

Bodyguard 9331

Chapter 9331

Just when everyone was about to think that this guy had really recognized the situation, Wang Dinghai suddenly revealed his true intentions and threw out a Mystic-grade purgatory talisman with a ferocious expression.

"Go to hell, you arrogant fool! You're courting death, so don't blame me for not letting you rest in peace ..."

Before he could finish, Wang Dinghai's arrogant voice stopped abruptly.

As they looked at the purgatory array talisman lying on the ground, the entire place fell into a deathly silence.

Lin Yi didn't move at all-he just stood there with his hands behind his back, looking at the guy like he was an idiot.

Even Wang Dinghai himself couldn't help but suspect that he was an idiot. He knew that the other party would never give him a chance, but he still couldn't help but choose to be fooled.

"Even if I give you a chance, you won't do anything."

Lin Yi shook his head lightly and picked up the purgatory talisman on the ground. He looked at Wang Dinghai considerately. "Do you want to try again? Maybe you opened it the wrong way, and maybe it'll listen to you after you throw it a few more times?"

Wang Dinghai looked like he was about to lose his mind. He muttered to himself, "Could it be a fake talisman? That's impossible! Why would father give me a fake talisman?"

On the surface, he appeared to be so, but in private, he secretly took out a teleportation talisman and tried to escape while no one was paying attention.

"I'm afraid you can only ask your dead father this question. I'll send you on your way. "

Lin Yi saw through his little actions and didn't want to waste time on him. He went up and slapped him.

This time, it was different from before. Wang Dinghai was not sent flying, but his entire head was strangely rotated 720 degrees on the spot. The way he died was quite strange.

Looking at Wang Dinghai's fallen body, everyone was silent.

Lin Yi's eyes swept across the room, and all the Wang family members knelt down on their own accord. Some of them even peed in their pants, their legs giving way and falling to the ground.

"A bunch of embarrassing things!"

Wang dingtian's angry voice came from behind. Looking at the embarrassing faces of the crowd, he suddenly felt that his blood pressure was getting out of control.

After the previous incident, although he was already disheartened by this group of people in the clan, he still felt that he had not supervised them well enough and had not really won over the hearts of the people.

But now it seemed that these guys were rotten to the core, and each and every one of them was like mud that couldn't be supported by a wall.

The Grand Wang clan, a clan of talismans with a thousand years of heritage, had the younger generation that they should have placed high hopes on actually turned out to be like this. This chilled the heart of the clan head more than anything.

Because this meant that the clan's inheritance that generations of ancestors had tried to preserve at all costs had become a complete joke.

No matter how deep the foundation of talismans and formations was, how could it be passed on to this bunch of trash?

Seeing Wang dingtian, the disciples of the Wang family were both shocked and relieved.

As far as they were concerned, since Wang dingtian was back, they could at least keep their lives, let alone pursue the matter. After all, Wang dingtian couldn't just let Lin Yi kill them all.

In fact, these people were overthinking it-Lin Yi wouldn't be soft-hearted when it came to critical moments, but he wasn't a killer.

Wang Dinghai was looking for death. If he was just putting on an act, Lin Yi would only give him an unforgettable lesson at most. He wouldn't kill him. After all, he still had to give Wang dingtian some face. He was a member of house Wang.

It was a pity that Wang Dinghai didn't understand what was going on-he even tried to kill Lin Yi when he was given the chance. Since he didn't want to give up, he'd have to let him die.

"Get lost, all of you get lost to the ancestral hall. You'll be grounded for three months, and no one is allowed to come out!"

Although Wang dingtian was furious, he still chose to let it go.

There was no helping it. No matter how rotten these people were, they were still descendants of the Wang clan. If they were all eliminated, the Wang clan wouldn't completely disappear, but it would suffer a great blow and be unable to recover.

The Wang family members were relieved, but they didn't dare to make a move. They all looked at Lin Yi.

Without Lin Yi's permission, they didn't dare to stand up. They had the ability to see.

Wang dingtian was troubled as well-he looked at Lin Yi for permission. He couldn't make the decision as the head of the house if Lin Yi didn't agree.

Putting aside the fact that they'd just received Lin Yi's help, just comparing strength alone wasn't allowed. No matter where they were, the rule of the strong being respected never changed.

Lin Yi shrugged nonchalantly. He'd never even looked at these Wang farts from the start-he wouldn't even have bothered if it weren't for Wang Dinghai's suicide.

"Thank you for your forgiveness, young hero Lin. I thank you on behalf of the Wang family."

Wang dingtian cupped his hands gratefully. House Wang had suffered a great loss and had made a powerful enemy like central. Their only choice in the future was to be tied to Lin Yi. If they really made Lin Yi unhappy, they would be in big trouble.

"You're too kind, Wang family head. I'm actually very easy to talk to, and I've always valued peace."

Even Wang dingtian's eyes twitched at Lin Yi's words, not to mention the Wang disciples.

What F * cking peace!

Wang Dinghai's dead body was still warm. Was he not afraid of forcing his corpse to come back to life? If he had already put it in the coffin, the lid probably wouldn't be able to hold it.

"Lin shaoxia is so magnanimous."

Wang dingtian was embarrassed. He smiled embarrassedly and waved his hand to tell the others to leave. The Wang family's useless people hurriedly left as if they had been granted Amnesty.

However, before he could reach the door, he was stopped again.

It was none other than the little demoness Wang shiqing, who had given them a headache in the past.

Everyone was on guard again. Although they were not in danger this time, they all knew how difficult Wang shiqing was to deal with. She used to torture them a lot under the protection of Wang dingtian, and she was a vengeful person.

Last time, they almost pushed Wang shiqing to the edge, and she was suppressed by Lin Yi. Now, she jumped out again ... Wang shiqing didn't do anything to them last time, but it was hard to say this time!

Thinking about this little great aunt's personality, would she let them go so easily?

No matter how he thought about it, he knew that it was impossible.

However, Wang shiqing didn't even look at them. She didn't even pay attention to the woman who had been the fiercest to her. She walked straight to one of them, the one who had just said that she was a Toad trying to eat swan meat.

"I heard you like me a lot?"

Wang shiqing revealed an innocent smile and two white canine teeth, showing off her charm as a cute little girl. If she were to be posted online, she would be a fat otaku killer.

However, in the face of this cute face that he had fantasized about countless times in the past, this branch family descendant couldn't help but shiver and quickly shook his head. "I ... I don't dare ..."

Wang shiqing's expression changed, "you don't like me and you're still trying to hit on me?" Are you playing with me?"

"No, no, I like it, I like it!"

The branch family disciple was so scared that he quickly changed his words, but when he saw Wang shiqing's serious expression, he couldn't help but have an unrealistic thought. Could it be that this young lady is interested in him?

Chapter 9332

It sounded a little whimsical, but it wasn't completely impossible.

After all, in terms of appearance and strength, he was one of the best among the Wang family's branch family descendants. Although Wang shiqing seemed to look down on him in the past, it might just be a disguise.

Who could guess a girl's thoughts? wasn't there a saying that the more you cared, the more distant you would appear? a girl in love was very consistent with this logic.

Sure enough, Wang shiqing smiled like an angel again after hearing his answer, which made his heart itch even more.

After being unknown for so many years, his luck was finally going to change!

"There are many people who like me, but you have to be capable. If you want to get my approval, you have to beat up all my family members first."

Wang shiqing pointed at all the wastrels of the Wang family who were trembling in fear. "Aren't we all going to be put in detention? there's time. Remember, you have to beat all of them once, and you're not allowed to hold back. You have to beat them to death. Otherwise, you're up to no good and want to play with my feelings!"

The branch family descendant was on the verge of tears after hearing this. They were trying to kill him.

If he beat up all the other Wang clan disciples, and even beat them to death, let's not even talk about whether he could survive to the end. Even if he were to take ten thousand steps back and survive by luck, how could he have a foothold in the Wang clan in the future?

If they couldn't win, they would be killed by others. If they could win, they would be hated to death by everyone.

Wang shiqing's move wasn't just killing with a borrowed knife, it was killing without giving anyone a way out.

"Did you hear what I said? If any of you dare to slack off, then you will be punished with him. You can do as you see fit in the future. "

Wang shiqing snorted and waved her hand, signaling everyone to get lost.

The group of Wang family wastrels quickly expressed their stand, saying that they would take good care of this "love as strong as gold" branch family descendant. In any case, they would rather die than die. As long as they could use this to eliminate Lady Wang's resentment, they would make a profit without any loss.

As for a branch family descendant without any background, who would care about the life and death of such a Toad?

It was his honor to be able to sacrifice it in exchange for everyone's safety.

After taking care of the annoying flies, Wang shiqing bounced to Lin Yi's side, her face full of praise, "Lin Yi bro, isn't little Qing smart?"

"Yes, very smart."

Lin Yi patted her head, speechless. This wasn't quick-witted, she was just two-faced.

But when he first met her, the girl was a two-faced little loli through and through, and Lin Yi had suffered a lot at her hands ... He actually missed her a little now ...

Speaking of which, Wang shiqing's reaction meant that she had walked out of the shadow of fear and anxiety, which was a good thing.

Wang dingtian's eyes twitched again when he saw Lin Yi and his daughter's intimate interaction. His father's heart was broken again, but he had to pretend that he didn't see it.

"Lin shaoxia, please help yourself. I'll go and check the guide to the coordinates. I believe I'll have the results soon."

Wang dingtian said to Lin Yi and walked away with a sad face.

Lin Yi was left scratching his head, subconsciously looking at Wang shiqing who was beside him. What was the meaning of this?

Fortunately, Lin Yi wasn't someone who would let his thoughts run wild. Other than checking the coordinates, he had another important matter to attend to.

"Xiao Qing, where is my body now?"

Lin Yi said urgently. His body was borrowed by Ding Yi. Although his Yuan spirit body wouldn't affect his movements, it would be a big problem if he met a strong enemy.

Even if he didn't have a physical body, he would've been able to hold on for a while against Kang Zhaoming's two idiots "purgatory formation sea of talismans.

Once he lost the protection of his physical body, it would be very difficult for him to stand firm in the sea of Hellfire just by relying on his primordial spirit. If it was not for the Dharma destroying array talisman, just the bunch of Mystic-grade purgatory array talismans would be enough to make him helpless.

"Oh, right! Lin Yi bro, come with me!"

Wang shiqing finally reacted and quickly pulled Lin Yi to the underground secret room, but the entrance was already in ruins.

When the third elder took over the position of the head of the house, the entire house was under his control. Wang shiqing was afraid that these people would hurt Lin Yi's body, so she blew up the entrance to the secret room.

In fact, it was all thanks to her that Lin Yi's body fell into the third elder's hands, otherwise it would be the same as falling into the central control's hands. If that really happened, the consequences would be unpredictable.

"Lin Yi bro, it's here!"

Wang shiqing pointed at an ordinary half-broken stone under her feet. Others couldn't see anything unusual about it, but it was a mark she had left behind when she blew up the entrance.

Lin Yi nodded and punched into the rock, lifting it up easily and throwing it to the side.

As expected, a corner of the hidden chamber was revealed.

This was the secret room of the secret rooms of the Wang family. Normally, only the master of the family would know about it. Wang shiqing was a special case caused by Wang dingtian's selfishness. Otherwise, even if she blew up the entrance, it would not escape the third elder's eyes.

After all, this old man was very sly. He had specially checked the secret room's inventory before.

The secret room was protected by a special formation. Although the outside was covered up, the inside was intact.

Wang shiqing was just about to remove the formation herself when Lin Yi sent a kick at her. The formation, which she thought was a high level of protection, was destroyed without a sound.

The little girl's mouth opened in an 'O' shape.

She even felt a little sad for this formation.

That feeling was like an unknown master who had mastered a peerless divine skill, silently guarding a forbidden area that no one knew about. When the forbidden area was discovered, this unknown master was finally about to reveal his peerless martial arts in front of the world, only to find out that the other party was a God.

What was the difference between peerless martial arts and the bastard fist in front of the gods?

It was just a matter of a kick.

Looking at the hidden corner Wang shiqing had placed him in, Lin Yi felt a sense of familiarity.

It was a wonderful feeling, as if there was an indescribable connection between him and his primordial spirit. Even his entire primordial spirit body was inexplicably excited, as if he had finally returned home after being away for many years.

Without hesitation, Lin Yi entered the body he hadn't seen in a long time. Other than the familiarity, he also found the stability and security that he couldn't have in his Yuan spirit form.

It was as if a powerful and precise machine had been activated in an instant. Every cell in his body was injected with a vast amount of energy. In an extremely short time, they responded to the central core of his brain and quickly entered a state of full load!

Chapter 9333

Immediately, the pure Qi in his meridians surged, and Lin Yi felt an unparalleled power.

The great circle of heaven crushing!

Lin Yi suddenly realized that his Qi was at the full circle of heaven-Sundering!

According to his most optimistic estimates, he would only be able to rely on the art of Dragon mastery's nature-defying properties to recover his body 100%. This was the best result he could think of.

He had never thought that this body would actually break through on its own, resonating with his primordial spirit realm across a distance of ten thousand miles, rising to the great circle of heaven-cleaving!

It was unbelievable, and he was overjoyed.

To Lin Yi, this wasn't as simple as finding a body that could contain his spirit. It was a huge increase in strength, even greater than the body he got from ding one!

This was because, strictly speaking, this was his real physical body, and it could perfectly match all true Qi methods.

Perhaps the body he reconstructed on the sub Island was perfect, with even more potential than the original body, but after Lin Yi's essence spirit returned, he could clearly feel that the original body was more compatible with the essence spirit.

If the reconstructed corporeal body and primordial spirit were one, then the original corporeal body and primordial spirit were one, and there was no distinction between them, so it was naturally better.

In terms of the utilization rate of genuine Qi, the original body was stronger than the reconstructed body. Of course, this did not mean that the original body was more powerful than the reconstructed body. The two had their own advantages and could not be compared.

If he could one day combine the advantages of the two bodies, it would naturally be even more perfect, or even beyond perfect.

But right now, it wasn't that easy. Getting back his body and breaking through to the new heaven breaking realm was his top priority.

But then again, if he'd found this body before, he wouldn't even need to use the spell-destroying formation to deal with people like Zhaoming-four simple words would've been enough.

Using force to break technique.

Of course, this wasn't just pure physical strength-it was an unassailable strength that could crush a Mystic-tier purgatory talisman. The Lin Yi now definitely had the ability to do so!

Just as Lin Yi was immersed in the power of his body, Wang dingtian's excited voice came from afar,""Lin shaoxia, I've found the coordinates!"

"Where?" Lin Yi was overjoyed.

"It's a legendary place that has only appeared in ancient records, but very few people have really touched upon it."

Wang dingtian didn't answer directly but handed the guide to Lin Yi.

Following his finger, Lin Yi's eyes narrowed. The map that represented the vastness of the map had four big words in the Middle-earth Class Sea area.

"Earth-ranked Sea area? Is there really such a place?"

Lin Yi couldn't help but frown.

He had heard of the four great sea regions, heaven, earth, black, and yellow, but so far, he had only been to the yellow and black Sea regions. As for the higher-ranked Earth Sea regions, it was almost an illusory legend.

From the beginning to the end, very few people mentioned it. Even if they occasionally heard people talk about it, they would only talk about it in a strange and legendary tone. Rather than saying that it was a real place, it was more like a mythical place.

It gave Lin Yi the feeling that the four Seas were just a name made up by some busybodies to make up the numbers-wasn't it common sense that there were only two of the four Seas?

"I think so," Wang dingtian said seriously, "because an ancestor of the Wang family has been there. The coordinates were left by him after he verified it himself."

After a short pause, Wang dingtian finally added with uncertainty, ""However, that ancestor's notes have already been lost, and this matter has only been passed down through word of mouth within the Wang family. I can't guarantee whether it's true or not."

"Since the coordinates are the same, it's most likely correct."

Lin Yi made a quick judgment-everything else could be a coincidence, but something as complex and precise as coordinates was almost impossible to be a coincidence.

However, this only made him more worried about Tang Yun's current situation.

If it was a familiar place, as long as it wasn't in the middle of the ocean, it wouldn't be hard for Lin Yi to find her with his strength and connections.

But now, it was an unknown place that he had never set foot in. It was even unknown place that was only recorded in ancient books. This was really beyond his reach.

"Lin shaoxia, I'm just going to say something. Even if these coordinates are true, no one knows what the situation is like over there. In the legends, the earth-class Sea area is an extremely unfathomable place. If you really want to find someone, you have to think twice."

Wang dingtian said earnestly.

In fact, from his point of view, these words were a little too deep. After all, they didn't have much of a friendship before, and they even had grudges. But for the sake of his precious daughter, he had to say these words.

Wang shiqing looked weird and even two-faced, but because she lost her mother when she was young, she was an extremely soft and insecure girl. Being two-faced was just a disguise in the day to cover up her fear and uneasiness of not daring to sleep alone at night.

Wang dingtian could tell that Lin Yi had become the most important pillar of support in his daughter's heart. If Lin Yi really left and never came back, Wang shiqing's heart would probably fall down with him.

That kind of scene, he, as an old father, simply didn't dare to imagine.

Unfortunately, Lin Yi's will wasn't something that could be changed so easily. If it wasn't for Tang Yin, there might still be room for discussion, but since it concerned Tang Yin's future, there was no need to talk about it.

Even if he knew that it was a bottomless abyss, he would not hesitate to jump in, let alone an unknown place.

"Thank you for the reminder, Wang family head, but since I know where it is, I have to go. I just hope that you can help me make the guiding talisman, Lin Yi will be very grateful."

Lin Yi cupped his hands and requested sincerely.

The special teleportation array was activated by the guidance array talisman, and it was not enough to just judge the location. Even if han Jingjing successfully restored the entire teleportation array, she still needed to refine a ready-made guidance array talisman.

It was true that with Lin Yi's skill in making talismans, it wasn't too hard.

However, this was related to the coordinates, and a slight difference could lead to a thousand miles of difference. He had to make sure that everything was safe. Experience in this area was the most important thing, and Wang dingtian was the best candidate for an assistant.

As for the ghostly thing, it was at most just watching the fun.

"That's what I was thinking!"

Wang dingtian couldn't hide the excitement in his voice. After their discussion, Lin Yi was already a god-like Rune Master in his eyes. He might be lacking in some special skills and experience, but Lin Yi was already someone he had to look up to.

To a crazy talisman maker like him, being able to watch Lin Yi make a talisman at such a close distance was definitely beneficial-it was almost a pilgrimage in some sense.

Chapter 9334

Because even if they could not directly learn the ready-made technique, just being able to see the legendary top level micro-operation was already worth the ticket price. After all, not just anyone could refine a perfect quality profound grade talisman.

At least in the foreseeable future, he, Wang dingtian, would never be able to do it. He might not even be able to do it in his entire life.

Both sides were very active and did what they said they would do. In addition, they had the ready-made materials given by the central. Everything was ready. The two immediately began to make the direction talismans.

With the previous experience, except for the help of Wang dingtian in setting the coordinates, the other steps were easy.

"A perfect-grade directional talisman ..."

Even though he had expected it, the reality was right in front of him. Wang dingtian's worldview was completely refreshed. He even felt that it was a waste of the heavenly gifts.

It was a rare perfect-grade talisman, but it was just a functional guidance talisman used to guide coordinates. This was simply a great waste of the perfect-grade talisman.

For ordinary talismans, even if it was only a yellow-grade talisman, a perfect-grade talisman could be exchanged for a qualitative improvement.

However, so what if the directional talisman was of perfect quality?

At most, the coordinates would be more accurate and the duration would be longer. That was all.

However, there were also benefits to this. At least, it would make the unknown teleportation that was full of risks more stable. It was an additional layer of insurance, although the effect of this insurance was very limited.

After the formation was completed, Lin Yi went back to find Han Jingjing without delay. Wang Dingtian and his daughter followed. After all, even if the teleportation formation was successfully restored by Han Jingjing, it still needed a professional like Wang Dingtian to verify it.

Han Jingjing's efficiency didn't let Lin Yi down. When they arrived, the teleportation formation was 99.9% restored. They only needed one more direction talisman.

After implanting the guiding talisman, a very high-level one-way teleportation array was successfully completed.

This was a matter of Lin Yi's safety and his daughter's happiness, and he didn't dare take it lightly. He checked it over and over again carefully, making a few adjustments before finally confirming, "No problem, we can start at any time."

"Thank you for your help, Wang family head."

Lin Yi was very grateful. He was a formation master himself, and could see some of the problems, but he wasn't as comprehensive as this guy.

"You're welcome, Lin Shaoxia. However, the stability of this one-way teleportation array is far from that of a normal two-way teleportation array. No matter what, it has a lot of risks. You have to think carefully."

Wang dingtian couldn't help but persuade him again.

Lin Yi was strong, the strongest he'd ever seen, but when it came to spatial teleportation, even a peak heaven-breaker wouldn't be able to do anything.

Once they encountered a spatial Rift, they would still die, and their fate would be no different from that of ordinary people.

As he spoke, he gave Wang shiqing a look, telling her to talk to Lin Yi.

After all, if something really happened to Lin Yi, she'd be the one who'd be the saddest.

But Wang shiqing acted as if she didn't hear him and blinked at him instead, as if she didn't care about the danger Lin Yi was in.

"Thank you for your concern, Wang family head. I've made up my mind. I'll go even if it's a real Dragon's pool or a Tiger's Den, let alone an earth-class Sea area."

Lin Yi said with an apologetic smile.

Wang dingtian tried to persuade him, "I believe you can see it clearly, Lin shaoxia. This is not only a one-way teleportation formation, but also a typical one-time teleportation formation. Once it is activated, it will be irreversibly damaged. Not only we can't get through it, but it will also be as difficult as ascending to heaven for you to come back."

Lin Yi couldn't help but frown. He wondered if the star Cloud tower gave him the right to open the plane's channel. In theory, the earth-ranked Sea area was also a sky-ranked Island plane ... The same plane couldn't use this passage's authority.

On the other hand, the space travel Authorization of this plane that was given previously should be suitable. Unfortunately, it only gave him the sub island's space travel Authorization three times and nothing more.

It was not a problem that he could not continue to teleport here. Firstly, he did not intend to let others take the risk with him. Secondly, even if it was really necessary, he could ask Han Jing Jing to restore it. Just in case, he had already left a few direction talismans in advance.

However, there was no way to return from there, which was a big problem.

He was worried about Tang Yun, but there were also many people he cared about here. He couldn't leave everyone else behind just to find Tang Yun.

Could he leave han Jingjing alone here?

The key was that this was still a problem that was completely unsolvable with current technology. The one-way teleportation circle in front of him was a typical specialized type, and it was designed to serve only one destination from the beginning.

To put it bluntly, no matter where the teleportation was initiated, there was only one destination, the earth-class Sea area.

In other words, even if Lin Yi could completely restore it on the other side and change the direction of the formation to this place, it would only cause the coordinates of the formation to not match the teleportation formation. In the worst-case scenario, the teleportation would fail, and in the worst case, it would self-destruct.

"Never to return, this problem is indeed a little unsolvable."

Lin Yi smiled bitterly as he held onto the worried Han Jingjing's hand. He said confidently, "However, there will always be a way out. Since we can find a way to get there, we can naturally find a way back. It's just a matter of time. I'm confident about that."

The damn thing had been studying the laws of space for a long time, and it shouldn't be hard to come up with a space formation with Lin Yi's help.

"Yes, I believe in Lin Yi bro!"

Han Jingjing nodded heavily. She had absolute trust in Lin Yi, and of course, Lin Yi had never disappointed her.

Not in the past, and not in the future.

As for trying to talk Lin Yi out of it, the thought never even crossed her mind. She knew that once Lin Yi bro decided on something, no one could change his mind.

Besides, she was really worried for Tang Yun. Lin Yi had to go, no matter what. He was the only brother Lin Yi that she could entrust everything to.

"Since you're so confident, I won't waste any more time. I wish you a safe journey and hope you return soon."

Wang dingtian nodded helplessly and turned to Wang shiqing, ""Xiao Qing, you should say goodbye to Lin shaoxia as well. After this separation, I don't know when we'll meet again."

However, Wang shiqing was confused."Farewell? Why should I say goodbye to Lin Yi bro? I want to go with you. "

Wang dingtian's heart almost stopped there and then, and even Lin Yi was stunned.

Chapter 9335

"Xiao Qing, you want to go with me? Don't joke around, it's very dangerous!"

Lin Yi rejected immediately.

To put it nicely, this trip to the earth-class Sea area was a risk to find someone, but to put it bluntly, it was a gamble of life.

Who knew if there would be any problems during the teleportation process?

Even if everything went smoothly, who knew what the situation was like at the destination? what if it was the nest of the sea beasts?

Wang dingtian came back to his senses and tried to stop him,""That's right, that's right. Lin shaoxia is very powerful. If something were to happen, he could handle the crisis on his own. Xiao Qing, wouldn't you be a burden if you followed him?"

"How could I be a burden? I know everything about the formation, I can definitely help big brother Lin Yi, definitely!"

Wang shiqing said with confidence.

Lin Yi didn't know what to say-he really didn't know how to refute that. The girl was a walking encyclopedia when it came to formations, and it was a perfect match for his unparalleled crafting skills. The mystic-class spell-killing formation was proof of that.

Wang dingtian wanted to give himself two tight slaps. Why did he teach her so much about arrays and talismans? she was digging her own grave.

"Little Qing, a lot of things aren't that idealistic. Even if young hero Lin really needs advice on arrays and talismans, the things you know won't be of use. After all, they're just empty talk."

Wang dingtian didn't give up. Seeing Wang shiqing was unmoved, he gritted his teeth and said, ""It's better for me to go than for you to go. Little Qing, you can't be saying that your attainment in talismans is higher than your father 's, right?"

"Wang family head, you must be joking. It's not that bad, it's not that bad."

Lin Yi interrupted.

What a joke! Wang shiqing could be blamed for being stubborn, but what was a middle-aged man like him doing?

Even if he had saved his life twice, there was no need to go this far. After all, this was not a vacation. He was really risking his life.

Wang shiqing rolled her eyes,"dad, you're an old man. Why are you following big brother Lin Yi? people might think that you're up to no good. Plus, you're the Head of House Wang. If you leave, does house Wang not want you anymore?"

His words were like ten thousand arrows piercing through his heart, shattering his old Father's heart.

But then again, the little girl's words weren't without reason. With the Wang family's current situation, if he were to let go of his position as the family head, there was a high chance that a thousand-year-old family would collapse.

If that happened, Wang dingtian would die a hundred times, and he wouldn't be able to face the ancestors of the Wang family.

Seeing Wang dingtian was speechless, Wang shiqing decided to strike while the iron was hot, ""Father, think about it. Since you can't stop it now, why don't you just take it easy and treat it as if I'm going to school outside? I'll come back anyway."

"It would be great if you went to school."

Wang dingtian was speechless with anger, but he knew his daughter's personality well. He knew that it was impossible for him to persuade Wang shiqing now. It would only hurt their father-daughter relationship if he tried to persuade her.

"Hehe, dad, can you just say it? I have Lin Yi bro to protect me anyway, I won't be at a disadvantage no matter where I go. It's a good time to go out and see the world, maybe I'll be a master, a master, a master, a master when I come back!"

Wang shiqing stuck out her tongue in a cute way and held Wang dingtian's arm.

Wang dingtian couldn't stand this. Since he was a child, he had been at his wit's end whenever Wang shiqing acted like a spoiled child, and he was no exception today.

"Okay, okay, okay. I don't expect you to be an expert. I'll thank the heavens as long as you can come back safely."

Wang dingtian had no choice but to accept his fate. He turned to Lin Yi and bowed, "Lin shaoxia, I only have this one daughter. I'll leave her to you in the future. I hope you can treat her well. I'll be very grateful."

"Ha?"

Lin Yi looked at the blushing Wang shiqing, confused. What was the meaning of this?

It was understandable for him to protect Wang shiqing more in the future, but what the hell was with this attitude as if he was entrusting his daughter to live her life? was the wedding march about to start? Was he going to call old Wang his father-in-law in the future?

Wang Shiyang, who was trapped in the illusionary mist space, should be shouting at the top of his lungs. "Who still remembers me?" Can't you just treat me as a person? Lin Yi, I don't mind if you're my brother-in-law, but remember to come and save your brother-in-law!

Unfortunately, Wang dingtian, Wang shiqing, and Lin Yi didn't even think about Wang Shiyang ... The poor kid!

"Lin Yi bro, let's go."

Wang shiqing was afraid that Lin Yi would object and quickly dragged him into the teleportation formation. Once the deed was done, she wouldn't be afraid of Lin Yi's rejection.

Lin Yi wouldn't be able to get her back once the teleportation formation was activated anyway. He could only accept his fate.

Lin Yi, naturally, saw through their little scheme, but since the father and daughter had already made up their minds, there was no point in him rejecting them.

It would be even more troublesome if the little girl ran away from home in a fit of anger.

Lin Yi said to Wang dingtian, "Wang family head, you have to think carefully. The risks are unpredictable. Even I can't guarantee that your little love will be foolproof."

Wang dingtian looked at Wang shiqing and smiled bitterly, "A grown girl can't be kept at home. With her personality, if I force her to stay at home, she'll hate me for the rest of her life. I have no choice. I can only be selfish this time. I'll leave everything to young hero Lin."

Lin Yi was speechless. He turned to Wang shiqing and asked seriously, "Are you sure you've thought it through? This isn't a joke. "

"I've thought it through a long time ago. Lin Yi bro, you can't leave me behind, or I'll cry to death!"

Wang shiqing clung onto Lin Yi like a sloth, not letting go, afraid that he'd run away if she let her guard down.

Lin Yi didn't know what to say anymore, so he rubbed her head to show his agreement.

"Jing Jing, take care of yourself and wait for me to come back."

Lin Yi hugged Jingjing lightly.

Out of all his female friends, han Jingjing wasn't the most outstanding, but she was the most obedient and pitiable one. Luckily, she had her own interests and pursuits, and her life had been fulfilling all these years. Otherwise, Lin Yi wouldn't have the heart to leave her here alone.

"Yes, I'll always be waiting for Lin Yi bro."

Han Jingjing buried her head in Lin Yi's arms and said softly, her face red, ""Jing Jing will wait for a lifetime."

Suppressing his emotions, Lin Yi nodded heavily at Han Jing Jing and entered the portal with Wang shiqing.

The teleportation formation was activated, and the guiding talisman locked onto the coordinates. With a flash of white light, Lin Yi and Wang shiqing were gone.

At the same time, the teleportation array's base split open. Although it didn't look too damaged on the surface, the inside was a complete mess. There was no possibility of repairing it.

Chapter 9336

The space in front of them was empty, leaving han Jingjing and Wang dingtian feeling lost.

On the other side, Lin Yi protected Wang shiqing as they were teleporting and was on high alert.

At this time, the most terrifying thing was that the teleportation would fail and they would encounter a space crack. If that happened, even the gods would not be able to save them.

Fortunately, although the entire process seemed unstable, it was still a close call in the end. Moreover, the duration was very short.

To Lin Yi, every second felt like a year, but to Wang shiqing, who was obsessed with Lin Yi, it was just the blink of an eye. Before she could react, everything was clear.

The two of them felt the ground beneath their feet empty, and the teleportation was over.

Wang shiqing's mouth was so wide that a duck egg could be stuffed in it. Even Lin Yi was stunned.

He'd thought of countless possibilities-deep mountains, the sea, ice, lava, and all sorts of other situations, even one that could lead to death.

However, he had never expected to see such a familiar scene.

It was not the vast sea under their feet, but a prosperous land. This was great news in itself, but the problem was that this place was too prosperous, so prosperous that it was hard to understand!

The one-way teleportation formation could only lock onto a person's position, not a specific destination. As a result, the two were actually a few hundred meters up in the air.

This was normal-with Lin Yi's current strength, a few hundred meters up in the air was nothing to him. But this was an extremely modern skyscraper, and it was even higher than where he was-it was at least a hundred and fifty stories!

Who the F * ck would believe this?

For a moment, Lin Yi even suspected that the teleportation was a mistake. Was he actually sent to the common world?

It was not until he saw all kinds of strange flying devices of different sizes that he was finally sure that this was the legendary earth-grade Sea area!

However, according to normal logic, shouldn't the earth-ranked Sea area be the same as the Golden-ranked Sea area and the mystic-ranked Sea area? shouldn't they all be the world of cultivators of a higher level?

What the hell was this high-tech aura?

But Lin Yi quickly realized that this was still the world of practitioners-those strange flying machines were powered by spiritual Jade.

He landed steadily with Wang shiqing in his arms, and the two landed in the middle of a Street.

He looked around at the tall buildings and the fashionably dressed pedestrians, and Lin Yi couldn't help but feel that he was in a different place.

Most importantly, even the advertisements on the commercial Street here were exactly the same as those in the secular world. Even the promotional events were the same. The maximum 300 minus 100 ...

"Lin Yi bro, this place is amazing!"

Wang shiqing's three views were clearly shocked, and she didn't know what to say.

For a native of the cultivation world like her, not to mention anything else, just the hundreds of meters tall modern building alone was enough to make her excited for several days. This was really an eye-opener for her.

"Yes, very powerful."

Lin Yi suppressed the strange feeling in his heart. He had a stomach full of questions, but he didn't forget the important thing.

He took out the direction talisman, which was a consumable of the teleportation array. At this moment, the energy of the talisman had been exhausted, but it was not useless. It still had an extremely important function, which was to verify the coordinates.

He slowly injected his genuine Qi into the guide talisman, which then emitted a soft white light again. The white light gradually turned into a ball of flame, and in a few breaths, it was like a piece of white paper being burned to ashes, drifting away with the wind.

"This is the place, as expected."

Lin Yi's spirit lifted-the guide only disappeared like this when it completely aligned with the destination's coordinates.

This meant that even if they didn't know the exact location, they could at least be sure that Tang Yun was nearby!

"Lin Yi big bro, that shop looks like it's going to do something, shall we go and take a look?"

Wang shiqing suggested excitedly. She pointed in the direction of the familiar 300 minus 100.

Lin Yi couldn't help but chuckle-this was a perfect trap for everyone, regardless of gender or age.

"Alright, let's go and take a look."

Lin Yi agreed without hesitation. His goal wasn't to buy anything, but to find out more about the situation here. After all, even if he was in a hurry to find Tang Yin, he needed to figure out the big picture first.

As the two of them walked through the main entrance, a shop assistant immediately came up to them and greeted,""This way, please. If you have any needs, you can tell me directly. We can't guarantee anything else, but our Lianxia shop is good and cheap. We have everything you need."

"There's nothing you can't think of, but there's nothing we can't buy here. Whether it's clothing, food, accommodation, transportation, cultivation supplies, weapons, props, including various models of flying shuttles, we will definitely not let you down. "

The manservant's words were like heavenly flowers falling from the sky, but he really wasn't speaking without thinking.

It was more like a large market than a shop, with all sorts of goods. There was even a special exhibition hall for flying shuttles, which were the flying devices Lin Yi saw in the sky.

However, the size of these aircraft was not big. They could only accommodate two to four people, and there were various models. At first glance, they were a bit similar to the 4S stores in the secular world.

"Lin Yi bro, let's buy one!" Wang shiqing's eyes lit up.

It wasn't just Wang shiqing, even Lin Yi himself was tempted by these shuttles. No matter when and where, machines were always a man's romance, especially these types of machines that were tied to speed.

The guide perked up when he saw Lin Yi's interest.

Compared to other categories of ordinary goods, the price of the shuttle was more than an order of magnitude higher. As long as he sold a shuttle, the Commission was equivalent to half a month of his salary. Every potential customer of the shuttle was a Gold Master that he must hold on to tightly.

"The two of you really have a good eye. Our shop's shuttle is second to none in Jianghai city. Whether it's quality, price, or after-sales, you'll definitely be satisfied. Ordinary shops can't be compared with us."

The guide explained the shuttle's functions as she opened the door for the two to try it out, even saying that they could apply for a test drive on the spot if they wanted to.

However, Lin Yi's focus wasn't on the shuttle, but the two words he just said-Jianghai city.

It seemed that not only was the social environment very high-tech, but even the names of the places were comparable to those in the secular world. It would be strange if there was no connection to the secular world behind this.

Chapter 9337

"Your store is the number one in Jianghai city? But I've heard from others that it doesn't seem to be the case?"

Lin Yi asked, frowning.

He didn't want to reveal where he came from unless it was absolutely necessary, or he'd get into trouble. After spending so much time on Sky Class Island, Lin Yi was used to this sort of stuff.

"No!" The shop assistant panicked."Lianxia is the best shop in Jianghai city. I'm not lying. If you don't believe me, you can ask around!"

"Oh, really? But I heard from my friend that the best place in Jianghai is that building. Could he be wrong?"

Lin Yi said, pointing at the building a few hundred meters away.

Although there were many high-rise buildings here, they were generally only tens of meters tall. It was completely incomparable to that building. Looking around in a radius of ten miles, that building was like a flock of cranes standing in the sky. There was no one around that could fight.

"You mean the central Industrial group? Of course, it's different ..."

The shop assistant couldn't help but look stunned, and his imposing manner was obviously lowered by a notch. However, he still didn't forget to make up for his mistake, "A cross-regional super Corporation like them is very impressive. Their service is high-end, but the price is also high. It's not something that ordinary people can spend on. They're not like our shops, which are open to the public and pursue good quality and low price. They're not in the same business."

Central Industrial group?

Lin Yi and Wang shiqing looked at each other. The name "central" was definitely related to it. Central was really powerful, doing business well no matter where they were.

Speaking of which, Lin Yi had been dealing with central for so long, and he knew what those people were capable of. With their abilities, it wasn't strange for them to make a name for themselves anywhere, but it would be strange if they couldn't.

"According to what you said, doesn't that mean that their Center is standing at the top of the pyramid?"

Lin Yi continued testing.

The shop assistant shook his head. "You're being biased. No matter how powerful the central Group is, it's only in the business field. At most, they'll secretly collude with some powerful big shots. If we really want to talk about the top of the pyramid in Jianghai, it's definitely the city Lord."

"The governor is the number one figure in Jianghai city, both in name and in reality. This is something that all the big shots acknowledge."

"What about those below the city Lord Rank?" Lin Yi nodded.

The shop assistant looked at him strangely, but for business reasons, he patiently replied, ""Below the city Lord, there are naturally the Deputy city Lords and the big shots in charge of the various divisions. Let me give you an example. Although their Central Group is at the peak of its power, if they don't have the means to get close to the Head of the Department of Commerce, a note of order can make them close down!"

Lin Yi didn't believe that at all. With the huge power behind central, even if it was just a business group on the surface, there was no way a department head could control their life and death so easily.

But from what the guide said, Lin Yi had a rough idea of the power structure here.

This place was not like the sub-Island, where the power pyramid was not controlled by the warrior Union or the martial Alliance. Instead, it was more similar to the department structure of the secular world. From the city Lord to the Deputy city Lord to the various departments, each had their own duties, forming a highly comprehensive management system.

The economic foundation determined the superstructure. Since the social form here was already highly modernized, the modernization of the power system was also natural. This was the inevitable result of social development.

Lin Yi went along with the flow and asked around, and the feedback confirmed his hypothesis.

Finally, Lin Yi asked, "Do you have a lot of outsiders here?"

"Of course there are. Jianghai city is known far and wide as the most powerful city in the surrounding area. Tens of thousands of people come here every day. During a grand festival, hundreds of thousands of people can come in a day. It's a spectacular scene."

The sales assistant had a proud look on his face.

"Teleportation formations?" Lin Yi asked, surprised. "I'm afraid the efficiency of the teleportation formation is not enough, right?"

Although the teleportation formation was convenient, there was an obvious upper limit to its capacity. Usually, it could only teleport a few hundred people. As for tens of thousands or even hundreds of thousands of people in a day, that was simply unimaginable.

Unless there were thousands of them in Jianghai city.

"Of course, we can't rely on the teleportation array. When there are many people, we mainly rely on flying shuttles. Speaking of flying shuttles, I have a lot to talk about ..."

The saleswoman did not miss the opportunity to deliver another sales Spiel.

She didn't think much of it at first, but in the end, even Wang shiqing couldn't stand it anymore and just wanted to run away.

But Lin Yi wasn't going to kill the donkey when it was done-he was interested in these flying shuttles anyway, and decided on a small two-seater flying shuttle.

"You two have good taste. This model is the most popular model this year. Not only is its streamlined design beautiful, but it also flies fast and steadily. It's the most cost-effective among the big brands."

The sales assistant was overjoyed, and finally added,""Six thousand eight spirit Jade. Would you like to pay by card or ..."

This price was naturally not considered expensive. After all, it was an aircraft, and its speed was much faster than the average flying spirit beast. However, it could not be said to be very high-end. After all, it did not have any offensive or defensive arrays or additional functions. It was just a simple means of transportation.

Of course, this amount of spirit Jade was nothing to Lin Yi now. He didn't lack money.

He handed over a spiritual Jade card, but the young man was stunned. He looked at the card with a face of hesitation. "Customer, What's this?"

"A spiritual Jade card, is there a problem?" he asked.

Lin Yi couldn't help but wonder.

The shop assistant shook his head. "Sir, please don't joke around. There's not even a city sign on it. How can there be such a spiritual Jade card?" Even if it's as you said, we can't use the spirit Jade card here. "

Lin Yi was embarrassed.

The little girl beside him was understanding. "Lin Yi bro, why don't we just forget about it? Anyway, it's just something new. "

After she finished speaking, the saleswoman, who had been trying to please her for a long time, was immediately displeased. Her tone suddenly became a little unfriendly. "Customer, that's not right. It's not easy for us to be in the service industry. We've been chatting with you for half a day, but you didn't buy anything. Aren't you playing us?"

"Who made the rule that I have to buy it after asking a few questions? If I were to casually ask how much Jianghai city is worth, does that mean I'd have to buy the entire city?"

Wang shiqing decided to protect Lin Yi after seeing his unfriendly attitude.

You can say anything you want, but not Lin Yi big bro!

Chapter 9338

Lin Yi couldn't help but chuckle at the girl's angry face. He rubbed her head and said calmly, "There's nothing to be angry about. Since the spiritual Jade card doesn't work, I'll just use spiritual Jade. I've also brought some."

This was the truth. He still had some spiritual jades left in the space of his jade pendant. Although it was not a lot, it was more than enough to buy a flying shuttle.

The shop assistant's expression immediately changed. He smiled apologetically and said, "I knew it. With your status and temperament, you would never lack this little spiritual Jade. I'm just judging a gentleman with my own mean measure. I'm too straightforward and can't hide things. I should slap you."

After he finished speaking, he really gave himself two slaps. The force was not light either, and his face turned red.

Lin Yi and Wang shiqing looked at each other speechlessly. This guy was a ruthless man, willing to do anything for a little bit of advice.

But since the man had already gone this far, it'd be petty to continue arguing. Lin Yi didn't say anything else and followed the man to the counter.

Then, he poured out a total of 6800 pieces of spiritual Jade.

For a moment, there was a commotion at the checkout counter. 6800 spiritual Jade did not sound like a lot, but it was quite a visual impact when all of them were piled together.

It was no wonder that they attracted so many people. In this day and age, large transactions were settled by cards, and there was no way to settle the bill directly with spiritual Jade.

Just counting the spiritual jades took fifteen minutes, and the guide was full of complaints again, but this time she didn't vent it on Lin Yi and Lin Yi.

After all, the other party had already bought it and paid for the spiritual Jade. He would not be short of his Commission, so what else could he say?

After finishing all the procedures and sending the two away, the guide smiled sinisterly as he watched the two leave.

To be able to take out so many ready-made spiritual jades so casually, this was a big fat sheep. How could he let himself down by only slaughtering it once?

He took out a communication device from his pocket and said, ""Brother Hu, I have a good deal here, I wonder if you guys are interested?"

Leaving the Lianxia shop, the two enjoyed the experience of driving the shuttle-it was quite a pleasure to speed it up, and they could even get a bird 's-eye view of Jianghai city.

"It's indeed a super metropolis. Even in the secular world, it's definitely a super-first-rate city."

Lin Yi sighed. He couldn't help but regret that there were many restricted airspace areas. Otherwise, he'd be able to figure out the situation in Jianghai city with a little more time, and it'd save him a lot of trouble in the future.

Now, he could only see a general panoramic view, which was far from an in-depth understanding.

The good news was that this place was modern enough, and it would be much easier to find someone. There were all sorts of methods to try, but the bad news was that there were too many people here. It was like looking for a needle in a haystack for Tang Yun. No matter how skilled she was, she would still have to rely on her luck.

In contrast, Wang shiqing was having a lot of fun, but it was also a dangerous game. There were a few times when she almost crashed into a bumper car.

In just half a day, he was marked as a dangerous person who was avoided by everyone. Some of the unwilling ones chased after the new female driver and scolded her.

Wang shiqing retorted, "I'm not a new female driver!" I didn't even get a driver's license!"

The other party was decisively defeated.

Wang shiqing turned back to Lin Yi, "Lin Yi bro, how's my ability to convince people with reason? look, they're all convinced by me!"

Lin Yi sweated.

Did you convince him? I was clearly scared off by you!

In order to save lives, Lin Yi finally did a good deed. "It's getting late. Let's find a place to stay first. I'll let you play next time when we have time."

"Alright," he said.

The little girl naturally followed his advice, but for some reason, her face blushed, not knowing what she was thinking.

Although he could only see the general layout of the city, he had a rough idea of some of the more prominent landmark buildings, including a large hotel.

The two of them landed at the entrance of a luxurious building. On the signboard, there were six big words: central chain hotel.

There was no doubt that this was the best hotel in the local area.

Lin Yi walked in with Wang shiqing, but was stopped by the guard. "No unauthorized personnel, please show your central membership card."

Lin Yi blinked-this was how business worked, too!

However, thinking about it, it wasn't strange. With their central personality, they always liked to do this kind of differential treatment. It was to create a sense of superiority from the moment they entered the door. As for ordinary cultivators, they had never been their target customers.

Luckily, Lin Yi still had a black card from central, but he didn't know if he could use it here.

The guard took the card and looked at it. He sized Lin Yi up again and frowned, "Where did you get this card from?"

"Isn't it written on it?"

Lin Yi shrugged, but he'd already made preparations to move to another hotel. When in Rome, do as the Romans do-he didn't have to stay here.

The Guard's brows furrowed even more. The logo of the center was clearly engraved on it, but it was different from any membership card he had seen before. He couldn't help but suspect that this guy had deliberately forged a fake membership card to swindle people.

However, despite his suspicions, he did not dare to jump to conclusions.

After all, the people who could enter and leave this place were all big shots. They were either rich or noble. He was just a small guard who could not afford to offend them. If he really caused trouble and alerted the higher-ups, losing his job was a small matter, but if he was not careful, he might even be killed to vent his anger.

Lin Yi was equally shocked.

This guard was actually an expert at the sea shattering realm!

When did a great expert at the sea splitting stage become a cabbage on the roadside and reduced to being a guard?

"Wait a moment."

The guard didn't know what to do, so he called his leader over. A heaven breaking Guard Captain came, surprising Lin Yi once more.

The captain of the guards studied the black card for a long time, but he still couldn't come to a conclusion. He frowned and asked, "Where are you from?"

"Out of town," Lin Yi replied.

"Which part of the city?" the captain asked.

"Are you doing a household check? Do I have to explain my family background to you when I'm staying in a hotel?"

Lin Yi thought that he'd be able to get the guy an id if they were in the common world, but this was Sky Class Island-it was taboo to ask about someone's background.

"Under normal circumstances, there's no need for that. However, there's a big problem with your card. In order to protect the interests and honor of our Center, I have the responsibility to clarify it."

The captain's tone was unyielding.

At the same time, the other guards who were scattered in the surrounding area also came over one after another. They were all experts of the sea shattering stage. If such a formation were to be placed in any other place, it would simply scare a group of people to death.

Chapter 9339

"In that case, give me back the card. I'm not staying here."

Lin Yi didn't want to waste time with him and prepared to leave.

However, in the other party's eyes, his behavior immediately became guilty. He sneered and said, ""You didn't succeed in swindling people, and now you want to run away when you see that the situation is not good. Hmph, how can there be such a cheap thing!"

The captain didn't give the card back to Lin Yi, but instead ordered his men to surround Lin Yi and Wang shiqing.

"What do you want?" Lin Yi couldn't help but frown.

He was never afraid of trouble, but if it wasn't necessary, he didn't want to get into trouble at this time. After all, finding Tang Yun's whereabouts was the most important thing, and he didn't want to cause any more trouble.

Of course, if they were to trouble him, he would have no choice.

"I have reason to suspect that you were sent by our competitors. We need you to cooperate with our investigation. Don't worry, our Central Industrial group is a legitimate enterprise. As long as you don't have any ill intentions, we won't do anything to you after the investigation."

The guard captain's attitude was extremely domineering. It was obvious that this was not the first time he had done this kind of thing. The power and background of Central Industrial group in this area could be seen.

"What if I say no?" Lin Yi asked back indifferently.

The captain narrowed his eyes. "Then don't blame us for using some forceful means. If you are really innocent, we will compensate you later. Of course, if you really have other intentions, then there is no need to say anything."

"Don't tell me you dare to kill people at will?"

Lin Yi asked a key question, and from the answer, he could tell how much control the government had over this place.

If even the most basic of killings could not be prohibited, then no matter how advanced and modern it was on the surface, it was just a barbarian society with a layer of bright skin.

"We're law-abiding citizens, how can we just kill people?"the captain laughed. However, the government has always been serving the people. I believe that the adults will be very happy to help us solve some of the hidden social problems for our companies. It all depends on how you understand. "

"Isn't it just an collusion between officials and merchants? it's quite fresh and refined. "

Wang shiqing said viciously.

The captain's face changed, "little girl!" Be careful when you speak!"

He then attacked Wang shiqing. It wasn't a killing move, but it was obvious that he wanted to capture her and force Lin Yi to be cautious.

Although this seemed a little unnecessary from his point of view, caution was the key to success. He still had some brains to be able to take the position of Guard Captain.

After all, he still couldn't see Lin Yi's level.

Although the possibility of failure was very small, what if he really met someone who was pretending to be weak?

In the end, his hand didn't land on Wang shiqing, but Lin Yi instead.

"It's not a good habit to be touchy, especially with girls. You'll get retribution."

With Lin Yi's calm voice, there was a crisp crack, and the guard captain's middle finger immediately bent into a strange angle, making people's scalps go numb.

"Ah!"

The captain of the guards howled in pain. He immediately gritted his teeth and shouted to his subordinates, ""Still not moving? Don't you want to work anymore?"

Only then did the guards wake up from their daze, each of them releasing their true Qi and firing at full force.

Lin Yi squinted his eyes and was about to clear the area with his spirit sense when a soft female voice came from behind him. "Hold on!"

Turning back to the voice, what entered his eyes was a beautiful woman with the temperament of a mature woman. She was wearing a short black cheongsam that perfectly combined the two opposite

attributes of sexiness and dignity. Between her frown and smile, she revealed a myriad of flirtatious styles.

"Manager you."

The guards quickly stopped and saluted the woman who was walking towards them. This was not just the respect on the surface, but it was clearly from the heart.

The woman waved her hand, signaling for them to leave. She turned around and knelt to Lin Yi, "I'm you Cl 'er, the manager of this store. My underlings are inexperienced and have frightened you. I'm here to apologize to you."

You Cl 'er, his boss, was lowering herself to Lin Yi like this. The captain was so shocked that he forgot to scream in pain and just stared at Lin Yi's reaction.

"Manager you, you recognize this black card?" Lin Yi raised a brow.

You Cl 'er smiled and nodded. "Of course I do. Before I was sent here to be the manager, I had special training in this area. Although the black card of the distinguished guest is very special, I was fortunate enough to see it once in class."

As she said that, you Cl 'er gave the embarrassed Guard Captain a look and continued to smile apologetically. "However, the people below do not have such luck. That's why they did not recognize Mount Tai and offended our esteemed guest. I hope that our esteemed guest will be magnanimous and forgive them. On behalf of our store, I am extremely grateful."

After all, the captain of the guards was not a one-track minded idiot. At this point, how could he not know that he had run into an iron plate? you Cl 'er's statement had directly blocked the possibility of central standing up for him.

If this continued, not only would he not be able to gain any advantage, but he would also die in vain.

"I was reckless and almost made a big mistake. All the mistakes have nothing to do with the hotel. I will bear the responsibility. Please punish me."

The captain of the guards was also a ruthless man. With a plop, he actually knelt down directly. The force he used was so strong that it made people's knees hurt. Fortunately, the floor here was made of high-end materials. Otherwise, they would probably see cracks all over the ground.

Unless the other party had the intention to become enemies with central, under normal circumstances, his kneeling was enough to solve most of the problems.

After all, the truly powerful and influential people would rarely have the time to bother with a small figure like him. As long as they could live with their reputation, they would often be too lazy to pursue the matter. This trick of his had been tried and tested time and time again.

In the end, Wang shiqing complained, "Your acting isn't that good. A model worker who is truly dedicated to his work won't talk. At least, you have to take some sincere actions, such as kowtowing to death here. That's more convincing."

The situation was extremely awkward.

The captain of the guards was executed in front of everyone, and his face turned red. Fortunately, you Cl 'er had dismissed his subordinates, or he would have died in society.

Lin Yi chuckled to himself, the two-faced witch's tongue getting sharper.

You Cl 'er covered her mouth and chuckled. "What a cute little girl. There aren't many people who can see things so accurately. Captain Wu, you have to learn your lesson in the future. Those who can point out your flaws in front of you are the benefactors in your life."

Chapter 9340

"The acting wasn't good, but at least it wasn't wrong."

Lin Yi explained. He didn't want to waste any more time here after what happened, but since you Cl 'er was so humble, there was no need to keep her at arm's length.

After all, he was unfamiliar with the people and the place. If he could form a good relationship with them, there would be some benefits. At least, he would be able to find out more things.

"Yes, yes, I'm afraid. Thank you for your forgiveness."

The captain of the guards quickly followed the lead. No matter how stupid he was, he knew that the other party was completely giving you Ci 'er face. Otherwise, it would not be so easy to let this matter pass.

You Ci 'er took the initiative to hold Wang shiqing's hand and gave her an exquisite but not expensive accessory as a gift. A few whispers made the little girl's heart burst with joy, and in the blink of an eye, they had become sisters.

Lin Yi sighed to himself. This woman was an expert at building relationships-no wonder she was a foreign manager of the central Group, managing such a huge business.

To sum it up, he was very good at dealing with people.

After a friendly chat, you Ci 'er brought the two of them to the front desk and personally booked a top-grade suite for them. This was the highest level of VIP treatment in the local area.

The most important thing was that the black card was free.

But Lin Yi raised an objection,"Can you get us two rooms? If you need it, I can pay extra. "

You Ci 'er was stunned and looked at Lin Yi and Wang shiqing in surprise. She suddenly understood something and covered her mouth with her hand as she laughed.

"I don't want to have my own room! Big brother Lin Yi, I'm scared, I'm scared of strange places like this the most. Big brother Lin Yi, you can't leave Qingqing here alone, you promised my dad to take good care of me. "

Wang shiqing hugged Lin Yi's arm pitifully, like a helpless child about to be abandoned.

Lin Yi was speechless."I'm not leaving you alone ... Even if we get another room, it's next door. I'll hear you if you call."

Wang shiqing shook her head again and again. This time, she even squeezed out tears."What if there's a bad guy and I can't call him out?"

Lin Yi looked at you Ci 'er helplessly, hoping that this sweet-talking lady would help to persuade her.

After all, the little girl's words were practically a form of slander to the hotel. From the hotel's standpoint, you Ci 'er, as the manager, had to step forward and say a few words.

Unexpectedly, you Ci 'er smiled and said,"actually, there's no need to trouble yourself. There's a master bedroom and a secondary bedroom in the VIP suite. Isn't it just right for the two of you to sleep in one room each?" Not only does it solve Lin shaoxia's concerns, but it also makes sister shiqing less afraid. Isn't it the best of both worlds?"

"Alright, I'll listen to you, sister Ci 'er,"

Wang shiqing continued to look at Lin Yi pitifully. This wasn't what she expected, but she could accept it.

Lin Yi still felt that it wasn't right, but he couldn't really say anything else. He nodded.

Although he didn't know what the little girl was thinking, he was right about one thing. He was unfamiliar with the place and people, so he had to be more careful.

The closer they lived, the safer they would be.

After successfully checking in, you Ci 'er chatted with the two of them for a while. She even ordered for a feast and some desserts before she left.

"Sister Ci 'er is really a rare beauty. I've decided that she'll be my idol from now on. I want to make her my life mentor!"

Wang shiqing drooled as she looked at you Ci 'er's alluring back.

Lin Yi rolled his eyes. "Eat your dessert. You're so young. What do you know?"

He could not help but sigh once again. You Ci 'er's ability to win people's hearts was truly amazing.

Wang shiqing chuckled and finished the dessert in a few bites. She ran to the bathroom barefooted."Xiao Qing's going to take a shower, don't peek, Lin Yi bro."

After a while, she suddenly stuck her head out with a red face,""But if Lin Yi bro wants to see it, it's not impossible."

Lin Yi didn't know what to say.

Ignoring the weird girl, Lin Yi returned to his room but didn't rest. He went into the nine story Pagoda to make some Mystic level talismans, especially the spell-destroying talismans.

He hadn't met a master who was stronger than him yet, but Lin Yi still felt a lot of pressure. After all, this was a place where even a heaven breaking master was willing to be a guard.

This meant that heaven breaking experts couldn't be considered to be of high quality here. At most, they were just the starting point. They could barely make it as guards, but they couldn't be considered elegant.

With Lin Yi's current strength at the great circle of heaven-breaking, he didn't need to put ordinary heaven-breaking Masters in his eyes, but what if he met an existence above that?

Even if he still had enough capital and confidence to fight, there would still be huge variables.

The best way to suppress this variable was to increase his own strength and trump cards.

For the former, Lin Yi had already reached the ceiling of the heaven breaking realm, and he didn't know how to break through it yet.

The latter, on the other hand, had plenty of room for improvement as long as Lin Yi wanted to, and they were all ready-made.

A profound grade talisman!

After testing it out himself, Lin Yi had a deep understanding of the power of a Mystic class talisman. It was a huge threat even to a complete heaven breaker like him, let alone to normal heaven breaking Masters. It was a killer weapon.

However, Lin Yi himself was very strong, so he didn't really need offensive Mystic class talismans. On the other hand, the Dharma destruction talismans might be very useful at times.

A battle between top experts often required the mobilization of a huge amount of heaven and earth ling qi. At the critical moment, a spell destruction talisman would be slapped down, and that would be a complete area of silence. The impact on the balance of victory and defeat could be imagined.

With the previous two experiences, Lin Yi was getting more and more familiar with the process this time, and his speed was getting faster and faster as well. He was almost as fast as Central's batch copies, and this made the self-proclaimed master of formations lose his balance again.

The demonic thing even made a deadly oath on the spot. From now on, if I ever see you make talismans again, I'm not a human!

"You're not a human to begin with, so why don't you take my surname in the future?"

Lin Yi said.

Just as he was having a friendly interaction with the ghastly thing in the glazed Pagoda, his divine sense suddenly moved. He sensed a group of people approaching his suite, and this group of people were all heaven breaking experts.

They came with ill intentions!

Lin Yi came out of the pagoda and was about to warn Wang shiqing when he realized that the girl had already gotten up on her own with a bunch of high grade talismans in her hand.
