

## Bodyguard 9541

### Chapter 9541

"Du jiuxi, if you feel that the price is too high, why don't we stop here?"

Lin Yi was very open-minded, "Don't worry. No one will laugh at you for bidding so high. If someone has to laugh at someone, it's me. You've already made a big profit by forcing me to use 50000 academic credits to buy a domain raw stone!"

When he said this, du wuhui couldn't help but feel even more apprehensive.

Logically speaking, anyone with a bit of rationality would've made the right choice to stop now. After all, the perfect-grade domain stone was very important to Lin Yi, who was rapidly improving in strength, but it wasn't that important to him.

However, Lin Yi's performance also verified Xu Anshan's judgment, especially that comment from master Luo!

Du wuhui really didn't dare to take the risk.

"Fifty-five thousand!"

Du wuhui was silent for a moment before he gritted his teeth and increased the bid.

This was a huge sum of money to him, but he could still afford to lose it. If he hesitated and Lin Yi took the chance, it would affect the outcome of the battle. It wouldn't be just a few tens of thousands of credits!

Lin Yi was a bit surprised, not expecting du wuhui to be so stubborn. He hesitated for a while before speaking in a low voice, "Eighty thousand!"

The audience was moved again.

This was already his third bid, and the next bid would depend on whether du wuhui was willing to follow.

If du wuhui was still rational, he wouldn't have continued. 80000 academic credits was almost the annual expenses of the entire Academy!

Even the Tian family wouldn't dare to spend 80000 academic credits on a raw domain stone, let alone the ten seats in the Academy!

Everyone's eyes were focused on du wuhui.

Du wuhui suddenly felt a mountain of pressure. He thought that Lin Yi was determined to get it, and he also thought that Lin Yi might use it as a key to defeat him, but he didn't think that Lin Yi would risk it like this!

This was no longer an ordinary bidding, but a gamble of life!

A normal life was only worth a few points. One must know that with the current market price, 2000 academic credits were enough to hire a senior domain master to work for you. 80000 academic credits was the price of 40 senior domain masters!

Du wuhui couldn't help but turn to Bai Yuxuan.

He couldn't make up his mind anymore. If he really took out 80000 credits, not only would he have to spend all his savings, but he would also have to owe a huge debt.

Even if they could take Lin Yi down, they would probably be reduced to the other ten seats of the main department. After all, these people were not philanthropists. Even Song Jiangshan, who seemed to be the most easy-going, could eat people up without spitting out their bones when he was ruthless.

Seeing this, Bai Yuxuan reminded him softly, "Lin Yi's not an idiot."

Du wuhui instantly understood.

Since Lin Yi wasn't stupid, he wouldn't do something so stupid for no reason. Since he was willing to pay 80000 academic credits, it meant that the domain stone was worth 80000 academic credits to him!

What could be worth 80000 academic credits?

Other than defeating him, du wuhui couldn't think of anything else, and it was impossible for him to do anything else.

"Do you think that this raw territory stone is the key for you to defeat me?"

Du wuhui stared at Lin Yi's every change in expression and said coldly, ""Aren't you afraid that Banshi Luo will make an error in judgment sometimes?"

Lin Yi pretended to be confused, "I don't know what you're talking about. I only know that for someone of your level to use 80000 academic credits to buy a territory stone, people will think you're an idiot. You'll become the laughingstock of the whole school, even the whole Jianghai city."

"Idiot? A laughing stock?"

Du wuhui sneered. "If I'm really scared by you like this, then I'd really be a fool and a laughingstock. Do you think that as long as you get this territory stone, you'll have a chance to defeat me in a head-on fight? and you can get back everything you've paid for it from me?"

Lin Yi didn't reply, but from the changes in his expression, it was clear that he was right.

"It's a pity that you don't have enough money. I can still afford to lose these few credits!"

Du wuhui immediately made his final bid,""Eighty-one thousand."

"Deal," he said.

Old man Zhao made the final decision. Even though he had been in charge of the logistics department for many years, today was an unprecedented day for him. The terrifying sky-high price of 81000 academic credits would probably become the highest price in the history of the logistics department. No one would be able to break it!

After receiving the academic credits, old man Zhao immediately handed over the wind element perfect domain origin stone to du wuhui.

Du wuhui looked at his account that had been emptied in an instant. His heart ached so much that it was bleeding. However, he still forced himself to look calm on the surface. Not only that, he even tried to sow discord.

"Shen Yifan, as the inheritor of the Shen family, the wind god, I think you are a good match for this perfect domain of the wind element. If you are interested, you can come and look for me. The door of the du mansion will be open for you at any time."

With that, he left with Bai Yuxuan, ignoring Lin Yi and the others "subtle expressions.

For a moment, many strange gazes fell on Shen Yifan.

If there was anyone here who wanted this perfect wind element domain-type rough stone the most, it would definitely be Shen Yifan. He might even be more desperate than Lin Yi!

Although Lin Yi had the wind element as well, it was only one of his many attributes. For Shen Yifan who came from the wind god Shen family, the wind element was all he had!

More importantly, he was the second-in-charge of Lin Yi group, controlling the power of the freshmen Alliance and the five big clubs, but he still hadn't reached domain yet.

Seeing Ying long and the others moving in one by one, especially Yan Zhongyuan who showed his spirit as the second person after Lin Yi, he was in the limelight.

Shen Yifan would be lying to himself if he said that he was still unmoved.

There was already a lot of gossip in private.

Today, du wuhui had made such a move in front of everyone. No matter what he thought, the seed of suspicion would definitely be planted.

Things like trust had always been the most solid and also the most fragile. Once a crack appeared, it would only get worse and worse, and there would be no means or room to save it.

Seeing Lin Yi and Shen Yifan's different expressions, du wuhui's frustration from being forced to pay 80000 credits was greatly alleviated.

But before he could walk out the door, Lin Yi suddenly spoke.

"Elder Zhao, I heard that apart from this wind-elemental one, you've also recently obtained an earth-elemental perfect territory origin stone?"

Du wuhui's footsteps stopped, and he immediately heard old man Zhao chuckling, ""The goods just arrived yesterday. You're really well-informed. I haven't leaked any information out. How did you know?"

"I heard it from the cafeteria lady."

Lin Yi's words almost made du wuhui vomit blood. He turned around and added, "Du jiuxi, take care."

"....."

Du wuhui forcefully suppressed the waves of dizziness. He gritted his teeth and turned his head to stare at old man Zhao's movements. He hoped with a hundred thousand percent that all of this was just a prank that the two of them were working together to spite him.

However, old man Zhao really did take out another brocade box.

Chapter 9542 Power

Inside the brocade box lay a brownish-yellow territory origin stone. The heavy aura it emitted shocked even the well-known experts.

"It's indeed an earth-element perfect territory origin stone!"

Zhang Shichang clapped his hands and laughed. He looked at du wuhui with a face full of ridicule, ""Old du, it looks like the show isn't over yet. You'll have to stay and bid for it, or this thing'll go to Lin Yi."

Du wuhui was so angry that he couldn't say a single word.

Just the 80,000 credits alone would have cost him everything he had. Not only would he have to spend all his years of savings, but he would also have to owe a huge debt. How the F \* ck would he have any extra credits to continue bidding?

Du wuhui could only look at Ji Chi for help. He was the one who targeted Lin Yi the most among the concertmaster students, and also the one who supported him the most.

Now that he did not have the strength to spare, he could only rely on others to stand out!

"I'll pay five thousand. "

Ji Chi understood and immediately bid. Lin Yi was du wuhui's enemy, and also his potential enemy. He wouldn't be stingy in dealing with Lin Yi.

In the end, old man Zhao replied indifferently, ""You don't have the right to buy first."

Ji Chi choked on the spot.

However, in front of old man Zhao, his position as the president of the Disciplinary Committee didn't have much prestige to speak of. He could only resentfully shut his mouth and give du wuhui a look.

Du wuhui understood. This was a hint that he could lend him academic credits. He gritted his teeth and said, ""I bid ten thousand!"

"Fifteen thousand."

Lin Yi said casually.

"16000." Du wuhui gritted his teeth again.

This increase in price was obviously incomparable to the previous one. The landlord family didn't have any surplus grain. Du wuhui was clearly at the end of his rope this time, and couldn't squeeze out much more water.

Lin Yi sighed in pity, but after looking at du wuhui's troubled face, he chuckled and continued to raise the price, "Twenty-six thousand."

Everyone looked at du wuhui in unison.

Du wuhui couldn't help but cry out in pain. But at this point, if he didn't follow to the end, then all his efforts would go to waste. Even the eighty-one thousand he'd spent before would be for nothing. After all, the core value of the eighty-one thousand was to limit Lin Yi.

If Lin Yi still ended up with a perfect-grade territory stone, what was the point of it?

Just to make a profit for the logistics department ...

"Twenty-seven thousand!"

Du wuhui once again broke through the limits of what he could bear.

For the first time in his life, he hoped that Lin Yi would continue bidding. It would still be a huge loss, but at least he could relax a little.

He'd be able to restrict Lin Yi strategically if he spent another twenty-seven thousand to get the perfect earth element territory stone, but he'd be crippled as well.

Even if he managed to get rid of Lin Yi's group, he'd still have a mountain of debt on his head. He'd be reduced to a chief worker forever, never to rise again.

Some people's debts could not be reneged on even if he wanted to, and they could not be repaid even if he wanted to.

In the end, Lin Yi remained unmoved and didn't seem to have any intention of continuing to bid.

Everyone had a strange expression on their faces.

Since this guy was able to raise the price to 80000 academic credits, he wouldn't be scared by a mere 27000. Those with discerning eyes immediately realized that there seemed to be a trick in this.

"Alright, sold at 27000. Congratulations to du jiuxi for obtaining another perfect-grade territory stone!"

Old man Zhao decisively gave the final word. He jogged all the way and stuffed the brocade box into du wuhui's hands, afraid that the other party would go back on his words.

“.....”

If it wasn't for the fact that so many important people were watching, du wuhui would have reneged on his debt. He had spent a total of 108000 academic credits. Even he, who was involved in the situation, started to realize that something was wrong.

A total of 108000 academic credits, emptied his entire family's savings and carried a debt, and in exchange for two raw domain stones that he couldn't use!

When he came back to his senses, he really felt that he might have gone crazy.

However, things had already come to this. It was impossible for du wuhui to go back on his word. Not to mention that old man Zhao would never give up the credits, even if old man Zhao did, the other people in the chief faculty would probably not agree.

To the first seat, he'd willingly put in so much money to deal with Lin Yi-he was the perfect worker who brought his own food!

Not only could he earn a wave of interest from him, but he could also completely tie him to the ship of the chief seat. How could he tolerate him going back on his word?

Du wuhui felt a heartache as he told Bai Yuxuan to keep the two territory stones. He could only silently think of how to maximize their value.

It wasn't impossible to directly reward them to subordinates with potential, but it would be a huge loss.

However, if he could get someone like Shen Yifan, who had great potential and strategic value, the rate of return would be much better.

However, it was not that easy.

Just as everyone thought that the show was over and was about to leave, Lin Yi suddenly spoke up again.

"Elder Zhao, do you still have another perfect gold-element domain origin stone?"

"Pfft!"

Du wuhui spat out a mouthful of blood on the spot.

The rest of the people were collectively stunned and couldn't help but look at old man Zhao in unison.

This was a perfect territory raw stone, not some rotten stone that could be found everywhere on the street. In the past, the logistics department could only get about one piece per year on average, and some years, they did not even get one piece.

Three pieces at once? He's playing!

In the end, he saw old man Zhao nod his head in all seriousness. ""There's really one, and it was just brought in yesterday. "

As he spoke, he took out another brocade box and opened the lid. Inside was a pure dark golden territory origin stone, which faintly emitted an extremely sharp aura, making everyone present unable to look at it directly.

"The canteen aunty's honest!" Lin Yi said, pleasantly surprised.

After he finished speaking, he turned around and looked at du wuhui, whose face was pale and had blood on the corner of his mouth, ""Du jiuxi, I can see that you like these stones. Do you want to come and support elder Zhao?"

However, old Zhao said, "that won't do. He no longer has the priority to buy it. The second piece just now was already spared for him. He didn't even have the right to compete with you. He's already taken a huge advantage. You can't let him take all the benefits, right? He's not my son. "

"....."

Du wuhui was so agitated that he spat out another mouthful of blood.

"So no one will fight with me for it? That's great, I've been looking for a gold-type domain origin stone for a long time, and now I've finally met a pillow. "

Lin Yi asked seriously, "Elder Zhao, What's Your Price?"

Old Zhao chuckled. "There's nothing much to say. Let's go with the usual market price. Three thousand."

"Deal!"

Following Lin Yi and old man Zhao's clapping, du wuhui spat out a third mouthful of blood under everyone's strange gazes. His vision went black and he collapsed on the ground.

As he was already at the entrance of the logistics department, this scene was captured by passers-by and posted on the internet, causing a huge uproar.

Very quickly, Lin Yi's three scenes with du wuhui became the hottest topic in the school.

The key was that it was getting more and more intense. Du wuhui couldn't control the comments even if he wanted to. He spent a lot of effort to suppress the popularity several times, but in less than an hour, the popularity rebounded, and it was even more intense!

Based on this momentum, this drama could definitely secure a spot in the top ten news of the year!

Chapter 9543

The big shots of the first seat Department were silent.

Du wuhui, who had suffered a double loss, was destined to be the laughingstock of the year. The faces of these people weren't any better. The key point was that after this incident, not only were they unable to completely tie du wuhui to them, but it had also left a huge crack in their relationship.

Unless they were willing to take the initiative to help du wuhui share the losses!

"Why don't we write off old DU's debt for the time being? it's not easy for him either."

Sky official song Jiangshan was indeed a good person. He was not just saying things without feeling any pain. He himself had borrowed 10000 academic credits from du wuhui, and that was real money.

"On what basis? "No one's credits come from the wind. It's already very generous of us to sponsor him so much previously. This time, it's his own mistake. It's obvious that this is a pit, but he still jumped in. Do we have to clean up his mess?"

The one who spoke was the eighth seat, Chen chuangu.

Ji Chi nodded. "In the end, he's the one who needs our help. We don't need his help. Let's take this opportunity to put him in the right position!"

Song Jiangshan frowned. "But if this goes on, he is likely to be resentful and will be at odds with us. I think we should put the big picture first and unite as many people as possible."

Everyone looked at Xu Anshan.

Their opinions didn't matter. What was important was the chief's opinion.

"Tell him to get rid of Lin Yi within ten days, or I'll replace the ninth seat," Xu Anshan said lightly.

Everyone was stunned.

Although he had always been domineering and decisive, that was only to the outside. He was relatively polite to the ten colleagues, especially to the inside. He rarely spoke harshly. As for the extreme pressure he was putting on now, it was even more unprecedented!

Song Jiangshan could not help but worry. Could it be that in the knowledge of this born Emperor, the situation had really become so bad?

People at his level had naturally heard of the Great Tribulation, but it sounded too unreal and did not feel real in the past.

But at this moment, he suddenly felt an unprecedented sense of urgency from Xu Anshan!

At the du mansion.

Du wuhui, who had been unconscious for an entire day and night, finally woke up. The first thing he received was a personal warning from the first seat. Little Feng Xian and Bai Yu Xuan were waiting on him at the side, and the atmosphere was extremely tense.

"What will master Bai teach me?"

Du wuhui's voice seemed to have aged several decades in an instant. Although a few decades didn't mean much to an expert of his level, it still had a huge impact on his essence, energy, and spirit.

Bai Yuxuan pondered for a moment and said in a deep voice, ""It's true that the battle between 9th master and Lin Yi should be done sooner rather than later, but we're not fully prepared yet, and it's too risky for us to fight Lin Yi group on our own. "

"It's still the same-we can deal with Lin Yi, but we can't be the first to go against a half-master,"

Du wuhui's eyes flickered with a cold light."Hmph! The first seat Department wants to stay out of this and let me be the cannon fodder. What a good plan."

"No matter how good the plan is, as long as the bait is good enough, someone will eventually take the initiative to enter the game. At that time, it's hard to say who will be the one to use who."

Bai Yuxuan laughed unhurriedly, as if he had the pearl of wisdom in his hand.

Seeing his reaction, du wuhui's heart immediately felt much more at ease. He said seriously, ""With you handling it personally, I'm sure that person will enter the trap for sure, but at the end of the day, Lin Yi still needs to be dealt with by me personally. I wonder how much he'll believe in this self-sacrifice trick."

"You're right. I was scared to death when I saw you being carried back with a pale face, ninth master."

At the side, little Feng Xian patted her chest with lingering fear.

"Three times of vomiting blood," Bai Yuxuan laughed. "It's a hot topic on campus that we can't suppress, and it's a definite annual humiliation. If your trick doesn't work, then we'll just avoid Lin Yi when we meet him in the future."

"A person with such a strict heart shouldn't treat us as his opponent. His opponent should be Xu Anshan."

"Compete with Xu Anshan? That's too kind of him. He's better off being a stepping stone for me. "

Du wuhui laughed.

Although he said that, there was still a lingering gloominess between his brows.

The three times he vomited blood at that time was an act, but he was really provoked. After all, those three times were not fake.

But it was also because of this that he was sure that Lin Yi would fall for it!

Even if they didn't say it, they would definitely look down on him in private. At their level, even if they didn't underestimate their opponent, just a slight thought like that was enough to affect the overall situation.

This was because it would imperceptibly affect one's decision.

Compared to usual, you would unconsciously adopt a bolder and more active strategy, and the more you do so, the easier it is to make mistakes!

"Ten days is just about right, but we can't let Lin Yi be idle,"

Bai Yuxuan reminded.

In fact, according to the cultivation speed of ordinary people, even the so-called geniuses would not be able to achieve a substantial breakthrough in a short ten days. So what if they obtained a perfect-grade domain origin stone?

Was it possible to cultivate a new domain in ten days?

Du Wuhui naturally scoffed at such an absurd thing, but he still nodded his head cautiously, "To be on the safe side, let's find him something to do. I see that the martial arts Society has been doing quite well recently. They're a little decent."

"I'll make the arrangements. "

Bai Yuxuan understood.

On the other hand, Lin Yi, who had the upper hand in the public opinion, wasn't feeling too proud. Instead, he was having a headache over an important appointment.

Shen Yifan was going into seclusion!

This wasn't strange at all-as the second in command of Lin Yi's group, even if he focused on management, his strength couldn't fall too far behind, at least not out of the top group. Otherwise, even if he had Lin Yi's support, his reputation would be greatly reduced.

Now that Yan Zhongyuan, Ying long, and the others had all formed their domains, he naturally had to make a breakthrough as soon as possible.

However, be it the new student Alliance or the five big societies, it was all because of him that they were able to merge together in such a short time. His closed-door cultivation would almost cripple the entire Lin Yi group.

"You do it,"

Tang Yin rolled her eyes at Lin Yi's sincere invitation. "On what basis?"

"I don't have to worry about you taking care of the house," Lin Yi said after some thought.

"....."

Tang Yin's eyes almost rolled to the sky, but a strange feeling welled up in her heart ... It seemed like she was secretly happy?

What surprised her the most was that Mengyao's shadow appeared in her mind.

Hell, why did he suddenly think of that woman?

Wang shiqing chimed in, "Sister Tang Yun will be fine. The people from the talisman society are all under her control, they're like quails in front of her."

This was not an exaggeration at all.

Even Lin Yi was surprised-he didn't expect Tang Yun to be a great manager when he let her manage the society. He just wanted to fulfill her wish of making talismans, and create more common topics for the two of them to talk about.

He didn't expect Tang Yun to pick it up so quickly. With Liu Yiyuan, a technical maniac who didn't understand human feelings, she took care of all the old men in the talisman making society.

Chapter 9544 The Power Of The Divine Realm

Even Lin Yi had to bow down to her in terms of her skill in using people-he'd even learned a lot from her when the Alliance first started, and he'd learned a lot from her.

"Can't you find someone else?"

Tang Yin hid the happiness in her heart and frowned at Lin Yi. "Can't you be more careful?"

"I'm too busy, so I have to run around to do things for you. I can only leave the Family Matters to you. "

Tang Yin rolled her eyes at Lin Yi's words. "Get lost!"

After consoling Tang Yin, Lin Yi turned to look for Qiu sanniang to give her some instructions. Now that she was best friends with Tang Yin, she could help her a lot with her reputation and methods.

Qiu sanniang readily agreed.

As for Lin Yi himself, he entered the nine-story Pagoda and went into seclusion again.

Although he had the experience of cultivating the perfect wood element domain, he should be able to cultivate the metal element domain much faster this time. However, time was of the essence.

The Academy had a long history and had its own set of procedures for all kinds of matters, big and small. This was especially so for matters like the seat challenge, which could affect the overall situation. The procedures were naturally even stricter.

Ever since they declared war on du wuhui in the 10-seat Council, both sides had entered the process of challenging for seats. Even if both sides tacitly chose to delay the time, there was still a time limit.

Once the time limit was up, the Challenger would have to pay a huge price.

Although Lin Yi group was becoming more and more prosperous, it was still far from being able to challenge the rules of the Academy. Xu Anshan had given du wuhui a ten-day deadline, which was also his deadline.

Within ten days, he had to complete the cultivation of the gold element domain!

But the wind wouldn't stop blowing even if the tree wanted to. Lin Yi had just started his isolated practicing, and it hadn't even been three days when the martial arts Society had problems.

Ying long had disappeared.

As one of the top three in Lin Yi group in terms of combat strength, even if Ying long had only joined for a short period of time, he was still a heavyweight. If something happened to him, it would be a huge blow to the entire Lin Yi group!

It would even directly affect their chances of winning against du wuhui's group!

"What's the exact situation?"

Lin Yi was forced to stop his training, and he frowned as he looked at the blood-covered Xiaomi.

He knew about Song Xiaomi's strength. She was basically at the same level as Shen Yifan. In the entire freshman Alliance, she could be ranked in the top ten. He did not expect her to end up in such a sorry state.

Song Xiaomi's face was full of shame. "I'm the one who dragged boss Ying down. If I hadn't fallen into his trap, boss Ying wouldn't have been taken away by that crazy man called Thunderlord!"

"Thunder God?"

Lin Yi blinked.

"He's an evil master who has suddenly become active in Jianghai city in the past month. He's been leading people to rob the logistics warehouses of the major Chambers of Commerce. He's succeeded seven times in a row and has come and gone without a trace. The officials can't do anything about it, so the major Chambers of Commerce have joined forces to put up a bounty on our martial arts society's platform." Tang Yun explained.

"Ying long took it?" Lin Yi frowned.

This mission did not sound simple. Even the officials were helpless, so how could he be a good person?

If it had been the experienced elite teams of the martial arts Society, they might have been able to deal with it. But now, it was a group of newbies and new students. If they were to take on the challenge, there was a high chance that they would be trapped.

"It wasn't him at first. It was another team of freshmen who took on the mission. They didn't intend to capture the Thunder God but just wanted to find out his identity and whereabouts. They didn't expect to be targeted by the Thunder God and all the members of the team were seriously injured."

"Out of safety considerations, I discussed with the higher-ups of the martial arts Society and decided to cancel this mission. As a result, it caused a lot of gossip."

"It just so happened that Ying long was preparing to lead a team out for actual combat training, so he decided to give it a try. In the end, this is the result."

After listening to Tang Yin's story, the subtle feeling in Lin Yi's heart grew stronger and stronger. He couldn't help but smile. "The whole thing doesn't seem to be that simple."

"You think there's a conspiracy?"

"I was worried about that too," Tang Yin said, deep in thought. "But from the feedback from the two teams, it's all logical. There's nothing weird about it."

"It's precisely because it's too logical that there's a problem." Lin Yi shook his head.

"So you mean to stop the mission?"

"I've already reported Ying Long's matter to the Academy," Tang Yin added. "The Academy has agreed to look for him. They're currently negotiating with the mayor's residence. They should have a result soon."

With the city Lord's Manor's power, it was really easy to find a person, especially someone like Ying long who was so easily recognized.

If they couldn't find him, there was only one possibility. Ying long was no longer in Jianghai city.

That would really be like looking for a needle in a haystack.

"With the relationship between the house and the Academy, it's hard to say how much they're willing to help." Lin Yi wasn't that optimistic.

"Then what do we do?"

Tang Yin was helpless. She had to get Ying long back, but if they couldn't even count on the city Lord's mansion, then they could only rely on the school's strength.

It was true that in terms of overall strength, the Academy was not inferior to the city Lord's mansion, but they had not directly interfered with Jianghai city's governance, so their external influence on the Academy was greatly reduced.

To be honest, if he really placed all his hopes on this, it would only be even more unlikely.

"It's better to rely on yourself than on others for this kind of thing. "

Lin Yi made his decision quickly.

"You want to do it yourself?" Tang Yin blinked.

"I don't think there's anyone more suitable than me," Lin Yi smiled.

Even Ying long had fallen. In the entire newborn Alliance, who else but Lin Yi would have the strength to fight the Thunder God?

"What if it's really a trap?"

Tang Yin couldn't help but worry-if it really was a trap, then the ultimate target would be Lin Yi without a doubt. Lin Yi might just be walking right into the trap.

"If it's really a trap, then we'll have to have a good arm wrestle."

Lin Yi decided immediately-he had no choice but to accept the situation, unless he was willing to see the newborn Alliance fall apart.

Naturally, Tang Yin understood that as well. She looked back at Lin Yi's recent achievements and realized that there wasn't anything to worry about, especially with all the tricks the guy had up his sleeves.

"Then who are you going to bring? There has to be someone to take care of him. "

"I do have a suitable candidate in mind," Lin Yi chuckled after some thought.

Two hours later, Lin Yi appeared in the sky above Jianghai city in his custom-made shuttle, and beside him was a sinister and arrogant man-Wei baizhan.

This matter was extraordinary, and it would be difficult for ordinary freshmen to help. Instead, they would only drag him down.

Even Ying long and song Xiaomi would be in trouble. There were very few freshmen who were qualified to interfere.

Chapter 9545

Yan Zhongyuan was strong enough, but his style was more suitable for a head-on battle. It didn't match with this kind of conspiracy. On the other hand, Wei baizhan, who was publicly acknowledged to be a dangerous person with no integrity, was just right to be put to use.

Wei baizhan was very cooperative with Lin Yi's orders, at least on the surface. However, only he knew what he was planning on inside.

"What did you see?"

Lin Yi asked as he drove.

At this moment, Wei baizhan was holding a piece of information in his hand. It was the information that Lin Yi had gotten from Han Qi before he left. Han Qi's Secret department of the Discipline Committee was the best at gathering information. Although they mainly focused on the internal affairs of the Academy, they were not completely ignorant of the things outside of the Academy.

In the entire Jianghai city's Intelligence Agency, the secret operation of the Disciplinary Committee was definitely one of the best!

Wei baizhan looked at Lin Yi and gave him a humble smile, "They're all at south side,"

"Interesting."

Lin Yi said, evidently interested.

Jianghai city was divided into North, South, East, and West, under the jurisdiction of the four kings. The southern area was Jiang Long's territory, an old acquaintance Lin Yi hadn't seen in a long time.

"Seven robberies, all in the southern area, but the authorities were helpless. They didn't find any useful clues. There's a big problem with this Nanjiang King."

"If those experts from the government were so useless, Jianghai city would have changed a long time ago," Wei baizhan sneered.

"You suspect that Thunderlord is one of his men?" Lin Yi raised a brow.

"Eight or nine out of ten,"

Wei baizhan turned around and took out another piece of information specifically targeted at the Prince of Nanjiang. ""This Big Shot has been doing a lot of things recently. He contacted all the big families and made friends with the important people in the city Lord's mansion. All of these require money."

In other words, the reason why such a Savage Bandit like Thunderlord suddenly appeared was to accumulate wealth for the king of Nanjiang and obtain funds for his activities.

Lin Yi looked at him, "then where do you think we should go?" Directly look for Nanjiang King?"

"Boss, you really know how to joke."

Wei baizhan shook his head repeatedly. After all, the Prince of Nanjiang was a governor of a region and an official figure ranked at the top of the city Lord's mansion. In terms of position alone, he was comparable to the chief of the Academy.

Lin Yi may be the tenth seat of the new generation King, on the same level as the first seat in name, but anyone with eyes could tell that there was no comparison between the two.

If he were to directly demand Nanjiang King for her, not only would he not be able to give a good enough reason on the surface, he might even be retaliated against. Judging from his past style of doing things, that Nanjiang King was not a good person.

"If we want to find Ying long, our only chance is to catch the thief and catch the stolen goods. We have to capture Thunder God."

"You have an idea?"

Wei baizhan handed over the map of Jianghai city. The seven Chambers of Commerce that had been robbed recently were marked on the map, and three red circles were also marked on it.

"Based on the characteristics of the Chambers of Commerce that had been in trouble before and the recent patrols of the government forces, if the Thunder God strikes again, these three will be the most likely targets. We can try our luck with one of the three."

Wei baizhan's actions made Lin Yi look at him in a new light.

Previously, he had thought that this guy was just a dangerous person with no moral integrity. Now, it seemed that this person was absolutely the best in all aspects. No wonder he had the strength to be a lone wolf.

One must know that to be a good lone wolf, the requirements for strength in all aspects were very high. Otherwise, it wouldn't be called a Wolf at all. At best, it would be a homeless stray dog.

"There's no need to try your luck," Lin Yi smiled suddenly.

Wei baizhan was stunned for a moment, then he came to a realization. "That's right, with boss's ability, you really don't need to try your luck. "

"What if he doesn't make a move again?"

Lin Yi asked.

Hearing this, Wei baizhan's mouth subconsciously curved into a cruel arc, ""Then we can only blame Ying long for his bad luck."

Lin Yi smiled and didn't say anything else. With this guy's personality, he was already very cooperative if he was willing to follow them out and be their follower. If he really wanted to save Ying long from the bottom of his heart, he must be blind.

Perhaps, he would even wish for Ying long to die outside. That way, at least his status within the newborn Alliance would be able to rise.

At night.

Jianghai four-line Chamber of Commerce.

In terms of scale and influence, the four rows Chamber of Commerce was not the best in Jianghai city. At best, it was second-rate at the bottom. Normally, it did not have much of a presence, but there was one thing that it was the largest sales center for special raw stones in Jianghai city.

Among them, there were the exclusive raw territory stones for Masters of the great circle of heaven-Sundering, and even the College's logistics department had many raw territory stones from this small but fine invisible champion Chamber of Commerce.

In fact, the seven Chambers of Commerce that had been robbed were all of this kind.

Compared to the large-scale top Chambers of Commerce, these Chambers of Commerce were naturally far inferior in terms of capital. However, they still had enough profits, especially their security level, which was much worse than the top Chambers of Commerce.

This was the perfect target.

However, with so many cases happening one after another, even if the officials deliberately suppressed the impact, it was inevitable that people would still be anxious. In addition to seeking warmth from the Chamber of Commerce Alliance, the various Chambers of Commerce also spontaneously increased the security level.

In the past, the four Chambers of Commerce's security force was at most a full team of heaven-breaking experts. This time, they had spent a lot of money to hire experts at the great circle of heaven-breaking, and not just one, but a whole three!

Although they were only at the early stage of the great complete heaven crushing realm, for a second-rate Chamber of Commerce, this was already a big deal.

This was unlike Jianghai Academy, where even a master of the great circle of heaven crushing was a rare sight to come across, even if they were only in the early stages of the Academy's training.

If not for that, Jianghai Academy would not have such a high standing!

Unfortunately, it was still useless.

A flash of lightning, and all the guards who were on full alert fell instantly.

Even those three heaven crushing cultivators at the early stage of Great Perfection only managed to resist for a moment. In the end, they didn't even get to see the other party's appearance before they collectively lost consciousness.

Immediately after, another huge solid lightning pillar fell and instantly pierced through the last layer of the four elements Chamber of Commerce's protective array.

At this point, the four rows Chamber of Commerce was like a girl who had been stripped clean. They had no power to resist in front of the evil people who came to attack them, and could only let them go.

The five masked men rushed into the Chamber of Commerce, and all kinds of high-value items were swept away in just a few minutes. Their packing speed was particularly professional, and they were obviously veterans who had been in battle for a long time.

From the beginning to the end, there was no challenge or difficulty.

To them, this was more like picking up money than robbing.

After all, there was a risk in robbing. There was no way to pick up money.

Chapter 9546

Just as everyone was preparing to retreat, a voice suddenly rang in their ears. "Excuse me, can I ask you about someone?"

The five masked men's expressions changed instantly!

The robbers "expressions were getting more and more interesting as they looked at Lin Yi, who was slowly getting up from the display case. They'd looked like they were eating and drinking as if they were happy, but they'd actually been on high alert the whole time.

After all, he had come out to cause trouble. If he wasn't careful, he might fail. How could he be careless?

However, from the beginning to the end, there was no such person in their divine sense!

The point was that he seemed to be lying in front of them casually. The five of them had walked back and forth so many times, but they had not noticed him at all.

It was terrifying!

"Who are you?"

The leader of the masked men suppressed the shock in his heart and shouted.

Lin Yi tilted his head, "it's my fault for not making myself clear. Next time, when I ask you questions, just answer them honestly. There's no need to draw inferences from one case. Really, I'm not that free."

As he spoke, his figure suddenly flashed.

A burst of divine sense instantly washed over the primordial spirits of the five masked bandits like a tide. By the time they struggled to wake up, there was a warm corpse in front of them. It was the leader of the bandits who had just asked the question.

The remaining four were drowned in fear, looking at Lin Yi like demonic gods!

If it was just the dead people themselves, it was actually not that terrible. The few of them had the strength of the early stage of the great circle of heaven breaking. Although it was not bad in the outside world, after all, it was just a show that was forcibly piled up by external forces. Compared with the real masters, it could not be said to be very strong.

But the problem was that his death was too strange!

He was fine just now, but suddenly, he felt dizzy and turned into a corpse. He couldn't even tell how he died!

From another perspective, if the other party really wanted to attack them, they didn't even need to make any extra moves. Just now, they could directly wipe out their entire team!

"It was my fault just now, I'm very sorry."

Lin Yi apologized sincerely, and the four didn't have the energy to complain.

It's your fault, and our people will die. Is this how you apologize to others?

"Can you answer me now? where's the person?" Lin Yi returned to the topic.

"....."

The remaining four masked robbers looked at each other.

"If you guys don't cooperate, it's going to be difficult."

Before Lin Yi could finish his sentence, the Four's vision went black again. When they recovered from the dizziness, there was a warm body in front of them. The scene was the same as before.

The remaining three people were once again engulfed by boundless fear.

This was like playing a game of life-and-death. If he wasn't careful, it might be his turn. Who could stand this?

"I have a bad temper, so I'm asking you one last time. Where is the person I'm asking you about?"

Lin Yi said.

In other words, if he still couldn't get a satisfactory answer this time, it wouldn't be a game of fortune-telling anymore, but a family reunion of the robbers.

The remaining three were in tears. They gathered their courage and said in a sobbing tone, ""Why don't you tell me who you're asking about?"

"....."

The situation was extremely awkward.

Lin Yi rubbed his nose, embarrassed. "Didn't I say my name?"

"No, I didn 't,"

The three robbers nodded in unison.

"Alright, his name is Ying long. He's a student from Jianghai Academy. Do you have any impression of him?"

Lin Yi didn't make things difficult for the guy.

"A student from Jianghai Academy?"

The three robbers froze as they saw Lin Yi's innocent face. They subconsciously shivered and quickly said, "I have an impression! He had an impression! Last time, that person recklessly attacked the Thunder God, but he was knocked down by a Thunderbolt. "

"Where is he now?"

"We really don't know. The Thunder God took care of him and left. We didn't care about him."

The three robbers answered immediately.

"So his disappearance has nothing to do with you guys?" Lin Yi frowned.

"It really doesn't matter," the three robbers quickly said. "We're just here to Rob. Why would we bring a living person with us?" Even if I really didn't like him, I would have killed him on the spot. I wouldn't have brought him along. "

"That's reasonable. "

Lin Yi nodded and raised his head to look at the dangerous lightning on the roof."Is there a problem with what they said, Thunderlord?"

At this moment, on the roof of the Chamber of Commerce, a tall figure was covered in a dark-colored cloak. His face couldn't be seen clearly, but the dark-colored electric arcs that were faintly revealed announced the strength of his master.

Hearing Lin Yi's question, the infamous robber didn't respond immediately, but jumped up and prepared to escape!

However, he was immediately forced back.

"My boss is asking you a question. You should at least give him some face, right?"

Wei baizhan was standing diagonally below with his hands in his pockets. He was looking disdainfully at the Thunder God from the corner of his eyes, with an inexplicable dangerous light flashing in his eyes.

Thunderlord, who was under the cloak, looked at him coldly."Those who block my path, die."

"You're lying, aren't you?" Wei baizhan laughed evilly."If you really have that kind of strength, why are you still talking nonsense with me?"

"You don't know what's good for you!"

As soon as the last word was spoken, a circle of invisible lightning energy instantly filled the entire area. Lightning domain!

Wei baizhan's eyelids twitched slightly. The power of the Thunderbolts in his domain was pervasive. The moment it spread out, it directly invaded his body. Although it had not caused any obvious damage, his body had already fallen into a state of paralysis that he could not escape from.

However, it wasn't to the extent of being unable to move.

The numbing effect at most caused his movements to be a little sluggish and not as Swift as before. Even so, it was enough to be fatal for experts of their level.

Even the tiniest of flaws could cost him his life, not to mention from the beginning to the end. Every movement could be affected by the lightning numbing effect!

"An expert at the middle stage of the great circle of heaven crushing? No wonder he could make Ying long suffer. "

Wei baizhan's mouth curved into a mocking smile. Then, he swaggered toward the man, ignoring the numbness in his body.

Looking at Wei baizhan's ruthless steps, the Thunder God, who was hidden under the cloak, was stunned. He had thought that he could force Wei baizhan to retreat, but he had never expected to encounter such a tough nut to crack!

Judging from his aura, Wei baizhan was only an expert in the early stage of the great circle of heaven-breaking, not even a domain master. Yet, he was actually so disdainful of an expert in the middle stage of the great circle of heaven-breaking, who gave him the confidence to do so?

Most importantly, the Thunder God still had the awareness of a robber.

The first rule of a robber was to leave the scene as soon as possible!

Even if the government's power was obviously perfunctory, there was still pressure from the Chamber of Commerce Alliance. If he really stayed at the scene without any restraint, he would definitely not be able to escape death no matter how strong he was.

However, at this moment, Wei baizhan was stepping on his nose. Even if it was just for the sake of his face, he couldn't just walk away!

Chapter 9547

The area covered by the Thunder domain instantly shrank. At the same time, the incomparably majestic domain pressure, accompanied by layers of electric arcs, descended directly on Wei baizhan's head.

Wei baizhan's footsteps stopped, and his body suddenly sank.

The glazed tiles under his feet could no longer bear his weight and shattered on the spot. He fell from the roof and was pressed into the ground, only half of his head visible!

"What an overbearing pressure!"

Wei baizhan was still laughing at this moment. His body had been penetrated by the violent lightning power. If it were an ordinary expert in the early stage of the heaven crushing completion, his internal organs would have been twisted into pieces, and he would have died.

However, looking at his appearance, although he was in a sorry state, it was just a sorry state.

"What?"

Thunderlord couldn't help but be surprised. That was his most powerful domain pressure just now. No one knew better than him the destructive power hidden in it.

Of all the elemental domains, the lightning domain was definitely the most overbearing.

Normally, even experts of the same level couldn't stand it, let alone a minion who was two levels lower than him.

Roar!

A thick Lightning Dragon quickly condensed in the domain and roared as it pounced toward Wei baizhan!

For Thunder attribute cultivators, after reaching the Titan realm, moves like the Thunder Dragon were at their fingertips. At first glance, it did not seem extraordinary, but the enormous pressure contained within it was far from what ordinary Thunder attribute moves could compare to.

This was the Dragon of the Thunder element domain. It was a powerful move that belonged only to senior thunder element domain masters. Once touched, not only would one's physical body be destroyed in an instant, but even one's primordial spirit would be evaporated by the huge thunder element pressure.

Both man and spirit were annihilated!

The Thunder Dragon was so fast that it appeared above Wei baizhan's head almost as soon as it took shape.

Wei baizhan didn't even have time to Dodge.

At the crucial moment, Lin Yi's figure suddenly appeared above Wei baizhan without any warning, blocking the Thunder Dragon with one hand!

"You killed my little brother in front of me. Did you ask me?"

Lin Yi looked at Thunderlord indifferently.

Don't forget that Lin Yi himself was a master at using lightning. He knew all kinds of lightning attacks like the back of his hand and naturally knew how to deal with the lightning Dragon.

"Tsk, another ignorant fool!"

Thunderlord scoffed. As expected, the moment he said that, the lightning Dragon that Lin Yi had stopped exploded again, unleashing the power of his domain.

Lin Yi didn't even have the time to resist-in fact, he couldn't even react-and he was already lifted up!

Not even a single residue was left.

The Thunder God shook his head nonchalantly. He was already used to this kind of thing. He snapped his fingers and condensed another Thunder Dragon, ready to take Wei baizhan's head and leave.

This time, they had dragged on for too long. If they didn't leave now and waited for the official experts to arrive, it would be really troublesome.

Lin Yi's voice rang in her ears again, less than ten meters away, "Did you deal with Ying long like this before?"

Thunderlord was shocked.

The shock Lin Yi gave him this time wasn't any less than the other cannon fodder robbers-it might even be greater!

After all, he was a genuine mid stage heaven crushing expert, and he had never let his guard down, so how could he have been blankly approached by someone at this distance?

One had to know that for people of their level, ten meters was already equivalent to being in close proximity!

Thunderlord subconsciously used his territory pressure to suppress Lin Yi, but it was useless. Lin Yi released his perfect wood element territory at the same time. Even if he couldn't suppress Lin Yi, he could at least hold his own.

The core of a battle between domain experts was domain suppression!

As long as one could achieve the suppression of the domain, victory and defeat would often be decided in a single thought. This was also the fundamental reason why a higher realm could suppress a lower realm.

Once they could no longer suppress the other party, they would have to use their own domain techniques. At that point, it would not be a rare thing for them to be able to suppress the other party.

Just like now.

Thunderlord's heart tightened as he saw Lin Yi's pressure disappear. He was forced to use his strongest card.

Dozens of majestic dragon roars resounded through the entire area. Dozens of Thunder Dragons condensed one after another and swam back and forth in the area of his domain. Anything that fell into them would be torn to pieces in minutes.

Thunder Dragon Kingdom!

This move combined attack and defense in a wide area. Unless it could penetrate the entire Thunder Dragon Kingdom, it would not be able to touch the Thunder God.

Lin Yi's eyes twitched. He immediately summoned his Army of clones to fight back, but they were immediately at a disadvantage.

Although the number of clones was not small, in terms of destructive power, they were far inferior to the other party's Thunder Dragons. In the blink of an eye, a large number of them were destroyed, and then they were swallowed up by the Thunder Dragon Kingdom.

Very quickly, Lin Yi stopped moving.

"So that's all there is to it. I thought it would be very strong."

Thunderlord sneered and turned his hand to send a Thunder Dragon down, sending Wei baizhan deep into the ground on the spot. He was a Dragon who was in charge of killing and burying, and he was very skilled in his work.

Then, he called the three bandits who had survived to pack up and leave.

However, before they could pack up, the Thunder God's heart suddenly jumped. His pupils shrank as he looked at the familiar figure approaching quickly from the distance. He couldn't help but feel as if his world view had been shattered.

It was Lin Yi again!

"How could there be another one?"

Thunderlord was starting to doubt his life. He was certain that Lin Yi had already died under the Thunder Dragon Kingdom. There was no way he could have escaped.

But this Lin Yi in front of her wasn't a fake, was he?

"You've taken good care of my clone. Why don't you let me, your main body, join in the fun?"

Lin Yi smiled as the demonic blade appeared in his hand.

"A clone? That was a clone? Do you think I'm an idiot?"

Thunderlord was so angry that he laughed. The collision of domains was real, and that was why he was sure that Lin Yi's real body was killed as well. After all, only the real body could use domains-this was common knowledge in the world of practitioners!

"As long as you're happy."

Lin Yi smiled, not bothering to explain.

Speaking of which, if a domain clone was so common, why would the group of ten Chiefs, led by Xu Anshan, be so concerned? they were all people who had really seen big scenes!

"Who the hell are you?"

Thunderlord was sure that Lin Yi was just trying to be mysterious, but the strong sense of danger coming from the other side was not fake. They looked the same in every way, but this Lin Yi in front of him was much scarier than before!

"You shouldn't be asking this."

"How about I ask you an interesting question? who is Nanjiang King to you?" Lin Yi asked.

"....."

The Thunder God's eyelids twitched. Without a word, he took out the Thunder Dragon Kingdom again.

"Interesting," Lin Yi smiled.

Chapter 9548

Although he didn't get a direct answer, the other party's reaction was already very clear.

The Thunder Dragon Kingdom engulfed Lin Yi again, but this time, it wasn't as clean as before. In the chaos, the thunder and lightning continued, and the Thunder Dragons fell apart and fell.

In just a short time, if it was a real Dragon and not made of lightning energy, the corpses of the lightning dragons would have filled the entire four elements Chamber of Commerce's exhibition stage!

Gradually, the Thunder God's expression changed.

He thought that even if Lin Yi was stronger than before, there would be a limit to it. Even if he couldn't suppress the opponent with his domain, he would still have the advantage in terms of the strength of his domain, not to mention that the lightning element had a natural advantage against the wood element.

Even if it was just grinding, Thunder Dragon Kingdom could theoretically grind Lin Yi to death!

But the situation now was that the lightning Dragon Kingdom was thinning at a visible rate, even with the speed of Lin Yi's slash.

At this rate, the Thunder Dragon Kingdom would probably be completely wiped out in a while!

Escape!

As an expert in the middle stage of the great complete heaven-cleaving realm, the Thunder God also wanted to protect his face as a high-level expert. However, when the cruel reality did not allow it, he could only choose his life first.

It had to be said that the lightning element had many unique advantages in many aspects. Power was one aspect, speed was another!

Any master of the lightning element would not be slow, and the Thunder God was no exception.

Thunderlord's decision was decisive-he'd sold out all three of his men by running away, but unfortunately, he'd run into Lin Yi.

In terms of speed, Lin Yi had never given in to anyone.

The Thunder God dodged for less than 100 meters before he was forced back by the devouring sword. Then, he was pierced through by a sword, but it was a lightning clone.

Any attribute had a clone, and when cultivated to a high level, one could pass off the fake as the real one, but it was not as blessed as the wood element.

After tricking Lin Yi's sword, Thunderlord decided to run in the opposite direction. Lin Yi's danger level in his eyes was almost at the same level as a master or even higher.

Even if he had nine lives, it would not be enough to continue playing with this monster!

This time, Lin Yi didn't chase after him immediately, but just as he thought he'd escaped, the ground beneath him split open without any warning, and a loud, unruly voice enveloped him.

BOOM!

Caught off guard, the Thunder God was grabbed by the neck and pressed into the ground. The person who did it was Wei baizhan!

Thunderlord was enraged, and the lightning around him started to strike Wei baizhan. It was fine if he couldn't beat that monster Lin Yi, but this guy wasn't even a domain master yet!

Are you even worthy?

However, just as he was about to kill him in a fit of rage, he was shocked to find that the domain power around him was rapidly disappearing.

And the end point of the loss of power was actually this little Shrew in front of him who couldn't even enter his eyes!

"The lightning domain is a good thing, I like it very much."

Wei baizhan licked his blood-red tongue excitedly. A stream of black water with a strong evil aura gushed out from his claws and wrapped the Thunder God in less than a breath's time.

Then, Thunderlord was horrified to find that his realm power was losing more and more quickly. In just a short time, he had lost 50% of his realm power and he couldn't stop it at all!

Lin Yi raised a brow at the scene.

Wei baizhan had already cultivated his domain, which he had noticed a long time ago. However, this guy had deliberately hidden it and never revealed his skills in front of others, so no one knew what domain he had.

But now, he could no longer hide it.

The Blacktide domain.

In essence, it was a Water-type domain, but it was not an ordinary Water-type domain. Just like gravity and earthquake, which were a variant of the earth-type, his domain was an extremely rare Water-type variant.

Its core ability was not to attack or defend, but to devour.

Forcefully swallowing other people's domains for my own use was the only function of the Blacktide domain, but just this point alone was already extremely domineering!

What was especially deadly was that once the target was entangled by the Black Tide, the target's territory power would be completely out of control like a leaking floodgate, and they would directly lose the ability to resist, just like now.

Even with the Thunder God's powerful strength, he couldn't turn the tables. He could only watch as his territory power was devoured. From the beginning to the end, he couldn't even put up a decent resistance!

After 15 minutes, the Thunder God stopped struggling and there were no more electric arcs on its body.

On the other hand, Wei baizhan's body was faintly glowing with lightning, and his every movement was exuding a domineering aura unique to lightning element domain masters.

With a casual palm strike, a Thunder Dragon roared and shot out, penetrating the two-meter-wide pillar of the four elements trading company on the spot. The destructive power it displayed was not any weaker than the Thunder God!

"Hahaha!"

Wei baizhan looked at his masterpiece and laughed wildly.

The lightning territory was the territory power he'd been dreaming of-he wouldn't have followed Lin Yi out like this if it weren't for that. He didn't think he'd get it so easily-it was worth it!

"It seems like you've been planning this for a long time."

Lin Yi's voice came from behind, and Wei baizhan turned his head abruptly, the familiar sense of danger in his eyes again. It was the sign of the venomous snake that the farmer had held in his arms, about to start its backlash.

The power of lightning around his body quickly gathered. At the same time, it was accompanied by countless Dragon roars. It faintly resembled the Thunder Dragon Kingdom!

According to common knowledge, only cultivators with the Thunder attribute could control the power of Thunder. However, Wei baizhan did not have a Thunder-attribute mutated spiritual root, but he was still able to control the Thunder domain in such a short time.

This was not something that could be solved by relying on strong perception and talent. The key lay in the Blacktide domain.

At the end of the day, the core driving force of the Thunder domain that he had mastered at the moment was still the Blacktide domain. It was just that the external manifestation was violent Thunder Power.

Even Lin Yi was tempted. He had to admit that the Blacktide domain had the potential to be the strongest domain to a certain extent, and the upper limit of its growth was immeasurable!

"It's boss's good guidance. "

The dangerous glint in Wei baizhan's eyes didn't decrease in the slightest. He turned his hand and smacked down on the unconscious Thunder God!

However, the palm did not land on the ground.

The demon devouring sword appeared in front of Thunderlord, Lin Yi's cold voice following, ""Did I tell you to kill him?"

Wei baizhan licked his lips."He doesn't know Ying Long's whereabouts anyway. Why don't we just kill him?"

After he finished speaking, he ignored the demonic devouring sword in front of him and directly summoned five roaring thunder Dragons. They bypassed the demonic devouring sword and pounced at Thunder God from five directions. From the looks of it, they didn't just want to silence him, they wanted to grind his bones and scatter his ashes!

A flash of sword light swept past and the five Thunder Dragons were cut in half at the waist. They were instantly killed by the majestic sword Qi.

At the same time, the explosion of his spiritual awareness directly invaded Wei baizhan's sea of consciousness.

Chapter 9549

Wei baizhan was prepared for this, but his essence spirit was still too weak compared to Lin Yi 's. Even if he could rely on his limited spirit sense to deflect most of the impact, he was still drowned in the aftermath of the explosion.

His entire body stiffened for a moment.

In that instant, Lin Yi had stomped him right into the ground. By the time he reacted, his entire body was already in the ground, and the sharp edge of the demonic devour sword was pressed against his neck.

The brutal and crazy killing intent coming from the blade made even a lawless hero like him shiver and break out in cold sweat.

"I don't mind giving you a taste of sweetness. After all, even if it's a dog, it still has to be rewarded with a bone. But if this dog doesn't even listen to its master, then I don't mind making a soup."

Lin Yi smiled as he looked into Wei baizhan's eyes. "Did I make myself clear?"

"I'm sure, I'm sure,"

Wei baizhan's eyes no longer had the slightest hint of danger. Instead, they became extremely respectful and submissive again.

This was the survival advantage of a man without integrity. No matter when, they could always find the most direct way to survive. And it was not just a simple act. They even truly believed that this was the true meaning of survival.

Seeing that Lin Yi had put the demonic blade away, Wei baizhan stood up from the ground without any awkwardness. He even took the initiative to help Lin Yi remove the cloak that covered the Thunder God's face.

"The Thunder God is a child?"

Looking at the child in front of him, Wei baizhan couldn't help but reveal a strange expression. He had actually stolen a child's domain?

This wasn't just a baby face, nor was it a simple short figure. Judging from the details of the other party's body, it was clearly a real child, no older than twelve years old!

A twelve-year-old mid-stage of heaven crushing was an eye-opener for Lin Yi, who'd seen a lot in his travels.

Logically speaking, even the core disciples of the top aristocratic families, no matter how talented they were and how good their resources were, there shouldn't be such an exaggerated case, right?

However, when he thought about it carefully, although the Thunder God had the strength of a senior thunder element domain master, his combat awareness and skills were really weak.

Strictly speaking, he wasn't even on the same level as the freshmen Alliance, let alone someone like Shen Junyan, who Lin Yi had fought before. They were completely overpowered by their own strength.

"Now, I believe that he might really have nothing to do with Ying Long's disappearance."

Wei baizhan grinned and turned to Lin Yi with respect. "Boss, what should we do next?"

"I don't need to do anything. She's already here," Lin Yi raised a brow.

Wei baizhan's eyelids twitched as soon as he finished his words. Dozens of experts had suddenly appeared in all directions. Their encirclement formation was very professional, and they had completely blocked all possible openings.

The key was that the strength of this group of experts was quite considerable, all of them were experts at the great circle of heaven crushing!

Although most of them were in the early stage of the great circle of heaven crushing, the leaders of the few directions were at least in the middle stage, and some were even in the peak of the middle stage!

"When did the outside world become so dangerous?"

Wei baizhan, on the other hand, was excited-the killing intent that Lin Yi had suppressed with his foot was back.

After all, he had just devoured the lightning domain. At this time, he was more eager than anyone to fight with someone!

Lin Yi glanced at it, interested. "All the experts of the southern area have come out. It seems like Nanjiang King is well prepared."

This might not have been a big deal in Jianghai Academy, but in this situation, this was the only explanation.

Even if they didn't come in full force, at least 70% to 80% of the official forces of the south side were here. It wasn't easy to see such a scene under normal circumstances.

Sure enough, after surrounding the two and ensuring that no flaws were left behind, the other side directly revealed their identities.

"We're from the Nanjiang Prefecture's military department. You've been surrounded. I advise you to surrender now, or we'll kill you without mercy!"

The three surviving robbers immediately knelt down and gave up their hands.

Wei baizhan looked at Lin Yi's eyes-he wanted to have a good fight, but he still opened his mouth, "I'm Lin Yi, the tenth seat of Jianghai Academy's freshmen. Who's your leader? come here and answer me!"

Jianghai Academy's status was extraordinary, on the same level as the mayor's residence. With Lin Yi's current status, he was already considered a respected figure in the school. Even in front of the Nanjiang King, he had the right to speak on equal terms.

Moreover, they were only a group of thugs from the warrior's Department of the South District.

"Jianghai Academy's newcomer King? What a great prestige. "

The leader, a peak of the middle stage of the heaven crushing realm, stood up. He was a strange man with a green face, and he sized Lin Yi up. "I heard that Shen Junyan died at your hands a while ago. Is that true?" he asked.

"And you are?" Lin Yi asked.

"The head instructor of the military Department of the South District, Shen Wangui."

The strange man then added, ""Shen Junyan, who you killed, was my cousin. My blood-related cousin!"

"You're going to take revenge for him?" Lin Yi asked.

"You're thinking too much. It's common for brothers to turn against each other, let alone cousins. Moreover, Shen Junyan has always been stronger than me since we were young. He stole my opportunities and my women. Even if you don't kill him, I'll kill him myself sooner or later."

Shen Wan GUI said as if there was no one else around.

There was not a single trace of fear in his tone of voice, unlike most people who feared Jianghai Academy. To the vast majority of people, or even the vast majority of factions, just the fact that they were students of Jianghai Academy was enough to make them hold back.

The Academy had always had a rule that as long as there was a legitimate reason, internal members were not allowed to kill each other. However, if an outsider was stained with a student's blood, no matter what the reason was, it would definitely attract the wrath of Thunder!

The students of Jianghai Academy are to be dealt with by the Academy itself, and no outsider has any say in it.

This was the iron rule that had been established in Jianghai Academy for thousands of years!

However, Shen Wangui was just saying it for fun, and even if it was disrespectful to the school, Lin Yi couldn't get angry over it.

"I'm just very curious. As the so-called newcomer King, what kind of power do you have to be able to kill Shen Junyan?"

Shen Wangui looked at Lin Yi suspiciously.

"You want me to satisfy your curiosity?" Lin Yi asked, a playful look on his face. Too much curiosity can kill you. "

"Then I'd really like to try and see how I'll die!"

Shen Wangui was clearly trying to provoke Lin Yi into attacking. In this situation, once Lin Yi attacked, they could decide how things would develop.

Lin Yi, naturally, wouldn't fall for it so easily.

The status of the 10th newcomer King was only useful when everyone was talking reason. Once it came to a fight, it was all about strength. Now that the enemy was outnumbered, the situation was obviously extremely disadvantageous.

Last time, he was only able to take out Shen Junyan because the other members of the martial arts Society had split the burden, giving Lin Yi the chance to fight Shen Junyan one-on-one.

Chapter 9550 Power

Even if Wei baizhan wasn't a good person, how many people could he help him in this situation?

Seeing that Lin Yi didn't act up on the spot, Shen Wangui shook his head in disappointment. He came out on a mission this time, and it was best to take advantage of the chaos to eliminate Lin Yi.

As long as he was dead, no matter how angry Jianghai Academy was, it would only be a terrible debt.

At the end of the day, the Jianghai Academy couldn't possibly go to war with the governor's mansion for a Lin Yi-they'd just give them face and end the conflict.

But if Lin Yi didn't do anything, it'd be a completely different story if he did.

With so many eyes watching, no matter how careful he was, there was no way he could hide something like this. If he dared to do so, he would be attempting to murder Jianghai Academy's tenth Best Newcomer, and he would be starting a war!

Even his superior, Jiang Long, the king of Nanjiang, would have to pay a heavy price, let alone him!

"Lin Shixi, you appeared at the scene of the robbery, and from the looks of your companion, he should be an expert in lightning. I have enough reason to suspect you of a series of Chamber of Commerce robberies. I hope you will cooperate with the investigation!"

Shen Wan GUI immediately returned to his business-like attitude.

"We're the suspects?"

This time, even Wei baizhan was amused,""We were still in Jianghai University when the seven robberies happened. Countless people can testify for us. Do you really think that the University would openly cover up for two robbers?"

Shen Wan GUI sneered: "even if you have an alibi for the previous seven times, it doesn't mean that you are innocent this time. In this situation, who would believe that you are not suspicious at all?"

"The two of you, please come with us,"

Another instructor from the South District government's Ministry of War said coldly.

Wei baizhan looked at Lin Yi's eyes and saw that he didn't have any intention of resisting. He immediately understood what Lin Yi meant and raised his hands up with a playful look on his face."You guys should know the consequences of detaining the 10th-place rookie King, right?"

"It's just a normal procedure. What consequences can there be?"

Shen Wangui sneered back.

Although he said that, his heart trembled.

The situation wasn't out of control yet, but Lin Yi's reaction didn't go according to the ideal situation. Even if he couldn't find any mistakes in the process, bringing the two back just like that would cause endless trouble.

However, the arrow was already on the bow, and he couldn't just slip away like this. He could only brace himself and walk down.

"Men! Handcuff him!"

At his command, someone immediately came over with deep sea cold iron handcuffs.

For a master of the great circle of heaven crushing, ordinary handcuffs were simply a joke. However, the specially made deep sea cold iron handcuffs were different. Not only were they far stronger than ordinary handcuffs, but they could also greatly suppress the movement of true Qi, which greatly reduced the strength of the person.

Seeing the deep sea cold iron handcuffs on his wrist, Wei baizhan wanted to burst out a few times, but he looked at Lin Yi, who was as still as a mountain, and forced himself to hold back.

He wasn't afraid of the Masters from the South District, but Lin Yi had left a shadow in his heart.

Unless he could one day crush Lin Yi with pure strength, this psychological shadow might follow him for the rest of his life, incurable!

On the other side, however, there was an interlude when they were cuffing Lin Yi.

The attacker's movements were extremely rough, and there was a hint of killing intent, almost pressing on Lin Yi's face, as if ready to kill him at any moment!

However, Lin Yi remained unmoved.

"Good mental strength!"

Shen Wan GUI sneered, and at the same time, he added silently, "I don't know if you can still maintain this composure when you get to south side prison!"

Under the pressure of dozens of martial arts masters from the South District, Lin Yi, Wei baizhan, the unconscious Thunderlord, and the three surviving cannon fodder robbers were all sent to the southern prison.

"We're in prison right away. Is the South District government always so efficient?"

Lin Yi smiled.

Normally, unless it was a serious criminal, they would be taken to a prison facility or sent directly to south side prison, which meant that the other party was well prepared.

But the more he thought about it, the more confident Lin Yi was.

Previously, he was only 50 - 60% sure. Now, he was 90% sure. Ying long had fallen into the hands of the South District government. However, where he was locked up was still unknown.

"Boss, did we go too far?"

Wei baizhan suddenly spoke to Lin Yi through His Spirit sense, "Jianghai city is famous for its strict security. If we're really locked up here, we might not be able to get out easily."

"You're scared?" Lin Yi chuckled.

"I'm afraid there won't be enough people for me to play with. "

A strange smile appeared on Wei baizhan's face. Although he had no moral integrity, and the times when he admitted defeat were no less than the times when he was arrogant, he was still an unruly and ruthless man in his bones.

The reason why south side prison was famous was because of its strict security, and the most fundamental reason was that it held many notorious felons.

A vicious felon meant that he was powerful.

For Wei baizhan, this was the perfect prey.

His Blacktide domain could not only devour one. In theory, he could even devour all the domain power that he came into contact with. Any domain master in his eyes was a ready-made nourishment!

"You'll have your fun. "

Lin Yi's lips curled up as he looked at the huge outline of the prison in the darkness.

Everything that had happened was completely within his expectations. The only thing that was slightly surprising was that Nanjiang King, Jiang Long, had no intention of showing up from the beginning to the end. It seemed that he was still afraid. At least, he was not as lawless as he had expected.

It wasn't hard to understand.

They'd had some history with each other, especially after their brother Jiang Ziheng was forced out of Jianghai Academy-his bright future was destroyed by Lin Yi, so it was only natural for the two brothers to hate Lin Yi to the bone.

However, once they met, there would be no room for negotiation for the Prince of Nanjiang. At that time, regardless of whether he was captured or released, he could only be responsible for it to the end. It was far better to stay behind the scenes like now. At least, there was still room for adjustment.

Ka! Ka! Ka!

The gate of the southern prison opened slowly, like a man-eating beast opening its bloody mouth, and a strong smell of blood rushed out.

Even the Masters of the South District government's own military department could not stand the smell of blood in front of them. They subconsciously retreated. Only the leader, Shen Wan GUI, was calm.

She turned to look at Lin Yi, but he didn't react at all, as if he didn't notice her at all. She just walked in.

Wei baizhan, on the other hand, was so excited that he was licking his lips and his eyes were shining.
