

Bodyguard 9621

Chapter 9621 Power

With Lin Yi's strength, as long as he didn't underestimate his opponent, he wouldn't be killed in one hit. Defending and counterattacking was always the safest choice.

But Lin Yi wasn't Yan Zhongyuan, and being on the defensive was never his style. Even if he was fighting someone three levels higher than him, he could only lead them by the nose. He had never been in such a passive situation before.

"I'll say it again. I can't control this move myself, so don't blame me if you die. "

As Lin Yi spoke, his doppelganger area was operating at full capacity. In the blink of an eye, there were hundreds of doppelgangers in the area. It was a spectacular sight.

Everyone's expression changed.

Hong Baxian realized that something was wrong and took the lead to retreat. The four Hall Masters and the rest of the people weren't stupid and quickly followed to keep their distance.

Just as everyone was retreating, several hundred destructive auras filled the entire area.

The obliteration domain was formed!

The obliteration erupted, and everyone watched as the headquarters of the blue tile society was razed to the ground. It wasn't a violent obliteration, but all the buildings and the entire space were evaporated. Everyone was dumbfounded.

Even though they had seen a lot of chaotic battles in the repeat school, seeing such a scene still made everyone's eyelids jump!

Was this the work of an expert at the peak of the early stage of the consummate level?

"No wonder you can deal with Jiang Yao!"

The four Hall Masters were secretly shocked.

At this moment, they no longer underestimated Lin Yi's strength, and a deep fear rose in their hearts. Once this peerless genius grew up, they wouldn't even have the right to wash Lin Yi's feet, let alone fight him head-on!

The more it was like this, the more Lin Yi couldn't be kept alive.

At the very least, he couldn't let him get to the top easily!

Just when everyone thought that the battle was over, a finger of calamity appeared in the air, appearing an inch behind Lin Yi's head!

Before anyone could react, Lin Yi's head exploded like a watermelon, and Xiahou Xiao's body was revealed.

"Lin Yi bro!"

Bao Sanye's eyes were about to pop out of their sockets. The plot twist had happened too quickly. It was so fast that he didn't even see the situation clearly and the plot had already been 180 degrees reversed.

"Pavilion master, this one will accept the position of the hall Master of the rainbow Hall."

Xiahou Xiao declared his victory to Hong Baxian with a cold face. From a certain perspective, this wasn't just his victory against Lin Yi, but also against the powerful Pavilion master Hong Baxian.

One day, Hong Baxian's position as the pavilion master would also fall into his hands!

"It's not a good habit to say it too early. Remember to change it in your next life. "

Lin Yi's calm voice suddenly sounded from behind him. Xiahou Xiao lowered his head in shock and found a sword tip sticking out of his chest. It still had a piece of his heart on it.

"You ..."

Xiahou Xiao still wanted to struggle, but Lin Yi wouldn't give him the chance. The destructive domain swept through his body, and Xiahou Xiao couldn't even make a sound before he was crushed to the ground.

However, even at the last moment of his death, he was still staring at a certain person.

He wasn't looking at Lin Yi, but at Hong Baxian.

Not only Xiahou Xiao, but the four Hall Masters also looked at their Pavilion master in surprise.

As for the other people present, they couldn't figure out what was going on at the moment. They were completely dumbfounded by this reversal. All of their faces were filled with confusion and awe.

"He's indeed a ruthless person. "

Lin Yi glanced at the expressionless Hong Baxian, raising his guard against him.

Xiahou Xiao wasn't an idiot-he knew Lin Yi was a cloning Grandmaster, but he still fell for it so easily. The only reason he was so confident was because Lin Yi had tricked him with his spirit sense.

To deceive a Big Shot in the late stage of the consummate level in all aspects, even if the other party's actual primordial spirit realm was below his, was definitely not an easy task.

In addition to the need for perfect control of the spiritual sense, it also required a perfect surrounding environment.

Everyone present had to keep their divine senses silent at the same time!

Lin Yi couldn't do this on his own, and the only one who could do it was the pavilion master, Hong Baxian.

In other words, Xiahou Xiao was killed by Lin Yi and Hong Baxian-no wonder he died with grievances!

The others might not understand, but the four Hall Masters could see it clearly. There was no need to catch him in the act. Of course, with Hong Baxian's means, even if he did it in front of them, it was impossible for them to catch any trace of him.

"How dare you! How dare you kill my brother! Die!"

The leader of the Thunder rush Hall, Xu shengchao, suddenly stood up. Layers of thick thunderclouds instantly covered Lin Yi's head, and nine Thunder halberds came down.

Thunder punishment domain!

At the same time, the Masters of both halls attacked, their target Lin Yi.

No matter how unhappy they were with Hong Baxian, they didn't dare to show it in front of him. But today, Lin Yi had to die!

The three big shots at the late stage of the consummate level launched an attack together. The scene immediately became turbulent. They were all experts on the top 100 list of the retained students. Even in a great battle between forces, it was rare to see them attack together.

Lin Yi didn't panic at all-he only glanced at Li Chan, who was standing by the side. It seemed like the four Hall Masters weren't as united as he thought.

With a thought, Lin Yi's earth element territory power surged and he grew ten times taller, turning into an earth element Titan as he took the nine lightning halberds head on!

He punched out, and the nine lightning halberds collapsed.

The scene made Xu shengchao's heart skip a beat. Now that he thought about it, this kid had already killed two Almighties in the late stage of the consummate level, including Jiang Yao and Xiahou Xiao!

If it was a one-on-one, it didn't seem impossible to kill one more of them!

Fortunately, he had the help of the other two Hall Masters. Whether it was the rain domain of the startling rain Hall Master or the poisonous sand domain of the wild sand Hall Master, they were both extremely deadly existences. Just a touch would cause him to be obliterated.

"Motherf * cker, can't you guys talk about martial virtue!"

Sanye couldn't help but worry for Lin Yi. He believed that none of the three would be able to beat Lin Yi in a one-on-one, but in a one-on-three situation, no matter how much confidence he had in Lin Yi, he still felt that he was in trouble!

Lin Yi's moves were already out of use, and Hua Yu and du Sha were attacking together. It looked like they were going to kill him.

At the crucial moment, Hong Baxian's figure descended from the sky and landed in the middle of the group without any warning. What followed was an extremely thick and solid domain, the cries of Dragons and elephants.

Bang! Bang! Bang! Bang! Bang! Bang!

The domains of the three Hall Masters were crushed to the ground at the same time. Each one of them was more dispirited than the other. They couldn't even maintain the basic form of their domains.

Even Lin Yi couldn't help but be shocked. He had never seen such a terrifying domain before!

Just the strength of his domain alone was enough to force three big shots at the late stage of the consummate level into such a sorry state. Even du wuhui, who was seated at the ninth seat of the Academy, was far too inferior in comparison!

One had to know that Hong Baxian's cultivation level was only at the late stage of the consummate level of a Big Shot, and there was no higher cultivation level!

Chapter 9622 -Power

Facing someone of the same level with such terrifying pressure, this person's strength was far beyond Lin Yi's expectations. Even if he had four perfect domains as a base, it was hard to say if he had any chance of winning against such a monster.

Lin Yi was shocked, and so was Hong Baxian.

Compared to the three Hall Masters, Lin Yi's reaction was way too calm. He completely ignored the pressure from the domain!

None of the leaders under him could ever be his match, but Lin Yi-this was a huge potential that was visible to the naked eye, and even Hong Baxian couldn't help but feel fear.

This child can not stay for long!

Hong Ba secretly put Lin Yi on his kill list, but he didn't make a move immediately. He wanted to dominate the retained students and needed a tool like Lin Yi.

If he didn't squeeze every bit of value out of the tool, how could he be worthy of his investment and ambition?

"That's all for today-Lin Yi will take over as the leader of Tianhong Hall. Get some people to set up the structure as soon as possible, I have a use for it. "

Hong Baxian didn't give anyone a chance to refute him. He turned around and left.

Lin Yi smiled and left with Sanye. He couldn't do without this Idiot's help in setting up Tianhong Hall.

After a long time, the three Hall Masters finally came back to their senses and gritted their teeth as they looked at Lin Yi's back.

Now that Hong Baxian was here, they'd be challenging Hong Baxian's authority if they tried to attack Lin Yi.

Plus, without Hong Baxian's approval, they might not be able to take Lin Yi on by themselves!

"Brothers, just bear with it for now. Right now, it's the pavilion master who needs him as a knife. When this knife is crippled, I don't need to say what will happen."

The head of the sound of wind Hall, Li Chan, consoled.

Xu shengchao and the other two looked at each other and asked suspiciously, ""Hall Master Li, could it be that you've gotten hold of some information?"

The wind listening Hall was a professional in information gathering. In terms of their Information Network, they could be ranked among the top in the entire repeat Academy.

"Just wait and see, he won't be happy for long."

Li Chan laughed coldly as he kept Lin Yi in suspense. Hong Ba had told him to keep an eye on Lin Yi, and he'd done a lot of research in the dark for that. He didn't think he'd really find something.

Lin Yi was already a dead man in his eyes.

The only reason he was still alive today was because Hong Baxian wanted to squeeze him dry of his value as a tool.

"Hmph, no wonder you had the time to hide on the side. You already knew what to do."

Xu shengchao and the other two could not help but curse at him. However, there was still some distance between them and Li Chan. Just by standing by, it was already clear that this person had secretly sided with Hong Baxian and was no longer on the same side as them.

After returning to the Overlord's Pavilion, Lin Yi asked Sanye to help him out while he went into isolation.

Sanye was very satisfied with this.

He was someone who cared about his reputation a lot, and in the Overlord's Pavilion, what could be more honorable than building a Hall by himself?

If it wasn't for the fact that Lin Yi was his follower, he would've jumped out to fight for the position of Hall Master. But since Lin Yi was the one taking the position, it meant that he was the one taking the position.

After all, Lin Yi had said it himself that he'd be in charge of all matters in Tianhong Hall from now on—naturally, Sanye would put in extra effort!

With his status and popularity, although he couldn't get the top masters at the level of Hall Masters, he could still get a lot of mid-core Masters who could hold the scene with big profits. At least, it wouldn't be a problem to put up a show.

While Sanye was busy recruiting people, Lin Yi was in seclusion.

With the previous four experiences, cultivating a perfect water domain was a walk in the park for him. From the beginning to the end, it was a smooth process, and there was almost no difficulty at all.

Lin Yi's perfect water territory was just about to take shape when Bao Sanye organized his men!

With five perfect domains in his hands, he was still under a lot of pressure from Hong Baxian, but if it were only four Hall Masters, it was nothing to Lin Yi now.

Next was the perfect domain of fire.

Hong Ba had hinted before that as long as he took over the position of the head of the rainbow Hall, he'd give Lin Yi a perfect fire element domain origin stone.

It wasn't necessarily a lie, but with Hong Baxian's personality, it was obvious that he wouldn't give it to Lin Yi for free. Lin Yi had to show enough sincerity if he wanted the man to keep his promise.

Getting rid of the ambitious xiahouchu was a sign of sincerity, but it was far from enough.

"If I can cultivate a perfect fire element domain, then all five elements will be complete, and there will definitely be a qualitative change!"

Lin Yi's heart was on fire-other than wind, he had metal, wood, earth, and water elements all at once. If he could train fire as well, who knew what kind of qualitative change would occur?

Because no one had ever accomplished such a magnificent feat!

There were ordinary five-element spheres, but there had never been a perfect one!

According to the experience of his predecessors, once the five elemental sphere was cultivated, it would multiply endlessly and increase one's strength by more than double. And this was only an ordinary five elemental sphere. If it was a perfect five elemental sphere, the effect might even be multiplied by ten times!

At that time, he would have the capital to face Hong Baxian.

However, Lin Yi couldn't just go to Hong Baxian and ask him for it first. People like Hong Baxian wouldn't just do something without a reason. Since he'd thrown out the bait, he wouldn't just take it back.

Sure enough, as soon as Tianhong Hall was established, Hong Ba sent someone to send over a power distribution map.

"The five Giants and thirteen heroes?"

This map was at least one level higher than the ones Lin Yi had seen before. Not only were the coordinates of all the forces clear, but all the important people's information was also included. It was a complete strategy for the retained students!

Lin Yi couldn't help but take another look at Li Chan, who had come to deliver the picture himself.

Strategic intelligence of this level could not possibly appear on the market. It must have been personally written by the tingfeng Hall. Their ability to collect and integrate information was really not simple.

The new student Alliance seemed to be lacking such a person.

Li Chan never would've thought that he'd unknowingly entered Lin Yi's prey list. He was even mocking Lin Yi in his heart-the more effort Lin Yi put in, the closer he'd die!

But on the surface, she still explained the layout of the repeat division to Lin Yi with a serious face.

"There are many forces of various sizes in the repeat Academy. It's still a chaotic battle between the heroes, but there's a clear distinction between the levels. There are five super forces at the top of the pyramid, known as the five Giants, each occupying a territory!"

"East region's sole King, West region's Fallen Dragon, South region's flaming pool, North region's Secret, and central region's tyrant."

"The rest of the forces, big and small, all rely on their breath. Only by obtaining their approval can we have a foothold. Among these forces, the strongest are the thirteen heroes, and our Overlord's Pavilion is ranked sixth."

"A delicate balance has been reached between all parties. Originally, there was peace and harmony. Now that we have swallowed up the blue tile society, it is bound to affect the nerves of the other parties. Before they take action, the pavilion master is determined to further strengthen our own."

"That's why we need to take over more forces in the shortest time possible. Only by raising our strength to the top of the thirteen heroes can we suppress the other forces!"

Li Chan said as he pointed out a few small forces in the area. It was obvious that these were the next targets of the Overlord's Pavilion.

Chapter 9623 The End

"Tianhong Hall?" Lin Yi raised a brow.

Li Chan nodded. "Our main force has to be on guard against the other 13 forces at all times. We might even have to face the suppression of the five Giants at all times. Thus, the main battlefield can only be handled by your Tianhong Hall. Of course, you don't have to worry about intelligence and logistics."

"With Hall Master Lin's strength, dealing with these small factions is a piece of cake. I'll congratulate you first. The pavilion master personally said that as long as you can make a contribution, he'll immediately give you his perfect fire-element domain origin stone. There'll also be a huge reward!"

Lin Yi, on the other hand, didn't look happy at all-the guy wasn't even trying to hide his intentions at all, and was clearly using him as a tool.

Not to mention risking his life for him, once he incurred the anger of all parties, especially from the five Giants, and if he couldn't handle the pressure, with Hong Baxian's character, he would definitely use himself as the scapegoat!

"Which District do we belong to?" Lin Yi asked after some thought.

Li Chan couldn't help but look at him and said faintly, ""East District."

Lin Yi understood-the sole King of the eastern area-this was Hong Baxian's next real strategic goal!

With Hong Baxian's fierce and ambitious nature, how could his target be the thirteen heroes? Even the so-called head of the thirteen heroes was not in his eyes.

In the next half a month, Tianhong Hall attacked everywhere under Lin Yi's lead. The entire Overlord Pavilion's sphere of influence expanded!

Breaking the Heaven's Gate in three days!

five days to destroy the valley of evil!

the dhyana sect, the reflecting moon sect, and the tranquil heart castle followed closely behind!

in just half a month's time, lin yi broke through five factions and killed five almighties at the late stage of perfection. the results were so shocking that the entire repeat school was shocked.

lin yi's name also shot up, shooting into the top 100 list of the retained students like a rocket. his rank also shot up rapidly, beating all the big shots at the late stage of consummate level and ranking 43rd!

one had to know that even hong baxian himself was only ranked 36th in the top 100!

as for the four hall masters, they were all at the bottom of the top hundred-they couldn't even be compared to lin yi.

lin yi was now recognized as the number two figure in the overlord pavilion, second only to the pavilion master hong baxian. some people even thought that lin yi's strength was on par with hong baxian 's, and it was hard to say who would win in a one-on-one fight.

"looks like i've still underestimated him. even if he doesn't fulfill his potential, his current strength is already not to be underestimated."

Hong Ba first looked at the good situation, but he couldn't help but think that he had miscalculated.

Now that the power of the entire Overlord's Pavilion had skyrocketed, it had become the leader of the thirteen heroes. The other thirteen forces that had been eager to make a move before had now all given up.

One Hong Baxian wouldn't be enough to stop them, but with Lin Yi, who was like the sun in the sky, it'd be terrifying.

Including Jiang Yao and Xiahou Xiao, Lin Yi had already killed seven Almighties in the late stage of the consummate level. Who would dare to steal his glory?

One had to know that the leading figures of the 13 heroes forces were generally only experts at the great circle of perfection. Even if they were much stronger than ordinary experts of the same level, who dared to say that they would be able to escape unscathed in front of such a god of death?

"Lin Yi's strong, but he's still not out of your hands, Pavilion master," Li Chan said, "the more he shows off, the more he'll become a target for everyone. It'll be easier to use him then!" Even if he realized it, it's not up to him to decide!"

Hong Baxian nodded slightly. "The small fights before were just to sharpen our knives. What happens next is the key. You keep an eye on the reactions of the five Giants. Those people are all experienced and astute people. They won't sit by and watch us make a big move."

"This subordinate understands."

The General Affairs Office of the repeating Academy.

Under the structure of warlords, the major departments at the college level existed in name only. Not to mention that there was no normal establishment at all, even if there was a complete establishment, no one would care about it at all.

Only the president's office was an exception.

If they had to choose an organization to represent the retained students, it would be the General Affairs Department, because the all-powerful five Giants were once members of the General Affairs Department!

Even now, even though the five Giants often fought each other, they would still send representatives to the General Affairs Office every 15th day of the Lunar New Year.

The meeting here directly decided the fundamental structure of the entire repeat school.

However, it wasn't the first or the fifteenth day of the new year, and the five giant representatives had gathered in the General Affairs Office on their own accord. The files in front of them were the personal information of Lin Yi and the people from Overlord Pavilion.

One of the agents spoke first, "Hong Baxian is very ambitious. The thirteen heroes can't satisfy his appetite. Lord Du Wang, you have to be careful."

"Hehe, the repeat Academy doesn't lack ambitious people. A mere Hong Baxian isn't enough to enter my Lord's eyes!"

"That's true. The 13 heroes of the five Giants are made of iron. Over the years, the 13 heroes have changed more than once, but the five Giants are still the five Giants. Hong Baxian alone can't do much."

"That being said, the bugs down there are jumping around so much. We should press them down, in case people really think that we five Giants are so good-tempered!"

"Are you going to take action personally, Lord King du?"

"There's no need for that. In fact, my master, Mister Tianji, has already figured out Lin Yi's background. As long as we make some arrangements, the Overlord's Pavilion will fall on its own!"

At the Overlord Pavilion headquarters.

Lin Yi returned with Tianhong Hall in victory once more. Other than the captives and resources, he also brought back a medium-sized source of the secret realm.

"Good! Good!"

Hong Ba took the source of the secret realm first. Even with his scheming mind, he could not hide the joy on his face.

Since the beginning of the blue tile society, this was the seventh piece of the secret realm's origin that had fallen into his hands. Although they were not big, when put together, they were quite impressive, especially when his own piece was included. In terms of influence on the secret realm space, he had completely surpassed the 13 heroes!

It could even be compared to the five Giants!

This would be the core capital for him to reach the top.

"Set up a banquet to celebrate Hall Master Lin's victory!"

With Hong Baxian's order, the entire Overlord Pavilion was in a jubilant mood-everyone below him was all toasting to Lin Yi to celebrate, even the four Hall Masters.

Lin Yi was in the Overlord's Pavilion right now, and it wouldn't be an exaggeration to say that he'd done a great job.

Although he couldn't really participate in the core decisions of the top level outside of the main branch of Tianhong Hall, Lin Yi's influence couldn't be ignored. After all, his strength was there.

They were halfway drunk.

Bao Sanye suddenly shouted and ran to Hong Baxian, complaining, ""Big brother, you're not kind!"

"How am I unkind?"

Hong Baxian frowned as he looked at this silly little brother of his. Although Bao Sanye often appeared to be quite lacking in intelligence, his sense of loyalty was definitely not fake. He was always thinking for Hong Baxian's sake, and could be considered to be meticulous even in his rough ways.

Chapter 9624 Power

Sanye lowered his voice, "big brother, you said that you'd reward Lin Yi with the fire Territory origin stone if he did something good. Did you forget?"

"You're standing up for Lin Yi?"

Hong Baxian's face darkened.

This was a difficult problem for him. It wasn't that he didn't want to part with the stone, but he was afraid that Lin Yi's strength would increase again if he got his hands on it. He'd be out of his control if that happened.

"Merits must be rewarded and mistakes must be punished. Isn't this the rule that you personally set, big brother?" Sanye said.

"Lin Yi's done so much for us, if you go back on your word, not only will he complain, but everyone will be disappointed too. When the People's hearts break, wouldn't that be a huge loss for you, brother?"

"....."

Hong Baxian was stunned. He naturally understood this logic, but it was up to him to decide. Now that Bao Sanye brought it up, he knew that Lin Yi would be on guard if this dragged on.

If Lin Yi's wariness ruined their plan, then they'd lose more than they gained.

Hong Baxian immediately announced, "I've said it before. As long as Hall Master Lin makes a contribution to the Overlord Pavilion, I'll reward you with a perfect fire-element domain origin stone. Since everyone is here today, I'll honor my reward!"

As soon as he finished speaking, he flipped his palm and took out the perfect fire-elemental domain origin stone.

Lin Yi's eyes heated up-as long as he got the fire element, the unprecedented perfect Five Element domain would be within reach!

But at this moment, a familiar voice suddenly came from outside the door. ""You haven't even figured out who Lin Yi really is, yet you're giving him something as important as the perfect fire domain origin stone. Aren't you afraid of digging your own grave, Pavilion master Hong?"

Everyone looked over-it was an unfamiliar baby face, and Lin Yi's eyes twitched.

Song Xiaomi!

Why was he here?

Ever since Ying long went missing, song Xiaomi took over his position and became the actual leader of class one. She wasn't that outstanding in the new student Alliance, but she was one of the core members and had Lin Yi's trust.

Lin Yi wasn't the only one who was shocked-Hong Baxian was just as shocked. He glanced at Li Chan subconsciously and saw that Li Chan was also shocked.

"Who let you in? Throw him out!"

Hong Ba made a quick decision. He didn't know why song Xiaomi suddenly appeared, but no matter what, he couldn't let her ruin his big plan.

Li Chan, who was standing at the side, immediately took action.

However, the wind chasing palm went through song Xiaomi's chest, and her whole body turned into a flame. After she regathered, she was unscathed!

Even Lin Yi's expression changed.

Li Chan was a genuine powerhouse in the late stage of the consummate level. Even if he did not use his full strength and only used 50% of his power, song Xiaomi would not be able to withstand it.

Although she didn't show her full strength, the aura that song Xiaomi revealed just now was clearly already at the level of a powerhouse in the middle stage of the consummate level, or even higher!

Lin Yi clearly remembered that song Xiaomi was only a Big Shot at the peak of the early stage of complete realm when he left the rebirth Alliance. How did she improve so much all of a sudden?

More importantly, everyone in the rebirth Alliance was in seclusion in Banshi Luo's Secret realm. How did song Xiaomi come out?

There were too many questions, and Lin Yi was in a mess.

However, one thing was for sure. Song Xiaomi's sudden appearance here was definitely not a good thing!

Li Chan's face fell as he missed. In fact, he had already failed in his duty by letting song Xiaomi appear here.

However, song Xiaomi didn't give him a chance to remedy the situation. She exposed him in front of everyone, ""Lin Yi is a spy sent by Banshi Luo!"

Everyone was in an uproar.

At that moment, all eyes were on Lin Yi.

Shock, surprise, and suspicion.

"You F * cking stinky dog fart!"

Lin Yi himself didn't have much of a reaction, but Sanye was the first to jump out and curse, "Lin Yi was brought out of the school prison by me, and I was the one who dragged him here. He didn't want to at first, so you're saying that I'm also a spy for Banshi Luo?"

As soon as he said that, everyone burst into laughter.

Everyone knew that Bao Sanye was the most loyal person. Anyone in the world could betray Hong Baxian, but he, Bao Sanye, would never do so.

The head of the Thunder rush Hall, Xu shengchao, looked at the expressionless Hong Baxian and said, ""No one doubts your brother bosan's loyalty. However, if Banshi Luo was the one behind the whole incident, it's not impossible for you to fall for it."

"Do you think I'm as stupid as you?" Bao Sanye turned around and asked.

Xu shengchao choked on his words.

At this moment, the other two Hall Masters tried to smooth things over, ""This matter does sound unbelievable. Everyone has seen the contributions that Hall Master Lin has made during this period of time. If you trust an outsider who you don't know the details of and become suspicious after hearing a few words from him, you'll be a laughingstock."

It sounded quite pertinent, and even Lin Yi couldn't help but look at them. These two had always been weird people, and their words had never been nice in front of him.

As expected, the next sentence revealed his true intention.

"Kid, if you want your words to be credible, you should at least tell me who you are, right? Otherwise, who would know if you're a human or a ghost?"

Song Xiaomi smiled faintly, "my name is song Xiaomi. I'm a member of the newborn Alliance. I'm a loyal follower of this Lin Yi. I'm not very famous, but it's not hard to find my information on the internet."

Loyal ...

Lin Yi's eyelids twitched-what a loyal follower, this guy was amazing.

Xu shengchao laughed. "I like loyal people. You said that Lin Yi is Banshi Luo's spy. Do you have any evidence?"

"The evidence is that the people of the newborn Alliance are now in Banshi Luo's independent secret land. All of them are in closed-door cultivation and have cut off all contact with the outside world."

Song Xiaomi paused and looked at Hong Baxian with a faint smile. ""Don't you think it's weird that Lin Yi, a one in a million heaven's favorite, came to your door and worked for you without complaint?"

Hong Baxian didn't look at him, but glanced at Lin Yi, "What does Lin Yi lil bro have to say?"

"No, I didn 't,"

Everyone thought that Lin Yi would be furious, but he was surprisingly calm. There wasn't any change in his expression, as if song Xiaomi's appearance had nothing to do with him.

"Does that mean that you've admitted to it, clan Master Lin?" Xu shengchao asked.

"Admit what?"

Lin Yi looked at him like he was an idiot, "I told you on the first day that the new student Alliance was swallowed up by Banshi Luo. Banshi Luo isolated them from the outside world to strengthen his brainwashing. Is it hard to understand?"

Chapter 9625 Power

Lin Yi didn't wait for a reply and continued, "As for why I'm here, it's because brother boson led me here. You'd better be clear on one thing. It's not that I have to join the Overlord's Pavilion. If someone had recommended me to join the other thirteen heroes or the five Giants, I wouldn't have minded."

"....."

Xu shengchao was speechless.

"Brother Lin Yi joining us is the Overlord Pavilion's fortune. There's no need to doubt this!" Hong Ba said, trying to smooth things over.

Song Xiaomi's face darkened. "Pavilion master Hong is indeed magnanimous, but with Banshi Luo's strength, if he sent Lin Yi here as a spy, he must have a huge plan behind the scenes!"

"Pavilion master Hong, aren't you afraid that the territory you've worked so hard for will end up benefiting others?"

Everyone started to discuss.

Xu shengchao took the opportunity to stir things up. "If it's just Lin Yi, it's not a big deal even if he's up to no good. With the pavilion master's strength and tactics, he can easily suppress him. But if what this kid said is true, and Banshi Luo is also involved, then we have to be careful."

This was not an alarmist talk. Although the Overlord's Pavilion was powerful and had the momentum of being the head of the thirteen heroes, it was still not comparable to the five Giants.

And the strength of the lower half of the division under Banshi Luo was at least on the same level as the five Giants!

If Luo Banshi really came down to the retained students 'yard, and with Lin Yi's help, Overlord's Pavilion wouldn't be able to handle it!

At that moment, everyone looked at Lin Yi in a different way.

"Damn it, it's all a guess. There's no solid evidence at all!"

Bao Sanye shouted in anger, ""Big brother, I can guarantee that Lin Yi is fine! I, Bao Sanye, will be the first to kill anyone who dares to make false accusations!"

Xu shengchao snorted coldly. "Brother boson, you're so cool. This concerns the life and death of the entire Overlord Pavilion. How can you just say that there's nothing wrong with it?" Come to think of it, what guarantee do you have for Lin Yi?"

The other two Hall Masters chimed in, ""If things are really as this kid said, then you really can't afford the consequences, brother boson!"

Bao Sanye was so angry that he started to curse again.

The entire Hall was in an uproar.

There were a lot of people who didn't like Lin Yi, but Lin Yi's strength and contributions were clear for all to see. Plus, he kept a low profile and didn't put on any airs. There were a lot of people who stood on his side, but most of them were of the lower middle class.

Seeing that the situation was getting out of hand, Hong Baxian didn't say anything to calm the situation down, his suspicious eyes darting between Lin Yi and song Xiaomi.

Was he wavering?

Lin Yi shook his head silently. He knew that Hong Baxian's suspicions towards him were still there, but he was suppressing it for some reason. Was he going to fall out with him today?

With the wind listening Hall's Information Network, Lin Yi didn't believe that they didn't know that song Xiaomi was here.

However, judging from the situation just now, song Xiaomi's sudden appearance might not have been instructed by Hong Baxian. From Hong Baxian's point of view, today was definitely not a good time to kill the donkey after it had served its purpose. Could he have guessed wrong?

"Song Xiaomi, I want to know who you're speaking for?"

Lin Yi finally opened his mouth, and the whole place went silent.

Song Xiaomi's face froze. Although she had betrayed Lin Yi, the deterrence that Lin Yi left behind didn't decrease at all. However, when she thought about the strong backing behind him, she regained some confidence and forced herself to calm down, ""The first seat of the Academy, Xu Anshan."

Everyone present gasped.

Even in this closed repeat school, the name of the Born Emperor Xu Anshan was absolutely well-known, especially in the current situation. The local department of the Academy had been broken apart, leaving only Banshi Luo hiding in the Academy's prison.

It was no exaggeration to say that Xu Anshan was now the Supreme and only controller of the Academy!

Even if the pressure did not directly descend on their heads, it was enough to make their scalps numb. Even Hong Baxian's expression changed.

It was as if one day, the retained students would no longer be dominated by the five Giants, but by the five Giants as one. That scene would be unimaginable.

"Xu Anshan sent you?"

Lin Yi raised a brow and asked the question everyone was thinking, "Does that mean that Xu Anshan has already decided to extend his hand into the repeat school?"

"Uh ..."

Song Xiaomi subconsciously choked. At his level, even if he had joined the lead representative, he was not qualified to talk to Xu Anshan at all. Naturally, he did not know Xu Anshan's true intentions.

In reality, even if the chief branch already had control of the situation, the core mission at the moment was still to sweep away the remaining troops of the local branch. At the same time, they would mobilize a large number of troops to suppress the half-division branch that was eyeing them covetously.

as for lin yi, he didn't have time to worry about him.

the purpose of his visit was to cause lin yi some trouble so that lin yi wouldn't have too much of an easy time in the repeat school.

after all, with lin yi's ability to do things, he could cause a big scene in the repeat school if he didn't pay attention.

"damn it, they are indeed up to no good!"

bao sanye's reaction was extremely fast, and his angry groan at the right time immediately caused everyone to unite against the enemy. it was terrifying, but if xu anshan really wanted to force his hand in, with the overlord pavilion's current power, they would not easily accept their fate!

seeing the unfriendly expressions of the overlord pavilion's people, song xiaomi's heart skipped a beat and she quickly tried to remedy the situation.

however, there was no chance.

in front of everyone, lin yi made his move without any warning. the two were ten feet away a second ago, and in the next second, he was in front of song xiaomi.

Killing intent shrouded the area!

Song Xiaomi was shocked. Although she was at the mid-stage of the complete realm and was one level higher than Lin Yi, the power Lin Yi left behind was too strong. Lin Yi didn't even have the thought of fighting it head-on and immediately turned into a ball of fire and retreated.

The place where the fire spread was where he landed.

The speed of his movement was enough to make 90% of the Overlord's Pavilion Masters sigh, but it was a pity that he was up against Lin Yi.

Song Xiaomi couldn't even tell where he was with wind element domain's impermanence steps, let alone get rid of him. Lin Yi caught up to her in less than half a breath's time, and he raised his palm!

The result was the same as when Li Chan had made his move.

Lin Yi's palm passed through song Xiaomi's body, which had turned into flames. Song Xiaomi herself was unscathed!

"So that's all there is to it!"

Song Xiaomi was overjoyed, and her fear of Lin Yi was reduced by 80%. This was normal, after all, his strength was different from before!

However, before he could finish rejoicing, his expression suddenly changed.

"Indeed, it's nothing more than this."

Lin Yi retracted his palm calmly, but the hole in song Xiaomi's chest didn't close up as easily as before. There was a blue water domain energy still on her body!

Chapter 9626

Not only did this force hinder song Xiaomi's recovery, but it also hit all over song Xiaomi's body like a flood. It was like a living thing, and it couldn't be removed.

Song Xiaomi was shocked.

Just because he could transform into flames didn't mean that he was immune to all attacks. Furthermore, water could subdue fire. Water domain power was his natural nemesis. Apart from forcefully exhausting his energy, there was no way he could escape.

The worst thing was that even though Lin Yi's actual realm was one level lower than his, he had the perfect domain, especially with the additional power from the other four perfect domains. The strength of Lin Yi's domain was so high that it was like a dimension-lowering attack to a mid-stage full force elite like him!

The water element power surged without stopping, but song Xiaomi could only watch as her fire element power was depleted bit by bit. Then, her body could no longer maintain the flame state.

Then, it retreated back to its body of flesh and blood, leaving a huge, shocking hole in its chest.

His heart and lungs had all disappeared.

Looking at song Xiaomi, who was falling down, the whole place was dead silent.

Especially when they saw Lin Yi destroy song Xiaomi's soul so easily, everyone, including the four Hall Masters, gulped. This guy was too cruel to kill someone just because they didn't agree with him!

Xu shengchao could not help but be exasperated. ""Is Hall Master Lin trying to silence me?"

Not only them, but even Hong Baxian looked at Lin Yi with a deeper meaning in his eyes.

"Silence? Where do you even start?"

Lin Yi replied calmly, "if he had solid evidence, then he could've killed her to silence her, but he only has his mouth and lies. Do I need to be nice to someone who slanders me publicly?"

Lin Yi paused before adding, "Or does Hall Master Xu believe that I'm a spy for Banshi Luo?"

Under the watchful eyes of the crowd, Xu shengchao hesitated for a long time, but eventually swallowed his words.

He'd had an excuse to make things difficult for Lin Yi earlier, but if he really did go back on his word in front of everyone, it'd be the same as completely falling out with Lin Yi-they'd really have to fight to the death.

The number of late stage complete realm Almighties that had died under Lin Yi's hands was already in the double digits. Xu shengchao would be lying to himself if he said that he was not afraid at all.

If Lin Yi were to attack him on the spot, he might not even be able to survive!

"Hall Master Lin, you're overthinking it. With your achievements, no one would make such a stupid conclusion. However, the pavilion master is present, and you killed him without even asking for his permission. Isn't that a little arbitrary?"

Li Chan, the head of the tingfeng Hall, stepped in to smooth things over. At the same time, he brought everyone's attention to Hong Baxian.

After all, he was the true Overlord Pavilion's Overlord!

Hong Baxian's emotionless eyes landed on Lin Yi, and the atmosphere became tense. Many people adjusted their positions and surrounded Lin Yi.

The four Hall Masters were all on high alert, ready to kill Lin Yi at any moment!

"How so?" Bao Sanye quickly stood up and asked. Shouldn't that kid be killed? It's obvious that the Academy sent him here to sow discord. I don't think we should let him in. It's your wind listening Hall's dereliction of duty to let him in and let him fart!"

Li Chan was speechless. Apart from intelligence, the tingfeng Hall was also responsible for security. He had indeed detected traces of song Xiaomi entering the repeat school.

But in the end, it was Hong Baxian himself who made the final decision. Not to mention the specific intention, in the end, it was a little too much to make him take the blame, right?

In the end, Hong Baxian actually nodded slightly. "It's time to reorganize the tingfeng Hall. "

"Yes ... "

Li Chan silently swallowed his bitterness. He had no choice. This was the will of a leader.

Xu shengchao and the others looked at each other. From Hong Baxian's words, it didn't seem like he was going to take the opportunity to attack Lin Yi.

As expected, Hong Baxian didn't show any killing intent, not even a word of scolding. Instead, he threw something to Lin Yi and smiled, "Don't Let Me Down next. "

They watched as Hong Baxian left, and the red stone in Lin Yi's hand-the whole place fell silent again.

A perfect fire-elemental domain-type origin stone!

Even Li Chan, who was on Hong Baxian's side, was stunned, let alone Xu shengchao and the other elders who were hostile to Lin Yi.

Lin Yi's strength was already outrageously strong-if he didn't take this chance to suppress him, he'd give him a perfect fire domain origin stone instead. Wasn't that adding wings to a Tiger?

Lin Yi wasn't surprised at all.

With Hong Baxian's burning ambition, his target was the five Giants of the retained students. How could he give up on a gold medal fighter like him before he successfully took over?

Even if he was still suspicious, even if he believed song Xiaomi's words and believed that he was a spy sent by Banshi Luo, so what?

Lin Yi knew that as long as he didn't betray him, Hong Baxian wouldn't destroy himself. He'd even try to use Lin Yi, and the perfect Fire Territory stone was proof of that.

"Congratulations, Hall Master Lin!"

Many of the middle and lower-level Masters quickly came up to congratulate him. Although they could not interfere in the fight between Immortals, they could vote with their feet.

With Sanye's help, Lin Yi had already gained some influence in the middle and lower classes. After all, these people didn't really have high expectations, and as long as he gave them an appropriate response, people would naturally flock over.

Lin Yi didn't reject anything and didn't put on any airs. With Sanye livening up the atmosphere, it really did look like a celebration party.

"A vile person has achieved success!"

Xu shengchao and the other elders frowned.

If Lin Yi was just willing to be a fighter, they could still tolerate it, but now that he was recruiting people in public, it was crossing the line.

After all, even if they looked down on these low-level minions, the wool still came from the sheep. If the sheep were taken away, where would they go to get the wool?

However, before they could come up with a plan to deal with Lin Yi, he walked over and stood in front of Xu shengchao.

"You were the one who let song Xiaomi in, right?"

Lin Yi's plain words scared Xu shengchao into an ice cellar!

It was true that song Xiaomi had joined the first seat, but he had entered the repeat school alone. Even if he was already a Big Shot in the middle stage of the consummate level, it would be difficult for him to move a step without someone to help him, let alone break into the Overlord Pavilion's headquarters.

And Xu shengchao and his people were the ones behind it!

Lin Yi smiled faintly as he looked at everyone. "It's just a rumor without any evidence to say that I'm teacher Luo's spy, but if I say that you colluded with the Academy to sell out Overlord's Pavilion, it seems to be much more convincing, right?"

Without waiting for Xu shengchao and the others to argue, Lin Yi smiled and left.

Chapter 9627

"What do we do?"

The hall Masters surrounding Xu shengchao turned pale. Although they were secretly competing with Hong Baxian as elders, they knew that they could not step on Hong Baxian's bottom line. Otherwise, with Hong Baxian's domineering style, he might just start a massacre.

Infighting was fine as long as it didn't cross the boundary. However, colluding with the Academy ...

If this crime was confirmed, the consequences would be unimaginable!

Xu shengchao pretended to be calm. "He's just trying to scare us. He said that we colluded with the Academy. Does he have any evidence?" Besides, what's our motive? Who would believe such stupid words?"

"That's what you say, but if we leave a thorn in the pavilion master's heart and it acts up in the future, I'm afraid we won't be able to get away with it. "

The others were not so optimistic.

The repeat school had never been a place ruled by law, and the Overlord Pavilion was even less so. It didn't matter whether there was evidence or not. As long as Hong Baxian had the seed of suspicion, there would be a time to settle the score later.

"Don't worry," Xu shengchao said. "The pavilion master won't lay a hand on us before he kills Lin Yi!"

Everyone was stunned, "the pavilion master wants to kill Lin Yi?" He even rewarded me with a perfect fire-type domain-level origin stone!"

Xu shengchao smiled and asked, ""That's right. Why did you give him a perfect fire-type domain-type rough stone?"

On the other side, Li Chan, the head of the wind listening Hall, caught up with Hong Baxian and asked the same question.

"According to Lin Yi's abilities, he has at least wood, metal, earth, water, and even a wind element domain. If we let him have a fire domain, he might have the legendary five elemental domains. Wouldn't we be raising a Tiger?"

"The five elemental spheres are indeed terrifying."

Hong Baxian paused for a moment and said, ""Lin Yi's even scarier without the five Element domain."

Even though Li Chan was experienced and knowledgeable, he was stunned when he heard this.

After a long time, Li Chan finally came to his senses. ""It's said that those who have mastered the five elements domain are all extremely talented people. They are all geniuses among geniuses, but in the end, each one of them faded away into the crowd! Could it be that the legend is true that one can't level up after mastering the five elements domain?"

"It's precisely because it's too powerful that it can't be upgraded. Perhaps this is the will of the heavens."

Hong Baxian said, half rejoicing and half sighing.

In fact, he also had the five elements attributes and had once been ambitious to cultivate the five elements domain. If it wasn't for an accident midway and a blessing in disguise from learning about the disadvantages of the five elements domain from a hidden master, he might have already cultivated it.

Of course, if he had really done that, he wouldn't have reached his current cultivation level. Instead, he would have been stuck at the peak of the early stage of the consummate level of a Big Shot, unable to advance an inch further from then on.

Li Chan was impressed, "who would've thought that the perfect fire element territory stone is a poison that's holding onto Tang Yi? I saw Lin Yi's expression just now. He's definitely trapped in there. The owner is brilliant!"

"Hehe, he wants to cultivate the five elements domain, and I need a stronger fighter. He will be very useful for the next plan. We both get what we need, so it's the best of both worlds!"

Although Hong Baxian didn't show it on his face, he couldn't hide the satisfaction in his eyes.

There was no sense of accomplishment in using a small character as a chess piece-controlling the fate of a powerful person like Lin Yi behind the scenes was the real joy!

However, if he knew that Lin Yi wasn't planning on training a normal five elemental realm, but an unprecedented perfect one, he'd probably have a completely different expression.

At this moment, with the advantage of time flow, Lin Yi started his closed door training in the nine level Pagoda!

With his previous training experience, it was a walk in the park for Lin Yi to perfect his fire element domain. The whole process didn't even take a day, and it was enough to break the record for the fastest training in history.

The next step was to merge the domains.

Metal, wood, water, fire, and earth-all five elements were present, and even if Lin Yi didn't control them, they'd all start working together and merging into one.

However, this was not the true fusion.

To be more precise, this was a chaotic state of disorder.

In this state, Lin Yi couldn't use the territory power at all. He had to endure the pain and use his spirit power to disassemble and reassemble it. He had to continuously sort out the five attributes in order to unleash their true power according to His will!

It was so difficult that even the top talents of the school were afraid of it. After all, it was a terrifying power that was cursed by the heavens.

Cultivators who had physical talent were already one in a million, and those who could successfully take this step were even less than one in a billion!

Lin Yi, however, was an exception.

As a talisman Grandmaster, Lin Yi had a natural advantage when it came to this. The perfect Five Element domain in theory was the same as building an unprecedented and extremely complicated ultimate formation on his body!

It was true that the difficulty was extremely high, but it was not impossible to succeed.

To successfully take that step, Lin Yi needed two things.

Time and luck.

Hong Baxian's expansion wouldn't stop, and Lin Yi didn't have much time left for closed-door cultivation. Fortunately, the nine-story glazed Pagoda was enough to make up for it.

As for the remaining luck, he could only rely on heaven's will.

That was the truth. After a short rest, Hong Baxian raised his butcher's knife again, and his next move shocked the entire repeat Academy.

He had personally killed Yu Longhai, the leader of the discipline Inspection team, in public!

There was no unified college for repeat students, so there was naturally no official Discipline Inspection team in the true sense. The so-called Discipline Inspection team was nothing more than self-glorifying themselves. They were no different from the other small forces that could be seen everywhere. They couldn't even be ranked in the thirteen heroes.

The boss of a small force like this was only at the threshold of the late stage of the complete realm. Lin Yi had already killed a whole team, and it wasn't a big deal, not to mention Hong Ba was the one who killed him first.

The problem was that Yu Longhai's Discipline Inspection team was a subordinate of the only King of the East District!

As for the other small and medium-sized forces, as long as they did not interfere with the interests of the other powerhouses, they could eat whatever they wanted. At best, they would only make others jealous. However, Hong Ba had publicly killed Yu Longhai. It was obviously a slap in the face to the sole King of the eastern area.

This was a declaration of war!

The entire repeat school was boiling with excitement. Everyone thought that Hong Ba had gone crazy. He was the only King of the eastern area, one of the five Giants!

In the past ten years, no one had ever been able to shake the position of the five Giants. Whether it was their overall power or individual strength, they were undoubtedly the top existences of the repeating students.

The rest of the people could only bow their heads, not even qualified to look up.

Chapter 9628 Power

"Do you really think you're the head of the thirteen heroes just because you trampled a few stinky fish and rotten shrimp? He actually dared to challenge King du. Should I call this Hong Ba a lunatic or an idiot?"

"Crazy or stupid, I hope Overlord's Pavilion will really make some noise. Only then will we have something to eat."

"Hehe, the Overlord's Pavilion is neither too big nor too small. If it falls, it'll be enough for us to drink some soup."

The nearby thirteen outstanding forces quickly linked up and spontaneously fanned the flames in secret.

Hong Ba first challenged du Wang. This was destined to be a suicide challenge. There was no need to talk about the disparity between them. Just the word "victory" was already the greatest compliment to Hong Ba Xian.

The most direct example was that the underground casinos, which had always been the most enthusiastic about betting, had not opened any bets on this matter at all!

There was no other reason.

In fact, even the Overlord's Pavilion, which had started the war, was in a constant state of panic. Even the sole King of the East District had not made any move or responded, and there had already been an incident of defection here, and it was not the only one!

In a short two days, there were no less than 30 defectors, some of whom even left with their entire teams.

The pressure brought by the five Giants could be seen.

However, Hong Baxian was not moved at all. Only one day later, he once again made his move on the subordinate forces of the East District!

The result was unexpected. King du remained indifferent.

At the same time, an unverified rumor began to spread rapidly in the repeat Academy. King du was in closed-door cultivation and had no idea what was happening outside!

Although there was no reliable source to confirm it, when the Overlord's Pavilion made their third move and the only King still did not respond, everyone immediately believed the rumor.

It was true that King du was indeed a loner when he left the sect. He did not form his own force or join any party. He had always fought the world alone. In the end, he forced the Heroes of the East District to bow down to him, and that was how he became famous!

However, this did not mean that King du would not care about the forces under him who had voluntarily joined him.

After all, the existence of these subordinate forces, even if they did not represent his face, they were at least his lackeys. As the saying goes, you have to look at the owner before you hit the dog.

Now that Hong Baxian had openly rebelled, if King du knew anything about it, he would definitely not just stand by and watch!

However, five days had passed, and King du still did not respond.

Especially after Hong Baxian had made a public pledge and led the main forces of the Overlord's Pavilion to invade the East District, the only King still had not shown himself and had not made a sound from any channel.

This time, the entire repeating school was in an uproar.

It was obvious that something had happened to King du. He was either in a life-and-death seclusion as the rumors said, or he was in an even greater crisis.

In short, he couldn't even protect himself!

Once the consensus was reached, all the forces were ready to make a move. The thirteen forces, who had originally planned to take advantage of Hong Baxian's defeat to dismember the Overlord's Pavilion, instantly adjusted their strategy and set their target on the entire East District.

The only King's accident would have a huge impact on the structure of the entire repeat Academy. At the same time, it also meant that there would be a huge power vacuum in the East District under his rule!

The thirteen forces were like sharks that had smelled blood. They were taking a huge risk by standing out at this time. After all, no one could guarantee that the king would not return.

However, those who could reach the level of the thirteen heroes were all ambitious people like Hong Baxian.

Huge risks were not worth mentioning in the face of greater benefits.

Facing this situation, Hong Baxian was still not satisfied, and this added fuel to the fire of Li Chan's tingfeng Hall. "Spread the word that King DU's treasure is buried under King DU's Palace. There's a divine medicine that can help you cross the barrier to the consummate level!"

As soon as he said that, the entire repeating school was in an uproar!

The ultimate perfection of a Big Shot was the first goal of every Big Shot at the perfection stage. This was because it was not only the end of a stage, but also the crucial starting point of the next stage.

However, it was different from all the previous realms.

Between the peak of the late stage of the consummate level of a giant and the peak of the consummate level of a giant, there was a chasm that was almost impossible to cross. The sturdiness of the chasm was enough to make 99% of the experts at the peak of the late stage of the consummate level of a giant despair.

Even those who were once famous and outstanding were stuck at this step, unable to advance an inch. Some even retreated instead of advancing.

It was rumored that experts at the peak of the late stage of the consummate level of big shots only had a three-year window of time. If they couldn't break through within three years, their cultivation level would fall and return to the late stage of the consummate level of big shots, until they died of old age.

Bai Yuxuan, who changed from du wuhui's to Lin Yi 's, was one of them!

It was also because of this that regardless of whether it was the Academy or the school of retained students, the high-end combat power was mostly made up of big shots in the late stage of the consummate level. The existing big shots in the peak of the late stage of the consummate level were extremely rare.

As for the experts who had crossed the heavenly barrier, they were even rarer!

When the news came out, three guilds acted the fastest.

The Three Pure Ones, the quiet moon Pavilion, and the heavenly Dragon Society.

The three families were all among the top 13 heroes, and without exception, their respective leaders were all big shots at the peak of the late stage of the consummate level. The promotion window was less than two years away, and the shortest was only six months away!

At this stage, they would not let go of any possible hope. Even if it was just a rumor, they would try their best.

Moreover, the news that Hong Ba first released wasn't fabricated.

If there really was a godly medicine that could cross the barrier of the ultimate completion, the place where the repeated students would most likely appear would definitely be in the hands of the five Giants, because they were all Giants at the ultimate completion!

Under normal circumstances, no one would dare to provoke the five Giants. However, King du was missing, and Hong Ba had taken the lead. It was only natural that the three families would target King du Palace.

As soon as the three families moved, the other forces also fought to be the first.

For a time, the East District was in turmoil!

In the nine story Pagoda, Lin Yi finally finished his training. In front of him was a familiar figure-Banshi Luo.

This, of course, wasn't Banshi Luo's real body, but a projection of his consciousness. This was the only communication method he agreed on with Lin Yi, and it was extremely difficult, but it was definitely hidden!

"Hong Baxian has been making a lot of moves recently. It seems like he really wants to take over the sole King of the East District. But I can't tell what he's planning for now."

Lin Yi felt a little uneasy.

The Overlord's Pavilion had been on the move all this time, and they'd have to include him as their Ace fighter, but Hong Baxian was actually very considerate and gave Lin Yi a break for a while-it was unbelievable.

Chapter 9629 Power

"According to what you said, even though he gave you the perfect fire-element domain origin stone, Hong Baxian's suspicion of you didn't disappear. Instead, it became even stronger. He must have a use for you, and it's a great use!"

Luo Banshi paused for a moment. Then, he slowly said, "in the end, it's most likely King du. Hong Baxian is a very ambitious person. It's rare to see such a person."

Lin Yi frowned, "but the thirteen heroes are all involved. I heard that even the other five are ready to make their move. If the other five are involved, I really can't figure out how he can get the treasure."

"You've missed one more thing. The biggest variable is none other than King du himself."

Banshi Luo recalled. "I've had dealings with the General Affairs Office of the repeating students. At that time, King du was just an unknown junior. He was far less eye-catching than the other five Giants, but he gave me a very unusual feeling."

"How unusual?" Lin Yi asked.

"He's about the same as you," Banshi Luo replied.

"....."

Lin Yi didn't know how to continue the conversation. He touched his nose and changed the topic. "Unfortunately, I'm in an awkward situation now. Hong Baxian is too vigilant, and it's almost impossible for me to come into contact with the source of the secret realm."

"There's no hurry. Now that Hong Ba is at the forefront of the struggle, and the source of the secret realm in his hands is close to the five Giants ', it's normal that you can't get in touch with it. If you encounter it one day, you have to be extremely careful!"

Banshi Luo reminded him and said, ""Your most important task now is to protect yourself. Remember, as long as you are here, we have a way out. No matter how much pressure we face, it will not be difficult to resolve it. If something happens to you, we will not be far from death."

After that, Banshi Luo told everyone about the situation in the rebirth Alliance.

Although there was a traitor, song Xiaomi, the rhythm of the rebirth Alliance was not affected. Everyone's strength was still growing rapidly, and if this continued, it would not be long before they could come out of their closed-door cultivation and shock everyone!

Other than that, Banshi Luo also gave Lin Yi some pointers on the perfect Five Element domain. It was unprecedented, but Lin Yi still benefited a lot from it with his realm and vision.

It was no exaggeration to say that it would save him ten years of detours!

When Lin Yi came out of the nine story Pagoda, the world outside was in complete chaos.

"The king-only Palace has already gone crazy!"

Bao Sanye jumped up and down excitedly. "It's not just the vanguard of our Overlord's Pavilion. The Three Pure Ones society, quiet moon Pavilion, Heavenly Dragon Society, and a few other forces of the thirteen heroes have also joined in. They're engaged in a super chaotic battle with the eastern Alliance under the king!"

"What's the situation?" Lin Yi asked.

The East District Alliance was the Alliance of all the subordinate forces under the king. Although they might not be comparable to any of the thirteen heroes, they had a large number!

During this period of time, the Overlord's Pavilion had annexed more than a dozen small and medium-sized forces in succession. Their reputation had already surpassed all the other 13 heroes. However, in terms of scale, they were still far from being comparable to the East District Alliance.

It wasn't just the number of people. In terms of high-end combat power, the East District Alliance also had an overwhelming advantage. Just on the surface, there were 32 late-stage consummate level Almighties!

In addition, there were three magnates at the peak of the late stage of the consummate level!

With such a huge alliance formation, even if the only King was not present, it was enough to easily crush the Overlord's Pavilion. If Hong Ba had not deliberately spread the news to attract the thirteen heroes, they would have been badly injured.

"Originally, the East District Alliance had the upper hand, but it's hard to say now. After all, the other 13 heroes are not easy to deal with!"

"My big brother has sent word. He wants you to bring all the members of the Tianhong Hall to this location." Bao Sanye immediately relayed the order.

Lin Yi took the map and glanced at the location, curious. "Are you sure this is the place? You're not going to the du Wang Palace?"

The location above was completely different from the sole King Palace. The information showed that it was a desolate area that no one cared about. It was the slum of the slums, and even scavengers were too lazy to set foot in it.

Sanye scratched his head. "I'm also very puzzled. But since big brother said so, then it must be true!"

He had always obeyed Hong Baxian unconditionally.

Lin Yi knew that there must be something wrong with this, and they were ready to reveal their true intentions.

Although he didn't know what was so unusual about this place, he was certain that the king-only Palace was just a cover for Hong Ba.

Just as Lin Yi was about to head to the eastern area, a huge floating pavilion was hidden deep underground in the desolated area marked on the map.

A five-meter-tall figure was tied up by heavy cold iron chains and lying on the ground, unable to move.

It was silent, like a corpse.

Only his pitch-black eyes that were wide open announced his master's undying will.

In the hall of Kings alone, Hong Baxian, who was weaker than the three top forces of the eastern Alliance on the surface, did not panic at all as he looked at the three top forces in front of him. He was even more confident and secretly happy!

Everything was going according to his script.

He'd been preparing for this game for three years, and the amount of energy and effort he'd put in was far beyond anyone's imagination. To a certain extent, even Lin Yi's appearance was within his calculations!

Lin Yi was destined to be a chess piece in his hands, an important one at that.

The bet he'd placed on Lin Yi wasn't just a perfect fire element territory stone-an ambitious person like him wouldn't allow himself to make a mistake at such a crucial moment.

All the investment he had made had to be returned a hundred times, a thousand times over, including Lin Yi's life!

"Using me as a springboard to obtain the source of the secret realm, do you really think I'm that stupid? Hehe. "

On the other side.

Lin Yi led the Tianhong Hall group deep into the heart of the Eastern Region.

Since all the forces of the eastern Alliance were attracted to the hall, Lin Yi's group entered the hall as if no one was there. Even if they encountered the eastern Alliance's forces, they weren't organized at all. They were stabbed through by the Tianhong Hall's Masters in a matter of minutes.

In fact, even if they encountered an organized opponent, they would not be willing to tangle with them.

After all, the du King Palace was the foundation of the other party.

Once King-only Palace was lost, it would be equivalent to the fall of the Eastern Region. At that time, the Eastern Region Alliance would automatically fall apart. What was the point of resisting then?

Until a group of people appeared in front of them.

There weren't many of them, only nine. They were all alone in the face of Tianhong Hall's hundreds of people, but Lin Yi stopped first.

They came with ill intentions!

"Ren Tianyuan of the heavenly Dragon Society! What is he doing here?"

Bao Sanye couldn't help but cry out in shock after recognizing the other party's appearance. With his fearless nature, there weren't many people who could make him panic and even lose his head like this. In the entire Overlord's Pavilion, only Hong Baxian had this kind of power!

It wasn't just him, the other people who had a little bit of knowledge also changed their expressions.

Chapter 9630 The End

The heavenly Dragon Society was once the strongest force among the thirteen heroes. If it wasn't for the sudden increase in strength, even the Overlord's Pavilion could not compare to it.

In fact, even if the current Overlord's Pavilion were to fight it head-on, it was still unknown who would emerge victorious.

The president, Ren Tianyuan, was ranked 21st in the top 100. In terms of ranking, he was even higher than Hong Baxian, who was ranked 36th!

Currently, all the hall Masters of the Overlord Pavilion had followed Hong Ba to the sole king's palace. There were only the people from the rainbow Hall present. No matter how they looked at it, they were no match for the heavenly Dragon Society with just their strength. There was no chance of winning.

"So what if you're from the heavenly Dragon Society? They only have nine people!"

Someone below said disdainfully. The great disparity in numbers had given them great confidence, not to mention that they had won many battles recently. Although the rainbow Hall had only been established not long ago, there were already signs of an arrogant and valiant Army.

Before Lin Yi even gave the order, someone had already acted.

A leader at the peak of the middle stage of the consummate level of a Big Shot led his small team and advanced through the formation with ease. Under their cooperation, their speed was far beyond normal, and the distance of nearly a thousand meters was covered in the blink of an eye.

In the end, the nine members of the heavenly Dragon Society didn't even move. The only thing they saw was Ren Tianyuan gently raising his hand.

A giant dragon Claw the size a mountain appeared out of thin air above everyone's head. With a light swipe of the claw, the entire team was smashed into meat paste, completely annihilated!

The entire Tianhong Hall gasped.

"Idiot."

Ren Tianyuan's Golden Dragon eyes scanned Lin Yi up and down. As for the others, he didn't even look at them. This made the people from Tianhong Hall feel inferior, like a low-class creature meeting a high-class creature. They instinctively wanted to kneel down to show their submission.

"A descendant of the Dragon race ..."

Lin Yi was taken aback. As one of the thirteen heroes, he naturally had some information on Ren Tianyuan. It was said that this person had the blood of the ancient dragon race. He was a true descendant of the Dragon race, and was also known as the Dragon Man.

The ghost cursed in his mind,""Dragon descendant my ass. He's just a descendant of an alternative Dragon. He really knows how to flatter himself!"

Lin Yi couldn't help but laugh.

But then again, although the purity of the dragon clan's bloodline was still open to discussion, the formidability of this person's strength was real. With one move, he had instantly killed a small team led by a Big Shot at the peak of the middle stage of the consummate level. Such a battle record was really not something that ordinary people could achieve.

At least, Lin Yi couldn't do that before.

"Lin Yi, right? I heard that you've been very active recently. I'll give you a chance to be my dog and I'll reward you with some bones. "

He was clearly looking down at them, but at this moment, Ren Tianyuan's expression was completely condescending.

"This is the first time I've seen someone recruit someone like this," Lin Yi said, surprised.

"Recruit?"

The corner of Ren Tianyuan's mouth curled up slightly. "Don't misunderstand me. With your strength, you're not qualified to accept my recruitment. Hong Baxian is more suitable. As for you, I'm simply giving you a chance to live. That's all."

"....."

Lin Yi rubbed his nose. To be honest, with his shrewdness today, it was hard to provoke him with words, but it was rare to see an opponent this arrogant.

The problem now was that the other party was clearly not friendly. Should he fight to the death with the other party?

Tianlong society was a typical elite team. Although they had very few members, each member was very strong. They were at least on the level of the top 100 or the top 100 's substitute. Although the other side only had nine people, Tianhong Hall alone would not be able to take them all.

In fact, just Ren Tianyuan alone would be very difficult to eat!

Most importantly, Lin Yi really didn't want to expose his trump card at a time like this-the main event was yet to come.

After a moment of hesitation, a giant dragon Claw landed on his head. At the same time, Ren Tianyuan sneered, ""I'm giving you a chance to live and you're still hesitating? Then forget it, being buried with this bunch of trash is also quite in line with your lowly status. "

The Shadow of the Dragon Claw covered the sky.

Everyone from the Tianhong Hall immediately fell into a panic. The fate of that full squad was still fresh in their eyes. Although they had more people, their individual strength was not stronger. They would only end up the same if they fell under the giant dragon's claw.

"Clan Master Lin!"

Everyone looked at Lin Yi-the only person they could rely on right now was Lin Yi.

However, Lin Yi was nowhere to be seen.

Looking again, Lin Yi's body flashed and he'd already escaped the range of the giant dragon Claw. The people from the rainbow Hall were all stunned and fell into despair.

What followed was chaos. No matter how Bao Sanye and a few other core members organized it, everyone only cared about running for their lives.

Although these people were not strong enough to cause trampling incidents like ordinary people, chaos and conflicts were still inevitable. All of them were like headless flies, running for their lives in panic.

Lin Yi turned around and shook his head.

In the same situation, if it was the freshman Alliance, even if the average strength of the freshmen wasn't as good as this group of people, the collective performance of the freshmen during a crisis would definitely leave this group of people Ten Streets behind.

Be it cohesion, discipline, or execution, they were not on the same level.

And so, when he took over as the head of the rainbow Hall, he'd thought of building a second group of people here, but he gave up on that idea very quickly.

At the end of the day, these people were only suitable to be vassals and did not have the potential to grow into core players.

Ren Tianyuan looked at this scene and sneered, ""He was quite decisive in his escape. Unfortunately, he wasn't fast enough."

He didn't know when it happened, but one of his followers was gone, and the missing person had already turned into a shadow and was following Lin Yi closely!

Lin Yi's heart skipped a beat. Shadow territory!

Shadow was not a highly lethal domain. Its core was mainly related to control and the use of poison. However, the most unsolvable aspect was still the movement technique. Once targeted, there was no possibility of escaping.

Even the wind-gathering domain's impermanence steps couldn't escape!

The person was hiding in Lin Yi's shadow, and unless the person came out of his own accord, Lin Yi had to be extremely alert no matter if he was eating or sleeping, just in case the person decided to kill him.

However, this might be possible for a moment, but the problem was, how could one guard against thieves for a thousand days?

What's more, this was an expert at the late stage of the consummate level!

"I heard that this brat has killed quite a few big shots at the late stage of the consummate level. He's in the limelight for a while. This time, old Ying can teach him to be a good person."

A woman in a suit standing next to Ren Tianyuan said lightly. At first glance, she looked like a strong professional in the secular world.

"Hmph, I was going to take action personally."

Ren Tianyuan shook his head unwillingly as he looked away from Lin Yi.

In his eyes, Lin Yi was already a dead man.
