Chapter 9241 The Power Of The Devil

"You look pretty serious when you're talking big, I almost believed you! Fortunately, this was only the 33rd step. The difficulty was clear ... Speaking of which, how much did the star Cloud tower pay you when they recruited you to work? Is there any other support?"

Lin Yi didn't expect to get much information out of it, but it wasn't a bad idea to just buy time. He was gathering a new super alchemy fire bomb in his left palm behind his back!

Lin Yi didn't dare to be careless against the twelve golden dark shadow Demons 'clones. He had to prepare his killer move first!

"Don't talk so much nonsense! Are you trying to stall for time? I won't fall for your trick!"

The Golden dark shadow Demon wasn't an idiot. It quickly realized Lin Yi's plan and ordered its other clones to attack Lin Yi with all their might.

The twelve attacks exploded with a loud bang. Their coordination was seamless, absolutely perfect!

And the twelve golden dark shadow Demons seemed to be combining their attacks, all of their attacks were amplified to a certain extent. If it was a direct attack, Lin Yi didn't know if he could take it!

It was very likely that ... Even if he didn't die, he would be seriously injured!

As expected, the 100000 projection clones were all trash. The true golden dark Shadow Demon's connection was far more powerful than imagined!

Lin Yi didn't take it head-on. He activated the three appearances of Cloud Dragon and turned into a shadow, allowing the attacks to pass through him. His body suddenly appeared behind the Golden-dark shadow devil!

"It's useless! I've already seen through your moves!"

The Golden dark shadow Demon laughed out loud and sent out a stream of Qi behind him without looking back, piercing through Lin Yi's second afterimage, "As expected! It's actually there!"

The other clones launched their second wave of attacks at the same time, aiming at the space above the Golden Shadow Demon. As the Golden Shadow Demon spoke, it raised its head and saw Lin Yi.

However, the second wave of attacks still missed, and Lin Yi was still just an afterimage!

"Actually, I'm here!"

Lin Yi's mocking smile appeared in front of the Golden Shadow Demon, but he didn't see it immediately when he raised his head. He could only see it from the corner of his eye.

The black light ball exploded in Lin Yi's palm, instantly tearing the space apart, forming a dark void.

The Golden Shadow Demon's reaction was fast. It heard Lin Yi's voice and immediately flew back, but Lin Yi was faster. The new super alchemy bomb's explosion was also super strong, and it couldn't escape.

Shadowform!

At this critical moment, the golden-black Shadowfiend activated its shadowshape ability to weaken the damage of the new super alchemy bomb while sharing most of the damage.

He could fully control the 11 doppelgangers at the scene. They were not his real doppelgangers, so he did not feel any heartache using them. He directly threw most of the damage to them, and the remaining small half was split between the main body and the other 30 or so doppelgangers.

This way, the Golden dark Shadow Demon's real body and the real clones weren't affected much, but the projected clones felt a little uncomfortable. Fortunately, after splitting into eleven parts, it was still within the tolerance range, and Lin Yi didn't kill any of them.

Lin Yi felt that it was a pity. The new super alchemy bomb had almost reached its limit, and its power was beyond doubt. Under normal circumstances, it was possible to kill these golden dark shadow Demons instantly.

However, the golden-black Shadowfiend's life-saving ability was really strong!

Not only could the shadow reduce the damage, but it could also instantly split the weakened damage into dozens of parts to share with the other clones. It was difficult to deal with!

"Interesting, but this is far from enough!"

The Golden dark shadow Demon was surprised, but it still laughed and mocked, ""This can't be your most powerful attack, right? It was qualified to be used to scratch an itch. Other than that, was there anything more powerful? Don't Let Me Down!"

As it spoke, the Golden dark shadow Demon kept its distance from Lin Yi while sending out its clones to surround Lin Yi, not giving him a chance to attack again.

Lin Yi's body flickered as he used lightning movement and super limit butterfly micro steps together with the three Cloud Dragon appearances. He was extremely agile and played with the twelve golden dark shadow Demons 'clones, making them run around in circles without even touching their clothes.

If it weren't for the fact that these clones were all under the Golden dark shadow Devil's control, they wouldn't have been able to stop Lin Yi's movement technique at all.

"Hehe ... With the support of the star Cloud tower, you are nothing! With twelve bodies working together, he's already at this level? I'm the one who's disappointed!"

Lin Yi's mouth wasn't idle, either-trash talking was also an art of combat. The Golden Shadow Demon was trying to suppress Lin Yi in this area, but it was just dreaming!

"Don't talk big, you rat that only knows how to hide. Fight my clone head on! You don't even dare to fight me head-on, what are you trying to show off for?"

The Golden-dark shadow Demon didn't want to be outdone and retorted back, hoping to goad Lin Yi into a direct confrontation. The twelve clones 'combined attack was far beyond Lin Yi's normal state. This was the only way to win.

"I've never seen such a shameless person. You're 12 against me, and you won't let me Dodge? Do I have to fight twelve of you at the same time to be considered fair?"

"If you really have the ability, then come and fight me one-on-one. Let's see who's afraid of who. I didn't even say that you'll win by numbers, and you actually have the nerve to talk to me? Funny!"

Lin Yi curled his lips in disdain and activated the thousand changes of wood and forest. "I won't be scared of you even if we have more people! Come, come, come, let's see which of us has more clones!"

When he was facing the 100000 projection clones, the number of forest's thousand transformations clones was only a drop in the ocean. But here, the situation was immediately reversed!

Close to 1000 doppelgangers spread out and surrounded the 12 doppelgangers of the Golden dark shadow Demons. After forming a battle formation, their combat strength soared. It was already enough to close the gap between the sea splitting stage and the heaven breaking stage!

Then, he split up the clone formation of the other party, cutting them into individual units and attacking them one by one.

Lin Yi was right about one thing-this was only the thirty-third step, after all, and it wasn't too hard to go through a test.

Twelve golden dark shadow Demon avatars at the heaven breaking stage were an insurmountable mountain for ordinary cultivators at the great circle of the heaven breaking stage. It was almost impossible to remain undefeated under the siege of twelve avatars, and they could easily lose their lives.

But Lin Yi was different-he had a lot of experience in gang fights, be it fighting or being beaten up. It was a sure-kill situation for others, but it was just a small test for Lin Yi.

There was a limit to the number of thousand forest illusions, but Lin Yi's Qi was almost infinite. Even if his clones were destroyed, he could immediately make up for it, easily creating the illusion that it was endless.

Chapter 9242 Power

The Golden dark shadow devil had this feeling-it was being beaten up by Lin Yi's large scale battle formation. Each of the Golden dark shadow Devil's projection had the same strength as the main body, but they couldn't break out easily after being separated and trapped.

Facing the endless number of Lin Yi's clones and the new super alchemy fire bombs, these clones couldn't do anything ...

Shadow-form was indeed powerful, but there was a time limit. When the clone returned to normal from shadow-form, it would be the time for it to be destroyed!

A projected clone was only a projected clone. The damage was only shared between the projected clones, not the real golden-black Shadowfiend's clones.

The eleven clones were all hit at the same time, and the damage was still the same. In just a few seconds, they were all killed by Lin Yi's clones!

"Alright, you're the only one left now. We can finally have a one-on-one fight!"

Lin Yi smiled as he looked at the only golden-dark shadow Fiend left. It didn't look too good, so Lin Yi was in a good mood.

"Speaking of which, the star Cloud tower will support you, right? why don't you ask the star Cloud tower to create a few dozen more projections for you? Otherwise, you'll have to fight me one-on-one. "

Lin Yi reached out his hand and wrapped all the clones in it. "You're going to fight us all by yourself! They're all my clones, so I'm the only one fighting you. I didn't take advantage of you!"

The Golden dark Shadow Demon's mouth twitched and said coldly, ""Don't be too proud. Just like you said, this is just a small test on the thirty-third step. It's not a big deal."

"It's within my expectations that you can pass. I'm not interested in being entangled with you here. The next time we meet, I won't let you pass so easily!"

After saying that, the Golden dark shadow Fiend's body shook and instantly turned into fine particles, disappearing without a trace.

Lin Yi blinked. This guy didn't even resist?

Speaking of which, was this considered as him removing his clone? Perhaps this would make it easier for him to form a new clone in the future? Was it better than being killed by him?

It was very possible!

Lin Yi pinched his chin as he pondered. The Golden dark shadow Demon kept appearing in front of him. Other than the Xingyun tower's orders, perhaps it had its own purpose?

For example, the Golden-dark shadow Demon was constantly testing him to determine the depth of his strength so that he could be prepared when they really met.

Perhaps he should be more careful the next time they met and not reveal too many of his trump cards ... Speaking of which, were there any more trump cards that he had not revealed?

He wondered if the Golden Shadow Fiend's doppelganger that he had killed earlier had transmitted his memories back.

He couldn't figure it out, so he put it aside for now and continued climbing. It was still the projection's world after him, and the sixty-sixth step was no exception, which surprised Lin Yi.

He had encountered the Golden dark Shadow Demon's avatar on the 33rd step, and he had thought that there would also be a darkness demon beast expert waiting for him on the 66th step. He hadn't expected that there would be no one like him ... It was just an ordinary projection.

The difficulty kept on increasing, but Lin Yi was still at ease. He didn't feel much pressure and reached the Ninety-ninth step without any trouble.

When Lin Yi stepped onto the Ninety-ninth step, his heart was filled with vigilance and he was mentally prepared for a fierce battle. He had the Jade space to provide him with an endless supply of Qi, so he didn't use up much of his Qi. He wasn't afraid of a high intensity battle.

If it was any other heaven breaking expert, even if they weren't injured, their physical strength would have been almost exhausted.

However, what surprised Lin Yi was that there wasn't even a shadow on the Ninety-ninth step. For now, he was the only one on the platform, and the star Cloud tower didn't give him any notifications.

In the center of the platform was the lit up core, burning like a star. Lin Yi spread out his spirit sense and didn't find anything unusual.

Could it be that there was no more test this time? Or was it because there weren't enough people, and he had to wait for others to arrive before he could participate in the test?

Just as he was thinking about it, the star Cloud tower finally responded and sent a message to clear the 14th level's test. As long as the incomplete formation map was completed, he would be able to clear the level!

Lin Yi blinked. Complete the formation? He was good at this!

Didn't they say that the difficulty would be increased? Why did it become so simple? He was almost embarrassed!

Lin Yi didn't dare to say that he was the number one Grandmaster on the sub Island, but he was indeed one of the top people. As a challenger of the star Cloud tower, he felt that the star Cloud tower was biased towards him!

The confident Lin Yi rubbed his palms together, ready to pass the test as fast as he could. The first group was still on the fifteenth floor, and as long as he passed the test, he'd be able to catch up to them!

On the same level, the difficulty of catching up would drop sharply, and they might soon encounter the first team!

The star Cloud tower showed Lin Yi the incomplete formation for the test, and Lin Yi almost couldn't help but curse!

What the f * ck!

This is called a formation diagram? It was simply a sea of stars!

A starry sky appeared in front of him, seemingly boundless, but the whole picture was projected in his mind the moment he saw it.

It would be more appropriate to call it a star map than a formation map. Lin Yi looked at it and was dumbfounded, not knowing where to start!

"Senior ghost, come out and help me take a look!"

Lin Yi started shaking people away helplessly. If he had nothing to do, he wouldn't mind studying it, but time was of the essence right now. He was about to catch up to the first group, where would he have the time to study it?

One person had less foresight than two people had more foresight. In terms of formation path, this damn thing was quite reliable!

The demonic thing's divine sense swept out from the Jade space, and when it saw the star map, it couldn't help but praise,""How magnificent! Using the universe as a chessboard and the sun, moon, and stars as chess pieces to construct such a Grand formation, impressive!"

"I know it's powerful. Senior ghost, just tell me if you understand this incomplete formation diagram!"

Lin Yi ruthlessly interrupted the ghost's praise and urged him to complete the formation, "I have no clue at first glance. Senior ghost, if you understand, quickly help me complete this formation diagram!"

Only by finishing this thing could one pass the test and enter the fifteenth floor!

"I don't understand it either ... But it's okay, I'll understand after looking!"

The damn thing admitted its lack of knowledge without a care and threw itself into the research with high interest. "This star map is too huge. Let's not look at its entirety first. Let's divide it into different areas and slowly eat it up bit by bit!"

Lin Yi nodded slightly, "I think so too, but we have to pay attention to the overall situation. If we only focus on the small Parts, it's easy to make mistakes without realizing it. It'll be difficult to adjust later."

Chapter 9243 The Power Of The Divine Realm

"You're right. How about this? I'll divide the areas, and you'll focus on the overall situation. Then, you'll help to study the areas and reflect it to the overall situation for verification!"

The demonic thing gave Lin Yi the leadership not only because it was Lin Yi's mission, but also because Lin Yi's attainments in the field of formations had already surpassed his master. In some ways, Lin Yi might even be better than him.

And so, the ghost was willing to let Lin Yi lead it, and it felt a bit happy, as if it was watching its own child grow up.

"Good! We'll start immediately. Senior ghost, you can divide the areas!"

Lin Yi didn't decline and got into the zone immediately. He had the ability to multitask-he could plan the overall situation while studying the areas, and he could also compare the areas he'd studied with the ones he'd found. It was more efficient.

The demonic thing replied and quickly divided the star map into thirty-six regions. He and Lin Yi each chose a neighboring region and started studying.

Although the two of them had never seen this kind of star map-like formation map before, as long as it was a formation, it could not be separated from the foundation of the formation path. As the saying goes, no matter how many changes there are, the root remains the same. No matter how large or how complex the formation was, at the end of it all, it was still composed of the most basic things.

The problem was whether or not they had the ability to break it down to the most basic level. Without a doubt, Lin Yi and the damn thing were both top grandmasters in the field of formations, and they definitely had the ability to do so!

The array diagram that was as vast as the starry sky was an unsolvable problem to others. There was nothing wrong with the star Cloud tower using this to increase the difficulty.

Even with Lin Yi's help, it was still difficult to complete the formation.

"Kid, did you realize that this is almost a new array path system? fortunately, there are still some traces to follow, and I can still have some ideas."

The damn thing spoke to Lin Yi as it studied, a hint of admiration in its tone. "I've never heard of such an array Dao system before. It's also very different from the sub Island 's. Today, this old man's eyes have been opened."

"Yup! I've never seen this type of formation before. It's really amazing, and I don't know what this formation is used for yet ... The star Cloud tower has this kind of formation, so the treasures it contains are really incomparably rich!"

Lin Yi nodded in agreement. Not to mention the endless star power and all kinds of star power skills, just this new array path system was enough to be considered a great harvest. It was worth the trip.

Lin Yi was happy with the test this time. He didn't feel that it was difficult at all, because the process of completing the formation was the same as learning this new formation system. He had a strong ability to deduce things, and it wasn't just in terms of skills, but also in formations.

As long as he could find some clues, his learning speed would increase by leaps and bounds. It wouldn't be long before he could truly grasp the new array Dao system. Thus, putting aside other gains, just obtaining it was enough to make this trip to the Nebula tower worthwhile.

"Do you have any thoughts? I've found some clues, and we can already cut in. "

The ghostly thing's voice carried a hint of excitement. He could not help but feel proud that he was able to find the end of the thread so quickly in a mess.

Finally, he could beat Lin Yi in terms of formations! As expected, the student may surpass the master, but not necessarily better-hahahaha, you still have a long way to go, Lin Yi!

Lin Yi didn't notice the gloating expression on the ghost's face and replied casually, "Senior ghost is indeed senior ghost! He was indeed reliable! I've already started researching and deducing it. I'll verify it later to determine if my train of thought is correct. "

The ghostly thing was speechless. It was not easy to show off, but now it was going to be beaten up by society? As expected, teaching the disciple would starve the master!

It was nothing!

"That's good ... That's good ... Let's focus on our research and deduction. Stop talking!"

After saying that, the demonic thing started to focus on the formation. He wasn't as multi-tasking as Lin Yi, and talking would only delay things. In order to not be overpowered by the disciple he taught, he had to give it his all.

At least ... He couldn't lose too badly!

Lin Yi nodded and started studying the map for a while. He suddenly remembered something and activated the thousand changes of wood forest, creating a bunch of clones to study the other areas.

Even though the clone's battle prowess was a whole level lower than the main body, there wouldn't be much of a difference in their array knowledge.

Don't you have a large area? I have quite a few clones too!

It was not a problem at all for the clones to study other areas as if they were independent individuals and cooperate with the main body!

In this way, the speed of research and deduction was greatly increased, and it was also easier to verify each other. Although he didn't know how long it would take to complete the formation map, at least it was on the fast track.

The ghostly thing was speechless. He had just been thinking of working hard so that he wouldn't lose too much, but now he was still playing?

So, why did you call me out? Are you trying to show me that your array Dao talent has already far surpassed this old man, your master?

It really ... Wasn't very harmful, but extremely insulting!

Of course, the damn thing knew that Lin Yi wouldn't have that kind of thought. He was just mocking himself in his heart and joking with himself.

In fact, although the ghostly thing and Lin Yi had the same path in the field of formations, their development direction was already different. They each had their own strengths and could complement each other.

Lin Yi didn't ask the ghost to come out for a walk-he really could help!

Not to mention the little quarrels in the ghostly thing's heart, with the help of the many avatars, the research progress of the star map was rapidly increasing, and it soon entered the stage of deduction and completion.

Lin Yi made a bold assumption and tried to verify it carefully. There weren't many obstacles, and everything went smoothly. After a long time, he finally completed this starry sky-like formation!

"Great success! What a spectacular sight!"

The ghostly thing looked at the vast starry sky formation map that appeared in front of him and couldn't help but sigh. "This is the first time I've seen such a perfect and spectacular formation. It's an eye-opener, an eye-opener!"

Lin Yi smiled and nodded, "indeed!" However, this formation diagram ... Senior ghost, do you feel that there's something wrong with it?"

As soon as he said that, the ghastly thing could not help but be slightly startled. "What's wrong? Do you think there's something wrong?"

Lin Yi's smile disappeared as he frowned. "I can't say for sure, but I just feel that something is off. This starry sky array is mostly used to break seals, and if it's in the hands of the darkness demon beast clan, the seal on the node won't be a problem at all. It'll be as fragile as paper."

Chapter 9244-The Power Of The Divine Realm

"By then, the dark Demon beasts in the entire Node world will be able to break through the node and attack the sub Island. The consequences will be severe!"

"The only good thing is that it's difficult to set up this kind of formation, and it requires a massive amount of power of the stars. I don't think the darkness magical beast clan will be able to set up a formation even if they learn it."

The ghastly thing pondered for a moment and nodded, ""You're right, so you don't have to worry. Let's not talk about whether the darkness demon beast clan has the ability to set up this formation, but think about whether they have the ability to learn it first!"

"This old man can't deny that the darkness demon beast clan's talent in battle is truly extraordinary, but they don't have any great abilities in the field of formations. Rather than worrying about whether they can set it up, it's better to worry about whether they can learn this formation first!"

Lin Yi couldn't help but smile-she was right!

They didn't even know if the darkness demon beast clan could learn this formation, so how could they set it up?

With Lin Yi's ability, he had learned the formation, but it wasn't easy to set it up. The vast amount of star power wasn't something that could be taken out easily.

However, Lin Yi still had an inexplicable feeling towards this starry sky formation. He couldn't figure it out no matter how much he thought about it. He could only put it aside for now and think about it later.

The rewards had been given out, but Lin Yi didn't really care. They were just the normal things, just a little more than the previous floor.

In fact, the biggest reward for this level was the completed star formation. In the process of studying the completed star formation, Lin Yi had learned it and opened a new branch of the array path, which was invaluable to his growth in the array path!

In comparison, the power of the stars, the incomplete incantations, and so on were really nothing!

"Alright, the matter has been resolved. This old man will return to continue his research. You should also be careful and don't force yourself. If you need help, feel free to find me!"

The damn thing greeted him and went back to the Jade space. Lin Yi didn't stop and went through the tunnel, entering the fifteenth floor!

He didn't know how much time he spent studying the formation, but the first group didn't take the chance to widen the distance. They were still on the 15th floor when Lin Yi entered.

Lin Yi didn't even have time to celebrate when the 15th level lit up as soon as he stepped onto the stairs. The first group passed the test and entered the 16th level!

"I'm really unlucky! Just a little more!"

Lin Yi mumbled softly and gathered his energy to speed up the stairs. The other had just passed, and the gap was getting smaller and smaller. They might be able to catch up if they put in more effort!

Looking at it optimistically, he could probably catch up to the first group at the 16th level. No matter how bad it was, he should be able to catch up to the 17th level!

Don't panic, there's chasing!

Lin Yi didn't know if it was an illusion, but he felt that the strength of this floor was weaker than the fourteenth floor.

According to the previous Nebula Pagoda's nature, the difficulty would increase with each level. It shouldn't have been so easy. Could it be that his strength had increased, so he felt that the difficulty of the fifteenth level had not increased, but had even decreased?

He had chosen the Challenger's path, and the star Cloud tower had said that the difficulty would increase greatly. There was no reason for them to give him such preferential treatment!

Lin Yi was confused, but he didn't think too much about it. It wasn't a bad thing that it was easier to block them-he could go faster, so why not?

There were no special guardians or employers on the 15th floor, and Lin Yi reached the 99th step with an unstoppable force. He didn't know what the first team was like on the 16th floor, but it was good news that they didn't light up the 16th floor!

"Come on, hurry up and take out your test. What trick is it this time?"

Lin Yi stood on the Ninety-ninth step and looked at the center of the platform, calmly observing the situation.

The fact that the teleportation channel had not appeared naturally meant that one could only leave this level after passing the test. He wondered if this time it was another wonderful task like completing the starry sky formation map.

If it really was a test like this, Lin Yi hoped that there would be more!

The star Cloud tower didn't make Lin Yi wait long-they sent a message to kill the employer who blocked their way!

Lin Yi's lips twitched-another combat test? This was a relatively simple test, as long as they won the fight.

"Come out, employer. Let me see how many people you've prepared to join forces to stop me this time!"

Before Lin Yi could finish his sentence, a tall and well-proportioned man appeared on the platform. He had a cold aura about him, but his looks weren't ordinary. He would be a Prince Charming in the outside world, the kind that could attract a bunch of fangirls.

The man crossed his arms in front of his chest, his aura hidden. Lin Yi couldn't see his true strength level, and he couldn't tell if the employer was a human or a Dark Beast.

"I'm out. I don't need many people to deal with you. I alone am enough!"

The man smiled arrogantly, "you're not my match to begin with. In addition, the hirer has the support of the Nebula tower. What do you have to defeat me?" If you obediently admit defeat, you can suffer less pain. If you still want to put up a stubborn resistance, you will only make yourself suffer. "

"Listen to my advice. Surrender now and save yourself from the pain. Instead of being tortured by me, why don't you just admit defeat and surrender? isn't that great?"

Lin Yi smiled, "you're the one who's good at bullshitting. I admit defeat. I just don't know if you're as strong as you say you are."

"Hehehe, you'll know very soon that I never talk big. Since you're not willing to surrender, then wash your neck clean and wait to be stabbed!"

The man's face was full of disdain as he pointed his right index finger at Lin Yi, shaking it left and right. "Should I give you some time to leave your last words? Otherwise, when we start fighting later, I'm afraid you won't even have the chance to say your last words. You see, I'm still a very kind person, right?"

"Heh ... You're the one who needs to leave behind your last words, right? But seeing as you've been talking big, I don't think you have the need for it. So, let's cut the crap and show me what you're capable of!"

Lin Yi extended his right index finger as well, but in a different way. He hooked it at the man, "Come over here!"

Secret taunting technique, come over here!

For some reason, the man felt that he was being provoked. His face darkened and he snorted coldly, ""Since you can't wait to die, I'll fulfill your wish! Are you ready to welcome your death?"

Before he could finish, the man shot out like a cannonball and threw a punch at Lin Yi!

Chapter 9245 Power

Lin Yi was able to sense the opponent's strength as he made his move-it was a peak mid heaven breaking realm, and there was a Dark Demon beast's aura coming from him. He was no doubt a master from the dark Demon beast clan!

The problem was that he was merely at the peak of the middle stage of heaven breaking ... Who gave him the courage and confidence to say such big words? He was simply shameless!

After absorbing a large amount of star energy, Lin Yi's strength was now at the peak of late-stage heaven-breaking, and if he successfully reached the peak of the Nebula tower, he would at least be at the peak of heaven-breaking.

The Supreme realm still needed time to build up, and it wasn't that fast, but Lin Yi was undefeatable in the heaven breaking realm. Where did this guy get the confidence to think he could beat him when he wasn't even his level?

"What a weak and powerless fist. Are you fighting or giving me a back massage? This kind of attack, how can you show it off?"

Lin Yi continued to taunt him mercilessly. He didn't even bother to use those powerful skills. He just threw out a slap and easily slapped the fist away.

The man who attacked from high up in the air was immediately exposed. In addition, he was in the air and could not change his move. For a moment, he was surrounded by danger and was simply sending himself to the door!

Lin Yi didn't hold back and lifted his leg, using a basic skill from a long time ago, the raging fire thousand legs!

The flames swept through the air, and the mercenary let out a loud cry. His entire body was swallowed by the endless shadows of the kicks and flames, and in the blink of an eye, he exploded in the air.

Lin Yi's mouth twitched as he pulled his leg back, still in disbelief.

Although the other party's strength was indeed a little weak, not as strong as his current strength, it didn't seem reasonable for him to die like this, right?

No matter what, this was the final test of the fifteenth level. There was no reason for it to be so weak, right? Was the star Cloud tower deliberately going easy on him?

Lin Yi hadn't even finished thinking when the man in the air reappeared. The blood and flesh seemed to have been pulled together by an invisible force, and he returned to being the arrogant man again. Not a drop was wasted.

It was completely intact!

"Wow, you have some strength. No wonder you're so arrogant! But I've already said that you're dead. You're no match for me with this little ability!"

The man returned to his original position and laughed with his hands on his waist. "How was it? I deliberately gave you a surprise just now. Are you really happy? Do you think I'm going to be killed by you? Hahahaha, I was just lying to you! How does it feel to be happy? Are you very angry?"

Lin Yi raised an eyebrow, but didn't retort. He was trying to recall the scene.

The guy in front of him had indeed been kicked to death by his wild fire thousand legs. Whether it was his sight, touch, or even his divine sense, he was definitely dead.

But why did he suddenly become as good as before?

Could it be that this guy was immortal?

"Are you speechless? Or was he directly frightened by me? Hahahaha, he's really as timid as a mouse! Boring, boring, I'll have to find some fun myself!"

The man twisted his neck and laughed in a low voice. "Next, it's time to get serious! It's too late to beg for mercy now! I will definitely kill you! However, if you beg for mercy, I will let you die a quick death without too much torture!"

Lin Yi curled his lips, "you're full of bullshit. People who've died once should know how to treasure their lives!" You can't wait to die again. Do you have masochism?"

the man snorted."being stubborn now won't help you. come on. take this!"

the man's words resonated in the air, and everything seemed to have gone back to normal. the man charged at lin yi with all his might, trying to knock him down with one punch, but lin yi did the same thing.

first, he slapped away the man's fist, causing him to be in the air with the door open and unable to dodge. then, he used the wild fire thousand legs to sweep up!

it was still an instant kill without any suspense. the flames and leg shadows intertwined in the air to form a large net, completely tearing the man's body apart. it was extremely easy.

but lin yi wasn't happy. he frowned as he looked at the blood and flesh in the air.

as expected, the flesh and blood fireworks that had just bloomed were pulled back by an invisible force before they fell. they gathered together again and returned to the appearance of the man from before.

this was expected, and lin yi didn't mind. what really caught his attention was that the man's attack was much stronger than the first time!

If the first attack was an attack from a cultivator who had just entered the peak of the middle heaven breaking stage, this attack was an attack from an experienced cultivator at the peak of the middle heaven breaking stage! There was a clear difference between the two!

Did that guy really hide his strength from the start?

If that was the case, it would be fine. Lin Yi was worried that he might have some weird ability, like getting stronger every time he was killed ... He couldn't kill him, but he got stronger and stronger!

However, the possibility of this happening shouldn't be high. If it really had such heaven-defying abilities, this guy would have long flown up to the sky and stood shoulder to shoulder with the sun. How could it still have its current strength?

Perhaps this was a convenience that the star Cloud tower had given him when they hired him? Was it the kind of skill that was similar to the star indestructible body?

In that short period of time, Lin Yi had thought of many possibilities and conjectures, but he couldn't confirm them yet. The guy opposite him had already recovered.

It wasn't right to say that he had recovered. His strength had already entered the late-stage heaven breaking realm, and his aura had risen a lot. He was really getting stronger every time he died. If this continued, wouldn't his strength break through the horizon?

"Not bad, not bad! Interesting, I was just giving you some benefits to make you happy before you die. Don't take it seriously, I was just playing with you. With your strength, you have no chance of killing me!"

The man still had his hands on his hips and laughed wildly. "Was there a moment when you really thought you had killed me? Was that why he was so excited? Hahahaha, I'm really a kind person, to let you enjoy such luxurious pleasure before you die. "

"Now that the preferential treatment time is over, you really have to be prepared, I'm going to kill you! Are you sure you don't want to leave behind any last words?"

Lin Yi looked at him expressionlessly, "Alright, it's hard to listen to your nonsense. Hurry up and kill me, I can't wait! Please hit me this time. You can't even touch the corner of my clothes ..."

"I'm really curious how you want to kill me. Killing with his eyes? Or are you going to nag me to death with your broken mouth? That means you're really close to success. I'm already annoyed to death listening to your mumbling!"

Who didn't know how to shoot their mouths off?

Chapter 9246 Power

Lin Yi didn't mind bickering with him for a while-it'd only get more troublesome if he didn't figure out how he didn't die. Maybe he'd get some clues from bickering!

"But then again, other than being a bit talkative, you're not completely useless. At least there's something redeeming about you. For example, your unkillable characteristic like a cockroach, which really makes me look at you in a new light! Is this why you dare to challenge me when you're single?"

The man's brows rose slightly, feeling slightly puzzled. ""Who's Xiao Qiang? Forget it, that's not important. What's important is that you've finally discovered my undying body's special characteristic!"

"That's right. I'm not afraid to tell you the truth. I have the powerful ability of an immortal body. No matter how powerful your attack is, I won't die! And every time I get injured, it will be converted into my strength, and in a short period of time, I will be able to improve to a level that you can't even hope to reach. "

"Now do you understand how powerful the opponent you are facing is? You'll really die after that. If you're sensible, you should end your own life and save yourself a lot of pain. "

"If you're willing to take your own life, I can give you a chance. If you really can 't, I don't mind dealing with you myself. But if I do, you won't even have the chance to die a quick death. You'll definitely enjoy countless torture methods!"

Torture? Could it be more interesting than the things in the Jade space, the Starlight Magi, and the other old guys? He could find an opportunity to get this guy in so that they could communicate, but it was just the old guys communicating, and he was going to be an experimental subject.

"It doesn't matter," Lin Yi said calmly, "just do whatever you can. I'm only interested in your status in the dark Demon beast clan." You're the underling of the Golden dark shadow devil?"

"Looking at your ability, you seem to have some skill. Unfortunately, you are still below the Golden dark shadow Demon. The Golden dark shadow Demon was beaten to a stray dog by me. You, the Golden dark Shadow Demon's guard dog, sure knows how to bark!"

"Unfortunately, I've already seen through your facade. As the saying goes, a dog that bites doesn't bark, and a dog that barks doesn't bite. You're barking so loudly, but you really don't have the ability to bite!"

Testing, taunting, taunting-Lin Yi was very familiar with the way he spoke, and with just a few words, the man's face turned green with anger.

"Bah! Who are you calling a guard dog? So what if it's a golden dark shadow Demon? Wasn't it just that the bloodline sounded nicer? I'm not any weaker than him!"

The man seemed to have been hit where it hurt-the veins on his neck were popping as he argued with Lin Yi, "If we really fight, he's not my opponent at all! So what if he had more clones? I'm immortal! As long as he can't kill me, he can only watch me crush him!"

It was a nice way to put it, but Lin Yi could feel that the guy wasn't confident enough!

To put it more bluntly, he didn't have a domineering attitude. For example, who was the Golden dark shadow Demon? he could crush it with one finger.

The man grabbed his undying body and said something, clearly implying that he couldn't beat the Golden dark shadow Demon ...

Lin Yi's lips curled up-this guy's words revealed some useful information, and it was just as he'd guessed-he'd get stronger every time he reincarnated!

Yingying, this doesn't seem to be something to be happy about!

However, there should be a limit to this characteristic of his, and it could not be stacked infinitely. Otherwise, no matter how strong the dark gold Shadowfiend was, it would definitely not be able to suppress him. This time, the leader of the darkness demon beast clan should be this guy!

So Lin Yi was sure that this guy wasn't truly immortal-he had a way to kill him!

"Is that true? You're obviously bragging. I tried to convince myself to believe you, but I really can't lie to myself! So, what do you think I should do? I can't even cooperate with your performance!"

Lin Yi spread out his hands helplessly, "If you can really resurrect infinitely and become stronger, what's the point of the Golden dark shadow Demon? You'll be able to rise to the top and turn the Golden Shadow Demon into your guard dog!"

"But the current situation is that the Golden dark shadow Demon is your master, and you are its guard dog. What's the point of saying so much? It only proves that you're an incompetent person!"

"Weren't you just a Blabbermouth? Continue! Why is your face so black and you're speechless? Did I hit a sore spot? Do you want to cry? Don't worry, just cry, I won't laugh at you ... I'm a professional in this area, I won't laugh unless I really can't hold it in!"

The corners of the man's mouth twitched, and he couldn't take it anymore and shouted, ""Damn bastard, are you looking for death? I'll fulfill your wish!"

"Yo, yo, yo, you're angry from embarrassment, right? Sure enough, I was right, you're a useless guy, a guard dog that only knows how to bark. Come, come, come, hurry up, your master, the Golden dark shadow Demon, can't do anything to me, I want to see how capable you are!"

Lin Yi smiled faintly and hooked his finger at the guy. The guy didn't admit it, but Lin Yi could tell from his reaction that he was right!

The so-called undying body was not really undying. There was a way to kill him, and the characteristic of increasing strength after resurrection also had its limits!

There was a fight!

The guy was pissed off by Lin Yi, and he charged at Lin Yi, throwing a punch into the air!

He'd already envisioned what would happen next-Lin Yi would slap his fist away, and then kick him into the air with countless flaming legs.

The next second, he was resurrected again. His strength had greatly improved, and he continued to attack!

He'd been talking big just now, and with Lin Yi's strength, he felt that he wasn't a match for him yet. He'd probably have to give up another three or four kills before he had a chance to overtake and crush Lin Yi!

Everything was under control!

Although he was angry, this guy still thought that he was very calm and had an accurate judgment of the situation. Therefore, he was mentally prepared to be blown up again.

Lin Yi, however, didn't cooperate this time!

Lin Yi activated his super butterfly micro steps and dodged the punch easily. He didn't even try to block it.

He avoided it? He avoided it!

That guy was a little dumbfounded. You're not going to hit me? How am I going to die if you don't hit me? If I don't die a few more times, how can I turn the tables on you?

You don't play by the rules!

The confused guy subconsciously chased after Lin Yi after landing on the ground. As an elite of the dark Demon beast clan, this was a Basic Instinct.

However, he wasn't as strong as Lin Yi, and his speed was a world apart. He couldn't even touch the corner of Lin Yi's clothes as he chased after him.

Chapter 9247

"Hey, hey, hey! What are you hiding for? If you have the ability, then fight head on! Didn't he say that he was very awesome just now? Can't you just fight normally?"

The guy was starting to panic-he attacked seven or eight times in a row, but all of them were in the air ... He didn't expect to kill Lin Yi with his current attack power anyway.

If he wanted to kill Lin Yi, he would need to increase his strength by a lot, so he wanted to use his attacks to trigger Lin Yi's counterattack. It didn't matter if he could hurt Lin Yi or not, as long as Lin Yi could kill him.

Could such a humble request not be satisfied? Was there any justice in this world?

"I'm giving you a chance to show off," Lin Yi chuckled, "who asked you to be so fragile? you used your life to show what it means to be vulnerable. I just touched you and you exploded ..."

"Speaking of which, are you really from the darkness magical beast clan? The darkness demon beast clan's bodies had always been very strong! How come you're as crunchy as tofu? Could it be that you're not a pure-blooded darkness demon beast? But the legendary ... Bastard?"

That guy's face turned green. If you want to fight, then fight. If you want to mock me, then mock me. But this is a personal attack!

"Are you done with your performance? If it's over, then I'm going to make a move! Don't doubt me, I will definitely beat you up again!"

Lin Yi wasn't just dodging-doing so would help him avoid resurrecting his opponent, but it wouldn't help him pass the test at all.

If he couldn't win, then he'd have to accept the result of failure, and so Lin Yi had to kill his opponent in the end. In order to get rid of his immortal body once and for all, Lin Yi was secretly making balls as he dodged!

A new type of super pill fire bomb!

Once it was condensed to the limit of control, the power it released was enough to annihilate all matter within the range of the explosion. Even if it was blown up, it could still regenerate.

What if all the flesh, blood, and bones were destroyed and turned into nothing? Can I still live?

The guy didn't know what Lin Yi's plan was, and when he heard that Lin Yi was finally going to make a move, he wasn't surprised, but happy. He stopped attacking Yingying since he couldn't hit her, so he didn't want to waste time.

"Come, come, come, I'll stand still. If you have the ability, come and fight me! I'll hide for a bit and I'll take your surname in the future!"

As he spoke, the guy really did stand on the spot with his legs apart and his hands raised. He was like a giant character, waiting for Lin Yi's attack with an awkward smile.

If he died again, his strength would increase greatly!

After he was resurrected, it shouldn't be so difficult, right? At least he'd be able to kill Lin Yi more easily ... The guy never thought that he'd be able to kill Lin Yi after resurrecting this time, he only wanted to die a little easier the next time ...

Lin Yi's lips curled up into a meaningful smile as a new super alchemy bomb was formed in his left palm.

Although he had not reached the limit of control, the power contained in it was already quite powerful. It was more than enough to deal with this guy who was completely defenseless!

"I don't want you to taint my family name, so you'd better not move and let me kill you. Alright, let's cut the crap. Are you ready?"

Lin Yi activated his super limit butterfly micro step to its maximum before he could finish his sentence. He appeared in front of the man as if he had teleported. He reached out left and right like lightning, pushing the black ball in his palm towards the man's chest.

It was dangerous!

That guy suddenly felt a shiver from the depths of his soul. This was the taste of true death!

Time seemed to stop at this moment. He realized that if Tao Wu took Lin Yi's attack head-on, he would be turned into ashes!

Escape!

He had to escape!

There was great Terror between life and death, and it could also stimulate the greatest potential!

Facing the black ball of light in Lin Yi's palm, this guy suddenly exploded with a strong desire for survival and reaction speed!

Just as he was about to hit, he dodged to the side with a speed no slower than super butterfly microstep, trying to escape Lin Yi's attack at the last moment.

"Stop struggling, you can't run!"

lin yi shouted as the new super alchemy bomb in his palm exploded, but the power of the explosion was controlled. it turned a small arc and chased after the guy!

"no!"

the black power of annihilation spread out in an instant and swallowed him whole. he didn't even have time to let out a scream before the rest disappeared into the darkness.

lin yi frowned-he'd had precise control of the attack, focusing it on a certain area and annihilating the enemy's every cell, but that last dodge was out of his expectations.

even with lin yi's emergency adjustments at the last moment, he couldn't perfectly cover all the cells in the guy's body. a small half-no, only a fifth of the head fragments flew out of the explosion range and didn't completely annihilate it!

lin yi was about to finish them off when the pieces were wrapped in star power and disappeared in a flash-even his spirit sense couldn't find them.

if he didn't pay close attention to the situation of all the fragments, lin yi might've been fooled and thought that the guy was completely annihilated by the power of the new super alchemy bomb!

did the star cloud tower interfere?

Lin Yi was suspicious, but immediately rejected the thought. If the star Cloud tower could interfere, he wouldn't be able to survive. The power of the stars this time was more likely to be a blessing and enhancement that he had obtained from the beginning as the employer!

It would strengthen his ability to save his life!

There was no notification in his mind that he had passed the test, so that guy was still alive and well!

Lin Yi looked around-the new super alchemy bomb hadn't even settled down yet, and there was a spatial fluctuation not far away. The guy reappeared, but with a bit more fear and anger on his face!

"Dammit! Damn bastard! You almost, almost killed me!"

The angry roar could not cover up the fear in his heart. He had the characteristics of an immortal body, and it had been a long time since he had experienced the horror of losing his life!

Fortunately, he had activated his potential and successfully escaped. If he had been delayed for even a moment, he would have really died!

"Ha ... Didn't you want me to kill you? Didn't you say you would stand still? Didn't you say that you wouldn't hide? It turns out that your words are no different from farts! Not only is it smelly, but it's also meaningless!"

Lin Yi smiled teasingly as he shook his right index finger."At your level, killing you isn't worth showing off at all. On the contrary, not killing you is a little embarrassing for me!"

The new super refinement fire bomb was indeed effective. Lin Yi hid his left hand behind his back and started forming a new super refinement fire bomb, preparing for the next attack.

Now, they could distract the other party by talking, which was a good way to delay time.

The guy's entire body was trembling, not sure if it was from fear or anger ...

Chapter 9248 Power

"Damn bastard, I'm going to kill you! Your tricks are useless against me. I've already seen through your tricks. You can't hurt me anymore!"

His strength had undoubtedly increased by a huge amount, but the gap between him and Lin Yi was still there. It was impossible to fight Lin Yi with his current strength level!

"Okay, okay, I know. Since you want to kill me, then come quickly! It's my turn to stand here and wait for you to attack!"

Lin Yi shrugged nonchalantly, "Just now, you said that if you dodged, you would take my surname. Now, it's my turn. If I dodged, you wouldn't have to take my surname! How is it, am I good enough? I've given you a chance to turn the tables!"

The guy opposite him was so angry. You obviously don't want me to take your surname, so you said that on purpose so that I don't take your surname, right?

What did you say about standing still and letting me hit you? you're clearly saying that you're going to Dodge! Do you think I'm an idiot?

The roar in his heart was unwilling, but he was too embarrassed to say it out loud. The other party was treating him as a fool, and he couldn't possibly rush to take the same action, right?

"Come to think of it, you're still not strong enough. Even if I stand still and let you hit me, you probably won't be able to kill me. If you can be resurrected again, you might be as powerful as me!"

Lin Yi continued to provoke the guy-he didn't lose anything, and it'd be best if he could piss the guy off!

That guy was screaming in his heart to calm down, but his brain was still hot with anger!

The situation was a bit awkward now. He wanted to kill Lin Yi, but he was too weak to fight Lin Yi. It was just like what Lin Yi said-he couldn't do anything to Lin Yi!

He'd need Lin Yi to kill him two or three more times if he wanted to keep getting stronger ... But that terrifying scene just now, just thinking about it made his heart shiver!

Endure it again? He would really die!

There might not be two or three chances to resurrect anymore. If they were completely dead after one resurrection, what should they do?

Although he was shouting fiercely, it was as if his feet had taken root, and he could not move an inch!

What should I do?

Should he go or not? This was a problem!

"Hey, I'm waiting for you to kill me. What are you thinking? Hurry up and come over!"

Lin Yi tilted his head and raised a brow as he continued to hook his finger at the guy. "What are you waiting for? Why don't you come over!"

After a slight pause, he raised his hand and patted his head. "I understand! What I said was wrong, it's a mistake, let's do it again!"

Lin Yi didn't say anything this time, but started whistling to complement the gesture.

The face of the guy opposite him turned red. Do you really think I'm a dog? What was the meaning of this cat-to-dog whistle and hand gesture? I'll fight it out with you today!

As an Elite Expert of the darkness demon beast clan, when had he ever been humiliated like this? This was simply intolerable!

Even if I'm a guard dog, I'll bite you to death today!

"Little brat, die!"

The guy couldn't take it anymore after Lin Yi's insulting provocation. He roared and charged at Lin Yi. Even if he couldn't beat Lin Yi this time, he'd die in glory for his next revival!

As long as there was a piece of flesh left, he could be resurrected! An undying body was not so easy to die!

Lin Yi's eyes focused as he sensed something flash by with his spirit sense. He wanted to check it out but was blocked by the star power.

He had no choice but to focus on the enemy in front of him, and while the enemy was charging at him, Lin Yi activated his super butterfly micro steps and charged forward instead of retreating.

The left hand behind his back pushed out as fast as lightning, and the new type of super alchemy fire bomb condensed in his palm exploded with a loud bang!

The area in front of him turned into a pitch-black void, annihilating all existence into nothingness. That guy's strength had greatly improved after his rebirth, but his performance was not as good as last time. He didn't even have the slightest chance to Dodge before he was killed by the new super alchemy fire bomb!

Lin Yi slowly retracted his palm, his expression serious and his brows furrowed ... Did he really kill it?

The star Cloud tower didn't notify him that he had passed the test, so he wasn't killed and could still be revived?

this time, it had clearly annihilated all his flesh and blood cells! how could he create something out of nothing and reform his body?

lin yi remembered the thing that flashed in his spirit sense-was it related to that thing?

the thing did come from the person's body, and because of the extremely weak spirit fluctuations, lin yi's spirit sense noticed it, but it disappeared in a thousandth of a second.

the speed was so fast that it made people wonder if it was an illusion. lin yi's will was strong, and he believed in his spirit sense. naturally, he wouldn't have such doubts.

so that thing that flashed by was a backup plan left by the other party? some flesh and blood tissue attached with primordial spirit? was it used as a foundation for resurrection?

just as he was thinking about this, there was another fluctuation in the space not far away, and the undying darkness demon beast appeared again with a burst of aura, but its expression was a little ugly.

"You can lose but not your face." The man calmed himself down and laughed. "Are you surprised? You can't kill me. I've already said that your move is useless Against Me!"

Although he was afraid, he could not show it!

"He's really an unkillable cockroach. It's indeed a little troublesome!"

Lin Yi rubbed his chin, deep in thought. "When you launched the attack just now, you separated a small piece of flesh from your head and attached a trace of your primordial spirit to it. After your body was killed by me, you used this small piece of flesh and blood to regenerate, right?"

The man's face froze, and his fake laughter stopped. He was like a duck that was being strangled, and the embarrassment was hard to hide.

He thought he was being very discreet, but Lin Yi saw through him!

"Why didn't you prepare more resurrection materials earlier, but only separated a portion as a way out at the last moment? Was it useless to prepare in advance? There was a time limit? Was it very short? Within a minute? Or is it only effective if it can be separated within ten seconds?"

Lin Yi threw out a series of questions, each one of them like arrows, piercing the guy's heart.

Are you a demon? How did he know everything?

Cold sweat dripped down his back as he felt like Lin Yi had seen through his entire body-it was terrifying!

"Hahahaha, what are you saying? How can you know my background? just give up and obediently let me kill you, isn't that good?"

The louder he laughed, the more guilty he felt. However, he had no choice but to use this method to cover it up.

Chapter 9249 Power

Lin Yi nodded slightly, "so that's how it is, I understand now!" It's not enough to just destroy your body, that would only make you infinitely stronger. We have to destroy the path of retreat you left behind as well!"

"come to think of it, your ability to increase your strength after resurrection has a time limit, right? how long would it take for it to lose effectiveness? is it going to last until the end of the battle with me, or is it simply based on the time it takes to activate? two hours? half an hour?"

lin yi's guess was reasonable-if this guy could grow infinitely, then the golden dark shadow demon would be nothing. he'd guessed that there was a limit to how much it could grow, but seeing how persistent it was, the chances of that were low.

perhaps there was a limit to the increase, but it was still far from the peak of this battle.

thus, from another perspective, it was very possible that there would be a time limit after the upgrade. only in this case would that guy's strength be an illusion, and he couldn't use it as a foundation for establishing himself in the darkness demon beast clan.

For example, if the Golden-dark shadow Demon knew about his situation, it could directly destroy his chance of rebirth, even if he increased his strength.

With so many doppelgangers, he could just delay for time until his strength dropped and returned to his original level, and then kill him with one blow.

Lin Yi kept thinking, and he had pretty much figured out the guy's background. He couldn't confirm it, and he couldn't admit it, but Lin Yi guessed that the truth was pretty much like that. It should be close to the truth.

Even his undying body and the special ability to increase his strength after resurrection were not so impressive normally. This was because he was hired by the pagoda to guard the final test of the 15th level. Thus, he would receive the Buffs from the pagoda, which might increase his strength.

"Brat, don't talk so much nonsense. Hurry up and prepare to die!"

The guy's heart went cold-he was about to be exposed by Lin Yi, and he didn't have time to argue with Lin Yi anymore.

Although Lin Yi had noticed something, he had no other choice. He had to leave an escape route for himself!

The new flesh and blood, along with a strand of his essence spirit, separated from the back of his head and disappeared in a flash, hidden by the star power. He believed that with the help of the star Cloud tower, Lin Yi would never be able to find the hope of resurrection.

Lin Yi raised his eyebrows. His spirit sense caught the flash of the flesh tissue again, but it was too fast. Lin Yi wasn't sure if he could stop it. Before he could react, the other party had already hidden it.

"Hand over your life!"

The man in front of him made up his mind and jumped at Lin Yi. He thought that if he revived again, he would be able to fight back and forth with Lin Yi.

If he were to do it again, he should be able to win for sure. Therefore, this time, he pounced with extraordinary momentum. His retreat route was already hidden safely. He had nothing to fear and could go up and give his head away in peace!

Lin Yi chuckled and activated his super limit butterfly micro steps again. His body was agile, but his speed was as fast as lightning. He circled around the guy as if he was taking a walk in the park.

He couldn't hit Lin Yi, and Lin Yi didn't want to hit him either. Since he knew that the opponent had a way to resurrect himself, what was the point of killing him now? Let's just endure it first.

This scene was very familiar, and the guy's face turned green with anger. ""Little brat, can't you be more shameless? this again? Can't you just fight properly?"

It's so difficult to even give away a head, how infuriating!

"A person who can be easily blown up by me, what face do you have to say such things in front of me? I can't kill you anyway, and I don't want to waste my time. If you can, just catch me!"

Lin Yi was very relaxed as he started a war of words with his opponent, "Ha ... I know. You're anxious, aren't you? You're afraid that the backup you left behind will lose its effect when the time is up and can't be used as a material for rebirth?"

"Hey, why do you look so pale? Did I hit the nail on the head? It seems that your backup plan can only last for a short time, and you can't release multiple backup plans at once? Tsk, tsk, how pitiful!"

"So you're going to release it again after it loses its effect? Then shouldn't you run away from the battle? Don't get too close to me and I'll catch your backup plan. If that happens, you'll really be done for!"

The guy's lips were tightly pursed, indicating that he didn't want to talk to Lin Yi. He maintained a serious face and continued his futile attack.

He felt like Lin Yi had seen through him-he even knew what he was going to do next!

Who the hell leaked the news? That shouldn't be the case!

In fact, Lin Yi was just making a guess. He analyzed his actions and observed some clues to make a reasonable deduction. He didn't expect it to be so close to the truth!

"Why aren't you talking? Are you speechless? Everything was as I expected, so you're panicking?"

Lin Yi continued to strike while the iron was hot, using words to provoke the other, "Next, I will pay special attention to your movements and will definitely intercept you in time. You have to be careful."

"Once I succeed, I will kill you without mercy. I believe that the next time you die, you will never be able to come back to life again, so you have to treasure the present!"

"By the way, what's your name? "Forget it, don't tell me, that's not important at all. After all, you're going to die soon, so there's no point in knowing your name. There are too many dark beasts that died in my hands, and if I had to ask for their names, I probably wouldn't be able to store anything else in my head."

The guy was furious, but he didn't have the energy to argue with Lin Yi. He was thinking about how to deal with the situation.

Just as Lin Yi said, there was a time limit to his backup plan. Once the time was up, he would have to make a new one. If Lin Yi took the chance to attack him, he would really be killed!

No, I can't continue to pester him. I must first pull away!

The guy already had a plan in mind, and he immediately retreated. Lin Yi wasn't attacking him, so he could retreat as he pleased.

If Lin Yi chased after him and even wanted to kill him, it wasn't a bad thing. This was the time when his backup plan was still effective, and if he were to be killed by Lin Yi, it would be a good thing!

He wanted to use this chance to distance himself from Lin Yi. If his backup plan failed and Lin Yi interrupted his plan, he would be finished.

"You want to run? Too late! What kind of person do you take me for? Do I not want my face if I fight and leave as I please? And do you think you can escape from me with your speed?"

Lin Yi teased the man as he used his super limit butterfly micro steps. His body moved nimbly, floating around the man. He felt like he was floating like a god, but in the man's eyes, Lin Yi was like a ghost, disappearing and appearing like a ghost. He wasn't even a God!

Chapter 9250 Power

They were on different sides, but the effect was the same-he couldn't run if Lin Yi wanted to.

Even if he wasn't on guard and didn't mind Lin Yi's attacks, Lin Yi didn't have any intention of attacking him. He just relied on his speed and circled around him, never leaving him!

This guy was about to cry. If it wasn't for the fact that suicide wouldn't increase his strength, he would have just died!

So what if he's fast? You can bully people like this just because you're fast?

He was indeed amazing and could bully others ... But what could he do?

"Don't be too pleased with yourself, I'll fight you to the death!"

The guy roared and used all his strength to attack Lin Yi, but he couldn't even touch a hair!

Wasting his energy caused his speed to drop even more, and he couldn't get rid of Lin Yi anymore!

"Tsk, tsk, I really don't understand why the star Cloud tower sent you here to test me. It's so weak, it's useless! Could it be that he deliberately threw the game to let me win?"

Lin Yi continued to add insult to the injury-his body didn't break down, but his mind did,"How about you surrender and let me pass the test? stop wasting time and you won't have to worry anymore."

"Bah! You're dreaming! I will never admit defeat!"

When a dog is desperate, a man is desperate. That guy couldn't bear it anymore and roared with a ferocious face, ""You forced me to do this! Remember, you forced me to do this! Star meteor annihilation!"

He suddenly raised his hands to the sky, and a huge comet suddenly appeared in the void. As he waved his arms down, it fell with a rumble.

This was his final trump card as The Guardian of the 15th level. It was a special skill given to him by the star Cloud tower. It was a sure-kill skill that he could only use once in every battle!

He could only use it once against Lin Yi, and if someone else tried again, the number would reset!

The reason why he didn't use it just now was that the power of this move was too strong, and the range of its explosion was also super wide. He would also be drawn into it.

Being killed by one's own skill was considered suicide. Even if they were resurrected, they would not be strengthened. If they were completely destroyed, they would not even have the chance to be resurrected, let alone be strengthened!

That was why he didn't use star meteor annihilation-Lin Yi had pushed him to the edge, and he was forced to do it both physically and mentally. He couldn't take it anymore!

Lin Yi's heart skipped a beat-the Jade space was warning him now, meaning that the attack was enough to threaten him. If he was hit, he'd be seriously injured, or even die on the spot!

What was even more shocking was that when the comet fell, Lin Yi's body seemed to be locked in place, unable to react at all. It was as if the comet had a huge gravitational force, sucking Lin Yi's body in.

If it wasn't for that, Lin Yi could've used lightning movement and super limit butterfly micro steps to Dodge it. No matter how fast star meteor annihilation was, it couldn't completely suppress Lin Yi's lightning movement and super limit butterfly micro steps. The possibility of dodging it was quite high.

But now that he'd been locked on, he could only watch as the giant comet descended on his head, unable to move an inch!

He couldn't even throw out the new super pillfire bomb that he had re-condensed in his left palm. Otherwise, it would have more or less offset the impact of the comet.

"Hahahaha! Let's see if you'll die this time! I'm immortal and can be resurrected in a while, but you won't even be left with a piece of your body!"

The eyes of the darkness demon beast, which had launched its strongest attack, were filled with madness. It opened its arms wide, ready to embrace death again. The effects of its backup plan were still in effect, and it was protected by the star Cloud tower, so it was not within the range of the star meteor annihilation.

So he definitely wouldn't die. It looked like a suicide attack, but it would only kill his enemy, Lin Yi!

A blinding light burst forth, and the scene of a star exploding tore the guy's fragile body apart. He really wanted to see Lin Yi die with his own eyes, but his defense was so weak that he would die with one touch!

Moreover, the light was too glaring, and his consciousness would also be melted away, so he could only be completely annihilated with regret!

The only thought he had was that Lin Yi would disappear just like him.

Unfortunately, Lin Yi had a trump card as well, and the unlucky Dark Demon beast didn't have the chance to see this!

In the dazzling light of the star meteor annihilation, there was a completely different Starlight that was emitting a resplendent star indestructible body!

Star meteor annihilation VS star undying body!

Using the spear of the child to attack the shield of the child!

They were both temporary skills given by the star Cloud tower. One was a sure-kill skill with unparalleled attack power, while the other was a true iron wall with unparalleled defense. What would the outcome be?

As it turned out, Lin Yi's indestructible star body was better. It was said that as long as the star Cloud tower didn't die, it wouldn't be broken through. Even the star meteor annihilation couldn't destroy the star Cloud tower itself, and so Lin Yi walked out of the white light unscathed.

The dark magical beast, who thought that he had succeeded, had already resurrected with the help of the backup plan he had left behind, and was laughing wildly at the edge of the star meteor annihilation.

She was still firing her machine gun at Lin Yi, but when she saw Lin Yi walk out of the white light, she panicked as if she had seen a ghost!

"How is this possible? How could you still be alive!"

That guy cried out involuntarily. He was already panicking in his heart. The first thing he did was to separate the flesh and blood tissue on his head and attach a wisp of primordial spirit to it, preparing to leave another backup plan.

"Yeah, how could I still be alive? Aren't you very surprised?"

"To be honest, that move of yours was pretty strong, and you almost got me," Lin Yi teased, "but too bad I have a trump card too, I'll have to disappoint you!"

"By the way, you don't have to worry about how to leave a backup plan, because I won't give you the chance to be reborn again! Take a look around you!"

The guy didn't need Lin Yi's reminder-he'd already seen what was going on around him. The star meteor wasn't over yet, but Lin Yi's clones were already standing around him.

The wood forest thousand transformations was fully activated, and nearly a thousand doppelgangers surrounded the area. Because they were still in the star undying body state, the doppelgangers also had this special invincible state.

Therefore, the aftermath of the star meteor annihilation could not destroy the clones of the thousand changes of wood forest. All the clones were covered in Starlight and formed a battle formation with imprisonment as the main purpose. At the same time, countless formation flags were scattered, instantly forming a formation that imprisoned the space.

The dark magical beast Man who was surrounded was dumbfounded. He found that the resurrection material that he had split up could not escape because the space in this area seemed to have been frozen, and there was no way to send that piece of flesh out.
