

Bodyguard 9501

Chapter 9501

Since he couldn't find the main body, the only way left was to rely on area of effect attacks to wipe out the main body and all of Lin Yi's clones!

Making up his mind, Li Jing immediately went all out and pushed his domain to the extreme at the risk of severe backlash.

The golden threads, which were already in a state of release, began to intertwine and merge together, finally condensing into a dazzling golden sword Qi!

Other than the strong visual impact, it seemed to be no different from his sword Qi domain at the beginning, but it revealed an inexplicable terrifying killing intent that made people shiver.

Sure enough, the killing efficiency of the golden sword Qi was much higher than that of the golden threads.

Wherever it went, Lin Yi's clones were cut down like weeds, and all of them fell in less than three breaths!

Shen Yifan and everyone else's hearts were in their throats.

It wasn't just his clone that was gone-even Lin Yi himself was gone. According to the situation just now, it was most likely that he'd been killed along with his clone.

In front of the rampaging golden sword Qi, even he himself would be as fragile as a piece of paper and would not be able to resist at all.

"Phew ..."

Li Jing finally let out a long breath and forcefully suppressed the true Qi that was churning in his body. Even so, he still spat out a mouthful of blood.

This move was too forceful for him at his current level-he'd need at least a month to recover from his internal injuries. He wouldn't have to pay such a price if Lin Yi didn't give him so much pressure.

But fortunately, it was finally resolved without any danger.

"That's the end of an idiot who doesn't know his own limitations!"

Li Jing sneered at the crowd, "'I'll give you one last chance. Submit or die?"

As he spoke, his dangerous eyes darted back and forth between Ying long and Bao shaoyou.

He didn't plan to start a massacre, but these two potential threats couldn't be left alive. He'd already killed Lin Yi, so there was no need to add these two so-called geniuses!

Either he didn't do it, or he would do it to the end!

Ying long and Bao shaoyou felt a chill down their spines. No one wanted to experience that nightmarish experience again. Even they couldn't help but feel their legs go soft when they thought about it.

At that moment, Lin Yi's voice suddenly sounded from behind him, "Who will submit? Who's going to die?"

Li Jing turned his head in shock, only to be met with a Sonic Boom punch that landed right on his face!

At the level of the great circle of heaven crushing, the sonic boom fist was not considered a world-shaking killing move. At best, it was at the forefront of many physical techniques and had a unique attainment in the technique of exerting force.

But even so, taking a punch at such a close distance would still be fatal!

Li Jing was a dignified expert in the middle stage of the great circle of heaven crushing, but he was actually sent flying twenty meters away by a single punch. Not only was the flesh on his face a mess, but even his entire nose bridge had collapsed. It was truly a tragic sight.

“.....”

The sudden reversal left everyone speechless. They believed that Lin Yi wouldn't be killed so easily, but they didn't expect him to KO his opponent with one punch.

The Zhao imperial court looked at Yue Jian, who was beside them, in a daze. ""Your fists are actually so fierce."

"It's not the fist that's fierce, it's that person. "

Yue Jian looked up at the sky speechlessly. As an expert in Sonic Boom fist, he knew better than anyone else how terrifying Lin Yi's punch was. If he could throw out a punch like that, he'd definitely wake up laughing.

However, Li Jing didn't lose consciousness. He struggled to get up with his face covered in blood.

"You ... How did you manage to hide from my divine sense?"

Even though it was a bloody mess, one could still see the disbelief in his eyes. As an experienced master, he didn't let his guard down at all. Even if Lin Yi's clones were all destroyed, he didn't let his guard down.

The ridicule he had just used on everyone was not so much a smugness after a victory as a deliberate test.

In the end, the test was a success, but he couldn't defend against Lin Yi's explosive punch.

"My primordial spirit is not bad."

Lin Yi smiled. His opponent was at the mid-stage of heaven crushing, but his spirit wasn't as strong as Lin Yi's. With the plant element and the perfect wood element domain, Lin Yi was able to Dodge that simple punch.

Li Jing's heart sank as he looked at Lin Yi, who was laughing and joking around.

He was already suffering from the backlash, and with a punch that broke his defense, he was in a terrible state. If he continued to attack, not only would his body not be able to take it, but he also did not know how to break out of the situation!

With his current abilities, he couldn't break through Lin Yi's clone territory.

Under everyone's watchful eyes, Li Jing suddenly made a move that made everyone's eyes pop out.

He knelt down in front of Lin Yi in public!

"I was blind. I was blinded by greed. Please be magnanimous and forgive me this time!"

Li Jing kneeled on the ground and kowtowed, each kowtow louder than the last. His head was already covered in blood, and he looked even more miserable. No one could bear to look at him.

Even Shen Yifan and the others, who had just suffered a great loss, could not help but look at each other when they saw this scene. The situation had changed so quickly that they could not react in time.

"Spare you?"

Lin Yi couldn't help but frown as he turned to look at the heavily injured Shen Yifan and the others. "My brother was hurt by you to such an extent, and you want me to spare you with just one word? do you think I'm doing charity?"

"I'll pay! I'll pay for all of their medicine, and I'll double the compensation for all the losses they've caused!"

"I'll be your slave from now on. All the forces under me, including the position of the Vice President of the martial arts Society, will be handed over to you. From now on, you are my master!" Li Jing promised.

Everyone was stunned.

What did it mean to be flexible? This was called being flexible!

The king of the second years and the Vice President of the martial arts Society was willing to kneel and beg for mercy in front of the first years in order to survive. It was truly eye-opening.

That was not all. To show his sincerity, Li Jing even took the initiative to hand over his long sword. He had the attitude of a Bachelor who was willing to give up everything for the sake of his life.

"Be careful!"

Shen Yifan suddenly reacted when the sword was about to reach Lin Yi's hand.

However, it was too late.

The moment the sword was about to touch Lin Yi, the sword light suddenly brightened!

This wasn't a substantial sword ray or sword Qi. To put it simply, it didn't have any terrifying destructive power. However, the sword ray suddenly bloomed like daytime, piercing everyone's eyes. All they could see was a white ray.

Even the spectators were shocked, let alone Lin Yi.

Not only that, but even his primordial spirit was stunned for a moment.

Although it was only for a very short moment, when experts of this level exchanged blows, this one-in-ten-thousand moment was enough to determine the winner, or even life and death!

Chapter 9502

"Go to hell!"

Li Jing grinned hideously as he poured all the true Qi in his sword Qi domain and his body into the last strike. He had already gambled everything on this strike. If he did not succeed, he would die. There was no room for luck.

To press forward with indomitable will, only to determine life and death.

Pfft!

Lin Yi's thick protective Qi was like a thin piece of paper in front of this sword, and it was pierced through without any resistance.

But it was not over yet.

With the sword as the medium, all the sword Qi within Li Jing's territory was instantly poured into Lin Yi's body. Under the infinite light, Lin Yi's entire body expanded in a way that was visible to the naked eye, like a human-shaped balloon being inflated.

The balloon grew bigger and bigger until it could no longer bear the pressure and burst!

The sword light fell, and Shen Yifan and the others could finally see the light of day again. However, what they saw was the terrifying and bloody scene at the last moment.

The air in the entire auditorium was filled with a thick, almost solid smell of blood. If one's endurance was slightly weaker, they would not even be able to breathe here.

Everyone's face turned pale, and no one spoke.

No one was even willing to recall that fleeting scene. That scene was too cruel. Even if they didn't want to believe it from the bottom of their hearts, seeing was believing.

"Now, we can happily continue our previous topic. Who wants to die? who wants to live?"

Li Jing looked at the crowd with a smile, as if he had completely forgotten the embarrassment of kneeling and begging for mercy. To him, that was just a trick to confuse the enemy.

As for moral integrity, could it be eaten?

At this moment, an unexpected voice suddenly sounded above his head. "Do you want to do this multiple choice question first?"

"Impossible!"

Li Jing raised his head in disbelief to find Lin Yi sitting on the beam, perfectly fine. "That was a clone? You're actually using a clone to make me kneel?"

After he came back to his senses, Li Jing was about to go crazy.

To think that he had thrown away his dignity and face, painstakingly putting in so much effort to create such a scene, but from the beginning to the end, he was only facing an insignificant clone!

Then what was he? The clown?

"Hey, hey, you can't say things like that. You were the one who knelt down on your own accord. I didn't force you to do it. If you have something to say, say it. Don't try to scam me."

Lin Yi said, his face full of disdain.

“.....”

Li Jing really wanted to die. This was not just a heavy blow to his heart. Most importantly, he had bet everything on that sword attack just now. Even if he had not completely exhausted his strength, he had less than 10% of his strength left. He was already an arrow at the end of its flight.

His current state was barely enough to deal with Shen Yifan and the others, but he didn't even know how strong Lin Yi was.

However, he had already knelt down. If he knelt down again, he would be treating her like a fool.

"You think you've won for sure?"

Li Jing laughed coldly all of a sudden. He took the chance when Lin Yi was responding to him and sent out a sharp blade aura, cutting the ceiling of the small hall in half!

At the same time, he turned into a sword shadow and dashed toward the gate.

As long as the green hills are there, there is hope.

Escape!

Because of the sword Qi, Lin Yi was caught off guard at the top. This was his last chance to escape. As long as he could get out of the hall, as long as he could get to a place where people gathered, Lin Yi wouldn't dare to kill anyone in public!

Even though killing was not prohibited in Jianghai Academy, some rules still had to be maintained on the surface. After all, the Disciplinary Committee was not a freeloader.

"I'll pay you back a hundred times for today's humiliation!"

As Li Jing escaped, he couldn't help but turn around and shout. However, when he turned around, his heart that had just come back to life immediately sank to the bottom again.

He realized that Lin Yi had been standing guard outside the door with his arms crossed, and the Lin Yi He'd forced out was a clone!

"There's no need to return it, maybe in the next life. "

Lin Yi chuckled, and an insignificant Yuan spirit seed silently invaded the other's sea of consciousness and exploded. The spirit exploded!

Li Jing's entire body froze.

Before he could struggle out of his confusion, the demonic devouring sword had already pierced through his heart. With a slight stir, his heart was shattered, and his primordial spirit was also blasted into nothingness by the explosion of his divine sense.

He couldn't be more dead!

As they looked at Li Jing's body that was slowly falling to the ground, the people who had just survived the disaster felt that this was not real.

It had only been a few minutes from the beginning to the present, but from life to death and from death to life, life and death had been like a roller coaster that had gone back and forth several times. In the end, he was almost numb to it.

He didn't expect it to end in such a way, but fortunately, it was a happy ending.

"These clones of yours, real and fake, are quite scary."

Qiu sanniang said with a complicated expression, and everyone else nodded.

Lin Yi's previous clones were tough to deal with as well, but they were nothing compared to the one he had today, be it in terms of strength or confusion.

The quality of the clones had changed drastically, and with the support of the perfect wood element territory, Lin Yi's clones were starting to become unstoppable.

It felt like he was an entire Army.

In the future, when others fought with him again, they would have to be on guard at all times. For someone like Li Jing, who had planned everything but ended up being played around by his clone, he would really die with grievances.

Shen Yifan struggled to get up and looked Lin Yi up and down for a moment. "This isn't a clone, is it?"

"It really is."

As soon as he finished speaking, Lin Yi really did disappear. Lin Yi, who had been sitting on the beam, walked out slowly with his hands in his pockets. Li Jing's judgment was right-this was his real body.

Everyone was speechless.

It was already hard to distinguish between the real and the fake, and this guy was still playing with psychology. Fortunately, he was in the same group as him, otherwise, anyone would be driven crazy by him.

Ying long and young master Bao, who were covered in injuries, walked over and looked at this scene with complicated expressions.

They were here to save the day, but they also wanted to challenge Lin Yi. However, in the face of an external threat like Li Jing, they chose to fight together.

It was a tradition of Jianghai Academy for the freshmen to make their own decisions. It was also a tacit understanding between the freshmen.

Now that Li Jing was gone, they lost all confidence in challenging Lin Yi.

They couldn't beat Lin Yi before they stepped into the domain stage, but now that they were in the domain stage, each domain was stronger than the last, especially Ying Long's earthquake domain. It was one of the most powerful domains in the world.

However, Lin Yi's perfect wood element territory, or more accurately, the perfect clone territory, was something the two of them had no confidence in.

Li Jing had been torturing them like dogs, but in Lin Yi's hands, he'd died with a grievance.

If it were the two of them, needless to say, they would have died a worse death.

Chapter 9503

"You're here to join us, right?" Lin Yi smiled.

"Ha?"

Ying long and Bao shaoyou were instantly stunned. Their expressions instantly changed.

I risked my life to help you, and you don't even thank me, and you want us to join you?

To put it nicely, it meant joining the gang, but to put it bluntly, it meant that he was rushing to be your underling. How could there be such a good thing in the world?

It wasn't just the two of them-everyone else thought Lin Yi was joking, except for Lin Yi himself, who looked serious.

"You've all seen the situation today. Although there are many of us new students, in the eyes of outsiders, we're still just a piece of fat meat. Sooner or later, we won't be able to escape the fate of being swallowed. The only difference is who will swallow us."

"There's only one outcome for us if we fight separately. We'll be swallowed up until not even dregs are left. If we want to gain a foothold, the only way is to group up!"

At this moment, Wei baizhan's gloomy voice suddenly came, ""I'll be devoured by you if I look for you to group up with. What's the Difference?"

Everyone's expression changed.

Although Ying long and Bao shaoyou used to be enemies, they still acknowledged each other.

However, Wei baizhan's character and moral integrity were exactly the same as Li Jing 'S. He might have been well-behaved before, but who knew when he would bite him? they had to be on guard!

"The only difference is that I'll give you enough authority and give you the benefits of being my ally. You only have one duty, and that is to be in line with me when it comes to anything that involves all the new students." Lin Yi smiled.

Ying long and Bao shaoyou couldn't help but feel a little moved when they heard this.

Neither of them was alone. They still had a group of brothers under them, so they had to seek benefits for their subordinates.

Lin Yi, on the other hand, was the tenth-place newcomer King, and he also had the money-making society. He had the right to speak in this area, and his words would bring them benefits.

"I'm in!"

Unexpectedly, Wei baizhan was the first to express his stance.

This result was really shocking. However, considering this person's despicable past record, Shen Yifan and the others' first reaction was not surprise, but vigilance!

If he accepted this kind of thing, he had to be careful of being devoured by him at any time.

Everyone was about to stop him when Lin Yi said yes, "Alright," he said.

Not to mention the others, even Wei baizhan himself was a little stunned. He grinned and said, "Boss Lin is indeed extraordinary, amazing."

"Same to you."

Lin Yi, on the other hand, thought highly of this guy—he was strong enough to be in the top five, maybe even the top three, and since he'd decided to lead the group, he couldn't shut him out just because he was afraid of the backlash.

Moreover, he had already been defeated by Wei baizhan previously. Now that he had even mastered a perfect domain, how could he not be able to suppress Wei baizhan?

This also dispelled the doubts of the two.

Since Lin Yi could accept Wei baizhan, who had once backstabbed him, he could naturally accept the two of them as well. After all, no matter how one looked at it, their value as allies was far above Wei baizhan's.

"Since that's the case, I won't be pretentious anymore." Ying long immediately expressed his stand.

"Count me in,"

Bao shaoyou chuckled.

Everyone was overjoyed-Lin Yi was the tenth most powerful newcomer, and he could represent the freshmen, but the only ones who could control the situation were them.

The other freshmen might lower their heads on the surface, but it was simply a fool's dream to ask them to do something.

With the addition of Ying long, Bao shaoyou, and Wei baizhan, Lin Yi's group could finally be considered as a complete integration of the freshmen. From now on, all the freshmen would officially become one, and Lin Yi would finally become the true newcomer King!

"It's rare for everyone to come to a consensus," Lin Yi smiled, "shouldn't we have some fun to celebrate the establishment of our new alliance?"

"What fun? Hold a freshmen party?"

Everyone looked at each other. With Lin Yi group's background as the owner of the talisman society, it was more than enough to fund a big banquet.

"What's the point of a banquet? we have to find something more exciting. Otherwise, how can we live up to everyone's status?"

Lin Yi chuckled and shook his head, but his next words shocked everyone. "Let's go pick a martial arts Society. "

"....."

Everyone was collectively stunned.

The martial arts Society was one of the five major societies. It could even be said to be the leader of the five major societies.

The talisman making society might be one of the five major societies, but that was only because it was able to earn enough money. In terms of the size and combat power of the society, it was not on the same level as the true behemoth, the martial arts Society.

The martial arts Society was a society that was truly established with martial arts. From top to bottom, they were all professional fighters, and they were a gathering of experts.

Li Jing was only a newly-joined Vice President in name, yet he had almost wiped out the entire team. If they were to face the martial arts Society head on, even if they gathered all of the freshmen Alliance's combat power, it would still be like throwing an egg at a rock!

At that moment, everyone looked at Lin Yi with a strange look in their eyes. Did this guy get all worked up after killing Li Jing?

How could he have such a crazy idea?

"You guys think we can't beat the martial arts Society?" Lin Yi asked.

"Everyone is still injured."

Ying long tactfully spoke. With his pride and temperament, he wouldn't say any nonsense to boost other people's prestige. However, he still had to lower his head to reality.

In another year, the strength of the new student Alliance would reach a whole new level, and with a beast like Lin Yi leading them, they might be able to fight the martial arts Society.

But now, the majority of the freshmen hadn't even formed their domains yet. It was still too early.

"I can heal you guys," Lin Yi smiled.

As he spoke, he activated his domain. Everyone with varying degrees of injuries immediately felt an inexplicable vitality emerging from their bodies. Their self-healing power soared at a visible rate, and some of the slightly shallow wounds began to heal and form scabs in an instant.

"You still have this ability?"

Qiu sanniang was shocked. She had heard of the wood element domain's effects, but it was completely unheard of to have such an exaggerated effect.

"It should be an additional bonus from the perfect domain."

Bao shaoyou's tone was filled with envy. Because he was blind, his perception of the outside world was much more sensitive than everyone else. He could feel the subtle details better than everyone else, and he could also feel the power of Lin Yi's perfect domain.

Although everyone was seriously injured, the few who were injured were the top existences among the freshmen. Their self-healing ability was strong to begin with. In addition, most of them were only physical injuries and did not involve the level of their primordial spirit. Now that they had the support of the perfect wood elemental domain, they were like fish in water.

In just an hour, he could basically move freely, even saving pills.

Although he couldn't recover to his peak state immediately, his strength had recovered 70 - 80%. In particular, experts like Ying long and Bao shaoyou who had cultivated domains could quickly extract spirit Qi from their domains to replenish their bodies. They could instantly return to their peak state at any time.

However, she didn't know how to persuade Lin Yi anymore.

He couldn't directly say that a person's value was in their heart, right?

Chapter 9504

"You really want to join the martial arts club?"

The Imperial court of Zhao asked the question that was on everyone's mind.

Lin Yi nodded. "Since Li Jing is the Vice President of the martial arts Society, his actions today must have received the support of the martial arts Society. At the very least, the higher-ups of the martial arts Society acquiesced to it. Did we set up the new student Alliance just to get beaten up and not fight back?"

Everyone was silent.

"Li Jing came today, Zhang Jing and Wang Jing next time. If I can't hurt their claws this time, I'll never have a peaceful life in the future," Lin Yi continued.

"One punch to avoid a hundred punches."

At the level of the early stage or even the peak of the early stage of the great completion of heaven crushing, it was not that they did not understand this principle. In the pugilistic world, there were many times that one could only seek peace through struggle. There was no other way.

"I'm not against starting a war with the martial arts Society. The problem is, how can we win?"Ying long smiled bitterly.

Everyone turned to Lin Yi.

If he couldn't win, everything he said would be in vain. At that time, forget about revenge, there was a high probability that he would take the initiative to be swallowed up by others. That would be funny.

"Compared to us new students, isn't the martial arts Society a much bigger piece of meat?"

Lin Yi said, a hint of interest in his tone.

Since there were people who had their eyes on the new students, there were naturally people who had their eyes on the martial arts Society.

Shen Yifan suddenly understood, 'old Lin, do you mean to find someone to join forces with? But who are you looking for?"

It wasn't as if there weren't any forces stronger than the martial arts Society within the Academy, but there were also a few of them. This was especially so since it was an internal matter of the students. If they wanted to find someone, they could only find the various forces under the jurisdiction of the Academy. They couldn't involve the school's management or the repeat students.

Otherwise, he would be colluding with outsiders. When the time came, it would be like today's situation. It would definitely cause the anger of all parties in the Academy, and he might even become the target of public criticism.

The freshmen's matters were up to them to decide. Naturally, the students' matters could only be decided by the students.

"Someone will definitely be interested. There's also a Big Shot who might be interested as well."

Lin Yi looked at Qiu sanniang as he spoke, making her confused.

There was no such thing as an impervious wall in this world. The moment the new student Alliance was established, the martial arts society's headquarters had already received news of Li Jing's death. At the same time, they had also heard of the related rumors.

"A bunch of new students like him wants to target our martial arts Society? Is he crazy to the point of no limits?"

In the president's office, all the senior members of the martial arts Society had gathered. The Executive Vice President, Zheng Xi, was so angry that he laughed. "Isn't it enough to kill one of our vice presidents? a bunch of weaklings want to turn the world upside down?"

He had always found Li Jing an eyesore. Previously, he had strongly opposed Li Jing's promotion to Vice President. However, now that Li Jing had been killed, the entire martial arts society's reputation was damaged.

Even if Li Jing's failure to bully them and being killed was the retribution of the heavens, there was no room for criticism.

He couldn't possibly say that the freshmen could only let him kill chickens and couldn't fight back, right?

However, logic was one thing, and one's butt was another. From the martial arts society's standpoint, they naturally could not be provoked.

In contrast, the real boss of the martial arts Society, Shen Junyan, was as indifferent as ever, without a hint of emotion.

Zheng Xi was the Executive Vice President and the publicly acknowledged second-in-command of the martial arts Society. However, he only had the right to make suggestions on this kind of matter, but he did not have the right to make a decision.

Just like how Shen Junyan had approved Li Jing's request to join the Society, it was useless for him to object.

After a moment of silence, Shen Junyan finally said, ""What did du wuhui say?"

In name, all the societies, including their martial arts Society, were under the jurisdiction of the ninth seat, du wuhui. Du wuhui did indeed have a huge influence among the societies, but his martial arts Society was not one of them.

To be more accurate, be it the martial arts Society or the other five major societies, they were in a cooperative relationship with the ninth-ranked student in the Academy. It was not the superior-subordinate relationship that the public knew.

The martial arts Society would take du wuhui's attitude into consideration when doing things, but it was only a reference.

"He's very angry. He's very strict with our wording. He said that we sent Li Jing to attack the freshmen and broke the balance of the general trend. He said that we were courting death."

An old-looking bald man said.

This person's name was Wu Xun. He was the chief think tank of the martial arts Society and was highly trusted by Shen Junyan. His internal position was even higher than the Vice Presidents, second only to the Executive Vice President Zheng Xi. He was the third most important person in the society.

Zheng Xi snorted coldly. "I've already said that Li Jing is a scourge. He's ambitious but short-sighted. He won't be able to achieve anything."

"Inform du wuhui that we're preparing to strike first."

Shen Junyan's sudden decision made the faces of all the senior executives of the martial arts Society change.

Even Wu Xun couldn't help but frown, isn't this too disrespectful? Without du wuhui's support in the Academy, we would probably become the target of public criticism. "

"President, please reconsider!"

The higher-ups tried to dissuade him.

Although the martial arts Society was strong, if it became the target of public criticism, it would be difficult for it to escape the fate of destruction. After all, a tall tree attracts the wind. As the leader of the five major societies, it was impressive but it also had many enemies.

However, Shen Junyan shook his head. "Du wuhui is a man of many schemes. As long as we don't direct the spearhead at him, he won't have the courage to cut off ties with us. Even if he's dissatisfied, he'll just bear with it."

Wu Xun nodded. "The president is right. Du wuhui's style of doing things has always been good. He's good at pulling strings with people and has good relationships with all parties. He can be said to be smooth in dealing with all kinds of people. He's almost never really fallen out with people."

No matter how slick a person was, he would still get into a conflict with others. If he didn't fall out with others once or twice, it could be said that he had a good bearing.

However, after a long time, there was not even a single time. This could only mean that there was a fatal flaw in this person's personality. It was not that he did not want to fall out with them, but he simply did not have the courage to fall out with them.

"But even so, it won't do us any good to anger him."

Zheng Xi frowned, "those new students don't look strong, but since they were able to kill Li Jing, it means they aren't completely useless. Especially when I heard that the new student King Lin Yi's background is complicated. He even got the Tian family's favor. His background is quite deep."

"If they're really useless, why would I go through so much trouble to target them? Besides, there's also a talisman society inside. We're short on funds right now, so we need a money bag. "

Shen Junyan said in a deep voice.

Seeing him so insistent, the rest of the upper echelons couldn't help but change their tone.

No one would go against their boss for a group of freshmen. Moreover, if the plan was successful, all the higher-ups present would be able to eat meat and drink soup, so why not?

Even Zheng Xi no longer objected, but hesitantly said, ""But we have to have a good reason to start, right?"

"The newcomer King killed our Vice President. Isn't that the reputation of the crowd?"

Shen Junyan laughed coldly.

In the ten-seat conference room of the Academy's headquarters.

This was the first time Lin Yi had officially attended the Council since he'd taken the 10th seat, and it was his first time discussing himself.

At this time, all the ten seats had arrived. From Xu Anshan, the first seat, everyone had different expressions.

Chapter 9505

"All members of the martial arts Society are making an appeal, accusing Lin Yi of killing the Vice President of the martial arts Society, Li Jing, in public. You need to explain this to the Council of Ten in person."

The ninth seat, du wuhui, expressionlessly read out the martial arts society's complaint to the public.

Although he was extremely dissatisfied with the members of the martial arts society's behavior in private, he had no choice but to speak up for the martial arts Society as he stood here today. This was because it not only concerned the martial arts society's interests, but also his reputation.

"Explain?"

"So many people saw that it was self-defense, what's there to explain?" Lin Yi said as he looked at the ten.

Du wuhui snorted coldly, "the words of one family are not enough to be trusted."

"Then what do I have to prove it?" Lin Yi smiled.

"Let the Disciplinary Committee investigate this matter. The Disciplinary Committee will decide who is responsible for this. No one can shirk their responsibility."

Du wuhui said in a low voice.

He was being forced into a corner this time, but the grudges between him and Lin Yi were real. Since he couldn't swing back and forth anymore, he might as well settle the Old and New grudges together.

The Disciplinary Committee was under the rule of Ji Chi, the fifth seat. If he was the one to determine the responsibility, the result could be imagined.

Lin Yi chuckled, "the Disciplinary Committee can investigate the ten Chiefs themselves?" If he finds out that I'm the main culprit, will he remove me from the ten seats? are the ten seats of the Academy so worthless?"

Without waiting for du wuhui's rebuttal, the second seat, Shen Qingnian, spoke first, ""According to the established rules, any case related to the ten seats can only be voted by the ten-seat Council. The Disciplinary Committee has no right to question it."

Du wuhui was stunned.

He'd thought that the natives would be on Lin Yi's side, but he didn't think that their leader, Shen Qingnian, would leave so soon. It was as if they'd formed an iron alliance with Lin Yi-when did they get so close?

At this time, his words alone were not enough. He could only let the other ten seats continue to leave the stage.

As expected, the fifth XI Ji Chi said, ""The Disciplinary Committee does not have the right to remove a tenth seat, but there is always justice. It is our duty to intervene in the investigation."

"As one of the ten seats, you should set a good example for the vast number of students and should be able to withstand the supervision and investigation."

Chen chuangu, the eighth seat, followed. Like Ji Chi, he was also a hardcore member of the first seat.

The two of them spoke one after the other, meaning that the first seat was now officially targeting Lin Yi. With the first seat advantage, the situation would be extremely disadvantageous to Lin Yi if they pushed for the vote.

After all, in terms of the number of seats, the first seat naturally occupied half of the seats. Now, with the addition of the originally neutral and wavering du wuhui, once the vote was settled, they would be able to get a six-vote advantage.

It wasn't easy to remove one of the ten Chiefs, but it was enough to put Lin Yi under a lot of pressure.

"Investigate my ass! That B * stard injured my sanniang, he's lucky Lin Yi killed him. Otherwise, I'd make him regret coming to this world!"

The third seat, Zhang Shichang, cursed loudly in public.

Everyone was embarrassed.

However, he had the right to be arrogant. He had the warrior's Department in his hands. Even the first seat, Xu Anshan, did not dare to tear him apart in public. Otherwise, if he angered the animals in the warrior's Department, the entire Jianghai Academy would be in trouble.

With that, even though Lin Yi's side had fewer people, he had the second and third positions, and the two powerful people from the finance and military department were on his side. The others would have to think twice if they wanted to say anything.

Unless the first seat, Xu Anshan, pushed for a vote to convict Lin Yi, it would be a war of words at most, and it wouldn't affect Lin Yi at all.

Everyone couldn't help but look at the chief seat.

Xu Anshan didn't express his opinion. On the contrary, his trusted aide, sixth seat Qin Shi, suddenly stood up.

"I just received news that the new student Alliance launched a surprise attack on the martial arts society's headquarters."

Everyone was in an uproar.

For a moment, everyone even thought that they were hallucinating.

Even if Lin Yi had merged the freshmen into one, they would only have a single digit of domain masters at most. The core and most important combat power was still standing in front of Lin Yi. What was left of them was a bunch of shrimp soldiers and crab generals? how could they have the ability to attack the headquarters?

Everyone, especially du wuhui, felt that this was unbelievable.

In Shen Junyan's Secret letter, he had planned to lead the elites of the martial arts Society to attack first. While he was holding Lin Yi back, he would use the Blitzkrieg to swallow up the newborn Alliance. Why was it the other way around?

"There was a group of martial arts Department experts among the people who attacked the martial arts Society."

Qin Shi looked at Zhang Shichang. He was in charge of intelligence and controlled the most powerful intelligence organization in the Academy. Naturally, such a small matter could not be hidden from his eyes.

Everyone came to a sudden realization.

This made sense. The new student Alliance definitely did not have the ability to do so by itself. However, if they had the help of the warrior's department's experts, it would be logical for them to launch a surprise attack on the martial arts society's headquarters.

After all, in terms of actual combat power, the warrior's Department compared to the martial arts Society was like a regular army compared to an unorthodox Army. Even if they appeared to be at the same level, they could not be compared at all.

"What are you looking at me for? Those little brats are getting more and more muddleheaded, always acting on their own initiative to do some dogshit things, it has nothing to do with me. "

Zhang Shichang looked up and whistled, almost denying it three times.

"Other than the warrior's Department, we also found the experts from the Disciplinary Committee," Qin Shi added.

Everyone looked at Ji Chi with a strange expression.

It was understandable for Zhang Shichang to do such a thing, but what did Ji Chi mean by getting involved?

Ji Chi's stoic face instantly turned as black as the bottom of a pot. This was obviously not his idea. Without a doubt, it was definitely Han Qi's doing.

"Did you plan this?"

Du wuhui finally reacted and looked at the calm Lin Yi in shock.

No one would really take the freshman Alliance seriously, but with the warrior's Department and the secret organization's experts, the lineup was a little scary.

If he was not careful, the martial arts Society might really fail!

Lin Yi looked at him from the corner of his eyes. "Courtesy demands reciprocity. We'll treat the martial arts Society the way they treat us. What's wrong with that?"

Du wuhui's blood pressure rose after he was choked by this sentence. He couldn't suppress his anger, ""You better know what you're doing. The martial arts Society is under my ninth seat's jurisdiction. You attacked the martial arts Society without saying a word and even wanted to divide it up with others. Are you slapping my face?"

"That's right, you're right. "

Lin Yi didn't hide anything.

Zhang Shichang laughed out loud, but Shen Qingnian's expression was complicated. He and the native department had always wanted to get du wuhui on their side, and after what Lin Yi did today, it would be hard to get du wuhui on their side in the future.

Du wuhui was stunned when he heard this. He then laughed out of anger, ""Good, good, good. The next life is scary. I'll be waiting for you."

Chapter 9506

"Don't worry, I won't make you wait too long," Lin Yi smiled.

It wasn't that he was being extreme, but from the moment Li Jing had attacked the freshmen, he and this ninth seat were destined to be like fire and water. Li Jing was a member of the martial arts Society, but in the end, he was still du wuhui's man.

Regardless of his attitude, since he didn't stop Li Jing, he had to be prepared to be dragged down to hell by Li Jing.

If Li Jing were to take over the newborn Alliance and the symbol Masters, he would definitely lose a portion of his profits. If that really happened, this ninth-ranked student would definitely not say that he was innocent.

Today, he would deal with the martial arts Society first. Next would be him, du wuhui. No one would be able to escape.

The fourth seat, Song Jiangshan, who had been watching all of this coldly, could not help but shake his head. ""Lin Yi, you've just gotten to the tenth seat-you should take some time to stabilize your foundation, why are you rushing things like this?"

From his perspective, he couldn't support Lin Yi, but he didn't want to see Lin Yi die either.

Lin Yi smiled and shook his head, "I'd like some peace and quiet, but someone doesn't want me to. I can't do what I want in this world." Moreover, my 10th position is only temporary. I really want to have a taste of what it's like to be a 10th seat. "

The target was obvious.

Everyone was speechless.

It wasn't just one or two people who coveted the 10 seats, but there were very few who dared to say their names out loud, especially in front of all 10 seats in the 10-seat Council.

However, du wuhui wasn't as angry as everyone expected. He only looked at Lin Yi coldly, as if he was looking at a man who was about to die.

"You want to challenge my seat?"

"Of course."

Lin Yi didn't hesitate at all. From the moment he stepped onto the path of the new generation warrior and mage competition, everything was set in stone. The tenth seat was just the starting point, not the end.

Taking the remaining nine seats was a step he had to take. The only difference was who he attacked.

Now that the martial arts Society had come knocking on the gun's muzzle, du wuhui could not absolve himself from the blame and was so arrogant. The key was that no matter how one looked at it, he was a soft persimmon ranked at the bottom of the other nine seats. If they didn't pick him, who else could they pick?

Du wuhui sneered. "There's no time like the present. It just so happens that everyone is here. Why don't we do it now?"

Everyone's expression changed.

In the end, he was a person who could sit firmly in the ninth position for a long time. Du wuhui might have some shortcomings in other aspects, and was even jokingly called the meat compass by the people on the streets, but at least in the aspect of ruthlessness, he had a true and fierce character!

The seat challenge was the most serious event in the academic society. After all, once it was successful, it would affect the power structure of the entire academic society!

For such a serious matter, a life-and-death battle was the most basic threshold.

But in a life and death battle, if it was a carefully prepared team battle, there might be a chance. If it was a one on one battle, even if Lin Yi had a domain now, he was only at the peak of the early stage of sky-breaking realm.

How could he be compared to du wuhui, this kind of veteran expert?

Even if it wasn't based on individual strength, du wuhui was still a genuine expert at the peak of the late stage of the heaven-Sundering Great Perfection realm. He was only one step away from the heaven-Sundering Great Perfection realm, and there was a gap of four whole minor realms between them!

Even if Lin Yi was an unprecedented animal, and could still fight people of a higher level as if it was nothing, he was still far too weak!

Moreover, du wuhui being able to sit firmly on the ninth seat was already enough to show that he wasn't an easy person to deal with.

Even if he wasn't invincible within the same level, he was definitely one of the strongest in the peak of the late stage of heaven-breaking, let alone a peak of the early stage of heaven-breaking realm like Lin Yi. Even if he was in the late stage of heaven-breaking, his success rate in a cross-level challenge was close to zero!

Seeing that Lin Yi was about to agree, Shen Qingnian, who was second in line, interrupted, "The seat challenge is related to the overall situation, how can it be a game? Lin Yi, this is a matter of life and death, think carefully before you make a decision. "

"Old Shen is right. There's nothing wrong with men flirting when it's time to flirt. Who doesn't flirt like that?"

Zhang Shichang, the third seat, also tried to persuade him.

The two already saw Lin Yi as one of their own, and naturally didn't want Lin Yi to die for no reason. If they really started a war today, there was no way Lin Yi would walk out alive from du wuhui's hands.

With such a bright future, why throw away his life?

At this time, Xu Anshan, who had been silent all this time, suddenly said, ""There's no such thing as a child's play in the Council. Since Lin Yi has publicly challenged du Jiu, the decision is no longer in his hands, but in du Jiu 's. "

Shen Qingnian, Zhang Shichang, and the rest of the ten Native students 'expressions changed upon hearing this.

They wanted Lin Yi dead!

It was obvious that Lin Yi didn't know the rules, and that was why he was so reckless. Everyone could see that although Lin Yi said that he was very tough, he didn't have any intention of directly attacking du wuhui at the beginning. At least, he didn't plan to directly raise it to the level of a seat challenge!

Now that he thought about it, it wasn't so much that Lin Yi was provoking him, but rather that du wuhui was luring him into his trap.

In the end, Xu Anshan made the final decision!

From the beginning to the end, this was a trap specifically for Lin Yi, and there was no way out for him!

Lin Yi could totally ignore the words of the other ten, not to mention that he had Shen Qingnian and Zhang Shichang's support.

However, Xu Anshan was different. As the chief, the weight of his words was far greater than that of any of the other ten seats. Whenever he spoke, it was directly equivalent to the final conclusion of the ten-seat Council.

Unless he was stripped of his position as the chief!

Of course, because of the existence of Shen Qingnian and his group of natives, the 10-seat Council was not under Xu Anshan's control. Even if he made the final decision, once the natives retaliated, his prestige as the chief would be damaged.

Even when it came to the Black Dragon triad's business, which had been very popular recently, only the other 10 Chiefs under him appeared. He had never made an official statement.

The most terrifying deterrence was to draw it out and not release it!

But today, he'd personally come down for the first time, all for one Lin Yi!

Shen Qingnian and the other 10 students of the local element looked at each other and chose to remain silent.

It wasn't that they didn't have the courage to go against Xu Anshan, but Lin Yi was just a new ally. His power was limited, and he was far from being their core interest.

The risk and reward were completely disproportionate. To put it bluntly, it was not worth it.

Du Wuhui looked around and finally met Xu Anshan's eyes. His cold eyes landed on Lin Yi again, ""If that's the case, then I'll respectfully comply. I just don't know if you, the wave behind, can slap me, the wave in front, to death on the beach?"

As he spoke, he released his territory and Lin Yi was covered in it.

Chapter 9507

Under normal circumstances, the 10-member council would not allow anyone to make a move, or they would immediately become the target of all the formations present.

In terms of formation prowess, the ten-seat Council was one of the top three in the entire Jianghai Academy!

Not to mention ordinary experts, even the top existences at the level of the ten Chiefs would be smashed into pieces in minutes in front of this kind of heavenly might.

However, now that he had Xu Anshan's permission, du wuhui had no more worries.

On the other hand, the others, including Shen Qingnian and Zhang Shichang, did not have the authority to make a move on their own. Even if they wanted to, they could not do anything and could only watch.

Lin Yi, on the other hand, didn't have that restriction. If du wuhui could make a move, he could too.

However, when he released his domain, he was surprised to find that the maximum range was less than one meter. It was on a completely different level compared to his performance against Li Jing, which easily covered a range of twenty to thirty meters.

Even so, he was still unable to maintain it. He was even shrinking under the pressure of the other party's domain.

At this rate, even if he didn't do anything else, Lin Yi's territory would be crushed in less than five minutes!

Once the domain collapsed, Lin Yi would be next!

Seeing that Lin Yi was still trying to struggle, du wuhui laughed coldly, "Different domains are different. Didn't anyone teach you that?"

"I don't have any. Why don't you teach me?"

Lin Yi suddenly grinned and lowered his body. Then, like a human cannonball, he flew over the long table and pounced on du wuhui!

Du wuhui was shocked.

The battle between domain masters had long been set in stone. First, it was the collision of domains. After the superior had paralyzed the other party's domain or even collapsed on the spot, the rest was a one-sided beating.

Everyone did the same. This was not a rigid method, but the most efficient way to use the domain.

Lin Yi, however, didn't follow the plan.

The price of not following the routine was that the territory was being consumed at a speed visible to the naked eye. There was still half a meter of space left just now, but now there was only a thin layer left.

By the time his attack reached the top of du wuhui's head, the thickness of the domain around him was only one centimeter. Rather than calling it a domain, it would be better to call it a fragile thin film that could collapse at any time!

"Perfect domain?"

The people around him looked at him.

As the ten Chiefs, each of them had their own sources of information. Although the details of Lin Yi's killing of Li Jing were covered up on purpose, there were no impenetrable walls. Naturally, it couldn't escape the eyes of these people.

Moreover, with their eyesight, even if they didn't know in advance, they could still react when they saw this scene.

If it wasn't for the perfect domain, Lin Yi's domain would've collapsed halfway through, and he wouldn't have had the chance to fight to the death!

"So what? You're still overestimating yourself!"

Du wuhui snorted. The difference in their realms was too big. A good realm was like a consumable in Lin Yi's hands. Did he have the right to jump up and down in front of him with this little ability?

Lin Yi's prepared Sonic kick landed on his head.

This was a combination of Yue Jian's Sonic Boom fist and Qiu sanniang's kicking techniques, combining the strengths of both techniques. Even Zhang Shichang, who was a top-class expert who loved martial arts as much as his life, couldn't help but have his eyes light up as he looked at this, a love for this talent growing in his heart.

If it wasn't for the fact that he was constantly being suppressed by the array, he would have attacked.

However, in the end, he forcefully suppressed his crazy thoughts. He had no choice. He was responsible for the life and death of the warrior's Department and the glory of them. He could not risk his life so easily. He had to prioritize the overall situation!

Bang! Bang!

Accompanied by a deafening Sonic Boom, the sonic boom kick landed heavily on du wuhui's face.

But before Lin Yi could show any joy, du wuhui only tilted his head casually, the killing intent in his eyes unconcealed.

To hell with it, du wuhui's face didn't even have a single injury, not even a mark. It was as if Lin Yi's stunning Sonic kick had only kicked air, kicking loneliness.

In fact, he had just kicked the air!

Not only did he kick air, but he was also injured by the air, losing all feeling in his leg!

With all the information he'd gathered, Lin Yi finally understood the hidden strength of the enemy.

Wind element domain, air wall!

To a certain extent, this was very similar to the common protective Zhen Qi, but it was also completely different.

The protective Zhen Qi could form a protective shield, and if the Zhen Qi was strong enough, it could also form an abnormal protective power. However, compared to the air wall, there were too many disadvantages.

First, the protective true energy was not given for free. It required the continuous consumption of the true energy of the main body. Second, it was limited by the characteristics of the true energy. It had a natural limit to its concentration, which meant that there was a theoretical upper limit for the protective true energy!

On the other hand, the wall of air relied on the wind element domain to exist, so it didn't have these two disadvantages at all.

Not only did it not consume true Qi, but it was also unrivaled in strength!

Just like how Lin Yi's kick didn't hurt his opponent at all, but turned him into a cripple instead!

If he couldn't break through the wall of air, he would never be able to hurt du wuhui.

"Do you feel a little desperate?"

Du wuhui looked at Lin Yi with a smile that wasn't quite a smile, but it suddenly disappeared,""The true despair is yet to come. Enjoy it."

After saying that, he snapped his fingers.

Lin Yi's heart was on alert, but after being on alert for a long time, the air cannon didn't appear. There were no other common wind killer moves, either. It was as if nothing had happened.

But soon, Lin Yi realized that something was wrong.

The air around him was gradually becoming thinner and thinner, until it was slowly being sucked into a vacuum!

It wasn't that the entire space was a vacuum, but a layer of vacuum cover that tightly covered his body. No matter how he struggled, the vacuum cover followed him like a shadow, and he couldn't get rid of it at all.

This was killing Lin Yi!

No matter how strong a practitioner was, they were still human. Compared to normal people, they just needed to breathe longer. They still needed to breathe. Lin Yi was no exception.

If he couldn't get rid of the vacuum cover before the oxygen in his body ran out, he would really suffocate to death.

He wasn't the first one to die in such a brutal way at du wuhui's hands, and he wouldn't be the last.

Seeing Lin Yi's expression change, du wuhui revealed a happy smile, "Don't worry, struggle slowly. An expert like you should be able to struggle for a long time. It's okay, I can wait. "

Ever since he had sat on the ninth seat, he had been keeping a low profile, so much so that the outside world had forgotten how terrifying he was.

Now, it was time to help everyone remember some things.

Everyone knew that he was a decent and refined man, but before he became the ninth seat, decent and refined were two separate labels that were cut off from him.

Wherever he appeared, there would be suffocating dead souls.

That was the literal meaning.

Chapter 9508

Retreat!

Lin Yi's response was decisive. Since he couldn't break the wall of air, he'd retreat first. The vacuum shield couldn't be broken either, but as long as he could get out of the range of the area, it would be solved.

The problem was that du wuhui didn't give him a chance.

Lin Yi's speed was already unparalleled, but du wuhui's speed was even faster than his.

After all, this was a true wind-type expert, and speed had always been the signature of wind-type experts. No other type of cultivator could compete with him!

The ten seats watched this silent pursuit in silence.

Without air, Lin Yi's voice couldn't even come out. It was like a sad mute.

From the start to the end, Lin Yi's response was amazing-at least for a practitioner at his level, it was a whole new level of understanding. After all, he had at least one chance to fight back.

However, that was all.

There was still too much of a difference between his level and du wuhui 's. From the moment Xu Anshan made the final decision, he was already destined to be killed.

Looking at Lin Yi's face gradually turning purple, looking at the red spots that appeared all over Lin Yi's body due to the rupturing of the blood vessels, du wuhui's smile became even more unbridled and cruel. To put it another way, this was caused by the huge air pressure difference.

The threat of a vacuum to humans was not only the lack of oxygen, but also the air pressure.

"According to the rules of the seat challenge, I will accept everything you have, including your power, your brothers, and your woman."

Du wuhui estimated Lin Yi's limit and returned to his usual gentlemanly demeanor, giving his final parting words with a light smile.

He liked to see people die with grievances.

The other ten seats all had different expressions, some of them envious. After all, accepting Lin Yi's inheritance was the same as getting the tenth seat.

After today, du wuhui's right to speak in the 10-seat Council would reach a whole new level. If he did it well, he would even be qualified to sit on the same level as Shen Qingnian, Zhang Shichang, and the others. He would become a true heaven-breaker!

As for Shen Qingnian and the rest of the ten seats of the local element, they all looked worried.

If it was the du wuhui of the past, it wouldn't be a bad thing for them to rise as they were neutral. However, after today's scene, du wuhui had obviously stood in the camp of the first seat. Otherwise, why would Xu Anshan stand on his side?

With that, the decline of the local system was a foregone conclusion!

At the last moment, Lin Yi, who had reached his limit, suddenly revealed a strange smile.

Before everyone could understand the meaning behind his smile, he disappeared into thin air.

The meeting hall was dead silent.

When Zhang Shichang finally reacted, he laughed wildly and slammed the table. He pointed at du wuhui and the others, laughing until he was out of breath.

"Hahaha ... Damn it! He had really opened his eyes today! "As one of the ten seats in the Academy, he was toyed with like a dog by a clone. He even had a look of arrogance on his face. What a joke ..."

Shen Qingnian, who was beside him, also heaved a sigh of relief. He looked at Xu Anshan, the first seat, with a strange expression.

At this moment, the face of this chief Big Shot, who had the aura of an Emperor, was covered with a layer of faint black Qi for the first time.

This time, it was du wuhui who was toyed with by Lin Yi's clone, but wasn't his face slapped hard as well? it was rare for him to take the initiative to step down and kill a newbie, and this was the result.

If news of today's events were to spread, not only the entire Jianghai Academy, but the entire Jianghai city would be talking about it with relish for a long time!

It was not easy to see the joke of the first seat of the Academy.

If even Xu Anshan was like this, then du wuhui was even more dumbfounded. His entire person was frozen in place.

"His clone can actually activate a domain? Is there such a saying?"

The fourth seat, Song Jiangshan, asked the question in everyone's heart, "Even the king of doppelgangers doesn't have such an ability, right?"

It wasn't that they didn't have good eyesight, but who would have expected that the first representative to participate in the 10-seat Council would be a clone?

If there were people who had some doubts before, the moment Lin Yi revealed his domain, all their doubts were cleared. No matter how strong a clone was, it couldn't use a domain-this was common sense!

"There is."

The one who spoke was the seventh seat, Nie Mingzi.

He was in charge of the Academy's R & D department. Not only was he in charge of the R & D of various props and pills, but he also had a group of professionals who specialized in simulating and experimenting with various martial arts techniques and routines, including field research.

Over the years, he had figured out countless martial arts techniques. Although many of them were strange and imaginative, many of them had great potential and were even listed as top-class secrets with strategic value!

In terms of strength, the first seat Xu Anshan was the strongest, but in terms of analysis of various abilities, Nie Mingzi was the true expert.

"A perfect domain can be done because it has a stability characteristic that ordinary domains don't have. As long as a domain seed is left in the clone, it can be activated to form a domain. However, the strength will be much weaker. At best, it will be a weaker version of the main body's domain."

Nie Mingzi explained to everyone.

This was the first time the ten seats had heard of such a thing, and they could not help but look at each other.

"What?" Xu Anshan raised his eyebrows. "Only a perfect wood element domain can use this?"

"That's not it. As long as you have a perfect domain and have enough skill in cloning, you should be able to use it in all elements. However, the difficulty will be different."

Nie Mingzi's answer caused everyone's eyes to light up.

Although a perfect domain was extremely rare, it was not difficult for existences at their level to come into contact with it. There was more than one person with a perfect domain in the crowd!

After all, to be able to sit in the top ten, it could be said that each of them was a top figure with shocking talent. Each of them had their own destiny and opportunities. To them, obtaining a perfect domain origin stone was not as difficult as ordinary people imagined.

Especially Xu Anshan, who had more than one perfect domain!

If a newbie like Lin Yi could do it, they could do it too. In their hands, the effect would only be stronger and stronger.

Lin Yi had given them a lesson today, but he'd also given them a big gift.

A clone that could open a domain, once used well, its strategic value was absolutely immeasurable!

Especially for existences at Xu Anshan's level, a domain clone was like a nuclear bomb that could turn the balance of victory on any battlefield at any time.

"How high must the avatar's attainment be?"

Ji Chi asked. He also had a perfect domain and could clone himself. This was simply tailor-made for him.

"At least as tall as he is," nie mingzi said after some thought.

Naturally, he was referring to Lin Yi.

Chapter 9509

Ji Chi was doused with cold water. Whether he wanted to admit it or not, Lin Yi's cloning skills were there for all to see.

It might be an exaggeration to say that there was no one like him who could hide from all 10 seats in broad daylight, including the first seat Xu Anshan. However, in the entire Jianghai Academy, there was no third person other than the clone King of the Tian family's guards.

In fact, Lin Yi's clone wasn't an ordinary clone at all. It was the product of the thousand changes of forest, plant, and wood domains. In addition to Wu Linghai's powerful divine sense, it was unimaginable.

Even Tian si wouldn't have been able to figure it out if Lin Yi hadn't pointed it out, let alone the people who weren't familiar with the clones!

Zhang Shichang laughed, "I'll ask Lin Yi how he does it later. Cloning is something I can't do, but there are so many kids in the warrior's Department. I'm sure they'll learn it."

Everyone was speechless.

Zhang Shichang was used to being a scoundrel. No one would gossip about what he did, but the others couldn't bring themselves to do so. Wouldn't they be laughed at for the rest of their lives if the news of a senior tenth seat asking a newbie about doppelganger tricks spread?

Not to mention, they were all at daggers drawn just now. Du wuhui and Xu Anshan, the first seat, were obviously trying to kill Lin Yi. Even if they could lower their pride, would Lin Yi teach them?

However, the value of a domain clone was too great. He was really unwilling to let it go just like that.

In the end, Xu Anshan threw out a cold sentence. "Seventh seat ju, this is the responsibility of your R & D department. I'll leave it to you."

"....."

Zhang Shichang was stunned. He carefully sized up Xu Anshan's calm and dignified face. "As expected, the chief position isn't something an ordinary person can be. Old Xu, you're pretty thick-skinned, how did you cultivate?"

"The overall situation is more important." Xu Anshan glanced at him indifferently.

"What a good" the overall situation is important "!"

Zhang Shichang couldn't hold it in and was about to explode when Shen Qingnian pulled him back.

"Just now, you were shouting at him to kill him. Now, you're asking him for the essence of his ultimate move. Even if you're thinking about the overall situation, you shouldn't be thinking like this."

Shen Qingnian looked at du wuhui, who had a dark expression on his face, with a half-smile, ""Speaking of which, since Lin Yi's not dead, the seat challenge isn't over yet. Is the first seat trying to force Lin Yi to give himself up to the enemy?"

Xu Anshan didn't reply.

He couldn't respond to that. Although that was the truth, if word got out, he, the first seat, and the entire 10-seat Council, would be really shameless.

Everyone looked at du wuhui.

He was the person involved. Other than Xu Anshan, he had the most say in this matter. Once a seat challenge was initiated, it would not be easily settled. Not to mention that it had to be a life and death battle, at least one party had to completely surrender before it could be considered over.

In theory, he could continue to pursue Lin Yi, and no one, including the ten Chiefs, had the right to interfere before he killed Lin Yi.

He'd been tricked by Lin Yi's doppelganger, but if he were to continue fighting, he'd probably still die.

Even Zhang Shichang, who was naturally biased towards Lin Yi and had high hopes for him, found it hard to be optimistic about Lin Yi's future.

Du wuhui had been the ninth seat for so long, and now he had the right to do so. If he couldn't even kill a newbie who had just entered the school, that would be too funny.

"If he takes the initiative to hand over the essence of the domain clone, I can consider letting him go. I'll take it as him giving up."

Du wuhui weighed the pros and cons over and over again before finally making a decision.

He really wanted to kill Lin Yi, but if he did that, he wouldn't just be offending Xu Anshan, he would also be offending the other ten people who had hopes of learning a clone!

With his usual style of taking advantage of the situation, he would naturally not do such a stupid thing that would anger the public.

As for Lin Yi, he'd have plenty of chances to take him out in the future since he'd already defected. Plus, he didn't think that Lin Yi would be smart enough to hand it over-it wouldn't just be him, the ninth seat, it'd be the entire ten-seat Council!

Everyone nodded in agreement.

"The martial arts society's line of defense has been broken through, and the first one to break through the door is ... Lin Yi," Ji Chi suddenly interrupted.

"....."

Du wuhui's face, which had finally recovered, turned as black as the bottom of a pot again. Connecting the dots, Lin Yi didn't send a clone to play with them. He was doing this in the dark, and that was his true intention.

As for issuing a direct challenge to him, it was obvious that he was playing along.

Not only did he successfully attract the attention of him and all the other ten Chiefs, but he also took the opportunity to test the depth of his strength.

With the difference in strength, even if Lin Yi found out his trump card, it wouldn't affect the overall situation, but he only lost a clone this time. No matter how one looked at it, Lin Yi had gained a lot!

"I'll go take a look. "

Du wuhui immediately got up and prepared to leave.

If Lin Yi had died in his hands, it wouldn't matter what happened to the martial arts Society. It would be even better if they were breached, and he could use that as an opportunity to plant a trusted subordinate in, taking over Shen Junyan's control of the martial arts Society.

But now that Lin Yi wasn't dead, if the martial arts Society was really taken down, then his ninth seat would lose all his face!

But he was stopped by Zhang Shichang.

"Don't be in such a hurry to leave, I still have things to say. "

Du wuhui looked at him and said in a deep voice, ""As one of the ten seats, I have the right to leave at any time. Even if I vote, it will at most be regarded as a forfeit. Even if you are the third seat, you have no reason to stop me, right?"

Zhang Shichang laughed, "why would I stop you if I had nothing to do?" Do you think I'm as free as you?"

"What do you want?"

Du wuhui couldn't help but frown.

Although he had already expected that after today, it would be impossible for him to be as successful as before, but to be targeted by a powerful troublemaker like Zhang Shichang, even if he joined the Chief's Camp in the future, he was afraid that his days would not be good.

For a moment, du wuhui actually felt some regret.

"Many of my brothers in the warrior's Department are from the club. They reported that you took advantage of your position as the ninth seat and embezzled a large amount of the club funds that should have been distributed to them. Why don't you explain?"

Zhang Shichang said with a smile.

"You're reporting me for embezzlement of the club funds?"

Du wuhui was so angry that his vision turned black. With his status and resources, if he really wanted to make money, would he need to take such a low-class path?

Zhang Shichang squinted at him. "I don't know if you're clean or not, but I'm sure that some of your men are. Do you want to make a bet?"

"When I'm done with my investigation, I'll give you a satisfactory explanation."

Du wuhui couldn't help but gasp.

He had many subordinates, and there were always black sheep. What's more, some of the procedures had long become a customary rule. It had been like this for decades, and everyone had to get some benefits.

However, how could such a thing stand up to public debate?

Chapter 9510

Zhang Shichang laughed. "Investigate my a * S. You should prove your innocence here first. Otherwise, I'll say you're going back to destroy the evidence. Hehe, do you want to try?"

"....."

Du wuhui was completely helpless. He could only bite the bullet and stay behind to wrangle. Zhang Shichang's threat seemed like child's play, but once it came true, he would have to lose a layer of skin!

After all, there were many things that could not be taken seriously.

"However, this way, he won't have the chance to meddle in the martial arts society's Affairs anymore.

At the same time, the martial arts society's headquarters building was already in shambles.

In terms of the level of array protection, the martial arts Society was far from being comparable to the ten-seat Council. No matter how big the five societies were, it was still just a large society. It could not be mentioned in the same breath as the ten-seat Council, which was an official organization of the Academy.

However, in terms of the degree of difficulty, the martial arts Society would definitely be in the top twenty, if not the top ten, in the entire Jianghai Academy.

There was no other reason than the fact that there were many experts.

There were a total of 13 elite teams, and every team was an Elite Expert who had experienced hundreds of battles and had tacit cooperation. Every team had experienced the baptism of death in real life and death battles. In fact, to most people's understanding, the word "martial arts Society" was already a synonym for experts.

Not just anyone could join the martial arts Society. Even the ordinary members had to go through layers of selection tests. As for the elite teams, less than one out of ten would survive. The elimination rate was the highest among all the major clubs!

For example, 99% of the second-year students that Li Jing had brought in could only be placed in the reserve team. There were less than ten people in the entire grade who could be directly promoted to the elite team.

This time, Lin Yi had led the new student Alliance to attack. Normally, they wouldn't be able to take down an elite team, let alone the entire martial arts Society!

The betting odds for the newborn Alliance to get rid of two elite teams were 1:5, and the odds for getting rid of three elite teams were 1:10. As for more than three, no one placed a bet.

This was the most direct comparison of strength.

Even if they counted Lin Yi and the other monstrous freshmen from the Golden generation, the freshmen Alliance's peak strength was only equivalent to three elite teams of the martial arts Society. This was the limit of the limit.

To go head to head with the martial arts Society with such strength was like hitting a rock with an egg.

"Moreover, the martial arts Society has already made their response. They're even prepared to strike first.

Under such circumstances, if the martial society were to lose, everyone would definitely dig out their eyes and step on them like a light bulb. The domain master of the newborn Alliance couldn't even surpass one hand, so how could they win?

In the end, the scene of the martial arts society's headquarters being rashly borrowed was broadcasted live, and the entire internet exploded in public opinion.

"Is it because the new students are too strong? Or taishui martial arts Society?"

When someone secretly took a picture of the warrior's Department and the Disciplinary Committee's Black operation's experts mixed in, the public opinion could suddenly justify itself.

The warrior's Department was the Academy's strongest regular army!

The secret department of the Disciplinary Committee was one of the most mysterious underground departments in the Academy!

These two families had actually joined the battle at the same time. It was only natural for the martial arts Society to be defeated. It would be strange if they did not. As for the new student Alliance, it was obvious that they were just there to fill in the gaps.

"F * ck! We're cannon fodder?"

Qiu sanniang took some time to look at her phone, and when she saw the comments, she couldn't help but explode in anger. "I'm clearly the main force!"

This was the truth.

Be it the warrior's Department or the Disciplinary Committee's Secret department, although they had sent out some experts, there were not many of them. Their existence was only responsible for eliminating some of the high-threat targets on the other side.

Although the effect was equally great, in a head-on battle, the rebirth Alliance was still the absolute main force!

Lin Yi, Shen Yifan, Ying long, Bao shaoyou, Wei baizhan, song Xiaomi, Yue Jian, and Qiu sanniang each led a team and broke through at least one Elite line of defense.

In other words, they had at least taken out one of the opposing elite teams!

The price to pay for this was huge. After all, there was too little Domain Realm Masters among the freshmen. They didn't have the capital to fight a long battle. They could only fight to the death.

In the process, even with the assistance of the experts from the warrior's Department and the Disciplinary Committee's Black operation, which allowed them to avoid more than 90% of the casualties, the results still showed that they suffered heavy casualties.

After today's battle, the newborn Alliance was bound to suffer a great loss.

However, at the same time, after this life and death battle, each of them would be Reborn!

And this was the real reason why Lin Yi insisted on making a move on the martial arts Society.

Although the new student Alliance had been integrated, it would not be of much use if it did not undergo the baptism of actual combat.

Judging from the information that Tian Xiangyang and the others had revealed, there would be a drastic change in the environment in the near future. When that time came, even a Colossus like Jianghai Academy would find it difficult to stay out of it, let alone these insignificant people.

Even if it was only for the sake of self-preservation in the future, he had to find a way to temper the newborn Alliance into a sharp blade as soon as possible. He had to create a powerful force that could truly be brought to the table and intimidate everyone!

Pfft! Pfft! Pfft!

Without waiting for everyone to catch their breath, a rain of arrows that blotted out the sky and covered the earth pounced on their faces, instantly covering all the main freshmen who were charging at their heads!

Everyone's expression changed.

The baleful Qi of this rain of arrows was astonishing and obviously unusual. Once it pierced through, the main force of the freshmen, who had already paid a huge price, would suffer a destructive blow. There might even be a large number of deaths and casualties!

Even Lin Yi wouldn't be able to accept that.

He wanted to temper the new students, not let them die together!

There was no need to call out. The Warriors 'Department experts on both wings had already rushed out first. They tacitly combined their domains into one, and in the blink of an eye, they had constructed an omni-directional domain wall with no blind spots!

"Awesome!"

The freshmen were overwhelmed with emotions.

In the past, their only goal was to improve their individual strength. However, after seeing the style of this top-tier Army, they unconsciously looked up to them. The seeds of a strong team had been quietly planted.

However, Shen Yifan's eyelids twitched. ""Something's wrong! This is the frightening fiend arrow that specializes in breaking domains!"

His reaction was fast enough, but it was still too late.

The arrow formation that blotted out the sky and covered the earth crashed into the territory wall in front of them. At the moment of collision, the tip of the arrow suddenly exploded with a black evil Qi that was almost solid. It actually corroded and pierced through the territory wall!

Several of the warrior's Department Masters at the front could not react in time and were covered by the rain of arrows on the spot, falling one after another.

If even they were in such a state, the freshmen who had lost their protection could only imagine what would happen next.

Everyone could not help but feel despair.

It was not easy for them to get here after going through so much hardship. They were only one step away. As long as they could defeat the few higher-ups of the martial arts Society behind the front door, they would be able to achieve a complete victory in today's battle. How could they fall here?
