

## Bodyguard 9471

### Chapter 9471

Finally, after another intense collision, Lin Yi used his clone to open a path. His consciousness resonated in four layers and landed on Bao shaoyou's head.

After that, Bao shaoyou was stepped on by him and sank into the ground, unable to extricate himself.

"This is it."

Lin Yi didn't go too hard on him-he could kill anyone as long as he wasn't afraid of making enemies, but he wasn't the type to go hard on people.

After all, he didn't have any personal grudges with Bao shaoyou. To be honest, Lin Yi quite admired this person.

Not everyone could be fine after being blind, or even advance by leaps and bounds.

Bao shaoyou left the stage calmly.

When he passed by Ying Long's group, he suddenly said, ""If you want to play with him, you should rest early. You can't beat him."

"Do you really think he can learn all of our moves?"

The Grand Master frowned.

Bao shaoyou stopped. "Didn't you notice that the true energy fluctuation in his body hasn't weakened at all? it's still at its peak state."

"You're saying ... He has a way to replenish his zhenqi at any time?"

The advisor was bewildered. With his experience, he certainly knew many ways to quickly replenish his zhenqi, but each one had a corresponding price. Moreover, he had observed him for a long time and found no signs of it.

However, true energy fluctuations wouldn't lie, especially Bao shaoyou, who was close to him. He had the most right to speak.

"Who doesn't have a trump card? let alone someone of his level."

Bao shaoyou paused and suddenly revealed a playful smile, ""As for the matter of him learning and selling it at the same time, Grand Master, you're overthinking it. He might not be interested in your precious trump card."

“.....”

The private advisor and song Xiaomi were speechless.

It was the truth, but it was a little hurtful to say it.

Lin Yi thought highly of Yue Jian's Sonic Boom fist and Qiu sanniang's chain kick, but he didn't think much of their moves. After all, they might not be able to defeat the two of them in a real fight.

Lin Yi didn't just sit around and wait, he started urging the others, "Next,"

The live broadcast camera instantly focused on Ying long.

If he had enough strategic determination, he could have continued to hold back and waited for the Grand Master and song Xiaomi to attack. However, even if he won, there would be all kinds of criticism from the people.

It was not a fair victory, not to mention that he might not win if he could not achieve the consumption effect!

Hence, Ying long got up and went on stage.

The crowd instantly boiled over. The battle of the peak was here!

Lin Yi smiled at his opponent, "have you thought of a way to deal with my spirit sense?."

If he couldn't solve the problem of his crushing primordial spirit advantage, his other strengths would be in vain. Bao shaoyou's outcome just now was enough to explain everything.

Even if Lin Yi didn't use the flaming sword Qi, he could still defeat Bao shaoyou with his consciousness. The result wouldn't be different.

"No need," Ying long replied.

"Oh?"

"What's with this mysterious confidence?" Lin Yi asked, surprised.

"You can replenish the Zhen Qi that you have used up, but can you replenish the divine sense that you have used?"

As Ying long spoke, he punched out. The symbolic earthquake power instantly caused the entire place to tremble. Then, the second punch followed, the third punch ...

Looking at Ying long, who was standing on the spot and punching crazily, the crowd was confused.

Even song Xiaomi, who was watching from the audience, was confused. "What is boss doing?"

Ying Long's posture looked very fierce and his killing power was also very shocking. In the blink of an eye, he had destroyed the entire Asura arena. If it was the first half, he would probably be able to wipe out all the freshmen by himself.

But the problem was that this kind of attack was useless against Lin Yi.

It was a series of punches.

But soon, Lin Yi noticed that something was wrong-the earthquake wasn't gone yet!

At least 20% of the 100% earthquake force remained in the arena. Even if Ying long stopped, the Asura arena continued to shake. There were no dead spots in all directions!

In other words, as long as Lin Yi was still in the arena, he would inevitably be hit by the impact of the earthquake, and this impact could only be taken by the body without any means of defense.

The earthquake.

Lin Yi immediately understood what he was trying to do. "Are you trying to exchange injuries with me to see who can last longer?"

Ying long said indifferently, 'I wonder if you can finish me off within five breaths. If you can't do it, it's better to go down earlier. Believe me, this is better for you. "

"Five breaths?"

"You're that confident?" Lin Yi smiled.

"With every breath, the power of the earthquake will double. I can only hold on for six breaths at most."

Ying long stated a fact expressionlessly.

The people around him looked at him-even he himself could only last six breaths, and he was already overestimating Lin Yi by saying he could last five. No one knew how terrifying an earthquake was more than he did.

"I mean, you're that confident that you'll be able to last one round against me?" Lin Yi shook his head.

"Ha?"

For a moment, Ying long even suspected that he had heard wrong. Although Lin Yi had the upper hand in both exchanges, they were at the same level. He wanted to kill him in one exchange? what was this guy talking about?

Everyone thought that Lin Yi had lost his mind.

If he really had the strength to instantly kill Ying long, he would have done so ten days ago. Why would he have waited until now?

"Forget it, we'll know soon enough."

Lin Yi didn't bother explaining and increased the vibration to four resonance.

Ying Long's expression changed. Even though he was mentally prepared, he still felt a great pressure. As wave after wave of spiritual awareness shock waves attacked, his entire sea of consciousness started to shake.

Fortunately, his will was strong enough. Otherwise, his sea of consciousness would have split open on the spot. If that were the case, even if he could survive, he would become demented.

"Just this?"

Ying long gritted his teeth and groaned. Although it was uncomfortable, if it was just like this, he could even last for an hour, let alone a face-off!

What he was most afraid of now was not the pure shock of the spiritual sense, but the fusion of the spiritual sense and the sword Qi in the first half, especially if the flame sword Qi was added, that thing really could not be prevented!

Lin Yi didn't let him down as a flaming sword Qi that was mixed with a spirit attack came at him!

"Open it!"

Ying long didn't Dodge. In fact, he couldn't Dodge at all. He could only rely on his earthquake power to withstand it.

With a punch, he pressed his divine sense for the first time, constructing a divine sense barrier through the network of the earthquake power.

To be honest, he was not good at this kind of thing. Every time he used it, the price was extremely high. It was just a last resort, but today, he had to bet everything!

Chapter 9472

BOOM!

The fire sword Qi and the earthquake force collided in the air, creating a small mushroom cloud. The most dangerous part was the collision between the two divine senses.

Ying long had bet everything, but unfortunately, whether it was quality or quantity, he was still crushed by Lin Yi in terms of spiritual sense.

Due to the backlash of his divine sense, Ying Long's sea of consciousness was almost torn apart. However, he was still able to withstand it in the end.

"What shocking willpower! As expected of someone who can enter the chief's eyes, he's not simple. "

Several of the ten seats were full of praise.

Xu Anshan nodded slightly. He had chosen Ying long for the sake of his own interests, but the fact that he was similar to him in all aspects was also a huge bonus.

A person who could be similar to him was destined to have a limitless future.

However, before the spectators could finish praising him, Ying long, who had just survived the disaster, was suddenly stunned. An undetectable particle had appeared in his sea of consciousness.

It was transparent and unremarkable. If he wasn't careful enough, he wouldn't have noticed it.

"This is a new technique I came up with after seven days of closed-door training. Divine sense explosion. I hope you're fine."

Lin Yi's voice sounded and Ying Long's scalp went numb, but it was too late.

Most people couldn't imagine how terrifying a semi-corporeal soul consciousness was. Today, Ying long was destined to leave behind an unforgettable experience.

That unremarkable spiritual consciousness seed had exploded in his sea of consciousness.

In an instant, he lost all consciousness.

"....."

There was a strange silence for five minutes. The bystanders didn't know what had happened. They only saw that Ying long had suddenly stopped moving.

Lin Yi turned around.

The live broadcast room was filled with surprise again. Are you admitting defeat?"

"Thank you, thank you."

Shen Yifan high-fived Lin Yi with a smile and took over the stage.

Wang shiqing walked over, confused,"Lin Yi bro, why aren't you fighting anymore? there are only two small fries left. You can beat them, right?"

The people around them all facepalmed. If song Xiaomi and the Grand Master were small fries, then they were not much different.

Lin Yi smiled,"if you go too far, fate will end. There's no deep hatred. It's good to leave someone a way out."

"In fact, you're forcing yourself, and you've consumed too much of your divine sense, right?"

"You're just pretending to be calm and cool,"Tang Yin said, exposing the truth."You're just putting on a brave front. People might think you can take on ten of them."

"You know me the best, after all," Lin Yi laughed.

"Get lost," he said.

To be honest, it wasn't that Lin Yi couldn't keep fighting, but this spirit sense explosion was an advanced version of spirit sense collision. It was newly developed and wasn't mature enough yet, and the consumption of spirit was no joke. He couldn't use it as a regular method for now.

If he continued to act tough, he might not be able to do anything for a month. After he perfected it, it would not be unrealistic for Wu Linghai to turn it into an ordinary skill that he could use at will.

Shen Yifan went up the stage and pouted at the private advisor and song Xiaomi. "If you don't come up to collect his body, he might really die Here?"

As he spoke, Ying long, who had been standing stiffly for a long time, fell down.

Everyone was in an uproar.

Although some people had guessed that this would happen, the visual impact of seeing it in person still made them unable to come back to their senses for a long time.

This was Ying long!

He'd been the most popular candidate for the newcomer's King since the start of the school, and he'd been taken care of by Lin Yi just like that ...

All the important figures looked at Xu Anshan in unison.

But the chief didn't react at all-his biggest reaction was to glance at Lin Yi again, that was all.

"I didn't expect him to really be the newcomer King! Motherf \* cker, that's awesome!"

The bullet comments in the live broadcast room changed direction again.

Although Lin Yi had taken the initiative, he still had four people on his side. On the other hand, only the Grand Master and song Xiaomi were left, and the Grand Master wasn't good at fighting alone.

The outcome of the battle was clear.

Even if song Xiaomi and Lin Yi went up, they wouldn't be able to change the outcome unless someone on Lin Yi's side surrendered to the enemy in public. Was that possible?

However, the opponent did not choose to give up in the end. Song Xiaomi still went up the stage with high fighting spirit. The fire of Nirvana was only born for desperate situations. This was the foundation of his standing, and it was also a martial Dao belief that he absolutely could not abandon.

Song Xiaomi was not a kind person, and Shen Yifan was even more so.

After an intense battle that lasted for nearly an hour, Shen Yifan finally managed to laugh to the end. The endless Nirvana fire could not defeat his wind God's family heirloom.

Soon after, as the last person on the opposite side, the Grand Master walked onto the shattered Asura arena.

The person who welcomed him was Yue Jian, who had been waiting for a long time. Previously, class three had lost to class one so quickly. Other than the difference in their absolute strength, the Grand Master's ability to manipulate people had also played a crucial role in this.

At that time, Yue Jian had already become the boss of the third Platoon, but in the end, he had been betrayed by his friends and family. Speaking of which, he hated this Grand Master to the core. Today was the perfect day for him to take revenge!

It was not difficult to guess the final result of the battle between the two sides.

Yue Jian's victory was not an easy one, but under the tyrannical impact of his Sonic Boom fist, all his schemes were in vain. The private advisor could only leave the battle resentfully.

"Victory and defeat have been decided. In that case ..."

Song Jiangshan hesitated for a moment, but since things had already come to this, even if he was a sky official, he could not renege on his debt.

The rules were set by the Council of Ten, and he was the one hosting the competition. Anyone with eyes could see that Lin Yi had been targeted since ten days ago, or he'd be the newcomer King already.

If the ten Chiefs still didn't admit it at this time, they would really be throwing their own faces on the ground and stomping on them.

There were some things that even the 10-member council did not dare to risk the world's condemnation.

"Isn't there one more person?" Xu Anshan suddenly asked.

Everyone was shocked.

After being stunned for a moment, everyone's eyes fell on Wei baizhan, who was sitting alone at the side.

This guy had defected to the enemy in the first half and was now a lone wolf. But in principle, this did not affect his participation in the final battle.

As long as he could defeat all the remaining forces in Lin Yi group, he would be the newcomer King in theory!

"Would he dare?"

The audience couldn't help but question-the scene of the guy begging for mercy from Lin Yi in the first half was still fresh in their minds, and the stream even showed a replay.

A guy who'd been scared out of his wits by Lin Yi, jumping out at a time like this to pick peaches? And to steal Lin Yi's peaches at that?

Then, under the gazes of the crowd, Wei baizhan stood up while patting his butt.

Chapter 9473 Power

"Newcomer King? Hehe, it's a waste not to sit on a free seat, then this Lord will not be polite and accept it. "

Under the gazes of everyone present, Wei baizhan strode with hooligan-like steps and unsteadily walked into the Asura arena.

Yue Jian sneered."You're a scum with no moral integrity. How can you be the newcomer King?"

"You're also Lin Yi?" Wei baizhan tilted his head.

What he meant was that if Lin Yi had said that, he'd probably back off again, but Lin Yi was already sitting down.

"Lin Yi bro, you should've stomped him to death!"

Wang shiqing was very angry. This guy was a despicable person. Even if they didn't have a deep hatred for each other, he could still make her gnash her teeth.

"You came down a little too hastily." Tang Yin nodded.

"You're the one who said I'm forcing it, and you're the one who said I'm careless," Lin Yi said, speechless.

Shen Yifan, whose body was covered in burns, laughed when he heard what she said. "That's why they say women are the most difficult creatures to understand. "

Wei baizhan, who had noticed this scene, grinned and licked his tongue. "Your boss is still in the mood to joke around. It seems like he has a lot of confidence in you."

"I don't have much confidence in that."

Yue Jian's response was unexpected, and even Wei baizhan was a little surprised. This brat with a brain full of muscles actually knew how to show weakness?

However, Yue Jian's next sentence revealed his true nature. "I don't know how to control my strength when I punch. I'm afraid I'll kill you with one punch. I'm really afraid."

"Oh? The arrogant words of a nobody, hehe, I'll have to see for myself. "

Wei baizhan strode toward Yue Jian as he spoke, still using the same hooligan-like steps. From head to toe, the words "reckless" were clearly written.

Ten steps, seven steps, four steps ...

When there were only two steps left between the two of them, Yue Jian, who had been accumulating his strength for a long time, suddenly attacked. A violent Sonic Boom reverberated through the entire arena.

Sonic Boom punch!

Just the fact that Lin Yi saw it was enough to say that the punch was extraordinary. It was the fastest and heaviest punch Lin Yi had ever seen.

Other than animals like Lin Yi, no normal person would be able to take a punch like this head-on with their body. Although Yue Jian wasn't a One-Punch Man, he could still kill someone with one punch.

However, Wei baizhan still continued to stride forward without any intention of dodging.

Not only did he not Dodge, he even took the initiative to move his face closer!

Everyone was stunned. Not only did this guy have no moral integrity, but he also didn't have a brain?

Yue Jian threw out a punch without holding back.

The energy surged and sand and stones filled the sky.

In the end, when the dust settled, the expected scene of Wei baizhan's head exploding did not appear. Instead, Yue Jian himself was grabbed by the neck and lifted into the air. He struggled with all his might, but all his efforts were in vain.

Strangle.

This was Wei baizhan's signature move-no matter who he fought, as long as he didn't meet a monster like Lin Yi, he would end up with a strangle.

As for the next step of strangulation, it was naturally to break the neck and make the person die in pain.

"Hehe, this is the price for punching me. Rest in peace."

Wei baizhan was about to end Yue Jian's life with a strange smile.

Lin Yi's voice came from below the stage, "You'll die the way he dies. "

"Ha?"

Wei baizhan's face was full of arrogance as he turned his head around and looked down at Lin Yi. The hand that was holding Yue Jian's neck moved slightly, but he threw him on the ground like trash.

Then, he unceremoniously kicked him off the stage.

Yue Jian lost consciousness on the spot, but his life was saved by Lin Yi's words.

Lin Yi smiled-this guy was pretty good at following orders, after all. Other people who wanted to save face wouldn't be this nice.

"Dumbo, you're really disappointing. I still have to clean up the mess."

Qiu sanniang stretched her arms and legs, then gracefully jumped onto the field.

She and Yue Jian had two completely different paths. Yue Jian pursued the most firm and fierce, while the essence of her martial arts was prominent in one word:

Everyone knew that her kicking technique was incomparably gorgeous. In terms of viewing ability, no one in this batch of freshmen could beat her. However, if they thought that it was just for show and had no practical use, then they would be making a big mistake.

Qiu sanniang was good at kicking, but a single kick from her would only deal high damage. It wasn't the best, at least not as good as Lin Yi 's, who was learning it on the spot.

But Lin Yi still used his actions to give a high evaluation.

This was because Qiu sanniang's true strength was that she could launch an infinite number of attacks at any one of her kicks.

By relying on her precise control of the flow of Qi, her opponent would not be able to grasp any opportunity to counterattack. From then on, he would be reduced to a complete sandbag, being connected to death.

Even Lin Yi had been forced to be a sandbag for quite a while when he fought her, and it was only after he'd adapted to her chain kicking techniques with his heaven-defying foundations that he'd finally regained the initiative.

Otherwise, even Lin Yi might not be able to escape the fate of death.

From tens of meters away, Wei baizhan looked at Qiu sanniang's figure as she moved her legs. He licked his lips without hiding anything, "A woman with a smell."

"Do you want to try it?"

Qiu sanniang laughed coldly and immediately launched an attack.

Compared to the one-shot earlier, Wei baizhan was clearly more cautious when facing Qiu sanniang this time. He was constantly dodging and defending, as if he was afraid of her chain kicks.

"Look at Qiu sanniang, and then look at yourself. Aren't you embarrassing us?"

The Chao imperial court cursed at the unconscious Yue Jian.

In the end, Yue Jian suddenly spat out, "I'm Cannon fodder that was accidentally injured by my own boss. How dare you criticize me?"

Zhao chaoting choked.

Wang shiqing was snickering at the side, but when she saw the two's unfriendly gazes, she immediately glared back at them and turned to cheer Qiu sanniang on.

Yue Jianqiang struggled to sit up, frowning as he looked at Lin Yi. "Boss, I'm afraid tomboy is in trouble this time."

From the looks of it, Qiu sanniang was still the one suppressing Wei baizhan. No matter how one looked at it, Qiu sanniang had the upper hand. Even if they could not break through his defense for the time being, they would be able to find a flaw as time passed.

Don't forget, Qiu sanniang specialized in chain kicks, and was very good at fighting for a long time. In terms of stamina, she wouldn't lose to any new student, including Lin Yi.

However, being unable to break through the defense was still a huge hidden danger.

"Wei baizhan is indeed stronger," Lin Yi nodded, "sanniang doesn't stand a chance."

It wasn't that there weren't any, but it wasn't big.

With Qiu sanniang's skills, as long as she found an opportunity, it was very possible for her to take Wei baizhan down in one move. After all, there was only one Lin Yi in the world. However, it was clear from Wei baizhan's performance that it was not easy to find a flaw in him.

Chapter 9474 Power

Half an hour passed.

Qiu sanniang had been attacking from the beginning, while Wei baizhan had been defending from the beginning. Both sides were still fully engaged in the battle, but the spectators outside the arena had already become numb to it.

Then, Wei baizhan suddenly revealed a flaw, a flaw that was so tiny that it was hard to notice even if the camera zoomed in.

Qiu sanniang was like a shark that had caught the scent of blood, and she immediately cut into her hand.

"This woman's ability to seize opportunities is really F \* cking terrifying!"

Before the crowd could finish sighing, the situation suddenly took a turn for the worse. Just as Qiu sanniang decisively cut in, Wei baizhan suddenly grinned hideously and completely abandoned his defensive posture, turning to attack with all his might.

Attack!

The situation had suddenly changed from a clear barrier between attack and defense to a game where both sides attacked at the same time. Whoever got the first move would have the last laugh!

In the end, Qiu sanniang had broken three of Wei baizhan's ribs with a single kick, but in exchange, she was being strangled with a single hand!

Bang! Bang!

Accompanied by Wei baizhan's wild laughter, Qiu sanniang was pressed into the ground, losing the ability to resist.

Victory and defeat had been decided.

Everyone was dumbfounded.

All of this happened too quickly, so quickly that everyone did not even have time to react, and everything was already over.

"Ruthless! That move just now is enough to prove that Wei baizhan's strength and schemes are top-notch. Unless Lin Yi can go up and crush him face to face again, no one can stop him!"

"What's embarrassing is that Lin Yi left the stage on his own accord-according to the rules, that's the same as giving up! He doesn't have the right to fight again!"

"There's only one person left on his side, and Lin Yi is about to pay the price for his arrogance. At this rate, Wei baizhan is going to win for sure!"

The crowd was in an uproar.

In the end, Wei baizhan was the one who had won. This result was really beyond everyone's expectations. It should be known that although this person was very strong, he had not even completely taken down his own Class 6. He was just a lone wolf through and through.

"I'm sorry, I picked up the things you didn't want. Is that okay?"

Wei baizhan said to Lin Yi.

"Your ribs don't hurt?" Lin Yi asked.

"It's no big deal, I'm used to it. "

Wei baizhan casually made a series of scalp-numbing moves and actually reattached his own ribs. In the blink of an eye, he could move freely again.

He had done the same thing just now.

This guy's self-healing ability was almost on par with song Xiaomi's Nirvana fire. It had to be said that he really had a monster-like physique.

"I don't mind," Lin Yi smiled, "I'm willing to accept my loss, after all. I'm a magnanimous person, but ..."

"But what?"

Wei baizhan slanted his head and provoked.

"Do you know why I took the initiative to enter the arena? Although it's mainly because I'm lazy, there's actually another reason that you guys seem to have overlooked. "

As Lin Yi spoke, the silent Yan Zhongyuan stood up and went on stage, "I have someone to help me keep a low profile."

"Him?"

Wei baizhan looked at Yan Zhongyuan, who was walking toward him slowly, and raised his eyebrows. They were about the same height, but their auras were on a completely different level.

He had no moral integrity, but he, Wei baizhan, undoubtedly had the aura of a top-tier expert. It would not be strange for a ruthless character like him to bite off a piece of meat from anyone.

On the other hand, apart from being tall and strong, Yan Zhongyuan's temperament could only be described in one word-wooden.

The earth-type mutated gravity was indeed very strong, and it had indeed displayed extraordinary combat power in the previous few attacks. However, in reality, it gave people the impression that it was still half a level away from the top monsters.

The scene of the fight between the two sides confirmed this theory.

Wei baizhan was the main attacker, while Yan Zhongyuan was the main defender.

This in itself didn't mean anything. Wei baizhan had been defending for half an hour and still had the last laugh. But the difference was that Wei baizhan had taken the initiative to defend and didn't suffer any losses from the beginning to the end.

But now, Yan Zhongyuan had taken three punches and five kicks from Wei baizhan, and his body was already heavily injured.

"This mutated human's development of gravity has gone astray. He's too clumsy and is wasting God's gift."

One of the ten Chiefs commented.

Many of the audience representatives nodded in agreement. They had thought that even if Yan Zhongyuan couldn't defeat Wei baizhan, he would at least be able to fight for a few rounds. After all, Qiu sanniang had broken three of Wei baizhan's ribs, so Yan Zhongyuan shouldn't be weaker than her.

But now, it seemed that they had underestimated the level difference between Wei baizhan and Yan Zhongyuan.

Sometimes, even if it was just by a little bit, it could form an absolute crushing on the battlefield, just like now.

Yan Zhongyuan, who had the mutated gravity, could only take the attacks passively. He would be crushed to death, and there was no possibility of him taking the initiative.

"Choosing such a wooden man to guard the base, your vision is really bad to a certain extent. A person like you is indeed not suitable to be the boss."

Wei baizhan provoked Lin Yi again.

"What a despicable man! This person is a Chatterbox, right?"

The people from the Zhao imperial court were furious.

Lin Yi shook his head,"he's not talking to me. He's trying to mess with Yan's mind. He's trying to make Yan reveal a bigger flaw so that he can take him down in one go."

"You're indeed a vile person! What a dirty heart!"

Wang shiqing said righteously, then added,"I have to learn."

"....."

The crowd looked at the little girl, and no one spoke for a long time.

Lin Yi couldn't help but sigh,"it's not easy to learn, but you'll end up bad."

In the eyes of the bystanders, their joking and joking immediately became a display of arrogance. It was obvious that the people on the field could not stand it anymore, but these guys still had the mood to laugh and joke, forcibly puffing up their faces to make themselves look good?

"Go on and laugh, you won't be able to laugh anymore soon."

Wei baizhan sneered and accelerated his attack on Yan Zhongyuan. He even took out his poisonous short dagger. If Yan Zhongyuan's skin was even scratched by Wei baizhan, he would die.

In the face of such things, Yan Zhongyuan couldn't choose to take it head-on like before. He could only try to Dodge.

However, in this way, his movements became even more clumsy, and in the blink of an eye, he was in danger.

"I'll say the ugly words first, I don't have the antidote, so you can go in peace. "

Wei baizhan quickly found an opening after blocking it a few times. His short dagger suddenly shot out like a poisonous snake. There was no need to cut the throat with a sword, as long as it touched the opponent, he would die!

At the last moment, a force of gravity changed the direction of the dagger and was about to brush past Yan Zhongyuan.

If it was just this, it wouldn't be a big deal. After all, Yan Zhongyuan was an animal that could take Ying long head-on. It would be strange if he was killed so easily.

But what shocked Wei baizhan was that it was only now that he suddenly realized that something was not quite right.

Unknowingly, an invisible force of attraction had filled the surrounding space.

As the gravitational force was only slowly increasing, coupled with his strong adaptability, he did not notice it at all for such a long time. Now that he had reacted, the omnipresent gravitational force was already quite impressive.

Chapter 9475

A gravitational field!

They were both earth element variants, but Ying long had a seismic field and Yan Zhongyuan naturally had a gravitational field!

Not only that, but the gravitational field also had similar characteristics to the earthquake field. As time passed, its gravitational force would increase exponentially, reaching a daunting level in a very short time!

He had to end the battle quickly.

Wei baizhan's reaction was exactly the same as Lin Yi 's-be it an earthquake or a gravitational field, everything would be gone as long as the user was killed.

However, it was too late.

At the same time, Yan Zhongyuan, who had been on the defensive all this time, suddenly launched an attack. The situation was exactly the same as when he had fought Qiu sanniang.

The only difference was that when he was fighting against Qiu sanniang, he had succeeded, but this time, it was Yan Zhongyuan who had attacked first.

In terms of absolute speed, Yan Zhongyuan wasn't as fast as Wei baizhan, but with the help of the gravitational field, it was reasonable for him to be faster!

Wei baizhan's tall body was immediately grabbed by a pair of giant hands, and he felt the world spinning around him. Then, he was forcefully thrown over his shoulder by the giant man, and his head hit the ground, creating an earthquake.

And this was not the end.

Then came the second strike! A third smash! The fourth smash!

After 13 hits, even Wei baizhan, who had a monster-like physical strength, was still coughing up blood. Finally, Yan Zhongyuan, who had been silent, let out a roar and threw Wei baizhan into the air like a sandbag.

"I'm finally free ..."

Wei baizhan, who was in a free-falling state, subconsciously let out a sigh of relief. If he continued to fall like that, his internal organs would probably be smashed into pieces on the spot. Although he was in a free-falling state, it was nothing much to just fall down.

With the strength of his physical body, he could completely withstand it.

Unfortunately, he was thinking too early.

The gravitational force enveloping his body suddenly exploded, and the speed of his fall instantly increased by more than ten times. Just as Wei baizhan was about to return to the ground at an astonishing speed, Yan Zhongyuan, who had been waiting below, took advantage of the situation and sent him flying again. After catching him, he ruthlessly smashed him into the ground.

With a loud bang, more than half of the Asura arena, which was already broken, collapsed.

Wei baizhan fell into the ground and no longer moved.

The entire place fell into dead silence.

Yan Zhongyuan raised his head and looked at the ten Chiefs. He didn't say anything and didn't show any change in expression. He walked back to Lin Yi and stood there with his arms crossed, like a door God.

Finally, Song Jiangshan recovered from his shock. He turned around and exchanged a look with Xu Anshan, the first seat, before helplessly announcing to the public.

"On behalf of the Council, I hereby announce the winner of this year's new student King-class Five's Lin Yi!"

Everyone present finally came back to their senses and a commotion broke out.

Today's rookie King Competition had been full of twists and turns, and everyone's mood had been on a roller coaster. Everyone thought that Wei Baizhan had won, but who would have thought that things would turn around in such an unexpected way!

"Damn it, why would a man of his level follow Lin Yi?"

Many people like Li MUYANG, who didn't like Lin Yi, started cursing.

Although Yan Zhongyuan's performance in the early stage was a bit worrying, looking at the last explosion, Yan Zhongyuan was definitely a monster on the same level as Ying long. Looking back at all the clumsiness he had shown before, he was simply an unmovable strong man!

A person like this would've been the king of the new generation in the past, but just because he was in the same dormitory as Lin Yi, he'd become his loyal follower!

Where the F \* ck was he supposed to reason with?

What's done can't be undone-whether they were envious or jealous, all of them could only watch as Lin Yi walked towards the tenth seat.

From this moment on, he had become one of the ten Chiefs, and he had the right to participate in the top decisions of the Academy!

The term was less than a year, and he'd have to leave his post after the freshman period-it didn't matter if it was authority or influence, he was still a bit off from the other nine iron-clad ten seats, but ten seats were ten. It didn't change the fact that Lin Yi was at the top of the school.

At least in this year, he could be on equal footing with anyone. There was no need to look up to him, only to be looked up to.

"Hold on."

Just as Lin Yi was about to step onto the stage, the Grand Master's Voice came from behind him. "You've won. You're the newcomer King. We all admit this. However, this doesn't mean that you can represent all of us freshmen and sit in the 10th place!"

"Isn't the newcomer King tied to the tenth seat?" Lin Yi turned to him.

Not only him, but everyone else in the audience was surprised.

It had been a tradition since ancient times for the freshman King to be bound to the tenth seat of the Academy. It was also because of this that the newcomer King attracted so much attention. Otherwise, he would only be able to dominate the freshmen. What could he achieve?

"That was in the past. Although we have to inherit the tradition, we also have to keep up with the times. If we blindly follow the rules, we will all suffer losses."

The Grand Master's gaze turned to the ten Chiefs on the stage, who had different expressions. "I think the ten Chiefs should agree with this. After all, the previous new generation competition was not as regulated as this year. There was less chaos and unnecessary casualties. This is all thanks to the ten Chiefs."

His words were watertight, and he conveniently tied all the ten seats together.

In other words, opposing him meant opposing all ten seats, opposing the entire ten-seat Council.

"You guys have the same thoughts?" Lin Yi raised a brow.

He had underestimated the shamelessness of the other party. He thought that even if these people wanted to play tricks, they would focus on the fight for the zence new generation warrior and mage King. He did not expect that they would pull the carpet from the bottom of the pot and separate the 10th seat from the zence new generation warrior and mage King. What a good method!

None of the ten seats spoke. Their eyes were all focused on the first seat Xu Anshan.

Ying long was his man, so his Grand Master was naturally his man as well. Although the Grand Master's words were earth-shattering, anyone with a clear mind could tell that this was definitely the chief's intention.

The reason was simple. A mere Grand Master did not have the guts to do so.

"It's not impossible," Xu Anshan slowly said.

There was an uproar. He didn't even have any intention of hiding it. He was just short of directly giving an order.

"Interesting. If the newcomer King can't represent the freshmen, then who can?"

This time, the one who spoke was a handsome man who was sitting next to Xu Anshan. He was the second seat of the Academy, Shen Qingnian.

There was another uproar.

The internal conflicts of the Academy were sharp. The lead Department led by Xu Anshan and the local department represented by Shen Qingnian were clearly divided. They often opposed each other on key issues, and many people who knew about it were aware of this.

However, this was a public occasion, especially in front of a group of foreign representatives. Was the conflict between the two sides going to be made public?

Once that happened, it would be a world-shaking event. The entire Jianghai city and Jianghai Academy would be affected by it, and an uncontrollable factor would soon follow!

Fortunately, Xu Anshan did not refute it in person. At least, the leaders of the two factions maintained a superficial peace.

Of course, once the arrow was shot, it couldn't be retrieved.

Chapter 9476

If Xu Anshan couldn't say it out loud, someone else would say it for him.

"It's true that the strong are respected in the world of cultivation, but if that's the case, isn't our Jianghai Academy a little too unorganized?"

This time, the one who spoke was the fifth seat of the Academy, the current president of the Disciplinary Committee, Ji Chi.

Shen Qingnian chuckled. "Then I'd like to ask President Ji. What does it mean to have a structure?" he asked.

"Since we're representing the freshmen," Ji Chi said lightly, "we should naturally represent the interests of all the freshmen as much as possible. Whoever can get the most recognition from the freshmen will be qualified."

"An election?" Lin Yi asked, surprised.

Even Tang Yun and Chu Mengyao, who was on the other side of the stands, couldn't help but look at him strangely.

Anyone who came from the secular world would be too familiar with this style. Whoever had the most votes would go on stage. Wasn't this a F \* cking election routine?

He didn't know what kind of election these people were planning, but no matter what it was, he had to admit that they were really creative and bold.

Even Xu Anshan, the first seat, probably didn't know what kind of scene it would be once some things were released.

At this moment, the Grand Master took the initiative to recommend himself. "I'm not talented, but I'm willing to help all the new students gain some benefits. I can't guarantee anything else, but I have the ability to help everyone earn some credits. I believe that many students have already received substantial benefits."

As soon as he finished speaking, many new students responded.

Even Lin Yi's class five and Qiu sanniang's class four had many people agreeing.

Some even showed their account number in public and posted the credit records on the internet in order to be more convincing. Many people drooled when they saw it.

To the vast majority of the freshmen at the bottom, there was no substantial difference between who would be the newcomer King and who would be the 10th place. Only academic credits were the real gold and silver, the real tangible benefits.

Even shouting 10000 slogans would not be as useful as giving away one credit.

Moreover, the Grand Master did not just give them one credit, but dozens of them!

"Using credits to buy the 10th seat, this trick is really smooth. As expected of someone who plays with his brain, he really knows how to find another way."

Shen Yifan was left speechless.

He wouldn't be able to sit still if he didn't know what Lin Yi had up his sleeve.

It might sound ridiculous at first, but with the first seat Xu Anshan personally endorsing it, it meant that this was at least the consensus of all the big shots in the first seat Department. In addition, the majority of the freshmen had been encouraged by the Grand Master's credit attack. It was not impossible for this matter to be decided on the spot, but it was very possible!

Even if something were to happen after that, it'd be a done deal-it'd be the Council's internal business, and Lin Yi wouldn't be involved.

"It's always the first step," Lin Yi said with a smile, "I don't really mind if the tenth seat is decided by all the freshmen voting since the minority is subordinate to the majority. I just don't know if the remaining nine seats can be decided by everyone's votes. " After all, the student council represents the interests of all our students, right?"

The ten seats all frowned.

It was impossible, but if they were to be the first to do so today, it would be hard to say.

Since the tenth seat could be chosen, why couldn't the other nine be chosen?

After all, the ordinary students could decide who the 10 seats would belong to. It was very exciting to think about it. Moreover, the 10th seat was bought with credits today. Would the other nine more important seats have to be bought with more credits?

Some things simply couldn't be considered.

Shen Qingnian smiled. "If it was a real selection, it would still be acceptable if we received everyone's sincere support from the bottom of their hearts. However, if we only rely on credits to win people's hearts, then we, the ten seats, are too low."

Ji Chi stood up and retorted, "second seat Shen's words are taken out of context. He's just trying to provide benefits for the freshmen so that everyone has a way to obtain more credits to improve themselves. How can you say that he's using credits to buy people's hearts?"

"If this is to buy people's hearts, then there's no need to do anything good. In any case, in the end, there will be suspicion of buying people's hearts."

"Hehe, stop lying to yourself. I'm giving you credits to vote for me. If this isn't bribing, what is it?"

In the blink of an eye, the ten seats entered the debate one after another. The two major factions each held their own arguments and were clearly divided.

The spectating representatives all had different expressions on their faces. The internal conflict within the Academy was already starting to become public. From their perspective as bystanders, they had to start considering what to do in the future.

Whoever they befriended and who they kept a distance from involved huge benefits, so they had to be careful.

Song Jiangshan's face darkened, and he said, ""Since we can't argue, let's just vote! Right here, in front of all the teachers and students, I'd like to make a fair decision in everyone's hearts. "

The entire internet was in an uproar. This was a live broadcast of a 10-member council!

Because they held the highest power, all the students had infinite reverie about the ten-seat Council. Naturally, there were all kinds of conspiracy theories and all kinds of ideas that subverted the three world views. Because it was not transparent, it was born with such soil.

Today's live broadcast of the 10-seat Council was a good way to satisfy the curiosity of the students.

Everyone looked at Xu Anshan.

He was the first seat. In principle, only he had the power to vote. If he did not allow it, it would be useless no matter how much the others shouted.

"Then let's start."

As expected, Xu Anshan did not stop him. As soon as he finished speaking, Ji Chi, the fifth seat, took the lead. "Grand Master is doing his best for the freshmen, I vote for him."

"I'll vote for you, advisor," Qin Shi, the sixth seat, said.

"I'll also vote for Grand Master," Chen chuangu, the eighth seat, said.

These two's attitudes were not out of everyone's expectations. Qin Shi was a die-hard fan of Xu Anshan, and Chen chuangu was Xu Anshan's brother-in-law. The two of them could be said to be Xu Anshan's die-hard supporters.

Even if the whole world betrayed Xu Anshan, the two of them would definitely not.

In this way, the Grand Master had three votes, four votes if Xu Anshan himself was included. In addition, sky official song Jiangshan had always been in sync with the first seat Department, so the number of votes was almost certain to be more than half.

According to the rules of the ten-seat Council, the minority was subordinate to the majority. When the number of votes exceeded half, it would be a resolution of the Council, representing the highest will of the entire ten-seat Council!

Shen Qingnian, who was the second-in-command, laughed and said, ""I'm not a rigid person, but we can't throw away tradition. The reason why tradition is tradition isn't because it's just a formality, but because it's the foundation of our stability. If you abandon ancient tradition with just a few words, I'm afraid it'll be a joke."

"The new generation King is bound to the tenth seat, this rule can't be changed. I vote for Lin Yi."

"I'm on Lin Yi's side, whoever has the bigger fist gets to talk. "

Zhang Shichang, the third-in-charge of the warrior's Department, declared his position. He had a straightforward personality, and with his relationship with Qiu sanniang, it was obvious who he would choose between the Grand Master and Lin Yi.

The person who spoke next was the seventh seat, nie mingzi. He was a scruffy weirdo in a white coat, and his style was quite similar to Liu Yiyuan 's.

Chapter 9477

"Lin Yi,"

In short terms, Lin Yi also got three votes, and everyone's eyes fell on the 9th seat, du wuhui.

Although in theory, the Grand Master was already in an undefeatable position, there were still variables before the dust settled. This was because song Jiangshan might not necessarily side with the chief, Xu Anshan!

Because the two sides had always been in agreement on voting on major events, Xu Anshan had truly controlled the overall situation with the help of Song Jiangshan. Therefore, there was a consensus among the public that there were two mountains to settle the situation.

However, Song Jiangshan was not his disciple, and there was no marriage relationship between them. The two sides were only an Alliance maintained by a consensus.

Once there was no consensus, there would naturally be no so-called Alliance.

Song Jiangshan's attitude towards Lin Yi's matter seemed clear, but it wasn't so clear when combined with his previous actions.

At least one thing was for sure—he didn't have any prejudice or hostility towards Lin Yi.

This meant that he had a chance of voting for Lin Yi.

If that really happened, the votes for both sides would become four to four. In that case, the decision of the ninth seat, Du Wuhui, would be of great importance!

All this while, Du Wuhui didn't have a clear bias in the 10-seat Council. Rather than saying that he was a native, it would be more appropriate to say that he was a middle-man.

He did not hold any special position and was always on the winning side. This was his Creed.

The problem was that he had a history with Lin Yi.

Strictly speaking, Lin Yi never provoked him, but he lost face because of Lin Yi. Everyone knew that.

It didn't seem likely that he'd be on Lin Yi's side in this situation.

However, there was always a huge difference between what he felt and reality. Du wuhui was silent for a moment, and then said, "I vote for Lin Yi."

Everyone was shocked.

Even Lin Yi himself was surprised, "Du jiuxi has such a tone?"

This wasn't a matter of principle, but rather a simple matter of which side to side with. Du wuhui's attitude at this time was undoubtedly standing on the opposite side of the chief.

Was it worth it for a complete stranger who made him lose face?

"Don't misunderstand, he's doing this for himself, not for you. "

Shen Yifan explained,"he has always been successful. If he falls in love with the lead representative today, the power structure of the ten-seat Council will be completely imbalanced. He will then lose his value."

"On the contrary, if he helps the natives now, the balance of power will still be there, and he can still maintain his superior status. Even if Xu Anshan is dissatisfied, he won't force him because of this. Instead, he will pay a higher price to win him over."

"One sentence, it's all a scheme."

"All the pressure's on the sky official now," Lin Yi nodded.

It was cool to be able to decide the trend with one word, but Song Jiangshan was not *du wuhui*. The chief Department could tolerate *du wuhui*'s luck, but they would not tolerate Song Jiangshan's back and forth.

Because he was a sky official, his position was far too important. Without his cooperation, many things would be impossible to progress.

Song Jiangshan also did not expect that it would come to this. Originally, he was just pushing the boat with the current, but it had suddenly become dangerous and unpredictable, and it was even directly related to his future and fate.

"I ... I choose Grand Master."

After hesitating for a moment, song Jiangshan still made the wise choice that was within his expectations.

"Yes!" Xu Anshan immediately decided. "Since that's the case, Lu Yizhou will be the 10th seat. He'll speak on behalf of the freshmen."

Lu Yizhou was the Grand Master's real name.

There was silence.

This result was out of everyone's expectations. After so many twists and turns, the one who really took the position wasn't Lin Yi, Ying long, or the greedy Wei baizhan-it was Lu Yizhou.

Rising to the top in a single step-the Grand Master was feeling proud of himself, while Lin Yi, who'd gone through so much trouble to get the newcomer King title, was now a pitiful worm being played like a clown in everyone's eyes.

The first newcomer King in history to not be able to get ten seats was simply a big tragic joke!

"Thank you, everyone, for your love. In the future, I will do my best to serve you and strive for more benefits for you!"

The advisor waved his hand and walked towards the stands, intentionally or otherwise choosing the same path as Lin Yi. He spoke politely, "Please make way, I want to go up."

Shen Yifan and the others were all indignant. This was a deliberate humiliation!

Lin Yi, on the other hand, didn't have much of a reaction. He stepped aside slightly to make way for the man and watched him walk past him. He spoke up the moment the man stepped onto the stand.

"It'll be difficult for you to come back down after this step. Don't you want to think about it again?"

The advisor chuckled. "People always go to the top. If I go up, I naturally won't think of coming down. I can understand your dissatisfaction, but I suggest that you don't open your mouth. Otherwise, if your face of defeat is recorded, it will be too much of a disgrace."

"You're the newcomer King, after all. You should have the face of a newcomer King, right?"

He didn't lower his voice when he said this. Not only the ten seats and the spectating representatives around the viewing platform, but many of the new students below could hear him clearly.

Many of the pre-arranged new students followed suit, openly mocking Lin Yi.

Although there were not many who dared to swear in public, they were all trying to poke at your lungs and make you angry.

In any case, all the 10 Chiefs were watching, and Ji Chi, the boss of the Discipline Committee, was watching from above. He was just an empty newcomer King, how could he dare to bare his teeth and flip the table?

Wang shiqing and the others were so angry that they couldn't wait to start another group fight!

"I thought that people over ten wouldn't be so childish," Lin Yi laughed, "I've really opened my eyes today. Do you guys really think that you don't have to put in any effort, that you can just save up a few dozen credits and get a whole bunch of free credits later?"

"Tsk, is it the old saying that there's no free pie in the world again? Can you change it to something fresh?"

"That's right. So many of us have already received actual credits. How can you say that there are no more credits?"

"Credits can be invested. Do you know what modern financial management is? You don't know a fart and only know how to compare. "

The group of freshmen who had tasted the sweetness immediately stomped their feet in anger.

Lin Yi, Tang Yun, and Mengyao's expressions were getting more and more strange. You Sky Class Island natives are talking to me about modern financial management, are you serious?

The advisor looked at Lin Yi with a smile. "You're not going to respond?"

"I can't explain things like that with just my mouth," Lin Yi shook his head.

"Then you're just making up a rumor?"

The advisor sneered and turned to Ji Chi on the stage. "Fifth concubine Ji, if I remember correctly, spreading rumors about the ten Chiefs for no reason should be punished, right? After all, this is a public place, and it's not just my reputation that's affected. At the same time, it's also the interests of so many new students. "

Chapter 9478

"The ten seat of rumormongers will be grounded for three months."

As soon as Ji Chi finished speaking, a group of Disciplinary Committee Masters immediately stared at Lin Yi. The leader was the Special Forces Captain, Chen Beishan.

All the spectating representatives were stunned.

Today's trip was really not in vain. Not only did they see a good show, but they even wanted to put the newly crowned rookie King in confinement. The Academy's internal friction was really fierce.

Shen Yifan and the others were all on guard.

It was hard to say what the freshmen were thinking, but at least they were the backbone of the group. They were definitely on Lin Yi's side, and this included Qiu sanniang and Yue Jian!

At this moment, the second seat, Shen Qingnian, suddenly spoke, ""Is Ji Wuxi going to force the new generation King to rebel in public? What a great show of power. "

Ji Chi looked at him coldly. "Rules are rules. The Disciplinary Committee only recognizes rules. As for whether he is the newcomer King or not, it has nothing to do with this matter."

"Rules? The rules are all set by your Disciplinary Committee, and whether the rules are broken or not is also set by you, Ji Chi. Well, there's nothing wrong with that. "

Zhang Shichang, the third seat, sneered, ""I'll say the ugly words first. If anyone insensible hurts my family's sanniang, then my warrior's Department might have to come down and teach them a lesson. "

The martial arts Department experts present responded in unison, their murderous auras soaring to the sky.

The expressions of the people from the Disciplinary Committee changed. When it came to killing people, the group of animals from the warrior's Department were the real experts. If they were to fight without care, even if there were not many experts from the warrior's Department present, it would still be out of control.

For a time, the situation was tense.

Ji Chi's expression changed. He couldn't stop.

He'd never met Lin Yi before, but he'd had feelings for him since a long time ago-he was Jiang Ziheng's sworn brother, after all. If he didn't react at all to the fact that Jiang Ziheng was forced to leave the school, it'd be hard to talk to that brother of his in the future.

Moreover, Lin Yi was under his enemy, Han Qi. Whether it was for public or private reasons, he had to kill this person!

He'd just been using the situation as a test, thinking that even if it didn't work, he'd at least make Lin Yi suffer a little.

She never expected Shen Qingnian and Zhang Shichang to stand up for Lin Yi at the same time!

This was the second and third seats working together. Even the first seat, Xu Anshan, would be under a lot of pressure, not to mention him, who was only the fifth.

However, if he were to slip away just like that, it would be too embarrassing. After all, he was the president of the Disciplinary Committee, and he also wanted his face.

At this moment, the sky official song Jiangshan stood up and said, ""Lin Yi, do you have any proof?"

"I don't have it, but someone else does."

Lin Yi had just finished his sentence when the Grand Master's phone rang.

It wasn't just him. Almost all the freshmen present received the same message at the same time. All sorts of notifications rang out one after another, and they were constantly ringing in their ears.

"What are you trying to do ..."

The Grand Master only took a glance, and his expression suddenly froze.

Everyone received the same message. There was no shocking title or shocking words. There was only a detailed list of the credits under the private advisor's jurisdiction, as well as a simple and clear trend chart.

There was only one conclusion. The credit financing that Grand Master was doing now was essentially a game of beating the drum and passing on flowers. It would definitely explode in the end.

It was just that when the time came, it would depend on who was the most unlucky.

There were no idiots in Jianghai Academy. Many of the new students had taken the bait not only because they had been blinded by greed, but also because they had never seen financial manipulation before. In addition, the Grand Master's ability to manipulate people's hearts had led them to their current state.

Now that the flowing water was in front of them, even if there was no flow chart behind it, many people could see the risks.

This was more useful than ten thousand words from Lin Yi.

The scene fell into a strange silence.

The advisor quickly tried to salvage the situation. "This is something that a villain made up. Please don't be fooled. Think about it carefully. Many of you have really benefited from it. Are those academic credits fake as well?"

Everyone was skeptical.

Lin Yi didn't say anything. He didn't need to say anything at a time like this. Once the seed of suspicion was planted, it would sprout in minutes.

As expected, someone immediately retorted. "This is information that the Zhuo family has publicly announced. Would the Zhuo family not mind destroying their reputation just to slander you? that's impossible, right?"

The Zhuo family was the publicly acknowledged giant of the media in Jianghai. Not only did they have a huge influence, but they also had a very strict control over their own people. They had always been fair and had a good reputation.

Many of the new students agreed.

They believed that the Zhuo family would give up certain principles behind the scenes for the sake of benefits, but to say that it was just to target a private advisor, that would be too laughable.

The reason was simple, Grand Master was not worthy.

"I ..."

The Grand Master choked for a long time and couldn't say a single word. Even if he was beaten to death, he wouldn't have thought that the wood had already become a boat, and yet another person had come to kill him. Moreover, it was a behemoth that he couldn't deal with at all!

The most powerless thing in the world was to crush someone of a higher level.

Lin Yi, who was standing at the side, crossed his arms. "Do you want to come down now?"

The advisor was speechless.

Just a second ago, he was still a trendsetter, high-spirited and full of ambition. Now, he was already riding a Tiger and couldn't back down. He knew better than anyone that this was a lightning strike.

According to his plan, absorbing the credits of the new students was only the first step. After obtaining the approval of the ten-seat Council, he would be able to target the entire Jianghai Academy. That would greatly delay the time of the mine explosion, or at least delay his term as a new student.

As for the future, it would be the matter of the ten-member council. If he successfully dragged the Tian family down, he would be able to say that the Tian family can't fall. Naturally, the Academy's officials would cover for him.

At that time, his Grand Master would be a Big Shot who could influence the entire Academy!

Unfortunately, everything happened too quickly.

He had just taken the first step, and the other party had already slapped him in the face. The key was that the other party's background was too great. With the weight of his words, it was difficult to change the tone no matter how good he was at talking.

Unless the chief, Xu Anshan, spoke up for him personally.

In Jianghai Academy, Xu Anshan's status was naturally higher than the Zhuo family's. As long as he was willing to speak, there was still room for negotiation.

If he didn't open his mouth, he would be utterly defeated.

Lin Yi was observing the chief's reaction-from a logical point of view, he should give up on the Grand Master in order to avoid trouble. He was just a small character, after all, and there was nothing to lose.

The problem was, considering the structure of the 10-seat Council, the chief might not be so willing.

With the 10th seat in his hands, the crucial vote would guarantee a 6:4 majority. His will was the will of the 10-seat Council. If the 10th seat fell into the hands of the natives, it might end up being a 5:5 victory, and they might not be able to do anything.

Chapter 9479

"Are you trying to protect yourself? Or is it a gamble to protect your power?"

Finally, Xu Anshan spoke. "Since there's a dispute over this matter, we'll let the Disciplinary Committee investigate it. It's a matter of great importance. We must give them a clear result within seven days!"

"Understood."

Ji Chi got up and accepted the order.

The advisor finally heaved a sigh of relief. Ji Chi was one of his own, so he had passed this dangerous test. As for what kind of explanation he would come up with seven days later, there was too much room for manipulation, so he didn't have to worry at all.

The freshmen looked at each other. Although they were suspicious, it was the first seat who gave the order. Who would have the courage to question it?

Moreover, they had already made their attitude clear and had already asked the Disciplinary Committee to investigate. What else did he want?

After all, up until now, the flow of information that the Zhuo family had provided was only an inference. It was not an established fact that the mine had really exploded. The officials were already giving them face by conducting a thorough investigation. They could not just kill the Grand Master without any evidence ...

However, Lin Yi's side was left hanging.

They were clearly trying to drag this out-after today, even if the Grand Master really did get the tenth seat, Lin Yi wouldn't be able to do anything.

Fortunately, the 10-seat Council was not the one with the highest authority.

"This case concerns the credits of many students and affects the financial security of the entire Academy. To be safe, I, the second seat, should intervene in the investigation."

Shen Qingnian said indifferently.

As the second-in-command, he was in charge of the finance of the entire Academy. All the major expenses and income of the Academy had to be approved by him, which was why he had the confidence to compete with the first seat.

The people from the first seat couldn't help but frown. Once he forcefully interfered, things would go out of control.

However, the problem was that this matter was indeed related to the Academy's finances. If they really wanted to cut off Shen Qingnian's extended hand, it would not be reasonable. Otherwise, it would be challenging the core interests of the second-place seat. Then, it would not be a disagreement, but a complete break!

Even the first seat Xu Anshan would have to think twice about the consequences.

"Since it's a case being filed, it's not appropriate for the suspect to sit in the tenth seat. After all, he'll be one of us. Hehe, then it'll be bad if the gossip spreads. "

The third seat, Zhang Shichang, was straightforward and decisively aimed his spear at the private advisor.

Ji Chi retorted in a deep voice, "this concerns the reputation of the Academy. Who would dare to spread rumors?" Do you think my Disciplinary Committee is just for show?"

"I've already spread the gossip, why?"

Zhang Shichang gave him a sidelong glance.

Ji Chi choked again. How could he face such an unreasonable man, who was above him in both status and power?

Shen Qingnian spoke again. "Let's just be Frank. I don't trust the Disciplinary Committee. Unless a Joint Investigation Team is formed, this matter will not be resolved."

The atmosphere became tense again.

The crowd was in a heated discussion. Although the second and third seats were both native, they had never been so closely connected in the past. Looking at today's situation, it was clear that they were going to be on the same side!

Xu Anshan raised his eyebrows and asked, "can't get through?" Who can 't?"

An invisible, Emperor-like, and majestic aura instantly enveloped the entire Jade Mountain. Everyone present, regardless of their strength, couldn't help but have a strong urge to kneel.

The Emperor was furious, and the people bowed their heads.

Lin Yi was speechless-he wasn't shocked by the aura, but he felt like he was in a domain.

"Emperor's domain?"

According to common knowledge, although every cultivator's domain was unique, it was generally based on the attribute of the spiritual root. Whether it was the five basic attributes or the attributes of the various spiritual roots, they all had their own corresponding domain.

Of course, even if they had the same spiritual root attribute, there were thousands of differences in the domain of different cultivators.

For example, in the hands of ordinary cultivators, it was a general earth element domain. However, in the hands of Ying long and Yan Zhongyuan, it was very likely that they were specialized in the earth element.

To a certain extent, the two's seismic and gravitational fields had already shown signs of this.

But even so, when they fully developed it in the future, it would still be in the category of the earth element domain. At most, it would only be two special branches.

But the emperor's domain?

Lin Yi couldn't tell what element it was at the moment. Was it the legendary compound domain?

But in any case, at least one thing was certain. Once this chief Big Shot's Emperor domain was truly activated, he would definitely be earth-shattering powerful!

"Chief, are you preparing to use your power to suppress others?"

Zhang Shichang stood up and took control of the warrior's Department. He was undoubtedly the number one person in the College's martial arts system. He had enough confidence no matter who he faced, including the first seat, Xu Anshan.

In comparison, even Shen Qingnian, who was second in rank, was not as unyielding as him.

The two big shots faced each other, and everyone's expressions changed. Even the experts from the Department of discipline and the warrior's Department were preparing to clear the scene. The live broadcast signal was cut off on the spot.

Some things obviously couldn't be broadcasted.

A storm was coming!

Xu Anshan narrowed his eyes slightly. Too many things had gone out of his control today. If he really fell out with Zhang Shichang and the others here, the situation would be completely out of control.

That wasn't in line with his interests, but if he backed down and gave up on the Grand Master for Lin Yi to get tenth place, that was even more unacceptable!

Face was a small matter, but at certain times, it was a huge matter.

If he retreated today, he would immediately fall into a bottomless abyss!

"Protect Tang Yun and the others first. When we attack later, don't try to force yourself. Hide and hide if you can."

Lin Yi said to Shen Yifan and the others with his divine sense. "We're nobodies. Our reputation is worthless. It's fine to be a little cowardly."

It wasn't that Lin Yi was a coward, but if the situation really got out of hand, it would be like Mars crashing into earth. A large-scale battle like that wasn't something a bunch of new students could handle.

As for Chu Mengyao, she had the protection of the mysterious old man. There were only a handful of people here who could hurt her.

Not to mention, Lin Yi could feel that Mengyao wasn't the same as before-she had a solid aura around her, and she'd be in the top three even among the strong new students.

Under everyone's gaze, Xu Anshan slowly stood up and looked at Zhang Shichang across the air.

"You, really want to try?"

"Who's a coward?"Zhang Shichang laughed out loud.

The other ten Chiefs 'expressions changed. There was still room to turn things around, but with these words, there was nothing left.

The Civil War started at once.

At this moment, a gentle voice suddenly sounded in everyone's heart,""Who wants to be a grandson so badly? Why don't you let me join in the fun?"

A middle-aged man in a suit and leather shoes suddenly appeared in the middle of the stands. At first glance, he looked very abrupt, but at second glance, he seemed very natural, as if he had been there all along.

Chapter 9480 Power

Everyone's eyelids twitched, and the ten Chiefs stood up in unison to salute.

It was the eldest son of the Tian family, Tian Xiangyang.

As the current head of the Tian family, it was no exaggeration to say that this Lord Tian was the number one person in Jianghai Academy. Whether it was in terms of influence or prestige, no one in the Academy could compete with him.

It wasn't just the School Council that was directly under his control, but also the Academy and the repeat students. All the big shots respected him.

It wasn't just respect on the surface, but genuine support. That kind of unparalleled influence was deeply rooted.

"I haven't seen you for a few months, but Shichang is still the same. You don't even know where the door is. I heard you shouting from far away. You've been the head of the warrior's Department for so long, but you don't know how to be more mature."

Tian Xiangyang patted Zhang Shichang's shoulder as he spoke. Although he was reprimanding Zhang Shichang, his tone was like a typical old friend reminiscing about the past. It didn't make people feel disgusted at all. Instead, it made people feel quite comfortable.

As expected, Zhang Shichang restrained himself and chuckled. "I've been like this since I was born, I can't change it. "

"Then I'll have to talk to your old Madam about it. It turns out that the root of the illness is her."

Tian Xiangyang's jesting scolding caused Zhang Shichang to beg for mercy. He turned around and waved to the crowd, "Why are you all so nervous? I'm not an outsider. Sit, everyone sit. "

Then, he sat down on the chair in the middle, which was Xu Anshan's seat.

On the other hand, Xu Anshan was not dissatisfied at all. Instead, he naturally stood behind him. At first glance, he looked like a Lackey.

The rest of the ten seats were used to this.

In his early years, Xu Anshan was the younger brother of this master of the Tian family. In terms of background, he was born to be a servant of the Tian family. However, Tian Xiangyang treated him like a brother and erased this layer of relationship.

Up to this day, his Imperial aura had become more and more robust, and he had even become the first seat of the Academy and dominated a region. However, in front of Tian Xiangyang, he was still just a little brother, no different from back then.

"This old master of the Tian family is indeed powerful."

Lin Yi and Shen Yifan looked at each other.

With just a few words of small talk, he had turned the intense internal battle between the ten Chiefs into nothing. The key was that everyone felt extremely comfortable with it. Such tactics and influence were truly amazing.

While the two were sighing, Tian Xiangyang's eyes were on Lin Yi, ""You're Lin Yi? Not bad, a man of striking appearance, the future generations will be fearsome. "

"You're overpraising me,"

Lin Yi said with a slight nod.

Tian Xiangyang laughed,"a while ago, Han Qi mentioned you to me. He had high hopes for you. It's a pity that he was busy with other things at that time. Otherwise, we would have met long ago. However, a good meal is never afraid of late. We are destined to meet."

After saying that, Tian Xiangyang suddenly reacted, ""You're the newcomer King today. Why are you still standing below? aren't you going to sit on the tenth seat?"

Lin Yi looked at Xu Anshan. "The rules have changed this year. The newcomer King won't hold the tenth seat."

"Ha? There's such a thing?"

"Xiaoshan, you guys changed the rules?" Tian Xiangyang was astonished.

Xu Anshan looked at Lin Yi and nodded, ""Yes, let's try."

"Xiaoshan, I did tell you that the Academy needs to learn to keep up with the times and make some changes at the right time. However, you're a little too hasty."

Tian Xiangyang shook his head and said, "it's a matter of great importance that concerns the tenth seat. At the very least, we should hold a few more briefing sessions so that everyone can be mentally prepared. You guys suddenly came up with such a plan that even I was caught off guard. I'm sure everyone has many different opinions. I've told you many times, you must fully respect everyone's opinions."

"You're right, big brother. "

Xu Anshan did not put on any airs in front of this person and admitted his mistake without hesitation.

Tian Xiangyang turned to the crowd and said, "I see that everyone is also full of doubts. How about this? I will overstep my authority and make a decision for you. The rule of the newcomer King holding the 10th seat will not change this year, but this matter will also be put up as a proposal. From today onwards, it will be officially included in the discussion."

"It's not just the ten of you who will be having a discussion. The majority of the students will be participating in the discussion as well. We'll try to come up with a plan that everyone can accept. We'll start the trial run next year. What do you think?"

Shen Qingnian and the rest of the ten-seat natives, including Lin Yi, had no objections to this.

As for the first seat, with Xu Anshan's obedience to this master of the Tian family, he wouldn't say a word even if he was slapped in the face in public. Not to mention, Tian Xiangyang's suggestion still took care of his face to a certain extent.

After all, whether intentionally or not, he had skipped over the matter of the Grand Master.

"If that's the case, Lin Yi, why don't you hurry up and take your position?"

Tian Xiangyang greeted Lin Yi with a smile.

Lin Yi didn't argue and walked up to the stands, taking his seat under everyone's eyes.

At this point, the tenth seat was finally decided.

At the side, the advisor went down the stairs in a daze. After losing this once-in-a-lifetime opportunity, he had no fate with the ten seats. After all, with his potential and strength, he could only be an advisor at best.

He wanted to reach the heavens with his own strength? It was impossible.

The key was that not only was his future bleak, but after this incident, the credit financing he operated would definitely be heavily watched. Not only would Shen Qingnian and the other top 10 big shots of the local department watch him, but even Ji Chi's Discipline Committee might be the first to take action against him.

It was easy to imagine what would happen to a chess piece that had lost its value, especially when this chess piece could bring about unknown negative effects!

If he was fine, some people would not be able to sleep.

With Tian Xiangyang holding the fort, the following scene was naturally peaceful. Even if the cracks within the ten seats were so great that everyone knew about it, as long as Tian Xiangyang was present, the ten-seat Council could at least maintain superficial harmony.

However, those with discerning eyes could see that after today, the internal conflicts within the ten seats would be even more intense and irreconcilable.

It was not only because Zhang Shichang had challenged Xu Anshan in public, but more importantly, the power of the factions within the ten seats was getting closer and closer!

After all, there was no way Lin Yi would fall for the chief class.

Between the first seat and the native branch, the number of ten seats was basically five to five. Although in theory, when the votes of both sides were exactly the same, the first seat had the final ruling power, but that way, the dissatisfaction of the native branch would only accumulate.

One day, the dissatisfaction that was forcefully suppressed would completely erupt, and it was foreseeable that that day would not be too far away.

The conference came to an end.

Some were happy, while others were sad-as the tenth-place newcomer, Lin Yi didn't seem to be the final winner, even if everyone was happy.

Because of today's ascension process, he had been forced to completely walk on the opposite side of the chief!

Because of Han Qi, Lin Yi had a preconceived bias in this area, but it was one thing to stand with the native element, but it was another to become a thorn in the chief element's side.
