

Bodyguard 9661

Chapter 9661 Power

In fact, due to the intervention of the Board of Directors 'experts, the situation in the Academy's prison was also precarious, and it could be broken at any time. It was all thanks to Banshi Luo's personal deterrence that the prison was able to hold on until now!

Once the news that Banshi Luo was being held back by Xiang Yusheng reached the Academy, the first seat would definitely not let go of this God-given opportunity.

Without Banshi Luo, there was no doubt that the Academy's prison would be able to withstand the double attacks of the principal department and the School Council.

Once the Academy's prison was broken, it was obvious what would happen to the newborn Alliance under its protection.

This was simply a dead end with no solution.

The problem was that even with Lin Yi's current strength, he wouldn't be able to do anything even if he rushed back!

In the face of a true large-scale melee, an individual's strength was still too weak, even at the level of the five Giants. After all, the top combat power of the opposite side was not bad either, or even better!

The only thing he could do now was to wait.

The Academy's prison.

From the second-in-command, Chen Guo, all the Masters of the half-division were gathered in a tight formation, and several detection Masters were monitoring the movements around the prison, especially those dangerous people who had been marked.

"Fourth seat, Song Jiangshan, and his subordinates have been discovered in the North! Two kilometers away!"

"Sixth seat, Qin Shi, and eighth seat, Chen Chuangu, have been discovered in the West! Distance, 1600 meters!"

"The Board of Directors' experts from the East and South are approaching. They're ... 1200 meters away!"

The nervous announcement came one after another, and the atmosphere of a storm was so heavy that everyone could not breathe. Even Chen Guo's face was ashen. "Where's Xu Anshan? Where is Xu Anshan?"

Everyone knew that once Xu Anshan showed up, it meant that the general attack had begun, and the situation was extremely dangerous.

"Nothing detected yet!"

This answer did not make everyone heave a sigh of relief. Not being detected did not mean that he did not appear. With Xu Anshan's strength, if he really wanted to hide his aura, even if the half-master department's side was full of one-in-ten-thousand detection experts, they might not be able to find his traces.

Moreover, all the signs indicated that the other party had already set up their formation and was ready to take advantage of this opportunity to make the final decision.

"The number of people stationed at the West Gate is limited. Facing the attack of two 10-seat teams at the same time, the pressure on the defense is too great. It is recommended to transfer people to reinforce the West Gate!"

"You're joking! Where are we going to find extra people?"

"But the West Gate leads directly to our hinterland. Once the West Gate is broken, we'll be attacked from both the front and back!"

"Wait, it doesn't seem like we don't have any extra manpower. Aren't there still that group of new students? I don't think they've made any contributions since they came here. "

Everyone could not help but look at Chen Guo.

Banshi Luo treated the rookie Alliance very well. Although no one dared to say it out loud, there were many criticisms in private. Usually, they could suppress it, but at this time, they could no longer suppress it.

Although the freshmen weren't strong and couldn't be the main force, they were more than enough to be cannon fodder with the abilities of the freshmen Alliance.

Chen Guo glanced at the crowd and said coldly, ""What's the use of a group of noobs? You guys actually placed your hopes on a group of new students, hoping that they would share your burden, don't you find it embarrassing?"

"....."

Everyone looked at each other and was speechless.

At this moment, the few detection experts' faces suddenly changed. "They've made their move!"

"Motherf * cker! I've been waiting impatiently, so everyone, listen up!"

As soon as Chen Guo gave the order, the group of experts looked solemn. There was no longer any resentment and panic. Instead, they exuded an aura of iron and blood that made people look askance.

In terms of theory and teaching, if Banshi Luo claimed to be second in the entire Jianghai Academy, no one would dare claim to be first!

Chen Guo's gaze swept across everyone's faces and he said in a deep voice, ""We have no reinforcements, and there is no way out. Once the prison is broken into, all of us will become stray dogs. I don't want to be a stray dog, and I believe you are the same. So be prepared to die Here!"

"As long as he's here, the prison will be here!"

Everyone agreed.

Everyone knew that the chances of winning today's battle were slim, and the only chance they had was to hold on until Banshi Luo returned.

The College's network instantly boiled over, and this unprecedented Super Battle was broadcasted live from all directions. Many legendary figures of the college who had been silent for many years came out of the mountains to provide commentary.

The student council, the School Council, and even the most closed school for repeaters, everyone was nervously watching every clash between the two sides. Online and offline, all kinds of bets were placed, and it seemed to have become a feast of the century!

Even Lin Yi's location had a live broadcast set up.

"The difference in strength between the two sides is still too big. The half-master class has been suppressed since the beginning!"

Zhang Qiu looked at Lin Yi's expression and analyzed for the group, "Chen Guo's performance was indeed impressive. He suppressed three 10th seat experts by himself, but it still couldn't make up for the difference in numbers between the two sides."

"Moreover, the most important person, Emperor Xu Anshan, hasn't made a move yet."

Even if the situation was not one-sided, the Academy's prison was already in danger, especially the Western Front, which had the weakest defense. It was already on the verge of collapse from the beginning.

Lin Yi watched all of this without any expression on his face. Not seeing the freshmen on the battlefield made him feel a lot more at ease, but when the nest was overturned, there would be no intact eggs. Once the half-division fell, the freshmen Alliance would be crushed in a matter of minutes.

"The defense is broken!"

Someone suddenly called out, and Lin Yi's eyes twitched. The projected image indeed opened up a hole in the Western Front of the prison, and the half-Masters who were barely able to hold on just now had their defenses broken down-they quickly started dropping people.

"That's too fast. It's only been a few minutes. Is a half-master so weak?"

"The difference is so big. It'll be good if he can last a few minutes."

Someone said a fair sentence, but the situation that followed was shocking. A small team of fresh soldiers appeared from nowhere on the Western Front, and with just a few people, they actually forcibly stopped the momentum of the collapse of the half-division!

Shen Yifan, Yan Zhongyuan, Wei baizhan, Qiu sanniang ...

Although not all the members of the new student Alliance were participating in the battle, this small group of new students was the core of the Alliance!

"These guys ... They've grown a lot,"

Lin Yi couldn't help but feel cold sweat for everyone. These people were strong among the freshmen, but it was still too much for them to be in such a high level battlefield-they could become cannon fodder at any time.

However, ten minutes passed, and Shen Yifan's group didn't suffer any losses as Lin Yi had expected. Instead, they fought even more fiercely, and each of them was adapting to the battlefield at a speed visible to the naked eye. Their presence was getting stronger and stronger!

"Newborn calves are not afraid of Tigers. As expected of the Golden generation. This group of people were born for big occasions!"

Even Zhang Qiu couldn't help but be envious of Lin Yi, despite his pride as someone who never fought for anything. Even the five Giants were tempted.

Chapter 9662 Power

A thousand gold was easy to get, but a general was hard to find.

The group of freshmen that appeared on the screen exuded an aura of unpolished jade with their every move, enough to make anyone who loved talent palpitate with excitement. As long as they were trained slightly, this group of people would definitely have a boundless future. They would be able to hold up the face even under the five giant puppets.

The most outrageous thing was that in the picture, Yan Zhongyuan even took on the eighth seat, Chen Chuangu, all by himself!

They were the real top ten experts. Even if they were ranked at the bottom, they were still important figures no matter where they went. Although they were not at the level of the top five, they were still among the top thirteen!

"Where did so many new monsters come from?"

Everyone subconsciously looked at Lin Yi, thinking back to how he didn't lose to the two big Five. Yan Zhongyuan's performance was still amazing, but it didn't seem that hard to accept.

Before they could calm down, they saw Wei baizhan start to kill everywhere. In the Super battlefield where big shots at the peak of the middle stage of the consummate level were everywhere, he displayed a dominance that was more than one level higher.

In terms of visual impact, he was even more impressive than Yan Zhongyuan!

In addition, Shen Yifan, who was supporting everywhere, was also extremely eye-catching. Qiu sanniang's iconic kicking skills combined with her long legs became a beautiful scene, firmly attracting the eyes of all men.

The rest of Yue Jian's group also seemed to be at ease, especially the blind Bao shaoyou. In the past, he gave people the impression that he was quiet, but this time, when he attacked, he killed a large number of people. In terms of killing intent, he was no less than Wei baizhan.

With such a group of soldiers joining the battle, it was completely reasonable that the situation on the Western Front, which had already lost balance, was forcibly reversed.

On the other hand, because of their activity, the main force, which was the attacking side, rapidly lost its members, and there were faint signs of weakness.

"If the Western Front can be defended, the half division division still has a chance!"

Zhang Qiu's analysis was still on point.

The other battle lines were still being suppressed, but under Banshi Luo's guidance, they were able to unleash their full potential. Their cooperation was far better than their opponents, and it made up for the gap between their high-end combat power. It was hard to say if this would last for a long time, but at least they could stabilize their position for a short period of time.

In such a situation, once Banshi Luo returned, it would be a huge unknown who would win.

After all, Banshi Luo's status was truly terrifying.

"Wait! There's a change!"

Not only Zhang Qiu and the others, but even Tianji showed a surprised expression.

As a person who stood at the top of the repeat school, there were only a handful of people who were qualified to make him pay attention to them, whether it was the school or the Academic Council.

And on this list of top-class people, there was one name that was definitely at the top. Even he had to pay full attention to each and every one of their actions.

The head of the Academy, Emperor Xu Anshan.

As the strongest force on both sides of the battle, Xu Anshan's opponent was Banshi Luo. The analysis of public opinion unanimously agreed that if Banshi Luo did not appear, Xu Anshan would not easily reveal

himself. After all, the lineup had a huge advantage on paper. Even if both sides formed a trade, the first seat element would still make a profit without any loss.

On the other hand, if Xu Anshan made a move easily, Banshi Luo could easily turn the tables on him if he showed any flaws in the process.

That would really be a loss.

No one had expected Xu Anshan to appear at this time, and he had appeared at the Western Front!

BOOM!

Xu Anshan didn't do anything. He just appeared on the battlefield, and his innate Emperor's pressure automatically suppressed the entire scene. Then, the people below knelt down one after another, regardless of whether they were friend or foe, and all paid respects to the Emperor!

All experts had their own pride. Even the chief disciples would not easily kneel to anyone, including Xu Anshan.

However, reality did not give them a choice. Under Xu Anshan's Emperor's pressure, even if they were extremely unwilling, their bodies could not be controlled by instinct.

In front of the Emperor, one had to kneel.

All the experts present knelt down one after another. Even if there were a few strong-willed ones, they could only submit obediently when Xu Anshan's gaze swept over them.

The only people who were still struggling were Shen Yifan and a few others.

"Your will is commendable, but you still have to accept your fate. Kneel down."

Xu Anshan's calm words were like a huge mountain pressing down on everyone's heads. It was completely unbearable. No matter how hard one's knees were, they couldn't withstand such a blow.

Bang! Bang! Bang! Bang! Bang! Bang!

The backbone of the newborn Alliance fell one after another, but without exception, all of them collapsed. They did not follow their instincts and knelt down. This was the last resistance they could make.

Xu Anshan landed from the sky and walked leisurely over Shen Yifan and the others under the gaze of everyone.

The Western Front was broken!

The entire battlefield and even the entire network of the Institute watched this scene in a daze. It was deathly silent.

The fall of the prison was expected, but it was lost in such a way that it made people speechless. However, this scene also refreshed everyone's understanding of the Academy's top combat power.

The suffocating and terrifying dominance was simply indescribable.

Once the Western Front was broken, the situation on the other three front lines was also instantly out of balance, and it looked like it was about to collapse.

"If no one stands up to stop Xu Anshan, the half-Master Division will be finished. Even if half-master Luo can come back to help, it will be useless."

Before Zhang Qiu could finish his sentence, a non-human and powerful figure appeared on the screen and clawed at Xu Anshan's head.

Demonic dragon form, Chen state!

Lin Yi squinted his eyes. He'd met the State of Chen once, and although it was just a test, he knew his strength far better than anyone else.

Just the strength that he had displayed previously was already on par with the five Giants, which was not any weaker than his strength before his promotion. If he had one or two powerful hidden cards, even if he could not be on par with the five Giants, he would at least be at the edge of the threshold.

At this moment, if there was anyone in the half-master faculty who could stop Xu Anshan, it would be the second-in-command, Chen Guo!

However, facing such a powerful Chen, Xu Anshan did not even look at them. He continued to walk forward slowly while throwing out a palm strike.

BOOM!

Chen Guo, the demon Dragon who descended from the sky, came quickly and left even faster. Without any suspense, he was directly sent flying, just like the cannon fodder.

Everyone was dumbfounded.

Was the second-in-command of the half-master faculty too weak? Or was Xu Anshan's power beyond everyone's understanding?

At this rate, even if Banshi Luo were to return, it would be difficult for him to gain an advantage.

The half-master Deans were in despair.

With Xu Anshan's unhurried steps, the last bit of fighting spirit began to fade away quickly. Then, a red-robed man appeared in front of him.

"You?"

Xu Anshan raised his eyebrows and looked at the woman in front of him. He raised his hand and used the Emperor fist.

Chapter 9663 Power

For him to take the initiative to punch, it was enough to prove that the red-robed woman was extraordinary.

What was even more shocking was that the red-robed woman laughed as she leaped forward, a twenty-foot-long giant red tasseled spear suddenly appearing in her hand.

The two sides passed each other. The red-robed woman was unscathed, but Xu Anshan's face had a trace of blood.

An insignificant trace.

The red-robed woman casually brandished her spear and placed it on her shoulder. She turned around and said, "Since when can you enter my territory as you wish? Do you really think that my spear can't kill people?"

“.....”

Xu Anshan didn't reply. He pulled out a long sword with a terrifying aura from the void with one hand. Two words were carved on both sides of the hilt.

By heaven's orders, one would live forever.

"The emperor's sword! The legendary Emperor's sword!"

The internet was in an uproar. It was rumored that this sword had recognized its master on the day Xu Anshan was born. The fate energy suppressed within it was so great that only those born with the Destiny of an Emperor could control it.

Taking out the emperor's sword meant that he was serious.

"Heh, that's scary."

Although the red-robed woman said so, she did not look afraid at all. She took the lead in attacking with the red tasseled spear and forced the fight to a 50 - 50 situation with Xu Anshan!

"This woman ... What's her background?"

Finally, someone muttered the question in his heart.

It was not that there were no female experts in Jianghai Academy, but a woman who could be so fierce was unheard of. After all, she was the Emperor, Xu Anshan!

Zhang Qiu calmed his shocked mind and replied, ""The prison warden of the Academy, Dongfang Yan."

"So it's her."

Only then did Lin Yi come back to his senses. Han Qi had mentioned this mysterious Warden before, but he didn't pay much attention to him at the time. He didn't expect him to be such a ruthless character!

Dongfang Yan's strong performance did not stop there. Although he did not gain the upper hand like before, Xu Anshan also found it difficult to truly suppress her.

The two sides had formed a real stalemate.

With that, the dangerous battle situation was finally stabilized again, and the half Master Division once again won a chance to survive.

Tianji's voice suddenly sounded in Lin Yi's head, "If you rush back now, you still have a chance to force Xu Anshan to retreat with that woman, although the chance is not big."

"....."

Lin Yi couldn't help but look at him in surprise. Although Zhang Qiu's friendliness must've come from the other party's instructions, this was the first time he spoke directly to Tianji. "You think so highly of me?"

It wasn't that Lin Yi was being humble, but his strength was indeed comparable to the five giant 's. Other than the fact that his Foundation was a little weaker, he could fight any one of them in a one-on-one fight.

But Xu Anshan's strength was there for all to see. Although Dongfang Yan and him had been going back and forth, in the eyes of a discerning person like Lin Yi, the difference between the two was obvious.

The difference was so great that even if one of the five Giants were to fill in, it might not be able to cause a splash.

"It's not a good habit to belittle yourself. Besides, don't underestimate that woman. "

Tianji's voice carried a hint of sadness. In fact, it was not only him. Tyrant and the others did not look so natural when they saw Dongfang Yan.

When they were still interning in the General Affairs Office, they had an encounter with Dongfang Yan. The result of that encounter had obviously left a bad impression on them.

Lin Yi smiled and suddenly had an idea, "It seems like there's no need."

Tianji was slightly startled, but he immediately nodded. "There's indeed no need. "

As soon as the two finished their conversation, Xiang Yusheng's figure walked out of the void. He was not in a sorry state, nor was he injured. It seemed that he had not suffered at the hands of Banshi Luo, but his expression was not so good either. It was obvious that he had not gained much advantage.

Seeing this, everyone held their breath and did not dare to breathe.

Xiang Yusheng's eyes fell on Lin Yi for a moment, "The eastern area is yours. Remember, don't cause any trouble for me, or even Banshi Luo can't protect you."

In other words, he was admitting that Lin Yi had replaced King du as the new five.

There was another uproar.

Lin Yi's strength as one of the Big Five was there, but he was still alone in the repeat division. Plus, a strong Dragon can't suppress a snake in its own territory. Normally, even if he could stand firm, he would have to go through some twists and turns.

However, now that Xiang Yusheng had personally admitted it, it was equivalent to getting the approval of the top of the repeat student institution. Especially since Xiang Yusheng didn't just represent himself, the other five wouldn't refute his words.

Sure enough, tyrant, flame pool, Fallen Dragon, and heaven's secrets didn't say anything. They all chose to agree.

Without their support, no matter how unwilling the others were, they wouldn't be able to do anything. It was true that Lin Yi didn't have much of a Foundation in the repeat division, but one person was enough to deal with them.

"A new chapter has been opened in the repeat school."

Zhang Qiu couldn't help but look at Tianji.

A month ago, Tianji told him something that shocked him to this day. Even until just now, he still felt that it was extremely unreal. However, the development of the situation kept verifying Tianji's words. No matter how unbelievable it was, he had no choice but to believe it.

Tianji said that the era of the five Giants was coming to an end, and the new era would be called Lin Yi.

According to this, the fall of King du was far from the end of the old era. It was only the first prologue of the turn of the era.

To the horror of the audience, Xiang Yusheng's figure suddenly disappeared, and then the fallen Dragon's figure also disappeared.

"Kid, I still don't like you. But since this old man has spoken, I'll let you go for now."

A group of scantily-dressed girls appeared beside tyrant, and he tossed a rough-looking wine jar to Lin Yi. "This is a thousand-year-old cellar I personally brewed. I wonder if you have the courage to drink it?"

Without waiting for Lin Yi's reply, tyrant laughed and left.

Even Lin Yi couldn't take the smell of the wine-a drop was enough to make one drunk, how many bowls could he take with his current strength?

Then it was Yan Chi's turn, but he didn't throw anything at Lin Yi. He just pulled out his long sword and waved it in the air, writing some big, hard-to-understand words.

"It seems that you are also a swordsman. The blade and sword are inseparable. This old man will wait for you at the flame pool."

After saying that, he left with his men.

Everyone looked at each other, not understanding what he was doing. Only Lin Yi, the person in question, was shocked.

What a deep saber intent!

With Lin Yi's current level, there was nothing that could shock him, but the word Yan Chi left behind contained a profound blade intent that sent chills down his spine. He couldn't help but feel like he was looking at a mountain.

He had still underestimated this old man!

Even though they were all part of the five Giants and it was difficult to determine who was better, the public opinion in the repeat Academy placed the five Giants at the back. There was no other reason. Compared to the other five giants of the past, he was too old.

Chapter 9664 The End

It was true that after reaching a certain realm, lifespan was no longer a limiting factor for cultivators. Looking old and wrinkled did not mean that one's vitality would decline, and it did not mean anything in itself.

However, there was at least one point that was publicly acknowledged. Yan Chi's cultivation talent was not comparable to the other top five. Otherwise, he would not be one of the top five now, but an existence that was on par with Xiang Yusheng and Banshi Luo.

Lin Yi thought so too, but now it seemed that he was completely wrong!

Everyone was used to thinking that the strongest thing in the flame pool was his domain power that could burn everything down. Little did they know that it was just a disguise he put on the stage to fool people.

The saber was his true background.

At this moment, Tianji walked over. "Since the two of them have sent you a congratulatory gift, then I'll be one of them."

Tyrant's thousand-year-old cellar and Yan Chi's sword intent could benefit Lin Yi a lot if they were used well. Anyone could see that the two were trying to make up for their relationship.

At least one thing was for sure-tyrant and Yan Chi didn't want to fight Lin Yi to the death.

As for Tianji, he didn't make a move on Lin Yi before and could've just walked away like the fallen Dragon, but he brought it up now to express his goodwill.

"I don't have anything good here, but I do have a lot of trivial information. I'll give you one for free."

"You're most concerned about that Chu Mengyao girl right now, right?" Tianji said through divine sense. Hehe, she's very safe now. You'll meet her soon, but her identity might surprise you. "

"Thank you," Lin Yi said, his heart thumping.

"In the future, if you want to inquire about any information, you can come and find me. However, you must first prepare the capital."

Tianji laughed as he left.

Lin Yi was suspicious, but his heart was finally at ease after hearing the words. He knew that Mengyao's situation was unusual, and even if she wasn't in too much danger, he still had to be on edge.

"Identity ... What identity would he have ..."

Lin Yi couldn't help but think of that mysterious old man beside Chu Mengyao. Even with his current realm and strength, he still couldn't see through the old man's background. It was terrifying.

What Lin Yi didn't know was that Mengyao was on an isolated island not far from the school, watching everything that was happening.

"If young lady likes it, you can catch him and bring him here to relieve your boredom,"

The old man stood behind him and said respectfully.

"Are the five of them that easy to catch?" Mengyao asked.

The old man was silent for a moment. "It will take some effort. However, if it can make the young lady happy, it is worth it to pay a little price."

"No need. We can't lose the big picture for the small. You can go do your things. There's no need to wait here."

Mengyao's tone was as calm as ever. "Also, I don't want to hear any more weird gossip, especially anything related to this Lin Yi guy. People will be unhappy."

After such a long time, she had already adapted to her new identity and knew how to deal with these old monsters.

Although he could foresee that in the future, Lin Yi would still enter the old monsters' sight and become their main target, it was better to drag it out as much as possible.

The later these old monsters acted, the more strength Lin Yi had to protect himself!

"As you wish,"

The old man retreated respectfully. His movements were meticulous, as if he was a noble who had been passed down for thousands of years.

As he walked out of the door, a shadow appeared out of thin air in front of the old man. It was Jiang Long, the Prince of Nanjiang.

The old man said directly, "the pond of stagnant water in the repeat school has started to move, but it's not strong enough. Someone needs to add fuel to the fire. I'll leave it to you, right?"

"What?" the Prince of Nanjiang frowned. "The repeat Academy is a Dragon's Lair and a Tiger's Den. How can an outsider like me interfere?"

"Oh, really? That's a pity. I've prepared twenty hundred beast pills as a thank you gift, but it looks like I won't be able to give them to you. "

The brocade box in the old man's hand flashed.

The Nanjiang Prince's eyes lit up. "Although it's difficult, it's not impossible to try. It's more than enough to ruin things. What you want is nothing more than a fight between the repeaters and the student council, forming an unhealable crack."

"It's really convenient to work with smart people. Then, I'll leave this matter to Nanjiang King."

The old man waved the shadow away. He was going to target Lin Yi, but he remembered Mengyao's order and suppressed the thought.

After all, Mengyao's status was very high, and he couldn't go against her words.

But what he didn't expect was that even if he didn't specifically warn Nanjiang King, the Nanjiang King wouldn't let Lin Yi go because of the conflict between him and Lin Yi. Not to mention, Lin Yi's outstanding performance was the perfect fulcrum to shake up the cracks in the retained students 'factions!

In the East District of the repeating school.

After everyone had left, Lin Yi looked at the person in front of him, speechless.

Hong Baxian.

"So, the one who died at King DU's hands was your twin brother, Hong Batian?"

Lin Yi couldn't help but find the explanation a little unbelievable, but thinking back, the mastermind did give off a different feeling from Hong Baxian. He thought it was just a good disguise, but it was two different people.

Hong Baxian, who usually stood in front of the stage, was the real Hong Baxian. The one who was manipulating everything behind the scenes was Hong Batian.

Hong Baxian nodded. "That's right. My mission was to attract the random soldiers in the palace so that they wouldn't be able to interfere with the great show that my twin brother had carefully planned. Although it seemed to have succeeded in the end, it still failed."

Lin Yi looked at him and said faintly, "So you're here to take revenge?"

"Revenge?"

Hong Baxian's expression was complicated as he laughed, "I should actually thank you. Without you, I might have to be his puppet for the rest of my life, a substitute for him."

"Also, thank you for helping me out with third brother."

Even though Bao Sanye was a fool, he didn't choose the wrong person to call his elder brother. He really treated Bao Sanye as a brother who had put his life on the line. If he had been there at the time, he wouldn't have let Bao Sanye die no matter what.

Of course, his words might not be useful to Hong Batian. There was a higher possibility that he would be abandoned like Bao Sanye.

"What's the plan?" Lin Yi asked after a moment of silence.

Hong Baxian's spirits were lifted. "You're now one of the new five Giants, and you have to take over the power vacuum left behind by the only King. It's not convenient for you to have no subordinates, right? what do you think of the Overlord's Pavilion?"

"Ha?"

Lin Yi was stunned. The Overlord's Pavilion was just a stepping stone for him to stay in the repeat school. To be honest, he didn't have any other thoughts. After all, he was used to the new student Alliance's energy and wasn't interested in these old foxes.

In short, there was no value in nurturing them.

Chapter 9665 Power

Hong Baxian took the initiative and said, "I know that you look down on the people from the Overlord's Pavilion. No matter how hard they train, they can't be as sharp as your group of new students. However, a large force needs both elites and mediocre people. After all, many things need to be done by a large number of mediocre people. Although the Overlord's Pavilion is not the best choice, it is the most ready-made one for you. What do you think?"

Lin Yi fell into deep thought.

If he wanted to quickly expand his influence in the repeat school, he needed these people. The problem was whether Lin Yi could suppress Hong Baxian's ambition.

Hong Ba was ambitious. Even if he was just Hong Batian's puppet, he still had his own ambitions.

If Hong Batian dared to target the former du Wang, then Hong Baxian might as well target Lin Yi, the new one!

Lin Yi wasn't afraid of the guy playing any tricks, but it'd be troublesome if he did.

After weighing the pros and cons, Lin Yi finally relented. "What do you want?"

Hong Ba froze and looked straight into Lin Yi's eyes, "I want to fight for a chance, a chance to reach the Omega Level of the Almighty."

"I'm just a Big Shot at the mid-stage of the full cultivation, what can I guarantee you?" Lin Yi said.

"I believe in Tianji's vision."

Hong Baxian was full of confidence and said, ""I know you can't vouch for me, and I don't need you to vouch for me. Every era has a son of destiny. As long as I get a free ride from you, there will be a time when everything will come to fruition."

To put it bluntly, it was better to enjoy the shade under a big tree-he was sure that Lin Yi would be a big tree in the future.

Lin Yi smiled,"since you've already said so much, I'd be too stingy if I didn't agree. Fine, I'll represent the newborn Alliance to welcome the Overlord's Pavilion."

"Subordinate Hong Baxian pays his respects to the Alliance master!"

Hong Baxian didn't hesitate to pay his respects. Since he'd joined Lin Yi, he was naturally a man who knew when to let go.

"Alliance master ..."

Lin Yi rubbed his nose and helped him up."That sounds a little weird. You can call me boss like the rest. Old Lin is fine too."

"Greetings, boss!"

Hong Baxian was overjoyed-calling him boss didn't mean anything, but at least Lin Yi had accepted him. That was enough.

Lin Yi didn't waste time and ordered, "The eastern District is too big. There will be a period of chaos. Remember, I don't want territory, but people. As long as he has the ability and is not evil or cunning, we will accept him."

"Understood. With boss's current prestige, a wave of your arm and a call will definitely attract a large number of people to join you. I will pay attention to screening."

Hong Baxian was very excited. He had given him power as soon as he came up, which showed that he had indeed made the right choice.

In the face of his former superior, especially with the Hong Baxian incident, others would definitely be wary of him. Even if they did not do some checks and balances in the open or in the dark, they would not easily give him power.

One could only say that he, Hong Baxian, had the magnanimity to choose to lower his head, and Lin Yi also had the tolerance to do things.

It turned out that Hong Baxian's ability to do things was indeed first-class, not to mention other things. In less than three days, the atmosphere of the entire East District had changed.

With the Overlord's Pavilion's strength as a whole, they couldn't completely suppress a force, but under Lin Yi's power, those with a little bit of insight wouldn't dare to come out and touch the bad luck. As for the rest, they couldn't do anything in front of the Overlord's Pavilion.

If Lin Yi didn't raise the standards, he could've taken over the entire eastern area in ten days. Unfortunately, the repeaters were a mess, and not many of them could meet the standards.

But this didn't affect Lin Yi's control over the eastern area. Even if it wasn't as strong as when he was the only King, with Hong Baxian's full support, it was only a matter of time.

At the same time, another matter was being carried out in an orderly manner, which was to collect the origin of the secret plane.

Xiang Yusheng publicly agreed to let Lin Yi take over the East District, which meant that he acquiesced to the opening of the repeat yard to Banshi Luo. The result of his battle with Banshi Luo was obvious.

As long as they collected enough origin of the secret realm, half-master Luo would be able to connect the school prison to the East District, turning the huge repeat students into a huge depth for the half-master Department. In that way, there would no longer be the terrible situation of being unable to turn the situation around and being forced to fight a decisive battle with an opponent who had an advantage.

To add on, the battle between the chief and the half-division was urgently called to a stop after Banshi Luo returned. In the end, the Tian family's eldest master, Tian Xiangyang, came forward to mediate and barely reached a temporary armistice agreement.

Although they were still in a state of mutual hostility, they did not start another war.

The intimidating power of Luo Banshi and Dongfang Yan was beyond the imagination of many people.

After all, although Tian Xiangyang didn't directly participate in this war, whether it was the school's Board of Directors or Xu Anshan's special relationship with the Tian family, they were all obviously related to him.

By stepping out to mediate, he was actually giving in to Banshi Luo to a certain extent, even lowering his head!

"The one with the advantage chose to bow his head. Is the Lord of the Tian family such a good-tempered person?"

Lin Yi couldn't help but wonder.

He had come into contact with Tian Xiangyang at a close distance before. The impression that Tian Xiangyang gave to others was indeed not that of a high and mighty person. However, the noble and haughty air that was hidden beneath his carefreeness was something that even those with slightly slower reactions could sense.

Would such a person give in for no reason?

The only answer he could come up with was that there was a huge external threat that had forced Tian Xiangyang to do this. The situation in the outside world had probably worsened beyond his expectations!

"Boss, something has happened."

Hong Baxian suddenly appeared in front of Lin Yi with a serious face. Lin Yi was used to seeing this fierce and aggressive side of the man, and he wasn't used to it.

"Boss, take a look at this first."

Hong Baxian said as he handed over a newspaper.

To be more precise, it was a character log produced by the Hundred Schools of Thought and sold together with the top 100 list. It was extremely popular in the retained students, and almost everyone had a copy. After all, the secret Pavilion was behind the Hundred Schools of Thought, and to a certain extent, it was equivalent to the retained students' official court bulletin.

King du had fallen, and Lin Yi took over.

At the same time, many of the top experts below the top five had also died, including Ren Tianyuan, Xing Zhang, Li Yushu, Liu Yun, and so on. The top 100 rankings were bound to undergo earth-shaking changes, and everyone was paying close attention to this issue of the top 100 rankings.

It was the first of the top 100, Sea King Xiang Yusheng.

This was within everyone's expectations. Previously, Xiang Yusheng had deliberately hidden his identity and did not participate in the top 100 ranking. Now that he had returned to the top, it was well-deserved.

As for whether or not there were other powerful old monsters hidden in the school of retained students, no one could say for sure. To be precise, even if the pavilion of heavenly secrets and the Hundred Schools of Thought had control over them, they wouldn't casually release them, even if they were at the top.

Chapter 9666 -Power

That wasn't a favor, it was a feud.

Tyrant, Fallen Dragon, heaven's Secret, and Yan Chi were ranked second to fifth on the list.

It was also within everyone's expectations-even if Lin Yi had the feat of fighting two people at once, unless he had the record of beating the other five in a direct battle, it was natural for him to be at the bottom. After all, the difference in their foundations was too big.

However, Lin Yi wasn't sixth.

What replaced it was not one of the leading figures below the five Giants, but an extremely ridiculous name that many people were unfamiliar with.

Quanfu.

"It sounds like a dog."

Hong BA's first words represented the perception of most people.

The top 100 was the authoritative ranking, and every respected master in the retained students' courtyard cared about their own ranking. If the top ones were true Masters who could suppress them, they wouldn't be able to say anything.

But this quanfu-he'd never shown his face in front of anyone before, and he didn't do what Lin Yi did-go up against two of the five Giants and make a heaven-defying performance! What made him sixth?

Many people who didn't like Lin Yi couldn't help but feel indignant for him.

If that was the case, the public would be dissatisfied and would at most complain, but the problem was that Lin Yi wasn't even after sixth place. Not only was his name not in the top ten, but he wasn't in the top twenty, or even the top thirty!

39th in the top 100, Lin Yi.

All the Masters from the repeat students who saw the ranking fell into silence.

Lin Yi was ranked 43rd last time, and he hadn't even broken through to the next level yet. He didn't even use the ultimate five elements yet, but now he was completely different. He was able to fight two of the five Giants together and didn't lose. His ranking went up by four places.

By the way, Hong Baxian was ranked 36th in the top hundred.

Hong Baxian and his men couldn't control their emotions any longer, killing intent on their faces. They didn't care how the hundred families society manipulated their own rankings, but a public ranking like this was obviously vilifying Lin Yi-it was a completely different story.

The subject would die if the master was humiliated!

It wasn't an overstatement to say that this was the hundred schools of philosophy's declaration of war against Lin Yi. If they didn't tear down the Hundred Schools of Thought, how could they be called the new five Giants? He would definitely be looked down upon by everyone!

There was no need to even think about it-the entire retained area was waiting for Lin Yi's reaction, waiting for this new big Five to reveal his fangs!

Lin Yi, on the other hand, didn't react at all. He smiled, not thinking much of it. "You're a little humorous."
"

"....."

Everyone looked at each other.

Lin Yi's phone suddenly rang, and it was Zhang Qiu.

"President Zhang, are you in trouble?"

Lin Yi's relaxed voice only got a bitter smile from Zhang Qiu. "Lin Wuju's ability to recuperate is indeed good. I'm in a terrible fix right now. The hundred school of thought has already changed its leader, and I'm just an empty President. I'm afraid I'll lose this empty title soon."

"What's the situation?" Lin Yi raised a brow.

"The former president of the Hundred Schools of Thought has returned. Many people have secretly colluded with him and took advantage of my absence to make me a mere figurehead."

"You should have already seen his name," Zhang Qiu said with a bitter smile.

"Qinfu?" Lin Yi blinked.

"That's right, it's him,"

Zhang Qiu explained, "he was the one who founded the Hundred Schools of Thought. At that time, his goal was not to obtain information from the third party, but to compete for the top spot in the school of repeaters. The original intention of the Hundred Schools of Thought was to gather the strengths of the Hundred Schools of Thought to become the Overlord of the Hundred Schools of Thought. This man was ambitious and strong, not any weaker than Hong Batian."

"But later, he provoked the pavilion of heavenly secrets and was personally suppressed by Lord heavenly secrets. He fled in a sorry state and has not been heard from since. Now, thirteen years have passed in a flash. I didn't expect that he would actually come back, and his first move is a big one!"

"Doesn't Tianji care?" Lin Yi asked.

Given the relationship between the Hundred Schools of Thought and the secret Pavilion, there was no reason for the secret Pavilion to ignore the Hundred Schools of Thought's incident. Moreover, since quanfu had been expelled by the secret Pavilion, he would definitely cause trouble for the secret Pavilion when he returned. The secret Pavilion had no reason to stand by and do nothing.

"Lord Tianji is currently focused on something important, so he can't make a move," Zhang Qiu said after a moment of silence.

"....."

This news would definitely be another explosive news if it were to spread. After all, King du had just died, and Tianji's hands were suddenly tied. It was inevitable that people would have a bad impression of him.

There might even be people who wanted to replicate Lin Yi's miracles and use this chance to rise up and become another one of the five!

The five Giants were powerful, but this power did not solely rely on their invincible individual strength. At the same time, it was also the invincible Halo created by the public opinion. It was precisely because of this Halo that the five Giants' names could suppress the heroes of all places.

Once someone added fuel to the fire, the Halo would be broken, and the heroes from all sides would be ready to make a move.

If the incident of the independent King were to repeat itself, even if Tianji, who was attacked by all of them, would not die like the independent King, it would definitely suffer a great loss, and even hurt its Foundation.

Lin Yi finally understood why Tianji was trying to get on his good side for no reason-it was waiting for him here.

"Don't worry, I'll take care of this. "

Lin Yi wasn't an ungrateful person-he wouldn't just stand by and do nothing, even if the other party was up to something, just from the information he had on Mengyao.

Zhang Qiu was silent for a moment."Lin Wuju is a straightforward person. If you don't mind me, Zhang Qiu, befriending you, I'll definitely be your friend."

"We're friends, aren't we?" Lin Yi laughed.

No matter which angle he looked at it from, having a wandering know-it-all friend like Zhang Qiu wasn't a bad thing at all. After all, Lin Yi had a good impression of Zhang Qiu after their previous encounter.

After hanging up the phone, Hong Ba came over first. ""I've just found someone to inquire about this quanfu. The older generation still has some impression of him. He's not a simple character. It's said that he has the strength of one of the quasi five Giants."

Putting aside old monsters like Xiang Yusheng, the five Giants were the ceiling of the retained students' strength. If they were S-Class existences, then the quasi-five Giants were first-tier emperors, and their strength was definitely not to be underestimated.

Especially when quanfu was an ambitious hidden boss-level character like Hong Batian. Once they seized the opportunity, it was not impossible for them to break through and become one of the Big Five!

Lin Yi's position wasn't stable yet, and it was hard to predict what would happen if he went up against such a strong person!

But then again, since he had yet to gain a stable footing, he needed a sufficient stepping stone, and this quanfu was just right.

"It's good that he's stronger. If he's not strong, wouldn't it be too degrading for me to make a move?"

Lin Yi chuckled.

Seeing this, Hong Baxian didn't try to persuade him anymore. After all, his relationship with Lin Yi wasn't that bad yet. Besides, he was a fierce and ambitious person himself. Even if he was controlled by Hong Baxian before, he couldn't change his fierce and ambitious nature.

Chapter 9667

"Then when do we make our move?"

Hong Baxian calculated silently in his heart. This was his chance-if he could take care of quanfu, it would be a strong declaration to the outside world, announcing that Lin Yi was no longer a mere commander of the five, but had the foundation of one of the true five.

Moreover, it would also be a qualitative upgrade to his own status.

"No rush, let the bullet fly for a while," Lin Yi smiled.

Quanfu was indeed a problem, but at the same time, it was also a ready-made opportunity. Since the opportunity had come to him, he naturally had to maximize the benefits.

He had just broken through and needed time to consolidate and adapt to his new realm. He also needed time to digest the thousand-year-old cellar and the saber intent from the flame pool that tyrant had left behind.

As long as Lin Yi was given enough time, he might not be reborn again, but his strength would increase by at least thirty percent!

On the other hand, quanfu, who had returned to the Hundred Schools of Thought, continued to move.

Because of the issue with the top 100, he was already a completely negative figure in the public opinion of the retained students. He was like a clown, and there were naturally many people who came to stir up trouble.

Among them, there was no lack of top-notch fighters below the five Giants, such as Wang Jue, who was ranked eighth in the top 100.

Wang Jue was one of the thirteen heroes, but he was one of the thirteen heroes. To a certain extent, he was similar to the leader of the scavengers, Liu Yun. The reason why they chose to travel alone was because they were strong enough.

Below the five Giants, he was undoubtedly the first tier existence.

However, it was such a powerful figure who was beaten into a pulp by Quan Fu in just three moves.

Other than that, there were also two of the 13 heroes' forces and a group of mixed legions that had come to find trouble with him. Although the Hundred Schools of Thought had a large number of people, most of them were professional intelligence personnel, and their combat power was limited.

All of this could be said to be the result of Quan Fu's battle alone!

The details of the team's annihilation were recorded by the members of the Hundred Schools of Thought and spread widely. For a while, the entire repeat Academy was filled with the news of the Grand Fortune. No matter how unwilling the public was, as team after team was annihilated, the public opinion had to gradually change.

Quanfu was very strong!

However, what he wanted was obviously more than that. He quickly got someone to spread the word that the hundred schools of philosophy was about to relocate their headquarters, and the new location would be chosen as the sole King Palace in the Eastern Region!

The palace had a special meaning to the eastern area-Lin Yi didn't treat it as his headquarters, but it was still one of the five kings in many people's eyes.

Quanfu's declaration was, without a doubt, a challenge to Lin Yi!

The repeaters' focus was on Lin Yi again. Everyone was waiting for the new giant Five's response. He didn't make a move earlier, and many people were looking down on him. If he continued to act on his own, Lin Yi's position as the new giant five would be in danger.

"The battle for the new five Giants!"

When this slogan was shouted by the Hundred Schools of Thought, everyone knew that a new major event was about to begin in the repeat Academy.

Quanfu wasn't just a slogan. He had also publicly invited all the forces in the retained students to participate in the relocation. He had even set the date clearly.

"The moon appreciation Festival of du King Palace on the 15th of August?"

Hong Baxian couldn't help but laugh. He thought that his twin brother was already an arrogant person, but he didn't expect him to be even more arrogant. This wasn't just slapping Lin Yi's face in public, it was stomping Lin Yi's face on the ground!

Everyone turned to look at Lin Yi.

The crowd was in a frenzy, ready to kill him right there and then, but Lin Yi's eyes narrowed as he looked at the door.

Everyone was stunned and turned their heads to look, but they didn't find anything.

Only Hong Baxian's heart moved, could he be here?

"He did come, but it's not him."

Lin Yi gave a weird smile and said faintly, "You're a guest. Since you're here, show yourself. At least let me show you my hospitality."

There was still no reaction.

Just when everyone thought that Lin Yi had messed up, a tall figure appeared out of nowhere, less than five meters in front of Hong Baxian and his men.

Everyone's heart skipped a beat, and even Hong Baxian's expression changed.

He hadn't sensed it at such a close distance. If the other party had malicious intentions, he might not even know how he died.

"The killer ye Zhiwei!"

When they saw the person's appearance, they couldn't help but exclaim in surprise, and then they all revealed a look of realization.

No wonder they couldn't detect it. After all, he was the next King of Assassins, a powerful figure ranked in the top 100!

Ye Zhiwei ignored the crowd and frowned at Lin Yi, "You can find me?"

"Guess," Lin Yi smiled.

Strictly speaking, there was enmity between the two-ye Zhiwei had attacked Lin Yi for the seed, and Lin Yi wouldn't have lived to this day if he'd been just a little weaker.

Ye Zhiwei was stern.

The scariest thing about her was her ability to hide. Even the five Giants might not be able to detect her, let alone an ordinary expert. She had once been within ten meters of tyrant, but tyrant had not noticed her at all.

Of course, being close to the tyrant was one thing. With her strength, it would be suicide if she tried to kill the tyrant. At the tyrant's level, it was like a king that had faked its death. Even if it was asleep and let her kill it, the possibility of her killing it was very low.

Other than people like Tianji and Zhangqiu who could counter stealth, she was confident that she could move around freely in front of anyone else. However, she lost all her confidence in front of Lin Yi.

In fact, Lin Yi didn't really break her stealth.

He'd only left a plant-type scent mark on the guy last time they fought, and he'd be able to detect him if he was within a mile of him.

This method could only roughly determine its location, but it might not be of much use in a close-range fight.

Lin Yi, of course, wouldn't be so kind as to explain it to him-it'd be a good way to intimidate him and save him some trouble.

"Miss ye didn't come here to kill me, right?"

Lin Yi asked, confused.

As soon as he finished speaking, ye Zhiwei knelt down on the spot, ""I'm here to seek refuge with you!"

Everyone was speechless.

Hong Baxian had declared his loyalty to Lin Yi directly because of their relationship with the Overlord's Pavilion. If he didn't do anything about Hong Batian's scheme, Lin Yi might come after him. He had enough reason and motive.

But ye Zhiwei was different.

Firstly, her strength was far above Hong Baxian 's, and secondly, she was the next King of Assassins in the Assassin's home. All the core resources of the Assassin's home would fall into her hands, and her future was definitely boundless.

She had such a bright future ahead of her-why would she give up everything and come to Lin Yi?

Chapter 9668 Power

Even if Lin Yi's side had room for improvement, she wasn't Lin Yi's direct disciple after all. It was still unknown how much resources she would get in the end, at least it was hard to compare to the Assassin's family!

Lin Yi looked at her and asked,"The family of assassins wants to kill you?"

This was the only reasonable explanation he could think of.

"No."

"If you can protect me, I can pull the entire family of assassins to your side," ye Zhiwei said after a pause.

Everyone present sucked in a cold breath.

The House of Assassins was not one of the Big Five, nor was it one of the top thirteen. It was not an independent organization, but an open platform for assassins and their employers. Its business range not only covered the repeat students, but also the entire Jianghai Academy and even Jianghai city!

If what ye Zhiwei said was true, and he could get a family of assassins under his command, it was an irresistible temptation for Lin Yi!

Although he couldn't directly deal with the group of elusive assassins, he would have the right to speak in the assassin world if he controlled the platform.

Its value was immeasurable.

In the long run, Lin Yi had always wanted to expand the newborn Alliance's power outside of the school. Wei baizhan and Lu renwang had done a lot of preparation work for this, but starting from scratch was still too slow, and it was hard to put it to use in the current situation.

However, if they could use the family of assassins as a platform, their expansion would be twice the result with half the effort. They could even combine with the family of assassins and become a brand new powerful Department!

"Who did you offend?"

Lin Yi asked in a deep voice. Huge benefits came with huge risks. One could imagine the danger behind ye Zhiwei's actions.

"The Western District's Fallen Dragon," ye Zhiwei raised his eyes and said.

Everyone sucked in a cold breath again.

The five Giants were also divided into ranks. The fallen Dragon was publicly acknowledged as the strongest of the five, ranking only below the tyrant in the central region. He rarely made a move, and his presence had always been the weakest among the five Giants. However, once he made a move, it would definitely be a world-shaking event!

The last time he made a move was when he tortured and killed the Beijiang Lord, who was under Jianghai city's jurisdiction. That was a fierce figure who was as famous as the Nanjiang Lord, Jiang Long. In the end, he was beaten beyond recognition and drowned in the toilet bowl.

The city Lord's mansion was furious!

Although the Academy was unable to send people in to capture the fallen Dragon due to its prestige, as long as the fallen Dragon left the Academy's territory, there would be an inescapable net outside.

If it was anyone else, they would have already become a coward, but the fallen Dragon still moved without fear. Not only did he tear the inescapable net into pieces, but he also killed the high-ranking official in charge of the incident in the city Lord's mansion.

Since then, the city Lord's mansion had ceased all activities and no longer mentioned the matter of capturing the fallen Dragon.

The fallen Dragon was not the King of Assassins because he had no interest in such a title. Once you were targeted by him, it was hundreds of times more terrifying than being targeted by the entire assassin family!

Mister Hong Ba was afraid that Lin Yi would act rashly, so he whispered, "There's a famous saying in the repeat school: even if you challenge a tyrant, don't provoke a Fallen Dragon. "

In terms of raw power, the tyrant might be stronger, but those who challenged the tyrant at least had a chance of survival. If the tyrant was in a good mood, he could even get a barrel of 100-year-old wine. However, those who provoked the fallen Dragon had not been able to survive.

Not a single one.

Lin Yi fell silent. He was going to face the other five soon, but he didn't think it would be this fast.

The fallen Dragon and heaven's Secret were the only two out of the five Giants who had not attacked him. The latter had a certain level of tacit understanding with him. Although they were not allies for now, they would not be enemies in the short term.

As for the fallen Dragon, he couldn't use it as a reference without fighting it directly.

However, Lin Yi's intuition told him that he was willing to believe this saying. The fallen Dragon really did give him the most dangerous feeling out of the five!

Ye Zhiwei turned around in silence.

But just as she was about to step out of the door, Lin Yi's voice came from behind her, "Why should I believe that you can take control of the House of Assassins?"

Ye Zhiwei was immediately overjoyed. He turned around and said, ""The core of the House of Assassins lies in two databases, the assassin database and the employer database. The keys to these two databases are jointly held by three people, and I am one of them."

"You sure you can convince the other two?" Lin Yi raised a brow.

"I can 't,"

Ye Zhiwei's answer was honest, but his next sentence shocked everyone, "If it's a dead person, there's no need to go through so much trouble to persuade him."

This woman ... Was truly terrifying.

"Alright, you can stay." Lin Yi wasn't surprised at all.

Ye Zhiwei's eyelids twitched in surprise, but he didn't say anything and nodded to express his gratitude.

With that, Hong Baxian and the others were in a tight spot. It didn't matter how arrogant quanfu was outside-they knew that it was just a clown, and couldn't pose a real threat to Lin Yi.

However, the fallen Dragon was different!

This was someone who could really kill Lin Yi, and with his usual style of doing things, it was a basic thing to kill people and their families. No matter how you looked at it, it wasn't a wise move to provoke a killer god like this!

Even Hong Baxian couldn't help but suspect that he had taken a fancy to ye Zhiwei.

Although ye Zhiwei's face could only be considered delicate and pretty, her figure was really good, especially that pair of soul-stirring long legs. In addition, her powerful Halo of being the next King of Assassins gave people a strange sense of temptation, which easily aroused men's desire to conquer.

Lin Yi would've puked blood if he knew what his men were thinking.

Chu Mengyao and Tang Yun were there, and there was also Wang shiqing. He didn't have the mood to mess around with girls. Even if he did, it would be better to find Qiu sanniang than ye Zhiwei, who always talked about killing!

Lin Yi kept ye Zhiwei purely for the House of Assassins.

Moreover, ye Zhiwei was a powerful assassin with great potential. Once he was truly subdued, he would immediately become the number one combat force under his command. How could he miss such an opportunity?

As for the fallen Dragon, they would have to face it sooner or later. If they backed down this time, it would be difficult to regain their psychological advantage in the future.

In a battle between experts, it was often a fight for this pride.

Hong Baxian could more or less guess Lin Yi's intentions, but his rational mind didn't agree. He couldn't say anything in his position, and it was even more impossible for him to think of retreating like the others.

No matter which angle he looked at it from, Lin Yi was the best option for him right now.

Once he betrayed, Lin Yi wouldn't let him live.

"Boss, since you've already made your decision, I'll go make the preparations."

Hong Baxian decided to go with the flow. As the second in command under Lin Yi, he had a lot of things to do.

Chapter 9669 Power

the first was to stabilize the people's hearts. once the news of offending the fallen dragon spread, people would be in a panic. if something went wrong, a large number of deserters would appear. the good situation would be destroyed at any moment. he had to respond as soon as possible.

secondly, he had to make all kinds of preparations against the fallen dragon.

naturally, he wouldn't be able to get involved in the final battle-that was lin yi's problem. however, the fallen dragon wasn't just one person-it was one of the five big corporations, with many strong people and masters under its command.

it was rare for the five giants to be like king du, who was used to acting alone and allowing his subordinates to be in a state of disunity.

with lin yi's current group of people, he'd be eaten up in minutes if he went up against them. there was no chance of winning.

so he had to quickly gather his men and use everything to improve their team strength. he didn't want to be able to face the fallen dragon group head-on, but he wanted to at least have enough power to hold them back and share the pressure with lin yi.

just facing a single fallen dragon was already a huge pressure, and if one had to face the siege of the fallen dragon's underlings at the same time, they would really die a terrible death.

the fallen dragon wasn't a person who paid attention to the demeanor of an expert. as long as he could kill his opponent, any means were taboo. to him, bringing people to besiege him was the most insignificant choice.

So what if he lost some face?

To him, face was always left for the dead.

Hong Baxian left with a heavy heart. Lin Yi, as the person involved, was at ease. His retreat wasn't complete yet, but he'd learned a lot.

To be honest, Lin Yi thought that his strength would slow down at this level.

The result was the exact opposite-the increase in his strength was far greater than before, and of course, this also included the time flow of the nine-story Pagoda. Even so, the results of this closed-door training shocked Lin Yi.

The only worry left was how to break through next time.

Lin Yi had already experienced the side effects of the perfect five elements domain. It wasn't hard to increase his strength now, and there was still a lot of room for potential to be explored, but it was just a small part of it-it couldn't really form a qualitative change.

If he wanted a qualitative change, he had to rely on a realm breakthrough!

However, after devouring all of King DU's power, he had only just broken through from the peak of the early stage of the consummate level of a giant to the middle stage. He was still far from the peak of the middle stage, not to mention the ultimate consummate level of the five giant.

The realm barrier brought about by the perfect five-element domain had completely exceeded the limits of normal cultivation. He could only rely on great opportunities like the incident with the lone king.

However, how could it be so easy to encounter such a great opportunity? He couldn't just wait for his breakthrough from now on, right?

"I'll go out to digest my food. "

The lackeys looked at each other as they watched Lin Yi walk out the door like an idle old man.

Digestion? He didn't eat anything.

Sky Tower.

It was a rarely seen 100-meter-tall tower, and was once one of the landmarks of the school.

It was rare not because it was tall. In fact, ever since the introduction of technology from the secular world, skyscrapers had been rising all over Jianghai city, especially for a rich and powerful enterprise like the central Chamber of Commerce. Building a high-rise of several hundred meters was just a basic operation.

The unique thing about the Sky Tower was that it was made with local craftsmanship, and its frame was made of pure wood.

It was said that this was the work left behind by a Mohist Big Shot. Not only was its sturdiness far beyond common sense, but it was also covered with all kinds of mysterious mechanisms. If one was not careful, even an expert at the level of a Big Shot's consummate level would be killed inside. It was definitely not to be underestimated.

Because the mechanism map had long been lost, very few people dared to set foot in this place. Even the scavengers who were everywhere did not come. Over time, it became an abandoned building.

At this moment, a bare-chested strong figure stood at the top of the tower. His whole body was covered in layers of muscles, and every tiny muscle exuded a dangerous aura like that of a prehistoric beast, as if it would choose to devour people at any time.

He was the recently famous brutal man, the former president of the Hundred Schools of Thought society, Quan Fu.

"I'm really confused. Why are all of you so tall? are you still considered normal people?"

Lin Yi's voice came from not far away.

Quanfu raised his head and stared at Lin Yi for a moment before laughing. "He's one of the five Giants after all. Although he's a little weak in my opinion, he shouldn't be so ignorant as to not know about the shackles, right?"

"Shackles of growth ..."

Lin Yi blinked ... He really didn't know.

He'd had the same question when he'd faced King du-from what Lin Yi knew, King du was a normal human, but he was over five meters tall, way taller than the normal human height limit.

If this was just an example of a genetic mutation, it was barely understandable. However, this quanfu in front of him, although not as exaggerated as King du, was still more than four meters tall!

This was truly puzzling.

The question was thrown to the ghastly thing, and the ghastly thing was also confused. After a long time, it threw back a sentence, ""How would I know so much about you humans?"

Seeing Lin Yi's expression, quanfu couldn't help but show his disdain, "As expected, he's a fake with no background at all."

"Then why don't you teach me?" Lin Yi narrowed his eyes.

"Alright, it's indeed a little embarrassing to step on you to get to the top without any grudges. Then I'll let you die with a clear understanding."

"We humans are born with the ability to break through the shackles of growth twice," quanfu said. "One is when we are born, and the other is after we are ten years old. Every time we break through the shackles, our bodies will grow rapidly."

Lin Yi nodded-two rapid growth stages, huh? that wasn't hard to understand.

"However, breaking through the growth shackle twice is the limit for ordinary people, so the limit for ordinary people is about two meters. As for any higher, it's not a level that ants like them can reach."

"Every time you break through the growth shackle, your height will increase by one meter. But if you think that it's only the size of your head that will increase, you're gravely mistaken!"

"Every time an ordinary person breaks through the shackles of growth, they will experience an all-round qualitative change in their individual strength, and the qualitative change will become greater as they progress. The only King has broken through the shackles of growth five times. I'm sure you know how terrifying his strength is."

Lin Yi knew what he was doing.

Du Wang's strongest ability was space, but his use of space in his fake death state was too rigid. He didn't show the true power of space, but he still gave Lin Yi and the others an unparalleled pressure. This was mainly due to his strong body!

Even Lin Yi's invincible body couldn't compare to that level of physical strength. He couldn't fight it head-on.

Lin Yi thought it was just the difference in levels, but now that he thought about it, even if he could break through to the ultimate completion of a Big Shot, his body would still be far weaker.

Even if Lin Yi had the top body training technique on the sub Island, it still couldn't be compared to King DU's body.

This was the root of her problem!

Chapter 9670 Power

Breaking through the shackles of growth was a qualitative change in the body. According to Quan Fu, the only King had three more qualitative changes on top of the foundation of ordinary cultivators!

Moreover, the extent of the qualitative change would only increase with each increase in strength before finally reaching that terrifying level of physical strength!

"Alright, class is over. It's your turn to pay the tuition."

Quan Fu clapped his hands, and dozens of three-meter-tall humanoid machine-operated beasts emerged from all over the Sky Tower. At the same time, a closed enchantment was activated, completely isolating the Sky Tower from the outside world, turning it into a completely closed space.

"You're pretty cunning," Lin Yi chuckled.

It was obvious that the man was trying to buy time and activate the traps and barriers of the Sky Tower. He had said a lot, but he did not mention anything important.

For example, how to break through the shackles of growth!

"Be smarter, kid. This isn't called cunning, this is called intelligence."

The corners of Quan Fu's mouth curled up into a proud arc. "Do you know why I'm here? Because the Sky Tower was built by my master, this is my home field. I did all that just to lure you into my trap!"

"Oh? What if I didn't come here on a whim and stay in the du King Palace to wait for your moon viewing Festival?"

Lin Yi asked, calm and composed.

Quan Fu laughed. "What's there to say? of course I won't go. No matter what, you're still one of the five Giants. Even if you're a little weak, your level is still there. Do you really think I don't know my own place?"

"But I don't see you knowing that much." Lin Yi shook his head.

If he knew his place, he wouldn't have provoked him-after all, everyone saw how Lin Yi took on two of the five Giants.

"Is that so?"

"Can't you see it now?" Quan Fu snapped his fingers.

Before he could finish his sentence, one of the machine-operated beasts that was closest to Lin Yi suddenly launched an attack. Its speed was so fast that even Lin Yi was a little surprised. The key point was that it wasn't just a single beast-it was connected to the entire Sky Tower in many ways.

As long as it was within the range of the Sky Tower, it did not need to accumulate energy like human cultivators. It could change its direction at any time and increase its speed to the maximum!

Even with impermanent steps, Lin Yi couldn't shake off this sort of weird movement ability.

What was even more ridiculous was that the beast didn't react at all when Lin Yi's palm landed on its body!

At Lin Yi's level, his territory was endless. Even if he wasn't using his full strength, every move he made had its own powerful territory power. Even metal couldn't withstand a finger.

However, this wooden mechanical beast was not damaged at all!

Quanfu looked at Lin Yi as if he were a country bumpkin and smiled awkwardly, "If it could be easily broken, would I have taken it out to deal with you? Are you taking me for a fool or are you just too stupid?"

"He's immune to domain power? Interesting. "

Lin Yi reacted quickly. Being immune to territory power meant that he was immune to all Qi attacks. He could only rely on his body to fight against it. This thing was a natural counter for practitioners who didn't have a strong body.

No wonder the other party had the confidence to use this place as their base camp. If these machine-operated beasts were strong enough, they alone would be enough to make him suffer!

However, he was still thinking too much.

When the machine-operated beast pounced at him again, Lin Yi activated the five elements to the extreme and turned into the Titan Buddha, smashing it into pieces with one palm.

Quanfu was not surprised by this. He sneered and snapped his fingers. "Then let's have a good warm-up,"

After he finished speaking, all the mechanical beasts launched an attack at the same time.

In terms of individual strength, these things couldn't take a single hit from Lin Yi-even a giant at the peak of late stage of full cultivation would end up in the same situation.

The problem was that there were too many of them!

In his Titan Buddha form, Lin Yi pushed the heaviness and strength of his earth element to the extreme, but at the same time, he also reduced his speed and agility. As he smacked the two mechanical beasts, he would have to suffer a series of heavy blows on his back.

Lin Yi really couldn't let his guard down against these things!

His defense was broken in just a moment-if it weren't for the miracle cure, Lin Yi wouldn't have been able to take it, even with his huge improvement.

What was even more outrageous was that after the beast parts were pulled away by mechanical hands from who knows where, they would reappear in front of Lin Yi, full of life and energy, joining the battle again.

Lin Yi did a quick count-he'd flattened thirteen of them, and eleven of them had rejoined the battle.

There was no end to this fight!

"Hehe, the new five Giants, this is just the appetizer I prepared for you. If you can't even digest this little thing, then you'll really disappoint me ... Oh no, I should say that you're too embarrassing for the five Giants!"

Quanfu didn't want to join the fight directly-he was taunting Lin Yi on the surface, but the drastic changes happening under his skin couldn't escape Lin Yi's senses.

He was breaking through?

At this moment, Quan Fu's aura was clearly at the peak of the late stage of the consummate level of a giant. If he were to successfully break through and step into the ultimate realm of the consummate level of a giant, the situation would be really dangerous.

After the incident with the sole King, no one knew better than Lin Yi how powerful a giant at the peak of the ultimate realm was. The ultimate qualitative change that crossed a hundred million feet was far beyond anyone's imagination.

It wasn't an overstatement to say that even the weakest and weakest magnate at the peak of the late stage of the consummate level could easily beat the sh * t out of the strongest magnate at the peak of the late stage of the consummate level.

Of course, Lin Yi was an exception.

"Aren't you looking down on me by trying to break through in front of me?"

Lin Yi looked at quanfu as he pushed back the mechanical beasts. "Besides, even if I don't interfere, with your current Foundation, the possibility of a successful breakthrough is zero."

"You know nothing!"

Quanfu's defense was instantly broken, and his killing intent surged. He wanted to kill Lin Yi right away, but he forced himself to hold back.

A little impatience spoils a great plan!

Lin Yi squinted his eyes. He didn't think that the enemy was much of a threat to him before, and even if the mechanical beasts seemed troublesome, they were just for him to digest.

Compared to the fallen Dragon that he was going to face next, quanfu was at most a clown.

But now, Lin Yi suddenly felt that the opponent wasn't that simple. One wrong move and he might really lose!

But Lin Yi didn't think that he'd come back too rashly. On the contrary, from the reaction of the other party, it seemed that he'd come at the right time. Otherwise, it'd be a completely different scene if he came after he'd broken through.
