

Bodyguard 9281

Chapter 9281 The Power Of The Devil

"If that's all, then you'll really have to stop here. The star undying body alone can't save your life! It doesn't make much difference to me whether I kill you earlier or later!"

Lin Yi's lips curled up as he swung the hammer over his shoulder. "Even if you don't say it, I will still continue to try to kill you. Just now was just an appetizer in the form of a warm-up. The real feast is about to be served. You should know that I have more doppelgangers than you, right?"

Before he could finish his sentence, Lin Yi had already activated the thousand changes of wood forest. Nearly a thousand clones appeared instantly and surrounded the eighteen clones of star sky supremacy.

Star sky supremacy shrugged his shoulders and laughed, "Of course I know you have a lot of clones, but so what? They're just some sea Rift stage clones. If I stand still, how much can you hurt me with these clones?"

Lin Yi grinned, revealing his white teeth. It was a bright smile.

"Star sky supremacy, my doppelganger can use the same skill as me. You know this, right? The star Cloud tower didn't give me many suitable skills, but the number of times it can be used isn't as low as before. "

"Needless to say, the rules of Star Cloud tower really want me to kill you! If not for that, you wouldn't have given me such preferential treatment. Why don't you look up and see?"

In fact, star sky supremacy had already noticed it even without Lin Yi's reminder. After all, there were thousands of Lin Yi's clones raising their hands to the sky. Even an idiot would know to look up.

Star meteor annihilation X1000!

He didn't know if it was a loophole, or if the star Cloud tower intentionally gave him a loophole, but when he used it with his clone, it was only a one-time use.

Although the clone's strength was weak, and the star meteor annihilation it could produce was also much weaker, the essence would not be any different. It was still a powerful star meteor annihilation.

Of course, now that nearly a thousand meteors with flaming tails were falling together, it was a real meteor shower!

Lin Yi wasn't satisfied with this yet-he split his attention and activated his Star Cloud tower skill, bursting meteor strike!

The already dense meteor shower exploded and expanded in an instant, becoming ten times or even a hundred times larger. There was no longer any space within the area it covered.

Star sky supremacy was stunned. He didn't expect Lin Yi to be able to make such a huge attack!

Lin Yi didn't have the special abilities of the bloodline Masters of the dark Demon beast clan, but he had unparalleled talent in the development, fusion, and application of martial arts.

If one were to really count, this was probably not much inferior to those bloodline abilities!

"Star sky supremacy, the feast is on the table. You are welcome to try it!"

Lin Yi smiled as he raised the hammer and charged at star sky supremacy's clone again. "This is a super meal that I've painstakingly prepared. You must taste it carefully. Don't waste my efforts!"

The corners of star sky supremacy's mouth twitched slightly. Such a feast ... He really didn't know where to start!

At this time, he did not have the time to say any polite words. He could only brace himself and absorb it with all his might. With the experience just now, he was at least familiar with the process and was not at a loss.

Unfortunately, the scene Lin Yi created this time was too big. Countless meteors fell, bringing with them a huge amount of explosive energy. The eighteen clones of star sky supremacy couldn't absorb and convert it at once.

It was like holding a basin and trying to collect all the water from a 3000-foot long waterfall. It was hilarious.

Lin Yi didn't even need to swing his hammer. The energy of the star meteor annihilation completely drowned the eighteen clones of star sky supremacy. The huge power washed back and forth, and star sky supremacy didn't even make a sound before he fell apart.

A few seconds later, the energy was still rippling, and most of the energy had been used up. Lin Yi deactivated the indestructible star physique.

To be honest, even Lin Yi himself was a little scared of the scene just now. He was afraid that the indestructible star body would suddenly explode. That would be really funny.

Without this trump card, Lin Yi wouldn't be able to last half a second under the destructive energy explosion. He'd be gone in an instant.

At the center of the meteor shower, a thirty-centimeter wide dome slowly appeared. It was a small ball, covered in star-light and feather-like patterns-Lin Yi didn't notice it at first.

By the time they saw it, the light shield exploded with a bang, scattering into fine Starlight and falling everywhere. More than ten wriggling blood-red meatballs flew out of the light shield and expanded rapidly.

Lin Yi's face changed. The star meteor annihilation was so powerful and dense, yet it didn't completely annihilate star sky supremacy's clone? It was really F * cking ghost!

No matter what, he couldn't be resurrected!

Lin Yi raised his left hand, and two new super alchemy bombs flew out. He didn't pursue the limit of power, as long as he could destroy the meatball before it recovered to star sky supremacy.

At the same time, he transformed into an arc of lightning and the hammer in his right hand followed closely behind. Along the way, sparks and lightning struck towards the blood-red meat lumps.

Lin Yi's reaction speed was fast. Under normal circumstances, he would have had a chance to take care of them before star sky supremacy's clones revived. However, not all of star sky supremacy's clones were injured. He still had eighteen clones hidden!

The new super alchemy bomb exploded in mid-air, and another six clones of star sky supremacy appeared, blocking the new super alchemy bomb and Lin Yi, who was in his lightning form.

At the same time, it also provided protection for the clones who were recovering. In a short time, the ten clones were back to normal, all looking at Lin Yi coldly.

The violent attack just now only managed to kill eight doppelgangers!

This result wasn't bad, but compared to the scene of shooting stars, it was a bit disappointing!

"Sima Yi, I have to say, you've really surprised me! To be able to play with the star meteor annihilation to such an astonishing degree, to the extent that he can even use the star meteor annihilation and activate the explosive meteor strike at the same time!"

Star sky supremacy's tone was extremely cold. It was obvious that he was angered by the attack just now. "I admit that I have underestimated you! I'm sorry, but I won't do it again. I'll show you my true strength as a sign of respect!"

"If you still have the star undying body, I suggest you use it quickly. If you don't use it, you'll die immediately!"

With that, the sixteen clones all teleported at the same time, bursting out with super speed and shooting in all directions like lightning, surrounding Lin Yi in the center again.

Four of them got close to Lin Yi and engaged in battle, while the other twelve activated their shadow form and flew through the air at high speed, aiming for the perfect timing and shooting at Lin Yi like black arrows.

Chapter 9282 Power

The Golden dark shadow Fiend's Shadowform ability was not only for defense, but also for attack.

Star sky supremacy knew that his shadowshape was useless when he was facing the meteor shower. Therefore, he gave up the chance to revive eight of his doppelgangers and used another life-saving ability in exchange for the chance to revive ten of them.

Now that he used Shadowform as an attack, he really wanted to kill Lin Yi!

This skill turned one's body into an arrow after shadowshape. The high-speed movement would form an impact that could ignore any block and was unstoppable. It was a sure-kill skill.

Shadow Kill!

In star sky supremacy's hands, the power of the shadow killer skill had been increased by several times. Although the Golden dark Shadow Demon's power was also extraordinary, it did not have the acceleration ability of star sky supremacy, nor the flying ability of star sky supremacy. Naturally, it could not be compared to the Golden dark shadow Demon.

Lin Yi's eyes narrowed as he felt the threat from star sky supremacy. The twelve arrows were so fast that their traces were almost gone, and each of them had the power to threaten the life of a Supreme realm master!

No matter how much his strength had improved, there was still a huge gap between him and the Supreme realm. Just as star sky supremacy had said, there was no way he could resist it unless he had the star undying body!

Star sky supremacy shot out twelve shadow arrows in a row. Lin Yi couldn't Dodge or escape. The shadow arrows couldn't even stop him.

A sure-kill situation?

"Sima Yi, die!"

Star sky supremacy's loud shout reverberated in the air like a great Bell that shook the heavens and earth!

The twelve shadow killer's speed had been raised to the maximum, and they shot at Lin Yi from all directions at the same time. If Lin Yi had an undying body, star sky supremacy could also guarantee that he would be completely annihilated without leaving a trace!

This attack was not at the level of a heaven breaking cultivator. It was more than enough to deal with a Supreme realm cultivator!

Even if Lin Yi had the undying star body, star sky supremacy wasn't afraid. During the duration of the Shadowform, the shadow killer wouldn't dissipate. When the undying star body reached its peak, it could still kill Lin Yi!

If it was the Golden dark shadow Fiend, it definitely wouldn't be able to maintain the shadowkill for so long. The consumption was too great and it couldn't be used.

Star sky supremacy was different. With Ilya and her sister's unlimited energy, how could he maintain the shadow killer?

Lin Yi let out a breath of air as a clone appeared beside him, back to back with his real body. He crossed his hands and a black hole-like vortex appeared on both sides, enveloping the two of them.

The shadow Kill arrows went into the black hole and came out from the other side. Lin Yi and his clone were still at the same place, but they looked like illusionary images. They were not affected at all.

The twelve arrows only made one attack before scattering around, returning to star sky supremacy's form. They all looked at Lin Yi, speechless.

This was still a skill from Star Cloud tower, the same skill that the sisters had used when they were fighting Lin Yi. Now that Lin Yi had used it, he easily and happily broke star sky supremacy's ultimate skill!

Shadowstrike ignored all blocks, and Lin Yi couldn't use the indestructible star body yet, so he had to change to another skill.

I won't block it, I won't stop it, I'll just let you shoot to your heart's content. I'll just hide myself in another plane and leave two black holes for you to pass through.

Star sky supremacy was so angry that he almost cursed out loud!

Lin Yi was using Star Cloud tower's skills, which were the skills that star sky supremacy could give to others as a form of consciousness.

Now that Lin Yi was using those skills against him, the tables had really turned!

As a former Star Cloud tower consciousness, star sky supremacy knew very well how long Lin Yi's skill could last. It was enough to wipe out the time he had left in his shadow form, so his twelve clones 'shadow killer was a waste.

"Star sky supremacy, are you feeling uneasy now? It's not good to be targeted by a skill you abandoned, right?"

Lin Yi smiled at star sky sovereign and continued to maintain the defense of the two black holes. He had nothing to do anyway, and he could kill time by chatting.

Star sky supremacy's eyes were slightly gloomy, but he quickly composed himself and laughed, "What's the big deal? It's something that I've abandoned, so what can you do to me if you pick it up and use it?"

"What I have now is freedom and unlimited possibilities. I can also reuse all kinds of skills. I'm many times stronger than the skills you can obtain on the spot."

"Although I didn't expect the star Cloud tower to be so generous and give you the authority to use a few skills, I think you've reached your limit. What can you do after you've used up all your authority to use these skills?"

"Just because you're carrying a turtle shell doesn't mean you can hide in it forever! Sima Yi, it's better for you to see the truth and surrender! You should know that I haven't used my full strength yet. Ask yourself, with the help of the star Cloud tower, can you really keep your life?"

Lin Yi shrugged and smiled, "what's the point?" I didn't ask you not to use your full strength. Hurry up and use all your skills and finish the fight earlier, isn't that good?"

"Don't talk about external help from the star Cloud tower. As long as I can kill you, the star Cloud tower and I will be satisfied. Achieving the goal is the best result."

Star sky supremacy was silent for a moment before he smiled and said, "Fine, let's have a serious fight. Let's see if my current combat power is stronger or if the skills you got from the star Cloud tower are more powerful!"

"Right now, we can't do anything to each other. Why don't we just cancel our skills and start all over again? there's no need to waste time. What do you think?"

Star sky supremacy was the first to remove his shadow form to show his sincerity. Lin Yi nodded slightly, and the black hole in front of him disappeared along with his clone.

Just as star sky supremacy had said, continuing to use this skill was just a waste of time. Without any offensive ability, pure defense would not change the situation. If star sky supremacy did not attack, the black hole would just be a decoration. It was better to cancel it.

Star sky supremacy squinted his eyes and smiled. "Very good. The real battle is about to begin. I wonder what other trump cards you have yet to use. From what I know, the star Cloud tower has quite a few powerful skills. However, due to the restrictions of the rules, I don't think you can use them, right?"

"You shouldn't have these skills at the same time. It's mostly because I've caused the rules of the pagoda to be broken and thrown into chaos. That's why you have such an opportunity."

Lin Yi raised a brow and sneered, "huh ... Star sky supremacy, what're you talking about?" Wasn't the real battle about to begin? Hurry up and make your move!"

Chapter 9283 The End

"Sima Yi, are you in a hurry to die? Fine, I'll fulfill your wish then!"

Before star sky supremacy finished his sentence, the four doppelgangers near Lin Yi teleported back to the other doppelgangers, turned into shadows, and flew in the air at top speed.

The other twelve doppelgangers' shadowshape abilities were on cooldown and couldn't be used, but these four doppelgangers were fighting in close combat and were busy tanking Lin Yi, so they didn't use shadowshape. Now that Lin Yi removed his black hole defense, they immediately used Shadowstrike.

This was star sky supremacy's little plan, thinking that Lin Yi might be careless and succeed in one move.

Did Lin Yi know how to brush her off?

"Hehe!"

Lin Yi was used to being cautious, and how could he be careless in front of a powerful man like star sky supremacy? All the details were imprinted in his mind, afraid that he would make a mistake.

Hence, star sky supremacy's new wave of Shadow Kill arrows was already within Lin Yi's calculations. Even if he couldn't use the star undying body and black hole dimensional defense for the time being, he still had a way to deal with it.

As the four arrows neared Lin Yi, they suddenly stopped in mid-air before slowly moving forward. The speed of their movement was quite slow, but it was better than nothing.

"Spatial imprisonment!" Star sky supremacy's expression changed slightly.

He couldn't be more familiar with this situation-if Lin Yi didn't fix the formation, he wouldn't have been able to break free from the tower's restrictions.

Lin Yi had used a spatial lock formation before, but star sky supremacy didn't think much of it. After all, it was a super, super, super simplified spatial lock formation. Compared to the original, it was like comparing a water gun to a Gatling gun.

To be honest, star sky supremacy didn't think that Lin Yi's spatial imprisonment formation could stop the shadow killer's advance. After all, this super super super super simplified spatial imprisonment formation couldn't be compared to the black hole skill.

However, he forgot that Lin Yi wanted to kill him with the star Cloud tower as his shield. The massive amount of star energy couldn't be used directly on Lin Yi, but it could be used on the formation Lin Yi set up!

The Super, super, super, super simplified version of the spatial imprisonment array instantly became the Super simplified version, and its effect was improved by more than one level. Although it still couldn't be compared with the original, it was enough to stop the shadow killer's advance!

Lin Yi, who was in the center of the formation, held a hammer in one hand and a new super alchemy bomb in the other. He smiled at star sky supremacy, "It seems like I'm not the one in a hurry to die, but you! Even though it's just a clone, you don't have to do this, right?"

The big hammer was raised, and sparks and lightning flashed. It smashed onto the shadow Kill arrows with a loud bang, directly hitting one of them out of the shadow state and returning it to its Avatar State.

Star sky supremacy also knew that the hammer could counter the shadowshape ability to a certain extent, but he was confident that Lin Yi couldn't even touch his shadow, so he wasn't afraid of the hammer.

He didn't think that Lin Yi would be able to create a spatial lock formation without making a sound, and even bind the four arrows, preventing the destructive power from being released.

Then, he took the opportunity to use the big hammer to smash it down. The shadow Kill was interrupted, and the shadowshape was dispelled. Everything seemed so easy and pleasant.

Immediately after was the new super alchemy bomb that had been condensed for a while. Lin Yi pressed it directly on the clone's head, and the black flames and lightning quickly swallowed the entire clone, completely annihilating it without leaving a trace!

The flames and lightning on the big hammer were completely different from the flames and lightning after the explosion of the new super alchemic bomb. However, both of them could pose a threat to star sky supremacy. At this moment, all the clones of star sky supremacy had ugly expressions!

Without waiting for star sky supremacy to react, Lin Yi continued to swing the hammer, smashing it on the other three clones in the space imprisonment formation.

The state of shadow was interrupted continuously, and the new super alchemy bomb came to an end. After a series of attacks, the four doppelgangers that were close to him were all destroyed. All the cells were completely annihilated, and there was no possibility of resurrection!

"Well done! I admit that I've underestimated you!"

Star sky supremacy's expression returned to normal. He smiled and said, "Your feat is worthy of praise, but you're too naive if you think that you can stand in an undefeatable position!"

Lin Yi's lips twitched, "I know, I know. I'm too naive, so just do it!" Should I summon the other clones? Or are you afraid that I'll catch you all in one fell swoop, so you don't dare to release all your clones in case you have no way out?"

"Hehehe, Sima Yi, you really know how to think. Do you think I'll be afraid of you? Although I've always said that I'm serious and that I'm going to go all out, you're actually not qualified. With your strength, what need do I have to be serious and go all out?"

Star sky supremacy smirked and said, "But since you've already said so, I'll just take it as fulfilling your last wish and really go all out for once! You want to see all my clones, right? Then take a good look!"

After saying that, 12 more doppelgangers of star sky supremacy appeared in the surroundings. This naturally included his original body. However, no one knew which one it was.

Lin Yi had killed twelve clones in total, so he didn't feel any pressure even though he was surrounded by twenty-four star sky supremacy.

"That's more like it! We're fighting to the death, and you still want to hold back? who are you looking down on? Now, everyone has used their trump cards, and life and death are up to fate!"

As soon as Lin Yi finished, star sky supremacy burst out laughing. "Sima Yi, where do you get your confidence from? Forget it, I thought that you would be a good sparring partner. I could play with you slowly and use you to test my body and various abilities. "

"Now I've changed my mind. It's not a bad thing to kill you earlier! Anyway, if I want to test it, I can do it myself, like this!"

Before he could finish his sentence, two of star sky supremacy's clones suddenly changed their appearances to look like Lin Yi. If someone happened to come over, they would probably think that these were clones created by Lin Yi.

Lin Yi frowned, his heart heavy. This wasn't a copy of the star Cloud tower. After star sky supremacy was separated from the star Cloud tower, he couldn't use the power of the tower anymore.

Hence, this was the life Core of the genetic ability "Dark Illusion demon" that star sky supremacy had collected.

The darkness demon beast clan's elites had all moved out, but in the end, they had all become nourishment for star sky supremacy! These F * cking bastards are really incompetent!

Yes, star sky supremacy had become the biggest bastard, the real bastard!

Chapter 9284 Power

"Hehehe, Sima Yi, you should know what this is, right? That's right, it was the innate ability of the shadow phantasmagoric! Aren't you very awesome? then, how would you feel when you fight against yourself?"

Star sky supremacy looked at Lin Yi with a smile. "Oh, you've already had this experience, but please believe me, this time it will be very different!"

"The original Shadow phantasmagoric, even if he turned into your appearance, could only replicate 60 - 70% of your strength at most. Because you are much stronger than him, it's already not bad to be able to replicate 60 - 70% of your strength."

"But I'm different. I have all kinds of excellent life cores. If I transform into your appearance, I can at least replicate more than 95% of your strength, including, but not limited to, your various skills and abilities!"

"So, do you understand what I mean?"

Star sky supremacy, who had taken on Lin Yi's appearance, smiled evilly as he raised his hand, and a meteor fell from the sky!

Star meteor annihilation!

He couldn't use the star Cloud tower's star sky Supreme anymore, but by copying Lin Yi, he'd indirectly gained the right to use the star Cloud tower's skills!

If the star Cloud tower still had a clear consciousness, it might have stopped this. Unfortunately, the star Cloud tower had lost its consciousness form and was purely relying on its instincts to make up for the lack of laws.

Shadow huanmo's power would only be seen as Lin Yi's clone power by the star Cloud tower, so it couldn't stop star sky sovereign's cheating.

The surrounding star sky supremacy dodged one after another, leaving the range of star meteor annihilation. Lin Yi had no choice but to follow. Star meteor annihilation was as fast as lightning and had a binding ability. Lin Yi wanted to run, but he couldn't!

The exploding meteors easily tore through Lin Yi's spatial imprisonment formation. This was an attack that could tear through space, and just the spatial imprisonment wasn't enough to block it!

Fortunately, Lin Yi had the formation as a buffer, and he broke free from the star meteor annihilation's restraint at the last moment. He used the three appearances of Cloud Dragon to avoid the direct impact and escaped unscathed!

"Not bad, but I know everything you know. Do you think you can escape from me?"

Another star sky supremacy, who had taken on Lin Yi's appearance, appeared beside Lin Yi with a smile. The new super alchemy bomb in his palm exploded.

Lin Yi left behind an afterimage again as he dodged the fatal attack. Another person who used star meteor annihilation was already waiting at the position where Lin Yi was about to appear, and another new type of super alchemy bomb exploded!

Star sky supremacy had only used two doppelgangers to copy Lin Yi's abilities and force Lin Yi to his death. Lin Yi finally had a taste of the power of his new super alchemy bomb.

At this critical moment, Lin Yi couldn't avoid it and could only choose to take it head-on. He used the new super alchemy bomb against the new super alchemy bomb. The two black balls collided, and both sides controlled the direction of the explosion, colliding and melting each other.

Violent energy waves spread out, and both Lin Yi and the fake Lin Yi were sent flying. The real Lin Yi had the upper hand, and he broke out of this sure-kill situation!

"Eh? What's going on?"

Lin Yi didn't give chase, frowning. "Such a huge consumption? How was that possible? That energy was almost completely exhausted after one attack?"

Lin Yi's mind moved quickly-they were probably talking about pure energy!

The more powerful the new super alchemy bomb was, the more energy it would consume. This was no joke.

Qi was an important part of it-not only did he have to put in a huge amount of Qi, he had to convert it into Qi refinement fire as well. In order to balance it with the other forces, Lin Yi's own Qi was only enough for one or two super refinement fire bombs.

The reason why Lin Yi could keep using the Super alchemy bombs was because he had the Jade space to constantly transfer Qi into his Qi!

Apart from that, Wu Linghai also provided him with a massive amount of deified soul power, which was the most important Foundation!

Star sky supremacy could replicate Lin Yi's strength and skills, but he couldn't replicate the strength of Lin Yi's Jade space and Wu Linghai!

He did have the unlimited energy characteristic of the Ilya sisters, but that was only the unlimited energy of elemental Qi. It just so happened that elemental Qi was the smallest in the new super alchemy bomb!

Therefore, after star sky supremacy launched the new super alchemy bomb, he was shocked to find that it seemed a little difficult to use this move again ...

Lin Yi smiled as he thought about it. "A counterfeit will always be a counterfeit. Do you think you can surpass me by imitating me? Along the way, you should have understood that I've always been imitated but never surpassed!"

"Hehehe, you do have some skills. You still have a secret that I haven't discovered! It's okay, this is good, it's more interesting!"

Star sky supremacy was rather carefree. He smiled and said, "I wasn't wrong in placing importance on you before. You're indeed suitable to be my main body. An imitation is an imitation. This time, I'll think of a way to fuse your Life Core into my body!"

"I can't let go of such an excellent life Core so easily! Sima Yi, it's your honor to be chosen by me. Do you want to consider becoming one with me? Let me show you the best scenery in the world!"

"Are you daydreaming, star sky supremacy?" Lin Yi laughed. If you can beat me, then you can talk about other things! What's the use if you can't defeat me just by putting up a formation?"

"That's right. No matter how much I say, it's not as useful as a fist. In fact, after talking to you so much, you should have noticed something. Didn't you realize that I've already surrounded this area?"

Star sky supremacy's doppelganger kept moving. Every time he stopped, he would leave a mark on the spot. Soon, there would be a mark every three to five meters within a radius of 500 meters.

Lin Yi was in the center of the symbols, and it looked like he was surrounded.

"I saw it, but I don't know what's the use of it? It doesn't seem to be a formation. Can you kill me easily just by surrounding me with this thing?"

Lin Yi tilted his head. He really couldn't figure out what the use of the marks was.

Not to mention that it wasn't an array, even if it was an array, with his array Dao attainments, he didn't need to worry at all.

Star sky supremacy revealed an evil smile and snapped his fingers. "I might not be able to kill you, but I can definitely restrain you! Why don't you try and see if you can escape?"

As star sky supremacy snapped his fingers, the marked points emitted spatial fluctuations at the same time, causing the space in the entire area to be disturbed!

Lin Yi's face changed-he knew he was overthinking things!

He had actually forgotten that star sky supremacy might have also obtained the genes of the space-wrecking devil demon!

Chapter 9285 Power

These marked points had now become transmission channels. Each point would be sent to another random point. Of course, the range was limited to this 500-meter radius and would not be sent to other places.

Star sky supremacy casually threw a stone. No one knew where he had gotten it from, but as soon as the stone fell within the marked points, it immediately flashed and teleported between the marked points without stopping.

Furthermore, the teleportation was irregular. It would suddenly appear in the East, then the West, then the left, and then the right. It was completely impossible to predict where he would appear next.

In just three seconds, the rock flashed at least a thousand times before it exploded!

Ashes and smoke!

The dregs scattered and teleported away, and in the blink of an eye, nothing was left!

Lin Yi's face didn't look too good. This was F * cking awesome!

At first, he thought that the ability of the air-trapping ghost demon was just a free bus, and at most, it would be faster. He didn't expect it to be able to be used in such a way!

Star sky supremacy had really played with the abilities of the xiankong ghost demon!

The encirclement in front of them was even more powerful than the most terrifying trap and kill array, even if it was not a formation!

How to break it?

"See that? I can trap you with a simple trick, so what can you do? Even if you can use the indestructible star body to save your life, it can only save your life. It won't be able to resist the teleportation and restraints of the teleportation channel. "

"I'm more familiar with space than you are. "Star sky supremacy laughed." Under such circumstances, how are you going to set up a space-sealing formation again?" I'm looking forward to it!"

There were so many random teleportation points that he couldn't set up formation flags. No matter how skilled Lin Yi was, he couldn't set up a formation in a place like this.

"Sima Yi, what will you do? Let me remind you that after these teleportation points are activated, the longer they last, the stronger the power of teleportation and binding will be. In the end, this space will be completely thrown into chaos. "

Star sky supremacy, of course, wasn't that kind. He was just using this to pressure Lin Yi."When the space is in complete chaos, where you are standing now will become the center of the space turbulence. Unless you can maintain the indestructible star physique, you won't be able to hold on for even half a second."

"Anyway, I know the limit of the star immortal body very well. Even if you can maintain the star immortal body, it will be worn out slowly after staying in the center of the space strangulation for a long time. Anyway, I have a lot of time. What about you?"

"I have a lot of time, too," Lin Yi shrugged. "I'm not afraid of you wasting time. "

The star Cloud tower didn't have any consciousness, only instinct. It wanted to fix the laws, so it gave Lin Yi support but didn't restrict him.

The mission this time didn't matter how long it would take as long as he could complete it. The star Cloud tower didn't expect Lin Yi to complete it in an hour or two.

"Is it a matter of time? The main point is that you can't hold on! Are you focusing on the wrong thing?"

"You were the one who said that we had a lot of time and then asked me. I was just answering you!"

Lin Yi said confidently, but he was also thinking about how to break out of this situation.

In terms of the rules of space, the demonic thing had studied it for a long time and had some experience, but in the face of the formation in front of him, he couldn't come up with any effective methods.

After all, these teleportation points were not set up by a formation. It was entirely the innate ability of the space-trapping ghost devil. If it was a formation, it would be much easier!

"Forget it, I don't care if you're willing to waste time. Anyway, you're the one being surrounded now. I can't wait to chat with you more and watch you slowly be strangled to death by the space!"

Star sky supremacy shrugged his shoulders casually and changed the topic to the xiankong devil ghost. "Since you know that these are the abilities of the air-trapping ghost demon, you should understand why he is called the air-trapping ghost demon by now, right? In the end, the space where you are will collapse. "

"If we don't stop it and allow it to continue developing, it will slowly become a real black hole that will devour everything! By then, even the star Cloud tower would be destroyed. "

"Of course, this might take a very long time. It could be thousands or tens of thousands of years. If not, the space-sinking ghost demon would not only have a bronze bloodline among the darkness demon beasts. It would at least have a dark gold bloodline."

"Look, I've told you some of the dark magical beast clan's secrets, and that's already enough, right? You should be touched that I'm treating you so kindly before you die! Isn't that right?"

"You, my ass!" Lin Yi laughed coldly. Do you really think that the tricks of a mere space-trapping devil ghost will affect me? Watch carefully and see how I escape from your self-righteous killing move!"

With that, Lin Yi disappeared without a trace. Star sky supremacy was stunned for a moment before realization dawned on him. "The void state of the primordial spirit? You've indeed used this move before, what a magical talent! Once again, I regret not being able to obtain your Life Core!"

Star sky supremacy had seen all the skills and techniques Lin Yi used in the star Cloud tower. It wasn't the first time Lin Yi had put his body into the Jade space and appeared in his Yuan Shen State.

Star sky supremacy didn't know much about the Jade space, so he naturally thought that Lin Yi was using some kind of innate ability, just like the dark Demon beasts.

There were too many weird abilities, and it wasn't strange for them to appear. He didn't know that Lin Yi was just using a trick. Without the Jade space, he really wouldn't be able to break through the space-trapping ghost demon's space strangulation.

He'd still be teleported to the teleportation point if he used his ethereal form, but the process would be much slower. Lin Yi still had basic mobility.

When he was close to the edge, he would try his best to break free of the restraints within the area. It would not be difficult to leave this area.

Star sky supremacy couldn't see Lin Yi, but as a former consciousness of Star Cloud tower, he had an impression of Lin Yi's soul. He focused and searched, knowing where Lin Yi was going.

When Lin Yi passed through the teleportation points and left the area, the surrounding star sky supremacy's doppelgangers all gathered around him and attacked him.

The attack this time was clearly aimed at the soul. Even though it wasn't a spiritual sense attack, it was enough to harm the soul, so it should be a technique of the darkness demon beast clan.

Lin Yi hadn't seen it before, and he almost fell for it. Luckily, he released his body from the Jade space in time and his spirit returned to his body, so he didn't suffer much damage.

"Sima Yi, you're pretty good at this! It's not any weaker than the black hole dimensional space that the star Cloud tower gave you. Interesting! Also, my attack on the primordial spirit, you could actually sense it in advance and avoid it. How surprising!"

Star sky supremacy knew that Lin Yi had never seen an attack that could hurt the soul, so he wanted to surround him and attack him. He didn't expect Lin Yi to react so quickly, ruining all his efforts.

Chapter 9286

What he didn't know was that Lin Yi was only using his body to defend himself because of the Jade space's warning. If he relied on his own sense of danger, he'd be a millisecond slower.

This extremely short delay wasn't to be underestimated. For people at Lin Yi and star sky supremacy's level, a thousandth of a second was enough to do a lot of things.

Life and death, victory and defeat, were often decided in such a short time. Like this time, if it had been a second later, Lin Yi's spirit would've been injured, if not dead.

"You're going to have more surprises!"

Lin Yi smiled and activated his lightning movement, turning into a lightning arc and slipping through the gaps between star sky supremacy's clones.

"Is that so? Let's see what can happen! At least you can't run away if you want to!"

Star sky supremacy laughed out loud. The doppelgangers sped up and scattered, surrounding Lin Yi's lightning arcs again and bombarding them.

The violent exchange was too fast for the eyes to follow. Those who weren't strong enough wouldn't be able to see anything. Lin Yi and star sky sovereign's speed was many times faster than the average speed of their level. Most of the time, only the sound of the exchange could be heard, but no one could see them.

During the fight, Lin Yi used his consciousness again, trying to find star sky supremacy's true body and grab his soul with the soul-hooking hand.

Unfortunately, star sky supremacy's defensive ability was beyond imagination. The shock of his spirit consciousness could not shake his primordial spirit, so he did not show any signs of abnormality.

"Hahaha, Sima Yi, don't even think about using your divine sense to deal with me. I've fused with the life Core of the darkness demon beast clan, so I have a divine sense ability. You can't break through my defense so easily!"

"It's best if you put away these petty tricks. Using them in front of me is just making a fool of yourself. I know that your soul is very strong, so I've never used such methods on you. "

"Of course, if you continue to insist, I don't mind letting you try out my strength in this aspect. Oh, you're too stressed now and can't speak, right? Do you want me to relax my attack a little and give you a chance to speak?"

Star sky supremacy's clones were attacking Lin Yi, and he seemed to have an overwhelming advantage. He was teasing Lin Yi, but he still lacked the intention to kill Lin Yi.

Every time he was about to win, Lin Yi would use the skills of the Xingyun tower to catch his breath. These powerful skills were enough to turn the tables, but star sky supremacy had the genes of the Shadowmancer and had transformed into Lin Yi. He used quantity to fight quality, and he always had the upper hand.

"Sima Yi, why are you still not giving up? He couldn't see the situation clearly! Don't tell me you still don't understand that I can copy everything you know. Any trump card is no secret to me. "

"At a time like this, isn't it better to surrender earlier? Why was there a need to go through so much trouble to persist in that meaningless mission? Be good and surrender!"

Star sky supremacy continued to blabber on and on. He didn't really expect Lin Yi to surrender, but he was just trying to influence Lin Yi's will to fight.

What if it could brainwash Lin Yi and make him surrender? that would be a huge surprise!

Naturally, Lin Yi wasn't going to be brainwashed by star sky supremacy, but the situation he was in right now was a little tricky.

Just like what star sky supremacy had said, star sky supremacy could copy everything he knew, except for the Jade space and Wu Linghai, including the support skills given by the star Cloud tower.

These skills were supposed to be used to increase Lin Yi's combat power, but star sky supremacy used the dark phantom and golden dark shadow Demon to suppress him instead ... This was unreasonable!

Having said that, it was easy to understand why the Jade space couldn't be copied. The shadow phantasmagoric ability couldn't copy a weapon like the big hammer, so it was fine to just treat the Jade space as such a thing.

The problem was that Wu Linghai couldn't be copied, which surprised Lin Yi. As expected, if he wanted to defeat star sky supremacy, he had to rely on Wu Linghai and his divine sense attack skills!

Star sky supremacy was talking casually, but his hands didn't stop moving. His clones took turns to use all kinds of powerful skills to attack Lin Yi, but Lin Yi couldn't even use formations now.

After star sky supremacy transformed into Lin Yi, he could easily break through Lin Yi's formations. It was a waste of time.

"Sima Yi, you still haven't given up? This is the last time you can use your star undying body, right? I can still use the black hole dimension once, and the star meteor annihilation can be used twice ... Do you think I can turn the tables with just these things?"

Star sky supremacy had taken on Lin Yi's appearance, and he had the same access to the star Cloud tower skills as Lin Yi, so he knew exactly how many cards Lin Yi had up his sleeve.

Seeing that Lin Yi had activated the indestructible star body to block the twelve arrows, star sky supremacy laughed even more proudly. "You should be very clear about the cooldown time between my skills. Because I use them alternately, there is almost no gap between them."

"But you're different. After you've used up all your skills, do you think the star Cloud tower will give you more power? Wake up, it's impossible! Because doing so would also go against its rules!"

"Hehehe ... What a ridiculous rule! Now you understand why I wanted to separate myself from the laws of the pagoda, right? It's too boring!"

Star sky supremacy waved his hand, and the arrows flew back to him. He then set up a dense space mark. Whether it was useful or not, he wasn't afraid of using it up anyway. It would affect Lin Yi.

Lin Yi activated the thousand changes of wood and forest again, and nearly a thousand clones appeared, raising their hands to the sky. "You're right, but before I use all my strength, whatever you say is useless!"

Star meteor annihilation + explosive meteor strike!

Countless meteors streaked across the sky, forming a dense meteor shower that enveloped the entire area. No one could escape!

Star sky supremacy threw his head back and laughed, "Sima Yi, I already said it's useless!" I know what you know, we're just exchanging moves! And I have more than you!"

Three of his clones took on Lin Yi's appearance and activated the star undying body, as well as the thousand forest transformation. There were nearly three thousand more of Lin Yi's clones.

All the clones raised their hands toward the sky, as if a forest of arms had suddenly grown out of them. The scene was spectacular!

Three times more meteors than Lin Yi's star meteor shower appeared out of thin air, crashing into Lin Yi's Meteor shower from another direction.

Chapter 9287

Lin Yi's lips curled into a cold smile. Star sky supremacy's Meteor shower was indeed a lot, but its power was far less than his own. This wasn't just because the shadow huanmo's copies were weaker than the original.

And the most important reason was Lin Yi's talent for skill fusion!

The fusion skill of star meteor annihilation and explosive meteor strike was something Lin Yi had just discovered. Star sky supremacy could copy it, but every time Lin Yi used it, the skill's power would increase as his proficiency increased!

On the other hand, the duplicate copy was the first one, and it was weakened to a certain extent.

The difference between the two was even more obvious!

The two dazzling meteor showers met in the sky. The smaller meteor shower was like a spear piercing through water, shattering star sky supremacy's Meteor shower.

Not only that, after Lin Yi's Meteor shower smashed into the opponent, it wrapped around the opponent because of the pulling and restraining power of star meteor annihilation. Not only did it not consume any energy, but it also increased in strength.

Star sky supremacy's face changed slightly. He didn't expect this at all. He thought that the three knockoff bodies would be able to triple star meteor annihilation and explosive meteor strike, and that would be enough to crush Lin Yi.

Who would have thought that in the end, he would be the clown!

Facing such a powerful meteor shower, star sky supremacy immediately turned all his other clones into Lin Yi's appearance and activated the undying star body!

Now, only the indestructible star body had the possibility of resisting it. The black hole dimensional defense might also be able to resist it, but it might not be activated in time.

All of a sudden, there was no star sky supremacy within the meteor shower's range. They all turned into Lin Yi's appearance, shining with Starlight. People who didn't know what was going on would find it strange.

The bright and terrifying meteor shower streaked across the sky and crashed down. The huge kinetic energy tore the space apart, and black spatial cracks appeared in the light, ruthlessly tearing and devouring everything around it.

Lin Yi could feel the star Cloud tower shaking a little, but he couldn't tell because of the continuous explosions. Perhaps it was just his imagination ... After all, the tremors caused by the meteor shower were strong enough.

After a short while, the meteor shower finally stopped, and the terrifying explosion also came to an end.

Lin Yi's chest felt heavy, and he spat out a mouthful of blood before feeling relieved. He checked carefully, and there shouldn't be any internal injuries.

This was the first time that the star undying body was damaged. Although it wasn't serious, it was enough to prove that the attack just now could break through the defense of the star Cloud tower!

Even if it only took one point of damage, it still broke the 10000-year damage immunity record!

Compared to Lin Yi's painless spitting of blood, star sky sovereign was in much more pain. The fact that the fake body was inferior to the original body had been said many times. Even if they both used the star undying body, star sky sovereign's side was still slightly inferior to Lin Yi 's.

Lin Yi spat out a mouthful of blood, while star sky supremacy's doppelgangers were in a sorry state. Every one of them was damaged, and their auras were much weaker.

Because all the clones had suffered the same attack, sharing the damage was equivalent to not sharing it. A few unlucky clones even had their limbs broken.

Their star indestructible bodies had been completely destroyed by this wave of meteor shower!

It was a pity that the star undying body was the star undying body after all. Even if it was destroyed, it could still protect the clones of star sky supremacy. Under such a powerful and terrifying attack, none of them died.

Getting injured was nothing to star sky supremacy. In the blink of an eye, his immortal body gene had healed his injuries!

"Well done! It's a pity, just a little bit more!"

Star sky supremacy didn't know what to think in his heart, but on the surface, he appeared to be at ease. "If you had another opponent, you would have won a long time ago. However, I'm a natural chasm that you can never cross. No matter how you struggle, it's just a useless effort!"

"You no longer have the authority to use your star undying body. Even if you can launch another attack like the one just now, you will be killed first. I really want to know if you'd do something so stupid as to die together with me. "

Lin Yi opened his arms and smiled brightly, "You should know that I have countless methods. I don't necessarily have to use the skills of the Nebula tower! For example, like now!"

The divine sense pill fire vortex!

When the meteor shower ended, Lin Yi had already activated the fire vortex, even earlier than when he spat out blood.

The indestructible star body wasn't able to completely block the damage from the meteor shower, and Lin Yi's sharp senses detected an opportunity!

Wu Linghai roared and churned, pouring out all her deified soul power. Before star sky supremacy had fully recovered, three huge deified soul elixir fire vortexes had already formed, surrounding all 24 doppelgangers of star sky supremacy.

Close!

With that, Lin Yi put his arms together, and the three pill fire vortexes merged into a tornado that connected heaven and earth.

Star sky supremacy's face changed slightly. He knew what Lin Yi was doing, but he didn't expect it to be so powerful. Even with his Spirit's defense, he couldn't block it.

Star sky supremacy was still in Lin Yi's form, and he wanted to use the same move to counter Lin Yi's attack. However, as soon as the fire vortex appeared, it was forcefully integrated into Lin Yi's tornado vortex, adding to Lin Yi's attack.

It was the same as the meteor shower just now!

Star sky supremacy was shocked. He didn't dare to help the enemy anymore, but he quickly calmed down and resisted with all his might. Lin Yi wouldn't be able to get him for now.

"Sima Yi, it's no use! I've already told you that my primordial Spirit's defense is extremely strong. You can't hurt me at all! I don't mind enduring an attack like yours for ten days to half a month!"

Lin Yi's eyes narrowed as he smiled. "It doesn't matter. I just want to find out where your main body is! I've already achieved my goal!"

The deified soul shock was ineffective against star sky supremacy. It wasn't even qualified to test him. This time, the deified soul elixir fire Whirlpool that was fully activated finally shook star sky supremacy's primordial spirit.

Taking advantage of the fact that star sky supremacy's injuries hadn't fully recovered yet, Lin Yi gave it his all and finally found star sky supremacy's body, where his essence spirit was!

Soul snatching hand!

Star sky supremacy's eyes narrowed and turned fierce. "Just this? I thought you had found some sure-win method, but it's still those boring skills! Don't forget, I can do what you can!"

Twenty-four soul snatching hands went up at the same time. If the quality was not enough, he would make up for it with quantity!

Chapter 9288

Star sky supremacy counterattacked, and their invisible soul-hooking hands collided in the air. Lin Yi's soul-hooking hand was powerful, and with Wu Linghai's support, it was far stronger than his opponent's.

The problem was that the soul Catcher hand itself wasn't an offensive skill, and he was entangled with the numerous Soul Catchers on the other side, unable to break through for a while.

The two sides had formed a delicate balance, and no one could do anything to the other!

Star sky supremacy heaved a sigh of relief. He would be satisfied if Lin Yi could stop him. If he couldn't, Lin Yi might really turn the tables!

Because his primordial spirit was indeed his only weakness!

His new body had integrated with many outstanding talents, but the consciousness form that had just been separated from the star Cloud tower was still unable to completely integrate with this body.

She might be suppressing Lin Yi now, but if her spirit was pulled out of her body by Lin Yi, her body would probably fall apart!

"Hahahaha, Sima Yi, see that? What can you do to me? What other moves do you have? show me, I'll take them all!"

Star sky supremacy suppressed his fear of Lin Yi and laughed arrogantly, "You have to know that I'm only using one of your abilities. If I were to use all my abilities at the same time, do you think you can stop me?"

Lin Yi's indestructible star body's time limit was up, and the Starlight around him dimmed. Star sky supremacy split into four clones and activated Shadowform, entering the shadow killer state.

The black arrow pierced through the air, heading straight for Lin Yi. If it hit, Lin Yi's body would be torn into countless pieces.

Lin Yi had no choice but to activate the black hole dimension defense and continue to use the soul Catcher hand. He was at the end of his rope and had no other choice but to use the soul Catcher hand!

He had to maintain his hand-it didn't feel good to risk everything. He didn't expect to be in such a situation before coming to the top of the Nebula tower.

In a battle of strength, in the end, it even required the blessing of luck!

"It's useless! You've already used all your trump cards. When the black hole dimension's defense time runs out, what other means can you use to block my attack? You should understand that you're going to die without a doubt!"

Star sky supremacy stopped his attack, and the four shadows surrounded Lin Yi in the middle. "I admire your tenacity and courage, but you've used it in the wrong place! Making me your enemy was your biggest mistake!"

Before he could finish his words, a sudden change occurred!

Suddenly, a black sandstorm rose up from the battlefield. It was as if it had descended from the void, and it instantly formed a violent Black Vortex of sand!

Lin Yi paused. He was inside the black hole dimension, so it wasn't affected, but the black sand was actually small black metal particles.

Lin Yi wasn't unfamiliar with this-it was the ability of the dark Beast, Aslina!

Did star sky supremacy also collect her gene sample and integrate it into his body? But what was the point of using it now?

As long as the black hole dimensional defense was in place, even the shadowthorn couldn't touch him at all, so what could asreina's ability do? Could it be that he wanted to use the black metal particles to fill up the black hole?

Star sky supremacy shouldn't be so naive!

Then, Lin Yi saw star sky supremacy's weird expression as well. He shook his head and smiled at the black sandstorm.

"Aslina, I didn't expect you to be hiding at the side. You even managed to escape that attack! Since you're still alive, why don't you live well?"

Lin Yi thought that the sandstorm was an ability star sky supremacy had gotten from Aslina, but star sky supremacy knew very well that Aslina wasn't dead.

When Aslina was defeated by Lin Yi, she almost died, but at the last moment, her spirit attached itself to a small metal particle and survived.

Although asrina wasn't immortal, she had a natural ability to preserve her life. She had followed them all the way and had already fully recovered.

Star sky supremacy had not collected asreina's life Core, so he did not possess her innate abilities. Of course, star sky supremacy did not care. With so many powerful innate abilities, it did not matter whether asreina had them or not.

It didn't matter if she was there or not!

"Aslina, are you going to make a move on me now? If I'm not mistaken, Sima Yi is the enemy of your darkness demon beast clan. All this while, didn't the Golden dark shadow devil want to kill Sima Yi?"

Star sky supremacy laughed lazily and said, "how about I give you this chance?" I'll let you end Sima Yi's life with your own hands, and I'll consider it as returning the favor to your darkness demon beast clan. After all, you've sent me so many excellent body materials. "

"As a polite person, I naturally don't mind giving you this favor! What do you think? Sima Yi is also an arrow at the end of its flight. If you make a move ... I will help you as well. Dealing with Sima Yi will definitely not be a problem. "

Aslina's figure appeared from the black sandstorm, looking at star sky supremacy and Lin Yi coldly.

She didn't like either of them, and it would be best if she could get rid of them both. However, Aslina knew that she was no match for star sky sovereign or Lin Yi.

Not to mention fighting against two sides at the same time, that was simply courting death!

"Sima Yi! I'll help you restrain star sky supremacy. Do you have the confidence to kill him?"

Aslina's mind raced, and she ignored star sky supremacy and initiated an alliance with Lin Yi, "We can settle our scores in the future. This disgusting bastard in front of us is our common enemy. I'll help you. Can you do it?"

Star sky supremacy tilted his head and frowned in confusion. "Asrena, did you hurt your brain earlier? No matter how you look at it, I should be your ally. You actually said you wanted to help Sima Yi, did you think that your life was picked up for nothing, so it doesn't matter if I die?"

"Star sky supremacy, you killed so many of my companions," asreina said through gritted teeth. "They were all the most elite members of the darkness demon beast race. Do you think I would side with an enemy like you?"

This time, the darkness demon beast clan had sent all the top bloodline Warriors. They were the elite nobles at the top of the pyramid of darkness demon beasts.

Even if they didn't come from the same race, the darkness demon beast race's righteous name was not fake!

Asreina didn't have a deep friendship with the other darkness magical beasts, but star sky supremacy had plotted to kill so many people with the bloodline. As a member of the darkness magical beast race, asreina definitely couldn't forgive him.

Other than that, she knew very well that after seeing everything with her own eyes, star sky supremacy might not let her go. Perhaps it would be her turn after Lin Yi was taken care of.

Chapter 9289 Power

Cooperating with Lin Yi was a way to protect himself. If he could get rid of star sky supremacy, it would be easier to deal with Lin Yi than to deal with star sky supremacy alone.

"Tsk, tsk, tsk, Aslina, what you're doing is very unwise! To choose the weaker side to cooperate with, you must first have a certain level of strength. "

Star sky supremacy sneered. "Actually, you're the weakest one. It doesn't matter if you're here or not. I really don't know where you get your confidence from. You actually think that you can fight me by joining forces with Sima Yi?"

"I'll give you one last chance. After all, you still have some ties with the darkness demon beast clan. Think about it carefully, do you really want to choose Sima Yi?"

"I don't want you to help me. You know I don't need it! It's only because I've taken a lot of benefits from your darkness demon beast clan that I'll consider helping you fulfill your wishes and open the spatial node. I'll keep you alive to return the favor. "

"What?" asreina laughed coldly. "So, I have to thank you for killing so many of my companions? and I have to thank you for not killing me?" Don't talk nonsense, today, it's either you die or I die, there's nothing else to say!"

"Sima Yi, are you sure you can do it? Give me a straightforward answer! No, I'm going alone! No matter what, I'm going to kill this bastard today!"

Lin Yi's lips twitched. To be honest, allying with Aslina wasn't that useful.

It was just as star sky sovereign had said-Aslina was the weakest of the three, and she had no value at all. Lin Yi thought that she was bullshitting when she said that she could bind star sky sovereign.

If star sky supremacy could be restrained so easily, would he be in such a sorry state?

However, it was better to have a helper than an enemy. He didn't expect that it would be of much help. Even if it could distract star sky supremacy's attention, it was better than nothing.

"No problem! Asreina, if you can bind star sky supremacy, I'll definitely make him suffer!"

Lin Yi agreed to work with Aslina-he'd give it a try.

"Alright!"

"Explode!" Asreina shouted, and the black sandstorm exploded. Countless tiny metal particles collided and rubbed against each other violently, creating dense electric sparks.

Under Aslina's control, black metal particles that were flashing with electric sparks covered all of Star Supremacy's doppelgangers like thick clouds. They began to merge and solidify, forming a solid metal cage.

"Hehehe, just like that? A small trick!"

Star sky supremacy didn't care at all and allowed asreina to do as she pleased. Otherwise, with his speed, it would have been easy for him to get rid of the black metal particles.

He had enough strength and confidence to ignore Aslina. However, at a certain moment, star sky supremacy's expression suddenly changed!

The metal cage, which was about to solidify, turned into liquid-like quicksand without any warning and wrapped around star sky supremacy's body.

The electric sparks disappeared and were replaced by countless tiny black tentacle-like objects. They grabbed onto the target and stuck to it tightly. No matter how hard star sky supremacy struggled, he couldn't get rid of it.

"Sima Yi, hurry up and do it! I can't hold on for long!"

Asleina shouted loudly. This move was a new skill that she had learned after wandering between life and death. It could be considered an upgrade to her innate talent.

It was precisely because of this that star sky supremacy had not been able to grasp any information about this skill. Due to his carelessness, he had been successfully ambushed by asreina!

If he was prepared, it would not be difficult for star sky supremacy to break this move.

At this moment, feeling the extremely powerful binding power of Aslina's skill, star sky supremacy was somewhat regretful. As expected, proud soldiers were bound to lose. Underestimating the enemy never had a good end!

The most important thing was that asleina's new skill not only restricted star sky sovereign's body, but also his soul. He had the talent of a darkness demon beast that was powerful in the soul, and he wanted to use this to turn the tables, but he found that it was not as he wished.

Lin Yi didn't think that Aslina would really be able to do everything she said. He'd thought that this was an ally better than nothing, but it turned out to be a huge help!

"Alright!"

Lin Yi didn't say anything else and immediately activated the thousand changes of wood forest, creating nearly a thousand clones. They all raised their hands towards the sky and activated the combination of star meteor annihilation and explosive meteor strike!

"Sima Yi! You no longer have any life-saving skills! Do you really want to die together?"

Star sky supremacy's expression changed. He couldn't help but curse, "Crazy! You've really gone crazy! And Aslina, you should know what Sima Yi is doing now even though you were hiding at the side!"

"Once his skill takes shape, everyone within the range will die, including you! 'Asreina, are you going to die with them? Quickly let go!"

Although star sky supremacy was able to speak freely, his movements and primordial spirit were restricted. He could not even activate his skills.

Lin Yi didn't have any life-saving cards left. Both the star undying body and the black hole dimensional defense were full, but star sky sovereign couldn't use them even if he could!

Once the meteor shower fell, it would really be over for everyone!

"Hahahaha, so be it. I'm honored to be able to drag you down with me!"

"Hahahahaha!" Asreina laughed madly, and her restraint on star sky supremacy did not relax at all. Instead, it strengthened.

She was already prepared to die when she joined forces with Lin Yi to deal with star sky supremacy. It was already beyond her expectations that she could die together with Lin Yi and star sky supremacy!

"Crazy woman! You're both crazy!"

Star sky supremacy struggled madly. It was not easy for him to get himself out of the star Cloud Pagoda and create a perfect body.

How could he be willing to be beaten back to his original state?

"Ahhhhhhhhhhhhhhhhhh! Break! Break!"

Star sky supremacy tried to use brute force to break free, but it was to no avail. Aslina's skill had even temporarily sealed the darkness demon beast's innate ability in his body. It was truly overbearing!

The meteor shower in the sky had already begun to fall, bright and gorgeous!

The three parties were all within the meteor shower's attack range. The invisible force field enveloped them first, and no one could escape!

"Hahahaha, let's die together! If everyone died together, the world would be peaceful again!
Hahahahaha!"

Asreina revealed herself, a crazed and twisted smile on her face. She laughed loudly while spitting out large mouthfuls of dark purple blood.

Lin Yi looked at Aslina with a complicated expression. He finally understood why her skill was so powerful!

Asleina was burning her life to activate this binding!

Chapter 9290 The Power Of The Divine Realm

Regardless of whether she succeeded or not, she was dead for sure. The moment she used this move, the outcome was already decided. The best result was to perish together!

Lin Yi didn't believe that she'd go this far for her companions-the dark beasts weren't really United, and aslina didn't have that deep of a relationship with the other dark beasts.

Perhaps there were clansmen she cared about inside?

No matter what, she had indeed helped him a lot!

"Stupid woman, do you really think you can take my life like this? You're too naive!"

Star sky supremacy's face was twisted and ferocious. After he finished speaking, all of his clones suddenly disappeared, leaving only one. "You can restrict me from using skills, but you can't restrict me from removing my doppelgangers!"

After losing all of his clones, the aura of star sky supremacy's main body suddenly rose. Although it had not reached the Supreme realm, it had already exceeded the heaven breaking realm.

Among the half-step Supreme realm, he was considered one of the top!

Star sky supremacy, whose power had increased again, opened his arms with all his might and finally broke free from the black tentacles on his body!

Aslina's body trembled violently, and she spat out a large mouthful of blood again. The liquid black particles that were being controlled dried up and shattered, returning to their original appearance.

The restraint was broken!

The meteor shower had already fallen. Star sky supremacy, who had escaped, could not be bothered to settle the score with asreina. He raised his hands to the sky and turned them into two invisible vortexes, which started to frantically absorb the meteors in the sky.

It was too late for Lin Yi to use other life-saving skills like the indestructible star physique. He could only use his innate ability as fast as he could to absorb the falling meteor shower.

Aslina lay limply on the ground. The backlash from using the skill and the price she had to pay to activate it had left her at the end of her rope. She didn't even have the strength to stand.

Even if star sky supremacy didn't settle the score with her, she would still be finished.

Lin Yi's eyes narrowed as a super alchemy bomb formed in his palms. He had already predicted that star sky supremacy would be able to escape, so he wasn't surprised by his reaction.

He could take advantage of this opportunity to finish him off!

Star sky supremacy noticed Lin Yi from the corner of his eye and was furious. He shouted, "Sima Yi, are you really F * cking crazy? Are you crazy? Why do you have to die together?"

He felt like he couldn't even absorb the meteor shower with all his strength-he could explode and die at any moment! He really wouldn't be able to handle it if Lin Yi came!

Lin Yi grinned, revealing eight white teeth. "Star sky supremacy, you're wrong! I'm not crazy, and I'm not a lunatic! If you die, I might not die. There is no such thing as dying together!"

Even without the indestructible star body and the black hole dimension defense, Lin Yi still had the Jade space.

The meteor shower was indeed unavoidable, but Lin Yi could at least send his spirit into the Jade space. It was a pity that his reconstructed body was destroyed, but at least he could keep his life.

Where there is life, there is hope!

It wasn't the first time he had lost his physical body anyway, so it didn't matter if it happened again. He would get used to it after a few more times!

The new super alchemic fire bomb in his left hand flew out brazenly, aiming at star sky supremacy's head!

In fact, his entire body would be devoured and annihilated after the explosion, so there was no point in aiming!

The veins on star sky supremacy's forehead bulged, and his entire body swelled up. This was the side effect of absorbing too much energy in a short time. Hazarville had a similar phenomenon.

Facing Lin Yi's sneak attack, star sky supremacy had no choice but to fight to the death!

He was using both hands to absorb the meteor shower, but now that Lin Yi was attacking him, he could only use one hand to release the converted star meteor energy.

The new type of super alchemy bomb collided with this energy, and the two devoured each other. For a time, a delicate balance was formed, which could not be broken for the time being.

Star sky supremacy, on the other hand, was feeling a little uncomfortable. The strength of the meteor shower above had exceeded his limit. If it weren't for the fact that this body was extremely strong and had the genes of an immortal body, he might have already exploded.

"Hahahaha! Star sky supremacy, you're really useless!"

Asrina, who was still vomiting blood, sat on the ground and laughed hysterically. "You thought you were the strongest of the three, but in the end, you still ended up in such a sorry state!"

"If you really have the guts, then die with us! What are you struggling for? Why hold on? We're willing to risk our lives, but your life isn't yours to begin with, so what's there to be afraid of?"

It seemed like this woman really hated star sky supremacy to the core. She couldn't help Lin Yi fight against star sky supremacy anymore, so she used her vicious words to stab him in the heart.

Regardless of whether it was effective or not, even if it only affected star sky supremacy's mood slightly, it would be a great success. After all, this was all she could do now.

"Sima Yi, keep it up, he won't be able to hold on much longer. I can see that this ugly bastard is already an arrow at the end of its flight, kill him! Kill him!"

Lin Yi wanted to kill Star sky supremacy too, but the new super alchemy bomb's explosive power was strong enough, and it didn't have enough time to last.

In the initial stages of the outbreak, they could still hold their ground and even have a slight upper hand, but slowly, they could not hold on.

Star sky supremacy absorbed and converted more energy from star meteor annihilation, and the duration was longer as well. This result wasn't surprising. Lin Yi flipped his hand and sent another super alchemy bomb up.

A new type of super alchemy bomb appeared in his empty palm. With the Jade space and Wu Linghai's support, Lin Yi could create an unlimited number of these weapons.

The two of them were in a difficult situation, and neither of them could stop halfway. They could only fall into the abyss of death together!

Lin Yi couldn't even summon a clone under this terrifying energy wave. The thousand changes of wood forest's clone would disappear the moment it appeared. Anyone under the heaven breaking stage didn't even have the right to stand here!

It was unknown how long the two sides had been exchanging blows. It felt like a century had passed, but in reality, it might have only been two or three seconds.

The delicate balance was finally broken, and the huge amount of energy that was in a stalemate exploded. Star sky supremacy could no longer absorb it and had to bear the energy washing from two directions at the same time.

"No!"

Star sky supremacy's shrill cry was mixed with asreina's maniacal laughter.

Lin Yi's situation wasn't any different-the energy was flowing in two different directions. Under normal circumstances, he'd have to give up his body and hide his spirit in the Jade space to save his life.

After all, the star meteor annihilation and the new super alchemy fire bomb had the ability to annihilate the primordial spirit. If he retracted his physical body, his primordial spirit would probably not be able to withstand it.

In this desperate situation, Lin Yi needed to make a decision in an instant. Should he give up his body or fight to the death?

The energy wave swept past, and Aslina completely disappeared. She was probably really dead this time!
