

Bodyguard 9631

Chapter 9631 Power

Old Ying was at the late stage of the complete realm, and he wasn't one of the most outstanding ones, but he was definitely one of the toughest to deal with. Once he invaded the shadows, even the best of his level would be in trouble, let alone Lin Yi, who was only at the peak of the early stage of the complete realm.

He saw Lin Yi explode out of the corner of his eye.

With the explosion of his consciousness and the self-destruction of his clone, the famous shadow killer of the heavenly Dragon Society died without even a sound. In the end, not even a skeleton was left.

This time, it was the heavenly Dragon society's turn to be stunned.

"Dazed in front of me? It's not good to look down on me like this, is it?"

Lin Yi's calm voice suddenly rang out from behind everyone. At the same time, he sent the strongest blast of his spirit sense straight into the core of Ren Tianyuan's sea of consciousness!

Ren Tianyuan's body stiffened, and the giant dragon Claw that landed on the heads of the people from Tianhong Hall disappeared into thin air. In the midst of the chaos, Bao Sanye and the others all let out a breath of turbid air. They had at least managed to keep their dog lives.

"Protect the president!"

The remaining seven members of the Tian long society reacted quickly and immediately formed a killing formation.

Lin Yi had no choice but to retreat. Spirit sense explosion was his strongest spirit sense attack, but it was a pity that it could only be used on one target and couldn't stun an entire group. Otherwise, he would've killed everyone in one hit!

At the very least, he could kill Ren Tianyuan!

But now, he was facing seven of them together, and all of them were big shots in the late stage of perfection. Even Lin Yi didn't dare to underestimate this formation. After all, he could be killed if he wasn't careful.

With a single thought, he activated his domain. Instantly, dozens of clones appeared around him and surrounded the Sky Dragon Society.

The faces of the members of the heavenly Dragon Society changed, ""The legendary annihilation domain?"

The annihilation domain was now Lin Yi's signature move in the repeat school. Most of the late stage of perfection tycoons that were killed before died from this move.

The annihilation domain had its weaknesses, but it worked well against people who didn't know Lin Yi well.

The shadow killer just now was a good example.

The Tianlong Society members didn't take Lin Yi seriously at first, but now they were facing a great enemy. Who would've thought that a mere peak of the early stage of perfection could bring them such a huge pressure!

Lin Yi's clones were already charging at them.

These clones weren't as strong as Lin Yi himself, but they were all high-quality domain clones and could use part of Lin Yi's domain power, such as the impermanent steps!

As one of the publicly acknowledged top-tier domain-level body techniques, the impermanent steps could be said to be unsolvable. Even though the members of the heavenly Dragon Society were three whole levels higher than him, they were still unable to escape and were surrounded by the doppelgangers in the blink of an eye.

According to this momentum, it was already certain that they would collectively follow in the shadow killer's footsteps!

Without hesitation, Lin Yi self-destructed the clone.

A battle between experts would only last for a moment. Although he had the absolute initiative, the situation would turn 180 degrees in minutes if he made the slightest mistake. After all, the people on the other side were all famous people from the repeat students.

However, the clones did not react at all.

Lin Yi was taken aback when he saw his clones standing still. He had lost control of them.

To be more precise, the connection between him and these clones had been cut off!

"Buddha said, don't say, don't say."

One of the elders from the Tian long society lowered his head and spoke softly. Invisible waves of energy rippled from his body, forming invisible walls that separated Lin Yi's territory into hundreds and thousands of pieces, isolating each other.

And isolation meant that the domain was no longer effective.

"Monk unspeakable, wordless territory." Lin Yi's eyes focused.

This person was not considered outstanding among the experts of the Tian long society. However, his wordless domain was rather difficult to deal with. Simply put, his domain was able to render other

people's domain abilities useless. To a certain extent, he could be considered the natural enemy of all domain experts!

"It's an honor to meet you, little friend. "

The old man clasped his hands together. At first glance, he really looked like a man of virtue and prestige, but the ferocious killing intent that flashed in the depths of his eyes still revealed his true colors.

"Why are you talking nonsense with him? just kill him!"

One of the burly men snorted as a giant axe the size of two men appeared in his hand. He took the lead and charged at Lin Yi, followed by the rest of the Tianlong society's members.

Only the president, Ren Tianyuan, who had the strongest combat power, crossed his arms and watched coldly from the side, showing an expression of anticipation for a good show.

Lin Yi was in a dangerous situation.

At the level of a Big Shot's great circle of perfection, the core of a battle between experts was the strength of their domains. Now that their domains had lost their effectiveness, it was no exaggeration to say that their strength had almost degenerated to the heaven breaking stage. In front of this group of fierce and famous Big Shot's great circle of perfection experts, they didn't even have the chance to attack.

The burly man strode forward and swung his axe down with a sinister smile. ""Stand still obediently! I'll give you a fair cut, maybe I can even get an intact corpse later!"

The giant axe fell. Not only did it carry the unparalleled strength of the burly man, but it was also supplemented with an extremely condensed domain power called beheading!

The execution domain was a variant of the gold element domain. As long as there was a difference in strength between the two sides, it would be a sure kill.

As the axe fell, Lin Yi's entire body was controlled by an invisible force. He couldn't move a single step, and could only watch as the axe fell on his head.

"Hehe, there's one less fool who overestimates his own ability."

Ren Tianyuan laughed in disdain. In the entire retained Academy, he was the only one who could block the killing domain that could kill in one blow. No one else could do it, not even the top 10 in the top 100.

Back then, he had also relied on this technique to subdue the burly man and make him willing to be at his beck and call.

The other members of the Tianlong society didn't stop attacking Lin Yi, but they were sure that Lin Yi was a dead man, and were ready to deal with the aftermath of the primordial spirit.

However, Lin Yi suddenly revealed a strange smile in this desperate situation, "Are all the members of the heavenly Dragon Society so arrogant?"

As he spoke, the demonic devouring sword was unsheathed, and a black sword light appeared on the blade, rapidly expanding.

This wasn't a sword ray, but a black hole!

The demonic devouring sword and the giant axe collided head-on, but there was no violent sound at all. Everyone only saw a silent but terrifying scene. The giant axe and the burly man's arms were swallowed up by the black hole.

"Ah!"

The burly man's hoarse cry of pain resounded through the entire arena. Looking at his miserable appearance after losing both his arms, the members of the heavenly Dragon Society all shivered.

Chapter 9632 Power

Ren Tianyuan, who had been in a daze from the beginning, finally changed his expression. "How is that possible?"

On the other side, monk indescribable muttered, "He ... He broke through my wordless domain!"

In theory, as long as one's domain strength was below his, they would be completely suppressed. Even the strongest domain master would not be an exception.

Lin Yi's previous battle records were shocking, but it was impossible for his domain to be stronger than the monk 's!

No matter how much he tried to challenge someone of a higher level, the giant was at the peak of the early stage of complete cultivation. Lin Yi's territory was destined to never surpass the late stage of complete cultivation of the giant!

"Wait! This is ... The five elemental sphere!"

Finally, someone reacted. With his reminder, Ren Tianyuan also came to a realization. But then he frowned and said, "That's not right. Even if it's the five elemental spheres, it can't be more than three realms. At most, it's two realms!"

Although the five elemental spheres were rare, there were many hidden dragons and crouching tigers in the repeat students 'compound.

Ren Tianyuan had fought with that person before. Although he was somewhat domineering, due to the limitations of his cultivation level, his overall strength was only so-so, and he could barely match up to the weakest group of big shots at the late stage of the consummate level.

However, it was impossible to reach the level that Lin Yi had shown.

Naturally, Lin Yi wouldn't take the initiative to explain to them. While everyone was still in shock, the clones he released earlier acted decisively, approaching their targets in groups of three to five and self-destructing.

Dozens of clones self-destructed all at once-these clones were all on the same level as Lin Yi, and the power of their self-destructions was also exponentially stronger!

In an instant, the entire space around them collapsed silently.

Although the collapse of the pseudo-space caused by the sudden high energy density would quickly repair itself, it was still shocking, and the lethality was beyond doubt.

Other than Ren Tianyuan, who was watching from the side, the rest of the heavenly Dragon society's experts were all wiped out!

"Hehe, not bad. To be able to kill eight of my men in just a few moves, you're not as useless as I thought. Not bad."

Ren Tianyuan's face didn't have the slightest bit of panic, nor did one see any heartache.

Logically speaking, for any force, even for the top 13 heroes, losing eight big shots at the late stage of the consummate level would definitely be a serious blow to their Foundation.

However, from Ren Tianyuan's performance, it seemed that he really didn't care about this group of powerful subordinates.

"You don't seem to think it's a pity at all?" Lin Yi looked at him.

"What's a pity?" Ren Tianyuan laughed. We've only lost a bunch of trash, why can't we just recruit more? do the repeaters lack cannon fodder?"

The repeating division had the most people, so it naturally had the most experts. This was especially true for powerhouses in the late stage of the consummate level, far above the Academy and the School Council.

As long as the price was high enough, he could recruit a group of experts at this level at any time.

Of course, their actual combat strength was another matter.

"As for you, I'm really interested. If you don't want to be a dog, then you can be my Vice President. My Tian long society just so happens to be lacking a gold medal fighter who can fight."

Ren Tianyuan said as he threw an academic credit card over.

Lin Yi glanced at it, and his eyes twitched at the number!

Lin Yi had the support of the new student Alliance and the rune making society, a money-making machine. He was one of the rare tycoons in the Academy, but the total number of points in his account couldn't even compare to the gifts they'd just thrown out.

"This is just the settling-in fee. Compared to your future income, this is only a fraction."

Ren Tianyuan chuckled in a calm and composed manner.

"You seem to be very confident in your ability to make money?" Lin Yi raised an eyebrow.

"What ability?"

Ren Tianyuan was stunned for a moment, but he immediately understood what he meant and said proudly, "That's a good word. I'm sure no one can resist the power of my money. If there is, it only means that the person has a big appetite. It doesn't matter, I can double it."

"Hehe, you're rich."

If Lin Yi had just arrived at Jianghai college and met a rich man like this, he might have been willing to make friends with him. But at his level, it'd be a joke if he let someone knock him unconscious so easily.

Ren Tianyuan regained his dazed look. "So, it's a deal?"

Lin Yi touched his nose and suddenly asked, "Since your ability to make money is so good, why is it that you're still stuck at the peak of the late stage of the consummate level? If I'm not mistaken, you only have three months left, right?"

"What did you just say?"

Ren Tianyuan's expression changed drastically, and he could no longer maintain his high and mighty expression.

For him, who had been regarded as the chosen one by everyone since he was born, it was a huge humiliation for him to be unable to step into the ultimate completion realm of a Big Shot.

If he couldn't succeed in breaking through in the end, the more proud he was today, the more miserable he would be at that time!

This was his bottom line, and Lin Yi's one sentence was enough to break it!

Lin Yi smiled, "if you were throwing eight or ten perfect domain stones at me, I might consider it. An empty promise that you can't even pay is like asking me to be your dog. You're looking down on me."

As he spoke, he flicked the credit card in his hand lightly and it flew directly to Ren Tianyuan's face.

Even though Ren Tianyuan was ranked 21st in the top 100, he couldn't Dodge the attack. Instead, the credit card cut his face, and golden non-human blood slowly oozed out.

Ren Tianyuan was stunned. He touched his own golden blood, his face full of disbelief.

Although he had been in a trance for a moment because he had broken his defense, an expert at his level could still fight by instinct even if he was sleeping, let alone in a trance.

If it was any other top-tier Big Shot at the late stage of the consummate level, even touching him would be as difficult as ascending to the heavens, let alone making him see blood!

"Perfect ... Five elements domain!"

Ren Tianyuan looked at Lin Yi in shock. The experience he had just experienced made him realize, "No wonder you can break through the wordless domain! It's actually an unprecedented perfect Five Element power sphere. Its strength is not something an ordinary Five Element power sphere can compare to. Hehe, I've really opened my eyes today!"

A normal five-element territory couldn't withstand the wordless territory, but a perfect five-element territory could easily overpower an untainted Zen Master who was three realms higher than him.

"It's a good thing to broaden your horizons. "

Lin Yi nodded. Since he'd chosen to fight them head on, it was expected that the perfect five elemental sphere's trump card would be revealed.

Moreover, even if his trump card was known, the other party would not be able to make any effective counter. After all, the five Element spheres had no obvious weakness. As for the perfect Five Element spheres, they were even invulnerable.

Lin Yi said as he made his move.

Chapter 9633 Power

Lin Yi's perfect five-element domain was able to take on enemies three levels higher than him, and even with his multiple perfect domains, he didn't have the advantage. He relied on his ultimate domain to kill his enemies, ending the battle in one or two moves.

He didn't use the usual method of Domain Realm Masters, where they would first clash their domains, then use their domains to gain the upper hand and suppress the opponent from all sides. He'd never use that.

But today, it came in handy.

A perfect five-element domain was a qualitative change, and the increase in strength couldn't be measured with common sense. After that small test, Lin Yi was sure that his domain was completely above the late stage of perfection.

Thus, he was naturally confident in facing off against Ren Tian Yuan, a rarely seen powerhouse at the peak of the late stage of the consummate level.

After all, this was a rare opportunity.

Ren Tianyuan saw through Lin Yi's intentions and his face turned ugly, ""You're using me as a target for practice? Hehe, aren't you afraid of kicking an iron plate?"

As soon as he finished speaking, he immediately unleashed his domain. Nine giant golden dragons whizzed out of his body.

In the blink of an eye, the Dragon's Roar reverberated through the entire field, and even the weather changed. In comparison, the giant dragon Claw that had easily suppressed a team was not worth mentioning.

Any random claw of these nine golden giant Dragons was at least ten times more powerful than its own!

Such might was the strongest Lin Yi had ever encountered since he came to Jianghai college. Only the mysterious person behind the scenes, Xiang Yusheng, could suppress him.

Strictly speaking, Xiang Yusheng's opponent wasn't him anymore, but Banshi Luo. It was a real fight between gods, and even Lin Yi couldn't fully understand it.

"Berserk Dragon domain? You're indeed crazy!"

Lin Yi wasn't scared at all and took a step forward. Metal, wood, water, fire, earth-the five elements domain was activated to the maximum and pressed forward!

Ren Tianyuan laughed hideously as he similarly brought his berserk Dragon domain to meet the attack head-on.

The two domains collided and the sky changed color. It was as if two giant tornadoes were tearing at each other. Dark cracks appeared in the nearby space from time to time. The sound of the cracks was endless, as if the world was wailing.

When Bao Sanye and the others saw this scene from a distance, they were collectively dumbfounded.

It wasn't that they hadn't seen a battle between experts before, but even if it was Hong Baxian himself, such a shocking phenomenon had never appeared before!

"Could it be that Hall Master Lin's strength has already surpassed the pavilion master 's?"

Someone couldn't help but mumble. In return, Bao Sanye rolled his eyes."What are you saying! Brother Lin is strong, but compared to my big brother, you're still lacking. "

He was the one who supported Lin Yi the most in the Overlord Pavilion, but Lin Yi was far less important to him than his sworn brother, Hong Baxian!

"Guys, look!" Someone suddenly exclaimed.

Everyone looked towards the source of the sound. The giant vortex formed by the collision of the two super domains had actually fused into one, and the scene within formed a Mirage-like phenomenon.

The glints of blades and shadows of swords, the withering of plants, the surging waves, the blazing flames, and the towering mountains.

Every phenomenon corresponded to a type of element, and when combined together, they formed the perfect five elements.

At first, there were still nine giant golden dragons roaring, but gradually, these giant Dragons were devoured by various phenomena until they all died!

"No! It's impossible!"

Ren Tianyuan's face was filled with shock. No matter what, he could not believe that his berserk Dragon domain would actually be crushed in a direct confrontation. Furthermore, he was defeated so ruthlessly.

In the collision between the two super domains, the perfect five elemental domain won!

In fact, even Lin Yi was surprised, let alone him. He knew that the perfect five elemental sphere was very strong, but he didn't expect it to be this strong. It crossed Four Realms and crushed a giant at the peak of the late stage of perfection. No one would believe it if they said it.

However, these were only the basic attributes of the perfect five elemental spheres. The real killing move had yet to be used.

With that, even if he was still at the peak of the early stage of the great completion, Lin Yi had the ability to challenge the strongest in Jianghai college!

After all, whether it was the Council, the School Council, or the repeaters "courtyard, the top fighters were all at the peak of the giant's level. Even if Lin Yi wasn't as strong as them, he wasn't too far off.

The suppression of his domain meant that Lin Yi had the absolute advantage in the battle. He could use his domain at will, but his opponent couldn't. On the contrary, they had to suffer the backlash from the collapse of their domain.

Metal attribute edgeless slash, trio!

Lin Yi didn't hesitate to slash out with his sword. With the huge boost from the perfect five elemental area, the edgeless Slash's power was reborn, especially from the two to three ensemble. The overall power was at least a hundred times stronger than before!

When this sword was slashed out, even the most top-notch Big Shot at the late stage of the consummate level would only end up as meat paste.

Although Ren Tianyuan's cultivation level was a level higher, he couldn't use the power of his domain now. His strength was probably not even comparable to a Big Shot at the late stage of the consummate level at his peak.

In short, when this sword fell, Ren Tianyuan would definitely die!

In the end, the demonic devouring sword landed on Ren Tianyuan's body and made a scalp-numbing sound, but Ren Tianyuan was completely unscathed!

"Interesting ..."

Lin Yi's eyes twitched as he looked at the spot where the demonic blade landed. Ren Tianyuan's body was covered in a layer of black scales.

Dragon scales!

The surprised voice of the ghostly thing sounded in his mind, ""Ancient dragon scale? Could it be that this brat was really related to the ancient dragon Tribe? This is going to be fun. "

"Are the ancient dragons' defenses that strong?" Lin Yi couldn't help but ask.

Although edgeless slash was not focused on sharpness, but rather on brute force, the demonic devouring sword was not fake. With the support of unprecedented territory power, it was definitely not inferior to the slaughter territory in close combat. In fact, it might even be better.

"The ancient dragon race doesn't have any fancy moves. They only have extremely strong physical bodies."

The ghastly thing's tone was a little sorrowful, and even a little longing. "It's said that their physical bodies are invincible, so their defense is naturally invincible. "

In terms of close-quarters combat, the ancient dragon race was definitely the king race without a doubt.

Before that, the ghost added, "If it's a real ancient dragon, I'd advise you to save your energy. Even if it stands here and lets you attack, you won't be able to break its defense with your current strength."

"Unfortunately, he's not."

Lin Yi's eyes narrowed as he slashed out with the demonic blade again, but this time, it wasn't the metal element edgeless slash. Instead, it brought with it the sound of water flowing. The vast territory power condensed into an indestructible flowing water blade, cutting at Ren Tianyuan's body at high speed, like a super cutting machine with infinite power.

However, Ren Tianyuan was still unscathed.

Chapter 9634 The End

Ren Tianyuan's arrogant expression returned. "Come on, stop wasting your energy. With your strength, you can't break my ancient dragon scale even if you cut it for a day and a night!"

As he spoke, Ren Tianyuan threw out a backhand punch, blasting Lin Yi into pieces with a huge force.

Lin Yi self-destructed and was replaced by a clone.

Annihilation domain!

After the explosion, what shocked Lin Yi was the fact that Ren Tianyuan was still intact!

"I told you it would be a waste of effort, but you still don't believe me? Hehe, idiot. "

Ren Tianyuan launched another round of counterattacks, but even though he had an invincible body, he couldn't catch up to Lin Yi's impermanent steps with pure physical strength without the support of the Mad dragon domain.

Then, a strange scene appeared.

Lin Yi couldn't break through his defense, and he couldn't hit Lin Yi at all-both sides were helpless.

Bao Sanye and the others who were watching this scene from afar were dumbfounded."What kind of high-end strategy are they using? Why do you look like chickens pecking at each other?"

At least in terms of visual impact, the exchange of blows between the two at this moment was incomparable to the Grand scene of the collision of the two super domains. At first glance, it even seemed to be a little degrading.

"We can't continue like this ..."

Lin Yi frowned. Although it seemed like neither of them could do anything to the other, and to a certain extent, he still had the initiative, but that was under the condition that he had to suppress the other's berserk Dragon domain.

Although he had just been crushed, his domain had the ability to recover on its own. Especially for an expert at Ren Tianyuan's level, it would only take him a few minutes to fully recover his domain if he was given the chance.

Once he was allowed to recover, the scales of victory would once again lean towards Ren Tianyuan's side.

At this moment, his phone suddenly rang with a text message notification.

Lin Yi glanced at the message-it was from Hong Baxian. Start the plan ahead of schedule, quickly go to the designated location!

With the extremely closed atmosphere of the repeating school, which was almost isolated from the outside world, the internet was not popular at all, and even the mobile signal was extremely weak. Hong Ba must have spent a lot of effort to send a message first.

Judging from his tone, the situation was really urgent!

There was no point in continuing to fight with Ren Tianyuan. No matter what Hong Baxian was planning, Lin Yi had to get there first before he could do anything. Furthermore, from his conversation with Banshi Luo, he knew that King DU's so-called retreat was not normal. There might be a huge opportunity behind it!

No matter what, he had to get rid of Ren Tianyuan as soon as possible.

Once he had a plan in mind, it was easy for Lin Yi to escape with his strength. In just a breath's time, the distance between the two was wide.

"Motherf * cking bitch! You actually want to run!"

Ren Tianyuan immediately reacted and couldn't help but curse.

Ever since he'd gained his strength, he'd never suffered such a huge loss. Losing eight of his powerful followers that he'd paid a lot of money for was fine, but he was being crushed by Lin Yi's realm.

Although it didn't break his defense, it looked like he was still getting beaten up!

How could he endure this?

Looking at Ren Tianyuan chasing after him, Lin Yi was stunned and couldn't help but ask, ""Did you really have nothing better to do than to come and find trouble with me?"

“.....”

Ren Tianyuan was speechless.

This incident involved a huge opportunity-it might even decide if he could break through to the giant's full cultivation as he wished. He wouldn't be so bored as to target Lin Yi.

The reason why he came out to stop Lin Yi was purely because he thought that Lin Yi was Hong BA's backup plan, and he needed to eliminate the hidden danger in advance.

Who would have thought that this would be the final result?

He couldn't back down now-it wasn't wise to continue fighting with Lin Yi. They couldn't determine who was stronger in a short time, and it'd mess up their business. But if he let Lin Yi get away, he'd lose both his wife and his Army-that'd be even worse!

Unfortunately, the gap between the two was destined to only grow bigger and bigger.

Seeing that Lin Yi was about to escape, Ren Tianyuan suddenly stopped and turned to walk towards Bao Sanye and the others. At the same time, a familiar giant dragon Claw appeared above everyone's head.

"Lin Yi, you can run far away, but your poor men are in trouble! I guarantee that all of them will be buried with you because of your desertion. Not a single one will be missing!"

As soon as he said this, Bao Sanye and the others' expressions changed drastically, and they fled in all directions.

However, just as someone escaped to the edge of the dragon's claw, one of the dragon's claws fell on their head and they were instantly stabbed into meat skewers, dying a terrible death.

Everyone fell silent and didn't dare to move. They all looked at Lin Yi for help.

"Hall Master Lin, you can't run away at the last minute! The lives of so many of our brothers are all in your hands!"

"Yup! If you run away, you'll be the main culprit who killed us!"

Under the shadow of death, everyone pointed their fingers at Lin Yi.

Lin Yi's previous record had built up a lot of prestige in their hearts, but it was nothing compared to a death threat.

At that moment, Lin Yi had become a man who only cared about himself and not his brothers.

From what they said, even Ren Tianyuan was brought here by Lin Yi, and they were just dragged into this mess by Lin Yi!

"See that?" Ren Tianyuan sneered. This is the heart of the people. However, they are not wrong. If you dare to run away alone, then you will be the one to kill all of them. "

"You F * cking stinky dog fart!"

"Did a donkey kick your brains?" Sanye cursed. 'This bastard just killed more than ten of our brothers in front of you, and you're still going along with his words? and you're even fucking putting the blame on brother Lin? Don't you find it disgusting to say such things?"

Lin Yi, on the other hand, was calm.

A good person deserved to be pointed at with a gun. Everyone understood this principle. After all, they were good people.

"You're quite an interesting person. "

Ren Tianyuan looked at Bao Sanye with interest, his arrogant face carrying a trace of cruel killing intent. "It's a pity that we don't need so many interesting people. You're a little redundant. "

As he spoke, he reached out his hand for Bao Sanye. It transformed into a solid Dragon Claw and locked onto Bao Sanye's throat.

Even though Bao Sanye wasn't weak, he didn't even have the time to react and struggle. He could only unwillingly become a hostage under his claws. With a light grip, his entire body was deformed. At the same time, there was a scalp-numbing sound of bones being squeezed.

Under the intense pain, Bao Sanye's entire face became extremely distorted.

However, he held on and did not groan in pain.

"You're a tough guy, but the tougher you are, the more miserable you'll die!"

Ren Tianyuan laughed maliciously as he exerted his strength. He was about to kill Bao Sanye on the spot when a sword shadow suddenly appeared in front of him and slashed down on his forehead.

It was Lin Yi, who had returned.

Chapter 9635 The End

Dragon scales appeared on his forehead, but this sword still couldn't break through his defense. Ren Tianyuan sneered, ""You're not good enough. If you can't even take this little bit of stimulation, how are you going to do great things?"

Although he said that, Lin Yi's return was what he wanted. He threw Sanye aside as he spoke.

With his innate arrogance, he disdained to use a helpless hostage to force the opponent to lower his head. Even if he won, he would lose face.

Besides, he knew that at Lin Yi's level, he wouldn't be easily threatened. Lin Yi's return this time was already an accident out of an accident. If he really wanted more, Lin Yi wouldn't be restrained just because of Bao Sanye's safety. Instead, it would only arouse his killing intent!

"I think it's more appropriate for me to say that."

Lin Yi put the sword away and pointed at Sanye and the others."Let them go, I'll stay and play with you."

"Hehe, I'm not the least bit interested in these pieces of trash," Ren Tianyuan replied with a raised eyebrow.

Everyone quickly formed groups to escape, but Lin Yi stopped them, "Take good care of brother bosan. If anything happens to him again, all of you will pay with your lives. I will keep my word."

He didn't have any expectations for these people, but he still had some feelings for Bao Sanye.

This guy was a little straightforward, but he was indeed worth befriending.

Someone immediately came up to drag Sanye away. Sanye turned to Lin Yi with some effort. "If you really can't win, just run. Don't worry about us."

"Don't worry,"

"I know." Lin Yi nodded with a smile.

"You have a plan? You're trying to show off on my head?"

Ren Tianyuan scoffed. Although he was covered in dirt in the exchange just now, that was because he was caught off guard. Now, it was his turn to catch Lin Yi off guard.

A Dragon's Roar resounded, and the berserk Dragon domain reappeared!

Lin Yi was a little surprised. He knew that his opponent would be recovering his territory, but it was unexpected that it would recover so quickly.

Without waiting for the perfect five elements domain to open up and repeat the scene of the domain crushing the other party, Ren Tianyuan attacked first without hesitation and directly used the berserk Dragon domain's trump card.

Nine giant golden dragons appeared from all directions, and before Lin Yi could react, they quickly condensed and materialized, roaring as they wrapped around Lin Yi's limbs and body, locking him in place.

Nine Dragons snatching the throne!

It wasn't just Lin Yi's body that was locked up, even his spiritual Qi, territory power, and even his essence spirit were all locked up. To Lin Yi, it was as if the whole world was frozen.

Ren Tianyuan's faint voice rang in his ears, ""Kid, although I'm proud, I never underestimate my enemies. Today, I've taught you a good lesson, but I'll have to charge you a fee. The fee is your life."

He punched Lin Yi in the chest.

Lin Yi was sent flying, and Ren Tianyuan was shocked, "Yo, it's quite sturdy?"

Logically speaking, even a Big Shot at the peak of the late stage of perfection wouldn't be able to take his physical attack-it was unbelievable that Lin Yi didn't get blown to pieces after being completely restrained by the nine Dragons 'seize the throne.

From what he knew, only those of the same race as him who had the bloodline of the ancient dragon race could have such resistance.

However, despite his surprise, Ren Tianyuan naturally wouldn't show any mercy. He immediately chased after him and continued to hammer him. If one punch didn't work, then he would punch ten. If ten punches didn't work, then he would punch a hundred!

In an instant, Lin Yi had completely turned into a human sandbag, enduring the crazy ravages of Ren Tianyuan, the human-shaped T-Rex.

Finally, Lin Yi's body couldn't take it anymore, and a huge hole was punched in his chest, followed by his stomach. In the blink of an eye, his intestines were gone, and his stomach was destroyed.

"Let me teach you a lesson. In your next life, if you meet someone like me, you'd better stay away from me, because you can't afford to offend me."

Ren Tianyuan laughed coldly as he patted Lin Yi's pale face. He watched as Lin Yi's eyes lost their light bit by bit, making sure that all his life force was gone before he stopped the nine Dragons "snatch for the throne.

He finally got his revenge.

Ren Tianyuan turned around and was about to leave. After all, he still had important things to do. Killing Lin Yi was only a small interlude, the sole King was the most important thing to him!

As he turned around, a Golden Dragon entered Lin Yi's body, ready to devour his essence spirit.

Although the ancient dragon Tribe had no attainments in the primordial soul, and could even be said to be born with "mental retardation," he was not a true ancient dragon Tribe after all. Since he was young, all kinds of rare natural treasures were enough to push him into the primordial soul realm.

Lin Yi's strong essence spirit was a huge supplement for him.

Ka.

An almost imperceptible sound rang out. Ren Tianyuan's heart skipped a beat as he felt the dust settle. The primordial spirit Golden Dragon that he had released suddenly sank into the ocean and disappeared without a trace.

At the same time, Lin Yi's body, which was full of holes, suddenly exuded a huge amount of life force. The big and small bloody holes on his body were healed in an instant.

The speed of recovery was so terrifying that it had far exceeded the previous times when a withered tree revived in the spring. Even with Ren Tianyuan's experience, he couldn't help but turn pale with shock.

No matter how strong his self-healing ability was, there should be a limit, right?

It wouldn't have been that shocking if Lin Yi had just recovered after he left, but this speed of recovery was far beyond his knowledge.

Ren Tianyuan muttered a common saying from the secular world, ""This doesn't make any sense."

"You even know science?"

Lin Yi's calm voice sounded. It felt weird to talk about science in a place where science wasn't common.

However, using spring as a reference, this super self-healing ability was indeed a little too strong. Even with the huge bonus of the perfect five elements domain, it was still difficult to explain.

This was because this was not a withered tree revived in the spring. Instead, it was a new ability that was developed with the perfect five-element domain as the foundation and combined with Banshi Luo's guidance.

To heaven.

As long as there was a single breath left, he would be able to turn the world around. Even if his physical body was completely destroyed, as long as his primordial spirit remained, he would be able to recover in an extremely short period of time. Even in the Jianghai Academy, where there were many top experts, such a domineering ability had never been heard of before!

And this was only the tip of the iceberg of the perfect five elements domain.

If that wasn't the case, why would Lin Yi come back to die?

The Lin Yi now was only lacking in front of people like Banshi Luo-what was there to fear about the others?

If Hong Ba knew what kind of monster his perfect fire element territory stone had created, he'd puke blood on the spot. After all, Lin Yi was just a tool in his eyes.

Chapter 9636

Now that Lin Yi had recovered, Ren Tianyuan quickly suppressed the shock in his heart and activated the berserk Dragon domain again. The nine Dragons 'seize the throne reappeared.

One had to admit that the nine Dragons "battle of the thrones was indeed a godly skill that could dominate an area. Even if the strength of the domain was far from Lin Yi 's, it was still able to end things at close range.

It could be done once, not again.

If Ren Tianyuan were to do it again, even Lin Yi, who had the ability to turn the tables, wouldn't be able to escape death. After all, no matter how strong the reverse was, it was still in the category of self-healing, not immortality!

The nine golden dragons quickly wrapped around Lin Yi again.

Just as he was about to repeat the same mistake, Lin Yi's eyes turned pitch black and his lips stopped moving. An emotionless voice sounded in the depths of Ren Tianyuan's sea of consciousness,""Extreme transformation of the five elements, great burning heavens."

Ren Tianyuan finally came to a realization.

The five elements domain combined the five elements, which were mutually reinforcing and restricting, into one, influencing and improving each other. However, the five elements were still the five elements, and had not completely disappeared. Therefore, when the domain operated, there were still strange phenomena representing their respective attributes.

However, Lin Yi's perfect Five Element domain was completely different!

The ultimate transformation of the five elements, as the name suggested, was the complete fusion of five elements, which would then catalyze a terrifying power that far exceeded the original strength!

Ren Tianyuan had seen Fen Tian before, which represented the peak of the fire domain's killing power. However, that flame was dark purple in color. Compared to the pitch-black Flame before him, it was still lacking in quality.

This was the great burning heavens after the extreme transformation of the five elements!

The nine golden dragons surrounding Lin Yi were immediately engulfed by the black fire. The majestic dragon roars became extremely shrill, and in less than three breaths, the nine golden dragons turned into ashes.

"What a good extreme transformation of the five elements! What a great burning heavens!"

It was unknown whether Ren Tianyuan was scared or excited, or perhaps he had suffered an even more intense backlash from the domain, but his entire body trembled like a sieve.

As soon as he finished speaking, Lin Yi gathered the black flames in his hand again.

Ren Tianyuan's eyelids twitched violently, and he turned around and ran without a word.

Relying on his ancient dragon bloodline, he was indeed confident that his physical body was invincible. However, the great burning heavens was clearly no longer a physical attack. Whether his ancient dragon scales could block it was a huge question mark.

If he couldn't block it, he wouldn't be any better off after seeing the nine Dragons 'fight for the throne.

Unfortunately, he couldn't outrun the impermanent steps.

In just three steps, Lin Yi caught up to him and sent out a palm. The great burning heavens engulfed his entire body, and in an instant, Ren Tianyuan was turned into a black Man on Fire.

"It's enough to burn. "

Lin Yi raised a brow at the scene.

No one knew the great burning heavens 'might better than he did. In terms of destructive power, it was already at the ceiling level of a Big Shot at the level of great fulfilment. Even an existence at the level of the ultimate great fulfilment might be cremated on the spot if they were not careful, let alone an ordinary Big Shot at the peak of the late stage of great fulfilment.

However, although Ren Tianyuan looked extremely miserable at this moment, he was in fact extremely miserable. His hoarse and miserable wails were enough to give people nightmares for a year. However, it was obvious that great burning heaven was still unable to completely cremate him for a while.

"Are all the ancient dragons so abnormal?"

Lin Yi couldn't help but mumble, and the ghostly thing sighed, "If they were really abnormal enough, the ancient dragon race wouldn't be the ancient dragon race anymore. They would be called the Dragon race. Just wait and see."

As expected, after waiting patiently for 15 minutes, the situation finally changed.

The black flames burned continuously, and the more Ren Tianyuan was burned, the greater the pain he suffered. At this moment, the ancient dragon scales on his body showed signs of melting, like wax drops slowly falling down.

This scene caused the suffering Ren Tianyuan to look even more tragic.

Without the protection of the ancient dragon scale, Ren Tianyuan's body was directly exposed to the black flames of the great burning heavens. He could no longer withstand the ferocity of the black flames, and he could finally end this torture that was even more inhuman than the eighteen levels of hell.

"Why bother?"

The black flames dissipated, and Lin Yi sighed as he looked at the ashes under his feet. If it wasn't for the other party's pressure, he really didn't want to expose his trump card in a place like this.

After all, there were many hidden dragons and crouching tigers in the repeat school. There might be an unfathomable existence watching everything around them right now.

Fortunately, the ultimate transformation of the five elements wasn't just one card, but five cards.

The wood element's reverse and the fire element's great burning heavens had been exposed, but there were still three cards left, each of which was not inferior to these two cards.

"I hope it's enough."

Lin Yi had a strong feeling that the king's disappearance was going to develop in a way that had never been seen before. It might even become an unprecedented event in the history of the repeaters!

If he hadn't reached the extreme of the five elements, Lin Yi wouldn't get involved-he'd stay as far away as possible. After all, the ones who died the fastest were always those idiots who liked to join in the fun but didn't know their own strength.

But now, great danger always came with great opportunities. Lin Yi wanted to join in.

Just as Lin Yi was about to leave, he saw a Black Dragon Scale under his feet out of the corner of his eye. It wasn't big, only about the size of two or three fingernails.

"This is ... The Dragon scale on his forehead?"

Lin Yi recalled for a moment and quickly realized that the scale had blocked the demonic blade. It was indeed impressive.

At this moment, the other parts of the ancient dragon scales had already been reduced to ashes along with Ren Tianyuan. Only the scale on his forehead remained intact.

After some thought, Lin Yi decided to just keep it. The ancient dragon scale's fire resistance alone was already a rare treasure that could only be found on the market.

With that, Lin Yi increased his speed to the maximum and rushed to the target location.

At this moment, the target was the giant hanging coffin, which was floating quietly in the air.

A figure silently descended from the sky and landed on the hanging coffins. Then, he disappeared.

Soon after, a young scavenger in ragged clothes slowly approached from the distance. He walked around the hanging coffin twice and then sat down cross-legged.

"Oh, even the scavengers, these dog-like things, have come. It's really disgusting."

A strong man with a bare upper body and a steel spear on his back walked like a dragon and a Tiger. He looked at the young scavenger and cursed. Although he spoke ill words, he did not intend to attack. He just stood on the other side of the hanging coffin and watched coldly.

Then, an old and kind voice sounded above everyone's head, ""Head Xing is right. The scavengers are the worms of our repeat school. Wherever they go, it's chaotic. We really shouldn't let them in at such an important occasion."

As soon as these words came out, the big man with the long spear, who was called chief Xing, suddenly had a killing intent. He took the long spear from his back and threw it at the young scavenger without saying a word.

Chapter 9637

There was a Sonic Boom.

In the next second, the spear had pierced through the chest of the young scavenger, right in the heart, nailing him to the ground.

But then, the young scavenger unhurriedly pulled out the spear from his body and slowly stuffed back the shattered pieces of his heart.

Not only did he not show any signs of dying, but his calm expression also made it seem as if all of this had nothing to do with him.

Lin Yi's heaven reversal from the extreme five elements was already heaven-defying, but compared to this man, it was nothing. Although this spear might not kill Lin Yi if it landed on him, it couldn't be done so easily.

"You old thing, you dare to bewitch me?"

The spear-wielding burly man reacted. The spear had reappeared in his hand at some point, and he threw it at the old man on the other side.

The reason why he could not control his killing intent earlier was that, on one hand, he was already angry, but the most important thing was that the old man's words had a bewitching power. Otherwise, he would not have lost control so easily!

"What a brutal spear, but I'm a man blessed by the heavens, I won't be able to stab you."

As the old man spoke, the spear that had always been successful seemed to be controlled by a mysterious force. At the last moment, it actually shifted its position automatically and brushed past the old man.

"You can even bewitch my long spear?" the burly man with the long spear was stunned.

The old man smiled. "Leader Xing, I'm being reasonable. As the one chosen by heaven, everything will listen to my reasoning. You're no exception."

"What a good 'everything has to listen to your logic'. As expected of the president of the Three Pure Ones Association who can distort yin and yang with just his mouth, bewitching the Grandmaster li Yushu!"

A man dressed in an ancient scholar's robe gently waved his paper fan and came from the distance, stepping on the wind. Everywhere he passed, lotuses and strange phenomena appeared, giving him the charm of an immortal who had left the world behind.

The old man's eyelids twitched, and he revealed a cautious expression. "I really didn't expect that even the president of the Hundred Schools of Thought would personally take part in the battle. The unique King's charm is really not small."

The person was called Zhang Qiu, the president of the Hundred Schools of Thought society.

The Hundred Schools of Thought society wasn't among the five great and 13 heroes, and its reputation wasn't even considered first-class in the repeat Academy, but this didn't mean that it was insignificant.

On the contrary, in the eyes of those with discerning eyes, this was one of the forces that could not be underestimated under the five Giants. This was because the widely known Top 100 list of the repeat Academy, as well as the five Giants and thirteen heroes, were all created by the Hundred Schools of Thought.

Moreover, there were rumors that the Hundred Schools of Thought society had a close relationship with one of the five Giants, the pavilion of heavenly secrets. It was very likely that they were a branch of the pavilion of heavenly secrets!

Zhang Qiu laughed. His gaze slowly swept across the crowd, and he said with interest, ""One of the thirteen heroes, the Executive Council's chief, a Big Shot at the peak of the late stage of the consummate level, Xing Zhang."

"The leader of the scavengers, a Big Shot at the peak of the late stage of the consummate level, The Walking corpse Liu Yun."

He paused and glanced at the top of the hanging coffins, "The gold medal assassin of the assassin family, a Big Shot at the peak of the late stage of the consummate level, ye Zhiwei."

"There's only a total of ten or so big shots at the peak of the late stage of the consummate level in the school of retained students. Today, I've met four of them at once. It seems that my luck is really not bad. It's a pleasure to meet you!"

Everyone's expression changed when they heard this, and they looked at the top of the hanging coffins in unison.

If Zhang Qiu didn't point it out on the spot, they really wouldn't have known that ye Zhiwei was here. One must know that he was known as the next King of Assassins.

Li Yushu squinted his eyes and smiled, "today's event is indeed unique, but the number of people is still a little small, right?" Although Hong Ba led the motley crew to the sole King Palace, the president of the heavenly Dragon Society, Ren Tianyuan, and the host of the quiet moon Pavilion, the water Moon Fairy, are not going to be absent, right?"

"The water Moon immortal is currently sparring with Hong Baxian. As for Ren Tianyuan ..."

Zhang Qiu paused for a moment and revealed a strange expression. ""He ran into an iron plate. Now, there's no corpse left, not even a residue is left."

"What?"

Everyone present was collectively shocked. Even the outline of a human figure could be vaguely seen above the hanging coffins. It was obvious that they were also shocked.

They were all familiar with each other and had fought with each other both openly and secretly. They were all wary of each other, and Ren Tianyuan was a tough nut to crack with his ancient dragon bloodline. How could he not have a corpse left?

Could it be that one of the five Giants is personally taking the field?

This was the only reasonable explanation.

Zhang Qiu gently waved his fan and said, ""You guys might have heard of the person who killed Ren Tianyuan. He's the new disciple king who just joined the Overlord's Pavilion. He's ranked 43rd in the top 100. Oh, no, he's ranked 21st now. His name is Lin Yi."

Everyone was shocked.

"That brat who was Hong BA's first horse?"

Xing Zhang and the others looked at each other in disbelief. They all had the same expression of 'are you F * cking kidding me?'.

It wasn't strange for some powerful people to appear in the repeating school, but a so-called bullsh * t newcomer King, a weakling who couldn't even be put on the stage, at best could only clear out cannon fodder. How could he kill Ren Tianyuan?

With Ren Tianyuan's defense, even if everyone present worked together, they would not be able to kill him.

Zhang Qiu looked at their expressions and laughed, ""It doesn't matter if you believe it or not. He'll be here soon anyway. If anyone is interested, you can test his looks for yourself."

As expected, not long after he finished speaking, Lin Yi's figure suddenly appeared in front of everyone.

"Are you kidding me? He's only a peak early stage consummate level Titan?"

Xing Zhang recovered from his shock and casually threw a long spear.

After each spear flew out of his hand, it would automatically reappear in his hand. This alone was enough to prove that this was not an ordinary spear, but a rare weapon that had fused spatial characteristics.

The long spear pierced through the air.

Lin Yi, who wasn't aware of the situation, blinked and dodged instinctively with impermanent steps.

The strange thing was that even though Lin Yi had already crossed paths with the spear, the spear seemed to have the ability to lock on to him. It automatically adjusted its trajectory and focused on Lin Yi's body, moving faster and faster.

Its initial speed was only a little over Mach 1, but in the blink of an eye, it had soared to Mach 5 and above. If it dodged a few more times, it would probably reach Mach 10 or even Mach 20 in the blink of an eye!

This was a F * cking supersonic weapon.

"Run! The longer you run, the more fun it is!"

Xing Zhang laughed coldly at the scene, but Lin Yi suddenly stopped, turned around, and swung his edgeless slash at the tip of the spear.

BOOM!

The collision of the sword and the spear set off a loud bang, and the overflowing violent force plowed through a radius of 100 meters. In an instant, it was beyond recognition.

"Heh, it seems like you're not that weak after all. You're quite something."

Xing Zhang glanced at the safe Lin Yi from the corner of his eyes. He didn't show anything on his face, but there was a hint of caution in his eyes.

Chapter 9638

His carefreeness was just a disguise-he'd be a bird that stood out once he'd figured out who Lin Yi was. There were so many sparrows watching him, after all, and he didn't want to be a stupid Mantis.

Lin Yi didn't have any intention of retaliating. He kept the sword and walked to the side, keeping a distance from everyone.

It was just Xing Zhang's test, but he didn't reveal his true strength at all. That spear was probably just a casual move. As for the others who didn't make any sound, they naturally couldn't see anything wrong with it.

If the enemy did not move, he would not move.

At the same time, everyone silently acknowledged Lin Yi's strength and didn't try to clear the area. They were even a little afraid of Lin Yi-after all, according to Zhang Qiu, this was a ruthless man who could kill Ren Tianyuan.

"I say, we can't continue wasting time like this. I have a suggestion. How about we work together to open the dojo first?"

Li Yushu suddenly suggested.

The moment he opened his mouth, an invisible yet undetectable bewitching power spread in the air, making everyone subconsciously agree with him. Even someone as strong as Lin Yi was dazed for a moment.

However, the people present were either Giants at the peak of the late stage of Great Perfection. Those with slightly weaker strength were also the unfathomable hundred school of thought society's leaders. It was easier said than done to bewitch any one of them.

"Old man, if you don't stop this, I'll poke ten thousand holes in you right now!"

Xing Zhang held his spear and was about to attack.

"I'm sorry, I'm used to it." Li Yushu chuckled.

Zhang Qiu said slowly, "President Li's idea is not bad. A long night is fraught with dreams. If we wait any longer, some Big Shot might come. By then, you guys won't have anything to do."

Everyone was shocked.

Although they were all competitors and would inevitably fight later, what they were most afraid of was the fate of the five Giants.

If it was just them killing each other, they would at least have the possibility of having the last laugh. However, once the five giant existences ended up, they would really have nothing to do with it. Not only would they not gain any advantage, they might even lose their lives.

"Then what are you waiting for? let's start!"

Xing Zhang was the first to move. The spear in his hand suddenly turned into tens of millions of shadows, which shot toward the suspended coffin in the air.

At the same time, the others also started to move.

Li Yushu of the Three Pure Ones Guild spoke eloquently, and his domain power that carried a bewitching effect gathered into a long rainbow.

The eyes of the scavenger Liu Yun condensed into a beam and turned into two extremely sinister rays of corpse Qi.

The figure above the hanging coffin appeared immediately. It was a tall woman, the next King of Assassins, ye Zhiwei. She held an ordinary-looking short dagger in her hand, squatted down, and inserted it, causing the entire hanging coffin to sink dozens of centimeters!

However, that was all.

The joint attack of the four big shots at the peak of the late stage of the consummate level was not able to damage the hanging coffins in the slightest. They did not even leave a trace behind.

Zhang Qiu looked at Lin Yi with interest, "Hall Master Lin, if you're also interested in Lord Du Wang, I think you'd better give him a hand. Maybe we'll succeed?"

"Are you not interested?"

Lin Yi asked.

Of all the people here, Lin Yi was probably the one with the least information. He didn't even know about the existence of the giant hanging coffins before he arrived, let alone what was sealed inside.

However, one thing was for sure. It wasn't time to reveal the truth yet. That was because Hong Baxian, the most important person behind the scenes, had yet to appear!

On the surface, Hong Baxian should still be fighting with someone in the hall, but Lin Yi believed that he'd find a way to come at the most critical moment.

Even if Hong Baxian was only a late stage of the full cultivation of a Big Shot, no match for any of the practitioners here, Lin Yi still believed that Hong Baxian was the most important person here!

This was the intuition of a strong person.

Zhang qiuyun laughed lightly."Compared to strength, the Hundred Schools of Thought prefers an exciting story. Today, many heroes have gathered together. In addition to you, the legendary newcomer King, Hall Master Lin, today's story is really exciting."

Lin Yi looked at the man deeply, not knowing what he was doing.

He looked like a storyteller, but he was really just here to listen to a story and watch the fun.

At this moment, a text message came from his phone. It was still from Hong Baxian.

The message was short, only two words.

He made his move.

"It's indeed nearby!"

Lin Yi didn't know Hong Baxian's exact location, but he wouldn't be able to monitor the situation if he was in the hall. The strength of these big shots was obvious, but only Lin Yi's Pavilion master was unpredictable.

Without hesitation, Lin Yi made his move. His perfect five elemental domain activated as he raised his hand and unleashed a Burning Sky.

The dark purple flames surged out and covered a surprisingly large area, completely enveloping the entire giant hanging coffin.

Everyone's eyelids twitched when they saw this.

It wasn't the five elements extreme burning heavens that could threaten their lives, but this burning heavens was enough to show how extraordinary the perfect five elements domain was. Plus, they all knew that since Lin Yi was willing to show this move, it meant that he was just like them, only the tip of the iceberg, far from his full strength.

Everyone silently placed Lin Yi on the same level as them.

"As expected, he's an astonishingly talented and troublesome character!"

Zhang Qiu nodded to himself. Lin Yi had been in the limelight recently, and was the focus of the hundred families club. It was a rare opportunity to get close to him.

He didn't know if it was a coincidence or if it was a critical point, but the coffin started to move. It started to shake and couldn't maintain a stable position in the air. Finally, it lost all gravity and fell to the ground.

The moment it landed, the lid of the coffin, which weighed several tons, was lifted off the ground. Everyone quickly surrounded it.

In the coffin, a strong man over five meters tall was tied up with heavy cold iron chains. He opened his dark eyes quietly, but he did not look like a living person at all.

"King du!"

Everyone's expression changed, and they couldn't help but exclaim.

Although they had received relevant information in advance and had made various preparations, they still couldn't help but shiver when they saw the king in person. For a moment, no one dared to take a step closer.

This was the power of the five Giants.

Even though he looked no different from a living corpse, even though everyone present had received clear information that this was the weakest moment King du had ever been in his life, they still instinctively trembled in fear.

Chapter 9639 Power

"King DU's cultivation technique is very special. Every time he breaks through, he will enter a state of suspended animation. You don't have to be too afraid."

Zhang Qiu said faintly behind the crowd, as if he wanted to see the world in chaos.

"What's his practicing?" Lin Yi asked.

Everyone perked up their ears. This was related to the foundation of the five Giants' strength, and it was definitely a top secret. Even with their intelligence means, it was difficult to investigate clearly, and they only knew some vague details.

In fact, if someone had not disclosed the information to them, even they would not have known King DU's current position and situation, let alone come here.

"This is a secret that can not be told to outsiders, but since Hall Master Lin has asked, I have to give you face."

Zhang Qiu took the opportunity to do him a favor. "King DU's cultivation technique is called the self-pitying curse. Strictly speaking, it's not a cultivation technique. It's an extremely powerful curse."

"A curse?"

Everyone was stunned. Although they had their own information, in terms of accuracy, they were still lacking compared to the Hundred Schools of Thought, who made a living out of information. At the very least, the self-pitying curse was not mentioned in their information.

"That's right. To be precise, it's a spell. For a period of time, it was called one of the three great wondrous Arts along with witchcraft and Gu techniques. It was all the rage for a time, and at that time, it even overshadowed the mainstream cultivation techniques!"

"However, their cultivation process was too outrageous. In the end, they were put out of order and gradually disappeared from the world of cultivation. Even if they occasionally appeared, they would be regarded as evil and quickly suppressed. Until now, very few people have heard of them, and those who understand them are even rarer."

Zhang Qiu spoke with great interest.

The crowd was naturally happy to get more information from him. It must be known that it was not cheap to buy information from the Hundred Schools of Thought, especially when it involved the five greats. No matter how many spiritual jades one had, they might not be able to buy it.

However, while listening to his explanation, everyone's attention was still on the king in the coffin. They kept a close eye on the King's every move, and they would attack immediately if there was any change. This was also a tacit understanding that everyone had.

They had to be on guard against each other, but if King du really came back to life, they had to work together with all their might.

Otherwise, no one here could think of living.

Zhang Qiu continued. "The self-pity curse that King du cultivated is different from ordinary curses. Ordinary curses curse others, but the self-pity curse is a curse on oneself."

"Curses are a type of power, an incomparably mysterious and powerful power. It can curse a person to death, and it can also curse a person's life. Even though we, the Hundred Schools of Thought, are not clear on the exact details of the curse, we are certain that every curse is too powerful, so a huge price has to be paid."

"Therefore, you can understand the self-pity curse as the king has given up something extremely important in order to obtain a power that we can not imagine!"

"What did the king give up?" Lin Yi interrupted.

"I don't know,"

"No one can answer this question except for King du himself," Zhang Qiu said slowly. "But our hundred school of thought has gathered intelligence from all over the world and has a guess. King du might have abandoned his human emotions and desires."

Lin Yi didn't say anything, but the others all understood.

The Executive Council's great master, palm Xing, clutched the coffin and said, ""No wonder I didn't feel any human from King du before. He was as cold as a walking corpse, no different from this garbage collector."

The person he was pointing at was the scavenger, Liu Yun.

Lin Yi nodded silently. Liu Yun's body was emitting a thick aura of death. He didn't look like a living person at all. Lin Yi couldn't help but have goosebumps.

But Lin Yi's intuition told him that as long as he could understand the mysteries, it wouldn't be hard for him to replicate the feeling with his perfect five elemental domain.

After all, Lin Yi had already mastered the reversal of the five elements, which was an extreme of self-healing. It represented life, and the power in this person represented death.

Life and death were two sides of the same coin, and it was completely possible to transform each other.

"Then what's his situation now?" Lin Yi continued.

Zhang Qiu smiled. "All curses have flaws, and the same goes for the self-pity curse. It will cause a strong backlash during the breakthrough, so every time he breaks through to the Supreme King level, he has to

resort to this method of feigning death to resolve the backlash. Before the backlash of the curse is resolved, he can't wake up, and his strength will be infinitely weakened."

"In terms of individual strength, the sole King is one of the top five. There are only a few people in the retained Academy who can fight him head on. According to our calculations, he should have already reached the last step of the giant's ultimate completion. If he succeeds in breaking through this time, no one in the retained Academy will be his match!"

"So, this is our only chance."

Lin Yi had a rough idea of what was going on, but the most important thing was still a little weird."Even if this is the best time to kill King du ... Why did you kill him?"

These words sounded a little redundant at first.

The repeating students were leaderless and fought all year round for territory, resources, and even people.

But when it came to King du, none of these reasons were sufficient.

It was true that as one of the five Giants, they controlled a large territory in the eastern area and the resources piled up in King DU's Palace were enough to make any force jealous. However, no one would make a move on King du for these resources.

Although the benefits were great, they were still disproportionate to the risks.

Everyone present knew very well that even the king, who was said to be at his weakest, was still an extremely dangerous existence to them. Even if he was in a state of suspended animation, they would still die if anything happened to him.

Li Yushu and the others were silent, but Zhang Qiu was trying to be nice to Lin Yi. "There's only one reason for everyone to be here. They're all here for King DU's strength!"

"What do you mean?" Lin Yi raised a brow.

"The self-pity curse has a special feature. Once its power takes shape, it will not dissipate easily. If King du dies, his power will become ownerless and will automatically seek out the next Master."

Zhang Qiu glanced at the crowd and said, ""Whoever is able to succeed, I'll have to congratulate the birth of the new five Giants."

Lin Yi could feel the change in the atmosphere.

Not only was du Wang's strength tempting, but the most important thing was that four of the people present were experts at the peak of the late stage of the consummate level of a giant. As long as they could obtain him, even if they couldn't fully replicate du Wang's strength, they could easily break through and step into the ultimate realm of the consummate level of a giant!

This temptation was enough to overpower everything.

Chapter 9640 The End

The Executive Council's Xing Zhang, the Three Pure Ones 'li Yushu, the scavenger Liu Yun, and the assassin family's Ye Zhiwei, who had been hiding but must have been beside them.

Everyone was eager to make a move, but no one dared to make the first move.

It was important to seize the initiative in this matter, but not only did they have to be wary of each other, but they also had to be wary of the backup that King du had prepared for his seclusion. No one could take such a great risk!

The situation fell into a strange stalemate.

However, this stalemate was quickly broken.

The one who made the first move was none other than King du, who had fallen into a feigned death. He suddenly sat up!

With a five-meter tall body, King du was able to suppress the people standing around him just by sitting up. When he opened his mouth, he spat out a large string of unknown black crystals.

"A curse seed!"

"This is the power crystal of the self-pity curse!" Zhang Qiu shouted. "Obtaining them is equivalent to obtaining the power of the sole King!"

Without waiting for him to finish, everyone had already made their moves.

Lin Yi scanned with his spirit sense and knew that there were thirty-six seeds.

Xing Zhang, who was the closest, caught Seven Seeds in one go. Li Yushu was not as fast as him, but he managed to confuse the spell seeds' flight path with his glib tongue, easily keeping 13 seeds in his pocket.

The remaining scrap picker, Liu Yun, took six. The killer, Ye Zhiwei, who had been hiding all along, also took six.

As for the last four, they fell into Lin Yi's hands.

From the beginning to the end, Zhang Qiu just stood there and watched the show. Even if the spell seeds flew past him, he was unmoved.

Lin Yi had a bad feeling about this.

The moment the seed of the curse entered his hand, his primordial spirit began to tremble. This was indeed a highly concentrated energy entity. The density of the energy was unprecedented.

It would not be an overstatement to say that the energy contained in this curse seed alone was enough to match his cultivation base.

If he digested all four of the seeds, theoretically, his strength would increase by four times!

This was just the data on paper. If used properly, the actual increase in combat strength could be even more exaggerated than this.

Lin Yi was the one who got the least, and the other four naturally got more, especially Li Yushu, who got thirteen spell seeds. He was a winner in life.

However, it was also because of this that he became the target of public criticism.

Xing Zhang and the others turned their attention to Li Yushu. Although they were all big shots at the peak of the late stage of the consummate level, if they were to fight face to face, Li Yushu would be at a disadvantage if he were to face any of them.

After all, although the bewitching domain was profound, it was not an ability that was suitable for direct combat.

"Using numbers to bully the few, an unfair victory!"

Li Yushu immediately activated his domain ability. His glib tongue had actually caused the Executive Committee's Xing Zhang and the scavenger Liu Yun to subconsciously kill each other. Moreover, the anger of both sides grew as they fought, as if they couldn't hold back their hands and were about to fight to the death.

Lin Yi couldn't help but look at the old man.

If nothing else, it would be easy for this person to drive a wedge between them. This ability was not difficult to deal with, but if used well, it could even be considered a strategic ability to a certain extent.

However, although he had sent away Xing Zhang and Liu Yun, he had left out one person.

The invisible killer, ye Zhiwei.

He knew that the man was nearby, but he couldn't locate him with his eyes or spirit sense. Li Yushu, who was at the forefront, was extremely nervous.

An undetectable air wave swept past, and a perfectly invisible dagger appeared, not at Li Yushu, but at the back of Lin Yi's head!

It was a diversion.

Ye Zhiwei's choice surprised Lin Yi, but he could tell from Li Yushu's expression that the old man's bewitching domain was probably behind this!

Besides, he was picking on the soft persimmons.

Li Yushu's thirteen seeds were tempting, but Lin Yi's four were just as tempting.

But after seeing the black fire on Lin Yi's hand, she immediately ran away, leaving no trace. If Lin Yi didn't notice it early, he wouldn't even know she was behind him.

"He is indeed a dangerous killer."

Lin Yi nodded. If Ye Zhiwei forced his way in, he'd be looked down upon.

Judging the situation, keeping enough patience to find an opportunity, and then killing with one strike, these were the most important qualities of an Ace Killer.

At the same time, Ye Zhiwei's heart was also in turmoil.

As a killer, her instinct to be cautious made her think highly of Lin Yi more than anyone else present. In fact, she had already brought out her killer instincts to the fullest.

Even against experts of the same level, the success rate would be at least 60%!

However, the moment the black flames appeared, her confidence had been reduced to zero.

Of course, she might not lose to Lin Yi if she went all out, but for an assassin like her, it was like stepping one foot into the coffin.

It would be better to go back to Li Yushu instead. Compared to Lin Yi, this old man was much easier to deal with, especially when he had thirteen curse seeds in his hands!

Ye Zhiwei thought so, and coincidentally, Lin Yi thought so too.

Even though he still didn't know what Hong Baxian's plan was, the seed of a spell was indeed a good thing. If he could get one more seed, it would be worth at least ten years of hard work!

The sudden cooperation between the two of them caused Li Yushu, who had been sitting calmly, to suddenly be in danger. His expression changed greatly.

"You want to bully me with numbers again? Do you young people not talk about martial virtue?"

Li Yushu hurriedly activated his bewitching domain, and a majestic bewitching power filled the entire area. He interfered with and even controlled the judgment of the people and objects present from every possible angle.

Any primordial spirit that was slightly weaker would not be able to escape the fate of becoming his puppet.

But Lin Yi wasn't.

Lin Yi's primordial spirit was stronger than anyone else's, no weaker than Li Yushu's. Li Yushu was constantly bewitching Lin Yi, but it didn't affect Lin Yi at all since he was on guard.

As for the invisible killer, Ye Zhiwei, his primordial spirit realm was much lower than his, but he could not lock onto his position, and the effect of his bewitchment was greatly reduced.

From a certain perspective, Lin Yi and Ye Zhiwei were the two natural enemies that Li Yushu hated the most.

Pfft!

With a muffled sound, the dagger suddenly pierced Li Yushu's chest directly, reaching his heart. For safety's sake, Ye Zhiwei even smeared the dagger with a deadly poison that was enough to kill a Big Shot's ultimate master of perfection!

Everything happened too quickly. It was so fast that li Yushu didn't even have time to react. His heart had already shattered, and the poison had spread through his entire body.
