

## Bodyguard 9551

### Chapter 9551

"What kind of freaks are these?"

Shen Wangui frowned secretly.

He was the person who had been deeply involved in this incident and the executor. Whether it succeeded or not was of great importance to him. It was directly related to his future!

In his original plan, the best solution was naturally for Lin Yi to make the first move on impulse, and then they'd take advantage of the chaos to eliminate him. Now he was forced into the backup phase, and the southern prison was a crucial part.

As long as he made good use of these vicious criminals in the prison, they could become the sharpest knives in his hands. They could do the things that Prince Nanjiang and he wanted to do the most but could not do personally.

He'd thought that it'd be a good show of a sheep jumping into a pack of wolves, but the reaction of Lin Yi and Lin Yi made him feel like the tables had been turned.

This didn't seem like a sheep entering a pack of wolves. Instead, it was more like a vicious Tiger entering the forest!

"These two are important guests. Please take good care of them."

Shen Wangui told the warden who came out to welcome them, and ordered the Masters to personally escort Lin Yi and Wei baizhan separately, each to the lowest level of the prison.

However, they were all single rooms.

If they were to throw Lin Yi into the middle of a bunch of evil criminals and kill him right away, it would be a little too careless. Everything else aside, the school's reputation would be affected as well.

Some things, even if both of them knew it in their hearts, they still couldn't miss the process and the details had to be in place.

Lin Yi, on the other hand, was quite happy to see this-he decided to hide in the nine-story Pagoda and continue his isolated practicing. It didn't matter where he went, anyway.

He, the person involved, was at ease, but the people outside could not sleep.

The first to bear the brunt was du wuhui.

At the end of the day, he was the one who had planned this incident. He had secretly reached a tacit understanding with the king of Nanjiang, and they hit it off!

"Master Bai, in your opinion, do you think that the Nanjiang King has the courage to directly kill us?"

Although it seemed like everything was going smoothly, du wuhui was still uncertain. Lin Yi wasn't a good person, and neither was Nanjiang King. If it weren't for the fact that the situation had forced him to this point, he wouldn't have taken the risk!

"He wouldn't dare," Bai Yuxuan said with certainty.

"....."

"Then wouldn't all our efforts have been in vain?" du wuhui was instantly discouraged.

Bai Yuxuan smiled, "you must be joking, ninth master. Even if Lin Yi can get out of south side, it's not a loss to us. We'll even make him lose the golden time for him to level up. It's not a loss at all."

"That's true,"

Du wuhui nodded slightly. He was still a little worried about Lin Yi's cultivation talent. It was impossible for a normal person to form a domain in ten days, but it was hard to say for Lin Yi.

However, there were all sorts of people in the prison. With the Nanjiang King behind the scenes, there were bound to be all kinds of twists and turns. It was a fool's dream to cultivate in seclusion like the outside world!

As long as Lin Yi didn't break through, he was undefeatable!

"Besides, I'm only saying that under normal circumstances, Nanjiang King wouldn't dare to make a move. However, if it's an abnormal situation, it's a different story."

Bai Yuxuan sipped his tea, pretending to be profound.

"What abnormal situation?" du wuhui's eyes lit up.

"He's the same as us-he wants Lin Yi dead, but he's worried that he won't be able to handle the consequences. If someone's willing to be his backer and take some of the blame for him, he'll never let go of this chance, especially with his vengeful nature!"

"Backing?"

Bai Yuxuan dipped his finger into the tea and wrote three words on the table: city Lord's mansion.

Du wuhui furrowed his brows and pondered for a moment. In the end, he shook his head. "Although the city Lord's mansion is at odds with our Academy and there are constant conflicts in all aspects, it doesn't affect the overall situation. This matter is of great importance, and city Lord li will not take risks easily."

"Governor Li can't do it," Bai Yuxuan said with a smile. "But that doesn't mean others can 't."

"You mean li MUYANG?"

Du wuhui immediately reacted. His eyes lit up as he said, "Li MUYANG is very close to Jiang Ziheng, so it's entirely possible that he's standing up for Jiang Ziheng. Judging from his actions, he should be very interested in subduing the Nanjiang King, so he won't let go of this opportunity to express his goodwill!"

"Not only that, the Black Dragon triad that the Tian family's elder destroyed last time was li MUYANG's money bag. Li MUYANG gritted his teeth in hatred for it, and Lin Yi was there that day. If you were in your position, with such a perfect opportunity in front of you, would you have people do it?"

Bai Yuxuan's analysis roused du wuhui's spirit.

"If that's the case, then as long as we report this to li MUYANG, we can just sit back and wait for the rest to happen?"

Du wuhui laughed out loud.

If things went according to the script, with li Muiyang pushing things along behind the scenes, there was a high chance that the Nanjiang King would make a move himself. As long as he made a move, Lin Yi would never walk out of the southern District prison alive!

The most wonderful part of the whole plan was that although he, du wuhui, was the biggest beneficiary, he didn't need to personally take action. He only needed to leak a little bit of information behind the scenes, and this group of people would automatically enter the trap.

It was low cost and high return!

"We can't be too idle," Bai Yuxuan said, "we still have to do something important, like taking advantage of Lin Yi's busy time to poach some of his men."

"Not bad, not bad, this is proper business!"

Du wuhui's mood was great-the depression from Lin Yi's scam and bankruptcy was finally swept away.

As long as Lin Yi died, he'd be able to officially take over the new student Alliance and the five big clubs. At that time, Lin Yi would have to pay back what he'd lost! Not only would he not lose anything, he'd even earn something!

South side prison.

It was a single cell at the bottom level. There were no doors around it, only a narrow skylight at the top.

It was dark and damp.

This was the underground Kingdom of snakes, insects, rats, and ants. A group of stinky rats crawled out of the sewers, making a series of dense and noisy sounds.

Then, as if they felt some kind of killing intent, they suddenly stopped moving and scattered.

But it was too late.

A dark purple electric arc streaked across the darkness, and all the rats were instantly hit. An indescribable smell of meat wafted out of the stinky prison cell. It mixed together and made people feel nauseous, but they could not stop it.

The sound of heavy chains dragging on the ground rang out. A withered and shriveled hand picked up the rats one by one, and then there was a rough chewing sound that made people's scalps numb.

At this moment, the skylight was suddenly opened.

A child's body was thrown down from the sky. It was the Thunder God whose territory power had been sucked dry by Wei baizhan!

However, the Thunder God was only unconscious before, but now, his body was covered with horrible wounds. He was no longer breathing, and even his body was cold.

"Son! My son!"

Soon, a shrill scream came from below, ""Who is it? Who killed my son?!"

Chapter 9552

Shen Wan GUI looked at this scene coldly from above. When the people below had no more strength to howl, he said slowly, "Everything was going smoothly. Thunderlord was only going to Rob a small Chamber of Commerce, but he was unlucky to meet the new student from Jianghai college, Wang Lin Yi. Not only is he strong, but he also has a habit of meddling in other people's business, and that's what happened."

"Lin Yi?"

The wizened figure below immediately gritted his teeth. "Where is he?"

Shen Wan GUI said lightly: "originally, with his identity, even our South District government could not simply detain him. However, everyone really could not stand his cruel means of treating children. They were hot-headed and forcefully brought him back."

"He's here?"

"Don't get too excited just yet. With his status, bringing him back is the best we can do. Jianghai Academy will be making their move soon. Even our Prince of Nanjiang might not be able to withstand the pressure. "

Shen Wan GUI reminded him,""Two days. He will only be locked up here for two days at most. When the time is up, he will walk out of here. At that time, not only will he not be the murderer who tortured and killed your son, but he will also be a great hero who acts for justice and be admired by thousands of people!"

"....."

There was no reply from below, only the crunching sound of chewing. Only the faint flickering of dark purple lightning illuminated the master's withered face, which was like a dried corpse.

It was a quiet night.

The next day, when the guard signaled for Lin Yi to come out for a walk, Lin Yi had already come out of the nine-story Pagoda, refreshed.

The feeling of cultivating with the cold iron shackles was unique. He thought that it would affect his true Qi circulation, but he did not expect that it would be a blessing in disguise.

It was true that the cold iron handcuffs affected Lin Yi's Qi flow, but he was now training in the gold element. The key was to immerse himself in the domain, and most of the time, the subconscious Qi flow was a kind of interference.

With this pair of cold iron handcuffs, although people would feel uncomfortable, it was equivalent to naturally eliminating this interference, the effect was excellent!

"Looks like I'll have to collect some deep sea cold iron in the future."

Lin Yi calculated silently. To a certain extent, this was like a gravity device that helped with training. When other forces were isolated, the training and comprehension of the domain would be purer and stronger!

Lin Yi finally felt like he was in a jail cell when he saw all kinds of criminals walking in and out of the cell.

After all, if he didn't come into contact with other criminals, how could he go to jail?

In the words of a wise man, these were all rare talents, and each of them had a good way of speaking, which made people yearn for them.

The place where they were being released was a square surrounded by four high walls. The place was not big, and there was no cover. It was under constant surveillance from all directions.

A place like this naturally couldn't hold all these skilled criminals, but they were all in shackles, especially felons like Lin Yi.

Their true energy was limited, and they could not exert their strength. In addition, the prison itself was heavily guarded. A group of criminals whose wings had been cut off naturally could not cause any decent waves.

Soon, Lin Yi saw Wei baizhan again.

He did not know what this fellow had gone through, but his aura was much more vigorous than last night. He looked at the criminals around him with unconcealed desire, which made people feel disgusted.

Seeing Lin Yi, Wei baizhan's face immediately returned to his humble self, "Boss, something's not right."

"What's wrong?"

Wei baizhan pointed at the criminals around him and said, ""These guys are too weak. There aren't even many who have reached the level of a complete heaven breaker. There are also very few domain masters. This doesn't seem like the standard of the southern District prison."

There were not many heaven crushing experts in the outside world, but Jianghai city was so big that if they were to gather together, the number of people would still be considerable.

The southern District was known for its ferocity. Even if it could not be compared to Jianghai city, where even the lowest level of minions was at the level of a complete heaven breaker, it should not have been so weak. At the very least, there should have been a powerful figure like the Thunder God to hold the fort.

However, the ones in front of him were far from that.

"Why are you still drooling over them if they're nothing to you?" Lin Yi laughed.

Wei baizhan chuckled apologetically and said, "no matter how small a fly is, it's still meat. No matter how many experts there are in the Academy, it's not easy for me to lay my hands on them. But in a place like this, I can eat and drink as I please. Who would care?"

As long as it was a domain, he could devour and snatch it. Although the power of an ordinary domain was not as domineering as the Thunder God's lightning domain, it could still make his strength increase greatly.

He, Wei baizhan, had always had a good appetite, so he didn't mind the cold or the cold.

Lin Yi didn't mind—he had a Wolf like this by his side, so he had to give it some benefits. These people were all ready, and they were all evil people who deserved death. Why would he stop them?

"You can eat meat, but remember the proper business."

Lin Yi said.

Wei baizhan's face was filled with excitement. "Don't worry, boss. As long as Ying long appears here, you can count on me. I'm the best at finding people and asking for information."

Lin Yi didn't know what to say-anyone who'd been asked about by this guy probably had eight lifetimes of bad luck.

"Also, find out where all the experts here have gone. I have a feeling that things aren't that simple."

"Understood," Wei baizhan nodded.

After he finished speaking, he turned around and walked to the side. He directly looked for a bald prisoner who seemed to be the most difficult to deal with. He was one of the few domain masters present.

As one of the most powerful people present, the bald man had the demeanor of a boss. Only other people were respectful and complimented him. Who would come up to him and put their arms around him?

Do you know the rules?

The prisoners nearby all showed a playful expression, waiting for the bald man to go crazy and teach this blind newcomer a good lesson.

Unexpectedly, the bald man only cursed once at the beginning, but his voice immediately became softer. He actually sat down with Wei baizhan, and the scene looked quite harmonious.

Could it really be an old acquaintance?

All the prisoners looked at each other. The bald man was not a good-tempered man. Ever since the group of real brutal characters had been transferred away, he had claimed to be the number one man in the prison. He had long said that all the prisoners would respect him as their boss from now on. Why did he suddenly change his attitude?

After 15 minutes, Wei baizhan stood up as if nothing had happened, but the bald man was still sitting there, as if he had fallen asleep.

Then, Wei baizhan went to the next domain expert.

Lin Yi looked at this scene and nodded. In the newborn Alliance, the second strongest person was either Ying long or Yan Zhongyuan, but very few people mentioned this shameless lone wolf.

Chapter 9553

In his eyes, both Ying long and Yan Zhongyuan had great potential. Especially the latter, whether it was his personality or potential, he was one in a million.

However, Lin Yi was more optimistic about Wei baizhan's chances if he let them grow on their own.

This person would resort to extreme means in everything he did, but he was not a simple villain. On the contrary, he had his own Dao. Such a person would be able to go very far no matter what environment he was in!

"Have you seen my son before?"

An extremely hoarse voice suddenly sounded from behind him.

Lin Yi was shocked. He turned around and realized that there was an old woman behind him. She looked like she was made of bones and dried skin, without any signs of life.

Dried corpse.

That was Lin Yi's first reaction. If it weren't for the deep sunken eye sockets and the moving yellow eyes, he wouldn't have been able to associate the man with a living person.

What surprised Lin Yi even more was the fact that there were female prisoners here.

The separation of men and women was the bottom line of humanity, especially in this prison where evildoers congregated. It was obvious what would happen if a woman appeared in a group of men.

But then again, with the image and appearance of the person in front of him, he did not have such concerns, unless someone's taste was strong enough to be interested in old dried corpses.

"Who's your son?"

Lin Yi's heart was filled with warning signs, but he didn't show it on his face.

"He looks like this."

The old woman took out a piece of skin from her pocket. Lin Yi couldn't tell at first glance, but after a closer look, his eyelids twitched. It was the Thunderlord's skin!

"He's Thunderlord, my cutest son. I'm electrolady."

As soon as the old woman's voice fell, her withered body suddenly expanded at a speed visible to the naked eye. In the blink of an eye, she had changed her appearance. Dark purple electric arcs jumped back and forth all over her body, especially her eyes, which had turned into two bolts of lightning.

He was like a god and a devil, intimidating.

Lin Yi's guard went up, and he quickly backed away.

At the same time he dodged, a thick dark purple pillar of lightning landed where Lin Yi was, melting three feet into the ground.

Looking at the deep pit that had suddenly appeared on the ground, everyone present was frightened. If this had landed on them, they would have directly evaporated from the world!

After missing her first attack, the old woman became even crazier. "Return my son's life!"

The pressure of the domain burst out instantly, freezing Lin Yi's body in place. This was the pressure of a master at the peak of the middle stage of heaven crushing!

With Lin Yi's perfect wood element domain, even if he couldn't take it head on, the difference in strength shouldn't be so great that he couldn't move at all. However, with the cold iron handcuffs on his hands, he couldn't use his full strength at all.

Although she could still use her domain, it was only enough to deal with ordinary battles. The electrolady's strength was far above that of the Thunder God. She was not any weaker than Shen Junyan from the martial arts Society, and might even be stronger.

Against such a strong opponent, Lin Yi might not have much of a chance of winning even if he used all his strength, let alone when half of his strength was restricted.

"The killer move is here."

Lin Yi understood the whole situation instantly. He had to admit that the plan was crude, but if it really worked, no one would be able to find any fault with it.

He and Wei baizhan had been brought here because they had been involved in the robbery case. They had been locked up here because they were too strong, and the other places were not on high alert. As for the reason they had died here, it was because of the prisoners' riot.

The electrolady was enraged because Lin Yi killed her son.

The entire process was simply logical. Although there were many links that could not stand scrutiny, as long as the general idea could be said, the rest was just wrangling.

No matter how powerful Jianghai Academy was, they could not easily make a move on the South District without sufficient evidence. After all, the entire city Lord's mansion was behind them. With the relationship between the Wang brothers and the Li father and son, there was no way they would just stand by and do nothing.

At this moment, the electrolady's attack was a killer move, and Lin Yi was in danger.

The Thunder God's Thunder domain had a paralyzing effect, and so did the electrolady. Her domain was stronger, and the effect was more obvious. One could tell just by looking at the prisoners around them who were affected.

This group of people had already collapsed.

The weakest among them were not just paralyzed, but had been electrocuted to the point where their eyes had turned white and they were barely breathing.

This was the power of a veteran domain expert. Once the gap in strength was wide, the human wave tactic was completely useless. The enemy didn't even need to expend any energy. As long as they stood there, the cannon fodder would automatically fall in droves.

However, Wei baizhan was in an advantageous position. With his strength, his movements were not restricted. With the electrolady's move, he could devour the domain of each of his opponents one by one. This saved him the trouble of foreplay.

Wei baizhan was busy picking up scraps, while Lin Yi was busy running for his life.

With the domain suppressed and the lightning pillar's power like divine punishment, Lin Yi had no way of fighting back with the cold iron handcuffs on him.

Even when he was running for his life, he was trembling with fear. He had to rely on his clone to draw away the lightning pillars a few times. Otherwise, he would have evaporated long ago.

But soon, Lin Yi didn't even have the chance to escape.

A huge dark purple electric net enveloped the entire area. It was so dense that it did not leave any space for escape. Any unlucky person who was touched by it was immediately charred black, and in the blink of an eye, a strong smell of burnt meat was emitted.

The key was that while the electric net covered everyone present, it was still shrinking at a speed visible to the naked eye.

Not to mention the unlucky prisoners who were not strong enough, even the powerful people who were still able to move for the time being felt as if they had lost their parents. This crazy woman obviously wanted to wipe out the entire scene and let everyone die with her dead son!

Most importantly, this electric net wasn't an ordinary lightning-type technique. It was deeply integrated with the entire domain. As long as the domain existed, it would exist. Unless one could break through the entire domain, there was no way to resist it.

They could only watch helplessly as it tightened bit by bit until it was completely retracted, and the entire team was annihilated!

The whole arena was on a death timer, and Lin Yi, who was the first to be hit, was in an even more precarious situation. He didn't just have to face the gradually closing net, but also the increasingly violent attacks from the electrolady!

BOOM!

Seven Pillars of lightning fell at the same time, and this time, even Lin Yi's doppelgangers were included. Lin Yi finally experienced the feeling of being seriously injured for the first time in a long time.

His entire body was charred black.

Even if it was just a little touch on the corner of his clothes, he would still be seriously injured in the end. This was also an extremely overbearing characteristic of lightning-type moves that was easily ignored by people.

Just a little bit of it would cause him to take full damage!

Chapter 9554 The Power Of The Divine Realm

Any other master at the same level as Lin Yi would've been dead by now, but fortunately, Lin Yi had the perfect wood element domain.

The wood element domain was famous for its self-healing ability, and the perfect wood element domain was the ultimate in this aspect!

In less than a breath's time, Lin Yi's charred skin and flesh returned to normal. The whole scene was too strange, as if he was flipped upside down.

A withered tree in spring!

This time, even the electrolady's crazed, dried face showed a surprised expression, and then she became even crazier. "Why aren't you dead? Why are you still alive?"

On the wall far away, Shen Wangui looked on coldly. Beside him was an old acquaintance of Lin Yi 's, Jiang Ziheng.

"Can that crazy woman do it or not?"

Jiang Ziheng couldn't help but question Lin Yi's actions. When he saw Lin Yi getting hit by the lightning bolt, he thought that he'd gotten his revenge and was so excited that he wanted to sing a song to celebrate, but Lin Yi showed off his face before he could even celebrate.

The perfect withered tree revived in spring was simply a cheat in the eyes of others. The visual effect was simply comparable to resurrection from the dead. How could they fight against this?

"Young master, don't worry. The good show is yet to come."

Shen Wan GUI was much calmer and said, ""This crazy woman isn't an ordinary person. Back then, the wild lightning Queen was infamous throughout the entire Jianghai city. However, after all these years of being locked up in prison, her mind has become abnormal, and her cultivation has dropped."

Jiang Ziheng frowned, "you still need her when your strength has regressed?"

He couldn't be blamed for getting so worked up-with Lin Yi's current status, this was the best chance to kill him.

"Even if she has regressed, her strength is enough to be ranked in the top five in the southern area. To be honest, if we really push her to the extreme, even the Prince of Nanjiang himself may not be able to win."

Shen Wan GUI said with certainty.

"That's good. "Jiang Ziheng immediately felt relieved.

Others might not know, but Jiang Ziheng was extremely confident in his brother's strength. If electrolady had the same strength as his brother, Nanjiang Wang, even if it was only thirty percent, it would be no problem for her to deal with Lin Yi.

At this moment, the electric net was further retracted, and more and more unlucky people disappeared from the world.

Lin Yi, on the other hand, was still wearing the cold iron handcuffs, dodging the attacks with his insane self-healing ability. Although he was electrocuted a few times, he still managed to hold on.

As long as it wasn't an instant death, Lin Yi wouldn't be able to show off even if the attack landed on him.

However, those with sharp eyes could see that Lin Yi's situation was getting worse and worse. As the space for him to Dodge and move was getting smaller and smaller, the lightning attacks would only get more and more concentrated. Once it broke through a certain threshold, it would be useless no matter how strong his self-healing ability was.

Most importantly, as long as he couldn't get rid of the electrolady, Lin Yi wouldn't be able to escape the net.

All the signs showed that the power of the electric net was far greater than that of the electric pillar. Once one was touched, they would definitely die instantly!

Wei baizhan, however, turned a blind eye to everything that was happening in front of him. He was still busy taking advantage of the chaos to devour the power of various domains. He was completely unaware that once the electric net was completely wrapped up, everything he was doing now would be useless.

So what if the Blacktide devoured more domains?

If he couldn't withstand the electric net, he would still be unable to escape death!

By this time, the other prisoners had already reacted. Those who could move began to attack the electrolady. Only by gathering everyone's strength to get rid of this crazy old woman would they have a chance of survival.

However, Wei baizhan didn't have this thought at all. As the strongest practitioner here apart from Lin Yi, not only did he not join forces to attack, he even dragged everyone down. It was simply unreasonable.

If this was on the internet, it would probably have been flamed to death.

Looking at Wei baizhan, who was still doing things his own way, Jiang Ziheng couldn't help but smile. "This is the follower Lin Yi brought? Hehe, he doesn't know what he's doing. He's probably a fool!"

Shen Wan GUI could not help but frown, "the abandoned son of the Wei family, according to the information, he is not a simple character."

There must be something wrong with this abnormal situation. After a moment of silence, he suddenly thought of a possibility. "Is he so sure that Lin Yi will win?"

This was the only way to explain his abnormal behavior. If Lin Yi was destined to win, he wouldn't need to take the risk to deal with the electrolady. He'd use this rare opportunity to get some benefits.

"On what basis? Just because he's a pretty boy?"

Jiang Ziheng scoffed. He didn't know how powerful the electrolady was, but he had more confidence in her than anyone else now. He wanted Lin Yi dead more than anyone else!

"It's indeed a mysterious self-confidence!"

Shen Wan GUI also felt that it was incredible. As an expert at the peak of the middle stage of the heaven crushing completion, his eyesight was far better than ordinary people, especially at this moment when he was looking down at the whole scene.

He knew better than anyone else the danger Lin Yi was in-this was the absolute difference in strength, and it seemed impossible to close the gap.

Lin Yi wouldn't even have the chance to die together!

Until he realized that Lin Yi's number of clones was slowly increasing.

Because of the electrolady's crazed suppression, Lin Yi didn't have the time to create enough clones!

Especially since the cold iron handcuffs restricted Lin Yi's pure Qi circulation. Even if he could still use his territory power, it was hard to activate it without the help of the thousand changes of forest.

This was also the common understanding when dealing with doppelganger experts. As long as the number of doppelgangers was suppressed, doppelganger experts would not have the capital to defy the heavens!

Electrolady seemed to have lost her mind, but she still had her instincts as a top-tier master. She had been suppressing the number of clones Lin Yi could use from the start, making Lin Yi look like he was in a difficult position. He couldn't fight back at all.

But now, Lin Yi had more than ten clones.

As Lin Yi's arch-enemy, Jiang Ziheng's understanding of Lin Yi wasn't lower than anyone else's. Naturally, he could see Lin Yi's intentions and sneered, "Do you really think that you can turn the tables with just a few cannon fodders? Hehe, you're still so naive. "

At the side, Shen Wan GUI had a strange expression. If he was naive, then what about you, a former influential figure who was kicked out of the family by him?

However, he also didn't think that Lin Yi's plan would be of any use.

Clones were only effective when facing opponents of the same level or weaker, or when the opponent did not have the ability to efficiently clear out minions.

However, the electrolady in front of him had severely exceeded these two conditions.

When the opponent's electric net came down, it didn't matter if you had 10 or 100 doppelgangers. In the end, you couldn't even be considered cannon fodder.

Chapter 9555

"Could it be that it's just a last-ditch struggle?"

Shen Wangui couldn't think of anything else Lin Yi could do.

Then, he saw Lin Yi's doppelgangers spread out in all directions. Looking closely, they seemed to be standing on some key nodes.

Then, extremely dangerous destructive Qi gushed out of the avatar!

Even if he was a few hundred Zhang away, Shen Wan GUI could not help but feel his heart jump and he suddenly reacted, "Could it be a domain shock explosion? No, that's impossible!"

With such a terrifying aura, the only thing he could think of was domain shock.

But that was something only domain masters could do-they needed to be at least at the peak of the mid-stage of heaven-Sundering completion, like him. How far was Lin Yi at this stage?

Even if he had the heaven-defying ability to challenge those of a higher level, it was impossible for him to obtain a skill that could do so, right?

If he really did have a domain, then it only meant one thing-Lin Yi wasn't at the peak of the early stage of the complete realm as the information said, but a real mid-stage!

But something like this was impossible-Lin Yi had only been in Jianghai college for a few days.

But no matter what, the destructive aura was not fake!

Even Shen Wan GUI, who was so far away, knew that something was wrong. The electrolady who was in a state of madness in the field naturally noticed it even earlier!

So, she began to kill these doppelgangers at all costs. All kinds of terrifying electric pillars fell madly, trying to kill all the potential threats before they could sprout.

Unfortunately, it was too late.

BOOM!

Lin Yi's clone self-destructed with a loud explosion.

It wasn't just the area where the prisoners were released, the entire south side prison was shaking, and some of the corners that hadn't been repaired for years even collapsed on the spot!

And this was only the first one.

Before anyone could react, all of Lin Yi's clones exploded!

Shen Wangui and Jiang Ziheng's eyelids twitched. From their vantage point, they could clearly see the area around the explosion of Lin Yi's clones. Pieces of space disappeared one after another.

It wasn't destroyed by an explosion, but like a butter cake, a layer of butter was dug out with a spoon, leaving only a flat and smooth dent. There was no residue left, as if it had never existed.

This was not destruction, this was annihilation!

This was the power of the new super alchemy bomb. To be more precise, it was a new skill that Lin Yi had developed based on the new super alchemy bomb and the doppelganger's territory-self-destruction.

Or to change its name, it was the annihilation domain.

In terms of power, the new super alchemy bomb was the strongest in Lin Yi's Arsenal. After all, its annihilation ability was unparalleled, and the only weakness was its limited range. Unless it was an extreme situation, it would be difficult to achieve the effect against a real master.

In the past, if he wanted to use the new super alchemy bomb over a large area, he could only rely on the number of clones to make up for the difference in quality. In between, he also needed some time to condense the new super alchemy bomb.

But now, he didn't even need that bit of time. A clone was equivalent to a new type of super alchemy bomb!

It could be said that after combining with the clone domain, the only flaw of the new super alchemy bomb no longer existed.

If one self-destructing clone wasn't enough, then ten. If that still wasn't enough, then a hundred!

Annihilation domain. This was naturally not a domain in the strict sense of the word. However, in terms of effect, there was no difference!

The entire place was dead silent.

By the time the chain explosion ended, not to mention the unlucky prisoners, even the ground had a 100-meter-deep pit. The foundation of the prison building next to it was unstable and collapsed on the spot!

As for the electric net that had enveloped everyone's heads, it had disappeared without a trace. Even the aura of the electrolady had disappeared!

One more thing, the node Lin Yi had chosen was centered around the electrolady.

At first glance, it looked like an indiscriminate attack, but in fact, it was all aimed at the electrolady. Everything was just to make her have no place to escape, and the others around her were just innocent people.

However, this innocent and horrifying scene really made people speechless.

Soon, the emergency horn of the southern district's prison sounded, and the Masters of the southern District, who had entered the level one alert position long ago, immediately attacked.

"I've completely lost control. "

Looking down at the chaos below, Shen Wangui sighed and jumped down from the high wall, leaving Jiang Ziheng alone in silence and shock.

He was really frightened.

He'd always thought that Lin Yi was on the same level as him, no matter how many shocking battle records he'd made. At most, he'd have more tricks up his sleeve and a bit more luck.

However, Jiang Ziheng's entire world view began to collapse at the sight of this.

He would never be able to master this kind of terrifying power that could annihilate everything in his life. It was impossible no matter how many resources he had. This had far exceeded the upper limit of what he could touch!

In other words, that one move was enough for him to lose to Lin Yi for the rest of his life.

Emotionally, he absolutely didn't want to admit this ridiculous perception, but sadly, he still retained the least bit of rationality.

As long as he had a shred of rationality left in him, he knew that he would never be able to catch up to Lin Yi. There was no hope at all.

His three views were destroyed.

Jiang Ziheng fell to the ground with a thud. Blood began to ooze out of his seven orifices, and the aura around him went out of control. Then, it fell layer by layer.

From the peak of the early stage of the great circle of heaven breaking, to the early stage of the great circle of heaven breaking, and then all the way to the heaven breaking stage, there was no sign of stopping!

If Shen Wan GUI was here, he would definitely see that he had lost his mind. Although the situation was extremely dangerous, if it was handled properly, it was not completely unsalvageable.

The drop in realm was inevitable, but as long as he responded in time, it wouldn't leave too many aftereffects. At most, his strength would decline and his vital Qi would be damaged.

But at this moment, there was no one beside Jiang Ziheng. Shen Wangui and the other Masters of the South District had all rushed down, so no one would notice the strangeness here.

As a result, Jiang Ziheng's realm plunged crazily without any consciousness.

Heaven-breaking stage, sea-splitting stage, earth-splitting stage, mountain-splitting stage.

Xuansheng stage, nascent Soul Stage, Aurous core stage, and Foundation establishment stage.

Heaven, earth, Mystic, and yellow.

Until he was reduced to a complete cripple.

Lin Yi would never have thought that he'd be able to scare a domain master at the peak of the early stage of heaven-cleaving completion into an ordinary person just by showing off a little of his strength!

After all, this was an Earth Class Sea area-any child who came here could be a Sky Class master, and Jiang Ziheng had actually fallen to a normal person-this was rare even in history.

When he sobered up later, there would be another huge mental impact. It was not impossible for him to die of anger on the spot!

Chapter 9556

Below, Shen Wangui brought a group of Masters from the South District, as well as the Masters stationed in the prison, and surrounded Lin Yi, who was standing proudly in the middle of a deep pit.

They couldn't be blamed for being so nervous-Lin Yi's move just now was something that even the strongest person here, Shen Wangui, wouldn't be able to handle. He'd die with Lin Yi!

The king of newcomers of Jianghai University was definitely one of the most dangerous prisoners held since the establishment of the southern District.

Luckily, the surrounded Lin Yi didn't show any obvious hostility or make any aggressive moves. Otherwise, even if he knew there were endless hidden dangers, Shen Wangui would have to bite the bullet and kill him.

However, that would be a dead end for both sides.

After making sure that Lin Yi didn't have any hidden cards, Shen Wangui scanned the surroundings and snorted, "The zence new generation King is really good. He killed hundreds of prisoners in one go. They were all living people. They don't deserve to die!"

Although there were no corpses on the ground, it was so clean that it was as if nothing had happened. But it was this kind of cleanliness that was really creepy.

It was not that there were no deaths, but that all traces of those who had died had been wiped out and evaporated.

"I killed over a hundred prisoners, or I saved over a hundred prisoners, you really can't tell?" Lin Yi said, raising his eyes.

At this moment, not all the prisoners who had come out for a walk were gone.

The annihilation domain was mainly aimed at the electrolady, and Lin Yi's self-destructing clones only occupied the key points of the electrolady's encirclement. The process would affect the other prisoners, but there were still over a hundred prisoners who managed to escape the disaster at the edge.

If it weren't for him, all of them would've died under the net. Lin Yi had saved the lives of these people.

You could tell that from the way they looked at Lin Yi.

He was as respectful as a God.

No one knew better than them how terrifying the annihilation domain was after witnessing the shocking scene up close. At the same time, they were truly grateful to Lin Yi. After all, they managed to save their lives.

This was human nature, especially when it came to these evil criminals. If Lin Yi didn't show them his power, they wouldn't be grateful even if he saved their lives. Instead, they'd be blamed for it.

However, once he displayed a terrifying strength that was far above them, he would receive their heartfelt admiration, because they would share in the glory!

The more it was like this, the more shocked Shen Wan GUI was.

At this rate, Lin Yi didn't even need to mobilize much-he could probably just give the order and create a Riot Squad, ready to escape at any time.

Fortunately, Lin Yi's status didn't warrant him doing that, or he wouldn't have let himself be captured so easily.

From the beginning, the focus of the game was not a direct confrontation, but to see who could withstand the pressure of constantly increasing the game!

Lin Yi's pressure came from the electrolady, from the possibility of an assassination in prison, while Nanjiang King's pressure came from Jianghai college.

As far as Shen Wan GUI knew, the ten-seat Council of the Academy had already come forward to negotiate with the South District government this morning. Although it was dodged by the king of Nanjiang, it was only temporary.

Even if Xu Anshan wasn't on Lin Yi's side, he'd still have to be tough on this matter as the student council. Otherwise, it'd be a stain on his life.

No matter how badly they fought, Jianghai Academy had always been United when it came to dealing with external threats.

No one dared to cross this red line, not even the Tian family, not to mention Xu Anshan!

Once the 10-seat Council started to take action, it would be impossible to rely on the South District alone. If the city lord's castle intervened, it would naturally escalate to the level of the entire Academy.

Even the Prince of Nanjiang would not be able to withstand that kind of pressure.

Just as Shen Wangui told the electrolady, keeping Lin Yi for two days was already the limit of the Nanjiang King.

Under the high pressure, Lin Yi was sent back to the single cell, but the chaos in the southern area didn't stop there.

First, it was the electrolady who wanted to kill everyone, then they saw Lin Yi's shocking attack, and then there was Wei baizhan who took advantage of the situation. Everything that happened today was too exciting for the prisoners.

Especially because of the terrifying destructive power of the annihilation domain, not only the buildings of the southern prison, but many of the surveillance facilities were also disabled.

Under such circumstances, it was simply a fool's dream to make the prisoners spontaneously behave without going through a bloody suppression.

However, the chaos had nothing to do with Lin Yi.

Lin Yi didn't mind-he'd done what he needed to do, and all that was left was to see what Wei baizhan found.

Based on the various qualities that Wei baizhan had displayed before, as long as he had the will to do it and as long as Ying long had indeed appeared here, he definitely wouldn't be disappointed in the chaotic environment that allowed him to be like a fish in water.

In fact, Lin Yi felt that he might not even be a better person to investigate it himself!

Lin Yi went into seclusion again-his priority was to complete his metal element domain.

Strictly speaking, although today's final scene shocked the entire audience, and the last scene of annihilation in all directions was estimated to make many people unable to sleep, it was still a risk.

The annihilation domain was terrifying, but it was still a forbidden killer move and could not be used casually. The crucial point was that it required too much foreplay.

If the opponent was prepared in advance, they might not have the chance to use it, and even if they did, they might not be able to hit the opponent.

"True power is the foundation."

Lin Yi sighed to himself-if all his normal attacks had the same power, he wouldn't have been in so much danger today!

By the time the chaos in the southern region prison had truly subsided, and all the surviving prisoners had been locked up in their respective cells again, it was already late at night. It was only then that Jiang Long, the king of Nanjiang, received the bad news.

"Ziheng's crippled?"

The Nanjiang King kicked away the soft and fragrant beauty in his arms. When he saw Jiang Ziheng being carried back by his subordinates, his eyes instantly widened.

At this moment, Jiang Ziheng's aura was already extremely dispirited. Without the powerful physique of a giant head tier cultivator, he naturally could not maintain his essence, Qi, and spirit. His entire person appeared to be in a state of old age, lifeless!

At this rate, not to mention regaining his strength one day, even being an ordinary person would be an extravagant hope.

He would die of old age in less than three months!

"This subordinate deserves to die. A moment of carelessness caused the young master to suffer such a great disaster. Please punish me, master!"

Shen Wangui hurriedly knelt down to beg for forgiveness, but in his heart, he was cursing Jiang Ziheng.

Chapter 9557

He clearly didn't have any physical contact with anyone and was just watching the show from afar, but he actually thought of himself as such. It was really bad luck to meet such a master!

He was well aware of Jiang Ziheng's position in the Prince of Nanjiang's heart. As a blood-related brother who came from the same mother and relied on each other for survival, Jiang Ziheng could be said to be the last piece of Pure Land in the heart of a cunning and ruthless character like the Prince of Nanjiang.

Once Jiang Ziheng was truly beyond redemption, no one could imagine what kind of crazy things the Nanjiang King would do!

On the way back, Shen Wan GUI had the urge to run away more than once. Although this time, it was not his fault, but if Nanjiang King was angry, he would be better off dead!

But in the end, he didn't have the courage.

It might not be a big deal at first, but once he escaped, he would be running away to avoid punishment. Prince Nanjiang might really treat him as the culprit.

To his surprise, Nanjiang King's expression returned to normal very quickly. He even personally helped him up from the ground. "You're thinking too much. You can't be blamed for this. It's Ziheng's own unstable state of mind that's destined to meet with this calamity. He can't blame anyone else. "

Shen Wan GUI was stunned. Seeing that his expression did not seem to be fake, he heaved a sigh of relief, "Thank you for your forgiveness, my Lord."

"How's Lin Yi?"

Nanjiang King asked in a deep voice.

It had been a full day since Lin Yi was detained, and the pressure from all sides was reaching its limit. If he didn't make a decision to ease the situation soon, his days as the Nanjiang King would be tough.

Shen Wan GUI quickly reported, "very honest, unexpectedly honest."

Nanjiang King grinned, 'does this mean that he's certain that I won't dare to do anything to him? Hehe, ever since I took over, this is the first time I've been looked down upon by a little brat. Where's that crazy woman?'

The crazy woman naturally referred to the electrolady.

"I found her. She's quite badly injured this time. She's not far from death, but she's still holding on to her last breath."

"You can still fight?" the Nanjiang King raised his eyebrows.

"Yes, I can."

Shen Wan GUI hesitated and added, ""But she couldn't do anything to Lin Yi even at her peak, and now that she's been injured like this, I thought that even if we let her continue to attack by force, the chances of success would be extremely low. She wouldn't be of much use."

"Even trash can be put to good use. I've made other arrangements. You go back and keep an eye on Lin Yi's every move. Also, don't let down his guard," said Nanjiang King.

"Understood."

Shen Wan GUI acknowledged and left.

Only Prince Nanjiang and the dispirited Jiang Ziheng were left in the room. Looking at his brother, who only had one other brother to rely on, Prince Nanjiang's expression was uncertain. After a long time, he suddenly sighed. "Come out,"

"It seems like Prince Nanjiang has finally thought things through?"

The space behind him twisted, and an ordinary-looking old man in a gray robe walked out. If Lin Yi were here, he'd recognize this man immediately. It was the mysterious old man who had been following Chu Mengyao!

"Are you confident in saving Ziheng?" the Prince of Nanjiang looked at the newcomers coldly.

The grey robed elder's deferential attitude towards Chu Mengyao was replaced by a proud expression, "Saved? You're underestimating our power. Not only can I bring him back to life, I can also help him recover his strength, making him ten times, even a hundred times stronger than before!"

"What's the price?"

However, Prince Nanjiang was not immediately tempted. He knew that there was no free lunch in this world. Furthermore, the other party's identity was too sensitive. Once he was involved with her, there was no turning back.

The gray-robed elder smiled. "There's no price to pay. If you must say it, we only need to obtain your friendship. That's all."

"My friendship?"

Nanjiang King looked at the other party teasingly, 'isn't this already the most expensive price? In this world, there are only two words, "friends." They are the best to sell, and also the best to sell for a good price. "

"I advise you not to think that way," the gray-robed elder said seriously. "It's the greatest honor of your life to be our friend. You have to remember this, my friend."

With that, he waved his hand and took Jiang Ziheng to an unknown place.

The king of Nanjiang was already used to this. Although the two sides had not formed a substantial Alliance before, they had in fact cooperated many times in secret. Even without Jiang Ziheng's help, he would still have to take this step in the end.

There were many things that you couldn't turn back once you started. The worst thing was that you didn't even know when it started.

The space twisted again, and the gray-robed old man took half a step into it. He suddenly turned around and said, ""That Lin Yi, bring him to me when you have the chance, I'm very interested in him."

"Do you think I'll give it to you just because you say so?"

Nanjiang King curled his lips and sneered. If Lin Yi was that easy to deal with, he wouldn't have to worry so much.

The grey-robed elder flicked out a small black insect. "Give it to any of your subordinates, and their strength will increase by at least ten times. However, it's a one-time thing. I hope it will be useful to you."

As soon as he finished speaking, he entered the distortion, and the space returned to normal, as if nothing had happened.

Nanjiang King looked at the little bug in his hand and raised his brows slightly. He then revealed an interested smile. "Ten times? Is that enough?"

At night, a black shadow silently broke into the southern district's prison. Under the eyes of the Masters of the southern District, he found the electrolady who was licking her wound and fed the bug into her mouth on the spot.

The entire process, including Shen Wan GUI, was not noticed by anyone.

After the worm entered the mouth, the aura of the electrolady, who was already seriously injured, suddenly rose crazily, which shocked Shen Wan GUI and the others.

"This is a breakthrough? No, I'm not breaking through!"

Shen Wan GUI and the others looked at each other.

The aura around electrolady's body skyrocketed. It was like a breakthrough, but it was not a breakthrough in the end. As an expert of the same level, Shen Wangui could clearly feel that at this moment, electrolady was still at the peak of the middle stage of the heaven crushing completion, and had not truly entered the late stage!

However, the strength of his aura was at least ten times that of an expert of the same level!

With Shen Wan GUI's strength, if he had fought with her before, the chances of winning were basically 50 - 50. But if he fought now, even if the other party had a serious injury that was visible to the naked eye, he was definitely not her opponent.

"Lin Yi! Lin Yi! I'm going to kill Lin Yi!"

At this moment, the electrolady's entire body was wrapped in dark purple electric arcs. It was like a complete electrolady. Its speed was even more incredible. In an instant, it disappeared without a trace in front of everyone's eyes, leaving only traces of electric arcs in the air.

Shen Wangui's eyelids twitched and he quickly followed with his men.

Electrolady's attack on Lin Yi was part of the script, but the timing wasn't right!

At least on the surface, they needed to give the outside world a reasonable explanation. It would even be best if they could show the corresponding surveillance footage.

Chapter 9558

Just like this morning, when the electrolady suddenly went on a rampage and killed all the prisoners, including Lin Yi, it was at least logical. She didn't mean to target Lin Yi, and Lin Yi was just one of the hundreds of unlucky people.

At most, south side prison would be accused of poor supervision.

However, if they were to lock Lin Yi up in isolation and let the electrolady kill him, everyone would know that they were targeting Lin Yi.

Later on, in order to appease the anger of Jianghai Academy, these people would become scapegoats sooner or later, and he, Shen Wan GUI, would be the first to bear the brunt!

Lin Yi couldn't die now!

Shen Wangui felt that it was absurd. He wanted to kill Lin Yi, but he had to worry for Lin Yi and even block the electrolady for him!

However, just as Shen Wangui and his men were rushing towards Lin Yi, the electrolady suddenly stopped in the narrow corridor.

Then, he slowly turned around and looked at the crowd expressionlessly with his shriveled face.

Shen Wangui and the others immediately felt that something was wrong. They could make use of the electrolady, but the electrolady was never one of their own.

On the contrary, the electrolady had killed many of their people. Even after being imprisoned here, people would suffer from it from time to time. The list of deaths was all listed together, and not a single tombstone could be carved!

Buzzzzzz!

The dark purple lightning passed through the crowd, and the South District Prefecture Masters who followed Shen Wan GUI were all instantly killed. A thick and familiar smell of burnt meat emerged in the narrow passage.

Shen Wan GUI looked at the hand that was sticking out of his chest. There was a beating heart in it.

It was his heart.

"Why ... Why ..."

Shen Wangui stared at the looming figure in the distance with his eyes wide open. As his claws suddenly tightened, his heart exploded.

At the same time, a powerful electric current directly penetrated his sea of consciousness, and his primordial spirit was instantly evaporated, his soul destroyed!

The electrolady pulled out her claws from Shen Wangui's body and pounced towards Lin Yi's cell again. Nanjiang King slowly revealed his true appearance from the shadows.

"If you don't die, wouldn't this show be less convincing? It's hard to explain. "

Nanjiang Wang looked at Shen Wan GUI's face that had died with his eyes wide open and sighed. However, only he knew how much regret he felt.

Buzzzzzz!

Lin Yi opened his eyes as he sensed the approaching figure with his spirit sense, a weird smile on his face.

The timing was perfect!

Two seconds later, the berserk electrolady suddenly appeared at the cell door like a human-shaped lightning bolt. It didn't try to break the door open, but rushed in directly.

Lin Yi was speechless as he looked at the melted iron door, especially at the human-shaped hole on it.

If the opponent was a fire element expert, especially if he was proficient in high temperature, this scene would actually be normal. However, the opponent was a standard Lightning element expert, so this move was a bit exaggerated.

Compared to this morning, the strength of the electric current had increased by at least ten times!

The electric net spread out from the electrolady's body, but this time, the range was much smaller, only covering the small cell.

And this once again proved that the other party's strength had indeed improved greatly.

A killer move like the electric net wasn't necessarily better when fighting masters. It was too slow and clumsy in the morning, giving Lin Yi too many chances to prepare.

If they'd surrounded him with such precision, Lin Yi wouldn't even be alive now.

But now, it was a different story.

The perfect wood element territory spread out, and under the increasing difference in strength between the two, it could barely hold on for about ten meters before, but now it was pressed into a layer of skin, barely clinging to Lin Yi's body to show its existence.

However, even if it was just a layer of skin, it still had the effect of resisting the invasion of the opponent's domain. At least, most of the negative effects that could easily paralyze people to the point that they couldn't move would be offset.

This was also the basic threshold for a duel between domain experts. If it was an ordinary expert at the peak of the early stage of the great circle of heaven-breaking realm, with the difference in domain between the two sides, they wouldn't even be able to leave this layer of skin. They wouldn't be able to resist the negative effects of the domain at all, so there was no need to fight at all.

But even so, Lin Yi was still in a dangerous situation, even closer to death than this morning!

Because the opponent was even stronger.

The Lightning Queen was in a berserk state, and Lin Yi had never seen anything like this in his life. As a speed-type master, Lin Yi's speed was no weaker than anyone else's, but in front of the berserk lightning Queen, it was the first time he'd lost his temper.

He couldn't win, he couldn't win at all!

In front of the electrolady, the lightning escape technique was like a little brother!

At least with Lin Yi's current strength, he couldn't even close the gap between them, let alone catch up to their speed.

The lightning element domain actually had such a wondrous effect?

This was the first time Lin Yi was so interested in the lightning element. He didn't even think about it when he saw the lightning net. After all, the annihilation domain was stronger than it was.

However, if he could achieve a speed that was comparable to his opponent's by cultivating his lightning domain, then his self-destructing clone would also go berserk. Just thinking about that scene would make one's blood boil!

The annihilation domain had a few shortcomings. The most fatal area of effect could be made up for by the number of clones. However, not only did clones require a lot of preparation, but it was also very difficult to make them effective as long as the opponent was on guard.

Especially if it was a speed-type expert, the way to deal with it was very simple. All they had to do was to pull away.

It was for this reason that Lin Yi wouldn't use this area-of-effect killer move unless it was a special occasion like this morning, since it might not even hit anyone.

However, if the self-destructing doppelganger had the speed of the berserk jellyfish, it would be a completely different story. He didn't need to care about anything else. The annihilation domain would chase after him.

As he was lost in his thoughts, the net of lightning quickly closed up, and the berserk electrolady's crazy attacks began to break through Lin Yi's perfect wood element domain.

If it wasn't for his insane recovery ability, Lin Yi would've been full of holes already.

In the world of martial arts, speed was the only thing that couldn't be broken. When one's speed was completely crushed by the opponent, the disadvantage was unresolvable. It was the first time Lin Yi experienced the helplessness and despair of his opponents.

No matter what cultivation level he was in, speed was always the king.

Chapter 9559

"Die! Die!"

The berserk electrolady declared her death. The electric net had shrunk to less than half the cell's size, and there was limited space for Lin Yi to move around.

The most obvious sign was that Lin Yi's wounds were getting more and more, and his regenerative ability was starting to lose its focus-he was being forced to his limit!

This time, the electrolady was extra careful with Lin Yi's clones-she'd kill them as soon as they appeared, leaving no chance for them.

Without enough avatars, the annihilation domain would be like water without a source, like a tree without roots. It would not pose a threat at all.

This was the battle instinct of a veteran master.

However, Lin Yi's face didn't show any signs of panic. He even had the time to observe the being in the shadows. He turned to the electrolady and said calmly, "After looking at it for so long, it seems like you Can't Touch This electric net, right?"

The electrolady only focused on attacking and did not respond.

But Lin Yi didn't expect a response from her in the first place-the two exchanges were enough for him to confirm his judgment, and that was enough.

"It's a pity that I can't fight against a master like you at my peak. I believe that would be fun." Lin Yi pulled out the demonic blade slowly.

The electrolady was still going on a rampage, attacking mindlessly.

It was only after Lin Yi had taken three of her attacks with his body that he suddenly slashed out.

The world fell silent.

An invisible but substantial force locked onto the rapidly flashing berserk electrolady from all directions, and then compressed towards the center layer by layer. As if space had suddenly collapsed, the electrolady couldn't resist it at all, and was crushed into a pile of meat paste!

Perfect golden elemental domain, edgeless.

Nanjiang King's eyes twitched. Even he felt threatened by Lin Yi's sword!

"He actually fused all the power of a perfect domain into a single sword. This kid can't be underestimated as expected!"

Before this, Lin Yi had never really caught his attention-he was just an annoying flea, and while it wasn't that easy to kill him, he didn't really attract much attention.

This time, he didn't really target Lin Yi, but rather, he was treating Lin Yi as a tool. His real focus was on the waves behind the scenes, and Lin Yi was just a side effect.

But at this moment, his intuition told him that he had to face Lin Yi seriously, because this trash that he didn't even look at had started to master a strength that was enough to threaten him.

While Nanjiang Duke was on alert, Lin Yi himself wasn't feeling too proud of himself for killing the berserk electrolady in one hit.

To him, this was something that was inevitable.

In such a short period of time, even if his realm was still at the peak of the early stage of the heaven crushing complete realm, his strength would definitely soar from the single perfect domain to the double perfect domain!

He had made an absolutely fatal mistake, especially when the other party had caught himself in his own trap.

As a master who had reached the peak of speed, he had the absolute advantage in speed. Restricting his movement space was the same as giving the noose to Lin Yi.

As long as the electrolady had a bit of rationality left in her, or even if she didn't change anything, as long as she didn't release the power grid, Lin Yi wouldn't be able to get rid of her so easily.

Even if he could have the last laugh, he would have to pay a huge price. He would not have been killed in one strike like he was doing now!

It was simple-with her insane speed, Lin Yi wouldn't be able to lock onto her even with his edgeless territory.

To be honest, half of the credit for the stunning sword attack just now could be attributed to the electrolady. It was mainly due to the good cooperation of the opponent!

"You're quite cautious,"

Lin Yi glanced at the shadow in the distance. The Nanjiang King's aura was completely gone.

The electrolady was dead, and unless he wanted to kill Lin Yi himself, there was no point in staying.

As for killing Lin Yi with his own hands, the idea was tempting. Whether it was for the past grudges, revenge for Jiang Ziheng, or simply to kill the threat in the bud, he had enough motivation, but he couldn't afford to take the risk.

After all, he would have to face the entire Jianghai Academy if anything were to happen.

With Jianghai Academy's unfathomable background, no matter how secretive he was, no matter how clean he left no clues behind, he would not be able to escape the backtrack of the influential figures. By then, there would be no chance for a wrangle.

After Nanjiang King left, Lin Yi saw another unexpected guest-Wei baizhan.

Lin Yi didn't know where the guy sensed the commotion, but his eyes lit up as soon as he saw the electrolady's body. He pounced on Lin Yi without even greeting him.

Looking at this strange scene, a word flashed through Lin Yi's mind-while it's hot.

Of course, no matter how strong Wei baizhan's taste was, he wasn't that interested in the electrolady's corpse. With her appearance, she could scare all the male creatures out of their minds even if she was alive, let alone a corpse.

What Wei baizhan was interested in was the domain power that was rapidly flowing out of her body.

After a quarter of an hour, Wei baizhan got up from the ground, half satisfied and half regretful. His aura had increased again.

"Seems like you've gained a lot?" Lin Yi said with a half-smile.

"It's not bad. Unfortunately, she died too early and wasted more than half of it. If I could absorb all of her things, my strength would at least double!"

Wei baizhan's mood was great as expected, and it was rare for him to take the initiative to reveal his situation to Lin Yi. It had to be known that he'd always kept this information a secret, never letting anyone know a single bit.

To a lone wolf like him who had no integrity, any personal information that was accidentally leaked could become a fatal weapon that stabbed him!

"Your lightning element's strength is probably stronger than most of the true Masters," Lin Yi nodded.

Both the Thunder God and the electrolady were the best of the best in the lightning element. Even the seemingly young Thunder God had a strong foundation in the lightning element. The only thing he lacked was actual combat experience and techniques.

After devouring the Thunder God and electrolady, even if it was not the complete version of electrolady, Wei baizhan's pseudo-lightning domain was not to be underestimated.

In addition, this guy's combat talent far exceeded his peers. When he returned, his combat strength would at least be among the top three in the newborn Alliance. Even Yan Zhongyuan might not be able to win against him!

"It's all thanks to boss's nurturing. "

Wei baizhan chuckled. He didn't look as arrogant as before. Instead, he looked more humble.

Although he didn't see the shocking sword strike just now, he could more or less restore some details from the wound on the electrolady's corpse. The more he restored, the more frightened he became.

Chapter 9560

What kind of monster am I following?

Lin Yi, naturally, didn't like this kind of flattery, but he still found it funny. "Where's the official business I asked you to do?"

"I have some clues."

While Wei baizhan was adapting to his new ability, he replied, ""After a friendly conversation with the other prisoners and some clues that I found, I can basically confirm that Ying long and the other outstanding prisoners have been transferred away."

"Where did they move to?"

"We don't know yet. I can only guess that it should be related to some human experiments. All the signs show that the king of Nanjiang is planning something big."

Wei baizhan directly gave his conclusion.

Lin Yi fell into deep thought.

He had already guessed this outcome before coming out this time. However, if this was the case, the chances of finding Ying long were really slim.

With Nanjiang King's shrewdness and power, if it was really something he'd planned for a long time, it wouldn't be something Lin Yi could find out in a day or two, especially under the circumstances of being heavily watched. If he was unlucky, he might not be able to find anything even after a year or two.

Unless he found an opportunity to start a war with Nanjiang King and force him to use all his trump cards!

It was a pity that with Lin Yi's current situation, this was just a thought. Not to mention the huge gap between their strengths, just the school level alone was hard to pass.

The Academy and the city Lord's mansion had always had a tacit agreement not to interfere with each other.

"Why don't I stay outside and investigate?"

Wei baizhan asked with great interest.

"There's no need for that. We'll go back and fight with du wuhui's group. There's some dirty work that I'll need you to do,"

Lin Yi rejected with a smile, but a name he hadn't heard for a long time came to mind. "I have a more suitable candidate."

Wei baizhan looked at Lin Yi with a meaningful look and tried to probe, "The candidate that boss is talking about, could it be the Tiger of the second year who has already betrayed and fled, the blood medium Grandmaster Lu renwang?"

Lin Yi's heart skipped a beat, and he looked at him with a half-smile. "People who are too smart are usually not likable. Aren't you afraid that you will arouse my killing intent?"

"If I'm not likable, it means that I'm not smart enough," Wei baizhan laughed. "As long as I do the dirty work well, the more outstanding I am, the less you'll have to worry about, boss, right?"

"He's a smart person. "

Lin Yi nodded, his fear of the man growing.

It wasn't that Lin Yi was being overly suspicious, but if he really thought that he could make Wei baizhan respect him after a few times, then he'd really be a naive fool.

A person like Wei baizhan would never truly submit to anyone. He would only choose the path that was most beneficial to him. As long as the benefits were great enough, he could betray again at any time.

What was integrity? Can it be eaten?

"I've come into contact with Lu renwang. He's an extremely ruthless man. Boss, you're indeed a Dragon among men to be able to make him submit to you."

Wei baizhan continued to praise him with a very sincere expression.

"We're just taking what we need," Lin Yi replied indifferently.

The Alliance between him and the king Lu was built on their common enemy, li MUYANG. There was no distinction between superior and inferior. Of course, with his strength when he first entered the Academy, he was not qualified to make the king Lu submit to him, even if he was seriously injured.

But now, Lin Yi's individual strength and overall power were completely different from before. Even if they were to work together again, they had to have absolute leadership.

Strength determined the right to speak.

"Boss, there's something I need to ask you."

Wei baizhan suddenly said humbly.

"Speak," Lin Yi raised a brow.

"After what happened during the day, all the prisoners here are grateful to you, boss. I'm thinking that we can pick some people from them to develop a little. After all, our new student Alliance will need someone to do things outside in the future."

"Pretty strong?"

Lin Yi couldn't help but be surprised. He'd observed these prisoners before, and the Masters with real potential and strength had all been transferred away. There were still a few domain masters left, but they weren't even worth his attention.

Even the weakest member of the new student Alliance was stronger than these people.

Wei baizhan shook his head. "Their strength is average, but they do have a few capable people who are good at stealing. They won't be useful in a direct battle, but they'll be easy to use for dirty work if they're trained well."

"Alright, I'll give you a spot in the team. We'll go back and pick a few smart people from the new student Alliance, and you'll get the best resources you can get," Lin Yi said after a while.

"Many Thanks, boss!"

Wei baizhan was overjoyed, but he was secretly shocked. 'No wonder he's a terrifying figure who has risen to the top of the Academy in just a few months. I've only tried to test him, but he's already using the art of balance on him.'

But from Lin Yi's position, this was inevitable.

The new student Alliance was growing rapidly. If they could successfully gnaw over du wuhui's group, they would definitely welcome another wave of skyrocketing growth. Combined with the situation that might appear in the future, it was inevitable to set up a plan outside the school in advance. It was just a matter of whether they had the strength.

Wei baizhan wasn't Lin Yi's most trusted candidate, but he was the best one in all aspects.

After all, Jianghai city wasn't as close to the college as it used to be, especially now that Lin Yi had become a thorn in the eyes of the Nanjiang King, Li Muyang, and the powerful city Lord behind him. It would be even more difficult for him to expand his influence outside.

Unless Lin Yi was willing to let Shen Yifan out, the other core members of the new student Alliance wouldn't be able to stand firm.

His strength was good, but his means were lacking.

In this situation, Lin Yi could only choose to trust Wei baizhan. He could be at ease with this guy's ability.

"If that's the case, I'll just hang a sign for you. From now on, you'll be the Third Division of the new student Alliance, and you'll be in charge of everything outside the school. You can recruit people or do things, you can use this name to do things."

"The third?"

Wei baizhan's eyes lit up, "I wonder who's in the other places?"

"You'll know in the future. "Lin Yi looked at him.

Even though he said that, Lin Yi himself hadn't thought it through completely yet. It was just that Wei baizhan mentioned it, and he decided on it on a whim.

However, it wasn't just a spur of the moment decision-Lin Yi had discussed it with Shen Yifan before, and they had a comprehensive plan for the future development of the Alliance. There were eight divisions, and one of them was the Third Division that was in charge of external matters.

It was just that he couldn't think of a suitable candidate or the right time. Today, he just happened to make it.

"Then I'll be looking forward to it."

Wei baizhan was also a man of action-after greeting Lin Yi, he turned around and went to look for those so-called thievery.
