

Bodyguard 9451

Chapter 9451

In addition, Yan Zhongyuan, who had performed extremely well in this battle, and Wei baizhan, who had blinded Bao shaoyou, had also become popular figures.

There was even a saying of the Golden generation on the internet.

Lin Yi, Ying long, Bao shaoyou, Yan Zhongyuan, Wei baizhan, song Xiaomi, Shen Yifan, Qiu sanniang, Yue Jian ...

Any one of these names would have been a popular candidate in the past, but now they had appeared in a group, shining like stars. Just the thought of this group of people standing together made people's blood boil.

It was getting more and more popular on the internet, and its influence had even gone out of the circle. It was not only the school's intranet, but the outside world was also discussing this matter.

The attention was so high that it was unprecedented.

"Sword duel on Yushan?"

Lin Yi couldn't help but be surprised when he saw the official documents.

Ten days later, the newcomer King will be decided at the Yushan Asura arena. At that time, people from all walks of life will be invited to observe and display the elegant demeanor of the Academy!

"Are they selling tickets?"

Zhao guangchao mumbled as he poured tea for Lin Yi like a Lackey, revealing the truth.

Although it was said that they were inviting people to watch, those who were invited were either rich or noble, and they were all big shots with a reputation. This group of freshmen were fighting with their lives on the stage for you to see, and you had the cheek to not show anything?

"I'm afraid it's not just a financial problem. In my opinion, it's more of a deterrent to the heroes." Shen Yifan shook his head.

"I heard that a few days ago, the governor's mansion held a meeting to expand the city to discuss the integration of the various forces in Jianghai. However, the meeting ended on bad terms and the argument was fierce."

Qiu sanniang revealed the inside story.

She wasn't the only one-Yue Jian from class three was there as well. They were all considered Lin Yi's underlings now, and their status was comparable to Shen Yifan and the others.

"Who?" Lin Yi's eyebrows twitched.

"That's a good question!"

Qiu sanniang liked the post and continued,"On the surface, it's just a small group of families and factions arguing. But in reality, the people behind them are the city Lord's mansion and our Jianghai Academy!"

When he said this, everyone present was shocked.

On the surface, the Academy and the city Lord's mansion were the pillars of Jianghai city. Their public relationship had always been good, and even the previous city Lord was a director of the Academy's Board of Directors. The Tian family's disciples also held positions in the city Lord's mansion, and they usually had various activities, big and small, cooperating very closely.

Who would have thought that there would be such a huge Rift between the two families!

It wasn't an exaggeration to say that if these two families really fell out with each other, the huge Jianghai city would really change.

"No wonder song Jiangshan appeared last time."

Lin Yi said.

Previously, he always felt that Song Jiangshan was making a mountain out of a molehill. Now, it seemed that not only the ten seats of the Academy, but the entire Academy was facing internal and external problems. With a little unexpected fuse, the world might immediately fall into chaos.

"Even if the sky falls, there's a tall one to hold it up. We can't control the overall situation of Jianghai city. We can only control ourselves and look at what's in front of us."

Shen Yifan was worried. "The specific rules are not out yet. I think the ten Chiefs are still discussing it. If the rules are out and it's disadvantageous to us, we will be in trouble."

"That's probably the case,"

Qiu sanniang nodded in agreement.

Song Jiangshan's previous attitude had explained everything. Even if Ying long dropped the ball, they would still try to side with him so that he could successfully counterattack.

After all, they had already invested a lot of resources into Ying long. This was an irreversible sunk cost.

Although the big shots wouldn't make things too obvious out of respect for the Academy's tradition, they were the ones who made the rules, and they had the final right to explain.

Everyone understood the magical effect of the final interpretation.

"They're all people who care about their reputation. Aren't they afraid of being scolded by everyone?"

Wang shiqing asked curiously.

Shen Yifan laughed and said, "a person at that level would not be afraid of being scolded." "Moreover, things like online public opinion can be man-made. Strictly speaking, the ten Chiefs coming out to set the rules has already violated the tradition of self-determination. Do you see anyone cursing now?"

In fact, it wasn't that no one scolded him, but the moment he appeared, he was criticized and couldn't cause any waves.

At this moment, the internet was boiling with anticipation. There were even people who wanted to make it a tradition.

"We don't care what others say. What we can do now is to deal with them as they come."

Lin Yi said.

Although he would definitely be the biggest victim in this Jade Mountain sword seminar, as he would most likely be the one to unify the freshmen, it would be hard to say if the rules were set by someone.

Lin Yi, on the other hand, wasn't affected at all-he'd been through a lot, after all, and this was nothing.

"Elder Lin, it's good that you're calm. But there are some things that we still have to do."

Shen Yifan suggested,"I estimate that there are at least three days before the specific rules are set. It's enough time for us to persuade them. Even if we can't cancel the sword sparring, we have to at least make sure that the rules don't target us too much."

"I'm going to have a chat with my big brother. "

Qiu sanniang was a man of action. She stood up and left immediately after she finished speaking. The Big Brother she was referring to was not her deceased brother, but the third seat of the warrior's Department, Zhang Shichang.

"I'm also going out for some exercise. "

Shen Yifan stood up with a smile. Although he did not have such deep connections in the Academy, he had a wide circle of people and could speak to anyone.

As for the rest of the people, they couldn't help much in this matter.

Including Lin Yi himself, the only thing he could do was to let go of his business and make some talismans to earn some credits.

"Little Lin, don't be in such a hurry to leave."

Old man Zhao suddenly stopped him and said mysteriously, ""I'll do you a favor first. Your right to buy first will come in handy very soon!"

"Really?"

"Elder Zhao, you got a perfect quality territory stone?" Lin Yi was surprised and happy.

It had been a month since the start of the semester. After the initial adaptation and preparation, many freshmen had begun to cultivate their domains. Those who progressed faster were only one step away from the initial stage.

But Lin Yi didn't do anything.

It wasn't that he wasn't confident or that he couldn't afford a territory stone, but because he had a perfect Foundation, he really didn't want to make do with an ordinary territory stone.

Even if it was a high-grade territory origin stone, it was still far from being perfect.

In theory, the quality of the territory raw stone did not directly determine the strength of the territory. The actual strength of the territory depended on the degree of development of the territory.

However, the completeness of one's territory was closely related to the quality of one's territory stone.

The higher the quality of the territory stone used, the more complete the territory cultivated would be.

And this meant that the upper limit of the domain could be developed was higher!

Chapter 9452

a thing like an upper limit was something that most cultivators might not be able to touch in their entire lives. paying a high price for a little bit of illusory possibility had no cost-performance ratio.

however, to some perverted monsters, the significance it represented was huge!

even if there was only a one in ten thousand chance, lin yi wouldn't give up so easily. even if he fell behind the other freshmen because of this, it didn't matter-he had enough willpower.

"I haven't gotten it yet, but I've already made some progress. It's a rare wind-type raw stone."

Old Zhao's words made Lin Yi's heart heat up again.

In addition to the pyramid-like distribution of quality, the attributes of territory stones also had a similar distribution pattern. The most common attributes were the five basic attributes, and the attributes of mutated spiritual roots such as ice, fog, thunder, and wind were much rarer.

Lin Yi calmed down quickly and asked in a deep voice, "What's the rough price?"

"Perfect-grade primal domain stones of ordinary attributes usually sell for 2000 academic credits, never exceeding 3000. However, it's hard to say for those with mutated spiritual roots. A conservative estimate would be at least double the price."

Old Zhao was gloating at Lin Yi. "You brat, be prepared to bleed a lot."

"....."

Lin Yi didn't want to talk anymore.

Doubling 3,000 academic credits would mean 6000 academic credits!

During this period of time, he had sent talismans back and forth to the logistics department five times, but the total academic credits he had obtained so far were only 300.

6,000 academic credits? Even if he sold his health, he wouldn't be able to get that much!

"Hehe, don't blame me for not reminding you. The right to buy first isn't that reliable. Even if you, a new student, can produce enough credits, there might still be people gossiping about you. If you can't produce enough credits, others will have the right to buy it."

"No one can take away what I like," Lin Yi raised a brow.

"Tsk, how overbearing."

"Seeing that you're quite to my liking, I'll point you in the right direction. Do you want to hear it?" old man Zhao laughed.

"I'd like to hear more!" Lin Yi's eyes lit up.

"Earning credits is earning money, and the fastest way to earn money is never to rely on one's own hard work. Don't you have a ready-made way?"

Lin Yi blinked, "Talisman making society?"

"That's right, it's the talisman making society!"

Old man Zhao pointed out, "you should know that the talisman making society is not only one of the five major societies. At the same time, it's also publicly acknowledged as the society with the most money-making ability. Its monthly income alone is enough to cover the expenses of a large sect. Therefore, it has always been a fat piece of meat in the eyes of many parties. It has only declined after Jiang Ziheng took over."

"But even so, a starving camel is still bigger than a horse. As the president, you only need to take 20% and you'll get the credits."

"There's really such a thing in a society?" Lin Yi asked, surprised.

Previously, he had thought that even if the talisman making society could earn credits, it would not be much higher than his own, so he had not paid much attention to it.

if he had known that it would be so exaggerated, why would he not have asked about it for such a long time?

"it'll only be more exaggerated than you think. after all, they've inherited a profit chain for hundreds of years. even if they squander, they can't squander everything overnight."

"remember," old man zhao reminded him. "the wind-element domain raw stone will arrive by next month at the latest. if you're too slow, someone else will get it before you. i can't help you then."

"i understand. thank you, elder zhao."

time was of the essence, and lin yi turned around and got tang yun and wang shiqing to come along.

at the headquarters of the talisman society.

Having an independent building on campus as the club's headquarters was the arrangement of the five major clubs. If it were any other ordinary club, it would be good enough to be allocated an activity room, let alone an entire building.

Now that Jiang Ziheng had left, the president's position was empty, but the entire headquarters was still in order.

In fact, it was even better than when Jiang Ziheng was still around. At least the power struggle between the internal factions was more or less more restrained than before.

"It's even better when the president isn't around. I don't think I need to say much about how Jiang Ziheng is doing as the president. "

A mocking voice came from behind them, and a man in a white coat came into their line of sight. Other than his unkempt appearance, he had the aura of a senior researcher.

Especially after the self-introduction, Lin Yi felt that he was at a wrong place.

The original Technical Director, Liu Yiyuan.

"Senior han asked me to help you, but to be honest, I'm very disappointed."

The man walked over with a pair of flip-flops, sizing Lin Yi up. As for Tang Yun and Wang shiqing, who were more eye-catching to men, they were ignored.

"You're from the Disciplinary Committee?" Lin Yi blinked.

"I was in the past, but I'm not now. I'm just an outdated nobody in the talisman making society that no one cares about."

Liu Yiyuan laughed at himself and continued to examine Lin Yi. "Half a month. I've waited for you for half a month. Since you're not interested in the talisman making society, why did you come to muddy the waters?"

"I'm sorry. "

Lin Yi was very embarrassed. He didn't think that there would be someone like this waiting for him in the talisman making society. More importantly, Han Qi had never mentioned anything about greeting him.

"Each and every one of them can't let me rest easy."

Liu Yiyuan let out a breath of turbid air and said with a frown,""What are you doing here today? Look around and see if it's fresh?"

"No," Lin Yi shook his head seriously, "I'm here to take up the position. "

"Ha?"

This time, it was Liu Yiyuan's turn to be stunned. He only came back to his senses after a long while, and the corners of his mouth curled up into an excited arc. "Alright, at least you didn't make me wait for so long in vain. I hope you won't disappoint me."

Before Lin Yi could reply, another voice cut in, "Hehe, is it really appropriate for a person who is about to be removed from the club to speak to our new president in such a tone?"

A group of people walked out of the main hall, many of whom Lin Yi had seen before, including the female talisman master who was Jiang Ziheng's most loyal follower.

The person who spoke was a middle-aged man with a dignified appearance.

"I'm Xiao Chi, the Vice President. On behalf of all the talisman Society members, I would like to welcome President Lin. "

As the middle-aged man spoke, he led the crowd to bow in unison. His posture was impeccable.

Lin Yi was quite surprised by this unusual scene.

Lin Yi expected the higher-ups to be unhappy with his arrival, and they'd do everything they could to stop him. He'd even be prepared for all sorts of extreme situations.

The only thing he didn't expect was this situation.

"You're really welcome?" Lin Yi smiled.

"Of course, I welcome you with all my heart. A country can't go a day without a king, and our club can't go a day without a leader. Only with you here, President Lin, can everyone truly be at ease and the club can develop steadily. These are all my heartfelt words."

Xiao Chi still maintained his humble attitude, but when his eyes fell on Liu Yiyuan, they became extremely cold. "Liu Yiyuan, you're guilty now. Instead of going back to reflect on your mistakes, you came here to talk nonsense. Don't you think you're an eyesore?"

Chapter 9453

"atone for his crimes? i don't need to be guilty!"

liu yiyuan retorted without holding back.

xiao chi's face darkened and he ordered, ""capture him!"

the experts of the talisman making society immediately swarmed out. although the members of the talisman making society were mainly talisman makers, they were not without combat power. they were just a little weaker than those professional martial arts clubs.

however, before these people could surround liu yiyuan, an extremely powerful divine sense attack had already swept over.

his divine sense trembled, a double resonance!

everyone at the scene immediately fell to the ground.

at that moment, everyone looked at lin yi with fear in their eyes, no longer looking down on him. were all new students this cruel these days?

even though they were all 2nd-year students and were all at the peak of the early stage of the complete heaven-sundering realm, in front of this unreasonable monster, their advantage in realm was nothing.

after a moment of shock, xiao chi forced a smile."as expected of the future newcomer king. it's the first time in history that a freshman is as strong as you, president lin."

"don 't. i'm afraid i'll fall to my death if you keep praising me so highly."

Lin Yi raised a brow at Liu Yiyuan."What did he do? Why are you in such a hurry to kill him?"

Seeing that Liu Yiyuan was about to explain, Xiao Chi hurriedly said,""President Lin, you may not know this, but he was the former Technical Director, responsible for supervising all safety matters related to the creation of talismans. However, he was selfish a while ago and changed the control process without authorization, leading to a major safety accident. More than a dozen brothers were injured in the accident, and some were even seriously injured and disabled. He can't absolve himself from the blame!"

"Really?" Lin Yi turned to Liu Yiyuan.

"There is."

Liu Yiyuan didn't even try to defend himself. He just nodded and admitted it.

Seeing this, Xiao Chi added, "President Lin, you heard it. We're not slandering him. The key is that not only did he hurt many of our brothers, but his actions have also caused public anger in the club. For the sake of the club, we can't let this person live."

Liu Yiyuan didn't say anything and just turned to Lin Yi.

"Alright, we'll deal with him however we want."

Lin Yi's words made Xiao Chi and the others secretly happy, but then he added, "But I'm new here, so I'll have to get familiar with the situation first."

"This ..."

Xiao Chi and the others looked at each other and finally nodded helplessly.

Their goal wasn't to get rid of a useless person, and it wouldn't be good if Liu Yiyuan made Lin Yi unhappy or even alert.

"Should we accompany you to the president's office first?" Xiao Chi suggested.

"Alright, let's go and take a look."

Lin Yi gave the two girls a look, who were hesitating to say something, and walked upstairs.

After going to so many places, Lin Yi was an out-and-out old man. How could he not see that Xiao Chi and his group were up to no good?

However, life was like a play, and it all depended on acting skills. He wanted to see what these people were up to.

Judging from the current situation, even though Jiang Ziheng had left, the talisman making society was still in the hands of his old subordinates. They might not be as united as a steel plate, but at least they had reached an agreement on their attitude towards him.

This wasn't a bad thing, however-it was a good thing for Lin Yi, who was pressed for time.

If there was chaos from top to bottom, although the difficulty of subduing would be lower, it would take a long time. In contrast, in the current situation, it seemed difficult to break out of the situation in a short time, but once a breakthrough was found, the time would be much faster!

"There are a total of five floors in the headquarters. The first floor is the activity hall and the special warehouse. The second and third floors are the talisman-making venues. The fourth floor is the staff's workshop and meeting room. The top floor is your exclusive president's office."

Xiao Chi introduced the place as he led the way.

Lin Yi was stunned by the luxurious decorations as soon as he pushed open the door to the top floor. His first reaction was that he'd returned to the secular world.

It was a high-tech setup that could be seen with the naked eye. Not only were there all kinds of conventional electrical appliances, but there was also an intelligent housekeeper. Without any instructions, all kinds of intelligent homes had already created a pleasing and luxurious atmosphere.

"Old Jiang, you're good at playing."

Lin Yi commented faintly as he subconsciously looked at Tang Yin. The remote control had a one-button atmosphere setting-the guy probably wanted to use it on Tang Yin, but didn't get to use it.

"Don't think about those nonsensical things, or I'll cut you up!"

Tang Yin glared at Lin Yi.

"How do you know what I'm thinking?" Lin Yi asked. What did you think of?"

"Get lost!" Tang Yin blushed.

"Big sister is like a worm in big brother Lin Yi's stomach!"

Wang shiqing was laughing on the side when Tang Yun dragged her to the side and punished her.

Xiao Chi and the others, who had their mouths stuffed with dog food, could only look down and pretend not to hear anything.

"How much did you spend on this, old Jiang?" Lin Yi asked.

"This ..."

Xiao Chi and the others choked and didn't know how to answer.

In fact, it was obvious that it would be an astronomical number. After all, this was Sky Class Island, not the secular world. Even if the central Chamber of Commerce allowed the technology to circulate to the local area, it was impossible to move the entire production line.

Although the mobile phone network had been introduced to the world, the price was still extremely high. Only high-level cultivators could afford it. Ordinary people did not even dare to imagine it.

As for the smart package in front of him, which was considered high-tech even in the secular world, it was even more valuable!

"Is there more than 6000 academic credits?"

Lin Yi asked again, and he understood immediately after seeing everyone's submissive expressions. He couldn't help but curse, "F * cking prodigal!"

Six thousand credits for a smart home that would cost a few hundred thousand in the common world at most ... Lin Yi didn't know if he should call Jiang Ziheng trendy or if he had sh * t in his head.

if that b * stard hadn't wasted it, it would have been a perfect-grade wind-type territory raw stone!

"your excellency, please conduct yourself with dignity! president jiang purchased these high-tech products to explore the possibility of combining secular world technology with traditional talisman-making models. how could his grand ideas be understood by a frog at the bottom of the well like you?"

the female talisman master stepped forward.

lin yi smiled, "i'd believe him if he had a lithography machine, but a smart home?" hehe, i really can't understand how his brain works. "

"What lithograph machine?"

The female talisman master was stunned. This thing had clearly touched the blind spot of her knowledge.

"The lithography machine is ..."

Tang Yun wanted to explain to her, but she gave up after thinking for a long time, ""Forget it, you won't understand."

Everyone was speechless and silently labeled Tang Yun as a two-faced girl.

Chapter 9454

Wang shiqing added, "The damage isn't great, but the insult is extremely strong!"

"....."

The female talisman master's face suddenly flushed red. As a die-hard fan who had been single-handedly promoted by Jiang Ziheng, when Jiang Ziheng was around, everyone treated her as half the boss's wife and was sought after everywhere. When had she ever suffered such humiliation?

However, this was not the end.

Lin Yi looked at her and suddenly realized something. "Who are you?"

"The president's First Secretary, Fang Qian."

The female talisman master stiffly replied.

"Secretary?"

"I don't need a Secretary," Lin Yi replied casually. "You can go back to where you came from."

The other party was rendered speechless for a long time.

Xiao Chi stood up and tried to smooth things over with a forced smile, "President Lin, you're new here and are unfamiliar with many things. Secretary Fang is an old hand here, so it will be easier for you to get things done with her around. It will save you a lot of trouble. Why don't you think about it?"

Fang Qian wasn't as arrogant as before-she wasn't happy with Lin Yi, but the position of Secretary was beautiful and high-status, and she didn't want to give it up, no matter how much she hated Lin Yi.

"But she's only thinking about senior Jiang and is unhappy when she sees me. How can I accept that? No, no, I don't want to make things difficult for a woman. It'll be too unpleasant if word gets out. "

"Which Department was she in?" Lin Yi continued.

Xiao Chi looked at Fang Qian, who was shaking her head repeatedly. He braced himself and said, ""Warehouse number two."

Lin Yi nodded, "then let's go back to the warehouse. Of course, if you don't want to, I won't force you. But the society may be big, but we don't have enough to feed people who don't do anything. Think about it carefully."

"I ..."

Fang Qian was so anxious that tears were flowing down her face. She begged Xiao Chi desperately, hoping that he would stand up and protect her.

After following Jiang Ziheng for a while, she had already gotten used to a glamorous life. How could she be willing to go back to being a warehouse girl at the bottom level? Besides, she had made things difficult for her former colleagues in the past. If she went back now, wouldn't she be killed by revenge?

However, she was even more unwilling to leave the talisman making society.

After all, the talisman making society was one of the five major societies. Even the lowest-level members could always get a little benefit every year. Outsiders could not enter even if they wanted to.

As for an ordinary second-year student like her who didn't have a foothold, once she left the club, it was impossible for her to find a better way out.

At that time, without any credits, it would be unknown if she could successfully stay in the Academy, not to mention other things.

Unfortunately, Xiao Chi and the rest of the people remained silent.

"It looks like everyone's fine with it. You should go back to the warehouse, it's fine." Lin Yi smiled.

"Alright, alright, I'll remember it."

Fang Qian gritted her teeth as she glanced at the crowd. The people she hated the most right now weren't Lin Yi, but Xiao Chi and the others.

They'd agreed to fight Lin Yi together, but now that it was time, they'd all become cowards.

"If I, Fang Qian, am not having a good time, then all of you can forget about having a good time in the future!

Fang Qian left the venue in anger, leaving the rest of the crowd in an awkward silence.

"I'm a little tired today," Lin Yi suddenly spoke up, "we'll talk about the rest tomorrow. We'll have a meeting then, okay?"

Xiao Chi and the others were stunned.

Normally, even if he was not a new official, he would still have to know more about the situation and show his authority as the new president.

They had already discussed this long ago and were prepared to fool this hotheaded youth. They even wanted to show off first and then suppress him to show off their might!

They didn't know what to say after Lin Yi's actions.

"Alright then, have a good rest."

Xiao Chi and the others looked at each other and could only leave one after another.

After all, the other party had clearly asked them to leave. They couldn't be thick-skinned and insist on staying. That wouldn't be called showing off their might, but showing off their face.

Soon, only the three of them were left in the room.

Tang Yin reminded after some hesitation. "These people are up to no good. Don't be fooled by them."

"Don't worry, we're both thousand-year-old foxes. It's not certain who's playing with who. "

Lin Yi smiled and made a call. "Boss han, I have a little problem here, can you help me?"

On the other side, after coming down from the top floor, the higher-ups of the talisman making society didn't disperse. Instead, they turned around and went to Xiao Chi's office together.

"Little brat, you don't come with good intentions."

A man with an experienced appearance spoke first.

His name was Wu Tong, and he was the most senior executive present. Many people had been his subordinates in their early years, and had not fallen even after four presidents. Although his current position was only a Department Director, his influence was above that of Xiao Chi, the Vice President.

Xiao Chi nodded in agreement. "That's right, he's more difficult to deal with than I expected. He first used his personal martial arts to deal with Ma Wei, then used this as an excuse to make an attack on Fang Qian. Then, he immediately sent the guests off, not giving us any chance to fight back. He's completely leading us by the nose in the whole set. How shrewd."

They wouldn't have felt it if he hadn't said it, but now that he said it, everyone broke out in cold sweat.

Most importantly, up until now, many of them still thought that Lin Yi was a noob who didn't know anything at all. It was a huge contrast to the cruel reality, and just thinking about it made them feel scared.

"But there's no need to be afraid. The talisman making society is our property. As long as we don't make any mistakes, he's just an empty President who doesn't even have an official appointment letter. He won't be able to cause any waves."

Wu Tong gave everyone a calming pill.

Xiao Chi added, "no matter how shrewd and ruthless he is, he can't do anything with just a nominal President title. As long as we remember this, we'll naturally be in an invincible position!"

"Remember, we can only control the entire club by clenching our fists. We can't be defeated by him one by one!"

"So from now on, all of us have to carry a listening device on us, and we're not allowed to remove it 24 hours a day. If Lin Yi contacts any of you, you have to report to me and brother Wu immediately, and we'll deal with those who break the rules!"

after saying that, xiao chi set an example and put on the micro-listening device.

when the others saw this, they didn't say anything and took it one after another.

"just in case, there are still a few hidden dangers that need to be dealt with."

wu tong raised three fingers. "first, the beginning and end of the previous incident need to be cleaned up. it's all liu yiyuan's fault. we can't leave any evidence behind."

"second, we need to monitor liu yiyuan the entire time, in case he comes and ruins our plans."

"Third, that woman needs to be dealt with. She's more or less a hidden danger."

Everyone's expression changed. They naturally knew who that woman was.

Xiao Chi said awkwardly, "brother Wu, Fang Qian has a close relationship with President Jiang. If we get rid of her without permission, I'm afraid it'll be difficult to explain to President Jiang when he asks about it later."

Although Jiang Ziheng had lost his power on the surface, the king of Nanjiang was his true foundation. Moreover, he had recently gotten involved with li Muyang. It was obvious that such a character would not be able to remain silent forever.

It wouldn't be long before Dongshan Mountain Rose again!

"He's someone who's going to do great things, why would he care about a mere woman?"

Chapter 9455

Wu Tong shook her head in disdain. If the target was Tang Yun, she would have to think twice, but what was she?

Whether it was her looks or her family background, she was worlds apart from Tang Yun. At best, she was just skin and bones under the guise of being from a good family. Jiang Ziheng might still be able to gain some favor with her if she was close to him, but once she was gone, he would forget about her in the blink of an eye.

Most importantly, the gaze that Fang Qian had given them earlier was truly chilling.

A woman driven by hatred could really ruin big things sometimes.

"Everyone, we can't be too soft-hearted. It's not worth it to ruin our big plan because of an insignificant woman."

After Wu Tong's earnest persuasion, everyone's attitude finally changed, and they all agreed on this matter.

After all, Fang Qian was just a woman left behind by Jiang Ziheng, and she did not have much actual interest in them.

Just as everyone came to a consensus, a voice that made everyone's jaws drop suddenly rang out among them.

"Isn't it inappropriate to discuss about killing a member of the talisman making society so openly in front of me?"

Lin Yi stood up slowly.

In an instant, the eyes of Xiao Chi and the others popped out. How the hell did this guy get in?

"President, President Lin, when did you come in?"

The corners of Xiao Chi's mouth twitched as he braced himself and asked.

"I followed you guys in from the start. Didn't you guys notice me?"

Lin Yi put on an innocent face before taking out a used talisman,"Oh, that's right. This is the concealment talisman that Liu Yiyuan just gave me. I accidentally tore it apart. Aiya, what a waste."

“.....”

Everyone was speechless.

When he thought about how all his plans had been witnessed by this fellow, he really wanted to die!

They knew that Lin Yi wasn't simple, but who would've thought that he'd be this cunning!

Of course, the main reason was that they were too careless. The effect of the invisibility talisman was strong, but it wasn't strong enough to make so many of them blind. If someone had scanned the area with their divine sense, they wouldn't have been fooled by Lin Yi like this.

Xiao Chi reacted and forced a smile. "President Lin, you might have heard wrongly. We were actually discussing how to make the best arrangements for Fang Qian. After all, we're all colleagues. We can't just watch her go back and be a warehouse manager at the bottom level. That would be a waste of talent."

"Really?" Lin Yi raised a brow. I thought you were talking about making her disappear from the face of the earth. "

"No, no, no, you're too scary. We're all good students who abide by the law. How could we do that kind of thing?"

Xiao Chi quickly denied it three times.

"That's good. Otherwise, if something really happens to Fang Qian, I'll have to take the blame."

"What if there's news about me forcing my Secretary to death? I'll never be able to clear my name." Lin Yi smiled.

"It won 't, it won' t,"

Xiao Chi and the others were embarrassed.

That was what they really thought, killing two birds with one stone if they did it well, but they couldn't do it anymore now that Lin Yi pointed it out.

Damn, this kid is really not easy to fool!

"That's good. "

Lin Yi smiled as he stood up and walked towards the door. Just as everyone's expressions changed, he suddenly stopped."In fact, you're wasting so much time discussing how to deal with me, but it's destined to be in vain. In the end, you'll still have to bite your own people. Why do you have to do this?"

"So you're saying that President Lin seems to be very confident in yourself?"

Wu Tong stood up and directly put up her signboard, ""Since we've already come this far, there's no need to continue acting. Just tell me, what do you want?"

"I'm the president. What do you think I want?" Lin Yi smiled.

Everyone's expression changed.

"Young man," Wu Tong snorted, "you're too greedy. Be careful not to break your teeth."

"Old people have bad teeth, so it's even more important to protect your teeth. What if you wake up one day and lose all your teeth? wouldn't that be very inconvenient?"

Lin Yi replied with a smile.

Wu Tong almost choked on her words.

Seeing this, Xiao Chi hurriedly tried to smooth things over. "President Lin, please calm down first. We don't have any other meaning by grouping up here. We're mainly afraid that you're young and

impetuous and don't know the rules, ruining everyone's rice bowls. As long as you're willing to make money with harmony, everyone can sit down and have a good talk. There's really no need to be so hostile, what do you think?"

"Have a good talk? Then tell me, what are you prepared to give me?"

Lin Yi crossed his arms as he looked at everyone.

"Yes!" Xiao Chi said seriously, "as long as you're willing, you can sit in the president's office. In addition to the president's benefits, you can also get five points of dividends!"

Five points was five percent.

From what Lin Yi had heard from old Zhao, this was a huge sum of money that couldn't be underestimated. It was enough to make anyone jealous, and even Lin Yi would be tempted if it were before.

Unfortunately, the perfect-grade wind-type rough stone was about to arrive. This little bit of profit was not enough to satisfy his appetite.

"Are you trying to get rid of a beggar?" Lin Yi chuckled.

"FiveO' clock is already quite a lot. You don't have to do anything. You can leave all the internal matters of the club to us. You can eat and drink as you please and do whatever you want. Isn't it good to receive a large sum of filial respect for free?"

Xiao Chi persuaded him earnestly.

If it weren't for Lin Yi's performance today, he wouldn't even be willing to give up the Five Points. After all, it was their meat. If Lin Yi took it, they'd have less.

But Lin Yi was still a pain in the ass,"Too little, too little."

Xiao Chi gritted his teeth."Six points. No more. This is our limit!" He said. More or less, you have to leave some food for us old people, right?"

"Oh, then you guys have a good appetite. Can you eat so much in one mouthful?"

"You guys take at least fifty points of income, and sometimes sixty or even seventy at the extreme, and you're only giving me six points as a hush money. You're looking down on me?"

Everyone was shocked.

It was not only Jiang Ziheng's credit that the talisman-making society had fallen to its current state. Each and every one of them had also contributed greatly.

No matter how high and amazing the profit was, 70 points of revenue had gone into his own pocket, and it did not benefit all the members. It was just a group of fat upper echelons of the club. It would be a miracle if such a club could develop normally.

After an awkward silence, Wu Tong stood up and made the decision on behalf of everyone. "10 points, we can give you 10 points. This is the limit we can take. If this is still not enough, then there is nothing to talk about. Let's start the war."

"To be honest, your price is close to what I'm thinking," Lin Yi smiled.

Xiao Chi and the others finally heaved a sigh of relief.

Chapter 9456

taking out 10 points at once was no different from cutting off a large piece of meat from them. but no matter what, this was much better than having a complete fall out with them!

to put it bluntly, there were many things they did that couldn't be seen in the light. if they really fell out with lin yi, they were confident that they could make lin yi suffer, but if lin yi flipped the table, they wouldn't be able to live well either.

it was better to eat less than to eat nothing.

however, lin yi's next sentence was, "it's a pity that the 10 points i want is completely different from the 10 points you mentioned. i'll take the 10 points for free, but i have to be in your company. i'll have to take the risk for you. it's not worth it."

"so ... war is about to start?"

wu tong and the others 'faces had completely darkened.

"Don't make it sound so scary. I've already said that I'll have a meeting tomorrow. I believe you'll give me a satisfactory answer."

Lin Yi looked at the excited crowd with a half-smile, "If you want to take the risk, you can only do it now. Once I walk out of this room, you won't be able to find such a good opportunity again."

"....."

The imposing manner of Xiao Chi and the others dimmed.

They really thought so!

If ten points of bonus couldn't shut the kid's mouth, it meant that the kid wanted more. It was a huge profit, and it was enough for them to take the risk. As Lin Yi said, this was the best chance for them to keep him!

Lin Yi might have just dealt a blow to the horse earlier, but if they all went all out, taking down Lin Yi was no problem at all!

After all, many of them were seniors, and just the suppression of their cultivation levels was enough to make Lin Yi, an early stage full cultivation practitioner, unable to raise his head. Not to mention, they all had their own trump cards.

No matter how you looked at it, physical attacks were the most cost-effective way to deal with Lin Yi!

"President Lin, you must be joking. Although we aren't smart, we're not that stupid either."

Wu Tong coldly snorted, interrupting everyone's impulse.

"Oh, really? That's such a pity. "

Lin Yi smiled, and with a poof, he disappeared.

"It's actually a clone?"

Xiao Chi and the others "eyes once again popped out. Each and every one of them was filled with lingering fear. If they couldn't resist making a move just now, they would really be finished.

They had surrounded and killed the new president in broad daylight. Once this matter got out, all of them would be hung up and whipped. No one would be able to escape!

"Damn, he's really a cunning old bastard!"

Someone cursed with a lingering fear.

"What do we do now?"

everyone looked at xiao chi and wu tong, who were their backbones.

"it's nothing," wu tong said in a low voice."just do as we were told. this is an open scheme!"

xiao chi nodded."that's right. it's still the same. the talisman making society is our society. as long as we don't panic and get attacked one by one, no one can help us. lin yi is the same!"

after giving everyone a calming pill, wu tong added,""just in case, little xiao, you still have to go to du jiu's side. as long as he doesn't get du jiu's official endorsement, he won't count as the president. we will be in an invincible position!"

"understood. i've already made the arrangements."

at the same time, in the president's office on the top floor, lin yi was looking at the things liu yiyuan took out with a weird expression.

"an assembly line?"

lin yi subconsciously wondered if this guy was from the common world-this guy had a standard production line for making talismans!

even lin yi himself could only think of a way to increase the efficiency of making talismans, which was the same as central, using a high-precision lithography machine instead of manual labor.

this idea was highly feasible. after all, central had already put it into practice, but the possibility of success was zero.

this was because they could not get their hands on a lithography machine.

on the other hand, liu yiyuan's idea was completely based on the real world of the talisman making society. although there were still some problems in various aspects, it could be put into practice.

as long as the supervision was in place, the success rate would be very high!

"How much efficiency will this increase?"

Lin Yi asked.

Since he was already here, he was determined to get the talisman making society. He naturally had to take this kind of optimization process to increase efficiency to heart. After all, it was directly related to his income.

The better the talisman making society's benefits, the more points he would get as the president!

"It's at least 50% higher!" Liu Yiyuan said confidently.

"Not enough," Lin Yi shook his head, "I need to double it."

"Uh ..."

Liu Yiyuan couldn't help but be stunned.

To be able to increase the efficiency of creating talismans by 50% was already an exaggeration. Since ancient times, countless people had tried to increase their efficiency, but only a few had succeeded. Even if they succeeded, the increase in efficiency did not exceed 20%.

His assembly line mode was at 50%, which had already killed all the seniors. Was this not enough?

At that moment, he even suspected that Lin Yi didn't even know how to make talismans. It sounded like a layman's nonsense.

"You only see the benefits of this matter, but you don't see the price behind it and its difficulty."

Lin Yi explained when he saw the confusion on the guy's face. "The assembly line directly subverts the previous operation mode. No matter how comprehensive your design is, once it enters the operation level, it is bound to encounter all kinds of endless problems. Some of the problems are beyond our imagination before they are encountered."

"I'm already mentally prepared for that. "

Liu Yiyuan nodded. He was in the field of technology, so he naturally knew the difference between theory and practice. No matter how perfect a theory was, it couldn't be compared to the worst practice.

"More importantly, it will completely break the traditional chain of interests in the past. Moving one's wealth is like killing one's parents, and it will inevitably lead to the desperate counterattack of those with vested interests.

Lin Yi paused."In other words, before the assembly line goes online, we have to clean up the entire society. Otherwise, there's no chance of success. After all, it's much easier for them to ruin things than for you to succeed."

"....."

Liu Yiyuan stopped talking.

It wasn't that he didn't understand. On the contrary, he understood it all too well. This was because the tragic accident that had been blamed on him previously was a ready-made case.

At that time, he didn't even want to change the production line. He only optimized an intermediate link and reduced the cost of making talismans. That was all.

It was true that he was in the field of technology, but that didn't mean that he couldn't smell the conspiracy behind that incident!

Reducing costs was a good thing for the entire talisman making society, but it was not a good thing for those with vested interests.

Now that they were going to set up an assembly line, the profits involved were countless times greater than that. The scene at that time could be imagined!

Chapter 9457

"It's not worth it to pay such a huge price in exchange for a 50% increase in efficiency."

Lin Yi said faintly.

Liu Yiyuan was silent for a moment. He picked up the drawing and turned to leave. Without looking back, he said, ""I'll double it, just you wait. "

"Let's wait and see,"

Lin Yi chuckled as he watched him leave.

Tang Yin, who'd been watching the whole time, rolled her eyes. "You have the nerve to play such tricks with a technological geek?"

"What do you mean by playing mind games? I'm just playing his subjective initiative! If I don't exploit a talent that has presented itself to me, I'll feel sorry for my conscience. "

Lin Yi said seriously.

In fact, when Liu Yiyuan said that there was a 50% increase, Lin Yi was already overjoyed, but he held it in.

He had already declared war on Xiao Chi and his gang. Even if there was no assembly line, he would have to clean up the entire talisman making society from top to bottom. Even if there was only 10% of the profits from the assembly line, let alone 50%, it would be a waste!

"Conscience? Do you know how to write these two words?"

Tang Yin had a whole new understanding of this guy's shamelessness, but the strange thing was that she didn't feel disgusted at all. She was even getting closer to Lin Yi now.

At the very least, she no longer had the disgust and resistance that came from the bottom of her heart.

Could this be the so-called 'women don't love a man who is not bad'?

Tang Yin blushed at the thought. What the hell was she thinking?!

"What's wrong with your face? You have a fever?"

Lin Yi subconsciously touched Tang Yin's forehead.

Tang Yin stood there in a daze for a long time, until she could feel the warmth of the man's palm on her forehead. She finally came back to her senses and took a step back, embarrassed and angry. "You're the one with a fever! Get lost!"

Wang shiqing chuckled. ""She's having a fever, Lin Yi bro, do you want to give her an injection?"

“.....”

tang yin's cheeks were flushed red, and even lin yi was in shock-when did this girl learn to drive?

on the other hand, wang shiqing was confused."what did i say?"

lin yi and lin yi didn't know what to say until their phone rang.

"i'm going out to do something. "

lin yi ran away immediately, leaving tang yin to discipline the girl.

north garden of yushan.

this was a group of villas at the foot of the jade mountain. it was actually a student dormitory in name, but it was obviously not a place that ordinary students could afford to live in. just the annual accommodation fee alone could buy two ordinary-grade territory stones.

those who could live here were naturally rich and noble, and wu tong was one of them.

in terms of identity and status, he was only the department director of the talisman making society. however, as a senior member of the society, the wealth that he had accumulated was enough to leave 99% of the students in the dust.

most importantly, not only did living here give them face, but it also had an extremely high safety factor.

not to mention the various supporting formations, ordinary rascals couldn't even touch the side of the gate, let alone cause any chaos.

however, when he greeted the big shots and neighbors around him and pushed open his door, he was surprised to find an uninvited guest in the living room.

lin yi.

"you ..."

Wu Tong was about to call out when Lin Yi's eyes stopped her. "If other people see this, it might not be good for you."

After hesitating for a moment, Wu Tong finally chose to give up and closed the door as usual.

He wasn't intimidated by Lin Yi, but he didn't know what the guy was up to this time. He wanted to take a good look.

"Sit, it'll be ready soon."

Lin Yi turned the tables and poured himself a cup of kungfu tea, pushing it in front of Wu Tong. "Director Wu, you are indeed a person who understands life. You have good taste. I'll have to learn from you in the future."

"oh?" wu tong frowned. "president lin, you're here to visit. i'm sure you have something to say to me?"

"you have to support me in the meeting tomorrow," lin yi smiled. "i'll leave you some dignity. "

"are you kidding me?"

wu tong's mouth twitched. he and xiao chi were the two pillars of the society, and he was the biggest beneficiary for maintaining the current situation.

it was impossible even if sh * t entered his brain!

people would betray their own conscience, their own brothers and friends, but they would never betray their own ass. even a child should understand this, didn't lin yi?

"Do I look like someone with so much free time?" Lin Yi smiled.

"That's great. Give me a reason to support you. "

Wu Tong calmly took a sip of tea. From his point of view, he, Xiao Chi, and the others were naturally undefeatable. He wanted to see what kind of tricks this hotheaded young man could come up with!

Lin Yi said casually, "it's easy if you want a reason." To save my life, is this a reason?"

"save your life?"

wu tong raised her eyebrows. "president lin, you can eat whatever you want, but you can't say whatever you want. you're openly threatening my personal safety. if this gets out, it'll be a big problem." by the way, there are no blind spot surveillance cameras in my house, and your words have been recorded. "

if it wasn't for his pride, he really wanted to laugh out loud.

lin yi was giving himself a handle-he thought that this guy wasn't easy to deal with, but now it seemed that he was a hothead!

lin yi, on the other hand, was as calm as ever."it doesn't matter. if you want to record it, then record it. if the recording doesn't go well, you can still shoot it again from a different angle. i have no problem with it."

"what?" wu tong was stunned."are you stupid?"

lin yi smiled,"without an idiot like me to give you a chance, how are you going to survive?" right, big brother han?"

"han ..."

only then did wu tong notice that on the window sill behind her, a person had been sitting there since god knows when. it was a child.

to be more precise, it was a ruthless person with the appearance of a child.

the former president of the disciplinary committee, the current head of the dark group's inspectorate, han qi.

"You pulled me over just for this? I say, Wang Lin, do you have some misunderstanding about my coffee rank?"

Han Qi was spinning the top on his fingertips in boredom. From the moment Wu Tong entered the room, he had already been sitting there, but Wu Tong had not noticed him at all.

The difference in strength between the two was obvious.

"What misunderstanding is there?" Lin Yi laughed. Aren't you just a past boss of the Disciplinary Committee? isn't it the best use for you to do this?"

"You know nothing."

"F * ck!" Han Qi cursed, then threw out a sheet of paper, which landed right in front of Wu Tong.

Wu Tong only took one look and immediately felt her soul leave her body.

It listed all of his deeds in the past 20 years, including all the illegal operations, big and small details. This list alone had dug out all his secrets.

Chapter 9458

"You embezzled more than 30000 academic credits. You're really good at your job as the Department Director of the talisman making society."

Han Qi's casual words made his scalp tingle.

However, he, Wu Tong, had been in the talisman making society for four dynasties and had not fallen. In the end, he was not a simple character who would kneel down in fear. After a moment, his expression returned to normal.

"I don't know what you're talking about, guild leader han. I'm just making groundless accusations without any concrete evidence!"

His hands and feet had always been very clean. Even if there were some parts of the accounts that were unclear, he could always find an excuse. However, that could only be said to be due to the talisman making society's poor management, and not because he, Wu Tong, had taken the initiative to embezzle.

"Oh, really? Then what about this?"

Han Qi threw over a cell phone. The screen was playing a video of a woman surrendering herself.

That woman was Fang Qian.

Wu Tong's mental defenses crumbled in an instant. As Jiang Ziheng's personal secretary, this woman Knew Too Much. He had a premonition that something bad would happen to her, so even if Lin Yi exposed them on the spot, he and Xiao Chi still prepared a countermeasure.

But who would've thought that Lin Yi would be this fast!

In fact, it was not strange. The Disciplinary Committee specialized in this, and it was the former leader, Han Qi, who personally took action. If their efficiency was not as good as a group of laymen, it would really be unscientific.

"This woman has been blinded by hatred. She's making things up!"

Wu Tong suppressed the shock in her heart and pretended to be calm,""Moreover, this kind of thing is under the management of the Discipline Committee's anti-corruption team. President han, you're the former president who has already stepped down. I heard that you're only in charge of the dark group now. You don't seem to be able to intervene in this matter, right?"

Han Qi looked at him as if he was looking at an idiot,"The entire anti-corruption group was promoted by me. If I were to give them a heads up, do you think they would be happy to accept your performance?"

Wu Tong choked.

Lin Yi and Hanqi didn't care about him and started drinking their tea. Unfortunately, the two of them were boorish men who only knew how to put on an act and didn't understand the essence of Kung Fu Tea at all. It was a waste of God's gift.

After struggling for a long time, Wu Tong silently got up and took the initiative to pour tea.

It was not that he had fled quickly, but from the moment Han Qi had appeared, he had no chance of turning the tables.

He was the former president of the Disciplinary Committee, the fifth seat of the student council. Lin Yi's request to deal with him today was already lowering his status.

They were not on the same level at all. Moreover, he still had a handle on him.

"What does President Lin need me to do?"

Wu Tong's posture was very low, and her desire to live was bursting.

It couldn't be helped. If these two joined hands, they could really kill him in a legitimate way. At this time, the only choice was to kill his fellow Daoist rather than kill him.

"Go and get the others," Lin Yi said casually. "You guys know each other's background, so it shouldn't be hard."

"Understood."

Wu Tong's answer was straightforward, and this result was even better than he had expected.

Since Lin Yi had the intention to make them his followers, he wouldn't really hurt them. At most, they'd get less meat in the future, and he'd get a new boss, that's all.

He didn't feel any pressure changing bosses-working for Jiang Ziheng was still working, working for Lin Yi was still working, there wasn't much difference.

Not to mention that he had a strong person like Han Qi backing him up. Lin Yi's background was probably no worse than Jiang Ziheng's, not to mention that he himself was the most popular candidate for the newcomer King title.

"Remember, I only want half of you."

Lin Yi's words made his heart skip a beat.

"What about the other half?" Wu Tong couldn't help but ask.

"Do you need me to be so clear?"

Lin Yi pointed at Hanqi, who was sitting opposite him, "My boss han has made a long trip, shouldn't he ask for some appearance fee?"

"I understand, I understand."

Wu Tong wiped her cold sweat and didn't dare to say anything more. She was both afraid and glad.

Now that he thought about it, he felt that his people were really arrogant. On the outside, they looked like five or six people, but in the eyes of a powerful person like Han Qi, they were just a pile of fat meat. Whenever they were hungry, they could eat it at any time.

The key to the problem was that from the beginning to the end, he didn't need to reason with you. How could a piece of fat on the anvil have so much reason?

With Lin Yi's permission, Wu Tong quickly went out to exercise.

He had many followers in the talisman making society. He would sell the half that he kept. There were too many things to consider and negotiate about. At least, he would not be able to sleep tonight.

Similarly, the higher-ups of the talisman making society were destined to have a sleepless night.

Wu Tong left, but Lin Yi and Hanqi stayed in his house.

"Taking over the talisman making society was a brilliant move, but the newcomer King is your Foundation. If you can't take the tenth seat of the substitute freshman representative, today for these idiots will be your tomorrow. When that time comes, I'll be the first to collect your corpse."

Han Qi casually crossed his legs, not knowing how harsh his words were.

"then i've really troubled you."

lin yi said with a smile.

without a doubt, the talisman making society was a chicken that could lay golden eggs. if he didn't have enough strength and influence, he wouldn't be able to support it even if he managed to snatch it. instead, he would invite a fatal disaster.

on the other hand, if one's strength was sufficient, the talisman making society would become the perfect power booster.

after all, whether it was an individual or a force, the power of money was a good thing that people dreamed of.

"the ten seats have been discussing the sword seminar on yushan for the past two days. i heard that you are being targeted."

"That's expected," Lin Yi nodded.

"But you don't have to be too dejected. There are still people speaking for you. Plus, the Tian family is also paying attention to it. Even if some people want to do something, they don't dare to do it too openly."

Han Qi pointed out.

"Who are you talking about?" Lin Yi asked.

"You really want to know? I'll tell you, don't pee your pants. "

Han Qi looked at Lin Yi with a playful look, dipped his hand in the tea, and drew a line across the table.

To be more precise, it was a "one."

Lin Yi was prepared for this, but he still couldn't help but take in a cold breath. "The first seat of the Academy?"

"That's right. The strongest first seat in the history of the Academy. The ancestral Dragon's protection and the aura of an Emperor. Are you afraid?"

Han Qi looked at him with a smile.

"Afraid, of course I'm afraid. I'm just a little freshman being targeted by such a Big Shot. How can I not be afraid?"

Lin Yi was begging for mercy, but he didn't play with the kungfu tea at all-he was getting more and more skilled at patrolling the city.

Han Qi's eyes twitched as he watched."Let's not talk about other things. Your lawless behavior is quite similar to my younger self."

"So you don't get along with the chief too?" Lin Yi's lips curled up.

"Back then, Ji Chi successfully backstabbed me and snatched the title of the Disciplinary Committee's President from my hands. At the same time, he was also the one who supported the fifth seat of the Academy. What do you think?"

Han Qi said faintly.

"Blood feud?" Lin Yi asked, stunned. Wouldn't it be dangerous for me to follow you?"

Chapter 9459

"Big brother, no smile, second brother, you've destroyed his setup, so you're also a thorn in his side."

Han Qi curled his lips,"so if you want to gain a foothold in the Academy, you must climb up at all costs. At least, you must climb to a point where he can't kill you with a sneeze."

"Newcomer King?"

"Don't think too much. That's just the very beginning. "

Han Qi paused for a moment and said in a rare serious tone,"When that day comes, you'll have the qualifications to truly join forces with me. At that time, I'll bring you to do something big."

Lin Yi chuckled."You're talking big, but you're nothing. Do you want me to go buy you some peanuts?"

"You know nothing."

Han Qi's lips curled into a villainous smile,"Ji Chi won't be able to sit in his seat for long. Just wait and see, kid. The next time we meet will be in the Council of Ten."

"Sure, I'll see you in the Council." Lin Yi smiled.

The next day, in the talisman making society's headquarters meeting room, all the higher-ups were present.

Compared to yesterday's meeting with a common enemy, the atmosphere today was obviously a lot weirder. No one spoke, and a strange and uneasy atmosphere spread in the large conference room.

"What's wrong with you guys?"

Xiao Chi glanced at the crowd in surprise and comforted them, ""I've already prepared everything, there's nothing to be nervous about. If Lin Yi knows what's good for him, then we'll let him have some of the soup, but if he doesn 't, then we'll just have to invite him ..."

Before she could finish, Lin Yi walked in without warning. "You can only invite me for what?"

"Of course, I'm treating you to a good drink."

Xiao Chi's face-changing was also at a professional level. He immediately went straight to the point, "I've been thinking about it for a day. I wonder if President Lin has made up your mind?"

"Ha?"

Lin Yi pointed at himself, surprised, "you want me to think about it?" You're teaching me how to do things?"

"We wouldn't dare. It's just that there are specializations in every profession. At least in the management of the talisman making society, we still have some experience. If we let a layman lead an expert, I'm afraid there will be trouble."

Xiao Chi paused and laid his cards on the table, ""That's why we sincerely hope that you can enjoy your life and that we will do our best. As for the dividends, I will represent everyone to take a step back. 12 points. That's the bottom line."

" 12 points? "That's a huge amount of credits. Ask them if they'll agree. "

Lin Yi pointed at the other executives.

"Of course they ..."

As soon as Xiao Chi opened his mouth, he saw Wu Tong stand up, ""I don't agree."

Time stopped.

Xiao Chi looked at Wu Tong in disbelief. Looking at this ally he thought was the most unbreakable, he opened his mouth, but couldn't say anything for a long time.

At the same time, half of the senior executives present stood up. "We also don't agree."

The other half of the upper echelons fell into a state of confusion.

"Could it be that brother Wu Tong feels that I'm giving too much?"

Xiao Chi didn't know how to react. He even felt that Wu Tong and her group of so-called experienced old people were really inflexible. As long as they could coax Lin Yi right now, it didn't matter how many points they agreed to.

After all, no matter how much they agreed on the surface, they would still be the ones to do it in the end. When the time came, wouldn't they be the ones to decide how much they would give?

There was no point in arguing with Lin Yi over this-it was meaningless.

Wu Tong said seriously, "yesterday, President Lin said ten points himself. So it's ten points. But the bonus can't be taken for free. Since you're the president, you have to take responsibility!" I'll be the first to disagree if you're just taking the benefits and not doing anything else. "

The rest of the higher-ups who stood up agreed.

“.....”

Xiao Chi couldn't understand it at all. This was completely different from what they had agreed on.

He had long anticipated that some of them might be caught one by one, so he had set up security measures such as monitoring, but he did not expect such a strange scene to appear.

Their close ally, Wu Tong, had taken the lead to turn against them, and half of them had turned against them!

But then again, this was the only way to explain why he didn't receive any warning at all. It was because Wu Tong was the one who was in charge of the surveillance. He was monitoring himself, so what could he know?

"Are you surprised? Are you surprised?"

Wang shiqing, who had sneaked in, added on Lin Yi's behalf.

"No wonder he's the most popular candidate for the newcomer King. President Lin, you're really good."

Xiao Chi finally came back to his senses. He glanced at Wu Tong and the others and said, "But you're still one step behind. Without du jiuxi's official recognition, strictly speaking, you're not the president at all. I can call you President when I'm happy, but if I'm not, you're nothing."

"You have the final say?"

Lin Yi raised a brow.

"He doesn't have the final say, but if I were the one who said it, it should still count, right?"

With a charming voice, a woman in a cheongsam with an enchanting figure slowly appeared at the door, and everyone's expression changed when they saw her.

The Deputy of the ninth seat, little Feng Xian.

Everyone knew that little Feng Xian was the love of du wuhui's life. If it was her, she could at least be half of du jiuxi's home.

Lin Yi looked at the man, surprised. "They really hired a Big Shot. It must have cost a lot, right?"

"Junior Lin's words aren't very pleasant to hear. I'm only out in public for official business, not personal matters. I beg junior Lin to be more kind with your words."

Xiao Feng Xian's sweet voice made everyone go numb. With her appearance and figure, if one's mental strength was slightly weaker, they would not be able to control themselves on the spot.

To be able to capture such a seductive beauty, one had to say that du jiuxi was really lucky!

Lin Yi blinked and turned to Tang Yin, "Did I just insult her?"

"I didn't hear it, but since he said there is, then there must be. Apologize."

Tang Yin's response made Lin Yi want to give her a like. This weird Yin Yang skill ... She was definitely an old Yin Yang person.

"I don't know what I did wrong, but I'm sorry, Ms. Xiao Fengxian." Lin Yi said.

This time, it was the other side's turn to feel awkward.

Fortunately, little Feng Xian was a professional who came from a social place, so she was familiar with this matter. She smiled and said, ""Junior Lin is indeed an interesting person. You're really funny. I was just joking. Why do you have to be so uptight?"

"So you're here to joke?"

Lin Yi looked at her strangely before turning to the others. "That's all then, let's continue. "

"....."

Little Feng Xian was so stunned that she did not know what to say for a long time. However, she finally understood that it seemed unrealistic to use her best method to take the initiative in a few sentences of teasing when she met such a weirdo.

This guy really didn't play by the rules!

Little Feng Xian coughed dryly and forced a smile. "Junior Lin, I'm here mainly to convey Mr. DU's attitude. The battle bet between you and Jiang Ziheng was not reported in advance and did not comply with the rules and regulations. So, Mr. Du does not admit to the result of the battle."

Chapter 9460 Power

These words were said in a very stiff manner.

Saying it out like that made it clear that he had enmity with Lin Yi. Although with du wuhui's position, he probably wouldn't put Lin Yi in his eyes, but as his woman and assistant, Xiao Fengxian wanted to try her best not to widen the gap.

It was a pity that Lin Yi didn't know what to do at all, and it was impossible not to make enemies with him.

"Did you hear that clearly? this is Chairman DU's will. Without his approval, do you still want to be the president?"

Xiao Chi sneered to his face. "People are most afraid of not knowing their own worth. They were originally going to get a bonus for free, but they had to go through a lot of trouble. Now, they've come up with nothing and lost all their face. Are you happy now?"

Wu Tong and the other higher-ups, who had turned their backs on him, couldn't help but look at each other.

He had just been pulled onto the boat and nothing had been done yet, and the boat had sunk?

Wu Tong thought that Lin Yi was invincible now that he had brought out Hanqi. After all, the anti-corruption group of the Disciplinary Committee was a force to be reckoned with, and they had no way of fighting back.

But now, Xiao Chi's drastic move had completely reversed the situation.

After du jiuqi's direct rejection, the so-called President became a joke, and even Lin Yi himself became a clown!

How was he going to turn the tables?

Tang Yun and Wang shiqing were worried, but Lin Yi was still calm, ""Did du jiuxi say this himself?"

"I would not dare to lie to you, Mr. Du."

Little Feng Xian covered her mouth and chuckled. Before this, she had wanted to try her best to remedy the situation and try not to make their relationship too stiff. After all, he was a character who had the potential to become the new generation King.

But now, after Lin Yi's words, she didn't have any more thoughts.

In the end, the difference in their levels was too great.

Du wuhui was already giving Lin Yi a lot of face by naming him out. Thunder, rain, dew ... They were all God's grace, how could he be dissatisfied? Then I can only say that you deserve to be unlucky.

Lin Yi couldn't help but feel disappointed, "I thought that du jiuxi was someone who could judge the situation, but it seems like I was wrong."

"Judge the situation?"

Xiao Feng Xian was stunned, then she could not help but bend over in laughter, tears flowing from her eyes,""Did you think that Mr. Du would judge the situation for you? Kid, it's good to be confident, but overconfidence might not be the same. You don't seem to know anything about the power of the ten seats in the Academy. "

When she laughed, Xiao Chi and the others naturally burst into laughter as well.

"What do you mean by overestimating your own ability? What did he mean by arrogant? I've finally experienced it today, and learned two idioms at once. Congratulations!"

"Don't laugh, don't laugh. He's the most popular candidate for the rookie King. What if he really gets tenth place? He might even think that he's on the same level as du jiuxi!"

"Haha, I'm dying of laughter! Even a fool can see that he's already been targeted by the ten Chiefs, yet he still thinks he can take the top spot?"

"Even if he's ranked up, he's only a 10th place. It's a completely different concept from the iron-clad 9th place!"

Wang shiqing gritted her teeth in anger, and even Tang Yun's face turned green.

Only Lin Yi himself didn't seem to mind at all. Instead, he looked at Wu Tong and the others "reactions with interest.

Soon, some people couldn't hold it in anymore and started mocking Lin Yi.

They were even more vicious and shameless than the people in front of them, because if they didn't do this, they wouldn't be able to show their attitude of bringing order back to the world!

After all, the current situation could not be clearer.

Lin Yi lost, he lost completely!

However, as the leader, Wu Tong hesitated for a moment and surprisingly didn't join in the denouncement. She maintained her composure.

After everyone was done laughing, Lin Yi opened his mouth, "Little Feng Xian, let me ask you again. Can you really be du Jiu Xi's home?"

"I'm just a Messenger, how can I be a master?"

Xiao Feng Xian was very cautious and did not want to be caught off guard. She covered her mouth and laughed, ""Junior Lin, you're not thinking of luring me into saying the wrong thing and making Mr. Du dislike me, are you? Hehe, you're thinking too much. "

"No, I'm just giving you a chance." Lin Yi shook his head.

"Ha? What chance? A chance to taunt you?"

Little Feng Xian looked at him as if she was looking at an idiot.

"A chance to save your Mr. DU's face," Lin Yi said seriously.

When these words were said, everyone already completely did not understand.

"You ..." Little Feng Xian's face was filled with suspicion, "don't tell me you've been so agitated that you've started to talk in your sleep?"

At that moment, a man in white appeared at the door and answered for Lin Yi, "It's still bright outside. Why would junior Lin talk in his sleep?"

Everyone was shocked, even little Feng Xian could not help but cover her mouth, her eyes could not hide the shock.

The fourth seat of the Academy of human studies, sky official song Jiangshan.

All kinds of ridicule came to an abrupt end. The group of higher-ups of the talisman making society trembled in fear and hurriedly lowered their heads to show respect, not daring to make a single sound.

As the Deputy of the ninth seat, little Feng Xian was already a high and mighty figure to them. As for the sky official song Jiangshan, whose position was even higher than du wuhui, he was an existence that stood on the clouds.

In the face of such a character, kneeling and licking the ground was their instinctive reaction.

Xiao Feng Xian felt that something was amiss, she bowed and asked, ""May I know why Lord sky official has come?"

"I'm here to fulfill an agreement and announce something. "

Song Jiangshan smiled and turned away from her, turning to Lin Yi, ""From now on, you are the official President of the talisman making society."

As soon as these words came out, the entire place was in an uproar.

The crowd could not help but look at little Feng Xian. The management of the club was within the scope of the ninth seat's authority. No matter how high his sky official ranking was, he did not have the right to overstep his authority, right?

Even if the sky official had the power to appoint and dismiss people, the society wasn't an internal organization, and in principle, it wasn't under his jurisdiction.

Little Feng Xian frowned. "Before I came here, Mr. Du personally said that the president position of the talisman making society would be put on hold for the time being. Lord sky official, do you have some misunderstanding?"

"Little Feng Xian, you're such an intelligent woman. Don't you understand?"

Song Jiangshan sighed and said in front of the crowd, ""This concerns the big picture. This is no longer a matter that brother du can decide with a single word. I'm announcing the decision of the 10-seat Council."

It was true that each of the ten seats had their own scope of authority, and no one could easily break the rules, including the chief!

However, it was a tradition of the 10-member council to take special care of Special Affairs, and the decision was also in the hands of the 10-member council.

"h-how could this be?"

xiao feng xian's face turned pale, finally understanding what lin yi meant.
