

Bodyguard 9651

Chapter 9651 Power

No matter what, Zhang Qiu was unable to refuse in person. He could only silently use an exclusive method to contact the pavilion of heavenly secrets and act as a Messenger.

The pavilion of heavenly secrets was everywhere. Even though this place had become an independent secret realm isolated from the outside world, it could not escape the network Surveillance of the pavilion of heavenly secrets.

Very quickly, a message appeared in Zhang Qiu's mind. There were only two simple words.

He disappeared.

Zhang Qiu couldn't help but be stunned. Although the heaven secret Pavilion was the most mysterious of the five Giants, they weren't tyrannical. Compared to the other five Giants, they were the party that was the easiest to talk to.

Facing Hong Baxian, who had advanced by force, he thought that even if the heaven secret Pavilion had made the wrong bet, they wouldn't choose to be enemies with Hong Baxian. Instead, they would take the initiative to make friends with him. After all, benefits were the most important.

He didn't expect this attitude.

hong ba first saw the strange expression on his face, and then a monstrous anger rose up in him. he laughed in anger, ""good, good, good. since he's determined to not know what's good for him, i won't be able to stop him. tell him that the first thing i'm going to do next is to level the pavilion of heavenly secrets. let him wait."

zhang qiu was stunned.

he had seen arrogant people before, but he had never seen someone so arrogant. he directly threatened the big five. was this something a normal person would do?

however, thinking back, even king du had become this person's stepping stone, so threatening the pavilion of heavenly secrets with his words did not seem to be a big deal to him.

if the only king could be destroyed, why couldn't the pavilion of heavenly secrets be destroyed?

at this moment, a vast divine sense swept across the sky. the clouds were filled with a myriad of phenomena, and in the end, they actually condensed into a line of large words.

according to the divination, you will die today.

this sentence was naturally directed at hong ba.

Hong Ba was shocked at first, but then he sneered with disdain, ""Deliberately mystifying is in line with your business as the pavilion of heavenly secrets. Unfortunately, you can only fool stupid people with your mysterious ways. Don't you think you're underestimating me?"

"Hehe, do I look like that kind of idiot who would believe in fate?"

With a wave of his hand, the space in the clouds shattered, and the line of words was wiped out on the spot.

Before today, he was really afraid of the heaven secret Pavilion. However, at this moment, the heaven secret Pavilion and the other five Giants were just stepping stones in his eyes.

At this time, instead of quickly admitting defeat, he actually ran to his face and acted arrogantly?

He didn't know what was good for him!

However, despite his disdain, Hong Baxian still subconsciously began to remove all unstable factors. Although the pavilion of heavenly secrets was only a fortune-teller, it had to be said that their so-called heavenly trigrams were quite amazing. He really couldn't completely ignore them.

The number one threat was still King du.

Although he had absorbed most of her strength, her aura was so weak that it couldn't be any weaker. She was only one step away from death, and in theory, she could no longer pose any threat to him.

However, for an existence like King du, as long as he was on his last breath, anything could happen!

BOOM!

Hong Ba immediately used the space curse, shattering King DU's huge body into pieces of space fragments on the spot, ending his life.

To a certain extent, this could also be considered as giving him a taste of his own medicine.

It was Lin Yi's turn.

Lin Yi's cultivation level was still dropping like crazy, and he'd already fallen to the early stage of complete heaven-breaking realm. It looked like he wouldn't even be able to keep his heaven-breaking realm.

At this rate, Hong Baxian didn't even need to do anything-Lin Yi's body would've already weakened from the drop in cultivation level, and even God wouldn't be able to save him!

But to be on the safe side, Hong Ba decided to send him on his way.

"From the first day you stepped into the Overlord's Pavilion, I knew that you had ulterior motives. However, whether you were a spy sent by Banshi Luo or not, it doesn't matter at all. I don't care at all."

Hong Ba looked down at Lin Yi, as if he was looking at a poor worm who didn't know his place. "Because Banshi Luo's hands can't even reach into the repeat school. Your only value is to bear the curse for me and be my stepping stone."

"Now, your mission is complete. You can go in peace."

After he finished speaking, he pressed his palm down.

With his current strength as a Big Shot at the peak stage, even Lin Yi wouldn't be able to take it, let alone now when he was a weakling.

Zhang Qiu closed his eyes helplessly. He knew that Lin Yi would die for sure if he hit him.

"Big brother! I can't kill him!"

A voice suddenly broke the silence. Sanye's familiar figure appeared in front of Lin Yi, blocking his way, ""Big brother, Lin Yi's not a spy, he's fine, you can't wrong him!"

Hong Baxian was taken aback. He turned to look at the shattered space around him, then came to a realization.

Because of King DU's previous attack and the commotion he had caused, the independent secret realm was on the verge of collapse. Large and small holes had appeared in the space barrier around it, and it was connected to the outside world again.

bao sanye should be nearby and had accidentally barged in.

however, could there really be such a coincidence in this world?

hong baxian felt that something was wrong. he didn't believe in luck, and he never believed in coincidences. he would never believe that there was no one behind this.

the pavilion of heavenly secrets, it must be the doing of the pavilion of heavenly secrets!

hong baxian instantly made a judgment and raised his palm again. his voice was cold and emotionless, ""get lost, or i'll kill you too."

feeling the killing intent coming towards him, the usually fearless bao sanye was instantly shocked.

he wasn't shocked by hong baxian's strength, but he was shocked that hong baxian really wanted to kill him!

"Big brother?"

Bao Sanye still couldn't believe it. He was Hong Baxian's only sworn brother. This wasn't a simple verbal Alliance, but a friendship that had been forged through so many years of fighting!

Anyone in the world could betray Hong Baxian, but not Bao Sanye. Similarly, Hong Baxian could kill anyone for his ambition, but he would not kill Bao Sanye.

Sanye believed in this without a doubt, but he was only left with a sliver of hope. He bet that his brother was just acting to force him to give up on Lin Yi!

In the end, Hong Baxian's palm didn't stop at all, directly pressing down on his face.

Space curse!

Bao Sanye couldn't believe that he had died at the hands of his most trusted sworn brother, and in such a merciless manner at that!

Even Xing Zhang, who was at the peak of the late stage of Great Perfection, couldn't withstand the curse, let alone Bao Sanye. He left a message to Lin Yi as he watched his body shatter and fall into the abyss of death.

"He's not my big brother ..."

Lin Yi sighed. He still didn't want to believe that Sanye had died with his eyes wide open.

Chapter 9652 Power

He'd only wanted to use Bao Sanye from the start-his greatest value was bringing him into the Overlord's Pavilion. To be honest, Lin Yi really did like this guy, and he'd thought about befriending him after this.

In the cultivation world, people's hearts were unfathomable. The higher one's realm was, the fewer people with Simple Minds were.

At the level of a Big Shot at the great circle, especially in a place like the repeat school where good and bad mixed together, people like Bao Sanye, who looked heartless but was actually sincere, were rare.

It was a pity that such a person was destined to not live long.

After Bao Sanye died, no one else could block the knife for Lin Yi anymore. Hong Ba didn't even bother to look at him. He just casually extended a finger and followed the direction of his finger. A trajectory with layers of shattered space pierced towards Lin Yi's forehead.

He was being a bit careless, but Lin Yi was just a piece of trash who couldn't even hold on to his heaven breaking realm. They were worlds apart, and Hong Baxian didn't underestimate him even if he wanted to kill him.

Because if he were to make a move, even if it was just a finger, it would be a disaster for Lin Yi! There was no way Lin Yi could survive!

As expected, Lin Yi couldn't resist the space curse at all. He followed in Sanye's footsteps and his body shattered along with the space.

And this time, it was impossible to use the heavenly mirror to fake his death like before.

After all, a piece of trash who couldn't even protect a heaven breaking cultivator and didn't even have his territory power, how could he still use the heaven mirror?

"It's a pity,"

Zhang Qiu shook his head at this scene, becoming more and more worried about his family's situation. Once Hong Baxian started a war with the pavilion of heavenly secrets, his Hundred Schools of Thought would definitely be the first to bear the brunt.

"What else do you have to say? Why don't you help me with another divination?"

Hong Baxian burst into laughter.

However, there was no more movement in the sky. It seemed that the pavilion of heavenly secrets had also slipped away.

At this moment, a familiar voice suddenly sounded, ""Since there's no one to read your fortune, why don't I read your fortune?"

The crowd was once again dumbfounded by Lin Yi's recovery.

How was this possible?

Lin Yi didn't look like he was in pieces at all-his entire body was perfectly fine, and what was even more shocking was that his strength was recovering as well.

In the blink of an eye, he had already recovered to the peak of the early stage of the consummate level of a Big Shot!

"Are my eyes playing tricks on me?"

Zhang Qiu subconsciously rubbed his eyes. As the president of the Hundred Schools of Thought society, his knowledge and experience were probably more than a few people in the entire repeat Academy. However, even with his knowledge reserve, he still couldn't understand the scene in front of him.

It wasn't that it was impossible to level up again after falling, but the possibility was one in a million. That was only limited to those who fell one level-it was unimaginable for them to fall multiple levels, especially for someone like Lin Yi who fell two whole levels in one go.

Taking ten thousand steps back, even if he could recover, he would have to put in a lot of effort and pay a huge price. He would only have a tiny chance of recovering after continuous attempts.

How was it possible for him to be like Lin Yi, reviving with full health without even having to eat?

However, Hong Baxian's eyes were sharp, and he instantly saw through the key point. He gritted his teeth and said, "Time backtrack!"

That's right, the key to everything was to turn back time.

Lin Yi knew how dangerous this mission was, and he'd prepared all sorts of powerful trump cards, including one that Banshi Luo had left for him.

Time backtrack.

Banshi Luo had set up a barrier around Lin Yi's body, and once Lin Yi suffered a fatal injury, it would activate the barrier and turn back time, resetting his condition to before the injury was triggered!

That was why Lin Yi was able to recover to the peak of the early stage of the complete realm and dispel King DU's curse.

"Banshi Luo, you dare to be the teacher of the world!"

Hong Baxian's face turned as black as the bottom of a pot. He was at the peak of his pride, and Banshi Luo's action was like a slap to his face.

More importantly, time and space were two opposing elements. Luo Banshi's time ability and his space ability countered each other. If there was anyone in the Academy who could crush him in all aspects, it would be Luo Banshi!

Apart from shock and anger, Hong Baxian couldn't help but panic.

It was true that he had advanced to the peak of the giant realm and was confident that he could face the other five Giants. However, if Banshi Luo were to appear at this time, he would not have much confidence!

"Head up, you live. Head down, you die," Lin Yi said slowly.

ding! ding!

a coin fell from the air and rolled a few times before settling down.

hong baxian didn't want to listen to lin yi's tricks. after all, even if he was at his peak, there was still a huge gap between them. he could kill lin yi anytime he wanted.

however, for some reason, he still took a look and his heart skipped a beat.

head down.

"it seems like even the heavens are not optimistic about you."

lin yi smiled and looked at the broken sanye. killing intent surged in his heart and his body grew to a hundred feet.

the ultimate of the five elements, the metal titan buddha!

Seeing Lin Yi's palm coming at him, Hong Baxian laughed in anger and snorted, ""An idiot who doesn't know the immensity of heaven and earth! I'm still a little afraid of Banshi Luo, but how dare you be so arrogant in front of me? Who gave you the courage!"

The two palms collided, and the scene unexpectedly formed a stalemate!

Hong Baxian suddenly felt disillusioned.

He already found it unbelievable that Lin Yi could take on the king, but it was only the King in a fake death, after all. His real power wasn't even one-tenth of his normal power, so he could accept it.

Now that he'd accepted most of King DU's power, his overall strength was theoretically above peak-level King du 's, but he still couldn't kill Lin Yi in one move. This was too much.

"Hehe, it seems like Banshi Luo has really invested a lot in you!"

Hong Baxian reacted quickly. Lin Yi shouldn't have been able to block his space curse with his strength, but Banshi Luo's time barrier didn't disappear with the time reversal.

Although he had used up more than half of it, it could still offset his spatial ability.

As a result, Hong Baxian's most threatening move was almost useless against Lin Yi. It didn't completely close the gap between the two, but it at least gave Lin Yi a chance to fight face to face!

"Half-master is good to me."

Lin Yi nodded honestly. He didn't meet Banshi Luo much, but for some reason, they had a deep understanding of each other. Banshi Luo gave him pointers and was sincere to him, and so was he.

Chapter 9653 Power

Ever since he entered the repeat school, Banshi Luo had played a huge role in his rapid increase in strength.

Seeing his expression, Hong Baxian couldn't help but sneer, ""I'm using you, but Banshi Luo is also using you. I really didn't expect a smart person like you to help count the money after being sold. "

Lin Yi smiled, "you're trying to drive a wedge between us?" Are you not confident in dealing with me?"

"You don't know what's good for you!"

Hong Baxian exploded on the spot.

A man's biggest fear was when others said he couldn't do it, especially when he was so proud of his success. Lin Yi's obvious taunting wouldn't work on Hong Ba normally, but it was effective this time!

However, with his full power, even without using his spatial ability, Hong Baxian's attack was still earth-shattering. The power of the Dragon elephant domain rose with his cultivation level, and it had reached an unfathomable level.

BOOM!

With just one move, the Titan Buddha Lin Yi was beaten to the ground. His left hand was crippled and his golden light dimmed.

"The difference is still too great."

Zhang Qiu's heart was palpitating as he watched. Today's situation was really full of twists and turns. Every time the dust was about to settle, there would immediately be a shocking reversal!

Unfortunately, Lin Yi was still far from it.

Hong Baxian, who had advanced to the pinnacle of the giant stage, was now a true giant of the five. Even if his abilities were suppressed, he could still rely on his cultivation level to suppress him.

Moreover, his spatial ability was not really sealed just like that.

Banshi Luo's time barrier would run out eventually, and Lin Yi would lose all chances of winning.

But it seemed that Lin Yi couldn't hold on until that step. Before that, Hong Ba could use the Dragon elephant domain to hammer him to death!

Even with the healing ability, Lin Yi was smashed into pieces after seven moves. He couldn't even maintain his Titan Buddha form.

"From your tone just now, I thought you would at least cause me some trouble."

Hong Baxian squinted at Lao Ai and pouted disdainfully, ""That's the result?"

Lin Yi, on the other hand, didn't look too dejected-he'd expected this outcome. If he could take on Hong Baxian so easily, then a peak-stage giant like him wouldn't be worth much at all.

After all, that was the threshold of the five Giants.

Hong Baxian didn't kick Lin Yi when he saw that his injuries were healing under the effects of the reverse drive, ""If you have any other tricks up your sleeve, just use them all. You've contributed a lot to the Overlord's Pavilion, so don't say that I didn't give you a chance."

The word "arrogant" was written on his face.

Lin Yi smiled,"looks like my attack wasn't completely useless. Are you feeling a little uncomfortable too? new big Five?"

"....."

Hong Baxian's face darkened.

He was overbearing, but he never underestimated his enemies. He was just trying to confuse Lin Yi because there was indeed something wrong with his body!

Forcibly plundering King DU's power had allowed him to advance to the pinnacle level of a Big Shot, but it had also brought him a huge hidden danger.

Even though his previous Foundation had already far surpassed that of an ordinary Big Shot at the peak of the late stage of the consummate level, it was still not enough to completely tame this massive force in a short time.

Being unable to completely tame it meant that there was a risk of losing control of his power, and he could go berserk at any time!

Under normal circumstances, it wouldn't, but once he was in a stalemate with Lin Yi, the risk would increase drastically. One wrong move and he might even lose!

So no matter how much he wanted to slap Lin Yi to death, Hong Baxian didn't dare to use his full strength-he had to get used to it as he fought. When he got used to it, Lin Yi could die.

Unfortunately, Lin Yi wasn't that understanding-he started with a fire element, great heaven-burning!

The power of the great burning heavens was undoubted to be able to instantly kill Ren Tianyuan of the heavenly Dragon Society, who was as famous as Xing Zhang and the others. Even Hong Baxian didn't dare to take it head-on with his physical body. The only safe way was to use his spatial ability.

In his current state, the most taboo thing to do was to forcefully use spatial ability. If he was not careful, he would go into Qi deviation.

It was obvious that Lin Yi was forcing him.

Without any other choice, Hong Baxian could only force the black flames of great burning heavens into a different space, carefully avoiding any possibility of large-scale use of spatial abilities.

However, in this way, it was inevitable that his hands and feet would be tied.

He still had the upper hand, and without the Titan Buddha form, Lin Yi was as weak as a chicken in front of him. He was on the edge of life and death every time they met.

But as long as it wasn't a one hit kill, Lin Yi could always use reverse to save his life, and then turn around and throw out burning heavens again.

Facing Lin Yi's crazy attack, Hong Baxian didn't know what to do.

What shocked him even more was that as they exchanged more and more moves, Lin Yi was getting used to his rhythm of attack and defense, and he was getting more and more comfortable with it. In just a short time, they were in a stalemate again!

Then, Hong Baxian's emotions completely erupted.

"Die!"

This time, Hong Baxian was serious. Although it wasn't the space Killing Curse that made everyone's expression change, it was the other killing move that made him famous, the space exile.

Previously, King DU's spatial exile had failed because he had control of this independent space and could not break through the spatial barrier. Now that he was the one doing it, there was no such restriction.

However, the spatial banish's consumption was not any less than the spatial curse 's. This was considered a risky move, with an element of gambling his life!

Sure enough, the moment he used spatial exile, an imperceptible crack appeared between his overwhelmed primordial spirit and the spatial power that was cruising around his body.

Usually, this crack was harmless and could be recovered with a little rest.

The problem was that he was facing Lin Yi.

Everything Lin Yi had done before, even sacrificing himself to increase his tempo, was for this moment!

Time froze.

Time seemed to have stopped, and Hong Baxian saw Lin Yi's spirit leaving his body, shooting at him with a blinding light like a human-shaped sword!

Under the cover of time freeze, Hong Baxian couldn't do anything at all. He could only watch as Lin Yi's essence spirit passed through his body. He felt his essence spirit shuddering as if it was an oil lamp that was about to run out!

Hong Baxian was shocked.

"This is the last gift I've prepared for you. Please don't dislike it."

Lin Yi's face was especially pale after his Yuan Shen returned to his body.

Chapter 9654 The End

This move was his true final killing move. It was a terrifying move that combined the primordial spirit explosion and the ultimate transformation of the five elements. Under Banshi Luo's guidance, it even had a faint characteristic of freezing time. The consumption was so great that even with his current Foundation, he could not bear it.

Its name was the extreme transformation of the five elements, the metal element divine destruction!

Hong Baxian couldn't answer. If it was just a physical attack, he could've dispelled it no matter how strong it was, but Lin Yi's attack was a combination of a spirit attack and time freeze. Even space couldn't stop it.

With a single God-extinguishing technique, his entire primordial spirit was directly cut into two.

Fortunately, his immortal soul realm was not bad. If it were anyone else, they would have died on the spot even if they had the physical body of an ultimate perfected giant!

Hong Baxian was still struggling tenaciously with his heaven-defying will, trying to forcefully merge his split primordial spirit back together. The mental pain he suffered during this period was enough to kill someone who had undergone special mental resistance training.

If he even had the slightest thought of giving up in the middle, he would be doomed eternally.

However, he actually managed to withstand it.

"he's indeed a ruthless person. "

lin yi was shocked-even he wouldn't be able to do it himself. hong baxian's mental fortitude was beyond his understanding-he was the hero who could play with the five giants in his hands!

that being said, hong baxian still couldn't change the situation of his primordial spirit splitting. it was as if there were two of him fighting in his body, and no one could take control of it, so naturally, he couldn't move his body.

at this moment, he had no power to resist.

it was a pity that lin yi had used up too much of his energy-he couldn't save it up in a short period of time. otherwise, this would be a great chance to kill hong baxian!

"you're not going to kill him?"lin yi looked at zhang qiu.

"I can't break the rules of the Hundred Schools of Thought."

Zhang Qiu smiled helplessly. Killing Hong Baxian with his own hands was actually the best choice for him. At the same time, he would be able to gain the recognition of the secret Pavilion. After all, this fellow had provoked the secret Pavilion on the spot.

However, he still did not dare to make a move.

Zhang Qiu didn't dare, but someone else did.

An invisible figure, who everyone thought had fled, suddenly appeared above Hong Baxian's head. The dagger in his hand glowed with a faint green light as he stabbed it into his Baihui acupoint.

Waiting for the opportunity to act, decisive and ruthless, ye Zhiwei's killer nature at this moment made everyone's heart turn cold.

The short dagger entered his brain.

However, the strange thing was that Hong Baxian didn't react at all, nor did he fall down. It was only when ye Zhiwei realized that something was wrong and prepared to make a second attack that Hong Baxian suddenly moved. The Dragon and elephant roared in unison, instantly erupting with a monstrous force, directly shaking ye Zhiwei to the point that he vomited blood and flew back!

Hong Baxian did not wake up. After his soul was split in half, no one could regain their consciousness in such a short time.

However, just like how King du still had terrifying battle instincts despite being in a fake death state, he was naturally not bad in this aspect as a newly-promoted giant five.

To put it bluntly, at their level, if they didn't have enough strength, they wouldn't be able to kill you even if they stood there and let you hack at them. Even if you were recognized as the top group of people below the five Giants, you still couldn't do it.

"How can it be so easy to kill?"

Zhang Qiu shook his head as he watched. The reason why he didn't make a move was because he knew his own limits.

As far as he was concerned, the only person who could kill Hong Baxian was Lin Yi. Just that shocking God-kill move alone was enough to put this monster above everyone else. He was definitely at the level of the five Giants.

It was no wonder that he was able to turn the situation around in the Academy as a newcomer. Even Xu Anshan, the first seat with the aura of an Emperor, could not do anything to him!

Lin Yi had to recover first to have a chance of killing Hong Baxian. If Hong Baxian recovered first, Lin Yi would be in deep trouble.

Normally, Lin Yi should have the highest chance of standing up first, but luck wasn't something that could stand up to a test. With Hong Baxian's insane strength, it wasn't impossible for him to forcefully stitch his spirit back together in a short time!

As expected, while Lin Yi was still recovering, the Hong Baxian was already slowly but steadily approaching him.

Although his eyes were still closed, his aura was rising rapidly.

"Is this the F * cking willpower of a human?"

Lin Yi's eyes twitched. Hong Baxian was clearly enduring the pain of his essence spirit being split open, preparing to force his body to kill himself first!

He had to admit that this was the best choice he could make right now. If it were him, he would do the same, but whether or not he had the terrifying willpower to do it was another matter.

Helplessly, Lin Yi had no choice but to use all the energy he could at the cost of self-harm, enduring the pain and preparing to give an eye for an eye!

Soon, the two of them each struck out a palm.

Unfortunately, compared to their peak state, the power of the two palms was much weaker. There was no visual impact to speak of, and in the eyes of others, it was even quite degrading. In the end, the two sides even wrestled with each other without any image, like two street punks fighting each other in a mud pit.

One of the top five fighting forces and one of the quasi-top five fighting forces were fighting in such an ugly and laughable way. It was probably a scene that would never be seen again in one's life.

However, Zhang Qiu could not smile.

Not only was he unable to laugh, but all the hair on his body stood up and his hair stood on end!

Hong Baxian's willpower was abnormal in Lin Yi's eyes, but the willpower that Lin Yi displayed now was abnormal in the eyes of others!

Who would've thought that the ultimate battle that would decide the future of the entire repeat Academy would unfold in such a way?

Most importantly, Zhang Qiu's heart was palpitating with fear as he watched.

As for the other spectator, ye Zhiwei, after being sent flying by Hong Baxian's instinct, she was so badly injured that she couldn't get up. Besides, she learned from her mistakes. Even if she could get up, she probably wouldn't dare to approach him again.

Finally, both of them fell to the ground at the same time again, and Lin Yi lay on the ground, motionless.

Hong Baxian, on the other hand, was in a worse state than Lin Yi, but he still had some strength left. He struggled to get up and came to Lin Yi with killing intent.

The truly shocking thing was that he actually opened his eyes.

Although there was still some chaos in his eyes, it was obvious that he had recovered. It had only been a short time, but his primordial spirit had actually recovered from its crack. He was simply inhuman!

"You didn't expect this, did you? You still let me have the last laugh. To be able to force me to this point, you can be considered to have died a worthy death!"

Hong Baxian sneered as he struck out with his palm.

Lin Yi still didn't move-he was going to die for sure when a huge shadow covered both him and Hong Baxian.

Hong Baxian's heart skipped a beat when he felt the familiar and terrifying aura.

King du!

That was impossible! Absolutely impossible!

Hong Baxian couldn't believe it. King du had died without an intact corpse. How could he still be alive?

Chapter 9655 Power

Zhang Qiu wasn't surprised to see this."In terms of understanding of space, the lone king is the best in the entire Jianghai Academy. It's not a good idea to use his powers to kill him."

It didn't matter if Hong Baxian believed it or not-King DU's palm was already coming down, just like when he was about to kill Lin Yi.

Pfft!

Even in death, Hong Baxian could not believe that his careful planning would end up like this. He had clearly succeeded, but in the end, he still failed.

"He actually died just like that?"

As an outsider, Zhang Qiu could not help but be dazed. In the previous situation, no matter how he looked at it, Hong Ba was the one who had the last laugh. The only difference was that he would win more in the game with the other five Giants. Who would have thought that it would end in such a way?

As expected, the pavilion master was far-sighted.

He was still suspicious of the pavilion's bet on Lin Yi, but it seemed that the pavilion was still the pavilion after all. His omniscience was nothing compared to it.

With Hong Baxian's sudden death, the power of the spell that he had forcibly taken away from him was now ownerless, and it condensed into a physical energy body.

If what they had fought for before was a seed of a spell, then this one before them was the ultimate fruit that had been fused with it.

Even Lin Yi couldn't help but be frightened by the energy it emitted, and he instinctively drooled!

But at this moment, King du slapped down again, trying to kill him as well. Lin Yi tried his best to resist, but he was still sent flying.

Then, King du swallowed the curse fruit.

Although this unexpected turn of events had interrupted his opportunity to advance to a higher realm, as long as he returned it to its original owner, he would still be one of the high and mighty Five, still the top combat power of the retained students!

However, there was no reaction.

King du was stunned. After the previous series of blows, although he had barely regained consciousness, he was in an extremely miserable state. He urgently needed the huge power of the curse fruit to help him stabilize his injuries. Otherwise, he would fall apart on his own, let alone fight with others.

But now, he felt like he had swallowed a fake fruit!

Was it an illusion?

King du reacted quickly and turned around to see Lin Yi flying away. He swallowed the fruit!

"You're ... Looking for death!"

Du Wang's blood pressure instantly exploded. Hong Baxian was a villain, but he was indeed a rare hero. It was not unreasonable for him to suffer a loss in his hands.

But now, even a Big Shot at the peak of the early stage of complete realm dared to come and take his fruit. Did he really think that the five of them couldn't move him?

Actually, he didn't even need to do anything. Unless an ordinary person had the plunder domain like Hong Baxian, even if they obtained his power, it would be difficult to digest even if it was just a curse seed.

As for someone like Lin Yi, who just swallowed the entire fruit, it wasn't like he'd benefit from it, it was suicide.

What he had swallowed was not a fruit, nor was it a bomb, but a nuclear bomb!

The strange thing was that Lin Yi didn't self-destruct as he expected. Instead, he successfully swallowed the fruit, and the energy around him increased at a visible rate.

He was originally on the verge of death, but in the blink of an eye, he had returned to his peak state, and there were even faint signs of a breakthrough!

He was clearly digesting the fruit's power.

"How is that possible?"

Even Zhang Qiu, who was a bystander, was dumbfounded. He only realized that Hong Ba had transferred the curse to Lin Yi first to make it easier for him to take the power from King du.

This was the so-called art of curses, the key to controlling the power of curses. Hong Baxian had personally given it to Lin Yi!

If it wasn't for Banshi Luo, the key would've taken Lin Yi's life, but there were no ifs.

Because of Hong Baxian's "good intentions," Lin Yi had become the perfect backup for the king's power. In terms of control over this power, he was only second to the king himself!

"Die! Die!"

King du had lost his mind. He was provoked by these clowns again and again. No matter how strong his mental state was, he would lose his mind. He didn't care about his body's condition at all. He was going to kill Lin Yi at the cost of his body's collapse!

With this action, the independent secret realm that was already on the verge of collapse immediately fell apart, and the surrounding space barriers collapsed.

At the same time, King du suddenly appeared behind Lin Yi.

Spatial exile!

Lin Yi was busy digesting the fruit, and all his efforts would go to waste if he stopped. But if he didn't stop, the consequences would be unimaginable if he was hit by the palm.

While he was in a dilemma, a calm voice sounded behind him, "Leave it to me,"

BOOM!

King du tried his best to hit Lin Yi's back, but it wasn't Lin Yi's back. It was a kind-looking old man.

Zhang Qiu's eyelids twitched, and he cried out in shock, "Master Luo!"

Banshi Luo's existence was a legend not only to the Academy, but to the entire Jianghai Academy as well. A person like him had already transcended the realm of strength.

To him, being a tyrant was not a compliment at all. This kind of character was destined to be passed down through the ages!

At his level, his every move was bound to attract attention. No matter where he went, it was a major event, especially in this mixed school of repeaters, especially at such a sensitive time.

The spatial exile landed on Luo Banshi's back, but there was no reaction at all. There was not even a ripple.

Luo Banshi nodded slightly. "To be able to unleash such power in such a state, you are indeed worthy of being the new king of Space. Senior Xiang has a worthy successor."

"....."

King du was speechless.

Although he was in an extremely miserable state, his mind was clear. From being one of the five Giants, he had fallen to this state. Although he didn't feel much regret, he was still unwilling to do it. He still had a bit of anger left.

However, after one move, that aura suddenly dissipated.

There was no other reason. The gap was too great.

On the surface, Banshi Luo was praising him, but in reality, he was treating him as a junior, and had no intention of treating him as an equal. In other words, at least in Banshi Luo's eyes, he was far from being able to be compared to Xiang Yusheng.

In fact, as the new generation's King of Space, he had always thought that he had surpassed his master!

Without the support of that force, King du could no longer suppress the injuries in his body, especially the terrifying backlash from the self-pity curse. His entire huge body collapsed instantly and was cut into pieces by the space.

Sensing that King DU's aura had completely disappeared, Zhang Qiu could not help but widen his eyes. "One sentence ... And King du died?"

At least from an outsider's point of view, Banshi Luo didn't do anything after he appeared. All he did was take the hit for Lin Yi.

In the end, he couldn't even break through the defense and the king died.

Chapter 9656

He was the sole King! Those were the five Giants!

Even an unprecedented and ambitious person like Hong Baxian, who had spent so much effort, was unable to completely kill him. In the end, he was killed instead, and he was killed with just a few words?

In an instant, Zhang Qiu's hair stood on end when he saw this ordinary-looking old man who was known as a 10000-man commander.

Killing people with just a few words, was this the true terror of this person?

Banshi Luo didn't seem to mind at all and didn't pay much attention to King DU's death. He only looked at Lin Yi for a while before looking around.

At this moment, with the deaths of Hong Baxian and du Wang, the source of the secret realm was out of control, and the space barrier around them began to collapse.

Soon, the man-made secret realm was reconnected to the outside world.

"This ... This ..." Zhang Qiu's eyes twitched.

He actually felt four Supreme auras around him at the same time. Their strength was far above that of the common people in the repeat Academy. They were all at the level of the five Giants standing at the top of the pyramid!

A man exuded a cold aura that seemed to come from hell, but he was so handsome that he didn't seem like a real person. His face was filled with a holy light, and evil and Holy were perfectly integrated in his body. His name was the Western Fallen Dragon!

An old man's upper body was bare, which was not befitting of his age. He held an ordinary-looking long saber in his hand, but it exuded an indescribable terrifying heat. Even the space around him was distorted and melted. His name was the southern area's flame pool!

A young man with a tender appearance but a pair of eyes that could see through everything. Layers of phenomena of the past and the future were constantly evolving in his hands. They changed in an instant, but nothing seemed to have changed. His name was the North district's Tian Ji!

A middle-aged man with a big belly was surrounded by women on his left and right, like a fat nouveau riche that could be seen everywhere. However, the violent aura that was emitted from his body made everything around him tremble and submit to him. His name was the tyrant of the Central District!

Including the only king who had just died, the five Giants that represented the top of the repeat Academy were all here. The repeat Academy hadn't seen such a lively scene in decades.

"I've long heard of the half-master's great name. Seeing you today, your reputation is indeed well-deserved. "

The one who spoke first was Tian Ji of the North District. Although he had the appearance of a young man, his voice had a strange sense of vicissitudes, imperceptibly revealing the heavy precipitation of history.

"Hahahaha, the repeat school has been a pool of stagnant water for decades. Today, there's finally some fun!"

The fat middle-aged man's voice was like a thunderclap. It was clearly a sound wave that was unintentionally released, but it actually caused the people who heard the news to bleed from their seven orifices. Among them, there was no lack of experts at the middle stage of the consummate level or above.

The name tyrant was well-deserved.

On the other side, the strong old man chuckled, ""I haven't seen you for ten years, and you're still as elegant as ever. However, why did you suddenly come to my repeat Academy today and even kill King du?"

"Senior Yan Chi, long time no see." Banshi Luo nodded slightly.

The only one who didn't speak was the West district's Fallen Dragon. However, with this person's profound temperament, it was normal for him to not speak. Just his cold eyes were enough to perfectly express all the information he wanted to express.

Zhang Qiu looked at the people in front of him, and for the first time, his legs were trembling.

A king who had only one-tenth of his peak strength was already enough to turn the world upside down. Now, there were four monsters of the same level, and all of them were at their peak strength, and this was not even including the unfathomable Banshi Luo!

A casual sneeze from these few people could turn the entire repeat school upside down.

If they were to start a fight ... The scene would be unimaginable.

"Haha, why are you talking so much nonsense? since it's obvious that we're going to fight, then let's be straightforward!"

Tyrant laughed as he pushed the beauty in his arms away and struck at Banshi Luo. At first glance, there was nothing special about it. However, the sky changed color, and even the sky cracked open. A giant hand formed by the wind and clouds pressed down.

This scene was like the end of the world.

At the same time, the flame pool elder unsheathed his saber, and an indescribable flame of chaos enveloped the surroundings, forming a vortex of fire that trapped Luo Banshi within.

The power of the flames was so great that the surrounding space began to melt, turning into a purgatory in an instant.

The next to make a move was the silent Fallen Dragon of the Western District. He did not seem to have made much of a move, but with a glance from afar, a single eye exuding an extremely evil and terrifying aura appeared behind Banshi Luo, as if a demon had awakened from the abyss.

"This way of greeting is a little too much."

Seeing this, Luo Banshi smiled slightly. Time ripples surged around him, and at the last moment before the destructive attacks landed, he activated time backtrack!

Everything was reset.

Everyone present collectively fell into a trance. Did this mean that the attacks of the five Giants had failed, or had they not even made a move at all?

"Time is indeed an unresolvable ability."

The teenager-like Tianji sighed. However, as his fingertips moved, the three great attacks that had clearly been backtracked to the invisible state suddenly reappeared.

This time, even with the ability to turn back time, the three attacks landed on Banshi Luo's head in a trajectory that no one could understand.

"I've long heard that the pavilion of heavenly secrets has flawless plans. I've finally witnessed it today!"

Luo Banshi's body sank slightly.

Time was indeed an unsolvable ability. In theory, as long as he wanted to, any attack could be backtracked, and it would never fall on him.

However, a theory was just a theory. Even at Banshi Luo's level, it was impossible to perfectly turn a theory into reality.

He would still have a flaw in the end, but the probability of a flaw appearing might be one in a million, or even one in ten million!

Normally, even if such a flaw appeared, the opponent would not be able to grasp it at all, because it was already a small probability event that was almost impossible. However, Tianji was an exception.

Compared to Zhang Qiu's omniscient domain from the Hundred Schools of Thought, Tian Ji's domain was called x-ray vision. It didn't sound intimidating at first, and even felt ordinary.

However, he could not see through ordinary objects, but the past and the future.

The past was fixed, but the future had infinite possibilities. As long as he could see enough possibilities in an instant, he would be able to grasp one in a million flaws in Banshi Luo and make it impossible for him to escape!

Such a profound mystery was naturally not understood by others. In their eyes, it was completely like a fight between Immortals. They didn't know, but they felt it was powerful.

BOOM!

The three powerful attacks landed on Luo Banshi's head. Any of the aftershocks was enough to send a group of experts at the peak of the late stage of the consummate level flying in an instant.

Even if they were at the level of the five Giants, there was still a possibility of being killed on the spot!

Chapter 9657

As the dust settled, Banshi Luo was unscathed.

Everyone was speechless.

What kind of F * cking monster was this? With the four of the five Giants working together, even a God would probably be thrown away. In the end, not to mention an instant kill, there wasn't even a speck of dust on their bodies!

Tyrant, flame pool, Fallen Dragon, and heaven's secrets-the four of the five Giants-also had a change in expression.

It was true that they were only testing each other, and they were far from using their full strength. Even if they were testing each other, it was not surprising that Banshi Luo could withstand it. After all, he was a legendary figure.

However, to deal with it so easily, it really made people a little frightened.

Looking at the bewildered expressions on the audience's faces, Banshi Luo smiled calmly and said, "The new waves of the Yangtze River surpass the old waves, and the retained students have produced many talents. They'll definitely shine in the future."

Tyrant and the others looked terrible.

These words might seem like a compliment, but anyone with eyes could tell that Banshi Luo did not treat them as equals at all. Including Yan Chi, who was a senior, they were all just juniors in his eyes.

There was no order in learning, and the one who had the talent was the teacher. Even Yan Chi couldn't say a word in the face of Banshi Luo's condescending attitude.

As the situation fell into a stalemate, a long howl suddenly came from the horizon. Before the person arrived, the sound was heard.

"The great teacher Luo came to my retained school to bully a bunch of juniors. I'm afraid it won't be nice to say it out loud, right?"

As the figure appeared, everyone present who had a good eye revealed a look of horror.

The Sea King Xiang Yusheng.

What was even more shocking was that as this person landed, tyrant, flaming pool, Fallen Dragon, and heaven's secrets all lowered their heads in greeting. "I've seen the Deputy Director. "

There were rumors that the five Giants, including the fallen king du, had the page about the General Affairs Office of the repeat Academy among their personal qualifications. At that time, they were still not famous, and that era was still the era of the Sea King Xiang Yusheng.

However, no one knew that Xiang Yusheng was once a Deputy Director of the General Affairs Department!

The General Affairs Office of the repeating students was indeed a place where legends were born.

"Senior Xiang, "

"Of course." Banshi Luo nodded and chuckled. "Actually, whether it's in terms of seniority or age, we're all of the same generation. Of course, senior Yan Chi is an exception."

Strictly speaking, he was in the same batch as a few of them.

It was just that when these five had entered the repeat Academy for various reasons and were being ridiculed, Banshi Luo, who had appeared out of nowhere, had already become the most influential figure in the entire Academy. He could even stand shoulder to shoulder with the ocean King and Xiang Yusheng, who were on completely different levels.

Xiang Yusheng raised his eyebrows slightly. "What a good peer. According to what you said, the children in my General Affairs Office should be ashamed."

Tyrant and the others were embarrassed.

"Of course not. We'll all learn from each other."

If someone else had said this, they would have taken it as a mockery. However, Banshi Luo's words were surprisingly sincere.

"Learn from each other? Don't tell me that King du died from studying with you. "

Xiang Yusheng looked at King DU's mutilated body and could not help but have a complicated expression.

He was the previous generation's King of Space, and King du was the current generation's King of Space. They were both in the general office. Although there was no traditional master-disciple relationship, King du had indeed received a lot of guidance from him for him to reach his current level.

Not only du Wang, but the other four of the five Giants were the same. They had more or less received his help.

If it were not for the arrogance of these monsters, even if he had the title of the Sea King, even if he was once the Deputy Director of the General Affairs Department, they would not give him face, let alone be so respectful.

Banshi Luo sighed. "Although I have a part to play in this, the main reason is that he has decided to die."

"He's willing to die?"

Xiang Yusheng looked at him deeply. "That's the truth. If he didn't want to die, even you wouldn't be able to kill him so easily. But it still sounds a little unpleasant."

"What do you mean, senior Xiang?" Banshi Luo asked seriously.

"Hehe, you kill one of my men, and I kill one of yours. Isn't that fair?"

Xiang Yusheng glanced at Lin Yi who was behind Luo Banshi. With the digestion of the king's power, Lin Yi had officially entered the rhythm of breaking through, and all kinds of natural phenomena were constantly appearing around him.

One second it was a God, the next it was a heavenly demon, or it was simply a scene of destruction, making people's eyelids jump just by looking at it from afar.

"Is this the breakthrough aura of a mere Big Shot at the peak of the early stage of the consummate level?"

Everyone was collectively shocked speechless. It wouldn't be an exaggeration to say that this scene was the promotion to the ultimate perfection of a Big Shot!

If this was already the scene before him, what would it be like when he reached a higher level? The entire repeating school probably wouldn't have enough for him ...

"I can't kill him."

Banshi Luo stood firmly in front of Lin Yi. Although it was just three short words, and his tone wasn't that decisive, it gave people a feeling that he was inviolable.

No one knew what would happen if they violated it, but it was foreseeable that the consequences would be very bad.

"Just because you say we can't kill him, does that mean we can't kill him?"

Xiang Yusheng laughed and suddenly punched out. The space in front of him seemed to be squeezed by a giant object and deformed, forming a Domino-like transmission effect and stacking up.

With every layer added, the power would increase by a bit.

Space fold!

By the time Banshi Luo was in front of him, its power was already comparable to a human cannon, and its earth-shattering power was beyond the limits of everyone's knowledge.

It was the same spatial ability, but it was completely different when it was used by King du and him. The former was dangerous and unpredictable, while he was mighty and powerful, as if he was suppressing others with his power!

Banshi Luo did not say anything, but his expression became more serious.

When Lin Yi and du wuhui were fighting for the tenth seat, he'd fought Xiang Yusheng indirectly and had some understanding of each other's background, but it was completely different when it came to a direct fight.

After all these years of hiding, the Sea King's strength had not stagnated as he had expected. On the contrary, he had faintly taken an extremely crucial step.

Fortunately, he, Banshi Luo, did not fall behind.

Luo Banshi threw out a punch as well, and the flow of time in front of him suddenly changed. There were even some unimaginable fragments of time that appeared. There was the past and the future in the images.

The two sides clashed, and massive spatial and time energies began to intertwine, instantly throwing spacetime into chaos.

Although the area wasn't large, it still caused the hearts of all the spectators, including the five Giants, to turn cold. No matter how strong they were, if they were swept into any of these space-time turbulence, they would most likely die!

Fortunately, the spacetime chaos did not last long.

"Senior Sea King's spatial layering art has been broken?"

Looking at the spatial energy that had disappeared and Luo Banshi, who was unscathed, even if the crowd did not understand the trick behind it, it did not stop them from deducing from the results.

Chapter 9658

The space fold was Xiang Yusheng's signature move. In the past, many powerful figures were killed by him with one move. Some people racked their brains to think of countless countermeasures, but were still killed by one punch in the end. It could be said that there was no solution.

Who would have thought that Banshi Luo would be able to receive it so easily?

"Turning back time?"

The five Giants looked at each other. It had to be said that this ability was truly abnormal, making them feel helpless.

"No."

The young Tianji shook his head. "Time backtrack can be broken. If I can break it, the Deputy Division Chief naturally has a way to break it too. Strictly speaking, this move of his can be considered to cut off the past."

"Cut off the past?"

"That's right. I can only see through the past and the future, but he can interfere with the past and the future. No matter how powerful the Deputy Division Chief's space fold is, once it's disconnected from the past, it'll become water without a source and a tree without roots. Naturally, it'll be difficult to continue. "

This was actually just Tianji's speculation, but with his ability, his speculation was often the truth.

"As expected, he's a difficult bastard."

Xiang Yusheng spat. Of course, he didn't expect to suppress Banshi Luo so easily, but it was so easy that he couldn't keep his face as an old senior.

In an instant, the aura around him disappeared without a trace.

A moment ago, he was still a god-like Super Master, but in the blink of an eye, he had become an ordinary old man. Even if he was thrown into a group of homeless scavengers, he would not be conspicuous.

The changes before and after were so great that it left one speechless.

However, the more this was the case, the more shocked the people present were. As long as a true master's cultivation was high, his cultivation would be unfathomable. However, it was unheard of to be able to do it to this extent.

This wasn't just a matter of concealing his aura. It was extremely difficult to conceal his aura to the point that even experts of the same level couldn't detect it like ye Zhiwei, but compared to an ordinary old man like Xiang Yusheng in front of him, the difficulty was still thousands of miles away.

Seeing the extraordinary in the ordinary was the best skill.

"Since you've personally come here, you must be prepared to fight with me. Then come, don't destroy my excellent place in the repeat school."

After Xiang Yusheng finished speaking, the power of space burst out and instantly covered Banshi Luo like a vortex.

"Since senior Xiang is in such a good mood, I dare not disobey!" Banshi Luo smiled.

After he finished speaking, he did not resist at all and allowed himself to be sucked into the spatial vortex.

In the blink of an eye, the two of them disappeared at the same time, leaving only the shocked faces of the audience.

At their level of strength, especially when they were the Masters of space and time, once they got serious, they would inevitably destroy the world. It was basic to create another battlefield.

But now, Lin Yi, who was in the middle of the field, became the target of everyone.

The aura around him was fluctuating, and it was clear that he was still in the process of breaking through. Without a doubt, this was Lin Yi's weakest moment, and the consequences would be unimaginable if he was interrupted by an external force.

"King DU's strength is actually given to an outsider. This is really unpleasant."

After a moment of silence, someone walked up to Lin Yi.

Immediately after, more and more people joined his ranks. There were more than one or two people who coveted the power of the sole King. Although these people were not qualified to participate in the first-tier competition, if they were really defeated by a Big Shot at the peak of the early stage of the consummate level, they would be disgusted for the rest of their lives!

Anyone could be the winner, but not Lin Yi.

They didn't even dare to make a sound when Banshi Luo was there, but now that Banshi Luo couldn't even take care of himself, it wouldn't be the repeating school's style not to make a move on Lin Yi.

However, tyrant, flame pool, Fallen Dragon, and heaven's secrets didn't move.

After all, they didn't covet King's power at their level, and as one of the five, their target was Banshi Luo. It wouldn't be nice if people knew that they were hitting Lin Yi when he was down.

Zhang Qiu, on the other hand, was worried for Lin Yi as he glanced at Tianji.

Tianji was very optimistic about Lin Yi's chances before, and even asked him to express his goodwill. Now that they'd passed Hong Baxian and du Wang, it'd be a pity if they were to fail at the last moment.

However, Tianji remained unmoved.

Not only did he not want to help Lin Yi, he didn't even look at him. He was focused on the void, as if he was watching the final battle between Xiang Yusheng and Luo Banshi!

In comparison, everything that was happening in front of him was insignificant.

The five Giants "indifference was a silent encouragement to the others. After getting their support, more and more people joined the ranks of attacking Lin Yi.

If they killed Lin Yi now, the king's power might not be fully digested yet, and they might even get a share!

Face is nothing, can it be eaten?

Seeing that everyone had already reached Lin Yi's side, Lin Yi wasn't on guard this time, and he didn't use the time reversal that Banshi Luo had given him. After all, even Banshi Luo had to go all out against Xiang Yusheng, and couldn't spare any energy to care about other things.

"Failed at the last step ..."

Zhang Qiu couldn't help but feel sorry for Lin Yi, but at that moment, a never-before-seen spirit sense attack swept through the entire area.

His divine sense trembled, eight layers of resonance!

Everyone who was attacking Lin Yi trembled at the same time, and the scene fell into a strange silence without warning.

Bang! Bang!

Someone lost consciousness and fell, followed by a second, a third, and eventually the entire area. Everyone who was attacking Lin Yi lost consciousness in an instant!

"You want to take advantage of me with such a small amount? I'm still a little displeased just thinking about it."

Lin Yi patted his butt as he got up, looking at the repeated students all around him with a calm expression.

Everyone was shocked.

Even Zhang Qiu couldn't help but reveal a look of shock. Not everyone had participated in the attack just now. Tyrant, the five Giants, and some of the other Super Combat forces that represented the 13 elites had all stood by and watched. Even so, the number of people who had participated in the attack had still reached three digits, and there were many of them who were at the late stage of the consummate level!

There was even an expert at the peak of the late stage of the consummate level among them, who was ranked 17th in the top 100!

"Did you succeed in breaking through?"

Zhang Qiu couldn't help but test Lin Yi's strength-the guy was a monster before, and he'd been a quasi-giant five before breaking through. Now that he'd broken through, he was probably at the door of the giant five.

However, the result he received made him slightly stunned. A Big Shot was at the middle stage of the consummate level.

His cultivation level had indeed increased by one level. For ordinary freshmen, this was an impressive improvement. However, compared to the huge power of the sole King that he had swallowed, this improvement was too insignificant.

Chapter 9659 Power

Logically speaking, even if he couldn't directly ascend to the pinnacle of the consummate level of a giant in one go, he would still have to cross at least four cultivation realms. In theory, he would start from the peak of the late stage of the consummate level of a giant!

In fact, even Lin Yi himself had predicted this from the start.

However, from the results, it seemed that the five elements perfect domain's restrictions on realm breakthroughs were far beyond his imagination. Even if he digested the powerful strength of the unique King at once, it could only increase his realm by one level.

However, even so, the huge increase in his strength was real. Putting aside everything else, just the rise in the primordial spirit realm was enough to further widen the advantage of his deified soul, and it became an out-and-out super trump card!

Just like now, a casual spiritual sense shock directly shocked the entire scene.

"Hehe, the half-teacher senior has indeed sent us an extraordinary fellow. It seems that the repeating Academy will start to become lively in the future. I'm really looking forward to it."

Tianji broke the silence with a smile.

The other five had different expressions, but they all had one thing in common-they were all shocked by Lin Yi.

With just this shocking spirit sense alone, Lin Yi already had the capital to dominate a region in the repeat school. A position below the five stars like the thirteen heroes wasn't enough for him.

"Are you trying to provoke me, kid?"

Lin Yi's body tensed up as tyrant glared at him.

Lin Yi looked at the man and raised an eyebrow. "If you think this is a provocation, then forget it."

As soon as these words came out, the entire place was in an uproar.

He'd already proven his strength, but the way he faced the tyrant without hesitation in front of the other five was still a big surprise.

"How dare you!"

Tyrant flipped out and threw the woman in his arms at Lin Yi like a human cannonball!

The reason why tyrants were tyrants was because their ruthlessness could not be measured with common sense.

The woman's wail was accompanied by the crowd's exclamations. In an instant, she was in front of Lin Yi. Everyone's eyes were wide open, waiting for Lin Yi's response.

Should he kill this pitiful woman, or take a step back and avoid her?

Or should he use an even more melodramatic method to save this poor woman and play the hero saving the beauty?

However, Lin Yi didn't move at all.

He didn't even bat an eyelid as he allowed the woman to smash towards him. However, the woman didn't hit him in the end. Instead, she crashed into the territory's protective layer three meters in front of him and exploded into a bloody red.

Such a horrifying and bloody scene, even the experts who had been killing for a long time couldn't help but subconsciously cast a sidelong glance.

However, he immediately realized that something was wrong. This woman was not human at all, and the red ball that exploded was not blood at all. The scene quickly filled with the smell of alcohol rather than blood.

"It's actually wine?"

Finally, someone reacted and recalled the tyrant's signature powerful domain, the wine pool.

Lin Yi was surrounded by wine, and even a sniff would tell that it was a hundred-year-old wine. A normal person would be drunk if they touched a drop of it, and even a complete giant wouldn't be immune to it.

To a certain extent, this thing was even more incurable than those deadly poisons!

However, this was only the most insignificant additional effect of the wine pool.

However, anyone with eyes could tell that tyrant was ready to get serious now that he used the wine pool. There weren't many repeat students who could make this monster serious, but Lin Yi seemed to have the right.

As expected, the drunk tyrant was right in front of Lin Yi.

This was not a spatial ability. With the wine pool domain's support, it was as effective as spatial abilities. As long as the wine aura spread, tyrant would be everywhere.

"I thought he was a boor with a speed flaw ..."

Lin Yi shook his head. He was in the process of breaking through, but he'd been observing when tyrant and the others attacked Banshi Luo. Tyrant's movements were fierce, but his speed was weaker than his peers.

However, the existence of the wine pool perfectly made up for this flaw!

It didn't take long for Lin Yi to realize how terrifying a brute with top speed was. It was also the first time he experienced the terror of a peak-level King-level tyrant!

He was directly sent flying.

It wasn't hard to understand why he had been sent flying by King DU's palm. After all, there was a huge gap in strength. But now that he had digested King DU's power, although his realm had only risen by an insignificant level on the surface, his actual strength had already been reborn.

It was extremely difficult to upgrade the five Element domain. As for the unprecedented perfect Five Element domain, it was almost an iron-clad rule that it couldn't be upgraded!

Lin Yi's increase in level wasn't any less than breaking through to the peak of the final stage of the giant's realm. Just the increase in his Foundation was enough to put him above all the other giant's peak of the late stage of the final stage of the giant's realm.

In fact, Lin Yi even thought that he could fight the tyrant with his body before the tyrant made his move. Even if they couldn't fight evenly, it wouldn't be a one-sided battle.

The result proved that he had thought too much.

"It's true that he has absorbed all of King DU's power, but I'm afraid that he can only mobilize less than one-tenth of it."

Lin Yi immediately corrected his understanding of his current state-he'd been crushed, but his strength was there, after all, and it wasn't too big of a loss.

Moreover, even if he was injured, he had a divine skill like heaven reversal to deal with him, so he was not weak at all.

Tyrant raised an eyebrow at Lin Yi's sudden appearance, but he quickly burst out laughing. "He's clearly a weakling, but I didn't expect him to be so durable!"

After he finished speaking, he went all out. His originally fat and bloated body suddenly became majestic. Not only was his strength violent, but even his attack rhythm was so fast that it was difficult to understand. Even a natural agility-type expert could not be compared to him.

More importantly, a casual palm strike from this guy was ten times more powerful than the feigned death lone king 's, and he could kill a group of people in seconds!

BOOM!

Lin Yi transformed into the Titan Buddha in an instant, golden light shining in all directions as he faced the attack head-on. This time, he wasn't sent flying, but it was a stalemate!

"He actually managed to hold off the tyrant?"

Everyone turned pale with fright, especially those few of the thirteen elites who had been eager to fight. They immediately extinguished the idea of taking the opportunity to find trouble.

Not everyone could fight with such a monster, people would die.

The tyrant was also very surprised, but it was also a little shocked. After it burped, its attack suddenly increased. Whether it was the strength or the rhythm, it easily increased by several times!

Chapter 9660 Power

Tyrant was also very surprised, but he was not too surprised. After a loud burp, his attack suddenly increased. Whether it was his strength or rhythm, it was a terrifying increase of several times!

"Jiuchi gets fiercer the more you fight, can you withstand it?"

Zhang Qiu couldn't help but worry for Lin Yi.

The tyrant in his current state was powerful, and his violent nature would not deliberately hide his strength. When he attacked, he would use his full power. However, the problem was that the special characteristics of the wine pool meant that his upper limit could be increased infinitely.

The Hundred Schools of Thought had once analyzed that with every increase in the tyrant's drunkenness, his strength would double.

In other words, the more drunk he was, the stronger he would be!

The tyrant before him had just started to reek of alcohol and was still far from being truly drunk. He had not even used his well-known technique to persuade others to drink. It was at best a warm-up.

Of course, not many people would be able to handle it even if it was just a warm-up, and Lin Yi's performance was a monster among monsters.

The problem was, what would happen after the warm-up was over?

No one thought that Lin Yi would be able to last that long, but the other one's actions shocked them once more. Yan Chi had made his move.

"Don't tell me that old man Yan thinks that tyrant can't take care of Lin Yi?"

Everyone looked at each other.

The relationship between the five Giants had always been complicated. They had a friendship with each other in the General Affairs Office. To a certain extent, they could be regarded as a community of shared interests. There were also deep grudges between them, even life-and-death grudges.

However, he had never heard of any grudges between Yan Chi and the other five Giants. He would not easily interfere in the affairs of the other five Giants.

Unless he felt that it was necessary.

"There's no enmity between us, and I'm not a meddlesome person. However, the balance can't be broken, and the repeat Academy doesn't allow an unstable element like you to exist. "

"Forgive me for my rudeness," Yan Chi slowly drew his saber.

With a slash, everything in front of him instantly evaporated. No one could see the flames, but everyone knew that the strongest flames of the retained students were wreaking havoc in front of them!

"The old man is actually serious?"

At this moment, the top experts under Yan Chi were the most surprised. No one knew Yan Chi's character better than they did. Although he was impatient, he knew how destructive he could be, so he had always restrained himself.

It wasn't an exaggeration to say that if it wasn't for the old man's years of self-cultivation, the huge repeat school would have been reduced to scorched earth dozens of times.

Even when he was fighting Banshi Luo, the old man was only testing the waters. He did not expect that he would be serious when he was up against a so-called newcomer King!

The flames swept towards Lin Yi, but he didn't retreat. He continued to maintain his Titan Buddha form and fought tyrant head-on, black flames surging out of his hand.

The extreme of the five elements, fire element great burning heavens!

Power collided with power, and fire collided with fire.

The ground under their feet couldn't withstand the force anymore and cracked, turning into boiling lava under the extreme heat. The people who were knocked out by Lin Yi were now unlucky.

The more fortunate ones were burned by the lava, while the less fortunate ones were swallowed by the lava without even being able to make a sound.

Human lives were like grass. In the repeat school, even a Big Shot at the level of Great Perfection was just a patch of wild grass that could be harvested at any time.

Even the subordinates of the five Giants and the thirteen elites were forced to retreat.

All elites had their own dignity. As the face of the sect, they were all important figures who wanted to save face, but at this moment, they could only retreat. This was already a completely different concept.

If they forced themselves to stay, it wasn't a matter of face. Perhaps the heavy price of being affected by the aftermath was enough to make them consigned to eternal damnation!

The only ones who could ignore this were Tianji and the fallen Dragon, who were at the same level as them.

After a long time, a Wolf fell from the dust.

Everyone looked at the center of the arena, waiting for Lin Yi's tragic death. To be honest, it was already an honor for him to make two of the five fight together.

However, the Golden Titan Buddha disappeared, but Lin Yi was still standing in the middle of the field, facing tyrant and Yan Chi. His face was calm.

"If there's anyone else who wants to fight, why don't we do it together?"

Lin Yi said to everyone.

Everyone was speechless.

Even the five Giants, especially tyrant and Yan Chi, were expressionless, let alone those who had been forced to the edge.

The two peak five Giants had joined forces to suppress him, but in the end, they were ridiculed instead. Most importantly, they were speechless. What kind of F * cking card was this?!

"The new five Giants have been born."

Someone sighed and spoke of the reality that no one present was willing to admit.

Taking on two of the five Giants head on, Lin Yi's strength was undoubtedly at the level of one of the five, not to mention that he had the mysterious Banshi Luo behind him.

Before they reached the level of the five Giants, they were regarded as an unstable factor in their eyes, but once they truly entered the level of the five Giants, they would immediately change and become an important force that couldn't be ignored to maintain the stability of the retained students.

Everyone present understood this principle.

Hence, no one was surprised by tyrant and flame pool's sudden stop and the other two of the five Giants' nonchalance.

The only variable now was the battle in the void that was beyond the five Giants!

If Banshi Luo won, Lin Yi would have a firm foothold in the repeat school, and no one would be able to ignore his existence. If Xiangyu Sheng won, then he would either stay and be a dog, or run away with his tail between his legs. There was no third option.

However, no one present could see the situation in the void except for Tian Ji. Even the five Giants were no exception.

The only thing they could do was to wait.

"How's the situation?"

The cold-faced Fallen Dragon suddenly asked.

Everyone looked at Tianji and saw that he had a serious expression on his face. ""They're in a deadlock. "

This answer was within their expectations. Xiang Yusheng and Luo Banshi, from the repeaters' perspective, naturally hoped that the former was stronger, but the strength that the latter had just displayed was enough to overturn their understanding.

Even if Xiang Yusheng could win, it would be impossible to determine the winner in a short time.

Zhang Qiu glanced at Lin Yi and reminded him, "If teacher Luo is in a stalemate with senior Sea King here, I'm afraid the Academy will be in trouble, right?"

Lin Yi's heart dropped.

Compared to this side, the situation at the Academy was truly dangerous and unpredictable. During this period, the first seat Department, under the leadership of Xu Anshan, had completely controlled the overall situation.

The native faculty's forces were annihilated, the second-in-command, Shen Qingnian, was missing, and the third-in-command, Zhang Shichang, was seriously injured and unconscious. The only thing left that had not been broken through was the college prison where the half-division was located.
