

Bodyguard 9691

Chapter 9691 The End

With the degree of chaos in the repeat school, every day, there would be big and small forces destroyed, and at the same time, new forces emerged with grace. Even the strong 13 heroes would be replaced every few years.

Only the five Giants, this power structure was very stable, from the day of its birth until today, the five giant's meeting maintained the same principles, which could be said to be the greatest credit.

"Wait," Hong Baxian suddenly said, "I remember that the five giant meetings are usually at the end of the year. It's not time yet, right?"

"There's definitely something wrong with this," Lin Yi said, deep in thought. "I'm afraid the meeting's here for me."

"Then ... You're not going?"

Hong Baxian frowned as well. The conference of the five Giants was not a mandatory meeting. Of course, they could choose not to go. However, this kind of behavior of burying one's head in the sand like an ostrich could only be avoided for a while, but not forever.

Moreover, once he was absent, it meant that he had completely lost his right to speak, which was exactly what the person behind the scenes wanted.

Hong Baxian naturally understood such simple logic, and Lin Yi was even more so. He immediately stood up, ""You take some people and guard the house in case the fallen Dragon tries to lure the Tiger out of the mountain. I'll go and meet them."

At the general office.

This was where the Big Five used to come from, so their meetings were naturally held here as well, but with a new person like Lin Yi, it was a little out of place. Lin Yi, however, didn't feel anything different.

As long as he wasn't embarrassed, the others would be.

Lin Yi wasn't the first to arrive-there was already someone waiting for him inside, and it was a familiar face-an elder from Tianji Pavilion, Yan Chen.

Yan Chen took the initiative to greet him and cupped his hands with a smile. ""We meet again, Lin Wuju. This time, Lord Tianji is in seclusion and it's not suitable for him to appear, so he sent this old man here to replace his head."

"Elder Yan, do you have something to say to me?" Lin Yi asked suddenly.

Yan Chen was slightly stunned."Lin Wuju is indeed astute. Lord Tianji does have some words for me to pass on."

"I'm all ears,"

Lin Yi's face was serious-they'd only met once, but Tianji's face was oddly familiar to him.

It wasn't that Lin Yi was familiar with the other party, but the other party was familiar with Lin Yi.

If Lin Yi knew that Tianji had already looked into his 120000 futures and was still in closed door cultivation, he'd be shocked, if not horrified.

"Between you and the fallen Dragon, only one can live," Yan Chen said after a pause.

"I understand."

Lin Yi wasn't surprised at all. Although they hadn't officially declared war on the fallen Dragon Group yet, they were already in a state of mutual hostility. It was only a matter of time before they started fighting to the death, and both sides were still waiting for that opportunity.

Yan Chen continued,"according to Lord Tianji's observations of the future, you and the fallen Dragon both have the possibility of winning. However, if the fallen Dragon wins, everyone related to you will die a terrible death. The world will also become extremely miserable. So, you must win."

Lin Yi waited for him to continue.

Yan Chen finally said,"Lin Wuju, this is a matter between you and the fallen Dragon. The battle between the two of you will affect the future. No one else can interfere. You can only rely on yourself."

"Many thanks."

Lin Yi didn't quite get it yet, but it was obvious that it was a hint.

Yan Chen nodded with a smile."Those are Lord Tianji's exact words. This old man also has a word to say. Lin Wuju, you have a strong destiny. There will be a great opportunity waiting for you. Therefore, this old man believes that your future is bright after your battle with the fallen Dragon."

Unlike the heavenly secrets, which could directly see into the future, what he saw was fate.

Luck was illusory and fickle. One second, it was very good, and the next second, it might be bad. Normally, there was no fixed fate. However, at his realm, he could predict the trend of luck to a certain extent, which was enough to see many things.

"Then I'll be counting on your blessings."

The temperature in the meeting room dropped by ten degrees before Lin Yi could finish his sentence.

The sinister Fallen Dragon entered the arena."Haha, some things can't be resolved with just a few auspicious words. Otherwise, the pavilion of heavenly secrets would have been invincible long ago,"

The scene instantly became tense.

Lin Yi thought that they would mention boorish man and Golden Goat, and even wanted to bring up the hostage exchange. The chances of success weren't high, but it was still better than breaking into the Dragon's Nest to save people.

Unexpectedly, the other party didn't say a word and sneered as he took his seat.

Soon, the other two tyrants and Yan Chi arrived as well. Compared to the fallen Dragon, who were like fire and water, these two didn't seem to have as much enmity with Lin Yi as they had fought before.

Although they didn't appreciate each other, and their attitude wasn't warm, at least they nodded in greeting. The scene was still acceptable.

"Then let's start."

Tyrant casually picked up a wine barrel and drank it in front of everyone. There were also two beautiful women serving him. For a moment, the entire conference room was filled with the rich smell of wine.

Anyone who was slightly weaker would be drunk to death just by smelling the smell of alcohol. In fact, even Yan Chen, a veteran expert of the pavilion of heavenly secrets, had to hold his breath as if he were facing a great enemy. Only the other five Giants could remain calm and composed.

Tyrant glanced at Lin Yi's calm face and chuckled, "It seems that you've tried my thousand-year-old cellar. Interesting."

As he spoke, he threw another bucket over.

Lin Yi's eyelids twitched-this thing reeked of alcohol even stronger than the last one. It took him a lot of effort to suppress the drunkenness last time, and he had to stay in the nine-story Pagoda for three whole days!

Tyrant's wine was not something that just anyone could drink.

The fallen Dragon went straight to the point. "I was the one who suggested that we bring forward the meeting. I'll go first. I think that after what happened last time, we've learned our lesson."

"What lesson?" Yan Chi asked.

"No matter who stands out in the end, the matters of the repeat school must be decided by our own people. I believe no one has any objections to this, right?"

Fallen Dragon turned to Lin Yi. "But last time, not only did Banshi Luo suddenly appear out of nowhere, but he also directly interfered in the internal affairs of the repeaters. He even planted his representative in our group. Think about it, don't you think it's a little scary?"

At that moment, everyone's eyes were on Lin Yi.

Although Lin Yi's title was suggested by Xiang Yusheng, everyone knew that it was a compromise made by Banshi Luo. It was only because Lin Yi took on tyrant and Yan Chi's joint attack that he proved his strength and suppressed all the criticism.

Otherwise, just the pressure of public opinion alone would make it difficult for him to move forward in the repeat Academy.

Chapter 9692 Power

Seeing that the atmosphere was in place, the fallen Dragon solemnly said, "In view of this, I suggest that we temporarily cut off all contact with the Academy to prevent any ill-intentioned people from interfering from the outside!"

The dagger was revealed.

Lin Yi instantly understood the other's true intention-they wanted to cut off his connection with Banshi Luo and take drastic measures!

In the end, in the eyes of the majority of the retained students, Lin Yi's strength wasn't the most frightening thing, but his identity as Banshi Luo's representative. Once that layer of light was gone, many

ambitious people would be ready to make a move, not to mention the fallen Dragon that was eyeing him covetously.

Yan Chi frowned, "cut off the connection with the Academy?" Let's not talk about whether it's feasible or not. Even if it's feasible, where will the repeat students get new students? they can't just directly recruit students from the outside, right?"

The repeating school was already closed off from the outside world. If they were to directly accept students from the outside, it would be the same as becoming independent from Jianghai University. It would definitely be suppressed by both the school board and the Academic Council.

Not to mention any of the five Giants present, even if the entire retained compound combined forces, they might not be able to withstand such a scene.

"I didn't say permanent, I said temporary."

The fallen Dragon didn't hide his cold voice. "The retained students need to clean up the house now. There's a saying that goes, 'clean up the house before you treat us.' Am I right?"

At this moment, tyrant, who was drinking by himself, suddenly interrupted impatiently, ""Why are you grumbling so much? do you really think the conference of the five Giants is a place to reason? If you want to do something, just vote. Why do you have to talk so much nonsense?"

The fallen Dragon frowned slightly. He didn't expect tyrant to have such an attitude. It should be known that tyrant was the person he feared the most among the five Giants. Tyrant's attitude was of utmost importance.

Did Lin Yi contact him in private?

However, just as he felt that the situation was getting out of control, he heard tyrant say, "I agree,"

Old man Yan Chi also said, "This old man also agrees."

Next, it was Tianji Pavilion's turn. As the representative, Yan Chen was silent for a moment before he said, "The pavilion of heavenly secrets gives up."

Lin Yi was surprised.

Although he had had some contact with Tianji, he felt that his relationship with Tianji was not at the point where Tianji would stand up for him. Although he was not going against the other five Giants, he had put his differences on the surface.

After all, giving up didn't mean that he didn't have his own opinion, but it was a strong statement in itself.

With that, the last Lin Yi left was of little importance, but Fallen Dragon still asked seriously, "I wonder what Lin Wuju's attitude is. Why don't you tell me your opinion?"

Lin Yi smiled. "It's true that the repeaters should make their own decisions, but if they cut themselves off from the world because of this, they'll just be stuck in their own world. They might even be eliminated by the times, so I'm against it."

"What a good 'eliminated by the times'."

The fallen Dragon snorted. "You don't seem to realize the power of the repeat Academy. Although the way they raise Gu seems chaotic and lacks discipline and organizational power, the Gu Kings that walk out of here are definitely the top existences in the entire school and Jianghai city!"

"Are you talking about yourself?" Lin Yi asked, amused.

"It's possible that it's the worm Lord. But I don't think it's you."

The fallen Dragon sneered back. "Three votes in favor, one vote abstaining, and one vote against. The result is obvious. I think everyone can start preparing. If necessary, I will report to the Deputy Director and ask him to help freeze the space."

With the Sea King Xiang Yusheng's ability, even Luo Banshi might not be able to easily block him if he really tried to freeze space.

Lin Yi was silent.

Yan Chen suddenly spoke. "The meeting of the five Giants has never been about the minority obeying the majority. It's a one-vote veto. Now that Lin Wuju has expressed his opposition, according to the procedure, this proposal should be shelved, right?"

Everyone was moved.

The agreement of the five Giants was the foundation of the existence of the five giant conference. Its essence was to avoid as much collision as possible between the five Giants. This was also the key to the five giant's situation being maintained to this day.

If he broke the rules today, it would be equivalent to opening Pandora's box, and no one would be able to control the direction in which it would develop in the future.

"Do you have the right to speak here?" the fallen Dragon narrowed his eyes.

Yan Chen was neither humble nor overbearing. "Originally, with my status, I am indeed not qualified to attend, let alone speak. However, now that I am here on behalf of Lord Tianji, I naturally have to do my best to fulfill my duties. Lord Fallen Dragon, you must know that my Lord Tianji has always been the most protective of the five Giants meeting. He will never allow anything to subvert the foundation of the meeting."

His words were reasonable and irrefutable.

Even with Fallen Dragon's killing intent, Yan Chen's expression didn't change. Although he was standing up for Lin Yi, he was still standing on the side of the five big shots. If he didn't even dare to say this, then he might as well give up his position as one of the five big shots.

As expected, tyrant and Yan Chi's attitudes changed as well. The fallen Dragon could do whatever he wanted to Lin Yi, but the meeting of the five was related to the entire situation of the retained students. It was also related to their own interests, so they couldn't just stand by and watch.

"Since that's the case, let's stop here for today. Let's go back and drink."

Tyrant stood up and left.

Old man Yan Chi nodded to the crowd and left as well.

The fallen Dragon's face was as gloomy as water. He looked at Yan Chen with murderous eyes. Everything had been going according to his rhythm, but he did not expect that the old quack who was not worthy of his attention would turn the tables with a few words. In the end, all his efforts were in vain.

"Brother Fallen Dragon, you don't seem too happy?"

Lin Yi said with a faint smile, subtly shielding Yan Chen behind him. Logically speaking, the other party shouldn't be so stupid as to attack Yan Chen, which was equivalent to declaring war on the pavilion of divination. If he was added to the mix, the fallen Dragon wouldn't have any chance of winning no matter how confident he was.

However, there were many things in reality that didn't make sense, so he had to be careful.

A cold and tangible killing intent circulated in the air. It was about to land on Yan Chen's head a few times, but in the end, it was unwilling to dissipate.

"You're lucky this time that someone's standing up for you, but it'll be hard to say next time. "Fallen Dragon looked at Lin Yi coldly.

After he finished speaking, he disappeared into thin air.

Lin Yi raised an eyebrow at the scene-another opponent with heaven-defying movement skills. The other factors aside, just that movement skill alone was almost impossible to deal with. Not everyone was as easy to deal with as the quanfu cutie.

"Lin Wuju, why don't you make a guess? where is Lord Fallen Dragon now?"

Yan Chen, who was behind him, said in a calm and composed manner.

Chapter 9693 Power

"If I'm not wrong, he should be looking for the Sea King by now," Lin Yi said after some thought.

"Lin Wuju's eyes are sharp," Yan Chen smiled and nodded.

From the fallen Dragon's attitude, it looked like they were giving up, but it was actually just a smokescreen for Lin Yi to let down his guard and launch a fatal attack!

"Using a meeting of the five Giants as a smokescreen? that's a little too much," Lin Yi said, clicking his tongue.

Yan Chen shook his head. "It's not just a pretense. It's also a public test. However, it's not you. It's the attitude of the other three."

Fallen Dragon wasn't a reckless man who only knew how to fight. He knew that if he wanted to deal with Lin Yi, he needed the support of the other five. At the very least, he needed their permission.

Judging from their performance just now, even if tyrant and Yan Chi didn't attack together, they probably wouldn't help either side. The only thing they needed to consider was Tianji. Although it seemed like he was standing up for Lin Yi, it was still unknown if Tianji would actually come down personally if they really wanted to fight.

"Of course, if he manages to succeed this time, it'll be quite beneficial to him."

"For example?"

"For example, if he had the unanimous endorsement of the five Giants, it would be justified for him to go to the sea King to make a move, and the sea King would not easily refute his face. But now he is bringing this up in his own identity. If he wants the Sea King to agree, it will cost a lot of blood."

"But there's more to it than that," Yan Chen continued. "Once he changes the bottom rules of the meeting, it's equivalent to him opening a door."

"What door?" Lin Yi asked, curious.

"Controlling the conference of the five Giants together, and truly reaching the top of the retained students" gate. "

Yan Chen's words exposed the fallen Dragon's great ambition, and he seriously reminded, ""Lin Wuju, once the Sea King is persuaded, the fallen Dragon will make his move very soon. You have to make preparations as soon as possible."

Lin Yi nodded-the storm was coming, and it was time for them to move.

West District, Dragon Lair.

The officers were all waiting for the fallen Dragon's news, and Divine Master kept making calls. Other than Lin Yi, the other three and five big families all tried to ask, but there was no news from the fallen Dragon.

It had been ten days since the conference of the five Giants ended.

Any slight movement from any of the five Giants was a big deal for the entire repeat Academy. The fallen Dragon had disappeared for ten days. If it wasn't for his tyrannical power, rumors would have already spread everywhere. Even the Dragon's Nest would be in a state of panic.

There were rumors that the fallen Dragon was in a life-or-death seclusion, just like King du last time, and that he'd already fought Lin Yi before and escaped from the repeat school. There were even rumors that he'd been targeted by the assassin family because of ye Zhiwei, and that he was probably dead now ...

Either way, it was a great crisis for the Dragon Lair.

Just as the group of officers were in a state of panic, the fallen Dragon's figure suddenly appeared in the middle of the main seat. However, before everyone had time to rejoice, their expressions changed.

"Everyone, go out first and seal the mouths of the people below. Whoever dares to pass down the Family Law will be punished!"

The divine celestial master made a prompt decision. Very quickly, only the core members of the group, the Twin gods and the three beasts, were left. Of course, now that the boorish man had been captured, the three beasts had become the Twin beasts.

"Master, how are you?"

Several people surrounded the fallen Dragon. At this time, the fallen Dragon's aura was extremely weak, and it was obvious that he had suffered a very serious internal injury. This scene made everyone's heart even more cold. The number of people in the repeat Academy who could injure the fallen Dragon to this extent could be counted on one hand!

Sure enough, the fallen Dragon's next sentence stunned everyone. "I had a fight with Xiang Yusheng."

The Sea King Xiang Yusheng's strength was obvious to all. Even a core confidant like the divine heavens master did not expect that their family head would have the guts to challenge Xiang Yusheng!

But then again, there were probably only a few of the Big Five who could escape unscathed after fighting with Xiang Yusheng.

"What's the result?"

Hou zhentian's casual question caused everyone to roll their eyes, but they still perked up their ears. After all, they were really curious.

The fallen Dragon didn't answer directly, but changed the subject. ""He agreed to seal off the repeating yard."

"The patriarch is mighty!"

Everyone was immediately convinced. In this peak battle, the fallen Dragon naturally couldn't have the upper hand, but to be able to make Xiang Yusheng agree to seal off the repeat students 'yard, it meant that his strength had at least been recognized by the other party.

Just this point alone was enough to look down on the other five Giants.

"Not good!" The divine heaven master's face changed."Lin Yi's side will be driven to desperation when they hear the news. Before the master recovers, we have to close the Dragon Nest and lay low. We can't let him take advantage of this."

The Faceless God was expressionless, and his voice was androgynous. He questioned,""Isn't this exposing your own weakness? If we don't close it, Lin Yi won't be able to figure out our true strength in a short time, but once we close it, we won't be able to hide anything. "

"There's no other way. I have to choose the lesser of two evils. "

"No." Divine heaven master shook his head helplessly."Don't forget that he's on good terms with the heaven secret Pavilion. Others might not know about the clan head's current situation, but the heaven secret Pavilion will definitely be able to predict it."

Nothing in the repeat school could escape the pavilion of heavenly secrets. This was common knowledge for all the repeat students.

"I'm going into seclusion to recuperate, so I'll leave the Dragon Nest to you. "

As the fallen Dragons began their seclusion, the Dragon Lair quickly closed. The officers of all levels entered level one alert and waited in all key positions.

Unfortunately, it was too late.

"What? Lin Yi had already broken into the Dragon's Nest? Where does he get his confidence from?"

The news from the front line shocked the core officers. Lin Yi's decisiveness was far beyond their expectations. He may have closed the Dragon Nest out of caution, but even the divine celestial master didn't think Lin Yi had the guts to attack them.

After all, putting aside the difference in strength between Lin Yi and the fallen Dragon Group, just his underlings alone were no match for the fallen Dragon Group, which was full of strong people. The overall difference, especially the difference in the number of high-end combatants, was enough to tilt the balance of victory and defeat.

She didn't expect Lin Yi to call, and so quickly at that!

"What do we do?"

All of the higher-ups looked at divine heaven master. Since the fallen Dragon was in seclusion, he was the number one person in charge of the Dragon Nest.

The divine heaven master did not hesitate and made a decision, ""Tell the others to put down the Dragon-breaking rock and put down the layers of defense. I'll ask tyrant and Yan Chi for help now. They owe master a favor, and I believe they'll be interested in working together to deal with an outsider like Lin Yi."

Everyone's expression changed, but they didn't say anything.

Favors were both useless and precious, especially the favors from the five Giants. They were like protective talismans that couldn't be bought. Once the favors were used up this time, if he wanted to order the two giants to do something in the future, he would have to put in a lot of money.

Chapter 9694 The End

However, this was the most severe crisis the Dragon Lair had ever faced. If it was really lost, what future would there be?

Once tyrant and flame pool were persuaded, even if they did not attack with their full strength, they would be able to strike fear into most people's hearts by just forming a joint attack. It was even likely that they would collapse without even attacking!

After all, Lin Yi's men were just a motley crew-there was no loyalty to speak of.

He'd be more active than anyone else if he could get some benefits from a smooth-sailing battle, but he'd run faster than anyone else if the odds were against him. It wasn't impossible for Lin Yi to become a commander all of a sudden.

The truth proved that the favors between the five Giants were not empty.

As soon as the divine heaven master hung up the phone, tyrant and Yan Chi made their move. Although they did not come personally, they sent their strongest forces to the Dragon's Nest.

"It's done!"

The divine heaven master quickly checked the Fortune of his own clan. It was still weak just a moment ago, but the moment the two clans made a move, his fortune immediately rose up and soared to the sky!

Although luck couldn't directly predict the future, it represented the general trend. Those with weak luck would be in great danger, and those with strong luck would be lucky!

In other words, even if the fallen Dragon Group was in a crisis, there was a high probability that they would be able to turn it into a blessing.

Moreover, the rise in luck would also act on the fallen Dragon's body, allowing it to heal faster, and even benefit from a disaster and improve further.

However, before he could celebrate for too long, the luck that had just started to rise suddenly fell again. It was as if an invisible giant hand had wiped away its Ascension channel, forcing it to turn down.

"Did the pavilion of heavenly secrets make a move?"

The divine heaven master was shocked and furious. He was a traitor of the pavilion of heavenly secrets, so he knew how terrifying the pavilion of heavenly secrets was. There was no other repeat student institution that could erase the luck of a family without any reason.

Soon, news came that Tianji had come out of seclusion and went to see tyrant and the flame pond!

No one knew what the three parties discussed, but it was obvious that tyrant and the flame pool's elite troops had stopped advancing to the Dragon's Nest and were on standby.

"Outsiders are ultimately unreliable," The Faceless God said indifferently. "We still have to rely on ourselves."

"I guess that's the only way."

The divine heaven master immediately started to make the final arrangements. The two gods and two beasts, including himself, entered the final node. At the same time, the middle-ranking officers, whose combat strength could not be ignored, also took their positions.

The most important thing was that as the Dragon-breaking stones were placed in various positions, the entire Dragon Lair's architectural structure changed greatly, and the air was filled with layers of fog.

Not only did the mist block his vision and affect his divine sense, but it also gave off a faint fragrance that had the effect of confusing the mind.

Very quickly, Lin Yi group's unstoppable offense was stopped-the weaker ones lost their minds and started attacking indiscriminately, throwing their formation into chaos.

"This is bad. This is the Dragon Lair's specialty, pseudo-Ambergris. Everyone, don't inhale it!"

Hong Ba was the first to react, but many people had already fallen for it. The key was that it wasn't as if one couldn't stop breathing just because they wanted to. Even an expert at the level of a Big Shot's consummate level couldn't hold his breath all the time.

Moreover, the pseudo Ambergris was pervasive, and even if he could hold his breath, he could not really isolate it.

On the other hand, the fallen Dragon's underlings, even the lowest level of cannon fodder, had long been used to pseudo Ambergris. In addition, they had taken the relevant antidote, so they were not affected at all.

In addition, the Dragon's Nest had been in operation for many years, and the members of each level were rare elites of the retained students. There was already a gap in individual combat strength between the two sides, and now the gap became even wider. The momentum of the two sides was instantly reversed.

In the end, it was Lin Yi who did it himself. A water screen appeared in front of everyone, turning into a filter that pushed forward, filtering out the Ambergris in the blink of an eye.

The rest of the people immediately followed suit. After all, there were many of them, and there were quite a number of water element domain experts.

"It's said that there are many traps inside the Dragon Lair. Once the Dragon-breaking rock is released, it will turn into a super-large maze. If we want to break through the maze, we have to keep taking human lives to try. We have limited manpower to begin with, and they are waiting for us to exhaust ourselves. This battle won't be easy."

Hong Ba was worried.

They'd caught the fallen Dragon Group off guard this time, and they'd done quite well-they'd lost at least twenty percent of their members, but that was mainly Lin Yi's own work. The rest of the people were just there to boost their momentum.

Now that they had encountered difficulties, they immediately revealed their true colors and all of them had the intention to retreat.

"We can't let boss do something like opening a path. Boss's physical strength is very precious and must be saved on the edge of the blade. How about letting me try?"

Wei baizhan's voice suddenly came from behind the crowd.

At the same time, Shen Yifan, Yan Zhongyuan, and the other core members of the newborn Alliance also showed up at the same time, and it immediately caused a commotion.

This was the tacit understanding between Lin Yi and Banshi Luo. Once the battle with the fallen Dragon officially started, the retained students wouldn't be enough. They needed fresh people to fill in the gaps.

The rebirth Alliance was the best new force!

Thus, before Xiang Yusheng sealed the school, Banshi Luo had secretly sent the backbone of the freshmen over, but they had not shown their faces in public.

Hong Baxian and the others couldn't help but frown. They obviously knew that compared to them, the freshmen Alliance was Lin Yi's most important faction, especially with the few core members who performed outstandingly in the prison attack last time. Their potential and talent were written all over their faces.

When these people grew up in the future, Hong Baxian's Overlord's Pavilion would definitely have to step aside. This was without a doubt.

So anyone with a little bit of ambition would put in all their effort to perform well in front of Lin Yi. Only by getting into Lin Yi's eyes and getting more resources would they be able to maintain their position in the future, at least not falling behind.

Hong Baxian couldn't help but say, "isn't this a little too risky? these are all seeds with promising futures."

Losing the Overlord's Pavilion members was a bit of a pity for Lin Yi, but if he were to put the entire newborn Alliance in this battle, it would be a real blow to his bones.

Once there was a large-scale loss, even if they could win against the fallen Dragons, they would lose their future!

Lin Yi was surprisingly calm, "It's fine. The young are hot-headed, let them do whatever they want. "

“.....”

Hong Ba was speechless. Even though he knew about the strength of the freshmen Alliance, their cultivation level was still a little low. The highest cultivation level they had was only at the middle stage of the consummate level. In a battlefield of this level, they were simply cannon fodder and couldn't cause any waves.

After all, no matter how strong one's talent was, it was not worth a penny before it was realized.

Chapter 9695 The End

Just as he was hesitating whether he should lend a hand, he saw Wei baizhan, who was in the lead, standing in a group with the fallen Dragon subordinates in front of him. Then, with a Thunder Dragon Kingdom, they instantly cleared the field!

Everyone was dumbfounded.

Even Hong Baxian was dumbfounded as he looked at the arrogant figure in front of him. There were indeed no powerful experts among the fallen Dragons just now, but they were all at least at the middle stage of the consummate level. In addition, the Dragon Nest had the geographical advantage. Even Hong Baxian would find it difficult to be so Swift in his attack!

"Let's go,"

Lin Yi walked forward with Shen Yifan and the others.

They had long been used to Wei baizhan's strength. In fact, after this period of concentrated closed-door cultivation and Banshi Luo's careful guidance, almost all the freshmen's strength had improved by leaps and bounds, especially the core backbone.

They were unpolished jades that were one in a million, and now that they had been personally trained by Banshi Luo, each and every one of them had begun to shine.

At first, Hong Ba thought that this group of animals would have a bright future, and would surely shine brilliantly in the future. However, this sentence was half right and half wrong. It was true that Shen Yifan and the others would shine, but not in the future, but now.

As the freshmen became more active, the road became clear again. The fallen Dragon Group had collected all kinds of information on Lin Yi's subordinates, but it was mainly targeted at Hong Baxian and the others. They didn't prepare anything for Shen Yifan and the other animals.

In fact, it was useless even if they were prepared. The strength of these animals was changing every day. Even if they tried their best to collect information, it was all outdated information, which would only make things worse.

Their attacks became unstoppable again, until five people appeared in front of them.

One was old, one was young, one was sick, one was disabled, and one was a fool.

Hong Baxian's eyelids twitched, and he immediately blurted out, "Little five dragons?"

There were many experts under the fallen Dragon's command. Apart from the top two gods and three beasts, the little five dragons were the most famous and also the most troublesome.

"It's said that the five of them used a secret technique to cultivate and permanently stabilized their cultivation at the peak of the late stage of the consummate level. They were once in the top 30 of the top 100, but after joining the Dragon Nest, they disappeared and never appeared in the outside world. That's why they were removed from the top 100, so few people know about them."

Lin Yi naturally knew about this information, and Hong Ba explained it to the people of the newborn Alliance so that they wouldn't underestimate their enemy.

"Old dragon, young dragon, sick Dragon, crippled Dragon, and crazy dragon."

The freshmen were all excited and eager to try. "It's good to have a big name. At least it's fun to fight. "

Hong Baxian glanced at Lin Yi, who didn't seem to have any intention of stopping him.

Now, Shen Yifan and the others urgently needed actual combat to test the results and stabilize their strength. The little five dragons had become successful. Although there was more or less a risk of dying here, they would never be able to truly grow and take charge of a region without going through the hardships and polishing.

Just then, a piece of information popped up in Lin Yi's mind.

To be more precise, it was a countdown, a countdown to the fallen Dragon's injuries.

As time passed, the fallen Dragon's injuries were quickly recovering. In at most two hours, the fallen Dragon's state would be almost fully recovered!

If things really dragged on until then, Lin Yi's bet on this ambush would be completely meaningless. After all, the fallen Dragon was the real deal, and once they recovered, it wouldn't matter how much he won.

"Forget it, I'll do it."

Lin Yi immediately changed his strategy and attacked without hesitation. He knew that the countdown was Tianji's doing, reminding him to end the battle quickly.

As for the opportunity to train the new students, although it was a pity, it could only be left for the future.

With Lin Yi's current strength, he might have to spend some effort to deal with the two gods and three beasts. After all, boorish was a special case where he could suppress them in all aspects. However, he could easily crush Wulong, who was at the peak of late stage of complete realm, even if he was a big Shot on the surface.

The five Giants were not just for show.

However, what was unexpected was that although the little five dragons did fall into a huge disadvantage, under their joint cooperation, they actually managed to withstand it.

"This group of people is really something."

Shen Yifan and the other freshmen looked at each other. If it wasn't for Lin Yi, they would've suffered a huge loss in the first exchange.

After all, little Wulong's appearance of old, young, sick, and stupid was too confusing. Even if they knew that they were terrifying, they would still subconsciously underestimate their enemies. The only one among them who could be ruthless was probably Wei baizhan, the pervert.

However, after a while, everyone began to realize that something was wrong.

The experienced Hong Ba was the first to notice. ""Not good, boss's strength seems to be suppressed?"

"They're the only ones who can suppress boss Lin Yi?"

The group of freshmen felt that this was inconceivable. Although it didn't seem very possible, as both sides entered a stalemate, it did seem to be somewhat possible.

Even the bystanders could tell that something was wrong, and Lin Yi, as the person involved, naturally knew it even better.

Lin Yi wasn't suppressed by the five dragons, but his luck was suppressed, making it impossible for him to use his strength. In fact, the five dragons were also suppressed, but because their individual strength was much weaker than Lin Yi's, they were less affected.

This kind of suppression was obviously aimed at the stronger ones. Or to put it more clearly, it was suppressing each person's strength by percentage.

The strength of both sides would be reduced by 50%, which was equivalent to the gap between the two sides being reduced by half.

"Divine heaven master's Pen?"

It didn't take long for Lin Yi to guess who was behind all this. As the left and right hand and chief brain of the fallen Dragon, Divine Master was definitely the person the entire Fallen Dragon Group couldn't ignore.

Of course, even the divine heaven master couldn't completely erase Lin Yi's luck. If he was that powerful, he wouldn't be the fallen Dragon's right-hand man, but one of the five giant's himself.

This kind of suppression of luck was only temporary, and from the intuitive effect, it could not directly cause any physical damage to the suppressed person.

However, it would make everything go wrong, and things that he had originally planned to do would become particularly difficult.

Just like now, Lin Yi was supposed to crush Wulong easily, but he was held back. Every move and stance became extremely choppy, and he needed to use a lot more energy and stamina than usual!

If things continued like this, Lin Yi would have to use up at least half of his stamina to take out the five little Dragons by himself. Even if he could make it in time for the fallen Dragon's recovery, he wouldn't have much of an advantage.

Moreover, the little five dragons were in front of him, and there were still two gods and two beasts guarding behind him. That was the main event on the way to the pass.

Chapter 9696 The End

"Five dragons of heavenly lock!"

As the five dragons roared in unison, their five territories merged into one and turned into five black dragons that locked Lin Yi's body and limbs, ready to dismember him!

However, before they could exert their strength, a Black Flame had already enveloped the five black dragons and burned them to ashes in an instant.

The extreme of the five elements, great burning heavens!

Then, a giant hand with golden light stretched out from the black flames and pressed down on the silly Dragon of the five little Dragons to the ground. Then, it crushed it into dregs in front of everyone.

The crowd was dead silent as they looked at Lin Yi in the Titan Buddha form as if they were worshipping a God.

"Elder Lin, leave the rest to us. You continue forward!"

Shen Yifan's low cry pulled everyone back to reality. He then turned into a gust of wind and swept toward the old dragon.

The rest of the freshmen understood what he meant, and Wei baizhan, Bao shaoyou, and Qiu sanniang all attacked the other little Wulong.

They all saw Lin Yi's current situation. The scene just now was so powerful that it made them want to kneel, but to use a killer move like five elements extreme for the five little Dragons, just the physical consumption was not worth it.

Don't forget that the most precious thing to them right now was Lin Yi's stamina!

"Alright, you guys be careful."

Lin Yi didn't hesitate at all and continued to lead the group forward. Hong Baxian and the others quickly followed, leaving the battlefield to Shen Yifan and the other three.

In terms of individual strength, they were actually no match for the other party in a one-on-one situation. However, the effect of the suppression of destiny was still present, and now that the strong and weak had been reversed, it had become their help.

This time, it was Wulong's turn to experience Lin Yi's predicament.

Lin Yi led the group forward, and Hong Baxian couldn't help but worry, ""Is it really okay to just leave them here?"

He had witnessed Wei baizhan's formidable strength, but it was still unknown how well Shen Yifan and the others could perform in the face of such a high-level enemy.

No matter how good they had been practicing before, before going through the test of real combat, everything was blank, especially when the first person to start was an expert at the level of little Wulong. For the freshmen, it was simply a hellish difficulty opening!

If anything went wrong, the entire Army might be annihilated.

Lin Yi turned back to look at him and smiled, "What's there to worry about them? each and every one of them is as strong as a monster. You might as well pray for the little Wulong."

"....."

Hong Baxian was speechless. How did this guy have the face to call him a monster? Aren't you the most perverted monster yourself!

Soon, Dragon-breaking rocks appeared on both sides of the road ahead. The original layout that led to all directions had been changed into a road on Mount Hua. A man was lying in the middle of the road, snoring like thunder, like a small mountain.

Everyone stopped in their tracks at the same time. Although the other party seemed to be defenseless, anyone who dared to guard this place by himself was definitely not a good person.

Moreover, this person's image was too distinct, and it was difficult for the retained students not to recognize him.

He was one of the three beasts under the fallen Dragon, Emperor Zhu.

Some of them wanted to show off in front of Lin Yi.

In the end, just as he passed over the other party's stomach, he saw an unconscious giant hand slap over, and he was sent flying back on the spot. It was fine if he just spat out blood, but what was outrageous was that he actually fell from the peak of the middle stage of the consummate level of a Big Shot to the middle stage of the consummate level!

A single palm strike that could destroy a cultivation level. Just this move alone was enough to scare everyone into not moving an inch forward. After all, it was extremely difficult to advance a cultivation level at the great circle of perfection level of a Big Shot. If they were unlucky enough to be struck by this palm strike, their lives might end there and then.

The key was that he was still sleeping.

Hong Ba first looked around and took the initiative to say, ""Boss, leave this to me."

With that said, the Dragon elephant domain was fully released, and a thousand Dragons ten thousand elephants directly blasted over!

Emperor Zhu was still lying there, snoring. His fat body had taken Hong Baxian's killing move, but he had no reaction at all. He even let out two comfortable groans. It gave people the feeling that Hong Baxian was not killing him, but giving him a massage.

"Will this work?"

Everyone looked at each other, but Lin Yi had already led the way. The passage was blocked by Emperor Zhu, so they stepped over him.

But just as Lin Yi stepped on his chest, Zhu Di suddenly slapped him again. Lin Yi didn't Dodge or even try to block it. He met it directly.

Everyone broke out in a cold sweat for him-but at the last moment, a Dragon and elephant roared beside Lin Yi. Hong BA's palm met his palm, and he'd blocked Zhu Di's palm!

Lin Yi stepped on Zhu Di's face and passed, but Hong Baxian was still in a stalemate. He didn't retreat or fall in level-they were evenly matched.

In terms of ferocity, Hong Ba had the Dragon elephant domain and was confident that he was on par with anyone, including the pig Emperor!

The others quickly followed, and Lin Yi turned around."Old Hong, don't force yourself."

"Don't worry, boss. There's no way my Dragon elephant would lose to a pig, right?"

Hong Baxian forced a smile, but it was already difficult to continue. However, after being stimulated by the freshmen, he knew that if he didn't make any achievements, he would be reduced to a fringe figure.

He didn't join Lin Yi just to be a small fry, so no matter what, he had to put his life on the line!

Lin Yi could tell what he was thinking, and so he didn't stop him. Hong Baxian's personality was one of a hero, and he wouldn't be content with being ordinary. Since he'd chosen this path, Lin Yi wouldn't stop him.

But whether or not they could walk out of it, whether or not they could walk alongside Wei baizhan and the others, and enter Lin Yi's inner circle-that was all up to the heavens!

Compared to Wei baizhan and the others, Hong Baxian had strength, but he lacked huge potential that could be seen with the naked eye. If he didn't want to be marginalized in the future, he could only risk his life.

With a muffled groan, Hong Baxian was finally sent flying by Emperor Zhu's palm, but then he met it again. This time, the sound of the Dragon and elephant was obviously more restrained, but also more overbearing.

Dragon and elephant awakening!

On the other hand, Lin Yi's group had passed through Zhu Di's obstacle and the path ahead was wide open. The fallen Dragon group's last group was standing there, with two people at the front.

One of the two gods, The Faceless God.

The leader of the three beasts, hou zhentian.

Lin Yi didn't have many high-end fighters left on his side. Unless he took the lead and personally suppressed Faceless God and zhentian, there was no way he could get through this with just this group of people.

Chapter 9697

However, this made it impossible for Lin Yi to save his energy against the fallen Dragons. Whether it was The Faceless God or hou zhentian, they were both much more difficult to deal with than the five little Dragons.

Coupled with the divine heavenly master's luck, even if Lin Yi wanted to take them out one on two, he'd have to use all his strength. Otherwise, he might even lose!

At this moment, Yan Zhongyuan, who had been silent all this time, walked out from the crowd and went straight to Faceless God.

Everyone was dumbfounded. Even The Faceless God was clearly taken aback. His androgynous voice was filled with doubt. "What are you doing here? Are they cannon fodder who are seeking death?"

As soon as he finished speaking, he saw Yan Zhongyuan running toward him.

His speed wasn't fast, but each step seemed to be on the beat of a drum. Combined with Yan Zhongyuan's own majestic temperament, he gave people a feeling of passion and hot blood!

By the time The Faceless God realized what was going on, Yan Zhongyuan was already ten meters away from him. He suddenly stopped and slammed his palms on the ground.

The entire Dragon's Lair instantly trembled. Those with slightly weaker strength immediately fell.

That was not all. The ground that Yan Zhongyuan had smacked collapsed. At the same time, an unprecedented strong gravitational force pulled The Faceless God, who was caught off guard, towards it.

By the time everyone came back to their senses, The Faceless God had been pressed to the ground by Yan Zhongyuan. Then, Yan Zhongyuan slapped down with his other palm, hitting The Faceless God's face.

Gravity gathered, and a small black hole appeared on Yan Zhongyuan's palm. The Faceless God's face twisted, and his entire head was sucked into the black hole. In the blink of an eye, he was a headless corpse.

There was a strange silence.

Everyone thought that this would be a one-sided battle, but it turned out that it was indeed one-sided. The Faceless God, one of the two gods, had actually been Insta-killed by a nobody in public!

"Where did this brother general come from?"

One move to kill Faceless God ... Logically speaking, he should be one of the five super powerful beings, but Yan Zhongyuan didn't say anything about it. They had never even heard of him before, especially when he was the same as Lin Yi, a mid-stage full cultivation giant!

Everyone fell into a state of confusion, feeling as if their understanding had been subverted. So the strongest people these days were all big shots at the middle stage of the consummate level?

But very quickly, everyone knew that they were wrong.

In the blink of an eye, a new head grew out of The Faceless God's head. It had been a normal human face before, but now, it did not even have the basic facial features. At first glance, it looked like a piece of dough, and it was creepy when it was placed on the neck.

"You're quite capable to be able to peel off a layer of my human skin. "

The Faceless God's voice became even weirder, and it gave people goosebumps. "It's a pity that I have a Thousand Faces. I wonder how many cards you can get?"

After he finished speaking, he made his move. This time, Yan Zhongyuan was obviously at a disadvantage.

In the end, the two gods were on par with the divine heaven master. How could they be taken out so easily? even Lin Yi couldn't do it!

At the same time, on the other side, Hou Zhen Tian was killing like crazy. There was no one left on Lin Yi's side who could last even one exchange. Once he entered their formation, it would be a one-sided slaughter.

Just as Lin Yi was about to make his move, a brash child suddenly appeared from the back of the crowd, shouting as he slammed his head into Zhen Tian's chest, sending him flying and turning him into a human-shaped painting.

The child's body was completely different from an ordinary person's. His entire body was densely covered with dragon scales that exuded a ferocious aura. He was the reincarnation of Ren Tian Yuan, Ren Tian'er.

"What are you doing here?" Lin Yi blinked.

The two kids were his future aces, but they weren't strong enough yet—they weren't fully grown yet, after all, and they weren't back to their peak yet. He was worried that they'd die halfway if he let them out now.

Ren Tian'er turned around and laughed. "I'm tired of beating people up. I came out for a change of taste. How can I miss out on such a fun thing?"

After he finished speaking, he chased after hou zhentian and gave him another round of fierce hammering.

Hou zhentian had the bloodline of the primeval ancient ape and his strength was unrivaled. On the other hand, Ren Tian 'er's body was covered in dragon scales, which made him immune to most physical damage. The two of them were really equal.

As The Faceless God and hou zhentian were both pinned down, the situation quickly fell into a stalemate.

Although the average strength of the Overlord Pavilion was slightly weaker than the other side, as the attacker, especially since they had been able to push all the way here, their morale was quite high. In addition, there was a group of fresh troops from the newborn Alliance, which was enough to fight on equal terms with the other side.

Lin Yi looked at the countdown. There was less than half an hour left until the fallen Dragon regained its strength. Time was running out.

After all, there was still the most troublesome person, the divine heavenly master, who had yet to reveal himself. Furthermore, there was a man-made secret cave in front of them. Even if no one stopped them, they would still have to spend a lot of effort to search for it.

Lin Yi immediately sent out a group of low quality clones to explore the way. Even with the luck suppression effect on his head, with his high level of attainment in the field of clones, especially if he only created normal clones instead of domain ones, the consumption was very low.

Lin Yi himself didn't stay idle as his clones scouted the path, either. He helped his side clear out a wave of minions, at least establishing a greater advantage this way.

As long as he had an advantage, he could greatly reduce the number of casualties. The Overlord Pavilion was one thing-their strength was limited, and they weren't very loyal, but the newborn Alliance was Lin Yi's favorite. It would be a heartache if he lost one of them.

At the same time, Lin Yi was also paying attention to Yan Zhongyuan and Ren tianer's condition.

With their current strength, it would be too much for them to face Faceless God and hou zhentian. The most suitable opponent for them should be the little five dragons, but since things had come to this, they could only take the lead.

Fortunately, Yan Zhongyuan was a natural-born master of fighting against the wind. The more unfavorable the situation was, the more it could stimulate his unmoving will. In the past, he would always be quiet when the situation was favorable, but when the situation was unfavorable, he would stand up and turn the tide!

It was the same now. After the shocking opening, Yan Zhongyuan was quickly suppressed, but he was still as steady as Mount Tai.

Even someone as powerful as The Faceless God would not be able to break through his defenses easily. The moment there was a slight flaw, he would even be hit by a vicious counterattack. It was only because he had thousands of faces and almost a thousand lives in name that he was able to forcibly resist. If it had been any other ordinary expert, they would have been killed long ago.

Even so, The Faceless God, who still had the upper hand on the surface, was still in shock. He had a faint feeling that this wooden-faced fellow in front of him had not revealed his true trump card. This fellow was still looking for his weakness.

Once he revealed a truly fatal flaw, it might not be as simple as a counterattack.

Chapter 9698

As for Ren Tian 'er, he was so tough that even Lin Yi couldn't do anything about it. He could only turn the tables with his burning heavens. Now that he was facing Hou Zhentian, who was a pure physical damage dealer, he came in handy.

"I'll stand here and let you hit me. I'll lose if you even frown."

Ren Tian 'er's arrogance was clearly written on his face. Not to mention the fallen Dragon's subordinates, even the people on his side couldn't help but feel their hands itch when they saw his face.

Unfortunately, not just anyone had the right to beat him up.

Not only was this fellow's skin coarse and his flesh thick, but after receiving guidance from this damned true dragon, his dragon scales even had the effect of reflecting damage. To put it simply, the harder you beat him up, the happier he would be, and the faster you would die!

Hou Zhentian, who was invincible in close combat, had never encountered such a pain in the ass. Although he had stimulated the primal ape's ferocious nature, and his attack power became stronger

the more he fought, even the lowest-level minions at the edge could see that his situation was starting to look bad.

Ren Tian 'er's existence was simply a natural counter to him.

Unless the difference in strength was so great that he could blow them up with a single punch, it was simply a slow suicide. They would slowly fall into the abyss of despair in the midst of a crazy attack, and there was no hope of turning the tables.

In the end, hou zhentian even had the unprecedented urge to run away. Unfortunately, his relationship with The Faceless God was cold. Otherwise, even if they were to exchange opponents, it would still be better than a hopeless slow suicide.

Lin Yi felt a lot more at ease after seeing this, and his clone just so happened to send him some feedback-he'd found the end of the Dragon Lair.

At this time, there were only ten minutes left on the fallen Dragon's healing countdown.

Lin Yi didn't say anything and immediately rushed at full speed. With his speed, once he confirmed the location, it would only take a few breaths to cross the entire Dragon Nest. However, reality wasn't that simple.

"Lin Wuju is here so quickly. It seems like my plan didn't work."

The divine heaven master sat on the fallen Dragon's seat, resting his head on one hand as he looked at Lin Yi.

The position of the fallen Dragon was reserved for the patriarch. It represented supreme authority in the Dragon Nest. No one else dared to touch it. Only divine heaven master was an exception. The fallen Dragon had even publicly stated that if anything happened to him, then divine heaven master would be the next patriarch of the Dragon Nest.

Lin Yi shook his head faintly, "you don't have to be so humble. It's quite useful. If my men were a little more careful, they wouldn't be here now."

This was the truth. Even if Lin Yi could make it here in the same time, he would have used up a lot of energy. At this point, he might not even be able to deal with a Divine Master, let alone a Fallen Dragon.

After all, even if it was an injured Fallen Dragon, it was still a true giant five. Even if Lin Yi went at full strength, he might not be able to win for sure. If he really went up, he'd just be giving his life away.

"Oh, really? So this is all my meticulous planning can do in Lin Wuju's eyes. "

"I don't like to get carried away by my emotions. However, Lin Wuju's words have really pissed me off." Divine heaven master stood up slowly.

With that, Lin Yi felt his body sink.

It wasn't from any physical pressure, but his luck was being suppressed-it was almost like he was cursed. Lin Yi even had the feeling that he'd probably get a bloody nose and a swollen face if he just walked a few steps normally.

"I'm very curious. Can you really suppress a person's fate?"

Lin Yi couldn't help but test the waters. It wasn't the first time he heard of luck, but it was the first time he'd encountered an opponent who could actually control it.

Lin Yi didn't really believe in these mysterious things, but the divine celestial master in front of him forced him to believe it.

"There's no need to ask this question." Divine heavens master laughed."With Lin Wuju's extraordinary comprehension, wouldn't you understand everything after a fight with me?"

"You're right, but it's a pity that I won't have the chance. "

Lin Yi sighed in regret and moved his body slightly to make way for a small figure behind him. It was a child with a wooden face.

The divine heaven master was stunned, and he asked,""You can't be thinking of using a child to deal with me, right?"

He'd heard of Lin Yi adopting two weird kids, of course, but he and the other factions wouldn't be able to figure out where they came from, not even if they were beaten to death.

Who would have thought that he was the reincarnation of the only King?

"Yeah, that's what I'm thinking," Lin Yi nodded.

As soon as he finished speaking, the wooden-faced broken soul charged towards divine heavens master without a word. Seeing this, divine heavens master laughed in anger, "I admit that I'm no match for you in a one-on-one, Lin Wuju. However, aren't you being a little too arrogant to look down on me like this?"

"Is this considered arrogant?"

Lin Yi touched his nose with a weird expression, but he didn't want to waste his breath on the guy. He ignored the Divine Master's obstruction and ran towards the wall behind the seat.

The divine heaven master frowned. Of course, he knew that the secret passage couldn't escape Lin Yi's detection, but Lin Yi's attitude still shocked him.

In other words, Lin Yi completely ignored the man's existence and didn't think that the man could hurt him.

"Preposterous!"

The divine celestial master's defense was broken. Lin Yi didn't say a single word of trash talk, but his actions were more infuriating than the most vicious of trash talk. Even if you were one of the five Giants, even if you were high and mighty, you didn't have the right to look down on people like that, did you?

However, just as the divine heaven master was about to make a move, Duan she, who was still 10 meters away, suddenly appeared in front of him. She slapped him in the face, and the space around her rippled!

"Space domain!"

The divine heaven master was shocked, and he could not Dodge in time. He could only take it head-on.

If it had been the Supreme King at his peak, he would have been killed in one blow, because no one under the five Giants could resist the spatial exile of the Supreme King.

Although Duan she had not recovered to her peak state, the spatial power that came with the palm was not fake. After taking a solid hit, Divine Master was indeed not banished into the void on the spot, but more than 30% of his solid luck had been smacked away!

He had used 30% of his luck in exchange for his life!

"I'm sorry, my husband seems to be in his puberty period and his temper isn't very good. Please take good care of him. "

Lin Yi waved his hand and walked away, leaving the divine celestial master covered in cold sweat.

Apart from the sea King Xiang Yusheng, the repeating students had a unique space domain. Coupled with the same wooden facial features as King du, it was impossible for the divine heaven master to not react in time.

Chapter 9699 Power

"King du ... Reincarnated!"

The thought of this possibility sent shivers down divine heaven master's spine. With his strength and means, even if he was not invincible under the five Giants, he was not afraid of anyone, especially in the Dragon's Nest.

However, the person standing in front of him was the reincarnation of King du.

Duan she's face was still as stiff as ever, and she did not respond at all. In a flash, she reappeared behind divine heaven master and cast spatial exile again.

There was no need for any other fancy moves. Just this simple and fresh move was enough to make all the experts below the five Giants tremble with fear and almost unsolvable!

Even though the divine heaven master was still able to fight back against the current severing ties, his mysterious luck was not inferior to the spatial ability.

However, Duan she's innate superior aura made him instinctively despair, just like when Lin Yi and the others fought King du together. There was only despair.

in the secret room of the dragon lair.

after passing through the narrow tunnel, lin yi finally reached the secret room in the last minute of the countdown. sitting in front of him was the fallen dragon, who was exhausted!

"you've finally come. "

a cruel smile suddenly appeared on the fallen dragon's face, "i've been waiting for you for a long time,"

lin yi was stunned for a moment before attacking immediately. he could tell that the other party was just putting on an act to buy time. if he hesitated, he would fall into the other party's trap.

there was only one minute left on the countdown, and even if the man wasn't fully recovered yet, he should be pretty much fully recovered by now. this was still the best chance for lin yi!

as long as the other party had not recovered to their peak state, he would have an advantage. and as long as they fought, this advantage that might seem insignificant would become the starting point of a snowball.

the battle between experts was only on the line.

fallen dragon's face changed-he didn't think lin yi would be so decisive, not even saying a single word. even with his mental fortitude, he couldn't help but panic.

the extreme of the five elements, great burning heavens!

the all-destructive black flames whizzed past, swallowing the fallen dragon in an instant. at the same time, lin yi transformed into the titan buddha and followed up with a full-powered attack.

based on their last exchange, lin yi knew that great burning heavens alone wasn't enough to deal a fatal blow. this was only the first move, the follow-up attacks were the main course.

however, because of the suppression of luck, there was a trace of awkwardness in the middle of the moves that should have been foolproof. this trace of awkwardness was enough to turn into a fatal flaw in a master's move.

fortunately, the fallen dragon had yet to recover, so it should not be able to grasp such a tiny loophole.

however, just as the connection was not smooth, there was a ghostly howl from the black flames, and an inhuman face emerged from the black flames, clawing at lin yi's chest.

pfft!

Lin Yi's heart was gouged out by the ghost claw, and it was crushed right in front of him.

Fortunately, he didn't die on the spot. With his strong body that had broken through the shackles of growth three times and the insane self-healing ability of the five elements reversal, he still had a chance to survive. But one had to admit that this was the closest he had come to death!

"So it was all an act ..."

Lin Yi only just realized what was going on-the fallen Dragon was injured, the countdown ... It was all a trap, a trap that had been set up for this one exchange!

The fallen Dragon sneered, no longer as dispirited as before, ""You're not too slow to wake up, but don't misunderstand one thing. I'm really injured, just not as badly as you think. As for my countdown, hehe."

Without a doubt, this was definitely the work of the divine heaven master.

"Then I'm really flattered."

Lin Yi's face was as pale as a sheet of gold paper. He relied on reverse to quickly heal himself while forcefully gathering his Qi to guard against the enemy's final attack.

Using the entire Dragon's Lair as a bargaining chip in exchange for this unexpected encounter, the fallen Dragon's courage was indeed amazing. After all, he had repeatedly said that his subordinates were family.

Of course, this also proved Lin Yi's strength.

After all, not everyone could make the fallen Dragon look at them in the eye, let alone mobilize so many people at all costs.

In the entire repeat Academy, other than tyrant, even the other two of the five Giants might not be qualified to do so. At least, they might not be a big threat to the fallen Dragon.

"No need. Since it's prepared for you, enjoy it."

At this moment, the fallen Dragon's entire appearance had transformed into an Asura, his entire body emitting a dense ghostly aura. His feet didn't seem to move, but his entire body moved in a way that was beyond common sense.

Not only was his speed extremely fast, but he was also erratic like a ghost, making it impossible to judge his route.

"Ghostly steps ..."

Lin Yi narrowed his eyes. Even the Hundred Schools of Thought had a hard time getting their hands on the fallen Dragon's personal information, and they wouldn't give it to him easily. The secret Pavilion, on the other hand, didn't have this problem.

Lin Yi didn't talk to Tianji directly after the meeting, but he did talk to elder Yan Chen twice. Naturally, they talked about the fallen Dragon a lot. The information wasn't comprehensive, but it was still valuable.

For example, the limitless domain and ghost steps.

Ghost steps was definitely the strangest movement technique Lin Yi had ever seen-even his impermanence steps couldn't compare to it.

Although impermanence steps was also erratic, it was still a human footwork. However, his opponent's ghostly steps had completely broken away from the category of humans.

To a certain extent, this technique was similar to the spatial domain. It had already touched the edge of a certain law. However, the latter touched on the space-time that represented the existence of the world, while the fallen Dragon's ghostly steps touched on death and the soul.

Lin Yi couldn't help but understand more at the thought. The few big shots he'd come into contact with so far had more or less started to touch on the laws that represented the lowest level of logic in this world. Was this the key to becoming a Big Shot?

Thinking about it carefully, wasn't the elemental domain at the level of a giant's perfection also a small-scale rehearsal of various nomological laws?

at that moment, lin yi entered a state of enlightenment.

enlightenment was a good thing, and it wasn't lin yi's first time. every enlightenment meant a huge improvement, maybe it was the realm on the surface, or maybe it was a deeper level of foundation. basically, as long as a practitioner had one enlightenment, they would have a great future.

Chapter 9700 The End

Countless practitioners would never be able to enter this dream state in their entire lives, but if they knew about Lin Yi's current situation, they wouldn't be envious-they might even gloat.

After all, the occasion was too inappropriate.

The fallen Dragon was also obviously stunned, and then he revealed a sinister smile."Amazing. As expected of the genius who gave me nightmares even when I was sleeping. You're seriously injured in front of me, and you still dare to play with sudden enlightenment?"

"You're really an envious genius. It's a pity that a heaven-bestowed genius was born at the wrong time. It's really an inexplicable Pleasure to Kill a peerless figure like you with my own hands!"

Fallen Dragon laughed as he moved. He activated his ghost steps and moved behind Lin Yi like a ghost. His claw reached into Lin Yi's chest and grabbed his heart that hadn't fully recovered yet.

Pfft!

The heart was crushed mercilessly again, and blood sprayed all over the ground. This time, the fallen Dragon obviously didn't want to give Lin Yi any chance to survive. A pair of Shura claws tore the body apart, leaving no blood behind.

"The taste is not bad."

The fallen Dragon licked the blood at the corner of his mouth in enjoyment, his expression intoxicated.

However, he quickly realized that something was wrong. The sense of danger that lingered in his heart was still there. Although the scene in front of him was 100% that Lin Yi's body had been dismembered, for a Fallen Dragon like him, intuition was more reliable than eyes most of the time!

"An illusion?"

Fallen Dragon was taken aback. He didn't have any information that Lin Yi was an illusionist, but if everyone who had seen him was dead, everything made sense.

In fact, if he had used the soul-searching technique on ye Zhiwei before, he would definitely not have ignored this crucial information. After all, ye Zhiwei and Zhang Qiu were the only two people who had seen that Tian Jing was still alive.

"Limitless domain, open!"

The fallen Dragon was shocked and did not hesitate to open fire. As soon as the Selvan domain was released, the surrounding scene suddenly became a Selvan hell. The murmurs and sighs of the dead came from all directions. Anyone with a weak will would be confused and assimilated by them, no matter how high their realm and strength were, and then sink into the countless dead.

The endless ghostly Qi of the limitless domain naturally had a strong resistance to all illusions. To be precise, it was the best carrier for illusions. In turn, it had a pervasive influence on illusions and could cause great interference.

But surprisingly, the fallen Dragon could sense the illusion, but still couldn't find Lin Yi's real body.

"This ... Impossible ... Could the Enlightenment be fake?"

Fallen Dragon couldn't help but be stunned. There was only one explanation for this scene-Lin Yi's illusion had already merged with the endless ghostly Qi of his limitless domain!

Although this was not completely impossible, it would at least require extremely sophisticated control techniques. This was definitely not something that could be done by someone who was unconscious of the outside world.

The fallen Dragon suddenly wanted to give himself a slap.

He wanted to use the endless ghostly Qi to break Lin Yi's illusion, but now that the illusion and ghostly Qi were one, his ghostly Qi became the perfect cover for Lin Yi!

Of course, he could take back the endless ghostly Qi, but he would have to temporarily withdraw the limitless domain. In other words, he would definitely reveal his flaws in the process.

If Lin Yi was really what he guessed, pretending to be enlightened and really hiding, then he must be hiding somewhere, waiting for the right moment to strike. Once he showed a flaw, he would be killed by Lin Yi.

At that time, he wouldn't end up any better than Lin Yi-the advantage he'd gained from using the entire Dragon's Nest as bait would be wiped out.

The fallen Dragon couldn't bear the consequences!

However, in this case, he was really in a difficult position. Helplessly, he could only use the least technical method, which was an all-area attack!

With a thought, a Sen Luo temple quietly emerged from the domain. When the door opened, countless wandering souls rushed out and swept in all directions. Wherever they passed, all life was destroyed, and everywhere was filled with death.

In comparison, the so-called domain of life that the president of the martial arts Society, Shen Junyan, had mentioned back then was simply child's play. It was only for show. This was the true death and decay!

It was neither a physical attack, nor a domain attack, nor a spiritual sense attack. It was completely different from the combat mode that most cultivators knew. It directly wiped out the vitality from the root and could not be defended against.

But then again, such a large area of effect was also a huge burden on the fallen Dragon. If it could hurt Lin Yi, it would be a good deal, but if it couldn't, it would be a huge loss.

Fortunately, this was an underground secret room, and there wasn't much space for Lin Yi to move around. Once Lin Yi started to avoid the souls, he'd definitely reveal his flaws, and then the problem would be solved!

The fallen Dragon knew that he was still in an absolutely dominant position. As long as he took each step carefully and didn't make any big mistakes, he would win.

However, fifteen minutes passed, and there was still no movement in the surroundings.

This time, the fallen Dragon really began to lose his calm. Although he couldn't directly perceive every detail of the dead soul, he still had a rough idea of the overall effect of the death wither.

From the feedback, there was no living person in the area!

"Impossible!"

fallen dragon didn't believe that lin yi could completely ignore his death and decay. let alone lin yi, even tyrant and the other five giants, and even the sea king xiang yusheng couldn't do it. at least, they couldn't deal with it so flawlessly.

however, the reality was right in front of him, and he had no choice but to believe it.

the fallen dragon's first reaction was that lin yi had escaped, but this secret room was carefully prepared by him. the moment lin yi entered, he was sealed off by layers of formations, completely isolated from the outside world.

all the formation eyes were on him, and if lin yi wanted to get out, he had to kill him first!

what the fallen dragon didn't know was that lin yi was a grandmaster himself, and he'd done a lot of crazy things like breaking restrictions with one kick. these formations were high level, but if lin yi really put in the effort to break them, they wouldn't be able to withstand a single kick.

but lin yi didn't run.

as the situation developed to this point, both sides had bet everything they had. if they retreated at this time, he would be safe, but the newborn alliance and hong baxian's group would be finished. by then, not even one in ten would be able to escape from the dragon's nest.

not to mention, lin yi was still in the middle of enlightenment!

lin yi wasn't using the enlightenment as a bait to deal the fatal blow, as the fallen dragon had guessed. he had truly entered a state of enlightenment that was hard to come by.

of course, lin yi did activate the sky mirror illusion in advance. according to common sense, after entering the unconscious state, the illusion would lose its ability to react, and once it was affected by the endless ghost qi, it would reveal its true form.

unfortunately, the heavenly mirror was not an ordinary illusionary technique, so it could not be compared.
