

## **Bodyguard 9611**

### Chapter 9611 Power

After a long silence, the prison experts finally cursed in unison.

Abnormal!

"Alright, let's get our spirits up. The main show is about to start!"

The two captains called for everyone to get back to their positions-they weren't here just for Lin Yi's show, the chief class was the real show!

Very quickly, the secret order from the Minister of Chen state was passed down.

A total of ten elite teams launched an attack at the same time and launched a surprise attack on the tight encirclement of the chief!

A few minutes later, the entire campus network was in an uproar. The battle between the Dux and the half-master had begun!

Although before this, analysts from all sides had determined that there would be a battle between the two sides, there were still many different opinions on when and how it would start.

Because of Banshi Luo's previous peaceful and compromising attitude, everyone thought that even if a war were to break out this time, it would be the chief faculty's side who would exert extreme pressure on them. Only after they had completely broken through the bottom line would the Banshi faculty resist.

And now, although the chief of the college had begun to set up a heavy defense around the college prison, Shen Qingnian and the remnants of Zhang Shichang were still putting up a last-ditch resistance.

In order to prevent a dog from taking desperate measures, many of the top combat forces of the chief element were not sent over. Other than surrounding the Academy's prison, there were no other actions to provoke it, let alone to exert extreme pressure.

He had never expected that at this delicate time, the half-master Department would actually take the initiative to attack!

"The older the ginger, the spicier it is."

Lin Yi couldn't help but exclaim as he watched the live broadcast of the battle on the school's website after sneaking into the repeat students "territory with Sanye.

Banshi Luo had spoken to Lin Yi before this ambush.

In addition to tactical probing and reverse pressure, the biggest significance of this raid was to give Shen Qingnian and Zhang Shichang, who were in a desperate situation, a shot of confidence!

After the many fierce battles before, the first seat and the native elements had already fought each other to the death, and there was no possibility of a truce.

If Banshi Luo were to make a move now, not only would he be able to save the enemy, he would also be able to gain a huge favor from the local element. He could also avoid the hidden danger of the chief and local elements working together to put on a show.

At the same time, it would be a perfect cover for Lin Yi.

Killing several birds with one stone!

With such shocking ability, Lin Yi would have boson give anyone a good beating if they ever called him a surrender-type again ...

As a separate entity, the retained students didn't have strict boundaries. Unless they stepped into the private territory of the major forces, few people would stand up and meddle in other people's business.

Of course, the premise was that you had enough strength to not be targeted by those scavengers.

Along the way, Lin Yi felt no less than twenty different strong and weak divine senses scanning him. Other than a few who were purely curious, the rest were all filled with obvious malice.

They were like hyenas on the grassland looking at their prey. As long as Lin Yi showed any weakness, these low-level scavengers would immediately rush up and eat up the prey.

As the gathering place for the losers, although the repeat Academy was huge, the resources it had were far from comparable to the Academy, let alone the School Council.

The resources that were evenly distributed to everyone were even less than that of the freshmen. In this place, the lowest-level scavengers had no scruples at all. As long as their teeth were strong enough, even the gods would bite a piece of meat off them!

However, the ability of this group of scavengers to observe people's expressions was first-class. They could tell at a glance who they could provoke and who they couldn't.

After all, those with bad eyesight would have been killed long ago.

"What are you looking at? A bunch of stupid birds, be careful or I'll beat your balls out! Get lost!"

Bao Sanye's murderous attacks really scared off many of the scavengers.

Hong Baxian's ruthlessness was well-known in the entire repeat school. Countless scavengers had died at his hands, and his name had become a taboo among scavengers.

As his sworn brother, Bao Sanye was naturally intimidated by him.

However, there were still some people who couldn't be scared, and there were many of them.

It was rare for the repeat students to see new faces all year round. If they missed this kind of fat sheep that delivered to their door, they would have to wait for the graduation season before they could open again.

" 1000 academic credits, I guarantee that they will leave immediately."

A young man with a crew cut stood up and offered Lin Yi a price with a smile. If you only looked at his friendly and harmless face, you'd probably think he was a philanthropist.

" 1000 academic credits?"

Lin Yi didn't even frown as he unsheathed the demonic blade. The flat-headed young man couldn't even resist and was instantly cut in half.

"Do you still want credits? I have a lot of them. "

Lin Yi raised his sword and scanned the area, and the people scattered.

Bao Sanye was speechless."Brother, you really have a way. This bunch of trash is like sticky candy. Once you're targeted by them, you can't get rid of them. The key is that you can't let your guard down. If you really reveal a flaw in front of them, you'll be eaten up in minutes. You can only be on guard all the time. It's so annoying."

Lin Yi replied expressionlessly,"You have to use the most direct method to drive people away."

"You're so knowledgeable. "

Bao Sanye was filled with deep veneration.

The following road was obviously much smoother. Although there were still people with ill intentions peeking at them from time to time, with the example of the flat-headed young man, no one dared to easily show their faces again.

The low-level group of scavengers was definitely the group of people who spread the news the fastest in the retained students.

Half a day later, the two of them finally arrived at their destination.

Overlord Pavilion.

Lin Yi was speechless as he looked at the giant signboard-Hong Baxian, who he'd never met before, was just like Bao Sanye, a clown.

Speaking of which, those who could become sworn brothers with Bao Sanye were most likely in the same style as this guy.

But soon, Lin Yi realized that he was wrong.

The moment he stepped into the palace, an unprecedented amount of spirit sense swept over him. Even with Lin Yi's immortal spirit realm, he couldn't help but groan.

So strong!

Ever since he had entered Jianghai Academy, this was the first time he had encountered such a powerful divine sense, apart from Luo Banshi and a few other powerful figures who did not make a move. It was almost the same level as his own!

It must be known that the cultivation here was basically a domain. Very few cultivators would work hard on the primordial spirit. It was normal for the primordial spirit realm to be far behind their actual strength. Most of the domain experts' primordial spirit realm was even still at the heaven breaking stage.

Even du wuhui, a late-stage consummate level giant, had a primordial spirit that was only at the early stage of the consummate level. From this, it could be seen how ordinary it was!

Chapter 9612 Power

"Newcomer King, I've been looking forward to meeting you for a long time."

A long-haired man with a scholarly air walked towards Lin Yi slowly. He wasn't tall, but there was a beast-like aura between his brows that couldn't be hidden.

With every step he took, everything in the surroundings trembled and fell down, as if they were submissively submitting to him.

This man was extremely dangerous.

Lin Yi was secretly on alert. The pressure this person gave him was no less than du wuhui and Wu Ya. Those two were peak existences among the late stage of the great complete realm!

He was even comparable to Chen Guo, the head of the half-division!

Lin Yi finally understood why Banshi Luo and Chen Guo had chosen him-anyone else would've been devoured in a place like this, and they'd have to be at least a giant in the late stage of perfection to have a chance.

For experts at that level, they knew each other's background. As long as there was a slight movement, the intention of the visit would be written on their faces. It was impossible to successfully hide.

Only people like Lin Yi, who seemed to be famous, but was still a fresh face in the repeat school, had a chance of success.

"Greetings, Pavilion master Hong."

Lin Yi nodded slightly in greeting, his actions reserved and cold as usual.

The surrounding Overlord's Pavilion experts shouted angrily, ""Why aren't you kneeling when you see our Pavilion master! He's just a newbie King. He's been praised to the heavens by those noobs outside and he really doesn't know his own name?"

"If those people outside are noobs, then what should I call you losers?" Lin Yi said, his face calm.

"You're looking for death!"

Everyone was instantly furious.

The word "failure" was an eternal scar in the retained students 'lives, even though it was the truth and many people often used it to mock themselves.

But it was okay to mock oneself, but if an outsider came to expose this scar, that would be courting death!

Sanye couldn't help but step out to protect Lin Yi, but Hong Ba stopped him with a look.

With Hong Baxian's silent consent, the experts from Overlord's Pavilion immediately attacked. They didn't even try to test the waters, but each and every one of them attacked with their life on the line.

This was the style of the repeat students. When there was no other way, they wanted to kill in one blow. The more they fought, the more variables there were, and the higher the possibility of the other party benefiting from it. Therefore, there was no foreplay at all. They were fighting with their lives!

Lin Yi glanced at everyone indifferently and squinted his eyes. His consciousness swept across the entire place.

Quadruple resonance!

Even though this group of people had been specially trained by Hong Baxian and had a good resistance to spiritual attacks, they couldn't withstand such a domineering spiritual attack.

Their sea of consciousness shook, and they all fell into a state of dizziness!

Lin Yi moved and unsheathed the demonic sword. The stun time wasn't long, but it was more than enough to kill half of the people here!

Although he had come here to hide, a cold and decisive expert was the right character. It was impossible for him to deliberately hold back at this time.

Guh!

An unusually heavy sound of metal clashing rang out, and a shock wave instantly overturned the entire scene. As expected, Hong Ba first stood in front of Lin Yi, holding the demonic devour sword with one hand.

Lin Yi raised a brow at the glove-it was as thin as a cicada's wing, and the fact that it was able to withstand his full-force Sword strike was shocking enough, even without using any killing moves.

"Heavenly silk?"

Hong Baxian laughed."You have a good eye, brother Lin. Not bad, this is the heavenly silkworm gloves made from the heavenly silk. It's impervious to fire and water, and invulnerable to all attacks. It's for you."

She really did throw a pair of sky silkworm gloves to Lin Yi.

Even Lin Yi couldn't help but look up to this overbearing attitude. A pair of SkySilk gloves of this level was worth as much as an upper-grade territory stone in the market. It really wasn't easy to find.

"Then it would be impolite to refuse."

Lin Yi accepted it without hesitation.

With his current strength, these gloves weren't that useful anymore, but if he didn't want to use them, he could give them to the people around him. For example, Tang Yun would definitely like them.

"Good, you're a straightforward person!"

Hong Baxian laughed and patted Lin Yi's shoulder before turning to Sanye, "You've done a great service to be able to invite little brother Lin back! Pass down the order to prepare a banquet of the highest standard. I want to welcome little brother Lin!"

Everyone agreed.

After that short exchange, they more or less understood Lin Yi's strength. No matter where the strong went, they would always be respected in a short time.

For a time, the Overlord's Pavilion was filled with a hubbub of voices and jubilant atmosphere.

"See that? My big brother likes a master like you. You'll definitely be put in an important position in the Overlord Pavilion in the future. Just follow me and live a good life!"

Bao Sanye felt honored as well. He went around looking for people to have a drinking contest, and he bragged about his good judgment of talent to everyone he met. The entire banquet seemed to have become his special storytelling venue.

But this guy did have some potential in telling stories-he described the prison break vividly, especially the scene where Lin Yi fought the two teams head on. The rhythm, atmosphere, details, and the level of control were all on point-it was shocking.

Lin Yi didn't say much at the end of the banquet, but his name was already deeply rooted in the hearts of the people in the Overlord Pavilion.

Although Bao Sanye's story was exaggerated, an expert could tell the clues from just a few words. Moreover, most of the details this guy said were true.

Although the half-master students rarely showed their faces in public these few years, many of those prison experts had dealt with everyone before. They were very clear about how strong that group of people was.

"Strength, power, wealth, women, everyone has something they want. My idea is simple, I want to unify the school of repeaters."

Hong Ba poured a cup for Lin Yi himself and asked, ""I wonder what little brother Lin is after?"

"Kill Banshi Luo and Xu Anshan." Lin Yi took the glass and finished it in one gulp.

"Good ambition!"

Hong Baxian's eyes lit up. He'd already sent people to investigate Lin Yi before he knew that he was coming, and everything was in the information.

In fact, other than the discussion with Luo Banshi and Chen Guo at the end, Lin Yi wasn't afraid of him investigating anything else-the more he investigated, the less he'd let his guard down.

After all, from an outsider's point of view, no matter how they looked at it, Lin Yi was stabbed in the back by Chen Guo and his men. It was reasonable for Lin Yi to resist and be suppressed by Banshi Luo.

As for those from the rebirth Alliance who knew the inside story, they had all been moved to Banshi Luo's independent secret land and were completely isolated from the outside world. There was no possibility of the secret being leaked.

"But I'm still a little curious. With your great potential, why didn't Banshi Luo kill you directly?"

Hong Baxian suddenly asked.

Chapter 9613 Power

Although Banshi Luo had always had a peaceful image, it did not mean that he would not kill. If it was someone with no potential, it was normal for him to show mercy to them as a sign of magnanimity.

But Lin Yi's threat was visible to the naked eye-why didn't he destroy this person immediately?

Was Banshi Luo that stupid?

Lin Yi shook his head calmly, "If he were to kill me, how would he be able to brainwash my men? He's going to start a war with the first seat. My new student Alliance is the best talent reserve team in the world. If it were you, would you be willing to accept it?"

"Of course I can 'T. I've heard so much about the Golden generation. It's a pity to be cut off by that hypocrite."

Hong Baxian clinked his glass with Lin Yi 's, a little regretful."But that's good too. If it weren't for this, how could the Overlord Pavilion have gotten you to join us, brother Lin? Come, let's have a toast to our meeting today!"

"Cheers!"

Bao Sanye and the Overlord Pavilion's experts all agreed with him.

A rare smile appeared on Lin Yi's cold face as he downed the wine in his glass, but his heart wasn't at ease.

There was nothing wrong with his response, but his intuition told him that Hong Baxian's wariness didn't decrease because of this. Instead, it was hidden even deeper.

Ambitious and ruthless characters were always suspicious.

The banquet ended, but the higher-ups of the Overlord Pavilion didn't leave. Even Lin Yi stayed behind, apparently having something important to discuss.

"The day before yesterday, someone from the blue tile society sent us a message saying that they want to make a huge deal with us. They want 100000 academic credits and a Water-type perfect domain origin stone."

Hong Baxian's words immediately attracted a lot of discussion.

Lin Yi's eyes twitched-a perfect water-element territory stone was exactly what he needed right now. He knew that it'd be harder to level up in the future with more territories, but he didn't plan on changing his mind.

A perfect domain for all elements was still Lin Yi's ultimate goal!

However, perfect-grade primal domain stones were hard to come by. Even with old man Zhao's connections, he couldn't find more in such a short time. He didn't expect to get such a pleasant surprise when he came to the repeat student institution!

Bao Sanye shouted, "those trashes from the blue tile society dare to demand such an exorbitant price?" 100,000 academic credits and a perfect Water-type territory stone-they sure are delusional! I might as well give it to my Lin Yi bro!"

"....."

Even Lin Yi sweated after hearing this, let alone the other people from Overlord's Pavilion. This idiot was really understanding.

Hong Ba didn't take it seriously and laughed, ""I have other arrangements for brother Lin. However, even though the people from the blue tile society can't be said to be presentable, they still have some things in their hands."

"Pavilion master, what do they want to trade?"

One of the hall Masters asked.

The entire Hall fell silent, and Hong Baxian faintly spat out four words, ""The secret realm's source."

Everyone fell silent.

They knew all too well what the secret realm's origin represented in the retained students' courtyard. There was a rumor in the streets that whoever gathered all the secret realm's origin would become the master of the entire retained students' courtyard!

These words sounded like child's play, but they received the silent approval of all the forces.

Gathering all of the secret plane's origin meant that he could control the spacetime rules of the entire repeat Academy. He would have the greatest home ground advantage.

Moreover, if he could gather all the origins of the secret realms, his strength would definitely surpass the other forces. It was only natural for him to become the common master of the retained students, and no one could resist him!

Hong Baxian had the ambition to unify the school of retained students, so he was naturally determined to get the origin of the secret realm!

In the end, Bao Sanye broke the silence with a mumble, "Those bastards are actually willing to give up the source of the secret realm?"

Everyone looked at each other with suspicion on their faces.

The origin of the secret realm was too important to a force. Only with the origin of the secret realm could one have a base. It could be said that this thing was the official certification of the school for repeat students.

Only by holding the source of the secret realm could one be recognized by all the forces and participate in the struggle for power in the repeat school.

If they didn't, then they were a chicken force that couldn't be seen on the table. Not to mention participating in the game of the overall situation, they didn't even have the qualifications to talk on equal terms with others. They would even be targeted by the scavengers who were everywhere!

"The blue tile society's president died mysteriously. Now, the original Vice President is in power. Could it be that they really can't hold on?"

A higher-up asked in confusion.

"I don't care what they're thinking," Hong Baxian said in a deep voice. "I'm determined to get the source of the secret land. But now I've encountered a small problem."

"What's the problem, big brother?" Sanye asked.

"I want the source of the secret realm, but I don't want to give you the 100000 academic credits."

Hong Baxian looked at everyone with a humble expression, ""Can any of you help me think of a good idea?"

Bao Sanye jumped to answer. "Isn't that simple? we'll destroy the blue tile society and take their source of the secret realm. We can also make a fortune on the way!"

"Idiot!"

Hong Baxian scolded angrily, "are the other clans just going to watch us swallow the blue tile society?" If we make the first move, they'll immediately gang up on us. At that time, will you be the one to take the fall or me?"

"Uh ..."

Bao Sanye couldn't help but feel embarrassed. He scratched his head and whispered, ""Now that we have Lin Yi, we don't need to be afraid of them surrounding us, right? we'll kill whoever comes!"

"....."

Everyone rolled their eyes speechlessly-did this guy really think that Lin Yi was invincible?

Lin Yi was strong, but no matter how strong he was, he couldn't beat Hong Baxian, the pavilion head. Hong Baxian was one of the top few in the repeat division, but there was still a clear gap between him and the top few.

"What do you think, lil bro Lin?" Hong Ba looked at Lin Yi.

"If we can't do it directly, then we'll just trade with them. We'll take it back with interest when we get the source." Lin Yi said after some thought.

"How do we Rob them?"

"Since the green tile society has experienced such a big change, it should be normal for internal strife to occur over such a big matter as trading the source of the secret realm, right? If we don't have a good reason, we'll be attacked by a group of people, but if someone comes to us for help, there won't be so much trouble, right?"

Lin Yi's words made everyone look at him in a new light.

Previously, he thought that this guy was just a boorish man with strong combat power. He didn't expect him to be so cunning. He really had to be more careful when dealing with such a person.

If he fell into this guy's trap, he wouldn't even know how he died.

Hong Baxian was overjoyed, "good idea!" We'll do as brother Lin says!"

After setting the direction, everyone discussed the details of the plan, as well as the possible changes and related plans in the process.

Lin Yi couldn't help but be alert. These people looked rough, but they were all rough with a touch of strictness. They looked easy to fool on the surface, but they were as cunning as ghosts.

After they finished discussing the plan, Hong Ba had boson arrange a place for Lin Yi to stay, while he left behind his most capable master.

Chapter 9614 The End

It was Li Chan, the head of the sound of wind Hall.

"From today onwards, you have to keep an eye on Lin Yi's every move, but don't do anything unnecessary. Report everything to me, no matter how big or small."

After hearing Hong Baxian's order, Li Chan couldn't help but be surprised. "Pavilion master, are you suspecting that Lin Yi has ulterior motives?"

Hong Baxian sneered, "how can there be such a good thing in the world? such a good person would come to join us?" Hehe, only an idiot like Bao Sanye would believe that!"

"But if you're suspicious, why don't you strike first to avoid any trouble?"

Li Chan suggested.

Hong Baxian shook his head and said,"it's such a rare blade. If it's destroyed without making the best use of it, wouldn't it be a pity?" Besides, if we don't figure out his true intentions, there'll be another Lin Yi after we get rid of him, and we'll never be able to live a peaceful life again. "

"I understand," Li Chan nodded.

The next day, the fishing plan was launched.

Hong Ba first gave full authority to Bao Sanye to contact the blue tile society.

On one hand, Bao Sanye was his sworn brother, so his status was high enough. On the other hand, Bao Sanye's usual image could dispel the other party's wariness to a large extent.

At the end of the day, compared to smart people, it was more reassuring to do business with stupid people.

As the person who proposed the fishing plan, Lin Yi naturally couldn't be absent as well. He joined the first line of trading as Sanye's follower.

In addition, there were a total of four Hall Masters who provided external support. Li Chan, the hall Master of tingfeng Hall, who was the intelligence team of Overlord's Pavilion, was also on the list.

Once everything was ready, Bao Sanye brought Lin Yi and a small team of elites from the Overlord's Pavilion into the Qing WA clan's territory.

Under normal circumstances, two parties would usually choose to trade in a neutral or ownerless third party's territory in order to avoid being backstabbed. However, this trade involved the source of the secret realm, so it could only be done in the blue tile society's territory.

After all, the source of the secret realm could not be touched lightly. Unless the transaction was confirmed, it would not be taken out.

As its name suggested, the buildings in the core area were all covered with green tiles, with carved beams and painted rafters, and an ancient courtyard. At first glance, it looked antique and had a rare sense of tranquility.

"This place isn't bad, right? They'll be ours in the future!"

Sanye turned to Lin Yi.

This trip was not only to trade for the source of the secret realm, but also to swallow up the entire blue tile society. After all, the blue tile society was a force with many experts.

It was a little weak, but if he could swallow it whole, it would be a big boost to Overlord's Pavilion's strength. Hong Baxian would not let it go!

Lin Yi looked up at the sky speechlessly. This guy's voice was soft enough, but he had his divine sense watching at all times. The two masters leading the way were shocked.

If it were not for the Overlord's Pavilion's strength, he would have already pulled out his sword and killed them.

As they walked, they arrived at a quiet courtyard.

Before the two entered, a weird voice came from inside, "Hong Baxian didn't even show up personally for such an important deal. He doesn't even have a proper Hall leader, and instead sent a fool and a minion. Is he looking down on our blue tile society?"

Bao Sanye sneered and replied, "with my brother baosan's help, isn't it enough for your blue tile society to be arrogant?" Just how much can you people amount to? do you really think you're all that?"

"Throw him out!"

The order came from the inside, and the surrounding Masters of the Qing WA clan immediately rushed up to the sky, combining together and pressing down on the top of Lin Yi's head like a mountain.

Two guards in uniform stepped forward and said coldly, ""Get lost,"

Lin Yi and Bao Sanye looked at each other and slapped them twice without a word, knocking them to the ground on each side.

The entire place was silent.

Although these two guards weren't the strongest, they were still big shots in the middle stage of the consummate level. This guy was clearly only in the peak of the early stage of the consummate level. Even if he was strong enough to challenge those of a higher level, it shouldn't be so exaggerated, right?

It was clearly a cross-level challenge, but why did it seem like he was beating up his son?

"You have guts! How dare you attack someone in the headquarters of the blue tile society? do you really think I don't kill people?"

The person inside was instantly enraged. A powerful aura that belonged to a Big Shot at the late stage of perfection was released, instantly enveloping Lin Yi and Lin Yi. Even the air around them was filled with visible killing intent.

Sanye was fearless and laughed."Jiang, if you dare to lay a hand on us today, I'll take your surname from now on!"

The Overlord's Pavilion was worried that they had no name, and the various halls under them were already ready to go. Hong Ba was eager for the Qing WA clan to cause trouble on their own, which would save them a lot of trouble.

Sure enough, the other side immediately stopped.

After a long time, a sigh came from inside, ""Let them in,"

"You're a coward without eggs!"

Bao Sanye sneered in disdain. He kicked the two guards on the ground away and strode into the courtyard slowly. Not to mention the people from the Qing WA clan, even Lin Yi's eyes twitched when he saw his attitude.

There was no one else in the courtyard except for a Haggard old man.

Bao Sanye furrowed his brows and carefully identified it for a long time. He was shocked on the spot, ""F  
\* ck! White-faced Jiang, why did you become an old man?"

Even though the repeated students were mostly failures, those who were able to enter Jianghai Academy were all geniuses from all over the world. Very few of them looked old.

The Vice-President of the blue tile society, Jiang Yao, was once known as one of the four young masters of the retained students school. He was famous for his good looks. How did he become so old in the blink of an eye?

Lin Yi frowned as well-he couldn't tell what was wrong, but this man gave him a strange and dangerous feeling.

"Cut the crap, did you bring the thing?"

Jiang Yao coughed as he stared at the two of them. His eyes were mainly on Lin Yi.

Sanye raised his eyebrows and looked at him as if he was an idiot. "You didn't even let me see the shadow of the secret realm's source and you want something? White-faced Jiang, you'd better think it through. We've already made the biggest concession to you by coming here to trade. It's not a good habit to take advantage of you!"

"Hmph, you blind fool."

Jiang Yao waved his hand, and the ground under their feet instantly became transparent. A fist-sized dark red foreign object was buried deep underground, beating like a heart.

Every time it jumped, Lin Yi could feel a mysterious spacetime aura coming from it. He had a feeling.

As long as he could master it, he would be able to control this world!

"The secret realm's essence!"

Bao Sanye's eyelids twitched, but his face immediately turned into one of disappointment. ""Why is it so small? You're not embarrassed to ask for 100000 academic credits for such a small thing, and you even want a perfect Water-type domain origin stone?"

He was not trying to belittle it, but compared to the source of the secret land of the Overlord's Pavilion, which was half the height of a person, the one in front of him was not even one-tenth of its size. It was pitifully small.

Chapter 9615 Power

To a certain extent, the size of the origin of the mystery realm basically represented the strength of a force. The overall strength of the Overlord Pavilion and the blue tile society was evident.

"No matter how small it is, it's still the secret realm's source. Your Hong Baxian is so ambitious, how could you reject it?"

Jiang Yao snorted coldly and said, ""Can you take it out now?"

Sanye and Lin Yi looked at each other and didn't waste any more time. Two items appeared in their hands.

It was an anonymous credit card with 100000 credits and a perfect Water-type domain origin stone.

"What kind of deal?" Sanye asked.

Jiang Yao squatted down and slapped the ground with his palm. The secret realm's origin was slowly pulled up. In the blink of an eye, it was completely in his hand.

As the source moved, Lin Yi could clearly feel the flow of time and the position of the space around him change slightly.

It was just that this change was too weak. If not for the nine-story glazed Pagoda, which could change the flow of time, he would not have noticed it.

And this was only the energy of a small piece of the origin of the secret realm dissipating on its own. If someone were to use it with all their might, especially when the volume of the origin of the secret realm was magnified by hundreds or thousands of times, the scene would be unimaginable.

It was only now that Lin Yi truly understood the value of the source.

It was no wonder that Banshi Luo wanted to keep this thing in his hands. Otherwise, if it were to be held in someone else's hands and the base of the Banshi Department was suddenly moved here, he would not be able to sleep well.

Lin Yi's intuition told him that if he could master the source of the secret realm, it would be of great help to him when he touched upon the legendary time and space domains!

Lin Yi was confused when he saw Banshi Luo's time domain-all five elements had their corresponding domain stones, and they covered all kinds of variations, but he'd never heard of time and space domain stones before, as if they didn't exist in the world.

However, without the territory stone, where did the time and space territories come from?

Before this, Lin Yi had always thought that no one could master this level of power, but Banshi's existence completely overturned his previous understanding.

This was especially so when Banshi Luo was showing a strong desire for the source of the secret realm-Lin Yi couldn't help but have an idea.

Perhaps, this ambush operation was not just to find a way out?

"We'll hand over the money and the goods. "

Bao Sanye didn't object to Jiang Yao's suggestion. He immediately threw his academic credit card and the perfect water domain origin stone over. Jiang Yao kept his promise and threw over the secret realm's origin in his hand.

However, just as Bao Sanye was about to happily take the source of the secret realm, he suddenly realized that the source of the secret realm was just floating in place. He couldn't take it away at all!

Even if he used all the power of his domain, he still couldn't move the origin of the secret realm.

"You F \* cking dare to play tricks!"

Bao Sanye was instantly furious. Although some of them had already expected Qing WA to be so honest during the previous discussion, he really didn't expect him to have the guts to play tricks in front of them.

He really wasn't afraid of death!

To his surprise, Jiang Yao looked at him with disdain. ""Do you really think you can take the source of the secret plane so easily? To think that Hong Baxian would be so at ease to let an idiot like you do the trade?"

Sanye blinked as he turned to Lin Yi, "There's a way to explain this?"

Lin Yi shook his head silently. Banshi Luo had given him a lecture on the source of the secret realm before he left, but he naturally wouldn't reveal it in front of others. After all, it didn't fit Lin Yi's status.

"Ha, I've really met a wooden club."

Jiang Yao pouted with a mocking expression and laughed. ""If you want to take away the secret realm's origin, you must first cut off its connection with this spacetime. Otherwise, unless you move the entire Qing WA clan away, we will never be able to move."

Bao Sanye wasn't stupid and immediately reacted, ""Then why don't you cut off the connection?"

Jiang Yao laughed out loud. "I only said that I would give you the source of the secret plane. I didn't say that I would help you pack it up and take it away!"

"Damn it! Are you toying with the Overlord Pavilion on purpose?"

Bao Sanye was instantly enraged and was about to fly into a rage. In any case, his mission today wasn't to smoothly complete the transaction. It was more important for him to use this as an excuse to find an opportunity for the four Hall Masters behind him to cut in.

Jiang Yao laughed coldly. Did he really think that he could take away such a precious strategic resource like the origin source of the secret realm with a random 100000 academic credits and a piece of raw domain stone? Are you all too naive, or am I too naive?"

"It doesn't matter who's naive. Since you don't want to make a good deal, then let's fight."

Although his academic credits card and perfect Water-type domain origin stone were already in the hands of the other party, Bao Sanye was not afraid at all. He put his hands on his waist and said

fearlessly, ""You, qingwa clan, are not the first one to trick our Overlord Pavilion, but I can guarantee that this will definitely be the last time."

"Did I say I don't want to trade?"

Jiang Yao changed the topic. "If it's just the previous price, the source of the mystic realm is here. It's up to you how you want to take it away. If you want follow-up services, you have to pay more."

"Pay more? How much do you want to add?"

Bao Sanye's eyes flickered with a dangerous light. He was about to call for help at any moment.

Jiang Yao coughed and said, "don't worry. The Qing WA clan is a powerful force. We won't ask for too much. Also, I don't want academic credits or resources. I won't let the Overlord Pavilion lose too much."

"Then what do you want?"

"i want to be alone."

jiang yao raised his skinny hand and pointed at lin yi, ""make him stay."

this time, not only sanye, but even lin yi was taken aback. when did he come into contact with this person?

"he's only a peak early stage consummate level magnate. even if he has a special status, he's nothing to your overlord pavilion, right? it's just one less high-level cannon fodder. "

Jiang Yao looked at Lin Yi with a dangerous gaze, ""Don't say that I didn't warn you. The source of the secret plane can't exist on its own for too long. Once it's taken out, it must be transferred as soon as possible. Otherwise, if something goes wrong, the blue tile society won't be responsible for it."

"Go to hell!"

Bao Sanye flew into a rage on the spot and attacked without saying a word. ""How dare you have designs on my brother! If I don't kill your father today, I'll take on your surname!"

The metal-elemental destruction domain burst forth. Bao Sanye charged forward and concentrated the power of his domain on his palms.

Great destruction hand!

Lin Yi nodded to himself. This guy was an idiot, but he was actually pretty strong. He wasn't as strong as the animals in the new student Alliance, but he was still a rare expert among his peers.

It was rare to see a powerhouse at the peak of the middle stage of the consummate level condensing the power of a domain to such an extent.

With the special properties of the destruction domain, even Lin Yi wouldn't be able to take this attack head-on.

Chapter 9616 Power

Even though the destruction attribute could only be used to its greatest extent against metal items with the current level of development of Bao Sanye's domain, it wasn't as if it was completely harmless against other things.

If his palm really hit the target, it would be easy to turn the person's entire body into powder!

In the end, Jiang Yao didn't Dodge or use any weapons or long-distance moves to block. Instead, he stood on the spot and slowly stretched out a withered palm, meeting the attack without any strength.

He even dared to do this?

Lin Yi blinked.

Then, the two palms met. Bao Sanye, who had the absolute advantage on the battlefield, didn't even hold back for a moment. He was directly sent flying, accompanied by a series of bone-cracking sounds. His entire arm had obviously been shattered.

Strange. Lin Yi's strength and vision were quite extraordinary now, but he couldn't understand the process at all. It was strange.

The opponent was a big Shot at the late stage of perfection, so it was reasonable for Sanye to lose. However, Lin Yi didn't expect him to lose in such a way.

"For Hong Baxian's sake, I'm only giving him a small warning. If he's still stubborn, then don't blame me for being merciless. After all, it's the custom of the retained students to see blood when you attack. I can't break the rules."

Jiang Yao's gloomy and dangerous eyes fell on Lin Yi again.

However, Bao Sanye was a ruthless person. He was still unconvinced even after one of his hands was crippled. He gritted his teeth and jumped up, ready to attack again.

At this moment, a divine sense voice transmission suddenly entered his sea of consciousness. "Agree to his request."

Sanye couldn't help but turn to Lin Yi. The voice wasn't from Lin Yi but his sworn brother, Hong Baxian!

Other than Lin Yi, there was only Hong Baxian in the Overlord's Pavilion who had such a high level of consciousness.

If it was anyone else who said this, Bao Sanye would have definitely given him a good scolding on the spot. However, it was Hong Baxian who gave the order, and this really put him in a difficult position.

No matter what, he would never disobey his big brother's orders!

But Lin Yi was a brother he brought back with his own hands, and he wouldn't let him abandon his own brother.

For a moment, boson was caught in a dilemma.

Bang! Bang!

Sanye slammed his head into the wall, creating a hole the size of a human head. Everyone was dumbfounded. What the hell was wrong with this idiot?

"Alright, I can't hear anything now."

Bao Sanye felt liberated. He stood up and rushed towards Jiang Yao again.

This put Jiang Yao in a difficult position.

Of course, he could keep his word and kill Bao Sanye. However, if he did that, he would become a mortal enemy of Hong Baxian. After all, Bao Sanye was Hong Baxian's sworn brother. In the entire Overlord Pavilion, he only had one sworn brother.

No matter what, once he killed Bao Sanye here, Hong Ba would definitely kill him first!

No one wanted to provoke someone as shrewd and powerful as Hong Baxian for no reason. Even Jiang Yao didn't.

Jiang Yao had no choice but to explain, ""This is a personal grudge between the Jiang family and that kid. Are you sure you want to get involved on behalf of the Overlord Pavilion?"

"Personal grudges?"

Sanye froze and turned to Lin Yi. "You know this guy?"

Before Lin Yi could reply, Jiang Yao sneered, ""I don't know him at all, but this brat offended my cousins Jiang Long and Jiang Ziheng, so he's the Jiang family's mortal enemy! Since he walked right into my trap, he must die today. Otherwise, I can't explain it to my cousin!"

"I see. No wonder I felt a little strange."

"Huh?" Lin Yi asked curiously, "isn't your Jiang family a poor family?" To actually be able to plant a person in the Academy, his hands are quite long. "

If it wasn't for Lin Yi's sudden appearance, Jiang Ziheng would still be doing well in the Academy, and the retained students would have the blue tile society as their stepping stone. There were only a handful of people outside who could achieve this.

if all of this was nanjiang king's doing, then this person's means were far more terrifying than lin yi had imagined!

"my cousin's power is not something an ant like you can estimate!"

jiang yao snorted coldly. his skinny and withered body suddenly dashed towards lin yi. at the same time, he gave an ultimatum to the restless bao sanye, ""you've already said that and you're still trying to interfere. that means you're courting death. even hong baxian can't blame me!"

"idiot! it's not certain who will die!"

Sanye was about to go up to Lin Yi when he was stopped by him. "Since it's a personal grudge, I'll handle it myself. There's no need for brother boson to worry about it."

After saying that, he walked over to the other side.

"You have guts!"

Jiang Yao was also stunned for a moment. After all, the repeat Academy was a rather closed circle. Even the technology of the secular world, which was already very popular in the outside world, was rarely seen here, let alone the large-scale infrastructure network.

In his mind, no matter how much Lin Yi was the new generation King, he was still a noob who had been bragged to the sky. What could a measly Big Shot at the peak of the early stage of the complete realm do in front of a true Big Shot at the late stage of the complete realm?

Whoever dared to believe such a thing would definitely have a hole in their brain.

A withered palm struck out, and the scene was exactly the same as when he faced Bao Sanye.

Lin Yi smiled and didn't try to Dodge it. He sent out a palm as well.

"You don't know what's good for you!"

Jiang Yao couldn't help but laugh wildly. He had been in the repeat school for so many years, but he had never seen such an arrogant new student. Even Bao Sanye's great destruction hand was like paper to him. Did this kid really think he was the chosen one?

BOOM!

The two palms collided, and a powerful wave of air instantly overturned the surrounding green bricks and tiles. A large area of the headquarters of the blue tile society was destroyed on the spot.

However, the plain-looking Lin Yi didn't fly out like Bao Sanye, nor did he lose an entire arm. He just stood there, unmoving, even having the time to tilt his head and ask a question.

"You've used your strength?"

jiang yao couldn't hold his face anymore. he didn't go easy on lin yi at all. even if it was just to have a place in front of his cousin, the king of nanjiang, he had to kill lin yi on the spot!

who would have thought that it would end up like this ...

that was not all. immediately after, he was horrified to find that his palm was rapidly losing all feeling. a strange petrifying force was spreading along his arm to his body. it was actually unstoppable!

the petrification domain?

jiang yao was shocked and angry. he couldn't help but ask what zhao shanhe had said back then,""what's your relationship with wu ya?"

wu ya had once been defeated by xu anshan and had stayed in the repeat school for a period of time. his indefensible petrification domain was a nightmare for countless people. he had even destroyed several forces, including the blue tile society.

Chapter 9617

If this guy had not been recruited by Xu Anshan and returned to the Academy to harm others, perhaps the blue tile society would not have existed today.

"A defeated opponent."

Lin Yi replied faintly, his understanding of the petrification realm rising to another level.

As the possessor of a perfect earth element domain, as long as he had the energy, he could replicate any earth element mutated domain with his talent. It was the same for other elements such as wood, wind, and metal. It all depended on whether he had the intention to do so.

He shouldn't bite off more than he could chew. To be honest, normal mutants didn't really interest Lin Yi, but these earth-type mutants were more and more tempting.

Yan Zhongyuan's gravity domain, Ying Long's earthquake domain, and Wu Ya's petrification domain were all top-tier domains!

And so, the first thing Lin Yi did after he'd completed the perfect earth element domain was study the petrification domain. It wasn't fully developed yet, but it was even better than Wei baizhan's petrification domain!

After all, with the perfect domain as the foundation, it could be said to be a perfect all-purpose drive. It was much more Orthodox than Wei baizhan, who relied on the Blacktide domain to drive it.

Jiang Yao didn't understand what Lin Yi meant. He suppressed the petrifying power in his body and snorted, ""You've fought with Wu Ya? As someone who was defeated by him, it's your skill to be able to survive from his hands!"

"....."

Lin Yi didn't know how to explain himself, and only shook his head with a weird expression. He didn't bother explaining anything to this guy and continued to press on.

"You don't know your place! Do you really think that you can challenge someone three levels above you with some unremarkable petrification technique?"

A strange aura that made one's heart palpitate suddenly burst out from Jiang Yao's body. All living things in his domain aged rapidly in just a few breaths, and the plants withered one after another!

Even Lin Yi could feel his life force being drained away!

It was a familiar feeling.

The situation was similar when he faced the life domain of the president of the martial arts Society, Shen Junyan. The difference was that Jiang Yao's method of absorbing life force was more direct and domineering, making it harder to guard against!

On the other hand, Jiang Yao's originally withered body was glowing with powerful vitality at a speed visible to the naked eye. In the blink of an eye, he turned from an old man to a young and strong man.

Rejuvenation!

Not only that, but with a wave of his hand, the petrifying power that had invaded his body was completely discharged. Even his arm that had been petrified earlier quickly recovered.

It was as if the petrifying domain was nothing in front of him.

"wood-element mutated life realm?" lin yi raised a brow.

"that kind of rubbish domain is worthy of being mentioned in the same breath as me?"

jiang yao didn't care at all. he suddenly stomped on the ground and appeared in front of lin yi with a sonic boom. he slammed his palm down heavily."remember, this is the death domain!"

with a single palm strike, the aura of death swept through the entire area. half of the headquarters of the blue tile society, which was already in ruins, was immediately cleared.

even an outsider like bao sanye fell silent upon seeing this, let alone the experts of the blue tile society.

other things aside, at least after this battle, the qing wa clan would probably be gone.

"Fierce enough, but you don't need to be so fierce when hitting air, right?"

Lin Yi's leisurely voice sounded behind him. Jiang Yao's heart skipped a beat, and his face that was filled with murderous intent flashed with a slight panic.

In name, it was the death domain, but in reality, it was the same as Shen Junyan. It plundered the life force around it for its own use, and with the overflowing life force, it achieved rejuvenation, thus accumulating a form that was far more powerful than usual.

Although this wasn't his final trump card, it was already the full embodiment of his true strength. With the speed that he had just displayed, Jiang Yao was confident that there were few who could match him even among his peers!

She didn't even touch a single hair on Lin Yi's head.

He couldn't even see how Lin Yi appeared behind him.

He shuddered in fear!

Phaseless steps and impermanence steps were the two ultimate movement techniques of wind element domain. They could be said to be the existences standing at the top of the pyramid at the current stage. There was almost no one else who could compete with them in movement techniques!

Especially since Lin Yi had incorporated his years of experience into impermanence steps-a top-class practitioner familiar with him would be able to see the shadow of the Super limit butterfly micro steps in it.

Jiang Yao could never have imagined that the freshman in front of him, whom he regarded as a noob, had just fought with the second-in-command of the half-division, chief Chen Guo, two days ago. That was a top figure who had once suppressed Hong Baxian to the point where he couldn't even lift his head.

"Impossible!"

Jiang Yao was unwilling to give up. He pushed his limits and doubled his speed again. He was so fast that only a blurry shadow was left behind.

However, Lin Yi was still following him like a shadow. The impermanence steps couldn't be understood with common sense-once someone was locked on, there was no way to escape no matter how fast they were.

It would always be one step faster than you because the wind moved with you. Your limit was its Foundation, and it could easily hitch a ride from you.

The faster you are, the faster it will be!

This way, the more energy Jiang Yao used, the easier it was for Lin Yi to follow. On the other hand, it was harder for Lin Yi to continue.

After a while, Jiang Yao was panting heavily.

Bao Sanye was dumbfounded. A Big Shot at the late stage of the consummate level was actually being chased to such a state. This really broke his three views.

As a bystander, even if you couldn't outrun Lin Yi, you could've just turned around and fought him head on!

With an advantage of three whole realms, how could he lose in a head-on confrontation?

In fact, it was not that Jiang Yao was too weak. It was just that other people really could not understand the invisible pressure that impermanence steps brought. In the secular world, it was like having a sniper rifle aimed at the back of your head forever. After a long time, no matter how strong a person's ability to resist pressure was, they would be driven crazy!

Jiang Yao was feeling this way. The more he looked down on Lin Yi just now, the more he feared Lin Yi now!

In theory, he did have the capital to flip the table, but his intuition for danger that he had developed over the years told him that as soon as he made any move to accumulate power, the other party would immediately pull the trigger.

He didn't know what kind of trump card Lin Yi had, but he was sure that once Lin Yi found his real weakness, he would really die!

As the master of the so-called death domain, his understanding of the terror of death was far more than others.

The more he understood, the more he feared.

As such, Bao Sanye and the other experts of the blue tile society witnessed a battle that they would never forget.

Under the control of the fear of death, Jiang Yao ran from the beginning to the end and didn't even look back.

Chapter 9618 Power

it wasn't entirely his fault-with the impermanence steps, unless the opponent was at the same level as him, lin yi could make sure that his opponent couldn't touch him, but he could still launch a fatal attack at any time.

in the end, even the power of the territory started to decline. jiang yao's appearance gradually changed from a young man to a withered old man. jiang yao finally couldn't bear it anymore and used his last trump card.

a destructive aura that truly belonged to the death domain emerged from the substitute. jiang yao's image began to change again, but this time, he didn't return to his youthful appearance. instead, he changed his human appearance directly. some kind of ferocious feelers that belonged to a ferocious beast appeared!

"domain manifestation?"

bao sanye, who was watching from the side, couldn't help but break out in cold sweat for lin yi. after the realm took form, other than the shrinking of the realm's power, which resulted in a smaller range of power projection, everything else had a qualitative change and was completely different from normal!

lin yi could easily deal with jiang yao in his normal state, but once his domain took form, the difference in strength between the two would be completely reversed. in extreme cases, he might not even be able to break his defense!

the qualitative change brought about by the manifestation of the domain was just that exaggerated.

However, before Jiang Yao's domain could finish forming, the demonic devour sword that appeared in Lin Yi's hand had already pierced his chest. The edgeless duo carried the domain black hole that devoured everything and instantly wiped out all of Jiang Yao's organs and tissues, leaving nothing behind.

The whole place was dead silent.

The experts of the blue tile society were all dumbfounded.

Jiang Yao was their Vice President. He used to be the second-in-command and was now the first-in-command. In terms of strength, he could be on the list of the retained students. How could he die in the hands of a rookie?

"You're transforming in front of me. You're really hardcore."

Lin Yi put the demonic sword away. Domain forms were strong, and in the hands of someone like Cheng Chengguo, no one would dare to move even if they transformed, because they had the power to suppress everything at any time.

The so-called flaw was not a flaw at all.

On the other hand, a half-baked person like Jiang Yao was forced to transform at the end of the road. In Lin Yi's eyes, his whole body was full of flaws. If this wasn't courting death, what was it?

However, what made Lin Yi suspicious was that Jiang Yao's domain didn't seem to be that pure. There seemed to be some kind of unknown fiendish energy mixed in.

On the surface, it was a manifestation of the domain, but in reality, it could be closer to a transformation!

"If you want to take revenge for him, you can find me at any time."

Lin Yi scanned the area, scaring the Qing WA clan Masters away.

What a joke. After the strange death of the president, the green tile society was already in a precarious situation. Now, even the only Vice President who could control the situation was dead. It was unknown if the green tile society would still exist after today. How could they avenge Jiang Yao?

"You guys can leave."

Someone plucked up his courage and said.

lin yi looked at him strangely, "the secret realm's source is still here, how are we going to leave? or can you take care of the after-sales service for jiang yao?"

the experts of the blue tile society looked at each other and were speechless.

at this moment, hong baxian's voice suddenly came from all directions. it resounded in everyone's consciousness,""since we can't solve the after-sales problem, we can only settle for the next best thing. we'll be stationed here. the overlord's pavilion is in need of a branch."

everyone looked as if they were facing a great enemy.

however, before they could gather together, the four hall masters of the overlord pavilion had already appeared with their own experts, surrounding the experts of the blue tile society.

Hong Baxian descended from the sky with a majestic aura,""Since the President and Vice President are gone, and there isn't even an expert that can be put on the stage, I think there is no need for the Qing WA clan to continue existing. In the future, all of you will be incorporated into the Overlord Pavilion. Working for the Overlord Pavilion will have a much better future than staying in the unranked Qing WA clan."

"Of course, I, Hong Baxian, never force people to do things they don't want to. If anyone is not willing, you can bring it up now."

Everyone was silent for a moment.

Finally, a young and aggressive master of the blue tile clan stood out.""I don't want to."

As soon as he finished speaking, Hong Baxian turned him into dust with a casual slap. Everyone fell silent.

"Is there any more?"

Hong Baxian looked at the crowd with a smile. ""Don't misunderstand. I didn't kill him because he wanted to leave. I simply hated the way he spoke to me. He didn't respect the strong at all. This won't do."

Everyone was speechless.

With such a precedent, who would dare to stand up and say no? this was not the way to look for death.

Besides, for them, except for a few high-level members of the blue tile society who held great power, it was actually not a bad thing for the majority of the remaining people to switch to the Overlord Pavilion. Who did they have to work for?

Moreover, the Overlord Pavilion was much stronger than the blue tile society. Once one became an official member, the treatment would be better, and there would be more room for promotion.

This incident was a great disaster for the Qing WA clan, but for them, it might be their chance to turn things around.

"I'll join. "

With the first person's words, the following development was natural. All the experts of the blue tile society began to consciously accept the Overlord Pavilion's recruitment.

Even if there were still some who were dissatisfied, they could only temporarily bear with it and wait for an opportunity in secret.

However, Li Chan, the head of the wind listening Hall, had already entered the hall with the backbone of the hall. Even the slightest change in expression could not escape their perception. Many people had already been blacklisted by them.

These people who had chosen to lay low for the time being would disappear one after another in the coming period of time. A mere blue tile society did not have a strong person who could play tricks on the entire Overlord Pavilion.

Lin Yi watched on coldly-he'd already expected this, but he was more concerned about Hong Baxian's movements.

In the blink of an eye, Hong Baxian had already taken the origin of the secret realm into his pocket!

Lin Yi wasn't surprised that he had the means to collect the source, but the ambition he revealed was quite shocking.

After receiving the secret realm's origin, Hong Baxian began to reward them in front of everyone,""Lin Yi played a huge role in the collapse of the Qing WA society. According to the rules I set before, you can ask for anything from the Overlord Pavilion, and the entire Pavilion will do its best to fulfill it!"

The crowd was in an uproar.

This kind of blank check was a tradition of the Overlord's Pavilion, but it had been a long time since Hong Baxian had given it to him. On one hand, it was because of Lin Yi's great contribution, completely destroying the Qing WA clan by himself. On the other hand, it showed how much he valued Lin Yi!

Chapter 9619 Power

Under everyone's gazes, Lin Yi didn't hesitate and said directly, "I want a perfect Water-type territory origin stone."

"No problem," he said.

Hong Baxian didn't waste any time and threw the perfect water-type territory stone to Lin Yi, smiling, "You were the one who snatched it back. I was planning to leave it to you anyway. It's a gift from the Overlord Pavilion. You can also make another request."

This time, not only the experts below, but even the four Hall Masters' expressions changed.

It was the rule of the Overlord's Pavilion to reward those who contributed. They were envious of Lin Yi for giving him a perfect Water-type territory stone, but they didn't have anything to say about it. Wasn't it too much to give him a blank check?

It was just that Hong Baxian's power was too strong-even the four Hall Masters didn't dare question him directly. They all looked at Lin Yi in silence.

"No need," Lin Yi replied faintly, "it's one yard for one yard. This perfect water territory stone is enough."  
"

The four Hall Masters all heaved a sigh of relief. Fortunately, this kid was still tactful.

However, before they could relax, Hong Baxian said, ""In that case, I won't force you. However, the capable do more work. There's something I need your help with."

"Please give me your orders," Lin Yi raised a brow.

"now that the overlord's pavilion is doing well, it's not enough to just rely on the original four halls, tingfeng, jingyu, rolling thunder, and wild sand. now that we've taken over the blue tile society, i'm determined to take this opportunity to build a fifth hall, named rainbow!"

hong baxian looked at lin yi with burning eyes, "the position of a hall master is high and powerful. if tianhong hall wants to stand firm, it needs a strong enough master. lin yi bro, i think you're very suitable."

if this had happened before, these words might not have been very convincing even if they had come from his mouth.

but now, lin yi just killed jiang yao in a one-on-one fight. even if this guy's performance was a little weak, he was still a true giant in the late stage of the complete realm!

one must know that even the current four hall masters did not all have such a valiant battle record.

"am i really suitable?"

Lin Yi couldn't help but take another look at Hong Baxian, but before he could figure out what was going on, Sanye jumped out impatiently. "Of course it's appropriate! No one in the entire Overlord Pavilion is more suitable than you!"

The guy didn't care about his own injuries as he laughed and patted Lin Yi's shoulder. He was happy for Lin Yi from the bottom of his heart.

Once he became the fifth Hall leader, no matter how the Tianhong Hall developed in the future, it would mean that Lin Yi had reached the core of the Overlord Pavilion. It was something that many masters in the Overlord Pavilion didn't even dare to dream of.

"Hold on."

At this moment, a tall and thin man with a gloomy face stood up and bowed to Hong Ba. "Pavilion master, I would also like to try the feeling of being the leader of a Hall. I wonder if you can give me this opportunity?"

Lin Yi's eyes twitched. He'd noticed this guy at the banquet before-his name was Xiahou Xiao, the Vice head of the Thunderbolt Hall, and he was a big Shot in the late phase of the big round head. In all the

core members of the Overlord's Pavilion, his intuition told him that this guy was one of the top five threats!

For such a person to recommend himself in public, even Hong Baxian could not easily brush him off.

"What do you think, Lin Yi lil bro?" Hong Baxian looked at Lin Yi.

"I'm fine with it," Lin Yi smiled, " but since he's interested in it, then he can take it. It's pretty good. "

In terms of the infiltration plan, it was naturally better to enter the core as soon as possible. However, Hong Baxian's sudden mention of this made people feel that there was a deeper meaning behind it.

Since someone wanted to stand up for him, he could take advantage of the situation to stabilize his hand.

The crowd thought that there would be a good show to watch, but their spirits were dampened by Lin Yi's cowardice.

Just when everyone thought the dust was about to settle, Xiahou Xiao stopped Lin Yi. "Did I say I need you to give way? I've always snatched the things that I like with my own hands. You don't have the right to give up your position, do you understand, kid?"

Lin Yi looked at him and shrugged, "I don't have such an obsessive-compulsive disorder. Since vice Hall leader Xia Hou likes to fight so much, let's see who else is willing to fight with you."

Everyone was disappointed again.

Didn't he just get rid of Jiang Yao? why was he so timid in front of Xiahou Xiao?

Was he really bullying the weak and fearing the strong?

Lin Yi looked at the playful Hong Baxian and decided to wait and see. The best choice for him now was to go back and practice, trying to complete his water element domain as soon as possible.

After all, the more strength he had, the more likely his next plan would succeed!

However, Xiahou Xiao wasn't going to let him go. He said in a neutral tone, "I heard that Jiang Yao was also killed the night the Qingwa society's president died. Although he was lucky enough to survive, he's severely injured and doesn't even have 10% of his strength left. In his current state, any of the Overlord Pavilion's mid-tier Masters could take Jiang Yao down. Brother Lin Yi, you've picked up a big bargain."

A middle-level master immediately echoed, "If I knew this would happen, I would've rushed up just now! It was the four Hall Masters who led the troops and threatened them, causing the Qing WA clan to fall apart. Lin Yi only beat up a sickly person, and now all the credit goes to him. "

The others also followed suit.

Don't be fooled by the fact that they pretended to be friendly at the banquet, that was because they hadn't touched their actual interests.

Now that Hong Ba was going to set up the fifth Hall, there were so many positions with real power below the hall Master. To them, this was a huge cake.

There were so many people waiting for Lin Yi to take the biggest piece, and they couldn't take it anymore!

Hong BA's casual arrangement put Lin Yi in a fire!

"You're f \* cking farting!"

Bao Sanye immediately jumped out and started cursing. He pointed at Xiahou Xiao's nose and said, "I was almost killed by that old man, Jiang Yao. You're saying he's a half-dead, sick man?"

Xiahou Chu frowned and resisted the urge to attack.

If it was anyone else who dared to point at his nose like this, he would have already chopped them into eight pieces. However, Bao Sanye's status was special, so he could only endure it.

"It's hard to say," someone said sarcastically. "It seems that you're too weak. You can't prove that Jiang Yao is strong, right?"

Many people nodded in agreement.

Jiang Yao was already dead, and his status was in suspense. They could either boast about him to the sky or banish him to the ground. It all depended on what they needed.

"Sure, white-faced Jiang is a dead man, and no one can prove his strength. But I, Bao Sanye, am still alive. You can all come and see how much I'm worth!"

Bao Sanye ignored his almost crippled arm and roared as he pounced on the eccentric man. His first move was a fierce one.

Chapter 9620 The Power Of The Devil

Great destruction hand!

That person couldn't help but be greatly shocked. Boson was indeed a bit too strong, but his strength wasn't fake. A single Great Collapse hand was enough to put a mountain of pressure on a large number of big shots at the peak of the middle stage of the consummate level.

BOOM!

That person hurriedly unleashed his domain, but was instead smacked flat by the Great Collapse hand. He was sent flying a thousand feet away on the spot, spitting out blood non-stop.

At the same time, Bao Sanye also spat out a mouthful of blood. He had forced himself to use his full strength when he was seriously injured, and the backlash was not light. However, he still laughed arrogantly, ""Who else said that Jiang Yao is sick? please come out and let my brother boson talk to him."

Everyone looked at each other, and no one dared to speak.

From the beginning to the end, Hong Ba had been watching with great interest, and had no intention of interfering in the dispute.

The four Hall Masters knew that Hong Ba wanted them to fight Lin Yi first. They'd always been as one, and while it wasn't to the extent of going against him, it was a threat to the position of the pavilion master.

Now that a tough nut like Lin Yi had come, if he really did become the fifth head, he'd be able to compete with them in time.

Unless they were willing to go back to the state where they had to ask Hong Ba for permission for their every move, they couldn't let Lin Yi take the position of Hall Master.

The four of them immediately gave Xiahou Xiao a look, urging him to go with the flow and quickly decide on the hall Master position.

Xiahou Xiao understood and was about to speak.

At this moment, Hong Baxian suddenly said, ""I still have a perfect-grade territory stone with me. It's a fire-type one."

The four Hall Masters 'expressions changed.

Lin Yi understood immediately and stood out with a smile, "Since Pavilion master has such kind intentions, then I will be impolite to decline."

"What a good way to refuse! Newbie King Lin's tone is a little too arrogant, isn't it?"

Xiahouchu wasn't pleased. He was determined to step on Lin Yi's head to get to the top today. Otherwise, even if he had the support of the four Hall Masters, people would still gossip about him.

After all, not everyone had the battle record of killing a Big Shot at the late stage of the consummate level in a single blow.

"Why don't you try and see for yourself if my Lin Yi bro's a Big Shot or not? what's with all this nonsense?"

Bao Sanye snorted. "What a bunch of gibberish! I'm starting to doubt if you're a man!"

"What did you just say?"

Xiahou Xiao was furious. Without saying anything, he attacked Bao Sanye. The entire scene was filled with a tsunami. The sky suddenly lowered and pressed down on everyone's head, making it hard for them to breathe.

"Tsk, do you think I'm afraid of you?"

Bao Sanye laughed hideously and used his hand of destruction once again. It blasted a huge hole in the thick clouds above his head and he saw the light of day again.

However, Xiahou Xiao was no longer in front of him.

By the time he realized something was wrong, Xiahou Xiao had already landed behind him and pointed at the vital acupoints on his back with two fingers.

Heavenly Tribulation finger!

Once this finger landed, even if Bao Sanye didn't die on the spot, he would definitely become a complete cripple. That would definitely be crueler than killing him!

Hong Ba looked on coldly from the side, and at the crucial moment, Lin Yi was the one standing behind Bao Sanye.

Sanye was Lin Yi's guarantor for entering the Overlord's Pavilion. He may have successfully sneaked in, but he still needed Sanye's support to stand firm in the pavilion. Otherwise, he'd just be a floating duckweed.

Therefore, nothing must happen to Bao Sanye.

The demonic devouring sword was unsheathed, and Lin Yi's attack was the edgeless duo. The black hole domain attached to it made everyone's heart jump.

What kind of monster was this, starting with a posture that looked like it was going to eat people?

Even the bystanders felt the same way. As the person involved, Xiahou Xiao naturally felt it more deeply. The finger of Heavenly Tribulation that had already been used was finally retracted at the risk of the backlash.

In that instant, he had a strong premonition that if this finger of Heavenly Tribulation really hit, his entire hand would probably be swallowed into nothingness.

"You're such a coward, how can you be a Hall leader like that?" Lin Yi said, amused.

"....."

Xiahou Chu was already suffering from the backlash. This sentence broke his defense and he spat out a mouthful of blood.

The Overlord's Pavilion experts were in an uproar.

The four Hall Masters' expressions turned serious. They thought that with Xiahou Xiao's strength, even if he couldn't crush Lin Yi, he should be able to take care of him. Who would've thought that he'd become like this in one exchange!

Lin Yi didn't take the chance to attack, his face indifferent, "I don't know how to hold back when I attack. Vice Hall Master Xiahou, if you still want to fight, you'll have to be aware of it. You'll die."

"It's not certain who will die and who will live! I said you're big-mouthed, and you're really f \* cking panting!"

Xiahou Chu laughed in anger. There was no room for him to back down now. If he really backed down, he would definitely become the laughing stock of the entire pavilion. At that time, he would not even be able to keep his position as the vice hall master!

with that, a cloud of mist appeared and he disappeared in front of everyone.

"this is a variant of the mist territory, the selfless territory. brother lin yi, you have to be careful."

bao sanye quickly reminded him. although he looked like he didn't take xiahou xiao seriously, he was actually very afraid of him.

if it weren't for the fact that there were so many people watching, especially hong baxian and lin yi, he wouldn't even let out a fart if they were in a different place. he was strong, but he wasn't stupid.

Lin Yi frowned.

He couldn't locate Xiahou Xiao with his divine sense. He couldn't see him with the naked eye, nor could he sense him with his divine sense. All of Xiahou Xiao's aura had disappeared.

Even when he sent out a probing spiritual awareness shock, there was still no feedback.

This was really a little incomprehensible.

This was the first time Lin Yi had encountered an opponent he couldn't see at all-this meant that he was forced to be on the passive side. He'd always been the one hiding his presence to play with others, but he'd never been played like this before.

"Xiahou Xiao's selfless realm isn't just a simple concealment. It's already touched the threshold of nothingness. To a certain extent, it's already beyond the level of the man in the painting. Ordinary people can't deal with it at all!"

The head of the Thunder rush Hall smiled at Hong Baxian and the other three Hall heads.

In other words, no matter how much Lin Yi bragged about himself before, he was still just a normal person.

"Nothingness? Hehe. "

Hong Baxian didn't comment. The true nothingness domain was a top-notch domain that was on par with the time and space domains. If Xiahou Xiao could touch the edge of the nothingness domain, he would be promoted to a first-class figure in the entire retained Academy!

How could such a person be a mere vice Hall Master in the Overlord Pavilion?

Sanye gave Lin Yi an idea, "Lin Yi bro, just ignore him and protect yourself. No matter how well he's hiding, he'll still jump out one day. When that happens, we'll give him a surprise attack and let him see why the flowers are so red!"

This was the safest strategy.
