

Bodyguard 9341

Chapter 9341

After seeing the talisman in her hand, Lin Yi gave up on the idea of protecting her from all sides. Instead, he began to mourn for the heaven breaking Masters who came with ill intentions.

At this moment, a group of people had already stopped at the entrance.

"Tiger, this is a VIP suite. Those who can stay in the Central Hotel are either rich or noble. Are you sure it's just a fat sheep?" one of them asked with some hesitation. Don't kick an iron plate!"

The leader, nicknamed Tiger, sneered back. ""Don't you worry. That kid from the Lianxia shop is a spy that I've specially trained, and he has never made a wrong judgment. Moreover, have you ever seen any high ranking officials or noble people use spirit Jade to pay? I've never seen such a low-status noble before. "

As soon as he finished speaking, there was a burst of low laughter.

"A master who carries a large amount of spiritual Jade with him and can live in a luxurious suite is definitely a fat sheep. As long as we kill him, we'll have our share money for this month. Other than paying tribute to the one above us, we might even have some extra money left. Isn't it the best of both worlds?"

Tiger's words made everyone burst with joy.

Don't look at how they were all heaven breaking experts and had a big backer. In the eyes of others, they were swaggering around every day, but their days were far from as easy as they looked.

The person above their heads was not someone to be trifled with. He was like this to outsiders, and the same was true to their own people. If they did not pay enough money every month, their end could only be described with one word: miserable.

It was also because of this that they would think of ways to find a fat sheep to slaughter. They even turned this into a complete industrial chain, with Upstream Intelligence, follow-up, fighters, and share the spoils. All aspects were complete.

Lin Yi, on the other hand, was a newcomer who was showing off his wealth, and naturally became a fat sheep in their eyes.

As for whether it would anger the Central Hotel, that was not within their consideration.

The Central Hotel was strong, and their roots were also very deep. However, as the saying goes, a strong Dragon can not suppress a snake in its own territory. As long as they did not specifically target the Central Hotel, even if something happened in the end, they would not be able to do anything.

After all, business people always valued harmony. If they really fell out with the master behind them, then what business would they be doing here!

Having said that, this group of people did not dare to be too arrogant. They did not directly break in, but actually took out a key card to open the door and then filed in.

In the end, he didn't even have time to say a word before he was hit by a jolting explosion talisman.

A group of heaven breaking experts were actually collectively stunned in an instant!

Fortunately, this was not a profound grade tremor burst talisman. Otherwise, just this one blow would have caused their primordial spirits to collapse. Even if they were lucky enough to survive, they would have lost half of their lives. Even so, this instant of collective dizziness was enough to become a complete nightmare.

Wang shiqing had a bunch of yellow-level high-rank talismans in her hand, and this was only the beginning!

For the safety of his precious daughter, Wang dingtian had given her everything he had accumulated at the cost of bankruptcy.

With Wang dingtian's Grandmaster-level talisman making skills, one could imagine the level of the talismans that he kept. Even if they were not profound level talismans, they were good things that could not be bought in the market.

Each card was a deadly weapon!

In comparison, what did Wang Shiyang bring when he was out? Lin Yi even suspected that this guy might be Wang dingtian's son. Could he be the kind that was given to him for a pay?

After finally getting out of the collective dizziness, what welcomed Tiger and the others was a layer of dense cluster lightning, like a fishing net, which caught them right above their heads, followed by a thunderous lesson of love.

It was true that this set of lightning couldn't pose much of a threat to these heaven breaking experts, at least not enough to endanger their lives, but the numbing effect was real.

Before the numbing effect ended, another unknown high-grade talisman cracked open, and a faint green gas spread out around everyone.

"Be careful, there's poison!"

Tiger and the others were quick to react. The moment they recovered from the paralysis, they held their breath. Normally, unless it was colorless, odorless, and had no abnormal effects in a short period of time, it was basically impossible for a poisonous gas to poison them.

However, the strange thing was that the green gas did not enter through the respiratory tract. Instead, it seeped into their bodies through the pores of their skin.

This was really impossible to guard against.

"I'm fine. The poison doesn't seem to be too strong. I can use my zhenqi to suppress it. I'll just have to find old Phil to make an antidote when I get back."

In the face of this series of sudden encounters, although Tiger was somewhat flustered, he still maintained the demeanor of a heaven breaking expert.

In the end, heaven breaking experts, to a certain extent, had already reached the limit of a cultivator's bottleneck. Unless they really encountered an abnormal existence, even if they stood still and let others kill them, it would not be so easy to kill them. Ordinary means would not be able to take their lives.

As soon as he finished speaking, his stomach started to feel weird.

Not only him, but the other heaven breaking experts all clutched their stomachs in unison.

It was simply unimaginable!

At the heaven breaking stage, even if one's body wasn't truly immune to all poisons, they would have long since bid farewell to ordinary physiological illnesses. It was impossible to drink a ton of laxatives on the spot!

But the reality was so strange, a group of heaven breaking Masters actually experienced the feeling of fleeing after a long time, and it was quite a momentum, they couldn't stop it even if they wanted to!

Even Lin Yi, a bystander, felt bad for them, let alone the people involved. He couldn't help but curse at old Wang, who looked like a serious Grandmaster on the surface but had a stomach full of dirty things. Normal people wouldn't think of making this kind of weird talisman ...

This wasn't the end. As Tiger and the others covered their crotches and scurried away tragically, another strange high-grade talisman cracked open.

Then, the group of people really split apart.

Lin Yi gave a sincere comment after looking at it. "The sky-class Island version of the pepper spray, it's awesome."

Not to mention anything else, today he had really opened his eyes. What kind of scene a group of heaven breaking Masters collectively crying was like? it would have been unimaginable in the past, but today he had really seen it.

He had to admit that Wang dingtian had put in a lot of effort for his precious daughter. Otherwise, he wouldn't have made so many high-grade talismans that looked like child's play but had all kinds of magical effects.

Chapter 9342

Of course, this was only the tip of the iceberg. There would definitely be even more powerful killing weapons in the future. If the little girl was allowed to throw them all out, it was not impossible for Tiger and the other heaven breaking experts to be played to death!

However, heaven breaking experts weren't given for free.

Although they had been tortured from the beginning to the end and hadn't even seen Wang shiqing's face, it wasn't that Tiger and the others were completely helpless. It was just that they were used to acting like tyrants and were temporarily dumbfounded.

After a long time, they would be able to react in the end. As long as they were willing to pay the price, it would not be difficult to break out of the situation.

At the end of the day, there was still a huge gap in strength between them and Wang shiqing. No matter how useful a high grade talisman was, it could not completely replace the absolute gap in strength, not to mention that it was not even a black grade talisman.

"Damn it, I'll fight you to the death!"

Tiger's anger finally rose, and he could no longer hold it in. He didn't hesitate to consume a part of his primordial spirit to fuse with high-intensity fire attribute true Qi to forcibly create a divine fire bomb out of thin air. This was his life's sign, and he had once used it to instantly kill many heaven breaking experts of the same level.

Because this move was too powerful, once it was used, it would definitely affect the entire Central Hotel. Although the Central Hotel's level of protection might not be directly razed to the ground, a large area of damage would definitely not be small. At that time, even if there was a master behind it, it would be difficult to cover it up.

After all, the Central Hotel wasn't a pushover that they could easily bully. If things really got out of hand, there was a high probability that he, the instigator, would be thrown out as an abandoned pawn. At that time, his life or death would not be in his own hands.

But now, he was so angry that he couldn't care so much!

Seeing the divine fire bomb take shape, the rest of the people who were also in a state of ecstasy revealed horror on their faces.

They had seen the power of this thing with their own eyes. Even if they were not the main target, they would definitely be caught in the crossfire if it exploded at such a close distance. At the very least, they would lose a layer of skin.

However, it was too late to stop it now. Besides, from their perspective, there was no need to stop it. On the contrary, they would rather the Tiger be the one to stand out. After all, if things really got out of hand, the one to be abandoned would be the Tiger, not them.

"The girl in the room, you don't have to hide, I can already see you! Since you dared to play with your Tiger Lord, you should have been prepared to die. Now, you can die!"

The Tiger endured all kinds of discomfort from head to toe and was about to detonate the divine fire bomb.

Three, two, one!

As the countdown began, an extremely dangerous aura spread out. Everything in the surroundings began to move on its own as if it was the end of the world, and they were on the verge of collapse.

In the end, just as the divine flame bomb was about to explode, a hand appeared above it without any warning. Immediately after, it casually clenched the air.

Everything stopped abruptly.

For a moment, time seemed to have stopped. Tiger and the others even forgot about the feeling of wanting to die from their bodies. They looked at the owner of the hand in a daze.

"Barging into my room without permission and looking at me like that, it's very rude."

Lin Yi's expression was indifferent as he let go of his hand, and a wisp of smoke and fire dissipated with the wind. The Godfire bomb that was the pride of a heaven breaking master was no different from a matchstick in his hands, easily extinguished with a light pinch.

"H-how is this possible?!"

When tiger saw this, he could not help but doubt his life. He could not see the strength and realm of the person in front of him, but he was clear about the horror of his divine fire bomb.

In addition to the shocking explosive power, the most powerful thing about the divine fire bomb was that it used the primordial spirit as a guide. Even if it contained very little primordial spirit, any move that was related to the primordial spirit, especially when it involved the self-destruction of the primordial spirit, would definitely be extraordinary.

If it was just an ordinary move, he could still understand it if the other party destroyed it with a single move. After all, there was always a higher mountain.

But now, even after fusing with his primordial spirit and self-destructing, he was still snuffed out with one hand. Just how powerful was the other party?

Especially the primordial spirit, it was impossible for it to not be more than two major realms higher!

However, he was already a master of the heaven breaking stage, and the cultivation method he practiced was a bit special. His primordial spirit was by no means weak among Masters of the same level. Even if it was a higher level of the great circle of heaven breaking, the primordial spirit was at most one realm higher than him, so how could it be possible to achieve this?

Unless, the other party's realm was not only at the great circle of heaven breaking, but one level higher!

Thinking of that possibility, Tiger couldn't help but feel weak in the knees. If that was the case, he had not only kicked an iron plate, but also hit Buzhou Mountain head-on!

Lin Yi didn't think that the fire-controlling skill would elevate his status to an unimaginable level.

But then again, he really couldn't be considered as a complete heaven-cleaving cultivator in the conventional understanding, especially in the aspect of primordial spirit, so it wasn't surprising that the other party had such a cognitive deviation.

"Let's put aside whether it's possible or not. Since you've already barged in, it's not right if you don't report your background first, right?"

Lin Yi waved his hand, and a single sofa moved silently to his side, stopping behind him.

He flicked his sleeves and sat down in front of everyone, leaning back comfortably on the sofa with his legs crossed, looking like a big brother.

Wang shiqing, on the other hand, still wanted more. If it weren't for Lin Yi's signal to stop her, she would've thrown all the high-tier talismans at Tiger and the others. After all, it wasn't easy to find tough targets like this anywhere else.

"This guy ..."

Tiger and the others looked at each other, not daring to act rashly.

Other than Wang shiqing messing with them, they were really shocked by Lin Yi's performance just now. With Lin Yi's strength, even if they worked together, they would only humiliate themselves and die faster!

"You don't want to say?"

Lin Yi frowned and said helplessly, "Aren't you forcing me? I've always been a pacifist. If you can talk to me nicely, I might forgive you for your illegal intrusion. But if you don't cooperate, I can't do anything about it. I know how to torture people ..."

Lin Yi said as he stood up, scaring Tiger and the others. Tiger, who was the first to be hit, was panicking. "What do you want to do? We're the Nanjiang King's Men. If you dare to mess around, you'll be dead!"

"Nanjiang King? What is it?"

Lin Yi raised a brow.

"Ignorant fool! Our Nanjiang King is one of the Four Great Kings of Jianghai city. He's a super big Shot who stands at the top of the entire Jianghai city. Even the Central Hotel has to take a detour when they see him. Even the city Lord has to give him some face!"

The old Tiger straightened his neck and shouted. This in itself was already a sign of a lack of confidence. He was really scared out of his wits now and could only rely on bragging about his master to boost his courage.

Chapter 9343

Lin Yi couldn't help but be surprised, "that big of a background?" Then why is he targeting me for no reason?"

Tiger and the others were left speechless.

Stare, my ass! You're just a fat sheep from outside, and the big boss doesn't even know of your existence!

But it was a slap to their own faces if they said that-if Lin Yi was a fat sheep, then what were they? A tender grass that was automatically sent into the mouth of a fat sheep ...

In the end, it was still Tiger who braced himself and explained, ""This matter has nothing to do with Nanjiang King. It's our brothers who are short on money. It just so happens that you're generous, so we wanted to borrow some money from you."

It wasn't that he didn't want to use Nanjiang king's name, but that Lord was too powerful. Even with his guts, he didn't dare to be so petty. It was a small matter to hit a nail in Lin Yi's place, but if the news spread and that Lord found out, the consequences would be unimaginable.

"It's that simple?"

Lin Yi was a little disappointed, although this was the most reasonable explanation. After all, he'd exposed his wealth during the day, so it was completely reasonable for him to be targeted.

However, he still hoped that there was a deeper reason, and it would be best if it was related to the missing Tang Yun. If it was really related, it would save him a lot of trouble, and he could see Tang Yun earlier.

In the end, they were just a bunch of punks, punks in the heaven breaking stage.

"It's that simple. "Tiger and the others looked at each other.

Lin Yi squinted his eyes and asked, "How did you guys get in? How did you know I was staying in this room?"

The few of them looked at the Tiger, who seemed to be rather carefree. "The captain of the guards here is my brother. With him around, we can come and go as we please. As for your room number, it's even easier. Just ask."

Lin Yi understood immediately-the guy had just lost to him, it was only natural for him to hate him.

But this was good as well-at least it meant that you Cl 'er wasn't targeting him on purpose, and there was no need to break up with the Central Hotel so early. After all, he'd just arrived, and he still hoped to get more information from her.

"Other than this, is there anything else you want to explain?"

Lin Yi asked.

Tiger and the others looked at each other speechlessly. They really had nothing to explain. They had only come out to slaughter a wave of fat sheep. Who would have thought that it would turn into this situation? He had no choice but to lower his head and admit that he was unlucky.

"Since that's the case, I'll send you off."

Lin Yi clapped his hands and walked towards them, scaring the hell out of them.

Tiger was so scared that his voice changed, "d-don't do anything stupid. Killing people in Jianghai is a serious crime. If you really dare to attack us, you won't be able to escape death. Even if it's just for the sake of face, our Lord will not let this go!"

Lin Yi grinned, "did I say I was going to kill you?" It's just that I saw that you were all working hard, so I personally sent you down. Don't worry, it's no trouble at all. "

After saying that, he raised his hand and grabbed the back of the Tiger's neck. Then, with a casual throw, the big man immediately flew out of the window like a piece of garbage.

Immediately after, the others followed in the Tiger's footsteps one by one. From the beginning to the end, they did not have the slightest power to resist.

One more thing, this was the 24th floor.

It was true that the twenty-fourth floor wasn't enough to kill a heaven breaking master, but Lin Yi did something when he grabbed them-he'd disrupted their Qi flow.

In this way, even though he would not fall to his death, he would definitely suffer.

Whether it was from the bottom of his heart or for the big picture, Lin Yi didn't have the intention to kill. It was easy to get into trouble, and most importantly, it wasn't that bad.

However, he couldn't let these people off the hook easily-he'd have to teach them a good lesson for coming after him. Lin Yi wasn't lacking in the sense of helping others.

You Ci 'er heard the news very quickly and quickly came over to comfort Lin Yi, afraid that he would misunderstand.

Not only did he get them a new suite, but he also ordered the guard Captain to be crippled and handed over to the law.

No matter where they were, the most hated people were always traitors.

Lin Yi didn't even need to think to know what would happen to that Wu guy-he'd be spending the rest of his life in prison as a cripple. If you Cl 'er was a little more cruel, he'd probably just disappear from the face of the earth in a few days.

After all, as the captain of the guards, this guy must know a lot of inside information about the Central Hotel. If there was anything that could not be exposed, it was highly likely that he would be killed.

Of course, these things had nothing to do with Lin Yi anymore. He had no interest in finding out the inside story of the Central Hotel, and he had no interest in caring about the life and death of a death-seeking expert. As long as it had nothing to do with Tang Yin, he couldn't be bothered with her.

He thought that the matter was over, but the next morning, you Cl 'er brought news that made Lin Yi's heart jump.

"The Tiger is dead? All of them are dead?"

Lin Yi felt a strong sense of conspiracy from the first moment he heard the story. It was only the 24th floor-how could a heaven breaking master fall to his death so easily?

Even if he couldn't control his true Qi freely during the process, in theory, he would at most be half-crippled. After all, even if heaven breaking cultivators didn't specialize in body training, the strength of their bodies could be considered superhuman. It was normal for them to jump up, Pat their butts, curse, and turn around to leave after falling into a pit.

At most, he would just lie on the bed for a while. If he really could die from a fall, then a heaven breaking expert was too worthless.

The key was that if it was just the Tiger alone, then there might really be the possibility of him being unlucky. After all, the world was full of strange things, and there were many people who choked to death while drinking water. But a group of heaven breaking experts falling to their deaths together, that was too incredible.

Even if it was a coincidence, it couldn't be this coincidental. There must be someone behind it!

You Ci 'er nodded and said with a serious expression, ""I heard that Nanjiang King is furious and is sending people to inquire about this matter."

"So you're using this as an excuse?" Lin Yi raised a brow.

"You don't have to worry too much, Lin shaoxia. Since the incident happened in our Central Hotel, I'll naturally handle it. Even if the other party wants to use this as an excuse, it won't be that easy. They won't be able to find out that it's you, Lin shaoxia."

You Ci 'er's attitude was very heartwarming, but she did not say it outright and still left some room for negotiation.

Can't be found in a short time? What about after a long time?

But even so, it was enough for Lin Yi to think highly of her. He asked, "Could it be that with Central's Foundation, they're still afraid of this Nanjiang King?"

In other places, even if central wasn't domineering, it had always been extremely unyielding. It would never lower its head to any other person or force. It was already a rare act of humility to be able to conclude a truce with him.

Chapter 9344

"I'm not really afraid. However, this person has deep connections with the other higher-ups in Jianghai city. A slight change will affect the whole situation. We are all businessmen. There are some things that we have to do as the Romans do. After all, we can only make money by being friendly."

You Ci 'er explained with a smile.

In other words, it would be very troublesome if she touched Nanjiang King, but he wouldn't be able to touch her either. Usually, they would mind their own business, and she could turn a blind eye to some small matters. However, if she really touched her core interests, it would be a different story.

"If that's the case, thank you for helping me out, manager you," Lin Yi cupped his hands.

You Ci 'er smiled sweetly. "You're too kind, young hero Lin. You're our distinguished guest, and this is our duty. Besides, I hit it off very well with sister shiqing, so I can't stay out of it."

"Sister Ci 'er is so righteous. You're really a role model for our generation!"

Wang shiqing, who was standing at the side, decisively flattered you Ci 'er, making her giggle in joy. Her graceful figure suddenly looked even more sinful.

After sending you Ci'er out, Lin Yi was still thinking about the deaths of Tiger and the others when the little girl beside him had a serious expression on her face. She couldn't help but ask, "What's wrong?"

Wang Shiqing sneaked behind the door and listened for a long time. After making sure that no one was outside, she said seriously, "She's just trying to please me for no reason, Lin Yi big brother, do you think Ci'er is up to something?"

Lin Yi was speechless.

The little girl had just been as close as sisters with you Ci'er, but in the blink of an eye, she actually suspected that the other party had ill intentions. Was this the legendary plastic sisterhood?

"Although I think sister Ci'er is a good person, she's still a central person. Maybe everything she shows is just a disguise, and she's actually a bad person with no conscience?"

The more Wang Shiqing thought about it, the more she felt that it made sense.

Lin Yi rubbed her head, speechless. "There's no need to think so much. Even if central is the center, it doesn't mean that everyone is bad. She didn't know my relationship with central. The reason why she did all this was to do me a favor within a controllable range. I can't tell what she's plotting for now."

"Oh, really? That's good. Otherwise, I'd be in a dilemma. I'm not good at acting. "

Wang shiqing still thought that her own conspiracy theory was more fun, but since Lin Yi said it, she naturally trusted him unconditionally.

Moreover, you Cl 'er's character was really not detestable.

Lin Yi rolled his eyes at her. A little girl like you who's not good at acting? what did you do to me back then? Only an Oscar winner would know how to act ...

Wang shiqing didn't interrupt Lin Yi when she saw that he was deep in his thoughts, but she couldn't hold it in anymore,"I can 't, I can' t, Lin Yi big bro, I need to go out and buy some good food!"

"Then I'll accompany you."

Lin Yi got up immediately-he'd be worried if he let the girl go out alone after what happened.

Wang shiqing shook her head."No, no. I'll go find big sister Cl 'er. She knows where to find good food."

"That's fine too. Be careful and come back early."

Lin Yi couldn't help but be worried, but thinking about how Tiger and the others were last night, and the fact that this girl had a bag full of nuclear weapons, he didn't need to worry.

Lin Yi didn't stay idle after Wang shiqing left. He went through everything that happened last night, including the landing point of Tiger and the others. There was nothing unusual.

One thing was for sure now. At least when they fell off the building last night, Tiger and the others were not dead. In fact, they were not even seriously injured. Otherwise, there would have been some traces left at the scene.

Plus, everything that happened last night was under Lin Yi's spirit sense. If there was anything wrong, he would've noticed it.

In other words, something must have happened to Tiger and the others after that. However, as for where exactly it happened and who was behind it, that was unknown.

Lin Yi came up with two possibilities. Either the murderer was after him, trying to make him and Nanjiang King go against each other, or the murderer was after Tiger and the others, but they weren't in a good state at the time, giving the murderer a chance.

There were both possibilities. If one had to analyze it, the latter was more likely. After all, with Tiger's style of doing things, he must have made a lot of enemies. The probability of being targeted and being hit when he was down was quite high.

As for Lin Yi himself, other than the flying shuttle he bought to show off his wealth, there really wasn't any other reason for him to be targeted. It couldn't be because of Tang Yin, could it?

He was confused.

After much analysis, Lin Yi only came to one conclusion-he had to make another wave of Mystic level talismans to calm down.

Only with a strong weapon could one be confident. If someone came looking for him, he would follow Wang shiqing's example and throw a wave of profound-grade talismans at the other party to make them doubt their life.

It was almost noon, and Wang shiqing, who had been out for half a day, pushed the door open and bounced in. She stuffed a large wave of delicious food into her hands as if she was presenting a treasure.

Lin Yi took a look and found it quite familiar. It was all street food, comparable to the dark food in the secular world.

However, although it didn't look good, it tasted really good. As for whether it would affect his health, he was now a complete heaven-breaking cultivator. He wouldn't die from eating arsenic directly, so how could it affect his health?

Wang shiqing didn't stay idle either, and she pouted her lips.

"Lin Yi big brother, did you know that Xiao Qing found out that there's a Wang family here too? and it's a formation family too, isn't it a coincidence?"

Wang shiqing said while snatching food.

"A branch of your Wang family?" Lin Yi asked, surprised.

If they were all surnamed Wang, then it wouldn't be a big deal. There were many clans with the same surname in the world, but for them to all be a clan of formations and talismans while surnamed Wang was too much of a coincidence.

After all, a formation family wasn't something you could just run into anywhere. They were rare in other regions, but Lin Yi believed that even in this Earth Class sea, they weren't something you could just run into.

And according to Wang dingtian's description, an ancestor of the Wang family had indeed come to this earth-class Sea area, so it was not strange that a branch of the family was left here.

Wang shiqing shook her head. "Forget it. They're much more powerful than our Wang family. Even if we're not related, we're the only branch."

Lin Yi couldn't help but look at her in surprise. This girl knew her own limits.

Speaking of which, even if there was some kind of bloodline connection between the two families, it would still be based on strength. Even if Wang shiqing's family had an even more ancient inheritance, or

even if the ancestors of the Wang family here were from her family, it wouldn't change the overall situation.

The sky-class Island was a place where strength was King, and the earth-class Sea region was no exception.

Chapter 9345

If Wang shiqing really went to the Wang family in the name of being a descendant of the Wang family, if the other party had better self-restraint, he might treat her with courtesy on the surface. If he didn't have a good upbringing, he would probably be humiliated on the spot or even kicked out.

However, even though she had this awareness, looking at the little girl's expression of wanting to say something but hesitating, she was not willing to pretend that nothing had happened.

"Then what do you think?" Lin Yi asked. Should we pay a visit?"

Although the future wasn't optimistic, if Wang shiqing really wanted to visit, he would still go with her. At least with him there, the girl wouldn't suffer any losses. At most, they would part on bad terms.

"No, I can't. It'll be so embarrassing if I'm thrown out. It'll make me look like a poor relative from the mountains."

Wang shiqing pouted, but then she said, "Lin Yi bro, we don't have much spiritual Jade left, right?"

"I can barely hold on for a while. What's wrong?"

Lin Yi didn't have a lot of spirit Jade on hand, especially after buying the shuttle.

Yesterday, he had even asked you Cl 'er about it. The spirit Jade cards in other places were not used in the earth-class Sea area. Although there was a way to transfer money, the procedures were quite cumbersome, and one had to go to a special place to verify their real name.

This basically eliminated Lin Yi's idea of transferring the money-it'd be fine if the procedures were complicated, but once his real name was verified, the person would know his background-it was a taboo with his experience.

He didn't want to take unnecessary risks until he found Tang Yun.

Wang shiqing rolled her eyes and said in a serious tone,"I went out for a walk this morning and found a very serious problem. The prices here are so expensive. Just buying some food would cost dozens of spiritual Jade. It's like robbing!"

"You still care about this?"

Lin Yi was stunned.

However, he had also discovered that the prices here were not cheap when he was in the shops in Lianxia. Things of similar prices could be priced at at least five times the price, and some could even be priced at more than ten times the price. The average person could not afford it.

"Of course I care! Think about it, big brother Lin Yi-we don't need to spend any extra money staying at Cl er's place, but we can't stay here forever, can we? We'll have to spend money on everything when we go out in the future, so we can't just sit around and eat. "

Wang shiqing's face was full of sincere advice as she counted all kinds of expenses with her fingers, like a daughter-in-law in charge.

"What are you trying to say?" Lin Yi was amused.

With this girl's cheeky personality, he did not believe that she would really have such a headache over these things. No matter who starved to death, she would not starve to death. Furthermore, other than the pile of nuclear weapons that Lao Wang had given her before he left, he also had many other treasures that he had kept hidden. Any one of them could be exchanged for a large amount of spiritual Jade.

"What I mean is, we have to think of a way to earn spiritual Jade. We have to ensure a stable source of income."

Wang shiqing continued to speak seriously.

"Just tell me, what do you want?" Lin Yi said, rolling his eyes.

Wang shiqing chuckled and revealed her true intentions, "I saw a Recruitment Notice on my way back just now. I think it's quite suitable for the two of us. Why don't we give it a try?"

"Recruitment Notice? What are you hiring?"

Lin Yi looked at her with a weird expression, not knowing what the girl was up to.

Wang shiqing stuck out her tongue in a cute way. "A personal bodyguard and an array maidservant."

Pfft!

Lin Yi had just taken a sip of water, and he spat it all over the girl's face. "Didn't you say you can't match up to him? Why are you still eyeing the Wang family?"

An array maidservant was clearly someone that only an array family would hire. It was obviously the array family that she had just mentioned, the Wang family. The little girl had gone around in a big circle and finally came back ...

"I'm forced to do this. "

Wang shiqing wiped her face and looked at Lin Yi pitifully, "Lin Yi bro, you've seen how weak house Wang is right now. If I don't learn something, not only will house Wang be revived, but it'll also be destroyed by my brother and me. You don't have the heart to see that, do you?"

"So you're going to steal their stuff?" Lin Yi looked up at the sky, speechless.

Wang shiqing's eyes lit up, and she nodded. "Right, right, Lin Yi bro and Xiao Qing really do have telepathy! Great minds think alike!"

Great minds think alike!

But seeing the pitiful look on Wang shiqing's face, even if he knew that she was just pretending, Lin Yi couldn't bring himself to reject her. Speaking of which, it wasn't a bad thing for him to get into the Wang family, a formation Noble House.

Firstly, the pavilion closest to the water enjoyed the moonlight first. Being able to come into contact with more high-grade talismans, especially profound-grade talismans, would be a great help in improving his trump cards in the future. Secondly, he could use this opportunity to have a more intuitive understanding of Jianghai and even the entire earth-grade Sea area.

After all, no matter how he looked at it, staying in the Central Hotel wasn't the best plan. If he couldn't even find out the situation in Jianghai city, how was he going to find Tang Yun?

"Alright, I'll go with you."

Lin Yi's voice had just fallen when the girl rushed up to him and nibbled on his face excitedly, almost tearing down the house in joy.

Without further ado, the two of them bade you Cl 'er farewell and immediately set off for the talisman patrician Wang family.

Lin Yi thought it was just a simple recruitment-a bodyguard and a maid, what could it be?

However, he was wrong. Looking at the huge crowd in front of the Wang family, Lin Yi couldn't tell if this was a servant recruitment or an exam venue for the film and television School.

"We didn't come to the wrong place, did we?"

Lin Yi couldn't help but Mutter.

Wang shiqing was also dumbfounded. No matter how powerful the Wang family was, bodyguards and maidservants were just servants. Shouldn't people who had a little bit of ambition look down on them? What the f * ck was this?

However, from the content of their discussion, the two had not come to the wrong place. This was the recruitment site of the talisman patrician family, the Wang family.

Lin Yi couldn't help but click his tongue-they were just here to hire a bodyguard and a maid, and they turned it into an audition? were all earth-ranked jobs this hard to find?

Based on the situation in front of him, not to mention a successful interview, just signing up would probably take a lot of effort.

The key was not only that there were so many people, but there was also no order at all.

Chapter 9346

If it was orderly and everyone was lining up obediently, then so be it. But now, everyone was squeezing each other. What was even more outrageous was that some people even brought servants, and there were more than one or two of them. They were dressed in bright clothes and rode on angry horses, completely looking like the young masters of a wealthy family.

This was really incomprehensible.

What was the point of bringing a slave to apply for a job?

Wang shiqing was so excited to see this that she wanted to try pulling Lin Yi in, but she wasn't big, she wasn't strong, and she wasn't strong enough-she couldn't get past the wall at all. She could only look back at Lin Yi pitifully.

Lin Yi couldn't help but laugh as he walked forward with the girl.

The invisible but substantial zhenqi squeezed forward in an extremely sensitive and multi-tentacle posture, easily opening a small path for the two of them in the gap between the people. This was not suppressing people with force, but a complete embodiment of high-end skills.

With Lin Yi's current realm, his control of pure Qi was already at the peak, and he could do anything he wanted with it.

Even so, there were still some people who were dissatisfied.

One of the bald men turned his head and cursed, ""Where did this country bumpkin come from? How dare you use your zhenqi so casually in front of the Wang clan? don't you know the rules? Men, throw him out for this young master!"

As soon as he finished speaking, two strong men squeezed towards Lin Yi, glaring at him with ill intentions. They were both heaven breaking Masters.

Wang shiqing wasn't a person who was afraid of trouble. She always liked to watch a show and didn't care if it was a big deal, even if it happened to her. Seeing this, she immediately wanted to throw a nuclear weapon and repeat last night's strange scene.

Fortunately, Lin Yi stopped her.

Her high-grade talismans were all area-of-effect attacks. If she really threw them out, she would definitely bring disaster to a large group of people and easily provoke public anger. Moreover, since she had already made up her mind to come to this talisman patrician family, the Wang family, to secretly learn, she couldn't rashly reveal her own trump card. Otherwise, she would only alert the enemy.

As for the two heaven breaking Masters who surrounded him, Lin Yi sent them flying with a slap each. The whole process was so light and casual, without a trace of smoke or fire.

The bald man was still jabbering on and on, as if he wanted to use this opportunity to show off his presence, but he shrunk his neck and didn't dare make another sound when Lin Yi looked at him.

He couldn't help but Mutter in his heart, where did this ruthless person come from?

In terms of strength, he wasn't even as good as his two subordinates. If he were to be slapped, it would be a small matter of getting injured, but it would be a big matter of embarrassment. With so many people watching, wouldn't he become a laughing stock in the future?

Not only the bald man, but all the other people who were dissatisfied with this scene also quieted down, not daring to show any signs of abnormality.

At the end of the day, they were still stuck at the outer circle, which meant that their strength wasn't all that great. They could still show off in front of normal people, but if they really ran into someone as tough as Lin Yi, it was the wisest thing to do-they were all smart.

Lin Yi continued to walk with the girl, but there was a young man with small eyes following behind them.

The guy was smart, using the gap Lin Yi and Lin Yi left behind. It was a little harder, but it was much easier than forcing his way in.

The small-eyed man cupped his hands when he saw Lin Yi looking back at him. "Brother, do you mind if I borrow your light?"

"As you wish."

Lin Yi shook his head nonchalantly. He never minded helping people out like this, unless the other party had bad intentions.

The small-eyed man was overjoyed and took the opportunity to get closer to him. "I am Tao Baibai, a local of Jianghai. How should I address you?"

"Lin Yi,"

Lin Yi didn't use a fake name this time. After all, he was a newbie here with no background. As long as he didn't say anything, no one would be able to find out where he came from. It didn't matter if it was a real name or a fake name-it was just a code name.

Tao Baibai cupped his hands again and said, 'it's a pleasure to meet you. Brother Lin, you're here for the Wang family's eldest miss, right? You're handsome and talented, and if you can do something good, you'll be a perfect match for each other. But I can't. Even if I'm lucky enough to get in, they won't even look at me. "

"Looks are justice, you're not as good as my big brother Lin Yi, brother Tao Baibai."

Wang shiqing interjected like an elder.

Lin Yi didn't know whether to laugh or cry. He patted the little girl's head and gave Tao Baibai an apologetic look before asking, "Brother Tao, what do you mean by the young lady of the Wang family? Aren't you applying for a bodyguard and a maid?"

"Brother Lin must be joking. If they were just hiring bodyguards and maids, why would there be so many people? Moreover, you've also seen that many of these people are children of rich and powerful families. Each and every one of them has a servant with them. How can they bring a servant to help others?"

Tao Baibai shook her head and said, "the Wang family is indeed impressive. They can be considered one of the top aristocratic families in Jianghai. But even so, it's impossible for a group of scions from the wealthy families to be willing to work for them." In the end, it's just the same four words, stealing Jade and fragrance. "

"Based on what you're saying, could it be that they're all here for the young miss of the Wang family?"

Lin Yi suddenly remembered that both the bodyguard and the array maid were hired for the Miss.

"What other reason could there be? You can't really be here to be a servant, right?"

Tao Baibai pointed at Lin Yi, ""Do you see the few people who are squeezed in the innermost area? They are all famous young talents in Jianghai city. They are all geniuses with Bright Futures. They are all ranked on the Jianghai Hidden Dragon ranking. "

"Hidden Dragon rank?"

Lin Yi blinked.

Tao Baibai was rather tactful and took the initiative to explain, ""The hidden Dragon Roll is a list provided by the mayor's mansion, and it includes the top 100 young talents with the most potential in Jianghai city. Anyone who can enter the list will immediately become a popular candidate for recruitment by all the major forces. In the future, they will definitely rise to the top."

"So you're saying that they're not just looking for a servant, they're also looking for a son-in-law?" Lin Yi said.

"Although he didn't say it clearly, he definitely had this intention. He just left some room for himself."

Tao Baibai explained, "actually, the Wang family was already looking for a son-in-law last year. With their family's influence and background, even if they were to marry into the family, it would still be very attractive to some young talents from ordinary families. If they could marry a beauty, it would be equivalent to saving a few hundred years of hard work and reaching the peak of their lives!"

As he spoke, his face was full of envy. It was clear that he yearned for it from the bottom of his heart. Unfortunately, whether it was strength or appearance, he was really lacking. This kind of thing could only be dreamed of in the day.

Chapter 9347

"Brother Lin, if you don't have any better ways to rise, you should really think about it. It's a rare opportunity."

Tao Baibai advised Lin Yi with good intentions.

From what he could see, as long as Lin Yi was willing to give up, he still had a chance. After all, his performance just now was enough to prove that Lin Yi's strength was not ordinary, probably comparable to those monsters in the hidden Dragon List. Plus, his face was not bad either, so he could be said to be a perfect fit.

Lin Yi wasn't interested in pimps like this, and replied casually, "I'm here to accompany my younger sister to the interview. As for being a young miss, I'm not interested."

"You're not interested in the young lady of the Wang family? Hmph, what a big tone!"

A cold snort suddenly came from the front.

He looked toward the source of the voice and realized that it came from one of the group of young talents that Tao Baibai had pointed out earlier. It was the leader of the group, a young man with a bright and handsome appearance.

"Brother Lin, be careful. His name is Xiao bawang, the young master of the local Xiao family. He is a loyal fan of the young lady of the Wang family. Furthermore, he is also on the hidden Dragon List. He is not a simple man."

Tao Baibai quickly reminded him softly.

Before Lin Yi could even open his mouth, Wang shiqing spoke up for him, "My brother has never been interested in some big Missy. What's there to be arrogant about? are you joking?"

It had to be said that this little girl was indeed a natural actress. She didn't even need to prepare for her acting and could immediately get into character. In the eyes of others, her performance was really like that of biological siblings.

"You're sharp-tongued,"

Bawang choked-he couldn't argue with a little girl in front of so many people, and so he continued to stare at Lin Yi.

"I've seen too many people fishing for fame and reputation. They're just pretending to be aloof and aloof, deliberately putting on an uncaring look to attract people's attention. Hehe, we're the ones who played these little tricks, so don't waste your time. "

Lin Yi smiled, "I just said I don't mind to attract attention, so if I'm not interested in miss Wang, I can't come here?"

"Nonsense. If you're really not interested in the Wang family's young miss, what are you doing here?"

Xiao bawang scoffed.

Lin Yi looked at him like he was an idiot. He pointed at the recruitment Notice at the entrance. "What else can I do? I'm applying for a bodyguard job. "

"You're just applying for a bodyguard position?"

Bawang looked at Lin Yi from head to toe as if he'd just heard something unbelievable. After a while, he slapped his own mouth. "In the end, you're just a servant, and this young master has overestimated you? Why are you wasting your breath on a servant like you? someone, throw this lowly servant out so that she won't taint the eyes of the Wang family's young miss. "

As soon as he finished speaking, two more heaven breaking experts immediately surrounded him.

The result was the same as before-Lin Yi didn't even change his hand gesture, and the two were kicked out of the court.

Everyone was stunned.

At this moment, a familiar voice came from behind. It was the bald man who had also suffered a loss just now. "It seems that brother Xiao can't do it either. You can't even deal with a lowly servant, how can you still have the face to enjoy the beauty of a Prince's family's young miss? Why don't you be more tactful and just give up your position to her? maybe she'll be able to enter the eyes of the Wang family's young miss?"

"That's right, heroes don't ask about their origins. Maybe they'll soar to the sky from now on? Perhaps, the hidden Dragon rank will change soon. "

Another person added.

As for the other people, they were all just watching the show. Although many of them were in the same circle as Xiao bawang, they were all competitors and could not wait for him to make a fool of himself.

"All of you, shut up!"

As the person involved, Xiao bawang's face was as dark as water. He was determined to get the Wang family's eldest young lady, and he would not allow any mistakes.

He was not only coveting her beauty, but more importantly, he was considering the benefits.

The Xiao family was considered one of the top aristocratic families in Jianghai. However, as the legitimate son of the head of the family, his position in the family was not stable. Due to the early death of his mother and the fact that he was not well-liked by his stepmother, he was at risk of being kicked out of the family.

There was not much time left for the patriarch's old injuries to relapse. He had to quickly increase his own power before his stepmother took full control. A marriage alliance with the talisman patrician family, the Wang family, was the most effective and ready-made path.

If he succeeded, not only would he be able to stabilize his position with the Wang family's influence, he would even have a chance to counterattack. When the time was right, it would not be impossible for him to take the position of clan head.

For this, he had already invested a lot of resources and even sold his family's interests, privately promising the Wang family a large amount of core family business. However, even so, the Wang family's attitude was still ambiguous.

This recruitment was a ready-made opportunity for him, but at the same time, it was also a big threat.

The most ideal situation was naturally for him to get what he wanted, but if he failed the interview, he had to ensure that other competitors would not get ahead of him.

After all, as long as the Wang family's eldest young lady didn't fall into the hands of the enemy, he, eighth prince, would still have a chance. However, once his heart secretly fell for her, he would be finished.

Because of this, he had to display absolute strength this time, so strong that no one dared to underestimate his existence, and even take the initiative to retreat.

Under such circumstances, how could he be defeated by a mere servant? This was not allowed!

"If you know what's good for you, you'd better give up your position. Fists and feet have no eyes. If you're accidentally injured by this young master, then you can only admit that you're unlucky."

Xiao bawang ordered, and the surrounding area quickly opened up a space that was neither big nor small.

Other than the Xiao family's background, he was also a publicly acknowledged talent on the hidden Dragon List. In terms of strength, there was no doubt that he was stronger than his peers. At least, among the competitors present, there were not many who could compete with him in a one-on-one battle.

Lin Yi raised his eyes at the full force of his opponent's aura!

In terms of realm, this strength was indeed quite good. It was the strongest person he had met since he came to the earth-class Sea area. He was obviously much stronger than Tiger and the others last night.

The vigorous yellow Zhen Qi was like a layer of coat on the surface of Xiao bawang's body. He was like a ferocious beast, baring his fangs and brandishing his claws. Even Xiao bawang's voice at the moment had a bit of wildness to it, like a human-shaped magical beast.

"Today is a special day. I don't want to see blood in front of the Wang family's Gate. I'll give you one last chance. Get lost!"

The word "scram" from desolate eight-eyed actually carried some kind of sound wave attack. Although it was restrained and did not fully release its power, it still made everyone's scalp numb. Those who were stronger almost fainted on the spot. Even those who were stronger had a serious expression on their faces.

Chapter 9348

Lin Yi crossed his arms nonchalantly and blocked the sound waves for Wang shiqing, frowning, ""Shouting in public will scare the children."

"Go to hell, you little kid!"

Bawang exploded in anger, the Qi on his body solidifying before exploding and he was in front of Lin Yi in the next second.

The rampaging pure energy opened a huge mouth, about to swallow Lin Yi whole!

This person was finished.

Everyone looked at Lin Yi as if he was a dead man-the energy beast was house Xiao's ultimate skill, and it was extremely powerful once it was unleashed. Few people of the same level could match it.

Especially now that he was swallowed in one gulp, he was basically dead without a doubt. Even if he didn't want to take a life in public and showed mercy, he would be reduced to a cripple from now on.

Yet Lin Yi just looked at him, watching as the man got closer and closer, as if he'd really been scared out of his wits.

It was not until Xiao Ba Wang was within three steps of him that he suddenly took a step forward and said indifferently, ""Be careful when you speak."

As soon as he finished speaking, he pressed his hand on the other party's face, and a loud bang was heard!

Xiao bawang had no time to react before his entire head was pressed into the ground, leaving a shocking head-shaped pit mark.

Everyone was in an uproar.

The reversal came too quickly. Even though they had seen the tragic state of Xiao bawang with their own eyes, it still gave them a very unreal feeling. This was not an illusion, was it?

It wasn't until Xiao bawang got up with a head full of blood that everyone finally came back to their senses. They looked at Lin Yi with unprecedented fear in their eyes.

In their group, even if Xiao bawang was not recognized as the strongest, he was definitely one of the top few figures. Even if there were people who were stronger than him, there was a limit to their strength.

Xiao bawang had been killed in an instant, and it was with one hand. It was obvious that he had not used his full strength. If they had been in his place, they would not have had a good end.

This hotheaded young man who had appeared out of nowhere was definitely a formidable opponent for all of them!

"Still want to watch the fun? If we don't work together to get rid of this cheap slave now, do you still have the confidence to fight him one on one later?"

Xiao bawang wiped away the blood on his head, and his expression became more and more ferocious.

He was considered a ruthless man-if it was anyone else who'd experienced this, they'd be scared witless already. Even if they could manage to maintain their composure, they wouldn't dare to fight Lin Yi again.

The words made the other people who were already scared come back to their senses. They knew from bawang's experience that they couldn't beat Lin Yi one on one, but it was a different story if they all worked together.

After all, they had gone through so much trouble to squeeze here, and all of them were here for the young miss of the Wang family.

They might have a chance against Xiao bawang, but if it was Lin Yi, they wouldn't even have a 5% chance.

It wouldn't be a big deal if Lin Yi was just strong, and taking his bodyguard position wasn't a big deal in itself. The problem was that this guy was pretty good at fighting, too. If the Miss really fell for this guy, then all their efforts would be in vain.

After thinking about it, the best solution was for everyone to take this opportunity to join forces and nip the hidden danger in the bud in advance, especially with the ready-made Xiao bawang in the front, even mobilization was saved.

But even so, everyone was still hesitating. After all, Lin Yi's performance just now was really fierce, and no one wanted to be the first one to stand out.

"What are you afraid of? Can't you see that this cheap slave doesn't dare to kill? At most, he only suffered some flesh wounds. Did he not even have this bit of courage? A bunch of sissies!"

Seeing this, Xiao bawang cursed.

Even he could feel that Lin Yi held back just now-even if he wasn't killed in one hit, he wouldn't have been able to get up so quickly.

After all, Jianghai was not a lawless place. If one's background was not strong enough, an ordinary person would not dare to risk universal condemnation and kill someone, especially in broad daylight in front of so many people.

But on the other hand, these people were different. Not to mention that they all had powerful backgrounds, if they really did gang up on Lin Yi and kill him, even if it would be a little troublesome, they would only be punished with some spiritual Jade.

After all, the law couldn't punish the masses. Would anyone go against so many of them for a mere cheap slave?

They didn't just represent themselves, they also had a huge network of connections behind them. It might not be a big deal if they were to look at it individually, but if they were to form a joint force, even the city Lord's mansion would not dare to take them lightly.

To put it bluntly, if Lin Yi dared to kill them here, he would have to pay with his life. On the other hand, if he was killed by them, he would die for nothing.

These people weren't good-for-nothings after all—they followed suit when they saw bawang attacking Lin Yi again.

Those who had the confidence to stand here, in addition to their respective family backgrounds, were also quite powerful. Each of them was at least in the middle stage of heaven breaking, and several of them were like Xiao bawang, who were at the great circle of heaven breaking!

The group of people collectively launched an attack, and the scene immediately became out of control.

The attack hadn't even landed on Lin Yi's head, but the innocent people around were already affected, but they didn't dare to say anything and could only swallow their anger.

"Little sister, hurry up and persuade your brother to run away. It won't be easy to end things if this matter is blown up."

Tao Baibai's face turned pale as he whispered to Wang shiqing.

Wang shiqing nodded. "It's not appropriate to kill so many people at once. I heard from sister Cl 'er that it would alert the city Lord's mansion, right?"

"Kill so many people? Who's killing who?"

Tao Baibai was unable to react in time. Then, he could not help but look as if he had seen a ghost. "Don't tell me you think your brother can beat so many people? Don't even think about it, many of these people are in the hidden Dragon rank. Although they are not the top ones, they are all famous people, how could they be challenged by one person ..."

Lin Yi had already started fighting before they even finished.

Being besieged by more than a dozen heaven breaking Masters, at first glance, the situation was indeed dangerous, especially when this group of people were all children of rich and powerful families, each of them had their own unique skills. They relied on the fact that the law did not punish the crowd to make a killing move, and did not have the slightest intention of holding back.

If it was anyone else in Lin Yi's position, they would be in danger as well. It was like a boat in a storm, ready to be destroyed at any moment.

According to common sense, once this kind of formation was set up, the outcome should be announced immediately, and life and death could be determined at any moment.

After half an incense's time, however, Lin Yi was still unscathed. He used his super butterfly microsteps and created a path of survival that should've been impossible in this group attack.

Chapter 9349

Tao Baibai was dumbfounded. "You're walking through a cluster of flowers without a single leaf sticking to you. Brother Lin is amazing!"

It was not just the bystanders who were shocked by this scene. When everyone in the game reacted, their hearts were also in a state of shock. Compared to the bystanders, they were more aware of the killing intent in the plan. It was actually broken so jokingly?

"Are you all sh * t-filled? He's already so timid, why don't you hurry up and kill him so that he can stay for the new year?"

Xiao bawang cursed again.

These words were shameless, but to the crowd, it was the truth. In Jianghai city, what was the use of being strong?

Unless you were so strong that you didn't need to reason with others at all, otherwise, you would have to accept the jurisdiction and be bound by layers of restraints. When it was time to be humiliated, you would still be humiliated, unless you were willing to pay with your life.

With Xiao bawang's reminder, everyone's attacks became more and more unscrupulous. They were really going to kill.

Lin Yi shook his head. He didn't just want to get caught in a murder case, but he also wanted to see how the Wang family would react.

From the Wang clan's standpoint, if it was just to recruit two servants, they would definitely not ignore this matter.

After all, if things really got out of hand, it wouldn't be a good thing for the Wang family. If something went wrong, it might even affect the reputation of the young miss.

But what surprised Lin Yi was that even now, the Wang house's door was wide open, but no one was coming out to take charge.

Was he too lazy to care? Don't want to care? Or was it intentional?

Lin Yi had his suspicions and decided to make his move. With a crack, the bald man's arms were twisted off on both sides, leaving behind a pig-like scream.

The situation had developed to this point, and this guy's provocation just now had played an important role.

Then it was Xiao bawang's turn.

"I was waiting for you! Idiot!"

Wangba, on the other hand, wasn't surprised at all-he was happy instead. He had a handful of black sand in his hand, and when Lin Yi reached him, the black sand flew up and changed the flow of time in the air.

Lin Yi's originally Swift and fierce movements were slowed down by several times under the influence of this. Although it was still considered fast to others, it was obviously in slow motion to him.

"It's the Xiao family's specialty, time sand!"

Tao Baibai exclaimed in surprise. At the same time, the surrounding people also revealed envious looks.

The Xiao family was not considered outstanding in Jianghai city. In terms of family background, they could not be compared to the top families with thousands of years of history. However, they still occupied a place that could not be ignored. They relied on their family's special business, the time sand.

The time sand was derived from the time hourglass. It was a special black sand that could affect the flow of time to a certain extent. It could be slowed down or accelerated.

The amplification was limited, and it wasn't on the same level as Lin Yi's nine-story Pagoda, but this thing could be used in actual combat, so its value was obvious.

According to the market price, one gram of superior-grade time sand was worth 3000 spiritual jades. Even so, the supply was still in short supply!

The Xiao family was the only family that had the secret method of making time sand. As long as the secret method was not spread, their rise was certain. No force could stop them unless they directly tore all decorum and snatched it.

As the legitimate son of the Xiao family, even if his family status was not stable, it was not difficult for him to get some time. Just now, he had sprinkled at least ten grams of sand.

In other words, he had thrown out at least 30000 spiritual jades just like that. This was a true spendthrift!

The 30,000 spirit Jade's effect was immediate-Lin Yi's movements had slowed down, and it was almost impossible for him to Dodge everyone's joint attacks. Even if he used super limit butterfly micro steps, he couldn't stay so calm.

" 30000 spiritual jades for the life of your cheap slave. It's worth it. Remember to thank me properly!"

Xiao bawang sneered as he issued his ultimatum.

At the same time, Lin Yi seemed to have accepted his fate. He didn't even try to Dodge anymore, letting everyone's crazy attacks land on his body. He looked like he was going to die.

Tao Baibai, who was watching the battle from the side, could not help but show sympathy, but she had no intention of helping. After all, they had only met once, and their friendship was far from that good.

Moreover, with his strength, even if he wanted to help, it would be useless. He couldn't help at all.

On the other hand, Wang shiqing looked very confident. Tao Baibai even suspected that she didn't understand the situation and didn't realize that her brother was in a desperate situation.

"Heh, you're quite tactful!"

Xiao bawang's attack was the fastest. His transformed beast's berserk true Qi wrapped around his fist, and he punched directly at Lin Yi's face.

From the looks of it, Lin Yi had no way of avoiding it, and with the time sand slowing him down, he had no choice but to face it.

But at the last moment, Lin Yi's left hand suddenly lifted up at an extremely fast speed and caught bawang's full-powered berserk beast fist with one hand, his face still as relaxed as before.

Xiao bawang's heart skipped a beat. Could this guy break through the time Sand's limit?

That was impossible!

Unless one could break through that heavenly chasm, no one could break through the time Sand's limit. No matter how talented one was, it was impossible because this was a power on a completely different level.

There was only one explanation for this. The speed he had displayed earlier was far from his limit. Perhaps he had only used 30% to 40% of his full speed. The amount of time sand he had left as a backup was too much. Even if he had used 30000 spiritual jades, it would only be a drop in the ocean. There was no way he could have restricted his speed!

This shocking discovery sent shivers down bawang's spine. He looked at Lin Yi's indifferent face that was inches away from him and finally felt a trace of regret.

Why did he provoke this guy for no reason? It was really like an old man eating arsenic!

But regret was regret, he didn't fall into despair. He believed that Lin Yi wouldn't kill someone in public, and he wasn't the only one.

Lin Yi did block his attack, but what about the others?

It wasn't like he had three heads and six arms. The time Sand's restriction effect wasn't fake either. It was useless to block him alone. The frenzied attacks of the others could also take this cheap slave's life!

Bawang was very confident and let Lin Yi grab his fist. He even squeezed out a smile on his face-he wanted to see how Lin Yi was going to die!

As expected, everyone's crazy attacks all landed on Lin Yi's head. Lin Yi couldn't avoid them at all and took the hits head on.

However, it was not as Xiao bawang had expected.

Chapter 9350

Not only was he not blown into pieces, but he was also unscathed, because the attacks of this group of heaven breaking experts simply could not break through his extremely strong protective Zhen Qi.

To put it simply, it couldn't even break through his defense ...

Lin Yi's original body wasn't as strong as his body on the sub Island, but with his pure Qi, he wasn't someone any cat or dog could hurt. As for the time sand, he'd encountered all kinds of Dark Demon beast bloodlines in the star Cloud tower, and they were many times stronger than that!

The situation became very awkward ...

Under everyone's dumbfounded expressions, Lin Yi looked at bawang suspiciously and asked, "What are you laughing at? You also find it funny that a bunch of people are tickling me, don't you?"

Eighth master Xiao was speechless. 'What you said makes so much sense. How should I answer so that I don't seem so short of breath?'

Before he could figure it out, he heard a cracking sound. Xiao bawang's hand fell powerlessly as he howled in pain, following in the footsteps of the bald man.

This scene made everyone shiver in fear, subconsciously distancing themselves from Lin Yi.

It wasn't just that Lin Yi's strength was unbelievable, the guy was also very skilled at dislocating arms, giving off the feeling of a professional orthopedist with decades of experience. Who the F * ck could take that?

But there were some who didn't believe it and wanted to kill him again while Lin Yi was distracted.

After all, the stronger Lin Yi was, the bigger the threat he posed to them. If they really wanted to join the job with Lin Yi, they'd have to be blind to hire them as bodyguards after what they'd just seen, not to mention their family background and other factors.

"Time and time again, do you really think I don't have a temper?"

Lin Yi couldn't help but frown.

Originally, he was really not angry. After all, these people did not pose a real threat to him. Even if he was targeted by eighth master Xiao, he dealt with them with a mentality of playing a monkey.

But now, with the lessons learned from Xiao bawang and the bald man, this group of people still didn't know how to restrain themselves and took advantage of their situation. He couldn't help but have the intention to kill them.

Even if he didn't want to kill them in public, he'd still be able to teach them a lesson they'd never forget. After all, Lin Yi wasn't a soft-hearted person.

Lin Yi's body flashed, ready to get serious. Without the sand and butterfly microstep, his whole body was moving at full speed, almost like a flash. His speed was so fast that people couldn't even catch up with his eyes, let alone his body.

However, just as the next person was about to suffer, a figure suddenly appeared.

What followed was an extremely simple side kick that Lin Yi couldn't Dodge. He had no choice but to face it head on.

BOOM!

It was clearly just a simple face-to-face encounter, but an unprecedented collision of true energy erupted between the two of them. The invisible air wave swept out in a circle, clearing the area within a hundred meters in an instant.

Everyone was dumbfounded.

If this was a special martial arts technique, it would not be strange to have such power, but anyone with eyes could see that the two of them had not made any unnecessary movements.

In other words, this true energy collision that could almost instantly kill A large number of people was purely the aftermath of the two people's normal attacks!

What kind of monsters were these?

Looking at the middle-aged man who lit a cigarette, Lin Yi's face turned serious like never before. He couldn't even see his opponent's strength!

At least one thing was certain, this person was at least the same as him. His cultivation level was above the great circle of heaven-breaking, starting from the great circle of heaven-breaking, or even higher!

At the same time, a large group of elite guards filed out of the Wang clan's inner courtyard. The originally noisy scene had suddenly turned somber. Including the unruly young talents, none of them dared to make a sound.

Lin Yi's eyelids twitched again-they were all in the great circle of heaven-cleaving!

With just this group of people, the talisman patrician Wang clan could already be said to be unfathomably deep. How could an ordinary patrician clan afford to hire a complete heaven crushing expert as a guard, and an entire team at that?

Most importantly, the Smoking Man in front of him-even from Lin Yi's point of view, he'd only be able to describe him as unfathomable.

"Like I said, I'm most annoyed with brainless young men like you. You all think you're the king of the heavens, but in reality, you're nothing. This is the Wang clan, a formation clan. Is this a place for you to cause trouble?"

The Smoking Man looked at everyone lazily before his eyes finally landed on Lin Yi, "Especially you, kid. Weren't you just about to start a massacre? Or do you think you'll be fine after you cripple them?"

"It's impolite not to reciprocate. Only they are allowed to kill, but I'm not allowed to fight back?"

Lin Yi replied in a tone that was neither haughty nor humble.

He was very afraid of the Smoking Man in front of him. From the scene, he and the other party were evenly matched, but in fact, he was still at a slight disadvantage.

Not to mention anything else, just being forced to take a head-on attack was enough to explain the problem.

The Smoking Man laughed when he heard that, 'you're quite something! "Hehe, later on, get someone to ask about their background. If you really cripple them, do you think you can walk out of Jianghai alive? Even I don't have the confidence, do you?"

Lin Yi was surprised, but he quickly cupped his hands and nodded. "I've learned. "

Just as the other party said, he really didn't know how deep the water was. If it was just a few Masters at the great circle of heaven breaking realm at most, with his strength, he could naturally come and go as he pleased, and no one could do anything to him.

However, if the background of these people's clans wasn't limited to this, but was similar to the Wang clan's talisman patrician family, easily producing a team of heaven crushing perfection experts, and even had existences on the Smoking Man's level, then it would really be hard to say.

If that really happened, Lin Yi might have a chance to escape on his own, but it was impossible if he had Wang shiqing with him.

"What's the use of acting obedient now? What were you doing earlier? I can't even take a good nap, and I have to come out and clean up your mess. Damn, just thinking about it makes me feel unlucky. "

The Smoking man's face was filled with impatience. He casually ordered his subordinates, ""Capture this bunch of people for your father. They dare to cause trouble here in broad daylight. There's no law at all."

With that, everyone, including Lin Yi, was surrounded by the guards.

As the saying goes, "the kind of person leads the kind of soldiers." This group of guards were completely like the Smoking Man, Black and ruthless. If someone showed the slightest bit of uncooperation, he would immediately be hit in the head and fall to the ground unconscious.

Just this point alone was enough to show how powerful the Wang family was.
