

Bodyguard 9531

Chapter 9531

The old man smiled and poured Lin Yi another cup before handing him a piece of paper. "This old master doesn't have anything good in this prison, just a little bit of cultivation experience, I'll give it to little friend as a meeting gift, I hope you don't mind."

Lin Yi didn't react, but Han Qi's eyes almost popped out.

"Half-master is really ..."

Han Qi stammered for a long time before finally saying, "You're biased. "

The old man laughed when he heard this, "this is just a few words of nonsense that I said. How can you say that I'm biased?" In addition, it's not that I didn't give you a chance, but you can't comprehend it yourself, so who can you blame?"

"So you didn't use the chance I gave you, huh? who's to blame?" Lin Yi said in disdain.

"....."

Han Qi's heart was in turmoil, but there was nothing he could do. The other party was telling the truth. Cultivation not only depended on talent, but also enough luck.

If the fate wasn't there, even if something was brought to your mouth, you wouldn't be able to swallow it. Even if you swallowed it forcefully, you wouldn't be able to digest it.

Han Qi rolled his eyes and went to a corner to drink his tea. Under the encouraging gaze of the old man, Lin Yi slowly immersed himself into the White paper in front of him.

In an instant, the world changed.

Lin Yi's essence spirit seemed to have entered a vast world. There were huge words left behind by spiritual will all around him. Although he knew that it was the old man's handwriting, the ancient aura that came from it was as if it had been there since the ancient times.

He gathered his thoughts and carefully analyzed it for a moment.

Lin Yi suddenly raised his head, his eyes full of surprise and joy. "Domain doubling technique!"

The old man nodded at Lin Yi's reaction. "Little friend, you're indeed talented. You're able to comprehend the true meaning in just a few breaths. You've really opened my eyes."

"Senior, you flatter me. Compared to the many wondrous techniques you've created, I'm just a Firefly's light at best, not worth mentioning."

Lin Yi bowed to the old man with a serious face.

There was no deliberate flattery in this bow. It was purely a show of infinite admiration for the creation of such a peerless wondrous technique. At the same time, it was also a heartfelt gratitude for the generous teaching.

It wasn't an overstatement to say that this was the most valuable skill Lin Yi had ever seen since he'd come into contact with a domain.

In theory, as long as one was willing to pay the price, one could get anything one wanted, whether it was the Academy's official or the market channels. However, this domain doubling secret technique was definitely not included.

If it was measured in academic credits, the paper in Lin Yi's hand would be worth at least a few thousand, maybe even tens of thousands!

It was even better than a perfect-grade territory stone.

The more likely possibility was that even if someone were to spend tens of thousands of credits like dirt, they might not be able to buy this piece of white paper.

This was an out-and-out valuable gift.

Han Qi, who was standing at the side, was filled with disbelief, "you comprehended it just like that?" Is there any justice in this world?"

The old man laughed heartily. "Domain doubling is, in the end, just expanding the range of the domain. The trick is nothing more than borrowing power. As long as you can understand how to borrow the power of heaven and earth, it's not worth mentioning! Lin Yi must've done a lot of research in this area before to be able to understand it so quickly, and have a good foundation. "

It didn't seem difficult at all. The effect of the so-called domain doubling was only limited to expanding the range of the domain.

But the problem was that it didn't just expand by a little bit, but by ten times.

At the highest level of cultivation, it could be 30 times, 50 times, or even an extremely exaggerated 100 times!

Of course, according to the current mainstream cultivation system, the core indicator of domain cultivation was strength. The stronger the domain, the higher the realm.

In actual combat, the strength of one's domain determined everything. When a high-level domain master faced a low-level domain master, they didn't need any extra skills. They could just rely on their strength to crush the opponent.

Even someone like Lin Yi, who could challenge people of higher levels in name, was only able to do so because of the strength advantage of a perfect domain. Otherwise, it would be useless.

In short, one force could defeat ten.

The strength of a domain was that power, but most people ignored another basic indicator that represented the strength of a domain, the breadth of a domain!

Strength was quality, while breadth was quantity.

Although strength determined everything in a one-on-one battle, once it entered a large-scale team battle, the vastness of the domain that had always been ignored by others would reveal the great value of strength.

The range of a new domain master's domain was usually in the order of tens of meters. The larger ones had a range of 70 to 80 meters, while the smaller ones had a range of 20 to 30 meters.

Once one was suppressed in a battle, the range would be even smaller. In the extreme, one would be suppressed to the point that not even half a meter was left, and it was not uncommon for one to be reduced to a thin domain film in the end.

Such a domain naturally could not have a decisive effect in a battle, but what if it was magnified fifty times, or even a hundred times?

What would it look like when the territory's range expanded to thousands of meters or even tens of thousands of meters?

A domain was a resource, and the wider the domain, the more resources one could mobilize at any time, and the power of all kinds of moves would naturally rise as well!

Other things aside, Lin Yi's signature clone territory was limited by its range, and he could only maintain dozens of clones at a time. Once the territory expanded a hundred times, the theoretical limit of the number of clones would increase a hundred times as well!

The thousand transformations forest had a limited number of clones, but within the domain, it could break through this limit!

At that time, one person would be an Army!

If it was just that, then the domain doubling technique would be amazing enough, but it wouldn't be enough to make Lin Yi so excited.

The real key lay in the last sentence. At the highest level of cultivation, the breadth and strength of the domain could be interchanged!

"Is this true?"

Lin Yi couldn't help but want to confirm it. If he could confirm it, then the value of this domain would be magnified infinitely, and it would be called the master of domain!

The old man nodded with a smile.

Han Qi pouted with envy and jealousy, "You brat, I don't know how many generations of good deeds your ancestors have accumulated before you can recognize me. Damn it, how can you know it with a glance? why can't I?"

"You're the first man who dares to admit that he can't do it!"

Lin Yi chuckled as he looked at the guy. "By the way, how is it good for my ancestors to know you?"

"Nonsense, if you didn't know me, who would have brought you here? If you don't come here, how can you get the half-master secret art? Do you know how many people in Jianghai want to learn this? unfortunately, they can't even meet the half master!"

The more Han Qi spoke, the angrier he became.

With the old man's admiration for Lin Yi, he'd expected this to happen. The domain doubling technique was the old man's ultimate skill, but he wasn't someone who'd keep things to himself.

As long as it was someone from the younger generation that caught his eye, the old man would help them. It was the same for him back then, and it was the same for Lin Yi now.

Chapter 9532

It was only after experiencing the backlash from Xu Anshan that he had learned from the painful experience and become more wary of the elites of the aristocratic families. Otherwise, the domain doubling technique might have already reached a higher level and become a public course for all students to learn.

"Senior, if you're focusing on the grassroots, why don't you just recruit more disciples and promote this technique?" Lin Yi asked.

Even if one's personal freedom was restricted, there were still many grassroots cultivators in the Academy's prison. Even if there were requirements for character, if one really wanted to pass it down, there would be many people.

"Actually, I've already tried," the old man said with a bitter smile.

"Then why ..."

Lin Yi blinked, deep in thought.

Han Qi explained on his behalf, "when I was still the chief of the Academy, I wanted to include the domain doubling technique in the public course. All students could learn it at a very low price. I made a lot of preparations for this and discussed it with all the forces."

"The various forces did not object directly, but they put forward a condition. In order to ensure that there are no side effects, they must first let their elite disciples try it."

"The half-master has agreed."

"But the end result was that all the forces took the opportunity to monopolize the domain multiplication technique. In order to prevent the lower-class grassroots from learning it, they found a Grand reason and monopolized the technique in the name of the Academy's safety."

"After that, Xu Anshan suddenly turned against half of my master. The various forces not only joined forces to strengthen him, but they also forcefully imprisoned him. This is the root of it."

"They're afraid that the founder of the domain doubling technique, the half-master, will affect their monopoly on this technique. Isn't that funny?"

Lin Yi couldn't bring himself to laugh at the ridiculous joke.

The opposition between the elites and the grassroots had been like this since ancient times. The elites had to monopolize resources in order to maintain their status, while the grassroots had to snatch resources in order to obtain their status. The conflict was fundamentally irreconcilable.

The old man wanted to open his eyes for the grass and ended up in this state. It sounded absurd, but it was completely within his expectations.

In the end, one's butt decided everything.

Lin Yi understood the old man's concerns. The school prison was under his rule now, and although it was showing signs of an independent kingdom, it still had to be under the jurisdiction of an outside world.

If he really stepped on the red line between the various forces, not only the Academy, but even the school board and the repeat students would interfere at any time.

At that time, there would only be two outcomes.

They would either be transferred to an isolated place, or they would be directly killed to avoid future trouble.

From a certain perspective, the old man's interaction with Lin Yi today had crossed the line. As expected, there would be reactions from the other forces.

They might target the old man, but of course, they could also target Lin Yi!

The old man didn't continue with the heavy topic and gave Lin Yi some pointers. As the creator of the domain doubling technique, it wasn't just the domain itself that he understood. His understanding and depth of knowledge of domains were also at the top level.

In the entire Jianghai Academy, there were only a handful of people who could be compared to the old man in this aspect.

As for those who were completely above him, there was probably not a single one. At most, there were only a few people who could be at the same level as him, and each had their own merits in their own fields.

A word or two from someone like that would benefit Lin Yi greatly, and save him a lot of time and effort.

Not to mention, it was a systematic and comprehensive explanation!

Lin Yi spent two whole days in the school's prison. After saying goodbye to the old man, he came out feeling like he'd been reborn.

To be honest, Lin Yi's talent in practicing was unparalleled. The higher the realm, the more obvious his talent was. Even though he had only just come into contact with the domain, Lin Yi's understanding and exploration of the domain were already far above many veteran domain masters.

However, compared to the real top figures, it was inevitable that they were still shallow.

With Lin Yi's comprehension, there was a high chance he could get there on his own, but he'd have to take a lot more detours.

The old man's advice saved Lin Yi at least ten years of fumbling!

Just this point alone was worth as much to Lin Yi as learning the domain doubling technique, perhaps even more!

He didn't have much hope for this trip to the school's prison, but it was a huge gain for him. It was even more meaningful than the martial arts Society battle.

After today, Lin Yi's domain could be considered to have broken away from the wild path of solo exploration-he'd truly obtained a deep foundation that was enough to push all the way to the top!

"From now on, you're considered half a master and half a student. Sooner or later, you'll become a thorn in their eyes. You have to be mentally prepared."

Han Qi warned.

Although Lin Yi didn't make his stand clear, but since he'd received such a huge benefit, he'd naturally taken a side. If the news of him staying in the Academy's prison for a whole day with Han Qi got out, no matter what Lin Yi thought, he'd definitely be put on the old man's side.

"Even if I'm not a half-master, I'm still a natural thorn in my side," Lin Yi smiled.

"Why?" Han Qi was surprised.

"Because the tallest tree in the forest will be destroyed by the wind," Lin Yi said, looking up at the sky.

"....."

Han Qi snorted, "in terms of narcissism, you're indeed the best. Of all the people I've met, you're number one."

Although he said that, he agreed with Lin Yi's self-evaluation. With Lin Yi's personality of always making big news, it was impossible for him to not be in the limelight.

Once he showed off too much, wouldn't he become a thorn in the flesh of others!

"Why does everyone call senior half-master?"

Lin Yi changed the topic-half-master wasn't his real name, it was a traditional way of addressing him.

Han Qi answered with a smile, "his real name is Luo. Because he never hid anything and often guided everyone in their cultivation, everyone used to call him teacher Luo. However, he was rejected. They said that he did not mean to be everyone's teacher, but only wanted to do his best to guide the direction of the vast majority of the grassroots so that they would not take a few detours."

"We couldn't change his mind, so we could only follow his wishes. But how we should address him is still a problem."

"Later on, an extremely astute person came up with a good idea. Since he was half a teacher to everyone, why don't we just call him half-teacher Luo? everyone praised him, and the half-teacher had no choice but to acquiesce."

"You're not the one with the wisest mind, are you?" Lin Yi asked, confused.

Han Qi laughed proudly, "good eyes!" As expected of a talent that I've personally discovered!"

"Excavate, your sister."

Lin Yi didn't know what to say, but he couldn't hold it in any longer and broke into a smile as well.

In the beginning, he and Han Qi wanted to use each other. Han Qi saw Lin Yi's potential and wanted to use him as a chess piece, while Lin Yi saw the background of the secret department of the Disciplinary Committee. They needed a layer of protection when they first arrived, so they both had a tacit understanding.

After that, when Lin Yi created one piece of news after another that shook the entire school, especially when he became the 10th newcomer King, Han Qi's attitude changed. He now treated Lin Yi as an equal.

Chapter 9533

At this point, although their relationship had become much closer, and they no longer hid many things, there were still traces of mutual use.

It was not until today that the two sides' positions were truly tied together, and there was a sincere sense of like-minded people.

But for Luo Banshi, Lin Yi wasn't going to completely fall for the grass root path yet.

Even if Lin Yi didn't have any prejudice against the grassroots, even if he himself was from the grassroots, Lin Yi wasn't alone now. Before making any decision, he had to think for the people under him.

This was a matter of great importance, so he had to be cautious.

For some things, how outsiders saw it was one thing, but how one thought of it was another.

After the joke, Han Qi suddenly reminded them before they parted, "Du wuhui is used to using underhanded methods. He doesn't dare to make a move on the surface, but he will definitely make a lot of small moves in private. You'd better pay attention to your subordinates, in case there's a fire in your backyard."

After these words, Han Qi turned around and left.

Lin Yi stayed where he was, deep in thought.

Han Qi might seem unreliable, but as the former president of the Disciplinary Committee and the current head of the dark group, he would naturally not speak without thinking. Since he had specifically mentioned this, he must have obtained relevant information.

In terms of intelligence, the Disciplinary Committee's Black operation was definitely at the top of the Academy.

However, who could it be?

In terms of the people who were most likely to be disloyal, Wei baizhan was the first in the freshman Alliance. This person was labeled as someone without integrity, not to mention he had a previous record.

The other one was Ying long.

As someone that Xu Anshan, the chief, had taken a fancy to, even if all signs showed that he had been abandoned by Xu Anshan, he had no interaction with the other 10 Chiefs.

But without a doubt, his position was naturally different from everyone else in the new alliance, especially when Lin Yi was leaning towards the native element, going against the first seat.

Xu Anshan's casual words might change his mind.

If it was a conspiracy theory, maybe he joined the newborn Alliance to split Lin Yi's group from the inside and work with the ten Chiefs of the first seat division to replace Lin Yi!

It wasn't that there weren't any rumors like that, but Lin Yi suppressed them as soon as they appeared.

With Lin Yi's boldness, he naturally wouldn't cut off his own arm just because of some baseless suspicion. As long as Ying long didn't rebel, there would always be a place for Ying long under his command!

But now that Han Qi had brought it up so seriously, he couldn't just ignore it, right?

If he wanted to investigate, it would be difficult to send someone to investigate. There was no such thing as an absolute secret. No matter what the results were, it would definitely leave a crack in Ying Long's heart.

Once a crack appeared, it would be impossible to recover.

"Oh, it's going to rain."

Lin Yi finally chuckled and returned to the rebirth Alliance. He told Shen Yifan and the other core members of the Alliance about his gains from this trip to the prison and then chose to go into seclusion again.

Throughout the entire process, he didn't avoid Ying long at all.

As for Han Qi's warning, Lin Yi didn't even mention it, acting like he didn't know anything.

Looking at Lin Yi's back, Ying long wanted to say something but stopped.

Lin Yi had suppressed all the gossip before, but gossip was a scary thing-it wasn't something he could suppress just because he wanted to, and he'd eventually hear about it.

The key was that these words were not completely baseless. After the martial arts Society was taken down, although chief Xu Anshan did not directly pass on a message to him, as a backbone figure of the chief Department, the fifth chief, the current president of the Disciplinary Committee, Ji Chi, had written him a secret letter.

Ying long didn't know the contents of the secret letter.

Because the moment he received the secret letter, he burned it directly. It wasn't that no one could testify for him. Bao shaoyou was there at the time.

But in any case, the act of Ji Chi writing him a secret letter itself already represented too many unclear meanings.

Thinking deeper, in the eyes of others, even if he burned the secret letter without saying anything, it would probably be an inexplicable suspicion!

If you really wanted to be open and aboveboard, wouldn't it be better to open the secret letter and circulate it for everyone to see? wouldn't that prove that your heart is open and honest? why did you destroy the evidence in a flustered and exasperated manner?

Moreover, a fly doesn't bite a seamless egg. If you really don't have any crooked thoughts, why did Ji Chi write to you?

For the sake of the big picture, Ying long wanted to explain it to Lin Yi, but he didn't know how to explain it. He really didn't know what to explain.

In the end, Ying long didn't say anything.

This scene fell into the eyes of those who were observant, and the rumors about the internal cracks in the newborn Alliance immediately became rampant. Various versions of the rumors were passed around, and the details were so real that it was enough to make the people involved confused.

The rumors weren't just directed at Ying long. All the core members of the freshmen Alliance had rumors, and they were all very true.

There were even people on the internet who made a special summary and comment on this. The details of the content and the authority of the tone actually caused the vast number of freshmen to panic for a while.

"Rumors kill people. Old Lin, we have to think of a way."

As Lin Yi's group's butler, Shen Yifan couldn't sit still any longer. If the rumors continued to spread, the seeds of suspicion would be planted in the freshmen if they didn't have a strong will.

Once the internal members began to suspect each other, even if there was nothing going on, something would definitely happen.

At that time, the situation would really be out of control!

"Du wuhui's a cunning old fox indeed," Lin Yi frowned. "He's good at driving a wedge between us. "

If it was only aimed at one person to drive a wedge, as long as he could stabilize his situation, it would not be difficult to crack it.

However, with such a large-scale dissension, the other party was no longer targeting a single person or a few people, but the entire group of freshmen. The key was that their standards were extremely high. Every rumor was 70% true and 30% false, which was really tiring to deal with.

After all, compared to spreading rumors, it was more than ten times more difficult to refute them!

Not to mention that Lin Yi group had a lot of things to do right now-it was impossible for them to spend a lot of energy and resources on dispelling the rumors. Even if they did, it would take at least a month.

By that time, the two sides would have already fought a decisive battle, so what was the point of refuting the rumors?

Shen Yifan laughed bitterly."Turning a conspiracy into an open one. Du wuhui has an expert working for him. If this panic continues, even if we don't cause any trouble, it will still be a great blow to the morale of the people."

"It's useless to refute the rumors. "

Lin Yi rejected this common thought and changed the topic,"If they have the time to listen to these rumors, it means that they are too free. I have to find something for them to do and divert their attention."

"You're saying that everyone should go to the martial arts Society to take on missions?"

Chapter 9534 The Power Of The Divine Realm

Shen Yifan seemed to be in a difficult position."I've just taken over the martial arts Society. I still need time to get all the resources going. It won't be that fast."

Although the framework of the martial arts Society was still there, and the task platform was also ready-made, the most important thing for it to truly operate was to have enough customer channels to publish tasks.

The new student Alliance had a lot of influence within the school, but the customers outside still had doubts about the strength of the new students, especially after Lin Yi handed over all thirteen elite teams to someone else, leaving only the new students to carry the flag.

Even with Shen Yifan's help and some connections with the Shen family, the results were not as effective as they had expected.

"The martial arts Society isn't in a hurry. Let everyone hone their skills before going out to accept missions. Try to avoid unnecessary casualties as much as possible."

"What do you think of the big three?" Lin Yi asked.

"Ha?"

Shen Yifan couldn't react for a moment.

"Do you think it's possible for us to take over the three societies?" Lin Yi suggested with a serious face.

If these words didn't come from Lin Yi's mouth, Shen Yifan would have thought that the man was crazy.

As one of the publicly acknowledged five great societies, regardless of whether it was the pill society, the Freemasonry society, or the territory society, even if they could not be compared to the martial arts Society in terms of numbers, scale, and overall combat power, any one of them was still a force that could not be underestimated.

The key was that they weren't independent existences. Other than Zhang Shichang and Han Qi's cooperation, there were two other factors that couldn't be ignored.

One was that he had a good reason to do so-Li Jing had provoked him first, and it was perfectly reasonable for Lin Yi to lead the new student Alliance to an eye for an eye. It was also in line with the unspoken rules of the Academy, and even the ten-seat Council couldn't object to it.

Secondly, the martial arts Society was under du wuhui's jurisdiction in name, but in reality, it was a completely independent force. The president, Shen Junyan, could ignore du wuhui's administrative orders and do as he pleased.

It was also because of this that although du wuhui was furious after the incident, he didn't do anything to protect it.

The current three big societies didn't have any of these two key factors. Not only were they unknown, but they were also directly controlled by du wuhui's group. If you touched them, you would be touching du wuhui's group.

Pulling one hair would affect the whole body. When the time came, the conflict would expand, and it would very likely evolve into an early decisive battle with du wuhui's group!

"It's a little risky. "

Shen Yifan said after a long pause.

With the current strength of the rebirth Alliance, if they could completely eliminate the interference from the outside world, it was possible for them to swallow up the three great societies. However, such ideal conditions did not exist in reality.

No matter what, du wuhui couldn't just sit back and watch the three big societies do nothing, unless there was some kind of human force that couldn't be resisted.

"The risk is high, but the benefits are also high."

Lin Yi chuckled, "it's not my style to just take a beating and not fight back. Since he's already attacked, I'll naturally return the slap. Courtesy demands reciprocity."

Shen Yifan's eyelids twitched when he heard the words 'courtesy demands reciprocity'.

He agreed with Lin Yi's aggressive nature, but there were many things that couldn't be decided on a whim.

"What's the reason? If we don't want the 10-member council to fight, we have to come up with a valid reason. At the very least, we have to come up with a plausible excuse. "

Lin Yi smiled as he handed over a seemingly unimportant report."What do you think of this?"

The information mentioned a woman's name, Fang Qian.

Shen Yifan took a few glances at it and couldn't help but clap his hands in admiration."Old Lin, you're not bad. You've already done so much homework. It seems like you've been eyeing the three major societies for a long time. You've hidden it well!"

"Coincidence," Lin Yi laughed,"it's all a coincidence. "

Both of them were highly motivated. After coming to an agreement, they immediately gathered the core members and secretly began a series of mobilization preparations.

The next day, Fang Qian, the warehouse manager of the talisman making society, had stolen a large number of high-grade talismans to meet with the upper management of the three major societies. In the end, she was caught red-handed by Tang Yun, who was in charge of supervising the talisman making society.

As Jiang Ziheng's loyal fan, Fang Qian did choose to work with Lin Yi to get revenge on Xiao Chi and the others.

Lin Yi did keep his promise and didn't do anything to her, even letting her stay in the society.

However, this was not enough to dispel Fang Qian's resentment. Even today, she was still thinking about it, hoping that Jiang Ziheng would be able to put on a show of The Return of the King!

In the past, in Jiang Ziheng's era, as his woman, she had long been used to spending extravagantly, and now this little salary was not enough for her to squander.

Naturally, using her position as the warehouse manager, she set her sights on the talismans in the warehouse.

However, entering and exiting the Academy required a series of checks. It was impossible for Fang Qian to sell the talismans in her inventory outside of the Academy on her own. With the secret hints of someone, she turned her attention to the three great societies.

Talismans had all-rounded functions and could be considered a perfect match for any profession.

The upper echelons of the three great societies were familiar with Fang Qian's character and were not on guard against this. They easily reached a tacit understanding with Fang Qian.

One side was selling it secretly, the other side was buying it at a low price.

The two of them struck a deal immediately. After a few tentative cooperations, they had become bolder and bolder. The scale of the transaction was unprecedented. The market value of the talismans was at least 20000 academic credits!

To the three great societies, as long as this deal was closed, even if the truth was revealed, they would still be able to earn a fortune.

What could Lin Yi Do to them when they said they didn't know anything and had du wuhui's protection?

He had never expected that from the beginning to the end, all of this was simply a trap to enforce the law, and he had been caught red-handed!

Public opinion was in an uproar.

It wasn't strange at all that the three societies would be able to earn some money from the talisman-making society, but it was embarrassing to be blocked by Tang Yun and her people.

Lin Yi's group reacted very quickly, capturing the executives of the three big societies on the spot. While they ignited the public's opinion, they also made an announcement to the three big societies.

There was only one condition for the ransom, which was to compensate 50000 academic credits to each family!

When they heard the price, the three societies almost went crazy.

50,000 academic credits were not 50000 spiritual jades. Even the pill society, which was comparable to the talisman making society in terms of finances, could not possibly take out so many academic credits at once. It was impossible to snatch them!

"A single transaction costs 20000. According to Fang Qian's account, you have made no less than eight private transactions previously, which means that you have stolen at least 160000 of my talismans. Is it too much for me to ask your three families to compensate me 150000 together?"

Lin Yi issued his ultimatum to the three societies in front of the live stream.

The Presidents of the three major societies were on the verge of tears.

Where did 160000 Yuan come from? The previous deals were all probing deals. All of them added up to less than 10000 academic credits!

Chapter 9535

"You're not willing to offer compensation? Fine, then I'll have to work a little harder and personally come to collect the debt. "

With Lin Yi's order, the freshmen Alliance, who had long been ready, immediately launched a thunderous attack on the three big societies!

Everyone was shocked.

Originally, according to the normal process, if the two sides couldn't reach a settlement, the lawsuit would inevitably be brought to the 10-member council. As the actual controller of the three big societies, du wuhui had already made various plans for a face-to-face confrontation.

Who would've thought that Lin Yi wouldn't play by the rules!

The other party had clearly just played a 3v3, but there wasn't even the least bit of overreaction, and he had directly used the king Explosion!

When he found out that the main force of the rebirth Alliance had gone all out and taken down the pill society's headquarters in a short hour, du wuhui was so angry that he vomited blood on the spot.

"You're too much! He's forcing me to kill! Alright, I'll satisfy him!"

Du wuhui immediately gathered a group of core officers. Last time, the martial arts Society had already caused him to suffer a huge loss. Now that the same thing was happening again, he couldn't bear it anymore!

The point was that Lin Yi wasn't done taking down the first society yet-he was clearly using this as an excuse to take down the three big societies!

If he could still endure this silently, then he, du wuhui, would really become the rumored old turtle.

With the death of the subject after the master was humiliated, the officers were filled with killing intent.

However, he was stopped by Bai Yuxuan. ""Where does ninth master want to go?"

"Kill Lin Yi,"

Du wuhui no longer concealed the killing intent in his body.

"Ninth master, do you think this is a good opportunity for you to make a big fuss?" Bai Yuxuan asked.

"Isn't that the case?"

Du wuhui asked in a deep voice. Lin Yi was using this as a pretext to make a scene, and so was he.

Lin Yi had become a real threat to him now, and as long as there was a chance to kill Lin Yi, he wouldn't be stingy with his assets. Even if it was a risk, it would be worth it!

"If you insist, Lord Jiu," Bai Yuxuan said, shaking his head. "I'm sorry I can't continue to serve you. I'll take my leave now."

Du wuhui was shocked, and so were all the officers.

Bai Yuxuan's position in du wuhui's group wasn't just a senior think tank, but a genuine second-in-command figure. Many of the officers had been persuaded and recommended by him before they finally joined du wuhui's group.

Without him, it wouldn't be an exaggeration to say that du wuhui's group would collapse!

"Master Bai, didn't you support me to end the battle quickly? It's only been a few days and you're acting like this again?"

Du wuhui asked with a frown.

"That was then and this is now,"

Bai Yuxuan smiled bitterly. "If it was the Lin Yi from before, he wouldn't have a deep connection with the local element. We can take the risk, but now that he has a tacit agreement with master Luo, are you ready to go to war with the half-master?"

The term 'half-master' was a taboo in Jianghai Academy.

Whether it was the chief Department or the local department, the essence of these forces was always the elites who had the right to speak. No matter who won, it would not really change the overall situation. It was just a change of the dealer.

However, a half-master was different.

This was the first time in Jianghai Academy's history that a grassroots faction had formed. If they were to succeed in their counterattack, it would rewrite the entire history of the school.

In the end, even a Dragon Slayer would not be able to escape the fate of becoming an evil Dragon. However, Banshi Luo's rise to power had shaken the foundations of Jianghai Academy that had been established for thousands of years.

At that time, the rapid development of the half-master Department shocked all the old elite forces, including the Tian family. In the end, they were forced to join forces and form an unprecedented Alliance of the aristocratic families. They used all kinds of open conspiracies to finally suppress the rising momentum of the half-master Department.

Even in the end, they didn't dare to kill Luo Banshi, who was a huge threat to them. They only dared to imprison him in the Academy's prison.

This was because they knew that only Banshi Luo's survival could appease the hearts of the grassroots cultivators.

If Banshi Luo were to die, Jianghai Academy would be thrown into chaos!

Now, after so many years, very few of the less experienced students had heard of Banshi Luo's name. The top experts of the Banshi Department had also disappeared without a trace.

However, the words 'half-master' was still a taboo.

This was because everyone knew that as long as there were still grassroots cultivators, the half-master Department could rise from the ashes at any time. After all, no matter when, grassroots cultivators would always be the most neglected but also the most important thing that should not be ignored.

“.....”

Du wuhui secretly swallowed a mouthful of saliva. When facing the strong and powerful native element, he was only apprehensive, but when facing the legendary half-Master Element, there was only fear in his heart.

If his rash action caused the half-master class to rise from the ashes, at that time, the half-master class wouldn't even need to make a move on him. The forces led by the Tian family would be the first to take him as a sacrifice!

However, du wuhui was still unwilling to give up.

"Just because Lin Yi's a half-master now, we have to put up with it?"

The core upper echelons under his command were also dissatisfied. With their strong foundation, other than a few of the top ten big shots, when had they ever been afraid of anyone under the Academy?

Lin Yi had taken advantage of the martial arts Society before, and now he was even giving away the big three, and they couldn't even fight back, just because he used the half-master's name?

What kind of bullsh * t logic was this!

Bai Yuxuan looked at du wuhui with a burning gaze. "If ninth master really wants to soar to the top, this is indeed a once in a thousand years opportunity. If you can destroy Lin Yi and suppress the counterattack of a half-master at the same time, then even if you stand side by side with Xu Anshan, no one will dare to say anything. You can even get the favor of many noble families. Ninth master, do you dare to try?"

Du wuhui opened his mouth, but in the end, he still couldn't say the word 'dare'.

If he really had that kind of courage, he wouldn't be called du wuhui, and would change his name to Zhang Shichang.

Under everyone's hopeful gazes, du wuhui was silent for a long time before the anger in his body slowly dissipated. He asked in a hoarse voice, "What should I do?"

Bai Yuxuan and the others had expected this reaction. It was the most rational and realistic choice.

However, he was still a little disappointed.

Bai Yuxuan sighed. "It's a matter of half-division, so the safest way is to let the Council of Ten handle it. No matter what happens, there will be someone taller to take care of it. But I'm afraid we'll be at a disadvantage."

Handing it over to the 10-seat Council would mean going through the process and wrangling with each other.

Now that the pill society had been taken over by the rebirth Alliance, the Freemasonry society and the domain society would be next. When the ten-seat Council reached a conclusion, these two societies might also fall.

Would Lin Yi give up something he'd already eaten?

"What if a big problem turns into a small one and a small problem turns into nothing?" du wuhui frowned, unwilling to accept this.

This was not impossible. Although Xu Anshan had always been strong, when it came to the half-master Department, a slight change would affect the whole. Especially when he was in the wrong for what he did to half-master Luo back then, it was not impossible for him to choose to turn a blind eye to this matter.

After all, the one who would suffer losses in the end wasn't him, nor was it the other lead seats, but du wuhui.

Chapter 9536

"Endure."

Bai Yuxuan's answer made everyone frown again. It took a moment for him to explain.

"If you don't want to use this chance to stand out, you have to remember that this isn't a fight between you and Lin Yi, but a fight between all the noble families and the half-division, and Lin Yi is just a pawn sent by the half-division to test the waters."

Du wuhui's eyes lit up, "brilliant plan!" As long as Lin Yi and the half-master are tied up, he's dead for sure!"

This was an open scheme.

If all the noble houses and half-Masters went against him, the thriving Lin Yi would be like a grain of sand in the dust-his life and death wouldn't be up to him.

Putting on a half-Master Division would allow him to raise a Tiger's skin flag, but at the same time, it was also the path to his death.

The ten-seat Council gathered all the big shots again, including Lin Yi.

But anyone with eyes could tell that Lin Yi was still sending his doppelganger this time. His real body was busy leading a group of new students to expand their territory.

The three great societies were weaker than the martial arts Society, but they still had their pride. Without Lin Yi as their core, it wouldn't be easy for the new student Alliance to take them down.

Only with Lin Yi leading the charge and eliminating the enemy's core force would the remaining freshmen be able to control the casualty rate.

Otherwise, even if the three great societies were to take down the new student Alliance, the new student Alliance would be crippled, and the losses would outweigh the gains.

After all, Lin Yi's original intention in starting this battle was not only to divert the freshmen's attention, but also to train the freshmen Alliance's overall strength and teamwork. This was the foundation for the future.

"Lin Yi, you and Banshi Luo plotted to take over the three societies-do you really think the ten-seat Council's rules are for show?"

Du wuhui immediately attacked.

Lin Yi was a little surprised, "I'm conspiring with Banshi Luo?" Do you even know what you're saying?"

The rest of the ten seats also frowned.

Everyone present was smart, and they could see what du wuhui was thinking. Tying Lin Yi to the division was indeed a smart move.

However, this binding method was a little low.

What kind of person was Banshi Luo? he was an existence that shocked all the aristocratic families, including the Tian family. Even if he was now in prison, he wouldn't go so far as to scheme for just three clubs, right?

Even though the three largest societies were considered a piece of juicy meat, their value was only so. Even the top ten were not willing to mobilize their forces for this, let alone Banshi Luo.

Du wuhui ignored everyone's reaction and said indifferently, ""You plotted with Banshi Luo for a day and a night. After you were released from the college prison, you targeted the three major societies and launched a surprise attack against them, disregarding the rules. Am I wrong?"

Everyone turned to Lin Yi.

"Du Jiuxi's questioning has made me realize something. Our teaching at Jianghai college isn't good enough!" Lin Yi chuckled.

"Other than cultivation, we still need to arrange some cultural courses. At the very least, we need to cultivate the students' critical thinking. Otherwise, if they end up like Du Jiuxi, others will think that Jianghai Academy is full of illiterates."

His words made everyone's expression turn strange.

Du Wuhui was so angry that his face turned red. He gritted his teeth and said, ""You better watch your mouth!"

"Don't worry, I'm a civilized person. I don't swear, I only speak the truth."

Lin Yi smiled, "let me ask you a question. We're all drinking water. We'll die if we drink water. So, drinking water will lead to our deaths, right?"

"Ridiculous!"

Du Wuhui scoffed, but his expression changed when he realized what was going on.

Zhang Shichang, who was on the side, slammed the table and laughed. "Ridiculous my ass, isn't this your plan, Du Wuhui? hehe, Lin Yi only met Banshi Luo once, and everything was under Banshi Luo's orders."

How many of us here haven't seen Banshi Luo before? Some people even treated half-master Luo as a disciple!"

Even Xu Anshan's face darkened.

Backstabbing Banshi Luo could be said to be one of the few black spots of this ancestral Dragon's body protection innate Emperor.

Even though he had been tasked with the mission of being a spy in various clans from the very beginning, in the end, he had still betrayed Banshi Luo, who had been half his teacher.

"Brother Shichang, please be careful with your words. No matter what your position is, we still respect half-master's character very much."

The sky official song Jiangshan stepped forward to smooth things over.

However, these were not just polite words. When Banshi Luo was still in power, most of the people present had not yet emerged. At most, they were only the ten deputy chiefs, and were all juniors in front of Banshi Luo.

Ji Chi, the fifth seat, stood up and stood on du wuhui's side with a clear flag,""It doesn't matter if Banshi Luo has anything to do with this, it's a fact that Lin Yi led his men to attack the three big societies. We need to give du jiuxi an explanation."

Du wuhui continued, "Lin Yi, don't think that you can get away with it by bringing out that stupid woman Fang Qian. Everyone here is not an idiot. The so-called colluding with the three big societies to take over your talisman society's storage is just an excuse to fool people!"

"Even if I had prepared a trap, the three great societies would still have gotten what they deserved. Since they have made such a stupid mistake, they will have to pay the price, right?"

"You want to hear the real reason?" Lin Yi looked at du wuhui.

"You still have a reason?"

Du wuhui sneered.

"Of course there's a reason," Lin Yi smiled, "the rumors about the new students Alliance were all spread by your family, right? the Internet Water Army was also raised by your family, right?" Is it hard to understand that I'm going to cut off one of your claws?"

The moment these words came out, du wuhui's face instantly turned as black as the bottom of a pot. He actually choked and couldn't say anything for a long time.

Everyone was speechless.

It was very common for people to use underhanded tactics on each other in private, but it was the first time that they had ever seen someone use it so openly and directly in such an occasion.

Zhang Shichang laughed. "You're a bright person that I like. Lin Yi, I'm on your side!"

Everyone collectively looked at du wuhui, waiting for his next response.

At this point, there wasn't much room left for du wuhui. If he didn't want to lose face, if he didn't want to suffer this loss in front of everyone, his only choice was to fight Lin Yi on the spot.

Especially since Lin Yi was the one who started this, it was only natural for du wuhui to react. Even if it was because of his domain clone, no one was in a position to blame him.

"You want to break the rules? Alright, I'll keep you company. "

Du wuhui stared at Lin Yi coldly, "I'd like to see if a new student like you has the right to break the rules!"

Ji Chi spoke up again, "this time, the freshmen Alliance has openly violated the rules. The Disciplinary Committee will not ignore this. Lin Yi, if you can't give a reasonable explanation, I will send a message to all the members of the freshmen Alliance. Some people need to be taught a lesson."

Everyone's expression changed slightly.

Once Ji Chi's words were confirmed, it would be a destructive blow to the entire rebirth Alliance!

Chapter 9537

Although the freshman Alliance was currently on the rise and was about to swallow up all five major clubs, it still couldn't be compared to the established official organizations like the Disciplinary Committee.

Even if the dark group was in Han Qi's hands, the remaining forces of the Disciplinary Committee would still be enough to easily crush the freshmen Alliance. There was no doubt about this.

It was just a message in name, but with Ji Chi's ruthless style, it was certain that someone would die during the message, especially the core members of Lin Yi's group. The chances of them getting out of the Disciplinary Committee unscathed were no higher than winning the lottery.

Ji Chi's move was undoubtedly forcing Lin Yi to turn against him!

The key was that the first seat Xu Anshan was still watching coldly from the side and had no intention of speaking.

It was obvious that this was his idea.

Everyone turned to look at Lin Yi-he was really in a corner this time.

If they did not resist, the rebirth Alliance would definitely suffer a huge loss. Not only would they have to spit out the benefits they had obtained from the three great societies, they might even be unable to recover from this!

And if he resisted, he wouldn't just have to face du wuhui, he'd have to face the even more terrifying Disciplinary Committee as well as the collective will of the first seat.

Not to mention a newly-promoted tenth seat, even the old-school ten seats would not be able to withstand such a lineup. It was estimated that only the top big shots like the second-ranked Shen Qingnian and the third-ranked Zhang Shichang would have such confidence.

"Some people?"

"I wonder if I'm one of them?" Lin Yi raised a brow.

Ji Chi sneered, "so what if I am?" So what if he's not here?"

"If I'm among them, then this matter will be very simple. There's no need to trouble the brothers of the Disciplinary Committee to send a message. I will personally bring the new students to visit. President Ji, please make your preparations."

As soon as he said that, everyone was speechless.

This time, it was Ji Chi's face that was as black as the bottom of a pot.

"You're challenging me?"

Ji Chi was in disbelief. This guy was simply a madman, biting whoever he saw!

He hadn't even settled the matter with du wuhui yet, and he actually turned around and dared to bite him. Furthermore, it was in such a situation, in front of all the ten seats!

"I can 't?"

"You're worried about du wuhui?" Lin Yi blinked. It's fine, I can put you in front of old du. You're all familiar with each other, so I can understand. "

"....."

Ji Chi was speechless.

Du wuhui heard this and was secretly happy. Although he didn't put Lin Yi in his eyes at the beginning, the situation had developed to this day, and he deeply understood how troublesome Lin Yi was.

Now that Lin Yi turned around and bit someone else, it was a bit of a blow to his family's prestige, but he had to admit that this was a great thing for him. He couldn't ask for more!

In the end, it was the sky official song Jiangshan who came forward to smooth things over.

"Lin Yi, you've misunderstood. President Ji's sending a message is normal. There's no other meaning. It's just that you've caused such a big commotion this time, and it's bound to cause a chain reaction. In order to avoid unnecessary chaos, the Academy will need to invest a lot of manpower. You have to give an explanation."

"Oh, that's what you mean?"

Lin Yi finally understood and grinned at Ji Chi, "President Ji, next time you have something to say, you have to make it clear. With such a flustered reaction just now, I thought you had some ideas about me? You just want me to pay a protection fee, just say it. "

"What protection fee? What a load of nonsense!"

Ji Chi replied coldly, but he was relieved in his heart.

With the power he controlled, although he was not afraid of a mere freshman Alliance, he still had Han Qi, who was eyeing them like a tiger watching its prey. Han Qi's various actions during this period could be said to have been revealed.

He was the one who had defeated Han Qi, and no one in Jianghai Academy understood Han Qi better than him.

He knew all too well how terrifying that short man was!

Lin Yi laughed, not thinking much of it. "We are not as rich as you guys. We freshmen are a group of poor ghosts. Even if we squeeze our entire body dry, we won't be able to get a few drops of oil. Therefore, if you want to ask for protection fees from us, I'm afraid that you guys are really thinking too much."

"No one wants your protection fees, but the domain clone you showed last time was very interesting and valuable to our Academy. Why don't you take it out and share your experience with everyone?"

Song Jiangshan reluctantly spoke on behalf of the chief.

"No problem,"

Lin Yi's answer was surprisingly quick, but he quickly added, "However, this is something I've spent my entire life's effort on, after all kinds of bloody trials, and paying a huge price to barely grope it out. If you're interested in studying it together, I'd be more or less willing to give it a try."

Everyone was speechless.

You're a F * cking new student. You've only cultivated your domain for a few days and it's already become your life's work? Isn't your life a little too short?

However, the strategic value of a domain clone was too great. Even if everyone found it ridiculous, they couldn't disobey it in front of everyone.

Song Jiangshan could only continue to ask, "then what do you want us to do?"

"It's simple. In order to make it easier for everyone to study, I've put in a lot of effort to write down all the relevant essence. 1000 academic credits for one copy. I'm honest with all of you."

Lin Yi said as he took out a bunch of Jade slips.

Judging from the material of the Jade slips, they were actually all one-time use. Once spiritual sense invaded them once, they would shatter. It was a first-class anti-piracy technique.

"Brother Lin Yi sure has his ways! Here, give me one, old Zhang!"

Zhang Shichang laughed loudly as he was the first to support Lin Yi. He transferred 1000 credits to Lin Yi on the spot, and the transaction was completed.

Shen Qingnian followed suit.

Although 1,000 credits wasn't a small amount, for big shots at their level, they would probably be embarrassed to meet people if they didn't have a few thousand credits on hand at all times.

Moreover, 1000 academic credits for the essence of a domain clone was worth it no matter from which angle.

The rest of the ten-strong natives didn't hesitate either, coming forward to support Lin Yi.

Speaking of which, if there were ten council members, they wouldn't have the chance to buy it even if they wanted to. This was also a win-win situation.

As a result, the remaining ten seats of the chief Department were a little embarrassed.

From du wuhui's point of view, they obviously couldn't support Lin Yi. According to Ji Chi's meaning, he obviously wanted Lin Yi to hand over the realm clone unconditionally, not in a situation like this.

In that case, du wuhui would still suffer some losses after being swallowed up by the three great societies, but he would still be able to make up for some of the benefits of the other ten seats in the chief faculty.

Xu Anshan and the others could also get tangible benefits, and everyone was happy.

Only Lin Yi was bleeding.

But now that Zhang Shichang and his gang were here, it'd be too embarrassing for them to take Lin Yi's realm for free.

After all, everyone present was a respected figure who wanted to save face.

Chapter 9538

After going around the local area, Lin Yi turned to du wuhui and the others. "I'll say this first. This is the only time. I'm not as selfless as master Luo. If you want to buy it from me after this, I'm sorry. I won't entertain you."

Everyone looked at Xu Anshan.

The strategic value of a domain clone was too great, and they were all determined to get it. However, to make Xu Anshan, the chief, admit defeat to Lin Yi in front of everyone, the scene was a bit unimaginable.

In the end, it was still song Jiangshan who stepped forward and said, "alright, I'll take care of the rest."

With that, he transferred 5000 academic credits to Lin Yi, taking the last five Jade slips he'd prepared in advance and giving them to the ten Chiefs, even du wuhui.

Du wuhui was both embarrassed and angry as he held the Jade scroll song Jiangshan handed over, especially when he saw Lin Yi's playful gaze. He wanted to find a hole and hide in it!

He knew that the other party was trying to poach him at this moment, but he still had to force himself to buy things from the other party. The key was that he had to give song Jiangshan face. How could he accept this?

Lin Yi looked at him and added, "If du jiuxi is unhappy, he can leave it to those who need it."

"....."

Du wuhui almost spat out a mouthful of blood. He couldn't help but feel hot blood rushing to his head. He gritted his teeth and sneered, ""Good, good, good. Young people like to do things to the extreme. Then I will risk my life to accompany a gentleman to be young for once."

"I heard that the logistics department just got a perfect-grade wind-element domain-type raw stone. You seem to have been eyeing it for a long time. As your senior, I didn't want to take it from you, but since you're so unruly, I don't think I need to keep it for you."

Lin Yi's eyes turned cold.

The perfect wind-elemental domain was something he had already decided on with old man Zhao. It was also the key to improving his strength!

Now that he had a perfect domain in the wood element, he had the capital to fight with an experienced domain master like Shen Junyan. However, he was still far from being able to compete with du wuhui, who was one of the real ten Chiefs.

Only by having another perfect wind element domain could he possibly narrow the gap and obtain the confidence to face du wuhui head-on in a short period of time!

Therefore, this was a reverse scale that no one was allowed to interfere and destroy!

"Before the zence new generation battle, I had an official agreement with the ten-member council that I would have the priority to purchase."

Lin Yi looked at song Jiangshan and said indifferently.

Song Jiangshan did not shirk his responsibility and immediately nodded as a witness,""There is indeed such a matter. I have already reported it at the meeting."

Du wuhui laughed."The newcomer King is still young. If you have priority, others will have it too. Unfortunately, I also have a priority to purchase."

Lin Yi couldn't help but look at Zhang Shichang, and his heart sank when he saw the latter nod.

It was obvious that the other party was trying to make things difficult for him. Now that he had a legitimate reason to do so, he was afraid that it would be difficult for him to get the perfect wind-type domain origin stone.

Zhang Shichang took the initiative to help, "what bullsh * t priority?" In my opinion, it's better to let the logistics department make the decision themselves. Since they got the items, they can sell them to whoever they want. No one can say anything!"

The relationship between Lin Yi and old Zhao in the logistics department wasn't known to the world, but he'd never tried to hide it either. It couldn't escape the eyes of those who were paying attention.

If the logistics department were to make the decision, it was easy to imagine who would end up with this perfect wind-type domain.

Ji Chi sneered. "Hey, the logistics department is just for us to look after the warehouse. Since when is it a doorkeeper's turn to decide the things in the warehouse?"

"Well said. I'll help you pass on your words to old man Zhao."

Zhang Shichang's words made Ji Chi speechless.

In terms of the power structure, although the logistics department was in charge of a large number of resources, it was still under the supervision of the Academy, so its position was limited.

But old man Zhao was different!

This person's background was profound. No matter if it was the school's management or the retained students' school, he had countless connections. Even the old master of the Tian family had to affectionately call him uncle when he saw him.

Although Ji Chi held the Discipline Committee like the sun in the sky, he really didn't have the confidence to speak tough words to old man Zhao face to face.

"Let's bid. The one with the highest price will win. "

Hearing Xu Anshan's sudden words, everyone was shocked for a moment, and then du wuhui's face showed joy.

If it was a real fight, even Lin Yi, who had the talisman society as his money bag, wouldn't be able to compare to him.

In addition to being successful, he, du jiuxi, was famous for his ability to accumulate wealth. In terms of family background, he could be ranked in the top five of the top ten!

Most importantly, the words that came out of Xu Anshan's mouth directly set the tone for this matter.

Not to mention Lin Yi himself, even the natives, led by Shen Qingnian, couldn't refute him without a good reason, especially when it was Lin Yi's personal matter.

In the end, the time was set for three days later, and Lin Yi and du wuhui would compete fairly.

After the meeting was over, Zhang Shichang grabbed Lin Yi and Shen Qingnian, "Don't worry, Lin Yi-this isn't just about you, it's a fight between the native and the chief. Don't worry, old Shen's the God of Fortune here. What do you think, old Shen?"

Shen Qingnian smiled and nodded."I'm in charge of finance. I know a little about du wuhui's family background. As long as there is no third party interfering, it's not difficult to deal with him."

In the entire Academy, in terms of financial power, Shen Qingnian, who was second in place, was without a doubt the best. If he was really willing to take the field, let alone du wuhui, even if all the conclave students were to join forces, it would probably not be enough.

Shen Qingnian's financial power and Zhang Shichang's warrior's Department were the two most important legs of the local department.

If not for this, he would not have the qualifications to stand up to the chief at all!

However, it was still unknown whether Shen Qingnian would be willing to join the battle.

Up until now, because of Qiu sanniang, Lin Yi and Zhang Shichang had been working together in the dark and in the open, forming an alliance of attack and defense to some extent.

However, between him and Shen Qingnian, there was not much substantial binding of interests. At best, they were only superficial allies.

"Old Shen, don't be so polite. Let's be more practical. How much can you provide?"

Zhang Shichang obviously intended to play matchmaker.

The native element was the weaker side, and if they kept up appearances, it was only a matter of time before they were devoured by the chief element.

Shen Qingnian muttered to himself for a moment before he extended two fingers.

"Two thousand?" Zhang Shichang immediately looked at him with disdain. Old Shen, I don't want to criticize you, but you're a little too stingy. You only invested 2000 credits in a kid with a bright future like Lin Yi?"

2,000 academic credits might be a huge sum of money to others, but to Shen Qingnian, the God of Fortune, it was really just a drizzle.

Chapter 9539

"Twenty thousand," Shen Qingnian wagged his finger.

“.....”

Even Zhang Shichang was shocked, let alone Lin Yi.

Even if he had the entire Academy's financial power, 20000 was still a huge sum. One must know that unless the dozens of seats sold their assets, they would not be able to come up with so much liquid capital in such a short time!

Zhang Shichang thought for a moment. "In the past, the price of a perfect domain rough stone with an attribute was usually 3000 academic credits. The highest price would not exceed 6000 academic credits. Old Shen, with your 20000, there's no doubt about it."

Don't forget that Lin Yi had his own family background. He just got 9000 academic credits from selling the realm clone essence, plus the talisman making society that was making a fortune every day, and the other five big societies that he was about to get.

Even if he only took one-third of the stock, it would be at least a few thousand. In total, it would be at least twenty thousand. He was considered wealthy.

With Shen Qingnian's 20000 Yuan, he was invincible.

"What if old DU's really set on it and is willing to sell his blood for tens of thousands of credits?" Lin Yi asked suddenly.

"How is that possible? "He's already at this stage, so it's impossible for him to find another domain origin stone to re-cultivate. Snatching it would only be for the potential of his young talents. Tens of thousands of credits just to win over a little friend?"

Zhang Shichang scoffed."I'm not even this generous to my brothers. Does old du Jiu have the courage to do so?"

"It's not impossible,"Shen Qingnian said thoughtfully.

"Ha?"

Zhang Shichang was dumbfounded.

Shen Qingnian looked at the two of them and said in a deep voice,""With the current situation, it's only a matter of time before the first seat falls out with us. Although this is du wuhui's matter, it's not his matter alone. They won't just stand by and watch."

If the chief faculty exerted their strength, 20000 academic credits wouldn't be much. Moreover, du wuhui's Foundation wasn't bad. If he really wanted to fight to the death on this, he could still fork out quite a bit.

"Old Shen, I don't need to tell you how important this wind element stone is to Lin Yi Lil" bro. We're in this together now, we can't lose on this. We have to back him up. "

Zhang Shichang calculated for a while. "The warrior's Department still has some non-essential inventory. I can get 20000 credits after clearing them out."

The warrior's Department was not a profit-making organization. They had saved up all their money from the spoils of war they had seized from external operations. Most of it had to be used for the high compensation for the casualties and other daily expenses. It was not easy to gather 20000.

Shen Qingnian pondered for a moment and finally nodded. "Alright, I'll cover for you."

Even Lin Yi, who always separated benefits and friends clearly, couldn't help but be moved.

With the capital of himself and Zhang Shichang, he wouldn't have to spend too much even if he came out to cover the cost. After all, it was just a territory raw stone. It was rare to see it go up to 10000, not 100000!

But Shen Qingnian's "good" word made Lin Yi feel the trust of an ally for the first time.

"Actually ..."

"I'm not that determined," Lin Yi smiled after some thought.

Zhang Shichang and Shen Qingnian were stunned.

At the same time, du wuhui and a group of elders from the chief Department were also plotting something. Just as Shen Qingnian had said, this was no longer du wuhui's matter alone.

If Lin Yi was just hanging out with a native, Xu Anshan wouldn't think much of him. After all, even if they were both in the top ten, there was still a huge difference between them.

However, now that Luo banxian's shadow had appeared, he had to be killed!

Half-immortal Luo was an absolute taboo. Anyone who was even slightly related to him must be severely suppressed. This was the foundation of Xu Anshan's current status and the reverse scale that the aristocratic families, including the Tian family, could not touch!

The group of lead members and du wuhui were having a heated discussion.

Xu Anshan didn't say a word from beginning to end. It was only when the meeting was over that he suddenly said, ""If you can't take care of Lin Yi this time, I'll do it myself,"

Everyone was stunned.

That sentence was a death sentence for Lin Yi.

Lin Yi might have a ten percent chance of beating du wuhui, but he would definitely die if he went up against Xu Anshan!

However, du wuhui didn't feel relieved. On the contrary, his mood became even heavier.

Xu Anshan never spoke nonsense. This time, he definitely had something in mind. The hidden meaning behind his words was that in the eyes of this natural-born Emperor, he, du wuhui, might lose!

And the possibility of losing to Lin Yi wasn't small!

Du wuhui originally had a strong self-confidence, but now that Xu Anshan looked down on him, he couldn't remain calm.

Xu Anshan was far superior to him in terms of judgment and information resources. Since he made such a judgment, it could only mean that he had overlooked a key factor that could determine the outcome of the battle!

"The first seat thinks you'll lose, ninth master? Did he really say that?"

Bai Yuxuan couldn't help but feel shocked after hearing du wuhui's description.

Although he was constantly reminding du wuhui not to underestimate the enemy, it wasn't to the point where he thought that his own side would fail miserably in an easy task. In his opinion, the outcome of the battle was actually very clear. The problem was nothing more than the price that his side had to pay.

"He didn't say it clearly, but that's what he meant. But no matter how I think about it, I can't think of anything that Lin Yi can do to turn the tables!" Du wuhui frowned.

"Could the winning hand be this wind-type perfect domain origin stone?"

"I've been analyzing Lin Yi's past these days," Bai Yuxuan said, deep in thought. "He's really unusual. Once he finds an opportunity to break through, his strength will increase by an unimaginable amount."

"Before he cultivated his domain, his strength could at most suppress new students. Compared to real masters, he was nothing."

"However, it has only been three days since he formed his domain, and he has already advanced by leaps and bounds to the point where he can kill Shen Junyan head-on. The increase in his strength is truly unbelievable!"

"What?" du wuhui was drenched in cold sweat. "What you mean is that you also think that if he gets the wind element perfect domain origin stone, his strength will rise again, and he'll be able to fight me head-on?"

In the past, he would have scoffed at such nonsense.

Even if Lin Yi were to take a step back and add a wind element perfect domain, he'd still only be a giant at the peak of early stage of complete realm. At most, he'd be a little stronger than his original self.

If he wanted to break through his realm and achieve a qualitative improvement, the key was not how many domains he had, but the strength of his domain.

And this could only be done by relying on one's own powerful comprehension and grinding day after day. There were no shortcuts at all.

But now, he wasn't too confident.

What if Lin Yi was as unreasonable as he always was?

Just as the two were making their suspicions, someone on the internet suddenly made a shocking piece of news-Banshi Luo, who'd been in prison for so many years, was actually making a comment on Lin Yi and du wuhui!

Chapter 9540 Power

"Lin Yi's counterattack against du wuhui only needs an opportunity,"

These were Banshi Luo's words.

Suddenly seeing this news, du wuhui only felt a chill run from the soles of his feet to his scalp, and his entire person was stunned.

That was Banshi Luo, the teacher of the world!

Regardless of their positions, Banshi Luo's vision and capabilities were something that no one in the entire Jianghai Academy would dare to say no to. If these words were to come out of his mouth, it would be highly believable!

The key was that even Xu Anshan had the same idea. Even though du wuhui had always been quite conceited, he was completely unconfident now.

"The opportunity Banshi Luo was talking about is most likely this perfect wind-element domain origin stone. Ninth master, we must give it our all and obtain it at all costs. Otherwise, we'll have no end of trouble!"

Bai Yuxuan suggested.

Du wuhui nodded repeatedly. He originally only had the intention of cutting Lin Yi off and purely wanted to embarrass him. After all, no matter how much a perfect origin stone was, it was useless to him now.

But now, this raw gemstone had become his lifeline!

He didn't know what would happen if Lin Yi got the stone, but he didn't want to imagine what would happen.

"The problem is that Shen Qingnian is there. I'm afraid we don't have enough credits!" Bai Yuxuan said with a frown.

"The chief Department has agreed to sponsor 20000 Yuan."

This was something that Du Wuhui had fought for for half a day, and the members of the chief Department had barely managed to gather.

They were not like Shen Qingnian, the God of Fortune who could easily get tens of thousands of credits. They were only able to get 20000 credits because of Xu Anshan. Otherwise, even 10000 credits would not be enough.

"That might not be enough," Bai Yuxuan frowned.

Du Wuhui hesitated for a moment before he gritted his teeth. "It's fine, I'll borrow from them again. At most, I'll pay some interest! If the lips die, the teeth will feel the same. They're not fools!"

After all, they were the top 10 veterans with deep foundations. If they had to pay a little, but if they had to borrow money, it would be a completely different situation.

Du wuhui didn't want to put in such a huge amount of money, but things had already come to this, and it was related to his life. If he didn't hurry up and place his bet, he might really not have the chance to place one in the future!

Two days later, in the logistics department.

The logistics conference room was not spacious, but six of the 10-seat council members had gathered there, forming another 10-seat Council.

The second seat was Shen Qingnian, the third seat was Zhang Shichang, the fourth seat was Song Jiangshan, the fifth seat was Ji Chi, the ninth seat was Du Wuhui, and the tenth seat was Lin Yi. They were all here together with their left and right hands!

Even old man Zhao Qiong, who had seen many things in the world, could not help but click his tongue in wonder.

"This is interesting. Since when did perfect territory stones become so popular that so many important people would be willing to help?"

It wasn't like there hadn't been such bidding scenes in the past, but those who appeared were basically all Deputy level. In the end, this kind of bidding was only for the younger generation with potential to use. To the big shots of the Academy who were truly standing at the peak, it had limited meaning.

It was the first time that the ten Chiefs had come out in person!

Du wuhui's face revealed his impatience. "Stop wasting everyone's time. Take out the wind element perfect domain origin stone and quickly start!"

Old Zhao glanced at him before turning to Lin Yi. He nodded slightly, "That's good. Since someone can't wait to add to the achievements of my logistics department, I'm more than happy to have them."

After he finished speaking, he took out a brocade box from the counter and opened the lid. A crystal-clear raw stone lay quietly in the box.

The domain patterns were detailed and there was a profound meaning behind them that made one forget about the common world.

Everyone nodded in agreement. It was indeed a perfect wind-element domain-type raw stone!

"Today, du wuhui and Lin Yi will be bidding. No one else is to disturb them. As for the rules, both parties can bid three times. After three times, the higher bidder wins. Any objections?"

Old man Zhao looked at the two of them.

Lin Yi didn't say anything, but Shen Yifan, who was behind him, asked, "Elder Zhao, may I ask who will bid first?"

Both parties only had three chances to bid. No matter how one looked at it, the party who spoke first would be the passive party, while the other party would always have the initiative, and could advance or retreat.

This point naturally could not escape the discerning people present.

Bai Yuxuan, who was standing beside du wuhui, said, ""First come, first served. Since the newcomer King made the first bid, it should be the newcomer king who bids first. My ninth master is a latecomer, so he won't fight with a junior for the first bid."

Shen Yifan was about to retort when Lin Yi stopped him.

"If that's the case, then I won't be polite."

Lin Yi smiled as he looked at the man. "Ten thousand."

Everyone was in an uproar.

Although they knew that today's bidding was unusual, no one had expected it to reach this stage. The starting price was already 10000 academic credits. This was enough to buy three perfect domain-grade stones with different attributes in the past!

Du wuhui's eyes twitched as he understood Lin Yi's strategy.

This was clearly to gain the upper hand, setting the tone to the highest to scare him!

If it wasn't for the fact that he had been working together with many parties and made ample preparations in the past two days, he might really have been frightened.

"Twenty thousand!"

Du wuhui's counterattack also made people's eyelids jump.

It was understandable for Lin Yi to be young and aggressive as the newcomer King, but he was a veteran of the ten seats, and someone who was always smooth and slick with people. It was hard to understand why he'd come up with a fight like this.

Fortunately, there was no live broadcast of this auction. Otherwise, just this scene alone would have made those who were observant see that a storm was brewing in the Academy, and they would be ready to make a move.

"Fifty thousand!" Lin Yi smiled.

Everyone immediately thought that this person had gone crazy.

50,000 academic credits for a territory stone?

No matter what, this would definitely be a huge joke. Even if there was inflation, it shouldn't be devalued like this, right?

"Do you have that many credits? Could it be that he's bluffing and deliberately causing trouble?"

Du wuhui immediately expressed his doubts. He and Bai Yuxuan had carefully calculated the upper limit of Lin Yi's wealth-even with the support of the native element, it was impossible for him to reach the upper limit of fifty thousand.

Even if the support of the native element was beyond their expectations, Lin Yi didn't have the guts to take it all out for a wind element perfect domain origin stone!

After all, Lin Yi wasn't alone-he had a bunch of people he needed to feed, and this huge amount of credits had a more valuable and efficient use!

Under everyone's gazes, Lin Yi replied indifferently,"It's simple. I'll just let elder Zhao check my account balance."

After he finished speaking, he handed his student card to old man Zhao. Old man Zhao swiped it and nodded to confirm, ""No problem,"

“.....”

Du wuhui still wanted to question him, but he was stopped by Bai Yuxuan.

Not to mention that old man Zhao's background and qualifications were a mess, just his identity here today was not to be offended. He was the only arbitrator of today's bidding.
