

## Bodyguard 9491

### Chapter 9491 The End

"Actually, it's a little interesting."

For the first time, Tian Xiangyang took the initiative to admit it. He smiled and said, ""I'm very dissatisfied with the current state of the ten Chiefs. A great change is coming. If this state of dissatisfaction with each other can not be resolved, something big will happen, so I need to give them a little stimulation so that they can complete the integration as soon as possible."

"You're not directly supporting the chief? He's not your man?"

Lin Yi didn't hold back at all.

Tian Xiangyang laughed, "yes, he's my man. But that doesn't mean I'll side with him unconditionally. After all, I'm not just representing myself. I'm also representing the entire Tian family and the entire Jianghai Academy. I'm still clear about the boundaries between public and private."

"Besides, he's now sitting in the chief's position. If he can't even complete all ten seats, it can only mean that he's not capable enough. If I push someone who's not capable to the top, wouldn't I be smashing my own reputation?"

His words could be said to be sincere.

As a person in power, the first thing he had to do was to be shrewd. Logically speaking, such words would never come out of Tian Xiangyang's mouth, let alone to an outsider like Lin Yi who he had only met twice!

But he just said it so naturally, without any disguise or pretense.

"Aren't you afraid of a civil war among the ten Chiefs?" Lin Yi frowned.

"Let's fight. At most, we'll reorganize after the fight. What's there to be afraid of?"

Tian Xiangyang waved his hand indifferently and casually said, "I didn't let them fight at the sword competition on Yushan because there were so many outsiders. Some things can't be done openly or it'll affect the public. But if it was done behind my back, I wouldn't care about this business."

After saying that, he glanced at Han Qi, "I don't care about the things that this little wimp has done behind my back."

"I'm just a little short, why am I a little brat?" Han Qi's face was full of resentment.

As for what happened behind his back, he admitted it honestly. He was already planning a big plan against Ji Chi, and he even talked to Lin Yi about it. Naturally, he wouldn't deny it in front of Tian Xiangyang.

There was no need for that.

"Why are you telling me this?" Lin Yi was still confused.

"You're a newbie and you can't hide in the Bureau. As the boss in name, I should at least ask you to say a few words. It's my responsibility as a boss."

Tian Xiangyang immediately changed the topic and said with interest, ""Also, I want to know what you will do."

"If people don't offend me, I won't offend them."

Lin Yi said the first half, but the meaning was obvious-if someone offends me, I'll return the favor!

Tian Xiangyang chuckled when he heard that,"you have a character, but how can you deal with those old birds who eat people without spitting out their bones with your tiny arms and legs?" How about I point you in the right direction?"

"Don't tell me you want me to enter the sea god Manor?"Lin Yi raised a brow.

Tian Xiangyang laughed out loud,"if you're willing, I really won't refuse. But I don't think it's such a good thing. The way I've shown you is in the Academy's prison. I think you should have already received his invitation."

“.....”

Lin Yi couldn't help but look at him again. According to Shen Yifan's suggestion, he had to meet the mysterious person in the college prison after he returned.

He just didn't expect that Tian Xiangyang would actually take the initiative to mention it.

According to normal logic, those who would be locked up in there would definitely be those who opposed the Academy. On a larger scale, they were all his, Tian Xiangyang 's, enemies. Wasn't he afraid that he would be incited into a rebellion?

"Don't think too much. Although the people inside have all violated the Academy's rules, they are not necessarily all extremely evil. Some people are simply too dangerous, and for the sake of the Academy's stability, they have no choice but to restrict their personal freedom. "

As Tian Xiangyang spoke, he suddenly threw over a Jade token that was specially used by the Tian family.

"What do you mean?"

Lin Yi asked, surprised.

Tian Xiangyang laughed,"that person's level is too high. If you meet him just like that, even if you can get his approval, you'll only be reduced to a chess piece at most. You'll be at his mercy. There's no meaning to it."

"But if you take out my identity card, he will have to think twice if he wants to manipulate you. At least he will have to take out more chips, because I'm the one standing behind you."

Lin Yi held the Jade token in his hand,"What do you want to achieve?"

"I don't have any purpose. I just hope that if you choose to join hands with that person, you must try your best to master the power under his command and integrate them into your own. That's all."

Tian Xiangyang said with a smile.

"Just that?" Lin Yi raised a brow.

"Just like this."

Tian Xiangyang smiled. At his level, he didn't need to use too many schemes and intrigues, nor did he need to hold onto everything tightly in his hands. Most of the time, he only needed to provide a little support, and it was enough to control the overall situation.

The key was that this way, there would be people who would really work for him, because they would also be working for themselves.

Naturally, Lin Yi wouldn't reject it, "Alright," he said.

Just when Lin Yi was about to leave, Tian Xiangyang added, ""The Black Dragon Gang's mess still needs to be cleaned up for a while. You still have some time, so it's best to improve your strength when you go back. The more strength you have, the more authority you have. The negotiation table is very important."

Lin Yi nodded and left with Yan Zhongyuan.

Tian si looked at this scene silently and suddenly chuckled, ""If Xu Anshan knows what happened today, I'm afraid he'll have a headache again."

Tian Xiangyang's actions were simply looking for trouble from the position of the chief.

It was only because Xu Anshan grew up in the Tian family that they had an unusual relationship. If it were anyone else, they would have already left each other.

"It's not a bad thing to have a headache. He's too smooth-sailing."

Tian Xiangyang sighed and ordered, ""Get second master to send the girl named Liu Yin back. Also, she can't have any residual effects."

This was the truth of the topic. Although Lin Yi didn't take the initiative to talk about Liu Yin, since the Tian family wanted to win him over, this was the least sincerity they had.

Otherwise, they'd start a feud if Lin Yi asked for her.

"I'll go?"

Tian Si's face immediately darkened.

Although the second master of the Tian family didn't dare to disobey the first master's authority, he would definitely have a share in the revenge.

He wasn't really afraid of this, but it was very troublesome.

Tian Xiangyang glanced at him, "you mean I should go?"

"....."

Tian si could not say anything and could only obey.

After returning to Jianghai Academy, Lin Yi pushed back all other matters aside from giving the high-tier wind element territory stone to Shen Yifan. He had to go into seclusion as soon as possible.

The field of research was urgent!

However, before he could prepare everything and truly begin his closed-door cultivation, a challenge letter on the campus network caused an uproar overnight, directly making the headlines of the school's hot search.

Chapter 9492 Power

"Tong Feifan from class six is the first to master his territory and is now at the peak of the early stage of sky-breaking realm. He's challenging Lin Yi, the new student!"

To be able to occupy the headlines of the entire internet so quickly, there was obviously someone behind this person.

Especially when he was walking around the city, threatening to kick Lin Yi out of the newcomer King's position, with a bunch of new students following behind him-it was obvious that he was up to something.

Lin Yi group's members gathered again for the first time.

However, unlike before, this group of people did not look as if they were facing a great enemy at all. Instead, they all looked like they were watching a show. For example, Qiu sanniang and the others had even opened their bets on the spot.

It wasn't a bet on who would win or lose, but how many rounds their opponent could last against Lin Yi.

The only one who was serious was Lin Yi himself.

Lin Yi tilted his head as he looked at the huge crowd of people rushing towards him. "Who's this guy?"

"Hehe, what big words! I was just lucky to pick up a newcomer King, do you really have eyes that go to the sky?"

Tong Feifan and his men stood ten steps away. He crossed his arms and said, ""I'll give you a word of advice. Ignorance is not an obstacle to survival. Arrogance is."

"That's a good idea. "

Lin Yi agreed and looked at the man with sincerity. "You're telling this to yourself, right? It's good to reflect on yourself three times a day. "

“.....”

Tong Feifan, who had come in full Fury, was choked and didn't know what to say. He was stunned for a moment before he reacted and continued to say awkwardly, ""You're indeed sharp-tongued. I heard that you got your position as the newcomer King and 10th place by talking?"

He didn't wait for Lin Yi's reply before he sneered again.

"It's true that the monkey calls himself King when there's no tiger in the mountain! I've been studying the domain since I entered the school, and I don't have time to deal with you ignorant fools. Whether it's the newcomer King or the tenth seat, they're all just Flowers in the Mirror in the face of absolute strength. So what if you get it first by luck?"

"Hehe, now that I've finished my cultivation, you'll have to spit out as much as you've taken!"

"I'll go! It's the first time I've heard of such an amazing person like you hiding in Class 6 after so long. Wei baizhan, isn't obedient wind the real boss of your Class 6?"

Zhao Guanchao stood out from behind Lin Yi's group.

Even core members like Shen Yifan didn't want to waste their breath on a weirdo like Lin Yi-what if the weirdness was contagious?

Zhao gongcourt's position in Lin Yi's group was just right-after all, this guy was a weirdo ...

At the same time, on the other side, Wei baizhan crossed his arms and looked on coldly. He didn't say anything, nor did he refute.

After the sword duel at Yushan, Lin Yi's group had risen to the top, and his plan to steal the peach had failed. Although he didn't show his allegiance to them in person, he wouldn't continue to be stubborn.

After all, even Ying long and the others didn't say anything. They all agreed to Lin Yi's status, let alone the others.

The only exception was Tong Feifan.

But then again, Tong Feifan was indeed quite a character to be able to master his domain in just two months. He was the number one among the freshmen. It was known that almost half of the freshmen would be eliminated every year. His results were indeed quite dazzling.

"First time?"

Tong Feifan glanced at the Zhao imperial court and laughed. ""Don't worry, you'll have a deep impression of it in the future,"

"Then I'll ask for a few moves?"

Zhao guangchao turned around and looked at Lin Yi. After seeing Lin Yi nod, he clapped his fists and walked towards the man.

Tong Feifan scoffed and shook his head,""Two moves? You can't even last one move against me, so how can you ask for two moves?"

"Ha, aren't you afraid of biting your tongue?"

Zhao Feng couldn't help but laugh."Only my boss has the right to say such things. Who Do You Think You Are?"

A black shadow had quietly appeared behind Tong Feifan, and was about to break his neck in the next second.

Shadow Kill!

This could be considered the Zhao imperial court's signature move. Although it was limited by one's own strength and did not have many outstanding performances in high-level battles, one had to admit that for most of the ordinary freshmen, this was definitely an extremely difficult ability to deal with.

To a certain extent, it was almost unsolvable.

However, Tong Feifan, who was the person involved, was unmoved.

"The shadow is a good thing. Unfortunately, I've said it before. In the face of absolute strength, it's just a small trick to scratch an itch."

Tong Feifan didn't seem to have made any movements, but a layer of water vapor had already wrapped the shadow, making it unable to move.

At the same time, a terrifying water dragon formed out of thin air and whistled as it struck the Imperial court of Zhao's chest. The impact sent him flying 20 meters away, and he struggled for a long time, unable to get up.

The freshmen were collectively shocked.

"A water domain?"

Lin Yi and Shen Yifan looked at each other. It was common knowledge that water was the weakest element among the five elements, but it didn't mean that it couldn't kill. The Water Dragon just now was quite powerful.

However, under normal circumstances, a killer move like the Water Dragon required a very long time to accumulate power. Unless he used other moves to restrict the opponent's movements, it was very difficult to hit the opponent directly.

However, Tong Feifan's move was almost silent!

A water dragon that could be unleashed in an instant and a water dragon that needed time to accumulate power were two completely different concepts!

"See that? This is the difference between you and me. The difference between the early stage and the peak of the early stage of the great circle of heaven breaking is like heaven and earth!"

Tong Feifan was still in a daze.

To him, dealing with the Imperial court of Zhao in one move was just a matter of a thought. There was no need for him to pay any price. He did not even need to consume his essential Qi.

It was because he had a domain.

All the vital energy that had formed the Water Dragon came from the surrounding spiritual energy!

The surrounding freshmen all revealed looks of respect. Mu Qiang was a human by nature, and he was the same no matter where he went.

Although the Zhao imperial court wasn't at the top of Lin Yi group, it was still a top figure, but it couldn't even withstand one move from Tong Feifan. The difference was so big that it made people despair.

"As long as I can't cultivate my domain, I'm still a scum. Even if I'm lucky enough to be on the stage, it's just a sensationalism."

Tong Feifan looked at Lin Yi and said, "if I were you, I'd give up everything I got. The title of newcomer King, the tenth seat, and the talisman making society. Don't take a single point that shouldn't belong to you. It'll bring disaster."

"You know how to make talismans?" Lin Yi asked curiously.

Tong Feifan laughed, "who said that the president of the talisman making society must know how to make talismans?" Making talismans is something that subordinates should do, and I only need to have the strength to suppress them. "

"Yes, I understand it at the enterprise level."

Lin Yi made his assessment as if he was serious, and then slowly walked towards the other party under everyone's gaze.

Chapter 9493 Power

Tong Feifan revealed a satisfied smile. ""At least you're tactful. At least you can still keep your dignity. If you get my appreciation in the future, you can even fight for the position of the second-in-charge. That's already very good for you. This is the position you should be in."

Lin Yi didn't stop even when he was three steps away from Tong Feifan. He didn't lower his head or even kneel down as Tong Feifan expected.

Instead, she continued to walk towards him.

Looking at Lin Yi's half-smile, Tong Feifan finally reacted and his face changed, ""It seems like you're still not tactful."

A thick layer of water vapor surrounded Lin Yi.

This wasn't ordinary water vapor, but a substantial pressure formed by mobilizing the essence of the surrounding water attribute heaven and earth ling qi. To a certain extent, it could even be regarded as a domain pressure from the heavens and earth!

This was a unique technique of domain masters.

It was the sign of a domain master, the most basic of the basics. However, for those who had not stepped into the domain stage, it was rather difficult to solve.

The Zhao imperial court's shadow killer was already immobilized, and so was Lin Yi, who was being suppressed by the domain.

At that moment, the people behind Lin Yi were all worried.

As for the freshmen, they were all gloating over Lin Yi's misfortune.

People liked to see other people in bad luck, not to mention that they'd ruined Lu Yizhou's financing plan. Many of the new students had been implicated and suffered losses, so naturally, they'd put all their hatred on Lin Yi.

If Lin Yi wasn't unlucky, they wouldn't be able to let it go!

"I saw that you were quite clever in your previous actions. Why can't you understand the situation? Sigh, little genius is really a pain in the ass. "

Tong Feifan sighed as a water dragon formed behind him and flew towards Lin Yi who was unable to move.

The Zhao imperial court was a good example.

At this moment, all the freshmen had already given Lin Yi the death sentence. Even if he was lucky enough to survive, he was bound to end up in a miserable state.

From now on, the newcomer King, the tenth seat, and the talisman making society would all have a new master.

BOOM!

The Water Dragon roared as it slammed into Lin Yi, but Lin Yi didn't get sent flying. He was still standing at the same spot, not moving at all.

"This ..."

Tong Feifan couldn't help but feel embarrassed. Did he make a mistake and forget to release the pressure on Lin Yi's head at the last moment?

Today was the big day where he had been in seclusion for two months. It shouldn't have been such a low-level mistake.

"Not bad, you should open a bathhouse. You'll have a bright future," Lin Yi said.

"Bathhouse?"

Under everyone's gazes, Tong Feifan immediately flew into a rage out of humiliation. "A vile person has achieved success! Do you really think that you have the right to be cocky just because I accidentally failed?"

"I accidentally slipped ..."

"Alright, as long as you're happy." Lin Yi shook his head.

After saying that, he suddenly raised his hand and slapped Tong Feifan.

This thing can actually move?

Tong Feifan was shocked, but he didn't have time to think. He quickly controlled the Water Dragon to form again and hit Lin Yi!

This time, it wasn't just one water dragon, but three!

The three water dragons roared towards Lin Yi at the same time. Lin Yi didn't do anything to block them or dodge them. He just let them come at him.

The result was the same as before. The three terrifying water dragons bombarded his body, but nothing happened other than splashing water all over the place.

Lin Yi didn't even move his feet, and there wasn't a single mark on his body.

It gave the audience the impression that he had really just taken a shower, and he wasn't even wet.

"Impossible! It's impossible!"

Tong Feifan was about to go crazy. He had already guessed why this was happening, but his self-esteem didn't allow him to accept such a cruel truth.

After two months of closed-door cultivation, he succeeded in one day!

As the first person to master a domain, today was supposed to be his day to shine and claim the title of the newcomer King. How could he accept such a ridiculous thing?

His three water dragons couldn't even break through Lin Yi's protective layer!

It wasn't a mistake that Lin Yi didn't move earlier-his water dragon couldn't break through Lin Yi's protective layer at all.

In Lin Yi's words, the effect was just a shower.

At this time, Lin Yi's raised palm was still coming down at a steady speed, looking like a child's play. How could he hit anyone?

However, as long as Tong Feifan didn't Dodge, this slap would eventually land on his face.

Should he Dodge?

Tong Feifan had just made so many preparations to create a strong image of everyone below the domain Realm. How could he Dodge?

If he dodged at this time, he would be a coward.

"Water dragon cannon!"

Tong Feifan didn't Dodge, nor would he wait for death. The Water Dragon cannon, which was far more powerful than the Water Dragon, immediately hit Lin Yi's palm.

The onlookers were already shocked by the momentum of the Water Dragon cannon. If such a powerful water dragon cannon were to hit them, they would be dead without a corpse!

Yet, Lin Yi just casually slapped it away.

Tong Feifan was so shocked that his eyes were about to pop out of their sockets. He wasn't willing to die like this. He gritted his teeth and created a large number of water dragon cannons. He roared and bombarded Lin Yi's palm continuously.

Unlimited water dragon cannon!

This kind of move could only be used with the help of a domain. Otherwise, he would be sucked dry in the blink of an eye if he only relied on the true Qi in his body.

However, it still couldn't stop Lin Yi's palm from landing.

Pa!

Lin Yi's palm landed on Tong Feifan's face unhurriedly, accompanied by countless water dragon cannons.

Tong Feifan didn't even have the time to groan. He tilted his head and pounced on the spot.

Looking at Tong Feifan, who was lying at Lin Yi's feet, not knowing if he could still survive, the whole place fell into a dead silence.

"What a F \* cking animal."

Qiu sanniang muttered the words on everyone's minds.

After the sword duel on Yushan, Lin Yi's invincible image was deeply rooted in the hearts of the freshmen, but that was only invincible in the same level. After all, it didn't involve higher level domain masters.

As everyone knew, domain was the true qualitative change!

But this was a master who'd completed his transformation, a powerful existence who could kill Zhao Yunting with a single thought, and yet he couldn't even take a single slap from Lin Yi!

Could this guy be an actor he had found?

However, this ridiculous thought was quickly extinguished by the crowd. He was the first person to master his domain. Who would want him to be an actor?

Besides, even if she was an actor, she couldn't risk her life.

"Someone come and drag this guy away. The rest of you, disperse."

Shen Yifan ordered his men to clear the area and turned to Lin Yi with a smile. "Your slap can at least give us two months of peace."

In other words, it would be very difficult for the freshmen to have any other thoughts in the next two months.

Chapter 9494 Power

One could tell from Wei baizhan's expression that even a powerful lone wolf like him couldn't hide the shock in his eyes when he looked at Lin Yi, let alone the other freshmen.

"What about two months later?"

"I heard that Ying long has already started to study the domain in seclusion. If he can master it, I'm afraid he won't be as ridiculous as this guy." Qiu sanniang asked.

Even though they were all in the same domain, there was a huge difference between people.

Tong Feifan's water element domain was a joke in front of Lin Yi, but if it was Ying Long's earth element domain, especially if it was the earth element's earthquake domain, then it would be a big deal.

Everyone looked at Lin Yi.

Although he lost to Lin Yi in the Yushan sword competition, just like Wei baizhan, Ying long didn't really lower his head to Lin Yi's group. He was just using closed-door cultivation to keep silent.

"Then give me another slap," Lin Yi smiled.

"You're so arrogant, you're awesome. "

Qiu sanniang laughed and turned around to play mahjong with Tang Yun and the others. She and her sisters had been very close to Tang Yun these days, and they were now her best friends.

No matter where they went, they were a beautiful sight to Lin Yi group.

Lin Yi greeted Shen Yifan and the others before turning around to go into seclusion. It sounded easy, but if Ying long mastered the domain first, especially the earthquake domain, it wouldn't be so easy to deal with.

At this moment, Yue Jian suddenly walked over with a hesitant look on his face.

After hesitating for a long time, he finally said hesitantly, ""Boss, my sister is back. She ... Wants to see you."

Liu Yin?

Lin Yi nodded as the gentle image of the dean's office flashed through his mind. Tian Xiangyang was a very particular person. If he didn't give in first, it would be hard for Lin Yi to handle.

If it really didn't work, he could only directly fall out with them.

Half an hour later, Lin Yi saw Liu Yin, who he hadn't seen in a long time, on the rooftop. He looked her up and down carefully, and even used his spirit sense to check her a few times.

"Fortunately, there were no hidden dangers."

Lin Yi smiled and let out a breath of relief. If she was still in her brainwashed state, it would be useless even if Liu Yin came back. It would only make things worse.

Liu Yin blushed and lowered her head, her voice as soft as a mosquito 's. "I'm sorry for what happened last time. "

Although she was in a state of brainwashing, her mind and memory were still clear and there was no blurriness. This was the brilliance of the shady firmament method.

If it was just the usual kind of brainwashing, how could he live up to his identity as the second master of the Tian family?

"What's there to be sorry about? you're not the one in the wrong. You're the victim. "

Lin Yi smiled and waved his hand. "What's your next plan? Or are you going back to the Academic Affairs Office?"

Liu Yin was stunned. "There are already other students who have helped me to take over the administrative office. I'm going to look for other administrative positions. The college is so big and there are so many departments. There must be a suitable opportunity for me."

If ordinary students wanted to stay in the Academy, they had to find various ways to earn credits.

The most common and fastest way to earn academic credits was naturally to do the bounty missions announced by various Academies. However, this path had extremely high requirements for one's personal strength and also required a tacit team. After all, many missions could not be completed by one person.

In comparison, although positions like Academic Affairs clerks had no risk, the corresponding rewards were much lower. The average level was less than one-tenth of the total. It could be said that they were at the bottom of all kinds of positions.

But even so, for an ordinary girl like Liu Yin, this was the most ideal opportunity.

This was because there was no other choice.

"If you want to be a civilian, why don't you try my talisman society?"

Lin Yi suggested.

Liu Yin was stunned and immediately waved her hands. "But I don't know how to make formation talismans."

Lin Yi smiled, "you don't have to make talismans just to come to the society. There are still a lot of civil servants in the society. For example, I'm just lacking a Secretary."

"You want me to be your Secretary?"

Liu Yin's already blushed face became even redder, not daring to look Lin Yi in the eye. She twisted her clothes and mumbled, "This isn't very appropriate ..."

Her words were a rejection, but looking at the girl's thoughts, it was obvious that she was very willing.

"I don't think it's appropriate," Lin Yi said after some thought.

"....."

Liu Yin's heart immediately turned cold, and she could not help but glance at him with hidden bitterness.

Speaking of which, she was originally a graceful and gentle girl. She had dealt with many people on a daily basis, but she had never revealed such a graceful and girly attitude in front of others, especially when the other party was a junior.

Lin Yi continued, "as the president, I don't spend much time in the club. Tang Yin's the one who's managing things for me. If you go, you'll just be helping her with some of the administrative work. She wants to use her time to study the talisman and not be distracted by other things."

"Why didn't you say so earlier ..."

Liu Yin rolled her eyes at him, but she looked as kind and beautiful as the sister next door, which made people feel relaxed and happy.

After sending off the excited Liu Yin, Lin Yi was about to return to his dormitory when he bumped into Wang shiqing, who was bending over at the corner of the stairs.

"What are you doing here?"

"Of course I'm here to monitor you,"

The little girl mysteriously whispered into his ear, ""It's a good thing you arranged for that sister to be with Tang Yun sis, or else, hehe, Lin Yi bro, you'd be dead meat!"

"She's here too?"

Lin Yi subconsciously sniffed at the air-there was still Tang Yin's unique scent in the air. It was light, but nice.

Wang shiqing nodded,"I'll be wherever Tang Yun sis is. Lin Yi bro, you've passed another level. Congratulations!"

"Now that you've mentioned it, it was indeed a close call. I'm even breaking out in a cold sweat."

Lin Yi said as he brought the girl down the stairs.

Behind him, Wang shiqing suddenly said,"Big brother Lin Yi, you realized it long ago, right? If she didn't notice, that sister would have really become the president's Secretary. As the saying goes, if there's something, the Secretary will do it. If there's nothing, it's fine ..."

Lin Yi almost fell down the stairs, and flicked a finger at her head."What nonsense are you spouting? you're not learning well at all!"

"You're anxious, you're anxious, I'm right!"

Wang shiqing covered her mouth and laughed.

Lin Yi could only look up at the sky, speechless.

He went back to his dorm and took out the nine-story Pagoda. Everything was ready, and Lin Yi decided to go into seclusion to practice his domain.

The perfect quality wood element territory origin stone appeared quietly in his hand. It looked ordinary on the outside, black with a little dark yellow. Whether it was the texture or texture, it was more like a piece of charcoal than a stone.

But as soon as Lin Yi extended his spirit sense out, he was immediately attracted by the mysterious aura wrapped in it, and he couldn't pull himself out.

Chapter 9495

A territory stone was like a textbook.

Lin Yi finally understood the meaning of the phrase for the first time.

Unlike heavenly materials and earthly treasures like spiritual jades that could directly supply spiritual energy, although the territory stone also contained a huge amount of spiritual energy, it would not leak out at all, and it would not be absorbed by the user.

The only way to use it was to observe.

Because of its unique internal structure, the movement of the spiritual energy of heaven and earth would leave clear traces. As long as one could completely replicate these traces, one would be able to step into the first threshold of domain cultivation, and cultivate the embryonic form of the domain!

However, even if they were of the same element, the clarity of the internal traces of the territory origin stones of different quality was also different.

At this time, the advantage of a high-quality territory stone was reflected.

For the same mark, one could only see a faint outline in the low-grade territory origin stone, while the main vein could be clearly seen in the medium-grade territory origin stone. As for the high-grade territory origin stone, apart from the main vein, one could also see the details of the forks on it.

As for the perfect quality, it could be accurate to almost every molecule!

In just a short while, Lin Yi felt like he had been enlightened, and his understanding of the entire training system had been subverted.

Ever since he started cultivating, this was the first time he had come into direct contact with the principle level. It was also the first time he realized that the molecules of the spirit Qi of heaven and earth actually operated in this way.

The sea of learning was boundless.

To a certain extent, this closed-door cultivation was a systematic self-study course. If he did well in his self-study, he would be able to produce results and achieve a qualitative change in his domain.

If one didn't cultivate well, they would basically have no fate with the domain.

This was because one could only rely on one's own comprehension to cultivate a domain. No other external forces could interfere with it.

There was no sun or moon in the mountain, and Lin Yi, who was immersed in the territory stone, couldn't feel the passage of time outside at all. All he could see was the changing and combining of the spirit Qi particles.

Half a month passed by in a flash.

Ever since the ambush on the Black Dragon triad, the entire Jianghai city had been plunged into an inexplicable tension. The subtle tension between the city Lord's office and Jianghai Academy had become more and more obvious. All the major and minor factions were watching from the sidelines, choosing their sides.

In the light and in the dark, the waves and clouds were treacherous.

On the other hand, the internal affairs of Jianghai Academy were not peaceful either. Due to the issue of the Black Dragon triad's stall's ownership, the ten seats of the Academy were also at war with each other.

Taking over the Black Dragon triad's huge industry chain naturally wasn't something that could be done in a day or two. However, all parties had already intervened in this process, and there were fights everywhere.

The first seat, the native department, and even the forces outside the academy were all trying to take a bite of this huge piece of fat meat.

A storm was brewing.

Everyone could already feel that the day the storm completely erupted was not far away.

Of course, this had nothing to do with Lin Yi group.

Although Lin Yi was a direct participant in the Black Dragon triad's war and gained quite a lot of benefits from it, he and his new students didn't have the right to share the huge cake that was the Black Dragon triad's business chain.

The benefits were too great. Even the talisman making society, which earned a lot of money every day, was like a little brother in front of it.

If Lin Yi's group were to get involved in this, they'd probably be swallowed up in a matter of minutes. There were some things you could touch and some you couldn't-you had to know your place if you wanted to live a good life.

With Lin Yi's group's current scale, as long as they developed and operated properly, the profit from the rune making society would be enough to stabilize the entire business.

There was only a future with a Foundation.

Lin Yi and Shen Yifan, who was in charge of the company, were both aware of this.

However, even if the tree wanted to be quiet, the wind would not stop.

"A merger of clubs?"

Looking at the baby-faced man with a long sword on his back, Shen Yifan could not help but narrow his eyes."May I know how to address you, senior?"

"Li Jing from the martial arts Society."

The baby-faced man was all alone, but he made all the core members of Lin Yi group feel an inexplicable pressure, as if they were being stared at by a beast.

"You are the legendary new king of the second grade?" Shen Yifan was shocked.

Looking at the second-year students, although they were not as strong as the current golden generation, it was not as if they could not find a decent master.

There was the Lu family's King and the new king, Li Jing.

It was said that on the night before the sword seminar on Yushan, this person had used a longsword to fight in all directions. He had single-handedly killed all the forces in the entire second year, taking the entire second year under his command in one fell swoop. Then, he had joined the martial arts Society with the others and was promoted to the Vice President of the martial arts Society!

If the sword seminar on Yushan had not stolen the limelight, this matter would have been the headline of a hot search.

It was just that it was born at the wrong time, and some people were deliberately trying to suppress the heat, so not many people paid attention to it, and there was almost no discussion about it on campus.

However, in the eyes of someone like Shen Yifan, the new king of the second-year students, Li Jing, was already a dangerous person.

Li Jing's lips curled up indifferently. He was too lazy to talk nonsense, so he casually threw out a notice.

Shen Yifan took it and read it, "any suggestions on encouraging the merger of clubs?" The person who signed it is ... The ninth seat of the Academy, du wuhui. "

The people from Lin Yi group looked at each other.

Could it be that du wuhui was the one behind this person?

After thinking about it carefully, it made sense. In name, all the clubs were under the jurisdiction of the ninth seat, and the martial arts Society, as the head of the five major clubs, was naturally the most valued force of du wuhui.

Shen Yifan furrowed his brows. "According to this opinion, Chairman du Jiu advocated for the integration of small clubs into large clubs to facilitate the effective integration of resources. However, the talisman making society is also one of the five major clubs. Even if they were to merge, it would be the other small clubs that would be merged and not the one that would be merged."

The society was one with Lin Yi's group, and now that Lin Yi was in isolation, he had to take care of the society.

"Between the talisman making society and my martial arts Society, who's bigger?"

Li Jing asked slowly.

"They're both part of the five major clubs, so they're about the same size," Shen Yifan replied in a deep voice.

"The martial arts Society has eight hundred people, while the talisman society doesn't even have two hundred. You're telling me they're about the same size?"

Li Jing sneered, his eyes narrowed as he looked Shen Yifan up and down. "Are you kidding me?"

Shen Yifan was neither humble nor arrogant. "The number of people isn't the only way to measure the size of a society. The number of people in the talisman making society is far less than that of the martial arts Society, but in terms of industrial scale, I'm afraid that even the martial arts Society can only catch up to it. Otherwise, why would there be the five major societies?"

"Why don't you just tell me that the talisman making society can earn more money?"

Li Jing sneered again. Without any warning, he suddenly unsheathed his long sword. The rainbow-like sword Qi almost brushed past Shen Yifan's ear, directly splitting a huge crack in the stone wall twenty meters behind him that extended to the roof.

In an instant, everyone in Lin Yi group was on guard.

Only Shen Yifan, who bore the brunt of the attack, sat still and looked at the other party with a cold gaze.

## Chapter 9496 Power

"Not bad, you have some guts. Follow me in the future, I still need a servant to carry my sword."

As Li Jing spoke, he actually threw the long sword over.

Shen Yifan frowned and tried to block it, but before he could do so, he was suddenly suppressed by an invisible force and could not move.

Domain suppression!

It was the same realm pressure, but Tong Feifan's realm pressure didn't affect Lin Yi at all. It couldn't restrict Lin Yi's movements at all.

However, Shen Yifan felt as if a mountain was pressing down on him. Even if he mobilized all the essential Qi in his body, he could not resist it at all. He had even exhausted all his energy just to sit there.

The moment he relaxed, he would immediately turn into a pile of mud!

At the same time, the long sword attacked. However, it was not a stab, but a horizontal strike on his shoulder.

BOOM!

Shen Yifan couldn't bear the weight of the long sword, and his chair fell apart in an instant. He knelt on the ground uncontrollably in front of the other party.

Everyone was shocked.

Qiu sanniang and Yue Jian were the first to react. Lin Yi was in closed-door cultivation, and so was Yan Zhongyuan. Other than Shen Yifan, they were the two strongest people present.

The two of them attacked Li Jing from both sides.

One side was a series of kicks, while the other was a Sonic Boom punch. Once the two overlapped and hit, even an expert at the peak of the early stage of the complete heaven crushing realm would be seriously injured.

"Any Tom, Dick, or Harry dares to come up here? I'm the Vice President of the martial arts Society. Do I look so bad?"

A hint of killing intent flashed across Li Jing's slightly narrowed eyes. Without making any movements, two extremely sharp sword Qis had already condensed behind Qiu sanniang and Yue Jian, and then silently slashed down.

Yue Jian couldn't Dodge in time and was slashed from his right shoulder to his left abdomen by the sword Qi on the spot. His entire body was almost dismembered on the spot.

As for Qiu sanniang, she managed to escape with her superior speed and arrived above Li Jing's head.

However, before she could kick out, her whole body was locked by a strong pressure, and she was forced down from the air. She fell in front of Li Jing in a sorry state, and knelt beside Shen Yifan.

"Unlucky."

Li Jing suddenly remembered her identity. He frowned and kicked her away.

It was obvious that he was afraid of Zhang Shichang, who was behind Qiu sanniang.

No matter how strong he was as an individual and no matter how deep his background in the martial arts Society was, he was still nothing in front of the hot-tempered third-seat. After all, he was in charge of the entire warrior's Department!

The warrior's Department and the martial arts Society were as different as heaven and earth!

The martial arts Society made a living through martial arts, and there were many experts who had gone through actual combat under them. However, in the end, it was just a society.

On the other hand, the warrior's Department represented the Academy's strongest official military force. It was an Army that had truly fought its way out of mountains of corpses and seas of blood!

To put it bluntly, comparing the warrior's Department to the martial arts Society was an insult to the warrior's Department. The two sides were not on the same level at all.

If he, Li Jing, dared to brazenly make Qiu sanniang kneel before him today, with Zhang Shichang's character, the entire martial arts Society would be razed to the ground before tonight!

Even so, Li Jing's display of strength and dominance in this short encounter was still deeply rooted in the hearts of the people and shocked everyone.

Shen Yifan, Qiu sanniang, and Yue Jian were the top five fighters in Lin Yi group, but they couldn't even last a single blow in front of this man.

Not to mention going back and forth, he didn't even touch the corner of her clothes!

Despair.

An unprecedented sense of despair.

Even when Tong Feifan came to cause trouble, even when he also took down the Zhao imperial court in one move, it wasn't as hopeless as now, because they had Lin Yi.

Even if the other party had an overwhelming advantage over him, he could still slap him back.

But now, Lin Yi wasn't here, and the enemy was much stronger than Tong Feifan. In front of such a powerful realm, even if they weren't afraid of death, their numbers would be useless.

However, Li Jing's strength did not manage to scare everyone.

Some of the new students were hot-headed as they roared and charged forward.

They'd only been with Lin Yi for a short time, but he'd treated them well-he'd even given them a portion of the society's profits as funding, helping them out of their difficulties and difficulties.

A gentleman would die for his bosom friend.

They might never be able to become Lin Yi's pillar of support like Shen Yifan, but at least they had the awareness of cannon fodder and could display their value.

"You're so stupid!"

Li Jing coldly snorted and casually cut off the person's arm. The thick smell of blood once again scared off the Restless crowd. However, very quickly, some blind people took the initiative to welcome him.

Hot blood was contagious, so was the head.

In the face of the rampaging sword Qi, such continuous attacks seemed to be of no value. They could not cause any harm to Li Jing, nor could they share the burden of Shen Yifan and the others.

The only thing he gained was the bloody scene.

However, the crowd continued. The scene became extremely cruel and tragic in a short time.

"Enough!"

Shen Yifan's eyes were red as he roared. As the second-in-command of Lin Yi group, he had to deal with this group of people every day, but this was the first time he truly acknowledged them.

They were no longer just the bottom of Lin Yi's group. They were Lin Yi and Shen Yifan's partners, brothers who could entrust their lives to each other!

No one stopped.

The one leading the charge was Qiu sanniang. The wave of cannon fodders were still useful in the end. They successfully covered Qiu sanniang as she reached Li Jing's head once again.

This time, Qiu sanniang was prepared to use her trump card before the domain's pressure locked onto her.

Swallow reversal flash.

Qiu sanniang's figure suddenly split into four, like a shadow or a clone, and attacked Li Jing from four directions.

Li Jing's strong protective true Qi collapsed in one blow in the face of his sharp attack. For the first time, Li Jing looked surprised.

"A woman actually has such strength? He's really not simple. "

Although he said that, his body did not move at all. However, before the swallow reversal flash really landed on his body, the long sword on Shen Yifan's shoulder suddenly let out a sharp whistle and instantly turned into a ball of sword light that wrapped around his body.

Qiu sanniang groaned as she was sent flying, blood dripping from her feet. She had been seriously injured by the sudden sword light.

However, on the other side, Shen Yifan, who was no longer suppressed by the longsword, finally broke through the suppression of his domain's pressure. A tornado instantly swept across the entire scene.

Caught off guard, Li Jing was caught in the middle of it and lost all his composure.

The wind raged, and everyone was excited!

"Isn't it good to kneel obediently? must you force me to kill you?"

Li Jing's cold voice was heard in the wind. The sword gleam that was wrapped around his body suddenly dispersed, turning into ten or a hundred. In the blink of an eye, it had spread across the entire field, and all that could be seen was the sword Qi.

This was his unique domain, the sword Qi domain!

Chapter 9497

In less than three breaths, the tornado was shattered by the countless sword Qi and could no longer pose any threat.

On the other hand, Shen Yifan looked as if he had suffered a thousand cuts!

Although none of them were fatal, and each of them was only a superficial wound, which was not worth mentioning to a heaven crushing cultivator, it could still be fatal if the superficial wounds were stacked!

There were more than 1000 wounds on Shen Yifan's body at the moment. In fact, there were more than 10000!

Not to mention anything else, if he left it alone, the blood would be enough to make him dry.

However, there was no rest or hesitation. Shen Yifan, whose body was covered in blood and flesh, only accumulated his power for a short while before he roared and attacked again.

This was very irrational, even stupid!

But he could not retreat.

This was Lin Yi group's headquarters, and if he retreated with his men today, not only would all the sacrifices of his brothers be in vain, but they would also lose their Foundation and fall apart.

This was because if he retreated, the talisman making society would not be able to survive, and the morale that everyone had gathered with great difficulty would completely collapse.

"You're really not afraid of death, are you? Alright, I'll grant you your wish. "

Li Jing laughed. His baby-faced smile seemed particularly sinister and cruel. "I can still afford to offend the Shen family, the wind god."

The wind God's Shen family was influential in Jianghai city, but they could not extend their influence into Jianghai Academy. He did not dare to kill Qiu sanniang, or even push her too far, because the third seat, Zhang Shichang, would really kill him to vent his anger.

As for the Shen family?

Even if he were to kill his only son today, he would not dare to cause him any trouble unless he was prepared to declare war on the entire Jianghai Academy!

The rampaging sword Qi suddenly converged into a long river of sword Qi, roaring toward Shen Yifan.

With the wind God's inheritance, Shen Yifan's speed wasn't slow at all. Even a beast like Lin Yi couldn't beat him in speed, at most on par with him.

However, he was still unable to escape.

This was because there was more than one river of sword Qi. Within the territory, he could condense more rivers of sword Qi at any time with a thought.

Just like now.

In the blink of an eye, three more appeared. If three wasn't enough, then five more!

A total of nine rivers of sword Qi roared as they intertwined and chased each other. It was a spectacular scene.

Shen Yifan's figure was like a small boat under a huge wave, teetering and about to be swallowed by the waves at any time.

Qiu sanniang and the others were burning with anxiety. Such a terrifying attack, if Shen Yifan made the slightest mistake, he would immediately be turned into ashes, not even a trace of his body would be left!

However, even if they wanted to save him, they couldn't. Not to mention that they were all injured, even if they were at their peak, they wouldn't be able to last even a second under this giant meat grinder formed by the river of sword energy.

No matter how many of them entered, they would all die!

However, if no one came to his rescue, it would be difficult for Shen Yifan to escape death. No matter how fast and brilliant his body movement technique was, it was only a matter of time before he was devoured.

Once Shen Yifan died, Lin Yi group would probably collapse as well.

"There's a way to heaven, but you refuse to take it. There's no Door to Hell, but you insist on barging in. Then go in peace."

Li Jing's hands clawed at the air, and the eight rivers of sword Qi formed a pair of giant sharp claws. They crossed on the left and right and went for Shen Yifan, who was in the middle. This time, Shen Yifan had nowhere to hide.

He would definitely die!

In this desperate situation, a colorless flaming saber Qi arrived from a distance and forcefully cut a hole in the sword Qi giant claw.

Although the opening was very narrow, it was enough for Shen Yifan to escape from death.

"Where it's possible to forgive, one should forgive. Senior Li Jing, why must you be so overbearing?"

A soft sigh sounded at the gate. Bao shaoyou, with his eyes covered and holding a giant mo sword in one hand, slowly entered everyone's sight.

"A blind man is here to meddle in other people's business?" Li Jing raised his eyebrows slightly.

"It's not really meddling. I didn't study much, but I've heard of the saying 'if the lips die, the teeth will be cold'."

Bao shaoyou replied indifferently.

The matter could not be any more simple. If the other party was only after the talisman making society, they would have gone to the talisman making society's headquarters building and not come here to cause trouble.

"For a blind man to see so clearly, I'm afraid he won't die a good death."

Li Jing turned around and used his domain to suppress Bao shaoyou.

He had not come here today just for the talisman making society. His true intention was to use this opportunity to recruit all the new students.

He had already gathered all the second-years under his command. If he could gather all the new students under him now, especially since this was the legendary golden generation, his power would expand to an extremely considerable extent.

"In fact, he could even use this momentum to turn the tables on the martial arts Society and aim for the president's position!

By then, the Academy might even take the initiative to invite him to join the ten seats.

Some positions didn't even need to be fought for. As long as one's strength was enough, there would naturally be people who would rush up to deliver it to their hands.

However, unexpectedly, Bao shaoyou still walked over slowly with his mo sword. The pressure of the domain on him did not seem to have any substantial effect.

"Initial domain? It's quite interesting that there's someone like you among the new students. "

Li Jing instantly saw through the person's realm. He was at the peak of the early stage of the complete heaven-Sundering realm, and the initial achievement of the domain was the symbol of his realm.

It was common knowledge in the Academy that only a domain could contend against a domain. This was also a common understanding in the cultivation world.

Even if it was just the initial stage of the domain, it could greatly dispel the pressure of the domain from the opposite side.

Bao shaoyou smiled. "Even someone like Tong Feifan could master his domain in two months. I spent 20 days more than him. I'm not worthy of being mentioned."

"If you can't show your face, get lost."

Li Jing sneered.

"There are many people who can say that, but I'm afraid that doesn't include you." Bao shaoyou shook his head.

Li Jing was stunned for a moment, then his killing intent turned cold. "So you're saying that I'm just a nobody in your eyes? Blind man, you're really good at judging people. "

After he finished speaking, a solidified sword Qi domain suddenly appeared 20 meters around him and crushed toward Bao shaoyou.

Bao shaoyou's footsteps paused slightly. A materialized domain also appeared around him, but it was a colorless sea of fire, a fire-elemental domain!

The domains of both parties collided.

The area within 100 meters was instantly turned into a sea of sword Qi and flames.

Fortunately, Lin Yi group retreated quickly enough, or they would've all been wiped out by the aftermath.

"This is a battle between domain masters!"

Qiu sanniang and the others "eyes were burning with passion. They had all sorts of knowledge about domains after Lin Yi's insane battle record, but they didn't think that he was invincible.

However, today, they finally experienced for themselves how terrifying a domain master could be.

Those below the realm level were all ants-this was a cliché that didn't have much value to a beast like Lin Yi, but it was an undefeatable truth to people like them.

Chapter 9498

When the sword Qi domain and the fire domain clashed, from the perspective of the five elements, the fire domain should have the upper hand.

This was because the essence of the sword Qi domain was actually a metal-elemental domain, and fire countered metal!

However, from the current situation, Bao shaoyou's fire domain didn't have any advantage. Instead, it was at an obvious disadvantage.

It wasn't that there was a problem with the five elements, but that there was a huge gap in the domain attainments of the two sides.

Bao shaoyou's fire element domain was only a prototype domain that he had just cultivated. At most, he could be considered to have barely stepped into the threshold of domain.

On the other hand, although Li Jing was only one year ahead of him, his attainments in the field were much higher. The huge difference in the strength of the field between the two had completely wiped out the disadvantage of the five elements.

The most obvious reflection was that the range of Bao shaoyou's domain was instantly compressed to less than three meters.

The amount of spiritual energy that could be mobilized within this small range was too limited, and it was almost better than nothing.

"You talk big, but you can't even withstand a single blow when you're serious. I'm very disappointed."

Li Jing laughed disdainfully. With a change of thought, he condensed another river of sword Qi. However, this time, it was not eight, but doubled to sixteen!

This was the basic respect for a domain master.

Bao shaoyou was tightly wrapped by the 16 sword Qi rivers on the spot. Anyone with tryphobia would go crazy when they saw it.

Shen Yifan and the others felt their scalps go numb. Even if it was a F \* cking mosquito, it would probably be sucked dry, let alone the long river of sword Qi that was like a meat grinder!

The range of the fire domain was compressed again.

Bao shaoyou relied on the last few inches of his territory to block it. However, at this rate, it would only take a few more seconds.

Shen Yifan, who was covered in wounds, looked at Qiu sanniang and the others. Logically, they should have made a move. After all, no matter what their intentions were, Bao shaoyou had helped them out of the situation.

However, in their current state, they probably couldn't even do the least bit of interference. Going up would only be sending themselves to their deaths.

While he was hesitating, a familiar and long-lost earthquake wave spread from the distance and attacked Li Jing's feet in the blink of an eye.

Li Jing was caught off guard and was sent flying on the spot. A flaw appeared in the river of sword Qi, and Bao shaoyou, who was in imminent danger, escaped and finally saw the light of day again.

"Another domain master? This batch of new students is really something. "

Li Jing stood up and looked at Ying long, who was walking over slowly. His expression was less playful and more serious.

In their batch, the record for the earliest Domain Realm was five months. As for the average Domain Realm, it was already ten months later.

It had been less than three months since the new students entered the school, but domain masters were already appearing one after another.

In particular, the quality of the domains was quite impressive. Whether it was Bao shaoyou's fire domain or the earthquake domain that had just emerged, they were undoubtedly powerful domains!

If he was in this batch, he might not have the chance to stand out!

Ying long ignored him and turned to Shen Yifan and the others. ""Where's Lin Yi?"

"I'm going into seclusion. "

Shen Yifan's words were concise and comprehensive. He was secretly trying to figure out the other party's intention. Although he had attacked Li Jing as soon as he arrived, it was unrealistic to say that the other party was here to help them out of the situation.

With their grudges, it was more appropriate for them to come and cause trouble.

Ying long frowned."No matter what, it's the newcomer King's Place. To be smashed to such a state by a nobody, you guys aren't the only ones who are embarrassed. Even us of the same batch have lost our face."

"Nameless? I'm a nobody?"

Li Jing couldn't help but laugh."A bunch of noobs who don't know the immensity of heaven and earth. Each one of them is more arrogant than the other. Alright then, let me, a nobody, teach you how to behave!"

With that, the sword Qi domain came crushing over.

Both of them had just cultivated their domains. The strength of Ying Long's earthquake domain was obviously much stronger than Bao shaoyou's fire domain. Although he was still at a disadvantage when the domains collided, he was at least able to maintain a distance of five meters.

Although it was only two meters more than Bao shaoyou 's, the two meters of leeway meant that there were more possibilities.

At the very least, he had the ability to protect himself.

Li Jing's 16 long rivers of sword Qi were instantly shattered after they entered within five meters of him!

"Just this?"

Ying long glanced at Li Jing, his calm voice carrying a hint of disappointment. This little bit of pressure wasn't even as strong as Lin Yi's during the sword duel at Yushan.

On the other side, Bao shaoyou attacked again. The flaming saber Qi that was condensed with the power of his territory instantly pierced through the layers of sword Qi and headed straight for Li Jing!

He wasn't li Jing's match in a one-on-one fight. However, with Ying long holding him back, the situation was naturally different.

Even Li Jing would face the risk of losing his life if he made a slight mistake!

"Even if the two of you join forces, how many moves can you take from me? You don't know your place!"

Li Jing snorted coldly. He immediately unsheathed his longsword and slashed through the incoming flaming saber Qi. The range of the sword Qi domain that he released was suddenly compressed to within ten meters.

This wasn't a show of weakness. On the contrary, this was his true strength!

In order to measure the strength of a domain, apart from the characteristics of each element, there were two main indicators: the range and strength.

And the relationship between these two indicators was often one that grew and the other decreased. If the scope of a domain increased, the range would increase, but the corresponding strength would decrease. On the other hand, if the range was actively reduced, then it was like an extended fist clenching again, and the strength would naturally increase!

Of course, whether it was in terms of breadth or intensity, everyone had their own limits.

The limit of Li Jing's current strength was that the sword Qi was the strongest within the territory when it shrank to ten meters!

The effect was immediate.

Ying long, who was still able to fight head-on just now, couldn't withstand the earthquake domain around him. Although it wasn't as fragile as paper, it collapsed with a touch. In the blink of an eye, it was pressed down to less than three meters.

He was about to follow in Bao shaoyou's footsteps.

At the critical moment, Bao shaoyou's fire domain suddenly invaded, shocking everyone present. Was he trying to hit them when they were down?

However, the colorless flame didn't burn Ying long. Instead, it merged with the earthquake domain around him.

In the blink of an eye, the earthquake field under their feet had actually melted into boiling lava under the cover of the flames, gushing out in a suffocating manner!

"Domain fusion?"

Even Li Jing couldn't help but be shocked.

The prerequisite for domain fusion was to have an extremely high grasp and imagination of one's own domain. Even those senior students who had been immersed in it for a long time were rarely able to do it. It was a proper high-end technique!

Two rookies who had just mastered their domains had actually completed the fusion of their domains in front of him. It looked like it was their first time trying it.

It was simply unimaginable!

Chapter 9499

For the first time, Li Jing truly had the intention to kill.

Until now, he had only been thinking about subduing them. The stronger his subordinates were, the stronger his future power would be. This was a good thing.

However, it wasn't a good thing for him that Ying long and Bao shaoyou were so strong.

With the terrifying talents of these two people, it might not take long, or even a few months, for their strength to advance by leaps and bounds to a point where even he could only look up to them!

These two people must die!

However, after the fusion of their domains, there was an obvious qualitative change in its strength. It was actually able to stand up to the sword Qi domain, which was the strongest of its kind, and was not at a disadvantage at all!

Not only that, but the lava's power and damage were above the sword Qi. As time passed, his sword Qi domain was being eroded rapidly.

The situation was finally reversed!

Shen Yifan and the others finally heaved a sigh of relief. Although Ying long and Bao shaoyou weren't their own people, they were still in the same batch as them. Even if they were to destroy the venue in the end, it was still an internal matter of the freshmen. There would always be room for discussion.

But then, they saw the cruel smile on Li Jing's face again.

"Domain, release."

As soon as he finished speaking, the sword Qi in the area collapsed and was replaced by countless thin threads.

At first glance, it was extremely unremarkable, but every thin thread was filled with a terrifying energy that made one's heart palpitate. There was no other reason other than that they were far closer to the essence of the metal element than the condensed sword Qi!

The essence of the metal element was that it was sharp and invincible!

In an instant, the fusion domain that Ying long and his companion had just gained the upper hand was penetrated by countless thin threads. At the same time, their bodies were also riddled with holes.

The wounds were small, but there were so many of them!

The audience felt their scalps go numb.

In the face of such a terrifying penetrating power, any so-called defensive means were a joke, including the protective true energy. No matter how strong you were, you couldn't withstand such a metal element piercing power!

Among the five basic attributes, the metal attribute was ranked first in attack power, and its title was not just for show.

"Now you know how high the sky is? As long as I want to, I can kill all of you with a single thought. "

Li Jing's mockery was harsh, but no one could refute it, because this was the cruel reality.

The fact that everyone had been able to survive until now was not because they were strong, but because of the Academy's rules. Li Jing did not dare to go on a killing spree.

If it was any other place, there would have been nothing left of them.

However, just because Li Jing didn't dare to kill at will didn't mean that he didn't dare to kill!

Jianghai Academy did not prohibit killing. As long as it was not a heinous crime, even if the Disciplinary Committee were to intervene, there would be minimal punishment. At most, they would be thrown into the Academy's prison.

To a certain extent, the Academy was actually deliberately connecting with the real world. Only students who came out of such an environment could have a foothold in the man-eating world.

Li Jing's first targets were naturally Ying long and Bao shaoyou!

Not only were the two of them terrifyingly talented, but their physical bodies were also abnormal. Their bodies were already riddled with thousands of holes. If it were anyone else, they would have been dead long ago, but these two could still resist.

However, it was all in vain.

In terms of meat-grinding efficiency, the metal element thin thread was far more terrifying than the sword Qi River from before. No matter how strong their physical bodies were, they would only be able to struggle for a few more seconds.

"The most wonderful thing in the world is to destroy geniuses. Destroying two at once is indeed a pleasure!"

Li Jing laughed evilly as he announced his victory.

Even if both of them had ten seats behind them, especially with Xu Anshan, the first seat standing behind Ying long, they were not like Qiu sanniang. In the end, they were just chess pieces at the mercy of others. Moreover, they had lost the sword competition on Yushan and had become useless.

Even if he would incur the dissatisfaction of the first seat, Xu Anshan, and the second seat, Shen Qingnian, it would not be to the extent of getting himself killed. At most, he would have to pay a little price.

At this moment, a voice suddenly appeared in everyone's mind.

"Just two isn't enough, right? why don't you add me in and make it three?"

When they heard this voice that they had not heard for a long time, Shen Yifan and the others almost burst into tears.

"Who is it?"

Li Jing's expression changed. Not to mention anything else, just this superb deified soul technique was enough to make him fear.

"You came to my territory to cause trouble. Didn't you find out who I am?"

It was Lin Yi, who'd been in closed door cultivation for twenty days.

Li Jing's heart relaxed when he saw Lin Yi's face, and he sneered, "I was wondering who was the one playing tricks on us. Hehe, it seems like there's another freshman who has mastered his domain?"

"Thank you for your kind words."

Lin Yi chuckled and gave Shen Yifan and the others a look, telling them not to worry.

Li Jing nodded. "That's good. Since the main character has come out, then we might as well be Frank. As long as you hand over the talisman society and lead all the new students to join me, I can consider letting you live."

"What if I say no?"

"Then I'll die with them."

After Li Jing finished speaking, he actually attacked Ying long and Bao shaoyou again. He was clearly killing the chicken to warn the monkeys!

As a result, his body suddenly sank when he made a slight movement.

Domain suppression!

"Showing off in front of an expert? You're just a half-baked domain master and you dare to play with me?"

Li Jing laughed in anger.

He wasn't a rookie who had just formed his domain, but an expert who had already reached a higher level. A peak of the early stage of the heaven-cleaving complete realm actually took the initiative to use domain pressure on him, who was in the middle stage of the heaven-cleaving complete realm. Was this a joke?

He snorted coldly and was about to counter-attack.

However, the strange thing was that the pressure of the domain on him did not dissipate instantly. Even though he had already wrapped himself in a layer of the domain's iconic metal-type spiritual Qi to resist it, it only managed to reduce the pressure by a little, but it could not completely offset it!

"Hurry up, I'm still waiting," Lin Yi said, looking at him.

"Impossible! It's impossible!"

Li Jing couldn't believe it.

There were indeed differences in the strength of a domain. Even a genius of the same level would have a world of difference from an ordinary person. However, he believed that his aptitude was definitely not bad. Otherwise, he would not have been able to stand out among the vast number of second-year students.

How could he be crushed by a newbie?

However, the cruel reality was as such.

Li Jing wasn't a frog at the bottom of a well who'd never seen the world before-he quickly recovered from the shock and looked at Lin Yi with shock and anger.

"Perfect domain! You've actually cultivated a perfect domain!"

As the name suggested, a perfect domain was a super domain that was theoretically flawless. Compared to ordinary domains, because they perfectly replicated Nature's Domain, they naturally had strength that exceeded ordinary knowledge.

As an expert in the middle stage of the great circle of heaven crushing, Li Jing's domain had long since surpassed the initial stage. He had his own unique understanding and maturity, and had already entered the initial stage!

Not only did it become more adept at using the domain, but its strength was also higher than when it was at the initial stage. It was enough to beat 99% of the initial stage domain.

Unfortunately, this didn't include the perfect domain.

Chapter 9500 Power

Even if you've already entered the small success stage, you still can't reach my starting line. This is the power of a perfect domain!

Li Jing's words shocked everyone present.

As students of Jianghai University, whether it was Ying long and Bao shaoyou who had already formed their own domains, or those who had yet to, they all had a systematic understanding of domains. Naturally, they knew what a perfect domain represented.

"Where did you get a perfect-grade territory stone?"

Li Jing couldn't help but question.

A perfect-grade territory raw stone was too rare. He had spent a lot of effort to get a high-grade metal-type raw stone back then. How could a freshman with no background get a perfect-grade raw stone?

"If I said I picked it up from the cliff, would you think that's a bit too unreal?" Lin Yi blinked.

To a certain extent, this was the truth.

"F \* ck the truth!"

Li Jing cursed, his embarrassment turning into anger as he unleashed his gold element domain towards Lin Yi.

If they were at the same level, an ordinary domain like his wouldn't stand a chance against a perfect domain. However, with the higher level of free form, it was enough to make up for the difference in strength.

Not to mention, he was a metal element, while Lin Yi's territory was clearly wood!

Gold countered wood.

He had a natural advantage in the restraint of the basic five elements attributes, so even when facing a perfect domain, he was still full of confidence. The surprise just now was just an accident, it had nothing to do with the overall situation.

The metal element threads were all-pervasive, breaking into pieces and entering Lin Yi's domain instantly. With that, the pressure from Lin Yi's domain lost its effect.

Even if the domain's pressure could suppress Li Jing himself, how could it suppress these metal-element fine threads that were in a state of release?

Countless golden threads instantly pierced through Lin Yi's body. In the blink of an eye, Lin Yi's body was full of holes.

Shen Yifan and the others were all on tenterhooks. They didn't think that Lin Yi would lose or even die, but with Ying long and Bao shaoyou's experience, Lin Yi was probably going to suffer a huge loss.

But then, everyone saw Lin Yi turn into a cloud of wood element Qi and disappear in the territory.

"A wood-type clone?"

Li Jing's eyelids twitched. Strictly speaking, every element had a clone technique, but among all the element clones, the wood element was undoubtedly the king of clones.

There was no other reason. The wood element had a natural advantage that no other attribute could compare to.

Vitality.

At first glance, it didn't seem to cause any damage. It also had almost no direct impact on combat. At most, it would increase one's self-healing ability slightly. To experts, it was better than nothing.

However, when it came to the avatars, this trace of vitality was particularly crucial. Because to a certain extent, it gave all the avatars a fresh life.

For a true expert, all the other attributes, even the most realistic doppelgangers, could not be passed off as the real one. The existence of a doppelganger was more of an additional control and output point.

However, the wood-elemental clone was different.

Its innate vitality allowed it to replicate the main body in all aspects. At its peak, it could even create a legendary perfect clone that was no different from the main body.

And this was only one of the advantages.

Under everyone's shocked gazes, Lin Yi's appeared one after another from all directions. In the blink of an eye, there were dozens.

If it wasn't for the fact that it was limited by the domain's range, he could have even created more!

"Can boss take so many clones at once? he won't die from exhaustion, right?"

The Zhao imperial court, who had crawled back out of nowhere, couldn't help but click their tongues.

Avatars were very useful. Almost all cultivators had more or less tried to do this, but most of them gave up in the end. There was no other reason. Every avatar required a large amount of genuine Qi, and at the same time, it was a huge burden on the divine sense.

Ordinary cultivators would not be able to take it at all, and the loss outweighed the gain.

Shen Yifan shook his head slightly. "That's just an ordinary clone. A domain clone is different. All the essential Qi consumption comes from the domain, and the burden left to the main body is mainly at the level of the deified soul. However, with the uniqueness of the wood element clone, the deified soul consumption is much lower than that of other elements. With the strength of old Lin's primordial spirit, he can afford it no matter how much it costs."

"According to what you've said, this is simply a divine skill tailored for him!"

Qiu sanniang, who was listening beside him, was amazed.

They'd all seen how difficult it was to deal with Lin Yi's clones at the Yushan sword duel-they were just cannon fodder at that time, but now that his clones were much stronger in the realm, and there were so many of them, it made their scalps numb!

If even the spectators were feeling this way, then Li Jing, who was the first to bear the brunt of the attack, was naturally under even greater pressure.

All the golden threads that were originally on the offensive were forced back to defend. With the power of his domain in his released state and the restraint of his attributes, it was theoretically not difficult to deal with these wood-type clones.

But it was endless!

He'd just taken out ten, but there were already twenty new clones waiting for him. As long as he couldn't take out the original Lin Yi, he'd never be able to break out of this situation.

It wouldn't have been a big deal if that was all-the end result would be a competition of who could last longer. With his level advantage, he might not be as strong as Lin Yi's perfect domain, but at least he had the advantage in terms of endurance.

The key was that there was a flaw.

There were times when one would make a mistake if one blindly defended. Moreover, the strength of the metal element domain was in its invincible attack, not passive defense.

But the problem was that he couldn't find Lin Yi's real body!

There was no hope of breaking out of this kind of avatar-human sea tactic without finding the main body!

In fact, with his observation skills, if it was just a normal wood element clone, he would have a chance to see through the real one. After all, Lin Yi's clone was completed, but it was still far from the legendary perfect clone. There were still flaws.

However, Lin Yi had the plant element.

The plant attribute and the wood-type clone were a perfect match. This was the complete opposite of the normal clone tactics.

A normal clone would pass off as the real one, but Lin Yi's was using the plant element to hide himself among the countless clones.

Li Jing couldn't help but complain. He was here on the orders of his boss, but at the same time, he saw the opportunity when Lin Yi was in closed-door cultivation. He wanted to use his overwhelming strength to take over Lin Yi's group.

As long as he could cut the Gordian knot, even if Lin Yi came out of his practicing later, it would be too late-all that was left was wrangling.

At that time, he would be all alone. What could he do?

He might even have to hand over his position as the tenth seat of the Council. Don't forget, the tenth seat's authority was to speak on behalf of the freshmen. If he did not even have a single freshman under him, what was the point of speaking?

But who would've thought that other than the start of the fight, a bunch of troublesome characters would pop up one after another, forcing him to use his domain liberation, and now he was being beaten up by a new student like Lin Yi!
