

Bodyguard 9641

Chapter 9641 Power

Li Yushu turned into a corpse that died with his eyes wide open and slowly fell to the ground. The thirteen spell seeds in his hand fell into ye Zhiwei's hands. In this way, ye Zhiwei had gathered nineteen spell seeds in his hands.

The most in the entire venue!

The rest of the students were instantly envious. With so many curse seeds, it was enough to easily guarantee their promotion to the ultimate full cultivation of a giant. This was like a ticket to the peak of Jianghai Academy's combat power!

Escape!

Ye Zhiwei's reaction was decisive enough. Although the remaining curse seeds were still envious, as long as she successfully took away these nineteen seeds, she would be the biggest winner today.

The next King of Assassins was close at hand.

With her speed, neither the Executive Council's chief, Xing Zhang, nor the scavenger master, Liu Yun, could catch up to her, not to mention that she had the perfect invisibility.

The only person she needed to care about was Lin Yi.

Lin Yi did move, and with the wind element's impermanent steps, it wouldn't be hard to lock onto her position. However, Lin Yi's current position surprised ye Zhiwei.

Lin Yi didn't even chase after her, running in the opposite direction.

Before ye Zhiwei could react, a huge shadow suddenly enveloped him from behind, and a huge hand swung down from the air.

Under the stimulation of his dangerous intuition, ye Zhiwei had already made the most correct response instinctively, even though he still didn't know who was attacking him from behind.

At the same time, he concealed his body and escaped at full speed.

Unfortunately, he still couldn't escape the giant hand.

With a palm strike, ye Zhiwei's entire body disappeared in an instant, without a trace of breath!

The entire place was dead silent.

Even with Lin Yi's mental fortitude, he couldn't help but feel his heart jump. If ye Zhiwei was just sent flying, or even killed on the spot, he wouldn't be this shocked. Because the person who attacked was no other than the king who should've been lying in the coffin and faking his death!

With the five Giants 'extraordinary strength, killing ye Zhiwei in seconds was only a basic operation. However, this sudden palm had directly destroyed ye Zhiwei.

Dead or Alive, their bodies were nowhere to be seen!

Even the aura on ye Zhiwei's body had disappeared completely, as if he had never appeared in this world. This was really appalling!

Then, the expressionless du Wang flashed and crossed a thousand meters in a way that Lin Yi couldn't understand. He appeared behind Xing Zhang and Liu Yun and gave them a slap each.

In the end, even though these two big shots were at the peak of the late stage of the great fulfilment, they were clearly prepared for this, but they didn't even have the slightest power to resist. They directly followed in ye Zhiwei's footsteps and disappeared from the world.

"King du is indeed King du. Even if he faked his death, he is still an invincible existence."

Zhang Qiu, who witnessed this scene, was speechless.

Lin Yi was even more surprised after the reminder. He realized that King wasn't at his peak, but in a state of suspended animation. He was tens of times weaker than before!

"Clan Master Lin, if you throw away the curse seed in your hand now, you might be able to escape this."

Zhang Qiu turned to Lin Yi. "King du won't go on a killing spree when he's in a fake death state. If I'm not wrong, these curse seeds are the source of his target. If you keep them in your hands, you won't be able to escape his pursuit."

Lin Yi accepted the advice and threw the four seeds away.

It was just as the man said—he couldn't escape King DU's pursuit even with impermanent steps. He didn't understand the essence of it yet, but Lin Yi could feel it.

King DU's movement technique was definitely not a traditional movement technique that existed in this world.

The impermanence steps was already the peak of traditional movement techniques, and King DU's methods had clearly surpassed the traditional understanding. They were already on a completely different level!

"Space ..."

The subtle word came to Lin Yi's mind involuntarily, and he shivered.

Zhang Qiu saw through Lin Yi's confusion and smiled, "Clan leader Lin, you're so smart. King du has indeed taken that step. So, as long as he wants to, as long as you're still in this world, you can't escape his pursuit."

"So, all of this is within your expectations, right?"

Lin Yi thought back to the details-Zhang Qiu's reaction was a little weird.

"Actually, the main purpose of my trip is to form a good relationship with you, Hall Master Lin. I wonder if you're willing to believe me?"

Zhang Qiu said meaningfully.

Lin Yi frowned. It wasn't strange for people to place bets on him after all his previous achievements, but the guy seemed to think that he'd be able to escape today.

Before Lin Yi could figure it out, his vision turned black.

King DU's tall figure suddenly appeared in front of Lin Yi. He raised his hand and slapped down. Lin Yi didn't even have time to think and subconsciously used the five elements extreme Burning Sky.

However, the black flames didn't stop the giant palm at all. It still landed on Lin Yi's body.

Pfft.

Lin Yi disappeared just like the others.

Zhang Qiu looked at this sudden scene and was speechless. "You can't even throw away the seed of the spell? Could the pavilion master have made a mistake? That's impossible!"

With the Hundred Schools of Thought society's influence, there was only one person in the entire retained student area who could make him, the president, address her as Pavilion master. It was one of the most mysterious five Giants, the pavilion master of the pavilion of heavenly secrets.

It was rumored that the pavilion master of the pavilion of heavenly secrets could see the past and the future, and he could predict everything in the world with a single divination. He was an omniscient figure who was close to a God.

He was only trying to get on Lin Yi's good side this time because of the pavilion leader's advice. Who would've thought that things would turn out this way?

"Could it be that the pavilion master can't predict the experts of the same level?"

Zhang Qiu secretly speculated. The only variable could only be King du. After all, he was an expert of the same level, so it was normal for him to not be able to predict all of King DU's actions.

However, all his efforts to get on Lin Yi's good side would go down the drain this way. A man who was sent flying by King du was a dead man through and through.

Not even a corpse would be left behind.

"Wait!"

Zhang Qiu suddenly felt that something was wrong. At the furthest point of his divine sense, he could vaguely sense a few familiar auras.

The President of the Executive Council, Xing Zhang!

The leader of the scavengers, Liu Yun!

The invisible killer ye Zhiwei!

And Lin Yi, who had just been sent flying!

There was even the president of the Three Pure Ones society, Li Yushu, who had clearly died in Ye Zhiwei's hands!

"Could this be an illusion ..."

Zhang Qiu could not help but start to doubt his life. According to his knowledge of King Du, King DU's signature domain was the space domain, and his core ability was to tear space.

Everyone who was hit by his palm was actually banished into space, which was to directly erase their existence in their original world. In theory, unless it was an expert who had also mastered the ability of space, there was no way to deal with this move.

Chapter 9642 Power

No matter how strong one was, as long as they were unable to cross space, they would forever be trapped in the cracks of space, until they died.

Other than that, there was no other way to break it.

However, as far as he knew, there wasn't a second person in the entire Repeat Academy who could control space, let alone the people in front of him. Even the other four of the five Giants couldn't do it!

After being stunned for a moment, Zhang Qiu's expression suddenly changed.

He was shocked to find that his connection with the outside world had been cut off. In other words, he didn't know when this place had become an independent space, an independent secret realm!

Zhang Qiu's domain ability was similar to that of the mysterious Pavilion master of the heaven secret Pavilion, and it was an omniscient domain. Once he reacted, nothing in the surroundings could escape his insight, and he quickly discovered a well-hidden figure.

"Hong Baxian! It's actually him!"

It was true that Hong Baxian was the instigator of this chaotic battle in the eastern area, and everyone was ambitious. However, even Zhang Qiu had not expected that Hong Baxian would be able to scheme to this extent, and play the only King and the other big shots at the peak of the late stage of the consummate level in the palm of his hand!

One had to know that Hong Baxian's ranking of 36th in the top 100 had been personally decided by Zhang Qiu. No matter who saw it, this ranking was already an overestimation of Hong Baxian. After all, he was only at the late stage of the consummate level of a giant!

However, such a person with unremarkable strength had actually become the mastermind behind the scenes at this moment!

More importantly, all the details of the previous intelligence had shown that Hong Baxian was fighting with someone in the palace of Kings. It was impossible for him to get away so easily and suddenly appear here!

"Could it be a substitute?"

As soon as this idea popped up, Zhang Qiu rejected it. With his Hundred Schools of Thought's intelligence gathering ability, if he couldn't even recognize the substitute, then he really should disband as soon as possible.

But if the one from the palace was not a substitute, then who was this one in front of him?

Compared to the shocked Zhang Qiu, Lin Yi was much calmer. It would be a miracle if Hong Baxian didn't show up today. Lin Yi had a rough idea why Hong Baxian was able to do this, combined with the information Zhang Qiu just revealed.

The source of the secret plane.

Before this, Hong Ba had used the blue tile society as an opportunity to collect the source of the secret realm. From Lin Yi's point of view, he didn't understand.

It was true that this thing had a lot of strategic value. If one had enough origin of the secret plane, it meant that they had the home ground advantage in the retained students' territory.

But the bird that takes the lead was shot, and no matter how Lin Yi calculated, there was only one result—collecting so much Origin Energy before he had absolute strength was not worth it.

With Hong Baxian's intelligence, it was impossible for him not to have thought of this, but he still did it.

He couldn't understand it at the time, but now it seemed that everything he did was to complete the current layout. His goal had always been to be the sole King!

"Using the secret realm's origin to fight against King DU's spatial ability ..."

Lin Yi understood this point and couldn't help but be impressed by Hong Baxian's courage. As a Big Shot in the late stage of perfection realm, it was already shocking enough that he had his eyes on du Wang.

The key was that he was not just thinking about it. Such a huge plan had actually been pushed to this stage by his own strength. From the results, it could even be considered a perfect success.

It was Lin Yi's first time seeing someone with such shocking calculations and execution!

However, Lin Yi still had no idea how Hong Ba was going to deal with this. The only thing he could be sure of was that he was the one who fell into Hong BA's trap the most.

If he didn't guess wrong, he had already fallen into the trap the moment he took that perfect fire-elemental domain origin stone!

"I think I know what that guy is trying to do. Do you want to hear it?"

The ghastly thing's voice suddenly sounded in his mind.

"What're you waiting for, old man?" Lin Yi said, curling his lips.

The ghost laughed. "I met a master of curses in my early years. I know a little about curses. Strictly speaking, the power of curses is actually divided into two parts. One is curses, and the other is techniques."

"The so-called curse is the foundation of the power of the curse, which is the seed of the curse in your hands."

"The so-called art is the key to mobilize and use this power. Without this key, no matter how many curse seeds you have, you can't eat them. It's useless to eat them by force, because they don't belong to you, and you can't mobilize them at all."

Lin Yi heard this and his heart jumped, "so if I can't get the key, then all the curse seeds I get will be for nothing?" Then, where is the key?"

"Isn't that obvious?" the demonic thing laughed.

Lin Yi's eyes fell on the huge figure in the distance, lost in thought. "In order to use the curse seed, I have to kill the king himself? Damn, this joke is a little too much. "

In that brief encounter, he could already feel the huge difference in strength between them.

Lin Yi would never lose confidence in front of any enemy, but he felt a sense of powerlessness for the first time in his life facing one of the five Giants.

Even if it was only a King in a state of suspended animation.

"That's why your Pavilion master deliberately arranged this cage fight."

The ghostly thing chuckled, looking as if he was watching a show. Speaking of which, with his experience, it was rare for him to find a scene interesting.

"It's indeed a big move. "

Lin Yi nodded, understanding Hong Baxian's intentions.

Using a large amount of secret realm origin to create an independent secret realm, forming an unbreakable cage. Even with King DU's ability, he could not easily break this independent space with an owner.

In this case, the group of big shots who had snatched the curse seed only had one way to go, and that was to join forces and kill du Wang, making him fake his death and turn it into a real death!

"But even if King du is really dead, how is he going to clean up the mess?"

This was the only question Lin Yi had left. With Hong Baxian's strength at the late stage of the great fulfilment, even if everyone fought with du Wang and both sides were injured, they might not be able to benefit from it, right?

As the cage was formed, Xing Zhang and the others began their Second Battle with King du.

"Motherf * cker! Try to send me flying again if you have the guts!"

Xing Zhang's skin suddenly turned red. He was not afraid of King du at all. He roared and rushed forward, raising his spear and attacking mercilessly.

So fierce!

Lin Yi's eyes twitched. Compared to before, this guy's speed, strength, and rhythm had all increased by at least two levels. His speed was no less than his impermanence steps, and if they were to meet face to face, even he would be crushed to pieces!

Chapter 9643 Power

zhang qiu explained, "leader xing has the berserk domain. all the power within the domain will gather in his body. it will push his physical strength to the extreme. in terms of close combat, he is one of the best in the entire repeat school."

in the blink of an eye, several spears had pierced through king du's face and head.

the scene was shocking.

a normal person would have died long ago if they were stabbed like this. even their primordial spirit would have disappeared. however, king du did not have any strange reaction. instead, he turned around and slapped him.

the punishment palm was sent flying again!

however, this time, with the space barrier of the independent secret realm, his entire body was not banished into the space crack. instead, he was heavily smashed at the edge of the space, which could be considered to have saved his life.

even so, xing zhang still vomited blood and struggled for a long time, unable to get up.

He was lucky that he had not been banished to the space crack, but at the same time, it meant that his body had to bear all the impact. Even with the strength of his body, it would be difficult for him to withstand such a terrifying impact!

After Xing Zhang was sent flying, it was the scavenger Liu Yun's turn.

It was the same slap, but Liu Yun was not sent flying this time. To be more precise, he was sent flying halfway.

The head was gone.

However, even though he had lost his head, he did not fall. He was still fighting with King du.

A five-meter-tall giant and a headless short man who was less than 1.6 meters tall. The scene of the two fighting looked a little comical at first glance. They were not on the same level at all.

However, this unremarkable scavenger leader had managed to hold on and was even fighting with King du!

In just a few breaths, King DU's body was covered with more than a dozen black palm prints, each of which was rotting at a speed visible to the naked eye!

"Corpse Qi domain. As long as the target is hit by his palm, a large amount of corpse Qi will be injected into the target's body, until the target's intestines and stomach are corroded, and then the target will be transformed into an obedient living corpse."

"Clan leader Lin," Zhang Qiu reminded, "if you fight this person, don't let him get close to you. Corpse Qi is not a poison. There's no cure for it."

"Many thanks."

Lin Yi looked at him, surprised. Having a friend with such information wasn't a bad thing, but when he thought about the hundred schools of philosophy and the secret Pavilion behind it, he felt like he'd be sold off for money at any moment.

After all, people who played with information had Dirty Hearts.

After nearly ten seconds of fighting, the headless Liu Yun finally could not hold on any longer. His body was smashed into pieces, and finally, he was trampled into meat paste by King du.

The moment King du stomped his foot, an invisible figure suddenly appeared above King DU's head. The dagger drew a strange stream of light and accurately stabbed into King DU's right eye.

Then, the power that had been condensed to the extreme exploded inside.

Half of King DU's head was blown up on the spot.

What was even more shocking was that ye Zhiwei, who had been appointed as the next King of Assassins by the public, had actually managed to escape unscathed, narrowly avoiding King DU's fatal slap.

"He's a ruthless man. "

Lin Yi's fear of this woman deepened again, and he had a rough idea of the strength of these big shots at the peak of late stage of perfection.

It was hard to say if he was a peak King, but the king in front of them was in a state of suspended animation. He might not be able to withstand their attacks!

Although the tragic King du was still breathing steadily and showed no signs of collapsing, it would be hard to say if another wave of attacks came.

Moreover, Hong Baxian, who had been hiding the most, had yet to make a move.

"But this still didn't hurt King DU's Foundation," Zhang Qiu said."Look."

Lin Yi followed the sound. King du should have been severely injured, if not dead, but it didn't seem to affect him at all.

It was as if the missing half of his head, the string of bloody holes on his head, and the corpse Qi that had corroded his organs were all just illusions.

"It's not too much to overestimate a monster of the five gargantuan levels, even if it's only in a state of suspended animation and moves based on instinct. Its combat power is not even one-tenth of its peak!"

Lin Yi's heart skipped a beat as he heard Zhang Qiu's words. That familiar feeling came back to him.

Lin Yi's reaction was quick as well, but he didn't use his [great burning heavens] again after seeing the giant shadow behind him.

In theory, Lin Yi believed that his black flames could hurt the big shots at the peak of the ultimate realm, but it was an undeniable fact that it was useless against King alone.

Therefore, the best response was not to resist but to Dodge.

He pushed his non-constant steps to its maximum and barely dodged the palm coming from behind him. He then created dozens of domain clones and detonated them around King du.

Annihilation domain.

However, after a series of explosions, King du was unscathed.

"Tsk, I thought you had some ability. You're just a piece of trash."

In the distance, the disheveled Xing Zhang stood up again. At the same time, on the other side, the scavenger Liu Yun, who had been reduced to a pile of meat paste, quickly regenerated his limbs. In the blink of an eye, a complete body was restored from a pile of minced meat.

Lin Yi's eyes twitched. His own recovery ability after the five elements extreme was already amazing, but it was still a far cry from this guy.

This was no longer in the scope of recovery, but a true rebirth after death.

However, Lin Yi wasn't too envious of it. After all, it was obvious that there must be a huge price to pay for such a heaven-defying ability. He could see it from the way he was like a zombie.

At the same time, a woman's slightly hoarse voice came from the other side of the air. "Hey, your strength shouldn't be limited to this. He already has his eyes on you. If you don't get serious, you'll die."

Lin Yi blinked-it was the assassin, ye Zhiwei.

King DU's next move confirmed what she said. Everyone started to attack him again, but King du only had one target-Lin Yi.

"It seems like you've offended King du a lot, you piece of trash?"

The two reacted and were extremely puzzled.

Under normal circumstances, King du should be after their curse seeds, but Lin Yi had the least of them all. Any one of them was more hated than Lin Yi, especially ye Zhiwei, who had nineteen curse seeds!

However, King du was only chasing Lin Yi. He ignored the others in front of him.

However, this also gave Xing Zhang and the others an excellent opportunity to deal damage. Although there was no discussion between them, the natural tacit understanding between experts was enough to make them a perfect hunting team.

Chapter 9644 Power

Lin Yi was the bait, the other three were the Hunter, and the king was the prey.

In the blink of an eye, King du had dozens more wounds on his body. If it was an ordinary person, each wound would definitely be fatal. However, King du, who had faked his death, was still able to move freely and was not affected at all.

It seemed that the powerful attacks of the three big shots, who were at the peak of the late stage of the consummate level, were all ineffective. This was the only flaw of this hunting team.

"As long as you can't break King DU's spatial ability, all of your attacks will be transferred to other spaces and won't be able to land on King du. Everything is just a facade!"

Zhang Qiu had hit the nail on the head.

Everyone frowned. The reason why du Wang was almost invincible was that his spatial ability was too overbearing, and it was almost impossible to counter.

Using a vast amount of secret realm origins to temporarily create an independent secret realm, using it to form a spatial cage, to a certain extent, it restricted King DU's spatial moves. This was already the limit.

And this was all done by Hong Baxian.

"Actually, it's not that hard to crack."

Li Yushu's bewitching voice sounded in everyone's head. Lin Yi and the others turned around subconsciously to find the old man standing in front of them as if nothing had happened.

Could the tragic scene just now have been an illusion?

Lin Yi rejected the idea as soon as it appeared. With his own essence spirit and control of his consciousness, it was impossible for him to fall into an illusion without him realizing it unless his essence spirit was at the peak of the giant's realm.

At the very least, Li Yushu definitely couldn't do it.

Then there was only one possibility left. The tragic scene from before should have been real, but it was reversed by his bewitching ability.

"As long as you can deceive yourself, the bewitchment ability is invincible."

The ghost in his sea of consciousness gave an interesting evaluation.

Lin Yi nodded, "it's a great skill if used properly, but I don't know how effective it will be against King DU's spatial ability."

This question appeared in everyone's mind at the same time.

Li Yushu chuckled. "My bewitchment can cause all harm to fall on his body. Of course, there's a price to pay."

As he spoke, the old man stretched out ten fingers. "Not many, just ten curse seeds. You guys can decide on your own."

As soon as he finished speaking, eight spell seeds flew toward him.

Xing Zhang and Liu Yun looked at each other and threw out one each. In this way, they had exactly ten.

"Straightforward!"

Li Yushu swiftly kept the ten spell seeds into his bag. Without any delay, he activated his bewitching domain to the extreme. With a solemn expression, he said, "I'm the one chosen by heaven, and my words are law!"

As soon as he finished speaking, the bewitching power completely enveloped King du.

King du, who had not made a single sound since the coffin was broken, finally let out an unprecedented roar of pain. Dozens of fatal injuries on his body acted up at the same time. Blood splattered out of his huge body, and he fell to the ground.

Looking at the fallen king, Lin Yi and the others couldn't help but feel like everything was unreal.

Although they had not fought for a long time, the pressure that King du gave them was unprecedented, and it was absolutely suffocating!

If it wasn't for Hong BA's plan behind the scenes, everyone would have been annihilated from the start and wouldn't have been able to hold on until now.

"Alright, the biggest problem has been solved. All that's left is to go back to your own homes. As for who will fill the gaps in the five Giants 'positions, it will depend on your luck."

Li Yushu waved his sleeve nonchalantly and tried to escape.

His bewitchment seemed to be heaven-defying, but his previous performance in the face of ye Zhiwei's assassination had already shown that it was not necessarily so overbearing. Once the pace of attack and defense reached a certain level, his so-called "command of the law" would be full of loopholes.

So if there was a chaotic battle, he would most likely be the first to die.

However, before li Yushu could calmly turn around, a dagger had pierced through his head.

Lin Yi's eyes twitched as he looked at ye Zhiwei. "She's really a straightforward woman. "

She was the one who had agreed to li Yushu's conditions without a second thought. Now, she was the one who had killed him without a second thought. This was the self-cultivation of a true killer.

However, Li Yushu wasn't someone to be trifled with. Having learned from his previous experience, he had clearly taken precautions against this. Under the influence of the bewitching power, this fatal blow that had already taken effect directly missed, and he narrowly escaped death.

Until Xing Zhang and Liu Yun also came over with bad intentions, the situation suddenly became extremely dangerous.

No matter how mysterious his bewitchment ability was, it could not withstand the joint efforts of three people!

Lin Yi looked on coldly, not interested in criticizing these people for being short-sighted. They couldn't use the curse seed at all, but he had a bad feeling about it.

Unfortunately, these people were all very shrewd, so how could they really give him the chance to stay out of it?

With Xing Zhang's unreasonable spear, Lin Yi had no choice but to join the battle no matter how unwilling he was. The only one who could stand on the sidelines and watch was Zhang Qiu.

After all, his strength was limited. He wasn't very powerful even among big shots at the late stage of the consummate level. It was very difficult for him to pose a real threat to the people present.

Secondly, it was the tradition of the Hundred Schools of Thought to watch from the sidelines. To a certain extent, it had become a publicly acknowledged rule in the retained students' compound. Generally speaking, no one would take the initiative to find trouble.

Pa, pa, PA.

A wave of applause sounded, interrupting the crowd's chaotic battle. Hong Baxian's mocking voice was heard, "It's quite lively, but don't you think it's a little too early to start killing each other so early?"

Everyone's movements stopped.

Lin Yi wasn't the only one surprised by Hong Baxian's appearance-the others weren't surprised either. There were many details that they might not be able to see through, but it'd be underestimating their intelligence if they couldn't figure out the mastermind behind the cage fight.

Hearing this, Xing Zhang sneered. "Your Overlord Pavilion is really interesting. Each one of you is more useless than the other, and each one of you is more arrogant than the other. It's indeed interesting that you deliberately created such a scene. But I'm really curious. You're just a Big Shot at the late stage of the consummate level. Where do you get the confidence to be a fisherman?"

"A fisherman?"

Hong Ba laughed first, looking at Lin Yi with deep meaning, "No, no, no. Don't misunderstand me, leader Xing. I've never been a fisherman, and you don't have the ability to fight with King du. At most, you're just a few pawns I'm using to exhaust King du."

As soon as these words came out, the entire place was in an uproar.

Lin Yi was shocked as well-he wasn't targeting anyone, and everyone here was trash!

Chapter 9645 Power

Hong Baxian was indeed a domineering man, but he had never thought that he would be this domineering. The people in front of him were all powerful figures below the five Giants. Even if the entire Overlord's Pavilion were to go against any one of them, they would not be able to gain the upper hand, let alone one against four!

However, before everyone could get angry, the situation changed.

King du, who had been seriously injured and killed by everyone and had theoretically gone from a fake death to a real death, actually stood up again.

"He also has an undying body?"

The usually quiet Liu Yun exclaimed for the first time. He had never seen Lin Yi turn the tables, but even if he did, it would be hard for him to gain the upper hand in this situation, let alone stand up again in such a short time!

Everyone was once again enveloped in despair.

"Is the situation out of control?"

Lin Yi couldn't help but take another look at Hong Baxian. No matter what he was planning behind the scenes, the king was still a problem he couldn't get around. As long as the king didn't fall, all his plans were useless.

Lin Yi didn't have much time to think about it as the king stood up again.

The four spell seeds that had been stored in the jade pendant had suddenly disappeared!

It wasn't just Lin Yi-the others were shocked as well. It was obvious that they'd all been through the same thing.

Then, thirty-six curse seeds appeared in front of King du, not a single one missing!

"It's returned to its original owner ..."

Zhang Qiu, who was watching coldly from the side, muttered to himself. Then, King du opened his mouth and swallowed all 36 curse seeds in front of everyone!

At the same time, his aura, which was already dispirited, began to rise wildly. In the blink of an eye, it rose to its initial level and then continued to rise without stopping.

Three times!

Five times!

Ten times!

Lin Yi and the others' hearts sank as they watched King DU's aura grow ten times stronger. How were they supposed to fight him?

Hong Baxian's voice was heard. "King du hasn't woken up yet. If we wait until he wakes up, we will all die."

Li Yushu laughed coldly. "Pavilion master Hong, you're good at scheming. You want us to be cannon fodder so brazenly. Do you really think we'll be so easy to negotiate with?"

Hong Ba laughed first. "If the sky falls, the taller ones will hold it up. After all, I'm weak. If you guys don't go up, who will?"

"I'm weak and I have a reason? Hmph, it's indeed the logic of trash. "

Xing Zhang raised his hand and threw a string of Spears. Although there was no reason to put the blame on others in this situation, anyone would be unhappy if such a villain took an inch and wanted a mile, not to mention he had a bad temper!

However, the group of flying Spears he threw with all his strength were easily dodged by Hong Baxian, who didn't even touch the corner of his clothes.

"What a terrifying spear."

hong baxian laughed and glanced at king du in the distance, ""i'll give you a piece of advice. when king du fully recovers his strength, he will wake up. you have to think carefully."

everyone's eyelids twitched.

in fact, he didn't even need to remind him. king du had already arrived behind lin yi in the next second, and with a palm strike, the space shattered!

lin yi didn't even have the time to make a sound before his body shattered along with the space. one could see his body healing itself, but it couldn't keep up with the speed of his body shattering.

the crowd was dead silent as they watched lin yi turn into powder.

even if he had an immortal body, it would be useless to die like this.

not only the crowd, but even hong baxian was surprised. in his plan, lin yi was going to be of great use. although he was going to die eventually, it wasn't the time yet!

hong baxian was a little angry that his plan had failed, but he suppressed it in the end.

lin yi was important in his plan, but it wasn't as if he didn't have any backup plans. it was just that compared to lin yi, this backup plan was a lot more difficult to implement, and there were a lot more variables!

after killing lin yi, king du turned to xing zhang and the others.

as for hong baxian and zhang qiu, who were watching the battle from the side, they had never become targets.

the reason was obvious. the two of them had never been infected with the seed of a curse. compared to xing zhang and the others, the two of them did not attract any hatred from the feigned death king.

as such, even if they were extremely unhappy, xing zhang and the others could only follow hong baxian's wishes and fight to the death with king du!

if king du didn't die, they would die!

"everyone, you must cooperate with sincerity. otherwise, you won't be able to stop king du."

hong baxian said a few sarcastic words from time to time to provoke the anger of the crowd. these people were strong opponents of the overlord's pavilion, and they had many grudges with each other.

Even if he didn't get anything this time, just the four of them being wiped out would be a huge gain for Hong Baxian.

However, the ambitious Hong Baxian obviously wouldn't take this to heart. In the end, these were just pawns he used to exhaust the king. He really didn't care if the pawns were dead or not.

Even though these chess pieces were obviously much stronger than him in terms of cultivation and strength!

"I'll kill you sooner or later!"

Xing Zhang roared in anger, but he could only shout. Facing King du, who was ten times stronger than before, the four of them couldn't suppress him even if they worked together. They were on the verge of death at any time.

However, the four of them were all troublesome characters who had been famous for a long time. No matter how strong the king was, it wouldn't be that easy to kill them instantly like how he killed Lin Yi.

"President Zhang, you seem to be paying a lot of attention to Lin Yi?"

Hong Baxian suddenly started to chat with Zhang Qiu.

Zhang Qiu was slightly taken aback, and the corners of his mouth twitched. "Is it that obvious? Nothing can escape Pavilion master Hong's eyes. "

"If I'm not wrong, it should be the instruction of the pavilion of heavenly secrets, right?" Hong Ba said with a hint of interest.

Zhang Qiu was shocked again, and he was secretly on guard. ""You must be joking, Pavilion master Hong. The Hundred Schools of Thought is the Hundred Schools of Thought, and the secret Pavilion is the secret Pavilion. I'm only following Lin Yi out of personal interest. After all, it's rare to see someone with such a legendary experience. If he doesn't die this time, he'll be able to claim a place in the entire Jianghai Academy in the future."

"Is that so?"

"So Lin Yi died too early. I've heard that you're close to the secret Pavilion. I wonder what they think of me?" Hong Baxian didn't deny it.

"....."

Zhang Qiu was stunned. He had been in charge of the Hundred Schools of Thought for so many years, but this was the first time he had encountered such a problem.

Hong Baxian didn't expect him to answer. Seeing him frown and remain silent, he said, "Fine. After this matter is over, I'll personally go to the pavilion of heavenly secrets and ask."

After he finished speaking, he walked straight to the center of the battlefield.

Chapter 9646 Power

zhang qiu looked at his back in shock. the meaning of his words was that hong baxian not only had the confidence to survive today, but he was also confident that his strength would rise to the heavens in a single bound, reaching a level where he could stand shoulder to shoulder with the five giants!

if he didn't do this, he wouldn't have been able to enter the pavilion of heavenly secrets, much less have the right to ask questions.

where did this guy's confidence come from?

zhang qiu had seen many people, and he had seen many arrogant people, but he had never seen anyone like hong baxian.

it was the right decision to come here. zhang qiu was excited. he had a strong premonition that there would be a huge change in the repeat students 'structure today!

at this moment, the battle was getting more and more intense.

the scavenger liu yun, who had an undying body, was a natural meat shield. the violent palm strike was a perfect frontal attack. in addition, there was the hidden killer ye zhiwei, who could give a fatal blow at any time, and li yushu's bewitching support.

once the four of them worked together seriously, especially after they revealed their trump cards without holding back, the combat power of the team had completely exceeded the imagination of ordinary people. even the top powerhouses below the five giants would not be able to withstand a single blow.

Unfortunately, they were facing the five Giants.

Even if the five Giants faked their deaths, they were still the five Giants.

As he died and came back to life again and again, even Liu Yun's corpse Qi domain had gradually reached its limit. At this time, the only King was serious.

The space shattered as the palm slammed down-it was the same as when Lin Yi was killed.

Liu Yun was reduced to dust in an instant.

In theory, even if it was only the size of a speck of dust, he could still be resurrected, but not this time.

This was because the space he was in had been cursed. After it shattered, it could not be restored. Even though Liu Yun's flesh and blood were still trying to be resurrected, they were forever limited to the minute fragments of space and could not succeed at all.

"Space ... Curse ..."

When Zhang Qiu saw this, he was shocked. The space Killing Curse was King DU's signature move. Since he could use this move, it meant that King du was not far from awakening.

In fact, there was no need for King du to wake up. King du alone could solve everything.

Like the first falling Domino, the collapse of the scavenger Liu Yun started the process of the four-man team being wiped out, followed by li Yushu.

His bewitchment was the root of all damage to King du. Naturally, he was the greatest threat to King du. Without Liu Yun's restraint, his bewitchment could not keep up with King DU's attack rhythm.

In the blink of an eye, li Yushu followed in Liu Yun's footsteps, his body falling apart in the shattered space.

Next up was the punishment palm.

"One by one, they all died miserably. Unfortunately, they were all useless. They couldn't even consume any energy. What a disappointment."

Hong Baxian's mocking voice was heard again. He looked at Xing Zhang suspiciously, ""Leader Xing, I have very high expectations of you. It can't be that you're useless, right?"

"What did you just say?"

This ridicule completely ignited Xing Zhang's anger. After the berserk domain expanded crazily, it shrank rapidly and finally condensed into his body. Then, his body rapidly enlarged as if it was inflated.

Then, it turned into a berserk giant that was as big as the king!

"Wufu, ultimate berserk, huh? that's interesting."

Hong Baxian nodded. Xing Zhang's current state was not filled with air, but the materialization of violent power that had been compressed to the extreme. Every part of his body that was strengthened contained endless power!

With just one punch, King du was sent flying.

This scene was enough to shock everyone. Ever since King du became famous, especially after he advanced to the giant five, it was rare for anyone to be able to withstand even one strike from him. As for being sent flying, it was simply unimaginable.

If it was anyone else, they would have been blown up into pieces!

"The so-called five Giants are nothing more than this."

Xing Zhang glanced at du Wang, then turned to Hong Baxian with a spear in his hand. "I've tolerated you for a long time. I'll kill you now!"

Even Hong Baxian, who had been planning this for years and simulated the situation countless times, couldn't help but narrow his eyes and tremble.

However, it was only a trace.

Looking at the spear that was within reach, Hong Ba laughed. "Sure, come and kill me."

As he spoke, he didn't Dodge or evade. Instead, he met the attack head on, brushing past the long Spears. He actually used his fist to meet the attack, forcefully withstanding the violent form of the punishment palm!

"How is that possible?"

Even the experienced and knowledgeable Zhang Qiu was dumbfounded. It was only at this moment that he finally reacted. In that instant, Hong Baxian had actually risen from the late stage of the consummate level to the peak of the late stage of the consummate level!

It wasn't strange to break through during a battle.

However, from the beginning to the end, there were no signs at all. If it wasn't for his professional habit of paying attention to every detail, he might not have noticed it at all. This really shocked Zhang Qiu.

This could only mean one thing-Hong Baxian had been suppressing his cultivation level for a long time. The depth of his Foundation had already completely surpassed that of an ordinary expert at the peak of the late stage of the consummate level. Only in this way could he achieve a breakthrough without making a sound.

Everything that had been displayed before his eyes was probably far from his true strength. It was only the tip of the iceberg!

However, this tip of the iceberg had blocked the punishment palm.

In fact, the punishment palm was at a disadvantage!

"The Dragon elephant domain is this strong?"

Zhang Qiu naturally knew about Hong Baxian's detailed information. The Dragon elephant domain was indeed a first-class firm and fierce domain. It was absolutely firm and fierce, but it was still beyond his expectations to be able to fight against the ultimate berserk Xing palm to this extent!

"A mere Dragon elephant wants to stop me?"

Xing Zhang was so angry that he laughed instead. He immediately increased the level of his rage, which had already reached its limit, and continuously broke through the limit. This was the most domineering characteristic of the rage domain.

In theory, there was an infinite upper limit for growth!

However, before he could defeat Hong Baxian, King DU's figure suddenly appeared behind him, and then a familiar slap that he could not Dodge.

Space Killing Curse.

"A chess piece is just a chess piece, it's not of much use."

Hong Baxian looked at the shattered body of Xing Zhang and sighed helplessly.

The situation was still going according to his script, but there were a lot of accidents. Lin Yi's death was one, and the others were using up King's energy.

In the end, he was still not strong enough.

However, the chess pieces had not been used up. There was still one intact, the invisible killer ye Zhiwei.

Ever since the situation had turned bad, ye Zhiwei had completely concealed his traces and aura. His technique was extremely brilliant. Even a high-level spiritual awareness could not detect him. This was what it meant to disappear without a trace.

If she were to steel her heart and not make a move, no one would be able to find her.

Chapter 9647

Seeing Hong Baxian's gaze sweep towards him, Zhang Qiu, who was a bystander, suddenly had an extremely bad premonition. Everyone knew of his relationship with the pavilion of heavenly secrets, and the Hundred Schools of Thought society had never directly participated in the fight for benefits. Their status was rather aloof, and normally, no one would be so stupid as to make a move on him.

However, Hong Baxian did not look like a normal person at all.

Would a normal person so brazenly target the five Giants?

Would an ordinary person treat a group of famous big shots at the peak of the late stage of the consummate level as chess pieces, or even waste chess pieces to be used for consumption?

"I'm sorry, President Zhang. I didn't want to trouble you, but now that things have come to this, I can only let you help me out. You've been through a lot!"

Hong Baxian was about to strike after he finished speaking. Zhang Qiu was shocked and quickly shouted, ""I have an idea! I have an idea!"

Without waiting for Hong Baxian to speak again, Zhang Qiu decisively activated his domain. The domain's range was so wide that it directly covered the entire space, and the entire place was filled with interconnected nodes, densely packed like a huge net.

Omniscient domain.

His domain did not have any killing or other auxiliary effects. It only had one function, which was detection.

The nodes emitted a circle of ripples that were visible to the naked eye. These ripples were neither true Qi nor divine sense, but the natural fluctuations of all things in the world. Unless someone specifically worked hard to deal with this, any other concealment means would be ineffective.

Sure enough, ye Zhiwei, who originally had no blind spots, could be seen clearly in the layers of ripples. His human outline was clear and could no longer be hidden.

Hong Baxian laughed and clapped. "President Zhang, you're good. I'm impressed."

He liked smart people like this.

Zhang Qiu was speechless.

Originally, a true gentleman who didn't speak while watching chess, no one would find trouble with him. However, in this way, he had offended ye Zhiwei to the core. If ye Zhiwei didn't die today, his future days would be difficult.

Even if his omniscient domain was the natural nemesis of his opponent, he was still on tenterhooks after being targeted by the acknowledged King of Assassins of the next generation.

There was no need for Hong Ba to make the first move. King du, who had stood up again, took the initiative to find ye Zhi.

Without the trump card of absolute concealment, ye Zhiwei's combat power was reduced by at least 50%. Now that she was facing King du, who was ten times stronger than before, it was easy to imagine her fate.

She had only tried to deal with him once, but she was already on the verge of death.

However, at the last moment before King du used the space curse, she suddenly made a very strange choice.

She used all her strength to stab him, but her dagger did not land on King DU's body. Instead, it landed on a strange empty space beside him.

Pa!

Along with a series of strange cracking sounds, it was as if a mirror had been shattered in the air, and even the veil of the entire space had been torn off.

Then, a familiar figure entered everyone's sight.

Lin Yi.

Everyone was stunned.

Even Hong Baxian couldn't believe his eyes. He was in disbelief. "You're not dead yet?"

Even Zhang Qiu couldn't believe it. With his omniscient field, he could see things much more clearly than anyone else. He saw Lin Yi being cursed to death by the space curse, every detail, every piece of flesh and blood in the space fragments. How could he still be alive?

Don't forget, even the scavenger Liu Yun, who had an immortal body, could not do it.

Lin Yi shrugged helplessly. "Yeah, why am I not dead yet?"

"An illusion? You're actually also an illusion expert!"

Hong Baxian reacted quickly. The only explanation for this was that everyone, including him, Zhang Qiu, and the fake King, had fallen into Lin Yi's illusion.

Everything he saw about Lin Yi's death was just an illusion!

Hong Baxian admitted that no one in the repeat school knew Lin Yi better than him, not even Zhang Qiu's Hundred Schools of Thought. After all, Lin Yi was the most important chess piece in his plan.

From the strength system to the specific moves, from his life experience to his habits, he had done a lot of homework on all aspects.

He was confident that no one knew Lin Yi better than he did—in fact, he knew Lin Yi better than himself!

And in all the information he had, there was no mention of illusions. Although Lin Yi's essence spirit was strong and had a unique Foundation in illusions, he had never used this ability since he came to Jianghai city.

Even if there were some moves that could also deceive the opponent, they were not illusions.

Most importantly, the cultivation of illusionary techniques was completely different from other paths. As long as one practiced it, it was impossible to not leave any traces!

But he didn 't.

"Pavilion master is wise, you even discovered this."

Lin Yi chuckled.

This was the truth. Although he was not completely clueless about illusion techniques, he really didn't know how to use such a high-level illusion technique that was so complete that it could even fool this group of strong people. Until the perfect five elements domain was formed, until he practiced the five elements to the extreme.

It was the heavenly mirror, the ultimate form of the five elements.

The wood element had reverse, the fire element had great burning heavens, and the water element's ultimate move was the sky Mirror.

Strictly speaking, the compatibility between water and illusion wasn't particularly high. Most of the grandmasters in illusion were fog-type experts.

However, it was also because of this that any cultivator with a little bit of cultivation would be particularly careful when facing a fog-type expert. The mainstream methods of breaking illusions were also aimed at the fog-type, and there were not many methods specifically aimed at Water-type illusions.

As for those who had reached the level of the ultimate transformation of the five elements, there were very few, or even none.

The only exception was ye Zhiwei.

Even Zhang Qiu's omniscient area couldn't detect it, and it only failed on this assassin. Lin Yi was helpless.

"I've heard that every generation of King of Assassins will receive a special baptism of assassins before they succeed the throne, including the dusty heart, which is said to be able to break all illusions in the world. It seems that it is indeed worthy of its reputation."

Lin Yi was surprised by Zhang Qiu's explanation-it wasn't just a friendly gesture, it was also a huge offense to ye Zhiwei.

Did the pavilion of heavenly secrets really think so highly of him?

Lin Yi looked at him meaningfully. If ye Zhiwei didn't mess things up, they would've been able to benefit from the situation today, but now that they were forced to show themselves, the problem was big.

Not to mention Hong Baxian, who was eyeing them covetously, just the du King alone was not easy to get past!

As expected, King du didn't even care about ye Zhiwei, who had already revealed himself, and went straight for Lin Yi.

"Lin Yi, I have high hopes for you, Don't Let Me Down."

Hong Baxian said indifferently from the side, and at the same time, he glanced at ye Zhiwei.

He really should thank ye Zhiwei for putting his plan back on the perfect track. If he let Lin Yi continue to hide, it would be a huge unknown who would win in the end!

Chapter 9648 Power

"Oh, really? I'll try my best. "

Lin Yi didn't know what to do. The sky Mirror was a top tier illusionist, but no matter how strong it was, it couldn't make people fall for it again in a short time, especially when it was a group of strong people.

In other words, no matter how unwilling Lin Yi was, he had to fight King du to the death in front of Hong Baxian!

But even if it was a pain in the ass, Lin Yi didn't have the habit of cowering when things came to a head. Since he had no choice, he might as well just throw his arms out and do it-who knew, he might be able to make a difference!

Lin Yi's perfect Five Element domain spun and turned into the earth element before King du could use the space curse again.

A Golden Buddha more than 100 feet tall rose from the ground, instantly surpassing King du.

Five elements extreme, earth element Titan Buddha.

The Big Buddha struck down with his palm, which collided with King DU's space curse. The space shook and shattered, as if the world was about to collapse!

They were equally matched.

Hong Baxian's eyes twitched. He didn't expect Lin Yi to grow to such a terrifying level in such a short time!

According to his previous estimation, no matter how great Lin Yi's potential was, even if he had a perfect Five Element domain, his combat power would only be on the same level as those big shots at the peak of late stage of perfection. He couldn't be stronger.

After all, no matter how one looked at it, a mere powerhouse at the peak of the early stage of the consummate level being able to cross Four Realms was already heaven-defying among heaven-defying!

However, everything in front of him completely subverted his understanding.

Although Xing Zhang had also sent King du flying with one punch, and it seemed like the impact was much stronger than Lin Yi 's, anyone with eyes knew that that state couldn't last long. It could only be used in an instant, and King du wouldn't even need to fight back-he would collapse.

But Lin Yi, the Titan Buddha, was different.

That posture of being as steady as Mount Tai could not be faked at all. The key was not only the unparalleled power, but the Holy aura emitted by the Big Buddha's body actually faintly suppressed the shattering of the space.

Otherwise, no matter how strong he was, he couldn't withstand King DU's space curse!

Bang! Bang! Bang! Bang! Bang! Bang!

The situation that followed directly evolved into a full-on collision between the Titan Buddha and the feigned death lone king. The extreme power brought about an extreme impact that made people's blood boil instinctively.

"How F * cking overbearing!" Zhang Qiu muttered.

Only now did he understand why the pavilion valued Lin Yi so much, even sending him out to befriend him. As long as he didn't die, there was no limit to his potential!

But even so, they didn't think that Lin Yi would be able to suppress King du in a head-on fight. Being able to form a stalemate for a short period of time was already the limit of what ordinary people could imagine.

And then, Lin Yi changed everyone's perception of him once again.

In the time for ten breaths, not only did he completely withstand King DU's head-on attack, but he also formed a stable suppression, until he finally stepped on King du!

Hong Ba was first shocked, Zhang Qiu was shocked, and even the killer ye Zhiwei, who could not hide his figure, was shocked.

Was this still Lin Yi?

If it was before, Hong Baxian still had an absolute psychological advantage when facing Lin Yi. He was confident enough to hold Lin Yi in his hands, but this time, he was a little shaken.

Hong Baxian hadn't revealed his full strength yet, but even if he wanted to suppress King du face to face, especially like Lin Yi, who was stepping on him, it wasn't impossible, but it was as hard as ascending to the heavens.

If not for that, he would not have needed to deliberately arrange a bunch of chess pieces to exhaust the king.

When the Titan Buddha's majestic gaze swept over from above, Hong Baxian subconsciously turned his head, not daring to look him in the eye for a moment!

Lin Yi raised his hand slowly, and the Buddha Palm shone with layers of golden light as he slammed it down on King DU's face.

BOOM!

King du was directly pressed into the ground, which was dozens of feet deep, leaving a huge black human-shaped hole.

It was dead silence again.

"King du wouldn't have been killed, right?"

This thought appeared in everyone's mind at the same time. If it was before, the thought of King du dying at the hands of a mere Big Shot at the peak of the early stage of the consummate level would not even appear in their minds. They would only laugh their heads off.

However, this scene was about to become a solid reality.

Hong Baxian's face was extremely ugly. In his plan, du Wang had to die, but he had to die in his hands. Otherwise, everything he did before would be for naught. How could he let him die in Lin Yi's hands?

taking ten thousand steps back, if king du really died like this, could he stop lin yi from coming after him?

just as everyone was in shock, ye zhiwei seemed to have sensed something. he retreated frantically at the first moment and forced himself to the edge of the secret realm. he tried his best to hide all his aura and erase all traces of his existence.

then, zhang qiu, who had the omniscient domain, had a look of disbelief on his face. "king du ... is awake?"

at this moment, a stream of light flashed across king du's pitch-black eyes.

then, he slowly stood up, and his aura, which had just been dispirited, began to rise again. the increase was even more exaggerated than when he had just swallowed the curse seed. in the blink of an eye, it had soared to more than a hundred times!

even in his titan buddha form, lin yi couldn't help but feel powerless.

lin yi was already at his limit in close combat. he wouldn't be able to handle the king even if it went from ten to twenty times, let alone a hundred times.

the other party was simply a bottomless pit of strength. with just a slight touch, the gap between them would immediately widen to a point of despair!

Hong Baxian's expression was also uncertain.

All of his plans for King du had to be based on one premise, which was that King du had to fake his death and not allow him to wake up.

Once King du awakens and recovers his true strength, everything he set up would be a joke, a stupid joke that overestimated his own strength!

Only the five Giants could defeat the five Giants. This was an irrefutable truth in the repeat Academy.

Surprisingly, although King du showed signs of waking up, he did not rush up from the bottom immediately. Instead, he stood quietly in his original position. His body continued to gather mysterious power, as if he was being shackled by layers of mysterious shackles.

These shackles were extremely powerful, but they did not feel secure. On the contrary, they were restless, as if they would break at any time.

"This is ..."

Zhang Qiu was stunned for a moment and subconsciously exclaimed, ""A sign of a breakthrough!"

At King DU's realm, he was already standing at the peak of the Almighty's "great circle. Once he successfully broke through, it would definitely be a world-shaking event. It would be enough to instantly break the structure of the entire repeat Academy.

Chapter 9649 Power

Therefore, no one was willing to see such a thing happen. Even the other five Giants would personally take part in it. In fact, the current situation had developed because of Hong BA's careful planning, but more importantly, it was also because the other five Giants were adding fuel to the fire behind the scenes.

For example, the pavilion of heavenly secrets.

He must not be allowed to succeed!

This thought appeared in everyone's mind at the same time. Everyone knew that it was not easy for King du to break through, even if he was at his peak, let alone in this situation. But what if?

"Still not making a move?"

Hong Baxian let out a furious roar and took the lead to rush into the deep pit. In an instant, Dragons and elephants roared together, and the ground rumbled continuously. The entire land was on the verge of collapse.

Lin Yi, in his Titan Buddha form, didn't hesitate at all and followed up with a powerful attack.

It was true that following Hong Baxian's wishes wasn't a good thing, but choosing the lesser of two evils- if King du really did break through, then Lin Yi and everyone here would become ants through and through- no one would be able to decide their own fate.

"Fine, fine, I can't stay out of it after all."

Zhang Qiu sighed. Although he didn't attack du King directly, he still used his omniscient domain to support the two, constantly sending every small flaw of du King to Hong Baxian and Lin Yi.

In this way, the efficiency of the two's attacks directly doubled!

Only ye Zhiwei, the next King of Assassins, seemed to be determined to disappear. From the beginning to the end, he had been hiding in a corner without any movement.

Under the fierce attacks of the two, the mysterious shackles around King DU's body began to shake until they broke on the spot.

Of course, even without the two's attacks, these shackles would have shattered on their own.

But those were two completely different concepts.

"Break and then build, this is the usual practice of the self-pity curse. You must fight for time with King du and try to break these shackles before he breaks them himself. The more shackles you break, the lower the chance of him breaking through successfully!"

Zhang Qiu was obviously going all out.

As the president of the hundred school of thought society, it was unwise to offend one of the five Giants like the unique King. However, he had the secret Pavilion behind him. In terms of who among the repeaters didn't want the unique King to break through, the secret Pavilion was definitely one of the top.

15 minutes later.

The mysterious shackles around King du were finally broken. Hong Baxian and Lin Yi used their full strength, but they only broke 40% of them. The remaining 60% was all broken by King du himself.

As King DU's aura calmed down, Lin Yi's heart was in his throat.

Lin Yi's instinct told him that the king was awake.

"You guys ... Are ruining my plans?"

King DU's voice was extremely choppy, like two pieces of metal rubbing against each other. It hurt people's eardrums and made their hair stand on end.

Even if his strength was no different from before, one was awake while the other was in a feigned death. If they were to fight, the difference would definitely be like heaven and earth. Moreover, the strength of the aura around his body was a hundred times stronger than before!

The time to decide life and death had arrived!

Lin Yi and Hong Baxian displayed an unprecedented tacit understanding at this time. They didn't hold back any strength and attacked with full force.

At this time, King DU's consciousness had just woken up, and he was still stuck at the critical moment of his breakthrough. He should not be able to exert his full strength for a while, but it would not be long.

Once he fully recovered, even if he did not break through successfully, he would not be a match for the two of them.

Life or death, it was on this line!

The Titan Buddha's hand glowed with golden light, and the other hand was covered in black flames. It was the fire element great burning heavens, which was also the ultimate transformation of the five elements!

The two palms struck down at the same time. Even King du couldn't withstand it and spat out a mouthful of black blood.

At the same time, Hong Baxian charged forward and shattered King DU's realm protection. He pressed his palm on King DU's head with the force of a million Dragons and elephants. However, the tragic scene of his head exploding was not expected. Instead, it was frozen.

In an instant, it was as if the entire world had frozen.

Lin Yi felt something was wrong.

Zhang Qiu's divine sense voice transmission verified his guess."Hong Baxian seems to have other plans. He doesn't want to kill King du, but instead, he wants to take the opportunity to plunder King DU's power! He's hiding his plunder domain!"

The nature of the predatory realm was similar to Wei baizhan's Blacktide realm. Both of them could seize other people's territories for their own use. However, because of the metal and water-elemental compound domain, the advantage of the predatory realm was far greater than the Blacktide realm.

Because not only could it steal other people's domain, it could also steal other people's cultivation!

King DU's unique space domain was tempting, but it was still far from the terrifying cultivation of the five Giants.

If he only seized the spatial domain, Hong Baxian's strength would definitely soar. However, no matter how strong he was, he was still only a Big Shot at the peak of the late stage of the consummate level. The number one person below the five Giants was the ceiling he couldn't break through.

However, if he devoured all of King DU's cultivation, he would be able to directly rise to the top five and replace King du as one of the most important people in the repeat Academy!

"Will it be that easy?"

Lin Yi still felt that something wasn't right. Hong Ba had hidden his plunder domain, which was obviously prepared for King du, but how could he have plundered King so easily?

Even if he had just been severely injured, King du should not be this weak, right?

However, the strange thing was that even though King du had started to wake up, there was an invisible force that suppressed his awakening process, forcing him to enter a state of suspended animation.

Lin Yi didn't know who was behind this.

However, the number of people with this ability in the entire repeat school could be counted on one hand, so it wasn't hard to guess.

In this way, King du had completely lost the ability to resist Hong Baxian's plundering and could only let him take whatever he wanted!

In the blink of an eye, King DU's vast and terrifying aura began to weaken again. In its place, Hong Baxian's aura began to rise wildly. It rose at an astonishing speed, even far exceeding the growth of King DU's original body.

After all, with King DU's size, even a little bit of it could turn the people under him upside down, let alone Hong Baxian who was going all out to plunder!

If one were to compare daily cultivation to work, then what Hong Baxian was doing right now was to directly pry open the vault of a bank.

Without any special encounters, an ordinary person's lifetime of work would not be worth a single hair from nine oxen!

It had to be interrupted!

Lin Yi's reaction was also extremely fast, and he slapped at Hong Ba without hesitation.

The situation had developed to this point, and there was no room for any other options. Only one out of the three of them could survive today.

As the palm slammed down, the world changed color. The power of the attack was almost like the legendary Buddha's Palm. Du Wang couldn't block such an impact, and neither could Hong Baxian!

Chapter 9650 Power

however, hong baxian didn't stop. he continued to grab the crown of king du's head with one hand and crazily absorbed the power in his body. at the same time, he calmly extended his other hand to resist the attack.

"he's really crazy!"

zhang qiu, who was watching the battle from above, couldn't help but exclaim in surprise. no matter from which angle one looked at it, hong baxian's actions were definitely overestimating his own ability. however, for some reason, the majestic aura that hong baxian was exuding at this moment made people feel that this was how it should be!

bang! bang!

the two palms, one big and one small, collided, but the expected scene of hong ba being defeated at first contact did not appear. the two sides actually formed a temporary stalemate.

lin yi was alerted when he felt a strange force coming towards him from the palm, but he realized that he couldn't get away!

"Could this be the power of a curse?"

Lin Yi wanted to suppress the power that was resonating with him-if it weren't for the unbreakable suction force, he wouldn't have been unable to pull himself out.

This was Hong Baxian's plan from the very beginning, using the excuse of giving Lin Yi the perfect fire element domain stone!

Unable to escape, they could only watch as the power of the curse was poured into them, forming a complete and powerful curse!

Finally, Hong Ba retracted his palm first and smiled coldly at Lin Yi, who was forced out of his Titan Buddha form,""Only the King gets this treatment, Lin Yi. You'll have to enjoy it."

Lin Yi didn't even have time to respond before the curse in his body exploded.

Self-pity curse!

The power of the curse that Hong Ba had transferred over was the symbol of the king, the self-pity curse. This was a huge double-edged sword. If used well, one could become an unparalleled master. If not used well, it would become a real curse that could not be solved.

With the outbreak of the curse, Lin Yi found that the power in his body was starting to flow out uncontrollably, like a flood with the floodgates opened. It flowed faster and faster until it finally burst.

It collapsed instantly!

In less than three breaths, Lin Yi's cultivation level dropped from the peak of the early stage of the complete realm to the early stage of the complete realm!

Even Zhang Qiu's face changed, let alone Lin Yi.

A cultivator's realm drop was a great taboo. A light injury would hurt the foundation of cultivation, and a serious injury would directly turn one into a disabled person. Moreover, the higher the level of the cultivator, the more fatal the impact.

It wasn't an overstatement to say that no matter how glorious Lin Yi's Halo was, it was all gone the moment his realm fell uncontrollably.

The perfect five-element domain was difficult to break through to begin with. Now, he didn't have to worry about this matter anymore.

This was because there was no way for him to make any more breakthroughs.

However, once the tragedy began, it would not stop easily.

In another three short breaths, Lin Yi's cultivation level collapsed again. He couldn't even maintain the initial stage of Big Shot full cultivation anymore, falling to the full cultivation of heaven-cleaving!

"This man is completely crippled."

Zhang Qiu shook his head silently. If he had only fallen to the early stage of Big Shot completion, there was a one in ten thousand chance that he could climb back up in the future. But now, even God couldn't save Lin Yi.

Not to mention recovering his strength, even falling below a large realm was a huge loss-whether Lin Yi could stop the fall or even keep his life was a huge unknown!

As expected, Lin Yi's level was still dropping like crazy, and it was dropping faster and faster.

Peak of the late heaven-breaking stage ...

Late-stage heaven breaking realm ...

The peak of the middle heaven-breaking stage ...

Middle heaven crushing stage ...

Even Zhang Qiu couldn't help but feel sorry for Lin Yi when he saw the crazy way he was charging down. At the same time, he was secretly surprised that the secret Pavilion had really misjudged him this time.

With the pavilion's ability, especially if the pavilion master was personally involved, they shouldn't have made such a big mistake. Choosing to bet on Lin Yi was a disaster-they'd be held accountable!

But then again, no matter how unpredictable the pavilion Lord of the pavilion of heavenly secrets was, he was still a human, not a God.

There were times when humans made mistakes.

"President Zhang, it's not too late for the secret Pavilion to correct your mistake and place your bets on me. It's business, after all. It's not shabby."

Hong Ba stared at Lin Yi's rapidly dejected body and couldn't help but feel proud.

There were a lot of things that happened, and his plan was on the verge of falling apart, but everything went according to plan. No matter how strong Lin Yi was, he was just a chess piece.

The legendary newcomer King? Hehe.

Now that even the sole King had become his stepping stone, a mere newcomer King was nothing. It was just child's play.

Zhang Qiu could not help but feel conflicted.

At this rate, no one could stop Hong Baxian. Hong Baxian's Ascension was already set in stone. He would replace the only King and become the new Overlord of the East District. Then, he would naturally rise into the ranks of the five Giants. It was not a shameful thing to compromise and bow to such a powerful figure. The only thing they needed to consider was the face of the secret Pavilion behind him.

At the end of the day, was the pavilion of heavenly secrets willing to acknowledge this new giant five?

Hong Ba saw through his doubts and smiled indifferently, "There's no hurry. You can take your time to think about it. You'll eventually understand. I think the pavilion of heavenly secrets will also understand. After all, we're not fools. "

this was the absolute confidence that came with absolute strength!

very quickly, almost all of king du's power was taken away. the core curse was transferred to lin yi, and hong baxian was now receiving the purest power.

"this is the space domain ... the space ability that everyone dreams of!"

hong baxian waved his hand, and the surrounding space shattered. the mysterious feeling of controlling space made him intoxicated, and he couldn't help but laugh out loud!

this wasn't all. the sole king's power he had plundered had given him unparalleled capital. in addition to his foundation, which far exceeded those at the same cultivation level as him, the chasm between a giant's peak late-stage consummate level and a giant's ultimate consummate level was finally balanced.

he had broken through to the final perfection of a giant!

feeling the earth-shaking pressure from hong baxian, zhang qiu was completely sure that this person had truly risen to power. from now on, no one in the repeat academy would be able to suppress him.

the situation in the repeat school was going to change.

"Send a message to the pavilion of heavenly secrets. I want to see him."

Hong Baxian's attitude towards Zhang Qiu was now completely condescending. After advancing to the consummate level of the Big Shot, a mere hundred school of thought no longer had the qualifications to speak on equal terms with him. However, the heaven secret Pavilion, which was also one of the five big shots, could still do so.

Zhang Qiu's heart trembled, but he didn't feel much dissatisfaction. He was very clear about his position, and right now, he could only bow his head in front of the other party.

What surprised him was what Hong Ba was going to talk to the pavilion of heavenly secrets about.

Was it simply a declaration of their existence, or was it to re-divide the forces, or was there a bigger scheme?

With this person's burning ambition, he was definitely someone with insatiable greed. Ascending to the top of the five Giants was probably far from the end of his scheme. In fact, it might even be just the starting point!
