from the star Cloud tower!

Lin Yi hadn't had the chance to use this level of the indestructible star physique this whole time. It would be activated in a critical moment, blocking a fatal injury. If he really fought, he would be in an undefeatable position.

This was good too-Lin Yi didn't have to worry about his body getting destroyed. As long as he found this guy's body, he could erase his spirit from the inside.

"Hahaha, very good, you've made a wise choice!"

Lin Yi seemed a little surprised, but he laughed to hide it. He pointed at the weakest practitioner, "Then let's choose him! He looks like he can't hold on any longer. If we catch him, we'll be saving his life!"

Lin Yi's eyes flickered as he wondered if the target was his body.

Because it was said that he was going to be captured alive, he had to control his main body first, which was equivalent to indirectly ensuring the safety of his primordial spirit. If he let his main body continue to play around in the chaotic battle, he was likely to lose his life.

So, the weakest one had a chance of being his main body, right? Should he kill them?

Chapter 9235

The thought flashed through Lin Yi's mind, and he immediately rejected the idea of killing him.

With his opponent's shrewdness, there was no way he would reveal his true body to Lin Yi right from the start. This guy was even suspecting that Lin Yi was the owner of Lin Yi's body!

This was more likely to be another test-if Lin Yi killed his target, it'd confirm his suspicions!

Since it was their first time working together, they had to test the waters!

Lin Yi made up his mind instantly. Even if the opponent predicted his move and took the risk to point out the body first, it didn't matter. He would control it first!

"Alright! Then let's do it! You go first, I go first?"

Lin Yi went through his thoughts without making a sound and got into a fighting stance, his eyes on Lin Yi as if he were his ally.

Lin Yi's eyes flickered as he smiled kindly, "Anything is fine. What do you think is appropriate? I don't care. I'll cooperate with you or be the main attacker. You can cooperate with both of them. "

"I see. I'll cooperate with you then. After all, you're the one who suggested it. You can cooperate with me next time."

Lin Yi retreated to the side naturally, giving the main attacking position to Lin Yi. The chaotic battle was still going on, and although they noticed that the two were planning to work together, they couldn't stop it.

"Alright, let's do it!"

Lin Yi didn't waste any time and charged at the target first. The target was already dealing with the others' attacks and was the weakest one on the field. He was exhausted from running left and right, and Lin Yi's sudden attack made him unable to react effectively even though he saw it.

Lin Yi didn't stay idle either-he rushed into the battle with great coordination, blocking an attack that came in the middle of the fight for him while at the same time coordinating with the attack and restricting the target's movement.

A look of despair flashed in the eyes of the target martial artist. He was the weakest kid present. Did he have to suffer such pain just because he was weak?

No matter whose hands he fell into, he would not be able to escape death in the end. It was not much different from dying on the spot. Instead of dying in humiliation, it was better to fight to the death. Maybe he could still find a way to live in death!

After making up his mind to die, this soft persimmon that had been targeted by many parties exploded. He wanted to tell everyone that he was not a soft persimmon. He was not someone that anyone could easily pinch!

He was a tough persimmon!

His silent resistance was actually useless. Whether he was a soft persimmon or a hard persimmon, it made no difference to the people who attacked him. They were all persimmons, delicious food that could be eaten at will!

Lin Yi's coordination with his body was perfect, and he easily pulled the tough guy back from the other wave of attacks. Although he didn't feel grateful for it ...

"Everyone stop! Do you want the Sandpiper and clam to fight each other and let the fisherman benefit? All of you stop and listen to me!"

The brawny man withdrew his hand and retreated. At the same time, he shouted loudly, calling for the others to stop the chaotic battle, "Such a battle is meaningless. It will only benefit some despicable people who must have ulterior motives!"

The shriveled old man attacked with all his might, opening up a little gap, and also took the opportunity to retreat and get rid of the battle. Then, more and more people chose to retreat and stop. The burly man was right, if the chaotic battle continued, it would only be the fisherman who reaped the benefits!

If everyone was fighting for themselves in the chaotic battle, it would not matter. However, with someone standing at the side and watching, when they fought until their dog brains came out, all of them would become arrows at the end of their flight. In the end, they would become unlucky people who were at the mercy of others.

Lin Yi and his body took the captive back a few steps as well. The captive's body was under Lin Yi's control, but his soul was three or four steps away from him, maintaining the necessary vigilance. It was a gesture that showed that he didn't trust his body as an ally.

Lin Yi didn't mind his body, thinking that it was normal. He'd be suspicious if he trusted him completely right now and suspected that Lin Yi had ulterior motives.

When the chaotic battle in the field was completely over, everyone retreated, keeping a distance from each other and guarding against each other. The martial artist who started the chaotic battle first was closely watched by everyone.

Right behind them was the martial artist who exposed himself while trying to save his body, followed by the three on Lin Yi's side. After all, the record of working together and capturing one person alive was enough to attract everyone's attention.

Plus, the two of them working together was the main reason for the end of the chaotic battle-the others didn't want to see Lin Yi's team pick up their heads!

"Listen to me, a chaotic battle is not beneficial to anyone. Everyone here is not mediocre. Who can guarantee that they can suppress everyone? Even if you have the strength, what if your target is killed by someone else in the chaotic battle?"

The brawny man spread his hands, indicating that he had no intention of continuing the battle. "Isn't it good for everyone to be honest and then rely on their own abilities? No one was willing to be honest with us just now, but now that someone has started it for us, it will be much easier!"

The only martial artist whose identity had been exposed had an ugly expression on his face. He was the one who had started the conversation! However, he really couldn't be blamed for this. His own body had been attacked. In a moment of desperation, how could he continue to pretend that he didn't know?

In that situation, he didn't even have time to think and had already rushed to his body at full speed. If his body was destroyed, his primordial spirit would be finished as well!

As a result, his identity was completely exposed. However, this was good. At least, only the relevant personnel were left who wanted to kill him, and he would not be targeted by everyone.

The warrior was still thinking that the situation was not too difficult, but the burly man suddenly changed the topic and laughed evilly, "With the beginning, the follow-up is very easy! Whoever is the true owner of this body, come out!"

The brawny man waved his hand to signal the others to surround the martial artist whose identity had been exposed. "If he doesn't come out, we'll kill him together! Do you want to choose whether two or more people will die or take the initiative to stand out and let everyone rely on their own abilities?"

This move was quite vicious. If the original owner of the body occupied by the martial artist did not reveal his identity, the burly man would have a reason to gather the others to kill the martial artist.

If he didn't admit his identity, he would die without a doubt, but if he admitted it, he would still have a way out!

The others all agreed with this. After all, they wouldn't be at a disadvantage with someone in the lead. Compared to a chaotic battle that they had no confidence in, it was not unacceptable to use an open and aboveboard scheme to force everyone to reveal their identity.

"I'll count to three. If no one steps forward, we'll kill this guy together!"

The brawny man closed in step by step. As he spoke, he raised three fingers and glanced at everyone present. He slowly put one of his fingers away and shouted in a deep voice, ""One!"

No one moved, only the cultivator who had been targeted had an ugly expression on his face, but at this time, he had no power to resist. The strength of his body could only be considered below average among all the people present, so he simply did not have the ability to resist the joint attack of everyone.

At this time, they could only hope that the original owner of the body would come forward. Otherwise, they would all die together!

Chapter 9236

"two!"

lin yi used his spirit sense to observe everyone's expressions. other than the target, there was another person whose face was getting worse. it was probably the original owner of the target's body.

sure enough, before the brawny man could say anything, the martial artist stood out with a gloomy face.  
"it's me!"

"it's really you. i've actually noticed you for a long time. if you don't admit it, i'll find you!"

The brawny man chuckled, a proud look on his face. ""During the chaotic battle just now, you intentionally or unintentionally wanted to kill that guy's body. However, you did it very discreetly and thought that no one would find out, right?"

"Alright, since you've admitted to it, let's not talk about the previous matter for now. Let's see who the owner of your body is. I don't need to say it again, right? Come out and admit it, everyone!"

No one answered, and the scene fell into silence again. Everyone looked at each other quietly, and after about five or six seconds, the burly man laughed.

"It seems that no one wants to cooperate. It doesn't matter. We already have a team. You three can discuss how to fight first. After two of you die, we will continue!"

The brawny man pointed at the three martial artists. A, who was ambushed, B, who went to rescue a, who had revealed his identity, and C, who was forced to reveal his identity. A's body was B's, and B's body was C's. If C wanted to return to his own body, he had to kill a!

B had to protect his own body from being destroyed. At the same time, if he could kill C, he could retain his current body. Similarly, if a wanted to retain the body he currently occupied and pass the test, the easiest way was to kill B!

To sum it up, a could choose to kill B, but B had to protect A. C was the same. He could be killed by B, but he had to protect B. At the same time, he had to find a way to kill A. The three of them couldn't simply decide who would attack who. A chaotic battle would be even more complicated ...

The others also saw this chaotic situation, so they did not continue to reveal their identities. They wanted to see how the first group would play!

"Do you think I'm someone you can arrange as you please?"

C sneered as if he was not the one who was forced to reveal his identity. He then looked at the brawny man with an arrogant expression and said, "You said that you've noticed me for a long time. In fact, I've also noticed you! Everyone present is an expert of the heaven's legacy continent. Even if we've never met before, we've heard of each other's rumors!"

"To put it bluntly, at least half of them are people who know each other very well. Now that they have taken over someone else's body, they haven't inherited their memories and skills. In the battle just now, they still subconsciously used their own martial skills."

"Of course, we are all smart people. We won't use our signature martial arts techniques openly. However, some special characteristics can be easily discovered by people with intentions. I am that person with intentions!"

Martial artist C stared at the brawny man and laughed coldly. "I already know your background. Since you forced me to reveal my identity, I won't be polite. As the saying goes, it's impolite not to reciprocate. How about we return the favor?"

The brawny man squinted his eyes as a dangerous glint flashed in his eyes. He did not know if martial artist C was bluffing, but he could not deny the possibility of that happening!

He wanted to lead the trend and not become the one being led. In a flash, he laughed and said, ""You don't have to change the topic, it's meaningless! Right now, only the few of you have a clear identity, and I've already told you who's occupying your body. Aren't you going to make a move?"

"Or do you want the body you're occupying now, so you don't care about your original body? If that's the case, you have to protect your body well and don't get ambushed! By the way, you have to be careful. Don't let your own body attack you!"

The brawny man indifferently fanned the flames, and before martial artist C could speak, someone at the side suddenly attacked!

It was none other than the shriveled old man who had been rather active earlier!

His target was martial artist B, which was martial artist C's original body! Without a doubt, martial artist C was his body!

The shriveled old man did not reveal his identity just now because he was waiting for an opportunity to launch a sneak attack. While the brawny man was speaking, he quietly approached martial artist B and suddenly attacked with all his might!

Because martial artist B's identity had been exposed, he had been on guard the entire time. He was not surprised by the sudden attack and calmly got into a defensive posture.

Martial artist C reacted quickly as well. He quickly approached martial artist B to protect his body and help block the shriveled old man's attack.

The two of them joined forces and easily took on the shriveled old man's sneak attack. He had deliberately tried to regain his body, but he failed at the last step. His strength was really limited, and he had no choice!

He had thought that the situation would continue to develop like this, with martial artist B and C joining forces to fight against the shriveled old man. He did not expect that just as they had managed to withstand the attack together, martial artist B would suddenly change direction and attack martial artist C's vital point!

He probably felt that it was more difficult to take back his body, so he killed martial artist C first to ensure that he could pass the test. It didn't matter if it was someone else's body!

Martial artist C was furious, but that was his own body. He couldn't even protect it in time, and he couldn't even counterattack! He could only grit his teeth and go past martial artist B to drag martial artist A into the battle!

You want to take over my body? I'll destroy your body first!

In the blink of an eye, the four of them were caught in a chaotic battle. There were others on the side who were eager to try. After all, this was a chain of 12 people. The four of them did not form a closed loop. There would be more related people waiting for the opportunity to attack.

"My friend, our chance's here again," Lin Yi chuckled, "it's your turn to pick the target this time!" Which one do you want to catch?"

"Don't worry," Lin Yi replied indifferently, "not everyone's involved yet, and if we do it, everyone'll be worried. Let's wait a little longer!" Of course, if you're in a hurry, you can also take action immediately!"

"We're allies, so I'll listen to you. If you're not in a hurry, then we'll wait ... Why don't you ask who we've captured first?"

Lin Yi took the opportunity to test the body, and told him that he wasn't in a hurry to do so. He could continue waiting, but it wasn't convenient to interrogate them yet. There were still people watching them, after all. He'd have to wait until he caught two more.

"Actually, I don't think there's much point in interrogating. How about we just kill him? It's not my body anyway, do you want to do it? Why don't you let me kill him?"

Lin Yi glanced at Lin Yi and shook his head, "Although it's not my body, it's better to wait and see for now. Don't be in a hurry to kill! If you kill the wrong person, you can't go back on your word!"

While the two of them were conversing, someone couldn't help but rush into the battle, forming a five-person chaotic battle. It was difficult to distinguish between friend and foe, which was really wonderful.

Chapter 9237

Lin Yi thought to himself-could it be that the body he was holding was the one he was looking for? was his guess right? It was a good method for him to protect his body.

Do you want to try?

"Alright, this is your captive, so you have the final say. Next, let's go and capture that person!"

Lin Yi kept his thoughts to himself and signaled with his eyes that their next target would be the dark Demon beast who launched the sneak attack first.

That guy was the instigator of the battle, but now he didn't continue to get involved in the battle, but just watched from the side.

Lin Yi didn't mind causing some trouble-he'd control the guy first, and he didn't mind killing him if he missed!

If the darkness demon beast clan died, so be it. What was the big deal?

However, Lin Yi's real target wasn't the dark Demon beast. It was the captive that he had just captured. His body was now in Lin Yi's hands!

The new target was to divert Lin Yi's attention. If he showed any weakness, he could try to kill the captive. If there wasn't a chance, he could continue attacking the target as planned.

"Yes! This time, you'll be the main attacker and I'll cooperate with you!"

Lin Yi nodded slightly, not having any doubts about the target he'd chosen. However, now wasn't the time to make a move-he had to wait for the chaos to get bigger, then that would be the best time to make a move!

And chaos descended as expected. The initial battle was only the prologue. They did not form a closed loop, and people would continue to be involved.

The people who entered the group battle later had a clear target, so they were naturally very specific when they attacked. It was much more dangerous than the first chaotic battle.

Lin Yi's target quickly joined the fight. He narrowed his eyes and laughed softly, "Here's your chance. Do it!"

"Alright!"

"Yes," Lin Yi agreed readily and dashed towards the target in the middle of the battle. He didn't leave immediately to prevent the captive from getting into trouble. If he wanted to kill the captive, he still needed to wait for an opportunity. He could only join the chaotic battle first.

Lin Yi's current body strength was average, and he didn't have much of an advantage in the chaotic battle. After a few rounds, he took the opportunity to retreat and leave the chaotic battle.

"Hey, why aren't you helping? How can I capture the target by myself?"

Lin Yi put on a displeased expression as soon as he got away, "And I can feel that someone wants to kill me. We agreed to work together. Are you trying to trick me?"

"What are you saying? why would I trick you? We're allies, I'll definitely help you, but there are still people who haven't made a move yet. I've been targeted, and if I had joined the battle just now, our situation would have been even more dangerous!"

Lin Yi's face wasn't even red as he looked at Shuai Guo. There were indeed two people who didn't join in the battle. Including the prisoners, there were five people who didn't join in the battle.

"Hmph! I can't believe what you said. This time, you'll be the main attacker and I'll support from the side! Those who are caught are still my captives! Any problems? If it doesn't work, then our Alliance will be nullified!"

Lin Yi's attitude was firm and didn't give his body too much of a choice. It would make him look more open and selfless.

Lin Yi muttered to himself before nodding with a smile, "Fine, in order to show my sincerity, I'll do this!"

With that, he charged at the target and started his attack. Lin Yi's eyes flashed and he moved to the captive's side with butterfly steps, reaching for the throat.

More than half of the practitioners had been identified, and Lin Yi didn't think he could hide for much longer. It was time to take a gamble.

It didn't matter if his guess was wrong and Lin Yi saw through it-it didn't matter if it happened earlier or later.

Just as he was about to succeed, Lin Yi suddenly turned around and laughed, "As I expected, your ally likes to stab me in the back!"

"I knew that you would be interested in my captive. How disappointing. Why can't you be patient for a while? I really do want to join hands with you!"

Lin Yi's body was far stronger than his current female body, and so his speed was a bit faster. The butterfly micro steps was agile, but speed wasn't his strong point. Without pure Qi, he couldn't use the Super limit butterfly micro steps.

So Lin Yi didn't successfully kill the captive-he was only seven or eight centimeters away when he was blocked by Lin Yi!

"Hehe ... It seems like this really is your body? This treasure should be the right one. I thought you were very powerful, but I didn't expect you to be the weakest one here!"

Lin Yi laughed as he taunted Lin Yi's body. He continued to attack, forcing Lin Yi to take two steps back.

In terms of physical strength, the female body Lin Yi was occupying was far inferior to his own body, but Lin Yi knew more and more powerful martial arts!

The spirit would temporarily take over the body, but it wouldn't inherit the body's Arts, skills, or battle experience. Lin Yi was sure that the captive was the original Lin Yi, because this guy's skills weren't that strong, at least a level weaker than his.

The difference in physical levels was closed through the skills-Lin Yi had a perfect body, but he couldn't use it perfectly. He was suppressed by Lin Yi in a short time.

But Lin Yi didn't have the time to deal with the captive, and the situation was in a stalemate.

one of the two martial artists suddenly rushed over and attacked lin yi's body. they had become lin yi's allies and were fighting lin yi together.

lin yi's heart moved-it was easy for people to guess what he was doing. the one helping him deal with lin yi's body ... was it this female martial artist's soul?

was she trying to get back her own body after getting rid of lin yi's body?

lin yi's lips curled up into a faint smile. if it was someone else, they'd be afraid that their body would be destroyed, and their soul would be destroyed as well, but lin yi wasn't!

putting aside how thick his body was, just the one chance of using the indestructible star body was enough to guarantee that lin yi's body wouldn't be destroyed.

so lin yi didn't panic at all when someone was targeting his body. instead, he was secretly happy. with the strength of this female body, it was too hard to suppress lin yi and kill the captive. it couldn't be better to have someone help.

lin yi was just short of shouting "don't hold back, don't give me face "and use all your strength to hit me!

in the end, even the spectating practitioners couldn't take it anymore and joined in the chaotic battle. the two circles were connected, and it became a chaotic battle for everyone except for the captive that lin yi caught.

Chapter 9238

He was already the weakest of them all, and now that he was being controlled, he could be annihilated at any moment. He wanted to cry but had no tears.

He prayed in fear that he would not be affected by the aftermath of the battle. His small body could not withstand it!

Lin Yi's body was in trouble as well-he needed to protect his body from harm and deal with Lin Yi and the other practitioner's joint attack.

If it was someone else, they would at least have a body controlled by the spirit to protect the body, but he was different. Lin Yi's spirit was chasing and attacking his body with the others, as if he was afraid that he wouldn't die.

Where the F \* ck was the logic in this? Was there something wrong with his brain?

The practitioner who was working with Lin Yi was confused as well, wondering if this body was really Lin Yi 's. I've never seen anyone so cruel to their own bodies!

Was there a mistake?

It's hard to repeat it even if I made a mistake!

He had to bite the bullet and continue! There was no loss even if he was wrong ...

Lin Yi's body was suffering from the two's joint attacks. He wasn't Lin Yi after all, and couldn't use his superhuman combat power. He could only use the body's own strength to fight.

There were bound to be losses if he defended for too long, and it was inevitable that he'd lose focus when he was distracted. Lin Yi finally seized the opportunity and cut off the captive's head.

The blood splattered onto Lin Yi's clothes, and his face was filled with disbelief and despair.

It wasn't easy to get such an excellent body, and there was no problem with the plan, but in the end, he lost so sullenly!

How could he accept this!

"As expected! This is your body! If it wasn't for you deliberately capturing your body to protect it, I might not have been able to find any clues! I really have to thank you for your help, ally!"

Lin Yi smiled and waved at his body as a final farewell.

Soon, the primordial spirit trapped in the woman's body felt the power of restraint on the primordial spirit rapidly dissipating. It could leave the body and return to its own physical body!

Lin Yi didn't hesitate to leave the Narrow Sea of consciousness and quickly return to his body. A familiar comfort surrounded Lin Yi's spirit. As expected, his body was the most suitable!

The martial artist who teamed up with Lin Yi exploded with all his strength, his sword turning into a light that enveloped Lin Yi. He wanted to take advantage of the temporary stiffness caused by Lin Yi's return of his soul to kill Lin Yi in one go!

If she wanted to return to her empty body, she had to defeat or kill Lin Yi within three minutes. Otherwise, she would die with her body!

It wasn't safe to defeat him-her only goal was to kill Lin Yi!

"Hey, let's talk this out. Your body is already free. I can help you return to your own body. There's no need to go through so much trouble!"

Lin Yi's essence spirit returned, and his combat power instantly increased by several times. He was completely different from before as he easily blocked the martial artist's attack.

"Are you going to admit defeat? It's useless, even if I go easy on you. I have to defeat you with my real weapon!"

The primordial spirit of the female martial artist obviously did not buy it. The rules of the star Cloud tower did not clearly state it, but she had a feeling that taking the initiative to admit defeat and deliberately throwing the game to become an actress were all not allowed.

the star cloud tower encouraged killing, so it wouldn't leave any openings for people to exploit. lin yi had his guesses, but it wasn't a lie to say that he had a way to help.

the female practitioner's body was now empty. as long as the spirit could leave the body, it could return to the body. lin yi couldn't do anything when he was trapped in her body, but it was different when he returned to his own body!

the soul snatching hand was the simplest way to take out the primordial spirit. if she cooperated and removed all the defensive tools on the body, the success rate of the soul snatching hand would be very high. after all, the power of the starry cloud tower was mainly to prevent the primordial spirit from breaking free. it did not restrict the outside world from doing things like the soul snatching hand.

unfortunately, she didn't want to listen to lin yi's explanation at all. she was determined to kill lin yi!

she didn't believe that lin yi would be so kind as to help her when they weren't even family. lin yi had returned to his own body and completed the test. what reason did he have to help her?

she only had three minutes, and she didn't have the time to listen to lin yi talk about the bright future. she had to do what she had to do and take her fate in her own hands!

lin yi didn't know what to do. he wasn't related to this female martial artist, but they had no grudges against each other. if he could help, he wouldn't mind lending a hand, but she didn't believe him. what could he do?

the soul-devouring hand was a powerful divine sense attack, but the problem was that everyone here was a top-tier master of the tianji continent, and each of them had a top-tier divine sense defensive item. even with wu linghai's help, lin yi couldn't break through the effects of a top-tier divine sense defensive item in a short time.

If she could cooperate and remove the defensive items, she could still try, but Lin Yi could only watch and sigh now.

"Believe me, I really have a chance to help you. What you're doing is meaningless and only a waste of time ... Listen to me, I have a way to help you transfer your primordial spirit back to your own body!"

Lin Yi didn't have anything to do, and the enemy's attacks didn't pose any threat to him, so he continued to persuade them. He wasn't being merciful, but he just had nothing to do ...

Returning to his body meant that he had passed the test, but he still had to wait three minutes to give the body he occupied a chance to live. After three minutes, he would be able to leave this test space.

Lin Yi didn't care about the others, but this female martial artist was someone he had a bit of interaction with. He didn't mind helping her out, but if she didn't appreciate it, then he'd just let it go.

Two minutes passed quickly, and the chaotic battle was still the same. Other than Lin Yi, no one had completed the mission. There were too many people involved, and no one dared to fight with all their might.

It was understandable that the battle was in a stalemate when there were all sorts of traps and schemes. Lin Yi took some time to watch it, but decided that it was boring and decided to focus on dealing with the opponent.

In fact, Lin Yi could've just taken the guy down first, then taken off all the defensive items and tried to help with the soul-snatching hand, but the guy didn't want to, and Lin Yi didn't really have to help. He'd just deal with it casually and drop it after the three minutes were up.

The time was running out, and the female practitioner's spirit was probably panicking. She could tell that Lin Yi was strong, and she couldn't handle him in a short time.

Chapter 9239

In the last 15 seconds, she finally stopped and made a completely defenseless posture. "Alright, I believe you. Please help me transfer my primordial spirit back to my body!"

She didn't really trust Lin Yi, but she had no other choice. Time was running out, and she had to try her best.

Lin Yi's lips twitched. "You should've done this earlier. You've wasted so much time and energy. You've got nothing better to do!"

The female martial artist was anxious, "there's no time, please help me quickly!" How do you want me to cooperate? Please hurry up!"

If she said a few more words, the remaining few seconds would all be over, and she would naturally be finished too!

She really regretted it. If she had known earlier, she would have stopped earlier. Even if it was just ten or twenty seconds, it would have been better. She wouldn't have been so constrained like now!

"Alright, throw away all your spiritual sense defense tools, then don't resist, just relax!"

Lin Yi said one sentence, and she did one. By the time she finished, she had already thrown away all the defensive items.

"very good, just like that!"

lin yi smiled and used his hand on her. without the obstruction of any defensive items, it worked. however, the xingyun tower's restriction wasn't limited to the inside and not the outside.

the process of his primordial spirit leaving his body was a little slow. it was not as easy to pull his primordial spirit out of his body as it had been in the past. fortunately, it was still acceptable. he could complete the operation before these few seconds passed.

however, just as her primordial spirit was about to leave her body, someone suddenly launched an attack on her current body!

everyone's body was bound to something. no one had attacked her before, but that didn't mean that no one wanted to attack her. it was just that the time wasn't right. now was the best time. the body she had occupied was in an uncontrollable state.

ninety percent of her primordial spirit had already left her body, leaving only a very small part. if all of it left, leaving behind an empty shell, he didn't know if killing it would have any effect.

that was why the person who ambushed him chose this time. he thought that it was the perfect time to attack!

lin yi's eyes flashed. he didn't really care about this body's life or death, but now that he was helping someone transfer their soul, this guy had to do with him!

She raised her hand and shot out a Dragon-shaped killing intent, which blocked the opponent's attack path for her. Taking advantage of this opportunity, she completely pulled out her primordial spirit and sent it into her own body.

The three minutes were up!

The female cultivator still had a smile of surprise on her face. She thought that she could really return to her body. However, the star Cloud tower had no intention of letting her go. When the time was up, her life was completely ended!

If he wanted to pass the test, he had to defeat his opponent with his own hands!

This was the rule!

Even with Lin Yi's hand, he couldn't change the rules!

Lin Yi sighed as he watched the female practitioner turn into ashes. "I'm sorry, I tried my best!"

It was impossible for him to risk his life to save her, so once the three minutes were up, she would die without a doubt!

The chain reaction that followed caused the chaotic battle to collapse, but this had nothing to do with Lin Yi anymore. The two people who were related to him were dead, and he had passed the test. Lin Yi's eyes blurred, and he left the test battlefield and returned to the platform on The Thirteenth Floor.

The platform's core was burning like a star not far away, releasing a shocking amount of heat. Lin Yi's face was calm as he received the rewards from the tower in his mind. He also used his God's perspective to look at the entire tower.

The 14th floor was lit up, and the first team entered the 15th floor!

Just as he was about to catch up, the distance between them widened slightly. However, it was not a big problem. He was about to enter the 14th floor, and there was a high chance that he would catch up with the first group on the 15th floor!

The dark Demon beast race had the advantage in numbers, and they had all sorts of strange abilities. Lin Yi wasn't sure if he could defeat them, but it was something he had to do. He knew that there was a Tiger in the mountain, but he had to go to the Tiger!

There was nothing special about the reward for The Thirteenth Floor-it was the same as usual. Lin Yi's progress was very slow, and it wasn't that easy to complete it completely.

The incomplete incantation he had obtained could only be used to verify a little, but it was not of much use. Fortunately, the more star power he obtained, the stronger the strengthening of his body.

Lin Yi was confident that he had a huge advantage in the first group's progress from the incomplete chapter. The other's improvement couldn't be compared to his at all. In other words, the gap between their strength was shrinking.

After digesting the reward, Lin Yi was about to go to the 14th level when he received a message from the star Cloud tower.

The choice of a fork in the road!

There were three paths in Xuanji. The first path: After leaving the mark of the Nebula tower and becoming The Guardian of the pagoda, one would receive all the support of the pagoda, including all kinds of skills and endless power of the stars!

After bi an became The Guardian, he would be an undying and invincible existence in the star Cloud tower. The star undying body was the normal state, but there were even stronger explosive States!

[The second option: become an employer of the Nebula tower and accept various missions from the pagoda. After completing the missions, you will receive a certain amount of remuneration. Within the range of the Nebula tower, you can receive limited enhancements and blessings from the Nebula tower. After leaving the Nebula tower, you may be recruited by the Nebula tower!]

Qianqian could choose to reject the recruitment of Nebula tower. However, she must respond to the recruitment the next time. The number of times she could reject was equal to the number of times she could respond to the recruitment. If she exceeded her authority, she would be punished by Nebula tower, including but not limited to being hunted down!

[The third option: continue to be a challenger of the Nebula tower and challenge higher levels. However, the difficulty of advancing will be doubled. You will have to fight for whatever you can obtain. You will also be targeted by the Guardians and employers of the Nebula tower!]

Youyou has sixty seconds to consider. If you don't make a choice within sixty seconds, you will choose the first option by default, which is to become The Guardian of the Nebula tower!

Lin Yi's expression changed. There was actually ... Something like this?

On the surface, it seemed that becoming a guardian would bring the most benefits. Not only would he have countless Star Cloud tower skills and endless star power, but he would also be able to use the star undying body as a normal state. If the star Cloud tower was undying, he would be truly invincible!

However, Lin Yi knew that there was no free lunch in this world. The Nebula tower didn't specify what The Guardian needed to do, but it gave a bunch of benefits that were set as the default options.

So, wasn't it obvious? after becoming The Guardian of the Nebula tower and enjoying countless amazing benefits, he would lose his freedom and be trapped in the Nebula tower forever!

Chapter 9240 Power

He didn't know if there were any idiots who would sell their freedom for power and become a watchdog of Xingyun tower, but Lin Yi wouldn't do something so stupid.

He gave up on the first option and looked at the second option. The things that the employer of the pagoda could get for free would be greatly reduced. However, it was not a bad way to earn benefits in the form of mission rewards.

The problem was that after leaving the star Cloud tower, they still had the obligation to respond to the star Cloud tower's enlistment. This was very annoying!

It seemed that they could retain their freedom, but in reality, they were still under the control of the star Cloud tower. Who knew when the enlistment would become a life-and-death journey?

Lin Yi thought back to the martial artists he met just now. Maybe some of them were the employers of the pagoda? There shouldn't be too many other cultivators in the first echelon besides the darkness demon beast clan.

Lin Yi, on the other hand, was climbing at a much faster speed when he was alone-he should've been the one leading after the first group, and shouldn't have encountered so many practitioners.

So, some of them were hired by the star Cloud tower? To be honest, Lin Yi felt that it was better to be a guard than an employer. He wouldn't have freedom either, but at least he'd be invincible as a guard!

Other than that, Lin Yi was also guessing that the dark Demon beast clan might have become Xingyun tower's employers. If that was the case, it would make sense for him to encounter the dark Demon beast clan.

With the support of the Nebula tower, the dark Demon beasts could move around more easily. However, the employer had to listen to the orders of the Nebula tower and couldn't target Lin Yi. Otherwise, Lin Yi would probably meet more Dark Demon beasts!

After understanding the hidden traps in these two paths, Lin Yi didn't hesitate anymore.

"I choose the third option. I will continue to be a challenger of the Nebula tower!"

Lin Yi wasn't interested in waiting for the sixty seconds to pass. He made his choice right away-this was the time to catch up to the first group. He didn't have time to waste.

The star Cloud tower didn't send any more messages. It silently opened the portal to the 14th floor, silently allowing Lin Yi to continue the challenge.

Lin Yi exerted strength in his legs and charged into the tunnel. He started climbing the stairs as soon as he reached the 14th floor.

The gravity and repulsive force on the steps kept changing randomly, and the force was four times that of The Thirteenth Step!

The star Cloud tower was not joking when it said that the difficulty would be multiplied!

Lin Yi, who was standing on the steps, also felt an obvious tearing feeling. If it was a sea shattering realm warrior, he would have been completely torn apart the moment he stood on the steps!

But to Lin Yi, this level of change in gravity was still within an acceptable range. He was used to it, so he didn't feel too bad.

If he were to withstand the gravitational repulsion of this degree the moment he entered the stellar cloud Pagoda, he might be sent flying out of the astral stairs immediately. Right now, the most he could do was to slow down his pace a little.

Other than that, there were also more projected clones on the starry stairway. There were five of them. Although they didn't form a battle formation, they were all projected clones created by the star Cloud tower. Their joint attack power wasn't any weaker than that of a battle formation.

Lin Yi frowned. What kind of existence was the star Cloud tower? Was it a pre-set rule, or was there really a consciousness that was controlling everything?

Or could it be that even though it had consciousness, it could not break the established rules and could only move within the range of the rules?

Lin Yi thought about these questions as he easily defeated the clone on the first step. As the star energy in his body was refined and restored, his strength increased steadily. These normal clones made by the star Cloud tower were no longer a threat.

Unless it was one of the top bloodline experts of the darkness demon beast clan, a complete copy of it would cause a lot of trouble.

As he continued up, the difficulty of the projection clone and the starry stairs increased, but Lin Yi was still able to handle it easily. He quickly reached the thirty-third step!

"You again! They've been seeing each other a lot recently! Is this fate?"

Lin Yi stepped onto the 33rd step and saw the twelve clones of the Golden dark shadow Demon. He was speechless!

Was the star Cloud tower at its wits 'end? What's the point of always creating a projection clone of the Golden dark shadow Demon?

"This can be considered an ill-fated relationship! He he he!"

The Golden dark shadow Demon crossed its arms and smiled. ""Don't be surprised. I am a real clone, and the other 11 are the projection clones of the Nebula tower. However, the projection clones this time are different from the 100000 troops you encountered before. They are true full body projections!"

"In other words, these 11 projection clones are no different from my real clones. Be prepared. I won't let you escape so easily this time!"

lin yi shrugged nonchalantly, "you're saying so much because you think i'll be afraid? i'm not even afraid of a hundred thousand of you, so why would i be afraid of you?"

to be honest, after seeing 100000 golden shadow fiend clones, 12 was nothing to him. lin yi said that he was very calm and didn't feel any fear at all!

"it doesn't matter if you're scared or not. what's important is that you'll die here!"

the golden dark shadow demon sneered and waved his hand, telling his clones to get into position and attack lin yi.

Lin Yi raised his hand,"wait, wait. I'm curious. You've become a mercenary of the pagoda, right?" Was that why you were summoned to deal with me? Furthermore, we can't transfer more people over. Is it because the rules of the pagoda don't allow it?"

"Actually, how useful can a clone of yours be? No wonder you can only guard the 33rd step. The star Cloud tower also knows that you can't stop me, so they're just using you as a pawn to stall for time, right?"

It was a guess he'd made before, and he had more confidence now. It'd be best if he could confirm it, but it didn't matter if he couldn't.

The Golden dark Shadow Demon's expression didn't change as it indifferently said,""A dead man doesn't need to know so much. You only need to know that you're going to be finished soon! You dare to look down on me? Those who underestimated me are all dead!"

He didn't want to take it lying down. He felt that it wasn't his problem to be beaten by Lin Yi repeatedly, just like when the Army of 100000 projection clones surrounded Lin Yi.

If he had the right to command, he'd be able to kill Lin Yi in one shot-what was the point of all this?

It was different this time-not only was it a complete clone, but he had full control of it, too. He could do whatever he wanted with it, and the chances of killing Lin Yi were much higher.
