

Bodyguard 9521

Chapter 9521

They might be tough with their words, but they didn't have the confidence to go to war with Lin Yi's group, even if the three of them worked together!

Although they were the five major clubs in name, in terms of actual combat power, the other clubs were not on the same level as the martial arts club.

After all, the martial arts society's main business was combat, but it was not the case for the other families. There was already a gap in the combat strength of their members, not to mention that the martial arts Society had a powerful person like Shen Junyan in charge.

The martial arts Society was defeated just like that, and Shen Junyan died under Lin Yi's sword in front of countless viewers. Who would dare to face Lin Yi with their strength?

"Terrified! They were terrified! A bunch of idiots!"

The freshmen immediately booed.

The three presidents' faces turned red, but they didn't dare to go all out due to their strength. They could only grit their teeth and stare at Shen Yifan. "Is this how you treat your guests?"

Shen Yifan blinked his eyes and asked, "so, you're here as guests?" I must have misunderstood. I thought you guys were here to freeload and take advantage of me when I saw you guys acting so aggressively even though you're empty-handed. I'm sorry. "

All the new students laughed together.

Normally, Shen Yifan wouldn't be this aggressive, but these people obviously didn't have good intentions. From the moment they started the internet to defame Lin Yi and the new student Alliance, they were already enemies.

There was no need to be polite when facing an enemy.

"Alright, alright, alright."

After being forced to this point in front of so many people, if it wasn't for du wuhui's orders behind them, the three presidents would definitely turn around and leave. However, they didn't dare to do so today. They had to brace themselves and stay here.

Under everyone's watchful eyes, the president of the pill society had to take out a box of high-grade pills. Although it was not a high-grade pill that could only be encountered by luck, it was still a good product that was rarely seen on the market.

After all, he always carried it with him as a meeting gift when dealing with important people. Naturally, it could not be an ordinary elixir. Even with his wealth, it would hurt to take out a box like this.

The eyes of the freshmen lit up.

A pill like this wasn't enough for a pill master like Lin Yi, but it was still extremely valuable to them. Even if there weren't many pills that could directly help one break through after reaching the peak of Big Shot, it was still extremely valuable in battle and in normal situations.

When the news reached Lin Yi's ears, he laughed, "These pills will be distributed to everyone on the spot. Everyone will have one. If there's not enough, we'll get another batch from the pill society."

All the freshmen were overjoyed.

The president of the pill society felt his heart bleeding as he watched the high-grade pills that he had carefully prepared be split among a group of new students who were nothing.

If this fell into the hands of someone with real power, at least it could make a good relationship and play a role.

What good would it be for him to end up in the hands of a bunch of bumpkin freshmen?

Didn't you see how the guy was praising Lin Yi and mocking him at the same time?

He had a stomach full of vulgarities and couldn't say them out loud. The other two presidents beside him were in a difficult position. They could only silently criticize him while they braced themselves to take out things as meeting gifts.

It was just that the two of them were obviously not as generous as the president of the pill society. Although everyone was the president of the five great societies and their status was similar, their family backgrounds were completely different.

The pill society was like the talisman making society. They were famous for disguising themselves as a society's money bag. Although the other Freemasonry societies and domain societies had outstanding achievements in their respective fields, their income was far from good.

Looking at the items that the two of them took out, the entire place fell into a strange silence.

A book and a stone.

"Just this?"

Some insensible guys broke the awkward silence. Faced with everyone's collective and unconcealed disdainful eyes, the two presidents' old faces flushed red, and they wanted to dig a hole in the ground and hide in it.

The things they took out might look shabby, but they were not trash that people looked down on.

The booklet was a collection of cultivation methods and martial arts techniques of almost all the mainstream forces in Jianghai city. Although it was not really a secret, it still had great reference value for most cultivators. At least it could broaden their horizons and make up for their shortcomings.

The stone was a specialized domain research sample for the domain society. Although it couldn't be used directly for cultivation like the original domain stone, it was much easier for beginners to learn compared to ordinary original domain stones because of its clear texture. It was also of great value to freshmen who had yet to cultivate their domain.

These two things weren't of much use to Masters like Lin Yi, but to the new students at the bottom, it was like sending charcoal in the snow.

However, it still couldn't change the poor situation of these two presidents.

It was more than enough to show off to a few new students, but they were here to pay respects to the mountain in person!

He was here to pay respects to Lin Yi group, who was on the same level as the other ten Chiefs in terms of power and influence.

In the end, Shen Yifan came forward to help. "Since the Presidents are here, why don't you come in and have a drink? there will be many times in the future where we need to cooperate."

"Cooperation?"

The three presidents couldn't help but show a strange expression.

With Lin Yi group's current reputation, as long as they didn't have any thoughts of swallowing them up, they would naturally want to work with them. After all, it was one of the major forces in the school and a potential big customer.

Who would go against academic credits?

But du wuhui was watching over them, and with Lin Yi's and du wuhui's irreconcilable relationship, they'd be in deep trouble if they dared to reveal any of their thoughts.

Unlike Shen Junyan of the martial arts Society, they didn't have much autonomy in front of du wuhui, their superior in charge. Even the position of President was supported by du wuhui, so how could they resist his will?

To put it bluntly, they were the three presidents on the surface, but in reality, the three major societies were all controlled by du wuhui's direct subordinates. They were just puppets in charge of listening to orders.

Shen Yifan pretended to let the three of them in. As for the club members behind them, they could only stay outside and watch.

Immediately, someone protested.

In the end, Qiu sanniang, who was looking for people to drink with, sneered, "What qualifications do you have to enter the gates of my new student Alliance?"

Everyone on the opposite side collectively suffered internal injuries.

Even if they had the advantage of cultivation, not many of them could defeat Qiu sanniang. Even if they could, they would not dare to speak ill of her in such a situation.

Don't forget, Zhang Shichang was behind him. He was famous for being protective, unreasonable!

Even the group of animals from the warrior's Department were protected by him as if they were nothing, let alone Qiu sanniang, this little sister who had no blood relationship but was closer than biological siblings.

Chapter 9522 Power

At this time, a sharp voice that made people's scalps tingle suddenly came from the opposite side, "If they don't have the right to enter, I wonder if I have the right?"

As he spoke, the sound of a heavy object being dragged on the ground grew closer and closer. Judging by the feeling alone, that thing must be at least tens of thousands of pounds!

The opposite side consciously separated to the left and right, and everyone looked towards the source of the sound. A strange man wearing a flowery shirt and flowery pants slowly came into view, and he was dragging a black plaque in his hand.

The plaque was facing downwards, and for a moment, no one could see what was written on it.

Shen Yifan stared at the person for a while before his eyes twitched. He sent a message to Lin Yi, "He laohei, one of the core members of du wuhui's group. He's extremely powerful, and I heard that he's not any weaker than Shen Junyan."

If he wasn't weaker than Shen Junyan, it meant that he was probably stronger than Lin Yi. After all, Lin Yi didn't kill Shen Junyan with pure strength, but with his mentality.

If this kind of person was determined to cause trouble, today's scene would not be easy to clean up.

Lin Yi smiled, not thinking much of it. "It's fine. Let's watch his performance. "

"Seeing that you're having so much fun, I'm here on behalf of my ninth master to give you a gift to liven up the mood."

The man chuckled, his dark face full of mockery as he threw the board in his hand. The board shot towards Lin Yi like an electromagnetic bomb!

There was even a series of ear-piercing sonic booms!

The freshmen's expressions changed drastically.

After the battle at the martial arts Society, although they were full of confidence, they had not yet had the time to convert it into strength. There was no way they could withstand such a fierce and abrupt attack.

They were pretty confident in Lin Yi's strength, but if they needed Lin Yi to do something like this, it would be too much of a loss for them as leaders!

After all, Lin Yi's target was du wuhui, and the person he sent out was just an unremarkable subordinate. Shen Yifan wouldn't even be able to name him if he didn't do his homework.

Shen Yifan frowned slightly. He could catch up with her with his movement technique, but he might not be able to stop her!

He wasn't confident, and neither was Qiu sanniang, who was the closest to him. After all, both of them walked the path of agility.

Yue Jian, the strength-type contestant, was the most suitable to receive the blow head-on. However, he had been severely injured during the battle with Shen Junyan, and it was difficult for him to even stand up now, let alone forcefully make a move to support the situation.

At the critical moment, an earthquake passed under everyone's feet and exploded right under the plaque!

The plaque changed direction and shot up into the sky.

After a few breaths, it fell from the sky amidst a series of exclamations and crashed into the center of the entire venue, sticking straight into the ground.

The earth quaked and the mountains shook.

Only then did the four big words written on the front of it appear in front of everyone in a grandiose manner. The entire venue then fell silent.

"A small man intoxicated by success."

Everyone turned to look at Lin Yi. They all knew what happened between Lin Yi and du wuhui, and they all knew that there would be a life-and-death battle between their family and du wuhui's group.

For du wuhui to send people to do this at this time, it was obviously a public provocation to disturb the morale of your Army!

If the sign was made today, the new student Alliance's pride would be gone. No matter how much effort Lin Yi put in, it'd be hard for them to grow again.

Lin Yi still didn't get up. Ying long, who had just attacked, walked over and stepped out.

The majestic and fierce power of the earthquake immediately penetrated the plaque. However, unexpectedly, this ordinary-looking plaque was actually unscathed!

If it wasn't for the fact that the ground beneath him was instantly riddled with holes, everyone would have thought that Ying long didn't use his full strength.

In the entire Lin Yi group, Ying Long's strength was undoubtedly the second strongest, only below Lin Yi. If he couldn't cover it up even after he made a move, then Lin Yi would have to do it himself.

Once Lin Yi stepped into the ring, no matter what the result was, Lin Yi group would have lost.

Everyone was watching.

Ying long frowned slightly. He stretched out his hand and pressed on the board. Then, he exerted force once more.

The power of the earthquake was unleashed without any reservation, instantly pouring into the interior of the plaque, trying to break it from the internal structure.

However, there was still no effect. To a certain extent, the power of the earthquake, which could be said to be one of the most powerful attacks, was like a clay ox entering the sea when it entered. There was no echo at all.

This was awkward.

He laohei laughed unrestrainedly, ""How about I help you think of a move? Don't you know how to make an earthquake? How about this, you loosen the soil below, dig a bigger hole, and then bury it. Then, no one will be able to see it. Wouldn't that be a happy ending for everyone?"

"Hehe, if you really can't do it, you can just bury your head in the sand like an ostrich. Who doesn't have embarrassing moments? I can understand!"

"When the time comes, even if you don't show it on your face, you will have it in your heart. It can also be considered the unique spirit of your freshman Alliance. Isn't that good?"

The Presidents of the three major clubs and their minions echoed and ridiculed.

The group of freshmen couldn't suppress their anger and were about to attack.

Who couldn't endure it!

However, without Lin Yi's nod, they had to endure it no matter how angry they were. This was related to Lin Yi and the reputation of the entire freshmen Alliance. If one of them couldn't take it and got angry, it would be embarrassing for everyone.

Which was more important? all the freshmen still had a sense of propriety. After all, they weren't really ignorant little brats. The weakest of those present were also big shots at the great circle of perfection.

Ying long wasn't affected. Since he couldn't shatter it with the power of the earthquake, he would just change his mind and throw it back!

However, something strange happened again.

He actually couldn't pick it up.

Everyone's eyes fell. Ying long was a King-type player with both speed and strength. In terms of strength, he might not be the strongest, but he was at least one of the strongest in Lin Yi's group.

But no matter how hard he tried, he couldn't lift the plaque made of an unknown material!

Logically speaking, even if it really weighed tens of thousands of Jin, with his full strength, it was impossible for it to remain motionless. There must be something fishy about it!

However, if even Ying long couldn't do it, the others naturally didn't have any hope.

Everyone's eyes fell on Lin Yi again.

A random plaque forced Lin Yi to do it himself-it wouldn't be nice if word got out, but any "villain" would become the new shame and the entire Lin Yi group would become a joke!

However, Lin Yi was still sitting there with a calm expression, not showing any intention of getting up.

"Are you afraid of losing face? That's right, as the boss, if he can't move a mere plaque with his own hands, then he'll really become the joke of the year, hahaha!"

He laohei laughed first as a sign of respect, and the lackeys of the three major societies behind him followed suit. The scene was very "cheerful".

Chapter 9523 Power

"Damn, I can't bear it anymore!"

Qiu sanniang was furious and immediately stepped forward to try. Although she knew that it was almost impossible with her strength, she couldn't just do nothing and let a group of bastards laugh at her.

"Let a woman come up here to move things?"

He laohei laughed slyly. If it wasn't for Zhang Shichang's abuse of power, he would definitely take out his phone to take a picture and upload it online.

But in the end, Qiu sanniang was unable to move forward, because a tall figure had stepped in front of her.

Yan Zhongyuan.

As the number two fighting force recognized by Lin Yi group, Yan Zhongyuan was a monster who could fight against Ying long directly. Naturally, his existence left a deep impression on all the freshmen. However, because he was in closed door cultivation, he didn't make it to the martial arts Society battle.

He didn't expect it to appear at this time.

"There's something strange about this thing. It seems to be sucked in by something. "

"Let's go!" Ying long reminded before turning and walking to the side.

"Can this brother silent meditation do it?" song Xiaomi asked.

"If even he can't do it, then no one else can."

In terms of understanding Yan Zhongyuan, he, who had once been an opponent, knew him better than anyone else present. It was because of this understanding that he knew Yan Zhongyuan's strength better.

He laohei was still fearless, "This big idiot looks quite strong, but it's a pity that the things I gave out can't be picked up with just a stupid arm."

He had absolute confidence in this.

Yan Zhongyuan suddenly turned around and asked, "This is a magnet, right?"

"....."

Old black he choked.

Yan Zhongyuan's guess was right. The board looked like it was made of wood, but it was actually made of metal, and it was a specially made huge magnet!

If it was just the weight of the plaque, it wouldn't be able to stop Ying long. The key was the strong magnetic force.

It was said that when the martial arts society's headquarters was built, hundreds of thousands of Jin of steel was buried under the ground as the base of the formation in order to set up a unique protective formation.

This plaque was stuck in the ground, and to a certain extent, it had already become one with the array base below.

To lift it was equivalent to lifting a metal array base that weighed hundreds of thousands of Jin. Especially since everyone was standing on top of the array base. Whether it was in theory or in reality, it was simply impossible.

Tang Yin's eyes lit up as she sat beside Lin Yi. "Then we just need to eliminate the magnetic field, right?"

Old black he's expression changed and he sneered, "If the 10th seat is shameless enough to cheat like this, then I have nothing to say. But if that's the case, I'm sure I gave you the right plaque. It suits you very well."

"Who's the one who doesn't want to show his face?"

"You're deliberately trying to play tricks. It sounds like you're describing yourself," Shen Yifan immediately retorted sarcastically.

"That's up to you,"

He laohei, on the other hand, wasn't a big deal at all-the key was exposed, but if Lin Yi really went to the trouble of finding someone to rub it in, they'd all be laughing at him for sure.

Yan Zhongyuan suddenly spoke again, ""No need,"

"Ha?"

He laohei couldn't help but widen his eyes exaggeratedly, as if he had heard the biggest joke in the world. He pointed at Yan Zhongyuan and said, "Didn't I say that this year's freshmen were all bragged about? not all of them can be trash. Good luck brother, I have faith in you!"

The freshmen all looked at Yan Zhongyuan with worry.

It wasn't that he didn't believe in Yan Zhongyuan's strength. It was just that after understanding the current situation, it was impossible to have confidence in normal methods.

Just like Tang Yin said, the magnetic field was the only option.

Then, everyone saw a scene that they would never forget.

With Yan Zhongyuan as the center, an invisible power spread out. The ground under his feet started to shake. It wasn't like the earthquake when Ying long attacked. It was like an invisible giant hand was pressing down on the ground, not allowing it to rise.

He didn't let the ground beneath his feet rise!

As soon as this thought appeared, everyone felt that it was extremely ridiculous. However, reality was such a ridiculous feeling.

Then, they saw Yan Zhongyuan holding the board with one hand. He slowly and firmly pulled it out bit by bit until it was lifted above his head.

"This ... What the hell happened?"

All the freshmen didn't know what was going on. They only knew that Yan Zhongyuan had done something amazing, but they didn't know how amazing he was.

"Gravity and repulsion are a perfect match," Lin Yi said, "old Yan's isolated training didn't go to waste. Not only did he learn the gravity domain, but he also learned the repulsion domain. He's pretty invincible."

To put it bluntly, the scene just now was actually very simple.

He used gravity to hold the array base under his feet, and at the same time, he used repulsion to offset the strong magnetic force on the plaque. All that was left was to pull the plaque out.

"Hehe, you're good."

He laohei sneered when he saw this. The task of suppressing the rising momentum of the new student Alliance could no longer be carried on, so there was no point in staying. He would only humiliate himself, so he immediately prepared to leave.

However, Shen Yifan had already stepped in front of him.

"You can come and go as you please, do you think this is a public toilet?"

"You still want to keep me?" old he was stunned.

He really didn't expect something like this to happen-as far as he was concerned, with the difference between the two groups, Lin Yi's group would have no choice but to endure it even if he went to Lin Yi's place to make things difficult for him.

No matter how well they dealt with it, they'd only be able to break out of the situation by taking the plaque-if they weren't strong enough, they'd have to let the plaque stand in the center of their headquarters forever, and everyone in Lin Yi group would have the glorious title of 'villain intoxicated by success'!

He had never expected that this group of people would actually want to keep him!

Shen Yifan chuckled. "It's impolite not to reciprocate. Although we are a group of new students, we still know the rules of reciprocity. We can only trouble you to stay and give us some advice. What kind of gift should we give to meet du juxi's intentions?"

"Kid, do you know what you're talking about?"

He laohei's eyes were like those of an idiot who did not know death.

After taking down the martial arts Society, Lin Yi's group's name had indeed spread far and wide. Even the core members of du wuhui's group all agreed that if they let Lin Yi and his new generation Alliance grow, they would be a strong enemy in the future!

However, that was in terms of potential!

Before transforming into true strength, no matter how good one's potential was, it was all air. It was pure like a fart.

Lin Yi group was nothing in front of them!

Du wuhui didn't have the habit of raising a Tiger to cause trouble. Since it was already decided that there would be a battle in the future, he wouldn't give Lin Yi any time or opportunity to realize his potential.

The reason why he didn't make a move immediately was that Xu Anshan and the others hadn't gotten the essence of the domain clone yet. He, du wuhui, didn't want to anger the masses because of this.

Chapter 9524 The Power Of The Devil

The day Lin Yi handed over the essence of his domain and clone would be the day of their final battle!

That day wouldn't be too far away, and the ten-seat Council wouldn't have that much patience. Plus, with the man's help, Lin Yi wouldn't be able to delay it even if he wanted to!

But if Lin Yi provoked them first, it would be a different story.

The ten seats couldn't be humiliated-as long as they had a good reason, the other ten seats wouldn't be able to say anything even if he, du wuhui, killed Lin Yi today!

All of a sudden, he laohei was excited.

If they could find a reason to take action today, they would have completed the task over-fulfilled and would be rewarded with great merit when they returned!

Seeing his expression change, Shen Yifan immediately reacted and could not help but think that he had miscalculated.

But then again, if they just let the guy walk away like that, the outside world would think that Lin Yi group was weak and easy to bully, and it might even hurt their own freshmen's pride.

He was in a dilemma.

Lin Yi stood up, "courtesy demands reciprocity, don't you understand?"

"Is the newcomer King declaring war on my ninth master?"

Old black he's face changed. The same words coming out of Lin Yi's mouth and coming out of Shen Yifan's mouth were two completely different concepts.

Shen Yifan was only the second-in-charge, after all. No matter how ruthless he was, there was still room for negotiation. However, once Lin Yi spoke, it represented the highest will of Lin Yi group, and it was the final decision!

Under everyone's gazes, Lin Yi laughed nonchalantly, "I challenged him to a seat in the 10-seat Council, and I even fought him. So what?"

“.....”

He laohei choked for a moment before he said in a low voice, "Newcomer King, you should know that what you're saying now is completely different from what you said in the 10-seat Council, right? You've really thought it through?"

"You're noisy. "

Lin Yi snapped his fingers, and the core members all stood up, sealing off all escape routes. "Does my boss need to explain to a Shrew like you?"

"Fine, I'm a loser and you're a Big Shot. Let's start the war."

Old black he laughed out loud. He was not afraid of the new students at all. Instantly, his aura skyrocketed and his domain was fully activated!

Just like Shen Junyan, he was a big Shot at the peak of the middle stage of the consummate level. Just his cultivation level alone was two levels higher than the strongest person present. Furthermore, the degree of unresolvable in his domain was not the slightest bit inferior to Shen Junyan's life domain!

Almost at the same time, all the metal products on the scene, including the weapons in everyone's hands, were directly magnetized into extreme magnets.

A variant of the metal element, the magnetic field!

As long as it could be magnetized, he would be able to control it as he wished!

Before the crowd could do anything, all the metal items in the area were sucked in by themselves, forming a thick metal barrier that circled around he laohei's body rapidly. The scene was simply spectacular.

Those who didn't use weapons were still fine, but for those new students who used weapons, half of their strength was crippled in just one move, and they could only retreat awkwardly.

At the same time, the Presidents and members of the three largest societies didn't take the opportunity to rush forward. Instead, they chose to watch from the side.

They were du wuhui's subordinates, but not he laohei 's.

It was true that they were ordered to come here today to boost he laohei's reputation, but du wuhui's orders didn't mention anything about starting a war with Lin Yi group. Everything that was happening now was he laohei's own decision, and it had nothing to do with them.

Old black he did not care about this at all.

Be it him or the other core members of du wuhui's group, they had never regarded these clubs as their own people. They were just grass that went along with the flow.

"Newcomer King, you want to use me to establish your might? have you never thought that you might suffer internal injuries if your teeth aren't good?"

He laohei controlled the metal barrier that was growing larger and larger. He was fighting against the entire scene by himself, and he actually had the upper hand in terms of momentum.

Even so, he knew that it was impossible for him to take on the entire Lin Yi group by himself. He couldn't do what Shen Junyan of the martial arts Society couldn't.

However, it wasn't difficult at all to leave a mark and then retreat in one piece!

However, Lin Yi didn't even bother to reply to him. He sat back down in front of everyone and passed a chicken wing to Tang Yin, who rolled her eyes at him.

"Arrogant!"

He laohei's face couldn't hold back any longer. Being ignored was the greatest form of contempt. Ever since he joined du wuhui's Army, when had he ever suffered such a great humiliation?

With a thought, all the metal weapons around him pointed in Lin Yi's direction and broke through the sound barrier, shooting out!

Any one of them had enough power to penetrate through any Big Shot at the peak of the early stage of the consummate level. It was enough to kill 99% of the freshmen present on the spot.

However, Lin Yi remained unmoved.

Unsurprisingly, Yan Zhongyuan's tall figure appeared in front of them. He slapped the ground with both hands, and all the swords fell to the ground. They were pressed down by an invisible force and couldn't move an inch forward!

He laohei's eyelids twitched as he tried to use the magnetic force to resist it.

Yan Zhongyuan's gravity domain was indeed powerful, but he had just finished it. However, he had been a Big Shot at the peak of the middle stage of the consummate level for many years. There was a world of difference between the levels of their domains.

Logically speaking, his magnetic force should be able to crush Yan Zhongyuan 's.

In the end, the swords only showed signs of struggling before they were immediately pressed back down. This time, even the signs of struggling were forcibly suppressed.

Everyone was dumbfounded.

They knew that Yan Zhongyuan was fierce, and now that he had formed his domain, he must be even fiercer than before. But no one had expected him to be this fierce!

Not only was he not at a disadvantage when facing his opponent's domain head-on, but he was also able to suppress his opponent so much that he couldn't even lift his head?

"Hmph, it's just a trick!"

Old black he could not help but fly into a rage.

He wasn't just being stubborn. Although magnetic force and gravity didn't seem to be too different, the magnetic force was supported by the magnetism of his domain, while gravity was everywhere. As long as he was on the ground, it would always be Yan Zhongyuan's home field.

However, when these words were said, it sounded like he couldn't afford to lose in the ears of the others. All the new students in the audience immediately booed.

He laohei was so angry that he laughed. Seeing Yan Zhongyuan striding toward him, he immediately controlled all the metal products to face him. He himself was also among them. Under the cover of the metal products, the outside world could not tell where he was.

He couldn't even lock onto it with his divine sense.

To put it another way, metal products naturally had a certain interference with the divine sense, especially when the density reached the level of the metal barrier. The failure of the divine sense was a high probability event.

Ying long and the others, who were in charge of holding the fort, frowned and prepared to attack.

Although they also wanted to see how strong Yan Zhongyuan had become, it was not a good time to fight him one on one.

Chapter 9525 Power

If he let old he succeed, it wouldn't just be Lin Yi losing face, he would also lose Yan Zhongyuan, an important high-end combat force.

Now that the newborn Alliance had just started, every high-end combat force was the backbone of the Alliance, and they could not afford to lose them.

However, before anyone could make a move, the two sides had already collided. Then, there was an extremely abrupt but soul-stirring dull sound, and even the entire ground under their feet trembled.

The metal objects that blocked everyone's sight fell like a storm, revealing the two people in the middle.

One hand clamped down on the arm, and the other pressed down on the head.

He laohei was pressed into the ground by Yan Zhongyuan. He couldn't even lift his head and could only eat the soil.

The audience was once again dumbfounded.

Everyone looked at Yan Zhongyuan as if they were looking at a monster. He was a big Shot at the peak of the middle stage of the consummate level! He was on the same level as Shen Junyan, both in terms of realm and strength.

He was actually suppressed in one move?

This guy's even fiercer than Lin Yi when he's cheating!

The one who received the greatest shock wasn't anyone else but Ying long.

He thought that even if he wasn't as strong as Lin Yi, he'd still be the second strongest in the Alliance. No one in the Alliance would be able to catch up to him, not even Bao shaoyou!

In the end, such an unreasonable animal had appeared.

It could only be said that Yan Zhongyuan's closed-door training wasn't for nothing. The increase in his strength was so great that it shocked all the new students, and it was enough to make any potential enemies think twice.

"Be careful!"

Lin Yi suddenly felt a sense of danger, and almost at the same time as he opened his mouth to warn Yan Zhongyuan, all the metal objects around Yan Zhongyuan vibrated at a high frequency and exploded at the same time. The scene was exactly the same as when Shen Junyan detonated the life Seed!

Domain shock!

This was the signature move of a powerhouse at the peak of the middle stage of the consummate level. According to the different attributes, there were different ways of displaying it, but the fundamental principle was the same.

The energy of the domain would be injected into the nodes to the maximum, and then the nodes would explode from the inside to the outside, forming a chain of explosions.

It was so powerful that those who had not experienced it could not imagine it.

The scene instantly turned into chaos.

Fortunately, the freshmen had already retreated to the periphery. The ones who stayed behind were the powerful core members like Ying long. Although they were inevitably injured, they wouldn't lose their lives due to their self-protection abilities.

After all, they weren't the first to bear the brunt.

The dust hadn't settled yet, and everyone couldn't help but feel nervous for Yan Zhongyuan.

If they were to suffer the direct impact of the domain's shock explosion at such a close distance, even a Big Shot at the peak of the middle stage of the consummate level would be in danger, let alone a two-stage difference!

In fact, Yan Zhongyuan couldn't be blamed for being careless. Normal people wouldn't expect old black he to dare to use his domain under that situation. After all, he was being held down by Yan Zhongyuan himself.

The damage that Yan Zhongyuan had received was definitely more than what he had received. After all, domain shock explosion didn't distinguish between friend and foe!

The most likely result would be a lose-lose situation for both sides.

Before the dust settled, Shen Yifan and the others, who were the closest, rushed in.

Because the explosives were made of metal, their spiritual sense was greatly affected. It was very risky to rush in like this. However, as partners, they couldn't let Yan Zhongyuan face the danger alone. At least, they couldn't let anything happen to him under their eyes.

However, before they could rush in, another loud explosion came from the center of the dust. Then, they saw a figure in a sorry state rush into the sky, piercing through the dust and flying directly into the sky.

He was old black he.

"I'll remember this debt today. I'll return it to you in double sooner or later. Just you wait!"

Old black he gritted his teeth.

At this time, he was already nearly a hundred meters from the ground, his body covered in wounds. Just as he was about to fall from the sky again, a strange and Swift figure suddenly flew over his head and caught him with one hand.

"That's a Birdman? Or a Batman?"

The freshmen below looked at each other in surprise. The person in the sky clearly had a pair of huge wings, and they weren't wings, but more like the wings of a bat.

Most importantly, it didn't look like it was a manifestation of true Qi, but it really grew out of his body!

"Bat demon Wu Qin!"

Shen Yifan revealed the other party's background in a deep voice. Just like he laohei, he was also a core member of du wuhui's group.

It was said that this person was abandoned by his parents when he was young and lived alone in the Bat Cave for ten years. Later, he had a fortuitous encounter and rose to the top in one step. He did all kinds of evil experiments all day long and made himself look neither human nor ghost. The pair of giant bat wings on his back was his own masterpiece.

This person's level of danger was no less than old black he 's!

"Hehe, Lord Jiu only wanted you to give him a gift, but you almost got yourself killed. Old black, you're getting worse. You have a high chance of being the next removed cadre."

The bat demon in the sky laughed evilly while carrying he laohei.

He was sent here specifically to provide support, and initially thought that he was making a mountain out of a molehill. How could a bunch of noob freshmen possibly trap an expert like he laohei? he did not expect that it would actually come in handy.

If he didn't show up today, he laohei might really die Here!

"Shut your stinky bird mouth!"

Old black he cursed weakly.

Being removed from du wuhui's group was a tradition, similar to elimination for the last place. With his strength, although he couldn't be ranked at the top of du wuhui's group, he was far from being removed from the group.

However, if news of what happened today got out, he would definitely be ridiculed. Not only did he have to fight to the death with a freshman who had just formed his domain, he even almost lost his life. He was really too embarrassed to face anyone.

"Forget it. You're so pitiful. I'll be merciful and help you vent your anger today."

The bat demon laughed and threw down a water bag. When it was only ten meters from the ground, the water bag exploded in the air, and the liquid splashed over the heads of all the freshmen.

"Be careful of the poison!"

Shen Yifan quickly reminded him. The most terrifying thing about the bat demon was its use of poison.

Moreover, the poisons he used were not ones that could be bought on the market. They were all developed by him, and his level of use of poisons had even received the admiration of the seventh seat, Nie Mingzi. It must be known that the latter was the Academy's number one poison master!

The bat demon's self-study meant that the poisonous substances he produced were truly fatal, and there was no antidote for them except for his own position.

Once touched, his life and death would be in his hands.

Shen Yifan's warning was still too late. Other than Qiu Sanniang and the other experts who were proficient in movement techniques, the majority of the freshmen had no time to Dodge and could only watch as the poison got closer and closer to their heads.

"I'll cripple half of your men today!"

The bat demon laughed wildly in the sky. When it came to cleaning up the minions, he was an expert among experts!

But before he could finish laughing, a low roar came from the dust below. It was from Yan Zhongyuan.

Chapter 9526

Immediately after, he saw the poison that was almost on top of the freshmen's heads being controlled by an invisible force field. It condensed back into a ball at a speed visible to the naked eye and shot back towards where he and he Laohei were.

It was the two sides of the gravity domain, the repulsion domain!

All of this happened too suddenly. The bat demon couldn't avoid it in time and was drenched in its own venom. Its whole body suddenly emitted an uneasy green gas.

This poison was indeed developed by him, but this did not mean that he was immune to it.

Moreover, there was the even more unlucky he laohei.

He was already heavily injured, and now that things were even worse, even with old black he's strength, he couldn't take it. His aura became extremely weak, and he was not far from death.

The bat demon was extremely anxious.

He was not that close to he laohei, but if he laohei really died to his poison, he would not be able to live anymore.

The bat demon didn't have time to say anything else and just wanted to run away with he laohei, but Lin Yi, who hadn't moved at all, suddenly took out the demonic devouring sword.

"It's not appropriate to leave without saying hello, right?"

With that, Lin Yi swung his sword.

The sword force flashed across the demonic devour sword's blade and in the next second, it crossed a distance of a hundred meters and directly slashed the bat demon's giant bat wings!

The bat demon didn't even have the time to groan before one of its wings was cut off. This immediately made things worse, and it fell from the sky like a plane that had crashed.

If it weren't for the fact that he could still barely rely on his other remaining bat wing to struggle and slow down, he would probably have fallen to his death. After all, a Big Shot at the consummate level was also human, and each of them was more seriously injured than the last.

"Should we go after them?"

Shen Yifan turned to Lin Yi.

In their current state, the two of them wouldn't be able to struggle for long. If they wanted to catch up, they would definitely be able to. If they mobilized the main force of the freshmen, it wouldn't be a problem to capture the two of them alive.

If that was the case, du wuhui's face would be thrown to his grandmother's house.

Even to the veteran ten Chiefs, these two powerhouses at the peak of the middle stage of the consummate level were very important combat forces. They could not afford to lose them.

Not to mention, they were sent here on purpose to embarrass Lin Yi, and now they'd ended up losing the rice instead. If they were caught alive, their master du wuhui would definitely be on the school's hot search and become the laughing stock of the entire school!

"Forget it," Lin Yi laughed, "let him live."

It wasn't that he was really that easy to negotiate with. An eye for an eye. The current situation was just right. Du wuhui's face would be covered in dust, but it wouldn't be to the extent of a life and death struggle. There was a high probability that he would still endure it.

On the other hand, if he captured he laohei and the bat demon, then there would be no room for negotiation, which would be equivalent to forcing du wuhui to make a move.

Lin Yi and the new student Alliance weren't ready yet.

Qiu sanniang walked over and frowned, "are you so sure that du wuhui won't do anything?" This person has always been hypocritical and thinks of his face as the sky. He might not be so well-behaved, right?"

After suffering such a huge loss, according to the normal development, the other party would definitely find a way to get back at him. It was impossible for them to swallow their anger.

Moreover, she thought that since the other party had already provoked her, she might as well give him a good beating. It would not be a loss to kill two of the other party's core officers before the war.

"It's not that he doesn't want to make a move, but he doesn't dare to. As long as we don't push him too far, it'll be fine. "

Lin Yi smiled calmly.

He looked fierce but was weak inside, scheming but indecisive-this was Lin Yi's judgment of du wuhui's personality.

Du wuhui was a smart person, but the easiest to deal with in the world was precisely this kind of smart person.

A person like this might look dangerous, but he didn't have the guts to break the rules. No matter how much he wanted Lin Yi dead, he only dared to do small things.

At the same time, he didn't dare to fight Lin Yi himself even if Lin Yi slapped him back. At most, he'd do something to get back at him.

Shen Yifan nodded and reminded everyone,""They won't let this go easily. Since they don't dare to attack us directly, they will most likely attack us in private. Be careful of traps."

"Don't worry, I understand. "

All the new students responded one after another. After this incident, their morale was even higher!

Originally, even if they had taken down the martial arts Society, everyone still had some doubts about whether they could truly be on equal footing with the ten Chiefs. At the very least, they were not that confident.

But now that du wuhui had sent someone to do this, he was slapped in the face instead. It was like using his face that was stepped on to advertise for Lin Yi group.

From today onwards, everyone would truly feel the weight of Lin Yi's group-this was a new force that could truly stand on equal footing with the old ten Chiefs!

As a result, all the freshmen went online to thank du wuhui, shouting that he was kind and righteous, and pushed du wuhui to the top of the hot search.

Du wuhui's face turned green when he saw this scene.

"What a disgrace! What a great humiliation!"

The group of core officers looked at their master smashing things hysterically and all of them looked down like a group of meditating old monks.

It wasn't that they were calm, but that they were used to this kind of scene, so they were naturally calm.

In front of outsiders, du wuhui had always been gentle and refined. He never showed his emotions on his face. But in front of them, he never hid his emotions. Any emotion would be expressed in the most direct way.

Not only did they not feel scared, but they also enjoyed it because they truly treated them as family.

This was du wuhui's way of doing things.

After du wuhui had finished throwing the ring of things, little Feng Xian smiled and took a cup of spirit tea that could clear one's heart and dispel internal heat. She personally cleaned up the broken pieces of the wolf loan on the ground, just like a virtuous little wife at home.

With her status, she naturally didn't need to do this, but she was willing to do this because du wuhui liked it.

After finishing a cup of spirit tea, du wuhui finally calmed down and asked, ""How are old black and old bat?"

"I'm alright. The injuries may be serious, but they didn't hurt my Foundation. I'll recover after resting for a while."

Xiao Feng Xian covered her mouth and chuckled, ""That Lin Yi knows what he's doing, he's someone who can go against you, my Lord."

"You're praising him in front of me?"

Du wuhui was about to fly into a rage, but when he saw little Feng Xian's beautiful smile, he finally let out a smile. ""If he doesn't even have such means, he's just a clown. I won't even look at him."

"This kid has already matured and is gradually showing signs of soaring into the sky. If ninth master wants to make a move on him, it's best to do it early."

A man with a goatee, who was sitting at the head of the core executives, said.

His name was Bai Yuxuan, and he was once a heaven's favorite of his generation. If he had not encountered the previous generation's lead disciple, who was at the peak of his power, and if his Foundation had not been damaged by a great battle, he would have had a place among the ten seats, and it would have been a rather high position.

As for now, he was du wuhui's most trusted right-hand man. Du wuhui's trust in Him was no less than that of little Feng Xian, the person who slept with him.

Chapter 9527

Du wuhui was helpless, "master Bai, I also want to do it as soon as possible, but the conditions don't allow it!" Although the first seat has already sent someone to talk to us, are the conditions even conditions? they're basically charity!"

"Especially now that those people are still thinking about Lin Yi's domain clone. If I make a move now, I'm afraid I won't even be able to get this little bit of charity. It's not worth it."

In the end, it was not worth it that was the key.

Benefits came first in everything, especially for a realistic person like du wuhui. If there weren't enough benefits to drive him, it would be a fool's dream to make him gamble his life to fight to the death with others.

"Do you still want to make peace with Lin Yi, Lord Jiu?" Bai Yuxuan raised an eyebrow.

The group of core cadres were all stunned.

Du wuhui's expression stiffened. It sounded unbelievable, but he really did have such a thought.

After all, strictly speaking, there wasn't any deep hatred between him and Lin Yi, and there wasn't anything that he couldn't get over. He only got to where he was today because of his pride, and if he could put down his pride, there might still be a way out.

But if that was the case, what was old black he and the bat demon who were lying there?

"A man who knows when to yield and when to stretch out is a great man. This servant is happy that master has such a broad mind."

Little Feng Xian spoke up to help du wuhui.

Bai Yuxuan shook his head without mercy. ""It's a good thing to be able to put down your pride, but if ninth master does so at the wrong time, I'm afraid it won't be a good thing. "

"Master Bai, aren't you exaggerating?" Xiao Feng Xian's brows furrowed.

Seeing Bai Yuxuan's face start to sink, du wuhui quickly asked, ""What do you mean by inappropriate? master Bai, please explain to me."

Only then did Bai Yuxuan's expression ease a little. As a senior, the reason why he was willing to help du wuhui for so many years, other than being able to obtain a sufficient status with du wuhui, was more importantly because du wuhui was tolerant.

Regardless of other aspects, being able to accommodate people meant that he had the potential to be an excellent leader.

After taking a sip of tea, Bai Yuxuan explained, ""If it's before today, I'll raise both my hands and agree if you want to be on good terms with Lin Yi, but after today, you can only fight him to the end. You can't back down, or you'll be doomed."

"Master Bai, aren't you exaggerating?"

Everyone looked at each other.

They didn't think there was a need to lower their heads to a junior like Lin Yi, but it was ridiculous to say that they'd be doomed if they were on good terms with him.

Smooth and slick in all aspects-this had always been the style of du wuhui's group, and it had always been tried and tested.

"You're worried about Xu Anshan?" du wuhui thought for a moment.

Bai Yuxuan nodded.

"He is a natural-born Emperor. I have never seen such a grand plan in my life. Although we are indeed negotiating, we have not made a final decision. With his tolerance, he would not attack me over such a small matter. You are overthinking it."

Du wuhui shook his head in a low voice.

This was a matter of life and death, so he would not do it on his own accord. Based on past logic, the probability of Xu Anshan taking out his anger on him was very small and could be ignored.

Besides, he was only trying to make peace with Lin Yi, not really betraying him. Xu Anshan and the other ten Chiefs had no reason to do anything to him because of this. After all, Xu Anshan didn't have the final say in the ten-seat Council.

"The Xu Anshan of the past wouldn't, but it's hard to say what he will be now."

Bai Yuxuan pointed out, "The Tian family's old master is already in a state of extreme chaos. At this time, a divided Academy is obviously not as good as a Unified Academy."

"You mean that Xu Anshan will make a big move soon?" du wuhui was shocked.

In the past, the Tian family's attitude towards the Academy was very vague. On one hand, they supported Xu Anshan, and on the other hand, they supported the local students. It gave people the feeling that they were deliberately maintaining a balance between the two.

But now, with the changes in the external environment, the Tian family's attitude seemed to have a subtle change.

"In the past, it was the Tian family that didn't allow Xu Anshan to make a move. Now, although they haven't made their stance clear, they should be more supportive."

Bai Yuxuan said.

When it came to matters that involved the upper echelons, the other core members present didn't have much say. Even du wuhui himself didn't seem to have much knowledge. Only he, a senior with a lot of experience, had enough say.

In retrospect, Tian Xiangyang's recent actions were indeed a little incomprehensible. It seemed like he was deliberately allowing the internal strife between the Dean and the native faculty to continue.

It was like this when they were fighting for the newcomer King, and it was the same after they took over the Black Dragon triad. They threw out the meat and lured the two groups to fight for it.

However, according to Bai Yuxuan's explanation, he could see some clues.

Du wuhui took a deep breath. "If that's the case, then I really can't change my tune so easily."

It didn't matter usually, but at this critical moment, if he dared to make things difficult for Xu Anshan, he might really become the breakthrough point for the lead seat.

On a larger scale, his fight with Lin Yi wasn't just a personal fight anymore-it was a test before the battle between the first and native elements.

From the moment he leaned towards the chief seat, he was destined to be helpless.

The pawns could only move forward step by step when crossing the river.

"But this isn't a bad thing-since we've decided to bet on the first seat, getting Lin Yi will be the best proof of our loyalty. With this first contribution, when the first seat becomes the most powerful, ninth master will be able to stand firm."

Bai Yuxuan consoled.

"If that's the case, then we'll have to take Lin Yi's proof of loyalty. Do you have any ideas, master Bai?"
du wuhui nodded.

Bai Yuxuan pondered for a moment, and his eyes turned sharp."The best plan is to launch a surprise attack tonight!"

As soon as he said that, all the core officers rubbed their hands in anticipation.

Lin Yi's new student Alliance was starting to take shape, but there was still a huge gap between them and him.

If du wuhui's group really went all out at all costs and destroyed the rebirth Alliance overnight, there was a high probability that it would happen!

"Not good, this is too radical. What if it causes the anger of the ten-seat Council ..."

Du wuhui couldn't help but shiver at the thought of that. Eating Lin Yi group would indeed make his forces rise to a higher level, but the backlash that came with it was something even he couldn't handle.

Bai Yuxuan's eyes flashed with disappointment at his expression. He could not help but try to persuade him again, ""It's indeed very stressful to do this in the short term, but the benefits are equally huge. No matter how the native system retaliates, Xu Anshan will definitely support 9th master!"

"As long as you can get through this, your position in Xu Anshan's eyes will be directly above the other lead disciples and close to the fourth seat, song Jiangshan!"

Sky official song Jiangshan was the second-in-command of the lead disciple division. Even Xu Anshan could only be friends with him and discuss everything with him.

Chapter 9528

"Is this true?"

Du wuhui's heart was immediately moved, but after hesitating for a moment, he still didn't have the courage, ""I'm not afraid of the other natives, but Zhang Shichang is a complete lunatic. If he really goes crazy, Xu Anshan might not be willing to go to war with him for me. "

Lin Yi's group was a far cry from his, and so were his men.

Bai Yuxuan was secretly disappointed.

9th master, if you don't even have the courage to fight Zhang Shichang, how can you be on equal footing with these people?

In comparison, Lin Yi dared to declare war on du wuhui face to face just because of the new student Alliance. He was really bold!

However, du wuhui's mind was already set. "There's no need to say much about this matter. Let's change to a more secure method."

"That's good. "

Bai Yuxuan suppressed his emotions and said in a low voice, ""If we want to play it safe, then we'll have to do two things at the same time. First, we'll use the first element to force Lin Yi to use his realm as soon as possible. Once he's forced out, we'll be able to attack him at any time,"

"Yes, I'll go and negotiate personally."

Du wuhui nodded his head. He and the first seat's interests were aligned in this matter, so they should hit it off immediately.

Bai Yuxuan continued, "secondly, although the newborn Alliance is now at the peak of its power, it is inevitable that people's hearts will waver once they gain power. The best way to break through the fortress is to attack from within. Two days ago, the intelligence team received a piece of news that can be used."

"If this matter is handled well, the rebirth Alliance will lose an arm!"

Du wuhui was overjoyed when he heard this. "Good! Master Bai, you'll be in charge of this matter. Under me, you can transfer any manpower you want at any time. There's no upper limit to the budget!"

"By ninth master's order!"

The group of core cadres responded in unison.

The Academy's prison.

Lin Yi raised his head to look at the run-down prison building, a weird expression on his face. "Are the Academy's prison funds so tight? Did Ji Chi embezzle the money?"

With Jianghai University's heritage, even the worst dormitory would be considered a rare luxury house. It was the first time Lin Yi had seen a building that looked like it was built in the slums.

"You're so blatant in your corruption. Do you think that our dark group is a freeloader?"

Han Qi rolled his eyes and explained helplessly, "The Academy's prison is under the name of the Disciplinary Committee in name, but in fact, it has its own system and is under the direct jurisdiction of the ten-member council. Even if Ji Chi himself came here, the prison warden probably wouldn't even bother with him."

"Such a personality?"

Lin Yi was stunned. Although Ji Chi was destined to be his enemy, he knew how important he was.

To put it bluntly, Lin Yi dared to lead the newborn Alliance to fight du wuhui's group head-on, but if the opponent was Ji Chi, he would definitely hide as much as he could.

After all, it wasn't embarrassing to be a coward when there was no chance of winning.

Han Qi smiled and shook his head. "This Warden is not only a man of character, but also a man of extraordinary status. Even the ten Chiefs are not as free as him. In this small piece of land of the Academy prison, he is the local Emperor that the officials have acquiesced to. He has no say in anything."

"Now that you've put it that way, I really want to go and meet him."

Lin Yi was mesmerized.

He didn't have much of an ambition in coming to Jianghai University. Other than being Tang Yun's bodyguard, he was here to protect Chu Mengyao, who he didn't know what kind of situation she was in.

But to reach this stage, it wasn't enough to rely on Lin Yi alone. He had to cultivate the new alliance and slowly grasp the power.

If he could protect himself, the warden Han Qi spoke of was the perfect target for Lin Yi.

Han Qi sneered, "do you think you're Xu Anshan? do you think you can see him just because you want to?" In their eyes, you, the tenth seat of the rookie King, are not even worth mentioning. You might even be inferior to a pot of old wine. "

"Then I'll bring wine next time."

Lin Yi laughed and turned serious, "The person you brought me to see this time has a deep grudge with Xu Anshan?"

"Xu Anshan was the one who snatched the previous first seat from him. Most importantly, he taught Xu Anshan a lot of things, so he's like a half-teacher to Xu Anshan. What do you think?"

Han Qi said with a smile.

It was only a few sentences, but Lin Yi's curiosity about this unknown Big Shot was completely piqued.

In fact, Lin Yi had received an invitation from this Big Boss the moment he became the tenth seat. He had planned to come and meet the God, but a series of things happened halfway through, so he had to change his plan.

Lin Yi realized one thing-before he had enough strength, it was useless to build more connections. He had to be wary of these so-called allies.

So after returning from the Black Dragon Gang, Lin Yi asked Shen Yifan to help him reply a few letters and didn't meet with any big shots. He chose to go into isolated cultivation.

But now that Lin Yi had the new student Alliance and two big clubs, he had the aura of a Lord. He could finally sit down and have a good chat with these people.

He walked through the gates of the prison.

It was exactly the same as what he saw from the outside, and the layout inside was also indescribable. The only difference from the slums was probably the few iron gates and iron fences, but they were still symbolic. There was not even a lock.

"Can this hold people?"

Lin Yi asked, stunned.

The key was not only the poor hardware facilities, but also the lack of proper staff. Any stray dog could easily kill them, so how could they lock up the most ferocious prisoners?

"Prisoner's autonomy," Han Qi laughed, "it sounds familiar, right?"

Lin Yi said, understanding.

It wasn't just familiar, it was very familiar.

The new students were self-governed, and that was how the tenth seat of the newcomer King came to be. The students were self-governed, and that was how the Academy came to be. It could be said that all forms of self-governance were a part of Jianghai University's traditional genes.

"Are the prisoners really that obedient?" Lin Yi was still curious.

It was understandable to throw a group of prisoners into a place where there was no way out and let them die on their own. However, there were almost no defenses between the Academy's prison and the outside world. The only bit of protective measures were only symbolic and had no deterrent force to speak of.

It was unrealistic for the prisoners to be self-conscious and not escape.

"Of course it's not realistic to rely on self-awareness, but what if we have to die after breaking out of prison, and the death rate is 100%?" Han Qi laughed.

"Drug Control? Did the prisoners take poison?"

Lin Yi's mind immediately flashed to a bunch of poisons that he'd seen in wuxia novels-three corpse brain elixir, life-death notes, leopard fetus muscle-changing pill ...

"That's not necessary. They're students of our Academy, after all. Wouldn't it cause a huge ruckus if they really did that?"

Han Qi curled his lips and explained,"in terms of killing, the warden here is the best in the entire Academy. He's a completely unique existence. Even those ten Chiefs can't do anything about it. He's a professional."

"Just by her deterrence?"

Lin Yi was immediately filled with respect-it was a bit of an exaggeration to say that one person could deter all the prisoners with his hunting ability alone.

But looking at Han Qi's expression, he did not seem to be joking.

Chapter 9529

The two of them went down.

The Academy's prison looked dilapidated, but the main part was underground. It was not an ordinary basement, but a large underground Palace, covering an area of a hundred acres.

Han Qi was bored, so he decided to be Lin Yi's tour guide, "This place used to be the mausoleum of some great figure. I think it was the ninth or tenth generation King of the near sea, from the legendary clan that protects the sea."

"The sea Protector clan?"

As an outsider, Lin Yi may have established a solid foundation in the school, but he didn't know much about the secrets of the past. He didn't even know much about the school's history, much less anything else.

"Actually, I don't know much about the details. None of the official records have acknowledged their existence. It's like an ancient rumor that has been passed down by word of mouth."

Han Qi paused and suddenly said with a mysterious expression, "However, I heard that the Tian family is a branch of the sea protecting clan. It's very real, and I even asked the old master of the Tian family about it."

"What did he say?"

"What else can I say? I'll just be scolded."

Han Qi awkwardly pinched his nose, but his expression became more and more certain, "After that scolding, I'm pretty sure that the rumor is absolutely nonsense. However, the Tian family must be related to the sea protecting clan."

As the two spoke, they had already reached the depths of the underground palace.

All kinds of prisoners could be seen everywhere. There were no handcuffs, shackles, or door locks. They were all free to move around. There were all kinds of trade and entertainment. At first glance, it did not look like a prison at all, but a completely closed community.

"The management here is pretty good?"

Lin Yi looked around, surprised.

In Lin Yi's mind, even if the prisoners ruled on their own, it would still be as chaotic and violent as the gray areas outside. At most, they would be able to maintain the basic order of ranks.

After all, the people who were locked up here were not only extremely evil and lawless, but also had some anti-social tendencies that had crossed the bottom line. It was much more difficult to manage them than the students outside.

Don't forget that even with the Council outside, there were still all sorts of conflicts every day. It was always a war between forces like Lin Yi and the martial arts Society. It wasn't a big deal to have a few people die.

How could this place be called a prison if not for eight to ten people dying every day?

However, the reality was that although these prisoners didn't have any smiles on their faces, their movements were calm. At least this showed that they had a heartfelt trust in the order here.

To be able to do this in a completely autonomous underground prison was no less of an impact to Lin Yi than du wuhui's attack in the Council of Ten.

To be honest, even though he had been fooled by his clone that time, the strength that du wuhui had displayed was indeed frightening.

At least with Lin Yi's current strength, his chances of winning were close to zero if he tried to fight it using normal methods. After all, it was the true representative of the top ten strongest in the Academy.

The scene in front of Lin Yi, on the other hand, shocked him even more!

The reason was simple-as long as he had time, it was only a matter of time before he surpassed du wuhui. However, he knew that he wouldn't be able to turn a place he couldn't control into something like this in his lifetime.

"That's why I brought you here," Han Qi said with a proud smile. "My old superior has been waiting for you for a long time."

Without needing anyone to lead the way, Han Qi led Lin Yi through the streets and alleys with ease, and they soon arrived at the depths of the underground palace.

Since the man was the actual controller of this place, like a prison Emperor, Lin Yi thought that he'd at least live in a luxurious palace. After all, the underground palace didn't lack places like this.

Surprisingly, there was only an ordinary-looking small courtyard in front of him.

Judging from the structure and layout, this place was originally designed to be a place for the burial of low-level servants. Although it had been transformed and had a more livable feeling like many other facilities in the underground palace, it was inevitably still shabby.

Lin Yi then saw an old man with half a head of white hair planting vegetables.

The movements were smooth and the details were on point-he was like an old farmer who'd been working his entire life. Everything was so natural, and Lin Yi didn't find it weird at all even though it was supposed to be weird.

"Can the vegetables grow without sunlight?"

Lin Yi couldn't help but ask.

The old man didn't look back. He continued to bend over and plant the vegetables as he replied with a smile, ""People adapt to the environment, and so do the vegetables. As long as they are carefully cultivated, they can still grow. It's just that the taste is a little bad and needs to be improved for a while. I'll cook a pot for you later to try."

Lin Yi nodded and cupped his hands."Lin Yi greets senior."

The old man put down his farming tools, clapped his hands, and turned around.""Lin Yi, you don't have to be so formal. I've been friends with you for a long time, and I believe that we'll be like-minded after seeing your achievements."

"Come, let's talk inside."

The old man smiled and walked in first, pouring a cup of tea for Lin Yi and Hanqi each. His movements were natural and casual, and if you looked closely, you could smell a natural charm.

Lin Yi was filled with respect-this was a true man.

The so-called Dao did not refer to the cultivation realm, but a pure state of mind.

Buddhist monks had Zen, and Taoist masters had Dao. Lin Yi hadn't been in close contact with these two, but he assumed that it wasn't too far off from the old man.

"The tea brewed by half-master is always so delicious. It's a pity that I can't take it away."

Han Qi lifted his cup and gulped it down like a whale gulping down a cow's water, and yet he was still full of regret. Lin Yi couldn't help but look at him in disdain.

"If you don't know how to drink tea, don't waste it."

Lin Yi said, eating more elegantly than Hanqi before drinking it up in two gulps.

"....."

Han Qi was dumbfounded and cursed, "I thought you were a cultured man! What's so different about you, kid, when compared to me?"

The old man smiled. "If you like it, drink more. It's not a good tea."

This was the truth. It was indeed not a precious spiritual tea. It could not even be considered a spiritual tea. It was just a very ordinary tea without much spiritual energy to speak of.

But it was refreshing and refreshing.

"I'll take it since it's a gift from an elder. Another one, please." Lin Yi smiled.

The old man smiled as he poured Lin Yi's bowl, and Hanqi didn't stand on ceremony either, filling his own bowl instead. His unworldly behavior really made one's liver hurt.

After knowing him for so long, this was the first time Lin Yi realized that Han Qi had such a side to him.

"What do you think of the current situation, Lin Yi?"

The old man asked with a faint smile. He didn't have any intention of testing them, but more like he was just casually talking about family affairs, so that people wouldn't be nervous.

Chapter 9530 Power

"I don't know what kind of crisis it will be, but from the signs, it's clear that the whole school, and even the whole of Jianghai city, will experience a disaster in the near future. Many people will die," Lin Yi said after some thought.

This was the conclusion that he and Shen Yifan had come up with after a long discussion and gathering all the recent information. He had never mentioned it in front of outsiders, and today was the first time.

"No." The old man shook his head. "It's not that many people will die. It's possible that everyone will die."

Lin Yi froze, and even Han Qi's face changed. This was the first time he'd heard of this!

Lin Yi would've scoffed if someone else had said that, but he had to believe it since it came from the old man.

"What kind of catastrophe will it be?"

Lin Yi asked with a frown.

According to his previous judgment, although the following steps would be very troublesome, as long as he could control enough power under him, he shouldn't have any extravagant hopes, but at least protecting his own people should not be a big problem.

But according to what the old man said, even if Lin Yi's newborn Alliance grew in a short time, it would be a drop in the bucket!

"Heaven's secrets must not be revealed," the old man waved his hand slightly.

Lin Yi and Hanqi looked at each other, getting more and more confused. The same thought came to their minds at the same time. Was the old man trying to be mysterious?

It was true that the old man had left a good impression on Lin Yi from the moment they met, and the old man's position in Hanqi's heart was needless to say, but the two of them weren't easy to fool.

As soon as there was the slightest mistake, he would immediately notice the flaws and question it in person!

The old man smiled bitterly. "It's not that I'm trying to be mysterious, but there are some things that can't be said. If I don't say it, it can still drag on for a while. If I say it here today, there will be layers of induction immediately, leading to the arrival of the Great Tribulation in advance."

"Is it that mysterious?"

Han Qi was still skeptical.

Lin Yi reacted a little, "Could this be the so-called butterfly effect?"

"That's right. It's quite similar to the butterfly effect that the secular world talks about. However, to be more precise, there is a group of extremely powerful beings looking for us at all times. If we mention it, we will be noticed by them, and everything will be brought forward."

The old man explained briefly.

Lin Yi didn't want to get to the bottom of it, so he changed the topic, ""Senior, how are your preparations?"

"What I want to do is actually what Tian Xiangyang is already doing. I want to gather all the power that can be gathered as soon as possible to prepare for the Great Tribulation."

The old man replied seriously.

"So you're an ally of the Tian family?" Lin Yi said, deep in thought.

"The general direction is the same," the old man replied. "But the specific route will be different. After all, he has his position, and I have my position."

"Then, what does senior think I'm on?" Lin Yi asked.

Han Li perked up and listened intently.

The purpose of bringing Lin Yi here today was to let him truly join them, and the following conversation would decide whether they could truly become one of their own.

Even if they didn't get along, he believed that with the old man and Lin Yi's tolerance, they wouldn't become enemies just because of this. However, when it came to choosing a path in the future, it was inevitable that they would go their separate ways.

The old man sized Lin Yi up and said slowly, "Judging from your style of doing things, you don't have a clear stand. All you care about is those few people, right?"

"Not bad."

Lin Yi nodded honestly-this was the reason why he'd done all of this. He'd just walk away if the guy said something like "the world's for us."

The old man changed the topic and started talking about himself. "The difference between the Tian family and me is like the difference between the grassroots and the elites."

"The Tian family has always walked the path of the elite. Although it's not to the extent of nepotism, such as the current family head, Tian Xiangyang, who is very good at picking talents from the grassroots to cultivate, in the end, it's only an elite path that benefits a small number of people. All the resources will ultimately only fall on the heads of a small number of elites."

"I'm the opposite. I've always advocated for the grassroots path. Cultivation resources should benefit as many grassroots as possible, giving the grassroots the possibility of growing at the very least."

Lin Yi raised a brow. "The weak are prey to the strong in the world of cultivation. The weak get weaker, and the strong get stronger. Senior's way of doing things doesn't fit the big picture."

"That's why I'm in this state," the old man smiled.

On the surface, his imprisonment was the result of the current Chief Xu Anshan's counterattack, but the real truth was that the grassroots had lost to the elite.

With the same resources, there was a high probability that ten grassroots would lose to one elite.

"Since that's the case, now that the Great Tribulation is coming, it's time for us to unite our forces. If senior comes back to stir up a fight between the grassroots and the elites, wouldn't you be dragging the Tian family down?"

Lin Yi's question was impolite, and even Han Qi was worried for him.

Although the old man was now as approachable as an old farmer next door, he used to be a mighty Lord who held the power of life and death in his hands. In terms of decisiveness in killing, he was no less than anyone he had ever seen.

The old man did not seem to mind at all. "My young friend is right. I was once obsessed with fortune-telling and almost lost my mind. But now, I've become much calmer. Even if I still have some regrets, I won't go out and cause chaos for my own thoughts."

"Then what are you doing?"

"If the elite route can withstand the Great Tribulation, this old man will not be stingy with this little bit of power. So what if I have to be dragged down by Tian Xiangyang's horse? But I've deduced it nine times, and every time, it's a dead end. After thinking about it, the only chance of survival lies in the grass. "

"Only by uniting the power of the grassroots as much as possible will we have a chance of surviving this great calamity in the future. Otherwise, we will definitely die."

The old man's clear eyes were looking at Lin Yi, open and honest, without a hint of slyness.

Lin Yi pondered for a long time before raising his head, "Why do you think I'm inclined to the grassroots?"

He was a grass-root practitioner, but when it came to training underlings, Lin Yi was more inclined to the elite route. It wasn't that he couldn't do the grass-root route, but it would take too much time, energy, and resources. It'd only end up with half the result with twice the effort, and the loss outweighed the gain.

"Because of what you've done, because you treat people equally, regardless of their status," the old man said with a smile.

"Just this?" Lin Yi asked, stunned.

"That's enough. That's your background. When the real choice is placed in front of you, I'm sure you'll choose to believe in the grassroots."

The old man was very certain about this.

"You're even more confident than I am," Lin Yi smiled bitterly.
