

Bodyguard 9511

Chapter 9511

He was unwilling!

However, what could they do? even Domain Realm Masters couldn't withstand such a rain of arrows, let alone a group of freshmen who didn't even have a domain.

"I can only stop here ..."

Ying long subconsciously turned to look at Lin Yi, but he couldn't find him. When he turned back, he saw that Lin Yi had already jumped up and was facing the terrifying arrow rain alone!

"Are you crazy?"

Qiu sanniang, who was beside Lin Yi, subconsciously wanted to drag him back.

Lin Yi's actions were heroic, but this was just an internal conflict of the school. He should've done it, but it shouldn't be this tragic, right?

Even if he was looking for death, this was not the way to look for it.

But it was too late. The second she cried out, Lin Yi's figure was swallowed by the dark cloud.

Lin Yi group's core members were all furious-they hadn't known Lin Yi for long, but they'd already seen him as the backbone of their group.

They could be injured, they could die, but Lin Yi couldn't!

Without Lin Yi, they would fall apart.

However, the arrows didn't land on Lin Yi. After the dark cloud swallowed Lin Yi, it suddenly stopped as if something was stopping it.

"Quickly look!"

Some sharp-eyed freshmen noticed the abnormality.

Everyone looked towards the source of the sound, only to see that at the edge of the rolling black clouds, a layer of huge net woven by vines had appeared out of nowhere!

However, when the black clouds gradually faded, everyone realized that they were terribly wrong.

It wasn't a single net, but seven!

A single layer of the giant vine net might be able to slow down the frightening fiend arrows' offensive, but it was impossible to completely stop them. Only this intertwining seven layer giant net could stop all the frightening fiend arrows without a single one escaping!

And the one who created all of this was Lin Yi, who stood in the center of the net with his hands behind his back.

He had blocked all the arrows by himself.

At this moment, Lin Yi was like a god in everyone's eyes, omnipotent.

"Are you glad that you didn't continue to be his opponent?"

Shen Yifan looked at Ying long, who was in a daze, and smiled.

To be honest, even someone like him, who had unlimited trust in Lin Yi, subconsciously felt despair just now, let alone Ying long and the others.

This spectacular scene was enough to make any new student lower their head to Lin Yi willingly, including Ying long!

The fact that the storm of arrows had missed meant that the martial arts society's last physical line of defense had failed. In the end, only the martial arts society's senior executives, who were stationed on the top floor of the headquarters, remained.

"Clean up the battlefield. Those who are injured, stay behind. The rest of you, come with me to see the scenery at the highest point of the martial arts Society."

Lin Yi laughed.

The freshmen all agreed. After this battle, his appeal in everyone's hearts had obviously increased by a level. Not only the people from Lin Yi's group, but even the freshmen brought by Ying Long's group were all convinced by him.

In the end, the thirty-odd new students, led by Ying long, followed Lin Yi to the rooftop of the martial arts Society building.

This was the place where the final battle would take place.

Other than those who had led their teams outside and were killed, the remaining senior members of the martial arts Society were all here. There were not many of them, only five of them.

However, any one of them was undoubtedly the top combat power of the martial arts Society. There was no exaggeration at all.

The strongest of them all was naturally the president of the martial arts Society, Shen Junyan.

However, to everyone's surprise, even though the situation had already developed to this stage, Shen Junyan and the others did not show any signs of defeat. Instead, they were still playing mahjong leisurely.

They weren't pretending to be calm, they were really fearless.

Shen Junyan chuckled as he played Mahjong. "I didn't expect you guys to really fight your way to me. I don't know if I've underestimated your strength or overestimated the integrity of those two families."

"What do you think?" Lin Yi raised a brow.

"The latter, I guess."

Shen Junyan didn't even look at Lin Yi as he continued playing mahjong. "If it wasn't for the people from the secret operation of the Disciplinary Committee ruining things, you wouldn't be the ones here today. We would be the ones going to your place."

As a matter of fact, the higher-ups of the martial arts Society had already decided to strike first, but they did not expect the secret department of the disciplinary order to suddenly make a move. Then, the experts of the warrior's Department joined in, causing them to lose the initiative.

Otherwise, the new students might not even have the chance to enter the martial arts Society.

"That makes sense."

Lin Yi nodded and walked over to sit across from Shen Junyan. He looked at the deck of cards in front of him and smiled faintly, ""This is interesting. The cards are going to be messed up. Let me have a ready-made one. Thank you."

Shen Junyan took his time to draw his cards. ""Do you have that kind of teeth? It's a small matter to lose a tooth, but it's not worth it to lose your life. "

"How dare you? how would you know if you don't bite it?"

Lin Yi picked up a random card and flipped it over with a smile. "I'll touch myself, thank you. "

Everyone looked over curiously. They actually figured out the situation by themselves. They couldn't help but look at each other. This was F * cking interesting.

"Alright, then you can take it."

Shen Junyan, on the other hand, was willing to accept his loss. He flicked his finger and threw a chip at Lin Yi.

This chip looked ordinary at first glance. It was light and didn't have any lethality. Its speed wasn't that fast either. However, Ying long and the others were all shocked when they saw it.

Lin Yi didn't seem to notice the danger at all, reaching out his hand without any warning.

Shen Junyan and the other four senior executives of the martial arts Society all revealed strange smiles.

As expected, the moment Lin Yi's finger touched the chip, it exploded without any warning. The huge blast caused by the explosion shattered the entire rooftop!

Ying long and the other new students were instantly thrown off their feet.

Lin Yi, on the other hand, was bleeding from all his orifices after taking 80% of the explosion.

The key point was that he actually stopped breathing on the spot.

"I don't like these little tricks either, but I have to admit that they are really useful at times. They can save me a lot of trouble."

Shen Junyan turned to look at the freshmen. Even though he was sitting, he still looked down on them. "What do you guys think?"

However, before Ying long and the others could reply, a sword silently emerged from his chest. Lin Yi's calm voice came, ""I think it makes sense."

The higher-ups of the martial arts Society were shocked.

Even Shen Junyan's expression changed-Lin Yi had pierced through his heart from behind!

The clone and the Steal Bell were so domineering that it was impossible to guard against!

Chapter 9512

The thousand forest illusionary technique's doppelganger would collapse and dissipate when it was attacked beyond its tolerance limit, but the new doppelganger with the help of the Steal Bell technique could perfectly simulate the various deaths of ordinary people, which could be said to be flawless.

The situation had reversed too quickly, so fast that no one could react, and the battle seemed to have ended.

No matter how strong a cultivator was, the heart was always a fatal point that could not be avoided. If the heart was not guarded, even an immortal would die.

However, Shen Junyan didn't collapse just like that. He turned around and looked at Lin Yi with a strange expression. "How did you do it?"

"You want to learn?"

Naturally, Lin Yi's next sentence wasn't "I'll teach you." As he spoke, three Yuan Spirit Seeds entered his opponent's body through the demonic devouring sword's blade, reaching the depths of his consciousness.

Then, they exploded at the same time!

The three ensemble of spiritual sense explosion!

Even with Lin Yi's essence Spirit's current strength, he felt a huge burden on his body. However, he had to do this. Shen Junyan was the strongest enemy he had ever faced.

Li Jing, who was in the middle stage of the heaven crushing completion, was not considered weak. However, compared to the true President of the martial arts Society, he was still far too weak.

Just the realm alone was one level higher-peak of the mid-stage of the complete heaven-cleaving realm. As for his actual combat strength, it was several times higher. Even Lin Yi, who had a perfect domain as his base, couldn't help but feel a lot of pressure after reading the information from Han Qi!

Therefore, he had to go all out when he moved!

A triple combo of doppelganger, steal Bell, devouring Demon Sword, and spiritual sense explosion.

This was the concentrated display of Lin Yi's current strength. Other than the new super alchemy bomb and the hammer, it was already the highest level combo, enough to easily kill Li Jing, a master in the middle stage of sky-breaker's full cultivation.

As for how effective it was on Shen Junyan, it seemed like it was going well.

At the very least, judging from the rapid loss of life force in Shen Junyan's body, he was either dead or seriously injured.

This was something that could not be faked.

"Is it worth it for me to learn such an insignificant skill?"

Under everyone's surprised gazes, Shen Junyan, who should have been on the verge of death, stood up with Lin Yi's demonic devour sword in his hand. At the same time, the freshmen all felt a strange sensation.

Life force flowed out of their bodies at a speed visible to the naked eye, like hundreds of rivers flowing into the sea, and finally gathered on Shen Junyan's body.

Life transfer!

Such a method was truly divine.

More importantly, from the beginning to the end, no one saw Shen Junyan make any movements. The only movement he made was to stand up.

"The domain of life?"

Lin Yi raised an eyebrow-his life force was also dropping. It wasn't as obvious as bleeding, but he could feel it-his HP was dropping rapidly.

The most direct feeling was exhaustion, an unprecedented exhaustion. Even with his strong willpower, there was a possibility that he would faint at any time!

Shen Junyan laughed."You actually know about my domain of life. It seems that Hanqi is indeed very close to you. Unfortunately, even with the intelligence network of the disciplinary order, they only know a little about the domain of life. Even that little bit of information was deliberately leaked by me."

Regarding the essence of life, even cultivators who had reached the great circle of heaven crushing knew very little.

It was precisely because he knew too little that Shen Junyan's abilities were all the more mysterious and unfathomable. Just like the life transfer he was performing right now, it was not only impressive but also terrifying.

The problem was that they didn't know how to deal with it!

Because of his ignorance, there was no solution.

"You make it sound so incredible, but in the end, it's just a variant of the wood element domain."

Lin Yi said.

As the possessor of the perfect wood element domain, he naturally had some knowledge about the vitality of the wood element. He had even used the powerful vitality stimulation effect of the wood element domain to heal everyone.

The so-called domain of life of the other party was merely walking further down this path, walking even more extreme.

"Is that so? Why don't you try to break it? by the way, I have to remind you that you only have half an incense's time. After that, once your life force is completely gone, even the gods can't save you. "

Shen Junyan had no fear of this at all. No one could break through his life domain, and he had absolute confidence in himself.

Even those high and mighty top ten bosses, including the so-called born Emperor, the first seat Xu Anshan, were just ignorant clowns in front of his life domain. How could a mere freshman turn the world around?

What a joke!

"Then I'll try."

Lin Yi's body flickered as he spoke, and a group of clones appeared. Whether it was the aura, aura, or even the strength of the spirit, they were all exactly the same as the real Lin Yi. Once he put away the sword, there was almost no possibility of being seen through.

If they wanted to fight him, they had to either bombard him with a wide area of effect or rely on their intuition to guess. There was no third option!

They were both variations of the wood element domain. The opponent's domain was the godly life domain, while his was the clone domain, and it was a perfect clone domain with no blind spots!

At the same time, Ying long and the other freshmen also attacked in unison.

They weren't a burden. Each of them was a master with a heart as high as the sky. So what if you have the domain of life? do you want to see how I care about you?

"You don't know what's good for you!"

Zheng Xi, the Executive Vice President, Wu Xun, the chief think tank, and two other senior executives of the martial arts Society, who were standing behind Shen Junyan to protect him, also exploded at the same time.

In terms of individual strength, they were naturally far above the freshmen. Once they activated their domains, even if they were one against many, they could instantly occupy the absolute advantage.

Furthermore, they had the additional boost from Shen Junyan's life domain!

On one side were the five higher-ups led by Shen Junyan, and on the other side were the thirty-odd freshmen led by Lin Yi. The scene at the top level was extremely chaotic and intense.

Now that the situation had developed to this point, whether it was the warrior's Department experts sent by Zhang Shichang or the secret department experts sent by Han Qi, they had all consciously stopped interfering.

They could step on the line and act as support for the newborn Alliance. The ten-seat Council had the natives to take care of it, so they could only turn a blind eye.

However, if even the final battle was decided by them, then the nature of the entire matter would be completely different. Once the chief representative came forward to exert pressure, it would cause a large backlash from public opinion. Even the native branch might not be able to withstand it.

Plus, this was a core test for Lin Yi and the new student Alliance!

If he couldn't even take care of a few of the higher-ups, then how could Lin Yi and his new student Alliance be on the same level as Zhang Shichang and Han Qi?

It was more like being someone's underling.

Very quickly, there were already signs of a reduction in numbers. Yue Jian and a few of the main freshmen had lost their ability to fight one after another. Although they didn't die on the spot, their life auras were clearly extremely weak, and they were almost on the verge of death.

Chapter 9513

Shen Junyan laughed sinisterly. "I forgot to tell you. The half an incense stick that I mentioned is the maximum that you can hold on for. The weaker ones won't be able to hold on for that long."

As soon as these words came out, the group of new students who were already under a lot of pressure immediately felt another heavy mountain.

The most troublesome thing in battle was the debuffs. If they had to use normal methods like poison, it wouldn't be a big deal. They all had some experience dealing with it, but there was no way to deal with this kind of HP loss.

If one's willpower was slightly weaker, it would collapse in minutes.

No matter what, Lin Yi and the rebirth Alliance had to end this battle as soon as possible. The longer they dragged it out, the worse the situation would be.

There was no need to explain this point. All the freshmen present knew this and attacked with all their might, leaving no room for any mercy!

Although the freshmen had some individual weaknesses, with Ying Long's earthquake domain and Bao shaoyou's fire domain, the momentum of their attacks wasn't weak. Especially with the numerous clones of Lin Yi, they actually had the upper hand.

It wasn't that Zheng Xi and the other high-level members of the martial arts Society were too weak. It was simply too much.

Furthermore, everyone present was not an ordinary ant. Given time, their future development potential would not be any less than theirs. In fact, they might even far surpass them!

If that was all, then it would be fine. With their advantage in cultivation level, they could at least hold on. As long as they could hold on for a moment, when the momentum of the freshmen had passed, they would naturally be able to do whatever they wanted.

The problem was that Lin Yi's clones were everywhere.

With the support of the realm, the advantage of Lin Yi's clones was obvious-they were all so strong that they didn't look like clones, and they even had their own realms!

With the sub-domains, the clones could even form a battle formation and merge the sub-domains together to feed Lin Yi's main domain. It was a complete cheat.

There was still a gap in level between the two sides, but it had been completely wiped out.

The worst part was that Lin Yi's real body would suddenly appear out of nowhere and launch a fatal attack. It was impossible to defend against.

With their strength, Lin Yi's doppelganger alone was troublesome, but the formation's operation was still traceable, so it wouldn't pose too much of a fatal threat. However, if it was Lin Yi's real body, a full-powered attack could really kill them!

After all, they were not Shen Junyan. As long as the domain of life was not broken, they would be immortal.

If someone were to be stabbed in the heart like Shen Junyan, they'd be dead in a matter of minutes even with the domain of life's buff.

Wu Xun was the first unlucky person!

The brain of the martial arts Society that Shen Junyan trusted didn't get his heart pierced, but Lin Yi slit his throat the moment he fell into a daze from the blast.

Without any struggle, Wu Xun died on the spot.

As they watched Wu Xun's body slowly fall, the other higher-ups of the martial arts Society felt their eyelids Twitch, their faces filled with shock!

Even if he wasn't known for his brutal combat strength, Wu Xun was at least an existence on the same level as them. He was a top-tier expert in the middle stage of the heaven crushing complete realm.

Although Li Jing's realm was the same as Li Jing 's, and he even held the title of Vice President of the martial arts Society, which meant that he was on equal footing with them in name, Li Jing could only be considered poor and broke when compared to them, be it in terms of Foundation or actual combat power.

Thus, they didn't take Li Jing's death seriously.

But now, even Wu Xun was dead. He had died at the hands of the same person, and in such a way in front of them. This was really creepy.

If Lin Yi could kill Wu Xun with one sword, then theoretically, he could kill any one of them with one sword too!

Escape!

The remaining three higher-ups of the martial arts Society, led by the Executive Vice President Zheng Xi, immediately made the best choice and fled in all directions.

He wasn't really running, though-he was trying to put some distance between him and Lin Yi's clone.

They knew very well that as the absolute core and strongest force of the freshmen Alliance, Lin Yi's opponent would always be their President, Shen Junyan.

As long as they kept enough distance and didn't give Lin Yi the chance to get close to them and kill them in one hit, they could still face Ying long and the other freshmen without worry.

Lin Yi, on the other hand, would never leave Shen Junyan behind to look for them!

They were right-Lin Yi didn't dare to leave Shen Junyan alone. Even if he got rid of the life force, Shen Junyan's efficiency in killing the new students would be even higher than his if Lin Yi and his clones weren't there.

These were all Lin Yi's future troops, and any one of them would be a huge loss to him. How could he let him kill them?

King versus King!

Lin Yi had to fight Shen Junyan to the death. He had no other choice.

As for the remaining three senior executives of the martial arts Society, he could only leave them to Ying long, Bao shaoyou, and Shen Yifan. With the strength of these three people and the assistance of the freshmen's main force, they might not have a great chance of winning, but they would at least have the strength to fight!

In the blink of an eye, the chaotic top floor became empty and became the arena for Lin Yi and Shen Junyan's one-on-one battle.

"You seem to be very confident in the new students?"

Shen Junyan remained calm and composed.

Wu Xun's sudden death was indeed a surprise to him. After all, he had been his right-hand man for many years. However, he did not feel much anger. As an expert who specialized in the domain of life, whether it was intentional or not, he had deliberately erased his human emotions.

In his opinion, all human emotions were too low.

As the master of the domain of life, his self-awareness had long transcended the scope of humans. In comparison, he was more willing to call himself the spokesperson of the laws of life.

This was very arrogant and Chuunibyou, but he really did think so.

Lin Yi continued to control his clones to fight back and forth, looking for a chance to kill him in one hit. "If you don't even have this bit of confidence, isn't the Golden generation saying a joke?"

"It's funny to begin with. "

Shen Junyan's life force surged again as he spoke, and the speed of his movement technique increased by another level.

It wasn't just his speed-even his body's strength had undergone an unbelievable change. Without any extra movements, Lin Yi's clones exploded when he hit them.

"Life enhancement?"

Lin Yi couldn't help but cry out.

As the possessor of the perfect wood element domain, he had naturally studied the unique and powerful vitality of the wood element domain. He had also had the idea of using vitality to stimulate and strengthen his body.

However, he had only mastered the domain for a short time, and his main focus was still on the perfect clone, so he had not had the time to put it into practice.

He didn't expect that he would actually see this idea on the other party!

Chapter 9514

"Life enhancement? Hehe, you've given me a good name. "

Shen Junyan paused for a moment before accepting it with a smile. He destroyed another dozen of Lin Yi's clones in a row.

He was at the peak of the mid-stage of heaven-Sundering, while Lin Yi was only at the peak of the early stage of heaven-Sundering, two levels apart. The gap between the two was already huge, and after the life strengthening, the gap was widened even further.

When the gap reached such a level, the sea of clones tactic had already been broken and lost its tactical value.

Because at this time, no matter how many doppelgangers he had, they would only be scraping the sand. Other than a simple confusion, they would not be able to cause any damage.

"Let me remind you again, half of the time for half an incense stick to burn has already passed."

Shen Junyan continued to kill Lin Yi's clones, not showing any signs of impatience at all. He was as calm as he was at the start.

He really didn't need to be frustrated.

Lin Yi's endless number of clones could mess with the minds of others, but it had no effect on him at all. With the domain of life, he was naturally invincible.

Even if they didn't do anything, as long as they could drag it out for half an incense's time, all the new students would be on the ground, including Lin Yi!

"Shen Junyan's advantage is too great. He didn't even need to use his domain to suppress Lin Yi, and Lin Yi lost all ability to fight back. Hehe, that bastard's just like that!"

The drone that was hovering in the distance had broadcasted the scene live on the campus network, which immediately attracted countless students to watch.

The people who were the most excited were naturally Lin Yi's old rivals, especially Jiang Ziheng, who had suffered a lot from Lin Yi. He was even jumping for joy!

This time, Lin Yi had really hit a wall.

However, the 10-seat Council looked at the live broadcast and did not make a judgment.

Even du wuhui, who wanted something to happen to Lin Yi the most, didn't say anything.

It wasn't that he wanted to deliberately maintain his demeanor. In fact, they had already fallen out with each other to this extent. If there was a chance, he would never let go of the opportunity to sprinkle salt on Zhang Shichang and the other local elements.

After all, sprinkling salt on the native system was to express goodwill to the chief system.

But he didn't, because he didn't have the confidence and was afraid of being slapped in the face.

If it was before, he would've bet on Shen Junyan without hesitation, but after Lin Yi showed his domain clone, he wasn't so sure anymore.

Shen Junyan's life realm was rare, but in terms of difficulty, Lin Yi's realm clone would be even more difficult to develop.

How could a guy who could create a domain clone in such a short time be helpless against a mysterious life domain?

This was simply an insult to the intelligence of the ten seats.

As expected, Lin Yi, who seemed to have fallen into a passive position, suddenly had a huge change in his aura.

The many clones around him began to dissipate spontaneously, and finally, only a few were left. At first glance, it seemed that the aura had suddenly become much thinner.

"Hehe, you're giving up just like that?"

Shen Junyan did notice something unusual, but he didn't take it to heart. He believed that victory was already in his hands, and Lin Yi wouldn't be able to do anything to him!

"I'm not giving up," Lin Yi said calmly, "I'm just done playing. It's time to send you on your way."

"Ha?"

Shen Junyan sized him up in disbelief for a while, then he said with a regretful expression, ""I thought you were different from those vulgar people. It seems that I have overestimated you. You're on the verge of death, but you still say such unrealistic harsh words. It's a little demeaning."

"Your domain of life is worthless," Lin Yi said faintly.

"Oh? Then I'll have to listen to your wise opinion!"

Shen Junyan's expression changed, and his killing intent grew.

The domain of life was his ultimate masterpiece. It was the foundation for which he had paid everything. Any slander against the domain of life was the most vicious curse on him.

This person must die!

Lin Yi didn't seem to notice it at all, "Whether it's life transfer or life strengthening, they all look very profound, but they're actually just some simple tricks."

"At first, I thought that you were too conceited and didn't want to use ordinary domain techniques against me. But after observing for so long, I understand that it's not that you don't care, it's that you can 't."

"I can 't?" Shen Junyan sneered.

"If you can, why don't you try it now? I'll let you hit my face. Come on."

Lin Yi said as he spread out his hands.

However, Shen Junyan's face was ashen, and he did not do anything.

The live broadcast room was in an uproar.

Many people then recalled that ever since Shen Junyan had entered the public eye, they had never seen him use his domain techniques in a fight. The few times he did, he would use the uniqueness of his domain of life to cause people to break down and die.

"Your so-called life domain, to put it nicely, is a variant of the wood domain. To put it bluntly, it's just a self-castrated disabled domain. The foundation of your domain's existence is self-solidification."

"And this ..."

Lin Yi reached out his hand as he spoke, and a pure, transparent seed-like object appeared. "It's the foundation you use to solidify the construction of the life domain. If I'm not wrong, you might call it the life Seed."

Shen Junyan stared at Lin Yi in disbelief, "You deduced all of this?"

"Actually, it's not an inference. I cheated."

Lin Yi smiled, "let me tell you something. Your Life Seeds are indeed well hidden. You can fool almost everyone but me, the one with the perfect wood element domain."

"In my eyes, these Life Seeds of yours are not hidden at all. Each and every one of them is more eye-catching than a light bulb. It's hard not to notice them."

"I can see their pattern structure and movement trajectory clearly. I should actually thank you for letting me re-understand the nature of the wood domain's life essence."

Shen Junyan's face turned paler and paler with every word Lin Yi said. "Impossible! It was impossible! This is the ultimate result of my lifetime of research, how can you possibly understand it?"

Lin Yi continued with a half-smile, "Whether it's your life transfer or life strengthening, the key lies in this life Seed."

"You imperceptibly placed the life Seed in our bodies, allowing it to absorb our vitality, and then transfer it to your body before releasing it to stimulate the body to strengthen temporarily. Thus, an unsolvable closed loop of life was formed, am I right?"

When Shen Junyan heard this, he was on the verge of breaking down. It was as if his three views of the world had collapsed, and his expression became extremely twisted and ferocious.

If it was just his life force being broken by force, he could still accept it, but Lin Yi's way of explaining everything to him was like telling everyone that everything he was proud of was child's play.

He really couldn't accept this!

Chapter 9515 Power

"What big words!"

Shen Junyan snapped out of his daze, no longer as calm as he was before. "The Supreme profoundness of the domain of life isn't something an ignorant fool like you can understand. You don't have the right!"

He couldn't hold back his killing intent anymore as he pounced at Lin Yi.

Under the stimulation, Shen Junyan forcefully increased the effects of life enhancement to its limit, and his entire body grew in size. The life force that he exuded formed a steaming cloud that surrounded him, and he looked extremely solemn for a moment!

But before he could reach Lin Yi, he suddenly stopped.

"You ... You know how to do it too?"

Shen Junyan suddenly realized that the same cloud of life was also around Lin Yi. It wasn't as thick as his, but it was the cloud of life he was so proud of!

"Is this very difficult?"

Lin Yi looked at him curiously.

Of course, this was very difficult!

Ordinary people wouldn't even dare to think about it, but for a perfect domain owner like him, he had the ability to get pregnant with just one look.

This was because a perfect domain had the highest upper limit and plasticity of the same element. In order for an ordinary domain to truly exert its power, it had to be specialized step by step into a domain variant with a single ability. However, a perfect domain did not need to do so. In theory, it could fully replicate the abilities of all the domains of the same element!

To put it more bluntly, a perfect domain was an innate invincibility of the same element!

It was true that the extent of development still depended on the user, but at least in this area, Lin Yi was a Grandmaster-he was a natural.

"Hmph, deliberately mystifying, you're just imitating others!"

Shen Junyan's ability to self-adjust was pretty good. If it had been anyone else, they might have gone into a dead end and completely collapsed mentally. However, he did not.

Not only that, but it turned the stimulation into motivation, instantly erupting with an aura far more terrifying than before. The increase was more than 30% visible to the naked eye!

Even if the perfect domain could replicate the clouds of life, it was at most just for show. How could it compete with him, a professional who had specialized in it for many years?

Moreover, there was still a huge gap between their cultivation levels that could not be closed!

BOOM!

The result of that exchange confirmed Shen Junyan's suspicions. Lin Yi had learned a little from him, but he was only at the beginner level. He couldn't be compared to Shen Junyan at all.

Shen Junyan couldn't help but laugh at Lin Yi, who was struggling to get up. "You're really stupid. This half-baked cloud of life has no strengthening effect at all. You've exposed your true body for this. Who else would die if not you?"

After all, the clones were Lin Yi's Foundation.

The reason why he was qualified to stand there and fight with an expert of Shen Junyan's level was because of his countless perfect clones. Due to the effect of life enhancement, the destructive power of the clones was already like scraping sand, and they were only left with the confusion effect of mixing fish eyes with pearls.

Now, because of the hint from the cloud of life, even this last bit of confusion was gone. What was the point of fighting?

After all, only his true body could use the cloud of life. His other clones did not have such an ability.

"Oh, really? Do you really think I'm that stupid?"

Lin Yi stood up and wiped the blood off his mouth, making a hand gesture as if he was holding a sword. At the same time, all the clones around him did the same.

"You're bluffing!"

Although Shen Junyan's words were filled with disdain, his body was still in a defensive position.

If there was anything he was worried about, it would be the demonic devour sword. After all, he'd almost killed Lin Yi with that sword at the start, and he'd had to rely on his life realm to survive. He might look calm on the surface, but he was still scared.

He'd been paying attention to Lin Yi's gesture-it meant that he was ready to draw his sword at any moment.

"You're saying that, but you're still feeling guilty. You're not honest. "

Lin Yi laughed.

Shen Junyan's eyes twitched in anger. He didn't have to be this angry with his composure, but he couldn't take it anymore after Lin Yi's merciless attacks.

But in the end, he endured it. In a battle between experts, being impatient was a great taboo.

He knew very well that Lin Yi said all this on purpose to mess up his mind and find an opening to kill him in one hit!

As expected, the moment he tried to suppress his emotions, all of Lin Yi's clones attacked him at the same time.

Shen Junyan tensed up. He was sure that this was Lin Yi's real body since the clouds of life couldn't lie, but he didn't dare to ignore the other clones.

What if he was wrong?

Lin Yi's trash talk was more or less effective, but as long as he didn't overconfidence and rush in recklessly, he'd just be playing a little more conservatively. It wouldn't change the outcome.

In the end, in the face of absolute strength, any so-called tactics and strategies were just a joke.

"It's you indeed!"

Shen Junyan's eyes lit up as he focused on Lin Yi's every move right before his attack landed.

The reason was simple. Although all of the clones were the same, holding the hilt of the sword in the air, as if the demonic devouring sword would appear at any time and cut down, only the one in front of him had a slight difference.

A wisp of black Qi.

He'd practiced holding the hilt in the air before to match his clone technique, and he'd gotten the rhythm and details right-especially after using the bell-stealing technique, it was perfect.

A perfect clone with perfect acting skills.

In theory, no one would be able to guess which "clone" the demonic devouring sword would appear in before he finally fell. However, there was no true perfection in the world.

From the start, Shen Junyan had noticed a flaw that Lin Yi himself might not have noticed-it was that single-digit amount of black gas.

This was the sign of the demonic devouring sword being unsheathed.

If it was someone else, even if it was an expert at the peak of the middle stage of the heaven crushing realm, it would probably be difficult to detect.

It could not escape Shen Junyan's eyes.

His life domain was filled with life Seeds, and each life Seed was an extension of his tentacles. At least within the range of the domain, no one could compete with him in perception, not even Lin Yi!

And now, because of this undetectable black Qi, Lin Yi's death knell was sounded.

"The heavens of life and death!"

Following Shen Junyan's command, the life force field surrounding Lin Yi went out of control and went berserk. The life Seeds that were originally full of life force exploded together, creating a chain of terrifying explosions.

Chapter 9516

From life to death, it only took a single thought.

Lin Yi's expression changed-the power of this blast was far beyond any killer move he'd faced before, including the Super alchemy bomb he was the best at.

This was the domain shock explosion, a super killer move that only high level domain experts could use!

The most fatal part was that this kind of trump card, in addition to its great power, also had its own locking effect.

To a certain extent, a domain was a by-product of space. Although the explosion of a domain was not as exaggerated as the collapse of space, it would indeed cause the space to become unstable. In this case, no matter how brilliant one's movement technique was, they would not be able to escape.

At the end of the day, you're still in space, you're still a person in a painting.

Lin Yi tried to struggle, but it was all in vain. When the space started to destabilize, his body was completely bound in the space, and he could only watch as he became the sacrifice of the domain.

The moment Lin Yi's identity was confirmed, the outcome was decided.

"You should feel honored to die under my dual heavens of life and death. Go in peace."

Shen Junyan could no longer hide the smugness on his face.

A super killer move like domain shock explosion had a huge price to pay once used. The Lost Domain Foundation would need to cultivate in seclusion for several months to recover.

If Lin Yi didn't know too much and wasn't a huge threat to him, he wouldn't even be willing to spend so much money!

But now, everything was worth it.

Lin Yi didn't even manage to make a sound as Shen Junyan's carefree laughter rang in his ears. His entire body was shattered by the explosion of the domain, and not even his bones were left.

However, Shen Junyan was suddenly alarmed!

She subconsciously tried to escape, but before she could calm down, a sword appeared in front of her, and Lin Yi also appeared.

The entire process happened too quickly. Shen Junyan did not manage to Dodge in time, and the demonic devouring sword pierced through his throat.

In that instant, the entire world fell silent.

“.....”

There was a strange silence in the online live broadcast room.

Even though they had a god-like perspective, the crowd still could not understand how this had happened. Just a second ago, Shen Junyan was clearly the one who had the last laugh, so how did he end up being the one to be beheaded?

From an outsider's point of view, it didn't even seem like Lin Yi had taken the initiative to attack-it was Shen Junyan who couldn't stop in time and sent himself over!

"How could such a character make such a low-level mistake?"

Someone could not help but ask.

If not for the fact that Shen Junyan's warm body was lying on the ground, many of them would have suspected that he was just putting on a show.

An expert at the peak of the middle stage of the heaven crushing completion, and a tyrannical existence in the domain of life, had actually been killed in such a way that could be called a child's play.

"It turns out that the so-called number one of the martial arts Society only has this much strength. He can't even defeat a freshman. To think that they were so full of themselves and were even known as the leader of the five great societies!"

"They're just a bunch of motley crew who blow their own trumpet. They can't even be put on stage!"

"That's right. I've seen Lin Yi's strength before. He's not bad among the new students, but he's just so-so, he's not that high up in the world. Shen Junyan couldn't even beat him, so he's just trash!"

After a short silence, the live broadcast room was filled with jubilation again.

Shen Junyan had died at Lin Yi's hands, and in such a ridiculous way at that. What did that mean?

Did that mean Lin Yi was strong?

No, it could only mean that Shen Junyan was too weak, and at most, he was just a fake product that people had exaggerated!

This was the logic of the masses.

"A bunch of F * cking idiots."

In the 10-seat Council Hall, Zhang Shichang looked at the discussions on the internet and couldn't help but laugh. He slammed the table and cursed, ""Chen chuangu, how did you get eighth place? You're the one in charge of preaching, right? and you've managed to preach a bunch of idiots?"

Chen chuangu's face immediately turned as black as the bottom of a pot.

As a hardcore member of the first seat Department, he had always been responsible only for the first seat, Xu Anshan. Even if something went wrong, it was not Zhang Shichang's turn to criticize him.

But at this moment, he really didn't know how to talk back.

After all, in the eyes of the true experts, the people who were discussing on the internet were a bunch of retards. They even wondered how they had managed to get into Jianghai Academy.

"They're just a group of ordinary students with poor vision. It's not strange that they can't understand high-level battles. Brother Chuan Gu can't be blamed for this."

In the end, it was song Jiangshan who stood up to smooth things over. Although he was also from the chief element, he still had some face among the dozens of seats in the local element.

"Hehe, old song, if you say you don't blame me, then I won't blame you."

Zhang Shichang accepted the good advice and said pointedly, ""Someone probably won't be able to sleep after seeing Lin Yi's methods."

Naturally, the target was the ninth seat, du wuhui, who was now completely up against Lin Yi.

Du wuhui coldly snorted in response, "it's just some ghostly tricks that are real and fake. In the face of absolute power, does he have the chance to use these tricks?" What a joke!"

He did have the confidence to say that-after all, the difference in strength between them was clear from the first exchange, even though it was only one of Lin Yi's clones.

However, compared to Shen Junyan, he was at least ten times more powerful, and the power he had under his command could not be mentioned in the same breath.

If he were to be compared to Shen Junyan, then Lin Yi's death would be near.

"I'll be honest with you. This kid's schemes are indeed terrifying. Brother wuhui, you have to be wary of him. "

Song Jiangshan reminded him seriously.

The meaning behind his words was that if they really fought, du wuhui was not really without danger.

No one refuted his words, but even du wuhui himself, who had a disdainful expression on his face, knew that song Jiangshan wasn't exaggerating. In fact, he didn't need to be reminded at all-he had already raised Lin Yi's threat level to the highest!

Looking back at Lin Yi and Shen Junyan's battle, no matter how one looked at it, Shen Junyan had won completely.

Even if the ten Chiefs valued Lin Yi's domain clone a lot, it was only because of its strategic value. It was the perfect power booster, especially for large-scale battlefields. However, in a one-on-one battle like this, its effect was limited.

Putting aside the two levels of difference, Lin Yi's clone territory, which he had just started with, had no advantage over Shen Junyan's high-level life territory, even if it was a perfect territory.

Yet, even when his hand wasn't as good as his opponent 's, Lin Yi still had the last laugh and won in a clean way!

The key to counter-killing was psychological.

Clones were perfect for psychological games, especially perfect clones like Lin Yi 's.

From making use of Shen Junyan's psychological state to make him misjudge, to using all sorts of reverse hints to make him fall deeper and deeper, to going further and further in the wrong direction, and finally using a domain-shattering move like the double heavens of life and death on a clone.

Chapter 9517

Lin Yi's actions in the battle were like the horns of an Antelope, and normal people wouldn't be able to understand it at all. Only the tenth seats, who stood at the top of the pyramid, could see it.

Especially that last sword, it could be considered the peak of psychological warfare.

Shen Junyan did send himself to the sword, but Lin Yi's psychological manipulation was the only reason why he was so flustered.

From the direction he chose to the speed at which he escaped, everything was within Lin Yi's calculations. The result was that he'd sent himself to hell.

"The details are all devilish. This man is indeed extraordinary."

The first seat Xu Anshan, who rarely spoke, gave Lin Yi a high evaluation for the first time, shocking everyone.

"Don't tell me the chief also likes Lin Yi?"Shen Qingnian raised an eyebrow.

If Xu Anshan said he wanted to recruit Lin Yi, no one would be surprised. After all, everyone knew that the Tian family's head favored Lin Yi. As the third brother of the Tian family, it was natural for Xu Anshan to be on the same side as Tian Xiangyang.

However, du wuhui was in an awkward position.

"According to the rules of the Academy, before the end of the seat battle, the remaining ten seats are not allowed to interfere in any way. Violators will be stripped of the qualifications of ten seats."

Xu Anshan's words implied that he wouldn't be biased until the result between Lin Yi and du wuhui was determined.

As for what would happen after that, that would depend on the situation.

"That's for the best," Shen Qingnian nodded.

To this, du wuhui, who was the person involved, didn't have any reaction. He didn't make eye contact with anyone either. He sat in his seat with his head lowered and eyes closed. It was unknown what he was planning.

At the same time, with Lin Yi's final decision, the other battles in the martial arts society's headquarters were also coming to an end.

As expected, the freshmen Alliance suffered heavy casualties again. Even with a monstrous freshman like Ying long leading the team, there was still a qualitative gap in the strength of their domains.

A battle between high-level domain experts and low-level domain experts had always been one-sided. Besides Ying long and Bao shaoyou, the rest of the freshmen hadn't even mastered their domain yet.

Even if they were the main force of the freshmen, each and every one of them was just cannon fodder.

However, the good news was that after the rebirth Alliance paid a huge price, they still had the last laugh.

In this process, the only two domain experts, Ying long and Bao shaoyou, were naturally the main force. However, there was one person that had to be mentioned, Wei baizhan.

Although he had yet to master his domain, he had personally wrung the head of the executive Vice President, Zheng Xi, in the battle just now.

The scene was bloody and terrifying.

His strength was once again deeply rooted in people's hearts.

If he was already so powerful before he had even mastered the domain, then once he mastered the domain, especially if he could create an unparalleled domain like the life domain, wouldn't he be invincible?

But thinking about it, there was an even stronger Lin Yi above them, and they weren't worried anymore.

"Congratulations, you've really grown up this time. From now on, you'll be one of the ten Chiefs."

Han Qi suddenly appeared beside Lin Yi.

This was not a compliment, but the truth.

After this battle, the rise of the new student Alliance was already set in stone. Once they digested the huge resources of the martial arts Society, the new students who had been baptized by actual combat would definitely soar to the sky!

With Lin Yi's style and attitude, they would receive far better treatment and resources than the previous freshmen. They might only have a single-digit number of domain masters now, but in less than a month, domain masters would spring up like mushrooms after the rain.

In fact, he might even become the new student with the highest rate of advancement!

If they wanted to enter the higher grades, they had to first cultivate a domain. With the best conditions, it wouldn't be strange for this batch of new students to surpass any previous batch.

"In a month, I will officially make my move against du wuhui. Can you wait on your side?"

Lin Yi asked.

Du wuhui was not Shen Junyan. He could rely on a group of freshmen who did not know how to apply for a domain to get into the martial arts Society, but he would never be able to get into the core group under du wuhui's command.

He was confident that he could make more than half of the new students become domain experts in a month's time. Only then would he have the capital to fight du wuhui's group.

Before that, although it would not be peaceful, the intensity of the conflict must be controlled within a certain range, otherwise it would be self-destructive.

Besides, if he wanted to take care of du wuhui face to face, Lin Yi's own strength would need to take a huge leap!

"No problem," han Qiqi nodded.

According to his previous plan, he should have already made a move on the fifth XI, Ji Chi, by now. However, an accident happened midway, and he had to re-design many parts of the plan. It would take at least a month.

"Which part of the martial arts Society do you want?"

Lin Yi cut to the chase.

The martial arts Society was built by the combined efforts of three parties. Although the freshman Alliance was the main force and would inevitably take the majority of the cake, without the assistance of Zhang Shichang's warrior's Department experts and Han Qi's disciplinary Association's dark department experts, it was impossible to rely on a group of freshmen who did not even have a domain to break through the martial arts Society.

As a three-party alliance, the next step of splitting the loot was of utmost importance.

Only when everyone was satisfied with each other could the Alliance continue to be maintained. Otherwise, it would fall apart sooner or later. If something went wrong, they might even turn against each other and become enemies. There would be a sea of examples of this.

Han Qi shook his head. "Forget it. You can keep it for yourself and slowly digest it. I really don't care about the martial arts Society."

The martial arts Society was not a small organization. In the eyes of ordinary students, it was indeed very powerful. It even had the aura of being the number one non-governmental organization under the

Academy. Although the warrior's Department and the Disciplinary Committee could crush it, they were still official organizations of the Academy. Their backgrounds were different.

"You're too kind. To tell you the truth, I'm definitely going to take over the martial arts Society, but I'll only keep the outer shell. I won't keep a single one of those wily old fox elite teams. You can share them with the warrior's Department. It'll save me a lot of trouble. "

Lin Yi said honestly.

"If we're talking about the martial arts society's most important asset, other than the senior executives of the martial arts Society, it would undoubtedly be the 13 elite teams.

If it was anyone else who had taken over the martial arts Society, the first thing they would do would be to think of ways to subdue these elite teams.

In Lin Yi's position, the safest thing to do was to get the core members of the Alliance to infiltrate the elite teams while keeping them under control. He'd then slowly take over the elite teams and have them all under his control.

In fact, it was Shen Yifan's suggestion to Lin Yi, but he rejected it.

Of course, if he could successfully take down 13 elite teams, the power under him would directly usher in a leap and increase explosively. It would be especially beneficial for the battle against du wuhui's group in a month's time!

After all, according to the rules, when he faced du wuhui, not to mention Han Qi, at least Zhang Shichang and the warrior's Department under him could not interfere in any way. It was even more impossible for them to directly send out the warrior's Department experts to participate in the battle.

At that time, he could only rely on himself.

Chapter 9518

Han Qi frowned and looked at him, "you really want to raise it?" Although you new students are not simple, your starting point is too low. It's still okay to pick a few top students and nurture them, but you want to lead the entire new student Alliance and take off? aren't you thinking too much?"

"I'd like to try,"

Lin Yi didn't say much-it wasn't worth it.

Whether or not he could succeed in the future, he would naturally know when the time was right.

"That's fine. I'll pick a few experts suitable for the dark group, and you can leave the rest to old Zhang. His warrior's Department is currently lacking people. Although these guys are a little wild, they should be able to make it into the reserves team after some training."

Han Qi wasn't an indecisive person, and since Lin Yi had already made up his mind, he naturally wouldn't say anything more.

They both understood each other's position-Lin Yi was his subordinate, but he was an ally of equal status.

They could discuss it, but they couldn't say anything.

Since Han Qi had nodded, Zhang Shichang naturally wouldn't dawdle. After all, Han Qi had only chosen a few people, and these people might not be suitable for the warrior's Department. The remaining 13 elite teams would all belong to him, which could be said to be a big profit!

If it were someone else, they might have declined to show their reservation, but who was Zhang Shichang?

The guy was used to slapping the table and cursing at the Council of Ten, and the word "reserved" didn't exist in his dictionary. He agreed to it without hesitation after Lin Yi's call.

After knowing the result, Shen Yifan and the other core members looked at each other.

"If that's the case, the martial arts Society will become an empty shell. I'm afraid it'll be difficult for us to support it."

Shen Yifan frowned.

As the de-facto manager of Lin Yi group, Lin Yi was used to being the hands-off master. Needless to say, the martial arts society's business was left to him to manage.

The problem was that even a clever housewife couldn't cook a meal without rice.

Every large-scale society had its own Foundation. The talisman-making society's Foundation was to make talismans, while the martial arts society's Foundation was to undertake all kinds of tasks and maintain the normal operation of the society through the Commission of the tasks. After all, so many people needed to eat.

However, after all 13 elite teams were sent away, although there were still many ordinary members left, whether it was their individual strength or their ability to complete various tasks, they were far from being comparable to the elite teams.

It was fine if it was a low-level mission of average difficulty. As long as the reward was in place, there was no need to worry about people not doing it. But what about those high difficulty missions?

That was the biggest source of income for the club!

Especially since this was directly related to the martial arts society's reputation and reputation. Once the completion rate of the difficult tasks dropped or even fell, it would be very difficult to win over any big investors and big customers in the future.

"If we really encounter a difficult one, just the few of us will lead the team to take it on. Try to rotate all the new students in, it'll be a good training for the team."

Lin Yi clearly had plans for this.

In other people's eyes, the most important thing in the martial arts Society were the 13 elite teams, but in his eyes, the most valuable thing was the task intermediary platform, which had been neglected by many people, and that was the so-called empty frame.

With this empty frame, he would be able to train the freshmen in a targeted manner. Step by step, he would be able to truly solidify the foundation of the freshmen Alliance!

"Training the team?"

Ying long, who was using Lin Yi's perfect wood domain to recover, suddenly opened his eyes. "Your purpose shouldn't be just this, right?"

The moment he opened his mouth, the originally relaxed atmosphere suddenly became tense.

Even though they'd fought side by side once, he was still a potential challenger in everyone's eyes, the one who could threaten Lin Yi's position the most.

"For example?" Lin Yi smiled.

"For example, we can use this opportunity to completely control the newborn Alliance."

Ying long raised his brows and spoke in a deep voice.

Back then, he was able to enter Xu Anshan's eyes not only because of his strength, but also because of his insight and insight.

An outstanding superior had to have keen insight, otherwise, he would not be able to control people and do things.

Lin Yi's arrangement seemed random, but Ying long thought that it was deliberate.

Using the so-called rotation to create a closer relationship with the new students-with Lin Yi's strength and charisma, it'd be a piece of cake to win them over with some additional benefits.

Once the People's hearts were taken away, the entire freshmen Alliance would completely fall into his hands. At that time, people like Ying long and Bao shaoyou would have no choice but to bow their heads and accept their fate unless they destroyed their Foundation and betrayed the freshmen Alliance.

The situation suddenly became tense.

Lin Yi nodded, "You're right. I do have this idea. If the newborn Alliance wants to achieve something in the future, we have to work together, and the person who can do that can only be me."

"....."

Ying long, Bao shaoyou, and the others were speechless.

One of the most important conditions for them to join the alliance was for them to retain their freedom. Lin Yi's actions weren't a serious breach of contract, but it was clear that he was trying to poach their talents. What was the point of keeping their freedom when all their talents were gone?

How could he endure this?

Under everyone's gaze, Ying long suddenly stood up.

The core members of Lin Yi group stood up as well, ready to fight at any moment. The rest of Ying Long's men like song Xiaomi and Bao shaoyou hesitated.

He didn't know whether to stand or sit.

Only Wei baizhan, a lone wolf with no moral integrity, sat in a corner with his head lowered and a grin on his face. He didn't mind watching the show.

He walked in front of Lin Yi and stopped. Lin Yi raised his head and looked at him calmly, not showing any intention of getting up.

The two sides confronted each other silently for a moment.

"I want to see your current strength," Ying long suddenly said.

"Alright," he said.

Lin Yi replied with a smile.

After saying that, he left a clone behind to activate his domain to continue healing everyone. He then left with Ying long.

Song Xiaomi hesitated and wanted to follow him, but Shen Yifan stopped her. ""We can't interfere in their battle, and we can 't."

After the time it took for an incense stick to burn, the two of them returned.

Lin Yi didn't change at all. As for Ying long, he didn't seem to have changed much either. Even if he did, it wasn't a bad thing. His aura was more condensed than before.

"Boss, which one of you won?"

Song Xiaomi quickly asked.

Everyone else had an inquisitive look on their faces as well. There wasn't much suspense in this kind of battle, and Lin Yi had already suppressed Ying long by a hair. Now that he had a perfect domain, the gap between them was naturally even bigger. After all, Shen Junyan, who had died to Lin Yi's sword, was still alive.

Lin Yi only smiled, not saying anything.

"From now on, we'll call him boss. We'll merge into Lin Yi group," Ying long replied.

Everyone was shocked.

Joining Lin Yi group and joining the new student Alliance were two completely different things!

Chapter 9519

Lin Yi was officially recognized as the tenth rookie King, and joining the new student Alliance was a good thing. On the other hand, they maintained an equal status since they were only allies in name.

As for joining Lin Yi's group, he wouldn't be an ally anymore. He'd be lowering his head to Lin Yi completely. He wouldn't be on the same level as Lin Yi anymore. He'd become a core officer under Lin Yi like Shen Yifan and the others!

The two identities were worlds apart.

"Awesome."

Everyone in the room was in awe of Lin Yi.

They didn't know what had just happened, but they knew how proud Ying long was. In the entire Jianghai Academy, only the first seat, Xu Anshan, could win his heart. Other than the students, even the ten Chiefs might not be able to do anything.

The fact that Lin Yi was able to win him over was shocking enough-it was even more shocking than him killing Shen Junyan two levels above him!

"If that's the case, then we'll respectfully comply."

Bao shaoyou said with a smile.

The crowd wasn't surprised by this. Instead, they felt that it was natural. After all, Ying long had already voted. If Bao shaoyou continued to hold on, he would become the only lone Army in the rookie Alliance. It would be meaningless.

Then, everyone looked at Wei baizhan in the corner.

Wei baizhan was stunned. He never thought that he would be seen in this show. The corner of his mouth twitched as he said, ""What are you looking at! I've already joined boss Lin, what's there to see?"

Everyone was still skeptical.

Lin Yi didn't say much. Once this lone wolf was used properly, its value wasn't below Ying long 'S. Just like the fierce battle just now, it could be said to be the best of the game other than Lin Yi.

However, he had to always be vigilant of this guy's moral integrity and never overestimate it.

After all, this guy had no moral integrity at all.

No matter what, the new life Alliance was officially United on the books and was now a true direct force of Lin Yi's group. As for how far they could go after that, that would depend on Lin Yi's methods.

"Boss, it's such a big day. Should we have a party to celebrate?"

The Imperial court of Zhao cheerily suggested.

"There's no need to celebrate yet, we're not done yet," Lin Yi chuckled.

"What other business is there?"

Everyone was puzzled.

Even Shen Yifan was at a loss. He had to take over the martial arts Society, and it was a complicated affair indeed, but Lin Yi had already decided on the foundation. All that was left was the operational details, and it wouldn't affect the banquet.

"They're here. "

As soon as Lin Yi finished speaking, a group of Masters in the uniform of the warrior's Department entered everyone's sight, and they all straightened their posture.

After fighting side by side previously, they had already acknowledged the strength of the Warriors 'department's experts from the bottom of their hearts. Even if the team in front of them was not their comrades from earlier, they would still subconsciously give them respect.

Buzzzzzz!

The warrior's Department Masters stood in front of Lin Yi and saluted.

The leader took a step forward. "I, pang Yun, the captain of the teaching Brigade of the warrior's department's third team, and all my comrades from the third team are here to report to you!"

"You're welcome. I'll have to trouble you in the future. If you have any needs, just ask him directly. He'll give you priority."

Lin Yi pointed at Shen Yifan, who was confused.

"What do you mean?"

Shen Yifan was dumbfounded. He could already guess what was going on, but he was afraid that he might be too optimistic and make a fool of himself.

"What else?" Lin Yi smiled. I gave him 13 elite teams, and he gave me a teaching team in return. It's in charge of the freshmen Alliance's training. "

"I'll go! So generous?"

Even Shen Yifan was shocked. Although there were only ten people in each team, the teaching team of the warrior's Department was well-known. The combat power of any small team was enough to fight against more than five established elite teams of the martial arts Society!

This was just its secondary value.

The teaching team, as its name suggested, was a professional instructor. Its core ability was to train batch after batch of elite experts on a large scale and with high efficiency!

The teaching team played an important role in the warrior's department's current strong combat power. Everyone knew that every expert in the teaching team was Zhang Shichang's favorite. Normally, outsiders would not even look at them, let alone give them away. After all, they were chickens that could lay golden eggs!

This time, they had actually sent out a small teaching team!

Shen Yifan couldn't help but reevaluate Lin Yi before turning to Qiu sanniang. "There's nothing going on between you two, right?"

"Ha?"

Before Lin Yi could react, Qiu sanniang's shoe had already flown over, her voice filled with dissatisfaction, "Is this the dowry I'll get when I get married? Who Do You Think You Are looking down on?"

Shen Yifan quickly begged for mercy. "Yes, yes. How can a small teaching team be enough? we should at least have an entire teaching team!"

On the other side, Ying Long's eyes lit up. "With this group of people, one month is enough for the entire newborn Alliance to be reborn. At that time, even if they really face du wuhui's group, they might still have the power to fight!"

Taking down du wuhui was the first step of Lin Yi's big plan, and also the most important step.

He'd officially joined Lin Yi's side, but he'd still had his suspicions-no matter how much he tried, his chances were slim. No matter how strong Lin Yi was, he couldn't close the gap by himself.

But now, looking at the warrior's department's teaching team in front of him, Ying long immediately felt that he had everything under control.

This wasn't the end-three men in the uniform of the Disciplinary Committee's Black operation came up and saluted Lin Yi. "The dark group training group is reporting for duty."

The crowd was in an uproar.

The training ability of the warrior's department's teaching team and the training intelligence of the Disciplinary Committee's Dark team. What kind of godly lineup was this?

These were all elite students, and many of the things they taught could not even be learned in classes that were specially paid with credits. What kind of abilities did this batch of freshmen have to receive such exaggerated treatment?

Even if the ancestral tomb was smoking, it was not this reckless.

Not to mention Shen Yifan and the other senior members of Lin Yi group, even new members like Ying long and Bao shaoyou, and even the unpredictable Wei baizhan, couldn't help but feel excited at the scene.

This time, the new student Alliance was really going to grow!

With Wei baizhan's personality, he didn't have much loyalty to him, but if Lin Yi group could continue to grow, he wouldn't be so fickle.

After all, he had his own plans. With a powerful force behind him, many things would be much easier.

"Start the banquet!"

With Lin Yi's order, the Zhao imperial court immediately cheered and took the lead to start the preparations. The location was at the martial arts Society headquarters.

Chapter 9520 Power

Although it was a bit of a loss due to the recent war, it wasn't embarrassing. On the contrary, it was like a man's scar-it was a medal that proved Lin Yi's group's strength.

It was convenient for everyone to brag to each other,"do you know how the pillar collapsed?" I did it!

The bonfire was raised and the wine was served.

Other than the few who were seriously injured, all the members of the new student Alliance were present. As Lin Yi group's most important money bag, the talisman society was naturally present as well, with Tang Yun and Wang shiqing leading the team.

Other than that, Lin Yi's friends sent their high-level representatives as well.

They couldn't directly contact Lin Yi in private because of the seat challenge, but it was fine to send someone to express their gratitude.

Other student groups also showed their goodwill, some even suggesting forming an alliance with Lin Yi's group.

However, Lin Yi gave it to Shen Yifan.

It was not that he was being arrogant, but with his current reputation, this was the most normal way of doing things. If he was too casual, it would make people suspicious.

He was the 10th Best Newcomer, and he was in charge of the Golden generation rebirth Alliance. At the same time, he also had the martial arts Society and the talisman making society, two top societies, under him. He also had strong external support like Zhang Shichang and Han Qi.

In terms of overall strength, Lin Yi's group could be ranked in the top ten of the entire school, or at least in the Academy!

The only difference was that the other five societies, along with the martial arts Society and the talisman-making society, didn't send anyone to express their goodwill. Instead, they'd sent their own internet trolls to attack Lin Yi's group. It was obvious that they were trying to suppress Lin Yi's group through public opinion.

"Aren't you angry, Lin Yi big bro?"

Wang shiqing was eating barbecued meat while scrolling through her phone in anger. She was so addicted to the internet that two of her phones were broken.

If it wasn't for Tang Yin's care, he'd be working in the talisman making company already. Phones were the most advanced technology here, and they were no less expensive than precious tools and pills.

"Yes."

Lin Yi replied absent-mindedly as he scanned the crowd, but he couldn't find the person he wanted to see.

"What does" hmm "mean? Lin Yi bro, are you looking for someone?"

"Tang Yun sis is right here," the girl replied quickly.

That got Tang Yin's attention, and she raised an eyebrow at Lin Yi's worried face. "You're not looking for her, right? Don't tell me she's your girlfriend too?"

"....."

Lin Yi couldn't take it anymore-he wanted to slap himself in the face. How was he supposed to answer this question?

Wang shiqing was curious,"who is she?" Who is she?"

"She's naturally ..."

Tang Yin was about to answer when Lin Yi's eyes stopped her.

They could talk and argue, but their relationship couldn't be exposed.

Although Lin Yi still didn't know what Chu Mengyao's situation was, he didn't dare to test her out with that mysterious old man following him around. He didn't dare to look for her in private before he got news of her.

According to Chu Mengyao's words, there was only one thing he could do now, and that was to wait.

The elder's attitude towards Mengyao meant that Mengyao's personal safety was fine, and she wouldn't be in any real danger for the time being.

The only thing that worried Lin Yi was the fact that Mengyao hadn't been in school for a while.

If it weren't for the fact that Mengyao kept sending him messages every once in a while, Lin Yi would've lost his calm already. He'd used the celebration party as an excuse to meet Mengyao, but it was still a no-no.

Thinking back to Tian Xiangyang's actions during this period, Lin Yi had a strong feeling that this had something to do with Chu Mengyao!

However, he couldn't even see Chu Mengyao in person, so he couldn't verify it.

Tang Yin frowned-she knew that Lin Yi was hiding something from her, but she didn't say anything. She only rolled her eyes at him.

After this period of time together, although she didn't get back that unforgettable memory, she was used to Lin Yi's existence. She would subconsciously or unconsciously put Lin Yi in charge of many things.

But speaking of it, it seemed like she was the young miss?

At this moment, a loud noise suddenly came from the gate in the distance. It seemed that someone had come to cause trouble. Many new students had already consciously stood up and surrounded it.

After the battle at the martial arts Society, they had displayed their sense of belonging and honor to the freshmen Alliance. Now that they were in high spirits, how could they allow outsiders to be impudent?

"What's wrong? What's wrong?"

Wang shiqing jumped up in excitement, as if she was just here to watch a show.

Lin Yi's lips curled up as he glanced at it. "Speaking of the devil, the three major clubs have joined hands to wish me a Happy Birthday? Interesting. "

"It looks like they don't have good intentions."

Shen Yifan chuckled as he stood up. Lin Yi didn't need to handle this himself-it was more than enough for the head butler.

In the end, even the martial arts Society, the top of the five major societies, had been swallowed up. What were the other three major societies?

"The pill society, the Freemasonry society, and the domain society. The three presidents have appeared together. This is a rare scene. A rare guest."

Shen Yifan smiled as he walked forward. The group of freshmen automatically made way for him.

Although he hadn't formed his domain yet and was weaker than Ying long and Bao shaoyou, he was the second-in-charge of Lin Yi group. Everyone respected him even more than Ying long.

After all, anyone with eyes could tell that this was Lin Yi's most trusted brother, and that he was destined to be a Big Shot in the future.

"Eh? Lin Yi didn't want to come out himself, so he sent a subordinate to entertain us. Did he go too far?"

The president of the pill society, who was standing in the middle of the opposite side, snorted coldly when he saw this.

The president of the Freemasonry sneered and said, "He only took down a martial arts Society, and he didn't do it with his own strength. He relied on the warrior's Department and the Disciplinary Committee's Secret department to help him. He was just lucky to pick a ready-made peach. Does he really think he can fly?"

Of the three presidents, only the president of the domain society remained silent. However, since he was here, it had already shown the attitude of the domain society and him.

Behind them, the group of club executives and members also joined in the clamor. Their words were harsh and harsh, just like the group of internet trolls who fanned the flames.

Shen Yifan's face turned cold, "are you here to cause trouble?" Alright, I will accept it on behalf of the new student Alliance. "

With one sentence, the people of the three societies opposite him suddenly choked.
