

Bodyguard 9411

Chapter 9411

The two unlucky fellows didn't even have the time to make a sound before their bodies, which were riddled with holes, fell straight down in the blood mist that filled the air.

Seeing this horrifying scene through the surveillance camera, even li MUYANG and the others, who had seen many bloody scenes, could not help but feel a chill run down their spines. No one spoke for a long time.

After a long while, li MUYANG laughed drily and broke the silence. "This kid is quite ruthless."

"He's indeed not a good person. "

Jiang Ziheng and Wang Zhong nodded repeatedly.

In terms of strength, although the two experts of the Black Dragon triad who had been killed in seconds weren't the strongest, they were still at the peak of the heaven crushing realm. Even if they were only at the initial stage, they couldn't be underestimated.

Although they were all mass produced goods and couldn't be compared to the students of Jianghai college, they were still at the same level. Logically speaking, even if they couldn't kill Lin Yi, they should at least be able to hold him off in a two on one fight. Who would've thought that they'd be killed so easily?

"Judging from his previous battle with Lu renwang, I thought that he had taken advantage of Lu renwang's severe injuries. But now it seems that this is not the case."

Wang Zhong followed with a bitter smile.

He was at the peak of the early stage of heaven crushing-one level higher than Lin Yi, but if they were to fight face to face, he wouldn't be any better off than the two unlucky Black Dragon Gang members.

If he was like this, then Jiang Ziheng, who was also not proficient in actual combat, was not any better. As for Li Muyang, no one had ever seen him fight personally, so his actual strength in a fight was still a huge mystery.

"But it's fine. The target of his make-up test isn't these small fries. No matter how many small fries of the Black Dragon triad he kills, he'll at most draw more hatred for himself. When he meets a tough one like Liu SANDAO, the more he kills, the more miserable his death will be!"

Jiang Ziheng consoled himself, half certain.

Now that he felt a huge threat from Lin Yi, if he didn't get rid of it, he wouldn't have the chance to get close to Tang Yun in the future.

Li Muyang looked at Liu SANDAO, who was abusing people on the top floor of the building, and took a sip of his aged spirit wine. ""Hehe, it'll be more interesting when two unkind guys bump into each other."

As soon as he finished speaking, Lin Yi on the screen glanced at the camera as if he'd noticed something. Almost at the same time, the footage was cut off.

"He found out?"

They were shocked and immediately realized that something was wrong. It wasn't just the surveillance cameras in the hall on the first floor that were cut off. At the same time, all the surveillance cameras in the entire branch building were cut off.

"He has a helper?" Wang Zhong quickly reacted.

This obviously wasn't something Lin Yi could do on his own. The only explanation was that someone in the control room cut off all the signals for him.

Jiang Ziheng's eyes lit up. "This is cheating. Young master Li, as long as we bring the evidence to the Academic Affairs Office, his make-up test will be over, right?"

It was the iron rule of the Academy that new students had to complete the assessment alone.

On the other hand, Li MUYANG's expression turned ugly. The first person that flashed through his mind was Wan Xiyan. On the surface, Wan Xiyan had indeed given him face by not canceling the make-up test. However, Li MUYANG would never believe that this old fox did not do anything behind his back.

"Let's go," he said.

Li MUYANG's face darkened and he stood up without saying a word.

"Where are you going?" JIANG ZIHENG and WANG ZHONG looked at each other.

"A branch of the black dragon triad!"

Looking at Li MUYANG's back, the two of them hesitated. With their abilities, they could still watch the live broadcast and talk a little, but if they really went to the venue, it would be a serious matter.

However, since Li MUYANG had taken the lead, the two of them could not just stand at the back and watch the show. They could only grit their teeth and follow.

At this moment, Lin Yi had already passed through the first floor's hall and was walking towards the second floor.

The branch building had a total of thirty-three floors, and every floor was guarded by people. Among them, there was no lack of evil people with strange abilities. If he really wanted to fight his way up floor by floor, even a small team would be difficult to deal with, let alone him.

of course, with lin yi's abilities, he didn't need to do that.

With the advantage of a crushing-level spirit and the plant element that could hide one's presence, the entire building was a one-way transparent battlefield for Lin Yi if he wanted to. If he was interested, he could even kill them one by one.

It wasn't a crime to kill all of them, but this was the official's responsibility. Lin Yi was a nice citizen, but he didn't have to be this nice.

Fifteen minutes later, Lin Yi had reached the thirty-second floor without a sound.

Within his spiritual perception, he could clearly see Liu SANDAO's movements upstairs. Naturally, he also saw sun Buyi's miserable state.

Lin Yi almost lost control of his breathing. Although they had only known each other for two days, he and his roommates were kindred spirits. It was rare for them to find a feeling of being brothers. How could he tolerate sun Buyi being killed so cruelly?

In the end, before he could do anything, the ceiling above him suddenly collapsed without warning, and Liu SANDAO's huge and fierce body appeared in front of him.

"Found you! Lin Yi!"

Lin Yi felt his body sink a little as the pressure hit him, but what surprised him even more was that the man was able to say his name without thinking!

If the other party had only sensed his existence in advance, it could be said that the other party's divine sense was sharp or that he had some special warning method. However, even knowing his name could only mean one thing.

Someone had leaked his information to Liu SANDAO in advance!

It was obvious that he was trying to kill with a borrowed knife.

"Aren't you afraid of ruining your boss's business by calling my name out like this?"

Lin Yi asked.

As for the mastermind behind this, he had previously thought that it was Li Muyang, but after Wan Xiyan appeared, he was not so sure.

Liu SANDAO's face didn't show the slightest bit of surprise, and he said without a care, "It doesn't matter. You're already a dead man anyway. It's no big deal to let a dead man know a little more. Just take it as I'm doing charity, hahaha!"

"You're that confident?"

"If you're so clear about my identity, you should know who I've just killed, right?" Lin Yi narrowed his eyes.

"Lu renwang? Haha, that Academy brat who still reeks of his mother's milk is worthy of being mentioned in the same breath as me, the third master? Let me teach you one thing, everyone is different, even if you are at the peak of the early stage of the complete heaven crushing realm, there is still a difference between heaven and earth!"

After he finished, Lin Yi thought that Liu SANDAO would make a move, but he saw Liu SANDAO's blade cut through the air, and sun Buyi fell to the ground, a pool of blood and flesh spread on the ground.

Fortunately, he was still breathing.

Lin Yi's eyelids twitched. Just as he was about to grab him, he saw the other party had a knife against sun Buyi's neck and said something that did not match his fierce temperament.

"Kneel down and call me Grandpa."

Even Lin Yi couldn't help but be stunned-why would this guy spout such hooligan-like trash talk?

"If you don't kneel, he'll die," Liu SANDAO continued to sneer.

At this time, the Black Dragon triad's Masters downstairs sensed the movement and rushed up. Lin Yi was suddenly surrounded from all sides.

Chapter 9412 Power

According to his common knowledge, with his strength, it was already a disaster for him to face Liu SANDAO alone. With the addition of this group of strong experts from the Black Dragon triad, let alone completing the mission to save sun Buyi, it would be as difficult as ascending to the heavens for him to escape.

"As the third leader of the Black Dragon triad, you're making things difficult for me."

Lin Yi smiled and shook his head. He didn't even look at the Black Dragon triad's experts that were rushing towards him. He directly walked towards Liu SANDAO.

Liu SANDAO's eyelids twitched as Lin Yi said, "If you dare to touch him again, I guarantee that you'll die a worse death than anyone else. Even your boss can't save you."

"Kid, you're very arrogant, aren't you?"

Liu SANDAO laughed and stabbed down without hesitation.

Before this, he had already slashed sun Buyi one thousand three hundred and forty-seven times. However, sun Buyi was still alive because killing people was his specialty. As long as he wanted to, he would not die even if he slashed another thousand times.

However, with this blade, sun Buyi would definitely die. Not even the gods could protect him. The only outcome would be his body and soul being destroyed!

However, in the last moment before the giant machete stabbed down, SANDAO Liu's entire body suddenly trembled, and he actually froze on the spot.

Divine sense collision!

With the huge advantage of being in the immortal soul Stage, this move had become Lin Yi's trump card- it worked every time he started.

It wasn't that there weren't any spirit-defense items in the earth-class sea, but Lin Yi now knew why people in the earth-class sea didn't usually use this kind of item. To them, taking an enemy's spirit attack was also a kind of training for their spirit.

Under normal circumstances, a spiritual sense attack of the same level would not have much effect, and it would be the same with or without a defensive tool. However, higher level enemies did not need a spiritual sense attack, and a casual attack could end the battle.

Lin Yi's case was too rare, so a simple clash of spirit sense was the only thing that worked.

However, Liu SANDAO's reaction was extremely fast. Even if he was hit, it was only for a very short moment, and he recovered very quickly. His resistance to the collision of consciousness was high, and it

could be said that he was the strongest opponent Lin Yi had faced so far, even higher than Chen Beishan and Lu renwang!

Fortunately, Lin Yi had achieved his goal.

The demonic devouring sword whizzed out, its blade pointed directly at Liu SANDAO's throat.

If Liu SANDAO continued to insist on stabbing sun Buyi to death, he would not be able to escape from the demon devouring sword's lock even if it was just a thought. The final result would be a life for a life.

As the third head of the Black Dragon triad, he naturally disdained to exchange his life with a nameless freshman.

However, Liu SANDAO's reaction was shocking. He continued to stab sun Buyi without any restraint, and a giant knife appeared in his other hand, blocking Lin Yi's sure-kill sword.

Lin Yi couldn't help but be shocked when his sword was deflected. This person's strength was terrifying and unimaginable!

Sun Buyi was about to die, but Lin Yi didn't have the time to save him, because the Black Dragon triad's Masters were already behind him.

Seeing this, Liu SANDAO laughed hideously, "what bullsh * t Brotherhood? it's still not comparable to your own face. You won't even kneel down! Little fatty, you really deserve to die for meeting such a brother! Hahaha!"

Unexpectedly, as he exerted his strength, the blade had only entered less than half a centimeter into sun Buyi's body.

A strange blood mist emerged around sun Buyi's body and turned into a bloody hand. It grabbed his blade tightly, preventing him from moving forward.

"Blood medium? You still have such a method?"

Liu SANDAO was instantly shocked. Even in his knowledge, the blood medium technique was extremely rare and troublesome, because this thing had endless means, and it was really impossible to guard against.

However, he soon realized that the source of the blood medium was not sun Buyi, but a human figure that was slowly forming in front of him.

Lu renwang!

"Aren't you dead?"

There was a trace of fear on Liu SANDAO's ferocious face. Although he did not think much of Lu renwang, the reputation of the Jianghai Academy was not to be underestimated.

More importantly, a person who was supposed to be dead had suddenly appeared in front of him. This made him smell a conspiracy!

After all, his current situation in the Black Dragon triad wasn't that optimistic.

Otherwise, why would he, the third master, appear in this branch? Furthermore, he didn't even have a single top-notch guard by his side, and only had a group of underlings?

Lu renwang did not answer.

He held the blade of his machete with one hand, and the blood that gushed out wildly flowed against the blade, like a sneaky blood snake, charging straight at SANDAO Liu's face.

With the strangeness of the blood medium, any normal person would have retreated at this time.

However, Liu SANDAO clearly wasn't.

Not only did he not retreat, but he laughed as he turned his hand and slashed at the Lu family's King with another knife. On the spot, half of the Lu family's King's Head was cut off. It was a shocking scene!

As for Lin Yi, he was surrounded by a group of Black Dragon triad's Masters. He was no longer a threat.

Although this group of underlings could not enter his eyes, there were many experts in the early stage of the great circle of heaven crushing, which was more than enough to be used as cannon fodder.

Even if they could clear out all these small fries, it would take a lot of time.

Even with Lu renwang's help, Lin Yi's side was still at a disadvantage.

The only good news was that the blood snake of King Lu had successfully invaded Liu SANDAO's body. Unfortunately, before King Lu could make a move, the blood snake was dispersed by a deafening tiger roar.

Accompanied by the tiger's roar, the shadow of a ferocious Tiger loomed on his chest. The Tiger's eyes swept past, causing one's hair to stand on end.

"You two clowns dare to stroke my whiskers? Hahaha!"

Having succeeded in one move, Liu SANDAO laughed wildly in satisfaction, and his previous doubts instantly vanished.

if it was really his behind-the-scenes boss's doing, why would he only send two weak people? it could be seen that his worries these days were unnecessary, and he was in a good mood!

lin yi, on the other hand, made a weird expression."according to the usual practice, people who smile like you usually die a miserable death. anyone who randomly puts a flag in the air won't have a good ending!"

of course, liu sandao didn't know anything about planting flags, but that didn't stop him from being high-spirited."who? you? you can't even clear a few small fries. does jianghai academy only teach people to brag and not practice martial arts?"

"To tell you the truth, I'm actually quite good at cleaning up these miscellaneous fish."

Lin Yi took his time to block the killer move behind him. He squinted his eyes and an unprecedented powerful spirit sense attack gushed out.

His divine sense trembled, a double resonance!

Bang! Bang! Bang! Bang! Bang! Bang!

In an instant, the sound of people falling to the ground rose and fell. The Black Dragon triad's Masters around Lin Yi all fell to the ground, not a single one of them could stand. All of their Yuan Shen suffered a huge shock, and most of them fainted. A few of them were holding their heads and rolling on the ground!

Chapter 9413 The Power Of The Devil

This time, even Liu SANDAO couldn't hide his shock. Even if he was in his position, he wouldn't be able to stand still from the spiritual sense attack just now.

If not for the fact that his immortal soul was much higher than his subordinates 'and that he had a strong will, he might have followed in their footsteps.

Then they really didn't need to fight.

"Who are you?"

Liu SANDAO's expression was extremely unsightly, half because his primordial spirit was unstable, and the other half because that doubt had reappeared uncontrollably.

The collision of consciousness just now had already shocked him, and now Lin Yi's area of effect shock was even more powerful than that. He couldn't help but be worried!

"A nameless soldier."

Lin Yi smiled nonchalantly-even he himself was surprised by the effect.

He naturally knew that this make-up test task was extremely difficult. Therefore, in addition to preparing all kinds of arrays and talismans, he also devoted himself to studying and developing the advanced version of the spiritual sense oscillation in the Linglong Pagoda, the double resonance.

The principle wasn't complicated. It was just to overlap two waves of spiritual awareness vibrations together to form the largest amplitude of resonance, and then achieve the effect of one plus one far greater than two.

But now, it seemed that the effect was a little too good.

As expected, primordial spirit techniques were always the best.

"How could a nobody have such a terrifying primordial spirit?"

Liu SANDAO's face was filled with apprehension. His skin was thick and his defense was strong. He didn't care about experts of the same level as him with normal methods, but his primordial spirit was his weakness.

Lin Yi's level was clearly lower than his, but his spirit was much stronger. Usually, if Lin Yi wasn't a Supreme realm, he would have to be at least a half-step Supreme realm, right?

F * ck! Where did this freak come from? If he had known earlier, he would have gone to buy a high-level spiritual sense defense prop ... But with this kind of primordial spirit strength, if they wanted to kill him, they could just use their fingers. What kind of spiritual sense attack was that?!

Liu SANDAO felt bitter in his heart. He was in a bit of a predicament!

With Lin Yi's way of doing things, even if he didn't do anything, he'd just repeat the same move again and again, and it'd be enough to make him suffer.

Of course, Lin Yi wouldn't do that.

It wasn't that he couldn't do it, but that it would be too boring. It was like playing chess. Not only was it boring, but it was also shameless. A mere Liu SANDAO wasn't worth his time.

In his fear, Liu SANDAO's first reaction was to use sun Buyi as a hostage. However, he realized that sun Buyi had been switched to another position.

At this moment, he was pointing his knife at the half-headed King Lu!

Then, right before his eyes, the half of King Lu's head that had been cut off was restored to its original state at a speed visible to the naked eye. Not to mention death, there was not even a scar left behind.

One against two, Liu SANDAO finally felt tremendous pressure.

And this pressure quickly turned into a fatal threat.

Without a word, Lu renwang released a hundred blood snakes. Liu SANDAO, who was so close to him, could not avoid them at all. Although many of them were cleared by the illusionary Tiger on his chest, the remaining blood snakes still entangled his two knives and four limbs.

Lin Yi's demonic devour sword struck again, and this time, Lu renwang was a live target. There was no reason for him to miss.

However, he was still stopped in the end.

At the last moment, a sinister and terrifying ghostly figure suddenly appeared in front of Liu SANDAO amidst the tiger's roar. In its hand was a black machete with a menacing aura.

Lin Yi's eyes twitched. "Villainy for the Tiger? This is a yagui?"

"Knife-holding ghost, this is his third knife."

Lu renwang nodded in a deep voice.

This was Liu SANDAO's true strength. The pressure from the third saber was far from what the other two could compare to. Even his blood medium body, which could ignore all physical means, felt a bone-chilling threat.

Lin Yi felt the same way-the demonic sword didn't gain the upper hand in a direct clash, and it let out a soft wail instead.

On the other hand, Liu SANDAO didn't even need to personally operate the black knife-it went straight for Lin Yi under knife ghost's command.

At that moment, even someone as strong as Lin Yi was only evenly matched!

As for Liu SANDAO himself, he had also broken free from the blood snake's restraint at the same time and turned to suppress Lu renwang!

The situation had developed to this point, and it had already exceeded everyone's expectations.

Lin Yi and Liu SANDAO didn't think that it would be so difficult for them to fight together, and Liu SANDAO didn't think that he would be forced to use all his cards and go all out just to deal with two noobs.

He was the third-in-command of the Black Dragon triad. When had he ever been in such a sorry state?

At this moment, a group of elite experts with powerful auras suddenly appeared on the ground floor of the building. The person in the lead was li MUYANG, who had personally stepped out!

Lin Yi sensed it immediately and warned Lu renwang.

Lu renwang was already a "dead man" now, and if Li Muyang and the others were to bump into him, the consequences would be unimaginable. Not only would he not be able to escape, even Lin Yi would be in trouble.

But if he couldn't get rid of Liu SANDAO, then renwang Lu wouldn't even be able to leave. Even if he could leave, once the news that he was still alive came out of Liu SANDAO's mouth, Lin Yi wouldn't be able to get away either!

Silence.

Not only did he want to silence Liu SANDAO, but he also wanted to silence all the Black Dragon triad experts present!

Lu renwang's reaction was extremely decisive. The blood mist immediately spread out and enveloped the entire scene. In a breath's time, all the unconscious experts of the Black Dragon triad had lost their breath.

Killing decisively had always been his style as the Tiger of the second year. Moreover, these people's hands were stained with blood, and they deserved to die!

Liu SANDAO, on the other hand, was disdainful of this. Although the blood mist of Lu renwang's half-domain nature looked terrifying, it was not a real domain after all. The threat it posed to an expert of his level was limited, and it could only clear up the small fries.

However, this was Lu renwang's intention. He didn't expect to finish off Liu SANDAO quickly by himself, and instead gave Lin Yi a buff.

His blood went berserk!

Lin Yi's blood instantly went into a berserk state, and the flow of his blood increased to five times the normal rate. Fortunately, his body was strong enough, or he would've been crippled by this.

Of course, the side effects were huge, but the amplification effect was equally huge!

Whether it was speed or strength, Lin Yi's current state was at least an entire level higher. With his super butterfly microstep, Liu SANDAO couldn't even see his movements clearly.

In a flash, the demonic devouring sword was already at the back of his head, and he couldn't even react in time, let alone move.

Fortunately, there was still the saber-holding ghost to take the blow for him.

But he still couldn't completely block the attack. In front of Lin Yi's strongest attack that surpassed his limits, both he and his ghost were sent flying.

Without the knife-holding ghost, Liu SANDAO's situation immediately took a sharp turn for the worse. Although he could still barely hold his ground with his powerful strength, the difference in their movement speed was too great, and defeat was only a matter of time.

Chapter 9414

Sun Buyi scratched his head with a silly smile. "It's nothing. I've been used to it since I was a child. My father beat me up much harder than this."

"..." Lin Yi was silent for a long time before squeezing out two words, ""Awesome."

Little sun was awesome, but his father, Old Sun, was even more awesome!

Sun Buyi looked around as if nothing had happened. He found a piece of steak that had fallen from the upper floor during the fight. He sat on the side and started to gnaw with satisfaction.

After a while, he suddenly raised his head thoughtfully. "There's something wrong with that person just now. "

"who is it? li muyang?"

lin yi looked at him, surprised. this roommate of his looked innocent, but he was actually a very clear-minded person. he just didn't want to show it, or he was too lazy to show it. this was what people called "inner beauty."

he had also seen through li muyang's strange behavior earlier. on the surface, it seemed like he was here to finish him off and intentionally cause trouble for him, but his true intention was probably still liu sandao.

especially liu sandao's "i won't dare to do it again"-the meaning behind it was worth pondering over.

"he gave me the feeling that he's here to kill you, you think so too?" lin yi said, deep in thought.

Sun Buyi shook his head,"I don't know about this. He told me."

"Who is it?"

"This is the guy who cut me."

As sun Buyi spoke, he opened his mouth and spat out the pitch-black machete that he had swallowed earlier. However, the ghost holding the machete had disappeared. Only a faint light was attached to the handle of the machete.

"Liu SANDAO's primordial spirit?"

Lin Yi's eyes twitched, surprised,"didn't li Muyang destroy his primordial spirit?" Why are you here?"

At this moment, the ghastly thing's voice suddenly sounded. ""It's too rare to see that. The so-called 'knife-holding ghost' is basically a shrunk version of the primordial Spirit's clone. This thing is a part of that fellow's primordial spirit."

"So you're saying that we can dig out some interesting information from him?"

Lin Yi said, intrigued.

Even though li MUYANG had offered him an olive branch, there was no doubt that this man was the greatest enemy he had ever encountered in Jianghai Academy. Not only did he have an unfathomable background in the city Lord's mansion, even his own strength was still a huge mystery.

As long as he didn't accept the recruitment, it was foreseeable that there would be more trouble like today.

If he could grasp the other party's weakness, it would be much more convenient for him to do things in the future.

"Leave it to me,"

The damn thing was an expert in this field. No primordial spirit in his hands could be refined out.

Furthermore, this was not a complete essence soul. It was just a shrunken essence soul clone.

In a short moment, the ghostly thing was like a master who had just finished enjoying himself, dispiritedly throwing Liu SANDAO's primordial spirit to the side and leaving it to its own devices.

"What do you mean?" Lin Yi asked.

"this is really interesting."

the demonic thing smacked its lips."you're right. that li muyang guy is here to silence us. from the very start, the black dragon triad is his li family's property."

"the city lord's mansion on the surface and the black dragon triad on the ground. the li family is having a good time with both the black and white sides."

lin yi was speechless.

even though there was nothing new in the world, this organization was still considered a giant in jianghai. it was no wonder that li muyang was so unyielding that he could even order the prestigious jianghai academy around.

the entire jianghai city might not be trembling in fear at his feet, but there was probably no one who could challenge him.

However, in this case, he would have to plan how to deal with the other party in the future.

"But why did he want to silence me?"

"Could Liu SANDAO have exposed the relationship between the Black Dragon triad and house li?" Lin Yi said, deep in thought.

"No, that's not it. The relationship between the Li family and the Black Dragon triad is a secret, but this kind of collusion can't escape the eyes and ears of those with ulterior motives, especially the eyes and ears of the major powers. In the eyes of the top leaders of Jianghai city, this should be a tacit secret."

Lin Yi nodded, "as long as house li doesn't lose power, this kind of secret doesn't really affect the big picture."

in other words, as long as the li family was still in power, even if li mu yang openly took over the black dragon triad, no one would say anything.

on the other hand, if they lost their power, it would be a completely different story. not to mention controlling the black dragon triad behind the scenes, even if they were completely clean, they would still deserve to die.

"the reason the li clan wanted to exterminate liu sandao was very simple," the demonic thing laughed evilly. "it was because he had taken something for himself."

"what is it?"

"territory origin stone."

lin yi was shocked.

Even though the past few days had been full of twists and turns, as a student of Jianghai Academy, he had exercised his rights to the greatest extent possible. Even though he had yet to conduct any substantial public lectures, he had a rough idea of his future path of improvement from the information in the Academy's library.

In order to break through to the great circle of heaven-Sundering, one must complete a qualitative change, and the core of that qualitative change was the domain.

The essence of a domain was to mobilize the spiritual Qi of heaven and earth.

On the sub-Island, it was an elemental Qi, and Lin Yi had more options to obtain the power of the stars!

He'd returned to his original body after leaving the star Cloud tower, and he didn't have the massive amount of star energy he'd gotten from the tower anymore, but he'd already derived the complete star energy training method, and could absorb the star energy in the air at all times.

In terms of quality and quantity, it couldn't be compared to the star Cloud tower, but it was enough for Lin Yi for the time being. He was the only one absorbing it anyway, and no one was going to fight with him.

Back to the original topic, although cultivators before having a domain could mobilize the spiritual energy of heaven and earth to a certain extent, no matter what kind of martial arts technique or move, the main body was still to drive their own genuine Qi. The so-called mobilization of the spiritual energy of heaven and earth was nothing more than a little splash.

However, a domain was different. The main body was the spiritual Qi of heaven and earth, and one's own genuine Qi was only a primer.

Once the domain was formed, one percent of true Qi could drive at least ten times the spiritual Qi of heaven and earth. In other words, it was equivalent to a power booster that started at ten times the original power. The degree of qualitative change could be imagined!

However, it was also because of this that the difficulty of mastering a domain was extremely high.

Lin Yi's movement formation could simulate a part of a territory's characteristics to a certain extent, but there were still differences between the two.

In order to cultivate a domain, other than the hard requirements of talent, comprehension, and strength, one also needed to use an origin domain stone.

The so-called territory origin stone was a naturally formed Eye of Heaven and earth spiritual energy, which was fundamentally different from spiritual Jade.

Spiritual jades contained spiritual energy, while domain origin stones resonated with the surrounding spiritual energy, forming natural domains of different attributes. These natural domains of different attributes were the ready-made learning objects for Masters of great circle of heaven-Sundering.

Chapter 9415

Sun Buyi scratched his head with a silly smile. "It's nothing. I've been used to it since I was a child. My father beat me up much harder than this."

"..." Lin Yi was silent for a long time before squeezing out two words, ""Awesome."

Even though li MUYANG had offered him an olive branch, there was no doubt that this man was the greatest enemy he had ever encountered in Jianghai Academy. Not only did he have an unfathomable background in the city Lord's mansion, even his own strength was still a huge mystery.

As long as he didn't accept the recruitment, it was foreseeable that there would be more trouble like today.

If he could grasp the other party's weakness, it would be much more convenient for him to do things in the future.

"Leave it to me,"

The damn thing was an expert in this field. No primordial spirit in his hands could be refined out.

Furthermore, this was not a complete essence soul. It was just a shrunken essence soul clone.

In a short moment, the ghostly thing was like a master who had just finished enjoying himself, dispiritedly throwing Liu SANDAO's primordial spirit to the side and leaving it to its own devices.

"What do you mean?" Lin Yi asked.

"This is really interesting."

The demonic thing smacked its lips. "You're right. That Li Muyang guy is here to silence us. From the very start, the Black Dragon triad is his Li family's property."

"The city Lord's mansion on the surface and the Black Dragon triad on the ground. The Li family is having a good time with both the black and white sides."

Lin Yi was speechless.

Even though there was nothing new in the world, this organization was still considered a giant in Jianghai. It was no wonder that Li Muyang was so unyielding that he could even order the prestigious Jianghai Academy around.

The entire Jianghai city might not be trembling in fear at his feet, but there was probably no one who could challenge him.

However, in this case, he would have to plan how to deal with the other party in the future.

"But why did he want to silence me?"

"Could Liu SANDAO have exposed the relationship between the Black Dragon triad and house Li?" Lin Yi said, deep in thought.

"No, that's not it. The relationship between the Li family and the Black Dragon triad is a secret, but this kind of collusion can't escape the eyes and ears of those with ulterior motives, especially the eyes and ears of the major powers. In the eyes of the top leaders of Jianghai city, this should be a tacit secret."

Lin Yi nodded, "as long as house Li doesn't lose power, this kind of secret doesn't really affect the big picture."

In other words, as long as the Li family was still in power, even if Li Mu Yang openly took over the Black Dragon triad, no one would say anything.

On the other hand, if they lost their power, it would be a completely different story. Not to mention controlling the Black Dragon triad behind the scenes, even if they were completely clean, they would still deserve to die.

"The reason the Li clan wanted to exterminate Liu SANDAO was very simple," the demonic thing laughed evilly. "It was because he had taken something for himself."

"What is it?"

"Territory origin stone."

Lin Yi was shocked.

Even though the past few days had been full of twists and turns, as a student of Jianghai Academy, he had exercised his rights to the greatest extent possible. Even though he had yet to conduct any substantial public lectures, he had a rough idea of his future path of improvement from the information in the Academy's library.

In order to break through to the great circle of heaven-Sundering, one must complete a qualitative change, and the core of that qualitative change was the domain.

The essence of a domain was to mobilize the spiritual Qi of heaven and earth.

On the sub-Island, it was an elemental Qi, and Lin Yi had more options to obtain the power of the stars!

He'd returned to his original body after leaving the star Cloud tower, and he didn't have the massive amount of star energy he'd gotten from the tower anymore, but he'd already derived the complete star energy training method, and could absorb the star energy in the air at all times.

In terms of quality and quantity, it couldn't be compared to the star Cloud tower, but it was enough for Lin Yi for the time being. He was the only one absorbing it anyway, and no one was going to fight with him.

Back to the original topic, although cultivators before having a domain could mobilize the spiritual energy of heaven and earth to a certain extent, no matter what kind of martial arts technique or move, the main body was still to drive their own genuine Qi. The so-called mobilization of the spiritual energy of heaven and earth was nothing more than a little splash.

However, a domain was different. The main body was the spiritual Qi of heaven and earth, and one's own genuine Qi was only a primer.

Once the domain was formed, one percent of true Qi could drive at least ten times the spiritual Qi of heaven and earth. In other words, it was equivalent to a power booster that started at ten times the original power. The degree of qualitative change could be imagined!

However, it was also because of this that the difficulty of mastering a domain was extremely high.

Lin Yi's movement formation could simulate a part of a territory's characteristics to a certain extent, but there were still differences between the two.

In order to cultivate a domain, other than the hard requirements of talent, comprehension, and strength, one also needed to use an origin domain stone.

The so-called territory origin stone was a naturally formed Eye of Heaven and earth spiritual energy, which was fundamentally different from spiritual Jade.

Spiritual jades contained spiritual energy, while domain origin stones resonated with the surrounding spiritual energy, forming natural domains of different attributes. These natural domains of different attributes were the ready-made learning objects for Masters of great circle of heaven-Sundering.

Chapter 9416 Power

"The raw territory stone is the core business of the Black Dragon triad, and it's also the Li family's most important source of income. If he touches the raw territory stone, it's equivalent to touching the Li family's lifeblood. It's normal for that Li Muyang to come and kill him."

The ghastly thing was halfway through his sentence when he suddenly became excited. "Aoho, you might really have some good fortune."

"What do you mean?" Lin Yi blinked.

"The territory raw stone that Liu SANDAO pocketed is very unusual. It's a one in a million perfect grade!"

"..." Lin Yi was stunned for a moment. Even he couldn't stay calm anymore, ""Where did he hide it?"

The word 'perfect' represented too many extraordinary meanings, especially when it was related to the realm. 'Perfect' was often equivalent to the strongest.

Lin Yi had experienced it himself.

"The Black Dragon Gang's headquarters. It's dark under the light. That guy's hiding pretty well. It's usually hard to find him."

"So you're saying that it'll be mine if I act fast enough?" Lin Yi smiled. Not bad, you left me a big gift. "

That being said, these words would sound like a hole in the brain to normal people.

A perfect-grade territory stone was good, but he had to be alive to get it!

This was just a branch of the Black Dragon triad, one of the most insignificant branches, and it was already this hard to deal with ... Fine, Lin Yi didn't think it was too hard to deal with. After all, he still had a lot of cards up his sleeve.

However, if it was the main headquarters, not to mention the extraordinary strength of the first and second leaders, just the leaders under them were enough to make most people fear them. It was still a bit troublesome.

One had to know that even someone as strong as Liu SANDAO was only ordinary among that group of people. If not for the Halo of being the third-in-command, he would at most be a small leader who didn't even have the right to speak.

Lin Yi was just a new student in the early phase of heaven-breaking realm-he'd be looking for death if he tried to force his way in with a hidden card.

"Take it easy,"

While sun Buyi was gnawing on a mess of food, he indistinctly reminded.

"Same to you," Lin Yi chuckled,"it's my first time seeing someone like you who can't eat to death. "

Sun Buyi laughed foolishly."So, my appetite is determined by my physique. It's not that I'm a glutton."

"Yes, yes. When you say this, wipe the saliva from the corner of your mouth and restrain yourself a little when you eat. It should be more convincing."

Lin Yi facepalmed, speechless.

As the two of them were talking, their phones suddenly rang at the same time. When they opened it, they saw that the Academic Affairs Office had sent them a mission update.

To Lin Yi's surprise, he passed the make-up test without a hitch!

Because of li MUYANG's interference, he had thought that even if he could pass the test, there would be a lot of twists and turns. He did not expect that it would be decided so quickly.

It was unknown if li MUYANG did not have the time to make a move, or if Wan Xiyan's side had made the final decision, but they quickly cut the Gordian knot and stood on the opposite side of li MUYANG.

No matter what, it was one less trouble for Lin Yi. It wasn't a bad thing.

On the other side, sun Buyi had also barely passed. Although he was captured, his mission was to investigate the Black Dragon triad's stronghold. Now that the entire branch was destroyed, even if he did not do it, he was the one who started it.

Unless the Academic Affairs Office deliberately picked a fight, there was nothing to say.

Back at Jianghai University, Shen Yifan and Yan Zhongyuan were already waiting in the dormitory. Most of the new students had already returned.

It wasn't hard to get a first-year test, after all-Lin Yi was the only one who needed to do it, and of course, there was no one who'd ever been pushed this hard.

"Whoa, you two really know how to do this!"

Lin Yi's eyes lit up as he opened the door.

The dormitory was still the same simple and crude dormitory, but it had been tidied up by the two old men. Other than tidiness, there was nothing new about it, but there was an empty space in the middle.

It was unknown where the two of them had found a table, which was filled with ingredients. In the middle of the table was a hot spicy hot pot.

It was the same dinner party, but the atmosphere in the dormitory was completely different from outside. Outside, it was called eating, but the brothers huddled in the dormitory in a circle, that was called life.

Even Lin Yi was tempted by the scene. As for sun Buyi, he immediately pounced on it.

Shen Yifan smiled and poured a glass of wine for the two of them. He suggested,"This evaluation isn't easy for the two of you. Come, let's celebrate!"

"Cheers!"

The four of them laughed and drank the wine.

While they were enjoying the meal, it was inevitable for them to exchange what they had seen and heard. Shen Yifan and Yan Zhongyuan had nothing to say to each other. As long as they weren't specifically targeted, they were just going through the motions with their strength.

Sun Buyi had nothing to say. Now that he thought about it, there was only food left in his mind.

Lin Yi was the only one who could point it out, and he didn't plan on hiding anything from these three roommates. He told them about his tacit understanding with Lu renwang.

Of course, since sun Buyi had seen Lu renwang, there was no need to hide.

Even so, Shen Yifan and the others were still dumbfounded. "Compared to you, elder Lin, why do I feel like we're just here to play house?"

"I wanted to play house, but they didn't give me the chance."

Lin Yi said helplessly.

He really didn't intend to cause trouble, but he couldn't stand it if things came looking for him.

Other than that, he did not hide any information about the perfect-grade territory origin stone, leaving the others dumbfounded.

"Perfect-grade territory origin stone? How much would it cost on the market? I don't think we can even buy it in our Academy, right?"

With Jianghai University's resources, as long as they were willing to spend their credits, they could easily purchase a territory stone. However, perfect-grade territory stones were extremely rare. Even if they did appear, it was not something that ordinary students could get their hands on.

"But the location isn't right. The Black Dragon triad's headquarters 'level of defense shouldn't be any lower than our Academy' s. Even you, old Lin, would have a hard time sneaking in without anyone noticing, right?"

Shen Yifan said with a frown.

"It is indeed very difficult."

Lin Yi knew that he could use his high-level spirit sense and plant element to hide his presence easily against opponents of the same level, but it would be hard to say if the opponent was too much higher.

As the underground Overlord of Jianghai city, it was impossible for the Black Dragon triad to not have a few top-tier experts.

"But perfect quality is too hard to come by. If you give up on the meat that's right in front of you, you might not be able to find a shop like this again. It's going to be difficult."

In fact, if one really wanted to search for it, as long as they were willing to put in the effort, they would be able to find something in a few decades.

The problem was, as long as there was a bit of potential, which expert at the great circle of heaven crushing would be willing to wait for a few decades?

Chapter 9417

Lin Yi nodded, "since we don't have a choice, we'll just have to plan. There'll be a chance."

"Alright, just let us know when you're going to make a move. We can't help you much in the open, but we can still help you plan."

Shen Yifan said with a smile.

Yan Zhongyuan nodded silently at the side. As for sun Buyi, he was still busy eating, but he raised his hand to show his support.

From the beginning to the end, the three of them didn't even have the slightest bit of coveting in their hearts-they'd just tacitly acknowledged that the ownership was Lin Yi 's. Normally, if it were someone else, even if they didn't become enemies because of this, they'd at least say a few words to each other.

It could be said that birds of a feather flock together-it was because he'd seen the true nature of these people that Lin Yi didn't put up any defenses and mixed with them. Otherwise, he'd have stayed far away from them, knowing how troublesome he was.

At this moment, Yan Zhongyuan suddenly said,""You can consider the bell-stealing technique."

"Bell-stealing technique?"

Lin Yi blinked, and Shen Yifan reacted immediately, slapping his thigh in excitement. "That's right, your condition is a perfect match for the bell-stealing technique!"

"What do you mean by perfect match? Tell me about it. "

Lin Yi's interest was piqued.

Shen Yifan explained,"the stealing Bell technique was derived from a classic example of 'stealing a Bell while covering one's ears'. It was created by an expert of the Steal sect. It is said that the core profound meaning of the technique is to deceive oneself before deceiving others. As long as one can deceive oneself, one can deceive everyone else!"

Lin Yi was confused,"lie to me?" It doesn't sound right. "

"It does sound unbelievable, but this master of the Steal sect was able to enter the Holy Lands of all the major sects with his skill of stealing bells. He's not the best, but the big shots of the sects are helpless against him. He's been wanted for almost a hundred years, but they still can't catch him. It's clear that he's really something."

"That's quite mysterious. "

Lin Yi still couldn't believe it. As a materialist, he couldn't understand such things.

Yan Zhongyuan suggested,"this secret skill has a lot of restrictions. But if you use it well, it will have amazing effects. You can go to the library to have a look. I saw it in the collection catalog yesterday."

"Alright, I'll try."

Lin Yi nodded-it didn't matter how unreliable it sounded, but it was a way.

For a perfect-grade territory stone, he could pay any price, let alone cultivate a secret skill. Whether he could master it or not was another matter.

After finishing the hotpot, Lin Yi went to the library without hesitation. As expected, the skill was in the library.

However, unlike other books that were free to borrow, one had to pay academic credits to borrow this book. Moreover, it was charged on time, every minute and day.

It didn't seem expensive at first glance, but how could a secret technique of this level be mastered in one or two days?

A normal closed-door training session would take a few months, and Lin Yi only had a little over a hundred points on hand.

To put it another way, this was also because Wan Xiyao had specially approved the Academic Affairs Office to reward him with ten academic credits. Otherwise, he wouldn't even have this much.

A normal new student wouldn't waste anything unless it was really important, but Lin Yi didn't have to worry about that. He went through the borrowing procedures after a few glances.

What was the point of having academic credits in the face of a perfect-grade domain origin stone?

It was a pity that the library in Jianghai college had measures to prevent divine senses from scanning. If it was an unguarded library like the one on the sub Island, Lin Yi would be able to pull out whatever he wanted to see with a single scan of his divine sense.

Lin Yi went back to his room and started researching.

As Yan Zhongyuan had said, this thing was really tailor-made. It was indeed created by a master of the Steal sect, and it was completely aimed at stealing at a fixed point.

"So it's an illusion. Interesting."

Lin Yi thought that it was some sort of special stealth movement technique, but after studying it carefully, he realized that while it could be classified as a movement technique, the essence of it was an illusion technique.

To be more precise, this was an entire set of actions with illusions as the core.

From the information gathering, to how to set up the illusion, to the specific details of the infiltration method, everything was arranged clearly.

He looked like a professional.

As for the illusionary technique in this, it was also very unique. To sum it up, it could be said to be self-deception.

He first deceived himself, then he deceived others.

It sounded unbelievable, but it wasn't the idealism that Lin Yi had expected. The essence was deep group hypnosis, and the person who performed the skill was the base of the group hypnosis. He used himself as a medium to pull everyone around him into the dream he created.

As long as this dream could deceive him, it could deceive everyone.

Otherwise, if he had any doubts, the dream realm would be broken immediately.

Shen Yifan, who was at the side, helped to advise, ""Old Yan has a good eye. This thing is indeed very suitable for you. Your primordial spirit is strong enough, so you will get twice the result with half the effort. The only key is to deceive yourself."

"I'm lying to myself, I've never tried it before ..."

Lin Yi's head hurt.

This kind of thing was easy for some people, but for others, it was as difficult as ascending to the heavens. The more determined and sober one's mind was, the more difficult it was to do it. Unfortunately, he happened to be the best of the latter group.

"Old Lin, with your qualities, there shouldn't be any hard obstacles. The only thing left is the problem of your state of mind. When your state of mind is compatible, everything will go smoothly. Next, relax and try it out. Who knows, you might be able to do it when you wake up."

Shen Yifan consoled her.

"Sleep more and dream more," Yan Zhongyuan added.

Lin Yi didn't know what to say.

However, that was all he needed to do at the moment. As for the other details, as long as he put in time, visual inspection was not a problem.

In the end, whether he could master it or not, it could only be summed up in two words, it was up to fate.

But Lin Yi calmed down after thinking about it-he had to go to class and cultivate, and leave the rest to Tianyi. There was no rush, anyway.

"Classes will officially start tomorrow. Have you guys thought about what classes you're going to take?"

Shen Yifan asked.

Yan Zhongyuan's answer was simple and to the point."Domain-level course, 36 credits. Heaven-breaking realm analysis, 12 credits. The rest of the credits will be given to the actual combat arena."

"Domain beginner, 16 credits. Physical technique cultivation, 20 credits. The rest is for food."

This was sun Buyi.

Shen Yifan felt embarrassed. As expected, these two people did not take the ordinary path.

There was no distinction between compulsory and optional courses at Jianghai University, and all credits could be used at will. In theory, even if one skipped a class and spent all their time eating, drinking, and having fun, no one would say a word about it. Even the Academic Affairs Office would not question it.

But the problem was that there were conditions for him to stay here.

Chapter 9418 -Power

Before the activation credits were used up, they had to complete the promotion, which meant that they had to break through to the peak of the early stage of the heaven-breaking consummate level before they could be promoted to the second year and continue to study. Otherwise, they would either be expelled from the school or sign a contract to enter the repeat school.

In Jianghai University, the repeat Department was a place for the trash. Not only were the benefits and treatment far worse than the average student 's, but they also lacked freedom.

Normally, experts with a bit of ambition would rarely be willing to go in and muddle along even if they had to go out and fend for themselves.

Therefore, a smooth advancement was the top priority for all the new students.

"Are you sure you'll be fine? Why don't you take a look at the Course Selection Guide for reference? I got it from a few seniors. "

Shen Yifan took out a few small booklets.

The three flipped through it-they each had their own focuses, but the main content wasn't too different. It was a class combination.

From the most basic introductory understanding to the advanced training, and even combat guidance, it could be said to be a self-contained one-stop service. The key point was that these programs fully utilized the 100 starting credits of the freshmen, and there was almost no waste. It was quite scientific.

With the quality of the Jianghai Academy's instructors, as long as one's talent met the minimum standard, the chances of passing the entire course would be at least 70%.

In comparison, Yan Zhongyuan and sun Buyi were simply courting death by giving themselves a hard time.

If the majority of the new students followed their path, the repeating students would be able to prepare for the expansion of the new campus next year.

However, Yan Zhongyuan only took one look at it and threw it back. ""I'll pass. I can't attend theory classes. My head hurts. "

On the other side, sun Buyi followed: "forget about me too. With those academic credits, it would be better to buy some affordable food. My dad said that no matter how much he learned, it would be better to eat it."

Shen Yifan was speechless.

Fortunately, Lin Yi was still a normal person, and his efforts weren't wasted. After studying it carefully for a while, he came up with a class plan that wasn't too out of the ordinary.

At least compared to those two unorthodox groups, Lin Yi's seemed much more reliable.

Even so, Lin Yi still chose a bunch of things he didn't understand-the taste of Sichuan cuisine, the art of walking, the application of mathematics in combat, and even tennis.

Although the credits spent on a single course were not much, when added together, it was at least 30 to 40 credits. For new students, this was definitely a huge sum of money that they could not lack.

New students didn't have a reliable way to earn credits-they only had a few opportunities, and they'd have to fight their way out of the brutal competition. People like Lin Yi, who'd gotten credits from the entrance exam, were the only exceptions.

Even so, Lin Yi's consecutive battles with Lu renwang and Liu SANDAO were a sure-death situation for ordinary freshmen. Wan Xiyan's appearance only compensated them with ten academic credits, which showed how precious academic credits were!

Shen Yifan was stunned for a long time before he finally said, ""Elder Lin, you ... You really know how to live."

"I have to have some fun, it's too boring," Lin Yi smiled.

Strictly speaking, the courses he chose seemed out of tune, but they were not completely random. There was a purpose behind every course, but they were not as utilitarian as the standard answers seemed.

"Alright, as long as you guys know what you're doing."

Shen Yifan smiled helplessly.

He was worried about these people, but everyone had their own fate. Even if it was inappropriate, he could not force everyone to be like him.

Plus, Lin Yi and the other two seemed to be messing around, but it was hard to say whether they were right or wrong.

The next day, the Academy officially began teaching.

As Lin Yi expected, the lecturers of Jianghai Academy were of high standards-they were able to hit the nail on the head with just a few sentences, enlightening everyone.

He had benefited a lot from just listening to a theory class on the introduction of domain.

With Lin Yi's level of comprehension, combined with what he'd learned from his previous fights, he could pretty much figure things out on his own, even if no one was teaching him.

And that was the truth.

The essence of the domain was indeed as he had speculated. It was to let one's body communicate with the surrounding heaven and earth and become one. With one's own strength as the eye of Qi, one could mobilize the spiritual Qi of heaven and earth to borrow power, and finally obtain a tenfold or even dozens of times increase in strength!

Lin Yi, however, was lacking in the details.

A random knowledge point thrown out by the lecturer in class could open his eyes and even refresh his three views.

That feeling was like a top-tier amateur player who was usually invincible in bullying noobs, suddenly meeting a real professional expert, only to realize that the other party was playing a completely different game from him!

"It's really ... Worth coming here!"

Lin Yi's back was drenched in cold sweat after the class, half from fear and half from relief.

If he were to continue cultivating according to his original path, even if the general direction was good, there would be a huge difference in the understanding of details. Between experts, what they looked at was the details.

Even if he didn't destroy his own Foundation, it was definitely a waste of God's gift. If he didn't turn things around in time, he might really become one of the common people after he advanced a few more realms.

After all, there was no comparison between his own unorthodox methods and systematic learning that had been fully verified.

After realizing this, Lin Yi, who had come here for Tang Yin, finally settled down and began his unusual school life.

Other than attending classes every day, he would study the bell-stealing technique, and his life was exceptionally fulfilling.

In the end, even Tang Yin felt that something was wrong. "Hey, you're my bodyguard, right? you should at least be worthy of your salary, right? It's a little too much that I can't even see a single person every day. "

"Eh? So you want me to stick close to you?"

Lin Yi blinked, surprised.

Tang Yin's face reddened as she came to her senses. "Who asked you to follow me? Abnormal! Pervert!"

Then, she turned around and left in a Huff.

Lin Yi was left confused, "what's she doing?" Are you letting me follow or not?"

Wang shiqing covered her face, "big brother Lin Yi, I don't remember you being this straight before. Why are you becoming more and more stupid?" This Academy's classes are really poisonous. It's a good thing I don't have to attend them. "

"Poison my a * S. You'd better go to class too. Even if you're just freeloading, you have to go!"

Lin Yi flicked her forehead, still confused. "What did she mean by that?"

"You still don't understand? Tang Yin sis has something to do today, so she wants you to come with her!"

Wang shiqing clutched her head in anger and asked, ""Don't you know what day it is today?"

"What day?" Lin Yi asked, confused.

"The club is recruiting!" Wang shiqing was speechless.

"I was wondering, so this is the problem."

Lin Yi finally realized why the school's atmosphere was so weird-there were decorations everywhere, and it felt like a big celebration.

Chapter 9419 Power

As a major feature of student autonomy, all kinds of clubs, big and small, could be said to be one of the most active forces on campus. Due to their great autonomy and control, once one controlled a club, it was equivalent to controlling a force to a certain extent.

With the quality of Jianghai's students, this force was even more capable of fighting than most sects. After all, if they were to be placed outside, there would be many heaven crushing cultivators in the great circle.

Jianghai Academy was the only school with such a heritage.

Because of this, the major clubs naturally became the back garden of the ambitious. The annual recruitment was also held very formally, and the freshmen competition had almost become an annual program.

After all, the more new students they snatched, the more their strength would grow. Behind them were all real benefits.

Come to think of it, even a random new student would be pulled in by the seniors on a day like this, much less Tang Yin.

Whether it was her personal attraction or the Wang family of talismans behind her, it was enough to make any society go crazy over her. Of course, the one closest to her was Jiang Ziheng's talisman making society.

"Did Jiang Ziheng come to harass you again?"

Lin Yi asked. It wasn't Jiang Ziheng's first or second day of watching Tang Yin-he'd be doing everything he could to get her into the talisman society, no matter what.

Wang shiqing was troubled, "yeah, sister Tang Yun is also very annoyed with him. She didn't say it, but she's been avoiding him these days. But that guy directly talked to the elders of the Wang family and decided to join the club without sister Tang Yun's consent."

This wasn't hard to understand.

Given the Wang clan's current situation, even if they didn't know what was going on, they were certain that they needed outside help more than ever.

For a junior like Jiang Ziheng, who had a long history and had potential, especially with the influential Nanjiang Prince standing behind him, from the Wang family's position, he could be said to have potential that must be won over.

Lin Yi didn't doubt that house Wang might even choose a marriage alliance if necessary!

Right now, joining the Society was just a small matter, but it had already shown signs of it.

Lin Yi sighed. The Wang family was still unreliable. He had to rely on himself.

"What is she thinking now?"

"Of course Tang Yun sis doesn't want to go, but she can't go against the elders' wishes. After all, we still have to consider aunt Juan's situation,"

Wang shiqing paused for a second and showed a proud expression. "So I thought of a good idea for Tang Yun sis-it's just a rune making society, right? we'll just join, but we'll have the final say after we do."

"You guys have the final say? Do you think Jiang Ziheng is an idiot?"

Lin Yi looked at her like she was an idiot.

Jiang Ziheng was an ambitious man. No matter how much he coveted Tang Yun, he would never be led by the nose by Tang Yun, let alone be controlled by her!

It was more likely that Tang Yun would become a trump card in his hand, a bargaining chip with the Wang family!

"Of course we know that Jiang Ziheng isn't that easy to deal with. Tang Yun sis and I can't do it alone, but we still have you, big brother Lin Yi!"

Wang Shi chuckled, "With Lin Yi big bro's strength and your skill in making talismans, those half-baked people in the talisman society aren't your match. Then, we'll take Jiang Ziheng's power and Lin Yi big bro will be the president-it'll be the best of both worlds!"

"Ha, you're pretty optimistic, little girl."

Lin Yi couldn't help but laugh.

Having said that, the little girl's whimsical idea might not be completely impossible. Other things aside, he was not inferior to anyone in terms of talisman making.

Their greatest weakness right now was their lack of knowledge in talisman formation designs. This was the easiest problem to solve in Jianghai University as long as they had enough academic credits.

As for the people from the society, Lin Yi hadn't come into contact with them before, but from what the old man said, they weren't very good.

The only problem was, would the talisman making society be occupied by the capable?

"As long as Lin Yi big bro has an idea, Jiang Ziheng is no match for you. I'm 10000% sure of that!" Wang shiqing giggled.

"I should really thank you for thinking so highly of me."

Lin Yi didn't even have the strength to complain as he caught up to Tang Yin with the girl. Tang Yin had been waiting in front of them the whole time, her ears perked up.

Lin Yi smiled brightly as he walked to Tang Yin. "Don't worry. With me around, Jiang Ziheng won't be able to cause any trouble!"

Tang Yin's mouth twitched. "Yeah, he'll get a headache if he sees you. He won't have the time to bother me."

"Tang Yin sis, you're saying that, but you're actually feeling sweet inside, aren't you? Lin Yi bro's standing up for you, I'm so envious!"

Wang shiqing hugged her arm and laughed weirdly.

"Envy your head!"

Tang Yin flicked her on the head in anger.

The little girl clutched her forehead as tears rolled down her face. "Why are you two the same? you even flicked at the same place as me. You two have the same heart!"

Lin Yi and Tang Yin paused for a second before bursting into laughter.

When the three of them arrived at the club recruitment square, it was already bustling with people. Hundreds of clubs, big and small, had gathered together, and there were all kinds of recruitment methods.

There were people performing festivals, people giving out benefits, and even beautiful senior sisters forming a group. Boys with slightly less determination would be charmed by them in minutes and sign the "slave contract" in the blink of an eye.

Lin Yi's group of three attracted a bunch of new representatives the moment they arrived, and all sorts of promotions and offers were made.

The scene was similar to the train station in the 90s.

Soon, Jiang Ziheng heard the news and came. As the president of the talisman making society, he was quite influential. The moment he appeared, the recruiting representatives of the other societies immediately scattered like birds and beasts.

"They're all overconfident, sorry to scare sister Tang Yun. "

Jiang Ziheng, as always, maintained the demeanor of a senior and personally led the three of them to the recruitment office of the talisman making society.

As one of the few large societies in the school, the front of the talisman making society was naturally not as simple as the other small societies. Not only did it occupy the most central area of the recruitment square, but it was also assigned a fixed attic as a stronghold.

In the entire school, there were only five clubs that received such treatment. This was called honor.

After beckoning Tang Yun to sit down and personally serving her a cup of good tea, Jiang Ziheng handed her the application form. "Just fill it in, Tang Yin-it's just a formality."

He wasn't worried that Tang Yun wouldn't join them. With the words of the Wang family elders, Tang Yun was like meat on his lips. In his eyes, she had no right or will to object, so he had been in a good mood for the past two days.

Chapter 9420 Power

"Two," Tang Yin said.

"Ah? Little sister shiqing wants to join too? She's one with you, so you don't need to fill out the application form. "

Jiang Ziheng was stunned for a moment before he smiled.

"It's not her, it's him,"

Tang Yin pointed at Lin Yi, and the latter responded with a harmless smile.

Jiang Ziheng's head started to hurt. Although his pride didn't allow him to lower himself to Lin Yi's level, he had to admit that Lin Yi's performance against Lu renwang and Liu SANDAO was heaven-defying.

Even if he would never admit it, he subconsciously classified him as an extremely dangerous person. If he did not come into contact with him, he could continue to deceive himself, but once he came face to face with him, he would always feel a huge invisible pressure.

"Brother Lin Yi, you're interested in our society too?"

Jiang Ziheng forced a smile and asked.

"I'm very interested, so I want to join the club and learn a little, is that okay?" Lin Yi nodded.

Jiang Ziheng looked troubled, "our society is a professional society, after all. Not just anyone can come in. You have to be a real talisman master. If junior Lin Yi is only interested in making talismans, why don't you come and observe during the society's open Day? I'll arrange for an experienced member to guide you. How about that?"

These words were reasonable and flawless.

Wang shiqing laughed, ""You're really getting ahead of yourself, my Lin Yi bro is just being humble, can't you tell?"

"So Lin Yi bro knows how to make talismans too?"

Jiang Ziheng's expression changed, and so did the atmosphere among the members of the talisman making society. "So you're saying that Lin Yi bro's real face isn't revealed, then I'll have to ask him for some advice."

A female talisman master at the side had an indignant expression. "President, you're too polite. You're the face of our talisman making society. Who else in the school has a higher level of talisman making than you? why do you have to give such high regard to a new student who doesn't know the immensity of heaven and earth?"

"That's right. In this day and age, does anyone dare to call themselves a talisman master? in the end, they can't even touch the threshold of a talisman master. We've seen too many of such people."

His subordinates all agreed.

Although he had just taken over the president's position not long ago, Jiang Ziheng was still quite capable in terms of winning people's hearts.

Lin Yi glanced at the girl helplessly as she became the center of attention. He didn't want to cause a scene-he was a low-profile person, really.

But now that things had come to this, he couldn't shrink back even if he wanted to. He could only rub his nose and say, ""What's the process? Or should we just start?"

"Ha?"

The crowd was speechless. The female talisman master looked at him with a puzzled expression.
"What's the process?"

Wang shiqing interjected, "Of course it's the process of destroying the venue. You can't even tell from this, what kind of emotional intelligence do you have?"

Everyone was in an uproar.

Lin Yi and Tang Yun looked at each other, both holding their foreheads. So this was Wang shiqing's plan to usurp the throne, was it that simple and brutal?

Jiang Ziheng's face darkened as he walked up to Lin Yi. "Brother Lin Yi, do you really have that intention?"

"No, no, no. Brother Jiang, please don't misunderstand. I'm not an arrogant newbie who has water in his brain."

Lin Yi's words made everyone's expressions calm down a little, but the next sentence immediately made their blood pressure rise again. "I just heard from others that your talisman-making skills don't seem very good."

"Who is it? Who said that?"

The members of the talisman making society immediately stomped their feet. Questioning their talisman making attainments was the same as questioning their Foundation. If these words were to spread, no matter what the truth was, they would definitely be pointed at and criticized when they went out in the future.

Who couldn't endure it!

At this moment, a rough and slightly aged voice suddenly interrupted, ""This old man said so, so what?"

Everyone turned their heads to see a well-built old man walking in as if no one was there. Lin Yi's eyes twitched-it was the old man from the logistics department he'd met twice.

The first time was to buy materials for talismans, but because he had refined too many talismans and had not used them up on SANDAO Liu, he simply sent them to the logistics department and exchanged them for a sum of credits that was neither big nor small.

In terms of price, the old man's purchase-back price was not very high, but he settled it with credits, which could not be bought outside.

"Elder Zhao,"

The faces of the talisman makers froze.

If someone else had said this, even if it was a school leader, they would definitely have rebuked him in minutes. But this person was different. Not to mention his personal status, just his identity as the head of the logistics department was enough to make them unable to lift their heads.

This was their sugar daddy, and they were all hoping to get more academic credits from him.

"Elder Zhao is right. Due to the recent changes in personnel, the rhythm of our talisman making society has been disrupted. However, you can rest assured that I will be able to recover very quickly. I will not cause any trouble for your logistics department."

Jiang Ziheng stood up to smooth things over with a forced smile.

Elder Zhao looked at him with a half-smile, "don't force yourself. I've already found a new channel for the materials, and it's this little brother Lin Yi. As for your talisman making society, do whatever you want. Even if it's just a pile of mud that can't hold up a wall, it's fine."

"A face-smacking should be so straightforward. The old grandpa is awesome!"

Wang shiqing liked the post.

Jiang Ziheng and the others' faces collectively turned as black as the bottom of a pot. They gritted their teeth and said, "Elder Zhao, are you serious? Don't forget that the logistics department has an agreement with our talisman making society. "

"Hehe, you guys still remember the agreement? Don't you have any idea who broke the contract first?"

Boss Zhao sat on the recruitment table and poured himself a cup of tea. He said in disdain, ""In the logistics department, an agreement that I don't acknowledge is like a piece of paper in the toilet. Do you want to argue with me?"

The entire talisman society was speechless.

This old man didn't seem to be famous. Other than managing the logistics department, he didn't seem to have any other prominent areas. But in terms of qualifications, this person was even more experienced than the current Dean of the Academy. In the logistics department, he was like a god who had come to earth to muddle along. What did they have to reason with him?

"Elder Zhao, you've misunderstood me. What I meant was that for such an important supply channel like talismans, isn't it a bit of a stretch to just bet on Lin Yi bro alone?" Jiang Ziheng quickly tried to salvage the situation.

"That's right. Even if he really knows how to make talismans, he's only one person. Even if he uses all his time to make talismans, his production is very limited. How can he meet the large demand of the logistics department?"

"That's right, no matter how high his talisman-making skills are, he's not an immortal!"

Everyone agreed.

They didn't have the guts to attack elder Zhao, but they did have the guts to attack Lin Yi, and they were very bold.

It was true hatred between people in the same industry, and Lin Yi was snatching their jobs away from them. What would they eat in the future if they could take this lying down?
