

Bodyguard 9581

Chapter 9581

If it was a top-notch combat power like Han Qi, it was understandable for him to charge into the formation alone. After all, he really had that kind of strength.

But Lin Yi was only at the peak of the early stage of sky-breaking, after all-even if he was invincible against those of the same level, or even those of a higher level, what gave him the courage to come here alone?

This was not the way to act cool, right?

"Iron-headed, huh? Hehe, I like iron-headed idiots the most!"

Bi kun pulled out two hatchets from his back and swung them at Lin Yi without saying a word. The hatchets drew sharp arcs in the air, criss-crossing on the left and right.

Lin Yi dodged it easily.

But that wasn't the end-the two hatchets didn't just miss, but turned into four, locking onto Lin Yi again after making a circle in the air.

Then, it missed again, and four became eight!

Eight to sixteen!

Sixteen to thirty-two!

.....

After several times of doubling, the surrounding area was already filled with whistling flying axes. Although they were all formed by true Qi, their power was not weaker than the two real hand axes. In fact, they were even faster and more ferocious!

This was the foundation of axe slave Bi Kun's strength, the flying axe domain.

At first glance, there was no technical content, and there was nothing particularly domineering about it, but it was simple and crude.

As time passed, the axes did not weaken under the domain's power. Instead, they became faster and faster, and their numbers increased. The entire space was transformed into a slaughterhouse!

"Brother Ke, if this kid is ground into minced meat and can't be recognized, you have to testify for me!"

BI kun drooled as he looked at Lin Yi who was trapped in his domain. As long as he killed Lin Yi here, he would get the top reward. With du wuhui's personality, he would definitely not be stingy with the reward. His position in the team would definitely rise in the future!

Before ke Wuxie could reply, Lin Yi had already broken through.

Lin Yi's method of breaking out of the situation was also simple and brutal-a simple sword, a double-edged sword!

Logically speaking, BI kun's fighting style was extremely experienced. When he released his flying axe territory, he used his territory advantage to suppress Lin Yi in all directions.

Unfortunately, even though they were two levels apart, Lin Yi had two perfect domains in his hands, and his domain was no weaker than his.

Moreover, the edgeless territory's method of unleashing was not ordinary at all. All the territory power existed only as a one-time fuel, only to lay the foundation for the final burst of power. Ordinary territory suppression would not have any effect at all.

Pfft!

BI kun didn't even have the chance to make a sound. A dignified peak of the middle stage of the great circle of heaven breaking realm was directly crushed into a pile of meat paste under the horrified gazes of the reserve team experts.

The entire place was dead silent.

No one was surprised that Lin Yi could jump two levels and kill BI kun. If he didn't even have this bit of ability, du wuhui wouldn't be so nervous. But this was an instant kill!

It was already scary enough to kill someone two levels higher than him, but this guy actually killed him in one move. If they didn't see it with their own eyes, they would definitely think that the person who said this was crazy!

With BI kun's death, Lin Yi immediately targeted the judge, ke Wuxie.

Ke Wuxie was scared out of his wits. He'd only felt this kind of pressure from the old ten seats. Could it be that a freshman like Lin Yi could really match the old ten seats?

Suppressing the absurd thoughts that flashed in his mind, ke Wuxie ordered the elite members of the reserve team to counterattack as he took out the judge's Pen and waved it in the air.

Ink appeared out of thin air and formed a huge word, "sin."

The "sin" word disappeared the moment it appeared and reappeared on Lin Yi's back. It was like a mountain was pressing down on him, making him stumble and unable to stand up.

A crime!

Ke Wuxie didn't dare to slack off. He quickly added another "sin" on Lin Yi's back.

Two crimes!

And that wasn't the end of it-he didn't stop after that, and went on to three, four, and all the way to seven. Lin Yi was almost pressed into the ground, and only then did ke Wuxie stop, panting heavily.

This was his domain, a variant of the water domain, the judgment domain.

Each sin represented a layer of substantial sin. Not only would it make people unable to get up, but the sin would also torture the other party. Whether it was the mind or the body, they could not escape the fatal whip from the eighteen levels of hell.

Many people who fought with him didn't even have a chance to fight back. After being suppressed by the seven deadly sins, they were whipped to death!

And this was also the origin of his title of judge.

At this stage, the dust would have settled already, but ke Wuxie still didn't dare to let his guard down. If Lin Yi recovered and gave him a double-edged sword, he would die a worse death than axe slave BI kun!

As a result, while he trapped Lin Yi with the seven mountains of Seven Sins, he urged the rest of the reserves to attack Lin Yi.

The crowd who had been frightened just now immediately responded.

They didn't have the confidence to go head to head with Lin Yi, but they did have the guts to hit him when he was down, and they were very bold.

All sorts of attacks rained down on Lin Yi, pushing him to the edge of death.

There were nearly sixty elite experts, and many of them were at the middle stage of the heaven crushing complete realm. Each of them could easily step on a person and cause them to be consigned to eternal damnation, not to mention that they had all used their full strength!

At the crucial moment, a group of figures stood firmly in front of Lin Yi, blocking all the attacks!

"Elder Lin, you're not really thinking of taking them all on by yourself, are you?"

Qiu sanniang stood in front of Lin Yi and smiled, "That's not giving us any face at all. It's not easy to fight a battle of ten seats. You can't just be a bystander the whole time, right?"

"Go easy on them, I'm still planning to take these people in."

Lin Yi said quickly. The reason he didn't attack the reserve team was because he wanted to take them in, other than that.

If the newborn Alliance wanted to grow, it would definitely need to bring in more new blood.

However, if he directly poached a group of experts above the middle stage of the great circle of heaven crushing, although it would not be difficult to do so with his current reputation, in the long run, it would cause the balance within the newborn Alliance to be broken, which was definitely not a good thing.

On the other hand, the reserve team that du wuhui had carefully nurtured, whether it was in terms of numbers or strength, including future development potential, was basically the same as the current rookie Alliance. Both sides had formed a balance, and it could be said that they were a perfect supplement made in heaven.

"I know,"

Qiu sanniang replied with a smile, but she did not hold back at all. With a single kick, she was sent flying into the ground.

Lin Yi didn't say anything. Even if he wanted to take them in, he had to beat them into submission first.

At the same time, Wei baizhan, Yan Zhongyuan, Bao shaoyou, and the others had already tacitly launched a counterattack against the enemy camp after surviving the first wave of bombardment.

Chapter 9582

Although they were only experts at the peak of the early stage of the heaven crushing completion, once this group of animals took the lead and rushed forward, they were actually able to face the group of middle stage experts on the other side. It was like a sharp knife stabbing into the hinterlands, and they couldn't be stopped.

In the blink of an eye, the offensive and defensive positions of both sides were reversed, and the morale of the rebirth Alliance soared!

Ke Wuxie's jaw dropped. Lin Yi wasn't the only one who was a pervert. These people were all perverts!

Before this, whether it was him or du wuhui, they all believed that the reserve team's overall strength was far above the newborn Alliance 's. The only variable was Lin Yi.

But from the looks of it, even without Lin Yi, the reserve team wouldn't be able to stop these wolves.

Just as ke Wuxie was about to use a big move to stabilize the situation, Lin Yi's voice came from behind him, ""The gift you gave me just now was very interesting. Now, it's my turn to return the favor, right?"

“.....”

Ke Wuxie turned around in shock to see Lin Yi walking towards him with the devouring sword in his hand. He didn't know when Lin Yi had gotten rid of the mountain of Seven Sins.

Was he still human?

The seven deadly sins were his trump card. Even the other core officers of the same level as him would not be able to escape easily once they were suppressed. Those were the top elites among the powerhouses at the peak of the middle stage of the consummate level.

According to his expectations, even if Lin Yi managed to break free in the end, he would have to pay a huge price—at least a layer of skin would be shed.

This was because the seven deadly sins were not just seven mountains that pressed down on the physical body. The key was the pressure on the primordial spirit. It was pervasive and would deeply nest with the primordial spirit. Unless Ke Wuxie himself made a move, it was theoretically impossible to undo it with any other means.

The only outcome would be that the pressure would become deeper and deeper until the primordial spirit could no longer bear it. After suffering all the suffering, it would collapse bit by bit until it completely fell apart.

Soul judgment!

This was the true meaning behind the seven deadly sins.

He didn't think that Lin Yi would be able to get away from him in just a few breaths.

Most importantly, there was nothing strange about it. There was no sign of his primordial spirit being injured at all!

"Could it be a clone?"

Ke Wuxie immediately reacted. He had absolute confidence in his Seven Deadly Sins. Unless it was interrupted before he could make a move, it was impossible for the attack to not leave a trace.

Not even du wuhui!

The only logical explanation was that it wasn't Lin Yi himself in front of them, but a clone that he had prepared beforehand!

They'd studied how to identify Lin Yi's clones before, and they came to the conclusion that other than attacking directly, the other important indicator was whether or not he had the demonic blade.

Normally, Lin Yi would be the one who attacked!

However, although the person in front of him was carrying a sword, it was very likely that he was doing the opposite. After all, it was not difficult to get a few swords that looked exactly like the demonic devour sword.

Ke Wuxie immediately believed it after he understood. This was definitely the other party's plot against him!

He spread out his spirit sense and found a weak presence at the edge of the chaotic battlefield. Ke Wuxie was overjoyed. This was Lin Yi's real body.

If he hadn't been careful, if his spiritual sense wasn't outstanding, he might have really fallen for it in this chaotic situation!

But now, since he had seen through the other party's tricks, he could do the opposite.

Ke Wuxie pretended to panic and ran as soon as he saw Lin Yi, using all his strength to go wherever there were more people. There were even a few times when he was almost injured by the Masters of his own reserve team. He was in a panic.

It seemed like he was running away without a plan, but he'd actually gotten close to Lin Yi's real body.

Lin Yi's true body was being tortured by the seven deadly sins, and his essence spirit was under a lot of pressure. On top of that, he'd been played at his own game, and it'd be hard for him to detect the real killing intent!

As expected, Lin Yi didn't move at all even when he was fifty meters away. He was still trying to hide his presence, not knowing that he'd been seen through!

"A noob will always be a noob!"

Ke Wuxie rejoiced in his heart. If it was a normal fight, he wouldn't have the confidence to deal with Lin Yi after seeing BI kun's tragic state. He would've been more concerned about how to save his life.

But now, since Lin Yi thought he was smart, it gave him the perfect chance to do it!

The judge's Pen in ke Wuxie's hand seemed to be in a mess as he moved forward, but it was actually following the trajectory of his movement. He wrote a huge word with a radius of fifty meters, and Lin Yi's hiding place was right in the middle of it.

This word was, slash!

As the brush fell and the words were written, an unprecedented killing intent soared into the sky.

Not only was ke Wuxie's judgment domain powerful, but the killing intent of the nearly 200 Almighties at the consummate level had also been drawn in and absorbed into the 'slash' word!

The majestic killing intent condensed at a speed that was visible to the naked eye. With every bit that condensed, the "slash" word became more ferocious and terrifying. It gradually turned into a huge guillotine.

Lin Yi was right under the guillotine.

Lin Yi, who was focused on dispelling the seven Sins, finally realized what was going on, but it was too late. The blade was already in place, and the energy was locked on. With the seven Sins "interference, Lin Yi couldn't even escape, let alone fight back.

The guillotine blade whizzed down, and the huge Qi field it set off caused the entire battlefield to fall silent!

Lin Yi still couldn't get away from it.

"Behead!"

Ke Wuxie shouted proudly. Once the slash was completed, Lin Yi would die for sure. He really didn't think that he would be the one to take the credit for killing Lin Yi. It was fate!

Even the heavens were paving the way for him, the judge!

The reserve team Masters were excited, while the freshmen couldn't help but worry. They didn't believe that Lin Yi would die so easily, but the momentum of the guillotine blade was too terrifying. It was even a little close to Ji Chi and Han Qi.

Even Lin Yi couldn't block such a terrifying attack-there was no hope at all!

The blade landed.

The entire place was dead silent.

Ke Wuxie couldn't help but be overjoyed. To be honest, he was still worried that Lin Yi would turn the tables on him again. Fortunately, he didn't.

Then, the decapitated Lin Yi in front of him disappeared without a trace.

"A clone?!"

Ke Wuxie's jaw dropped. He'd checked Lin Yi's body multiple times before, how could this be a clone?

If this was a clone, then what was this pretentious one that had been following behind him?

A chill ran up his spine from the soles of his feet.

Ke Wuxie turned his head around stiffly and realized that the "clone" that he thought he was using to confuse him was less than ten meters away from him.

To a Big Shot at the realm of perfection, a distance of ten meters was basically the same as having a knife at his neck.

Chapter 9583

Escape!

Ke Wuxie's strong survival instinct was triggered by the immense fear. The range of her punishment domain shrunk rapidly to increase its strength to the extreme for self-protection.

However, it was too late.

A primordial spirit seed had quietly slipped into his sea of consciousness and then exploded with a bang. Ke Wuxie's entire body went blank on the spot.

Divine sense explosion!

Lin Yi swung his sword and easily took away the man's head.

The atmosphere froze. Seeing the newcomer King casually kill two of their core members, the reserve team experts swallowed their saliva. They didn't know what to do.

Turn around and run?

Even if they were lucky enough to escape, they would still die a more miserable death than ke Wuxie and the other man if du wuhui pursued them after they became deserters.

Du wuhui had spent so many resources on them. The biggest requirement he had was loyalty, and what he hated the most was betrayal.

Deserters were naturally considered betrayals.

But to fight?

Putting aside the fact that the rookies Alliance were unbelievably strong, just the fact that their two strongest big shots at the peak of the middle stage of perfection were killed by Lin Yi like chickens was enough to crush their will to fight.

After all, even those two were killed in seconds. If it were them, they would only be more agile.

What they didn't know was that Lin Yi's battle record was impressive, but it wasn't as easy as they thought.

Especially when he was dealing with judge ke Wuxie. If he had not used a reverse trick to lure the other party into the trap, causing the other party to reveal a huge flaw in the final moment of joy and fear, his spiritual sense explosion might not have succeeded so easily.

If they were to fight head on, Lin Yi could still win with his current strength, but he would have to pay a price. It wouldn't be that easy.

But no matter what, with the successive deaths of Bi kun and ke Wuxie, the morale of the reserve team had fallen to the bottom.

Even if there were still a few of du wuhui's loyal Reserve Officers who were encouraging everyone, the power of a role model was endless. There was great Terror between life and death. In the face of death, anyone would instinctively choose to be a little cowardly, including a Big Shot's consummate level expert.

Ka!

Another Reserve Officer who had been shouting was pressed to the ground by Wei baizhan with one hand. After a bloody and cruel guillotine attack, his neck was broken in front of everyone.

They were all collectively emitting cold air.

"I told you to go easy on him. What if he's willing to change sides? why are you being so cruel?" Lin Yi frowned.

"Yes, yes, boss, you're right. I'll reflect on it!"

Wei baizhan immediately put on a fawning expression, which stunned the crowd.

However, as soon as he turned around, he saw that the reserve team master's face immediately turned ferocious again. Combined with the warm body at his feet, it really made people shudder.

Lin Yi's expression was calm. "On behalf of the rebirth Alliance, I welcome all of you to join us."

"....."

The experts from the reserve team were all speechless.

Welcome? the death of two core officers was indeed a huge blow to their morale, but strictly speaking, they still had the overall advantage in the current situation. Even if the odds of winning were not high, it was far from the time to kneel down and take them in.

However, at this moment, Wei baizhan, Yan Zhongyuan, Bao shaoyou, Qiu sanniang, and the others had quietly led their troops to surround the area, each eyeing covetously.

If they chose to break out of the encirclement with all their strength, there was a good chance that they would succeed, but how many people would die in the process?

The most important thing was, who could guarantee that they would live to the end? who could guarantee that they would not be the one being sacrificed?

"Let's get this straight. The newborn Alliance doesn't accept trash. I only want 50 people."

Lin Yi's words pierced through the reserve team's last line of defense.

"I'm in!"

With the first one taking the lead, the second and third naturally followed. The nature of humans 'blind obedience was vividly displayed at this moment. Even this group of big shots at the consummate level seemed to have lost the ability to think independently at this moment.

No one realized that the first one was actually a spy that Lin Yi had bribed.

Or rather, even if some people with discerning eyes found out, they would not reveal it.

Because there were no benefits, it was better to push the boat along with the current.

With the surrender of the reserve team's experts, the battle outside the little Dragon Bay could be considered to have come to an end. Other than Ji Chi, who was currently locked in a fierce battle with Hanqi, du wuhui's only remaining bargaining chip was the group of experts from his own division.

Even so, the combat power of his men was not to be underestimated.

However, with the destruction of the eagle and wolf guards, half of the core officers had been killed, and the reserve team had been taken in, the current du wuhui's group had been weakened to an unprecedented limit.

To be honest, even du wuhui's team from the time when it was just created was stronger than this remaining lineup!

"What's left is the crucial final battle. Are you confident?"

Qiu sanniang turned to Lin Yi as she ordered the freshmen Alliance to gather.

Don't look at how he had taken all the advantages and seemed to have an unlimited advantage. If he couldn't gnaw du wuhui in the end, then all the battle results he had now would be a castle in the air. At best, it would be a beautiful illusion.

They could achieve their current results by relying on all kinds of carefully planned tricks and counter-tricks. Except for the huge accident of Ji Chi, every step was almost perfect, which was how they could turn the tables.

To put it bluntly, Lin Yi and the others didn't get to this point with absolute strength, but with layers of schemes.

There were times when schemes succeeded, and there were times when they failed.

Du wuhui and his group of people weren't fools. After suffering such a huge loss, they definitely wouldn't leave behind any more opportunities.

If Lin Yi wanted to take them down, the only way was to fight to the death and fight a real battle!

"We've already come this far. Even if we're not confident, we still have to be confident. If we can't take down du laoju today, our days will be hard. "

Lin Yi smiled faintly as he looked at the shocking battle.

Another huge variable in this battle was Han Qi and Ji Chi. If Han Qi won, everything would be fine, but if he lost, the situation would be difficult to predict.

At that time, even if he could successfully beat du wuhui, whether he could walk out of the secret realm of the small dragon Cave alive was still a huge unknown.

However, this was a battle that Han Qi had been preparing for a long time, and Lin Yi had no reason to interfere.

Moreover, with his current strength, he did not really have the qualifications to interfere. If he was not careful, he might really become cannon fodder.

At this moment, in the little Dragon Bay.

Du wuhui's remaining core members had already brought some people and turned the little Dragon Bay upside down.

Even with the perfect cover of Shen Yifan's illusionary technique, it was impossible for him to hide his tracks flawlessly under such a frenzied search.

Chapter 9584 The End

In the end, he was only an expert at the peak of the early stage of the consummate level of a Big Shot. His cultivation level was too low.

Otherwise, if he was a few more levels higher, with the abilities he'd show, he might not even need Lin Yi's help to turn du wuhui's group around.

"Here!"

Following a loud roar from a core member with a beast's face and a human's body, the supposedly flawless flowergazing in the fog finally revealed a flaw. Shen Yifan's thin figure came into everyone's view, and he was immediately surrounded by people.

"It seems like I've underestimated you guys," Shen Yifan said with a bitter smile.

"You're not underestimating us, you're overestimating yourself. "

Du wuhui's gaze was as cold as a knife as he stared at him, ""However, to be able to cause such a huge loss to me by yourself, you can be considered to have died a worthy death."

"I'm really curious," Bai Yuxuan asked, " how did a mere Lin Yi make someone like you so loyal?"

"Dead set on you?"

Shen Yifan laughed. "We're brothers from the same dormitory. Is this reason enough?"

Du wuhui snorted, "F * ck your brothers!" Just because you two live in the same dormitory, you've become brothers who can live through life and death together. Don't you think it's ridiculous to say such stupid things from your mouth?"

"Lin Yi's an ambitious man-you see him as a brother, but he doesn't necessarily see you as a brother. You might just be a useful chess piece in his eyes, there's no need to lie to yourself, right?"

Bai Yuxuan sneered.

Shen Yifan didn't refute him. He just smiled indifferently. "Hehe, if you don't get along, half a sentence is too much. Those who understand will understand, and those who don't will never understand."

"....."

At this moment, du wuhui was looking at him as if he was looking at a fool. Such a heaven's pride expert was actually willing to become a chess piece in someone else's hands just because of such a ridiculous thought.

The key was that at least half of his huge losses in this battle had to be attributed to this naive fool. Just thinking about it made him so depressed that he wanted to vomit blood.

"Fine. As a dying man, it might make you feel better to die with such an obsession. Self-deception can be quite useful sometimes."

Du wuhui couldn't be bothered to continue wasting his breath. In the end, he sneered, ""It's a pity that the brother you mentioned left you here to die, while he's living a carefree life outside,"

Shen Yifan's lips curled up when he heard this.

At the same time, Lin Yi's voice came from behind, ""Who said that?"

Everyone was shocked.

Du wuhui looked at Lin Yi who appeared behind him, stunned. If he were Lin Yi, he'd definitely hold on to the advantage and drag it out until the closing of the secret realm.

That way, although they wouldn't be able to obtain a substantial victory, they wouldn't be able to snatch the ninth seat from his hands either. It would only be a tie in name.

But the ten-seat tournament was a big event, and who said that it was just for one winner? as long as he could carry the advantage to the end, it was a victory to Lin Yi.

At that time, although Lin Yi would still be the 10th newcomer King, his reputation would be on the same level as the other nine ironclad seats. He might even be above du wuhui, the real ninth!

Reputation was illusory, but in many cases, illusory things were more useful than reality.

"Don't tell me he's just using an illusion or something to put on a show?"

Du wuhui didn't believe that Lin Yi would be this stupid, and he threw out a vacuum shield.

In the end, Lin Yi's sword slashed out, and the vacuum shield was crushed by the great force of the edgeless duo as soon as it was formed. After a few tests, he had some ideas on how to deal with du wuhui's moves.

Du wuhui was shocked.

He wasn't shocked that Lin Yi was able to block his vacuum shield-if Lin Yi couldn't even do something like that, he wouldn't even have the right to jump in front of him. He was shocked that Lin Yi actually dared to appear here!

As long as he stayed put, he would win the next round without doing anything, so why did he come back to die?

"So that's how it is! You're just like Shen Yifan, you've never left this place. If I'm not wrong, your original plan was to keep hiding under our eyes until the secret realm closes!"

Bai Yuxuan suddenly realized and laughed. "It's a pity that the plan went wrong. You've overestimated your ability to hide. Otherwise, you would've continued to hide as long as there was a chance. "

No one would take the initiative to court death unless they were forced into a corner.

This was human nature.

"Do you guys really think so?"

Lin Yi looked at her strangely. The difference between humans was bigger than a dog. Some logic was really hard to understand.

Du wuhui sneered, "if you didn't show up because you had no other choice, could it be that you took the initiative to show up to save Shen Yifan?" Do you even believe your own stupid words? Or is it that your true body has been outside the whole time, and you've come back to fight me?"

The last sentence was purely mocking.

Lin Yi nodded seriously, "That's right, that's what I was thinking. "

Du wuhui and the others were speechless.

Come back for the F * cking battle?!

Don't you know your own worth?

Was this guy really too stupid, or did he just rely on his little cleverness to earn a little bit of profit and then become arrogant?

"Don't misunderstand, everyone. I've tailored so many tricks for you just to reduce unnecessary losses. I'm not afraid of you, so I'm using crooked ways."

Lin Yi's words were met with a bunch of eye-rolls.

However, he didn't mind. He didn't intend to make the other party understand his words. He smiled indifferently and said, "If I didn't trample you in a one-on-one battle this time, I'm afraid you wouldn't be convinced, and many people wouldn't be convinced either."

"I'm convinced!"

Du wuhui sneered and immediately signaled for everyone to take action.

According to normal logic, he should've killed Lin Yi one on one in front of everyone to protect his reputation as the boss. But that wasn't his style.

Since there was a safer way to kill his opponent, why should he take the risk?

They had spent a huge amount of resources to raise so many capable subordinates, and they were not just there to watch a show.

However, before they could do anything, one figure after another fell from above and landed beside Lin Yi.

Wei baizhan, Yan Zhongyuan, Bao shaoyou, Qiu sanniang ...

Apart from the missing Ying long, all the core members of the newborn Alliance were present.

It was obvious that they had all jumped down from the cliff. Looking at the faces of these new students, du wuhui's subordinates couldn't help but have a subtle expression.

The appearance of these new students strongly supported Lin Yi's theory.

Lin Yi wasn't like Shen Yifan, who had been hiding in this place with his real body. He had come back from the outside world to fight du wuhui to the death!

"Very good. I admire your courage, but I admire your stupidity even more!"

Du wuhui was simply overjoyed.

He'd already lost so much that he'd be left with nothing but his underwear, and he didn't expect the opponent to come at him with a card game. He couldn't think of any other word to describe Lin Yi other than "stupid."

Chapter 9585

Most importantly, only the backbone of the newborn Alliance had come, not the entire strength of the newborn Alliance!

Although the strength of those ordinary freshmen didn't catch his eye from the beginning to the end, with such a group of cannon fodder, he could make good use of them to create some trouble for them. It was far better than these few lonely so-called backbone.

In this situation, Lin Yi was the one who peeled his own skin and put it in his mouth. For a moment, he even suspected that Lin Yi was drugged.

"Since that's the case, why don't you play with this stupid person?"

Lin Yi gave Shen Yifan a look, and the latter understood and clapped his hands.

Immediately after, a bewildered fog rapidly enveloped everyone present. Du wuhui and the others were shocked and immediately wanted to use force to break out of this situation.

They didn't know what effect the mist had, but they knew it was definitely not a good thing.

Shen Yifan was only a Big Shot at the peak of the early stage of the complete realm, but after everything that had happened, the psychological shadow he left on everyone was no less than Lin Yi himself.

Du wuhui waved his hand, and a gust of wind blew past. In the blink of an eye, the fog was cleared.

However, before everyone could catch their breath, the fog came back again in the blink of an eye, and it was even thicker than before. Combined with the natural fishy smell of the little Dragon Bay, there was a faint posture of depriving the five senses.

Everyone couldn't help but increase the intensity of their actions. However, every time the fog was cleared, it would immediately appear again in the blink of an eye, and it was getting more and more intense!

"Everyone, don't panic!"

Bai Yuxuan, who was also a mist element domain master, finally understood. ""This is bewilderment fog, a type of high-level illusion. It's produced from our thoughts. The greater our reaction, the stronger its existence and the more terrifying the negative effects."

"Then we'll just let it continue to exist?" du wuhui frowned.

With Shen Yifan's realm and strength, if it was only the bewilderment fog itself, it would probably have a very difficult time affecting them. If he said that he could ignore it, then so be it.

But now, with the little Dragon Bay's geographical advantage, he was about to close off his five senses, so how could he really ignore it?

Once their five senses were deprived and their primordial spirits were suppressed in all aspects, they would only become targets no matter how strong they were. At that time, the difference in strength between the two sides would be quickly narrowed, and they would really not be far from being capsized!

"Give me the time it takes for an incense stick to burn, I'll break it!"

Bai Yuxuan asked in a low voice.

However, just as he finished speaking, a talisman arrow silently swept through the fog and landed directly behind him.

As an expert who was second only to du wuhui, Bai Yuxuan's reaction was extremely fast. Even though his opponent's concealment was flawless, he still managed to Dodge it at the last moment.

Bai Yuxuan dodged it, but the others couldn't. At the same time, a talisman arrow appeared behind each of them.

Then, one by one, they disappeared from everyone's sight.

"A duel symbol? What a big move!"

Bai Yuxuan finally had a clear look at the talisman arrow. It turned out to be a black rank third grade dueling talisman!

The duel amulet, as its name suggested, was a high-level array amulet that forced both parties into a duel. To a certain extent, it was actually the result of the combination of a Space Array amulet and an illusion array amulet.

Once affected by the talisman's power, both parties would have a strong urge to fight. This urge could not be shifted by will at all. It would only subside after it was released. This was fair to both parties affected.

At the same time, both parties would be transported to a temporary space in the talisman. Unless the power of the talisman dissipated, or if one had the strength to break through the spatial barrier, they could only be trapped in the space and fight. There was no other choice.

One could imagine the value of such a talisman.

If it weren't for the fact that Lin Yi could make them himself and had the high-class workshop, the talisman society, under his command-with a bunch of high-level talisman makers helping him out at any time-it would be unimaginable how he could make so many Mystic third level dueling talismans.

Converting them into academic credits or spiritual jades would empty out his entire fortune in minutes.

In just a short while, du wuhui's remaining core officers had all been transferred away. Other than Bai Yuxuan, there were still some men left, but they couldn't use much of their combat power under the interference of the fog. Lin Yi could just release a few clones and it would be enough for them to play for a while.

"Soldier against soldier, general against general."

Shen Yifan looked at Bai Yuxuan and said with a smile, ""Master Bai, let's give them the battlefield here. Let's go to the side and have a chat?"

Bai Yuxuan and du wuhui looked at each other, and when the latter nodded, Bai Yuxuan laughed heartily."Then let's have a chat."

The mist flashed and both of them disappeared into the mist. This was a battle between mist element Domain Realm Masters. No one else had the chance to interfere.

The situation had developed to this point, and it was already very clear.

No matter how much they had schemed against each other before, no matter who had won or lost, this battle of the ten seats had reached its final stage. Whoever won the final direct confrontation would have the last laugh.

"You're using my executives to let you freshmen practice? Hehe, it's rare to see someone so eager to deliver food. I said you were stupid, but you really gave me face. "

Du wuhui slowly released his domain. His face was filled with contempt, but in reality, he was extremely cautious.

He was just a Big Shot at the peak of the early stage of complete realm, but he felt a great pressure from him, a Big Shot at the peak of the late stage of complete realm. He had to admit that Lin Yi's existence had subverted his understanding of Lin Yi.

However, he was still stupid.

The core officers under him were all Giants at the peak of the middle stage of the consummate level. They were two whole realms higher than the freshmen!

Anyone who could challenge someone of a higher level was already a rare genius. Although this year's freshmen were praised as an unprecedented golden generation with geniuses gathered, they were only at this level.

Challenging someone two levels higher?

Even Lin Yi himself had trouble fighting Shen Junyan before he had his double perfect domains, let alone the other freshmen!

"Don't be so sure, what if it works?"

Lin Yi was quite confident in Qiu sanniang and the others-Wei baizhan, Yan Zhongyuan, and Bao shaoyou were probably the new generation Kings in the other years, and challenging someone two levels above them was as easy as eating and drinking to them.

As for Qiu sanniang and the others, they were weaker, but they had a solid foundation. Lin Yi even prepared a bunch of high-grade talismans for them this time, making up for the difference.

In this way, the risk was not small, but it was not to the point where it was completely unbearable.

The key was that if they could take down this battle head-on, everyone who survived would definitely be reborn. At that time, the entire newborn Alliance's combat strength would welcome a crucial transformation!

And this was directly related to the fate of everyone in the future. The danger was right in front of them, and Lin Yi had to take the risk.

Chapter 9586

"Idiot."

Du wuhui used a vulgar word that came from the common world. He raised his hand and used a vacuum cover to lock Lin Yi. His attack was so sudden that Lin Yi couldn't avoid it even if he was mentally prepared.

It was obvious that this was the real way to open the vacuum cover.

If he had just drifted over like before, it was purely a kind of mental paralysis and probing, and it would not have any substantial effect on a true expert.

This move looked extremely unremarkable and did not have any power to destroy the world. At first glance, it gave people the feeling that it was just a probing starting move. However, in reality, it was an absolutely fatal shackle. Even existences as strong as the ten Chiefs could not ignore it.

Once the vacuum cover was locked on, it would follow him like a shadow. It would be like adding a deep curse of continuous blood loss. Unless du wuhui was defeated, he could only suffocate step by step until he died!

Bang! Bang!

Lin Yi's entire body disappeared in the vacuum, and using his clones to Dodge was the only effective way to deal with the vacuum.

Du wuhui's eyelids twitched. He'd expected this, but he'd been trying his best to lock onto Lin Yi's body since the beginning, and he'd made sure not to reveal a single trace of himself while creating the vacuum shield. In theory, everything was safe.

In the end, he still failed.

"This kid really has his own way of using his clones!"

Even as an enemy, du wuhui couldn't help but praise Lin Yi in his heart. If Lin Yi continued to grow like this, he would be the next clone King, and his clone skills might even be above Tian si 's!

The vacuum shield missed, and du wuhui's body revealed a slight flaw. It was just a very short moment of weak stiffness, but Lin Yi had already locked onto him!

Lin Yi appeared behind him, and a spiritual seed took advantage of his weak moment to invade his sea of consciousness, and then exploded.

Divine sense explosion!

Ever since he came to the earth-class Sea area, he'd used the huge advantage of his essence spirit-whether it was spirit sense collision, spirit sense shock, or even the spirit sense explosion he'd developed now, Lin Yi had tried and tested it out time and time again.

No matter if it was someone of the same level or someone of a higher level, Lin Yi's move always won!

However, when it was used on du wuhui, it was like throwing a stone into the sea!

Not only was it ineffective, du wuhui turned around and sent a slap over, accompanied by a peak level territory power. Even Lin Yi's double perfect territory protection couldn't block it.

His domain's protection was instantly penetrated, and the unique wind pressure of the wind element domain blasted on his body, breaking his defense on the spot!

Lin Yi spat out a mouthful of blood.

And this was only because his physical body was strong enough. If it was any other freshman in the same grade, they would have been turned into meat paste by the wind pressure of this palm!

Du wuhui chuckled as he looked at Lin Yi's surprised expression, "Are you surprised? Do you think that you can deal with me by relying on your little tricks of playing with your divine sense? There's a limit to your naivety, Mr. Newcomer King. "

"An anti-divine sense restriction, this is quite the effort."

Lin Yi reacted immediately.

The instant the spiritual seed exploded, he clearly felt an invisible barrier of Power Wrap around it and absorb all the impact of the spiritual sense explosion!

When he had been looking up the stolen Bell technique a while ago, he had just happened to see an introduction in this area, anti-spiritual sense restriction!

It was said that once a prohibition spell was planted, it would be able to absorb all spiritual sense damage within its effective period. Although it also had a huge drawback of limiting one's spiritual sense, but considering the current environment of the little Dragon Bay, this drawback was almost negligible.

"Otherwise, do you think I would enter the little Dragon Bay so easily? Do you really think I'm stupid?"

Du wuhui sneered.

It was undeniable that he had suffered a great loss in the previous exchanges, but that was not because he had underestimated his opponent, nor was it because he was not prepared enough, but because the points of power of both sides were not on the same level.

Standing on Lin Yi's side, because of the difference in strength between the two sides, they had to think of a way to take down du wuhui's soldiers before they could seek the final battle.

On the other hand, du wuhui only had one target to target from the start, and that was Lin Yi.

As long as he could get rid of Lin Yi, he didn't need to do anything else. From the beginning to the end, all his preparations were for Lin Yi.

The anti-spirit sense restriction was only the first step!

There were still all kinds of indefensible means left. As a powerhouse at the late stage of the consummate level who stood at the top of the Academy, he had to go through so much trouble to deal with a mere powerhouse at the peak of the early stage of the consummate level. It was enough to show his fierce and ambitious nature that was difficult to deal with!

"We'll know once we finish the fight. "

Lin Yi switched to a edgeless duo combo-it was a backup plan for the spirit sense blast, but now that it was ineffective, he had no choice but to take it head on.

Du wuhui, however, didn't care about it. Instead, he revealed a disappointed expression."Just this?"

Layers of walls of air appeared, and although the crushing force of the edgeless duo's chiming in from all directions caused the air walls to explode layer by layer, the problem was that the speed of the air walls exploding was faster than the speed of the explosions. The distance between them was less than ten meters, but it seemed endless.

In the blink of an eye, the might of the edgeless duo was completely exhausted. Although it was still closing in on du wuhui in the end, it was no longer a threat.

"Your heart is cold, right?"

Bai Yuxuan, who was watching the scene through the mist, looked at Shen Yifan, who had a grave expression on his face, and felt a little pleased.

Shen Yifan was completely focused on resisting the pressure of his high-level domain and did not make a sound.

So far, Shen Yifan had made the greatest contribution to the battle of the ten seats, but he was also under the greatest pressure among all the core members.

There was no other reason. Bai Yuxuan's strength far exceeded the other officers under du wuhui. He was the same as du wuhui, a true Big Shot in the late stage of the consummate level!

Even if he couldn't use his full strength due to his old injuries, he was still not someone Shen Yifan could fight head-on.

After all, not everyone was a beast like Lin Yi.

"No matter how much you've been scheming to earn, it's only a small part and can't affect the big picture."

Bai Yuxuan remained calm and composed, showing no intention of killing them immediately. "What is the overall situation? Lin Yi and 9th master, they're the big picture. As long as we can win this match, we'll be invincible, don't you think?"

"You've suffered such a loss, yet you're still standing on the winning side?"

Shen Yifan relied on the strong wind to blow away the mist that the other party had sent over. He could finally catch his breath.

He was a wind and mist element dual domain master, so he had a significant advantage over Bai Yuxuan, who was a mist element domain master.

Otherwise, he wouldn't even have the qualifications to delay the other party.

Bai Yuxuan's face darkened. "No matter how difficult the situation is, it's better than a dead end. You'd better take care of yourself first."

"Hehe."

Shen Yifan looked calm on the surface, but he was actually worried for Lin Yi. It was easy to talk to his own people, but it seemed like the other party was putting all their focus on Lin Yi.

Chapter 9587

A veteran of the top ten powers had started to target a single person from all directions, especially when that person was a freshman. Just thinking about it made one shiver.

Just like now, Lin Yi realized that his strongest single-target attack was useless.

The key point was that the other party had even resolved it so easily, giving people the feeling that he had not even used much strength, as if this all-out edgeless duet was simply a useless move that did not hurt.

"You actually found someone to simulate my moves. You've really put in a lot of effort."

Thinking back to the timing and timing when the air wall appeared, Lin Yi understood immediately that the opponent had practiced it before, and it was very detailed, to be able to control the rhythm to such an exquisite peak.

Du wuhui looked at him with a smile that wasn't a smile, ""Have you heard of the new student wall?"

"New student wall?"

Lin Yi couldn't help but feel weird-the term sounded familiar. Was it another word from the common world?

Du wuhui tried to throw out the vacuum cover as he tried to distract Lin Yi.

"Every newcomer King will shine brilliantly during their freshman period. Every time, there will always be someone who is praised by the public, and they would want to wear the eternal Halo. However, once they leave the freshman period, they will immediately become ordinary. Why is that?"

"Oh?" Lin Yi raised a brow, "you're not going to say that it's because you're being targeted too little, are you?"

"Smart!"

Du wuhui's face revealed a look of admiration, but it was merely a look of admiration from a superior position. ""The freshmen are a bunch of rookies pecking at each other, so no one will really spend any effort to target you. That's why you're able to mix in with the excitement on the surface. But once you pass the freshman stage, when it involves a truly fundamental struggle for benefits, you'll immediately return to your original state, because your little tricks have long been seen through by others."

He was saying this to Lin Yi, but it was his own thoughts.

Back then, he was also the high-spirited rookie King. As soon as the freshman period ended, he immediately issued a ten-seat battle with great ambition. The result was that he was taught a lesson.

If it wasn't for his strong will and ten years of seclusion, there wouldn't be du wuhui today. No one would have cared about him.

The title of newcomer King was a consumable. Once it passed its expiration date, it was nothing.

"In that case, I've still jumped too early. If I had started the ten-seat battle later, would I have been able to enjoy my glory for a while longer?"

As Lin Yi spoke, he tried to use two more edgeless duozhongs, but they were both perfectly defended.

It could be seen that his opponent had really studied this move!

"If only you were so wise earlier, why bother now that you've fallen to this point?"

Du wuhui's words were sincere, but his attacks were fiercer and fiercer. Although he was still using the old vacuum cover technique, after a short period of adaptation in actual combat, it was getting closer and closer to Lin Yi's real body.

The doppelganger's cover was getting weaker and weaker, and Lin Yi was in a dangerous situation.

The explosion of his consciousness was ineffective, and the edgeless duo was ineffective. He still had other tricks up his sleeve, but there were only a few that could truly threaten someone of his level.

In fact, Lin Yi didn't even dare to use any normal moves at this time-it would expose his weakness and kill him even faster!

The only thing he could rely on now was the annihilation domain.

However, when it came to killing moves that could directly threaten his life, du wuhui would only target them even more. From the beginning to the end, he was trying his best to suppress the number of clones Lin Yi could create.

And it was obvious that they had been specially rehearsed, and their efficiency was extremely high!

As long as the number of doppelgangers could not be increased, the annihilation domain would be like water without a source. Even if a few of the doppelgangers could successfully self-destruct, they would not pose a fundamental threat.

One sentence, and Lin Yi was targeted to death!

In du wuhui's eyes, every movement he made was just a futile struggle. He was like a pitiful worm that was about to drown, unable to even grab a life-saving straw.

Pfft! Pfft! Pfft!

A series of high-pressure wind blades sliced through Lin Yi's body, leaving him with a thousand holes. Although he had the healing ability of spring, the scene was still shocking.

"In order to avoid my vacuum cover, you're willing to take the high-pressure wind blades head-on?"

Du wuhui revealed a bit of surprise. "You're quite ruthless to yourself. However, I'm very curious. How many can you eat?"

No matter how strong the self-healing ability was, there would be a time when it would collapse. Did he really think that he could surpass his damage output by relying on a withered tree revived in spring? what was he thinking?

As he spoke, he activated his high-level wind element domain, and tens of thousands of high-pressure wind blades formed in all directions, all targeting Lin Yi!

It was a super-strong meat grinder-Lin Yi would be cut into pieces the moment it landed.

Not to mention self-healing, there might not even be a complete piece of flesh left.

During the process, Lin Yi created a wave of clones to try to fight back, but they crumbled in the face of these high-pressure wind blades. They were not on the same level!

"If you can take this wave, the next wave will be even bigger. We'll take it slow."

A cruel smile hung on du wuhui's face. If one were to ask who understood Lin Yi the most in the school, he would be the only one with the correct answer.

After all, with the power of a veteran of the top ten, when he went all out to dig out information about someone, the level of detail was unimaginable to ordinary people.

He could even calculate the exact time Lin Yi arrived at the earth Class Sea area!

This time, Lin Yi's "spring comes from a dead tree" was starting to lose its effect.

Even though he had tried his best to avoid as many high-pressure wind blades as possible, his body was still cut into pieces. It had already exceeded the self-healing limit of the withered tree revived in spring!

A layer of cloud of life quietly dispersed.

This was Lin Yi's last resort to increase his recovery rate. He'd planted quite a number of Life Seeds when he dodged the attacks, and if everything went well, he'd be able to fill in the gap that exceeded his normal recovery rate.

"The clouds of life? You're using this move in front of me? Are you serious?"

Du wuhui suddenly had an expression of not knowing whether to laugh or cry, ""Shen Junyan is my subordinate in name. You're trying to use his lousy abilities to deal with me?"

With a turn of his hand, the high-pressure wind blades all transformed into even finer wind blades. At first glance, they looked like a layer of dense black lines, cutting all the life Seeds into pieces on the spot.

Without the life Seed, the cloud of life would naturally dissipate.

"It seems like your boss is really at his wit's end, betting his hopes on such a lousy move. It's really a pity."

Bai Yuxuan was suppressing Shen Yifan, but he felt an inexplicable emptiness in his heart.

It felt as if he had prepared a lot of things, only to find out that the enemy was just a paper tiger. It turned out that everything he had anticipated was just a battle of wits and courage with the air.

The moves that Shen Junyan was so proud of were nothing in the eyes of an expert like him, who had truly stepped into the top of the world.

Chapter 9588

"Aren't you afraid that this is also a trap?"

Shen Yifan's sudden words made Bai Yuxuan's heart skip a beat, but he immediately scoffed. ""Show weakness to the enemy? Hehe, you've already seen all your trump cards, and you call that showing weakness?"

As soon as he finished speaking, Lin Yi's aura changed.

The area of his domain suddenly expanded by more than ten times, from nearly a hundred meters to a thousand meters!

du wuhui's eyelids twitched!

banshi lu's domain doubling technique had been completely disclosed to the public. although it had been jointly blocked by the family forces, there were still bits and pieces of information about it. moreover, with his status, he had the right to obtain the relevant information.

not only him, every one of the ten current chiefs had studied the essence of domain enhancement in depth and were all experts in this field!

"are you surprised?"

lin yi, who was supposed to be in a sorry state, smiled. the tenfold increase in diameter meant that the entire area of the territory had expanded by a hundred times!

this not only meant that he could use more related spiritual energy, but more importantly, it gave him precious strategic depth. this was tantamount to a rebirth for those who were weaker in the domain.

without a strategy, they could only take the domain attack head-on and be beaten.

However, once they had a strategic depth, even if the overall strength of their domain was still not as strong as the other party, at least there would be more space in the tactical level, and at the same time, there would be more variables.

For the weaker party, a variable meant a chance to turn the tables!

"You're so close to Banshi Luo. Did you really think I wouldn't have guessed this?"

Du wuhui looked at Lin Yi as if he was an idiot and shook his head in disappointment, "I thought your final comeback would be some kind of ruthless move. It seems that I've overestimated you."

As he spoke, the area of his domain expanded, and it was even 20 times larger than Lin Yi 's!

In terms of domain amplification, he was far more experienced than Lin Yi!

Despair.

The current situation was enough to make anyone despair. They had gambled all their hopes on the final move, but the other party was fiercer than them. Not only did the gap between them not shrink, but it had also widened by several times!

"How terrifying."

Lin Yi felt the pressure from the other side seriously, and in the next second, the huge domain suddenly shrank back to its original state, where only a thin layer was left.

It was even more unbearable. Even the last layer was not stable. Under the huge pressure, it was on the verge of collapse!

"It seems that in the face of absolute strength, overestimating one's own ability can also be cured. Unfortunately, you can't afford to pay the price. What's the saying again? the life of a maidservant, the heart of a young lady?"

Du Wuhui finally didn't hide his delighted smile. Everything was finally going to be settled. The huge rock that had been pressing on his heart for months could finally be put down.

Then, he saw Lin Yi stumbling over with his sword.

"Since that's the case, I'll send you off."

Dense black lines appeared around his body, all compressed to the extreme, high-pressure wind blades, covering Lin Yi like a giant net, leaving no room for him to move.

Lin Yi's only fate after this was dismembering his body.

However, the strange thing was that the black net formed by the high-pressure wind blades landed on the sword blade at the very front. It didn't turn the demonic devour sword into dregs as du wuhui had expected, and it didn't even leave a gap.

Instead, it just disappeared into thin air.

Du wuhui was stunned.

If it wasn't for the fact that he could clearly feel Lin Yi's violent aura as he pounced on him, he would've suspected that he was under some kind of high level illusionary technique. Everything he did just now was just an illusion in his mind.

"Impossible! That's impossible!"

Du wuhui finally came back to his senses. It wasn't an illusion, so there was only one explanation for what happened-his high-pressure wind blade net was all absorbed by Lin Yi's demonic devour sword!

The key was that this absorption was not deliberately caused. It was purely because the strength of the domain power attached to the demonic devouring sword had exceeded the limits of conventional knowledge. It had formed a miniature black hole, which naturally absorbed all the domain power!

Such a method had already completely exceeded du wuhui's understanding.

He was one of the ten veterans, after all, and he'd heard of all sorts of methods, but Lin Yi's move was completely unheard of!

As soon as this sword was drawn, not only the high-pressure wind blade net, but even the entire domain protection around du wuhui's body was as fragile as paper. It couldn't withstand the slightest bit of damage and broke with a single stab.

Pfft!

Du wuhui looked at the sword blade that was stabbed into his body, and his face was filled with disbelief.

It wasn't that he didn't think about dodging, but at the last moment, he shockingly discovered that it wasn't just the territory power, even his entire body was pulled in by the demonic devouring sword, and there was no way for him to break free.

After all, he was the domain's origin.

"I've just learned this move. It's a little ugly, but please don't take it to heart. "

Lin Yi said apologetically. To be honest, the power of the sword was beyond the level of his previous strength, but it was an ugly scene. That stumbling sword was worse than a child 's.

Du wuhui's pale face turned black from anger. The terrifying power released from the blade of the sword went berserk in his body. His internal organs were instantly churned into a mess. Even an expert of the tenth seat level wouldn't be able to withstand such a heavy injury.

"The moves of a half master?"

du wuhui asked with his last breath.

as one of jianghai university's top ten peerless figures, the semesters not only possessed the widely known ability to amplify their domains, but they were also rumored to possess the ability to go against the flow and turn vastness into strength.

back then, half master had also thought of making it public, but after experiencing the storm of domain doubling, he was forced to change his mind.

the key was that he had entered the prison of his own accord and had never fought with the elite group head-on. naturally, he had never shown such peerless skills in front of the world, so he had become a legend whose authenticity was unknown.

in the legends, this move was called the black hole domain.

he didn't think that he'd experience it from lin yi today!

"you're not skilled enough. "

lin yi nodded.

There was nothing to hide about this, but it was a little hurtful to say it.

Compared to a freak like him who could master both the domain doubling technique and the domain black hole after only talking to a half-master once, a guy like Han Qi who couldn't even learn the domain doubling technique was a complete loser and didn't have the face to live in this world.

"....."

Du wuhui was silent for a moment before he pulled the corners of his mouth with difficulty. ""Since that's the case, I didn't lose unjustly."

He didn't just lose to Lin Yi today, he lost to his half-master as well. After all, to a certain extent, they were already master and disciple. Losing to someone that even the Tian family was afraid of, he was only the ninth seat of the Academy.

Chapter 9589

"You're quite good at finding a way out. "

Lin Yi smiled, but he didn't kick him when he was down. The battle had already ended, and although his opponent had the upper hand from the start, Lin Yi was just playing along to numb his opponent's senses.

In the distance, Bai Yuxuan gasped in shock when he saw the fog being lifted. ""Taking so much damage just to deliver the last strike. Your boss is really shrewd!"

To be fair, Lin Yi was so close to death the last few times, and he would've been cut into pieces, but he'd been holding it in until now!

This wasn't a simple trick of injuring oneself, but a direct gamble of life with du wuhui!

"If he couldn't endure until now, he wouldn't have used this sword. Master white, you can't possibly not see it, right?"

Shen Yifan smiled faintly, but he was worried for Lin Yi. He knew that Lin Yi had a backup plan, but if he were in Lin Yi's position, he might not be able to save this sword for the end.

Most of the time, being able to hold one's temper was the core competitive strength of an expert!

"That's true. "

Bai Yuxuan nodded.

Shen Yifan blocked the attacks while looking at him strangely. "You don't seem to be worried about du wuhui at all?"

At this moment, du wuhui's life force might not have been completely cut off, but he was absolutely powerless to turn the situation around. Even if he could barely survive, it was impossible for him to have any more battle strength to speak of.

To put it bluntly, du wuhui's life or death depended on Lin Yi's mood.

"If even Lin Yi has a backup plan, what makes you think that my Lord Jiu wouldn't have one? Do you think Lin Yi is smarter than our Lord Jiu?"

Before Bai Yuxuan could finish his sentence, the situation on the main battlefield suddenly changed.

Lin Yi was shocked to find that he couldn't pull the sword out.

Logically speaking, du wuhui should already be heavily injured and on the verge of death. It was impossible for him to have any more strength to resist. Even if he were to use the trick of injuring himself, it shouldn't be done in such a way. However, at this moment, an unparalleled power erupted from du wuhui's body, firmly sucking the demonic devouring sword.

This power was completely different from what he had felt before.

feeling the aged aura coming back from the demonic blade, lin yi immediately understood that this wasn't du wuhui's own power!

"are the juniors these days so ignorant of the rules? they don't even kowtow to their seniors. hehe, jianghai academy won't last long in the hands of the tian family's trash."

Along with the voice, a primordial spirit wrapped in layers of power emerged from du wuhui's body. It was the Sea King Xiang Yusheng.

Lin Yi's expression was serious.

It was just a spirit, and it wasn't even the real one-it was just a clone, but the pressure it exuded made Lin Yi's soul shiver.

An existence of this level was definitely not something he could deal with with his current strength.

Run!

It was the only right choice, but the demonic sword was stuck to him, and he couldn't get it out at all. The black hole just now had almost drained all of his energy. Even if he threw the sword away, he wouldn't have any energy left to get out.

"Since I can't run, then I'll stay and die!"

Du wuhui was on the verge of death, but he still squeezed out a smile of satisfaction.

His body's condition was already very bad, and now that he had become the carrier of Yu Sheng's power, it almost completely consumed his last trace of vitality and Yuan Qi. However, he did not regret it.

Rather than losing to Lin Yi and struggling at death's door, it was better to just die together!

Under Xiang Yusheng's control, du wuhui's last bit of energy was squeezed dry. It was still the high-pressure wind blades that he was familiar with, but the power displayed this time was completely different from before.

Fission!

The high-pressure wind blades split apart crazily in an instant, and then, spatial cracks appeared one after another!

"This is the correct way to open the high-pressure wind blade."

Xiang Yusheng laughed as he snapped his fingers. The dense spatial cracks cut Lin Yi into pieces on the spot. This involved the essence of space, and it was a completely different dimension of power. Lin Yi had no way to resist.

"Good! It's good that he died!"

Du wuhui laughed out loud, but before he could finish, Lin Yi interrupted him, "You hate me so much? It can't be that bad, right?"

The laughter stopped abruptly.

"Impossible! It's clearly not a clone, so how can you still be alive!"

Du wuhui watched as Lin Yi's body quickly recovered in front of him, and he was about to go crazy.

This definitely wasn't a fake clone-it was a spatial tear! Lin Yi had clearly been crushed into pieces, and he shouldn't be more dead than dead! No matter how powerful his self-healing ability was, it wouldn't work! How could he come back to life!

"If you can get help, why can't I?" Lin Yi said indifferently.

"Time backtrack? Could you be the so-called Banshi Luo?"

Xiang Yusheng was also shocked.

Du wuhui couldn't see it, but he could. The reason why Lin Yi could recover from a pile of meat was because someone had reversed the flow of time on him, which was why he was revived!

In the entire Jianghai Academy, there was only one person who possessed such ability. He was the time controller, Luo Banshi.

"Greetings, senior Xiang."

A peaceful figure appeared behind Lin Yi-it was Luo Banshi!

Naturally, this wasn't Banshi Luo himself. He was like Xiang Yusheng, planting a power seed in Lin Yi's body in advance and projecting a portion of his power over.

Xiang Yusheng suddenly burst out with a murderous aura, "Hmph, you're quite famous, Banshi Luo. I've heard of you in the repeat school, but you're a coward!"

"Please enlighten me, senior," Banshi Luo nodded slightly.

"You want to stand up for the commoner Department, but you don't even have the courage to fight against those trash from the Tian family. At most, he's just a pretentious piece of trash!"

Xiang Yusheng was merciless when it came to scolding people. The enemy of an enemy was a friend. They were both the opposite of the Tian family's elite group, and to some extent, they were natural allies.

however, banshi luos actions were obviously not in his eyes.

banshi luos was not angry, and he asked, ""senior xiang, are you unwilling?"

"what's there to be unwilling about? am i the kind of person who can't afford to lose?"

xiang yusheng snorted coldly, but his movements didn't stop. du wuhui's wind domain transformed into spatial energy and pressed down on lin yi again.

on lin yi's side, banshi lu took the hits for him.

the power of space was strong and unstoppable, but lin yi's body was immediately reversed back to its original spot as soon as it touched him. it was another miracle.

Luo Banshi was a time manipulator, and he, Xiang Yusheng, was the famous Overlord of the space element. The battle between the two could be said to be a battle between time and space!

A battle of this level had completely exceeded the scope of understanding of most people.

Even with Lin Yi's experience and understanding, he couldn't understand the changes after the initial attack and defense.

Chapter 9590 The Power Of The Divine Realm

The good thing was that Lin Yi was a part of the game-even if his brain couldn't keep up, his body could clearly remember the subtle feeling. If he could digest ten or twenty percent of it in the future, it would be beneficial!

The fight between the immortals continued.

Lin Yi's and du wuhui's bodies were the battlefield of their battle. The losing side would cause the battlefield to collapse.

In other words, no matter which side's foreign aid lost the battle, the loser would be doomed eternally with no chance of survival.

At this time, all Lin Yi and du wuhui could do was wait, wait for the final life and death sentence.

Very quickly, the results were out.

After the last collision, the power that was directed at Yusheng was completely destroyed. On the other hand, Luo Banshi's side wasn't much better, but he still relied on the magical power of time reversal to protect Lin Yi.

"Why ... Why did it turn out like this ..."

Du wuhui watched in horror as his body shattered inch by inch. In the end, he wailed in extreme fear and his entire body fell apart on the spot. From then on, there was no longer any breath of his in this world.

The ninth seat of the Academy had fallen.

As the biggest winner, Lin Yi didn't feel much joy. Instead, he felt a little lost.

After this battle, the entire freshmen Alliance would welcome a transformation and become an important force in Jianghai college that could not be ignored. However, after seeing the battle between Luo Banshi and Xiang Yusheng, Lin Yi couldn't help but feel that he was too weak.

Du wuhui was only the weakest of the ten, and he wasn't famous for his individual combat strength. Facing such an opponent, one would have to rack their brains, squeeze out all of their potential, and gamble with their lives.

If he were to face the other ten Chiefs, who were even more powerful, or even figures like the first seat Xu Anshan, the result would be unimaginable.

He still had to quickly level up.

Fortunately, Lin Yi still had a lot of room for improvement. He only had two perfect elements now, far from the ultimate ten-element domain he expected.

Moreover, the realm itself could continue to improve.

As long as he could reach the mid-stage of Big Shot completion, Lin Yi's overall strength would experience another qualitative change!

A moment later, Wei baizhan and the others who had been transferred away by the duel talismans returned one after another. As expected, the strongest ones had the last laugh.

After all, they were all animals. To them, challenging someone two levels above them wasn't that exaggerated. It was just a little more difficult to fight and a little more costly.

In comparison, Qiu sanniang, Yue Jian, and the others, who weren't that overpowered, had suffered quite a bit.

But Lin Yi had given them a bunch of high level talismans in advance, almost emptying the society's inventory. They relied on unreasonable attacks with talismans and managed to get the last laugh.

The only one left was Shen Yifan.

"Du wuhui is already dead. Master Bai, why don't you consider coming over to help me? I'm serious, and this is also old Lin's intention."

Shen Yifan looked at the silent Bai Yuxuan calmly.

In fact, Bai Yuxuan was different from the other core members of du wuhui's group. He was too powerful. If he really went all out, it wouldn't be difficult for him to kill Shen Yifan.

However, Shen Yifan was not worried at all because he knew that the other party was a really smart person.

Smart people would not do stupid things.

Bai Yuxuan didn't hesitate for too long. He and du wuhui weren't master and servant in the first place. At most, they were allies who each took what they needed. Naturally, he didn't have any thoughts of taking revenge for du wuhui.

"Alright, these old bones of mine do need a place to stay. Since you guys have such tolerance, I don't need to be unreasonable."

"It should be like this!"

Shen Yifan was overjoyed. "With master Bai's help, my burden will be much lighter in the future. Otherwise, with old Lin's nature of being a shopkeeper who doesn't do anything, I'll be squeezed to death by him!"

He was really worried-this Lin Yi really didn't care about anything. He'd just Pat his head once in a while, and the rest was all his business.

The key point was that he couldn't push it.

In the whole Alliance, the only people Lin Yi trusted unconditionally, other than Tang Yin, were his roommates.

Yan Zhongyuan was good at fighting, but it was impossible for him to be in charge. He barely said a word every day, and he couldn't just guess the rest, right?

As for sun Buyi, that was even more ridiculous. He only ate all day. In just two months, his weight had almost doubled. Even walking was difficult.

Therefore, there was no other way. Shen Yifan had to continue to take on the role of the Super Butler. As the new student Alliance grew stronger day by day, it could be foreseen that there would be more and more Affairs in the future.

Getting someone to help him was a must, and Lin Yi even had a Secretary Department set up for him in his future plans.

Naturally, Lin Yi welcomed the submissive Bai Yuxuan.

Bai Yuxuan knew how to conduct himself and returned the favor by persuading the remaining experts of du wuhui's group to surrender.

Although the core of the group had basically been completely annihilated, du wuhui's group still had a deep foundation. Just this wave of defeated soldiers alone could not be underestimated.

With Lin Yi's group's current condition, they might really be able to fight to the death if they worked together.

But now that Bai Yuxuan was here to calm them down, things were a lot easier. There were still some who didn't know what was good for them, but they couldn't do anything on their own. Lin Yi suppressed them with his own hands.

As for the others, Lin Yi's plan was simple.

Those who were willing to be incorporated would be placed under Qiu sanniang's command, and Qiu sanniang would be in charge of them. Those who were unwilling to stay would have to spend some money to avoid disaster. After all, it was impossible for the loser to not pay a price. This was not a fairy tale world.

After the final series of operations, most of the people chose to bow their heads to reality, and more than thirty big shots at the middle stage of the consummate level immediately appeared under Qiu sanniang's command, their forces strong and powerful.

Other than that, Lin Yi gave the reserve team Masters he had taken in to Yan Zhongyuan.

Although Yan Zhongyuan didn't like to manage things, it wasn't hard for him to deal with a group of subordinates. After all, he was powerful.

At this point, the battle of the ten seats was settled.

Lin Yi and his men rested while waiting for the final aftershock of the battle between Han Qi and Ji Chi.

Strictly speaking, the result of the battle would have a huge impact on the crowd. If Ji Chi laughed to the end, he would probably turn to Lin Yi and the others!

However, Lin Yi had confidence in Hanqi.

Even if they couldn't crush Ji Chi directly, they could at least fight until both sides were badly injured. At that time, if Ji Chi dared to have other thoughts, it was not certain who was the prey and who was the Hunter.

In the end, he waited until the three days were up, and the little Dragon Cave closed automatically.
