

Bodyguard 9321

Chapter 9321

Wang shiqing didn't ask to go with them this time. She knew that the more time she wasted here, the more danger her father would be in.

At this time, she no longer had any capital to be willful.

"Lin Yi bro, Xiao Qing only has you."

Wang shiqing's helpless words were like a heavy hammer, smashing into Lin Yi's heart.

Lin Yi didn't say anything. He patted the girl's head and gave her a look of confirmation before summoning his flying spirit beast and leaving.

At the same time, Wang dingtian, who was trapped in the central Castle, was in a critical state.

When he was first captured, the mysterious man in Black had only forced him to refine profound grade talismans. Although he was very unwilling, he did not put up too much pointless resistance.

After all, making formation talismans was his profession. What central did was nothing more than being an evil customer who didn't pay for once. Wang dingtian could bear it.

But now, after tasting the sweet taste of success, the mysterious black-robed man's actions had intensified. He no longer wanted the original model of the profound grade talisman, but wanted to obtain the entire original design of the profound grade talisman in one go!

For his mass production plan, Wang dingtian was just a simple tool, which was quite important at the beginning. He didn't dare to kill the chicken to get the eggs, so he didn't endanger Wang dingtian's personal safety.

But now, with the successful replication of the first batch of profound level talismans, the feasibility of the lithography machine had been fully proven. Wang dingtian's value as a tool had been greatly reduced.

When the efficiency of the tools couldn't keep up with the efficiency of the machines, it was very simple for the mysterious man in Black to make a choice. He would squeeze out the last bit of value and throw away the tools. Everything would revolve around the machines. After all, this was the real chicken that could lay golden eggs.

The design of all kinds of profound-level talismans and arrays passed down from the Wang family for thousands of years were the last bit of value of Wang dingtian!

Under such circumstances, the mysterious man in Black didn't even bother to talk nonsense with Wang dingtian. He directly used the soul-searching skill. Once he searched Wang dingtian's soul, he got everything.

As for whether Wang dingtian would be Dead or Alive after that, he was just a used waste. Did it matter?

However, there was an unexpected accident in the middle. The soul-searching technique actually failed.

It was not because Wang dingtian was powerful, nor was it because his primordial spirit was so powerful that it could resist the soul-searching of the mysterious man in Black, but because he had an extremely special Natal amulet.

This amulet was different from other talismans, and it was also different from the heart transmission talisman that he and Wang shiqing had made together. It had been passed down from the Wang family's ancestors to the next generation!

Other than being able to calm one's mind and help in the inheritance of the Wang family's talismans, the protective talisman's greatest function was to protect one's soul and prevent outsiders from spying on them.

To put it bluntly, it was to guard against soul-searching techniques!

"He has such a thing on him, and as a member of the Wang family, you actually dared not to report it earlier. What punishment do you deserve?"

The mysterious man in Black looked at the third elder coldly. He was really scared this time. He was not afraid of being hurt by the backlash, but he was afraid that Wang dingtian would suddenly die without the inheritance of the Wang family's array talisman.

If it really developed to that stage, it would be a big blow to his plan.

After all, even if there was a special lithograph machine for talismans, there would still be the original design for profound grade talismans. These were absolute secrets that only the Wang family's heads could know.

If Wang dingtian was dead, his plan would be delayed for a long time, even if it was not for nothing.

After all, it was not easy to find a clan with a long history of formations like the Wang clan.

"Please calm down, my Lord. I'm just an elder. I really don't know about the family head's inheritance and this protective talisman. Please understand!"

The third elder was so scared that he knelt down immediately and kowtowed nervously, afraid that the mysterious man in Black would take his anger out on him.

While he was kowtowing, he looked at the half-dead Wang dingtian with resentment. "He's about to die, but he still dragged me into this. I'm so unlucky to have such a family head!"

"Old man, you're really useless. You don't even know such a small thing. What else do you know?"

Kang Zhaoming laughed coldly at the side, but he still gave a life-saving straw, "Hurry up and tell me how to crack this thing! Could it be that you want her Excellency to open his mouth and beg you?"

"Yes, yes, young master Kang is right. Thank you for your advice!"

The third elder quivered and finally reacted. He hurriedly took the initiative to say, ""My Lord, I know how to break this ancestral amulet."

"You really know? Didn't you say it was hard to explain?"

The mysterious man in Black glanced at him.

"Milord is wise, this lowly one truly did not know that this was actually the inheritance of the clan head, but I once read the notes of my ancestor, which mentioned its origin and also contained a way to crack it."

The 3rd elder bit the bullet and explained.

He could already feel the killing intent from the other party. Now that things had come to this, if he didn't want to be treated as a useless person to vent his anger, he had to quickly show his value.

The mysterious man in Black pondered for a moment and finally nodded under the third elder's reverent and fearful gaze. "Alright, I'll leave Wang dingtian to you. If you can't get the design of the profound level talisman, you'll accompany him for eternity."

"Yes, this little one will definitely not let down the Lord's trust."

The third elder's answer was very decisive, but he was panicking in his heart.

He was telling the truth, and he had indeed read about this special amulet in his ancestor's notes. However, seeing it was one thing, and whether or not he could actually do it was another.

Moreover, because of the mysterious man's soul-searching technique, the protective talisman was completely activated. If there was any mistake, it would immediately activate the sure-kill mechanism and destroy Wang dingtian's primordial spirit!

That's right, strictly speaking, this was not a protective talisman at all, but a death-hastening talisman fused with the primordial Spirit's instant death Seed!

In the eyes of the Wang clan's ancestors, protecting the Wang clan's formation and talisman inheritance from being leaked was the most important matter. In comparison, the lives of the future clan head were something that could be sacrificed at any time.

Under such circumstances, Wang dingtian was on the verge of death. It was almost impossible for the third elder to find the Wang family's formation talisman inheritance from his primordial spirit without any damage.

However, he had no choice. It was not easy to be Central's Lackey. If he could not do it, he would have to die. He had no choice but to gamble his life.

Just as the third elder followed the method of the ancestor's notes and carefully bypassed the instant-Death Seed of the protective talisman, and was about to invade Wang dingtian's primordial spirit, a loud bang suddenly came from outside.

Lin Yi was here!

The mysterious man and Zhaoming were both shocked when they saw Lin Yi's figure on the monitor.

They knew that Lin Yi wouldn't give up so easily, but they didn't think that he would come back so quickly. After all, Lin Yi had just suffered a loss. Did he come up with a solution in such a short time?

However, this ridiculous idea was rejected as soon as it came out. How was it possible?

Chapter 9322

With Central's unbeatable technology, no one on Sky Class Island would be able to crack it, and even if they did, it'd take at least eight to ten years. Lin Yi was good at causing trouble, but he wasn't a God ...

"That Lin fellow is really persistent. Sir, let me go out and teach him a good lesson. Teach him how to behave!"

Kang Zhaoming couldn't hold it in anymore. Last time, he suffered a big loss at Lin Yi's hands and was almost slapped into the sea to feed the fish. If he couldn't get back at Lin Yi, how could he continue to live in central?

"Don't worry, he can't come in. "

The mysterious man in Black didn't want to cause any more trouble at this time. After the previous incident was reported to the higher-ups, he had already been criticized a little, telling him to take the big picture into consideration.

Lin Yi was the type of person who could move the whole body with a single move.

No matter what, the castle wall could not be broken through from the outside. Instead of paying attention to this meaningless thing, it was better to put energy on Wang dingtian, who was the key point that needed to be broken through urgently.

In the end, just as the mysterious man in Black finished speaking, a sharp alarm rang out in the castle!

"I'll go! What is that Lin doing? why is the castle barrier outside starting to corrode?"

Kang Zhaoming looked at the feed from the surveillance camera and looked like he had seen a ghost.

At this moment, a corner of the high-tech barrier, which could theoretically defend against any powerful impact, had inexplicably collapsed.

At first glance, it looked like Lin Yi had punched it down, but through the details, they could clearly see that there was a hole in the outermost layer of the barrier.

Even if the gap was small, it was real.

Even the mysterious man in Black couldn't believe what he was seeing. From the replay, Lin Yi didn't do anything other than testing the waters.

This was a little awkward.

The corrosion wasn't fast, but Lin Yi didn't need to destroy the whole Castle. He just needed to open up a path for him to enter. After all, his goal was to save people, not to seek revenge.

"You go and stall him. Don't let him in before Wang dingtian is done."

The mysterious man made the decision immediately-he couldn't show his face, but letting Zhaoming go wasn't a problem.

"Yes, sir!"

Kang Zhaoming accepted the order happily, but at least he knew his place, "Sir, that Lin Yi kid isn't much, but he's pretty strong. If I don't have some equipment, it'll be hard for me."

These words were said very tactfully, and when translated directly, it was actually three words, "can't beat."

If he had the strength to fight Lin Yi head on, he wouldn't have been sent to the sea to feed the fish.

He couldn't hold Lin Yi back!

"You can use any of the newly produced talismans these two days. Remember, you only have one task, and that is to hold him back!"

The mysterious man, of course, knew what this guy was capable of-he immediately expressed his full support, and Zhaoming was overjoyed. This was a true sacrifice.

Although it had only been a few days, thirty profound level talismans had been produced in the castle. Normally, it would be a miracle if Wang dingtian could make even one talisman. This was the efficiency of a high-tech production line!

Thirty profound-grade talismans were more than enough to annihilate an entire sect, the kind that could annihilate several sects at once.

Lin Yi did manage to escape unscathed before, but it was only two talismans stacked on top of each other. Thirty talismans at once would be a completely different story.

Even if Lin Yi didn't die, he'd be half-dead by then.

"Just wait and see, my Lord. We'll definitely teach that Lin Yi an unforgettable lesson this time. I guarantee he'll wet his pants when he sees us in the future!"

Zhaoming said as he held the stack of talismans in his hands, pleased with himself.

Even though they were all purgatory array talismans, there were so many of them. With so many profound-grade array talismans thrown down, even a pig could win!

Walking out of the castle with his head held high, Zhaoming looked down from above and took out five purgatory talismans without a word.

"Lin, you were lucky last time. This time, I'll be more serious and teach you how to be a good person!"

As Zhaoming laughed, the five purgatory talismans exploded, and Lin Yi was engulfed in a sea of fire.

The power of similar profound grade talismans could be stacked.

If it was just one purgatory talisman, with Lin Yi's strength, it was inevitable that his spirit would be burned by the Hellfire, but he could still hold on for a long time. If this continued, he'd just be exhausted to death.

Two purgatory array talismans would double the threat of the Hellfire. Now, there were five of them. The power was no longer just a simple addition of numbers, but an out-and-out qualitative change!

Hellfire was different from ordinary flames. It had the devouring attribute and could even use the surrounding Hellfire as fuel to advance to high-level Hellfire, bursting out power that far exceeded ordinary Hellfire.

In other words, the more Hellfire there was, the more terrifying it would be.

If it was a super sea of Hellfire with a radius of ten thousand miles, the level of the Hellfire at the center was simply unimaginable. No living creature, including human cultivators, could resist it. Even Immortals could forget about living.

Five purgatory talismans weren't that powerful yet, but it was still dangerous for Lin Yi.

Especially since Zhaoming had learned his lesson this time-he didn't completely overlap the area of the talismans like last time.

This meant that if Lin Yi wanted to escape, he wouldn't just need to break through one layer, but five whole layers, and the time he needed to break through would be at least five times that.

With the advanced Hellfire's power increasing non-linear, it was a mile away from Lin Yi. As far as Kang Zhaoming was concerned, Lin Yi was going to lose a layer of skin no matter what!

However, Lin Yi didn't panic at all, as if he didn't realize the danger he was in.

"It looks like you've already got me?"

Lin Yi looked at Kang Zhaoming calmly. He really couldn't understand these stupid people's thinking. He wouldn't be able to understand it even if he thought for ten days and ten nights.

He had clearly suffered a lot before, so how could he still naively think that he could win every time?

Who gave him the courage? There should be a limit to self-hypnosis, right?

Under normal circumstances, even a dog would have learned to be obedient.

It could only be said that humans were indeed a kind of magical creature with extremely high tolerance. As long as it was a piece of human skin, anything could be put in.

"I'm not saying that. I'm just taking pity on you. For the sake of our past friendship, as long as you admit defeat, kneel down, kowtow to me, and call me your grandfather, I'll spare your dog life. Is that enough?"

Zhaoming said as he flashed the stack of purgatory formation on purpose.

Chapter 9323 The End

One, two, three ...

Lin Yi didn't know what to say to this guy's upstart attitude.

However, to be honest, being able to take out so many profound grade talismans at once was still very frightening. If he hadn't made sufficient preparations, he might have really failed miserably this time.

"Oh, really? Then I really have to thank you. I'll spare your life for your words. "

Lin Yi took out a Dharma destruction talisman and snapped his fingers.

"Spare my life? Hehe, you don't understand what I'm holding, have you never seen such high-end stuff? These are Mystic-grade purgatory talismans. Do you even know what Mystic-grade talismans are ..."

Kang Zhaoming was confident that he was in an undefeatable position.

It wasn't that he was out of his mind, but anyone with a normal mind would probably think that even if he used five, he still had 25 in his hands. How could he lose?

Not to mention, even with these five stacked purgatory talismans, Lin Yi would have a hard time escaping.

However, before he could finish, the Hellfire that trapped Lin Yi disappeared without a trace. There was no process at all. It disappeared all of a sudden.

He took drastic measures.

"W-w-what are you doing ..."

Kang Zhaoming's eyes were wide open and he couldn't say anything. If Lin Yi just broke it normally, he could understand it, but it just disappeared out of thin air?

Taking ten thousand steps back, at least you have a process of changing and decreasing, so you have to be reasonable, right?

"A Mystic-grade spell-destroying formation talisman? Where did you get a Mystic-grade Dharma destruction spell formation talisman?"

The third elder's shocked yet exhausted voice came from behind.

"You're done, old man?" Zhaoming blinked.

"Fortunately, I didn't fail my mission. I managed to avoid the amulet. Daren has taken over."

The third elder cupped his hands and smiled bitterly. Although he was lucky to have succeeded in the end, he had also paid with half of his old life. Not to mention the risk of losing his life, just the primordial spirit that he had just lost would take several years to recover.

Even so, he didn't get much credit from the mysterious man in Black. He even had to run out to support Zhaoming. It was quite pitiful for a Lackey to do this.

Kang Zhaoming nodded and quickly asked, "Old man, what's the situation with the profound-grade Dharma destruction spell formation talisman you mentioned?"

"The Dharma destruction talisman can forcefully isolate the spiritual energy of heaven and earth. It's the nemesis of all profound-grade talismans! But this old man is very puzzled, where did this kid get it from?"

The third elder looked at Lin Yi in shock. Profound level talismans were rare to begin with, and something like the Dharma destruction talisman, which was used to counter other profound level talismans, was even rarer. According to his understanding, this thing couldn't be bought even with spiritual Jade-there was no way to get it.

Could it be that there were other talisman Masters who could refine profound grade talismans?

As soon as this thought emerged, it was immediately rejected by the third elder. It was impossible!

The Wang family was the family with the most heritage in making talismans as far as he knew, but they still couldn't produce a single black-level talisman master in hundreds of years. As the current head of the family, Wang dingtian was blessed by the heavens in terms of talent and background, but he had barely reached the threshold recently.

The chances of a black-grade talisman master appearing in other places were even lower than raising a super sea beast in a pond!

"Who cares where he was snatched from or picked up from the streets? just tell me what to do now!"

Kang Zhaoming was furious after losing face.

More importantly, this thing sounded like it was impossible to solve. The impressive Mystic-grade purgatory talismans were used five times in a row, and they were gone just like that. There wasn't even a sound. How could he bear it?

"Yes, yes. Actually, young master Kang doesn't have to worry. A Mystic-grade Dharma destruction spell formation talisman is a rare item. It's already a great fortune for him to be able to get his hands on one. Who knows how much dog shit he's stepped on in exchange for this great fortune? there's no way he'll get a second one!"

Lin Yi pulled out another spell-killing formation as soon as the elder finished speaking, Fanning the air around them. Zhaoming and the elder felt their faces slapped in the face ... The slap came too fast, like a tornado ...

For a moment, the situation was very awkward.

"What's that card in his hand? Toilet paper to wipe your ass?"

Zhaoming's head was buzzing with anger-he wanted to give him a hundred and eighty slaps. What the fuck was he talking about? Was there anyone more unreliable than this guy?

"This ... This doesn't make any sense ... It shouldn't be ..."

The third elder felt very wronged. There shouldn't be any problem with his speculation. It was already amazing to be lucky enough to step on dog shit once. How could he step on it twice in a row?

"Shouldn't, my ass! Old man, if you can't come up with a good idea, then I'll send you up to fight with that Lin guy. I believe that the Lord will appreciate your courage and get you a Phoebe zhennan coffin. I guarantee that you'll have a Grand burial!"

Zhaoming hmped coldly. He was here to get back at them this time, not to serve himself up.

If he really couldn't cover up the cards in his hands, he would definitely turn around and run without a second word. After all, he wasn't a fool.

Fighting an animal like Lin Yi with his bare hands was a stupid idea that he'd gotten rid of years ago.

"Don't worry, young master Kang. The spell destroying formation is not impossible to break,"

Third elder quickly explained, "although in theory, it can indeed offset a large number of profound grade talismans, there's still a limit. Once the spiritual Qi of heaven and earth that our talismans can mobilize exceeds the upper limit of its suppression, it'll be a piece of waste paper!"

"You mean we can use these talismans to smash him to death?"

Kang Zhaoming's reaction was quick this time.

In fact, under normal circumstances, this would not be a solution at all. After all, the upper limit of the spiritual energy that a profound-grade Dharma destruction talisman could suppress was far higher than any profound-grade talisman of the same grade.

Such a strategy would only have a chance of success when there was an extreme imbalance in numbers.

And it just so happened that Zhaoming had twenty-five of them in his hands!

Even if he exchanged ten cards for one card, it would be more than enough. Back to center was that bold!

"That's right, let's open that kid's eyes this time and let him know what it means to be rich and overbearing, and what it means to not touch a Tiger's ass!"

The third elder laughed coldly. He was filled with anger and didn't dare to show it in front of the mysterious man in Black. He wanted to vent it on Lin Yi.

Lin Yi looked at the two idiots talking for a long time and said impatiently, "Are you done discussing? After you're done discussing, hurry up and do it. I still have important matters to attend to, and I don't have time to waste with you two losers. "

That was what he said, but he was not in a hurry. After all, the "laundry detergent" that Han Jingjing gave him needed some time to decompose. With these two idiots accompanying him, it would be convenient for him to hide.

Chapter 9324 The End

"Hehe, you're quite boastful, but you only have a little bit of breath left. You might as well hurry up and think about what your last words are. Just write it down on that piece of scrap paper."

Zhaoming and Xiaobo smiled at each other before looking down at Lin Yi as if he was an idiot. Twenty-five Mystic purgatory talismans in one go!

Since they could mass-copy the stuff anyway, they didn't care about saving money for the center. What was important was to play Lin Yi to death.

In an instant, the Hellfire came back again, at least ten times more ferocious than before, and this was only the beginning.

These Hellfire, which had a high degree of inner rotation, relied on devouring each other to increase their power so violently that it was simply unreasonable.

It'd only been a few seconds, but the energy from the center was enough to make Lin Yi's heart jump.

It might have been better if he had a physical body to protect himself, but now he was in a pure primordial spirit body. There was no need to think much. If he was really touched by this thing, he might really die. He might not even have the time to react and break the array.

Without hesitation, Lin Yi slapped a Dharma destruction formation talisman on the table.

The surrounding Hellfire was instantly emptied, just like the situation just now.

Zhaoming's face froze as he looked at the third elder, his eyes unfriendly. "Didn't you say that it was a piece of waste paper?"

"This ... There's no use in reasoning with me ..."

The third elder was dumbfounded. He was stunned for a long time before he reacted. "I understand! That is not an ordinary Mystic first grade spell-destroying talisman. It is a one in a million perfect quality, Mystic second grade!"

"What first and second grade? Speak clearly!"

"Spell-exterminating talismans are usually Mystic first grade, and can suppress most Mystic first grade talismans. However, there's a special case where if the process is perfect, it'll be able to achieve a leap in grade, becoming Mystic second grade. This way, the suppression effect on Mystic first grade talismans will be even more obvious."

The third elder's face twitched as he looked at Lin Yi, "Something's wrong! Something was definitely wrong! This kid definitely isn't as simple as just being lucky. There must be a master behind him, perhaps a super profound grade talisman master like my Wang family's ancestor!"

In fact, not even his Wang family's ancestors had ever managed to make a perfect grade profound grade talisman. Not even once.

However, other than this, he really couldn't think of any other possibility.

If he knew that Lin Yi was the master behind all this, he'd either die of shock or die from shock.

You're just a layman without any family heritage. It's fine if you're skilled at making profound grade talismans, but you've actually made perfect grade talismans?

Was he still a human?

Kang Zhaoming didn't think much of it. He gritted his teeth as he looked at Lin Yi, who acted as if there was no one else around. "According to what you're saying, our sea of talismans is useless?"

"No, it's still useful. That kid still has to die!"

The third elder was starting to see Lin Yi as a thorn in his side, but his face was still calm, "Even if it's a Mystic second grade spell-destroying talisman, it still has a limit. Mystic first grade can suppress five talismans, but it can at most suppress ten, fifteen at most!"

But now, a total of 25 cards had been thrown in!

In fact, there was something else he didn't say. The purgatory talisman was different from other ordinary profound grade talismans. With the attribute of the Hellfire devouring each other to evolve, as long as there was enough Hellfire, even if there was no spiritual energy from heaven and earth to supplement it, it could often be revived and reborn endlessly.

As expected, as soon as the third elder finished speaking, the Hellfire behind Lin Yi surged in again.

And it was even fiercer than before!

The Hellfire just now was also a great threat to the primordial spirit, and it was very likely that it would hurt the primordial spirit if it came into contact with it. However, after the Hellfire had devoured each other violently for a short time, it could not even get close to it.

Even though he was three meters away, Lin Yi's yuan spirit felt like it was going to melt. It wasn't an illusion, it was a real threat of death.

If it wasn't handled well, his body and soul would be destroyed in minutes!

He had to admit that no matter what realm he was in, the power of money was always a terrifying King's power. As long as there were resources and skills, money could destroy everything, even for someone like Lin Yi who was at the peak of perfection!

Zhaoming and Xiaobo were amused by Lin Yi's serious face, but they still had worried expressions on their faces. "Oh no! I've forgotten about the truce that Daren mentioned. What if he really dies?"

"Young master Kang, didn't you say that the agreement is just toilet paper? we're not in the toilet right now, are we?"

"Besides, we were just testing out a new profound grade talisman near the base. Who would've thought that some random cat or dog would come in on their own accord? he can't blame us for his own death, right? You have to be reasonable. "

The third elder's professional support made Zhaoming praise the old man for his talent. It would be a waste if he didn't do a crosstalk.

Lin Yi looked up at the two idiots-the situation looked dangerous to the others, but he didn't panic at all.

"Do you still have more purgatory talismans? If you have more, give me more. This is not enough, it's too little. "

Lin Yi's words made the two laugh.

Zhaoming pouted."Did you see that? that's the style of a pretentious leader. If you want to be pretentious, you have to have the spirit of not putting your life at risk. This is called facing death calmly."

The third elder laughed coldly and echoed,"amazing, amazing, but why do I feel that his act is not complete?" I've seen too many people who fail to act tough and become stupid. "

All in all, if 25 purgatory talismans were slapped on your face, how would you lose?

Then, he saw Lin Yi take out two more Dharma destruction formation talismans, both of perfect quality, Mystic second grade.

As soon as the Dharma destruction spell formation talisman appeared, the already turbulent Hellfire was instantly extinguished.

Most importantly, it was completely destroyed this time. Not even a single spark was left, including the layers of array walls that were deliberately staggered. Everything was cleared in an instant.

"I already said it wasn't enough. I just didn't listen. Who's to blame?"

Lin Yi's expression was sincere as he clapped his hands. "I've really used it up this time. Do you have any more? It's a rare opportunity, so don't miss it!"

Zhaoming and the third elder, on the other hand, were starting to doubt their lives. They were standing with their backs to the center, and that was why they could spend so much money like this. In the entire history of Sky Class Island, there had never been a scene where dozens of profound level talismans were sold!

More? Then can you come back in two days?

It was obvious that they couldn't lose this game no matter how reckless they were, but before they could even start, they were beaten by the other side ... Who would have thought that the other side would be more tyrannical than their own side?

Putting aside the two Dharma-annihilating talismans just now, it could be said that there was an expert behind the Lin family. Now, he took out two Mystic-grade Dharma-annihilating talismans. How could one understand this? And they were all F * cking perfect-grade ...

Chapter 9325

Lin Yi glanced at the two dumbfounded men and saw that there was a human-sized hole in the wall on the other side. He didn't want to waste any more time.

However, before he entered the castle, he still chose to attack the two of them first.

Even though these two idiots were not strong enough, if they were left alone and they managed to get a pile of profound grade talismans from somewhere, they could still cause a lot of trouble.

After all, Lin Yi really didn't have any Dharma destruction formation talismans on him.

Perhaps it was a conditioned reflex, but Zhaoming's reaction wasn't slow despite his confusion. His first reaction was to turn around and run when he saw Lin Yi looking at him.

The third elder was a beat slower, but he followed right behind Zhaoming.

Last time, Lin Yi only sent him flying with one slap and he almost fell into the sea to feed the fish. This time, he might not be so lucky-Lin Yi's expression really did have killing intent this time!

In the end, Lin Yi wasn't a kind person.

Previously, they did not kill him because of the truce agreement. However, since the other party did not care about the agreement, they naturally did not need to care about the agreement.

With the difference in strength, Lin Yi's intent to kill him would have no effect.

"Damn old man, why are you following me? Do you want to kill me? split up and run, do you understand? get over there!"

Zhaoming turned around and kicked the third elder, who stumbled and lost a lot of speed.

'Damn bastard!'

The third elder spat out a mouthful of blood. A cunning old man like him could see through Zhaoming's little plan.

When two people were being chased by a Tiger at the same time, did they need to outrun the Tiger to survive? No, as long as you can run faster than your companions, it'll be fine.

But Zhaoming was still overthinking things-the third elder would be the first to fall, but he wouldn't be able to escape either. They weren't on the same level, after all.

Lin Yi was already in front of him when he finished.

"You just said that the agreement is toilet paper, right? Alright, I'll give you a chance now. Take me to the toilet and find that person, or you'll end up like that old man. "

Zhaoming looked at the third elder's neck, which was twisted at an impossible angle, and swallowed hard.

"Yes, yes, you're the boss, you have the final say!"

A wise man knows when to retreat, and Zhaoming quickly nodded.

What was integrity? Can that thing be eaten? Don't you know that as long as there's life, there's hope?

Lin Yi reached out and grabbed Zhaoming's neck, ready to use him to clear the way into the castle.

Although he was at the great circle of heaven breaking, he had the strength to go anywhere, but the center was not a small matter. Not to mention the strength of the mysterious man in Black, just the endless means alone were enough to kill any master.

This naturally included Lin Yi-it was best to keep a low profile without exposing his new trump card.

But before Lin Yi could enter, the space in front of him rippled, and the mysterious man in Black appeared in front of him.

"Since we've already signed the armistice agreement, why did you keep barging into our central base? Do you really think that central can't deal with you?"

The mysterious man's question made Lin Yi speechless.

"Let's get this clear first. It's your people who want to kill me, not me who provoked you."

Lin Yi let go of Kang Zhaoming's neck and gave him a look that said he understood, "There's nothing wrong with what I said, right?"

"I ..."

Zhaoming looked at the mysterious man carefully. He wanted to continue his old story of testing a new product, but under the threat of killing intent, he lowered his head helplessly. "No... Nothing wrong ..."

The mysterious man looked at Zhaoming coldly, making his scalp tingle. He shook his head, "Even so, that's because you trespassed on the border of my base without permission. This is a restricted area. For the sake of security, it's only natural for us to take some actions."

"So you're saying that I can't come and look for my people even though you've captured them?"

Lin Yi said, a brow raised.

The mysterious man in Black's eyes flashed, "what do you mean by your people?" This Lord doesn't remember anyone who has captured you, so stop making trouble and quickly leave!"

"Hurry up! If you don't hand Wang dingtian over to me today, we won't be able to get over this."

Lin Yi was still a little worried, but after a few times, he was starting to get angry.

The mysterious man in Black snorted. "As far as I know, Wang dingtian is just the master of the Wang family. He has nothing to do with you. What right do you have to get involved in this?"

"Who said it has nothing to do with me? His son is my brother, and his daughter is like my brother. To me, the Wang family head is half a relative and elder. How can I just stand by and watch when he is in trouble?"

Lin Yi paused before giving his final ultimatum, "Cut the crap. Either you hand over the Wang family head now, or I'll do it myself. But if that happens, I can't guarantee how much I'll do. I might even accidentally tear down your high-tech base. You better pray for yourself."

The mysterious man's eyes twitched as he looked at the entrance of the castle barrier, which had been corroded by the bio-material.

If it was before this, he would have been too lazy to care.

Lin Yi's threat was nothing more than a fool's dream in his eyes. Even he and the other Masters from the central couldn't break through it, so how could a mere Lin Yi challenge the power of top-tier technology?

But now, the cruel truth was right in front of him. He had no choice but to accept it.

If it wasn't for the fact that the castle was about to be taken down, he wouldn't even show his face. The two's life or death didn't matter to him at all.

So what if they were dead? they were just two lackeys. With bones in their hands, where could they not get a dog that bit people?

But if Lin Yi really broke into the castle and caused a ruckus there, it'd be big trouble.

Putting everything else aside, if the talisman lithography machines that he had spent so much effort to modify were to be destroyed, it would be a devastating blow to his next plan.

Years of hard work had been burned down, and if he wanted to open it again in the future, he didn't know how long it would take.

This price was too great, and he could not afford it.

"Alright, you let him go first."

In the end, the mysterious man in Black agreed very quickly. He had to choose the lesser of two evils. It was a choice that couldn't be any simpler, and all the choices were the same.

Of course, there was another core factor behind this. Wang dingtian's last value had been squeezed dry by him. Even if he was left, he would be useless. It was a good idea to take advantage of the situation and make use of the waste.

Chapter 9326

Using a piece of trash to get rid of Lin Yi and maintain the truce on the surface was a good move for the Man in Black.

The biggest problem was nothing more than embarrassment, so they had to exchange hostages.

As the person involved, Kang Zhaoming didn't know his place at all. He was flattered.

To be fair, he'd given in right in front of the guy-he could come up with a hundred reasons, and it could even be considered a trap, but he'd still given in on the surface.

If he could escape this calamity, he was already prepared to be severely punished by the mysterious man in Black. Who would have thought that he would actually receive such treatment!

The mysterious man in Black was willing to compromise with Lin Yi for him?

This was the treatment of a son!

"Let me see the Wang family head first."

Lin Yi wasn't that naïve. What if the other party decided to throw Wang dingtian's body at him?

"You're a petty person,"

The mysterious man in Black snorted and waved his hand. An invisible force carried Wang dingtian out of the castle and stopped between them.

Lin Yi's heart dropped when he saw Wang dingtian's half-dead face. "What did you do to him?"

"Don't worry, he won't die. It wasn't even a soul-searching technique. I just looked through his memories."

In fact, if it was possible, the mysterious man in Black would definitely use the soul-searching skill. Only then could he really squeeze out all the value from Wang dingtian. In contrast, although he could see a lot of things from reading the memory, there would be some omissions.

The third elder's strategy could only bypass the protection talisman's monitoring of the primordial spirit status. Once it really touched Wang dingtian's primordial spirit, the instant death mechanism of the protection talisman would still be activated.

To put it bluntly, he could only look, not touch.

It was for this reason that Wang dingtian was lucky enough to keep his life. Otherwise, he would have been dead.

But that way, there would be no room for negotiation between the two sides-Lin Yi would flip out, and there would be no way to end this.

Hearing this, Lin Yi spread out his spirit sense to check. He found that although Wang dingtian's condition was very bad, his body and spirit were not really injured. He would recover with some rest.

The only troublesome part was the half-activated death warrant.

"You planted the seed of instant death in him?"

Lin Yi's face was frighteningly dark-if he'd come a second later, Wang dingtian's soul would've been destroyed.

The mysterious man in Black snorted."Don't speak carelessly. That was his own protective talisman. It has nothing to do with me."

"Unrelated? Doesn't your face hurt when you say that?"

Lin Yi chuckled and raised the price."The Wang family's master has been tormented by you. I need you to give me an explanation."

"What kind of explanation?"

The mysterious man in Black frowned. At first, he thought that everything was under his control, but now, it seemed that it was easier to invite a God than to send him away.

"Compensation," Lin Yi replied sincerely.

"Compensation?"

The mysterious man in Black's eyelids twitched, and he couldn't help but feel a sense of absurdity. He had worked for central for so many years, but this was the first time he had heard such a justified request. This guy actually wanted to seek compensation from central on behalf of the Wang family?

Even if central was willing to pay, would the Wang family dare to take it?

"Is there a problem? The Wang family head has been tortured by you all to this extent. Medical expenses, delayed work expenses, and most importantly, mental damage compensation, don't you all deserve compensation? I'll say it right here, not a single cent less. "

Lin Yi's serious face would've been the same as hiring a lawyer in the common world, and he'd be settling all the scores with his lawyer.

Mental damage?!

Suppressing the absurdity in his heart, the mysterious man in Black snorted coldly, ""Just tell me what you want, there's no point in beating around the bush, my patience is limited."

"Forget about spiritual Jade, it's too common. Why don't you compensate me with two of the talisman-making machines you use? the Wang family is a talisman-making family, so it's just right."

Lin Yi said without hesitation.

The corner of the mysterious man's eyes twitched. He couldn't help but want to beat this greedy bastard to death. However, for the sake of the overall situation, he forced himself to hold back.

"Kid, if you're determined to cause trouble, this Lord will accompany you. If you don't intend to tear up the agreement and fall out with us, then you'd better conduct yourself with dignity. If you say something reliable, this Lord might consider it."

Lin Yi smiled to himself-the man's words seemed tough, but he'd already exposed his weakness.

Whether it was the fact that he had taken the initiative to show up just now or the fact that he had backed down in his words, it showed that the other party was most afraid of him making a scene, especially if he entered the castle and made a scene!

The more the enemy objected, the more they had to do it. Lin Yi really wanted to do it, but he gave up on the idea after considering Wang dingtian's safety.

At the end of the day, it wasn't the time to completely fall out with central. It was more important to seize the opportunity to develop quickly. Some debts could be settled in the future.

"If that's the case, then I'll take a step back and compensate you with 100 sets of profound-grade talisman materials. The Wang clan will be able to use them."

This was Lin Yi's true intention. He didn't know about the existence of the lithograph machine, but he knew that it was something that the other party couldn't touch. It was still possible to get some materials for profound grade talismans.

This was exactly what Lin Yi needed right now.

The Wang clan had a lot of normal talisman materials. With his relationship with the Wang clan, he could get as many as he wanted. However, it was difficult to get Mystic grade talisman materials. Even the Wang clan didn't have many in stock.

After all, Wang dingtian was the only one who could barely use it before. Even Wang dingtian had only recently broken through the barrier and was officially promoted to a black-grade talisman master. In the end, he was targeted by the central government in the blink of an eye, so naturally, he had very few relevant reserves.

With Lin Yi's current ability, as long as he had enough materials, he could make a couple dozen Mystic level talismans and carry them with him. It would be a trump card that he couldn't defend against.

"You're being whimsical,"

The mysterious man in Black immediately denied it. Central was rich and overbearing, but that didn't mean that they had unlimited resources. For things like black jade, which had an extremely low production rate, even they wouldn't be able to collect many in a short time.

Moreover, with the talisman lithography machine in his hands, he could easily convert the materials into profound grade talismans with a high success rate. How could he give it up so easily?

And he even asked for a hundred portions!

But seeing Lin Yi's attitude, the mysterious man took a step back just in case,""At most twenty, but if you can tell me who the black-grade talisman master behind you is, I can give you another twenty."

Chapter 9327

Wang dingtian had lost his value to him, but it didn't mean that the other black-grade talisman Masters were as worthless as him.

Especially after Lin Yi took out the perfect-grade Dharma destruction talisman-a Mystic-grade talisman master who could make perfect-grade talismans wasn't something a mere Wang dingtian could compare to. Even if they were both Mystic-grade talismans in name, the difference between them could be even greater than a dog and a man if measured carefully.

If he could get a talisman master like this to improve the procedures of the talisman lithography machine, it was extremely possible that he would be able to replicate perfect quality black grade talismans in batches. Just how vast would his future be!

Lin Yi, of course, understood that and chuckled,"Sure, but forty is too little. At least add twenty more!"

The mysterious man in Black hesitated for a moment before finally nodding.""Deal," he said.

With that, he didn't waste any more time and pushed Wang dingtian to Lin Yi. Lin Yi didn't hesitate either and threw Kang Zhaoming over.

"Alright, you can speak now."

The mysterious man in Black urged in a deep voice.

Lin Yi rolled his eyes, "where are the materials?" If you don't take out the materials, do you want me to say it?"

The mysterious man in Black didn't waste any words. After a moment of silence, he threw over a storage bag.

Lin Yi scanned the contents-there were exactly sixty sets of materials for Mystic-grade talismans.

Of course, there were no high-end materials that were rarely seen in the shop. They were just some relatively common items that could be bought at any large Chamber of Commerce, but it would cost a lot of spiritual Jade.

But Lin Yi didn't care about that-the black stone Jade was the most important, as long as it wasn't lacking in weight. After all, it really wasn't something that could be bought.

"Straightforward. Good. Then I'll tell you who made those talismans. Remember, that person is me."

With that, Lin Yi turned around and left with Wang dingtian.

Although it was the truth, if he were in Wang dingtian's position, he would never believe it. It would be troublesome if he turned against Wang dingtian on the spot. He was not only in the wrong, but also could not guarantee Wang dingtian's safety.

However, unexpectedly, the mysterious man in Black was unmoved.

"Sir, that Lin brat is clearly toying with us. How can we bear this?"

After regaining his freedom, the first thing Zhaoming did was to cause trouble. Not only did he want to get back at Lin Yi, but he also wanted to divert the mysterious man's attention so he wouldn't have to deal with him.

After all, no matter how he looked at the situation just now, he was suspected of defecting to the enemy. If he really wanted to haggle over it, he would be executed directly.

"He's not lying. "

The mysterious man in Black looked at Lin Yi's back and pondered.

With his skills, he wouldn't let himself be played like this. In fact, the moment Lin Yi spoke, he used an ancient secret technique to lock onto Lin Yi's spirit.

This was more accurate than any lie detector, and unless Lin Yi could hypnotize himself to the point where he could erase his own memory, he wouldn't be able to lie to him. There wasn't even a sliver of possibility in theory.

"Not lying? Did he really make it himself? That's impossible, right?"

Zhaoming felt like he was going crazy-even the mysterious man himself felt like he was breaking down.

He knew how hard Lin Yi was to deal with, but that was purely because of his strength boost and his unkillable cockroach attribute. Who would've thought that this guy was this insane in other aspects?

An alchemy Grandmaster, an array Grandmaster, and now, looking at his posture, he was actually a talisman Grandmaster.

Was this guy the illegitimate son of the heavens?

He'd been planning on getting a top-tier talisman master, but now he'd lost everything. Unless the higher-ups changed their mind, he wouldn't be able to do anything to Lin Yi.

"You can explain what happened just now. Let's see if I'll show you mercy and spare your life."

The mysterious man in Black turned around and vented his anger on Zhaoming.

Zhaoming was shocked-he thought he'd gotten away with it, but he still had to go through it.

"Your Excellency is wise! I've already sworn that I'll never be able to coexist with that Lin guy in this life. Just now, I pretended to surrender just to lure him into the castle alone. This way, he'll take the initiative to invade our Center, and you can get rid of him without any scruples, Sir!"

Kang Zhaoming had rehearsed this in his heart many times, and he was able to say it smoothly.

Although it was full of loopholes, it could barely make sense.

"Is that so?"

The mysterious black-robed man asked in return. He made a grabbing motion in the air and a ghost-like primordial spirit appeared in his hand. Its miserable and sinister face was faintly discernible. It was the third elder.

The guy's neck was broken by Lin Yi's kick, but his essence spirit was lucky enough to survive. However, if no one cared about him, his essence spirit would be destroyed in minutes. Not everyone could create a physical essence spirit like Lin Yi.

"Sir, I'm loyal to you and our Center. Heaven and earth can bear witness to this!"

Zhaoming peed his pants at the sight of the third elder, thinking that he'd be following in his footsteps.

But the mysterious man in Black just let out a soft cry and stuffed the third elder's spirit into his body. Zhaoming felt a chill run down his spine.

The muddleheaded third elder's primordial spirit immediately grabbed onto a life-saving straw and instinctively wanted to possess him.

Zhaoming jumped in shock, but quickly realized that this guy's spirit was extremely weak-he peed his pants the moment he tried to fight back, and he hid in a corner of his body, not daring to show his face.

"Don't be in such a hurry to kill him. This guy knows a lot of the Wang family's secrets, and he has some achievements in talisman making. He is still of some use. Let him stay in your body. "

The mysterious man stopped Zhaoming.

"But won't this cause me any hidden dangers?"

Zhaoming asked with a face full of tears. The third elder's spirit might look weak at first glance, but who knew what would happen if it stayed for too long?

If she was not careful, what if he really succeeded in taking over her body?

"Hmph!" The mysterious man in Black snorted. "It's just a small punishment. Are you not willing to accept it?"

"I'm willing, I'm willing. If you have the order, I, Kang Zhaoming, will go through fire and water to help you!"

Kang Zhaoming quickly expressed his loyalty. This was a hidden danger, but at least it wasn't a big problem. He could still live. If the mysterious man in Black was unhappy, he might even lose his life.

The mysterious man in Black nodded slightly. "Let him stay here obediently for a while. After a while, give him a biochemical body."

"You're so wise, Sir!" Zhaoming finally let out a breath of relief.

Chapter 9328

"I got a lot of valuable things from Wang dingtian this time. I'll be busy for a while. If anything goes wrong again, I won't be so easy to talk to."

The mysterious man in Black was full of ambition-he wouldn't have let Kang Zhaoming go so easily if he didn't need people.

"Yes, I'll follow your orders!" Zhaoming nodded.

On the other side, Lin Yi brought the half-dead Wang dingtian back to han Jingjing's camp. Wang shiqing and Wang Yunyang, who had been waiting for Lin Yi, quickly came up to them.

"Lin Yi bro, what's wrong with my dad?"

Wang shiqing looked at Wang dingtian with mixed feelings. She was happy that her father was saved, but sad that she didn't know how to recover.

"Xiao Qing, you don't have to worry. The Wang family master's primordial spirit has only been implanted with the seed of instant death. As long as it's removed, he'll wake up very soon."

Lin Yi comforted him as he laid him down, ready to treat him.

Speaking of which, this was also because she had met him, who was very familiar with solving this kind of method. If it was anyone else, even the world-famous great medical expert, would most likely be helpless.

"Instant-Death Seed?"

Wang shiqing was dazed for a moment, then she gritted her teeth. "Why did they do this to my father? Didn't they capture my father to refine a profound grade talisman? why are they so insane?"

Lin Yi rubbed his nose and shook his head. "You might really be the center of the misunderstanding. Although those people are not good people, and I guess they most likely used the soul-searching technique, this primordial spirit instant death Seed was really not their doing."

It wasn't a good time to treat Wang dingtian on the way back, but Lin Yi had a general idea of his condition.

"Not central 's? Lin Yi bro, is there a third party?"

Han Jing Jing asked curiously.

Wang shiqing's eyes were wide open. Not only was she being targeted by the central government, but there was also a third party. For the Wang family, it was like a house that had a hole in it, but it was raining all night.

"Not a third party, but the Wang family itself."

Lin Yi's answer surprised the two girls even more, until he picked up the amulet on Wang dingtian's chest. "Xiao Qing, is this the Wang family's token passed down from generation to generation?"

Wang shiqing was stunned. It was impossible for ordinary people to know about this, not even the third elder, who was an experienced elder of the Wang family. But she knew it clearly, because Wang dingtian had never hidden anything from her, including the most secret inheritance of the Wang family.

"It's not a token from the head of the family, but it's almost there. My father said that this is a personal item that every head of the Wang family has to carry with them. Unless the position is passed on to the next head, it can't be separated from them for a lifetime, not even for a moment. "

"As expected."

Lin Yi sighed. He'd thought of this possibility a long time ago. He'd discussed it with the ghost before, and the ghost had a similar judgment.

It had to be said that in the aspect of human nature, it was not strange to break through the lower limit. This was also the label of human cultivators.

"Isn't this an amulet?"Wang shiqing asked. Lin Yi bro, did someone do something to this place?"

"It wasn't tampered with. It wasn't a protective talisman from the beginning. It was just a death talisman."

"The only meaning of its existence is to prevent outsiders from prying into your Wang clan's inheritance. For this, it was willing to sacrifice the patriarch's origin soul. It was it who planted the seed of instant death."

Lin Yi's words crumbled Wang shiqing's world view.

Seeing Wang shiqing's dazed look, han Jingjing couldn't help but feel her heart ache a little. She defended her."Lin Yi bro, could it be an accident? Perhaps this was originally a simple protective talisman, but it was maliciously tampered with?"

Lin Yi shook his head slightly,"Maybe, but it's not new to treasure one's own belongings. The smaller the scale of the business, the more it's like this. It's normal to use all kinds of methods."

Compared to alchemy and formations, talismans were considered the most unpopular. Many cultivators didn't even know of their existence.

Under these circumstances, it was not easy for the Wang clan to have its current heritage. The ancestors must have paid a great price to make the Wang clan value it. This was not completely unreasonable.

"Big brother Lin Yi, how long can my dad last?"

Wang shiqing wiped her tears, already prepared for the worst.

Even if she hadn't experienced it herself, she could understand what it was like to have an instant death Seed in one's soul. It was like a death sentence, and Lin Yi's words just now were mostly to comfort her.

"It'll probably last a long time,"Lin Yi said after some thought," if I don't mess around and just take care of my health, I might live longer than me. "

"Ha?"

Under the dumbfounded look of the little girl, Lin Yi acted immediately and pulled out the instant death Seed from Wang dingtian's spirit with ease. The whole process took less than three minutes.

It happened so fast that Wang shiqing didn't even have time to react. Wang dingtian had already opened his eyes.

"Little Qing ... Lin shaoxia?"

Wang dingtian was a little excited when he saw Lin Yi. He was half-dead before, but he was still aware of what happened outside. At least he knew that Lin Yi saved him.

She struggled to get up and bowed to Lin Yi, "The Wang family will never forget the great kindness of young hero Lin. Please accept my bow!"

He was feeling grateful, but also ashamed. After all, it was house Wang who tricked Lin Yi, and even if he wasn't the one behind it, as the head of the house, he couldn't take any responsibility.

"Wang family head, you're being too serious. This is Junior's duty, there's no need to be so formal."

Lin Yi quickly stopped him, not mentioning a word about their past.

"Within my duty?"

Wang dingtian, on the other hand, was stunned. He saw Wang shiqing snuggling up to Lin Yi naturally, without any sense of being guarded between a man and a woman. He thought that he had seen through everything, and he couldn't help but feel lonely like an old father.

His mischievous little cotton jacket had finally grown up.

However, Wang dingtian was happy to see this. After all, Lin Yi's potential and strength were beyond doubt. If he could become a part of the family, it would be a great thing for house Wang.

Most importantly, Wang shiqing liked it.

Lin Yi didn't expect the man to think so much in such a short time. He went straight to the point, "I have sixty sets of profound grade talisman materials here. Central is compensating the Wang family head, please accept them."

"You can 't!"

Wang dingtian was so anxious that he stood up immediately despite his weak body.

Chapter 9329

"Lin shaoxia, you have saved me from the center, which is already a great favor. Besides, you have removed the seed of instant death for me. I owe you two lives. If I still ask for something from you, am I still a human?"

"That's right, Lin Yi bro, central isn't for my dad, it's for you!"

Wang shiqing chimed in, "plus, Lin Yi bro, you're better at making talismans than my dad. It's a waste to give these materials to my dad. He can't make a perfect Dharma destruction talisman."

"Xiao Qing, are you serious? Did Lin shaoxia really make a perfect spell-destroying talisman?"

Wang dingtian's eyes lit up at the words, and he didn't even have time to complain about his daughter's betrayal. "Is this true?"

"There is indeed such a thing."

Lin Yi nodded-there was nothing to hide, and he'd planned on learning from her anyway.

Although Wang shiqing was well-versed in talismans and formations and could be said to be an Encyclopedia of talismans and formations, her strength was limited and she didn't have much experience in making high-grade talismans.

To put it bluntly, the little girl could only be a theoretical staff officer. If he really wanted to discuss the problems at the operational level with her, she could not.

"Okay, okay, okay. Lin shaoxia, are you free now? let's find a place to discuss this, okay?"

Wang dingtian was excited.

As the patriarch of the Wang clan, he was an out-and-out talisman-making fanatic. He had a fanatical obsession with refining talismans since he was young. If not for this, he would not have reached his current level.

To be able to create a profound grade talisman, even if it was the lowest profound grade talisman, just this alone meant that he had already trampled over 99% of the talisman Masters in the world. He was a true Grandmaster talisman master.

"This junior has the same intention!"

Lin Yi agreed, and the two went to a room to spar like old friends, leaving the two girls staring at each other.

After being stunned for a long time, Wang shiqing finally said, ""Is my father's brain damaged?"

"He has picked up a treasure."

Han Jingjing could not help but laugh. She could understand this development. After all, she was in a similar state many times. In a sense, they were all on the same path.

Wang shiqing had wanted to tell her father about what had happened during this period of time, but the two of them had been discussing it for a few days. She had tried to interrupt them several times, but she had been ruthlessly kicked out.

To put it nicely, children shouldn't interrupt adults 'Affairs.

She just didn't want to show her Black-bellied nature in front of Lin Yi bro-with her personality, she'd definitely teach the people inside a lesson on the destructive power of a child!

But being angry was one thing-she was still very happy that Lin Yi bro and her father got along so well.

She didn't know why, but she felt relieved for some reason. On the contrary, if Lin Yi really didn't like Wang dingtian, she would be stuck in the middle.

After a few days, the door was finally opened again.

Even Lin Yi couldn't help but feel a little tired after the long discussion.

But the hell was that Wang dingtian, who had just recovered from his injuries, was in high spirits. He even wanted more. If Lin Yi didn't care about his health, they could probably talk for another ten days and ten nights.

"Thank you for your advice, Wang family head. I have learned a lot."

Lin Yi thanked him sincerely-he really did benefit a lot from this.

Although he had long been a master in talisman making, he mainly relied on his unique talent. If he used e-sports games as an example, he was completely invincible with his micro-control, relying on his micro-control to win the World.

Wang dingtian, on the other hand, wasn't as good at micro-control as Lin Yi, but he had his own unique achievements in tactics and details.

These were all his years of experience, and many of them had even been tested and tested by several dozen generations of Wang clan ancestors. One could imagine how precious they were, and it would not be an exaggeration to say that each word was worth a thousand gold.

If it weren't for Wang dingtian's desire to repay his kindness, Lin Yi would never have heard these words of advice in his life, let alone have them teach him.

"Same to you. Lin shaoxia, you've also opened my eyes and amazed me!"

Wang dingtian praised.

Compared to Lin Yi, who'd learned a whole bunch of experience and techniques, he'd learned a lot from him as well. Although micro-control really did require talent, and even if he could see it up close, he'd only be able to say it was amazing. Knowing was one thing, but doing it was another.

But other than micro-manipulation, Lin Yi also had the huge theoretical knowledge system from the sub Island, which was also different from the Wang family's inheritance. It might not be as complete as the Wang family's inheritance, but it had the effect of making up for what was missing, and often one sentence could make Wang dingtian see the light.

As the saying goes, "teaching helps one's learning." Wang dingtian also benefited a lot from this exchange.

At least he now knew where the ceiling of micro-operation was. With the theoretical knowledge of the sub-Island, he had a direction to continue to improve in the future. He would not be reduced to an ignorant and arrogant Frog at the bottom of the well.

As the two were talking, Han Jing Jing came out of the lab and ran to Lin Yi excitedly. "Lin Yi bro, I'm pretty much done with the teleportation formation, I'll be able to restore it soon!"

She didn't waste any time these days, putting everything else aside and focusing on this weird teleportation formation. She knew Tang Yun's position in Lin Yi's heart too well.

"Really?"

Lin Yi was overjoyed. He was finally able to put down the burden in his heart. He quickly pulled Han Jing Jing and asked, "Where is it being teleported to?"

Han Jing Jing shook her head. "I'm not sure about that. I only know that it's a very special one-way teleportation array. The coordinates are provided by a guiding array talisman. As for which area the coordinates are in, I can't deduce it."

Although she was a rare research genius, talismans were already a blind spot in her knowledge. It was impossible for her to understand it in a short time, let alone an extremely rare directional talisman.

"A directional talisman? Is this the talisman transfer array you told me about?"

Wang dingtian was interested, ""Can you let me take a look? An ancestor of my Wang clan once dabbled in this area and had done a lot of research in this area. "

"I was just about to ask the Wang family head to help me take a look."

Lin Yi, naturally, wouldn't say no. The only reason he wanted to go to house Wang was to ask the masters about formations and talismans, and Wang dingtian was the best choice. He just didn't think that it would involve central and cause so much trouble.

Chapter 9330

Just when everyone was about to think that this guy had really recognized the situation, Wang Dinghai suddenly revealed his true intentions and threw out a Mystic-grade purgatory talisman with a ferocious expression.

"Go to hell, you arrogant fool! You're courting death, so don't blame me for not letting you rest in peace ..."

Before he could finish, Wang Dinghai's arrogant voice stopped abruptly.

As they looked at the purgatory array talisman lying on the ground, the entire place fell into a deathly silence.

Lin Yi didn't move at all-he just stood there with his hands behind his back, looking at the guy like he was an idiot.

Even Wang Dinghai himself couldn't help but suspect that he was an idiot. He knew that the other party would never give him a chance, but he still couldn't help but choose to be fooled.

"Even if I give you a chance, you won't do anything."

Lin Yi shook his head lightly and picked up the purgatory talisman on the ground. He looked at Wang Dinghai considerately. "Do you want to try again? Maybe you opened it the wrong way, and maybe it'll listen to you after you throw it a few more times?"

Wang Dinghai looked like he was about to lose his mind. He muttered to himself, "Could it be a fake talisman? That's impossible! Why would father give me a fake talisman?"

On the surface, he appeared to be so, but in private, he secretly took out a teleportation talisman and tried to escape while no one was paying attention.

"I'm afraid you can only ask your dead father this question. I'll send you on your way. "

Lin Yi saw through his little actions and didn't want to waste time on him. He went up and slapped him.

This time, it was different from before. Wang Dinghai was not sent flying, but his entire head was strangely rotated 720 degrees on the spot. The way he died was quite strange.

Looking at Wang Dinghai's fallen body, everyone was silent.

Lin Yi's eyes swept across the room, and all the Wang family members knelt down on their own accord. Some of them even peed in their pants, their legs giving way and falling to the ground.

"A bunch of embarrassing things!"

Wang dingtian's angry voice came from behind. Looking at the embarrassing faces of the crowd, he suddenly felt that his blood pressure was getting out of control.

After the previous incident, although he was already disheartened by this group of people in the clan, he still felt that he had not supervised them well enough and had not really won over the hearts of the people.

But now it seemed that these guys were rotten to the core, and each and every one of them was like mud that couldn't be supported by a wall.

The Grand Wang clan, a clan of talismans with a thousand years of heritage, had the younger generation that they should have placed high hopes on actually turned out to be like this. This chilled the heart of the clan head more than anything.

Because this meant that the clan's inheritance that generations of ancestors had tried to preserve at all costs had become a complete joke.

No matter how deep the foundation of talismans and formations was, how could it be passed on to this bunch of trash?

Seeing Wang dingtian, the disciples of the Wang family were both shocked and relieved.

As far as they were concerned, since Wang dingtian was back, they could at least keep their lives, let alone pursue the matter. After all, Wang dingtian couldn't just let Lin Yi kill them all.

In fact, these people were overthinking it-Lin Yi wouldn't be soft-hearted when it came to critical moments, but he wasn't a killer.

Wang Dinghai was looking for death. If he was just putting on an act, Lin Yi would only give him an unforgettable lesson at most. He wouldn't kill him. After all, he still had to give Wang dingtian some face. He was a member of house Wang.

It was a pity that Wang Dinghai didn't understand what was going on-he even tried to kill Lin Yi when he was given the chance. Since he didn't want to give up, he'd have to let him die.

"Get lost, all of you get lost to the ancestral hall. You'll be grounded for three months, and no one is allowed to come out!"

Although Wang dingtian was furious, he still chose to let it go.

There was no helping it. No matter how rotten these people were, they were still descendants of the Wang clan. If they were all eliminated, the Wang clan wouldn't completely disappear, but it would suffer a great blow and be unable to recover.

The Wang family members were relieved, but they didn't dare to make a move. They all looked at Lin Yi.

Without Lin Yi's permission, they didn't dare to stand up. They had the ability to see.

Wang dingtian was troubled as well-he looked at Lin Yi for permission. He couldn't make the decision as the head of the house if Lin Yi didn't agree.

Putting aside the fact that they'd just received Lin Yi's help, just comparing strength alone wasn't allowed. No matter where they were, the rule of the strong being respected never changed.

Lin Yi shrugged nonchalantly. He'd never even looked at these Wang farts from the start-he wouldn't even have bothered if it weren't for Wang Dinghai's suicide.

"Thank you for your forgiveness, young hero Lin. I thank you on behalf of the Wang family."

Wang dingtian cupped his hands gratefully. House Wang had suffered a great loss and had made a powerful enemy like central. Their only choice in the future was to be tied to Lin Yi. If they really made Lin Yi unhappy, they would be in big trouble.

"You're too kind, Wang family head. I'm actually very easy to talk to, and I've always valued peace."

Even Wang dingtian's eyes twitched at Lin Yi's words, not to mention the Wang disciples.

What F * cking peace!

Wang Dinghai's dead body was still warm. Was he not afraid of forcing his corpse to come back to life? If he had already put it in the coffin, the lid probably wouldn't be able to hold it.

"Lin shaoxia is so magnanimous."

Wang dingtian was embarrassed. He smiled embarrassedly and waved his hand to tell the others to leave. The Wang family's useless people hurriedly left as if they had been granted Amnesty.

However, before he could reach the door, he was stopped again.

It was none other than the little demoness Wang shiqing, who had given them a headache in the past.

Everyone was on guard again. Although they were not in danger this time, they all knew how difficult Wang shiqing was to deal with. She used to torture them a lot under the protection of Wang dingtian, and she was a vengeful person.

Last time, they almost pushed Wang shiqing to the edge, and she was suppressed by Lin Yi. Now, she jumped out again ... Wang shiqing didn't do anything to them last time, but it was hard to say this time!

Thinking about this little great aunt's personality, would she let them go so easily?

No matter how he thought about it, he knew that it was impossible.

However, Wang shiqing didn't even look at them. She didn't even pay attention to the woman who had been the fiercest to her. She walked straight to one of them, the one who had just said that she was a Toad trying to eat swan meat.

"I heard you like me a lot?"

Wang shiqing revealed an innocent smile and two white canine teeth, showing off her charm as a cute little girl. If she were to be posted online, she would be a fat otaku killer.

However, in the face of this cute face that he had fantasized about countless times in the past, this branch family descendant couldn't help but shiver and quickly shook his head. "I ... I don't dare ..."

Wang shiqing's expression changed, "you don't like me and you're still trying to hit on me?" Are you playing with me?"

"No, no, I like it, I like it!"

The branch family disciple was so scared that he quickly changed his words, but when he saw Wang shiqing's serious expression, he couldn't help but have an unrealistic thought. Could it be that this young lady is interested in him?
