

## **Bodyguard 9671**

Chapter 9671

Lin Yi decided to stop warming up and get serious.

The Titan Buddha suddenly stopped moving. A powerful suction force suddenly erupted from its body, instantly sucking all the machine-operated beasts toward it. Then, in a breath, it struck out thousands of palms, and the attack range spread in all directions.

The eight-faced Buddha!

All the mechanical beasts were reduced to pieces on the spot. Although they were quickly recovered by the Sky Tower's mechanical arm, the damage this time was far greater than before. Even if some of them could still be repaired with parts, at least half of them were completely scrapped.

Quan Fu's eyelids twitched wildly as he watched this scene. This was the strength of the five Giants!

He thought that even if the beast machine couldn't hurt Lin Yi, it could at least give him a hard time and give him a good struggle. After all, it was a rare item that was immune to all Qi attacks.

She didn't think that all of them combined would be unable to withstand Lin Yi's serious attack.

Quanfu couldn't keep calm anymore as Lin Yi walked towards him. The Golden Titan Buddha came down with a palm.

Bang! Bang!

One punch against one palm, the scene instantly froze.

Looking at the man's chaotic yet powerful aura, Lin Yi couldn't help but praise, "Decisive!"

If it was someone else, even if it was Lin Yi himself, he didn't know if he would give up so decisively when he was about to break through to the final realm of a giant.

Not everyone could resist that kind of temptation.

"Decisive, your mother!"

Quan Fu was already flustered and exasperated. One had to know that this wasn't as simple as a failed breakthrough. A Big Shot at the peak of the late stage of the consummate level was an extremely special transitional realm, and if one didn't advance, they would fall back.

If they failed to break through, they wouldn't even be able to maintain their cultivation level at the peak of the late stage of the consummate level of a giant. They would directly fall to the late stage of the consummate level!

Everyone was well aware of what a drop in realm meant to a cultivator.

Except for a few rare cases, for the vast majority of cultivators, this was equivalent to a death sentence on their future cultivation. They would never have any more breakthroughs, and could only eat and wait for death.

As expected, after blocking Lin Yi's giant palm with his fist, quanfu's aura leaked out crazily, and his aura weakened at a visible rate. In the blink of an eye, he fell to the late stage of the complete giant realm.

This person was already crippled.

Even a true Big Shot at the peak of the late stage of the complete realm was a noob in front of Lin Yi, let alone a mere Big Shot at the late stage of the complete realm. If it wasn't for the fact that Hong Baxian and the others weren't here, they wouldn't even have the right to fight Lin Yi.

Lin Yi didn't underestimate his opponent at all and continued to swing his giant palm.

He faintly felt that something was not quite right.

Quan Fu faced Lin Yi head-on, but his strength had declined due to his realm drop. He was no longer able to fight Lin Yi as evenly as he did before, and he was crushed by Lin Yi's palm without any suspense. He crashed through the floors of the Sky Tower and fell thirty levels down!

"A physical body that has broken through the shackles of growth four times ..."

Lin Yi recalled the feedback from the Buddha's Palm. It was far from King DU's five-time breakthrough, but it wasn't to be underestimated either. Otherwise, they wouldn't have been in a stalemate for a short time.

It had to be said that this quanfu was indeed a terrifying character. If he was allowed to grow, he would definitely be a great threat in the future!

Cut the weeds and eliminate the roots.

Lin Yi showed his decisiveness again. The gravity on Titan Buddha increased tenfold, and he turned into a giant human-shaped Cannonball, chasing after the floor quanfu had broken through.

BOOM!

Lin Yi was on the first floor in the blink of an eye, but there was no trace of quanfu.

"Do you think you can escape?"

With a sweep of his spirit sense, quanfu's aura was completely exposed in Lin Yi's sea of consciousness. After all, concealment grandmasters like ye Zhiwei were extremely rare. Unless he could take Lin Yi head on, the chances of someone like quanfu escaping from Lin Yi were zero.

But when he caught up, he was surprised by quanfu's condition.

His body was expanding!

It was not a transformation in the form of true Qi like the Titan Buddha, but a true breakthrough of physiological limits, the most primitive growth of the physical body!

A thought crossed Lin Yi's mind as he listened to quanfu's painful screams. "The fifth breakthrough of the growth shackle!"

Although he had never seen a situation of breaking through the shackles of growth before, there was no other explanation for this scene.

It had to be interrupted!

Lin Yi raised his hand and used great burning heavens. If he really allowed it to break through the shackles of growth and grow to the same level as King du, even if he could suppress it, it would take a lot of effort.

As the black flames swept past, Quan Fu, who was already wailing, was instantly turned into a man of fire. His voice became more and more miserable.

After a moment, the voice gradually weakened.

Lin Yi paused as he watched the human-shaped charcoal fall in front of him. It was gone just like that?

Lin Yi wouldn't underestimate any opponent, nor would he deliberately overestimate any opponent. Normally, with great Burning sky's power, even a group of big shots at the peak of the late stage of the complete realm could kill them all in seconds, let alone one big Shot at the late stage of the complete realm.

Just one quanfu was enough to die ten times.

But Lin Yi still didn't feel safe.

"You're very strong. You're much stronger than I thought. This is interesting!"

Quanfu's deep voice suddenly sounded as the human-shaped charcoal split open like a cracked cocoon. An unprecedented strong figure stood up and looked at Lin Yi arrogantly.

Five meters in height!

According to quanfu, this was the sign of breaking through the shackles of growth five times. In terms of physical strength, he was on the same level as King du!

Lin Yi was taken aback.

He had already expected that things would not be so simple, but he really did not think that it would be so simple to this extent. Not only did he not die after being hit by his great burning heavens, but he even broke through like a phoenix rising from the ashes.

In terms of strength, quanfu wasn't as strong as King du, but he was at least close enough to pose a threat to Lin Yi.

"Your attempt to become an apex Paragon just now was actually just a pretense, right? Your real goal is to break through the five shackles of growth. Am I right?"

Lin Yi's sudden question stunned quanfu, and it turned into a deep fear, "Hehe, you're worthy of being a man of the moment. To have such insight, it seems that you didn't get to where you are today solely by luck?"

Seeing the reaction, Lin Yi was even more certain, "It seems that I was right, but you shouldn't be using this pretense for no reason. After all, the price of falling in cultivation is not something ordinary people can afford."

"In other words, if you want to break through the shackles of growth, it's a necessary pre-step to reach the ultimate completion of a giant, and you must fail, right?"

"To be more precise, the essence of the breakthrough should be to change from a fake breakthrough to a real breakthrough. The breakthrough of the realm is fake, and the breakthrough of the shackles of growth is real!"

Quanfu's face changed as he listened to Lin Yi's analysis.

Chapter 9672 Power

He didn't think that the method he'd learned from ancient texts, the one he'd spent decades trying to figure out, would be seen through by Lin Yi with just a few words!

That feeling was like an idea that a bad student had racked his brains for a week to come up with, only to be glanced at by a top student.

If he had known this would happen, he would not have mentioned the growing shackles. This was really asking for humiliation!

"What a load of nonsense!"

Quanfu burst into action decisively. The power of five breakthroughs in his growth shackle was fully displayed at this moment. His speed, explosive power, and powerful pressure were exactly the same as the only King 's!

Lin Yi didn't slow down at all.

BOOM!

Neither side was willing to give in. After a moment of stalemate, quanfu suddenly changed its rhythm. From a tough bridge to a fierce horse, it suddenly changed to a quick attack mode with an extremely fast rhythm.

Fists, palms, elbows, knees, and legs-every part of his body was a killing machine, blasting at Lin Yi from all directions like a storm.

Bang! Bang!

For the first time, the Titan Buddha was directly blasted from the first floor to the top, and he was suppressed in all aspects along the way. If this scene were to be spread out, it would definitely shock everyone.

Previously, du Wang had the same level of physical strength, but because he was in a state of suspended animation, all of his attack and defense reactions were based on his instincts, so he naturally could not exert his true power. However, Quan Fu was in his true peak state, and they could not be compared at all.

On the other hand, on Lin Yi's side, although the Titan Buddha was strong, he was too slow. He was invincible in a direct confrontation, but once the rhythm of attack and defense was raised, he could only suffer.

At this moment, he had almost become a huge sandbag in front of the violent Quan Fu, and he had no power to fight back.

Soon, the Titan Buddha couldn't withstand such a fierce attack. The outer layer started to break apart, and if this continued, Lin Yi's body would be exposed.

This was pure force breaking technique!

Now that the only King was dead, quanfu could be said to have the strongest body in the entire repeat school. In addition, he was a first-class hand-to-hand combat Grandmaster. Under such circumstances, even the veteran giant five would be disgraced if he got close to them.

"Underestimate the enemy? Underestimating me? What qualifications do you have to look down on me?"

Quan Fu laughed maniacally as he blasted the Titan Buddha into pieces and stomped Lin Yi under his foot, "Are you worthy?"

Lin Yi closed his eyes, not saying a word.

"Are you closing your eyes and pretending to be an ostrich? Hahaha, it does fit your pretty boy image!"

Quan Fu was overjoyed, but his movements didn't stop at all. His attacks were far more ferocious than before.

After all, he was on the same level as the Big Five. If he dared to underestimate Lin Yi, the situation would turn around in an instant and he'd be doomed.

Three breaths later, Lin Yi himself was blown to pieces, not even a complete corpse was left.

"Five Giants! Hehe, these are the five F \* cking Giants!"

Quan Fu looked at the bloody body pieces on the ground and laughed wildly.

Ever since he was kicked out of Tianji's house, he had been lying low and waiting for an opportunity to Polish himself. Decades passed like a day, and he spent every day in pain and suffering. He had tasted all the sufferings of the human world, and now, all the sufferings had finally come to an end!

Lin Yi wasn't his real target at all-he was just a stepping stone he'd chosen. Tianji was his real target!

What were the five Giants?

Now that he had absolute power, he would make all of the five Giants kneel before him and tremble!

"What a pity. I'm really disappointed. He looked so impressive, but in the end, he couldn't even force out my true trump card. Trash."

He'd just finished speaking when Lin Yi's voice came from the other end."What other trump cards do you have?"

"....."

Quan Fu's expression suddenly froze, and after a moment, his face changed."Impossible! You're still alive?"

Lin Yi's laughing voice came from all directions."Is it strange that I'm alive? If I were to die so easily, the other five Giants would hate me to death and drag them down with me. I'd feel bad about that. "

"Something's wrong! It's wrong!"

Quan Fu carefully examined the body parts on the ground and shook his head repeatedly."This isn't a clone! This is your true body! It's your primordial spirit that's playing tricks now!"

He'd studied Lin Yi's information before, and naturally knew that clones were Lin Yi's specialty. They posed a strong threat and had a seamless confusion effect. If he couldn't get rid of the clones, it would be a waste to deal with Lin Yi.

That was why he chose Sky Tower as his home ground-it was a natural counter to all Qi attacks. As the controller, he wasn't immune to all Qi attacks like the machine-operated beasts, but he could easily see through any Qi attack, including Lin Yi's clones.

Looking back at all the details, he knew that Lin Yi didn't use a clone, so the only explanation was that his spirit had left his body.

"Are you sure?" Lin Yi laughed.

"Don't try to be mysterious! You're just a primordial spirit. Why don't you hide and wait for death? you actually dare to show your face in front of me. Do you really think I can't deal with you?"

Quan Fu was more and more certain that he was a Grandmaster of hand-to-hand combat who excelled in the physical body. Primordial spirit was not his strong point, and he indeed lacked effective means to deal with primordial spirit. However, if he really wanted to be ruthless, it was not impossible to destroy a primordial spirit.

After all, the primordial spirit was fragile, especially in the Sky Tower.

"Try it if you're happy," Lin Yi said faintly, "I'm trying something new as well, let's do it together. "

"You're playing with me?"

Quanfu exploded in anger-he'd been so full of himself, getting ready for his big plans! Lin Yi's sarcasm wasn't something he'd be able to handle.

However, he was not an expert in the primordial spirit, so he could only count on the Sky Tower.

However, he couldn't find Lin Yi's spirit even after all the traps in the Sky Tower were activated. He could only rage at the air.

Lin Yi, on the other hand, seemed to be trying something as he tried to talk to her, even giving her some pointers.

"Besides having their own trump cards, a real top-tier expert must also ensure that there are no obvious flaws in all aspects. Otherwise, if he were to be targeted by others, he would be caught blind. Wouldn't it be very embarrassing as the boss?"

"To be honest, someone like you isn't suitable to be a boss. It's good to be a pure thug. Why don't you come and follow me?"

"Don't worry, I guarantee you'll be satisfied with the treatment. "

Lin Yi didn't think much of the trash talk, but quanfu's side was seething with anger. They'd just broken through the shackles of growth, and their minds weren't stable-they almost went into Qi deviation.

## Chapter 9673 Power

"I'm going to F \* cking kill you!"

Quanfu was completely enraged-he started destroying everything around him, tearing down any possible hiding place he thought Lin Yi was hiding in.

He was a beast in human form now, and even the Sky Tower couldn't take his damage. Plus, the damage he caused to the tower was getting worse, and it could collapse at any moment!

Lin Yi chuckled, "it's so obvious. It's no wonder he's being played to death."

"Gibberish! If you have the guts, come out and fight me to the death! Or else ..."

Quan Fu suddenly had an idea. He grinned and snorted, "'I'm not good at dealing with the soul, but there are many hidden dragons and tigers in the repeat students "compound. I believe that there will be people interested in your soul, but at that time, your end will probably not be good."

For a wandering primordial spirit, the destruction of the primordial spirit was not the most terrible thing. The truly terrible thing was to fall into the hands of someone with ill intentions, become a sacrificial tool, and be tortured every day. It was a fate worse than death!

"Sigh ..."

Lin Yi sighed, "I don't have the heart to see you like this anymore. I thought it was fun to play with idiots, but I didn't expect it to be this much of a burden. It's a sin."

"Ha?"

Quanfu was completely dumbfounded when he saw Lin Yi standing in front of him, completely unharmed.

Fortunately, he wasn't too stupid. He finally reacted at this moment. "An illusion! You actually know how to use illusions!"

Lin Yi's Sky Mirror illusion was only completed recently, and the only time he used it was during the king incident. It was still a sealed realm, and most of the people who experienced it were already dead. Zhang Qiu and ye Zhiwei were the only two survivors.

Of course, one of them was an intelligence agent, and he was also asked to be on Lin Yi's good side-he wouldn't leak this information out easily. As for ye Zhiwei, he was a cold-tongued professional killer, and he didn't talk to the living usually. He talked more to the dead.

Naturally, quanfu had no way of knowing such top-secret information.

"Any illusion expert can fool you. If you become one of the five Giants, how embarrassing would it be for everyone?"

Lin Yi smiled as he walked towards quanfu.

Quanfu was about to explode, but he stopped in his tracks and looked Lin Yi up and down suspiciously.

"Don't worry, I've removed the illusion. This one is real. "

Lin Yi's words didn't make quanfu feel at ease. On the contrary, it made him feel that something was wrong until he realized, "Impossible! You're not that high, so it's still an illusion!"

He couldn't be blamed for his slow reaction-he didn't have much contact with Lin Yi himself, and the only thing he did was fight with the Titan Buddha. He didn't feel that much about Lin Yi's height, and he'd also broken through the growth shackle five times, so he didn't notice Lin Yi's change.

But a normal person would've noticed it immediately-after all, Lin Yi was already a shocking three meters tall!

"Oh, really? Then feel it properly. "

Lin Yi smiled as he went up to him, using impermanent steps to appear behind him and followed up with a flurry of attacks.

This was quanfu's specialty, especially since he'd broken through his growth limit five times already. He'd be invincible if he said he was, but this time, he'd been beaten up by Lin Yi himself. He'd been hit hundreds of times in an instant, and he couldn't stop vomiting blood.

"You still think it's an illusion?"

Lin Yi asked with a smile. As expected, hand-to-hand combat was a man's romance. It'd been a long time since he'd experienced this kind of feeling.

Quan Fu's face was livid, and he spat out a mouthful of blood. "You've also broken through the shackles of growth. What right do you have?"

Even an idiot could tell that Lin Yi was just learning and using what he had learned, breaking through at the last minute.

It was still far from his five breakthroughs, but Lin Yi's body was too strong. Just three breakthroughs were enough to catch up to his previous level. If he were to do it again, Lin Yi wouldn't need to use anything else and just his body alone would be enough to crush him.

"Didn't you teach me this?"

Lin Yi, on the other hand, was confused.

"I'll teach your mom!" Quan Fu was immediately exasperated. That's not right. Even if you're so intelligent that you're almost demonic, you can't possibly break through the shackles of growth. You don't have the conditions. You're clearly only a Big Shot at the middle stage of the consummate level!"

According to his method, if he wanted to turn a false breakthrough in his cultivation realm into a true breakthrough in the growth shackle, the most important prerequisite was to be at the peak of the late stage of the consummate level of a Big Shot. Only this special cultivation realm could satisfy this condition.

He was like this, and as far as he knew, King du was the same.

For breaking through the barriers of other realms, first, there was not enough depth of the barrier, so it was difficult to accumulate enough power. Second, it was not flexible. If you didn't succeed, you would die. It simply couldn't meet the conditions of a fake breakthrough.

They didn't know that these restrictions didn't apply to Lin Yi at all.

In terms of the depth of the barrier, Lin Yi only reached the mid-stage of Big Shot completion after swallowing du Wang's power. With the perfect five elements domain, any of the barriers were only as deep as the ultimate completion of a Big Shot.

As for elasticity, the perfect five elements mutually reinforced and restrained each other, and nature encompassed all things. What could be more elastic than this in the world?

Of course, having this condition was one thing, and whether or not it could be done was another matter.

Lin Yi wasn't one of the strongest in the school yet, but with his perfect five elements domain, he could replicate any powerful move he'd ever seen.

Quanfu wasn't the first to be slapped in the face by someone who had learned and acted on the spot, and he would definitely not be the last.

"F \* ck, I don't care what tricks you're using to play, I'll kill you first!"

Quan Fu finally gave up on thinking about such a complicated and profound question. The veins on his body suddenly popped out, and he squeezed out four words through his teeth, "Divine power, awaken!"

As soon as he finished speaking, the power of the realm exploded and was suppressed back into his body in an extremely condensed manner, pouring into every muscle.

However, the strange thing was that his muscles did not grow stronger after being injected with an immeasurable amount of terrifying power. Instead, they collapsed and shrank one by one.

In the blink of an eye, Quan Fu, who was still a muscular man a moment ago, had returned to the size of an ordinary person. Of course, this was only the lines of his muscles, but his height was still an astonishing five meters.

"A domain of divine power? What a crude way of using the domain, but it's also really terrifying. "

Lin Yi commented.

Domain awakening was a high-end technique, and in theory, one had to be at least at the peak of the realm to master it. However, quanfu's awakening method was simple and crude-Lin Yi could see through it with one look.

Chapter 9674-The End

It was nothing more than compressing and compressing all the domain power to the point that it couldn't be compressed anymore, then pouring it into the body, causing the physical body to change again!

It was such a simple and almost brainless method, but the power it contained made Lin Yi's heart palpitate.

Quanfu suddenly exploded.

Lin Yi didn't even see his movements clearly before he was sent flying. If it wasn't for his strong body that had broken through three shackles, he would've been destroyed by that one hit!

Before his godly power awakened, he had already broken through five shackles. In terms of physical strength, Quan Fu was at least comparable to someone with six shackles.

This was unprecedented in the history of Jianghai Academy and even in the entirety of the repeating school!

"All of them are monsters."

Lin Yi smiled bitterly. Unless he could break through another shackle, he didn't have the right to fight with his body anymore.

It was a pity that breaking through shackles wasn't the same as breaking through to a new realm, but it required a huge amount of energy accumulation. Even if Lin Yi had the method, he couldn't break through just because he wanted to, unless he could completely dig out all the remaining King level energy in his body.

However, that was simply unrealistic.

"Hahaha! Now you've seen what it means by there's a real sky beyond the sky, the five Giants of counterfeit goods?"

Quan Fu was a completely arrogant villain, but with such a terrifying physical body, even if he was a villain, his every move was overbearing.

If he let this guy go out and have fun, unless the five Giants personally came out, the entire repeat school would probably tremble under his feet.

"Yeah, I've seen it."

Lin Yi nodded seriously, his humble attitude making quanfu's heart skip a beat.

But it was too late.

By the time he realized that something was wrong, the time around him had frozen. He saw Lin Yi's essence spirit leaving his body and shooting towards him like a human sword.

Then, the world fell into darkness, and his consciousness was annihilated.

Five elements extreme, metal element divine destruction!

Looking at quanfu's body, Lin Yi couldn't help but feel sorry for him. If he wasn't so weak in other aspects, he was definitely the strongest opponent he'd ever met in terms of physical strength. Even King du was a little inferior!

"It's not bad to use force to break through technique, but it's a pity that you didn't find the right direction. "

Lin Yi sighed and shook his head. He thought that it would be easy to digest the food this time, but he was forced to use God exterminate.

However, learning the method to break through the shackles of growth was also a rare surprise.

This unique physical body cultivation method could be said to be a perfect match for the perfect five elements domain. He had been worried that he wouldn't be able to break through without a huge opportunity. He didn't expect to find a pillow just as he was dozing off. Now, a fake breakthrough path had presented itself to him, and it just so happened that he could use the remaining King Power in his body.

If Lin Yi were to break through five shackles in the future, it would be a breathtaking scene.

However, there was also a problem. What if he was too tall?

Lin Yi wouldn't mind if they were all five or six meters tall, but Mengyao and the girls wouldn't be able to handle it.

After leaving the Sky Tower, Lin Yi didn't go back to his headquarters in the East District. Instead, he went to the pavilion of secrets.

The heaven secret Pavilion was located in the North District of the repeat students' courtyard. Unlike the other Big Five, the heaven secret Pavilion's territory was quite restrained. It only had a small five-story Pavilion.

There weren't any guards around, but no one dared to approach within a ten-mile radius.

There was no other reason. There were too many mysteries. Even a Big Shot at the peak of the late stage of the consummate level would be killed by it if they were not careful. There was once someone who did not believe in heresy and wanted to break in by force. In the end, he ran into a Ghost Wall and had not returned after 20 years.

However, when Lin Yi stepped forward, all the Arcanum around him retreated.

Without any obstacles, Lin Yi quickly arrived at the entrance of the pavilion. There was already someone waiting there, an old man with a clear face.

"I'm Yan Chen, an elder of the heaven secret Pavilion. I've long heard of Lin Wu's great name. Today, I've truly broadened my horizons. "

The old man stepped forward with a smile and cupped his hands.

lin yi blinked, thinking that she was referring to his three-meter height. he chuckled helplessly."elder yan, you must be joking. i've just learned something new and i'm not sure how to deal with it."

yan chen smiled but didn't say anything. lin yi thought he was talking about height, but yan chen was famous for not looking at appearances, only luck.

when it came to the study of luck, he was the best in the entire repeat academy. even tianji himself was far behind him.

"lord tianji is currently in seclusion and is unable to meet with lin wuju. he has specially ordered me to apologize to lin wuju in person."

yan chen handed over a thin book and explained,""lord tianji ordered me to give this to you as a thank you gift."

lin yi took it and read it-it was about breaking through the shackles of growth, and he was sure that it was the original version that king du and quanfu practiced.

Although Lin Yi had found a successful path himself, the original copy was still very meaningful and had great reference value.

It was worth mentioning that at the end of the booklet, someone had written down the method to restore one's height to an ordinary person's height in a completely different handwriting. It seemed that it was personally written by Tianji.

"Could it be that Tianji is also a physical body expert who has broken through the shackles of growth many times?"

Lin Yi couldn't help but suspect that Tianji's appearance wasn't the same as duwang and quanfu 's, but if the records in the book were real, he could recover his normal body size after breaking through the shackles of growth many times.

To be able to be ranked among the five Giants, all of them were unfathomable. They were far from as simple as they looked on the surface.

Yan Chi, King du, and this publicly acknowledged most mysterious Tianji were all the same.

No matter what, Lin Yi got what he wanted from this trip to the pavilion. No one could compare to Tianji's ability to read people's minds.

Lin Yi couldn't help but feel lucky that he wouldn't have to face this person yet, otherwise he'd be in deep trouble already.

In terms of strength, Tianji might not be the strongest among the five Giants, but to anyone, this kind of person who could see through all your weaknesses, see through the past, and the future, and deduce all possibilities was definitely the most difficult opponent.

What Lin Yi didn't know was that Tianji was giving him the same evaluation.

Although Tianji could see countless possibilities of the future, what he could see was only what he could see. What he could really influence was very limited. After all, the future was based on reality.

Many a time, when the general situation came, even if he saw it clearly, he was powerless. That sense of powerlessness was even worse than that of ordinary people who knew nothing.

Especially in the face of what he could see no matter how much he calculated and saw through his x-ray vision. If his willpower was just a little bit weaker, he would have died on the ground, or even escaped.

On the other hand, Lin Yi couldn't see the future, but he had a huge uncertainty.

This uncertainty meant that as long as he was around in the future, everything was possible.

It could be worse, but it could also be better!

Chapter 9675 Power

Tianji avoided Lin Yi's visit because, on one hand, it was necessary-this involved a huge plan for the future, and on the other hand, it was natural that he didn't want to have too much contact with Lin Yi.

It was an obsessive-compulsive disorder, and to people who were used to seeing things clearly, everything Lin Yi passed by was grey.

Lin Yi walked out of the pavilion and studied the transformation techniques Tianji gave him as he walked. He hadn't even walked ten miles when he returned to his normal height.

At first glance, it didn't seem any different from before.

But if one looked closely, they'd find that Lin Yi's muscles were a lot more reserved, and there was a strange sense of danger everywhere. If the explosive force of his muscles was ten thousand tons of TNT, it was upgraded to a real nuclear bomb now.

"It's a pity that the advantage of height and arm span is gone. "

Lin Yi shook his head in pity. As the saying went, "strength is not a loss." People with big bodies had a natural advantage in battle, even practitioners at the peak of giant realm were the same.

Just like du Wang and quanfu, not to mention others, just their five-meter height alone could bring a huge pressure!

However, the advantage of this state was that his body would be more agile and his strength would be more restrained. He was not completely useless.

Moreover, according to Tianji's description, he could still release himself to his original state when necessary, but the process would be more painful.

"You've mastered it?"

Yan Chen, who was on the fifth floor of Tianji Pavilion, couldn't help but click his tongue as he looked at Lin Yi's figure from afar.

He'd seen his fair share of geniuses, and there wasn't a single one of them who weren't geniuses in Jianghai Academy. It wasn't as if they didn't have people who'd left the world in their dust, but this was the first time he'd seen someone as lucky as Lin Yi, who'd easily accomplished something that others wouldn't be able to do in their entire lives.

"Why else do you think I bet on him?"

tian ji suddenly appeared behind him.

yan chen was silent for a moment. "there's tian xiangyang, banshi lu, xu anshan, xiang yusheng, and a bunch of reclusive old monsters in jianghai academy. aren't you being too pessimistic by placing your hopes on him?"

lin yi wasn't someone to be underestimated, but he was still far from the level of these people he was talking about.

"the future is so pessimistic."

tianji let out a long sigh. he hated uncertainties the most, but now he could only take the initiative to embrace this uncertainty.

east district, king-only palace.

the bright moon hung high in the sky, and people from all sides gathered spontaneously. hong ba was the first to lead his men to wait in formation.

"Hehe, Hong Baxian, when did you start acting as a guard dog? Looks like Overlord Pavilion should really change its name. Let's call it the bastard Pavilion from now on so that it doesn't insult the word Overlord. "

A burly man with his nose up in the air appeared in a high-profile manner with a large group of people.

"Du laojiu of the heavenly Tribulation sect." Hong Baxian squinted his eyes.

The heavenly Tribulation sect was also one of the 13 heroes. Although they were not the most outstanding ones, they were the archenemy of the Conqueror's Pavilion. They had fought with each other several times and lost dozens of experts above the middle stage of the consummate level. It could be said that they had a blood feud.

When Hong Baxian was still around, it was actually not difficult to deal with him. However, in order to hide his identity, Overlord's Pavilion needed such an equal supporting role. Only then would people look down on his behind-the-scenes actions. That was why it had been delayed until now.

Ever since Hong Ba took the initiative to join Lin Yi, the heaven calamity sect had been well-behaved for a while. They didn't expect to be the first to jump out today!

"Aren't you afraid of being killed as an example to others?"

Hong Ba said in a deep voice.

Du laojiu laughed, "I'm afraid!" How could he not be afraid? But now that your new five Giants can't even protect themselves, it doesn't seem like it's my turn to be afraid. After all, I'm the face of one of the thirteen elites. If I'm afraid of a mere 39th ranked person in the top 100, wouldn't I lose my face if word got out?"

Hong Baxian's expression was unreadable, "do you really think that your sworn brother Quan Fu can defeat my boss?" Ha, you've really underestimated the weight of five Giants. "

"That's why I said, only the ignorant can be fearless. "

Du laojiu stepped forward and sneered. "You only know how terrifying the five Giants are. You don't know how terrifying my big brother is. You don't know that there's always someone stronger than you!" Old Hong, let me give you a piece of advice. Open your eyes and look outside. This world is different from before!"

Hong Baxian's face was as dark as water because he saw that the 13 heroes of other sects were also on their way.

He had still underestimated quanfu's appeal.

To be precise, he had underestimated the greed of human nature. The reason why the thirteen heroes were here today was the same as the incident with the lone king-they saw that Lin Yi's position was unstable and wanted to take advantage of it!

It wouldn't be a big deal if only a few houses came-Lin Yi's strength was there, after all.

However, once it formed a rolling trend, creating a situation where everyone pushed a wall that was down, it would be really troublesome. Don't forget, in addition to the menacing Quan Fu, there was still the fallen Dragon watching from behind.

As expected, another large group of people approached quickly. The number of people who returned was several times more than the thirteen heroes.

Scavengers.

Even Hong Baxian's heart couldn't help but skip a beat. Although scavengers were the lowest class of the retained students, they were also the group that couldn't be provoked the most. This was because they had too many people and were everywhere.

It was true that the vast majority of them were only at the early stage of the consummate level of a giant, and not many of them were even able to reach the peak of the early stage of the consummate level. However, after so many years of accumulation, the number of them was beyond imagination.

There were definitely more than one or two experts on Liu Yun's level among the scrap pickers. However, they were deeply hidden, and even the Hundred Schools of Thought found it difficult to truly obtain information on them.

If something happened, the number of experts that emerged from this group of scavengers might be enough to make the thirteen heroes feel inferior.

What was worse was that at least the thirteen heroes were organized, and there was room for negotiation. However, this group of scavengers had gathered purely on their own. They didn't even have a unified leader. Once they started a fight, there was no room for negotiation.

In the blink of an eye, hundreds of people had gathered in front of the door of the palace. The number was still increasing, and it was only a matter of time before the number of people exceeded 1000.

These were all experts at the level of a Big Shot's consummate level. If they were outside, it would already be a major event that would impose martial law on the entire city. It was likely that even the people of the city Lord's mansion would be on tenterhooks, worried that they would be occupied at any time.

But in the repeating Academy, it was the second time in just half a month.

The only thing that made Hong Ba feel a little relieved was that he didn't see any of the other five giant's men in the crowd, including the few dangerous figures under the fallen Dragon.

This was the only good news.

Chapter 9676

Looking at Hong Baxian and the others, who were on guard, du laojiu laughed. "We were all invited to the du King Palace to admire the moon. Your new five Giants can't be so stingy that they won't even let us admire the moon, right?"

As soon as he finished speaking, a large group of people responded immediately. For a time, the momentum shook the sky.

"I don't remember my boss sending you any invitation," Hong Baxian replied in a deep voice. "I'm afraid you're all mistaken."

"Your boss didn't, but I did. Can't I?"

With a hoarse voice, a young man who was obviously much taller than everyone else stepped out of the crowd.

Hong Baxian frowned slightly. As a veteran of the repeat school, he naturally knew this person's background.

Little du Wang duanli.

King DU's name was Duan she. It was said that Duan Li was his biological brother from a different mother. Although the relationship between the brothers was indifferent, they were still related by blood. In addition, Duan Li was also very powerful, and many of his abilities were similar to King du 's. Hence, people called him Little King du.

If King du was looking for a successor, this person would definitely be the best choice. No matter from which aspect, he had a unique advantage in inheriting King DU's name.

There were even rumors that Little King du should be the owner of the palace, and that Lin Yi should give it up if he had any dignity!

"The king-only Palace is my brother's inheritance, so it's only right for me to inherit it. Of course, if your new five Giants insist on taking it for themselves, just pretend I didn't say anything. I'm just doing good and giving it to a beggar."

Duan Li's words drew the agreement of a group of people.

Hong Baxian was about to lose his temper. The repeat yard had always been a place where the strong were respected, and the tradition was that the winner takes all. The entire eastern area was under Lin Yi's control, not to mention a mere sole king's palace. That was the silent consent of Xiang Yusheng and the other five.

However, it still depended on the individual's style. If Lin Yi was concerned about reputation, it wasn't impossible for him to hand over the palace to them.

After all, judging from Lin Yi's performance before, he really didn't care much about this so-called Eastern sacred land.

Moreover, there were so many people approaching menacingly. If he didn't handle it well, the situation would immediately get out of hand. Hong Ba hesitated for a moment and finally forced himself to endure it.

Even though he had to endure it, Hong Baxian still started to mock the group, "I really didn't think that such a ridiculous thing as moral kidnapping could actually happen in the repeat students. Is it because I can't keep up with the times, or has the repeat students changed?"

Everyone was speechless.

These words were indeed awkward even for them. The repeat Academy had always followed the law of the jungle where revenge was settled. There was not even a decent unified order. Talking about morality in this place was no different from talking about chastity with a prostitute.

Duan Li choked, then laughed coldly. "I've made it very clear just now. We didn't ask your new five Giants to take the initiative to return King DU's Palace. It's really difficult for him to have such moral quality!"

"However, so many people have come for the moon appreciation Festival today. You just blocked everyone outside the door. This doesn't seem to be how the new five Giants treat their guests, right?"

As soon as he finished speaking, there was another round of agreement.

In the midst of the crowd's commotion, someone was instructed to attack the sole king's palace. The people from the Overlord's Pavilion were about to attack, but they were stopped by Hong Ba.

The other party was clearly going to be in an all-out confrontation because of this. Once they made any move, the group's emotions would instantly erupt under the instigation of someone with ulterior motives. At that time, it would really be out of control.

Even though the Overlord's Pavilion had absorbed many masters recently, it was still beyond their ability to fight thousands of people, especially those who were ranked in the top 100.

If that really happened, even Lin Yi himself might not be able to control the situation.

Seeing this, Duan Li's disappointment disappeared in a flash, and he walked towards the door,"Pavilion master Hong, you can come and stop me. I'll say it here. The moon appreciation Festival is a rare event and also a Memorial for my brother. I'll do it."

"Since Little King du is so confident, I wonder if you dare to fight me?"

Hong Baxian's voice was like thunder, and it hurt everyone's eardrums. At the same time, it also suppressed the people on the other side.

At that moment, everyone's eyes fell on Duan Li.

Although they had been incited to come, they were not fools. In the end, they had come here to take advantage of the situation. No one would easily stand out and be the first to do so. However, they still had the courage to add fuel to the fire and watch the show, and they were very bold.

"Little King du, go! Let's put out his arrogance!"

"That's right! A mere guard dog is too arrogant. He doesn't even put little du King in his eyes! In any case, if it were me, I definitely wouldn't be able to endure it!"

Duan Li secretly pouted. A bunch of useless guys. But then again, the repeat Academy was originally a gathering place for the losers. If there were Dragons and phoenixes everywhere, would it still be called the repeat Academy?

"Alright, then let me experience Pavilion master Hong's Dragon-elephant domain!"

Duan Li made his move immediately. His Target today was Lin Yi, and if he didn't show his strength, the thousands of people behind him wouldn't have the guts to follow him.

"That will depend on Your Excellency's ability!"

Hong Baxian decisively activated his domain, and with the roars of Dragons and elephants around him, he calmly threw a punch forward.

This punch looked ordinary at first glance, giving people the feeling that it was the stupid stance of a beginner. However, in the next moment, thousands of Dragons and ten thousand elephants rushed out in an instant. Other things aside, just the terrifying movement that shook the sky and earth made everyone's expression change.

Was this the strength of the 36th in the top 100?

It wasn't that there weren't any experts among them who were ranked above Hong Baxian, but if they were to take this attack head on, they would probably be killed instantly. Hong Baxian had definitely been hiding his strength!

Duan Li's eyelids twitched, but his face remained nonchalant, ""With this little ability, it's better not to come out and embarrass yourself."

As he spoke, he struck out with his palm. Whether it was his stance or rhythm, he was exactly like King du. In addition, he was nearly three meters tall. In the eyes of others, he really looked like Little King du!

"You're looking for death!"

The two sides collided head-on, and the crowd spontaneously retreated tens of meters. At this level, the aftermath of the collision was no joke. If they were a little slower, they might die an unjust death.

In the end, there was nothing.

When Hong Baxian's majestic thousand Dragons and ten thousand elephants met Duan Li's palm, it completely disappeared. Let alone dealing any damage, it didn't even cause a single ripple.

Everyone was shocked.

This wasn't because Hong Baxian was too weak, but because Duan Li was too strong, so strong that it exceeded their expectations.

Chapter 9677

After a moment of silence, someone in the crowd suddenly shouted, "Space domain! As expected of King DU's brother, you've learned King DU's spatial domain!"

The crowd was in an uproar.

Space and time had always been publicly acknowledged as domains that only the top experts could step into. Since Duan Li knew the space domain, didn't that mean that he also had the potential to become one of the five? The three words "little du Wang" were not just for show!

"Pavilion master Hong, I wonder if you can withstand my spatial banish?"

Duan Li laughed arrogantly, and in a flash, he appeared behind Hong Baxian. Then, he struck out with his palm, and his entire style was exactly the same as du Wang 's.

A person's name was like the shadow of a tree.

Even an experienced man like Hong Baxian was intimidated. His whole body stiffened, and he couldn't Dodge at all. He could only let the palm hit his back.

Although King du had fallen, the power he had left behind was deeply rooted in the hearts of the people. Even to a formidable character like Hong Baxian, it still had a huge deterrent force.

Pfft!

Hong Ba spurted out a mouthful of blood on the spot, but unexpectedly, he was not banished to the space crack as expected, never to reincarnate ever again.

Just as everyone was confused, Duan Li laughed in disdain. "Did you get a shock? Hehe, I haven't had enough fun yet. It's rare that I'm in the mood. If I stop now, I'll be too unhappy!"

In other words, he didn't just want to defeat Hong Baxian, he wanted to kill him in public!

"What big words!"

Hong Ba was the first to react and was instantly enraged. He activated the Dragon elephant domain and faced the attack head-on. In terms of head-on strength, his Dragon elephant domain was not inferior to anyone, especially among experts of the same level. Even if it was not invincible in a head-on battle, it was definitely a first-tier existence.

However, Duan Li's palm still managed to wipe it clean, and the mighty thousand Dragons and ten thousand elephants once again became unruffled.

Everyone was getting more and more aware of this. It was obvious that he had used spatial ability to transfer the powerful impact of the thousands of Dragons and ten thousand elephants into the void.

This was also the most difficult part of a space domain expert.

As long as they could react in time, they could transfer all the attacks into the void at any time. As long as they could not find a corresponding solution, they would naturally be in an invincible position.

Taking advantage of Hong Baxian's lack of strength, Duan Li struck him on the back with his palm again. It was the same spot where he had been injured just now.

Although his strength was not as strong as his [thousand Dragons and ten thousand elephants], it was still far beyond the upper limit of physical attacks of experts of the same level. This guy was like his brother, du Wang, not only was his body much larger than ordinary people, but his physical strength was also far beyond ordinary people!

Hong BA's injuries were getting worse.

What was even worse was that he had to be on guard against Duan Li's spatial abilities at all times. Hong Baxian could no longer display his indomitable and ferocious aura. His subconsciousness had driven him to become restrained, and as a result, he was naturally not Duan Li's match.

The scene began to turn into a one-sided slaughter.

The atmosphere in the Overlord Pavilion was heavy, while the thousands of people outside were cheering.

They were not here today to target Duan Li, but it was not a bad thing for them that little du Wang was so powerful. At least, if the bird that stood out was stronger, they would have less pressure to pick up the cheap.

Moreover, behind Duan Li, the most important person was the brutal Quan Fu of the Hundred Schools of Thought.

No one knew that the leader they had been looking forward to seeing had now become a corpse, and all of them were still cheering for Duan Li.

"pavilion master hong, i'm a little embarrassed to do this to you. why don't you kneel down and admit your mistake? don't worry, i've always been very magnanimous. a great man won't remember the faults of a small man. "

duan li sneered as he sent hong baxian flying a hundred feet away.

there was a commotion outside, especially du laojiu's shout. just the fact that he could see hong ba being the first to be defeated was worth the ticket price.

on the other hand, the people from overlord's pavilion were all red with embarrassment. some of them could not help but want to attack, but they were stopped by hong baxian's gaze.

taking down duan li in a one-on-one battle was the only way at the moment. once they broke the rules, the thousands of people on the other side would definitely blow up, and things would really get out of hand.

helplessly, hong ba's first thought was very good, but his strength was not enough.

At this moment, an unexpected voice suddenly came from behind, ""Old Hong, when did you become so lame? You can't even beat this kind of swindler, right?"

Everyone looked towards the source of the voice and saw a man sitting on the wall of the palace, swinging his legs. It was Lin Yi.

The thousands of people on the opposite side immediately acted as if they were facing a great enemy.

For a moment, it was so quiet that one could hear a pin drop, and everyone present did not even dare to breathe.

They might look aggressive, but Lin Yi seemed like a fart to them. They didn't need to be afraid of him, but humans were realistic animals. If Lin Yi really sat there, they wouldn't even dare to say a word.

At that moment, everyone could only look at Duan Li.

Today's moon appreciation Festival had two initiators. One of them was the Hundred Schools of Thought's Quan Fu, who had been in the limelight for a while, and the other was this little du King, Duan Li. Now that Quan Fu had not appeared for a long time, it was naturally Duan Li who had to take the lead.

"Swindling and swindling?"

Duan Li smiled coldly at Lin Yi. "You're indeed the pride of the new five. You have master Luo's support. You're really arrogant."

In other words, if it wasn't for Banshi Luo backing him up, Lin Yi would be nothing. He wouldn't even have a place in the repeat school, let alone be one of the five great masters.

"Is that so?"

Lin Yi smiled, not angry at all. "Banshi Luo has a good eye for people. It's normal for him to think highly of me. I happen to have a good eye for people too. I think old Hong's strength is more than enough to deal with you."

duan li laughed in anger, pointing at hong baxian, who was in such a sorry state that he could barely stand, "then you really are of the same lineage. you were more than enough to deal with me, but you were beaten up to this stupid state. lin wuju, your level of telling jokes really needs to be improved! but that's right, someone is a big joke himself, so it doesn't matter if the joke isn't good, right?"

lin yi looked at him for a moment before nodding, "i was wrong. actually, you're not completely useless. you're quite good at being eccentric."

after he finished speaking, he didn't wait for the other party to reply and directly said to hong baxian, "old hong, you're an experienced man. how can you not see that he's just a fraud? this is a little embarrassing."

"a liar?" hong baxian was slightly stunned.

He knew that Lin Yi wouldn't shoot aimlessly, but he had to admit that little du Wang's strength was far above his after the fight just now. He had no way to attack Lin Yi just with his spatial ability.

"You really think he knows the space domain?"

Lin Yi's words made Duan Li's face change.

Chapter 9678

Hong Baxian and the rest of the people present were all stunned. "Isn't it? If it wasn't for his spatial abilities, how could he have easily dispelled my thousand Dragons and ten thousand elephants?"

If he still had some doubts at the beginning, after being easily defeated by the thousand Dragons and ten thousand elephants, everyone present was convinced without a doubt.

After all, he was the blood-related Little King du. He was exactly the same as King du in all aspects. Even his height was a notch higher than King du 's. Was it strange to have the same abilities as King du?

"Who said that I have to use spatial abilities to dispel your thousand Dragons and ten thousand elephants?" Lin Yi said with a half-smile. Besides, how do you know that he has really resolved it?"

hong baxian became more and more confused, and he couldn't help but look at duan li suspiciously.

duan li laughed in disdain, "this is really interesting. you can't accept the cruel reality and you're starting to deceive yourself. your family's new five giants are really good at brainwashing themselves."

after he finished speaking, he attacked again. this time, he didn't use his previous banter, but his killing intent. it was obvious that he was going to kill hong ba first!

"don't mind him, thousand dragons and ten thousand elephants,"

hong baxian was a little surprised at lin yi's words, but he didn't hesitate and went all out despite his injuries.

however, the result was no different from before. duan li's casual slap had caused it to vanish into thin air, and even though it was so powerful, it did not cause any waves.

on the other hand, hong baxian himself had suffered another heavy blow. if he had not reacted quickly enough to avoid the vital parts of his neck, he would have been dead by now!

"What do you say? The new five Giants?"

Duan Li looked at Lin Yi, his face full of mockery.

On the other side, du laojiu and the others took the lead, and even the people from the Overlord Pavilion looked at Lin Yi with more doubt.

At least from the results, Lin Yi's advice didn't save Hong Baxian, but almost killed him instead. It was embarrassing for a Big Boss of the five.

Only Hong Baxian, who'd just escaped death, believed in Lin Yi, "I understand! Thank you for your guidance, boss!"

after he finished speaking, he ignored his injuries and once again took the initiative to attack duan li.

everyone was baffled.

was this guy's brain kicked by a donkey? even if he wanted to show his loyalty, this was not the right way to do it, right?

"hehe, you look like a slave. is this the self-cultivation of a bootlicker?"

duan li laughed again, but he had a bad feeling in his heart. he couldn't help but glance at lin yi, who was sitting on the wall with his legs crossed. could this guy really see through him?

that was impossible!

duan li suppressed the panic in his heart, and his face remained nonchalant. without another word, he attacked hong baxian again.

This time, Hong Baxian still didn't Dodge, as if his narrow escape just now was just an illusion. He held his breath and focused his mind. The domain power around him expanded wildly and then quickly returned to his body in an extremely condensed state.

"This is my last strike. If you can take it, I won't feel wronged even if I die in your hands!"

As he spoke, Hong BA's tendons and bones resonated in unison, and then the sound of Dragons and elephants shook the surrounding hundred miles. He threw a punch, and at first glance, it still looked like the thousands of Dragons and elephants from before. However, those with a little eyesight would notice that the number of Dragons and elephants this time had not increased, but had decreased instead.

However, each Dragon and elephant became extremely solid, and even seemed a little sacred. The power contained within them made people instinctively tremble!

The Dragon and elephant domain was awakened, and the Dragon and elephant Prajna was awakened.

"Just this little trick? Hehe, then you can die in peace!"

Duan Li laughed as he welcomed the attack with a palm strike. In an instant, the Dragon-elephant Prajna disappeared without a trace, just like before.

"Just this?"

Duan Li sneered. When he saw Hong Baxian's determined expression, he really thought that something would happen. He didn't expect that it would only be for show.

Hong Ba was already exhausted, and he fell to the ground without the other party even having to make a move. He panted and laughed hideously, "Yes, this is it."

"Then die ..."

Before Duan Li could finish his words, an unprecedented sound of a Dragon and an elephant suddenly burst out from his body. The movement was even several times greater than the Dragon and elephant Prajna from before. It gave people the illusion that he was the one who had mastered the Dragon and elephant domain!

Then, countless Dragon and elephant shadows burst out of his body. Duan Li's body expanded in a visible way, turning into a human-shaped balloon, and then exploded on the spot.

Looking at Duan Li's corpse, which was not even intact, the entire place fell into a strange silence.

The turn of events had come too quickly, so quickly that they had no time to react.

The people from the Overlord Pavilion were also dumbfounded. They were clearly on the edge of life and death just now. How did they suddenly get killed?

"I understand! Damn this little du King, he doesn't know any spatial ability. He must have cultivated the hundred rivers domain, which can absorb all attacks, but he has disguised it as a spatial domain!"

Finally, someone reacted.

Those who were able to enter Jianghai Academy were no fools, and with the reminder, realization dawned on them.

The space domain was recognized as one of the strongest domains. Ordinary cultivators could not touch it at all, so they could only be confused by it. However, the hundred rivers domain was not a rare thing.

All rivers run into the sea. Although it was a rather powerful domain, it had a fatal flaw. There was a limit to the number of attacks it could absorb.

If it couldn't exceed this upper limit, then it was indeed unresolvable. However, once it exceeded the upper limit, then it would end up like Duan Li.

In the end, there was no strongest domain, only the strongest cultivator.

If the hundred rivers domain fell into du Wang's hands, it wouldn't be any less difficult to deal with than the space domain. Even if du Wang stood there and let you attack him crazily, how many people in the retained students could destroy him?

Unfortunately, it had fallen into Duan Li's hands, so it could only play tricks and use it to fool the audience who did not know the truth.

Lin Yi looked down at the thousands of people in front of him and said calmly, "Alright, the scammer who stood up for us is gone. Who's next?"

As soon as he said this, the other side all retreated ten meters.

Although Duan Li was a swindler, his strength was not fake. Even among them, he was definitely one of the best. If such a person had died in front of them, wouldn't they be courting death if they stood up?

"Heh, a motley crew."

Hong Baxian caught his breath and stood up again, glancing at the people in front of him with disdain.

He'd felt a lot of pressure before-even if Lin Yi came out personally, he wouldn't be able to handle it, but now that Lin Yi was sitting behind him, he was full of confidence again. He didn't feel any fear at all when he looked at the huge crowd in front of him. Instead, he felt like they were a bunch of chickens and dogs.

Even in his current state, he was afraid that even a Big Shot at the middle stage of the consummate level would not be able to deal with him. However, his mentality was just so wonderful.

Chapter 9679 Power

Du laojiu couldn't keep his face and snorted coldly, "You just killed a liar who only looked good on the outside. I don't know what you're so proud of. If he's really that capable, let's talk after killing the strongest one. "

"Who's the strongest?" Lin Yi interrupted with a smile.

Du laojiu's imposing manner stagnated. He straightened his neck and said, "Of course it's the Hundred Schools of Thought's blessing, don't tell me it's me?"

"Oh."

Lin Yi nodded and took out quanfu's body from the Jade space, throwing it in front of everyone. "You mean him?"

The entire place was dead silent.

The only sound left was the sound of people swallowing their saliva.

Unlike Duan Li, who had an undeserved reputation as the little du King, the Hundred Schools of Thought Quan Fu was not a weakling. He was publicly acknowledged as one of the strongest people in the retained students during this period of time. If it were not for this person leading the way, who would dare to come to the du King Palace to join in the fun?

There were even people who placed their bets on Lin Yi and quanfu, and although Lin Yi's odds were lower overall, the bets were very close.

In other words, at least in most people's eyes, quanfu was on the same level as Lin Yi. Especially after someone secretly spread the news that quanfu had the potential to break through the shackles of growth five times, this notion was even more deeply rooted in people's hearts.

Who would've thought that quanfu would die in Lin Yi's hands before the Moon Festival even started!

"The moon appreciation Festival, right? Since everyone is giving me so much face, I won't stop you. "

Lin Yi turned to Hong Baxian, "old Hong, open the door and let everyone in. The palace is too quiet these days. Let's have some fun."

"Yes, boss."

Hong Baxian was completely convinced by Lin Yi now, and he felt that he hadn't misjudged him. He suppressed his injuries and opened the door himself, looking at everyone with a smile, "Everyone, please."

Everyone kept quiet out of fear.

What a joke, who would still dare to go in at this time? it would be strange if they could still come out after going in!

Ever since he'd become one of the five, Lin Yi hadn't had a record of killing anyone. He'd even dealt with the remnants of the eastern district's lone King's forces, and his temper was considered mild among the five.

However, no matter how gentle the five Giants were, they were still the five Giants. They stood at the top of the repeat students' food chain. No matter how well they usually performed, they could still explode and eat people at any time. After all, this was the norm in the lawless land.

Little du Wang duanli was dead, and Bai Jia Quan Fu was dead. Now, it was their turn.

Someone couldn't bear the oppressive and terrifying atmosphere and couldn't help but try to escape secretly. In the end, he was kicked back before he could run ten meters, and his body was stuck to the wall in the shape of a character.

"Hey, I'm taking the initiative to invite all of you now, but none of you are coming in. Are you not giving me face?"

Lin Yi squinted his eyes at the group. At the same time, his clones were standing behind the group with their arms crossed, ready to greet whoever made a move.

All of a sudden, the thousands of menacing men turned into a group of sheep, their heads lowered and their necks shorter and shorter, afraid of Lin Yi.

Logically speaking, the combined battle prowess of over a thousand Almighties at the consummate level was a terrifying force that could not be underestimated no matter where they were placed, especially when there was no lack of experts among them.

If they really started a chaotic battle, even with Lin Yi there, both sides would still be injured.

Unfortunately, they didn't have a backbone, nor did they have a qualified speaker.

If quanfu was still alive, he might have been able to stir up the ambitions of many people and at least have a chance to fight, but unfortunately, there were no ifs in reality.

Hong Baxian sneered as he walked in front of du laojiu. "My boss has already spoken. Come on, otherwise, you're not giving my boss face. You'd better think carefully."

“.....”

Du laojiu gritted his teeth and cursed at Hong Baxian, but Lin Yi's eyes swept over him, and the vulgarities immediately turned into a flattering smile. "I'm a rough man. Actually, I've never been interested in such elegant things as admiring the moon. I'm only here to watch the fun today."

Lin Yi smiled,"it's good to watch a show. I like to watch a show too. Hurry up, there's a show waiting for you inside."

"Ah?"

Du laojiu wanted to cry, but he didn't dare to say no under Lin Yi's gaze. He braced himself and walked in,"Then it would be impolite of me to refuse."

Seeing him take the lead and walk through the gate, the people behind him cursed in anger. With him as an example, if the others dared to not cooperate, they would really be courting death.

Over a thousand people lined up to enter the hall of Kings. They were as obedient as primary school students who had come out for a group spring outing. However, these primary school students were all Giants with complete cultivation.

The hall occupied a large area. Even if there were thousands of people, it did not seem crowded at all.

Lin Yi gave Hong Baxian a look, and he immediately led his men to give them number plates. Du laojiu and the others were all inexplicably frightened, and they suddenly had a bad feeling.

"Those whose numbers are called, follow me. The rest of you, stay put."

After that, he gave 50 numbers and picked 50 people to lead the way to the basement.

Du laojiu was among them, and he was afraid that Hong Ba would deliberately take revenge on him. He had no choice but to lower his stance and say, ""Old Hong? Pavilion master Hong? You see, we've been friends for decades. Although there was a little bit of unhappiness, it's all in the past. After all, it can't be said to be a blood feud, right?"

"Are you afraid of death?" Hong Ba glanced at him.

"Who wouldn't be afraid of death?"

Du laojiu was a Bachelor. He was really arrogant before, but now he was really timid. ""Old Hong, help me put in a few good words for Lin Wuju. Don't worry, I'll definitely reward you handsomely in the future!"

Hong Ba was unmoved.

"If it doesn't work out, I can bring the entire Heavenly Tribulation sect to Lin Wuju!" Du laojiu added.

"You said it yourself," Hong Baxian's eyes lit up.

The heaven tribulation sect wasn't particularly strong, and du laojiu wasn't one of the top-tier Masters under the five, but he was still one of the thirteen heroes. Once he joined them, the shortage of manpower would be greatly alleviated, and it was a sure-win deal for Lin Yi.

"Alright, alright, alright. I said it. You can let me go back now, right?"

Du laojiu was full of helplessness. As long as there was a choice, who would be willing to have a superior above them?

The thirteen heroes weren't as famous as the five, but they were at least free. If they really chose Lin Yi, they'd be walking on thin ice in the future.

Hong Baxian laughed, "since we're family, why should I let you go back?" The two young masters are waiting in the martial arts practice field below. For the sake of our many years of friendship, I'll give you a cheap deal and let you be the first to show your face, how about it?"

Chapter 9680 The Power Of The Divine Realm

"Ha? Where did these two young masters come from?"

Du laojiu was confused. After passing through the underground passage, the scene in front of him suddenly opened up. In front of him was a huge and empty martial arts practice field. In the distance, opposite him, two children less than 1.2 meters tall were staring at him in boredom.

One of them was expressionless and his expression was as dull as a stone that could not be melted. The aura around him was extremely calm. The strange thing was that the space around him was rippling as if it would split open at any time.

The other person had a flamboyant temperament, but his entire body was covered with dense dragon scales. At first glance, he looked like a human-shaped evil Dragon, and his brows and eyes were filled with a fierce aura that made people's hearts palpitate.

Where did he find these two idiots?

Although the two children were only in the foundation establishment stage, which was insignificant in the Academy where big shots with Great Perfection were everywhere, and du laojiu could kill them with a casual sneeze, he was not a pure idiot, after all, and he still had a good eye for people.

These two children were definitely no small matter.

"We agreed that you'll be the first, so the first prize is yours. Go on."

Hong Baxian said as he kicked du laojiu into the arena.

Seeing the two children's eyes sweep over him, du laojiu's heart inexplicably thumped, and then he felt a little ridiculous.

No matter how domineering these two children were, Foundation establishment cultivators were still Foundation establishment cultivators. What did he, a Big Shot at the late stage of the consummate level, have to be afraid of? What he should be worried about now was if he accidentally killed the two children. That would be really troublesome.

"Old Hong, you don't really want me to fight them, do you? That's bullying a child. I can't bear to do it. "

Just as du laojiu finished speaking with a smile, his face suddenly changed under the barrier above him.

His cultivation level had been suppressed to the foundation establishment stage!

Hong Ba first laughed on the sidelines. He thought back to the time when he had the same thoughts, and then he was taught a lesson. Now that there was finally an unlucky person who wanted to share his misfortune, he couldn't help but gloat, "Then you should go easy on them. They're both my boss's babies."

"Ha? Could he be Lin Wuju's son?"

Du laojiu was shocked. He didn't hear anything about Lin Yi having a son, but it wasn't strange for Lin Yi to have as many women as he wanted with his status and strength. He could even have a whole nest of them, let alone two sons.

"....."

Hong Ba opened his mouth and said, ""You're on your own. "

He'd been surprised by the kids "identities at first, and had been guessing for a long time, but he couldn't keep his mouth shut after hearing the truth from Lin Yi.

These two kids were even more mysterious than Lin Yi's illegitimate child!

"What F \* cking self-blessed?"

Du laojiu scoffed. Even if his realm was limited to the same foundation establishment stage, his combat experience and awareness were still there. This was like asking a college student to do elementary school homework. Even if the questions were the same and the answers were the same, the depth of understanding between the two was completely different.

The next second, he knew he was wrong.

Du laojiu felt the world spin as he was stepped on. Looking down at the wooden face, du laojiu subconsciously thought of King DU's stalwart figure. But then he was stepped on again and lost consciousness on the spot.

"It's my turn! It's my turn!"

Another child with an arrogant temperament couldn't wait to step up. He pointed at the people behind Hong Baxian and said, ""One by one isn't enough. All of you, come at me together. I'm in a hurry!"

Everyone looked at each other.

Hong Baxian nodded and motioned for them to go up together. With his understanding of these two young masters, even if fifty of them went up together, it would still not be enough.

The result was just as he had expected. In less than a quarter of an hour, a total of fifty Almighties at the consummate level were all defeated.

Even if Hong Ba had already mentally prepared himself, he still couldn't help but be dumbfounded at this scene.

There was really no comparison between people. Even if he himself was a talented and ambitious figure, when compared to these two freaks, he was simply a stone in a cesspit, not worth mentioning at all.

More than a thousand people were locked in at once. Temporarily, sandbags were enough, but it was only temporary.

Although the two children were only at the insignificant Foundation establishment stage, they were able to break through a small realm every day, or even more. At this rate, it would only take a month or so for them to advance to the great circle of perfection of a Big Shot.

It was precisely because he broke through too quickly that he needed a lot of actual combat to help him digest it. Otherwise, it was easy to go berserk.

However, with their abnormal strength, once they reached the level of a Big Shot at the great circle, how many of the retained students would be able to withstand their torture?

Hong Baxian couldn't help but shiver. Just thinking about that scene was terrifying.

"What are you waiting for? it's the next batch. Hurry up and call for help."

While he was still in a daze, the arrogant child had already begun to speak. Hong Baxian subconsciously wanted to act like a fierce and ambitious person, but when he thought of this fellow's background, his anger dissipated by half.

Especially after seeing the emotionless and dull eyes of the person next to him, the other half instantly scattered. He couldn't afford to offend him.

looking at the group of unlucky people on the ground being dragged away, the arrogant child turned his head in boredom and said, "old broken, are you really willing to follow that surnamed lin? i definitely can't beat him now, but you're different. if i were you, i definitely wouldn't be able to stand it. "

the wooden child glanced at him but did not reply.

"stop pretending! we're in the same boat now, so we must be on the same side, or else neither of us will have a good life ..."

before the arrogant child could finish his words, the wooden child suddenly raised his hand and slapped him directly to the wall 50 meters away.

"you're noisy. "

After a while, the arrogant kid struggled down from the wall while cursing. He was unscathed. He didn't dare to say anything else, but at least in terms of taking a beating, he thought he was the best in the repeating school.

"Old broken, you're so boring. We were just talking about it, why did you suddenly attack? I've already said that we're on the same side now, and our common enemy is that Lin ..."

Lin Yi's chuckling voice came from behind the arrogant kid. "Who's the common enemy? Second brother, tell me about it. "

"....."

The arrogant child turned around and knelt down without saying anything. He said with a serious face,""The other five Giants, that old man Xiang Yusheng, and that Emperor Xu Anshan from the Academy ... As long as they are your enemies, they are our common enemy. Sooner or later, I will wring their heads off for you to use as a chamber pot. I will change them every day, and it will be different!"

Lin Yi smiled and gave him a smack on the head. "Then I'll be waiting for your filial piety, second brother."

"Just wait and see!"

The arrogant child immediately felt as if he had been granted Amnesty. He turned to the wooden child and said proudly, "Did you see that? This is called the art of speaking. Done!"
