

Bodyguard 9601

Chapter 9601

"The tree wishes for peace, but the wind will not stop."

Banshi Luo looked at the chessboard in front of him and sighed.

His opponent was a young man, the same as Lin Yi-he'd been the rising star of the new generation ten years ago, and even won the ten strongest seats in the ten-seat tournament.

If it wasn't for the fact that he was set up and forced to escape to the Academy's prison, this person would have been a heaven's pride figure at the peak of his power.

His name was Chen Guo, and he was the second-in-command of the Academy's prison.

"Xu Anshan has caught the native element off guard, the situation is bad! We're not fully prepared yet. At this time, it's better to stay still than to move. "

Chen Guo paused and slowly ate a piece on the opposite side. "The rebirth Alliance is a problem. Their arrival has directly exposed us to everyone. If we can't bear it, it will ruin our big plan. I suggest that we let them live and die."

Banshi Luo shook his head gently. "There's no need to mention this again. I don't have the habit of abandoning my own people. I didn't in the past, and I won't do it in the future."

"They're considered our own people?"

Chen Guo frowned, "from the beginning to the end, only Lin Yi met you once. Even Lin Yi himself has never expressed anything about this. Even the people from the new student Alliance wouldn't think that they're half a master, right?"

"There's no semi-master class, only the civilian class," Banshi Luo warned. "Don't get it wrong."

"Yes."

Chen Guo nodded sincerely. To him, Banshi Luo was both a teacher and a father. It was all thanks to Banshi Luo that he was able to walk out of the shadow of his defeat back then.

Without Banshi Luo, there would not be the State of Chen today.

"It doesn't matter if they have the self-awareness of being a commoner or not. As long as they have the awareness to fight for themselves, they are naturally our comrades in arms." Banshi Luo continued.

"Chen nation, if you want to succeed, you must first learn to be tolerant and to unite all our potential allies."

"Yes, this disciple understands."

Chen Guo humbly accepted the lesson. He respected Banshi Luo from the bottom of his heart, and had always considered himself as Banshi Luo's direct disciple. He was far from Han Qi and Lin Yi, who had only met once or a few times.

Seeing Banshi Luo's attitude, Chen Guo changed his mind and said, ""The situation outside is dangerous, and the newborn Alliance is new here and doesn't know our rules. In order to prevent them from causing trouble, I think it is necessary to train and reorganize them so that they can have a unified command."

banshi lu remained silent.

chen guo struck while the iron was hot."as long as we truly convey your ideas to them, i believe that these new students will sincerely join our team. after all, a plate of loose sand is not a long-term solution. if we want to continue, we must clench all our strength into a fist."

"if this matter is not handled properly, it will be very troublesome," banshi lu said after a long while.

"don't worry, master, i'll handle it myself," chen guo promised.

"it's for the big picture, but you have to get lin yi's permission first. "

luo banshi finally said, ""no matter what, the overall situation can not be messed up. there must be no unnecessary internal friction."

"i understand."

chen guo was secretly happy. now that he had obtained banshi luo's permission, he could officially swallow up the people of the newborn alliance. this group of people's proud battle records were there, and as long as they were trained properly, they would definitely be a rare fresh army.

time passed day by day, and with the destruction of chen qingnian and zhang shichang's main forces, the civil war among the ten chiefs, which everyone had been paying attention to, was finally coming to an end.

however, there was no sign of slacking in the chief department. instead, they were getting more and more prepared. more and more heavyweight personnel and top combat power were arranged around the academy's prison.

there were more and more signs that showed that xu anshan's goal in this battle was not only to destroy the native faculty and unify the entire ten-seat council. more importantly, he wanted to take advantage of the situation to eliminate the entire academy!

as long as banshi luo was still around, he would not be able to rest easy.

A storm was coming, and Lin Yi was completely oblivious to what was happening outside-he was still practicing in the mystic realm.

With his previous experience, he was already familiar with the process, and his efficiency was several times faster than before. Especially with the nine-story Pagoda's time acceleration, only two days passed in the outside world, and Lin Yi had successfully completed the perfect earth element domain.

And now, his wind element perfect domain was about to take shape.

With four perfect domains combined, even though his cultivation level was still at the peak of the early stage of the consummate level, his battle prowess had increased by several times!

After all, be it the domain doubling technique or the domain black hole that increased the strength of the domain, their power was built on the foundation of the domain.

The stronger the foundation, the fiercer the amplification effect, and the more terrifying the power!

Moreover, no matter if it was a wind element perfect domain or an earth element perfect domain, as long as he focused on digging, he could develop a powerful killing move that was not weaker than wood element annihilation or metal element edgeless.

Even if Lin Yi didn't develop anything, he could just make use of the advantages of a perfect domain and create something like a petrification domain or an earthquake domain.

At the same time, Wei baizhan and Yan Zhongyuan didn't stay idle.

The former was naturally busy devouring the petrification domain. With the unique effect of the Blacktide domain, once he finished devouring, he would not only be able to control the petrification domain directly, but he would also obtain a part of the domain power from Wu Ya.

That was a big Shot in the late stage of the consummate level. Even if he only absorbed 10% or 20% of it, it would be a great fortune for Wei baizhan that would increase his strength by several times!

On the other side, Yan Zhongyuan's situation wasn't as direct as Lin Yi 's.

However, in terms of actual gains, it was not inferior to the two of them at all, and might even be better!

He had an epiphany.

The glaring Vajra statue made of five-colored divine soil was rare on the market, but in terms of value, it was far less than a perfect territory origin stone.

However, in the process of Yan Zhongyuan studying how to use the glaring Vajra statue, he actually entered a state of enlightenment. And it wasn't a normal enlightenment, but a legendary deep enlightenment that allowed him to advance a thousand miles in a day!

His mastery of the mutated earth element gravity domain soared at a speed that was visible to the naked eye, and the strength of the domain also increased.

In a moment, he had broken through!

Without any warning, Yan Zhongyuan surpassed Lin Yi and became the first new master to step into the mid-stage of complete realm of a giant in this golden generation!

It was not over yet. From his posture, it seemed that he had no intention of stopping his deep enlightenment. The domain power overflowing from his body was still being condensed and enhanced, and the strength of the domain was still increasing rapidly.

At this rate, it was not impossible to break through two realms in a day!

Chapter 9602 Power

"This is the horror of extreme concentration!"

Lin Yi couldn't help but feel excited for Yan Zhongyuan. Yan Zhongyuan's cultivation philosophy was much purer than Lin Yi 's, who was destined to be in all fields from the beginning.

He only focused on gravity.

Not to mention other attributes, Yan Zhongyuan didn't even know how to use the earth element. From the beginning to the end, he only knew how to use gravity.

Other than that, he didn't have any other thoughts. He didn't ask about anything other than being Lin Yi's fighter when it was necessary.

This was a cultivator who was pure to the extreme.

It was because of the pureness that he could go deep into enlightenment-even Lin Yi couldn't hope for this!

A few days later.

In du wuhui's bedroom, the four magnates, who were at the peak of the middle stage of the consummate level, were completely unaware of what was happening in the secret realm. They were still guarding the exit of the passage with great caution.

"It's been seven days. Will there be any problems?"

Finally, someone could not help but ask.

The other three looked at each other-it wasn't unusual for a fight between Masters to last ten days and ten nights, and it wasn't good news for them to have an absolute advantage over Lin Yi's group for so long without any movement.

However, they did not dare to enter the secret realm rashly. After discussing for a long time, they could only continue to stay outside and carefully set up the four-man absolute kill formation to ensure that nothing would go wrong.

Finally, just as the four of them were about to run out of patience, there was finally some movement in the secret plane's passageway.

"They're here!"

With the appearance of the vague figure, a powerful spiritual awareness instantly attacked the four people's sea of consciousness, causing them to fall into a temporary dizziness.

At the same time, a familiar petrifying force emerged from under their feet and invaded their bodies in an instant.

From the beginning to the end, they didn't have any chance to fight back. Without a word, they were reduced to four human-shaped stone sculptures. As for the ultimate killing formation that they had carefully set up, it could be activated by itself, but before it could even start, it was suppressed by an unprecedented gravitational wave and couldn't even let out a fart.

"You didn't even call for reinforcements. Are you looking down on us?"

Wei baizhan casually shattered the stone sculpture into pieces, but he was secretly shocked.

Four peak of the middle stage of the consummate level couldn't even take a single blow from the three of them-following Lin Yi was the right choice!

"It's a pity,"

Lin Yi turned around to take a look-it wasn't the four elites who died with their eyes wide open, but the entire secret realm behind him.

Since he had already absorbed the core of the mystic realm, he couldn't spit it out again. Although the value of an independent Mystic realm was immeasurable, even if he took out the core of the mystic realm, he couldn't put it back in one piece.

When Lin Yi was in there, the secret realm was barely stable, but now that he was out, the whole place collapsed.

Even du wuhui's bedroom was destroyed, turning into ruins in the blink of an eye.

This place could have been a good base for the newborn Alliance, and they could have used it to lie low during critical moments. However, it was all gone now.

Wei baizhan chuckled."It's not a pity. With the strength of our newborn Alliance, wouldn't it be a piece of cake to snatch a few independent Mystic realms in the future?"

"Alright, I'll leave this to you." Lin Yi nodded.

Wei baizhan was dumbfounded.

The Academy's prison.

After a few days of interaction, the freshmen of the freshmen Alliance had begun to adapt to the rhythm of the prison.

On one hand, after the series of big battles, the freshmen had already formed a strong sense of unity. No matter when and where they were, they could stay together for warmth. Their ability to adapt to the environment was naturally stronger.

On the other hand, the Academy's prison had deliberately infiltrated and absorbed the various members of the freshman Alliance under the instigation of the second-in-command, Chen Guo.

"If this goes on, there will be a big problem. Although the loyalty of the freshmen to Lin jiuxi is high, they can't afford to be infiltrated on such a large scale."

bai yuxuan was extremely worried about the current situation.

based on the current situation, although it was already certain that the freshmen alliance and the half-master faculty would stand together, it was not to the point where they could not distinguish between each other. even if they were depending on someone else, they still had to maintain enough independence.

especially now that lin yi wasn't here, if they didn't do anything to interfere, the half-master class's powerful brainwashing ability would wipe out the entire new student alliance.

in fact, many of du wuhui's original subordinates had already wavered, and it wasn't just one or two of them. the key was that they continued to stay in the team and became the new propagator of joining the semi-master department.

if this continued, within these few days, there would probably be an organized change of allegiance.

"we can't go on like this. call sanniang and the others. we'll go see banshi lu."

shen yifan made a prompt decision. he suddenly realized that this might be the most terrifying crisis the newborn alliance faced since its establishment!

a group of core members quickly gathered. as the actual leaders of the freshmen alliance, they had a deeper understanding of this problem than shen yifan. some people had even brainwashed them.

However, Shen Yifan and the others did not see Banshi Luo.

It wasn't that Banshi Luo was powerful, but that he had been stopped by someone.

Chen Guo looked at the crowd with a smile, "what's the matter for you to gather so many people?"
Could it be that there was a problem with the logistics for the new students? Don't worry, as long as you mention it, I'll immediately resolve it. In any case, I'll give priority to the freshmen. This is also the order that the half-master personally gave me. "

"Chief Chen, you have misunderstood. The logistics supply that you have provided us with is very thorough and there is no weakness. I represent the newborn Alliance to thank you."

Shen Yifan cupped his hands and went straight to the point, "We've taken the liberty to ask for an audience with the demi-master because we have a presumptuous request. We hope that the demi-master will allocate us an independent area for us to conduct closed-door training. Of course, we will also pay the corresponding remuneration."

"Closed training?"

Chen Guo's scrutinizing gaze swept across everyone's faces. Suddenly, he curled his lips and smiled. "The space in the Academy's prison is limited, and we have to take care of everyone's activity space. I'm afraid this request is a bit too much."

"That might not be the case."

Qiu Sanniang stepped forward and said, "I've heard that Banshi Luo has an independent arcane realm, and it's not a low level one either. It's all thanks to that arcane realm that the Academy's prison could develop to its current size. It shouldn't be that difficult to draw out a small area from it, right?"

without the support of an independent arcane realm, no matter how powerful banshi luo was, it was impossible to manage the completely closed forgotten land to such a prosperous state.

not to mention other things, just the logistics problem alone could not be solved.

Chapter 9603 The End

The State of Chen raised his eyebrows slightly. "Miss Qiu is quite well-informed. Yes, we do have such a place, but I'm sorry that we can't open it to the public. After all, it concerns the foundation of our career. I hope you can understand, unless ..."

"Unless what?"

Chen Guo smiled. "Unless we become a family completely. There will be no distinction between us. Then, there will naturally be no need to have any scruples."

Shen Yifan, Qiu sanniang, and the others looked at each other and said, "I'm afraid that's not very realistic. How can we, a group of new students, have the nerve to be on equal footing with a half-master?"

In other words, the freshmen Alliance and the half-master faculty could only have a cooperative relationship of equal status.

"....."

Chen Guo looked at Shen Yifan in surprise. He wouldn't be surprised if Lin Yi said something like that, but Shen Yifan wasn't Lin Yi.

"Junior Shen, if that's the case, then this matter will be difficult to handle."

Chen Guo's face did not show much worry. He had enough patience to swallow up the newborn Alliance. Even without the cooperation of Shen Yifan and the others, it would only take a few more days.

After all, no one could stop people from climbing higher.

Shen Yifan muttered, "if that's the case, then I'll just say it. Our newborn Alliance indeed looks up to the demi-master, but it doesn't mean that we will join him. We are allies who will advance and retreat together. Therefore, I'm afraid that the words and actions of your people these days are not appropriate."

"Why not? Since we're going to advance and retreat together, we have to understand each other. Is there a problem with my people introducing the half-teacher's deeds and philosophy to the new students?"

The smile on Chen Guo's face suddenly disappeared, and his domineering aura spread out. The entire scene suddenly became oppressive, making Shen Yifan and the others feel as if they were sitting on pins and needles.

This person was even more terrifying than Han Qi and Ji Chi!

However, Shen Yifan was not an easy person to deal with, so he instantly returned to normal and said, "Publicity and brainwashing are two different things. Everyone here knows what's going on. Chief Chen, there's no need for you to use such perfunctory words. It's meaningless."

"Alright, since that's the case, let's be frank."

Chen Guo didn't try to cover it up and said in a majestic manner, "With the current situation in the college, only our half-teacher Department can compete with the Dux Department. If we don't send out our half-teacher Department, whether it's Shen Qingnian or Zhang Shichang, they can only struggle on whilst at death's door. As for your freshman Alliance, you don't have the ability to be independent at all. You can only follow one side and become a vassal."

"Equal allies? You're not three years old kids. Don't you think it's ridiculous to say such things when your strength is completely different?"

Shen Yifan frowned. "When we came in, half-master personally promised to treat us as equals. This is also his promise to our boss. Could it be that half-Master's words don't count?"

"Of course I mean what I say, but I'm afraid you don't understand it completely."

Chen Guo smiled faintly. "The demi-master has always treated all of us brothers as equals. Naturally, he treats all of you the same. From the moment you stepped into the prison, you should have realized that you have already become a part of the demi-master faculty."

A sheep entering the Tiger's mouth!

The backbone of the newborn Alliance suddenly felt a chill run down their spines. If they had known this would happen, they would have resisted outside. They might have had a chance of survival if they joined forces with Shen Qingnian and Zhang Shichang!

It was too late to regret now.

"Since you don't have any self-awareness, I'll help you. I'll let you learn self-awareness."

A smile reappeared on Chen Guo's face, but it was even more creepy. "You're welcome. We're all one family. "

A team of prison experts immediately surrounded Shen Yifan and the others.

These people were originally extremely vicious criminals. Not only were their realms extremely high, but their actual combat ability was also far beyond their peers. Now, they were all intimidated by the half-master and became the backbone of the half-master Department.

"Chief Chen, are you planning to use force?" Shen Yifan looked at the other party coldly.

Chen Guo laughed. "Don't misunderstand. I'm just doing this out of practical consideration. I'm asking my people to help you train the freshmen. After all, time waits for no one. We have to quickly raise the strength of the freshmen. And you guys are really too weak, so I can only overstep my duties."

Qiu sanniang sneered, "what a good way to overstep your boundaries. I'm afraid that by the time you're done with your training, the entire rookie Alliance would have been eaten up by you."

As he spoke, he rushed out.

She was the only female among the core members, but her temper was the first in the newborn Alliance to be so strong!

Qiu sanniang's pair of long legs moved up and down. No matter when, her kicking skills were always as beautiful as a painting.

Moreover, her current strength was no longer what it was in the past. A figure who was able to kick down a Big Shot at the peak of the middle stage of the consummate level two levels higher in a one-on-one battle would become the focus of attention no matter where she went!

"She's a pretty good woman. Even I'm a little moved. Maybe I'll really have to discuss with Zhang Shichang later and give him a betrothal gift. Of course, the premise is that he has to come out alive from Xu Anshan's hands."

Chen Guo's eyes brightened. It was not that there were no powerful female cultivators at his level. The original owner of the Academy prison was one of them. Unfortunately, that person was not easy to get close to. However, Qiu sanniang's image and temperament were more in line with his appetite.

After all, she was the number two figure in the half-master Department. She couldn't possibly not have a female cultivation partner.

"Shameless!"

Qiu sanniang's anger flared up immediately. Since her brother's death, Zhang Shichang had been her blood-related brother. Anyone who dared to punish Zhang Shichang was stepping on her reverse scale!

Qiu sanniang's figure flickered as she pounced towards the State of Chen.

I don't care what bullsh * t chief you are, I don't care what kind of number two figure you are, I don't care how many levels your cultivation is higher than mine, if I want to cripple you, no one can stop me!

At the same time, Shen Yifan and the others also tacitly made their move, ready to support Qiu sanniang at any time.

"Interesting,"

The State of Chen remained unmoved as Qiu sanniang charged at him. Just as the tip of Qiu sanniang's foot was about to land on his face, a pair of Iron Hands with a strong metallic luster suddenly reached out from the side.

A short man with a terrifying aura appeared beside him.

Qiu sanniang's eyes twitched.

This man had once run amuck in the Academy. His pair of iron fists had made countless Masters tremble in fear. Even after he had publicly committed a murder, even the Discipline Committee could not do anything to him. In the end, they had to find trouble with Zhang Shichang, which was why they had been defeated and captured.

With Qiu sanniang's relationship with Zhang Shichang, she had naturally heard of this matter, but she never thought that she would actually meet this person at this time!

The fist and the leg collided, and a violent shock wave instantly swept across the entire field. Qiu sanniang was sent flying, unable to stand properly. It was obvious that she had suffered a serious injury.

On Zhao Shanhe's side, his iron hand was covered in ice crystals, and an extremely cold aura of ice was spreading from his palm to his wrist.

Chapter 9604 The End

"Ice domain?"

Zhao Shanhe raised an eyebrow as he looked at Qiu sanniang. A mere magnate at the peak of the early stage of the consummate level had not only not been killed on the spot, but had even injured him. This was truly surprising.

Of course, this bit of freezing damage was nothing to him.

With a wave of his hand, the ice crystal was swept away, leaving no trace behind.

Shen Yifan and the others' eyelids twitched. They all knew the power of Qiu sanniang's freezing domain. Even Lin Yi couldn't stop praising her after sparring with her, but it was like a tickle to this person.

In the next second, Zhao Shanhe's figure suddenly appeared in front of Qiu sanniang and expressionlessly punched her in the face.

"I remember now, you seem to call Zhang Shichang brother, right?"

Qiu sanniang was once again sent flying.

Although he managed to protect his face with his arms at the last moment, the bones in his arms were broken, and he lost consciousness.

Zhao Shanhe did not have any intention of stopping. He turned and caught up again, throwing another punch.

This cruel scene made everyone's scalps tingle.

If this hit landed, even if Qiu sanniang didn't die, she would be crippled forever!

At the crucial moment, mist filled the entire area, a light breeze blew past silently, and a colorless flame drew a mysterious arc and wrapped around Zhao Shanhe like a rope.

Shen Yifan and Bao shaoyou attacked at the same time!

however, zhao shanhe didn't care at all. his pair of iron fists moved freely, completely ignoring the fierce attacks coming toward him. one on the left and one on the right, he directly landed on shen yifan and bao shaoyou.

the two of them spat out blood at the same time, and together with the unconscious qiu sanniang, they were thrown a thousand feet away, crashing through two thick walls!

everyone was dumbfounded.

shen yifan and bao shaoyou could be said to be the strongest fighting force in the freshmen alliance apart from bai yuxuan, but they couldn't even withstand one round of attacks!

"you can't even withstand a single blow. you're all trash."

zhao shanhe's taunting words caused everyone to feel suffocated, but they could not refute him at all. at least, from the short few exchanges, they really did not have any right to speak in front of this person.

"we'll be taking over the freshmen's training. i think no one has any objections now, right?"

Chen Guo looked at everyone with a smile.

Under such circumstances, even if everyone wanted to resist, there was no possibility of success. As long as they were collectively controlled, even if the new students were suspicious and wanted to resist, they would not be able to organize themselves.

In the end, they could only be forced to accept the recruitment, and then be separated and brainwashed separately.

The State of Chen was already very familiar with this method. Previously, they had used this method on the criminals who were collectively locked up here, and it had worked time and time again.

"Then, I'll have to trouble all of you for a while. Of course, if anyone has thought it through, I'll welcome them very much. Now is the time when we need people, and what we need are smart and capable new blood like you."

Chen Guo smiled and motioned for his men to take everyone away.

At this time, a voice that everyone was extremely familiar with and missed suddenly came, ""It doesn't seem very appropriate to take my people away without even saying a word, right?"

Shen Yifan and the others were overjoyed when they saw the figure walking over slowly.

"Lin Yi?"

Lin Yi smiled and looked at the expressionless Zhao Shanhe, "You were the one who attacked my people just now?"

"So what if I am?"

Zhao Shanhe raised his head and glanced at Lin Yi, his eyes still full of disdain.

There were new students who were blown away every year, but not a single one could withstand a single punch from him. No matter how strong a Big Shot at the peak of the early stage of the consummate level was, he could only withstand a single punch from a true expert like him.

"Nothing much, I just want to trouble you to kneel down and kowtow to my people as an apology."

Lin Yi's words had just left his mouth when Wei baizhan, who was ready to give it a try, pressed down on him with a sinister smile. In front of a giant like Lin Yi who was over two meters tall, the short Zhao Shanhe was reduced to a dwarf.

In terms of height and image, he was completely crushed.

However, after seeing this person's brutal performance just now, no one present dared to underestimate him. If he wasn't tall enough, he would make up for it with his aura!

"Yet another piece of trash who doesn't know death."

Zhao Shanhe's figure flashed, and he took the initiative to meet Wei baizhan. His speed surprised Wei baizhan.

Back then, he was able to make a name for himself as the fist devil not only because of his pair of iron fists, but also because of the Academy's top speed and movement technique. Otherwise, no matter how strong his Iron Fists were, he would only be a kite.

A punch was thrown!

However, Wei baizhan didn't fly backward as everyone had expected. Instead, he met the attack with a punch of his own, and he didn't even move an inch. He actually blocked the attack directly!

"Petrifying domain? What's your relationship with that damn Crow?"

Zhao Shanhe looked at his fist that had been petrified and was shocked. As an expert of the same generation, he naturally knew of Wu Ya's existence. Especially for his Iron Fist, the petrification domain was the natural counter!

The essence of an Iron Fist was the indestructible profound meaning of metal. However, once it was petrified, it would lose its sharpness and become extremely fragile.

He was forced to withdraw his fist.

If he really continued to forcefully smash this fist down, Wei baizhan would definitely not feel good, but his own fist would probably be crippled.

Once the stone was completely shattered, his entire palm would disappear.

"Relationship? He was killed by my boss. What relationship do you think we have?"

Wei baizhan laughed wildly. He continued to press forward with his petrifying domain. At the same time, he released his Thunder Dragon Kingdom. After the two domains overlapped, they became even more ferocious. For a moment, he actually managed to suppress Zhao Shanhe.

Zhao Shanhe couldn't help but be shocked. On one hand, he was shocked by Wei baizhan's strength, but on the other hand, he was afraid of Lin Yi.

Wu Ya was an expert of the same level as him. Back then, he had relied on the petrification domain's restraining advantage to make him helpless. He knew all too well how terrifying that fellow was. It might not be accurate to say that he was invincible among those of the same level.

However, there was no doubt that Wu Ya was definitely able to challenge those of higher cultivation levels and even reach the top of the Academy.

Even Xu Anshan had failed to kill such a person back then. How could he die at the hands of a mere freshman?

He wasn't the only one who was shocked-all the prison Masters present, including state Chen, looked at Lin Yi with fear.

However, Zhao Shanhe was still Zhao Shanhe. Even though he was restrained by the petrification domain, he was only moved for a moment. Once the iron fist domain was activated, he immediately turned the situation around.

Even if, in theory, lightning-type moves had an additional effect on a metal-type domain expert like him, the numerous lightning dragons that landed on his head didn't cause any waves.

On the other hand, Wei baizhan would not be able to withstand a punch from him.

In the end, there was still a huge gap between their realms!

Chapter 9605

"Die!"

At this moment, Zhao Shanhe was filled with killing intent. The petrifying domain was too much of a restraint on him, especially in the hands of an abnormal person like Wei baizhan. Once Wei baizhan grew up, he would never be able to turn the tables!

Hundreds of powerful Iron Fists were condensed in the air and attacked Wei baizhan from all directions!

The Thunder Dragon Kingdom instantly collapsed, and even the petrification domain was broken by the heavy punch. It was not that petrification was useless, but that the difference in strength between them was too great.

Seeing that Wei baizhan was about to suffer a loss, Yan Zhongyuan stepped forward without saying a word and punched the air as well. An ordinary-looking gravitational void appeared.

All of the iron Fists changed directions and were sucked into this gravitational void in the blink of an eye, clashing with each other.

For a time, the powerful shockwaves continued, making everyone's scalps numb.

However, when he looked at Yan Zhongyuan, he was perfectly fine. Not even a corner of his clothes was messed up.

Everyone was dumbfounded.

The prison experts who had originally looked down on the newborn Alliance looked at this man of few words and couldn't help but look at each other. This was indeed the legendary golden generation. This batch of freshmen was indeed full of fierce people!

"Preposterous!"

Zhao Shanhe could no longer keep his face straight. He immediately left Wei baizhan behind and dashed forward. He gathered the power of his Iron Fist domain and punched out, and the sky changed color!

Wherever the fist wind went, the entire space turned dark and completely enveloped Yan Zhongyuan.

However, before Shen Yifan and the others could feel a cold sweat for Yan Zhongyuan, the scene in front of them returned to normal. The gravitational force reappeared in the void, and the power of Zhao Shanhe's deadly punch was completely absorbed.

When he turned around, Yan Zhongyuan, who had a wooden face, grabbed Zhao Shanhe's neck and pressed him to the ground with one hand. The gravitational wave that had been condensed to the extreme exploded in his palm.

Even someone as strong as Zhao Shanhe could not withstand such a close distance attack. His entire body trembled, and his brain and sea of consciousness were turned into a pile of mush on the spot, and he lost consciousness.

Bang!

Yan Zhongyuan stood up slowly and threw Zhao Shanhe aside like a dead dog. The people in the prison opposite him were shocked.

Although Zhao Shanhe was not the best among them, he was still one of the top experts. However, in a one-on-one situation, he was beaten up by a freshman. If they had not seen it with their own eyes, they would not have imagined it.

Lin Yi smiled faintly, "if anyone's interested, you can continue to give pointers. Our newborn Alliance never rejects anyone. We'll make sure you're satisfied."

"....."

Everyone looked up at the sky speechlessly. Even Zhao Shanhe had knelt down, so how could they still give him any pointers?

In the end, everyone's eyes fell on Chen Guo. Now that things had come to this, he could only personally come out and make the final decision.

Under everyone's gaze, Chen Guo grinned and said, ""Since that's the case, then I'll also move my hands and feet, so that people won't say that we're not entertaining enough."

After saying that, he reached out his hand and turned it slightly. A huge, ferocious claw appeared above Yan Zhongyuan's head. It struck down hard, and Yan Zhongyuan disappeared on the spot.

By the time they realized what was going on, Yan Zhongyuan had already been hammered into the ground.

Of course, for an expert like him who was proficient in the field of earth-type mutants, this would not cause much damage in itself, but the contrast in strength on the scene was vividly displayed.

Zhao Shan He was not his match, and he was not Chen Guo's match either.

Having said that, as the second-in-command of the semi-division, Chen Guo was a top combat force that could compete with the most senior ten Chiefs. It was not embarrassing for a freshman like Yan Zhongyuan to be crushed by such a Big Shot.

In fact, to be able to force the Chen nation to personally take action was already the greatest recognition for him!

Yan Zhongyuan climbed out of the ground without a word. But before he could stand still, another claw came down on his head, and this time, it was even more powerful than the last one!

It was obvious that the Chen nation was prepared to gain back some face from him.

However, the claw did not land on Chen Guo in the end, because the moment before it landed, the cold blade of the demonic devouring sword was already placed on Chen Guo's neck.

Everyone was speechless.

"If you're interested, why don't I have a few moves with you?" Lin Yi said, composed.

"Sure, I'm just afraid you won't be able to keep up."

Chen Guo's target was Lin Yi, and the only way he could control the situation now was to crush Lin Yi and let the freshmen understand the difference in strength!

After he finished speaking, his body suddenly became distorted. One second he was here, the next he appeared on the other side without any warning.

Even with the eyesight of the experts present, they were unable to see his trajectory. The entire process gave people the feeling that it was completely unrelated and inexplicable.

"Is this an illusion?"

Qiu sanniang, who had woken up at some point, almost fainted again when she saw this scene. Logically speaking, no matter how fast one's movement technique was, there would always be a trace to follow. The strange and unorganized movement in front of her could only be explained as an illusion.

"No, it should be a pure movement technique."

Shen Yifan and Bai Yuxuan shook their heads in unison. They were both Masters of Illusion. If Chen Guo had really used an illusion, it was impossible for them to not notice it at such a close distance.

"How can there be such a movement technique? One here and one there, like a ghost ..."

But before Qiu sanniang could finish her sentence, Lin Yi's body started to flicker as well, his movements and mannerisms completely different from before.

"Wu Xiang? Impermanence?"

This time, Shen Yifan finally saw something.

Bai Yuxuan reacted quickly, ""Could it be the top movement technique in the wind domain, non-phase step and impermanence step? Today is the first time I've seen it, it's really eye-opening!"

The wind was invisible and ethereal. Once one mastered the concept of invisibility, it could be turned into a Supreme movement technique.

Not only was its speed unparalleled, but the most important thing was that its trajectory would be integrated with the ubiquitous airflow, making it undetectable.

It must be known that when experts of a certain level fought, many times they needed to rely on the trajectory to predict the next move of the target. If they purely relied on spontaneous reactions, even if they could react in time, they would inevitably fall into a passive position.

In this aspect, the wind element domain's formless steps and impermanent steps could be said to be blessed by the heavens. Whether it was attack or defense, they had the advantage, making it unpredictable and impossible to defend against!

Looking at the two of them flashing back and forth, everyone's heart collectively turned cold.

Fortunately, these two freaks had met each other on their own. Otherwise, if it were them, just this strange and godly movement technique alone would be enough to make them kneel on the spot.

He couldn't even lock onto it with his divine sense, and all he could see were illusionary images that were between illusion and reality. What the f * ck was going on?

Chapter 9606

Everyone was shocked. At this moment, Chen Guo was even more shocked than they were!

One had to know that even Banshi Luo was full of praise for his formless steps-just that alone made him the best in the entire school. He could even take the initiative against a ceiling-level Big Shot like Xu Anshan, but he didn't think that Lin Yi would force him to this point!

He was only a Big Shot at the peak of the early stage of the consummate level. Was he still human?

"That's right, the future generations are formidable. "

Chen Guo's body suddenly stopped, and then he activated his domain.

Wind, water, earth!

They were three Domain Realm Masters!

Lin Yi smiled and activated his domain as well."Since chief Chen is in such a good mood, I can't not give you face."

Wind, earth, wood, and metal!

The power of four domains surged. The key was that they weren't ordinary domains, but perfect domains!

Everyone's eyes almost fell out of their sockets. This guy was really inhumane. Not only did he suppress them in terms of quantity, but he also suppressed them in terms of quality!

Other things aside, Lin Yi's performance was far more shocking than Chen Guo 's.

"Rookie King, sometimes you can't go far if you walk too wide."

Chen Guo sneered.

Once upon a time, he had the ambition to occupy all the fields, and to be perfect in all the fields, but later he realized that this was simply unrealistic.

First, it was hard to have the physical conditions. After all, it was hard to find a second person like Lin Yi who had all the elements. Plus, a perfect territory stone was so rare that even the son of fate might not be able to gather all of them!

The second reason was more important.

As the number and quality of the domain increased, the difficulty of breaking through to the next realm would increase exponentially!

Back then, he was a four-element Domain Realm master just like Lin Yi, but it was also because of this that he was stuck at the peak of the early stage of the complete giant realm for ten years. In the end, he had to listen to Banshi Luo's suggestion and destroy one of his elements to finally seize the opportunity to break through!

If Chen Guo had not had the courage to cut off his own arm, he would not have had the strength he had today. At best, he would have been a muddleheaded acrobatic expert, and would not have been able to stand out in the Jianghai Academy, where experts were as common as clouds.

The Lin Yi today was walking down his old path!

If he knew what Lin Yi was thinking, he'd probably laugh his head off.

An all-element perfect domain?

This was definitely a F * cking stupid idea!

"Thank you for your advice, chief Chen. I know what to do."

Lin Yi himself was aware of this-before he started on the wind and earth elements, he'd already felt like he was on the verge of breaking through, and he'd be able to level up in a few months if everything went as planned.

However, the opportunity disappeared after he completed the wind and earth elements. Even with Lin Yi's talent, it would take years of hard work before he could touch that opportunity again.

He'd go into isolated practicing for years or even decades before breaking through-this was common for normal practitioners, but it was rare for Lin Yi.

Furthermore, this was only a four-element domain!

If he really managed to master the perfect domain of all elements according to his previous expectations, the difficulty of breaking through would be simply unimaginable. He might really be stuck at the peak of the early stage of the consummate level of a Big Shot for the rest of his life, and from then on, he would be reduced to an unrated acrobatic expert.

"You have a plan? Hehe. "

Chen Guo didn't mean to remind Lin Yi, but come to think of it, he might've taken care of him if Lin Yi was smart enough to join him.

After all, what the semi-Master Division lacked the most was people, especially core combat power that could take charge of a certain area.

"Lin Yi, if you want to protect your new student Alliance, then try this move of mine. If you can take it, then you'll have a place here! Otherwise, you'll just be an obedient little brother!"

Chen Guo provoked.

Formless steps and impermanence steps were on par, and even if he was at a higher level, Lin Yi was a movement master himself. There wasn't much of a difference between their skill levels, and if Lin Yi was determined not to fight him head on, there was nothing he could do.

"Alright, you said it!"

Lin Yi didn't want to waste time on this-he only used the formless steps because he wanted to test out his new skill.

"Straightforward!"

Chen Guo laughed heartily, and his entire appearance suddenly changed. The power of his three domains began to shrink and condense, and in the blink of an eye, it had materialized and fused with his body.

It was covered in scales, had a demon horn on its forehead, a pair of wings on its back, and a netherworld lamp on its tail.

He was full of killing intent when he raised his hands and feet, and when he exhaled, the world shook. He was actually the legendary demonic Dragon!

"Domain transformation!"

Bai Yuxuan, who was in the crowd, exclaimed. Everyone was shocked, even Lin Yi.

He was very familiar with true Qi manifestation. The essence was to materialize true Qi after it was highly condensed. The principle of realm manifestation was the same, but the difficulty was completely different.

After all, the realm power was more than one level higher than ordinary true Qi. Most of the realm Masters couldn't control it even in the open state, let alone a highly condensed one!

It was no exaggeration to say that even the most insignificant scale on Chen Guo's body contained a power that was comparable to a true Qi bomb. In fact, it might even be more powerful than that!

"Chief Chen, your appearance will easily scare children. Fortunately, I'm not young anymore."

Lin Yi's image changed as he spoke. Earth element territory power gathered around him and he formed his territory in an instant.

Looking at the overbearing earth-element tyrant Titan in front of them, the entire place fell into a dead silence.

"This kind of thing doesn't seem very difficult."

Lin Yi's voice came from within, causing Chen Guo's eyes to Twitch.

Even though domain manifestation wasn't a unique secret skill among the true top-level experts, as long as one reached a certain level, they would all have this ability. The only difference was the degree of development.

However, even the Chen nation had to fumble around for an entire month before they could fully grasp it after stepping into the peak of the late stage of the consummate level of a giant. How could a F * cking giant at the peak of the early stage of the consummate level learn it with just one look?

However, the cruel reality was right in front of them. Comparing goods to goods would mean throwing them away, and comparing people would mean death!

Chen Guo was a powerful figure, but he was nothing compared to a monster like Lin Yi.

"Hmph, you've never heard of it?"

Guoleng snorted as he swung his claw at Lin Yi. Lin Yi wasn't flustered at all as he threw a punch at the attack.

BOOM!

The demonic Dragon and the Titan collided, and the entire Academy's prison trembled violently. The shock wave destroyed a large number of buildings on the spot, and many unlucky people who were caught off guard were buried under the ground, crying out in pain.

The rest of the prison experts were even more frightened!

Lin Yi's image as a Titan was powerful, but they all thought that it was just for show. However, from the power of this attack, it was enough to kill a Big Shot at the peak of the middle stage of the complete realm!

Chapter 9607

"Again!"

Chen Guo couldn't keep his face any longer-Lin Yi's display of strength earlier was still a pretty good excuse, but now that he'd even used his dragon form, it'd be a shame if he couldn't take Lin Yi down with ease.

The netherworld lamp lit up, and the dragon's tail swept out. This time, the power was several times stronger than before!

Just the aftershock that leaked out unintentionally sent a group of experts flying, and more than half of the Academy's prison was reduced to ruins on the spot!

Lin Yi didn't back off, but he didn't just rely on his Titan body this time. He pulled out the demon devouring sword.

Edgeless duo! It had a black hole domain!

Watching the destructive battle between the two, the crowd was shocked, but they didn't dare to exclaim and retreated with all their strength.

If he was touched even a little, he would probably be gone immediately. That was not something to talk about.

Buzzzzzz!

A wonderful sound spread out, and the world fell into a dead silence without any warning, as if time had suddenly stopped.

In the next second, all the prison buildings that had collapsed from the aftershock quickly retreated and returned to their original state. A tall figure stepped on the Echo of time and slowly walked toward the crowd.

He walked to the center of the fight as if there was no one else around, and with a light touch of his hand, both of them withdrew from their Dragon and Titan forms-even their powers were no longer under their control.

Everything returned to normal, as if nothing had happened.

Time backtrack!

Lin Yi had seen the half-master's skills in the Dragon Cave before, so he wasn't unfamiliar with it. Everyone else was the same as well, and they quickly bowed, "Greetings, half master!"

Luo Banshi smiled and nodded at the crowd. ""The enemy is right in front of us. You all should have a lot of things to do. There's no need for you to gather together and slack off, right?"

"Yes."

The group of prison experts immediately retreated. Although their direct leader was Chen Guo, Banshi Luo was their true leader.

Banshi Luo's words could make them risk their lives.

All the core members of the Alliance looked at Lin Yi-they respected Banshi Luo's skill, but Lin Yi was their boss.

Lin Yi waved his hand, and Shen Yifan and the others left.

Soon, only three people were left-Lin Yi, Chen Guo, and Banshi Luo.

"How do you feel after exchanging blows?"

Banshi Luo looked at the State of Chen with a smile.

Chen Guo's face, which had been extremely ugly, instantly turned respectful. ""He's indeed good. He's barely qualified to take on that mission."

"What do you mean?" Lin Yi raised a brow.

Luo Banshi patted his shoulder and explained with a smile, ""Don't blame Chen Guo for making his own decision this time. He has his own special intentions, and I've acquiesced to it."

Lin Yi looked at the two inquisitively, "Could it be that chief Chen didn't do all this just to swallow up our newborn Alliance?"

Chen Guo coldly snorted. "A straightforward person doesn't resort to insinuations. If you don't have enough strength, the newborn Alliance will definitely be incorporated. It's not a good thing to order so many factions around. However, now that you've proven your strength, I naturally won't force you."

"But if you want to cooperate with us on equal terms, you have to show the corresponding value. Otherwise, you'll just be depending on us. How can we be equal?"

"How do we show our value then?" Lin Yi asked.

"Now, the eight-gate golden lock Dragon trapping formation has been set up outside the prison. Xu Anshan has gathered so many high-end combat forces, and it's definitely not just for show. It's only a matter of time before they launch a general attack. By then, we have no way to retreat."

"Although I have control of a secret realm, I can't hide inside it completely," Banshi Luo said worriedly. "I have to find an escape route outside. Being trapped in the Academy's prison is not a long-term plan."

"So you're thinking of an escape route already?" Lin Yi said, deep in thought.

"Not bad."

Banshi Luo pointed in the air, and a three-dimensional map of the school appeared in front of Lin Yi. The terrain, the distribution of buildings, and the division of the different forces were all clear.

"Xu Anshan's power is huge now, and it's not wise to compete with him! As for the Board of Directors, it's the Tian family's territory, and they have deep connections with various forces, so there won't be a place for us to stay. "

"This is ... The only place left."

Luo Banshi's finger finally landed on a gray area that represented chaos.

"The repeating yard?"

Lin Yi blinked, but quickly understood.

The repeating school was one of the three major powers of Jianghai Academy, and in terms of overall strength, it was no less powerful than the other two. However, it had a major weakness.

There was no unified organization.

There were dozens of forces of various sizes in the repeat school, but none of them had the power to unify the entire school. It was only under the pressure of the School Council and the Academic Council that the various families compromised and barely maintained some basic order for survival.

Under the sunlight, it was still chaotic.

With the strength of a half-master, as long as he could settle down there and avoid becoming The Public Enemy of all forces, it would not be difficult to gain a firm foothold there.

The most amazing thing was that once he managed to establish himself in the repeat school, even Xu Anshan's Unified Academy would not be able to easily interfere.

After all, the people from the repeat school were more afraid of him than Banshi Luo!

"What do you think?"

"After all, the new student Alliance is going with us, and you have the right to make decisions here," Banshi said with a smile.

"Why don't we consider setting up a base outside of the school?" Lin Yi said after some thought.

Within Jianghai Academy, the half-Master Division was a weak force. However, once it was placed outside, it would be a force to be reckoned with. It would be able to dominate a region without any pressure, and it would even gain more strategic depth!

"No." Luo Banshi shook his head. "With the current relationship between the Academy and the city Lord's mansion, we'll definitely be viewed as enemies if we stay outside. If we're not careful, we'll become the target of public criticism. Furthermore ..."

"With the impending disaster, the entire Jianghai city will be reduced to the frontlines of the war. When that time comes, only Jianghai Academy will be able to stabilize the rear."

Banshi Luo's eyes were filled with sorrow, as if he could already see the tragic future.

Lin Yi was shocked. Although he knew about this, he didn't expect Banshi Luo to be so pessimistic. The entire Jianghai city was going to fall, what level of disaster was that?

"What do I need to do?"

Lin Yi didn't waste any more time. Unless he was willing to join Xu Anshan, he had to stand up and take everything if he wanted to protect the rebirth Alliance.

Banshi Luo looked at Lin Yi with praise. "We don't have much time left, but attacking the repeaters' compound is the worst plan. Not only is the success rate low, but the number of casualties will also far exceed our expectations. "

Chapter 9608

"The most ideal plan is to send people to infiltrate and control a portion of the repeating students' secret realm's origin without alerting the other factions. "

"The realm's source?" Lin Yi asked.

"That's right. The repeating yard was originally a huge, independent secret realm. Later, someone broke the barrier and turned it into what it is today. Although it has lost the independence of a secret realm, it still retains many characteristics of a secret realm."

"As long as we can control a part of the secret plane's origin, we can control a part of its spacetime rules and turn it into our true fortress!"

"Who has the source?" Lin Yi asked.

"When the secret realm fell, the origin of the secret realm was broken into dozens of pieces, big and small. Now it's scattered in the hands of various forces. If we want to gain a firm foothold in the repeat Academy, we must have the origin of the secret realm. Otherwise, other people will tire us out just by relying on the home field advantage of the spacetime law."

"The people on my side are from the same era as the people from the repeat school," Banshi Luo said seriously. "It's hard to hide our movements from their surveillance."

"But you're different. Even though you're very famous in the Academy, the repeating students are very closed off. You're still a new face to them. Even if someone has paid attention to you, it won't be difficult to deal with them."

"Remember, the purpose of your mission is to gain the trust of the other party and obtain the opportunity to touch the source of the secret realm. Once you succeed, I will immediately send you over!"

"Okay, one last question-how do I get in?" Lin Yi nodded.

"Don't worry," Chen Guo said with a smile. "I've already designed it."

After the two sides made their decision, Lin Yi turned around and said goodbye to the freshmen Alliance.

Shen Yifan and Bai Yuxuan looked at each other worriedly when they heard that Lin Yi was about to go on a mission alone, ""Could this be a plan to lure the Tiger out of the mountain?"

They couldn't be blamed for the conspiracy theories-the Chen nation's previous actions were something they had to be wary of. It was fine with Lin Yi around now, but if he left and the Chen nation reenacted the same thing, it'd be troublesome.

Even if Wei baizhan and Yan Zhongyuan were to stay, they wouldn't be able to stop the Chen state from attacking them.

"We have to take precautions against this, but there's no need to worry too much. The half-master has already promised to open up an independent space in his secret realm for us to use. As long as you keep an eye on the people below, there shouldn't be a big problem."

Lin Yi's answer calmed everyone down a little.

"In addition, the half-master will give you regular lectures to help you solve your doubts. I hope that after this mission is over, the strength of our freshman Alliance will be able to reach a higher level!"

The backbone of the team was excited upon hearing this.

The greatest advantage of Jianghai Academy, other than the readily available credits and resources, was that they had experienced lecturers to guide them on the path of cultivation. This ensured that students did not take the wrong path as much as possible, and that they could make the best use of their own conditions and resources!

It was also because of this that even if one were to be ranked last in Jianghai Academy, one's cultivation progress would still be much faster than others of the same level. Heaven and earth could not be compared to the same day. This was the difference brought about by the environment!

With the internal battle between the ten seats cutting off their normal channels of learning from the students, they had been feeling uneasy at first. Who would have thought that they would have the chance to listen to Banshi Luo's teachings in person? this was a blessing in disguise!

What kind of person was Banshi Luo?

Even the Tian family recognized him as the world's teacher. His personal strength might not be recognized as the number one in the Academy, but in terms of cultivation guidance, he was definitely a unique existence in the entire Academy.

With Banshi Luo's words, he would be able to save a hundred years of hard work!

After comforting the new students, Lin Yi stopped Wei baizhan and gave him two tasks to prepare for the future.

First, the Third Division was officially established to specialize in extrahospital Affairs.

Second, contact Tang Yun and give the Wang family a heads up.

Of course, the prerequisite for carrying out the mission was that Wei baizhan had to be able to get out. With the current tight blockade, it was not easy to get him out by relying on the ability of the freshmen Alliance. However, with the help of the half division, it was a different story.

With everything in place, Lin Yi officially started his plan.

The first step of the plan was to be thrown into the school prison's felon area.

With the high degree of isolation in the repeating school, it was extremely difficult to get in at other times, unless it was the annual promotion elimination season where a group of repeating students would join on their own.

If one did not have a clear identity that met the conditions, even if they managed to sneak in, they would not be able to establish themselves.

To put it another way, the repeating yard was a paradise for the losers, and it never welcomed so-called genius practitioners. Normal newbie Kings like Lin Yi wouldn't even be able to enter, much less be accepted.

So if Lin Yi wanted to get into the repeat division, the first and most important step was to become a failure!

Bang! Bang!

All of Lin Yi's pure Qi was locked up, and he was kicked into the lowest cell by the guard. He was as weak as a dead dog.

Although the Academy prison had become the base camp of half-master Luo, and most of the original prisoners had become the most loyal followers of half-master Luo, it had not completely lost its original function.

This area was used to imprison the unrepentant Desperados, and more than half of these Desperados were from the repeat school!

After all, the Academy had the 10-member council and the Disciplinary Committee to back it up. There were only a few who had the guts to go down the wrong path. On the other hand, the repeat students were almost out of their control.

There were many things that no one cared about in there, but in the outside world, it was a serious crime, even a capital crime!

In the dark, a pair of eyes examined Lin Yi for a moment, and only walked over when he saw Lin Yi struggling to get up.

"Brother, which gang are you from?"

The newcomer was a burly young man with tattoos all over his body. There were Dragons, Tigers, wolves, and pythons, all of which were ferocious totems. With his strong muscles, he would probably scare many people in the secular world.

However, in a place like Jianghai Academy where a megacity at the level of Great Perfection was the norm, this style was truly out of the ordinary. True experts would not even look at this ...

Lin Yi glanced at him but didn't reply.

This was playing hard to get.

This person was the target of Lin Yi's mission. If he wanted to enter the repeat division, other than a proper identity as a failure, he also needed someone to pull strings for him. This person in front of him was the perfect candidate.

His name was Bao Sanye, and he was considered someone with some background in the repeating Academy. His sworn brother Hong Baxian's power was ranked in the top ten of the repeating Academy, so he was considered to have quite a background.

It was unknown whether this guy had become stupid from holding back in the repeat school or had gone crazy from his lack of money, but he had actually set his eyes on the logistics department and directly robbed them in broad daylight.

In the end, he was tidied up by old man Zhao and was casually thrown in.

Chapter 9609

Sanye sized Lin Yi up again, interested. "Brother, what did you do to get in here?"

"Get lost," he said.

Lin Yi cursed coldly and closed his eyes to break the energy shackles. He didn't care at all.

However, the more this was the case, the more interested Bao Sanye became. The information he received previously indicated that this guy had an inexplicable admiration for cold and aloof experts.

If she wanted to build a relationship with him, the first step was to show her aloofness. The next step was to show enough strength and he would definitely fall into her trap!

The other criminals in the same cell took a closer look at Lin Yi's face and couldn't help but be surprised, "Isn't this this year's hottest newcomer King?"

"Oh, really? I heard that this year's batch of newcomers is the Golden generation, and everyone is a monster. The newcomer King is a Super Monster among monsters, and even the ninth-ranked du wuhui is not his match!"

"Really? Du wuhui's a real 10-seat veteran, there's no way Lin Yi can beat him, no matter how strong he is!"

"F * ck, if you have the chance, you can go online and take a look. Du wuhui is already dead. He died at his hands!"

"....."

After listening to this professional introduction, Bao Sanye looked at Lin Yi with even more enthusiasm. He had seen du wuhui with his own eyes, and he was one of the very few people among the ten seats of the Academy who had dealings with the retained students.

To be able to get rid of du wuhui, it went without saying that he was definitely an expert among experts!

"Brother, I think you're a Big Shot. Why don't you follow me in the future?"

Sanye patted his shoulder and said, ""My big brother is Hong Baxian from the repeat school. As long as you follow me, I'll guarantee you a meteoric rise in your career when you enter the repeat school!"

Lin Yi glared at him impatiently. "Did I say I wanted to enter the repeat Academy? I'm the newcomer King, and I'm going to the repeat school?"

Bao Sanye laughed. "Brother, you don't know this. Although you are the newcomer King, since you are already here, it means that there is no place for you outside. If you don't enter the repeat school, where else can you go?"

"Besides, you're so ambitious. You must be thinking of rising again. You must have the capital to do so. My big brother Hong Baxian can give you the capital!"

Lin Yi fell silent.

Bao Sanye saw that he seemed to be interested and quickly struck while the iron was hot, "By the way, brother, how did you get in? I can see that you have the aura of a powerful expert. Normally, you shouldn't be so dejected, right?"

"Hmph," he snorted.

"Hmph!" Lin Yi hmphed, "I was just blind and got tricked by someone. What's there to say!"

After he finished speaking, the prisoner on the other side immediately followed suit.

"I heard that the freshman Alliance was swallowed up by the half-master faculty? Hehe, this newcomer King is really pitiful. He fought to the death with Xu Anshan, the first seat, and then got stabbed in the back by Banshi Luo!"

"Xu Anshan and Jia Luo are half-Masters. If they can be tricked by these two great gods, it shows that they are indeed capable. Ordinary people can't even enter the eyes of those two!"

Sanye's eyes lit up.

He'd always liked to take in underlings, but the ones he'd taken in before were all too ugly to be put on the table-they'd been ridiculed by his big brother, Hong Ba, a lot. If he could take Lin Yi back with him, he'd be able to grow some face!

"Brother, as long as you promise to follow me to the repeat school, I'll take you out tonight!" Sanye said in a low voice.

"You can get out of here?" Lin Yi looked at him strangely.

"Naturally!"

Sanye Bao smiled smugly. "I've been here for some time now. I've already figured out the guard rotation pattern. Most importantly, I have a secret technique that my big brother taught me. I can break the seal on my true Qi!"

"How do we break it?"

Lin Yi was finally moved, "If you can really take me there, I don't mind going with you to the repeat school. But I'll say this first, I'm only going with you to have a look. As for whether I'll stay or not, it'll depend on whether I like your place or not!"

Sanye was overjoyed. "I understand, I understand. Experts all have their own personalities. Brother, don't worry. I'll definitely satisfy you!"

After that, she injected some pure Qi into Lin Yi's body.

The Qi seal disappeared in an instant, and even Lin Yi couldn't help but look at him in a higher light. This guy wasn't an idiot after all.

Even though the State of Chen had deliberately let them off the hook behind the scenes, someone else might not have been able to undo the seal on their true energy so skillfully.

"Let's conserve our energy first. When they change shifts, it'll be our chance to go out. Remember to follow me closely!"

Sanye patted Lin Yi's shoulder as if he was familiar with him and squatted back to the side, pretending to be listless.

Lin Yi chuckled to himself-Chen Guo must've put in a lot of effort to find a good-for-nothing like this. Choosing the right person was the key to the first step.

At night.

There was a regular shift in the felons "area, and Sanye gave Lin Yi a look before taking the lead to break down the door.

It had to be said that this guy was really something. Although the iron gate used in the major criminal districts was not as luxurious as the deep sea cold iron, it was by no means ordinary steel. In terms of strength, it could be used to make weapons.

In the end, Bao Sanye placed his palm down lightly, and the entire iron door shattered like a piece of paper.

It was a variant of the metal element, the destruction domain!

Lin Yi raised a brow. The destruction domain could destroy the internal structure of any metal object at will. It was a weapon killer, one of the best among all metal-type mutated domains.

It was a little sad that such a powerful domain had fallen into the hands of such an idiot.

As soon as the iron door was broken, the other prisoners in the cell immediately woke up. However, before they could make a sound, they were all killed by Bao Sanye with a casual palm strike!

He was an idiot when it came to doing things, but in terms of ruthlessness, he was definitely not inferior to any formidable person.

To be more precise, anyone who could gain a foothold in the repeat school all had this kind of virtue. They were decisive in killing and never sloppy.

If you don't kill, everyone will kill you. This was the number one rule of survival in a lawless place.

"Keep up!"

Bao Sanye ordered in a low voice and brought Lin Yi back and forth in the prison area, avoiding all the surveillance formations and guards at the same time. He was so skilled that it was hard to understand. It was obvious that this wasn't the first time he did this. He was definitely a veteran.

But Lin Yi's spirit sense still picked up a few hidden fluctuations.

They were the real hidden sentries in the major criminals 'District.

Bao Sanye obviously didn't notice this at all. He didn't know that the escape that he was so proud of was the result of the other party's secret letting him off the hook. The so-called "practice makes perfect" was just that the other party had already set him up from the beginning.

Chapter 9610

With Chen Guo's subtle way of casting a long line, even a very vigilant person would most likely fall into the trap, let alone an idiot like Bao Sanye.

After all, no one would know what Chen Guo was planning to do to them in the first place, especially when Chen Guo kept giving out the line without pulling back. It would be like boiling a frog in warm water, which would completely dispel their last bit of vigilance.

Just like now, after finally slipping out of the heavily guarded area, Sanye boasted to Lin Yi proudly, "Brother, how are you? I'll be frank with you, when it comes to breaking out of prison, I'm the best in Jianghai Academy. No one can compare to me!"

Lin Yi scanned the prison Masters with his spirit sense and gave them a thumbs up. "There is indeed something."

"That thing isn't just a little. It's huge!"

Sanye laughed, but before he could finish his gloating, he started to show his fear. "What should we do next?"

"....."

Lin Yi looked at him, speechless.

Sanye scratched his head. "You can't blame me for not being reliable. In the past, there were basically no guards outside of the major criminals 'District. Who knew that it would suddenly become so strict? damn, the prison experts don't even want money now. What's going on?"

At this moment, there were two whole teams of prison experts standing guard in front of them. They were all big shots at the peak of the middle stage of the consummate level!

A small team of ten people, two full teams, that was a total of twenty big shots at the peak of the middle stage of the consummate level!

With such a powerful force, they would be able to occupy a place even in the repeat school, which was full of Masters. They would even live a very comfortable life.

"The first seat faction and the half-master faction are about to go to war. They're guarding against the first seat faction's people outside!"

Lin Yi explained in a low voice and walked forward without a second word.

Bao Sanye was stunned for a moment and quickly went forward to stop him. ""Brother, what are you doing?"

"We're already here, can we still turn back?" Lin Yi looked at him.

"That's definitely not ..."

Bao Sanye looked at the two small teams in front of him and shrunk his neck, ""But that's the only exit. It's not easy to sneak past them. We have to think of a foolproof way!"

"How can there be a foolproof method? There's only one way, and that's to rush over!"

With that, Lin Yi activated his domain and charged at the two teams.

Bao Sanye was dumbfounded.

His own strength was actually not considered weak. He was at the peak of the middle stage of the consummate level, which was considered quite strong among those of the same level. But even so, he did not have the confidence to directly confront two whole teams!

The little brother he had just taken in was quite famous, but wasn't this a little too much?

But just as he thought that Lin Yi was about to be in trouble, he saw Lin Yi overpower the two teams in one move, even killing two people in a row!

Bao Sanye was shocked on the spot. After holding it in for a long time, he managed to squeeze out two words, ""F * ck!"

It wasn't that he'd never seen a real master before-there weren't many in the entire repeat school who could be as fierce as Lin Yi. Even his sworn brother Hong Baxian could only do this when he charged into a battle alone!

If boson was in his place, he would have bragged about this for the rest of his life!

"Let's go!"

Lin Yi's voice woke him up from his daze and he quickly followed.

Unfortunately, his speed was just average, and the opening Lin Yi just opened closed before he could go through.

Gold element! Wood element! Water! Fire element! Earth element!

The five elements gathered together, and the killing move that covered the ground instantly enveloped him. The five elements suppressed him!

"I'm going to die!"

Bao Sanye was so anxious that he started to scream. He tried his best to activate his metal-type Destruction domain. Unfortunately, his domain was always good for offense but not for defense. Especially when the opponent's core attack didn't rely on metal weapons, it was only a little better than a piece of cloth.

The five elements pressed down and Bao Sanye vomited blood on the spot.

"F * ck, I haven't even had a glorious time yet ..."

Bao Sanye angrily said his last words. In the end, a sword shadow suddenly blocked the top of his head. At the same time, it was accompanied by a terrifying black hole domain!

In the blink of an eye, the attack of the suppression of the five elements was completely absorbed, leaving not even a bit of aftermath.

Bao Sanye was once again dumbfounded.

"Why are you still standing there?"

Lin Yi found the time to give him a kick, sending him flying out of the encirclement.

Sanye was so touched that he didn't run away, but turned around to help Lin Yi attract the fire instead. With his strength, this was almost like risking his life!

This guy was loyal.

Lin Yi nodded silently. If he really did just leave like that, it'd be a bit troublesome later on. It was perfect for him to cooperate!

After forcing back all the prison Masters with one move, Lin Yi activated his impermanent steps and appeared beside Bao Sanye in an instant. After helping him out again, he decisively took this idiot away.

Before he left, he even left the prison experts with his annihilation domain.

"F * ck! Brother, you're a human-shaped killing machine!"

Sanye's admiration for Lin Yi was at its peak, and he couldn't contain his excitement at the thought of Lin Yi becoming his follower.

"What are you talking about? we haven't escaped yet!"

Lin Yi replied with a cold face, trying his best to maintain his image. Speaking of which, he didn't even need to pretend with his usual style of doing things-the only difference between him and a cold person was his stoic face.

As long as her expression was a little tense, she would be acting as herself.

"Yes, yes, yes. We can't be careless. We won without pride and we lost without fear. Brother, you're indeed capable!"

Sanye nodded. Lin Yi hadn't even used much of his strength yet, and Sanye was already almost done with his strategy.

After watching the two figures disappear from their sight, the remaining prison experts looked at each other and smiled. The few actors who had just been hacked to death immediately got up energetically.

"Damn, this newcomer King is really a ruthless person. I almost thought I was dead!"

One of the actors complained with lingering fear. He couldn't help but imagine, "Brothers, tell me, if it wasn't an act just now and was for real, what would the result be?"

"Do you even need to say that? of course we'll win. Who can block the combined attacks of twenty big shots at the peak of the middle stage of the consummate level? He's the newcomer King, not a God. "

"But his wind element domain's impermanence steps is said to be on the same level as the master's formless steps. Can we really hit him?"

Everyone was speechless.

If he missed, it would be a waste-it didn't matter how strong they were when they worked together, as long as Lin Yi wasn't stupid enough to turn around and take the initiative, he could take advantage of the openings and do the dirty work.

With Lin Yi's display of attack power, no one here would be able to take on him without the support of their teams!
