

Bodyguard 9681

Chapter 9681 The End

The wooden child glanced at him and said, ""Idiot."

"I'm the one who called people stupid!"

The arrogant child straightened his neck and bickered with him. In the end, he provoked the other party's impatience and was slapped away again.

Lin Yi was speechless-they were both amazing people, so why did they leave behind this sort of seed?

The two of them had powerful backgrounds.

The arrogant kid was called Ren Tian 'er. He was the former president of the Sky Dragon Society, Ren Tianyuan, who lost to Lin Yi. Although he was burnt to a crisp by Lin Yi's great burning heavens, he left behind a dragon scale that could support the world.

It was not rare to find a secret technique in the world of cultivation, but the success rate was extremely low. Normally, even if he had left behind this dragon scale, the possibility of it reviving on its own was very low.

In the end, God made him encounter a ghost.

With the Orthodox lineage of the Dragon race, he could activate it with just a stream of dragon energy, and then he became this little brat.

As for the wooden child next to him, he was the reincarnation of King du, and now he was called Duan she by his original name.

When he died in front of everyone, his soul didn't really die. A trace of his will floated in the void because all his energy was absorbed by Lin Yi.

Coincidentally, Lin Yi was trying to remove the curse's power, and with Banshi Luo's guidance, he was able to remove the curse's source and reincarnate as a child.

And so, Lin Yi had two extra followers out of nowhere.

No matter if it was Duan Li or Ren Tian 'er, they didn't lose their memories, experience, or source of power, which was why they advanced very quickly after reincarnation. As long as Lin Yi had enough resources, it was only a matter of time before they regained their former strength.

However, although they both had the memories of their previous lives, they were still children after reincarnation. Therefore, it was inevitable that they had some childlike nature, especially Ren tianer.

As for Ren Tian 'er's rebellion, Lin Yi wasn't worried at all. He wouldn't even have to worry about it in the future, let alone now.

Ren Tian 'er was born from the ghost's Dragon Qi. To a certain extent, he could be considered half the ghost's son. If the ghost told him to go east, he would not go west. No matter how petty he was, he could not cause any waves.

As for Duan Li, his self-pity curse was extracted from Lin Yi's body, and they could sense each other naturally. Lin Yi was the foundation of his cultivation, and hurting Lin Yi was hurting himself. It wasn't an exaggeration to say that he was Lin Yi's illegitimate child.

To put it bluntly, their backgrounds meant that they were Lin Yi's most trusted core members. In terms of trust, they were no less than Shen Yifan and his lackeys in the mortal world.

Besides, the upper limits of these two men were extremely high, especially severed ties. Once they returned to their peak, they would be the top generals under Lin Yi. Even Yan Zhongyuan and the others who were rising to the top couldn't compare to them in a short time.

This included the seemingly frivolous Ren Tian 'er, who was at the top of the five Giants at his peak. He was also a rare combat power.

It was just that to raise these two with potential, the amount of resources needed was astronomical. Free sparring partners were just a side effect-Lin Yi's current background in the repeat division wasn't enough to support them.

Just as Lin Yi was scratching his head, he heard a commotion outside.

"You two stay here and don't go anywhere!"

Lin Yi said as he rushed over. When he reached the ground, he saw a dark figure standing on the roof of the palace, holding a long-legged woman in his hand. It was ye Zhiwei, who came to Lin Yi's side a few days ago.

As for the area below, it was a scene of carnage with blood flowing like a river. Lin Yi did a rough count and saw at least a hundred dead.

This was over a hundred Almighties at the consummate level!

From the start of the incident until now, it had only been less than ten breaths.

Although Lin Yi could use his spirit sense to clear the area instantly if he was serious, it was only temporary and had limited effect on real masters. This person in front of him was killing indiscriminately!

The remaining nine hundred or so people were collectively silent like cicadas in winter. Those who were slightly lacking in courage directly knelt on the ground. How could this be an expert at the consummate level of a Big Shot? this was simply a weakling in a cage.

However, they couldn't be blamed. After all, the man standing on the roof was the fallen Dragon of the Western District!

What kind of person was ye Zhiwei? he was publicly acknowledged as the next King of Assassins. He was one of the strongest under the five Giants. However, at this moment, he had no power to resist in the hands of the fallen Dragon.

Lin Yi glanced at Hong Baxian and the others, who were on guard, and spoke loudly, ""Brother Fallen Dragon, why didn't you tell me in advance that you've come to visit me? At least let me prepare a few things in advance and do my part as a good host. "

The fallen Dragon looked down at him and said in a hoarse voice, "The House of Assassins is mine. If you really want to touch it, you have to be prepared to have your hand cut off."

The atmosphere instantly became tense.

He'd expected this day to come the moment ye Zhiwei came to visit him, but he still didn't expect it to come so quickly.

Lin Yi smiled, "that doesn't sound like much to me. I don't care what the assassins say. But ye Zhiwei is under me now. She has to stay."

"She has something I want," the fallen Dragon looked at him coldly. "She must come with me."

His words were overbearing, but being unreasonable had always been the privilege of the strong. Plus, he finally gave him a reason. If it wasn't Lin Yi standing in front of him but someone else, he would've cut him down already.

"Then this matter is not easy to handle."

With that, Lin Yi's body flickered, and he suddenly appeared on the roof, less than five meters away from the fallen Dragon.

"Whether it's easy or not is your business. If you think you're strong enough, you can try."

The fallen Dragon took ye Zhiwei and flew away, not taking Lin Yi's threat seriously at all. He wasn't an idiot like quanfu-he was a veteran of the five Giants, one of the top existences even among the five.

To be honest, Lin Yi was just a new member of the five, and he didn't have the right to talk tough with him.

"Then let's try."

As soon as Lin Yi's words came out, Fallen Dragon's body shook, and he fell from the sky with ye Zhiwei. He only managed to stabilize himself before he hit the ground.

Divine sense explosion!

The primordial spirit realm had always been Lin Yi's unfair advantage-even against the big shots at the peak of their cultivation, it was still a trump card.

However, the fallen Dragon's Spirit's resistance was still beyond Lin Yi's expectations. He thought that he could at least make the first move, but before he could continue, the other side's claws came at him.

In an instant, all kinds of phenomena appeared, and ghosts wailed and wolves howled.

Lin Yi met it with a palm as well, and in an instant, black flames filled the sky as the five elements turned into the great heaven burning!

Chapter 9682 Power

The attacks from both sides collided, and the aftershock scared the wits out of the people watching the battle below. They scattered in all directions in a panic.

Whether it was the ghostly Qi from the fallen Dragon or the black flames from Lin Yi, they would die if they were touched by even a little bit of it.

When the gods were fighting, the only thing the mortals could do was to hide as far away as possible and pray that they would not be involved.

Under the cover of the shockwaves, Fallen Dragon suddenly put on his armor and attacked Lin Yi first like an Asura. It was obvious that he was pushing the rhythm of his attack to the limit, so that Lin Yi couldn't keep up!

They didn't know that Lin Yi was thinking the same thing. He had already transformed into the Titan Buddha and was ready to face the attack. He raised his hand and used his most powerful physical attack, eight-faced Buddha!

BOOM!

The two sides' fists collided. Under the explosive power, the fallen Dragon could not withstand the eight-faced Buddha's powerful strength and was directly blown away.

"How could this be? That's a Fallen Dragon!"

The crowd was instantly dumbfounded.

They did believe that Lin Yi had the strength to make it into the five, and that he was strong enough to fight the fallen Dragon head on, but overall, they were more optimistic about the fallen Dragon. Who knew that the fallen Dragon would be sent flying so easily with one punch?

"Wait! The fallen Dragon has escaped!"

The crowd quickly realized that something was wrong. With the powerful impact of the eight-faced Buddha, the fallen Dragon actually flew away, leaving behind a sorry figure of fleeing in a hurry.

Even Lin Yi himself was stunned for a long time.

Lin Yi knew better than anyone else how important the fallen Dragon was, especially after the few exchanges he'd just had. He'd never felt that kind of hair-raising feeling before, not even when he was fighting tyrant and Yan Chi.

This man was definitely the most dangerous opponent he had ever faced, even more so than King du and Hong Baxian!

He didn't think that a dangerous person like this would just run away in public without caring about his reputation. Lin Yi didn't know if he should be glad that he was too strong a threat, or if he should be afraid of the other party's shameless behavior.

A pure expert wasn't scary, but if this expert was not only ridiculously strong, but also completely shameless, then it would really be troublesome.

The fallen Dragon's Retreat wasn't a bad thing for Lin Yi, at least on the surface, but ye Zhiwei was captured-this was a bit difficult.

He couldn't just ignore it.

Although ye Zhiwei had joined them only a few days ago, they didn't even have a basic understanding of each other, let alone trust each other. To put it bluntly, it was difficult to say whether they were friends or enemies. After all, that woman didn't look like a kind person who would take the initiative to stick to her. There must be something wrong with her abnormal behavior.

But if he were to just abandon it like that, Lin Yi's reputation as a new giant five was a small matter, but the key was that it would chill the hearts of his other subordinates!

"Be careful, boss!"

Hong Ba saw through Lin Yi's intentions and quickly went up to him, "It's very likely that the fallen Dragon is retreating in order to advance, and he's trying to lure you into his trap. Once you break into his territory alone, it won't be easy for you to escape unscathed. "

Lin Yi nodded slightly. He could feel the killing intent behind it. He couldn't help but laugh, "Heh, compared to this cunning and powerful guy, quanfu is just a little cutie."

"....."

"Only you can enjoy that kind of cutie, boss." Hong Baxian's mouth twitched.

Although he had never fought Quan Fu directly, he knew that Quan Fu's strength was far above little du King Duan Li 'S. He was already half-dead after dealing with Duan Li, so if he really met Quan Fu, he would definitely die a terrible death.

After a pause, Hong Ba reminded him, "boss, the fallen Dragon is a vengeful man. Although he took the position of ye Zhi today, he still suffered a small loss at your hands. Sooner or later, he will get back at us. I'm afraid we have to be prepared for a full-scale war with the Western District."

"Total War ..."

Lin Yi couldn't help but scratch his head. He might have a chance of winning against the fallen Dragon one on one, but if it really developed into a full-scale war between the East and West regions, his side would lose without a doubt.

It couldn't be helped. Their Foundation was too weak. Hong Baxian's Overlord's Pavilion was enough to put up a front, but if they were to go head to head with the five giant corporations, it would be like an egg hitting a rock.

But this wasn't up to Lin Yi to decide-if the fallen Dragon Group started a fight, he'd have to face them head on, or he'd lose his place in the repeat school.

If they could drag it out for a month or so until the two young ones in the underground martial arts practice field grew up, then it would be easy to talk about. Unfortunately, why would they be so cooperative?

Just as he was in a dilemma, an acquaintance suddenly appeared at the door, Zhang Qiu of the Hundred Schools of Thought.

"Is Lin Wuju in trouble?"

Zhang Qiu smiled and handed over a book of information. "I can't help you with anything big. However, I think you might be able to use these bits and pieces of information."

Lin Yi opened it and saw that it was all the information on the fallen Dragon group's core officers, from their Arts to their fighting preferences, and even some insignificant habits. It was so detailed that it was eye-opening.

"You're a true friend, sending charcoal in the snow!"

Lin Yi was overjoyed-this information still didn't solve the root of the problem, but at least he knew where to start, giving him a chance to make the first move.

Everything else aside, just the lack of information alone would be enough to make Lin Yi fall.

Zhang Qiu smiled and waved his hand. "You're not treating me as a friend by saying that. Among friends, isn't it always you helping me and me helping you? Lin Wuju, you helped me settle quanfu, and I haven't even properly thanked you yet."

After a pause, Zhang Qiu said embarrassedly, ""Even though the Hundred Schools of Thought is in the intelligence Department, we can only obtain information on the members of the five Giants and below. As for the fallen Dragon, I'm really powerless."

"That's enough. Come, let's drink together!"

Lin Yi didn't mind at all. No matter how strong the Hundred Schools of Thought was, it was hard for them to get information on the Big Five's level. Even if they did get some information on the fallen Dragon, they wouldn't dare to reveal it to him.

After all, that would be the same as forcing the fallen Dragon to attack them.

Lin Yi decided to have a feast at the palace, including the one thousand people. These people were scared out of their wits by the fallen Dragon's indiscriminate killing, and they'd be more at ease if they stayed. Besides, Lin Yi wouldn't let them leave even if they wanted to—they had to be the two kids "punching bags."

"The two gods and three beasts? This title is a little intimidating. "

Lin Yi looked at the fallen Dragon group's information during the meal, and Zhang Qiu could help him solve his doubts. This was also the reason why he kept the other party. After all, the things recorded on paper weren't as detailed as what was said. The more detailed the information was, the higher the chances of Lin Yi's side winning in the future war.

Zhang Qiu was very understanding and took the initiative to explain,""Although there are many powerful people under the fallen Dragon, the most outstanding ones are these five people. As long as any one of these five can't be suppressed, they'll be a great killing weapon on the battlefield. So, Lin Wuju, you must find an expert who can match them. Even if you can't win, you must at least restrain them."

Chapter 9683 Power

"divine heaven master, one of the two gods, a giant at the peak of the late stage of the consummate level. this man was once an elder of the pavilion of divination. he knows the eight trigrams of yin, yang, and xiao, and is rumored to be able to detect the secrets of heaven. he was once publicly acknowledged as the successor of the pavilion of divination. however, after the sudden emergence of lord divination,

he betrayed the pavilion of divination. now, he is the most trusted right-hand man and chief military counselor of the fallen dragon."

"the faceless god is one of the two gods. he's at the late stage of the consummate level of a giant. he used to be the seventh seat of the academy. he's extremely cruel and once secretly captured hundreds of students for experiments. after the incident, he was personally expelled by xu anshan. after that, he was roped in by the fallen dragon into the repeat school. don't look at how he's only at the late stage on the surface. in fact, he has the possibility of advancing to the peak of the late stage at any time and even charging towards the ultimate consummate level of a giant."

"hong batian!" zhang qiu looked at hong baxian and said, "i'm guessing that his true strength might not be any weaker than hong batian 's."

"hou zhentian, one of the three beasts, is a monkey. he's at the peak of the late stage of the consummate level of a giant head. he has the bloodline of the primeval ancient ape and is invincible in close combat. quanfu once fought him and was defeated in three moves. although quanfu had only broken through four shackles at that time, his strength is still remarkable."

"Emperor Zhu, one of the three beasts, pig. A Big Shot in the middle stage of the consummate level. You didn't hear wrong. He's a Big Shot in the middle stage of the consummate level. He rarely comes out. The only thing he does every day is consume a large amount of spirit food. According to recent reports, his weight has exceeded 1500 kilograms. This person has never fought in public, so no one knows how strong he is. However, it's rumored that he once challenged tyrant and was rewarded with a jar of 100-year-old cellar."

Everyone turned to look at Lin Yi-he'd received tyrant's treasure.

However, no matter what, Emperor Zhu was able to obtain tyrant's approval as a challenger. Even if he was only a Big Shot in the middle stage of the consummate level on the surface, he must have his own outstanding qualities.

Not to mention, Lin Yi himself was only a Big Shot in the middle stage of completion.

"Boor, Python, one of the three beasts. A Big Shot at the late stage of the great fulfilment. Don't be fooled by his name. He's also a Five Element domain owner like Lin Wuju. He's also very adept at using the abilities of his domain. He's a magician through and through."

Hong Baxian, who was at the side, agreed with him, "I once fought with him. I thought I could defeat all of them with my strength, but I was played by him. In less than three breaths, he used at least thirty different moves, which were so varied that it was impossible to guard against."

Everyone was speechless.

Hong Baxian was already the strongest below Lin Yi, but he couldn't even beat the three beasts at the bottom. It sounded like the difference in strength wasn't just a little bit-how was he supposed to fight?

Lin Yi didn't seem to be worried, "The two gods and three beasts do sound very troublesome, but there's no need for everyone to worry too much. Just do your own things well. I'll find a good opponent for them."

Where to find it?

Everyone looked at each other. Only the other Big Five could fight against a group like this, but with Lin Yi's background, even if they didn't make things difficult for him, they were still outsiders. How could they help him deal with the fallen Dragon? It was more like the reverse.

But since Lin Yi said so, they couldn't say anything more and chose to believe him.

No matter what, Lin Yi was one of the five, at the top of the food chain. As long as he didn't fall, everything else was a small problem.

West District, Dragon Nest, Fallen Dragon Group Headquarters.

Below the fallen Dragon, the two gods, three beasts, and all the other core officers were present, and in the middle of the field was ye Zhiwei, who was tied up.

"Hand over the qualifications for the Assassin's baptism and I can give you a chance to join us."

The fallen Dragon didn't care about the presence of others. Whether it was in the past or now, he always claimed that the core officers were not his subordinates, but his family. Since they were his family, there was no need to guard against them.

The rest of the people were confused, except for the divine heaven master, ""The Assassin's baptism that master mentioned, could it be the one in the legends?"

"That's right," the fallen Dragon nodded.

"I'll have to congratulate you in advance then. This is a godsend opportunity. You'll definitely be able to reach the top, and we'll finally be able to get what we want. We'll be able to enjoy the title of the tyrant of the repeat school!"

Even though the fallen Dragon had always been gloomy, at this time, he couldn't help but smile and didn't say anything.

The other two gods and three beasts were even more confused. "Master, don't play riddles. What exactly is the Assassin's baptism? tell us."

Divine heaven master looked at the fallen Dragon and explained, ""The Assassin's baptism is said to be created by the ancient God of killing, Bai Qi. He would regularly recruit a group of people with strong killing intent from all over the world to enter the secret land of killers for a Special Trial. The specific content of the trial is unknown, but I know one thing. The death rate of this trial is extremely high, with a 90% chance of survival."

"Ha? Then what's the point of playing?"

Everyone shook their heads one after another. At their level, it was very difficult for them to be interested in the so-called trial. After all, the strength system had already been set. No matter if it was medicinal pills or other cultivation methods or other rewards, they were unlikely to make a qualitative improvement.

At this level, self-development and understanding were more important. Of course, if one could get a power inheritance out of thin air like Lin Yi, it would still be something that people would want, but it was a pity that this kind of opportunity was hard to come by.

They were already like this, so it was naturally even more so for the higher level fallen Dragons.

No matter how many opportunities there were, they couldn't be compared to one day of enlightenment.

"No." Divine heaven master shook his head. "Although the death rate is high, the benefits are equally huge. Anyone who survives the baptism of the assassins will be able to advance at least one level. There are no exceptions."

"....."

Everyone present sucked in a cold breath.

For low-level cultivators, just increasing one level would not cause a qualitative change. However, for those who originally stood at the top of the food chain, especially for Giants like the fallen Dragon, the meaning of increasing one level was completely different.

One must know that even Luo Banshi and Xiang Yusheng, who were god-like existences in the eyes of ordinary people, had not truly broken through the scope of the ultimate completion of a Big Shot, but had only taken half a step.

If Fallen Dragon could take advantage of the Assassin's baptism to take the first step, he would be able to directly jump over Luo Banshi and Xiang Yusheng to reach the top. At that time, he would not only be the number one of the repeaters, but the entire Jianghai Academy and even Jianghai city would tremble under his feet.

"Whether or not the Assassin's baptism really has such a wondrous effect, it's still a question mark."

The fallen Dragon didn't lose his mind, but he still couldn't hide his excitement. Even if he couldn't take a complete step, even if he could only take half a step, it was still of great significance to him and everyone else present.

Therefore, no matter what, he was determined to obtain the qualification to the Assassin's baptism.

Chapter 9684 The End

ye zhiwei looked at him fearlessly and asked with a strange expression, "why do you think i'm qualified to be baptized?"

"have you forgotten who killed the previous king of assassins?" fallen dragon asked.

ye zhiwei was speechless.

the previous king of assassins had died at the hands of these five giants. at that time, it had caused a sensation, and there were all kinds of rumors on the streets. however, the family of assassins had not made any statement about this.

after all, it was the king of assassins' personal operation. whether it was successful or not had nothing to do with the platform itself. even if he was a face-up figure, dying on the way to the mission could only be said to be a worthy death.

if he had to be blamed, he could only blame himself for overestimating his own strength and underestimating the power of the five giants, which was a taboo for killers to underestimate their enemies.

However, as the first candidate for the next King of Assassins, ye Zhiwei had an inheritance relationship with him. To a certain extent, they could be regarded as half master and disciple, so ye Zhiwei had kept this in mind.

In the face of the fallen Dragon, if she said that she did not have any personal feelings, she would be lying to herself.

The fallen Dragon continued, "before he died, I used the soul-searching technique. Every hundred years, your family of assassins will have a quota for the assassin baptism. Now that the time limit of the trial is up, he's dead. You are the first inheritor."

"That's strange. I don't even know if I'm the successor. You know better than I do," ye Zhiwei said indifferently.

"You assassins have been specially trained," divine heaven master said. "Your mental fortitude is much stronger than ordinary people's. It's a little difficult to pry open your mouth like this. But are you sure you can withstand the soul-searching skill?"

Ye Zhi's plane was unmoved, but the flicker in his eyes at that moment naturally couldn't escape everyone's perception.

She was afraid.

Once she used the soul-searching technique, she would definitely become a cripple no matter what the result was. How could she bear such an outcome with her pride?

"Talents are rare. The reason why I didn't use the soul-searching technique on you at the first moment was that I wanted to give you a chance, a chance to join us and become my family. You'd better think carefully before you answer me."

Even though Fallen Dragon said this, his hand was already reaching out to grab ye Zhiwei. The dangerous fluctuations released from his hand made people's souls tremble instinctively.

At the last moment, ye Zhiwei finally couldn't help but say, "Once you use the soul-searching technique, there's no way to retrieve it. You're so confident that you can get the killer baptism by using the soul-searching technique. What if you need other conditions?"

The fallen Dragon's movements paused.

"Also, I'm with Lin Yi now. Crippling me is the same as declaring war on him. Are you sure you can afford the price?"

With that, the Dragon Lair exploded.

"Lin Yi is nothing! It's just an empty title because of half-master Luo's face. Do you really think that kind of trash can be on the same level as us?"

The one who spoke first was one of the three beasts, boor.

Hou zhentian, who was also one of the three beasts, snorted coldly. "In the end, it's still tyrant and Yan Chi who are too soft-hearted, putting on a show and supporting others. It's obvious that they're doing Banshi Luo a favor, making so many idiots believe it. They've just made us lose face too!"

The rest of the officers also started to curse.

The names of the Big Five had always been successful, but with Lin Yi's sudden rise, the Big Five's value had decreased greatly in the eyes of the older people.

This wasn't just a matter of face. Whether a name was good or not, it was often related to the real truth.

With a look from the fallen Dragon, the chaotic Dragon Nest immediately calmed down.

"Now that you're with Lin Yi, you feel like you have nothing to fear?"

The fallen Dragon circled around ye Zhiwei and whispered in her ear, "That's good too. The Dragon Lair hasn't expanded for too long, and I'm just lacking a name."

Two days later.

Hong Baxian walked in front of Lin Yi with a serious face, ""Boss, our share of the profits has been cut off."

"Cut off our dividends?"

Lin Yi blinked. He did know about the dividends-the repeaters weren't United, but they did trade quite a lot with other countries. They had cooperation with all sorts of channels, and some of them were like the talisman making society, a place that could lay golden eggs.

According to the usual rules, the repeat students had to take a share of all internal and external trade and pay the five Giants a share of the money, which was actually a protection fee.

This was a special privilege that only the five Giants had.

Whoever dared to break the rules would find it difficult to move a single step in the repeat Academy. Not to mention continuing to do business with the outside world, even living would be a luxury. This was the background of the lawless land, and no one could change that.

Lin Yi didn't really mind-if he really wanted to earn money, he'd rather open up a branch of the talisman society and pill society here. It'd be faster and safer to earn money that way.

However, Lin Yi didn't want to force the rules to change. After all, he wasn't a Saint.

A rule that could be maintained for a long time had its value, and with Lin Yi's current strength, he was far from being able to lead the change and be the leader of the entire repeat school.

However, now that his dividends had been suddenly cut off, the meaning was completely different.

Hong Baxian said worriedly,"right now, our businesses in the eastern area have not fully entered the right track. We are lacking in resources from top to bottom. We are all relying on this bonus to tide over the difficulties. If this is gone, our future days will be difficult."

Not to mention anything else, just the appetites of the two children in the underground martial arts practice field would not be enough to satisfy them. It would definitely affect the rhythm of their recovery of their former strength.

"It's a critical time for them,"Lin Yi said, thinking of the same thing." They can't stop getting cultivation resources. "

"The Chamber of Commerce Alliance would never dare to cut off our dividends without permission. I suspect that someone else has taken it."

Hong Baxian analyzed in a deep voice.

Lin Yi hadn't been one of the new five for long, but he'd fought tyrant and Yanchi together, taken the hundred family club's head, and forced back the fallen Dragon in one move-all these achievements were enough to make those businessmen not dare to touch Lin Yi.

"No need to guess, it's definitely the fallen Dragon," Lin Yi smiled.

Hong Baxian's face darkened."This is forcing us to declare war!" He said.

What they needed the most right now was time, but the fallen Dragon's drastic move clearly meant that they didn't want to give Lin Yi's group any more opportunities to grow.

In terms of strategy alone, this move was definitely shrewd and ruthless.

"I'm not in a hurry to declare war, but it seems that I really should make a trip to the Chamber of Commerce Alliance, in case some people misjudge the situation and really treat me as a soft persimmon."

Lin Yi's words surprised Hong Baxian, but he nodded silently. His boss might look like a kind person, but he wasn't a kind person when it came to critical moments.

It would be better if he wasn't a good person. If he was a good person, he would have to quickly consider changing sides. There was no place for good people in the repeat school.

Chapter 9685 Power

The Chamber of Commerce Alliance.

There were more than three hundred Chambers of Commerce in the repeating students "compound, and it was the place where business flourished the most in the entire Jianghai Academy. Although there were very few resources distributed by the Academy's officials, no one was in charge of them. Other than the protection fees that had to be paid to the five Giants on a regular basis, they had absolute freedom.

Since ancient times, the more free a place was, the more prosperous it would be for business. At the same time, it was also a place where evil bred.

Moreover, this was the gathering place of the most powerful experts in Jianghai city. Whether it was their resource needs or the things that they casually leaked out, they all had huge commercial value. Naturally, they also represented a huge amount of commercial profits.

The atmosphere in the meeting room was tense.

"President Zhang, you cut off Lin Wuju's dividends without going through the Administrative Committee's discussion. What are you doing to US Chamber of Commerce representatives?"

"That's right, the five Giants can't be humiliated. This is the foundation of our Chamber of Commerce Alliance. Even if the five Giants fight to the death, we must remain objective and neutral. We can't get involved easily, or we'll be dismembered in minutes!"

"President Zhang, did you receive any benefits from the fallen Dragon?"

Faced with the collective doubts of the Chamber of Commerce representatives, President Tang Ren was calm and unhurried. He slowly waited until everyone was tired of talking and stopped spontaneously before he said indifferently, ""Objective and neutral? Can we really remain objective and neutral?"

Everyone was silent.

"Everyone here is Smart-I don't need to waste my breath on such a simple logic. Now that the fallen Dragon has spoken, he's going to deal with Lin Yi. Who do you think I should choose?"

Tang Ren sipped his tea calmly and looked at the crowd's uncertain expressions. ""The answer is obvious, right? If it was up to you guys, would you choose to stand on Lin Yi's side? Don't joke around. "

Everyone was moved. If it was really time to pick a side, as long as they were not stupid, they would naturally choose the fallen Dragon.

However, there were still some people who were dissatisfied."No matter what, you overstepped the Administrative Committee and made a decision on your own. This is a serious violation of the interests of the Chamber of Commerce Alliance. You still haven't explained the most important question. Do you have any interest in the fallen Dragon Group?"

Zhang Ren laughed as he leaned back in his chair. "I don't need to answer this question."

"Then who's going to answer?" everyone frowned.

"It's me," he said.

An ordinary-looking young man with glasses stood up in the other corner of the meeting room and introduced himself with a smile, "I'm Jin yang, the logistics Manager of the Dragon's Nest. My family head has ordered that in the future, all transactions with the Dragon's Nest will have a 50% discount. It's a small gift from the Dragon's Nest. Of course, the premise is that you recognize the Dragon's Nest as a friend."

Everyone was silent.

The Dragon's Nest was one of the repeat Academy's largest sources of goods. The annual transactions were astronomical, and a five-point discount was enough to make anyone's heart beat faster.

However, huge benefits came with huge risks. Becoming friends with the Dragon's Nest meant becoming Lin Yi's enemy. Whether or not the five-point profit was worth the risk, everyone had to evaluate it carefully.

Seeing that everyone was silent, Jin Yang's face sank. "I'm sure you all know my patriarch's temper. Rejecting the olive branch from our Dragon Nest means that he wants to be our enemy. It's best for you

to consider it carefully to avoid any misjudgment. Otherwise, it won't be good if something unspeakable happens."

The atmosphere suddenly became a little more depressing.

With such a blatant threat, the Chamber of Commerce representatives couldn't even say a word, let alone get angry. This was the pressure from the five Giants.

"They seem to be in a difficult position. Why don't I ask on their behalf?"

An indifferent voice rang out from the crowd, ""Why don't you give me an example of what you can't say?"

Everyone looked towards the source of the voice, and their eyes twitched. They didn't know when Lin Yi was sitting in the middle of them, but the teacup in front of him was already half empty. He must've been here for a long time.

Perhaps, he had been sitting here from the very beginning.

Jin yang and Tang Ren's eyes twitched. They had the fallen Dragon behind them, but Lin Yi still gave them a lot of pressure, especially when they were caught off guard.

"This is the Chamber of Commerce Alliance's representative meeting, and it involves many trade secrets. Although the newcomer King is one of the five Giants, it doesn't seem right for him to barge in without any reason, right?"

Tang Ren and Jin Yang looked at each other and stood up with a cold smile. "If people who don't know what's going on hear about this, they might even misunderstand that Lin Wuju is here to eavesdrop on trade secrets. If word gets out, he'll really become a laughingstock."

"Are you sure the fallen Dragon will protect you?" Lin Yi said with a half-smile.

The invisible pressure suddenly increased, and Tang Ren's breath suddenly stopped.

Although the President of the Chamber of Commerce Alliance was a prominent figure with great financial power, it was a pity that in the face of true strength, his wealth was nothing but a castle in the air.

In the end, the existence of the Chamber of Commerce Alliance was built on the delicate balance between the five Giants. Once the balance was broken, such a bright and beautiful rootless duckweed would definitely be the first to suffer.

As the president, Tang Ren would be the first to bear the brunt.

"Isn't Lin Wuju's table manners a little too unsightly to threaten the entire Chamber of Commerce Alliance in such a manner?"

Jin yang stood up. He knew that Tang Ren wasn't a strong-willed person. If he couldn't take Lin Yi's pressure and turned on him, the situation would be ugly.

"You don't look like you're from the Chamber of Commerce?" Lin Yi looked at him.

"Of course not, I'm not the Dragon's Nest ..." The Golden Goat said proudly.

Before she could finish, she was pulled by an invisible force and fell into Lin Yi's hand. Her knees went soft uncontrollably and she knelt in front of Lin Yi.

Everyone was shocked.

Although golden sheep was in charge of logistics in the Dragon's Nest and was not a frontline combatant, he was still an important member of the fallen Dragon Group. Moreover, he was a giant in the late stage of the consummate level. To be able to catch the fallen Dragon's Eye, it meant that his strength was definitely not bad. In fact, he could also occupy a place in the top 100.

Yet a person like this was like a chicken in Lin Yi's hands.

"Unrelated personnel, pay attention to your position. You can die if you talk too much."

Lin Yi's one sentence made him fall silent, and when he turned to look at Tang Ren, the president who was full of confidence just a moment ago was now shaking like a leaf.

It was not until this moment that he finally realized that in the face of absolute power, his so-called support was simply a joke. He could even deal with the fallen Dragon group's executives as he pleased, so why would he be afraid of a mere associate president?

Chapter 9686

The Big Five couldn't be humiliated-everyone once again understood the weight of these five words. Lin Yi hadn't started killing yet, and he shouldn't have done that either-after all, that would be equivalent to touching the cake of all the other five.

But that was only reasonable. Don't forget that Lin Yi was one of the five Giants, and he had the ability to be unreasonable!

Moreover, as long as they didn't start a massacre, but killed a group of them on the spot as an example to others, the other five Giants wouldn't ask at all. They would only use a tougher attitude to force them to pay up their share of the money, or even more.

As a group of lambs waiting to be slaughtered, he had to have the awareness of a lamb.

Lin Yi's eyes swept across everyone's faces, and they quickly lowered their heads, not daring to make eye contact with Lin Yi. They were afraid that he'd mistook them for the chicken if he was unhappy.

"About the dividends ..."

Lin Yi had only just said five words when the group quickly explained, "Lin Wuju, please calm down. We swear to the heavens that Tang Ren was the one who acted on his own accord. We really didn't know anything about this beforehand. If we had known, we would never have let him do such a stupid thing!"

"Really?" Lin Yi smiled.

Some of them sneaked a glance at Tang Ren, whose face was ashen, and quietly retreated half a step back in the crowd.

It was true that Tang Ren didn't go through the discussion of the Alliance management Committee this time, and he didn't get the unanimous agreement of most of the Chamber of Commerce representatives. However, it was absolutely unrealistic to say that he made his own decision.

As the President of the Chamber of Commerce, he had a lot of supporters in the Chamber of Commerce. Not to mention, he was not the only opportunist who was interested in the fallen Dragon. There were many people who wanted to make a fortune by taking advantage of this opportunity. It was just that they did not jump high enough, so they were not so conspicuous.

Afraid that Lin Yi would use this as an excuse to get himself into trouble, one of the Vice Presidents stood up after being egged on by the crowd, "Lin Wuju, I'm sure your share of the profits will be delivered to your residence without a single cent missing. Please be magnanimous and show some mercy for this matter, alright?"

"Idiot! You're so stupid!"

Tang Ren suddenly jumped up. He still didn't dare to look at Lin Yi, but he started yelling at the representatives, "You've already stepped out with one foot, and you're still thinking of taking it back at this time? Do you think you can pretend that nothing happened? what's in your brain? is it filled with sh * t?"

Lin Yi couldn't help but look at him-this guy wasn't stupid at all.

The Chamber of Commerce's representatives also reacted quickly, and their faces turned ugly.

Cutting off Lin Yi's dividends without permission would naturally offend Lin Yi, but if they were to repair their relationship with Lin Yi now, they would be offending an even stronger Fallen Dragon!

now that things had come to this, it was impossible to retrieve spilled water. no matter what, they would have to offend one side, and it was simply a fool's dream to continue living in peace.

in terms of overall strength, the fallen dragon group was naturally stronger, but lin yi himself was standing right in front of them. he might look harmless and gentle, but he could eat people up at any time if he turned against him.

the representatives here wouldn't even be enough for lin yi if they were to fight.

"i don't know what's in their heads, but i think what's in your head should be good stuff."

lin yi suggested slowly."why don't you let me have a look around and learn?"

"....."

tang ren was stunned when he heard that. then, he saw that he seemed to have flown up, but the amazing thing was that his body remained on the ground without moving at all. after a breath, he suddenly fell to the ground and rolled on the ground like a watermelon. then, his consciousness completely collapsed and fell into darkness.

The whole place was dead silent.

Looking at Tang Ren's body and head on the ground, one in the East and one in the West, those who were less courageous peed their pants on the spot. Although they were already Almighties in the realm of perfection, they were not much stronger than ordinary people in the face of a real threat of death.

"I'm an easy person to talk to, but if you insist on being my enemy, I'll welcome you,"Lin Yi said faintly.

He used both kindness and might, and he killed decisively.

This was the basic quality of a hero. Lin Yi wasn't a bloodthirsty person, and he wouldn't kill unless he had to, but that didn't mean he was a pushover.

Since he was part of one of the five Giants, he naturally needed to have the same amount of face as well. Otherwise, if his face was stained, it wouldn't just be a matter of losing face-if he wasn't careful, Lin Yi and his men would be attacked by the crowd too, and that would be a big problem that would destroy the entire sect!

"Everyone has their own stance. I can understand whatever choice you make. Of course, I'm sure you all know the price behind your choice."

Lin Yi paused."Please don't misunderstand. I'm not here to question you. In fact, it's not that important to me whether or not I get a bonus. I just want to do business with you."

"Business?"

Everyone looked at each other. As businessmen, this word was the most exciting thing for them. As long as the profit was enough, they would do any business.

However, working with a giant like Lin Yi, especially after he just killed their President in front of them, was asking a Tiger for its skin.

Lin Yi didn't bother explaining and only said four words, causing everyone's face to change,"Talisman formation Wang clan."

In an instant, all the Chamber of Commerce representatives were excited.

In terms of reputation, if the Wang family claimed to be the second in Jianghai city, then no one would dare to claim to be the first!

The Chamber of Commerce Alliance was connected to the repeat students 'and Jianghai city's market. Although it was growing day by day and was one of the top behemoths in the Jianghai City Business circle, it had always had a huge regret-it had not been able to reach a cooperation with the Wang family.

It wasn't that the Wang family of formation talismans didn't think highly of them, nor was it that the Wang family of formation talismans didn't think highly of the huge market in the repeat Academy. The two sides had once negotiated many times, but in the end, they had all failed at the last step.

There was no other reason. The Chamber of Commerce Alliance had too little autonomy, and there were many things that could not be decided by themselves.

The Wang family was also a golden signboard. Once they entered the repeat Academy, it would definitely attract the covetous eyes of all parties, including the five Giants. One mistake would cause them to sink into a quagmire, and they might even get burned.

Especially during this period of time, the talisman Wang family had been busy with their own affairs, so they naturally didn't have the spare energy to open up a new market and enter the repeat school.

The Vice President couldn't help but ask on behalf of the crowd,""Could it be that Lin Wuju is able to speak with the Wang family of formation talismans?"

"You can ask around. I entered Jianghai Academy as a bodyguard, the personal bodyguard of the formation master's daughter," Lin Yi replied with a smile.

Everyone was overjoyed.

With this identity, Lin Yi's relationship with the Wang family went without saying. With a new giant like Lin Yi in charge, the Wang family's worries about the internal situation in the repeat yard were naturally solved.

Chapter 9687

Putting aside Xiang Yusheng, that hidden old monster, the five Giants were the highest existence in the retained area. With Lin Yi there, the formation rune Wang family's benefits in the retained area were guaranteed.

With the huge market size of the repeating school, once there was a reliable way, even the Wang family of formations wouldn't be able to resist the temptation!

After a moment of discussion, the Chamber of Commerce representatives agreed, ""If Lin Wuju can help us form a partnership with the Wang family, we're willing to give you an additional bonus!"

A 10% dividend was an astronomical figure!

Lin Yi shook his head.

"Is 10% not enough?"

Everyone couldn't help but feel a little embarrassed. Although 10% wasn't the limit they could take out, it was indeed a rather sincere price. If it wasn't for the threat of the ready-made head and the fact that they were guilty in the first place, if it was under normal circumstances, even the five Giants would have to go through a lot of trouble to get them to give this price.

"I told you I'm here for business, not for protection money. As long as it's a win-win cooperation, you don't have to give me any bonus," Lin Yi said faintly.

Everyone looked at each other speechlessly. They couldn't help but look at the decapitated Tang Ren. Was it really that good?

"Of course," Lin Yi continued, "it doesn't matter if you knew or not, the Chamber of Commerce Alliance did harm to my interests. This is something else."

He was actually waiting here ...

Everyone couldn't help but smile bitterly, but they really couldn't refute it.

First, if Lin Yi really could help them form a partnership with the talisman Wangs, they had to give him something in return. Second, they needed to give Lin Yi a satisfactory explanation for this incident. If they broke the rule of the five, the other five would react even if Lin Yi didn't say anything.

"I wonder what Lin Wuju wants? As long as it's within our means, we'll definitely find a way to satisfy it."
"

The Chamber of Commerce representatives said carefully.

"Don't worry, you guys will definitely be able to satisfy me. "

Lin Yi smiled faintly, "the Business Alliance spans across the college and Jianghai city. It must have a huge information Network. I only have one request. Let my people join in and hitch a ride."

This was Lin Yi's true intention.

A huge change was coming, and building an intelligence network was necessary. The main battlefield would be in Jianghai city, and Lin Yi's power was all within the school-he couldn't do anything to Jianghai city.

Even with strong leaders like Wei baizhan and Lu renwang, it would still take a long time for the planned third Bureau to grow, and what they lacked the most right now was time.

The only feasible way was to hitch a ride.

The Hundred Schools of Thought was Lin Yi's first choice-it was a professional information Agency, after all, but after the discussion with Zhang Qiu, Lin Yi realized that the Hundred Schools of Thought's Foundation was only within the repeaters "compound. Outside of the compound, they were basically suppressed by everyone, and hadn't been able to grow to their full potential yet.

On the other hand, although the Chamber of Commerce Alliance was not a proper intelligence organization and did not have close internal relations, it was just a loose Alliance purely driven by interests. But because of this, the outside world was much less wary of it.

In addition to the benefits they had gained, they had been giving them the green light all the way. Therefore, the most well-informed group outside the academy was the Chamber of Commerce Alliance that was usually unremarkable!

The Chamber of Commerce representatives fell silent.

Strictly speaking, Lin Yi's offer wasn't high-it could even be said to be very low. They didn't suffer any loss in terms of profit, and it wasn't hard for the Chambers of Commerce to accept.

But if the entire Information Network was open to Lin Yi, it would be a big problem in the long run, and there was even the risk of Lin Yi infiltrating and controlling it!

after all, they were just a loose alliance, and they didn't have much power. if they weren't careful, they'd be broken down one by one. as long as lin yi wanted to, it was only a matter of time before the entire information network fell into his control.

"everyone, there's no need to rush to reply. go back and discuss it slowly. you can come back to talk to me when you have a result."

lin yi smiled as he got up, leaving a sentence before he left."oh, by the way, my east side's gate is always open for everyone. if anyone wants to work with me in private, i'll welcome them."

everyone's expression changed again.

walking out of the headquarters, jin yang, who was being dragged by lin yi, suddenly sneered,"congratulations to lin wuju for subduing the chamber of commerce alliance. it's a good move to create a unique way!"

"Oh? You think so highly of me?"

Lin Yi looked at the logistics Manager with interest. "I'm just cooperating with them, I'm not trying to convince the Chamber of Commerce Alliance. Besides, they haven't given us an answer yet. "

Golden Goat sneered."If you didn't say that last sentence, they might have hesitated for a while. But now, you've publicly announced that you welcome them to cooperate in private. Who would dare to hesitate?" If a competitor gets the first prize, the rest of them won't even be able to survive, let alone drink the soup. "

There were more than 300 Chambers of Commerce in the Chamber of Commerce Alliance. Naturally, there was a competitive relationship between them, and there were even mortal enemies who had never contacted each other.

Lin Yi didn't even need to think to know that this move would be extremely effective. After all, that was human nature.

Lin Yi was in an undefeatable position right from the start of the negotiation.

Lin Yi smiled but didn't say anything, and jin yang couldn't help but ask, "But don't be happy too soon. Getting involved in the Chamber of Commerce Alliance means that you've touched all five Giants at the same time. I'm curious, where did you get the confidence to face the anger of all five Giants at the same time?"

"They'll get more dividends if they expand their business," Lin Yi said faintly, "do I need to reason with you?" Even if some people can't understand it for a while, there will soon be smart people to give them some pointers. We're not fools. "

"We're not fools, but I think you've made a mistake!"

Jin yang sneered. "You want to use this method to tie the Chamber of Commerce Alliance to your warship. Not to mention the other five Giants, at least my family head will definitely act up. If we say that you had no reason before, then you are the one who took the initiative to give the reason to my family head."

"Let me give you a piece of advice. It's good to be ambitious, but if you take too big a step, it's easy to screw up. Are you really confident that you can get through this?"

"You seem to have a lot of confidence in your head," Lin Yi said, confused.

"Of course. My master is so powerful that you can't even compare to him. Don't think that you're on the same level as my master just because you're one of the five Giants."

"My master said that the gap between the five Giants is bigger than that between a man and a dog!" Jin yang said proudly.

"I don't deny that," Lin Yi raised a brow, "but I don't know how he'll treat you, dog."

Chapter 9688

"You think you can bring me back?"

Jin yang put on a fearless posture, and actually appeared to be full of confidence.

Lin Yi's lips curled into a smile. "Don't tell me that your confidence comes from him?"

After saying that, he casually struck out with his palm. A figure suddenly appeared 100 feet behind him. It was a fair-skinned, refined-looking man.

One of the three beasts, boor.

If he hadn't read the information Zhang Qiu provided, Lin Yi wouldn't have been able to connect this weak-looking man with the word "boorish." The contrast was too big.

In addition to the magician evaluation in the intelligence, this man could be said to be full of contrast and confusion.

"As expected of an expert with a five elemental sphere. Just as I expected, there are no blind spots."

Boor took out a pair of white gloves from his pocket with a smile and put them on slowly in front of Lin Yi, his face apologetic, ""I'm sorry, I'm a clean freak, and I don't like other people's blood on my hands. Please don't mind me. "

"I don't mind," Lin Yi narrowed his eyes, "but I'm not sure if you'd mind getting your blood on you?"

Boor laughed. "I won 'T. I don't have any good points. I only have one. I'm quite self-aware."

A normal person would at least be wary of Lin Yi, even if they were suspicious of the new five Giants. They wouldn't show their disdain so blatantly, and even if they did, it would be an act, including the aggressive Quan Fu.

However, the boorish man in front of him was different. Everything he did was very sincere, and there was no trace of pretense.

Even Lin Yi felt that it was a little outrageous, "Do you really have such confidence? Are you hypnotizing yourself, or am I not able to keep up with the times? are the five Giants worthless these days?"

Boor looked at him seriously. "Don't misunderstand. The five Giants are still the five Giants. I'm still very afraid of the other five Giants. After all, they're all real monsters. I can't afford to provoke them. But you're different."

"What's different?"

"You're a possessor of the five elements domain, and so am I. I'm afraid no one in the world knows you better than me. Distance makes beauty. There's also a saying that fear comes from the unknown."

Boor didn't look down on Lin Yi at all, treating him as an equal. "I know too much about you. You can't make me Revere you even if you want me to. Besides, I'm more knowledgeable than you in the five elements domain. Why don't you give me a reason to be afraid of you?"

There was also another reason that he didn't mention.

They were both using five elemental spheres, but Lin Yi was only at the middle stage of the Big Shot's completion, while he was at the late stage of the Big Shot's completion-a difference of two whole realms!

"Five elemental spheres are very hard to break through," Lin Yi replied nonchalantly, "I wonder what kind of luck you had to be able to reach the late stage of Big Shot completion?"

"I'm sorry, this question is not within the scope of communication. "

Boor suddenly moved and attacked without any warning. Lin Yi had never seen such speed in his life—even quanfu, who had broken through five shackles of growth, couldn't compare to him.

The only one who could compete with it was the lone king, who had the ability to manipulate space.

When boor's figure became clear again, he was already less than three meters in front of Lin Yi. He unsheathed his sword.

"The sword's name is ichthyosaur. Have a good taste."

As he spoke, boor's sword stabbed into Lin Yi's heart. It was so fast that no one could react. In fact, Lin Yi didn't react at all. He didn't even try to Dodge.

"It's over?"

Jin yang was dumbfounded. He knew that boor was strong, and he also knew that he was the best person to fight Lin Yi out of the two gods and three beasts, but he didn't think that he would win so easily.

This was one of the five magnates, wasn't this a little too exaggerated?

Boor, on the other hand, laughed with a reserved look. "There's nothing strange about it. The exchange of moves between experts is always on the line, especially for experts of the same type like him and me who know each other well. There's no need to even test each other, so it's naturally faster."

"Is that so?"

Lin Yi's calm voice sounded from the side, and the world around him shattered like a mirror, revealing the real world.

Lin Yi wasn't hurt at all, and boor was still standing there, not even making a move. Everything was an illusion, an illusion to be exact.

Golden Goat was already dumbfounded, completely unaware that it was actually an illusion showdown between the two sides.

In theory, a Five Element domain master could perfectly replicate most domains, including illusions. Lin Yi was like this, and so was boor, the magician.

However, boor's expression was extremely ugly at the moment.

He was the one who activated the illusion first, but not only was Lin Yi unharmed, but he was also trapped in it. The point was that he was still immersed in the illusion, and if Lin Yi didn't remove it, he might still be in a daze.

In other words, if Lin Yi wanted to kill him, it would be as easy as flipping his hand!

"Your illusions are actually stronger than mine?"

Boor still couldn't believe it. He wasn't an illusionist, but he had a deep understanding of it. He even consulted a Grandmaster in it before. It was fine if he lost to an expert, but he lost to Lin Yi? Why?

What they didn't know was that this was far from Lin Yi's full strength. The water Sky Mirror was only the tip of the iceberg. It wasn't even at full power.

Otherwise, forget about confusing him, it was not impossible to brainwash him and make him commit suicide. After all, illusions were most afraid of backlash. In his previous situation, his mental resistance was much weaker than ordinary people. He was simply a ready-made live target.

"Do you have any other moves you're good at?" Lin Yi smiled. "Why don't you show them to me?"

"....."

Boor's mind exploded as he snorted coldly, "I hope your strength is as tough as your mouth."

in fact, lin yi wasn't just trash talking-he was speaking the truth. after all, five element domain masters were too rare, and they didn't even get the chance to exchange experiences with people of the same profession. now that he'd finally met one, he didn't want to kill him so easily.

if it wasn't for this thought, boor would have died a thousand times over.

however, lin yi couldn't help but look at him strangely when he saw that the other party was using his territory to suppress him.

boor thought to himself, "this kid can advance to the five great grandmasters at the middle stage of the consummate level. his moves must be unique. it's not a good idea to fight him. i might as well use force to defeat him!"

under normal circumstances, this strategy wasn't wrong at all-they were both in the same five element area, but he had a two-level advantage. logically speaking, even if lin yi could skip levels, he couldn't possibly be stronger in this area.

after all, a cross-level challenge relied on surprise or unique super killing moves. among the big shots at the realm of perfection, no one had ever heard of someone who could cross levels with the strength of his domain!

Chapter 9689 Power

"If you want to try, then try it."

Lin Yi smiled strangely and released his own territory as well. The two five elemental territories collided.

The result was that this was a battle that the boorish man thought was the least likely to lose, but after the collision, there was not even a splash.

There wasn't the expected stalemate, nor was there the expected seesaw battle. There wasn't even the slightest movement. Boor's five elemental domain had collapsed like a piece of paper!

"How is that possible?"

Boor spat out a mouthful of blood after suffering the backlash from the collapse of his domain. His face was filled with shock and even more disbelief. "No, you must've used some kind of method, some kind of shady method! How can my domain be weaker than yours?"

He really couldn't accept it. Not only did his self-esteem not allow it, but his three views also didn't allow it.

No matter how strong Lin Yi was, his domain would only be one level higher than he expected. Even if Lin Yi was two levels higher than him due to his talent, he would be on the same level as him at most. At most, both of them would be injured. How could he win?

"Well, if you really can't accept it, you can treat it as an illusion."

Lin Yi, on the other hand, was very understanding and sent an invitation to the man. "Let's do it again. Try something else. You're the legendary magician. You won't let me down, right?"

"Disappointed your mother!"

Boor was furious, even more certain that Lin Yi must have cheated in some way. He suppressed the backlash and activated his domain again.

However, he had learned his lesson this time. He was no longer obsessed with using force to break through techniques. Instead, he returned to the rhythm that he was best at. The power of the five elements domain flowed extremely fast, and in an instant, it changed.

"Interesting indeed."

This time, even Lin Yi was impressed. In just a breath's time, the opponent had switched at least ten moves, changing every time he felt like the attack was about to land. The whole scene was dazzling and impossible to guard against.

Although for a true master, this kind of fighting style was a bit gaudy, it had to be said that one of the three beasts under the fallen Dragon still had some merits.

Just the smoothness of switching moves alone was something Lin Yi couldn't compare to!

The characteristics of the five Element domains were destined to follow the path of a kaleidoscope. If one were to persist in focusing on a certain domain, it would instead be destroying one's Foundation.

Strictly speaking, Lin Yi had combined the two fundamental principles of domain doubling and range-to-strength from his half-master's teachings to finally come up with the ultimate killing move of the five elements. This was already the pinnacle of a single domain.

From now on, unless he encountered another huge opportunity like the incident with the sole King, allowing Lin Yi's overall strength to increase another level, it was almost impossible to increase the power of the five elements to the next level in a short time.

So if he wanted to continue increasing his strength, he had to change to a new approach. However, even if they were both at the extreme of the five elements, it was extremely difficult to link the moves from one extreme to the other. Even with Lin Yi's skills, it was still very difficult.

In gaming terms, it was the five elements to the extreme, but because it was too overbearing, it required a long time to swing forward and backward, which was the accumulation of power before the attack and the calm after the attack.

When Masters exchanged blows, they had to fight on the front line. The time between two moves was so long that it was impossible for Lin Yi to achieve a combo effect!

But after seeing the changes in boorish's moves, Lin Yi suddenly understood!

"So the five elements domain can be used in this way!"

Lin Yi knew very well that it wasn't just his own five elements to the extreme, but all moves had to be forced back and forth, and the opponent's complicated moves were the same.

However, in the hands of boor, these moves didn't have the slightest delay in this aspect. Many of the moves didn't even have the so-called back-and-back movement at all. As soon as the move was released, he would immediately receive the next move, not giving people any time to react at all!

Seeing Lin Yi's stunned expression, boor was delighted, thinking that Lin Yi was confused by his own complicated moves.

This kind of thing was very common. Basically, everyone who fought with him would do the same. Being showy was not a good word, but if it reached a certain level where flowers bloomed at the same time, it was another way to describe it.

Many people were toyed with to death by him like this, and even to the point of death, they didn't even know which move they died under.

After all, the magician's reputation wasn't for nothing.

However, Lin Yi's performance just now had left a huge psychological shadow in his heart. He was far more cautious than before. If it was in the past, when his opponent couldn't keep up with his change of moves, he would immediately give them a beating, until they died in one hit.

But against Lin Yi, even if Lin Yi was already showing signs of losing focus, boorish still maintained enough patience. Not only did he not stop, he even sped up the rhythm of changing moves!

From an outsider's point of view, all sorts of afterimages surrounded Lin Yi, and they were still tightening and compressing, like a giant python that had its prey entangled.

It was hard to breathe even from the outside, and one could only imagine Lin Yi's situation.

One had to know that these were not just afterimages, nor were they feints. They had real destructive power, just that boor had not officially detonated them.

Once they all exploded, the giant python would swallow Lin Yi whole!

And this was the origin of the name of the three beasts-monkey, pig, and Python. He, boor, was the human-shaped Python that chose to devour people!

But Lin Yi suddenly let out a bright smile, "Thank you for your guidance. I've learned it."

"You've learned it?"

Boor was stunned for a moment, then sneered. "I've long heard that you're very good at acting tough. You were like this when you first entered the Academy, and now that you're in the repeat Academy, you still haven't changed. However, being able to act tough is indeed a kind of skill. If you act well, you can even get the name of one of the five giant stars. Think about it, should I learn from you?"

"You want to learn?" Lin Yi smiled. Then I'll teach you. "

After saying that, he finally made his move. However, this time, he did not use the ultimate five elements killing technique. Instead, he used a bunch of conventional domain techniques just like his opponent.

"Hmph, showing off your skills in front of an expert!"

Boor's eyes twitched. To be honest, these moves weren't too hard individually, and it wasn't hard for Lin Yi, who was also a Five Element domain.

But the problem was that Lin Yi didn't just learn one or a few moves, he learned hundreds of moves from the beginning to the end, all in the exact same order as him-he was obviously learning and selling on the spot!

What was even more outrageous was that Lin Yi didn't just copy all the moves, he even copied them and turned them into a giant python.

Chapter 9690 The End

From jin Yang's perspective as a bystander, it was actually two giant pythons entangled together, the scene was suffocating.

"Something's wrong! It was an illusion! It must be an illusion!"

Boor's mental state crumbled again-this was a secret technique he'd spent decades researching and creating, and even the fallen Dragon couldn't stop praising it-how could Lin Yi just learn it like that?

Boor didn't believe it and sped up the pace again, and the giant python grew stronger.

Lin Yi, on the other hand, only chuckled, playing along with him to the end with great interest. As the rhythm sped up, the giant python he created with his combo expanded, and the speed was much faster than boorish 's. The gap between the two was widened in the blink of an eye.

Jin yang was dumbfounded. Boorish's snake was only a hundred meters, but Lin Yi's was already a thousand meters away. The difference was huge!

In the end, the 100-meter-long Python was swallowed by the 1000-meter-long Python in one gulp. It was completely devoured without leaving any residue.

Boor was sent flying, spitting out blood, but his pride as a master forced him to struggle up. He looked at Lin Yi with hatred. "You must be cheating! You must be cheating!"

Lin Yi frowned, "I thought you were a talent, but now you're pulling strings. Just admit defeat if you're not as good as me. It's not that embarrassing to lose to one of the five Giants, right?" It'll be too unsightly to deceive yourself. "

To tell the truth, Lin Yi did have some respect for this guy-if he didn't try out the technique on a whim today, he wouldn't have been able to figure out the true trick to the combo on his own in such a short time.

He had only been testing his skills just now by connecting the ordinary moves into a giant python. If he had used killing moves like the ultimate transformation of the five elements, the scene would have been unimaginable.

Just the rhythm change alone was enough to increase Lin Yi's chances of winning against the fallen Dragon by 10%!

"Impossible! That's impossible!"

Boor had suffered too much of a blow, and he was already showing signs of Qigong deviation. For a person with an extremely high ambition like him, the damage to his self-confidence was far more dangerous than physical injuries.

"Five elemental spheres are different," Lin Yi said faintly, "if you can't even understand this, then you'll have to stop here."

Boor quivered and finally reacted. ""A perfect five elements domain!"

The advantage his five-element domain had over other ordinary domains would be the same as the advantage his perfect five-element domain had over his five-element domain. It might even be greater!

Boorish was speechless at Lin Yi's silent agreement. "No wonder, no wonder."

It wasn't that he couldn't accept failure-he just couldn't accept failing under the same conditions, or even better conditions. Once he confirmed that Lin Yi had a perfect Five Element domain, he immediately changed his mind.

As a Five Element domain master, he'd fought enemies two levels higher than him before, so it was normal for him to be crushed by Lin Yi.

"Since you've thought it through, then follow me."

Lin Yi turned around indifferently. He had gotten what he wanted, and there was even an unexpected surprise. This trip to the Chamber of Commerce was perfect.

Seeing that Lin Yi was just going to let them go, boorish man and Golden Goat looked at each other and subconsciously wanted to run away.

As for going all out, the two of them had completely given up on this unrealistic and ridiculous idea.

As one of the three beasts, boor's strength wasn't bad at all-he was even stronger than Hong Ba. It was a pity that he thought he was smart and went to Lin Yi.

A perfect five elemental realm against a perfect five elemental realm-it was a strict superior-subordinate relationship, and it suppressed everything. He couldn't even use a tenth of his strength as a magician in front of Lin Yi.

Normally, with his strength, even if he went up against one of the top five like tyrant, the situation wouldn't be so ugly. The only thing he shouldn't have done was come to Lin Yi, his natural enemy.

It could only be said that one was too smart for their own good. Sometimes, being stupid wasn't scary, but self-conceited intelligence was.

Before the two could even move, they were stopped by Lin Yi's clones behind them, and could only follow Lin Yi's steps.

In the distance, a Fallen Dragon's subordinate stared at this scene and quickly called the fallen Dragon for instructions, but he only heard the fallen Dragon leave four emotionless words on the phone.

"Let them be,"

When they returned to the palace, Hong Baxian and the others quickly went up to them. They were all shocked to see the two people behind them. After all, these two were not unknown nobodies, especially boorish, one of the three beasts, who was the face of the fallen Dragon Group!

"I have a question. I heard that the fallen Dragon sees his men as his family. I wonder if he'll come to the palace again for you two?" Lin Yi turned back and asked.

"....."

Boor and Golden Goat looked at each other in silence.

If it was in the past, they would have been able to answer this question without even using their brains. However, they no longer had the confidence now.

It was very simple. If the fallen Dragon really wanted to save them, he would have already done so on the way here. After all, it was much less risky to do so on the way here than to break into the unique King Palace again. The chances of saving them were also much higher.

However, they didn't. Not only did the fallen Dragon not show up, but the other officers of the Dragon Nest also didn't show up. This could only mean that the fallen Dragon had given up on them.

Of course, they could come up with a thousand reasons to comfort themselves, but they couldn't change the reality of being abandoned. Even if they continued to show off, it was only self-deception.

Lin Yi smiled, "don't worry, just treat this place as your home. I'm a very hospitable person. Old Hong, take them to the underground training field."

The two of them were confused, but when they saw the sympathetic looks on Hong Baxian and the others' faces, they immediately had a bad feeling.

"The two young masters are still growing, so they're using up their energy quickly. It just so happens that they think that sandbags can't take a beating. Young masters will definitely like high-quality sandbags like you two. They'll treat you well."

Hong Baxian's words made the two of them feel an inexplicable chill.

Lin Yi couldn't help but sigh as he watched the two get taken away. An eye for an eye, an eye for an eye. The fallen Dragon took ye Zhiwei from him, so he grabbed two executives from the Dragon's Nest. He wanted to use this opportunity to force the fallen Dragon to attack, but he didn't expect the fallen Dragon to hold back.

The more this was the case, the more it showed that this person was not easy to deal with.

Since he chose to endure this time, he would definitely find his way back to other places. It was impossible to guard against this.

Very quickly, Lin Yi received his counterattack.

"The five Giants" meeting?"

Lin Yi raised a brow at the notification.

Hong Ba stepped forward and explained, "the five giant meetings are held once a year. Although it doesn't control all aspects like the ten-seat Council of the Academy, it still has a huge impact on the structure of the retained students. This is because the core purpose of its existence is to coordinate the conflicts of interest between the five giant meetings and ensure that the five giant meetings are United."
