

Bodyguard 9591

Chapter 9591

Returning to the familiar Jianghai Academy, everyone felt as if they had been separated for a lifetime. It was not easy for them to have made it out alive.

"Something's wrong!"

Lin Yi was ready to dismiss them and let them go back to rest, but his face changed when he scanned them with his spirit sense out of habit.

There was an ambush!

He could not figure out why they would be ambushed in their own territory, and who would be so bold as to openly violate the school rules within Jianghai Academy.

However, there was no doubt that the dozens of elite Men in Black who were secretly spread out in all directions were definitely not friendly!

The moment Lin Yi and the others were teleported out, the Men in Black who were hiding in the surroundings attacked. The people from the new alliance were caught off guard and fell into chaos.

If this continued, everyone would most likely be wiped out!

At the crucial moment, a powerful spiritual shock exploded the entire scene. In that instant, Lin Yi almost squeezed out all of his spiritual power.

The dozens of black-clothed experts who had surrounded them were all shocked!

Although it was only a short period of dizziness, it was enough for everyone to stabilize their position. Shen Yifan, Wei baizhan, Yan Zhongyuan, and Bao shaoyou immediately led the team to launch a counterattack. Even Bai Yuxuan and the other former du wuhui's subordinates who had just joined them also attacked with all their might.

No one knew the exact situation, but if they wanted to gain a foothold under Lin Yi, this was the best time to show their loyalty!

The situation was immediately reversed.

These Men in Black were all elites, but they'd clearly underestimated the overall strength of Lin Yi's side. No one would've thought that the weaker side wouldn't end up with heavy losses after a ten-seat battle, and that their overall strength would skyrocket instead.

Just the new group of du wuhui's subordinates that Lin Yi had taken in, whether it was in terms of numbers or combat strength, were all on par with the Men in Black. Not to mention, there were also the animals from the newborn Alliance!

Very quickly, the situation was one-sided.

However, this group of black-clothed people were also decisive in their actions. When they saw that things could not be done, they quickly retreated. Moreover, they cooperated with each other tacitly and left no flaws. It was enough to show that they were all specially trained experts.

"There aren't many in our Academy who have the ability to train such a subordinate."

Shen Yifan looked at Lin Yi worriedly. "I have a very bad feeling about this."

On the other hand, Bai Yuxuan's expression was even uglier than his. He said in a deep voice, ""The identity of these people ... Is not simple."

"What do you mean?"

Lin Yi and the freshmen hadn't been at the school for long, after all, and only had a rough idea of the situation. Only experienced people like Bai Yuxuan could see the truth.

Bai Yuxuan didn't say anything. He checked the bodies of several Men in Black who had been beaten up. His face was full of disbelief and horror.

"Trample on the White Guards!"

Bai Yuxuan looked at Lin Yi's confused group and shook his head, "This is the secret force directly under the Academy. They only listen to one person's orders, the current Chief."

"Xu Anshan!" He said.

Lin Yi and the others were stunned.

Although they had gnawed down du wuhui, the veteran 9th place, and both their strength and morale had been greatly boosted, the more this was the case, the more everyone could feel the terror of the 10th place.

As an existence that stood at the top of the ten-seat pyramid, Xu Anshan's strength was so terrifying that it was unimaginable.

"Is Xu Anshan really going to attack us personally?"

Shen Yifan and the others still found it unbelievable.

Under Lin Yi's leadership, the freshmen Alliance had indeed grown very quickly, but to say that they could already make Xu Anshan feel threatened was too much of an overstatement.

At this moment, Qiu sanniang suddenly asked in bewilderment, "I can't get through to my brother!"

With how much Zhang Shichang valued her, it was impossible for him not to pick up her call at any time. The only explanation was that he couldn't answer her phone.

Zhang Shichang was in trouble!

The third seat of the Academy, the top Big Shot who was in charge of the warrior's Department, and one of the people who stood at the top of the Academy's pyramid. How could such a person be in trouble?

It was simply unimaginable.

But immediately after, Lin Yi tried to call Shen Qingnian, but he still couldn't get through.

This time, the joke had really gone too far.

The student council's third and second seats were uncontactable!

After that, Lin Yi called the native seventh seat, nie mingzi. The call went through, but nie mingzi's response was a simple sentence before hanging up.

"I'm only in charge of research and development, and I'm not interested in getting involved in any faction struggles. This matter has nothing to do with me. "

Lin Yi asked, stunned.

Bai Yuxuan took a deep breath and said,""The war between the first seat and the native system has indeed begun."

It was obvious that this wasn't just a simple operation against Lin Yi and the new student Alliance, but a big operation that would sweep through the entire Academy!

Although they had already expected this, and were clear that this ten seat battle between him and du wuhui could very likely become the fuse for the war between the academies, but now that it had really happened, everyone was still caught off guard.

"Don't tell me my brother and the others have already ...?"Qiu sanniang asked in shock.

"I don't think so."

Lin Yi said calmly,"although the native element is not as strong as the chief element in terms of overall strength, it's impossible to take down the chief element with just a surprise attack. If it were that easy, Xu Anshan would have done it ten years ago. He wouldn't have waited until now."

Shen Yifan nodded in agreement. "That's right. Be it Shen Qingnian or your brother Zhang Shichang, they are not careless people. They should have been fully prepared for this. Now, it's just that the connection has been cut off."

"However, if we can't contact those two, we'll be in a bad situation. We might even become the target of public criticism."

Bai Yuxuan reminded.

Everyone was shocked.

It was not hard to figure this out. Obviously, the first seat had not expected that they would come out of the secret realm in this way. They had only set up a symbolic ambush and had not really mobilized a large number of troops.

Now that they had suffered a loss, they would quickly react. Unless Shen Qingnian and Zhang Shichang had a large number of forces involved, once they made a targeted response, the only outcome for the newborn Alliance would be eternal damnation.

This wasn't Lin Yi's main concern-he was worried that he'd lost contact with Tang Yun and Wang shiqing as well!

This was Lin Yi's bottom line.

"What do we do?"

Everyone was looking at Lin Yi-he could just laugh and do whatever he wanted, but he had to be the one to make the decision in times like this.

This was the responsibility of the boss.

Lin Yi didn't think for long before deciding, "To the Academy's prison."

The crowd was stunned for a moment before they quickly reacted.

He was going to join forces with Banshi Luo!

Chapter 9592

Looking at the entire Academy, other than Zhang Shichang and Shen Qingnian, whose whereabouts were currently unknown, there was no one else who could compete with the first seat. It was none other than half-master Luo.

In fact, it was the same for most people with discerning eyes. The only thing that could really threaten the first seat was not the native element, but the half-Master Element.

The real threat to Xu Anshan would be when Banshi Luo came back!

In the past, everyone would've been suspicious of Lin Yi's decision. After all, other than Lin Yi himself, no one else had really interacted with Banshi Luo.

But now, the victory from the battle with du wuhui's group had pushed Lin Yi's prestige to an unprecedented peak. Everyone in the new student Alliance was almost instinctively convinced by Lin Yi's decisions!

As for Bai Yuxuan and the others who had just joined the sect, they had no right to speak in this matter.

Bai Yuxuan sighed to himself. Lin Yi's decision was, to a large extent, to guard against them.

To be honest, if it wasn't for Lin Yi's quick decision to turn the tide, many of du wuhui's old followers would've been shaken if they were in a deadlock.

Under the leadership of Lin Yi and a group of core members, the freshmen Alliance set off for the prison.

"Lin Yi won? Trash!"

All of the Chiefs were shocked when they heard the news. Even with their most careful calculations, Lin Yi would only barely beat du wuhui. He wouldn't have much strength left and wouldn't be able to affect the big picture.

Who would have thought that this would be the result!

With the current strength of the newborn Alliance, after integrating Bai Yuxuan and du wuhui's old subordinates, their strength was enough to attract everyone's attention.

If they really dared to leave it alone, once something happened, even the group of big shots in the chief Department might not be able to take it!

"Where's Ji Chi?" Xu Anshan frowned.

The sixth seat in charge of intelligence, Qin Shi, replied, "The monitoring shows that he and Han Qi are still in the secret realm of the little Dragon Cave, and the winner has yet to be determined."

This wasn't strange. At their level, there were many people who could fight for as long as they met face to face or as long as ten days and ten nights. They could even fight for a month without a winner being decided.

The fourth seat, Song Jiangshan, muttered, "Lin Yi may not be experienced yet, but I've seen his history after he entered the school. He's quite a hero, especially now that he's grown up. If we leave him alone, it'll be a big problem."

He was the friendliest person to Lin Yi out of all the big bosses in the first seat.

However, at this moment, he was the first to reveal his killing intent. This was a matter of great importance and he could not afford to be merciful. If he was really an indecisive person, it would be impossible for him to sit in today's position.

"No matter how strong Lin Yi is, he can't be stronger than Shen Qingnian and Zhang Shichang. Those two are the bigger ones. At this point, we have to gather all our forces and take them down in one fell swoop. Otherwise, if they manage to break out, the situation will be complicated."

Chen Chuangu, the eighth seat, retorted.

The rest of the senior executives of the chief Department nodded in agreement.

Shen Qingnian and Zhang Shichang were the most important people in this operation. Once they were killed, the outcome would be decided. Lin Yi wouldn't be able to do anything no matter how many tricks he had up his sleeves. On the other hand, if the two managed to catch their breath and launch a counterattack, it would be a real problem.

Shen Qingnian, the second-in-command, was in charge of the finances. He did not have much power on the surface, but no one knew how many forces he had cultivated in secret.

As for Zhang Shichang, who was in charge of the warrior's Department, the threat was even greater. Everyone in the warrior's Department was his loyal fan. If they had not been attacked so ruthlessly this time, it was hard to say what would have happened in the future.

Even now, the chief representative had gathered their superior forces and seemed to have the absolute initiative.

However, as long as Shen Qingnian and Zhang Shichang remained undefeated, there was a possibility that the tables could be turned at any time.

"No matter what, I'm afraid we can't leave if we want to make sure nothing goes wrong."

Qin Shi stood out to show his support.

Song Jiangshan didn't refute as it was the truth. He was indeed afraid of Lin Yi's ability to cause trouble, but it was clear what was more important in the current situation.

"Lin Yi can't just ignore this," Xu Anshan said in a deep voice.

Everyone was shocked.

Only Song Jiangshan wasn't surprised at all. In terms of how much he valued Lin Yi, his chief wasn't any less than him.

At this moment, a tall and sinister man stood up and licked his tongue with interest. "Why don't you let me try?"

The few chief Department big shots looked at each other and did not object.

Although this person was not among the top ten, he was not well-known in the Academy. On the surface, he was only an official under Xu Anshan. He was not even in the top three among the officials.

However, no one, including Xu Anshan himself, doubted this person's ability.

His name was Wu Ya, and he had been defeated by Xu Anshan. He was a ruthless person who had once challenged the first seat of the Academy!

"Don't be too dirty. "

Xu Anshan didn't doubt that Wu Ya could deal with Lin Yi, but this guy's style wasn't very presentable. He was a natural villain, and if he was allowed to attack freely, it would probably affect the chief's image to the public.

However, at this point, Xu Anshan had no other choice.

It wasn't that he didn't have stronger Masters under him, but no matter who he sent out, they were far from being as confident as Wu Ya. After all, even du wuhui was killed in front of him. To deal with an existence like Lin Yi, strength alone was definitely not enough.

"Don't worry, I'm not that kind of person. "

Wu Ya's answer made everyone's mouth Twitch.

This guy's bad conduct was deeply touched by everyone present. When they were still enemies, they were disgusted by him. Even the master of the Tian family, who never participated in the academic Affairs, couldn't help but comment on him as a disgrace to the Academy.

If he wasn't that person, who was?

Although he couldn't transfer the core combat power, Xu Anshan couldn't let Wu Ya deal with Lin Yi alone. In the end, he still assigned him a super elite team made up of big shots at the peak of the middle stage of the consummate level!

In terms of overall combat strength, it was enough to be on par with du wuhui's group, or even better!

Looking at Wu Ya's back as he left with his men, song Jiangshan looked slightly worried.""I have a strong premonition that once Wu Ya makes his move, things will really get out of hand."

"Old song, aren't you overestimating Lin Yi? Even if he's lucky enough to win against du wuhui, he'll only barely be able to reach the minimum threshold of the true ten seats. Now that the entire situation is in our hands, what kind of storm can he create? That's not realistic. "

Chen chuangu sneered.

"I hope so." Song Jiangshan shook his head.

As soon as they finished speaking, Wu Ya immediately began his first move.

Chapter 9593

It was broadcast live on the internet.

Soon, a passionate video that was not suitable for children was spread all over the internet. Although the female protagonist who was violated and threatened did not show her face directly, it was easy to determine her identity from her words.

New student, high level of the society, close to Lin Yi.

Anyone with eyes could tell that this woman was Tang Yun!

The Wang family of formations.

"Bad news, Tang Yun sis!"

Wang shiqing's exclamation caused the peaceful lake in the backyard to be in chaos.

Tang Yun's formation was destroyed on the spot. She said, "What's wrong?"

However, he immediately reacted and was shocked, "Lin Yi's in trouble?"

"No! Tang Yun sis, you can see for yourself!"

Wang shiqing ran over and handed the phone to Tang Yun. It was the video of Wu Ya's passion.

"Aiya!"

Tang Yun blushed and covered Wang shiqing's eyes subconsciously, which made Wang shiqing depressed. "I'm not a three-year-old child, why are you covering me? And I've seen it a few times!"

"Isn't one time enough ..."

Tang Yin rolled her eyes at the girl and looked at the video carefully. She realized that something was wrong, "This is me?"

"of course not, her figure is much worse than yours, tang yun sis. she should've found someone better to impersonate. how could she fool lin yi bro with that? he could've recognized her with one look."

wang shiqing's mumbling made tang yun's face turn red.

"what nonsense are you saying! he hasn't even seen mine before, how could he recognize me at a glance!"

tang yin was so embarrassed that she wanted to tear the girl's mouth apart.

wang shiqing blinked her eyes."i haven't seen it yet, but maybe i did. after all, you two are in that kind of relationship, and you don't remember it yourself."

"....."

Tang Yin's face was red as blood, but she couldn't argue back. After all the time they'd spent together, she'd started to accept Lin Yi's words, even if she still didn't admit it.

Although the memory had disappeared, the brand that was engraved in the soul was eternal. This could not be lied to.

Otherwise, she wouldn't have been willing to be Lin Yi's butler. After all, this was obviously a position reserved for the female owner. Even if she didn't admit it verbally, she'd already accepted it in her heart.

"It'll be terrible if Lin Yi bro hasn't seen your body before!" Wang shiqing said, worried.

Tang Yin fainted.

What the hell is this? It's bad that he hasn't seen my body, so I have to let him see it to not be bad?

but tang yin reacted quickly. "you're afraid he'll be tricked?"

"that's right, they made this video just for lin yi bro. now that we've transferred all the core members of the society out, and the whole school's been shut down by the academy, we can't contact lin yi bro at all. "

with the academy's power, once they got serious, they would definitely lock down the academy.

you're only allowed to leave, not enter.

although tang yun had made the decision to leave with the backbone of the talisman society when the incident happened, it was a wise decision now. if she had made the decision a little later, she would have been swallowed by the chief department.

however, the problem was that they had lost all contact with lin yi.

her cell phone signal was locked, and the school's internet was cut off. the video that wang shiqing was watching was uploaded to the internet after the staff inside came out.

Even if they realized what was going on, they couldn't warn Lin Yi.

"This won't do. I'll go find the Grand Elder and think of a way."

From what Tang Yun knew, the only way out was to use the power of the family. With the foundation of the Wang family, even if they couldn't be compared to the school, it shouldn't be too hard to find a way to send a message.

At this moment, a gentle voice was heard, ""Yun 'er shouldn't go. With the current situation, our talisman Wang family won't step into the muddy water so easily."

It was Wang Yuming.

Tang Yin was surprised, "but the Grand Elder has always had high hopes for Lin Yi, right? the family even helped to settle the key members of the society. Isn't this already a disaster?"

Lin Yi was still a bodyguard under the talisman king's house in name, and even if it was just an employer-employee relationship, he was still part of the family.

Lin Yi's sudden rise in Jianghai Academy was a huge benefit to the entire formation Master Wang family. After all, there weren't many in the entire Jianghai city who had connections at the level of one of the ten seats in the Academy.

As far as Tang Yin knew, the family had been trying to get closer to Lin Yi, in case this huge help that fell from the sky would run away.

In truth, the Wang family had contributed a lot to the battle of the ten seats against du wuhui. More than half of the high-grade talismans that were allocated to the core members had come from the Wang family. Otherwise, the production of the talisman making society wouldn't have been able to satisfy them in such a short time.

"That's different. "

Wang Yuming frowned and shook her head, "that was then and this is now. The ten seats didn't completely fall out with each other before, so Lin Yi's value to house Wang is huge. But now that the ten seats are fighting, the first seat has the upper hand. House Wang may be an outsider in name, but we have to consider who we should side with."

"But it's easy to add flowers to a brocade, but it's hard to send charcoal in the snow. If the Grand Elder really wants to get Lin Yi on their side, now's the best chance they have in a thousand years. After this village, they might not have this chance again!"

"Besides, even if we bet on the first seat, with their power, would they really care about a mere talisman Wang family?" Tang Yun argued.

Wang Yuming smiled bitterly, "great-grandpa and the others are far-sighted, how could they not understand this logic? but you know our Wang family's current situation, we're facing both internal and external problems. It's not just Jianghai Academy, the entire Jianghai city is in a state of chaos. We can't even look at ourselves, how can we have the energy to help Lin Yi?"

In fact, from her perspective, she was naturally on Lin Yi's side as well. She'd tried to fight for Lin Yi a lot, but the situation was more important than her.

The Wang clan was a large clan with over a thousand direct and branch family members. If one counted the nepotism members, there were tens of thousands. How could they drag the entire clan into the boat for the sake of one person?

Wang shiqing suddenly said, ""What if Lin Yi bro wins?"

Wang Yuming was stunned.

The Civil War between the ten seats of the Academy was currently the most heated topic in the entire Jianghai city. Not only were the various factions here to watch the show, but they were also investing a lot of money into it as it directly affected their own interests.

There were even bets of astronomical figures in the market.

All the intelligence organizations were operating at full capacity. All kinds of information about the ten Chiefs, as well as the analysis of the big shots and professionals from all sides, were rampant.

Without exception, regardless of whether it was mainstream or not, all the public opinions were betting on the lead seat.

It was a consensus that the local system had almost no chance of turning the tables.

If he couldn't do it, Lin Yi naturally couldn't either.

Chapter 9594 The End

"Is Lin Yi bro sure he can't flip it?"

Wang shiqing asked again.

Wang Yuming wanted to deny it, but after remembering Lin Yi's past, she wasn't so sure anymore. Although Lin Yi's side was at a disadvantage in every aspect, she didn't want to say that they didn't have a chance at all with this guy's ability to cause trouble.

"With house Wang's current situation, going downhill is inevitable if we want to stabilize things step by step. We can only take a gamble if we want to reverse the situation in a short time."

"The risk and the reward are directly proportional. It's possible that we'll lose money if we bet on Lin Yi, but if we win, it'll be our chance to turn the tables. Aren't the Grand Elder and the others interested at all?"

wang yuming's eyes lit up as she listened.

ever since they had been targeted, the wang clan had been like a giant python that had been coiled around them. at first glance, it seemed like they were still struggling at death's door, but anyone with eyes could see that if they could not use this situation to break out, they could only wait for death.

if they could see any hope of turning the tables on lin yi, even the most conservative higher-ups of house wang would take the risk out of desperation!

"but even if i can convince great-grandpa to bet on lin yi, i can't just put all the chips on him. lin yi has to rely on himself to get through this, only then will people see his value, and then people will place more bets on him!"

wang yuming muttered.

tang yun and wang shiqing looked at each other and said,"that's enough!."

it was obvious that someone was using tang yin to bait lin yi, but they didn't think that lin yi would suffer any losses.

Was this still the Lin Yi they knew?

Jianghai Academy.

Lin Yi was expressionless as he watched the viral video.

Qiu sanniang and the others looked at each other. They knew how important Tang Yun was to Lin Yi. She was his reverse scale. If something happened to Tang Yun, no one could guarantee Lin Yi's reaction.

No one said anything, including Shen Yifan. Everyone was waiting for Lin Yi's decision.

"You guys continue to go to the academy's prison. I'll go and deal with it."

Lin Yi didn't seem to be happy or angry at all. Shen Yifan thought about it and said, "A large group is too big a target, but you should still bring a few people. No matter how confident you are, you should at least have someone to look after you."

"that's fine. old yan and wei baizhan will do. i'll leave this to you, old shen. "

lin yi accepted the advice-these two were the strongest fighters he had under him. even shen yifan, who had wind and mist dual domains, couldn't compare to them in direct combat.

"we'll be waiting for you in the prison,"shen yifan replied.

both parties split up, and before they left, bai yuxuan came over to say a few words to lin yi, which surprised him.

"master bai is indeed a smart person, you know how to adapt to the situation."

shen yifan smiled as he watched the three leave. he didn't hear the details, but he could guess what bai yuxuan said.

If it were someone else, even if they didn't jump off the boat right away, they'd still try to protect themselves and wouldn't raise the stakes on Lin Yi.

However, Bai Yuxuan's train of thought was different from ordinary people.

"If I still can't see the great potential of that person, then my previous defeat would have been for nothing," Bai Yuxuan said with a smile.

"Master Bai is awesome."

Shen Yifan gave him a thumbs up.

Wu Ya received the news as soon as the three left.

"hehe, you're indeed an infatuated person. it's good that you're loyal. i like people like you."

wu ya ate his steak slowly, with a fork in his left hand and a knife in his right hand. this was a popular way of eating from the secular world. however, his steak was a little special, as it was raw.

wu ya's face was full of enjoyment as he licked the blood at the corner of his mouth with his long, inhuman red tongue.

"can we set up the control?"

one of the elite experts standing to the side could not help asking.

Wu Ya laughed indifferently. "Don't worry. The prey will come to us on its own. What if you scare him away by setting up a trap?" Just you wait. "

Just as expected, Lin Yi appeared in the group's perception after half an hour.

"It's not fast enough. It seems like that woman isn't that important to you. I've miscalculated,"

Wu Ya sized Lin Yi up with a faint smile.

All the big shots at the peak of the middle stage of the complete realm were on high alert. Lin Yi's name was like a tree's shadow. Although each of them could easily crush Lin Yi with their cultivation level, Lin Yi still had the heroic feat of killing du wuhui in a head-on fight. They couldn't underestimate him at all.

"Where are my people?" Lin Yi frowned as he looked around.

"Don't be in a hurry. We haven't discussed the price yet. Take it slow."

Wu Ya stood up with a smile. He was not in a hurry to make a move. Instead, he acted like a kidnapper.

"Xu Anshan told you to name the price?" Lin Yi asked curiously.

"That's not the case. "

Wu Ya laughed and said, "their boss is a Big Shot. How could he do such a thing?" However, a small figure like me who lives in a stinking ditch is different. Face can't be eaten, but I have to feed my family. "

"A nobody? Hehe. "

Wu Ya's name wasn't known in the outside world, but in the Circle of Masters, even new students like Lin Yi had heard of him. He was one of the most dangerous people below the ten seats that they had to be wary of.

"What do you want?" Lin Yi didn't want to waste his time.

"don't worry, i'm not an unreasonable person. since i've offered, i won't offer a price that you can't afford. "

wu ya licked his lips in excitement. "since you've killed du wuhui and taken over a large number of du wuhui's men, then du wuhui's inheritance must be in your hands. i don't want much. just give me everything."

"you can have it all?"

lin yi looked at him as if he was an idiot. "i worked so hard to kill du wuhui and you want me to give you all my spoils? are all robbers so promising these days?"

"You can't say that. Du wuhui's most valuable inheritance is his men, and they're all yours now. Since you've already gotten the big part, it shouldn't be a problem for you to let a little bit of oil slip out of your fingers and give it to us, the nobodies in the stinking ditch, right?"

Wu Ya paused and said with interest, ""Actually, I've taken quite a few of those little videos. I had no choice but to take a few more. After all, she's the young miss of the talisman royal family, and her looks are so outstanding. I couldn't stop."

As he spoke, he took out his phone and fiddled with it. Immediately, ten more passionate videos appeared on the internet, each one more explicit than the last.

The entire College's network was in an uproar.

Chapter 9595-Power

"You're forcing me to kill you?" Lin Yi's face turned cold.

"No, no, no. Killing me is a small matter. It can't delay our important discussion of cooperation. You have to be clear about which is more important."

Wu Ya's words made everyone's mouth Twitch.

This guy was indeed not a normal person.

"Hand him over first," Lin Yi said in a low voice.

"do you think that's possible?"

wu ya laughed. "you and i are not three-year-old children. if you don't kill me, how can i be handed over to you?" your only chance to get him is to kill me. i'll give you a chance to kill me now, and we'll both get what we want. isn't that a happy ending?"

"then why don't i just kill them here?" lin yi raised a brow.

"that won't be good. you're not weak, but if you don't plan a good ambush and want to kill me and all these big shots at the peak of the middle stage of the consummate level in a head-on clash, haha."

Wu Ya did not hide the contempt on his face. "It's not that I'm looking down on you, but even if you bet the entire newborn Alliance, you might not be able to succeed. After all, I can also escape, right? It's to save my life, so it's not embarrassing. "

Lin Yi looked at him deeply before nodding slowly, "Alright, if you're not afraid of death, then follow me."

After saying that, he turned around and left.

The moment he turned around, he revealed a seemingly insignificant but fatal flaw. The group of elite experts could not help but make a move, but they were stopped by Wu Ya's gaze.

The elite Captain looked at Wu Ya coldly as he watched Lin Yi walk away. "What do you mean by this? You've missed such a good opportunity and you still want to make a deal with him?"

"Are you sure this isn't his clone?" Wu Ya sneered.

The elites were speechless-Lin Yi's clones were famous, and even the ten Chiefs couldn't tell if it was real or fake, let alone them.

If they focused their attacks on him, it would be very awkward if it turned out to be a clone.

"Learn a little, kid."

Wu Ya laughed as he walked towards the direction Lin Yi left.

The elites looked at each other and finally followed helplessly. No matter how dissatisfied they were, there was nothing they could do. After all, Wu Ya was the leader of this matter. The only thing they could do was to obey.

At the du mansion.

Because of du wuhui's destruction, the du mansion, which had been glorious three days ago, was now in a state of complete shambles. The moment they found out that du wuhui had lost and died, the servants immediately scattered like birds and beasts, and took away all the valuable things in the process.

Including the tables and chairs.

As for little Feng Xian, the female owner of the du mansion, she had disappeared long ago. It was unknown if she had left on her own or if she had been fancied by another big Shot.

Although she had always acted as if she was loyal to du wuhui in front of others, she was, after all, a prostitute. Putting on an act was an instinct in her bones. When a great disaster came, it was the most normal choice for her to fly away.

Yan Zhongyuan and Wei baizhan were already waiting there, and Wei baizhan quickly stepped up when he saw Lin Yi, "We followed boss's instructions and searched around. As expected, we found the entrance to a secret realm. That F * cking du wuhui is indeed a rich man."

as one of the top ten most experienced alchemists, he was also a person who was good at making money. it was inevitable that he had a deep foundation. even if he was cheated by a lot of people during the auction for the territory origin stone, it was impossible for him to be drained of all his wealth.

however, lin yi didn't expect the guy to have a private realm hidden away. if bai yuxuan didn't tell him before he left, he wouldn't have found it so quickly.

without a doubt, du wuhui's most valuable things were definitely hidden in the secret realm. this was the true treasure vault!

speaking of which, if there wasn't such a place, du wuhui's personal belongings would have long been removed by his servants. no matter how secretive the secret room was, it wouldn't be able to stop this group of thieves.

at this moment, wu ya's laughter came from behind,""it seems like lin shixi has indeed gained something. oh no, i should be called lin jiuxi now, right?"

"follow me if you're not afraid of death," lin yi said.

after he finished speaking, he took the lead and walked inside. wu ya chuckled and followed without hesitation.

Under Wei baizhan's lead, the group of people arrived at du wuhui's bedroom. At first glance, there was nothing special about it. On the contrary, it seemed particularly simple and crude, somewhat unworthy of du wuhui's identity.

Because the house had been ransacked by the thieves, there was nothing of value left in the house, including the calligraphy and painting that had been hanging on the wall.

The only thing left was a mural that could not be moved.

It was a cold and quiet moon Palace painting.

Lin Yi followed Bai Yuxuan's instructions and sent his spirit sense under the Laurel tree in the painting. The dead laurel tree suddenly bloomed with osmanthus flowers like a dead tree in spring, and even the room was filled with the fragrance of Laurel.

Even though everyone present was an expert who had seen the world, they couldn't help but be secretly amazed at this scene.

"Could this be the legendary Moon Palace?"

Wu Ya's face was filled with unconcealed drool.

The various secret realms were the most valuable assets of a Sky Class Island. The scale and number of secret realms directly reflected the ultimate foundation of a force.

In the rumors about the secret realm in Jianghai city, the Moon Palace secret realm's comprehensive value was ranked in the top ten. All the major forces had been searching for clues for many years, but they had been unable to find any.

He didn't expect it to be hidden in du wuhui's bedroom!

As the moon Osmanthus bloomed, a narrow passage to the secret realm slowly opened up in front of everyone. Lin Yi led the way without saying anything.

Yan Zhongyuan and Wei baizhan didn't hesitate either, following closely behind.

Wu Ya naturally wanted to follow, but he was stopped by the elite Captain. "Wait, why don't we just set up a killing formation here? when they come out of here, they'll be dead for sure!"

He was worried that Lin Yi might be a clone, but now he was sure that Lin Yi's real body was in the secret realm. After all, no matter how strong Lin Yi was, he couldn't control a clone through the space barrier.

As long as they could confirm the identity of the person, they would be able to kill Lin Yi with their strength.

in the end, lin yi wasn't a god-he was just a new student at the peak of early stage of completion.

wu ya looked at the crowd strangely. "how did you guys get into the academy so na~ve? if lin yi was that easy to kill, du wuhui wouldn't be able to do it, and you guys wouldn't be able to do it! or do you guys think that du wuhui is just a good-for-nothing?"

everyone was speechless.

no matter how confident they were, they couldn't underestimate du wuhui's strength. after all, that person was a genuine 10-seat veteran. there was no doubt about his strength.

"If we can't kill them by guarding here, can we kill them by following them in? Wu Ya, don't tell me you really have other thoughts?"

The elite team leader was still on guard.

This was also a secret order given to him by Xu Anshan. He could not trust a person like Wu Ya too much at any time.

Chapter 9596

"Which normal person doesn't have their own thoughts? don't you?"

Wu Ya glanced at him with a disdainful expression. He was too lazy to continue talking nonsense and stepped into the passage of the secret realm.

All the elite experts looked at the captain in unison. ""What do we do?"

"Leave four brothers to guard the place. The rest of you, follow me in. Be careful."

The elite team leader made a prompt decision.

in fact, he knew that nothing was perfect in this world. no one said that there could only be one tunnel. if lin yi found the exit somewhere else, they would be idiots if they all stayed here.

and if lin yi really did come out from here, the full power of four big shots at the peak of middle stage of complete realm was enough to make him suffer.

within the mystic realm.

lin yi and the other two, who were the next to enter, were a little surprised at the scene before them. other than the laurel tree that looked exactly like the one in the painting, the rest of the place was bare, without a single blade of grass.

in comparison, the secret realm of the little dragon cave, which had already been destroyed, was of a much higher grade. not only was there no life force in this place, but the area of the secret realm was also much smaller.

previously, he still felt that du wuhui was rich and generous, but now it didn't seem that exaggerated anymore.

of course, no matter how low its grade was, it was still an independent mystery realm. this alone was enough to make most people drool with envy. after all, with a mystery realm, one would have a foundation, and would have the confidence and capital to truly create a force.

and this place should be changed to lin in the future.

"There's nothing here. Are we supposed to eat dirt here?"

Wei baizhan's face hurt. With Lin Yi's personality, du wuhui wouldn't take everything for himself if he really hid everything here. He should've gotten something if he followed Lin Yi here, but he didn't expect this.

Wu Ya, who had followed closely behind, was even more devastated than Wei baizhan. In terms of expectations for the secret realm, he was much more hopeful than Wei baizhan.

Taking the initiative to volunteer this time was a once-in-a-thousand-years opportunity for him. Whether or not he could turn things around depended on this one move. Unfortunately, the greater the hope, the greater the disappointment.

"Is this the Moon Palace Mystic realm?"

How could the top ten Mystic realms be like this? not to mention other things, just the scale of the mystic realms was a hundred and eight thousand miles apart.

The one in front of him was not even close to being a high-quality imitation, let alone an authentic one. At best, it was just a roadside counterfeit. It was not even qualified to be a mere superficial product.

"Impossible! There must be a secret room!"

Wu Ya still refused to believe it. He stuck his hands into the ground on the spot, and a vast energy fluctuation went deep into the ground, rippling out in circles like radar waves.

Lin Yi's eyelids twitched, and he couldn't help but look at Yan Zhongyuan.

As expected, he was an expert in the field of earth. However, he didn't know what kind of specialized variant it was. There was no relevant record in the past intelligence, but just by looking at this move, it was clear that his control of power had reached an extremely high level, not the slightest bit inferior to du wuhui.

The group of elites who came in after them saw this scene and could not help but look gloomy. Unlike Wu Ya, who had joined them halfway, they were the direct descendants of Xu Anshan. The first thing in their lives was to obey their leader!

They would not hesitate to follow any of Xu Anshan's orders.

Since they could not count on Wu Ya, they could only rely on themselves!

with the elite captain as the leader, the six big shots at the peak of the middle stage of the complete realm attacked lin yi and the other two without hesitation!

if it was just a normal big shot at the peak of the middle stage of the complete realm, it would be a little troublesome for the three of them to deal with it, but it wouldn't be too difficult. after all, both yan zhongyuan and wei baizhan were not easy to deal with, and they had already won against people two levels above them.

as for lin yi himself, there was no need to even mention him.

however, these six people had inherited xu anshan's skills, and their tacit understanding was simply amazing. not only did their domains of different attributes not conflict with each other, but they also displayed an effect that was far greater than one plus one. there were even faint signs of fusion!

this was the first time lin yi had seen such a thing!

fusing domains was publicly acknowledged as the path to the peak of the omega stage. it was extremely difficult, and countless geniuses who had led their generation had stopped at this point.

if it was so when it came from the hands of the same person, it was even more unheard of for different experts to work together.

however, although the six people in front of him had not truly taken that step, they did indeed have a bit of spirit aura. and just this bit of spirit aura alone made their joint combat power far exceed any other experts of the same level!

a tough battle!

Lin Yi really didn't think that he'd fall into such an unexpected and bitter battle after taking du wuhui out head on. The difficulty of breaking out of this situation was even greater than when he faced du wuhui!

If it weren't for the fact that he, Yan Zhongyuan, and Wei baizhan had a good enough understanding of each other to form a stable triangular formation, it would be hard to say if they could survive this battle.

Even so, they were still at a clear disadvantage.

It was a good thing that Wu Ya was still stuck in the ground and exploring the secret room as if there was no one else around. He had no intention of interfering. Otherwise, once such a powerful Big Shot in the late stage of the consummate level joined in, the scene would probably be one-sided!

"Boss, it's a bit of a loss for us to drag this on. We have to get serious!"

As Wei baizhan spoke, he spread out his palms, and a Dragon's Roar resounded through the entire arena. It was the Thunder Dragon Kingdom that he had devoured from the Thunder God and lightning Queen!

It had to be said that the power of the lightning element was truly blessed by the heavens. When he used it with his cultivation level of a Big Shot at the peak of the early stage of the consummate level, he actually managed to suppress his opponent for a moment.

At the same time, taking advantage of the moment when the Thunder Dragon Kingdom suppressed the other side, Yan Zhongyuan did not hesitate to use it.

with a palm strike, the power of the entire gravity domain poured out at once, turning into an unparalleled terrifying impact that swept across the entire scene. it actually cut the domains of the six people opposite in half.

gravitational wave!

the other party was dumbfounded. was this guy really a freshman?

such a high level of strength had even surpassed all of them. one had to know that strength was the core evaluation standard for the division of realms.

although it was only for an extremely short moment, in a battle between experts, victory and defeat often happened in this fleeting moment!

according to this standard, didn't this unknown new student in front of them already possess the capital to be above them?

"hmph! it's only for a moment!"

the elite team leader's cold humph pulled everyone back to reality. yan zhongyuan's powerful impact had indeed caused some damage to them, but it was only for a moment. the damage wasn't enough to kill them.

if yan zhongyuan could grow stronger in the future, they would have to stay away from him. unfortunately, he would never have the chance to grow again!

however, just as they were about to regroup and get back into formation, dozens of lin yi's doppelgangers sneaked up on them silently.

wei baizhan's thunder dragon kingdom was the cover, and yan zhongyuan's gravitational wave was the cover. this was the real killing move!

Chapter 9597

"Not good!"

The elites immediately realized that things weren't looking good. In fact, they'd already done a thorough research on Lin Yi and had come up with all sorts of countermeasures, but things just couldn't keep up with the changes.

In comparison, du wuhui's execution ability was much higher than before. The difference was obvious!

Annihilate domain, activated.

The group of big shots at the peak of the middle stage of the consummate level simply had no time to react and Dodge. Once the annihilation domain was activated, there was no way to deal with it. Even at their level, they did not have any effective defensive means.

The only reliable way to deal with it was to suppress the number of Lin Yi's clones and stop it from forming, but they didn't have that chance anymore.

The explosion was silent, but the entire space seemed to have been wiped out by an invisible giant hand.

The three elite experts disappeared on the spot, not even their bones were left.

Although the remaining three, including the elite Captain, were lucky enough to survive, they were also in a terrible state. They were either missing an arm or a leg. The most tragic one was only left with half a body. They were holding on to their last breath purely by relying on their powerful strength. There was no way they could turn the situation around.

"Wu Ya! Still not attacking!"

The elite team leader's eyes almost popped out of their sockets.

Just this one attack had wiped out half of his team!

Lin Yi and the other two's powerful attack had destroyed all of his confidence. Ever since he had followed Xu Anshan, his team had always been successful. They had never suffered such heavy casualties!

Now that things had come to this, he could only pin his last hopes on Wu Ya.

even though they did not get along, he still acknowledged wu ya's strength. after all, he was a tough character who had fought with xu anshan before. there was no doubt that wu ya's individual strength was far above the elite experts.

"weren't you so enthusiastic just now? now you want me to clean up your mess?"

wu ya laughed coldly, but he didn't have the slightest intention to help. he was still crouching on the ground and investigating du wuhui's secret room, which he had been thinking about. he had a posture that showed that he wouldn't give up until he got what he wanted.

looking at the situation, if he couldn't find the so-called secret room, he wouldn't even bother to attack lin yi.

the elite captain's heart sank to the bottom of the valley. he looked at wu ya with a venomous look, then turned around and fled without hesitation with his two seriously injured subordinates.

it wasn't that he didn't have a fighting chance, but the chances of winning against lin yi's group were too low. even if he could win in the end, it'd be a pyrrhic victory-he'd have to lose the lives of his two companions and himself.

most importantly, in the end, wu ya still had to steal the credit!

retreating was the only correct choice he had at the moment.

"Should we chase?"

Wei baizhan looked at Lin Yi eagerly. These elite masters all had good domains, and if he could devour them all with his Black Tide domain, his strength would increase by another level!

Lin Yi shook his head slightly. The real threat was Wu Ya, and it didn't matter if these people ran away.

Moreover, he was a senior powerhouse at the peak of the middle stage of the consummate level. If he was forced into a life-and-death struggle, his side would inevitably suffer losses. At that time, the gains would not make up for the losses!

In the end, just as they fled to the entrance of the secret plane, a sudden burst of energy erupted from under their feet without any warning. The three of them, including the elite team leader, were petrified at a speed visible to the naked eye.

In the end, they didn't even put up a resistance and were reduced to three human-shaped stone sculptures!

Lin Yi and the other two couldn't help but feel their blood run cold at this scene.

"So it's the petrification domain of the earth element!"

After the shock, Wei baizhan's eyes were filled with a bit of uncontrollable fanaticism. In the Blacktide domain, these experts with powerful domains were the best prey for him.

If it wasn't for Lin Yi's help, even his own people would drool at the sight of it. How could he not be moved by the godly petrification realm?

"Can't you just be cannon fodder? why do you have to force me?"

Wu Ya slowly stood up from the ground, glanced at Wei baizhan, and said with a faint smile, "Little friend, you seem to be very interested in my domain? That's great, I'm also very interested in your Blacktide domain. Why don't we have a good exchange?"

"You'll have to ask our boss first. "

Wei baizhan took a step back without a trace. Although he had always acted independently, he was not so arrogant as to challenge a Big Shot at the late stage of the consummate level.

This was something that only Lin Yi could do.

Lin Yi looked at Wu Ya coldly, "You're even going to attack your own people. I'm starting to doubt the safety of the hostage in your hands. It seems like we can't carry on with our deal."

Wu Ya laughed. "It's alright. The deal is done for me."

Lin Yi and the others were stunned.

"did you really think i was looking for some secret chamber?"

wu ya laughed smugly."du wuhui's fortune should have been emptied out long ago. even if he hadn 't, the most valuable thing in his fortune would have been this independent secret realm. and now, this secret realm has fallen into my hands!"

"this sounds fresh."

lin yi and the others looked at each other. the secret realm wasn't a territory. other than controlling the entrance, there was no one who could control it.

after all, no matter how small a mystery realm was, it was still much larger than a domain. it was simply unimaginable that someone could control such a vast amount of heaven and earth ling qi. it would not be an exaggeration to say that he was like a god!

"You don't believe me? Hehe. "

Wu Ya reached out his palm and moved slightly. A vast territory power instantly covered the three of them. In just an instant, the three of them felt their feet go numb and were about to turn into stone!

Lin Yi and the other two quickly retreated.

However, no matter how they moved, that power followed them like a shadow. To be more precise, it was not the same power that was chasing them. Every time they landed, a petrifying power would appear in advance.

Even though the three of them were already more than ten miles away from Wu Ya, the petrifying power was still present everywhere!

"Isn't this a little too exaggerated?"

Wei baizhan couldn't help but click his tongue. This distance had already far exceeded the domain limit of a giant in the late stage of the consummate level. Not to mention Wu Ya, even the first seat Xu Anshan's domain range couldn't reach such a shocking degree.

Even Banshi Luo, who was proficient in the domain doubling technique, might not be so shocking!

"This isn't his own domain," Yan Zhongyuan said with a deep voice. "It should be some kind of awakening of the earth element domain!"

Domain awakening was an ability that could only be touched upon after one's domain cultivation had reached an extremely high level. The weakest domain awakening was at the late-stage of the consummate level of a giant.

It was said that after awakening, the surrounding environment would be assimilated by the domain, forming a special half-domain boundary.

Although a half-domain couldn't provide the user with an endless supply of spiritual Qi of related attributes like a domain, it could make the power projection extremely fast without any loss in the process.

Chapter 9598

Just like now.

Although Wu Ya's petrification domain was still the same as before and had not expanded in the slightest, his petrification power could appear anywhere in the mystic realm at any time, making it impossible to guard against!

In other words, as long as they were in the secret realm, the three of them had to be on guard against his attacks.

He didn't need to accumulate power or raise his hand.

As long as Wu Ya willed it, killing intent would descend at the feet of the three of them at any time!

At this rate, unless Lin Yi and the other two escaped the secret realm at once, they would end up like those elites!

However, before the three of them could get close to the entrance of the secret realm, they were forced back by the petrifying power that burst out from under their feet. This kind of power was too difficult to deal with, and normal defensive methods were useless. They could only try their best to avoid it.

With that, unless Wu Ya intentionally went easy on them, Lin Yi and the other two had basically lost all hope of escaping.

After all, no matter how fast Lin Yi was, he couldn't outrun the power of petrification.

The only remaining option was to kill Wu Ya himself!

"Hehe, you really want to make a move on me? you guys didn't really think that I went through so much trouble to get here just to kill a Lin Yi like you, did you?"

Wu Ya destroyed Lin Yi's clones as he spoke.

Logically speaking, Lin Yi's clones were already quite strong, and it wasn't that easy to deal with them with normal methods. The point was that he could even create clones, and there were endless clones within his domain. Unless he used his absolute strength to crush them, there would only be more and more of them.

However, when it came to Wu Ya, it could be broken with a snap of his fingers!

Lin Yi's clones could withstand most of the direct hits, but they had no resistance to this petrifying power. As long as a trace of it entered the body, it would be destroyed immediately.

It could be said that Wu Ya was a natural counter to a Clone Master like Lin Yi!

"If they're not targeting me, then they're after this Moon Palace Mystic realm?"

Lin Yi replied as he continued to attack with Yan Zhongyuan and Wei baizhan, but it was to no avail.

The petrifying domain could petrify anything in an instant. Moreover, because Wu Ya's realm was high enough, the things that he petrified were extremely strong. Even a full-force attack from an expert like Wei baizhan couldn't break through his defense!

Lin Yi couldn't help but sigh.

Even if he reviewed the battle afterward, his previous choice couldn't be said to be wrong. After all, the six elite experts had already hit him in the face. He couldn't just leave them be.

In fact, the three big shots at the peak of the early stage of the consummate level had completely defeated the six big shots at the peak of the middle stage of the consummate level in the time it took for two incense sticks to burn. Such an astonishing battle result could be considered perfect even in the entire cultivation world.

As for trying to interrupt Wu Ya's petrification domain while fighting against the six elite experts, it was a little ridiculous.

But now, from the overall review, as long as they couldn't stop Wu Ya's domain awakening, it was a failure!

However, this kind of failure was unavoidable.

Although the petrification domain could attack and defend at the same time, it was not without weaknesses. Unlike being able to attack at any time, its defense was completely built on petrifying objects.

And no matter how fast it was petrifying, it still needed a process!

As long as they could penetrate its defense before it was petrified, they could turn the situation around.

Unfortunately, Wu Ya had already completed his domain awakening. The entire secret realm was his defense. As long as he didn't underestimate his enemy, even Lin Yi wouldn't be able to get close to him in such a short time.

Wu Ya sneered, "Moon Palace secret realm?" Do you think this place looks like the moon Palace Mystic realm?"

"Of course, this is not the Moon Palace secret realm, but it might have something to do with it. Maybe there are some hidden clues here."

While Lin Yi was trying to attract their attention, Yan Zhongyuan and Wei baizhan were attacking at full force.

Gravitational wave!

Thunder Dragon Kingdom!

Originally, although any of these two moves were large-scale attacks, they would not be able to land on Wu Ya's head. After all, the distance between the two was controlled very well. However, after the two moves were superimposed, the attack range suddenly expanded by more than three times and just covered Wu Ya's head.

"There's such a thing?"

Wu Ya's eyelids twitched. He was only distracted for a moment, but he had actually suffered such a blow.

these two people were indeed rare geniuses!

if it were any other expert, even if they were a powerhouse at the peak of the middle stage of the consummate level, they would be seriously injured if not dead after being ravaged by the combined gravitational waves and the thunder dragon kingdom.

unfortunately, they were facing wu ya.

the moment the gravitational wave and the thunder dragon kingdom landed, wu ya's skin was petrified. his defense was as strong as a cold iron divine weapon. it was already his limit to break a layer of skin!

"an ant trying to shake a tree, you're looking for death!"

wu ya was furious. he had always thought that he was someone who could fight with xu anshan. even if he was not xu anshan's match after his domain was awakened, he was still someone who was second to only one person. how could he tolerate a few unknown rookies stepping on his nose and face?

however, before he could react, a spiritual sense explosion immediately exploded in his sea of consciousness!

this was the real killer move.

Petrification could block physical attacks, but it couldn't block divine sense attacks. The two were not in the same dimension at all.

Even with Wu Ya's realm, he could not withstand such a domineering consciousness technique and was stunned on the spot.

By the time he came back to his senses, Lin Yi's clones had already appeared around him, and a bone-chilling destructive aura enveloped the entire area.

Annihilate domain, activated.

The space where Wu Ya was was immediately wiped clean.

"No more? That's it?"

looking at this scene, wei baizhan couldn't help but feel both fortunate and regretful."damn, what a waste of my petrification domain! if i can swallow it, killing a big shot at the peak of the middle stage of the consummate level will be as easy as playing with him. damn, what a pity!"

"he's not dead!"yan zhongyuan frowned.

as soon as he finished speaking, a human-shaped stone sculpture emerged from the ground in the distance. then, the petrification faded. it was wu ya!

"good boy! he almost capsized in a ditch. as expected of a person who could enter the chief's eyes, he really has some skills!"

wu ya looked at the expressionless lin yi and felt a wave of fear.

if he were to really suffer this time, even he, a big shot at the late stage of the consummate level, wouldn't be able to withstand it!

fortunately, he had completed the foreshadowing of his domain awakening in advance, which allowed him to activate the power of his domain without any accumulation of energy. he could use a petrified clone to replace his real body. otherwise, he would have been dead by now.

even so, it still made his heart jump!

"same to you."

lin yi and yan zhongyuan looked at each other, their hearts sinking. this was the best chance to kill them, but they didn't expect it to be in vain.

Chapter 9599

In the future, the other party would definitely be more vigilant, and it would be even more difficult to find a flaw to attack ruthlessly.

"Hehe, you look quite calm,"

Wu Ya stood up slowly and continued with great interest, ""Forget it. It's rare for me to make such a big move. It's indeed not very good for a few fools who don't know what's good. For the sake of you people who are about to die, I'll let you broaden your horizons!"

With that, the ground beneath their feet began to surge. Under everyone's shocked gazes, a dark yellow crystal made of pure energy emerged from the depths of the ground, breathing as if it were alive.

The dark yellow crystal landed on Wu Ya's hand, and the energy that leaked out from it made the three of them jump. They had to resist with all their might, otherwise they would be destroyed in minutes!

"Secret realm nuclear core!"

Lin Yi and the other two looked at each other-they didn't think that the other party would even come up with this!

For any secret realm to be able to exist as a stable and independent space, its essence was that there was an inner core that continuously provided energy, stabilizing the space barrier and the secret realm's passage.

Once the core was destroyed, the secret realm would immediately collapse.

At this moment, the core was in Wu Ya's hands. Even though it was not destroyed, the entire secret realm began to shake and it looked like it would collapse at any time.

"Not bad, you know your stuff."

wu ya looked at the three of them with pity."as a freshman, knowing about the core of the mystic realm can be considered as a vast experience. however, it's at most limited to hearsay. i'm afraid that you still know nothing about the true usage of the core of the mystic realm. after all, your level is too low."

with that, he put the core in his mouth under the shocked gazes of the three.

as the inner core entered his stomach, the entire secret realm instantly became more and more unstable, and the signs of mountains collapsing and the earth cracking became more and more obvious.

at this rate, the secret realm would collapse in minutes!

"he can even withstand this? are all late stage consummate level experts this exaggerated?"

wei baizhan was dumbfounded. he couldn't stand the slightest bit of the aftermath, and the other party actually dared to swallow it raw. even an iron stomach wouldn't be able to stand it, right?

Lin Yi frowned,"he probably petrified the surface of his organs and used the petrification power to cover the entire core, creating a seal-like effect."

"Turning yourself into a sealed vessel. This method sounds a little strange."

Yan Zhongyuan, who was at the side, said something rare.

In order to quickly pursue great power, the evil sects often took risks and sealed evil and powerful things in their bodies for digestion and absorption. This practice was common.

However, in the end, they were often bewitched by evil things and eventually reduced to human puppets that were like walking corpses.

"Evil? Hahaha, what a joke. In this world, only weakness is the original sin. Does it matter if it's evil or not?"

Wu Ya sneered. "Just like you. You're about to become dead. Whether you're good or evil, does it have any damn effect on you?"

As he spoke, an unprecedented petrifying force pressed down on the three of them. It was more than a hundred times stronger than before!

The area it covered was too big, almost covering the sky and earth. Lin Yi and the others didn't even have the chance to Dodge before they were crushed.

In a breath's time, the three of them were reduced to three human-shaped stone sculptures on the spot!

But Lin Yi's statue disappeared right after.

Wu Ya's eyelids twitched, but he did not panic. He snorted disdainfully, ""This again? Now that the entire secret plane is under my control, what can your little tricks do?"

"Then let's try."

Lin Yi's calm voice sounded from the top of his head. If there were any blind spots in the petrification field, it would be that it couldn't defend against the air, just like most earth fields.

"Idiot!"

Wu Ya wasn't afraid at all. Instead, he laughed and struck out with his palm. The petrifying force that was as vast as the mountains and seas blasted towards Lin Yi again.

After swallowing the entire Mystic realm's core, he was now able to mobilize the heaven and earth Spirit Qi in the entire Mystic realm. His power level had already far exceeded that of an ordinary Big Shot in the late stage of the consummate level. In terms of power alone, he had even surpassed the peak of the late stage!

Even in the entire Jianghai Academy, the number of people who could withstand this palm strike could be counted on one's fingers!

At this point, Lin Yi's aura was completely locked down, and there was no chance for him to retreat. He could only watch as his body quickly petrified.

This was the real body!

In the blink of an eye, his legs had turned into stone, and in the next second, the stone had spread to his entire body. At that point, even the gods could not save him!

Lin Yi didn't even try to escape, he just used his strongest attack!

This sword had gathered all the power of the two perfect domains that had been multiplied by ten times. It was attached to the blade in an extremely condensed and high-pressure manner. It was a domain black hole.

The strongest against the strongest!

The vast petrifying power was absorbed madly the moment it came into contact with the black hole. The black hole's ability to absorb everything was displayed to its fullest.

wu ya, who thought that he was invincible, was shocked. he knew that lin yi must have some powerful trump card to be able to kill du wuhui, but he didn't think that he would still underestimate lin yi even though he had already overestimated him!

if it wasn't for the fact that he had already swallowed the mystic realm's core, which allowed him to mobilize a power that was a hundred times more than his normal state, and that even the black hole domain couldn't devour it completely in an instant, he would have probably followed in du wuhui's footsteps.

"hahaha! it seems like the heavens are still watching over me. you can die in peace!"

wu ya saw that lin yi's entire body had been petrified and could finally laugh out loud. the tip of the demonic devour sword had already broken through all his defenses and was almost in his chest.

even so, wu ya was still filled with fear.

this battle was supposed to be a one-sided victory, but it turned out to be so dangerous. just like how lin yi couldn't block his petrification, all his defenses were useless against the black hole.

to be able to have the last laugh, it was really pure luck.

"is that so?"

a spiritual will suddenly flashed in his sea of consciousness, and his laughter came to an abrupt end.

never would he have thought that lin yi would plant a second primordial spirit seed in his sea of consciousness during the gap between the explosion of the consciousness. this was the real killer move!

a second divine sense explosion!

wu ya's entire body froze once again. when he recovered from his dizziness, he was shocked to find that the mystic realm core that he had swallowed had disappeared.

at the same time, a thick layer of stone fell off lin yi's petrified body, and he was like a withered tree in spring, full of life!

even yan zhongyuan and wei baizhan, who were far away, also recovered.

Chapter 9600

"Impossible! It's impossible!"

Wu Ya suddenly became hysterical. It was true that the person who was petrified by him would not die completely in a short time. As long as he took the initiative to undo the petrification, there was still a possibility of resurrection. However, the premise was that he took the initiative to undo it!

No one could dispel his petrification, not even Xu Anshan!

But tie Zheng's reality was right in front of him, and even if he didn't believe it, he couldn't change the cruel reality that Lin Yi had turned the tables.

At this moment, because he had forcibly devoured the entire Mystic realm's core from his body, the black hole domain attached to the demonic devour sword's blade had become even deeper and unfathomable. Even the scale and level of the black hole domain had increased by a lot, and it had become an advanced version of the black hole domain.

Lin Yi couldn't be bothered with the guy's noise and pierced through it with his sword.

The high and mighty late stage consummate level expert was as fragile as a piece of paper. At this moment, he couldn't put up any resistance in front of the demonic devouring sword.

This was the result of Lin Yi holding back on purpose. Otherwise, if the black hole opened up, Wu Ya wouldn't even be left with a corpse, let alone survive.

"You can't kill me! Tang Yin's still in my hands!"

Wu Ya was finally crushed by the great horror of life and death. He stretched out his last breath and begged for mercy.

Lin Yi looked at him like he was an idiot, "You really think I'll believe you?"

Wu Ya's expression changed. "So many videos have been spread all over the internet. Why don't you believe it?"

"Haha, you didn't even show a proper face in those videos, only a voice. Even if you did show Tang Yin's face, I wouldn't have believed a single thing."

Lin Yi chuckled to himself.

He had never believed in this scheme from the very beginning. He had only played along and attracted all of the other party's attention to himself in order to buy time for the rebirth Alliance's main forces to shift.

Come to think of it, you're a native of a Sky Class Island, why are you playing with technology with me, a modern man of the secular world?

Wu Ya felt as if he had fallen into an ice cellar, but he still did not believe in heresy. "Where did you find the flaw?"

"You guess."

Lin Yi smiled and beckoned for Wei baizhan to come over. "He's yours. Enjoy him. "

"Alright, thank you for the reward, boss!"

Wei baizhan was overjoyed. He immediately released his Natal Blacktide domain to completely envelop Wu Ya. Wu Ya struggled in despair, but it was all in vain.

After today, with the lightning domain and the petrification domain, Wei baizhan's strength would rise again!

While Wei baizhan had gotten a huge bargain, Lin Yi's gains were naturally not small.

The mystic realm's core that had been swallowed by his black hole was priceless. After all, unless he was desperate, he would not sell such a valuable asset.

Even if someone were to make a move, it would definitely be digested within the small circle of the top and would never flow to the market. No matter how many spiritual jades ordinary people had, they would not have the right to touch it!

Of course, now that the mystic realm core had become the nourishment for the black hole, it was impossible to take it out again. However, it had increased the power of the black hole by a lot.

If the original power was one, then the power of this advanced black hole was at least ten!

Not only that, when Wu Ya pulled out the core, it was only for a split second, but Lin Yi's spirit sense could still sense it.

"This is the place."

Lin Yi pointed at the location, and Yan Zhongyuan understood. He thrust his palm into the ground and activated his gravity domain, lifting the ground up by dozens of meters.

An extremely well-hidden underground secret room came into view.

Du wuhui had really built a secret chamber here!

"It's alright. At least there's some good stuff. We didn't make a wasted trip. "

Lin Yi immediately saw the two perfect territory stones that du wuhui won last time-one wind and One Earth. He could use them now!

In addition, there were more than a dozen rare treasures on display.

One of them was a glaring Vajra statue cast from five-colored divine earth. It could be worn as armor and greatly enhance one's control over earth-type power. At the same time, it could also provide a strong additional defense. It was a top-grade item that combined both attack and defense.

"Old Yan is yours."

Lin Yi threw it to Yan Zhongyuan without a second word.

This glaring Vajra was limited to earth element experts. Although he could use it himself, and as expected, he would soon be able to master the perfect earth element domain, and if he really wanted to develop it well, he would definitely not be weaker than Yan Zhongyuan.

However, this thing didn't match his usual style of playing as a fast player. Only in Yan Zhongyuan's hands would it be able to display its full power.

Yan Zhongyuan didn't hesitate at all. He took it and put it on.

As soon as the five-colored holy soil touched his body, it turned into a thin layer of skin-like armor. If one didn't pay attention, they wouldn't even notice it. However, after putting it on, Yan Zhongyuan looked a lot fiercer, like a king Kong. Even Lin Yi could feel the pressure from it.

As for the rest of du wuhui's treasures, Lin Yi didn't plan to keep them in his hands. He was going to distribute them all so that the core members of the newborn Alliance could get one.

In the current environment, no matter how good something was, it would be useless if it could not be converted into combat power in time.

Wei baizhan was still devouring the petrifying domain bit by bit, and Lin Yi wasn't in a hurry to leave. He took out his nine-story glazed Pagoda and started his isolated practicing.

After all, Lin Yi was the most eye-catching person in the Alliance right now. As long as he didn't appear in the public eye, the Alliance would be able to lay low for a while.

Whether it was Lin Yi himself or the new recruits, they all needed some time to digest the results of the previous battle.

Battles could speed up the transformation, but the transformation itself still needed time.

The Academy's prison.

As the situation of the war between the first seat and the native faculty became clearer and clearer, the atmosphere around the academy prison began to become somewhat subtle.

Especially after Shen Yifan led the new student Alliance into the city, it attracted countless eyes to spy on them.

The hottest topic on the internet was whether Banshi Luo would make a comeback!

Based on the current situation, the native faculty had lost the upper hand, and it was almost certain that the chief faculty would be united as a whole, but the premise was that the biggest variable, Banshi Luo, would not make a move.

If the rumors on the internet were true, Banshi Luo, who had been silent for many years, could not help but make a move, then the situation would be complicated.

In order to cope with this possible change, the chief faculty had already begun to make various arrangements for the Academy's prison. All kinds of military organizations, both in the light and in the dark, had been placed near the Academy.

The moment the Academy made a move, they would immediately form a siege!

not only that, but several top combat forces from the school council had also taken their respective positions.

these were all old rivals of Luo Banshi during the war between the elite and the commoners back then. they were all super big shots who stood at the top of the pyramid!
