

Bodyguard 9261

Chapter 9261 The Power Of The Devil

On the thirty-third step, other than the star Cloud tower's regular Force, there were also some Dark Demon beasts "ambushes. But it seemed like the Golden Shadow Demon did it casually, not putting much effort into it. Lin Yi didn't think it was too troublesome.

Perhaps the Golden-dark shadow Demon didn't expect to do anything to Lin Yi, and only wanted to buy him some time.

The Golden-dark shadow Demon was very clear on Lin Yi's strength now, so it didn't want to waste its energy on Lin Yi. Instead of using the tactic of feeding more people, it was better to wait for Lin Yi to come and beat it up.

The dark Demon beasts that were fighting on their own, like hadavy, were only going because of Xingyun tower's orders. Otherwise, the Golden Shadow Demon wouldn't have let them go to Lin Yi alone without any escape route.

They were all experts with bronze and silver bloodlines!

In the entire darkness demon beast clan, powerful demon beasts with bloodline abilities were one in a million. It would be strange if the Golden dark shadow Demon didn't feel heartache if they were to die one after another!

The sixty-sixth step didn't face any major obstacles, either-it was a smooth journey, and the first group hadn't even lit up the seventeenth step yet. Lin Yi could already see the light of hope!

Things didn't go as planned, however-the core lit up when Lin Yi reached the Ninety-seventh step!

The first team had passed this level!

No matter how unstoppable he was, Lin Yi still delayed a little against the obstruction of the Xingyun tower. It was this little bit of time that widened the gap between the two!

Lin Yi sighed to himself. He thought that he would definitely be able to catch up on this level, but it was all for naught. The next level was the last level of the pagoda. What would happen at the end?

What kind of benefits would the first-echelon team get?

No!

He had to catch up with the first group as soon as possible. He had to stop them before they reached the last step of the last level!

Lin Yi gritted his teeth and quickly broke through the Ninety-seventh step and the Ninety-eighth step, reaching the Ninety-ninth step of the seventeenth step!

This time, waiting at the Ninety-ninth step were two beautiful women who looked exactly the same!

"Sima Yi, you've come faster than expected. It seems that your strength is indeed impressive, and it's beyond our expectations!"

The woman on the left smiled and nodded. She didn't seem hostile at all. Instead, she seemed close to him. "As you can see, we are the Guardians of this level. If you want to continue to the 18th level of the Nebula tower, you have to defeat us first!"

Lin Yi had received the message from the star Cloud tower, and it was basically the same.

"I can tell! Then let's cut the crap and do it!"

Lin Yi's face was calm as he moved his limbs, ready to fight. "There's no need to do any warm-up exercises. I've already done enough on the way here. Let's get straight to the point!"

Everyone skipped the steps of testing each other out, as if they were going to fight to the death.

The woman who spoke smiled and waved her hand, "don't be anxious. Sima Yi, are you such an unromantic man who doesn't have tender feelings for women? In the face of two beautiful girls, wasn't it too much of a killjoy to shout and kill as soon as he came up? At least let's chat and get to know each other better!"

"I'm not interested! Although talking can't buy us much time, I don't want to waste any more time. We can't escape a big battle, so what's the point of talking so much?"

Lin Yi shook his head and smiled as he threw out two super alchemy fire missiles at the two girls.

The two girls raised their hands at the same time, and violent Qi gushed out, blocking the Super alchemy fire missiles halfway. Lin Yi didn't even have time to change the trajectory.

His reaction speed was really fast!

"What a boring and boorish man! Other than his looks, he's practically useless!"

The woman who spoke just now smiled and said, ""Fine. If you don't want to talk, just listen. We're not doppelgangers, but twin sisters. I'm Ilya, the younger sister, and that's my older sister Yelia. She doesn't like to talk, but she's a little like you."

As they spoke, the two neutralized another wave of Lin Yi's attack. Their postures were graceful and calm, not feeling that Lin Yi's attack was difficult at all.

Lin Yi squinted his eyes. Although he said that he was going all out, the attacks at the beginning were still testing. After so many battles, the dark Demon beasts should have pretty much grasped his background.

However, the twin sisters had no idea what abilities they had, so it was difficult to avoid the necessary probing. It was difficult to effectively avoid the crisis if they attacked with all their might.

"So it's two sisters. Are you going to fight two against one this time?"

Lin Yi used his new fire spirit sword technique with the demonic devouring sword. The black sword Qi swept across the sky with flames. The power was unparalleled, but the two sisters didn't have any trouble dealing with it.

"Are you trying to say that we sisters are bullying the few with numbers? It's not like that, we two sisters are of the same mind, and we've always worked together against our enemies. When dealing with you alone, we worked together, and when dealing with 11000 enemies, we also worked together. We don't have any intention of bullying you. "

Ilya laughed as she pushed the sword away."If we're talking about using numbers to bully the few, Sima Yi, you're the expert, right? Don't you have a clone skill? If he could create hundreds or thousands of clones at once, why didn't he use them? I'm actually quite curious, hurry up and show us!"

Most people would say this to indicate that they had absolute confidence in restraining this move, or they were deliberately mystified, making the opponent think that they would be restrained and not dare to use this move. In reality, they did not have the ability to restrain it.

Lin Yi thought that Ilya was the former. He had used the thousand forest transformation more than once in front of the dark beasts, and no matter how they passed information, they must have studied it many times.

"As you wish!"

But Lin Yi didn't mind. The thousand changes of wood and forest was a practical skill, and he could recover the consumed energy immediately. It didn't matter if it was countered or broken-it was good to use it to exhaust a wave of enemies!

In the blink of an eye, hundreds of clones appeared out of thin air and formed a battle formation at the same time, launching a concentrated attack on the sisters.

Although they were only at the sea split stage, with the support of the battle formation, their numbers could produce a qualitative change, enough to threaten the two sisters!

"Interesting indeed. It's a pity that your doppelgangers are too weak. No matter how many you have, they're useless!"

Ilya's smile was as bright as a flower as she burst out with yeliya's aura. Countless forces shot out, not only destroying all of Lin Yi's clones 'attacks, but also destroying them all!

Chapter 9262 Power

The thousand forest illusionary transformations's clone did not even last a second ...

"Hehehe, so this is your clone skill? It's no big deal even if you've seen it! I'm even a little bored!"

Ilya shrugged with a disappointed expression. "I thought it would be fun ... Sima Yi, don't use this move anymore, it's a waste of energy! Don't think that you can waste our energy. I might as well tell you a secret. "

She paused for a moment, and a mysterious and proud smile appeared on her face. "Our bodies are very special. The strength inside our bodies will be replenished immediately no matter how we use it. In other words, all the exhausting tactics are of no use to us!"

Lin Yi was surprised-did they ... Have a Jade space too?

Both sides were tireless perpetual motion monsters. How could they fight?

"Ilya, you talk too much!"

Yelia, who had been silent all this time, interrupted her sister coldly, "Kill Sima Yi and complete the mission!"

"Yelia, you're too boring. It's rare to have a chance to have some fun. What's the point of ending it so quickly? What's wrong with playing a little longer?"

Yiliya wasn't happy about it, but yeliya didn't bother with her and continued to attack Lin Yi.

Before this, Lin Yi was basically the one attacking, and the two sisters were just casually defending. Now, it was time for the real counterattack.

Yeliya's aura was like a rainbow, and her strength level was about the same as Lin Yi 's. Because she wasn't afraid of exhaustion, her attacks were wild and unrestrained. Every strike was like a Thunderbolt, as if she was using her full strength.

Such an opponent could be treated as a person of a higher level!

Fortunately, Lin Yi was a member of the perpetual motion machine club as well, so he wasn't afraid of Yelia's attacks at all. He put away the demonic blade, took out the hammer, and started swinging it with all his might, ending the fight after a while.

Yeliya wasn't afraid of consumption, so all her skills were explosive. She wasn't losing to Lin Yi for a while!

Lin Yi was distracted, and the hammer was blocked by the opponent's explosive skill. He used his free left hand to create a new type of super alchemy bomb.

The new super alchemy bomb was an improved skill after he mastered the star power, and Lin Yi didn't stop exploring and improving it.

Before this, the Super alchemy bomb could be considered a hodgepodge, but the powers fused in it were actually similar powers of the same lineage, so it was not difficult to fuse them.

Without the power of stars, Lin Yi wouldn't be able to add any new energy into it, but with the power of stars, the new super alchemy bomb was like a giant star furnace, able to swallow and merge any energy Lin Yi wanted to add!

The power of lightning, icy blaze, elemental Qi, and so on-the power contained in them was multiplied by several times. Lin Yi felt his hair stand on end just by feeling it, afraid that he would accidentally lose control and blow himself up.

The more power he added, the shorter the time it took to reach the limit of control. Perhaps the total amount of power he added might not be as much as before, but the power would be even more terrifying. This was equivalent to indirectly increasing the speed at which the new super pillfire bomb was formed.

"If the clone is not enough, then let's try this move!"

Lin Yi shouted as he pulled the hammer back. His left hand shot out like lightning, and the new super alchemy bomb appeared in front of Yelia. Under Lin Yi's precise control, it exploded before it could even touch her!

The area was instantly reduced to nothingness. Black flames and black Lightning arcs surged in the void. If one did not look carefully, they might not be able to see it clearly, but anything that came close would undoubtedly be completely annihilated!

Terrifying power!

This was a new type of super alchemy bomb that contained all of Lin Yi's power. Whether it was an undying body or an incorporeal spirit, as long as they were within the range, they would be turned into nothingness. There was no way to escape.

Even if it was Lin Yi himself, if he took that hit, he would die without a chance of survival!

Did I create a weapon for suicide?

The thought came to Lin Yi's mind, and his heart tensed up. He was on alert-when he used the new super alchemy bomb, he couldn't go beyond his control, or he'd really die ...

"So powerful ... I almost died, Yelia!"

Ilya was making a ruckus in the distance, and beside her was Yelia, who had a dark expression on her face. Somehow, she had managed to escape the explosion range of the new super alchemy bomb, and was now standing next to Ilya unscathed.

However, Lin Yi's sudden attack had clearly shocked Yelia, and she was probably still in shock.

"Sima Yi, that's a powerful move! If you accidentally touch it, you'll really die!"

Ilya waved her hand in a carefree manner. ""What should I do if you kill Yelia? Next time you want to use this kind of sure-kill technique, shouldn't you at least say hello? Isn't it embarrassing for a man to bully a weak woman?"

Lin Yi didn't know what to say-this was a life-and-death battle, who would have the time to use a big move and say hello? Come to think of it, he had greeted her before, and he had thought that Yelia wouldn't be able to avoid it. He didn't expect that he couldn't even catch the way she avoided it!

He was too careless!

Also, if these two women were considered weak, would there still be powerful existences in this world? This was not limited to male or female, alright!

"Ilya, don't say such useless things. In comparison, I'm more interested in how your sister managed to escape. Do you mind telling me?"

Lin Yi wasn't in a hurry to attack-he wanted to see how yeliya was going to escape.

If he couldn't figure it out, he might miss more chances of winning in the future!

"Do you think I'd mind?" Ilya chuckled with her head tilted.

"I'm guessing you don't mind!"

"I guess you need to guess again!"

Ilya and Lin Yi made a short and funny conversation. Lin Yi knew that it wasn't realistic to get any information from this cunning woman!

He had no choice but to figure it out himself!

"Then I won't guess! Make good use of the time and continue fighting!"

Lin Yi turned into a lightning arc and teleported in front of the sisters with the hammer. He brought the hammer down at the same time as the lightning explosion.

Ilya and her sister did not have any intention of taking it head-on. An invisible force seemed to explode between the two of them, splitting to the left and right, and flying to both sides at the same time!

That feeling was as if they were tied to magnets of the same pole and repelled each other.

Lin Yi didn't say anything and split into two streaks of lightning to chase after Ilya. One of the streaks was a clone, acting as if it was a cover while his real body chased after Ilya.

Chapter 9263 The End

Yelia did not forget to retaliate even as she dodged. The doppelganger was destroyed by her explosive attack halfway through, while Ilya dodged with a smile.

"Sima Yi, why are you staring at me? It's yeliya who keeps wanting to fight you. You should be chasing her! I didn't offend you, so why did you hit me? This isn't right!"

Ilya teased Lin Yi, her body flashing around continuously. However, her speed wasn't as fast as Lin Yi 's, and after being locked on by the hammer, it became harder and harder for her to Dodge. She could only take it head on and defend herself.

Seeing that she could not avoid it, she suddenly disappeared with a Whoosh!

Lin Yi's pupils contracted as his senses picked up on her. The moment she disappeared, she reappeared beside Yelia!

There was no movement trajectory. It just disappeared and reappeared abruptly, as if it had shuttled through space.

Yingying really teleported?

Lin Yi turned around with a cold face, his eyes landing on the sisters as he thought of a way to deal with them.

If the two sisters really had the ability to teleport, he would no longer have any advantage in speed!

After all, no matter how fast one's speed was, one had to travel through this distance in order to move over. On the other hand, teleportation had no logic at all. One could appear at a location just by saying one's current location, completely ignoring the distance and obstacles in between.

If it was someone else, teleportation might be a waste of energy and could not be used as a regular method in a short time. However, the Ilya sisters were members of the perpetual motion club and did not worry about the problem of energy consumption at all. How could they play?

Lin Yi's head was starting to hurt!

"Hehe, Sima Yi, you've noticed, right? You can't hit me! Of course, he couldn't hit my dear sister Yelia! No matter how strong your attack is, what's the use if you can't hit us?"

Ilya spread out her hands and said innocently, "It's not that I didn't give you a chance, but you really can't hit me, so you can't blame me! Anyway, if you get hit by us, we won't hold back. Be careful, don't die so easily!"

It wouldn't be fun if he died!

Yeliya hmped coldly and charged at Lin Yi again, launching another violent attack.

Lin Yi raised an eyebrow.

If she had used teleportation to attack, he would not have been able to defend against it. Why did Yelia give up such a huge advantage?

Could it be that he could only teleport when he was attacked?

Thinking back to the two sisters' performance just now, Yelia had dodged the new super alchemy bomb, and Ilya had dodged the sledgehammer. It was true that she had only teleported because she had been attacked.

Was there really such a restriction?

Lin Yi couldn't think of an answer right now, so he had to keep trying!

The sledgehammer was raised, and circles of sparks and lightning collided with Yelia's tide-like attacks, causing violent quakes and explosions. The momentum was quite explosive.

Yeliya was still fighting according to the rules and didn't have any intention of teleporting. Lin Yi couldn't do anything about it—he couldn't just put a knife to her neck and let her teleport for research, could he?

Speaking of which, if he could really put a knife on Yelia's neck, why would he force her? wouldn't it be nice to just cut off her head?

Yeliya's fighting style was violent, but it wasn't lacking in exquisite techniques. Lin Yi wasn't paying attention and was tricked by her full-strength stance, overusing his strength a little.

She took the chance and turned the steel into something soft, using her strength to move Lin Yi's hammer to the side, making him reveal a rare opening.

"Kill!"

Yeliya roared, her aura erupting like lava. She gathered all her strength and attacked the opening Lin Yi revealed!

Ilya, who had been watching the show from the sidelines and making sarcastic remarks, suddenly appeared beside Yelia and unleashed her strongest attack as well. The two of them joined forces!

It was earth-shattering!

Ilya, who had teleported over, was already prepared, so her attack was not rushed at all. With the two of them working together, their attack power was multiplied. It was not as simple as one plus one equals two, but four equals five.

The power of this attack might not be as strong as Lin Yi's new super alchemy bomb, but it wasn't too far off either. It wasn't impossible to kill a peak late-stage heaven breaking like Lin Yi.

Lin Yi's heart was as still as water, extremely calm!

Even though the opening they revealed wasn't intentionally created, they had made sufficient mental preparations and had the intention of beating her at her own game. The only thing they didn't expect was that after Ilya appeared, the combined strength of the two of them would be so great!

If he took it head-on ... It seemed like he wouldn't be able to take it. Lin Yi left an afterimage on the spot and escaped the attack range.

Although the three appearances of cloud Dragons had been broken before, it was still reliable to use now!

Ilya's eyes flickered, and she suddenly jumped up, appearing at the spot where Lin Yi's original body was at. As expected, the dark beasts had studied the tracks of the cloud Dragon's three appearances, and could catch some traces.

As long as they were fast enough, there was indeed a possibility of intercepting them.

Ilya was fast, but Yeliya was even faster. The moment the younger sister arrived, the older sister teleported over as well. The two of them attacked Lin Yi at the same time.

Unfortunately, it was only an afterimage this time!

It was not a big deal that the tracks of the cloud Dragon's three appearances had been seen through. It was supposed to be the answer to the question. Otherwise, one afterimage would be enough, and the rest would be useless.

Ilya's face was frosty, and the smile on her face was completely gone. When she hit the shadow, her eyes quickly shifted to where Lin Yi was going to appear.

Her slender body suddenly bounced and shot toward a good position like a meteor. Yelia stayed where she was, but the moment she arrived at her position, her body had already moved to her side.

But this time, just as the two sisters were about to make a move, they saw a black ball of light appear in front of them!

A new type of super pill fire bomb!

The power of this thing was too shocking. They had already seen it just now, and when they suddenly saw this thing in front of them, they immediately dodged in shock.

There was no teleportation!

The two of them separated to the left and right, and the speed at which they were sent flying was not any slower than the lightning escape technique!

Lin Yi flipped his hand and took back the black light. This was a new type of super alchemy bomb, but it wasn't as powerful as the previous one.

Lin Yi had just casually thrown it out, and it wouldn't have much power if it exploded.

The two sisters had been frightened by the explosion just now, and were now like birds startled by the mere twang of a bow. When they saw the new super pillfire bomb, they subconsciously dodged, but they didn't consider whether it was the same thing.

"The twin sisters are indeed extraordinary. Their minds are connected, and the power of their joint attack is also amazing! Why didn't you guys continue attacking just now? If you continue to attack, I won't be able to avoid it!"

Lin Yi smiled as he dragged the black ball of light and hooked his finger at Ilya. "Ilya, you're even more radical than your sister. You acted like someone who didn't like to fight just now, but it turned out to be a scam. Now, come and do it!"

Chapter 9264 Power

"I didn't say anything," Ilya laughed, "don't accuse me! Don't worry, when it's time to take action, we sisters definitely won't be soft-hearted, but the thing in your hand is a bit annoying, why don't you throw it away first?"

The new super alchemy bomb was enough to make the two of them wary. Before they could think of a solution, Ilya was very apprehensive about close combat.

One person might not be Lin Yi's match, but two people at the same time? they'd be wiped out in one fell swoop!

"You can teleport, what are you afraid of? Even if the thing in my hand explodes, it won't be able to hurt you at all. What are you afraid of?"

Lin Yi pretended to be confused and smiled. "I understand now. Your teleportation is not reliable. It is not a move that can be used anytime and anywhere, right?"

"Let me guess, what kind of conditions are needed to activate this skill? In the beginning, I thought that it would only be activated when you were under attack and needed to Dodge. However, the previous few times have already proved that my thinking was wrong. "

"After eliminating the impossible reasons, I have come to a more reliable conclusion. The so-called teleportation that you all mentioned is not really teleportation!"

"Even though it has the ability to teleport, there are limitations to its activation! If I'm not wrong, the anchor point of teleportation is you two sisters, right?"

Lin Yi's analytical ability had never been weak, and after the battle just now, he had basically figured out what was going on.

"You two sisters can locate each other and teleport to each other's side at any time. When you're together, you can also produce a strong repulsive force that will push each other away."

"Is this the truth of why you can teleport and help each other accelerate when you get close? I have to say, this is indeed a rather difficult ability to deal with. However, if either of you is missing, does that mean that you can't use it at all?"

Ilya was surprised. She turned to Yelia, who had moved to her side, and said, "Look, look, this guy is really smart. He actually deduced the general outline with such a small clue. Did he see through us?"

Yelia snorted coldly and said, "So what if he saw through it? Can he restrict us? Hurry up and do it!"

Lin Yi's guess was mostly right, but not all. Yelia didn't feel guilty at all for having her trump card seen through. She used the acceleration she got when she was with Yilia to increase her speed to the level of lightning escape and charged at Lin Yi.

Ilya, on the other hand, was roaming around the perimeter, waiting for the right time to help. At the same time, she was also on guard against Lin Yi's new super alchemy bomb, which could take the two down in one go.

As long as she was on the outside, she could provide Yeliya with an opportunity to escape. Yeliya's attacks were more like a bait for Lin Yi to use the new super alchemy bomb in his palm.

Lin Yi picked up the hammer and started fighting with Yeliya, still in the mood to provoke her. "Don't just watch, why don't you attack together with your sister? Your sister alone is not my match!"

Both of them were perpetual motion machines and didn't have to worry about energy consumption, but the upper limit of their skills was different. Even if Yelia and her sister specifically picked skills with explosive power, they couldn't beat Lin Yi's multiple skills.

With the help of hammer, Yelia could barely hold her own against Lin Yi for a while, but as time went on, the small advantage would snowball and eventually become an unstoppable victory.

Yelia was no match for him in a one-on-one fight!

The three people present were well aware of this, but Ilya would definitely not make a move so easily!

"Sima Yi, talk to me again if you can beat Yelia. You can't even beat a single one of us, and you want us sisters to fight together? Don't you think you're not qualified enough?"

Ilya smiled sweetly and entertained herself by jumping around in the distance. "Or do you like to play with me? That's fine, I'll replace Yelia and play with you later. Do you think I'm good to you?"

The test had a time limit, so Yiliya wasn't in a hurry. They had the advantage, and even if Lin Yi could suppress her, he wouldn't be able to break through the limit!

When Yelia felt that it was too difficult, she would teleport away and start all over again after getting rid of Lin Yi, clearing the advantage that Lin Yi had accumulated.

This seemed like a shameless move, but it was a perfect counter to Lin Yi!

The new super alchemy bomb and sledgehammer were powerful enough to annihilate Yelia in an instant, but Lin Yi was now in the same situation as hazzwei. No matter how strong he was, it was useless if he couldn't hit his opponent!

If he couldn't think of a way to stop Ilya and her sister from teleporting, he definitely wouldn't be able to get through this!

Lin Yi had tried to chase after her at his fastest speed, and there was a chance he could catch up to her when she teleported over, but they could split up again after she teleported to Ilya's side.

Their speed wasn't inferior to Lin Yi's at all. Even if Lin Yi could catch up to them again, the two could teleport away and escape again. Lin Yi was helpless as the cycle continued.

He was really F * cking aggrieved!

Ilya broke free from Lin Yi's pursuit again, provoking him from a distance, "Come, come! Come and chase me again! If you do, I'll play with you for a while!"

Yelia was on the other side. The three of them were at the same distance, basically in an equilateral triangle. She still had a cold face, but she spoke.

"Sima Yi, you won't be able to catch us! I admit that you're very strong, to the point that you can keep up with us sisters "pace even in a battle of attrition. This is truly a very rare thing."

"But that's all there is to it. You definitely won't be able to get past us today, so why don't you just admit defeat! If you become a guard of the pagoda, you can at least keep your life. Otherwise, if you fail the test, the pagoda will kill you!"

Yeliya was probably speaking on behalf of the star Cloud tower. Lin Yi felt that something was wrong with the star Cloud tower-why would they want to recruit him?

With the star Cloud tower's ability to replicate projections, as long as there was enough star power, it wouldn't be a problem to replicate as many of him as possible, right?

Lin Yi shook his head and put these thoughts aside. Now wasn't the time to think about these trivial things-he had to deal with the two sisters first!

"Do you think that I can't do anything to you, so you're fearless and think that victory is in your hands?"

Lin Yi said as he cast another lightning explosion. It was a wide-range attack, and while it was powerful, it wasn't enough to threaten the two sisters.

Ilya sneered, "Sima Yi, you know that this move is useless against us. Why do you keep using it?" But you don't say, it's quite nice. I'll just take it as watching fireworks. If you're happy, you can continue to use it!"

Lin Yi had used this move more than once in the previous battle, and it was just as Ilya said-it was pretty useless, and with their speed and strength, they could Dodge most of it. If they couldn 't, they'd just shatter it.

Chapter 9265 Power

Lin Yi smiled faintly, "whether it's useful or not isn't for you to decide, it's for me to decide!" Actually, I'm a little curious, what skill did you guys get from the Nebula tower?"

"In the previous two levels, your companions all had a star meteor annihilation, which was very powerful. I wonder if you have this move as well? Why didn't you use it? Do you think it's useless to me?"

Ilya shrugged and said, "why did you use the skills of the Nebula tower?" You can't do anything to us sisters! If you weren't holding that black ball, us sisters would've beaten you to the ground. "

"It's not a big deal to use that thing to make us hesitate. We don't need to kill you to complete the mission anyway. Are you sure you want to continue delaying?"

She was right. No matter what kind of trump card the star Cloud tower had given them, there was no need to use it for the time being.

Lin Yi was now sure that the two sisters still had a trump card that the star Cloud tower had given them. It was within his expectations, and he wasn't too affected by it.

"Isn't stalling for time something you're happy to see? In fact, I'm in a hurry to pass the test and then chase after the Golden dark shadow Demon and the others, but you two don't cooperate. I'm helpless!"

"It's a good thing this situation has come to an end. Let's see how you guys are going to Dodge now!" Lin Yi smiled.

Ilya's heart skipped a beat, feeling that something wasn't right, but she couldn't tell what it was. Yelia was the same, her big eyes filled with suspicion. What did Lin Yi mean?

"Sima Yi, are you trying to be mysterious? If you have any tricks up your sleeve, just use them. There's no need to beat around the bush. So what if he managed to deceive them? In any case, if you can't hit us, you won't be able to pass the test!"

Since she couldn't figure it out, she could only test him with words. She didn't think that Lin Yi was trying to be mysterious, but she didn't show it on her face. Instead, she put on a disdainful look.

Lin Yi put away the hammer and picked up a formation flag with a smile, "You'll know soon enough whether I'm deliberately mystifying things or not! Allow me to ask you, do you and your sister understand the Dao of formations?"

Ilya's heart felt as if it had been struck by lightning. Array Dao?

The two of them didn't understand!

Lin Yi nodded, "I understand, you guys don't!" It's a pity. If you know array Dao, you'll understand what despair is! As such, I can only play the zither to the ox today!"

The array flag in his hand was casually thrown out. The moment it left his hand, it directly merged into the void and disappeared.

Lin Yi smacked his forehead, annoyed, "oh no, I forgot. It's the last time. How could I forget to cover it up? I'm sorry, let me do it again."

As he spoke, he waved his hand and created a fake lightning arc. In the flickering light, he took out an array flag and waved it.

At this point, if Ilya and her sister still didn't understand, they would really be pigs!

It was obvious that Lin Yi's repeated attempts at using the thousand lightning bursts weren't for nothing. Why would he use it again when he knew that it wasn't a threat?

To cover up the array flags!

When the lightning explosion was activated, there would be lightning everywhere, blinding people's eyes. Only God knew how many formation flags Lin Yi used!

There wasn't any pattern to the three's pursuit, and they were running all over the area, but now that Ilya thought about it, it was Lin Yi who was controlling the route. There wasn't a single place they missed.

So, this damned Sima Yi had already set up the array in the entire area? Was the array flag that he had deliberately shown them just now the last chess piece?

General!

At the same time, the surrounding space began to rumble and tremble. The power of the stars that filled it also began to boil violently, quickly drifting and gathering, forming unknown change.

Ilya and her sister were dumbstruck, not knowing what to do. Should they teleport together first, or keep a distance and be ready to respond at any time?

Lin Yi smiled and didn't do anything else. This formation was different from the test in the Xingyun tower.

The star map he completed with the damn thing was too big and complicated, and Lin Yi couldn't finish it in a short time. This one was a super simplified version of it.

"You don't need to panic. This formation is only used to confine space. It doesn't have any killing power."

"The three of us can't get out of here. This space is isolated from the rest of the world. It'll be hard to break it if I don't remove the formation," Lin Yi said calmly.

The star formation that the star Cloud tower required was mainly for breaking restrictions, and the one Lin Yi had derived from this was many times better than the ones he'd learned before.

Coupled with the condensed power of the stars, this imprisonment array was extremely strong. Without the strength of a Supreme realm, one could not even dream of shaking it.

Even if hadavy had absorbed the star meteor annihilation on the previous floor and his strength had reached the Supreme realm, it would still be difficult for him to break this imprisonment array with brute force.

Ilya heaved a sigh of relief and forced a smile. "What's the use of this confinement formation? Is this enough to make us feel despair? I don't seem to be in despair!"

"Don't forget that this is the star Cloud tower. No matter what kind of formation you set up, once the time is up, you will still die. The formation you set up will naturally be destroyed by the star Cloud tower. I don't see any reason to despair. "

Lin Yi laughed lightly and waved his hand, "don't worry. The formation only limits your range of movement. After all, the two of you are really good at escaping together. I can't do anything about it. I can only kill you guys by keeping you in a certain range!"

"What's coming next is the most important moment. Please don't blink, you two sisters. You must watch carefully, because this may be the last critical scene in the last moment of your lives!"

Lin Yi snapped his fingers.

The invisibility formation around the area was removed, revealing Lin Yi's doppelganger inside.

Nearly a thousand clones were evenly distributed in all the key positions in the space, completely surrounding Lin Yi's group. This wasn't the key-the key was that each clone was holding a black ball of light in their hands.

A new type of super pill fire bomb!

After the concealment spell was removed, the terrifying aura contained in the new super alchemy bomb began to spread out. Although it was a clone of a sea shattering stage cultivator, the essence of the new super alchemy bomb wouldn't change. The explosive range might be smaller, but the characteristic of annihilating everything would not disappear!

Ilya and Yelia's expressions changed. They felt a fatal threat, and this time, they had no way to escape!

Chapter 9266 Power

"Welcome to the Self-destruction paradise of the star Cloud tower. I hope that the two of you will give a five-star review for the next thrilling experience!"

Lin Yi opened his arms wide, a crazy smile on his face.

The new super alchemy bomb could also destroy Lin Yi's body and soul. This was a real self-destruction, was he going to die with the two sisters?

Lin Yi's real body also had a new type of super alchemy bomb in each of his palms, and it was much more powerful than the one in his clones' hands. If the two sisters touched it, they would die without a doubt!

"Sima Yi, you're crazy!"

Ilya yelled, but she couldn't stop Lin Yi. All the clones threw out their new super alchemy bombs at the same time, controlling them to explode at the right place.

Terrifying fluctuations filled the entire space, and countless forces that could annihilate everything collided with each other and spread, devouring every inch of the array.

Lin Yi had activated the indestructible star body, which was the foundation of the self-destruction tactic. Without it, Lin Yi wouldn't dare to play this big, and he would really die ...

Lin Yi wasn't even sure if the indestructible star physique would be able to withstand the explosion of such a large scale super alchemy bomb. What if it exceeded its limit?

Fortunately, the situation that Lin Yi was worried about didn't happen. The indestructible star body was still strong, and even the two thousand super alchemy bombs that could destroy the star meteor couldn't shake the defense of the indestructible star body.

From this, one could see how powerful the star Cloud tower was!

However, Lin Yi's own formation was damaged from the continuous explosions. After all, it was a super, super, super simplified version of the formation, and it was hard to withstand the destructive energy of the new super alchemy bomb.

"I didn't expect that the star Cloud tower would give you this as a trump card!"

Lin Yi couldn't help but let out a long sigh, feeling a bit helpless. The new super alchemy bomb's blast had ended, and he was naturally unscathed. The sisters were the same ...

The two sisters had the same star light shining on them as Lin Yi-they had the star undying body too!

This was very F * cked up!

The Guardian of two consecutive levels had used the star meteor annihilation. Who would have thought that it would suddenly become the star immortal body?

Lin Yi had spent so much time setting up this killing formation, and it was broken so easily!

Ilya's smile was as beautiful as a flower, and she no longer had the panic and unsightly expression she had when she saw the formation of 2000 new super alchemic fire bombs. It was obvious that she had been pretending.

"Sima Yi, are you surprised? are you surprised? Seeing that we also have the star undying body, how do you feel now?"

Lin Yi shook his head with a bitter smile. What thoughts could he have?

This was the star Cloud tower's home ground, and the rules were all decided by the star Cloud tower. Whatever skills it wanted to give the employer, he had no right to interfere.

The star Cloud tower was already very loyal to them for not keeping their star undying body!

"But to be honest, Sima Yi, your move just now really scared me. You've unknowingly set up such a shocking array, and even restricted us sisters here, unable to escape!"

Ilya patted her large chest and made a frightened expression. ""Also, you suddenly launched so many attacks. There's nothing to say about the power. If it weren't for the star undying body, the two of us would have died without a doubt!"

"What a pity! We all have the same trump card, and no one can do anything to the other. You didn't kill us sisters in one fell swoop, so you can't use this move anymore, right? Unless you really want to die with us!"

"Although we'll die under a peony flower, and we'll be happy as ghosts, it's true that you've taken advantage of us two sisters to die with you, but we won't fall for it a second time. Don't even think about trapping us again! In the end, you will be the only one to die!"

They were all in the time limit of the indestructible star physique, and there was no point in fighting. Ilya's little mouth didn't stop talking, and she wanted to make Lin Yi happy.

Lin Yi frowned as he threw out a large number of formation flags, quickly repairing the broken formation.

The two sisters used their own abilities to speed up instantly, passing through two broken gaps and escaping from the broken confinement formation.

"I already said I won't be fooled a second time, why don't you believe me? Repairing the formation in front of us, do you think we're blind?"

Ilya felt that she was in a safe position now, and continued to mock Lin Yi, "Do you feel that there's nothing you can do, so you want to break the pot and throw it away? Aiya Aiya, actually I understand how you feel. Although it's a little despairing, you should be able to get used to it after a little while!"

Lin Yi suddenly smiled, "yiliya, you guys are blind. I didn't fix the formation to trap you guys, but to trap myself!" Your departure is the result I want!"

Ilya blinked, not quite understanding what Lin Yi meant. She replied subconsciously, "Did you suffer too much shock that something went wrong with your brain?"

What was the situation with them surrounding him? Drawing a prison?

He knew he couldn't win, so he used a formation to protect himself? What was the point of that? Once the time for the test was up, wouldn't he still be killed by the star Cloud tower?

I really don't understand!

"Of course you don't understand," Lin Yi laughed, "you two are really blind!" The confinement formation I set up just now was indeed to restrain you and your sister. Unfortunately, the plan failed, but that wasn't the whole plan!"

"You didn't notice the formation I set up, so I said you were blind, but I didn't wrong you at all! In fact, the formation I set up didn't only have one layer, but two!"

At the same time, the broken restriction formation was quickly repaired by Lin Yi, forming a new defense formation, wrapping Lin Yi inside.

During this process, both of their star undying bodies' time was up, and the Starlight slowly dissipated. Lin Yi didn't know if Ilya and the others could still use the star undying body, but he couldn't!

If there was another explosion like the one just now, the only thing he could count on was the defensive ability of the repaired formation!

"Two levels?"

Ilya was stunned. She quickly turned her head and found that a new layer of formation had appeared behind her. It was exactly the same as the previous one, but the area was larger.

In that case, Ilya and Yelia were basically sandwiched between two formations, with the bigger one wrapped around the smaller one, and the gap between them not too big.

"How could this be ... You've already set up two layers of formations from the very beginning? You only activated the first layer earlier, and now you're only activating the second layer?"

Ilya couldn't believe it. She'd never seen anything like this before. Lin Yi's performance was beyond her imagination.

Chapter 9267

Yeliya was the same, but she didn't say anything and attacked the formation Lin Yi was repairing. She was a classic example of someone who didn't talk much.

Unfortunately, no matter how strong her attack was, it couldn't shake the formation that Lin Yi had just repaired. This formation was originally a powerful formation that locked down space, and it was enough to withstand the attack of a Supreme realm cultivator at his peak.

Although it was destroyed by two thousand new super alchemy bombs, Lin Yi had repaired it and turned it into a special defensive formation. It wasn't something Yelia could break through easily.

Ilya composed herself and then laughed awkwardly. "So what? Yeliya, there's no need to waste your energy on that formation. Sima Yi made a double turtle shell to wrap himself in the innermost layer and trap us in the middle layer. It's actually meaningless. "

"Time is on our side. We don't need to do anything. As long as we keep waiting, when the time is up, no matter how strong the turtle shell is, it's not worth a mention."

"Sima Yi is completely trapping himself in his own cocoon. How can he defeat us when he's trapped? We just need to wait quietly!"

Yelia frowned slightly and said indifferently, ""Sima Yi put in so much effort to design this, how could he so easily bind his own hands and feet? He must have his reasons for doing this. Ilya, stop talking nonsense and work with me to open this turtle shell!"

Her thoughts were simpler. With Lin Yi's calculative ability, there was no way he didn't think of what Ilya said. The reason he still did this must be because he had a backup plan!

Whatever the enemy wanted to do, they could destroy it as much as they wanted. With this thought in mind, Yelia teleported to Ilya's side. The combined attack of the two was even more powerful. Under the explosion, it could barely cause some fluctuations on the surface of the defensive formation.

He still did not have the power to break this defensive array!

Lin Yi smiled, "yeliya's pretty smart!" Your thoughts and train of thought are correct, much better than your sister who looks smart but is actually stupid!"

Ilya was furious, but she held back her anger and didn't retort. She wanted to see what Lin Yi had to say, because she had a strong feeling that something was wrong, as if a great danger was forming!

Soon, she knew what was wrong without Lin Yi's explanation! As the outer layer of the formation completely emerged, she naturally saw the black light that was embedded in the formation!

That nightmarish super-lethal skill had actually been embedded in the formation!

How was that possible?

Ilya was about to go crazy. How could this thing be stored so casually?

Under normal circumstances, it was impossible, but Lin Yi's primordial spirit was so strong that Wu Linghai could provide him with endless support. These new super alchemy bombs were all created by the clone and hadn't reached the limit of the clone's control.

After Lin Yi's spirit sense took over, he could barely control them to keep them stable for the time being. If Lin Yi left this area and exceeded the limit of his spirit sense control, it would naturally explode.

But now, he was Lin Yi's hidden killer!

During the pursuit, he'd used the thousand explosion to cover up his tracks-he'd set up a real trap!

Double layers of formations weren't a big deal-this type of compound formation was Lin Yi's specialty to begin with. The first layer was broken and reassembled, and that was the key to activating the second layer.

The new type of super alchemy fire bombs that were set up on the outer layer were naturally used to target the enemies in the gaps between the two layers of arrays!

It was seamless!

It was also Lin Yi's first time trying to use this method to create a new type of super alchemy bomb. He wasn't very confident at first, but he didn't expect to succeed on the first try. Under the cover of the lightning explosion, he successfully set up such a precise and huge killing trap!

"Sima Yi!"

Yiliya was panicking as she yelled and waved her hands, bombarding Lin Yi's defensive formation with yeliya.

The only way out now was to break the defensive formation and expose Lin Yi to the new super alchemy bomb's range!

Only then would Lin Yi be cautious and not dare to detonate the new super alchemy bombs, unless he really wanted to die with the sisters!

Unfortunately, Lin Yi's defensive formation was a modified version of the spatial imprisonment formation. It could be considered a defensive method that froze the space, and it was stronger and tougher than the previous ones.

In a short time, even the combined attacks of Yelia and her sister could not shake the defense formation at all.

"Ilya, take my attack! I hope that you will have another chance to use the star undying body!"

Lin Yi's face was calm and cold. With a thought, he detonated all the new super alchemy fire bombs at the same time, filling up the space between the two layers of the formation!

This time, it was a sure-kill situation. Lin Yi had left this as a backup in case the sisters had a powerful skill from the star Cloud tower. There was a high chance that they could survive the first wave of attacks.

The real deciding factor was this hidden second wave of attack! In terms of power, the second wave was far weaker than the first, but the space it covered was also not as wide as the first. In theory, it should be enough to easily kill the sisters.

However, theory was always theory, and reality would always deviate from the plan. Lin Yi's plan was perfect, but he didn't expect the support from the star Cloud tower to be even greater than he expected!

It was true that they couldn't use the indestructible star body anymore, but the star Cloud tower didn't just give the sisters the indestructible star body!

When all the new super alchemy bombs were detonated, a vortex-shaped black hole appeared in front of Ilya and Yelia, who were standing back to back!

Lin Yi didn't know what this was, but it was probably some sort of ability the star Cloud tower came up with by simulating a black hole.

The black hole in front of Ilya sucked in all the energy like a dragon, while Yelia's Black hole condensed the absorbed energy into a black light pillar and shot out, hitting the defensive formation Lin Yi had set up.

The two sisters seemed to be in an independent space, surrounded by two black holes and turned into nothingness. All the attacks passed through the two black holes like a car driving through a mountain road.

Lin Yi was shocked. He didn't think that after all this planning, he would still have to Taste the Feeling of using his own strength to attack his own defense. It was hard to describe the feeling in words!

Chapter 9268 Power

Although the defensive formation was powerful, it couldn't completely withstand the energy bombardment of the two thousand new super alchemic bombs. It only lasted for a few seconds before its outer defense was broken through.

What followed was a chain reaction that caused the formation to fall apart. Lin Yi watched as the formation broke, and he couldn't help but feel a sense of helplessness.

Fortunately, the explosive energy would eventually be exhausted. After the formation was broken, the energy that poured into the black hole was greatly reduced, and the amount of energy that could be used for attack was naturally reduced.

Lin Yi dodged for a bit and got through the danger he brought.

"Hahahaha, Sima Yi, are you feeling surprised and surprised again? You think you've got us for sure? In the end, it only proves that you're still useless!"

Ilya laughed with her hands on her hips. "Come on, do you have any new ambush? Just show me. I don't believe you can do it today. Show me all you have. I won't even frown!"

Her words were arrogant and beautiful, but in fact, her back was covered in cold sweat. Two times in a row!

She'd been on the verge of death twice, and she'd felt the threat of death. It was true, but she wouldn't show it to Lin Yi.

Lin Yi frowned and said faintly, "The star Cloud tower is really good to you sisters. Other than the star undying body, it even gave you another life-saving method. It's really extravagant!"

"It's obvious that you are important chess pieces to the star Cloud tower. They don't want you to die easily, right? If that's the case, then I should kill all of you and let the star Cloud tower feel the pain!"

Ilya snorted and sneered, "'Sima Yi, that's because you're stupid. Don't talk about those useless things. Who told you that the star Cloud tower only gave us one trump card? Us two sisters each have one skill. That's at least two skills. "

"No need to talk big. If you have any other means, quickly show us. Otherwise, we'll have to make a move. After all, we're indebted to you for your warm care. We sisters should also show some sincerity!"

Lin Yi finally understood-did the star Cloud tower give skills based on the number of people? And the skills given were two that could be used together ... It was quite obvious how biased he was!

It was still the same-this was the star Cloud tower's home ground, and the rules were decided by it. Lin Yi could only accept it, and couldn't express any dissatisfaction.

"Then let me see what kind of sincerity you sisters have! 'Just the previous attacks weren't enough to do anything to me. Could it be that you still have some powerful hidden skills that you haven't used?' I'll wait and see!"

Lin Yi wasn't scared at all and prepared to receive the attack, but his mind was spinning quickly. It wasn't easy for him to set up a perfect killing trap, but it was easily resolved by the skills of the star Cloud tower.

It was impossible for them to do it again. Just as Ilya had said, they had suffered once and would not fall for it again. It was difficult to make them fall for the same trick twice.

He had to come up with new tricks and methods!

The confinement formation on the outer layer had also been destroyed by the explosion of the new super alchemy bomb. The remaining formation bases could still be used, albeit barely. Ilya and yeliya split up and unleashed their full power at lightning speed, destroying the remaining formation bases.

They wouldn't let Lin Yi have the chance to set up a new formation again.

"As you wish, we will attack with all our strength. Receive my attack!"

Ilya's words were firm, but she didn't have any new moves. The two sisters teleported close to each other and accelerated, attacking Lin Yi with speed.

After one of them got close, the other one would immediately teleport over and join forces to attack. After the attack, regardless of whether it hit or not, they would immediately speed up and separate.

No matter which one Lin Yi was chasing, he would always teleport away again and attack again after he got close. This endless cycle made him extremely difficult to deal with.

And this was only when Lin Yi's speed was on par with his opponent 's-if he was still at a disadvantage, he'd be in a terrible situation.

The two sisters 'tactics were flexible, and Lin Yi couldn't do anything to them for a while. Besides, the two girls didn't stop attacking Lin Yi from setting up formations again.

Only 10 - 20% of the attacks were actually aimed at Lin Yi, and the rest were all directed at where Lin Yi passed by to avoid the formation flags, which would form an invisible formation base.

Being so careful, Lin Yi was at his wit's end!

Ilya had made up her mind-it'd be best if she could do some damage to Lin Yi, and so she spared no effort every time she attacked, even with the destruction around her. The two sisters had unlimited stamina, and they didn't care about the consumption of energy.

Every strike was a full-powered output, and this alone was quite terrifying. It was like one side did not need to worry about fuel consumption, wear, and so on when racing a car. They were always at the limit of their speed and rushing forward.

The other side had the same speed limit, but they would have to refuel, change tires, and so on. How could they play?

If it wasn't for Lin Yi, any other practitioner of the same level would've died fighting them!

Even Lin Yi was having a headache. This was the first time he'd met such a tough opponent. In comparison, the undying Dark Demon beast was nothing!

"Sima Yi, how do you feel? You can't even touch the corner of our clothes after seeing us sisters go all out. What other tricks can you play? You don't have much time left!"

Ilya was feeling much more relaxed now-she didn't have any obvious advantage, but she could at least keep Lin Yi in check. They'd be on the same level at most, so it wasn't a big deal.

There wasn't much time left for the 17th floor-if Lin Yi couldn't think of a way out of this, he'd really lose!

"Don't tell me you're at your wit's end? The layout just now was very delicate, but unfortunately, we sisters are a step ahead, so it's normal for you to lose. Don't have any psychological burden. "

"Why don't you kneel down and beg for mercy? If you win the favor of us sisters, maybe we'll let you pass? That's right, you must think that I'm lying to you, but this might be a choice. Maybe it's true?"

"You won't die if you try, why don't you try! We sisters are beautiful and kind, and it's very likely that we'll let you Live! Sima Yi, are you listening to me? At least give me an explanation!"

Ilya didn't really want Lin Yi to admit defeat and beg for mercy, but she was just teasing him. What if he really knelt down and begged for mercy? that would be an unexpected gain.

She'd never go easy on Lin Yi, but it was interesting to mess with him. She could even humiliate him a bit!

Chapter 9269 Power

Lin Yi didn't want to bother with her. He continued thinking about how to break out of this situation. The sisters' ability to link was too strong. If the two were separated, they would lose their teleportation and acceleration abilities. Just the perpetual motion machine at the peak of late-stage heaven breaking was nothing!

So, the most important thing was to cut off the ability to link up the two of them?

It was such an obvious thing, of course, and Lin Yi knew about it long ago. He just didn't have the right methods to do it, but now that he thought about it, he suddenly had an idea!

What would have happened if the two sisters weren't together in the double-layered array just now? Could the formation isolate the interaction between them?

In theory, the spatial imprisonment array could seal the ability to move through space. The teleportation between them was also a kind of spatial movement ability. If they were separated inside and outside the array, it was indeed possible to cut off the connection between the two!

Lin Yi's mind raced as he calculated. The plan wasn't wrong-the sisters had a way to deal with it, but if he'd separated the two of them, would the result have been different?

With Lin Yi's current abilities, it was basically impossible for a fake Supreme realm to break through. Once the two sisters were separated, they wouldn't be able to merge and increase their strength, so there was no way they could break through the barrier!

There was a chance!

Lin Yi's thoughts flashed through his mind like lightning. He made a decision in an instant and made a corresponding plan at the same time!

The array flags were waved continuously and disappeared around his body. This time, there was no need for any smokescreen. He started to set up the array openly and aboveboard.

"It's useless! We won't give you the chance to set up a formation! Why don't you give up? Wouldn't it be better to gently kneel and beg for mercy? What's the point of not doing the easy things and only doing the useless things?"

Yiliya continued to chit-chat as she attacked the spots where Lin Yi had scattered the formation flags, trying to destroy them all.

Under normal circumstances, the array flags that had been set up would not move. Even if they were hidden, they would be completely destroyed as long as they were attacked with enough power. This was why Ilya was so confident.

However, it was completely different this time. Ilya's attack had completely missed and did not seem to have hit the formation flag at all.

"Eh? What was going on? Did you use some special concealment technique this time?"

Ilya furrowed her brows slightly and repeated her previous attack. The result was the same, and she still missed.

She didn't know the secret of the movement formation and thought that Lin Yi's formation flags would stay where they were. She didn't know that the formation flags moved with Lin Yi's movement. Lin Yi had moved away a long time ago, so it was impossible for the formation flags to be hit.

Yeliya followed after him and did some useless things. She realized that Lin Yi wasn't chasing them anymore. He was putting some distance between them and waving formation flags around him!

"Yelia, that guy's formation flags are a little strange. Their concealment ability is too strong. We shouldn't go anywhere he passes! To avoid being plotted against by him!"

Ilya's smile disappeared, and her mood became solemn.

"I know! Look at him, he seems to be preparing for some big move. Keep a sufficient distance so that you don't get caught by him in one fell swoop. "

Yelia nodded slightly and sent Ilya far away as an escape route for teleportation. This arrangement was usually fine and could be considered safe.

But this time, it just had to go wrong-Lin Yi just wanted the two of them to be far away from each other, otherwise he wouldn't be able to do it!

"Ilya, why aren't you attacking? Didn't he arrogantly say that he would go all out just now? Just this? Two against one, and you can't even gain the slightest advantage. Your all-out efforts seem to be a joke!"

Lin Yi's face was calm as he activated his taunting mode, as if he wanted Ilya to stay and continue attacking. This made Ilya temporarily back off and observe the situation.

"Sima Yi, don't be so smug. We don't have much time left. I'm too lazy to play hide-and-seek with you, so I'm going to stand far away and watch you die! After all, we're acquaintances, and it's already respectful to be a little further away when you die. "

As Ilya spoke, she did not hesitate to use Yelia's momentum to accelerate and escape thousands of meters away. Yelia took the opportunity to launch another wave of attacks, preparing to teleport back to Ilya's side after a test.

Just as Ilya had said, the time for the test was about to end. This attack should be their final attack. Next, they would only have to Dodge for a while before the time was up.

Lin Yi's eyes flickered, and his lips curled into an undetectable smile. Lightning arcs exploded from his body as he accelerated to his maximum speed, charging towards yeliya.

Yeliya chose the route where Lin Yi didn't use formation flags before-she thought it was safe, so she didn't panic when Lin Yi charged at her. She was still planning to retreat after a full-force attack.

Lin Yi ignored yeliya's attack and took it head on. Yeliya was still thinking if Lin Yi was going to use the three appearances of Cloud Dragon again to fool her, feeling a little disdainful.

Regardless of whether it was an afterimage or not, she had already made up her mind to escape immediately after the attack, regardless of whether it was an afterimage or the main body!

Before yeliya could finish her attack, the formation flag in Lin Yi's hand flashed and the space within a fifteen-meter radius of Lin Yi suddenly slowed down.

Yelia also broke away from the extreme speed, as if a slow-motion button had been pressed. Of course, it was not that the flow of time had slowed down, but that the density of space had increased. It was like the difference between a stream suddenly turning into concrete and a fish swimming in it.

Yelia's expression suddenly changed. She knew that things were not going well. She could no longer care about one or two attacks. She activated her teleportation ability on the spot and tried to teleport to her side.

Unfortunately, it was all too late!

The movement formation around Lin Yi had been set up and fully activated, sealing the space within a fifteen-meter radius. As expected, the sisters' teleportation abilities were frozen!

"How is that possible?"

Yeliya cried out in shock and started bombarding like a mad woman, trying to break Lin Yi's movement formation. Yiliya, who was far away, also lost her mind and rushed back to help.

The two of them thought that they could break the formation quickly with their combined forces, but Lin Yi didn't panic at all. He predicted that after they were separated, they wouldn't be able to break the spatial lock of the formation.

And that was the truth!

The attacks of Ilya and her companion were like dragonflies trying to shake a pillar, completely ineffective.

"Don't waste your energy," Lin Yi smiled coldly, "this is a cage specially designed for you and your sister. It can't be broken before we kill Yelia!" I'll also give you a chance. Kneel down and beg for mercy, and I'll let you live!"

Chapter 9270 The Power Of The Devil

There wasn't much time left, but there was still enough time to say a few words. Lin Yi's palm was already forming a new super alchemy fire bomb, and he didn't mind saying a few words.

Yeliya's face turned green, and she turned to attack Lin Yi after realizing that she couldn't break the formation. "Killing you will naturally break this damned array!"

She was furious, but her mind was calm enough. She locked her eyes on the new super alchemy bomb in Lin Yi's palm-it was something that could threaten her life, and she had to get rid of it first.

If the new super alchemy bomb could backfire on Lin Yi, that would be great!

Countless attacks rained down on Lin Yi, but most of them came from the black light in his palm. Lin Yi smiled and shook his head, "You're so naive!"

This was his territory, how could he allow her to act so atrociously?

Locking down space was the same as controlling space to a certain extent. Ilya thought that she was targeting the Super alchemy bomb in Lin Yi's hand, but in fact, all her attacks were off course and missed Lin Yi.

Lin Yi, on the other hand, flipped his palm, and the black light drew a strange arc in the air, easily hitting yeliya, who had a crazed but stunned look in her eyes!

The black ball of light exploded, and the black void devoured her body. The indistinguishable black flames and black Lightning tore her apart in an instant. She didn't even have the time to cry out in pain before she was quietly annihilated and reduced to nothingness.

Ilya, who was still madly attacking outside the movement formation, felt as if she had been struck by lightning. For a moment, her heart ached so much that she could not control herself. It was as if a part of her body had been forcibly dug out. She fell into an immense pain that felt as if she was suffocating, and her body could not help but convulse violently.

The extreme pain made her unable to make a sound even when she opened her mouth. The two sisters had always been of the same mind. When Yelia was killed, yilia could also feel the fear, pain, and unwillingness before her death. All the negative emotions were concentrated and exploded.

What yeliya didn't have time to experience, Ilya helped her to experience it without missing anything!

"I'm sorry. I gave you a choice, but you didn't cherish it! I hope that the two of you will have the chance to reincarnate as sisters next time!"

Lin Yi suddenly appeared beside Ilya, the newly formed super alchemy bomb in his palm. His eyes were calm as he looked at Ilya, who was in deep pain.

"Your sister is waiting for you. I'll send you to reunite with her! On the road to the netherworld, with each other's company, I believe you won't be lonely! Have a safe journey!"

The black ball of light landed on Ilya's body gently, repeating the scene just now. Ilya and Yelia looked exactly the same, and they died in the same way. It was as if what had happened just now had happened again.

When the aftershock of the explosion dissipated, the black void disappeared, and everything was settled!

Lin Yi's two most difficult opponents were finally dead. It was a battle of wits and courage this time, and he used all his tricks. If it wasn't for the fact that yeliya didn't know the details of the movement formation and kept moving around, never getting close to Lin Yi, the outcome would have been unknown!

If he'd delayed for another 20 to 30 seconds, the test would've ended, and Lin Yi would've been killed by the star Cloud tower. In the end, yeliya was too arrogant. If she'd been more careful and didn't try to ambush him, Lin Yi would've been the one dead.

Lin Yi's back was covered in cold sweat as he accepted the rewards-it was a dangerous mission!

Just a little more!

The experts of the darkness demon beast clan ... Could not be underestimated!

In the beginning, Lin Yi thought that letting the dark Demon beasts take the lead was a piece of cake, but as he learned more, he realized how naive he was.

They hadn't caught up to the first group yet, and just these Masters alone were enough to give Lin Yi a lot of pressure.

If they really caught up to the main team of the darkness demon beast clan and faced more bloodline experts, would they really be able to win?

Lin Yi couldn't help but rub his forehead-there was no way he'd back off now!

The darkness demon beast clan had mobilized so many of their elite bloodline experts. There must be something extremely important to the darkness demon beast clan in the last level of the Nebula tower!

No matter what, no matter what it was, Lin Yi couldn't let the dark Demon beasts get it!

He took a deep breath and absorbed the reward from the 17th floor. Lin Yi then strode forward and stepped into the last floor's portal!

As a challenger, Lin Yi received the most basic of rewards. The star Cloud tower seemed to be intentionally suppressing Lin Yi's strength. He was supposed to be at the peak of heaven-Sundering by now, and the last level would be the accumulation of the peak of heaven-Sundering.

He might not be able to break through to the Supreme realm, but there was still a glimmer of hope for him to covet the half-step Supreme realm.

However, under the intentional suppression of the Nebula tower, Lin Yi was still at the peak of the late-stage of heaven breaking, barely touching the threshold of the full-stage heaven breaking realm. Even if he passed the last 18th level, he still wouldn't be able to see any traces of a half-step venerable.

Lin Yi didn't mind-the most important thing was to stop the dark Demon beast clan's plan. There was always a chance for him to get stronger, and he didn't need to rush.

The eighteenth level!

Lin Yi raised his head and looked at the vast sky, but he didn't see the top light up yet. The sisters had delayed him for quite some time, but it seemed like the dark Beast team hadn't passed the level yet, and he still had a chance to catch up!

Pushing his speed to the limit, he climbed up the stairs like a hot knife through butter. The people blocking his way were all at the same level as Lin Yi, but they didn't have any effect!

On the way up, Lin Yi noticed that there were meteors shooting across the sky from time to time. He didn't notice it before, and didn't know if it had happened before. It was a phenomenon unique to the 18th floor.

He couldn't care about these things right now-he was focused on climbing up, and on the thirty-third step, he met another strong enemy.

They were hazarville, Ilya, and Yelia!

These three opponents who had already died in his hands appeared in front of him at the same time. Lin Yi almost started cursing!

There's no end to this!

If he's dead, then he's dead. Why did he have to come out and move his corpse?

"Sima Yi, we meet again. Are you surprised? are you surprised?"

Ilya raised her hand and greeted him with a smile, as if she was reuniting with an old friend. She didn't feel the pain and unwillingness of being killed at all.

It was the same for Hardy and Yeliya, who both had friendly smiles on their faces as they raised their hands to greet Lin Yi. Lin Yi couldn't help but roll his eyes and hold his forehead with a hand, sighing.

Damn the star Cloud tower, could the projection clone inherit the memories of the original?
