

## Bodyguard 9251

### Chapter 9251

The star Cloud tower had provided him with protection in the dark and provided him with the power of the stars to help him hide his trump cards. However, he was only a employer and not a guard. How could a temporary worker be compared to a son?

There was only so much support-if he couldn't break through Lin Yi's spatial seal, the star Cloud tower wouldn't help him. If that happened, he wouldn't be able to send the flesh and blood he needed to revive. Once he was killed by Lin Yi, he'd be dead!

"Dammit! Why are you unscathed? Why is it like this?"

The guy was helpless and could only bark helplessly, attacking Lin Yi's Army of undying star bodies in vain. He couldn't break the spatial seal at all.

His heart felt as if it had fallen into a bottomless abyss, and his body began to feel an inexplicable bone-chilling cold. As a darkness magical beast that was used to death, he was actually very afraid of true death!

"Star Cloud tower! Help me! Help me break this spatial seal!"

This was his last struggle and cry. Unfortunately, the star Cloud tower did not move at all, as if it was ready to watch this employer die.

Lin Yi's new super alchemy bomb was ready. After making sure that the enemy didn't leave any backup plans, he threw the black light out.

The familiar scene appeared again. The undying body was completely devoured by the void of darkness! Lin Yi was observing with full attention, in case the guy came back to life again. He even took out the hammer-if he didn't die, he'd hit him with it!

However, there were no more accidents this time. The immortal body was still dead in the end!

Lin Yi's star undying body's duration hadn't even ended when the star Cloud tower's notification of him passing the test was already in his mind.

It's over?

Lin Yi was silent for a while, but he didn't think that it was a problem at all!

The undying body sounded impressive, but it was just a target. Other than the star meteor annihilation at the end, it didn't deal any damage to Lin Yi at all, let alone threaten him.

The only threatening move, the star meteor annihilation, was countered by the star undying body. So, why did the star Cloud Tower Hire that guy? Did he come here to make a joke?

There wasn't anything special about the rewards, just the usual star energy and the incomplete chant. Lin Yi suspected that the star Cloud tower intentionally kept the good stuff.

Otherwise, this was already the fifteenth level, and no one had come up here in the past thousand years. How could there only be so few things? Not afraid of being poor?

It was probably because he had not become a guardian or employer, so the reward from the star Cloud tower had become the most basic thing!

Stingy!

Lin Yi grumbled to himself as he absorbed the star energy from the reward. Out of habit, he compared the incomplete chant he just got with the one he derived himself.

There was no problem previously. The cultivation technique incantation he deduced was basically the same as the incomplete one he obtained. Occasionally, there were some minor differences, but they were nothing. It was like the decorations of two houses. Everything was the same, but the pen on the desk was different between red and blue ink.

What effect could it have?

But this time, it was completely different!

Lin Yi was surprised that the incomplete chant he just got had a crucial part that was different.

Had his deduction gone wrong?

This had never happened before!

In the star Cloud tower, the power of the stars was extremely important-it went without saying that Lin Yi was able to gain the upper hand this whole time. Other than his own trump cards, the chant he derived also played a big part.

So, this chant couldn't be wrong. Lin Yi immediately tried his best to verify and deduce in the Wu Linghai, trying to figure out what he had made a mistake.

Of course, it was also possible that the deduction wasn't wrong, but that the original chant had been improved. It wasn't impossible, and Lin Yi was quite confident in it.

However, no matter how confident he was, it was still a matter of great importance and he had to verify it.

After a while, Lin Yi let out a long breath, thinking that his deduction was indeed better. He had improved the chant of the Xingyun tower!

Lin Yi had done many things like improving martial arts and techniques, but he didn't think that he'd even improve the one given by the star Cloud tower this time. It was pretty cool!

After figuring out the problem, Lin Yi passed through the tunnel easily and entered the sixteenth floor. He threw the difference in the chant to the back of his mind. Since the thing he deduced was better, he'd continue to use the one he derived.

Lin Yi never thought that the things he made would be worse than the original-the student was better than the master, and the world's progress came from technological improvements!

16th level!

Lin Yi stood in front of the stairs and looked up, his heart filled with joy.

This time, the first group didn't continue breaking through and remained on the sixteenth floor. They didn't know which step they were on, but they couldn't deny that Lin Yi was very close to them!

Perhaps, they would be able to catch up with the first group on this level!

Lin Yi didn't waste any time and stepped onto the stairs, using his full speed to climb up. The barriers set up by the star Cloud tower were useless. Lin Yi was like a hot knife through butter, his steps not being held back as he quickly closed the distance between him and the first group.

Unfortunately, even if Lin Yi climbed as fast as he could, he still couldn't catch up to the first group. The core of the 66th step was lit up!

The first team had successfully passed the test and set a new record. They were the first to enter the 17th floor!

Lin Yi clicked his tongue, not too disappointed. All of this was within his calculations, and it wasn't a surprise. The distance was much closer now, anyway, and he'd definitely catch up to them when he reached the seventeenth floor!

Big-hearted, no worries, continued to run up!

Lin Yi wasn't affected by the first group lighting up the 16th step. Instead, he increased his speed and reached the 99th step!

Just like the 15th floor, the 16th floor had a single person guarding it. He had thin eyes, a round face, and a chubby body. He was about the same height as Lin Yi, and looked like a man in his 30s.

"Sima Yi, you're faster than we thought. You're really not simple!"

The chubby man nodded at Lin Yi calmly, smiling. "Let me introduce myself first. I'm a silver-blood Dark Beast. My name is hazzare, but I won't tell you my race."

"You should be able to tell that I'm a test of the star Cloud tower. If you want to pass this test, you must defeat me! The star Cloud tower will send you a detailed message. Have you received it?"

Lin Yi's brain had indeed received the information regarding the test-the only employer guarding the place was indeed hazarville, but the test venue was a different world.

Chapter 9252

The time limit was an hour. In addition to defeating hazard, they also had to crack all kinds of obstacles in the field, such as formations and traps.

It was a little harder than the fifteenth floor, and Lin Yi was expecting this. He wasn't surprised, but he was curious about the silver bloodline that hadavy claimed to have.

It sounded like it was a grade lower than the dark gold bloodline of the dark gold Shadowfiend, but if they underestimated hazarville because of this, they might suffer a loss!

"I have received it. Thank you for the reminder."

Lin Yi's mind was spinning as he nodded to hazarville."You look very kind. Why don't we talk a little more?"

"No problem. What do you want to talk about? I can cooperate. "

Hazarville shrugged his shoulders. The surroundings changed, and they had already entered the test venue. "Anyway, there's half an hour. It's enough time to chat. If you want to continue chatting, it's fine. I'm very happy to communicate."

What he meant was that time was Lin Yi 's, and wasting time wouldn't affect hadavy at all. On the contrary, he would be able to achieve his goal of stopping Lin Yi.

"That's good! An hour is indeed enough. First of all, I'm very interested in your silver bloodline, do you mind talking about this?"

Lin Yi wanted to get some information on the opponent first-it'd be a great deal if hazarvillian could really introduce them to him.

It didn't matter if he lied or misled Lin Yi-he'd have some clues to follow.

However, hazard looked rather honest. He shook his head and said, ""I'm sorry, but bloodline abilities are our privacy. We usually don't discuss them. You'll know when we fight, so let's skip this topic!"

Lin Yi blinked-he'd already prepared himself for hadavy to spout nonsense, but he didn't think that the man would be so disdainful of lying!

Was this because he had great confidence in his own strength? It seemed like hadavy was not someone to be trifled with!

"Alright, let's not talk about your bloodline ability. Then, who is stronger between you and the Golden dark shadow Demon? You should be a subordinate of the Golden dark shadow devil, right? In that case, he shouldn't be as powerful as him?"

Hazarville thought about it seriously, and then replied, ""You're not wrong. I'm indeed his subordinate, and our darkness magical beast clan respects the strong. If my strength was stronger than his, the position of leader would have been mine. "

Lin Yi gave him a big thumbs up."Honest! Speaking of which, you should know that the Golden dark shadow Demon has already fought with me a few times, and I always won. You can't even beat the Golden dark shadow Demon, so where do you get the confidence to stop me?"

Hazzwill laughed,"Sima Yi, you're wrong!" Your so-called victory is only against his doppelganger. You didn't even see a tenth of his power, so how can you talk about victory?"

"Let's talk about me. As the employer of the Starcloud tower, I accepted this mission to stop you. Naturally, I will receive the Buffs and enhancements from the Starcloud tower. My strength is at least one or two levels higher than normal. That's just the basic operation!"

Oh my, this fatty looks friendly, but he's actually quite arrogant in his bones. What is he saying? [No six?]

"Ha ... It seems like you already have victory in your hands, hadavy. Since that's the case, let's see who's stronger!"

Lin Yi stretched his neck, ready to strike. The fatty looked honest, but he didn't reveal any useful information during the conversation.

Since he couldn't get anything of value, it was meaningless to continue wasting time. The most important thing was to get rid of him as soon as possible, pass through level 16, and catch up with the first group.

"You're done? He's already impatient after just a few words? Young people are really impatient!"

Hazarville shook his head, as if he still wanted more. He slowly made his stance and beckoned to Lin Yi. "Alright, then you can attack as you wish. I'll first see how strong you are and whether you're worthy of my attention. I'll see if I should use 30% of my strength to deal with you."

Lin Yi tutted-this guy was pretty good at acting cool, too. Old Versailles only used 30% of his strength when he was serious, but 10% would be enough if he wasn't.

"If that's the case, then I won't hold back. I'll take the lead and attack! Let's warm up first, I'm going to use 5% of my strength to greet you, so take it well!"

The boss came online, and Lin Yi waved his hand casually. A super alchemy fire missile shot out instantly, leaving a trail of afterimages in the air as it appeared in front of hazarville.

This was just a test attack, but it wasn't weak at all. If hadavy looked down on Lin Yi and didn't do anything to defend himself, he might be seriously injured!

Hazarville did not panic or dodge. He raised his palm. It seemed to be light and slow, but it accurately blocked the Super pill fire missile.

The distance between the two wasn't far, and Lin Yi could control the trajectory of the Super pill fire missile with his spirit sense. He was ready to have it go around hazarville's palm to intercept it. If it suddenly changed its trajectory, it would definitely catch him off guard.

The plan was good, but it didn't go as Lin Yi expected. The connection between the Super pill fire missile and Lin Yi was still there, but he didn't manage to command it successfully.

Lin Yi felt as if the Super pill fire missile was being pulled by a huge force. It ignored his control and crashed into hazarville's palm.

It was like a car speeding down a slope, and an ordinary person trying to pull the car was in vain.

Not only that, but the expected explosion did not happen. After the Super pill fire missile hit hadavy's palm, it did not even cause a splash. It disappeared without a trace!

"Hmm, interesting. If you only used 5% of your strength, it's indeed worthy of praise! However, as a greeting, it's still a little lacking in enthusiasm. Why don't you use a little more strength?"

Hazarville smiled at Lin Yi as he flipped his palm and beckoned with his finger, "If that's all you have, I'm afraid I can't even use 10% of my strength. That's boring!"

Lin Yi raised an eyebrow as he looked at hadavy, a half-smile on his face. "So that's how it is! The silver bloodline user, hadavy, is your ability to absorb your opponent's attack?"

The Super pill fire missile wasn't a normal attack. Even if it was blocked, it was impossible for it to go completely silent. Lin Yi could see it clearly-hazarvill didn't cancel out the explosive power of the Super pill fire missile, but he just absorbed it!

It felt like a super pill fire missile had plunged into a black hole. What kind of waves could it cause?

Chapter 9253

"Sima Yi, your imagination is not bad. I've said just now that I won't talk about the topic of innate abilities. If you want to know, try it out yourself. I won't answer any of your questions in this area!"

He was quite a tsundere, standing there casually, waiting for Lin Yi's attack.

This was his advantage as The Guardian. If Lin Yi didn't beat him in time, the star Cloud tower would naturally judge Lin Yi as the loser, and so he wasn't in a hurry at all.

Lin Yi frowned before smiling. "Then let's try the weapon! I don't believe that you can still use your body to absorb the sharpness of my weapon!"

The demonic devour sword appeared in Lin Yi's hand, and a black light bloomed. The new fire spirit sword technique rolled out, enveloping hazarville.

"A weapon? I also have one!"

Hadavy extended both of his arms, and two metal claws appeared. He crossed them to meet the demonic blade's attack.

This pair of claw blades was also extraordinary, and they were not at a disadvantage in the confrontation with the demonic devouring sword. Clanking sounds rang out continuously, but the weapons of both sides were not damaged.

After exchanging a few moves with hazarvillian, Lin Yi felt that something was wrong. The power of his demonic devour sword wasn't completely unleashed, and a part of it disappeared the moment their weapons touched!

It was similar to the disappearance of the Super pill fire missile, but it was more hidden!

Could it really absorb the opponent's power? Then, could he transform the absorbed energy into his own strength? If that was possible, wouldn't it be infinitely powerful?

Lin Yi frowned and immediately rejected the idea. A silver bloodline wouldn't be the only thing that could increase his strength limitlessly!

There would definitely be a restriction, similar to the immortal body in the previous level!

Perhaps it was because the total amount that could be absorbed was limited, or it could only be absorbed and used but could not be converted into his own strength, or it could be converted but there would be hidden dangers and could not be easily used, etc.

In the blink of an eye, Lin Yi had come up with many possibilities, but he couldn't tell if they were real or not. He needed to confirm them in actual combat.

"What's wrong? Is that all you've got? I'm very disappointed. What other ultimate moves do you have? hurry up and use them!"

Hazard smiled with his eyes narrowed. His eyes were long and narrow, and when he smiled, they were like slits. Coupled with his round face, he looked like he was making money out of kindness.

However, his words were full of ridicule, and there was no trace of harmony at all.

Lin Yi's lips curled up as he chuckled, "you seem pretty confident, do you think you can take me down?" If you really have the ability to defeat me, you can just kill me directly. Why waste your time here with me?"

it was precisely because he wasn't confident that he could take down lin yi that he was stalling for time. if he was sure that he would win, he wouldn't waste time talking nonsense and would kill lin yi immediately, considering the relationship between lin yi and the dark demon beasts!

"yan, i like to waste time with you, can't you? it's rare to have such an interesting opponent like you. what's the benefit of killing you early? isn't it better to keep it and play with it slowly?"

hazarville didn't mind and continued to fight lin yi."when you're exhausted, i'll slowly torture you. it'll be more interesting. are you looking forward to it?"

f \* ck!

lin yi hmphed, and countless lightning bolts fell from the sky in the gaps between the sword moves, covering the area where the two were.

Lightning thousand explosion!

Lin Yi needed more information to make a judgment, and so he didn't aim to kill this time. The main purpose was to test hazarville.

Before he attacked, Lin Yi had already predicted that hadavy would absorb it. If it didn't absorb it and instead caused him harm, that would be a surprise.

As expected, when the thousand explosion of Thunder came down, hadavy's slender eyes suddenly widened, and his pupils were filled with surprise.

"Hahahaha! It was really delicious! I won't be polite!"

As he laughed maniacally, he pushed away Lin Yi's demonic blade with one hand and raised his other hand above his head. He pointed his claws at the sky, and the lightning bolts that were covering the ground suddenly changed direction.

It was as if the claws in hadavy's hand had an infinite attraction force, attracting all the lightning. Even the lightning trap needle was not as effective as the claws!

Thousands of lightning arcs writhed in the sky like silver Snakes, finally forming a huge Lightning Vortex that entered the claws.

The aura on hadavy's body suddenly rose by a large amount, and tiny lightning arcs danced and flickered on the surface of his body. His round face revealed a joyful expression as if he wanted more.

"It's indeed not bad! Sima Yi, your power is very unique. It's not an exaggeration to say that it's the only one in the world! Do you have more?"

Hazard's raised arm came down slowly, pointing at Lin Yi. "It's impolite not to return the favor. I don't care if you have it or not, I'll return you some first! I hope you'll like it!"

Before he could finish his sentence, the blade of the claw exploded with a violent lightning arc, and an arm-thick pillar of lightning instantly pierced through Lin Yi's chest.

Three appearances of the cloud Dragon!

"Tsk! An afterimage? What a boring trick!"

Hadavy's mouth twitched in disdain as he turned his eyes to another direction. The lightning pillar that had pierced through Lin Yi's afterimage changed its direction in the air and continued to chase after Lin Yi.

Another shadow was torn apart, but the effect of the [three appearances of Cloud Dragon] was still as strong as before. Hazardville's eyes couldn't see Lin Yi's speed completely, and he could only follow Lin Yi's rhythm.

"Sima Yi, you won't be able to escape! No matter how fast you are, you can't be faster than lightning. "

He didn't think that he was being led by the nose by Lin Yi, and continued to chase after him with the lightning. However, other than the three Cloud Dragon appearances, Lin Yi also had the lightning movement and super limit butterfly micro steps. In terms of speed, Lin Yi wasn't any slower than him!

"I know how fast I am. Do you know how fast you are?"

Lin Yi's voice was still clear even when he was moving at high speed. Hadavy smiled and was about to speak when he saw Lin Yi charging at him.

The pillar of lightning he was controlling, on the other hand, was only three centimeters behind Lin Yi!

Hadavy immediately understood Lin Yi's plan. He was planning to Dodge Lin Yi's attack at high speed before Lin Yi's face touched his, and then let Lin Yi take the lightning pillar!

Because the speed was too fast and the time was too short, there was a high chance that he would not be able to react in time.

How sinister!

"It's useless! I've already seen through ..."

Hazarville laughed, but before he could say anything, he saw a mysterious smile on Lin Yi's face before a bright light exploded.

"What?"

Hazarville was taken aback. He was fully focused on preparing for Lin Yi's plan, and the bright light caught him off guard. He panicked.

He couldn't see!

Chapter 9254 The Power Of The Divine Realm

It wasn't just Lin Yi, even the lightning pillar she was controlling was gone. She knew what was going on, but the distance between them was measured in centimeters. A slight mistake could lead to a disaster!

Dodge!

He had to Dodge!

He couldn't care less about Lin Yi as he quickly retreated, directing the lightning to the side!

He didn't forget that his biggest threat was Lin Yi, so he pointed his other hand in the direction Lin Yi came from and activated absorption mode.

If Lin Yi took the chance to attack, there was a high chance that he could absorb and convert Lin Yi's attack. This way, not only would he eliminate the danger, but he could also prepare a new counterattack. It was not a loss!

Hazarville calmed down and secretly gave himself a 'like'. He felt that this reaction was textbook-level and worthy of praise.

However, Lin Yi didn't do what he wanted. To Lin Yi, eyes weren't that useful. In a battle, he relied more on his divine sense to monitor the whole scene and grasp every detail.

Hence, Lin Yi only wanted to make him panic a little. He took advantage of this moment and activated his lightning movement to go around Hazard from the side and attack him from behind.

The demonic devouring sword was as fast as lightning, and the black Radiance disappeared in a flash.

Hazard felt a chill in his left arm, followed by a severe pain. His retreating body suddenly tilted, and he staggered a few steps to the right.

His eyes were back to normal now, and he let out a roar. The energy in his body exploded, forming an impenetrable barrier around him, temporarily cutting off Lin Yi's pursuit.

Unless they could break this protective shield in an instant, they would not be able to hurt him at all!

However, his left arm had already been cut off from the elbow. The cut was extremely smooth, enough to show the sharpness of the demonic devour sword.

"Sima Yi, you're good! You actually hurt me! I'm really surprised!"

Hazard's face was gloomy. He said coldly from within the protective barrier, "I won't give you any more chances to hurt me. I'll do my best. Prepare to die!"

"Do you still have the strength to go all out, Hazard?" Lin Yi asked with a light smile. "If I'm not wrong, your palm is the key to absorbing other people's power, right?"

"Now that you've lost an arm, your energy absorption rate has been reduced by half, and your fighting strength has inevitably dropped by a lot. Under such circumstances, what can you do even if you go all out? Give away the other arm?"

Lin Yi had already gotten quite a bit of useful information from his probing. For example, hazardvillian couldn't absorb all of the energy in his body. If that wasn't the case, Lin Yi could've absorbed the energy from the demonic devour sword when he cut off his arm, preventing his arm from being cut off.

Hazardville was a little surprised, but then he laughed and said, ""Hahahaha, you think that just because I'm missing an arm, you'll win for sure, right? It was really funny! Sima Yi, Oh Sima Yi, you're indeed a little smart, but your judgment of me is very wrong!"

"Take a good look! Did I really lose an arm? did my combat power drop drastically after your sneak attack? To put it bluntly, you don't know me well enough!"

Inside the protective shield, hazard's severed arm swayed. Countless tiny worm-like granulations emerged from the smooth wound, writhing and shaking wildly. The wound on the severed arm that fell into the protective shield was the same.

The severed hand automatically bounced back to the place where the arm was cut off. The two wounds quickly entangled with each other. In the blink of an eye, the cut was repaired. Other than some blood stains, there was no problem at all.

Lin Yi was taken aback. This ... Another undying body?

No, there was a big difference between hadavy and the immortal body of the previous floor. His recovery ability was completely incomparable to the immortal body of the previous floor.

Lin Yi could feel that when hadavy's arm was reattached, there were traces of star energy moving around his wound. His recovery ability might be outstanding, but it couldn't be called an undying body. He probably relied more on the star energy.

Hazarville clenched his left fist and waved it in the air a few times before removing the barrier. He smiled at Lin Yi.

"Sima Yi, are you very surprised? The tactics you've thought of so hard didn't give you much of an advantage! Next time, this move of yours won't be of much use!"

Hazarwill didn't hide his smugness at all as he hooked his index finger at Lin Yi, "Do you have any new moves? Hurry up and use it, I still want to play around for a while, don't let me finish it so quickly!"

Lin Yi's eyes narrowed as he smiled. "Hadavy, your palm may be able to be reattached, but your energy consumption is truly gone. Compared to just now, your aura is clearly much weaker. If this continues, how long do you think you can last?"

He had the Jade space to provide him with an endless supply of spiritual Qi to convert into true Qi. There was almost no problem of excessive consumption. However, the wear and tear on hazarville's body could be seen with the naked eye. Whether it was the protective shield in a moment of desperation or the reattaching of his broken arm, it had consumed a lot of his energy.

If it was a battle of attrition, Lin Yi would win for sure!

Hahahaha, Sima Yi, you're so young, but you're already so forgetful?" You're right about the huge consumption, but have you ever thought about how I absorbed your power for my own use?"

"I have nothing to say unless you don't attack me. As long as you attack, I can absorb nutrients from your attacks and recover my consumption. In other words, my consumption just now was actually from you! What I'm using is your energy, what does it have to do with me?"

The claws on his hands touched slightly, and he hooked his finger at Lin Yi again. "Come on, I can't wait to absorb your power again. The power of the lightning just now was very good. If you have the strength, you can try it eight or ten times more!"

Lin Yi wasn't afraid of using up energy, and so was hadavy. What would be the result of a battle between two guys with almost infinite energy?

He didn't have an answer yet, but Lin Yi didn't dwell on it. He smiled and snapped his fingers, and hundreds of clones appeared around him.

Wood forest thousand transformation!

He'd never thought of using it like this before, but he couldn't help it since he'd met the pretentious hazardville.

With a snap of his fingers, hundreds of clones appeared. It really did look cool with full special effects!

Chapter 9255

Unfortunately, hazarville already knew that Lin Yi had the ability to split himself into two, so he wasn't surprised. He looked at Lin Yi calmly, ""There are a lot of them, but they are useless. What do you think is the point of using sea splitting stage avatars in a battle of our level?"

"You'll know whether it's meaningful or not soon!"

Lin Yi shrugged nonchalantly and waved his hand. "Brothers, let's go and kill him!"

Hundreds of doppelgangers instantly formed a battle formation, surrounding hazarville in the center and starting a group attack.

Hazarville laughed disdainfully. "Small tricks. What can you do to me?" he asked. No matter how many of these clones there are, they won't be enough for me to kill!"

"Kill him!" Lin Yi tilted his head.

After the avatars formed a battle formation, their combat strength could also be raised to the heaven breaking stage. They were definitely not to be underestimated. Ordinary heaven breaking experts would not be able to withstand such a siege, but hadavy was different.

He could absorb energy from the clone's attacks for his own use-Qi and elemental attacks were especially easy to absorb, and physical attacks were slightly better-the amount of energy absorbed wasn't as much as Qi.

When the doppelganger battle formation's attack was weaker, hadavy's strength would be stronger. In this situation, the threat level would naturally be greatly reduced. In the end, it was equivalent to hadavy using the power of the doppelganger battle formation to fight against the doppelganger battle formation. He himself was just a transit station, the role of a Porter!

During this process, hadavy kept a portion of his energy and fed it back to himself, replenishing the energy he had just used.

"Hahahaha, Sima Yi, you're such a good person. You saw that I've used up a lot of my energy, so you sent me some energy to replenish it. I even want to erect a monument for you to praise you!"

As the aura around him grew stronger and stronger, his mind couldn't help but drift. ""It's pretty good. I'm very satisfied with your service. Continue, don't stop!"

Lin Yi didn't join in the attack. He stood at the edge of the formation with his arms crossed, a playful look on his face as he watched hazardville in the middle.

"Don't worry, I have countless doppelgangers, and I won't stop. You can absorb as much as you want, and I can provide you with as much as you need. You don't have to be polite!"

According to the absorption and conversion rate, Lin Yi guessed that there was a limit to hazardville's abilities. His Qi, on the other hand, was almost infinite. What would happen if he supplied an infinite amount of Qi to hazardville?

It was like pouring the water of the sea into a small pool. What would the result be?

It was worth looking forward to!

Hadavy's power was getting stronger and stronger. Every second, he would destroy his doppelgangers, and some of them would be directly absorbed by him.

Lin Yi didn't feel any heartache at all. He would replenish the lost one, keeping the numbers at the same level at all times, allowing hadavy to do whatever he wanted.

"Hazard, can't you be a little faster? I'm waiting to be supplemented, this is too much of a delay! Can you hurry up?"

Lin Yi even started to rush him impatiently, causing the smug hadavy's heart to sink a little. He also felt that Lin Yi's endurance was too shocking!

"No, I'll help you speed up! If you continue to absorb it so slowly, you'll be running out of time! Hurry up and eat it in big mouthfuls!"

With that, all of Lin Yi's clones pointed their palms at hazarville, who was in the middle, and a super alchemy fire missile began to form in their palms.

The power of an instant-fired super pill fire missile was only average, especially when used against heaven breaking cultivators by the clone. However, this wasn't just one or two super pill fire missiles, but nearly a thousand!

Nearly a thousand super pill fire missiles left a dazzling trail behind them as they whizzed toward hazarville. The densely packed missiles converged at a single point and exploded.

Hazarville was shocked. He raised his hands and absorbed all the kinetic energy from the missiles. At the same time, he formed a protective shield around his body again to protect himself.

He had the ability to regrow his arm, but that didn't mean he'd let his body get hurt. Lin Yi was right-his recovery ability was strong, but it couldn't compare to the immortal body from the previous level!

If they were really blown into pieces, they would really die and would definitely not be able to be Reborn!

Luckily, Lin Yi's concentrated attacks were strong, but hazarvill was still able to hold on. He used the energy he absorbed to form a defensive layer and managed to hold on. He even gained some energy from the attack to increase his combat strength.

"Just this? Just this! Hahahahaha! Sima Yi, I thought you had a big move up your sleeve, but it turns out that it's nothing more than this! Were there any stronger techniques? This is not even an appetizer!"

hazarville suppressed the panic in his heart and put on a proud and arrogant face. he put his slightly trembling hands behind his back and pretended to be a big boss! his aura was not to be feared!

lin yi's attack didn't really hurt him, but it was undeniable that he almost couldn't absorb the concentrated energy ...

no matter how good one's appetite was, one had to eat bite by bite. if you directly stuffed a big bowl of rice into your mouth, would you be able to eat happily? this wasn't a matter of whether his stomach was full or not, but whether his mouth could be opened!

lin yi smiled faintly, as if everything was under his control. he nodded to hazarville. "it's my fault for not being able to entertain you well enough. i didn't know that you had such a good appetite. now that the appetizer is finished, the feast will be served. are you ready?"

as he spoke, all the clones spread out their hands, and super alchemic fire bombs began to condense in their palms. the number of super alchemic fire bombs was twice as many as before!

moreover, all the super alchemy bombs were still in the process of condensing and had not been thrown out immediately.

it was common knowledge that the power of the super alchemy bombs was directly proportional to the time it took to condense them. the longer they were condensed, the more powerful they would be. even if the clone was at the sea shattering stage and had the upper limit of the sea shattering stage, it was still a super terrifying thing for nearly 2000 super alchemy bombs to explode at the same time.

Hazarville's expression changed slightly, and his heart began to tremble. That wave of instantaneous super pill fire missiles had almost killed him. Could he withstand it now?

With his usual strength, he might not even be able to take that wave of super pill fire missiles. He had to rely on the amplification of the Nebula Pagoda to barely deal with it.

Would the star Cloud tower still help this time?

He was only hired by the Nebula tower and was treated as a temporary worker. The Nebula tower would definitely help him, but it would not increase in strength.

He probably ... Couldn't hold on, right?

Hazard didn't dare to think that he was lucky. A temporary worker should have the awareness of a temporary worker. He had to know how much support the star Cloud tower could provide.

Chapter 9256

"Sima Yi, do you think I will just stand still and let you hit me? I just ate your appetizer, so I'm going to exercise first to digest the food!"

Hazarville laughed as he threw out these words. He clasped his hands together, and a black ball of light instantly appeared in his palms. That kind of fluctuation ... Was the power of the Super pill fire missile he had just absorbed!

Although it wasn't all of them, it was still one-fifth of the previous shots, which was about two hundred shots!

Thinking back to the lightning pillar that Hadavy had shot out after the lightning explosion had been absorbed, Lin Yi had a new understanding.

This guy ... Had the physique of vomiting anything he ate! Tsk, tsk, tsk, you don't digest it?

While he was cursing in his heart, Hazarville had already pushed out his hands. The black light turned into a pillar of light, rumbling towards Lin Yi. On the way, the clones couldn't hold on at all, and they all exploded together with the Super alchemy bombs that hadn't finished forming.

"Hadavy, do you only know how to attack me with my things? Do you have any skills of your own that you can take out? Do you only know how to eat and vomit? I feel a little nauseated ..."

Lin Yi felt nauseous just thinking about it-the hallucination wasn't exactly what he imagined, but it was the same.

Hazarville didn't seem to mind. "My skill is to take yours and use it to beat you up. Why? Getting beaten up by your own skill, are you feeling embarrassed?"

Lin Yi dodged the black light beam easily and released a super alchemy fire bomb, detonating the light beam completely.

"Hadavy, your skin is really thick. Do you even have skin? To be so shameless, he probably didn't have any face, right? What do you mean by getting beaten up by your own skill? you should beat me up first!"

Lin Yi shrugged his shoulders, indicating that he hadn't taken a single hit so far. The so-called beating didn't work at all.

On the other hand, Lin Yi had forced hadavy to use his shield twice, and even cut off his arm. Although his arm was reattached, it couldn't be erased.

The corner of hazardville's mouth twitched. Lin Yi's words made sense, and he was completely speechless!

After that, he couldn't even speak anymore-the clones around him all threw out their super alchemy bombs. He'd already killed around a hundred of them, and Lin Yi didn't even want to make up for that.

the remaining 800 to 900 doppelgangers were more than enough. the overwhelming number of super alchemy bombs gathered around hazard. without waiting for him to move, they all collided with each other and exploded, forming a huge shockwave.

hazard was bitter in his heart. he really couldn't take this level of energy!

how powerful could a pile of undetonated bombs be? how powerful would the same number of bombs be when they exploded at the same time? the two could not be mentioned in the same breath!

it wasn't a matter of whether he wanted to eat or not, but lin yi was forcing it down his throat. he had no choice but to put up a shield and absorb the energy with all his might. when his body was at its limit, he would release it and fight it with his own.

the violent explosion lasted for a few seconds, and hadavy finally managed to withstand the concentrated fire of the super alchemy bomb.

the protective shield that he had released had already been shattered in the explosion, and he did not even have the time to reform it. his hands were busy absorbing, transforming, and releasing. in a short period of time, he had been jumping back and forth, and it was indeed a bit of a flustered state of mind.

when they attacked each other, although they canceled each other out, there were always some fish that slipped through the net. they blew up the protective shield and injured hazard's body, which was why he looked so miserable.

"Ha ... Now you know that the fake can never be as strong as the real one, right? I don't think your ability to copy others "wisdom makes any sense."

Lin Yi's original body was very relaxed as he crossed his arms in front of his chest and continued mocking, "If you really have the ability to swallow the heavens and devour the earth, I won't say anything. With such a small appetite, where did you get the confidence to challenge me?"

"To be honest, I was looking forward to it when you said you had a silver bloodline. I didn't expect you to be so weak! Is there something wrong with the classification of bloodlines in your darkness demon beast clan?"

"to be honest, i think that with your lousy ability, it's not bad if you can barely be considered as a bronze bloodline. how did you manage to mix into a silver bloodline? could he have gone through the back door? did he get to his position through connections? i'm afraid that the one assessing the bloodline is not one of your clansmen, right?"

hazarville almost vomited blood in anger. although he didn't quite understand a few words, he understood the general meaning.

"Sima Yi, don't talk nonsense. Do you think a silver bloodline is something you can guess? Did you really think that was all I had? Aren't you underestimating me too much?"

Hazarville was a little lacking in confidence, but he could not lose. This was about the glory of his bloodline, so he would never admit defeat!

"Just you wait, that was just a warm-up. I'm going to get serious now. Are you ready to welcome the arrival of hell? I'll let you see what horror is!"

"You're really good at bragging, aren't you? you wouldn't be in such a sorry state if you were half as strong as you are!" Lin Yi said with a smile.

"Forget it, I'll pretend to believe you for the time being and see what other cards you have. Come, come, quickly show them, or you'll complain that I didn't give you a chance! I have to remind you that you don't have much time!"

The clones around him were making super alchemy bombs again, still using both hands, and the clones that were lost were all filled up by Lin Yi. With the unlimited Qi supply from the Jade space, he was just that overbearing!

If it were anyone else, it would be good enough if they could create a wave of attacks. Without replenishing their energy, they would be squeezed dry in one wave.

Only Lin Yi had the ability and the confidence to continuously supply close to a thousand clones with super alchemy bombs, using unlimited firepower to crush hazarville to death.

To be honest, hazarville's innate ability wasn't as weak as Lin Yi made it out to be. He could fight other heaven breaking cultivators and strengthen himself at the same time. There was no way he could defeat them.

But this guy was unlucky-he met Lin Yi, who wasn't afraid of being absorbed, but was instead afraid that he wouldn't be able to absorb too much. This was his natural nemesis, and what could he do? he could only despair!

Hazarville glanced at Lin Yi's clones around him, feeling bitter inside. One more time, and he really wouldn't be able to take it!

Although he spoke ruthlessly, in reality, he had no confidence at all. As the hirer of the Ninety-ninth step, the star Cloud tower had given him a trump card, which was also the star meteor annihilation.

The star meteor annihilation was indeed powerful, but hadavy did not dare to use it! If he were to get involved, he would not be able to revive ...

Plus, he already knew that Lin Yi had the star undying body. If he used the star meteor annihilation, Lin Yi might not be hurt at all, but he would be completely dead. Would he be able to use his ultimate move to kill himself?

Chapter 9257

"Hey, hazard, what are you waiting for? Wait for me to launch another wave of attacks and let you have your fill? Then I won't be polite!"

Lin Yi saw the look on hadavy's face, and he pointed at the clones around him. ""Look carefully, my attack is ready and I'm about to attack. Don't say that I ambushed you without warning!"

"Come on! Who's afraid of who!"

A trace of ruthlessness flashed in hadavy's eyes as he shouted, ""You really think I'm afraid of your little tricks? Open your eyes and take a good look at how powerful the silver bloodline is!"

Before his voice died away, the aura on hadavy's body increased dramatically. His entire body emitted a layer of black light, and the veins on his round face bulged. His muscles also expanded.

It looked like it was filled with air and instantly became much burlier.

Lin Yi raised an eyebrow, "Interesting. Is this an explosive skill? Or by conventional means?"

If it was a conventional method, then it would be a bit powerful. If it could only be used once in a while as a trump card, then the threat would not be so strong.

Hazarville didn't have the time to care about Lin Yi. His strength was rising, and so was his aura. His eyes were wide open, and his pupils were red. Sweat was dripping down his forehead.

It was obvious that no matter what skill it was, it would put a huge burden on Hadavy's body. From the looks of it, it should not be a normal skill, and could only be used as a trump card.

The Army of doppelgangers around him waved their hands in unison, and a dense cluster of super alchemy bombs flew toward hazard. This time, there were even more of them, and it was impossible to avoid them.

It looked like the scene from before was about to repeat itself. The huge explosive energy would cause more damage to the trapped hazarville.

However, it was completely different this time. Hadavy's fingers were placed together, and a hole was formed in his palm. He raised his hand to his forehead, and a Black Vortex formed in the hole.

A powerful pulling force was quickly generated, pulling everything around hazarwill towards the Black Vortex.

Regardless of whether the two thousand super alchemy fire bombs had exploded or not, they were all pulled away from their original paths by the invisible vortex and poured into the small black hole.

That's right, hazard had created a small black hole that devoured everything around him.

Lin Yi's original body turned into a lightning arc to put some distance between him and the pulling force, but the nearly 1000 doppelgangers couldn't escape. They were all crushed by the strong invisible pulling force and sucked into the small black hole.

After devouring nearly 1000 doppelgangers and 2000 Super alchemic bombs, hadavy's body had doubled in size. He was now more than three meters tall, and his muscles were bulging. He looked like a small giant.

Before this, hazard looked like a fat man, but now, he was nothing like a fat man. He was a muscular monster, and the correct way to describe him was to say that he was strong and powerful.

"Sima Yi, thank you for the feast, I'm very satisfied! Next, it's time for me to return the favor and thank you!"

Hadavy's bell-like eyes were as red as blood, and he had a ferocious smile on his face. The black hole in his palm disappeared, and a layer of black flames rose from the surface of his body. The space that came into contact with the flames seemed to be melting.

Lin Yi was shocked-this guy's aura had reached its peak, possibly even in the Supreme realm!

His own burst skill already had the effect of greatly increasing his strength, and after devouring so many of Lin Yi's clones and super alchemy bombs, his combat strength had increased by leaps and bounds. It wasn't strange for him to have such an aura.

His berserk skill broke through his body's limits and absorbed even more energy for a second upgrade ... This meant that the silver bloodline of hazard was not simple at all. It could even be considered powerful!

Lin Yi's mind raced as he recalled everything that had happened. Before he could say anything, hadavy had already launched his attack.

His burly body seemed to lack agility, but he wasn't clumsy at all. With a single move, he appeared in front of Lin Yi!

"Sima Yi, I'll give you a punch as an appetizer. Please kindly accept it!"

As he spoke, a fist the size of a claypot flew towards Lin Yi's face.

It was so fast that Lin Yi almost couldn't see its trajectory!

At the critical moment, it was still the spirit sense that allowed him to grasp the details of the opponent's movements. Feeling the threat from the fist, Lin Yi didn't have time to think and just relied on his instinct to activate the three appearances of Cloud Dragon, leaving an afterimage on the spot and dodging the powerful attack by a hair's breadth.

"This move again? Hehe! You can't run away! I've already seen through your tricks!"

Hazarville moved like lightning, no slower than Lin Yi at all. In fact, he seemed to be even faster.

As soon as Lin Yi appeared, hadavy's fist was already right behind him. When the third appearance of Yun Long left behind a second afterimage, the pot-sized fist grazed Lin Yi's shirt and almost hit the real body!

Ever since he'd learned the [three appearances of cloud and Dragon], he'd never been beaten to a second shadow!

This seemingly cumbersome big guy was able to achieve this by relying on his speed. He was indeed powerful!

"Just accept your fate! You can't escape!"

Hazzwill laughed as he passed through Lin Yi's afterimages and teleported a hundred meters away, punching the air in the distance.

Lin Yi's face was a little surprised. He appeared less than ten centimeters in front of his fist, but he didn't have time to cast the third afterimage. There was a strange energy fluctuation on hadavy's fist, sealing the space around Lin Yi.

It was impossible to Dodge, so there was no other way than to fight head-on.

This was the first time that the three appearances of Cloud Dragon had been completely broken!

Lin Yi crossed his palms and blocked in front of his chest, gathering all his pure Qi and elemental Qi in his palms. This was all he could do in such a short time.

Hazarville's fist slammed into Lin Yi's palm, and the two of them were in a stalemate for less than a tenth of a second. Lin Yi's palms couldn't block it, and he was bounced away!

His chest was wide open, and the fist didn't slow down at all, landing on Lin Yi's chest.

"Die!"

Hazarville's face was crazed, and blood was rushing to his head as he looked at Lin Yi, who was about to die.

He didn't mind if Lin Yi activated the indestructible star body-he could always try again after the time limit was up!

Lin Yi felt that his body probably wouldn't be able to take this punch from hazarvil...And the thought of activating the indestructible star physique did cross his mind.

But after seeing the star meteor annihilation, Lin Yi didn't dare to use the star undying body so easily ... The star meteor annihilation was a super attack that could even wipe out the spirit.

In comparison, hadavy's fist was not that invincible!

## Chapter 9258

In the nick of time, Lin Yi's spirit left his body, and his body entered the Jade space. He was facing hadavy in his ethereal form.

The punch that was enough to destroy the world went through Lin Yi's essence spirit without any resistance. It didn't cause any damage.

Hazarville froze. He'd expected to kill Lin Yi with this punch, and at the very least force out the star undying body, but it didn't work at all?

To hell with it!

"Sima Yi, where did you keep your body?"

As far as hadavy was concerned, Lin Yi was just cheating, but he was more concerned about where Lin Yi's body was.

There was no way to break Lin Yi's move without understanding it!

In this aspect, it wasn't completely fruitless-at least Lin Yi was forced to use his hidden skill.

Lin Yi smiled faintly, naturally leading hadavy's thoughts towards skills to avoid exposing the Jade space.

"Your silver bloodline has an innate ability, and so do I. In terms of bloodline, I'm much stronger than your silver bloodline among the humans!"

Anyway, bragging didn't have to be taxed, so he could just say whatever he wanted!

"I'm different from you. I don't mind telling you my abilities. Listen carefully. This is called body primordial spirit transformation. It can instantly transform the body into a primordial spirit state and make you immune to all attacks."

He didn't know if he'd be able to fool hazarville, but Lin Yi believed him.

Hazarville was a little suspicious. He wasn't an idiot who'd fall for Lin Yi's lies so easily, but this was something he didn't know.

Things he didn't understand, Lin Yi's explanation made sense, and even if he said he didn't believe it, he was starting to believe it in his heart.

Halfway through his disbelieving words, hadavy coldly snorted and said, ""Sima Yi, don't brag. There's no skill in the world that is truly immune to all attacks. Who are you trying to fool? Do you think I'm a country bumpkin who has never seen the world?"

He believed in Lin Yi's ability to deify his body, but he didn't believe that Lin Yi was immune to all attacks in his current state.

The indestructible star body was said to be invincible, but it was not impossible to break. It just needed too much power to break through the star Cloud tower and break the indestructible star body!

At the moment, it was unknown who had such a powerful attack. Even with his pseudo-venerable realm strength, he was still far from that level.

Just because it couldn't be achieved didn't mean it couldn't be achieved!

"Ha ... What kind of world have you seen? If you don't even know about my skill, why are you acting like you've seen the world?"

Lin Yi's light taunt really did piss him off.

A fierce light flashed in hadavy's eyes, and he shouted, ""Then try this! Let's see if you can really be immune to all attacks!"

Before he could finish his sentence, he put his hands together and pushed his palms out at Lin Yi. A black light shot out from his palms, with lightning arcs dancing on the surface.

The attack this time was mainly the power of a super alchemy bomb, with a little bit of the characteristics of the lightning thousand explosion. In addition, there was also some damage to the spiritual sense.

It was probably one of the most powerful items in hadavy's Arsenal, but it was unknown whether it was his own ability or if he had absorbed it from somewhere else.

Lin Yi turned into a lightning arc and dodged while looking for a chance to counterattack.

However, hazarville's speed wasn't any slower than lightning escape. He caught up to Lin Yi with ease, and the two of them exchanged blows continuously. Lin Yi was completely suppressed by hazarville's Shaman Spirit body.

The black light pillar with the lightning arcs had a huge impact-Lin Yi didn't want to be hit, so he could only try his best to Dodge. He couldn't make a difference in speed, and he was at a disadvantage in strength. He was in a very passive position.

The key was that the Spirit's defense was very strong as well. Lin Yi had used many spirit attacks, but none of them worked.

The doppelganger of the thousand changes of wood forest was even more useless. As soon as it appeared, it was scattered by the power fluctuations emitted by hazarville!

It was said that hazarville was a pseudo-Supreme realm because he did not have the experience of this realm, nor could he control the unique power of the Supreme realm. But in terms of physical strength, he was a true Supreme realm.

Lin Yi, who was at the peak of late-stage heaven-breaking realm, could still barely hold on under such terrifying power. A sea-breaking realm thousand forest illusion clone didn't even have the right to get close.

The dissipation of some insignificant power was enough to tear apart a clone at the sea splitting realm. Using this move was meaningless except for wasting genuine Qi.

"Hahahaha, Sima Yi, don't you always talk big? How come he didn't even have the strength to fight back? Show me what you've got! Wasn't he very impressive just now? Now, he's just taking a beating and not retaliating. What kind of move is this?"

Hazarville had a huge advantage, and he easily suppressed Lin Yi. He started laughing arrogantly again, provoking Lin Yi with his words. "A skill that is immune to all attacks? Then don't hide! Let's see if you'll die after taking a few of my attacks!"

Lin Yi's face was calm, not the least bit agitated. He smiled, "I'm not an idiot like you who likes to stand still and get beaten up. Just now, I attacked thousands of times without missing a single one. I'm sure this kind of Grand occasion can only be seen on an idiot like you.

"Why don't you tell me, after fighting for so long, how many times have you hit me? Let's not talk about whether I'm immune to attacks or not. It's not like I'm being cheap and I have to let you beat me up to show how strong I am. "

The corner of Hadavy's mouth twitched. Are you F \* cking saying that I'm cheap? Was it a silly girl who liked to stand still and get beaten up?

He grabbed a blade of grass!

He was speechless!

Although he did that to absorb Lin Yi's attack power, it didn't seem like he was doing anything wrong!

He held his breath!

"Hadavy, how long can you maintain this state? He should be dying soon, right? An arrow at the end of its flight, there's no need to force yourself!"

Lin Yi's sharp senses told him that the pressure on him had decreased a little, and that his berserk mode was about to end.

Hazarville's heart skipped a beat. Just as Lin Yi had expected, his berserk state was about to end, and using this move would put a heavy burden on his body. After it ended, he'd be in a weakened state for a while.

Moreover, he would not be able to use this berserk skill again in a short period of time, and his strength would decline greatly!

He couldn't do anything to Lin Yi even in his peak state-would he still be Lin Yi's match if he was weakened?

"What a joke! Why am I an arrow at the end of its flight? There are plenty of strong bows and arrows, I will definitely be able to hold on before I kill you!"

Hazarville gritted his teeth and continued to increase his attack. Lin Yi was like a candle in the wind, looking like it would be extinguished at any moment, but he was still burning tenaciously, not willing to fall.

Chapter 9259

On the surface, it looked like hazard had the advantage, but he was always lacking his last breath. He couldn't kill Lin Yi for sure, and this made him feel really annoyed.

The time limit for the explosion was almost up, and Lin Yi's star undying body couldn't be forced out.

He had no choice but to use the temporary skill given by the star Cloud tower!

Whether it works or not, he had to take a gamble!

Hadavy felt that it was unlikely to succeed, but other than that, he had no other options. He could only hope for a fluke.

Star meteor annihilation!

Lin Yi saw a familiar scene again-the speed and power of that giant comet were both shocking!

But Lin Yi didn't panic at all. His spirit may not be able to block the star armor, but the star indestructible body had proven that in the battle of spear and shield, the sturdy shield had the last laugh.

A bright Starlight shone from Lin Yi's body, and the indestructible star body let out its unique light the moment the star meteor annihilation landed!

Lin Yi didn't know if it was an illusion, but he felt that the star meteor annihilation this time was much stronger than the previous level. However, it still didn't affect the star immortal body.

Perhaps the power would increase after a level was raised. It was a normal phenomenon, so it was not surprising.

The hope in Hadavy's heart was completely shattered. He did not dare to take the star meteor annihilation attack head-on. His figure quickly retreated. Before the explosive state disappeared, he escaped from the attack range with a speed that was not inferior to the lightning escape technique.

As the target, Lin Yi would be locked on by the star meteor annihilation, and he wouldn't even have the ability to Dodge it. As for Hazzare, he was the one who activated the star meteor annihilation. Although he would be attacked indiscriminately, he wasn't locked on by it.

Hence, he managed to escape the attack range at the last moment and appeared at the edge, looking at Lin Yi in the center with fear.

Seeing Lin Yi finally use the star undying body, Hazzare didn't know how to feel. Full of regrets?

In short, the battle was far from over. Both sides had used their strongest trump cards, and the real climax of the battle was next!

Hadavy's pupils turned from red to purple, and his body once again expanded. He placed his hands in front of his body, trying to absorb the power of the star meteor annihilation!

He was giving it his all, too. His explosive state had passed its peak, and it was dropping due to the time limit. When the star meteor annihilation's fluctuations ended, Lin Yi would rush out in his undying star body state, and he would die for sure!

If he wanted to live, he could only take a gamble!

After forcefully absorbing the energy of the star meteor annihilation, hadavy's body was on the verge of exploding. Blood was already flowing out of his mouth and nose.

"Why do you have to do this, hadavy? Can't you just admit defeat? What's the point of forcing yourself?"

Lin Yi walked out of the light and activated the star undying body. Walking in the star meteor was like walking in a hot spring. Not only was there no harm, but it was also warm and comfortable.

Hadavy's face was ferocious, and he no longer had the kind smile that he had when they first met.

"Sima Yi, so what if you can withstand the star meteor annihilation? He would still die in the end! In the face of absolute power, everything can be destroyed!"

Hazarvill said this, but he knew that the power he had at the moment was not absolute power. On the contrary, the indestructible star physique was the absolute defense.

"So? Are you here to destroy me? Try it!"

Lin Yi opened his arms wide, welcoming her. "I'll stand here and let you attack me for 30 seconds. By the way, I wonder if you can hold on for another 30 seconds? You look like you're about to explode!"

"Don't worry, I've said it before, I won't have any problems before you die. I'll definitely be able to hold on until you die!"

Hazarville laughed evilly as he retreated. He knew that he couldn't do anything to Lin Yi now. Although he had absorbed a portion of the star meteor's energy and his strength had increased, he still couldn't break through the defense of the indestructible star physique.

The only way was to stall for time until the time limit of the star undying body was up. Then, he would burst out with this power and kill Lin Yi in one fell swoop.

After the outburst, it was likely that hadavy himself would die. His body could not withstand such a huge amount of power. He had to pay the price for forcefully continuing the outburst and even breaking his limits.

If it was just a mission from Xingyun tower, hadavy wouldn't have gone this far. However, he was a Dark Demon beast with a silver bloodline. It was normal for him to want to kill a strong enemy like Lin Yi.

Perhaps he didn't want to take Lin Yi down with him at the start, but he didn't know that he'd come to this point.

To be honest, hadavy was a little regretful. The silver bloodline was extremely noble, and they were one of the top-tier experts of the darkness demon beast clan. They were a true super-noble.

He didn't expect to die Here ... Even his powerful recovery ability couldn't save him!

Hazarville sighed in his heart, but he thought that it was worth it to die with Lin Yi ...

"Tsk! If you're not willing to attack, then I have no choice but to attack. Are you ready to get beaten up?"

Lin Yi's lips twitched as he casually took out a hammer and swung it on his shoulder. His body flashed, and he instantly appeared next to hadavy.

The big hammer fell with a loud bang, drawing an obvious arc in the air. Along with a trail of sparks and lightning, it smashed towards hadavy's swollen skull.

Hadavy was shocked-Lin Yi's speed was even faster than his! There was still some distance between them, but Lin Yi was already there! And when the hammer came down, he felt like he couldn't Dodge it.

It was the same feeling Lin Yi had when he faced the star meteor!

"Small tricks! You dare to ..."

Hazard couldn't Dodge it. He could only let out a roar and put his hands on top of his head to block the hammer. His strength surged out, and he tried his best to stop the hammer from falling.

However, before he could finish his sentence, the huge hammer smashed into his palm with the force of a Thunderbolt. Even the strength of a Supreme realm could not block the huge hammer. After a second of stalemate, the huge hammer smashed both his hands and palms onto his head.

"Big hammer! Eighty!"

Lin Yi laughed out loud as he saw the blood gushing out of Hadavy's nose. He was in a good mood.

However, that was all. Hadavy's current strength was too strong. Although he did not manage to block the hammer in time, he had used up most of his strength. The real damage from the hammer was not much. A little nosebleed was more or less enough.

Hazard wanted to speak, but it was difficult for him to do so. He could only retreat, hoping to keep his distance and continue his plan of stalling for time.

It wasn't that he didn't want to fight Lin Yi to buy time, but his body wasn't in a good condition. Fighting with Lin Yi could cause accidents, and his body might collapse before the star undying body's time limit ended.

Only by dodging all of Lin Yi's attacks would he be able to unleash his strongest attack!

Chapter 9260

"Hazard, you don't have to hide anymore. You can't escape!"

Lin Yi laughed, and his body flashed as he caught up to Hazard. He swung the hammer in his hand, "Little hammer, forty!"

Hazard was shocked. Fortunately, he was mentally prepared, so he didn't react as hastily as he did just now.

He pushed his palm out, trying to change the Hammer's trajectory, but failed. He took another hit from Lin Yi, and his body received a strong shock.

The power in his body was huge but extremely unstable. After suffering the shock, he had spent a lot of effort to suppress it. If it happened a few more times, he might explode!

"How is that possible? Sima Yi, why did your speed suddenly increase so much? Could it be that the star indestructible body also has the effect of accelerating?"

Hazardville couldn't accept this. He was the one who had the upper hand in speed just now, suppressing Lin Yi and giving him an easy chase. Who would've thought that the tables would turn? It didn't even take thirty years for the tides to turn!

Lin Yi looked very relaxed, even chasing after Hazardville like he was taking a stroll in his garden.

When he heard the question from hazard, he couldn't help but chuckle. ""Hazard, you don't look stupid. How could you ask such a stupid question?"

"Can't you feel it? it's not that I'm faster, it's that you're slower! What does this have to do with the star undying body?"

Hazard was stunned, and his mind was in a mess. What did he mean? Did I slow down? There was no reason for that!

After absorbing a portion of the star meteor annihilation's energy, his strength had clearly increased by another level. How could it slow down? Speed was also proportional to the increase in strength!

Lin Yi smiled,"look at your confused face, you probably still don't understand what's going on, do you?" How foolish!"

"Fine, I'll give you some advice out of goodwill! Your strength has indeed greatly increased, but your body has also exceeded its limit. As the saying goes, too much is as bad as not enough, do you understand?"

"To be more specific, in order to accommodate more power, your muscles had no choice but to expand on their own, breaking the perfect ratio. Although your power has increased a lot, it has also slowed down your speed."

"Without speed, what's the use of great strength? If you can't hit the target, you'll only hurt yourself. You don't even understand such a simple truth. I call you an idiot, what are you not convinced about?"

It was as if Hazard was struck by lightning. His mind suddenly cleared up, but at the same time, he was a little confused. "So that's why ... So that's why?" he thought.

In order to maintain his explosive state, he risked his life to absorb a large amount of star meteor annihilation's energy. After this, he would die for sure, and he thought that he could use the huge amount of energy to take Lin Yi down with him.

Now, it seemed that he had been reckless!

Lin Yi's words didn't slow down at all as he swung the hammer one after another, 841 times in total.

Hazard was dejected, and the confusion in his heart couldn't be dispelled at the moment. If he wanted strength, he'd lose speed. If he couldn't hit Lin Yi, then it was meaningless no matter how strong he was.

But without this power, he was no match for Lin Yi at all ... It was an endless loop!

He was defeated!

He had no chance of winning at all!

All of a sudden, hadavy's anger disappeared. After being hit by the hammer again, he waved his hand to release the huge amount of energy he had absorbed.

If he continued, the turbulence in his body would be enough to cause an explosion.

"Ha ... You finally understood and gave up all resistance?"

Lin Yi squinted his eyes, and hadavy's aura dropped drastically. His body size also shrunk rapidly, returning to his original size.

The burst skill's time was up, and after the star meteor annihilation's energy was used up, hadavy no longer had the strength to fight Lin Yi.

Plus, his meridians were all messed up by Lin Yi, and he couldn't even absorb energy normally. He needed time to recover, but Lin Yi wouldn't give him that time.

"I lost! You can kill me, but I'm sure you'll die at the hands of my companions. Don't think that we can't do anything to you just because you're strong!"

Having accepted his failure, hadavy laughed and said, ""If you want to make an enemy out of our darkness demon beast clan, you'll definitely die! I'll be waiting for you on the way!"

Lin Yi clicked his tongue, "you've already lost, and you're still so stubborn. Are you born in the year of the duck?" It seems like the saying "a dead duck's mouth is stubborn" is true. "

Before he could finish his words, the hammer had already smashed down on his head. Sparks and lightning crashed into his skull.

He was hoping that the star Cloud tower would send him away, but his surrender wasn't accepted by the tower. He watched as Lin Yi smashed him to death with a hammer, not interfering at all.

Then, the new super alchemy bomb turned hadavy's corpse into nothingness. Even if this guy had an immortal body, it was impossible for him to use this opportunity to resurrect!

Lin Yi shook his head slightly, finding it a little boring. Hadavy had lost his will to fight in the end, and there was nothing to be proud of even if he won. He didn't think that this guy would have a mental breakdown from Lin Yi's words ... It was quite a surprise.

No matter what, they had to kill hadavy. They couldn't let him off just because he had admitted defeat. After all, he was a silver-blood darkness demon beast. Letting a Tiger return to the mountain would only leave behind future trouble!

After sighing for a bit, Lin Yi collected his emotions and accepted the rewards from the pagoda, ready to enter the next level.

The rewards were still the same, but the difference between the chant and Lin Yi's own deduction was getting bigger and bigger. Lin Yi decided to ignore it after looking at it and continue to believe in himself.

The 17th level!

Lin Yi felt complicated as he stepped onto the new step. The first group was on this level as well, and they weren't even at the top, not even at the Ninety-ninth step. It seemed like they'd catch up to them for sure.

However, after he caught up, would he be able to win? Lin Yi didn't have any confidence himself!

Thinking back to the darkness demon beast experts he had encountered, such as the Golden dark shadow Demon, the mind-confusing Shadow Demon, the space-trapping ghost demon, asleina, the undying demon, and the previous hadavy, all of them had special abilities and shocking battle power.

Lin Yi had been winning all the way up, but if he had to face more of these dark beasts at the same time, would he really have a chance?

Lin Yi, who had always been confident, couldn't help but be suspicious. Blind confidence would become arrogance, and there was no good in it.

No matter what, he couldn't stop here. Lin Yi continued to walk forward without looking back, climbing with an unstoppable momentum.
