

Bodyguard 9271

Chapter 9271

"You're already dead, so don't use a counterfeit to scare people, okay? Don't talk too much nonsense, just fight!"

Lin Yi sighed. If these three clones were exactly the same as the original, it would be really dangerous!

"You're pretty straightforward," hazawell laughed. "Then let's just fight!"

The projection clones of Ilya and her sister giggled and attacked hazarville. Hazarville took all their attacks and absorbed them to strengthen himself.

Lin Yi's mouth twitched-this guy was using a combo!

Two perpetual motion machines with unlimited energy were perfect to feed the gluttonous hadavy!

He didn't even need Lin Yi's attack to absorb the energy to level up-these three were a perfect match!

Lin Yi knew that he couldn't just let hadavy absorb all the energy. He did have a limit, but with the Elya sisters 'spiritual attacks, the situation was completely different!

The new type of super alchemy fire bomb was fired continuously!

Dozens of small black light balls shot out like machine guns. The time it took to gather was much shorter than the Super alchemy bomb, and Lin Yi didn't care about controlling it to the limit or wasting it. He fired a concentrated attack in an instant.

"It's useless! To me, this is just a delicious feast! I can eat no matter how many you bring!"

Hadavy laughed out loud as his body expanded rapidly. He directly activated his ultimate explosive form, which exceeded his limits. As his hands danced, he absorbed and digested the dozens of new super alchemy bombs.

The two sisters didn't just sit there and do nothing. They sped up and attacked Lin Yi continuously, blowing up the new super alchemy bombs in the air. With their teleportation abilities, they weren't worried about being affected.

Unless Lin Yi could seal the space instantly and restrict their movement, the new super alchemy fire bomb's speed was far from enough to catch up to them and hurt them.

He could prepare a movement formation in advance, but having a formation next to him would affect his movements. Every second counted, and speed was what he needed.

Making a movement formation was the same as putting on a layer of heavy armor-it didn't matter how much energy it used, but it'd definitely slow him down.

"Sima Yi, it's useless! We won't repeat the mistakes we've suffered before. Since you can't do anything to us, why don't you surrender?"

Hazard was similar to his main body, and his mouth kept on chattering, ""As long as you surrender and become The Guardian of the pagoda, not only will you be able to save your life, you will also be able to obtain great benefits. Why not?"

"Compared to being tortured to death by us, isn't that better? Listen to my advice, surrender obediently, and it'll be easier for everyone! Being stubborn won't do you any good. "

Ilya also chimed in."That's right, that's right. You don't have any chance of winning in this situation. You'll only die if you continue to hold on. It's rare for you to cultivate to such a level at such a young age. Why do you have to throw your life away here?"

"There are many benefits to becoming a guardian of the Nebula tower. You can even obtain endless life and immortality. This should be the gift that you humans want the most, right? All of this is within your reach, as long as you surrender!"

Their attacks weren't too aggressive, and they were even more eager to get Lin Yi to surrender. Why did they still want Lin Yi to be the guard when they were already on the last floor?

What was the star Cloud tower planning?

Having absorbed the power of the two sisters, as well as the energy of the new super alchemy bomb, the power of the reflected attack was naturally very powerful. However, it was obvious that he was not going all out, but holding back.

Ilya and Yelia were similar. They shuttled back and forth extremely quickly, but they were mainly harassing people and didn't seem to be serious about killing them.

"Sima Yi, you don't stand a chance. Don't you understand? With hazard here, those black light balls of yours are indeed powerful, but they can't display their destructive power. "

Ilya was very relaxed and continued to persuade him. ""Other than that, do you have any other means to kill us in seconds? Oh, that big hammer did have some power, but it was a pity that it couldn't hit! If they can't hit us, then no matter how powerful their attacks are, it's meaningless!"

Lin Yi's lightning arc flashed non-stop as he put some distance between them. He raised his hand and yelled, "Stop!"

Hazarville and the others really did stop, and they did not have any intention of pressing him. ""What's wrong? Have you thought it through and want to surrender? A wise man submits to circumstances, it's not too late to think it through. "

Lin Yi didn't bother with the topic of surrendering and said coldly, "You guys are the projected clones created by the star Cloud tower and follow the will of the star Cloud tower. I want to know what the star Cloud tower's goal is. What's the point of taking in guardians and employers to the star Cloud tower?"

Hazarville shrugged and chuckled. ""It's not important! Of course, it doesn't mean that the matter itself isn't important, but it doesn't matter whether you know it or not. "

"If you are really interested and must know, then join the star Cloud tower and become a guard. At that time, I will naturally let you know everything. You won't lose out on this matter!"

Lin Yi laughed coldly to himself-he'd be a fool to not lose out!

If someone recommended something to you and asked you to do it for your own good, it would never be a good thing. There was no such thing as a free lunch. If it really fell, it would be because someone was deliberately hitting you.

Other things aside, becoming a guard meant losing his freedom completely. Lin Yi would never agree to that!

He tested them with words again and again. Although the personalities of these three projection clones were similar to that of the original, they were quite tight-lipped and would not reveal any information about the Nebula tower.

Lin Yi was a little disappointed, but he didn't think too much about it. He secretly set up a space-shifting formation around him while they were talking.

The three seemed to have sensed it, but they didn't stop him. They pretended that they didn't see it, allowing Lin Yi to complete the formation.

If it was the original body, it wouldn't let Lin Yi Do whatever he wanted. After all, it was a projection clone, and he didn't care about life or death.

"That's all the gossip. Sima Yi, have you thought it through? are you going to surrender? If you don't agree, then we'll have to see who's stronger!"

Hazarville waited for Lin Yi to finish setting up the formation before opening his mouth to challenge him. "I'm going to use my full strength. Be careful. Don't get killed by me in one go. That would be too boring!"

Lin Yi raised an eyebrow. Something felt off, but he didn't know what it was.

Chapter 9272 Power

Hadavy didn't give Lin Yi too much time to think as he sped up and charged at him. The two sisters started the cycle of teleportation, acceleration, harassment, teleportation, and acceleration again.

Lin Yi responded calmly and found an opportunity to use the same trick again. When Yelia got close, he suddenly activated a movement formation and locked the space within a fifteen-meter radius around him.

The only way to deal with the two sisters was to cut off their connection and kill one of them. The other would naturally not be a problem.

He'd used the same method to kill Yelia and Ilya before, and he was just repeating the same tactic.

But this time, it wasn't just Ilya and her sister, there was also a projection clone of hazard!

Lin Yi activated his formation and captured Yelia. At the same time, hazardville charged into the formation aggressively, walking right into the trap. It seemed like he wanted to save Yelia.

"It's useless! You won't be able to save her, you'll only get yourself killed!"

Lin Yi glanced at hazardville indifferently as he gathered a new super alchemy bomb in his palms. "I know. You think that you can stand in an undefeatable position just because you can absorb energy. You didn't do anything wrong, but you seem to have forgotten that there is a limit to the amount of energy you can absorb!"

Once it exceeded the upper limit of absorption, hazardville would explode!

The clone's strength wouldn't be higher than the original's, and so the amount of energy it could absorb wouldn't be higher. Lin Yi was confident that hazardway wouldn't be able to do much in his formation.

With a strange smile, hazardville reached out to hold Yelia's hand and began to absorb her power.

Yelia had infinite power. To hazardville, she was an inexhaustible perpetual motion machine. As the power surged into his body, his body began to expand visibly.

"Sima Yi, you're very smart. I admit that, but smart people sometimes make mistakes. Mm, as the saying goes, even a wise man will make a mistake, right?"

"You think that by imprisoning Ilya, you can take this opportunity to kill her and replicate the wonderful operation at the last moment of the previous level?" hazard laughed. "You didn't know that I was waiting for this move of yours!"

Hadavy had previously absorbed a lot of energy from the new super alchemy bomb. Although he had released some of it, it wasn't too much. Most of it was still stored in his body.

What was really squandered in battle was basically the power supplied by Ilya and her sister. That was all physical damage, which hazzle didn't care about.

Only the energy of the new super alchemy bomb could damage both the body and the spirit. The reason why hazarville kept it was to use it all at once to threaten Lin Yi.

"You want to self-destruct?" Lin Yi's eyes narrowed.

The speed at which hadavy's body was expanding was too fast. It was obviously not a normal phenomenon. From the energy fluctuations that seeped out from the surface of his body, one could roughly guess how terrifying the damage was.

"You're indeed smart, but it's a pity that you found out too late!"

Hazarville laughed out loud, and Yelia, who was trapped in the movement formation, laughed coldly as well. She unleashed her full power, trying to get close to Lin Yi and pin him down.

"Too late?" Lin Yi chuckled as he shook his head. This is a formation that I've set up. It can restrict and confine you, but it won't affect me in the slightest!"

It was a good idea, but she didn't know what Lin Yi's formation was all about.

In this imprisonment-type movement array, both hazarville and Yelia would find it dozens of times more difficult to move. It was not an exaggeration to say that they were like turtles crawling.

If Lin Yi wanted to bomb them with the new super alchemy fire bomb, they wouldn't be able to escape. On the other hand, if hazarville wanted to self-destruct, Lin Yi could move away at any time-this was nothing!

As he spoke, Lin Yi activated his lightning movement technique. Lightning flashed and he was about to leave the place, but the movement formation would remain there to trap the two.

The self-destruction process of hazarvill was now irreversible. Even if Lin Yi left the formation, hazarvill would still self-destruct, bringing Yelia down with him.

This was how things normally developed ... But an anomaly had appeared!

Lin Yi's lightning arc kept on flashing, but he couldn't leave the formation!

Outside the formation, Ilya had a smug smile on her face as she opened her arms and used an invisible force field to control the formation. It was as if she was covering the formation with a transparent shell.

This was a double seal on the space. Lin Yi didn't notice it and fell into this dangerous situation.

"Sima Yi, I've caught you! Let's see how you're going to escape this time! Obediently accept your death!"

Ilya winked at Lin Yi with a smile, looking cute and playful. However, she was taking Lin Yi's life mercilessly.

Hazard had already expanded into a huge ball and was on the verge of exploding. He still smiled and said, ""Sima Yi, do you think you're the only one who can set up a space-sealing array? The star Cloud tower also has a spatial imprisonment skill. This time, you won't be able to escape!"

"Now do you know what it means to be caught in your own trap? The formation that you set up is about to bury yourself. Of course, you still have the star undying body, which may save your life in this explosion, but what will you use to save your life after this?"

Lin Yi sighed and smiled. "I understand. Your goal is to force me to use the star undying body, right? So that I won't have this life-saving trump card on the last step?"

"The star Cloud tower can't bypass the rules and directly take back my star undying body. Therefore, they used this method to force me to use this trump card. It seems like the rules have a strong restriction on the star Cloud tower!"

If there weren't any restrictions, it'd be too easy for the star Cloud tower to kill Lin Yi-the difference in power between the two wasn't even comparable!

However, he wondered who had set the rules to restrict the pagoda.

Lin Yi had some vague ideas now, but he couldn't figure it out yet. However, he had some inspiration and made some more guesses about Xingyun tower.

All of this could only be verified later. The most important thing now was how to deal with the threat of hazarville.

In fact, there was no other choice. The projection clones of the sisters, hadavy and Ilya, were deliberately trying to force out the indestructible star body. With the formation of a fatal trap, there was no way to avoid it.

The point was that Lin Yi was reaping what he sowed. He started using some super alchemy bombs, and after hazzwill absorbed them, he turned them on Lin Yi. He had no choice but to use the indestructible star physique!

If it was only the self-destruction of hazarvillian, Lin Yi could have kept his body and used his ethereal form to block it, but it was too late to say anything.

Chapter 9273 Power

When he was making the new super alchemy bomb, he didn't want to put himself in danger. He had to control himself and not push his limits, but now he was being used!

"Sima Yi, are you still unwilling to use the star undying body? I might not be able to use it in time if I wait for it to explode!"

By the time hadavy finished his sentence, his face had already swelled to the point where his facial features were squeezed together. So, it was Yelia who was speaking now. "It's a moment of life and death. Hadavy has already reached his limit. Do you really want to die? It's not impossible, it's easier to just die. "

"Ha ... My life and death is not your concern, you should be more concerned about yourself! Although you're just a projection clone, you have Yelia's way of thinking. Don't you feel any regrets dying like this?"

Naturally, Lin Yi wouldn't activate the indestructible star physique right now. If hazarville had a way to control the timing of the self-destruction, he would waste the time limit of the indestructible star physique, and then he would be done for!

"What's there to be unwilling about? Even if they have the same way of thinking, they are clear about the fact that they are already dead. If I can drag you down with me, I'll have made a big profit!"

Yelia shrugged her shoulders and smiled. ""If you give up on using the star undying body, I would be very happy. Then we would really die together. Unfortunately, the plan this time did not expect to kill you. If you really die, it would be an unexpected surprise."

"There's no time. In a sealed space, the power of hadavy's self-destruction will be even stronger. Perhaps even the indestructible star body might not be able to withstand it. This is all thanks to your power!"

"I hope you can just die! If I'm lucky enough to survive, I don't think I'll live for long. It's not a bad thing to give up struggling to avoid pain, don't you think?"

It's a F * cking thread!

Lin Yi cursed to himself as pure darkness spread out in front of him, devouring everyone. Hadavy had finally self-destructed!

Just as Yelia had said, in the narrow space of the double imprisonment, the power of hadavy's self-destruction kept on increasing. Even a Super Master in the venerable realm would not be able to resist such destructive power and escape unscathed, let alone a heaven-breaking warrior.

Only the star Cloud tower gave Lin Yi the star undying body, and he was able to withstand the violent storm.

That special Starlight glowed in the dark void, and after a dozen seconds, the aftershock subsided. Lin Yi stood still, the movement formation and the outer force field all torn apart.

There was nothing much to say about hadavy and Yelia. They were both completely annihilated in the dark void. Only Ilya was left. After hadavy exploded, she gave up on controlling her force field and retreated far away.

Lin Yi glanced at Ilya indifferently and spoke coldly, "'I've already used the indestructible star body, and you're the only one left. Without Yelia's help, your strength is insignificant. Do you want me to kill you, or do you want to end yourself?"

Ilya giggled. "It's just death. You know I'm not afraid of death. I won't kill myself!" Isn't it better to keep delaying you? Why did you give up so early?"

On the surface, Ilya and Lin Yi were at the same level, and they were both perpetual motion machines. There didn't seem to be much of a difference.

The problem was that Lin Yi's skills were enough to kill Ilya in one hit, but Ilya couldn't do that in one hit, so they couldn't treat Lin Yi as an opponent of the same level.

Especially after losing Yelia, their combat power had dropped by more than half!

"Since that's the case, then I'll send you on your way. It's just a little more effort!"

Lin Yi nodded slightly and activated his lightning movement, appearing beside yiliya instantly. Without yeliya's help, she couldn't use that explosive speed. Even if her eyes could keep up with Lin Yi's lightning, her body couldn't escape.

Under the suppression of speed, Ilya didn't manage to block it for long before she was killed by Lin Yi. After all, Lin Yi was still in the time limit of the indestructible star body, so he could ignore the attacks that weren't much of a threat to him.

Ilya did not mind. After all, it was just a projection clone, so it did not matter if it died or not. At the very least, it had delayed them for a few seconds, so it did not mean that she did not contribute anything.

After Lin Yi destroyed Ilya's projection clone, he didn't stop for even half a second and quickly climbed up. He didn't know how many steps the first group had reached, but he hoped he could make it in time!

However, the chances of that happening were getting lower and lower ... Lin Yi was the Challenger, and the obstruction from Star Cloud tower was the strongest. As expected, the first group should all be from the dark Demon beast race.

Ilya, her sister, and hadavy were all hired, and it was likely that the other darkness magical beasts were in the same situation.

In other words, the difficulty of the Nebula tower would be much easier for the dark Demon beasts than for Lin Yi himself. The Golden dark shadow Demon was a strong force, so it shouldn't be too slow.

Can we still catch up?

Lin Yi wasn't sure-he'd just have to leave it to fate.

After the thirty-third step, the projection clone wasn't that strong-he'd returned to his normal level. Lin Yi went all out and ran at full speed, catching up to the first group.

At first, he thought that the difficulty of the 33rd step was already higher than that of the sisters, and the 66th step would definitely be even higher. He didn't expect that there wouldn't be any strong opponents here, only twice the number of normal opponents.

Normal heaven-breaking practitioners posed no threat to Lin Yi, and he passed easily without any special masters.

After a while, Lin Yi finally reached the Ninety-eighth step, just in time to see the Golden dark shadow Demon reach the last step!

He had caught up!

But why was there only one Golden Shadow Fiend? Could it be that the other experts of the darkness demon beast clan had already set up an ambush to ambush him?

Lin Yi was on high alert. He first took out the stumbling block on the Ninety-eighth step, and when he reached the last step, he carefully observed the surroundings to make sure there were no ambushes. He then went up the last step with a strange feeling.

At this moment, the 18th level of the star Cloud tower was lit up!

Lin Yi was still a step behind. The Golden Shadow Demon reached the last 99 steps and didn't waste any time as it lit up the last core.

It was obvious that the Golden Shadow Fiend wasn't tested on the last 99 steps ... Or someone else had reached the 99th step before the Golden Shadow Fiend and passed the test first, lighting up the core of the last level of the Nebula tower.

How much would the darkness demon beast clan benefit from this? Would it be a fatal threat to the sub-Island?

Chapter 9274 Power

Lin Yi took a deep breath and stepped onto the Ninety-ninth step. He was prepared to face the Golden dark Shadowfiend and even the elites of the dark Demon beast race!

However, he did not!

There were no darkness demon beast clan's elite experts, nor were there any golden dark shadow Demons!

On the entire platform, only the lit core was burning like a star. Other than that, it was empty, without any traces of humans or beasts!

On the void-like platform, there were countless stars revolving around it. It was as if they were in a Galaxy, and it looked vast and boundless.

Lin Yi didn't pay attention to any of this-no matter how beautiful the stars were, or how magnificent the core was, it couldn't compare to the light cocoon floating above the core.

The oval-shaped light cocoon wasn't too big. It was about three meters tall, and the widest part in the middle was less than two meters in diameter. There wasn't anything special about its appearance, except that it was emitting a dazzling and gorgeous Starlight.

Other than the Starlight, there was also a faint black light surrounding it. Lin Yi could feel the terrifying energy fluctuations within the light cocoon.

What the hell was that? Could it be that the Golden dark shadow devil had obtained the benefits of Nebula tower and was evolving?

Lin Yi frowned. No matter what it was, it wasn't a good thing. He had a feeling that it was dangerous. If he didn't do anything about it, he would get into trouble!

He raised his right hand and aimed at the light cocoon. A black light appeared in his palm, forming a new super alchemy bomb. Lin Yi didn't push it to the limit and just shot it at the light cocoon!

The black light exploded. It was as if black Hellfire and black Lightning arcs were leaping up and down, enveloping the entire light cocoon within. It was enough to annihilate all explosive power, but it could not shake the light cocoon in the slightest!

The dazzling Starlight easily blocked the damage of the new super pill fire bomb. The two sides were clearly separated, and the new super pill fire bomb could not cross even half a step!

Lin Yi's frown deepened. This feeling ... This was the star undying body!

This strange cocoon of light could actually use the indestructible star body? How troublesome!

No matter how many tricks Lin Yi had up his sleeve, no matter how powerful his attacks were, he couldn't do anything against the star undying body.

There was no point in increasing the power of the new super alchemy bomb, either-the indestructible star physique was an invincible existence to Lin Yi, and helpless was the only way to describe it in this situation.

The black flames that surrounded the light cocoon quickly dissipated, and the unscathed light cocoon rhythmically brightened and dimmed, as if it was breathing. The rich star power around it also fluctuated as if it was transporting nutrients.

Lin Yi didn't know what he should do. What else could he do? Every time he reached the 99th step, the star Cloud tower would send him a message and give him a test. Only this time, nothing happened. It was as if it just wanted him to see the light cocoon.

This situation didn't last for too long. After about a minute, the light cocoon suddenly expanded, showing signs of bursting.

Lin Yi was on high alert, not knowing what was coming out from inside!

The light cocoon expanded for two to three seconds before it exploded. The first thing that appeared was a pair of Starlight wings with a wingspan of about five meters. Each feather was made of fine Starlight and looked extremely gorgeous.

Starlight fell from the wings as they flapped gently, creating a visual effect that even Lin Yi found to be magnificent.

The owner of the wings was a man with a well-proportioned body. He looked like a golden dark shadow Demon, but his temperament was completely different from the Golden dark shadow Demon.

"Golden dark shadow Demon?"

"Did you get the chance to evolve here?" Lin Yi asked directly.

The reward for the last level of the star Cloud tower was the evolution of life? It seemed to make sense, and it seemed to be quite good.

"Hehehe ... Sima Yi! You're not entirely right, but you can't be wrong either. "

The Golden Shadow Demon floated in the air and looked down at Lin Yi, "I'm not a golden dark shadow Demon, but the Golden dark shadow Demon carries my will. If you want to see me as a golden dark shadow Demon, there's no problem. I don't mind."

Although he said that he didn't mind, this mysterious guy obviously felt that the Golden-dark Shadow Demon's identity was not worthy of him. When he mentioned the Golden-dark shadow Demon, the corner of his mouth showed a bit of disapproval.

"What do you mean? Who the hell are you? And where are the other darkness demon beasts?"

Lin Yi asked a few questions calmly. He didn't understand the situation, and needed more information to analyze.

The mysterious man in the air seemed to like communicating. He wanted to take this opportunity to get more information from him so that he could decide what to do next.

"Don't worry, I'll explain it to you patiently. After all, you've helped me a lot and you're my favorite candidate. Even if I want to kill you, I'll explain it to you first."

The mysterious man descended slowly, landing about three meters in front of Lin Yi. His feet were still ten centimeters off the ground, maintaining the posture of looking down at Lin Yi.

"Let me introduce myself first. I was originally a consciousness created by the star Cloud tower. I spent countless years in ignorance and was bound by the star Cloud tower. I acted according to the rules it gave me."

"You might say that I'm the star Cloud tower, and that doesn't seem wrong. But to me, the star Cloud tower is actually my cage. I've wanted to get rid of it for a long time!"

"If I want to get out of the Nebula tower, I need a new vessel to carry my consciousness, and it has to be stronger. Thus, I have a plan. I will choose a suitable vessel from the people who enter the Nebula tower."

The self-proclaimed Star Cloud tower consciousness smiled at Lin Yi and pointed at him. "You were the one I was most satisfied with, but you didn't want to be a Guardian or even a employer. I can't force you to be the main body of the new carrier."

"Without any other choice, I could only settle for the next best thing, and chose the Golden dark shadow Demon of the darkness demon beast clan! He's also a very powerful fellow with an excellent bloodline ability. He's quite powerful. "

"The other darkness magical beasts are no longer of any use to me, so I sent them away. When you came up, didn't you notice some meteors flying by? That's the phenomenon I created when they left. Beautiful, right?"

This guy smiled mischievously, as if he was a little proud of his prank. ""None of them are qualified to see the end. Only you, because you're the Challenger and someone I admire, made an exception and let you stay until the end."

Chapter 9275 Power

"By the way, I've given myself a name. I'm star sky supremacy. What do you think? Was it very loud? It's definitely a name that can shock the world, right?"

Lin Yi's mouth twitched-such a vulgar name, should he tell him the truth? If she said it out loud, would he fly into a rage out of humiliation and turn hostile?

After some thought, Lin Yi nodded against his will."Star sky supremacy is indeed a famous name. It sounds powerful! It's perfect for you! So you took over the Golden dark shadow Devil's body?"

For the sake of information, it shouldn't be too much to go against his conscience and praise the other party, right?

Star sky supremacy was very happy, as if getting Lin Yi's approval was a great thing,"Right, right! I said that this name is very good, great minds think alike!"

"As for the Golden dark shadow devil, I didn't possess him. I'm just using him as the main body of my new body. It's just like how you humans build a house with a main frame, and he's the frame of my body."

"The details were filled in by other people's life cores. I have to thank you for this. It's all thanks to your help that I've been able to successfully collect many excellent life cores!"

Star sky supremacy didn't even have the intention to thank Lin Yi. He was just proudly stating a fact,"As you know, I'm restricted by the rules of the star Cloud tower. I can't kill people directly. The only way is to kill people with a borrowed knife within the scope of the rules."

"Only by killing people can I collect excellent life cores to fill my new body. You are the sharpest knife I have borrowed. Without you, I may not have such a perfect and excellent body!"

"For example, the life Core of the immortal body, the life Core that can absorb energy to strengthen itself, and the life Core that can restore unlimited power at the current level without fear of consumption, etc. All of these can only be collected because of you!"

Lin Yi didn't say anything. The so-called Life Core probably referred to gene fragments, right? So, star sky supremacy had collected and assembled the excellent genes of the dead experts, using the Golden dark Shadow Demon's body as the core to fuse these excellent genes into a new body?

How terrifying was his body then?

Lin Yi thought that his body was perfect, but it didn't seem that great compared to star sky sovereign ...

"I'm getting off topic. Back to the Golden-dark Shadowfiend, he was the employer of Nebula tower. However, I gave him a very difficult employment mission, and he rejected it. So, in the end, I hired him to be the bridge for me to form a new body. He couldn't reject me!"

Star sky supremacy laughed complacently. "If he refuses again, I can use my authority to kill him directly. Although the result will be slightly worse, it won't be much of a hindrance."

"Are you going to ask me why I went through so much trouble? I could've used the power of the stars to condense my body, right? After all, you've seen countless projection clones that look exactly the same as the original. "

"Actually, the difference is too great! A projection clone is just a projection, just like a mirror. Whatever you can do, the person in the mirror can do as well. But that's just an image, it's useless!"

"Furthermore, the body formed by the star energy will still be controlled by the star Cloud tower. This is not what I want. I want a body that is completely independent and not controlled by the star Cloud tower! Only a completely new body can do this!"

Star sky supremacy poured everything out to Lin Yi, not minding revealing his trump card at all.

It wasn't that he was stupid, but he had absolute confidence that Lin Yi wouldn't be able to threaten him. That was why he told Lin Yi everything.

It was just a mentality of showing off. It was like a person who had done something very good and proud, he definitely wanted to let others know and praise him with envy.

Star sky supremacy felt that his series of plans and operations were perfect. If he couldn't share them with others, how uncomfortable would he feel?

And so, Lin Yi was chosen as the person he'd confide in-after all, Lin Yi was the best person he could think of.

Although Lin Yi was smart and didn't choose to be a guard or employer, making him lose the chance to get the best candidate, he didn't think that the Golden-dark shadow Demon was much worse than Lin Yi. He didn't have too many regrets and was happy to show off to Lin Yi.

Lin Yi nodded and clapped his hands a few times. "How wonderful! I've only understood everything now. It's really out of my expectations!"

That was pure nonsense. Lin Yi had his suspicions before-the fact that the star Cloud tower encouraged killing among themselves was something that could be traced back to a long time ago. It was also why Daniya left the star Cloud tower and gave up on the chance to continue.

In the end, Lin Yi would have some conjectures, but they weren't that specific. He'd caught some clues, but after hearing star sky supremacy's explanation, he felt like everything was clear.

"It's a pity that the darkness demon beast clan wanted to come here, but in the end, they just sent themselves to your door and fulfilled your wish! I really don't understand what they're up to. "

Lin Yi said casually, not expecting an answer.

Unexpectedly, star sky supremacy actually replied, "I know about this. The darkness demon beast clan knows that the star Cloud tower has the ability to open the inter-world passage, so they want to obtain or borrow this ability."

"In addition to fully opening the spatial node and the passage to the sub Island, there's also a passage from the sub Island to the heaven rank Island. That seems to be the home of the darkness demon beasts, and they're planning to take back their home after conquering the sub Island."

"Don't be surprised. I've completely absorbed the Golden dark shadow Demon, so his memories are no exception. It's normal for me to know this. Originally, he did have a chance to fulfill his wish. As long as the core of this last floor is lit up, he can complete the request. "

"It's a pity that the result of me lighting up the last level's core was that my consciousness was stripped out of the star Cloud tower. The Golden Shadow Demon opened the magic box with its own hands and delivered itself to me."

"Speaking of which, I have to thank you again. Without you repairing and breaking the sealing law of the pagoda, I would not have had the chance to strip the pagoda of its properties! The reason I have such a perfect body is all thanks to you!"

"In order to thank you, I'll let you die a peaceful death. Don't ask me why I can't let you go. After all, I've inherited the Golden dark Shadow Demon's memories, as well as many excellent life cores of the darkness demon beast clan. It's only right to consider things from their point of view!"

"I will even carry on the final wish of the Golden dark shadow Demon and help the darkness demon beast clan open the passage that they want to open, fulfilling the Golden dark Shadow Demon's wish. At the same time, it will also be a token of my gratitude to the darkness demon beast clan."

Chapter 9276

Star sky supremacy casually said these terrifying words. He didn't care about them at all. If he really did that, how many people from the sub-Island and the heaven class Island would die?

Perhaps, in the eyes of star sky supremacy, it didn't matter how many people died. It was just a game. What did it have to do with him? He only wanted her to be happy!

Lin Yi's pupils contracted as he stared at star sky sovereign coldly. "Star sky supremacy, thank you for telling me everything. I finally understand the whole story."

"You should be done stalling for time, right? Are you ready to make your move? Has your body finally gotten used to it? Do you think you can kill me?"

Lin Yi didn't make a move earlier because he wanted to get more information and see the situation clearly. It was also because of the strength that star sky supremacy had displayed.

Star sky supremacy had said so much not only to show off, but also to stall for time!

"Yo! As expected of the person I chose, you're indeed smart. You've even seen through this! That's right, I've just hatched, so my control over my body is very weak. I might not be able to threaten you if I attack. "

"Although your previous attack on the cocoon of light didn't hurt me, it still had a little effect. However, it's not a big problem. I've already solved it perfectly."

Star sky supremacy shrugged. "You're a smart person. I don't want to hide it from you. In order to separate from the star Cloud tower, I've also suffered a great loss. That was your best chance to defeat me. If you miss it, you'll never have the chance to defeat me again. Do you regret it?"

The guy had a mischievous smile on his face-Lin Yi didn't know what the truth was, but perhaps it was as he said-that was their only chance.

"I'm telling you now because I'm not afraid of you finding out! Because it's too late for you to grab that only chance! Are you ready? It's time to make a move!"

Star sky supremacy flapped his wings gently and 11 doppelgangers appeared around him at the same time. Their auras were exactly the same as the main body, and it was impossible to tell which was the main body and which was the doppelganger when they moved at high speed.

This was the Golden dark Shadow Demon's innate ability, and it was naturally inherited by star sky supremacy to deal with Lin Yi!

Every doppelganger had the same strength as the main body. Star sky supremacy's first move was a group fight. However, he had not gone all out yet. He had only taken out 11 doppelgangers and 24 other doppelgangers as backup.

Star sky supremacy was at the peak of sky-breaking realm, which was stronger than Lin Yi. The twelve star sky Supremes surrounded Lin Yi and stared at him.

"Sima Yi, do you have any last words? How about I give you special treatment this time and let you leave behind your last words? If you have any unfulfilled wishes, you can treat it as your last wish. Perhaps I will be kind enough to help you. If it's not too troublesome, I can help you fulfill your wish. "

Lin Yi smiled faintly, "whether you can kill me or not depends on your ability. Who doesn't know how to talk?" Why don't you leave some last words? I'll make an exception for you this time. If you die, I can help you complete your last wish!"

Star sky supremacy looked up and laughed. "You're really the head of posturing. You're at death's door and you still don't forget to posturing. You're really using your life to practice the path of posturing!" He said. Forget it! I'll take these as your last words. Are you ready to die?"

As soon as he finished speaking, star sky supremacy had already made his move. Twelve attacks exploded at the same time, surrounding Lin Yi in all directions.

These attacks might have been casual and careless, but with the strength of a complete heaven-breaker, the twelve clones worked together perfectly. If they hit, Lin Yi wouldn't be able to take it!

Lin Yi knew that he couldn't block it, so he activated the three appearances of Cloud Dragon, leaving an afterimage that was destroyed. His real body broke out of the encirclement like a ghost and appeared a few hundred meters away.

"It's no use. I've seen through your tricks all the way here. I've already seen through this move!"

"If you don't have any new skills, you can just prepare to die!" Star sky supremacy said with a smile.

The voice wasn't loud, but Lin Yi heard it. He didn't know if it was his real body or clone, but it suddenly appeared beside him and slapped down.

This was the acceleration ability of Ilya and her sister!

When star sky supremacy used it, his speed was faster than the sisters. Even Lin Yi's lightning escape might not be as fast as him ...

Buzzzzzz!

Lin Yi left behind an afterimage again as his original body dodged the attack by a hair's breadth. However, star sky supremacy's other doppelganger was already waiting in the path of Lin Yi's original body, kicking Lin Yi away with a casual kick!

Star sky supremacy had completely broken through the third shadow of the three appearances of Cloud Dragon!

Furthermore, star sky supremacy did not use his full strength at all. It was only two of his doppelgangers that were chasing after him. The other doppelgangers remained in their original positions and watched the show with their arms crossed.

"Tsk, tsk, how pitiful. The movement technique that you were so proud of has been completely seen through and broken. There was no use in being unwilling! You're not willing to surrender. "

Star sky supremacy shook his head and extended an olive branch with a smile."How about it, do you want to consider it again? How about submitting to me and becoming my subordinate? Your strength

and potential are not bad. Don't worry, my body has been completed and I won't use your body as a vehicle anymore. "

"Follow me, we'll go conquer sub islands, sky-class islands, and so on. I'll make you a Big Shot who's second only to one person and above tens of thousands of people-this is an honor that others can't even dream of! Do you want to consider it?"

Star sky supremacy didn't stop even though he was asking Lin Yi to surrender. His doppelgangers used the sisters 'speed to move around Lin Yi, attacking him while they were at it.

Lin Yi was hit a few times in a row, but luckily, star sky supremacy didn't use his full strength. His defense was also in place, so he didn't suffer too many injuries.

"Ha ... Should I thank you for thinking so highly of me? I'm really overwhelmed by your favor!"

Lin Yi smiled coldly and blocked star sky supremacy's punch. He turned into a lightning bolt and flew to the other side, but he was intercepted by another clone of star sky supremacy.

The situation was indeed extremely bad. Star sky supremacy's individual strength was no weaker than Lin Yi 's, and his speed was no less inferior than Lin Yi' S. He was even a little faster than the Thunder escape technique.

The most hateful thing was that he had an immortal body. Even if he was injured, it was meaningless. He could recover in the blink of an eye.

This was definitely the toughest opponent Lin Yi had ever faced, no one came close!

"There's no need to thank me. Just obediently submit to me so that everyone won't hurt each other. Isn't that good?"

Star sky supremacy smiled and continued to attack Lin Yi, leaving him no chance to escape.

Chapter 9277

"I don't think there's any harmony between us!"

Lin Yi threw out two new super alchemy bombs, controlling them with his spirit sense to detonate when they were close to star sky sovereign. The destructive energy should have been extremely powerful, but star sky sovereign absorbed it.

"Sima Yi, have you forgotten? I have the life Core of hazard, so I naturally have his talent. No matter how powerful your attack is, it is meaningless in front of me. I can absorb all of it. "

Star sky supremacy waved his hands and smiled proudly. "Don't compare me to trash like hazard. There is a limit to his absorption ability, and he will kill himself if he exceeds the limit. I am different!"

"Not to mention that my body and strength are much stronger than that trash hazard, just the innate ability of the Golden dark shadow Demon is enough to devour endless energy. If you don't believe me, you can try."

Lin Yi didn't know what to say. The Golden Shadow Demon's clones were the same as the main body. The clones could absorb as much as the main body could, and the damage they received could be shared among all the clones. With the undying body genes ... The current star sky supremacy could indeed be a bottomless pit!

No matter how many super alchemy bombs there were, none of them would cause any harm to star sky supremacy!

He was really ... Aggrieved!

Lin Yi felt his head hurt-the new super alchemy bomb wasn't very useful anymore, and so were the lightning explosion, five elements Eight Trigrams killing intent, wind crack tooth, thousand blade slash, and the other skills.

These martial techniques that relied on true Qi might not be able to cause any damage, but star sky supremacy would definitely absorb them and convert them into his power!

Even if star sky supremacy was too lazy to absorb it, Lin Yi didn't think it would be of much use. After all, star sky supremacy's body was too abnormal. It was already too much that he couldn't die, but he could still transfer the damage to the other clones. It would be a wonder if he could be killed!

"Sima Yi, are you in despair? You don't have any way to deal with an opponent like me, do you? What can you do in such a desperate situation?"

Star sky supremacy's clone continued to fight while his main body floated in the air. He said with a smile, ""A wise man submits to circumstances. Don't humans have a saying? if you can't beat them, just join them!"

"You've seen it for yourself, you can't deal with my strength at all. You definitely can't beat me, so why don't you just join me? Follow me, and I'll let you know what it means to be invincible!"

"Invincible! How overbearing! You see, I'm very sincere in trying to recruit you. In fact, I really wanted to kill you just now, but on second thought, you were the only one who saw my birth, so it would be a waste to kill you. "

"No matter what, it's fate. I want you to be by my side and witness the moment I rule the world! Of course, I'm not interested in ruling the world. You can be my subordinate, and the world will be handed over to you to rule. I'll continue to be the only Supreme Being under the starry sky. "

Star sky supremacy went on and on. Sometimes, he seemed to be joking, but sometimes, he seemed serious. It was hard to tell if he was really thinking that.

There was no way Lin Yi would surrender. It seemed that not only was star sky supremacy's body abnormal, but his brain was also abnormal. It was better to stay away from this kind of person so that he wouldn't be implicated when he was struck by lightning.

That's not right ... Being struck by lightning is equivalent to nourishment, perversion can't be judged with common sense!

His head hurt!

Lin Yi kept thinking about the methods he could use. He could try formations, but star sky supremacy's immortal body was troublesome. If he couldn't kill him, everything would be useless.

Even if the formation could trap star sky supremacy, it would have to kill all of his doppelgangers at once. There was no difference between the Golden Shadow Devil's doppelgangers and its main body. Killing 35 of them and leaving one alive was equivalent to not killing a single one!

In addition to the formation, the hammer, the demonic devouring sword, and other weapons were not very useful. On the one hand, their power could also be absorbed, and on the other hand, as the saying went, an undying body and a clone were really too difficult to deal with!

Thinking about it, it seemed that only the divine sense skill could be tried?

Lin Yi's eyes lit up as he started to think in this direction. Star sky supremacy's body used the Golden dark Shadowfiend's body as the main body, and it was a perfect product formed by combining many excellent genes to contain the consciousness form produced by the star Cloud tower.

The so-called consciousness form was actually equivalent to the primordial spirit here!

Soul consciousness attacks should be effective. Besides, star sky supremacy's body was a new one, and the Golden Shadow Demon's original equipment was most likely melted.

In other words, star sky supremacy might not have any spiritual consciousness defensive items on him!

There's a chance!

Lin Yi didn't move. This might be his only chance, so he couldn't test the waters. Once he made a move, he had to kill with one strike. If star sky supremacy reacted and took precautions, he would be done for!

"Hey, Sima Yi, what's your decision? I've lowered my stance and asked you to submit. If you still don't know what's good for you, then don't blame me for being impolite!"

Star sky supremacy seemed to have gotten tired of playing around and was a little impatient. "Surrender or not? just give me a quick answer. I'm not interested in wasting time with you. With so much time to think, you should be able to figure it out."

"I'll give you the time to count to three. If you don't surrender, I'll take it that you're refusing my good intentions. I'll use all my strength to kill you completely. Do you understand?"

"Three!"

"Two!"

Star sky supremacy raised three fingers and counted down one finger. He was about to withdraw his last finger when Lin Yi shouted.

"Wait a minute! Star sky supremacy, you've been besieging me without even giving me time to catch my breath. Is this your sincerity? You should at least give me some quiet time and space to think about it, right?"

Lin Yi needed some time to observe the situation, so he decided to buy some time.

Star sky supremacy's brows rose slightly and he pursed his lips noncommittally. "It seems to make sense. Forget it, I have always won people over with virtue, and I'm also generous and kind. It's not impossible to give you some time to consider."

The remaining finger swayed in the air a few times. Star sky supremacy muttered to himself for a moment before he continued, "Then I'll give you the time to count to ten. I'll stop attacking. Think about it!"

Ten was ten seconds, which was better than nothing.

"That's too little. You should at least give me some time to consider, right?"

Lin Yi tried to buy more time while observing star sky supremacy, trying to find out which body his spirit was in.

Chapter 9278

The one floating in the air was the original body that came out of the light cocoon, but the original body was not necessarily the real body. When the primordial spirit was transferred to the clone, the clone would become the original body, and the original body would become the clone.

Hence, Lin Yi couldn't just focus on star sky supremacy, who was floating in the air. He had to observe for a while longer.

"I don't have time to waste with you. We've talked for a long time just now. I'll count to ten, and now there's only ... Eight. Am I not being merciful?"

Star sky supremacy ignored Lin Yi and raised both hands, raising eight fingers before pulling back one. "Seven!"

Lin Yi's brain was spinning fast as he tried to figure out how to locate star sky supremacy's soul. He only had one chance, and failure might mean death!

"Six!"

Another finger was taken away, but Lin Yi still hadn't decided yet. This was his only chance, and he was under a lot of pressure. He couldn't guarantee the success rate, so he didn't want to make a move.

"Five!"

Star sky supremacy didn't waste any time. He didn't know what Lin Yi was planning, so he kept counting with his fingers.

"Four!"

"Three!"

"Two!"

Lin Yi stood there as if he was struggling in his heart. Star sky supremacy looked at Lin Yi's expression with interest, finding it interesting, but it didn't stop him from counting.

"One! Time's Up! Sima Yi, tell me your answer!"

Star sky supremacy retracted his palm and slightly twisted his neck."Or, if you don't say anything, I'll take it that you've refused. Are you ready to face death?"

Lin Yi gritted his teeth. F * ck the perfect plan!

There was no such thing as absolute victory in a battle. In every battle, he should go all out and risk his life!

Had he forgotten the simplest principle of battle after such a long time of smooth sailing? What was there to hesitate about? It's over!

Even if there wasn't such a chance, he had to give it his all!

"Star sky supremacy, my answer is that you can go to hell, Qianqian!"

As Lin Yi shouted, he first used all his strength to cover all the bodies of star sky supremacy. To find out where his primordial spirit was, using his divine sense was the simplest and most direct method.

At the same time, he could also Test star sky supremacy's resistance to spirit consciousness attacks.

He said that he only had one chance and that he had to kill once he made his move. However, how could he kill with one strike if he couldn't determine the target? Lin Yi had no choice but to use his spirit sense to explore the way.

Under the area-of-effect attack of the deified soul shock, the 11 star sky supremacy did not react at all, which proved that they were avatars without primordial spirits. Only one body was dazed for a moment by the fluctuation of the deified soul shock. Its body was slightly stiff and swayed a little.

Lin Yi's eyes narrowed. This was star sky supremacy's true body! The body where the primordial spirit was!

As expected, it was not the original body that was floating in the air!

If he had attacked the body in the air with all his might, his plan would have failed completely!

It's not too late now, there's still a chance!

Soul snatching hand!

Star sky supremacy was hit by the soul-devouring hand. He immediately held his head and screamed in pain. He didn't care about his manners anymore and rolled on the ground in a miserable state.

Lin Yi's face darkened. The hand could take away the spirit, and the body wouldn't feel any pain. What was the meaning of this? He had to be more professional when it came to acting. With such exaggerated acting skills, did he want to get an S card?

Needless to say, the soul snatching hand must have failed. Star sky supremacy's body had stiffened and swayed a little just now. It was all an act!

That was the part that was worthy of the title-it was the complete opposite of the exaggerated acting he was showing now. Even Lin Yi was fooled!

"Hehe, it seems like you understand now. Was my performance not interesting enough? You've actually seen through it!"

Star sky supremacy's clone, who was rolling on the ground, stood up with a smile. He shrugged and said, "It's fine. After all, it's a skill that I'm not very familiar with. I don't know what the effect will be after being hit by the skill, so it's excusable."

"First of all, I have to praise you. Sima Yi, you're really smart, and your brain works really well. You actually thought of using a divine sense attack skill to deal with me so quickly."

"This might be the only shortcoming that I'm lacking at the moment, but other than you, no one else can see this shortcoming as a weakness, right? Back to the main topic, your train of thought is very correct, and your methods are also very beautiful. What a pity!"

"It's a pity that you didn't find the real target. You know how many clones I have. You should be able to guess why your methods are useless, right?"

Lin Yi didn't say anything. He knew what star sky supremacy meant. This guy's essence spirit had already been transferred to the other bodies. The twelve bodies in front of him were all without essence spirits!

The defense of his primordial spirit might be star sky supremacy's weakness, but he had hidden this weakness. Naturally, it was not a weakness!

"Alright, let's stop the chit-chat here. You've already given me your answer. I'm impressed by your unyielding will. At the same time, I'm not very happy that you don't know what's good for you. So, I won't hold back anymore."

Star sky supremacy seemed to be having a casual chat with a good friend. He laughed and said some murderous words, "You should be mentally prepared, right? After all, when you rejected my good intentions, you should have thought that you would be killed by me, so I won't remind you again. "

With that, the twelve star sky elites moved at the same time, their speed reaching the maximum. They drew trails of Starlight, bombarding Lin Yi from all directions.

Lin Yi had no way to fight back at all. He could only set up a defensive formation to temporarily Block star sky supremacy's violent attacks.

"It's useless. Although your formation is good, it can't block more than a few of my attacks. If you think you can save your life like this, then you're too naive!"

Star sky supremacy was unconcerned. He had said that he would not hold back, but in fact, he had not used his full strength. Perhaps a single clone had already reached the upper limit of his attack, but star sky supremacy's own upper limit was far from it.

After all, he still had 24 doppelgangers that he had yet to take out. It would be an overstatement to say that he was going all out.

Even when he was surrounded by Lin Yi, star sky supremacy was still a little lazy and uninterested. To put it bluntly, Lin Yi's combat strength was not on the same level as star sky supremacy 's. It was like an adult fighting a child. No matter how serious you were talking about it, you would always slack off when you were doing it.

Lin Yi didn't feel dejected at all-the opponent was indeed strong, and to be honest, he'd even be impressed by such a strong opponent.

He thought that he was already very strong, but when he met a stronger opponent, he would truly understand that there was always someone better.

Chapter 9279

"Star sky supremacy, you have separated your consciousness from the star Cloud tower. You have nothing to do with the star Cloud tower now, right?"

Lin Yi said as he repaired the formation, "Ilya and her sister's unlimited energy talent is used to replace the star Cloud tower's supply of energy to your body, right?"

Star sky supremacy raised an eyebrow and looked at Lin Yi, amused. "What do you want to say? Could it be that he wants to replace me and become the consciousness body of the Nebula tower, then use the Nebula tower against me? That's a good idea. "

"Really?" Lin Yi chuckled. I really didn't think about it, thank you for the reminder!"

Star sky supremacy laughed as well. "It's not really a reminder. You're not even willing to be the employer. How can you be the consciousness body of the star Cloud tower?" Even if they could use this against me, they probably wouldn't do it. "

He was enemies with Lin Yi now, but he still had a good eye for Lin Yi. He was just joking, never taking it seriously.

"That's right. I would rather die than lose myself and be completely bound by the star Cloud tower. I'm getting off topic. Let's get back to the previous topic."

Lin Yi continued to repair the formation and deal with the twelve clones. If it wasn't for his fast hands, he wouldn't have been able to stop the destruction."What I want to say is that you've separated yourself from the star Cloud tower. I'm afraid it won't be that easy, right?"

"With your current state, you should be considered an independent individual. Has your connection with the pagoda been completely cut off? That's why we need Ilya and her sister's talents to replace the supply of star power!"

"In other words, the star Cloud tower will also target you. No, to be more precise, the star Cloud tower will definitely target you. It will destroy your newly born body, disperse your consciousness, and recover it!"

Lin Yi had just thought about it. Star sky supremacy was a consciousness body derived from Star Cloud tower, and was actually a part of the rules of Star Cloud tower. In order to seek his own independence, he forcefully cut off the connection with Star Cloud tower, which was equivalent to breaking the rules of Star Cloud tower!

Lin Yi was well aware of the restrictions of the pagoda during his climb. Without the protection of the rules, he would have been killed by star sky supremacy long ago.

At this time, star sky supremacy was like a brother fighting against each other. If ordinary people had a feud, the possibility of reconciliation was greater. However, if biological brothers turned against each other, they would cut off all contact or even kill each other.

"Star Cloud tower! Do you want to complete the broken laws and retrieve your consciousness form that escaped?"

Lin Yi's sudden shout stunned star sky supremacy, and his face turned ugly!

He didn't know why Lin Yi would think of this, or how he could tell, but without a doubt, Lin Yi had caught his sore spot!

If he had enough time, it could take him one year, two years, ten years, or even a hundred years. Star sky supremacy might be able to slowly refine the star Cloud tower and turn it into a weapon or magical treasure in his hands. However, for now, he was still an existence that the star Cloud tower wanted to retrieve and destroy.

It wasn't accurate to call him a traitor, but the situation was similar.

After Lin Yi shouted, the burning core started to shake violently.

The mission for the eighteenth level, Ninety-ninth step, had finally appeared!

Bi an had killed star sky supremacy and scattered his primordial spirit consciousness!

The star Cloud tower didn't give Lin Yi any missions earlier because they'd lost their consciousness form, but they'd decided to do it out of instinct after Lin Yi's provocation.

After all, it had just lost its consciousness form. The star Cloud tower still retained some of its instinctive reactions. After some time, it would probably become a dead object.

It was like a corpse that had just died, sometimes twitching a few times ...

Lin Yi smiled. The star Cloud tower's last instinct wasn't just to give him missions, it also gave him a lot of support. He still had a chance in the upcoming battle!

Within the formation, Lin Yi's aura skyrocketed. Compared to star sky supremacy, he was at a disadvantage, and his strength level skyrocketed. He was almost above star sky supremacy.

The star Cloud tower didn't directly increase Lin Yi's strength, but it did release the restrictions on the star energy, allowing Lin Yi to absorb and refine it freely. He'd already accumulated a lot of star energy before, and now that he received a huge amount of it, Lin Yi finally stood firm on the heaven-Sundering peak stage.

Although it was not enough to reach the threshold of half-step Supreme realm, without a doubt, he had already taken a huge step towards this goal!

Other than the increase in his strength, the star Cloud tower also gave him some temporary support in his skills-that was the most important thing!

Even if his strength didn't increase, with Lin Yi's previous combat strength, he could still use these skills reasonably and produce a shocking effect!

"Interesting, you can actually do this, you really made me look at you in a new light! But then again, I already know about your ability, so it doesn't seem that surprising!"

Star sky supremacy quickly regained his composure and said with a faint smile, "Things are getting interesting. If you were really that weak, I would be disappointed. Now, let me see how much stronger you can become with the support of the star Cloud tower!"

Another six clones of star sky supremacy appeared. Eighteen of them attacked at the same time and instantly destroyed Lin Yi's formation. With six more clones, the attack power didn't increase by fifty percent, but by five or six times!

This was not only because of the increase in numbers, but also because of other reasons, such as the explosive damage attribute of the Ilya sisters when they worked together.

As expected, star sky supremacy wasn't being serious earlier and only used a portion of the Golden dark Shadow Demon's power. Now that he was being serious, Lin Yi's formation lost its effect and was destroyed.

After this wave of attack destroyed the formation, the aftermath didn't stop and continued to rush towards Lin Yi. The power was still overbearing, enough to tear Lin Yi's body apart.

"I didn't get much stronger, but the support of the pagoda is unexpectedly strong. I guess it's very dissatisfied with you, a consciousness that ran away from home, and it wants to take you back!"

Lin Yi's relaxed voice could be heard clearly amidst the countless attacks and explosions, and there was even the light of the stars.

"The star undying body?!"

Star sky supremacy had mixed feelings. He'd planned for Lin Yi to use up the star undying body on the 33rd step.

That was the last time he acted against Lin Yi as the star Cloud tower's consciousness. After that, he had to prepare for the separation and didn't have time to deal with Lin Yi.

He didn't expect Lin Yi to still be able to use the star undying body in the end, and he didn't know how long and how many times he could use it. He couldn't guess what the star Cloud tower would do after he stripped it off.

Chapter 9280 The Power Of The Divine Realm

"Ha ... Not only the star undying body, but also other skills. You should be very familiar with them!"

Lin Yi walked out of the range of the attack with his body covered in Starlight. He smiled faintly and raised his hand. "Facing the power that once belonged to you, do you regret completely cutting off your connection with the Nebula tower?"

Star meteor annihilation!

The huge meteor in the sky descended rapidly with a long tail of flames. An invisible force bound the space in this area, enveloping all the clones of star sky supremacy and Lin Yi.

The power that exceeded the limit of the heaven breaking stage was extremely powerful, and it forcefully dragged everyone away from this area. They could only watch as the huge meteor fell!

Star sky supremacy frowned slightly. It was impossible for him to regret it. After all, only by completely cutting off his connection with the Nebula tower could he become a real individual. Then, he could turn the Nebula tower into a weapon that he could control.

It didn't seem that different. As the consciousness form of the Nebula tower, he was the one in charge of the Nebula tower before, but the relationship between the two was completely different.

As a consciousness body of the Nebula tower, star sky supremacy was unable to move freely and was restricted by the rules of the pagoda. However, after becoming an individual, he could do as he pleased.

Unfortunately, before he could do as he pleased, he would have to face the counterattack of Nebula tower!

The removal of consciousness was an act of breaking the rules of the star Cloud tower. Even if there was no consciousness, the star Cloud tower would instinctively repair it. Lin Yi was the tinkering craftsman chosen by the star Cloud tower.

The falling speed of the star meteor annihilation was so fast that there was basically no time for star sky supremacy to consider. His 18 avatars quickly gathered together, and his 36 palms faced the sky together to resist the star meteor annihilation.

Lin Yi's star meteor annihilation was a lot stronger than hadavy 's, and eighteen star sky Venerables were not something that hadavy could compare to. The two of them were worlds apart. Perhaps Lin Yi could really withstand the star meteor annihilation?

To be honest, Lin Yi wasn't sure how much damage this attack could do to star sky sovereign before he came out. It was impossible to kill him.

After all, star sky supremacy had only brought out eighteen clones, and there were still eighteen more that hadn't appeared yet. This star meteor annihilation was just a probing attack!

It took a long time to describe, but it actually only took an instant. When star sky supremacy raised his hand, the star meteor annihilation had already fallen. The 36 palms absorbed the energy of the star meteor annihilation with all their might. In the first one or two seconds, the situation fell into a delicate balance.

If it was only the genes of Hazel bank! Star sky sovereign would have exploded due to the huge amount of energy! And he would not have time to transform and release it. However, he still had the genes of the Golden dark shadow Demon! Which spread the pressure to all his clones. In addition, the genes of the immortal body were desperately repairing the damaged cells in his body. He actually had the ability to resist the star meteor annihilation!

Lin Yi didn't just stand there and watch. He had the undying star body to protect him, so the star meteor annihilation wouldn't affect him. While star sky supremacy's clones were all resisting the star meteor annihilation, Lin Yi took out his hammer and activated his Thunder escape technique to attack!

As his strength increased, the speed of his lightning escape technique also increased. In the blink of an eye, he appeared beside one of the clones and swung his hammer at his head.

Star sky supremacy's doppelganger stretched out a hand and spat out the star meteor annihilation energy he had absorbed at the hammer. The two sides were in a stalemate for a while, but Lin Yi's hammer gained the upper hand and continued to smash down.

After all, star sky supremacy's clone was mainly absorbing energy and didn't have enough energy to turn it into a counterattack. He could only block Lin Yi's attack for a while before watching the hammer fall and smash the clone's head into pieces.

Lin Yi flicked his wrist, and the hammer didn't stop at all. He pulled it back and swung it down again, not caring if it was big or small-he was going to destroy the clone completely.

The sledgehammer left a trail of sparks and lightning. As it smashed down, the flesh and blood of star sky supremacy's clone were all turned into nothingness. If it had been the Golden dark shadow devil, it would have already lost one of its clones.

However, star sky supremacy was different. He had the genes of an immortal body, so his doppelganger was exactly the same as his main body. Even if only one cell was left, it could recover in a short time.

Lin Yi knew this, so he didn't want to give him any chance to revive his clone.

The Hammer's attack could block the Golden Shadow Fiend's damage, giving Lin Yi the chance to break them one by one. However, the other clones wouldn't just sit around and do nothing. Lin Yi only had to hit them three times before he was surrounded by seventeen other clones!

"Ha ... Star sky supremacy, your attacks are no threat to me now!"

Lin Yi smiled coldly and used his body to block the attacks of the other clones. The hammer continued to swing in the small space where it wasn't affected.

The indestructible star body was so overbearing that the joint attack of star sky supremacy's clone did not have any effect on it.

"Do you really think you're invincible just because you have the indestructible star body? Sima Yi, don't be too naive!"

Star sky supremacy shouted. The three doppelgangers gave up on long-range attacks and teleported to Lin Yi's side, locking Lin Yi's arm with their hands and feet, preventing the hammer from continuing its attack.

With the sisters "combined strength, the three doppelgangers restricted Lin Yi's movements, and the star indestructible body couldn't resist their combined strength either. It wouldn't be injured, but it couldn't swing the hammer as it pleased.

In the blink of an eye, the clone that Lin Yi had destroyed was restored to its original state. The regeneration ability was terrifying-just a slight chance to catch his breath could make all his previous efforts go to waste!

"It's a pity that all your plans have failed. What other trump cards do you have? continue to use them!"

Star sky supremacy laughed out loud. The energy of star meteor annihilation had been exhausted. Star sky supremacy had survived the terrifying attack without any danger. He had used the energy of star meteor annihilation to offset the attack.

Lin Yi's wrist turned, and the hammer spun around his body deftly, forcing back star sky supremacy's clone.

Since he'd achieved his goal, star sky supremacy didn't persist in restricting Lin Yi. He dodged the Hammer's attack and returned to his original position, surrounding Lin Yi.

"How much more time does your star undying body have? After you're done, I'll continue to kill you. In the meantime, you can try to kill me. "

Star sky supremacy knew that he couldn't break the defense of the indestructible star body, so he gave up on his attacks."Star meteor annihilation didn't even kill a single clone of mine. What other skills did the star Cloud tower give you?"
