

## Bodyguard 9741

### Chapter 9741 The End

"Don't think that it's too much. You know that the Wang family is where we are today because of our unique talisman-making secret technique. This is truly priceless. If we were to put it on the market, one billion spiritual Jade is already a very generous price. Moreover, this includes other large expenses. Our Wang family has already done our best and is very kind."

Wang Tianwen's words were sincere, and even the higher-ups of the Wang clan agreed.

After the battle just now, they had given up on the idea of directly falling out and forcefully snatching the talisman making society, but they still had the courage to make a big profit in the name of compensation, and it was a big one.

One billion spiritual jades sounded like an astronomical figure, but there was not much that could really be distributed to them. Any less and some people would not be able to eat their fill.

At this time, Wang Tianfeng stood up. "Technology is priceless. I don't think one billion spiritual jades is a lot, but we've learned a lot of talisman-making technology from the talisman making society, especially the talisman production line. In terms of value, it's not below our Wang family's Secret technique, and its commercial value is even higher. If we really want to figure it out, we might have to give the talisman making society a sum."

The faces of the Wang family higher-ups darkened.

Although their positions had long been destined to stand on Wang Tianwen's side, Wang Tianfeng's attitude just now was still to their liking. On the surface, they were still willing to compliment him, but this F \* cker directly betrayed them. Knowing that he had no chance of winning, he simply let himself go. What was this?

"Hmph!" Wang Tianwen snorted coldly. "This is an important place in the ancestral hall. You have to be careful with your words and your stance."

Wang Tianfeng smiled indifferently. "'I'm a member of the Wang family, and my ass is on the Wang family's side, but I only speak the words of Justice. "

"What a fair statement!"

Wang Tianwen made a prompt decision. "Since we can't reach a consensus, let's vote. Should we ask the talisman society for a compensation of one billion spiritual Jade? representatives of each branch, let's vote now!"

Although a series of unexpected twists and turns had happened, the time was right, and the result of the vote was already in his hands.

Once the voting results were out, it would be the will of the entire Wang family. Unless Lin Yi was brave enough to challenge the entire Wang family, he would have to spit out the billion spiritual Jade!

Lin Yi raised an eyebrow-he didn't want to completely fall out with talismans and formations players unless it was absolutely necessary, after all. But since the other party was so insistent, there was nothing he could do.

After all, good words can't persuade a damned ghost.

All the higher-ups of the Wang family suddenly stood up and saluted in front of the ancestral tablets. This was the established process before each vote to show that the choice they made was worthy of their ancestors, that everything was for the prosperity of the family, and that they had no selfish motives.

Of course, no one would believe this kind of nonsense except for themselves. In fact, they would not believe it themselves. It was just a process.

Following that was the voting!

Wang Tianwen sneered as he threw his choice into the voting box first, followed by Wang Tianfeng.

Although this was an anonymous vote, their choices were obvious. They would each take one side. The key was the high-level representatives of the various branches.

A group of people lined up and stepped forward, nodding to Wang Tianwen in acknowledgment. Their gazes already explained everything, and Wang Tianwen became more confident.

"If the vote results are 35 to 1, I'm afraid someone's face will look bad. It's not too late to regret it now. Since no one has voted yet, I can make an exception and do it again. What do you think, Tianfeng?"

Wang Tianwen looked at Wang Tianfeng with a magnanimous expression. Although he had not taken the position, he had already assumed the attitude of the family head. "For a super family like our formation talisman Wang family, the most important thing is internal unity. It wouldn't be good if we were to be laughed at by outsiders because of some unnecessary face."

What he meant was that other than Wang Tianfeng, all the other 34 representatives present who had the right to vote would all stand on his side without exception!

If it really developed to that point, Wang Tianfeng's prestige would definitely fall to the bottom.

Not to mention competing with him for the family head, he was afraid that he would not even be able to maintain his previous status in the family and would be reduced to a marginal figure in the blink of an eye.

Everyone turned to look at him. From this point of view, Wang Tianwen was really doing this for his own good. However, in that way, it would be equivalent to Wang Tianfeng choosing to bow his head and admit defeat, voluntarily withdrawing from the fight for the position of family head in exchange for the last bit of dignity.

Wang Tianfeng smiled indifferently. "There's no need. I believe that there are still many discerning people in the family. They know what to choose."

"That's true. "

Wang Tianwen sneered. "Since you don't want your dignity, then forget it. That's all I have to say. Let's continue to vote."

At this moment, a text message notification suddenly rang out.

The representatives of the Wang family's branches who were queuing up took out their phones one after another. Then, their expressions changed abruptly, and their faces were filled with shock.

Wang Tianwen was the only one who did not receive the message. He was confused and immediately urged, "Everyone, stop dawdling and quickly vote. There are still many things to do next."

The representatives of each house hesitated for a moment, but in the end, they still went forward to vote. However, many people silently changed the White stones in their hands to black stones.

According to the Wang family's rules, a white stone represented approval, while a black stone represented opposition.

After everyone had finished voting, Wang Tianwen still had not realized the severity of the problem. He still walked forward with a confident look and said, "Now, open the box and check the voting results."

According to his imagination, there should be 35 white pieces and only one lone black piece in the voting box. This way, Wang Tianwen would be nailed to the pillar of shame on the spot!

In the end, there were thirty-five black stones and one white stone.

There was a strange silence.

Wang Tianwen's first reaction was that his eyes were playing tricks on him. He rubbed his eyes several times and realized that there was still no change. He forced an awkward smile and said, "Could it be that everyone has misunderstood the meaning? What I said was that the White stones represent that they agree to Annex the talisman making society, and the black stones represent that they oppose the annexation of the talisman making society. Are you all mistaken?"

The representatives of each branch all turned their heads, not daring to meet his gaze.

Seeing such a reaction, Wang Tianwen finally accepted the reality. He looked at Wang Tianfeng with a cold face and said, "What kind of unspeakable scheme did you use?"

Wang Tianfeng smiled. "It's not that exaggerated. It's just a kind reminder to all my uncles and brothers. If you want to know, I can also forward it to you."

After he finished speaking, Wang Tianwen's phone rang. When he opened it, his face instantly turned as black as the bottom of a pot.

The message was very simple, just one sentence.

"If we Annex the talisman making society, the repeat students Chamber of Commerce Alliance will terminate all cooperation with the Wang family and choose the Chen family as a replacement partner."

The Chen clan was the second-ranked talisman-making clan in Jianghai city. Although they had their own specialty in talismans, they were still far from being on the same level as the Wang clan. Although they were competitors, they were not on the same level.

Chapter 9742

All this time, the Wang family had never put the Chen family in their eyes. At most, they would only use it to mock them when they were joking. They didn't pay any more attention to them.

However, with the constant changes in the Wang clan, the Chen clan was still unable to shake the Wang clan's position as the Overlord in the field of talismans, but it was an undeniable fact that the gap between the two was rapidly shrinking.

With the huge size of the repeating students 'Chamber of Commerce Alliance, once they gave up on the Wang family and cooperated with the Chen family, it would be enough to completely close the gap and even be overtaken by the Chen family!

No one in the Wang family would be able to accept such a result. It would shatter their sense of superiority!

Moreover, this wasn't just a matter of honor. The reason why these representatives were willing to follow in Wang Tianwen's footsteps was because they had eaten enough benefits. And the biggest benefit they had recently obtained was the cooperation with the repeating students 'Chamber of Commerce Alliance.

Wang Tianwen had always claimed that he was the one who had personally facilitated the cooperation, allowing everyone to eat meat. It was also because of this that all the branches were sincerely convinced by him.

However, it seemed that this was not the case at all!

Tianwen turned off his phone with a trembling hand, his eyes landing on Lin Yi's calm face. He understood everything immediately and gritted his teeth, "A traitor! In order to go against me, you're willing to sacrifice your family's interests to your competitors. How dare you?"

Wang Tianfeng shrugged, "strictly speaking, Lin Yi isn't a part of our family yet. He's just a bodyguard after all. As for what decision the repeating students Chamber of Commerce makes, we can't interfere. In the end, we're just partners on equal footing."

"Moreover, in the current situation, we have more to ask from them than they have to ask from us. As a businessman, it's normal for them to be a little hesitant."

"This is normal?"

Wang Tianwen's vision turned black and he almost fainted. This was taking drastic measures!

No one knew better than him the morality of this group of representatives. In the face of real benefits, everything was in vain.

He could win them over with benefits back then, and now Wang Tianfeng was doing the exact opposite, and could also pull this group of people away from him!

"If that's the case, then let's end it here today."

Wang Tianwen sat down helplessly. He knew that it was useless to say anything now that things had come to this. The best strategy was to stop here and quickly stop the losses before the situation worsened!

Although Wang Tianfeng had unexpectedly turned the tables this time, just this one loss was not enough to change the general trend of the election.

Although the representatives were on Wang Tianfeng's side today, it didn't mean that they would follow him. The repeat students Chamber of Commerce Alliance had Lin Yi's support, and they would naturally go after him if there were real benefits.

He didn't lose to Wang Tianfeng today, it was more like he lost to Lin Yi!

Lin Yi wouldn't be able to interfere as an outsider if it were another topic, and Wang Tianfeng wouldn't be able to fight with Lin Yi alone.

However, Wang Tianfeng smiled and stood up. "Everyone, please wait."

Wang Tianwen instantly had an extremely bad premonition, and he said with a tough attitude, ""It's an important issue, so the voting meeting can only vote on the issue once. This is the rule set by our ancestors. Are you going to break even this?"

"No, it's not."

"It just so happens that everyone is here," Wang Tianfeng said indifferently. "I'm representing the family discipline Hall to make a report, so that we don't have to mobilize a large force and make everyone make an extra trip."

The clan discipline Hall was an organization set up by the Wang clan to supervise the younger generation of the clan. Its nature was similar to the Jianghai Academy's Disciplinary Committee.

As a descendant of the previous family head, although Wang Tianfeng couldn't control a lot of wealth like Wang Tianwen, he still had some capital in his hands, and the family training hall was one of them. Otherwise, he wouldn't have been listed as a popular candidate for the family head.

Wang Tianwen saw that the situation wasn't good and immediately signaled for his trusted subordinates to take everyone away. However, it was still too late.

"The family discipline Hall has recently found out that Wang shaochuan is suspected of embezzling a huge amount of the family's assets, including three perfect territory raw stones, dozens of rare and precious items on the market, and a large number of high-quality profound-grade talismans, which are worth billions of spiritual jades!"

"The circumstances are extremely serious and the impact is extremely bad. The family discipline Hall has detained him in accordance with the ancestral teachings. After all the evidence has been verified, there will be a public trial in the family. I hope you will know."

Everyone was in an uproar.

Wang Tianwen collapsed onto the ground. After suppressing his emotions for a moment, he spat out a mouthful of blood!

Not only was everyone shocked, even Lin Yi, who knew the situation, couldn't help but secretly praise Wang Tianfeng's methods.

This voting conference was supposed to be Wang Tianfeng's Ascension Conference, and as long as it ended smoothly, he would be able to completely secure his position as the next family head. In the end, not only was the situation reversed by Wang Tianfeng, but the key point was that he was also attacked in secret, firmly hitting the vital point!

Wang shaochuan was Wang Tianwen's Achilles 'heel. If something happened to him, it would be a devastating blow to Wang Tianwen!

Originally, with his wealth and power, his advantage was so great that he didn't know how to lose. If these two things were exposed separately, although it would inevitably cause a huge negative impact, it would not really affect the root. In the end, the position of the family head would most likely fall into his pocket.

However, now that they were detonated at the same time, the power was far more than just one plus one equals two. The shock it caused was enough to completely reverse the situation!

In terms of experience, Wang Tianwen was in the top five of all the strong people Lin Yi had seen!

Everyone kicks a man when he's down.

Wang Tianfeng suddenly became the target of flattery from the representatives of each branch. In contrast, Wang Tianwen, who was sitting on the ground and coughing up blood, instantly became uninterested.

It was foreseeable that once the dust settled in the next election, this group of people would definitely not let it go. They would definitely start a process to pursue the responsibility and settle the score later.

Even his son, Wang shaochuan, had taken billions of spiritual jades, so one could only imagine how much he could take!

Right now, the representatives of the various branches were like jackals and wolves that had smelled the scent of rotten meat. Each and every one of them was waiting for Wang Tianwen to completely lose power before swarming forward to cleanly divide up every piece of meat on his body.

"Wang Tianwen is gone."

Lin Yi understood Tianfeng's strategy. He looked at the man with the warm smile and shivered.

The election required substantial benefits, and Wang Tianfeng was indeed at an absolute disadvantage in this area. No matter what, he could not be Wang Tianwen's opponent. At first glance, it seemed like a dead end.

However, once he changed his mind, he could ask Wang Tianwen to take it out even if he couldn't.

As long as they formed the expectation that he would thoroughly settle the accounts with Wang Tianwen once he became the clan head, the representatives of the various branches who had always been greedy naturally understood.

Instead of letting Wang Tianwen take the initiative to let some oil flow out from the cracks of his fingers, it was better to simply swarm up and eat it. That would truly be in line with everyone's interests!

Chapter 9743

In the end, this unique voting meeting ended with Wang Tianwen being carried away, and the well-informed gambling dens silently withdrew their bets on the next clan head of the Wang clan.

The result was obvious.

Accompanied by the proud Wang Tianfeng, Lin Yi met the Grand Elder for the first time. This was the most senior elder in the Wang family, but he was a white-haired young man.

It was the Supreme elder, Wang sanjue.

According to Tang Yun, this Grand Elder was a legendary figure in his early years. He once went against the family and only returned to the family after hundreds of years, becoming the most important pillar of the Wang family.

"Little friend Lin's reputation is well-known, and Yun 'er often talks about you. I've been longing for you for a long time, and today I've finally gotten my wish."

Wang sanjue smiled as he invited Lin Yi to take a seat.

"Grand Elder is too kind. It's just a small name, not worth mentioning."

Lin Yi was a little surprised-he'd thought that the Wang family would at least try to get a hold of themselves as a Grand Elder, but this was the attitude they had.

However, after thinking about it carefully, it was normal. The higher the level of a person, the better their vision. With his current strength and status, as long as he wasn't stupid, the main tone would always be to curry favor with him.

Moreover, he had already vaguely sensed that the other party was not simple!

Lin Yi had expected that the Grand Elder wouldn't be the strongest in the Wang family, given the structure of the formation house. Even if he was, he'd only be at the peak of the late stage of the consummate level. It'd be hard to be stronger than that.

After all, the Wang clan was famous for their formations and talismans, not for their strength.

However, his intuition told him that the Grand Elder in front of him was most likely an expert at the peak of the realm of extremity. Including Yan Jiang, who was the guard commander they had hired, the talisman Wang clan had two experts at the peak of the realm of extremity!

Even though this lineup could not be compared to Jianghai city 's, if they were to enter as an independent force, they would definitely be able to gain a foothold in the repeating school, which was filled with hidden talents!

It could only be said that the Wang family's reputation was not undeserved, and it was not as simple as it seemed on the surface.

Wang sanjue laughed. "Little friend Lin, you don't have to be so humble. I hope you don't take it to heart. After all, there are all kinds of birds in a big forest. There are too many disciples in the Wang family. When there are more people, there will be more thoughts. Even I, the Grand Elder, am often troubled."

"Every family has its own problems, I can understand."

Lin Yi didn't comment.

Wang Tianwen's group of people were indeed seeking death by targeting the talisman making society. However, with his current level, he really could not stir up much emotion. Moreover, Wang Tianwen's miserable end was already foreseeable. He did not need to make an unnecessary move to embarrass the Wang family.

"Little friend Lin is a magnanimous person, but my Wang family can not be a rude clan. This is a small gift as compensation. I hope little friend Lin will not reject it."

Wang sanjue waved his sleeve, and three brocade boxes appeared in front of him. Each box contained a perfect territory raw stone.

Unsurprisingly, this should be the one he had just seized from Wang shaochuan.

Lin Yi's eyes twitched when he saw the attributes of the three perfect territory stones.

Ice element! Mist element! Lightning element!

At his current level, he didn't need to rely on the perfect territory origin stone that much. After all, he had already cultivated the perfect five-element territory. The most suitable way to improve his strength was to find a great opportunity like the Assassin's baptism.

The most ready-made path was to improve his realm step by step and gradually master the rule power in the process.

However, Banshi Luo had once mentioned the idea of an ultimate five-element domain.

On top of the foundation of the perfect five-element domain, the perfect domain with five different spiritual roots could theoretically be several times more powerful than the perfect five-element domain!

Of course, this was only a theoretical conjecture, because no one in history had ever completed such an abnormal precedent, so no one knew what the so-called ultimate five elements domain would look like. Even whether it could be successfully integrated was a huge unknown.

After all, not everyone could gather a perfect origin stone with all attributes, and not everyone could gather all five elements and ten attributes like Lin Yi!

It was just a thought, and Lin Yi didn't want to try it out.

But now that there were three perfect domain stones in front of him, and they were the ones he was missing, Lin Yi suddenly had a strong urge.

With such conditions, if he still didn't try, he might regret it for the rest of his life.

"Then I'll accept it."

Lin Yi didn't hesitate at all as he put away the three perfect-grade territory stones. "However, there's no need to accept a reward without doing anything. If there's anything that Grand Elder needs this one for, this one will definitely do his best."

Wang sanjue and Wang Tianwen looked at each other and immediately said, ""Since you've put it that way, I do have a presumptuous request. I hope you can help me deal with it."

"Please speak."

Lin Yi had expected this-no matter how rich the Wangs were, they wouldn't just give someone a bunch of perfect-grade domain stones. There had to be something they wanted, but the gift was too nice, and he really couldn't reject it.

"I'm planning to pick a group of core members to enter the repeat school as a temporary student. I'll talk to the Tian family about the procedure, so it shouldn't be a problem. I just hope that Lin Yi can help take care of them when they get to the repeat school. "

The core disciples of the talisman Wang family wouldn't be lacking in quality, but they were still a talisman family. If they really entered a place like the repeat Academy, they would definitely be eaten clean without any big shots protecting them.

"Could house Wang be in trouble?" Lin Yi asked, surprised.

Listening to the other party's words, it didn't seem like he was borrowing from the repeat school, but rather, he was entrusting his child to her.

Rather than saying that these core disciples were going to Jianghai Academy to further their studies, it would be more appropriate to say that they were the last hope of the Wang family. In other words, Wang sanjue was already preparing for the destruction of his family!

"I guess so."

Wang sanjue sighed, "it's not just our Wang family. Which family in Jianghai city isn't facing a calamity? it's just that many people only realized it later. Even if they did, there wasn't much they could do. We can't just leave Jianghai city with our entire family."

"Really?" Lin Yi frowned.

He had originally thought that even if the calamity came, a large clan like the talisman Wang clan would still have the power to protect themselves, but it seemed that they were far more pessimistic than he had imagined.

Chapter 9744 The Power Of The Divine Realm

He had two big shots at the peak of their strength, and yet he was still afraid of not being able to protect himself. This was beyond Lin Yi's expectations.

"Maybe not, but I can't afford to bet on it. I can only put my eggs in two baskets and feel a little more at ease."

Wang sanjue smiled bitterly."Jianghai Academy will be the last line of defense. If I'm not wrong, many families will be making similar arrangements. If Lin Yi is interested, you can keep an eye on it."

The so-called 'take note' actually meant that he could take the opportunity to do some business that would make him a huge profit.

As one of the Big Five of the retained students, if Lin Yi didn't look good, he'd be able to get a lot of people to go after him even if he asked for protection money, let alone doing business.

Many precious resources that would never be taken out in normal times would often flow into the market at this time. After all, compared to one's life and the survival of the family, no matter how precious the resources were, they had to be ranked behind.

"Thank you for your guidance."

Lin Yi had a plan in mind-he wouldn't do anything like taking advantage of someone's situation, but it was a different story if they were both taking what they needed.

Normally, even if he was one of the five major retained students, it wasn't easy for him to collect perfect-grade territory stones. However, it might be a different story if he had the intention to ask around now.

He was only one piece away from the ultimate five elements domain.

Plant-type perfect domain origin stone!

In this area, there were far fewer cultivators with plant-type spiritual roots than other types of spiritual roots. There were even fewer cultivators with mutated spiritual roots like wind-type spiritual roots, so the corresponding plant-type domain origin stone was naturally much less.

In fact, most of them had never even heard of it.

After saying goodbye to Wang sanjue, Lin Yi started his closed door training.

With his previous experience, cultivating a single element perfect domain was a piece of cake for him. The difficult part was how to integrate it into his existing perfect Five Element domains.

But even if they hadn't merged yet, the special properties of the spiritual roots would make Lin Yi even more powerful.

Whether it was the wind element that he had cultivated before, or the ice, mist, or lightning elements that he was cultivating now, they all had their own strong points.

Even if it was used alone, it was enough to play tricks in Lin Yi's hands, making it impossible to guard against.

Just as Lin Yi was in his retreat, an official letter from the city Lord's mansion was delivered to Grand Elder Wang sanjue.

"You want us to hand Lin Yi over?"

Wang Tianfeng, who had already sat on the family's throne, read the contents of the letter and couldn't help but be dumbfounded. "Lin Yi's one of the five major retained students. Does the mayor want to start a war with Jianghai Academy?"

Last time, Lin Yi was just a new student, and after being detained by the king of Nanjiang, the ten council members were all forced to come out, even the chief Xu Anshan.

Now that his status was different from the past, if the city Lord Mansion really dared to make a move, even the Tian family might have to personally come out.

If that were to happen, there would be no room for compromise. It would certainly turn into a full-scale clash between the city Lord's mansion and Jianghai Academy!

"Does li songzhang really have the guts to do that?"

Wang Tianfeng had some interactions with li songzhang when he was young. Based on his understanding of the city Lord, he could not imagine that the other party would dare to take the initiative to attack Jianghai Academy.

"It's hard to say if he has the guts, but our Wang family is really being roasted on The Fire This Time!" Wang sanjue laughed bitterly.

While the Wang family was a behemoth compared to the other factions, it was still far from being on par with the city Lord's mansion and Jianghai Academy.

Caught in between the two, the slightest mistake in strategy would result in him being crushed into dregs.

"If I had known earlier, I would have sent the talisman making society away. At such a sensitive time, I really shouldn't have been greedy."

Wang Tianfeng was full of regret.

Although he was not like Wang Tianwen and the others who wanted to swallow up the talisman making society in one gulp, he still wanted to be deeply bound to the talisman making society for the sake of his family's interests.

Normally, this decision wouldn't be wrong, but at this sensitive time, binding himself to the society was the same as binding himself to Lin Yi.

Lin Yi was the target of everyone!

If they didn't follow the order, it was equivalent to standing on the opposite side of the city lord's estate. The Wang family couldn't afford this price.

On the other hand, if they handed Lin Yi over, they'd lose more than they'd gain by offending the five big names, not to mention if they had the strength to do so.

Not to mention the fact that it might even involve the entire Jianghai Academy!

In a dilemma, no matter what he chose, it was still lightning!

Just as the two of them were hesitating, a teasing voice suddenly sounded in the room.

"Since the two of you don't know what to choose, why don't I trouble myself to help you?"

Along with the voice, several figures appeared in the room without any warning.

There were a total of seven people.

The leader of the group was a young man with an unruly temperament. The other six people were all wearing ghost masks, and each of them exuded an unusually fierce aura.

Grand Elder Wang sanjue was expressionless. On the other hand, although Wang Tianfeng was also someone who had experienced great storms, he could not help but change his expression.

All of them were experts at the peak of the late stage of the consummate level!

The unruly youth in the lead seemed to have already taken that step and was suspected to be a Big Shot at the perfected final realm!

"The city Lord's mansion's once-in-a-thousand-year genius, Qin Renjie?"

The information about this person flashed through Wang Tianfeng's mind, and he was even more shocked.

There were also monsters in the city Lord's mansion.

Even though the city Lord's mansion was not as powerful as the Jianghai Academy, it still had control over most of the resources in Jianghai city.

It was said that this Qin Renjie in front of him had a breakthrough every day. Starting from the foundation establishment stage, he had reached a height that most cultivators could not reach in their entire lives in just two months.

Not only that, the Reaper squad he was in charge of was a taboo existence among all the upper echelons of Jianghai city. They were specifically designed to behead and hunt down top-class experts, and everyone's face would change at the mention of it!

The former family head of Jianghai's number one family, Zhao Jinghen, the gang's leader, Chen Wudi, Tianzui Wu Chen ... All of them were famous names, but they only became the death god team's infamous name in the end.

Wang Tianfeng couldn't be blamed for being so shocked, it was really the shadow of a famous tree.

The fact that this group of people could appear in their own territory without anyone knowing meant that the protective formation that the Wang family was so proud of was completely ineffective against them. It was as if they had entered a no-man's land.

Once the other party had the thought of beheading him, the scene would be unimaginable.

Qin Renjie looked at Wang Tianfeng, "it's easy now that you've heard of my name. To be honest, I've come with two missions this time. I can either bring Lin Yi back or your heads back. I can choose one of the two. Why don't you help me make a choice?"

Wang Tianfeng looked at Wang Sanjue.

"The Reaper squad is indeed famous," Wang Sanjue said indifferently. "But it's not good to treat our Wang family like nothing, right?"

Chapter 9745

Qin Renjie and the others looked at each other and laughed. "The Wang family is indeed different. You can still have such confidence when facing our Reaper squad. Compared to the other famous families and gangs, you are much tougher. I just don't know if your confidence is strong enough in front of the city Lord's mansion's will."

Wang Tianfeng reacted and said coldly, "Even if it's the city Lord, he can't be killed without teaching, right? As the patriarch of the Wang clan, I would like to ask, what crime has my Wang clan committed?"

"If you guys cooperate and hand over Lin Yi, then you'll be free from the crime."

Qin Renjie paused. "But if you don't hand it over, you will be suspected of harboring a wanted criminal. In that case, don't blame us for not giving the Wang family face. After all, you chose to lose your face."

"Wanted criminal? Lin Yi's a wanted criminal?"

Wang Tianfeng and Wang sanjue looked at each other, and immediately said seriously, "Then take out the warrant-house Wang has always been law-abiding, and if Lin Yi really is a wanted criminal, we won't cover for him."

"....."

Qin Renjie choked.

How could this thing have a real wanted order?

Even if the order came from the mayor himself, the mayor's office would never issue an arrest warrant. To announce the arrest of the five major repeaters was no different from declaring war on Jianghai Academy.

Li songzhang was the most powerful Castellan in the past hundred years, but he really didn't have the courage to do so.

Seeing this, Wang sanjue said, "since there's no arrest warrant, please go back. Although the Wang family is hospitable, we never welcome bad guests. If you come again in the future, it's better to come through the main entrance to avoid any misunderstandings."

"So the Wang family is determined to go against the city Lord's mansion?"

Qin Renjie's tone suddenly became particularly cold. "The reason why my Reaper squad is so famous is because we are willing to kill people. There are already many so-called big shots who have died at our hands. It's not impossible to have one more Grand Elder and the current patriarch of the formation talisman Wang family."

Wang Tianfeng's eyelids twitched, but he wasn't frightened. He immediately retorted, ""My talisman Wang family is nothing, but there are many others who are closely related to my talisman Wang family. If we really fight to the death, do you really think you can withstand the backlash?"

The terrifying aspect of the Wang family had never been the strength of the family itself.

With this sole monopoly on talismans, any faction with a little bit of power in Jianghai city would have close cooperation with the Wang family. In reality, even the city Lord himself was one of the major customers of the Wang family.

The collapse of the talisman formation Wang family would affect all the other major powers in Jianghai city. The city Lord's mansion would be the one affected the most!

This was because the Wang family's talismans were irreplaceable.

This was the influence of technological supremacy.

In the end, Qin Renjie revealed a disdainful smile. "I'm afraid the two of you have misunderstood. Even if I take your heads today, the Wang clan will not fall. In fact, it will be even better. After all, compared to the two of you, Wang Tianwen is the more suitable candidate for the clan head of our Prefecture. "

Wang Tian Wen!

The two of them immediately understood. No wonder the other party was so fearless!

As long as Wang Tianwen was here, even if the Reaper squad really attacked and killed the two of them today, it could be said that the Wang family had internal strife.

If he turned around and poured a basin of dirty water on them, not only would the Wang family not be able to cause any waves, Wang Tianwen could even use the name of bringing order back to the world and take over the talisman formation Wang family!

Wang sanjue slowly stood up."In that case, we didn't even have a chance to choose. What a joke. To think that our Wang family thought that we were a force. I didn't think that we wouldn't even have the right to say no in the eyes of the city Lord."

Qin Renjie said with slight embarrassment,"it's not too late to recognize your own position now. It's better than losing your head and then regretting it. Isn't it?"

"Yes, we should."

Wang sanjue laughed at himself,""The city Lord's mansion and the Jianghai Academy, it's either the east wind trumps the West Wind, or the West Wind trumps the east wind. I've been wavering on which side I should lean towards, but it seems like I don't have to worry about it anymore."

"You're quite tactful. "

Qin Renjie and the others looked at each other and smiled. Although they didn't mind killing, the Wang family's influence was huge. If things went wrong, even the city Lord Manor might not be able to control the situation. It would be best if they could force the two of them to lower their heads.

At this moment, a voice was heard, "tactful?" You call this tactfulness? after all, he's one of the city Lord's façade's martial arts. If this little bit of intelligence is spread out, Won't You Be disgracing great city Lord li?"

Everyone looked in the direction of the voice and saw Yan Jiang leaning against the door with a cigarette in his mouth and his arms crossed.

Qin Renjie and the others were all stunned. From the beginning to the end, they didn't know how this person had come in. Even the experts who were responsible for sensing among them didn't realize when he had come in!

In other words, if Yan Jiang wanted to attack them, they would most likely suffer a huge loss!

"I didn't expect the Wang family to have such an expert hidden away. This is interesting."

Qin Renjie quickly recovered.

Although Yan Jiang's unpredictable movements made him rather wary, he was, after all, a Big Shot at the pinnacle of perfection. In a one-on-one battle, he was not inferior to anyone in Jianghai city except the city Lord, li songzhang.

Moreover, he had a complete Reaper squad with him!

With this Reaper squad, he was confident that he would be able to win even if he were to face a powerhouse at the pinnacle of perfection. This was his greatest source of confidence in running amuck in Jianghai city!

With a cigarette in his mouth, Yan Jiang raised his brows at Wang sanjue and the other man, ""This person doesn't seem to understand human language. Bosses, what do you think?"

Wang sanjue said, "our Wang family has no intention of becoming enemies with the city Lord. However, if the city Lord insists on interfering with our internal affairs, then we will have no choice but to retaliate against the war that the city Lord has forced upon us. I wonder if you understand what I'm saying?"

"War ... Are you serious?" he asked.

Qin Renjie's eyelids twitched. This was the first time he realized that the situation seemed to be getting out of control.

War, no matter where or when, would always be the most serious word.

It was true that the Wang family didn't have the right to use the word "war" in front of the city Lord's Manor, but this was enough to show Wang sanjue's attitude.

Wang sanjue and Wang Tianfeng both fell silent. In other words, this was the attitude of the talisman formation Wang family.

Qin Renjie gave a look to the underlings of the Reaper squad, signaling them to get ready to attack. At the same time, he said proudly, ""Just one apex Paragon isn't enough for us to eat. Have the two of you really thought it through?"

Chapter 9746

"One? Did I ever say that our Wang clan only has a single apex Paragon?"

Wang sanjue's body suddenly exploded with a soaring aura, suppressing everyone present until they could not breathe. ""I've been pretending to be a rotten old man for so long, but I didn't expect to be treated as a skeleton in a grave. "

As soon as he finished speaking, he was clearly only at the peak of the late stage of the consummate level of a Big Shot, but he directly crossed the chasm and soared to the ceiling of everyone's knowledge.

The final perfection of a giant!

All of the members of the Reaper squad were shocked. They had indeed killed a powerhouse at the pinnacle of perfection before, but that was under the premise that they were ganging up on him. Now that they were facing two of them at the same time, the difficulty was not as simple as one plus one equals two!

Qin Renjie's face suddenly turned extremely ugly. ""You guys really want to fight to the death?"

Wang sanjue's old and decrepit temperament was replaced by a hot-blooded young man 's. "Wrong, the net will break, but the fish will not die."

"Hehe, is that so? It seems like you have some misunderstanding of the Reaper squad's net. You really think that two giants at the peak of their realm can turn the situation around? are you Wang family people all so naive?"

Just as Qin Renjie finished his sentence, Lin Yi's voice came from outside.

"If two Almightyies at the peak of the middle stage of the consummate level aren't enough, then I wonder if I, an insignificant Almightyies at the peak of the middle stage of the consummate level, will be able to have the slightest effect?"

Qin Renjie and the others were collectively shocked.

With Lin Yi's appearance, along with Yan Jiang who was leaning on the side with a cigarette in his mouth, and Wang sanjue who suddenly erupted, the three of them actually formed an encirclement!

Lin Yi's cultivation level was indeed only at the peak of the middle stage of the complete realm, and he couldn't be used in this situation, but who would treat him as a Big Shot at the peak of the middle stage of the complete realm?

The news of the five fallen Dragons "deaths had already spread, and after verification, it was highly likely that Lin Yi was the one who killed them.

One had to know that the fallen Dragon was a publicly acknowledged ultimate giant, and one of the top five. Lin Yi was able to kill him all by himself, no matter what method he used. It was enough to prove how terrifying he was!

Qin Renjie's Reaper squad had the confidence to kill a single big Shot at the consummate level.

Although the situation would become extremely difficult when faced with the Joint Forces of two big shots at the consummate level, he still had the confidence to put up a fight.

But the three hegemons were at the Paragon level?

There was no need to even think about it. They definitely had no chance of survival.

If they were still able to let any one of them escape, it could only mean one thing-these three Big Shot's ultimate perfection experts were just fake goods that only had looks.

The situation was instantly reversed.

Finally, Qin Renjie could no longer hold back his haughty expression. He looked at Wang sanjue with a ruthless gaze and said,""Is this the attitude of your Wang clan? Not only did you choose to protect the murderer, but you also want to attack us. Do you want to declare war on the city Lord's mansion?"

In his opinion, anyone with a clear mind would never dare to take the initiative to declare war on the city Lord's mansion.

Even a behemoth like the Jianghai Academy couldn't make such a decision, let alone the Wang family. Otherwise, with all the friction between the two sides, they would have already fought each other. Why would they be in a deadlock now?

In the end, Wang sanjue indifferently replied, ""The declaration of war was not the intention of my Wang family, but if you must think so, I have nothing to say."

"....."

Qin Renjie and the others were collectively dumbfounded. Then, they broke out in cold sweat.

This was clearly a declaration of war!

How could a mere Wang clan be so bold?

Qin Renjie couldn't help but say, "an ant trying to shake a tree!" Do you all really not know how to spell the word "death"? Are you really going to drag the thousands of Wang clan members down with you?"

Wang sanjue and Wang Tianfeng looked at each other. "If we're no longer here, the talisman formation Wang family will fall into your hands. With the city Lord's appetite, I can't imagine a good end for my Wang family. Rather than that, why don't we fight with all we have?"

"What a good struggle!"

Qin Renjie's face turned gloomy and he was forced to give in. "If that's the case, then we'll just pretend we never came here today. Since you two have this attitude, then as long as Lin Yi is in your house, we won't do anything. This is our last respect to your house!"

After he finished speaking, he was about to leave with the Reaper squad.

In the end, Yan Jiang, who was holding a cigarette in his mouth, casually blocked her way.

"The moment you entered, you started shouting about killing. Now that you realized you can't win, you want to pretend to be weak and retreat. With this, you're making me, the leader of the Wang family guards, lose face."

Yan Jiang blew a smoke ring on Qin Renjie's face. Immediately, the already tense Reaper squad felt as if they were facing a great enemy. Those with slightly weaker psychological quality even pulled out their knives on the spot.

Qin Renjie quickly suppressed his anger. He knew very well that once he attacked, there would be no room to turn the situation around.

"You won't let us go? Do the two of you really want to keep us in the Wang family?"

Qin Renjie's cold eyes swept across everyone's face and finally landed on Wang sanjue. "I don't deny that you guys and Lin Yi have a chance of killing all of us, but we're not here for nothing. We have more than enough to take two down with us. I just wonder which two of you are willing to take us down?"

Lin Yi couldn't help but laugh. "You threaten when you can't win him over. You try to split him up when you can't threaten him. You have a strong desire to live, don't you?"

Qin Renjie choked.

To be honest, he, the Reaper squad, had always been high and mighty. Even in the face of those so-called top bosses, he didn't say anything at all. He killed them directly when he said he would kill them. When had he ever made such a compromise?

However, the situation was stronger than the people. If he didn't want to bury himself and the entire Reaper squad here, he had to use these little tricks that he usually disdained. Even if he had to pretend to be a grandson, he had to do it today!

Staying alive was more important than anything else.

"Gentlemen, is this your final warning?"

Qin Renjie didn't want to talk to Lin Yi at all. Lin Yi's trash talk wouldn't decide their fate.

The Wang family's attitude was the key.

Wang sanjue looked at him with a serious expression. ""If you return today, will the city Lord Manor let my formation talisman Wang family off?"

"That's natural. "

"The Reaper squad has always been a man of his word. Both of you don't need to doubt this at all." Qin Renjie quickly made a promise.

Wang sanjue laughed. "I'm not sure about your Reaper squad's reputation, but the city Lord's mansion's reputation is obvious to all. If I remember correctly, li songzhang killed the donkey after it was done grinding and started his family."

Qin Renjie choked.

Li songzhang, the most powerful city Lord in a hundred years, had a dishonorable history in his early years. He even had the elegant title of a servant of three families.

If it wasn't for the fact that he had risen to fame and his subordinates had forcefully erased this dark history, he would probably have been a three-family servant.

Chapter 9747

Ever since he took the position, even the style of the city Lord's mansion had become more practical. Its reputation was on the other end of the spectrum compared to its strength, which was on the rise.

At least in this aspect, the city Lord's mansion was indeed not very convincing.

"I've said enough. Members of the Reaper squad, can we start?"

Lin Yi walked towards Qin Renjie and the others with a calm expression.

He opened his hand, and a mysterious spatial fluctuation instantly enveloped everyone's head.

Then, before Qin Renjie and the others could react, they had already been forcefully dragged into a spatial secret realm. Even if the members of the death god Squad were all people who had seen the world, they couldn't help but be dumbfounded as they looked at the famous mountains and great rivers in front of them, looking at the magnificent mountain river painting scroll.

Not to mention them, even Wang sanjue and the others who were watching were dumbfounded.

"Lin Yi's already at this level, creating a dimension so casually?"

Wang Tianfeng, a Big Shot at the late stage of the consummate level, was already an expert in the outside world, but he was the weakest here, so he naturally suffered the greatest impact.

As far as he knew, even those big shots at the consummate level of the realm couldn't possess such a heaven-defying technique. It should only be possessed by those above the realm!

This scene could be said to have subverted all three views.

He'd always thought that he'd overestimated Lin Yi, even placing him on the same level as the entire house of Wang, but it seemed like he'd still underestimated him!

Wang sanjue was also shocked. "If it's just opening up a space passage that connects to an independent secret realm, it's barely acceptable. But opening up a space directly ... Is this the level of a complete giant?"

Yan Jiang held the cigarette in his mouth and looked at it for a long time before he said faintly, "It's not a space. It's just a special smokescreen. Of course, it's indeed very brilliant."

This was the truth.

With Lin Yi's current strength, he'd touched part of the laws of space and time, but he wasn't at the stage where he could open up space yet.

This was just a real domain that he had finally come up with by combining the man in the painting, the perfect mist element domain that he had just cultivated, the inspiration he had gained from the assassin God's secret realm, and the space-time ability.

Domains were real, so there was no need to add the word "real" to it.

The reason why it was called the realm of truth was precisely because it wasn't so real, but it could make people in it not detect the slightest bit of falseness, just like bystanders like Wang Tianfeng, who thought that it was really an independent space.

Even a giant like Qin Renjie, who was at the peak of the realm, didn't notice it at all. Even if he did notice it, it was useless unless his mastery of the spacetime rules was above Lin Yi 's!

"I thought we could have some activities today. Damn it, it turns out that I'm here to support this guy. What a waste of my feelings."

Yan Jiang was filled with pity.

He'd been cooped up in the Lin family for so many years, and his body was getting moldy-he'd finally found a chance, and it'd all turned out to be Lin Yi's one-man show.

Qin Renjie and his Reaper squad looked very fierce, but in the eyes of a veteran like him, they were just a group of rookies who had just learned how to fly. They were proud and naive, and had no idea how vast the world was, and the dangers hidden under the vastness.

Lin Yi, on the other hand, was frighteningly young as well-he was only an early phase of complete cultivation a few months ago.

But even then, from the first time he saw Lin Yi, he didn't look down on him at all, because he smelled the same kind of scent on Lin Yi.

In contrast, Wang sanjue did not feel so regretful. Instead, he felt deeply grateful.

The situation had come to this point because he had no other choice. If there was a second choice, he would never choose this path. It was easy to break off relations with the city Lord's mansion, but once he put it into action, he would immediately fall into the abyss if he was not careful!

There were thousands of people in the Wang family. He really couldn't afford to lose!

Although he was on Lin Yi's side now, he wouldn't attack Qin Renjie and the others himself unless it was absolutely necessary. After all, if something really happened to them, the city Lord's mansion would be furious. The talisman King family didn't want to steal the limelight and step out to take the Thunder for Lin Yi.

It was already very kind of him to make such a positive statement just now!

Lin Yi obviously saw this point and didn't want to make things difficult for them, so he took the initiative to invite Qin Renjie and the others, not giving them any space to interfere.

"What if Lin Yi can't take them down?"

Wang Tianfeng could not help but look worried.

"Then it's time for us to strike together!" Wang sanjue said in a deep voice. "No matter what, we can't let these people walk out of our Wang family alive!"

"Why?"

Wang Tianfeng didn't understand. He agreed that Lin Yi and the Jianghai Institute were more ideal allies than the house.

However, if they really killed Qin Renjie and the entire Reaper squad today, they would definitely step on the city Lord li songzhang's bottom line. The Wang family would have to be the first to step out. No matter how they looked at it, this wasn't a rational choice.

Wang sanjue did not answer. Instead, he asked, "you've interacted with li songzhang before. What kind of person is he?"

Wang Tianfeng thought for a moment. "Cunning, overbearing, cruel, and merciless. No moral integrity."

"Therefore, any goodwill towards such a person will be seen as weakness, and he will take it one step further. In my experience, the best strategy to deal with such a person is ..."

Wang sanjue chuckled and said, ""Beat him up."

Yan Jiang, who was at the side, nodded in agreement with a cigarette in his mouth. ""People are all cheap. If you back down this time, he'll immediately take advantage of you. But if you cut off his hand this time, he'll learn to be more obedient. He'll know that there are some places that you can't simply reach out to."

"So that's how it is, I've learned."

Wang Tianfeng suddenly understood. He had always thought that he was somewhat shrewd, but compared to these two real Jianghu veterans, he was still far from it.

At the end of the day, she had thought too much and experienced too little.

The three of them waited in silence for half an hour before a spatial crack appeared in front of them. Lin Yi walked out from it slowly.

"How is it?"

Wang Tianfeng hurriedly asked. Of the three of them, he was the most impatient.

Lin Yi, on the other hand, looked at him strangely. "What do you mean how is it? What happened here?"

"....."

Wang Tianfeng was stunned for a moment before he reacted to the strange looks from Wang sanjue and Yan Jiang. He immediately smiled and said, "I'm saying that I'm going to cook personally. Do you all want to have a drink together?"

Lin Yi smiled, "of course, third uncle's cooking is the best I've ever eaten here. It's very much like when I was young. If you don't mind, I'll come to you for a free meal every day."

"I can't ask for more!"

Wang Tianfeng and the others looked at each other and laughed.

Chapter 9748

City Lord's mansion.

Li songzhang looked at the extinguished life Jade in front of him, his face gloomy.

Li Muiyang, who was at the side, frowned and asked, "is there a problem with these life Jade?" Qin Renjie's life token was destroyed, and the life tokens of the other members of the Reaper squad were also destroyed at the same time. How is that possible?"

A Big Shot at the peak of the late stage of the consummate level leading a group of well-trained big shots at the peak of the late stage of the consummate level had actually been annihilated by someone. Moreover, it had happened in such a short time.

From what he knew, such a thing was impossible!

"The talisman Wang family doesn't have the strength."

Li songzhang was in disbelief as well. The operation was targeted at Lin Yi, but his real intention wasn't Lin Yi.

As a city Lord, his goal was always the top big shots like the Tian family. Although Lin Yi was doing well in the repeat school, it was still just a small matter in his eyes. It wasn't time for him to really care about Lin Yi.

Using Lin Yi as an excuse to force the Wang family to take a side and show their sincerity-this was his true intention!

At this moment, a man in a gray cloak stood up and said, ""If it wasn't the Wang family, then it must be Lin Yi. Looks like this guy's more interesting than I thought-we'll take care of him."

Heavenly King, death god.

They were li songzhang's two trump cards, and they were undoubtedly the strongest force in the city Lord's mansion.

Now that the Reaper team was annihilated, li songzhang's only choice left was the Heavenly King team, or he could personally make a move!

"Mu God, you must be joking. How can Lin Yi have that kind of strength all by himself?"

Li Muiyang couldn't help but chuckle. He'd lost to Lin Yi a couple of times, but he was still pretty observant. If Lin Yi was that strong, why would he have the guts to mess with him back then?

He wasn't a good-for-nothing second generation who only knew how to eat, drink, and play with women.

Unless Lin Yi's strength could increase a few hundred times in just a few months, then it could barely be explained. But this possibility was far slimmer than Lin Yi killing the entire Reaper team alone.

After all, this was a real world. Even if he wanted to talk nonsense, he would have to follow the basic laws.

The man known as mu Shen glanced at him indifferently. Li MUYANG was the son of the city Lord, and his father, li songzhang, was here. However, for the first time, he instinctively retracted his neck and even took the initiative to put on a flattering smile.

Li songzhang turned a blind eye to this scene.

Although mu Shen was his subordinate in name, he was completely different from Qin Renjie, who he had raised.

Rather than saying that they were his subordinates, it was better to say that they were equal partners. The Heavenly King team and the Reaper team sounded as if they were on the same level, but in fact, they were not on the same level at all. God MU's strength was far above Qin Renjie 's, and he was not much weaker than li songzhang himself!

Li MUYANG laughed awkwardly and said, ""What I mean is that we still can't be sure of the situation with Qin Renjie and the others. Maybe something unexpected happened and interfered with the life Jade's reaction. I think it's better to figure it out first. It's not too late to plan it later."

"Even if they didn't get wiped out, Lin Yi and the formation royal family must be involved. Should I go ask?" mu Shen said faintly.

"Forget it, I'll find someone else to deal with this. You and team celestial are our trump cards, don't touch them easily."

Li songzhang's eyelids twitched. He had experienced this guy's questioning skills before. The last time he said this, he turned around and exterminated the whole family.

If he really agreed now, he might turn around and lose the formation talisman King's family.

However, another deeper concern was that he was afraid that mu Shen and the Heavenly King team would follow in Qin Renjie's footsteps.

Although this kind of thing didn't seem very possible, and he couldn't be sure whether Qin Renjie and the others had really been exterminated, he didn't dare to take a big bet as the big change was coming.

After finding an excuse to send mu Shen away, li songzhang said in a deep voice, ""Pass down my order, have the people under me not touch the Wang family for the time being, in case they're desperate."

Li Muiyang suddenly understood. If mu Shen had said this in front of him, that person might have turned around and come to the talisman King's family. That person was not someone who liked to endure silently.

"Is there really a need for us to be so afraid of a mere Wang clan of formations?"

Li Muiyang was also unwilling to give up. The formation talisman royal family was such a big piece of fat meat, and the father and son had been eyeing it for a long time. It was just about to land in their mouths, but now there was a problem. He could not bear it.

"Whether team Reaper was wiped out or lost contact, it definitely has something to do with the Wang family. What does this mean?"

"What does it mean?"

Li songzhang looked at his son, who looked like a replica of himself when he was young, and said earnestly, ""This means that the talisman Wang family has a trump card that surpasses our imagination!

If we take action now, although we can still win in the end, we'll definitely pay a heavy price. The overall situation is more important, and as leaders, we must know how to restrain our edge and endure!"

Li Muiyang was still confused, 'if we give in to the Wang family now, won't we be a joke to the other families? Wouldn't the dignity of our city Lord's mansion be damaged?"

Once the city Lord's mansion lost its authority, it would be an empty title and would no longer be able to control the huge Jianghai city.

He still understood this principle.

Li songzhang laughed. "Mu 'er, you must remember one thing. The dignity of the city Lord's mansion has never been spoken by those people, but in their hearts. No matter what they say, as long as they remember it in their hearts, the dignity of the city Lord's mansion will not fall."

"Then how do we make them remember it?" Li Muiyang was confused.

"That's easy. Kill them. As long as we kill a batch of chickens, the rest of the monkeys will naturally know what to do. "

Li Songzhang took out a name list from the drawer, ""This is the group of chickens waiting to be slaughtered. A great change is coming, and our city Lord's mansion needs to replenish our strength. It's killing two birds with one stone."

Li Muiyang took a look at it, and when he saw the clan that was ranked first, he couldn't help but smile, ""The Shen family of the wind god. Father, you really know how to pick people!"

"The day after tomorrow, the Shen family is going to prepare a full moon banquet for the youngest son. You should bring some people to join in the fun."

As Li Songzhang spoke, he snapped his fingers and a fierce-looking man with a face full of scars came in. He smiled and said, ""His name is Shen Ming. I think you should have heard about him."

Li Muiyang nodded. "Of course. The eldest son and grandson of the Shen family's eldest branch were found out to be the illegitimate child of an affair. They were chased out by the old master of the Shen family. How could I not have heard of such a sensational news?"

But I've never heard that the Shen family disfigured him. Are they so merciless?"

## Chapter 9749

"I destroyed my own face. From the night I walked out of the Chen family, everything I had had nothing to do with the Chen family, including this face!"

Shen Ming answered in a muffled voice.

Li MUYANG sneered and looked at him from the corner of his eyes, ""If you really have nothing to do with him, why would you be here? Are you kidding me?"

Shen Ming choked and said after a moment, ""I want to take revenge on the Shen family and return all the pain and suffering I've suffered all these years to those noble Shen family members who have lived a comfortable life. I ask the city Lord to fulfill my wish!"

"You should have said that earlier. You're just putting on an act in front of me and my father. How cunning are you?"

Li MUYANG laughed coldly. "Remember, if you want to be someone's dog, you have to have the awareness of being a dog. The first rule of being a dog is loyalty. If you don't even have this awareness, I advise you to end your own life as soon as possible. Otherwise, you'll be better off dead in the future."

Glancing at Li Songzhang's indifferent expression, Shen Ming quickly knelt down and said, ""This lowly one obeys, I'm willing to go through water and tread on fire for city Lord and young master, I absolutely don't dare to have any disloyal thoughts!"

"It's good that you know. You may leave. "

Seeing that li Muiyang had subdued him with a few words, li songzhang was very pleased. ""Mu 'er, you're not bad. You already know the essence of using people. However, the Shen family of the wind god is so famous. Even if they can't compare to the talisman King family, they must have hidden cards. I'm afraid that it's not enough to rely on you alone."

Although li Muiyang did not mind, he still kept his guard up when he thought about Qin Renjie and the Reaper squad.

"Then dad, you can find an expert to help me hold the line, the strongest one, how about it?"

"That's good. "

Li songzhang hesitated for a moment before agreeing. The shepherd was his most important trump card, and he would not use it unless it was a critical moment. However, for the safety of his precious son, he chose to make an exception.

At the same time, the talisman Wang family also received an invitation from the Shen family.

Because of Shen Yifan, Lin Yi was no stranger to the Shen family.

Even though they had not officially visited him yet, as long as Shen Yifan was around, the Shen family, the god of wind, was destined to be his ally.

After all, Shen Yifan was the heir to the Shen family, the wind god.

However, he was still a little confused. "Isn't it a little too ostentatious to hold a full moon banquet at such a sensitive time?"

Currently, the people of Jianghai city were in a state of panic. The city Lord's mansion had acted without restraint, and all the forces were trembling in fear.

The bird that takes the lead gets shot.

To be fair, the most taboo thing at this moment was to show off. Anyone with a bit of intelligence would definitely try to be as low-profile as possible. It would be best to let everyone forget about their existence. That was the best solution to tide over the crisis.

"The old master of the Shen family is a smart person and would not use such a plan unless it is the last resort."

Wang Tianfeng explained from the side, "I heard that the hearts of the people within the Shen family have been wavering these days. The friction between the three branches is endless. If this continues, they might move towards separation. Old master Shen probably wants to use this opportunity to unite the hearts of the people and let the three branches of the Shen family return to one body."

"Every family has its own problems."

Lin Yi couldn't help but sigh. The Wang family was like this, and so was the Shens. Even the other big families he'd come into contact with before, none of them lived in harmony.

Wang Tianfeng shook his head with a wry smile. "I can't help it. This is human nature."

These few days, he had been busy selecting the clan's core disciples to stay in the repeat school. Just for this name list, the whole clan had been in a heated argument. Fortunately, Grand Elder Wang Sanjue's prestige was high enough, and he, as the current clan head, had a solid foundation. Otherwise, he would also be in a terrible fix.

Lin Yi was silent.

If he were to create a big family in the future, how would he deal with the relationship between the members of the family? If it really ended up in a situation where their flesh and blood were killed, that would be too terrible.

Lin Yi suddenly slapped himself in the face.

Even though he had a bunch of female confidants, he didn't even have a child so far. What was there to be conflicted about?

Wang sanjue saw his expression and couldn't help but laugh."Little friend, are you interested in making a trip to the Shen family?"

"I'll go then,"Lin Yi said after some thought.

Two days later, in the Shen family of the wind god.

As the number one leader of the flying shuttle industry in Jianghai city, the wind god Shen family might not be as well-known as the talisman Wang family, but they were still one of the top ten powers in Jianghai city.

The old master of the Shen family, who had been away from the world for many years, had personally come out to invite people. What kind of status was this?

Although it was only a one-month-old party for a child, all the forces had sent people to attend, and they were all of extremely high level.

In the case of the talisman Wang family, the head of the family, Wang Tianfeng, personally came forward.

For a time, the full moon banquet had become the peak of Jianghai city. In the midst of drinking and exchanging cups, various forces took this rare opportunity to exchange views and come to a consensus.

As for the main character, the one-month-old child, although he was overshadowed, he was still extremely glorious.

Just the one-month-old gifts received were enough to crush 99% of the second generation. After all, what could make these big shots take out were naturally not common goods, but treasures that could only be encountered but not sought.

"Second sister, my nephew is born with a noble air. Even Shen Yifan's coming-of-age ceremony wasn't this Grand, right?"

A man with a sharp mouth and monkey-like cheeks came to the side of the noble lady of the Shen family and said.

This noble lady of the Shen family was naturally the birth mother of today's main character, the current wife of the second branch of the Shen family, Shen Huangshi. The man was her younger brother, Huang Yan.

"Of course! Even though Shen Yifan's coming-of-age ceremony was personally organized by the old master, and all the forces sent representatives to attend, they were at most just ordinary elders. Their ranks were far lower than now!" Shen Huangshi replied proudly.

"Hehe, it's obvious how much the old master dotes on Jiu 'er. It seems that Shen Yifan, the so-called only heir of the Shen family, will have to change his title sooner or later. At that time, second sister, you will be able to rise in status because of your son. The position of the future matriarch of the Shen family will be yours!"

Huang Yan's words directly hit the bottom of Shen Huangshi's heart.

She wasn't Shen Yifan's birth mother. When Shen Yifan's birth mother was still alive, she was just a pampered concubine with no status at all.

After Shen Yifan's birth mother passed away from illness, she was then promoted by the old master and became the current Madam of the second branch of the Shen family.

However, because of her lowly background, although the entire Shen family respected her on the surface, no one took her seriously at all. Instead, they all revolved around Shen Yifan.

The more Shen Yifan became the center of attention, the more it made her, a lowly stepmother, seem out of place. As time went by, she accumulated a deep resentment.

Today, she could finally hold her head high and be proud of her son!

Shen Huangshi's face still maintained a reserved look, "Young brother, don't speak nonsense. Shen Yifan has already been adopted by the first branch and is the successor of the Shen family that the old master has decided on. If your words were to spread, you will cause trouble."

"Second sister, don't worry. I'm not a big-mouthed idiot. I know what I should say and what I shouldn't."

Huang Yan grinned. "People's hearts change. Shen Yifan was able to win the old master's favor back then because our Jiu 'er wasn't born yet. Now that Jiu' er is born, it's clear who the old master favors more!"

Moreover, the old master is a member of the second branch after all, and Shen Yifan is an outsider now that he has married into the first branch. How can he be closer to the old master than our Jiu 'er?"

Chapter 9750 The Power Of The Devil

Shen Huangshi's eyes lit up.

In the past, she was only resentful, but now that she had a son, she naturally had to fight for her son!

"Even the old master personally attended Jiu 'er's one-month-old banquet, but he, as the eldest brother, has not appeared even after so long. It's really disappointing that he doesn't treat us as his own people after being adopted by the first branch."

Shen Huangshi said faintly.

Huang Yan immediately understood. He raised his wine glass and walked around the hall. Soon, the rumor that Shen Yifan was dissatisfied with his younger brother spread among the upper echelons of Jianghai city.

In fact, it even reached old master Shen's ears.

"Nonsense!"

Although old master Shen had been living in seclusion all these years, he was also famous for his decisive killing in his early years. Once he was angry, the temperature of the entire Hall would drop by ten degrees.

The higher-ups of the Shen family who were accompanying him immediately kept quiet out of fear.

The head of the second household of the Shen family, the CEO of Jianghai Tianchi flying shuttle group, Shen Tianyang, had a frosty expression on his face. This was because he had an even more important identity-he was the Father of Shen Yifan!

Today's full moon banquet was to gather the People's hearts.

Now that such a rumor had appeared, if it could not be extinguished in time, it would cause the various branches of the Shen family to become even more disloyal and at that time, this one month birthday banquet would really become the joke of the entire Jianghai city.

Seeing this, Shen Huangshi hugged the child and said indignantly, ""The person who spread the rumors is really despicable. Brother fan is just busy with the Academy and can't go home for the time being, but he was maliciously slandered by others. Isn't this openly destroying his brotherly relationship with Jiu'er? this is intolerable!"

Old master Shen was still suspicious at first, but when he saw her like this, his expression eased a lot.

"Second eldest's wife, don't be so agitated. This old man will naturally investigate this matter and find out the truth."

With that, Grandpa Shen turned to Shen Tianyang. ""I heard that fan 'er has been helping others in the Academy. Is that true?"

Shen Tianyang replied seriously, "that's true. He's very close to a roommate called Lin Yi. Lin Yi has made quite a name for himself in Jianghai college these days. Fan 'er has been helping him manage the back lines."

Old master Shen's face darkened. ""Nonsense! How could the future head of the Shen family degrade himself to be someone else's assistant? call him back, immediately!"

"This ..."

Shen Tianyang hesitated. He felt that it was inappropriate when he first heard about it, but he didn't say anything. After all, Lin Yi wasn't an ordinary person after all.

Even though Shen Yifan, who was the future head of the Shen family of the god of wind, was lowering his status by acting as his assistant, it was not completely unreasonable.

However, he still called Shen Yifan in the end.

The old master was currently in a fit of anger. Rather than trying to explain himself, it was better to wait for his anger to subside first. Otherwise, the more he explained, the worse it would get.

In the end, just two seconds after the call connected, Shen Yifan said in a hurry, "I still have something to do, I'll be done soon."

Then, there was a beeping sound.

Shen Tianyang was embarrassed, and the old man's face darkened!

With how much he valued Shen Yifan, it would have been nothing if it had been in the past, but today was different.

Today is the crucial time to gather the hearts of the Shen family's various branches. As the future family head, how can you hide and not show up?

What's more, you're the brother of the main character of the full moon banquet. Now that there are rumors of brothers not getting along, if you don't appear at this time, isn't it equivalent to confirming the rumors?

How could the Shen family be United in this way?

On the other hand, Shen Huangshi was secretly delighted. The angrier the old master was, the greater the chance her son would have in the future. At this time, if a certain someone were to be blind and say a few more words of rebuttal, the position of the future family head might change on the spot!

"Old master, I think brother fan really has more important things to deal with. He is a child with a heavy heart. You should calm down first. When he comes back, you can ask him again."

On the surface, Shen Huangshi was trying to help Shen Yifan out of his predicament, but in reality, she continued to fan the flames.

As expected, old master Shen suddenly became even more furious. "What's more important? Ask him if the sh \* t outside is more important than the Family Matters!"

Shen Tianyang had no choice but to continue calling Shen Yifan.

However, the phone could not be reached.

"Great! He doesn't even care about an old man like me anymore!"

"Since he doesn't want to come back, then let him be. He doesn't have to worry about the Shen family's Affairs anymore!" Old master Shen flew into a rage.

Everyone's expression changed when they heard this.

Shen Huangshi was instantly overjoyed. This was equivalent to stripping Shen Yifan of his right to be the successor of the family head!

Shen Yifan was gone, so there was no need to think about who would be qualified next.

"Hehe, I haven't seen you for so many years, but you're still so hot-tempered, old man Shen?"

Following the voice, Wang sanjue, who was as young as a white-haired youth, appeared in front of everyone with a faint smile.

The entire Hall was in an uproar.

In terms of status, Wang sanjue, as the Grand Elder of the talisman Wang family, was only higher than old master Shen, and in terms of experience, he was even more so.

Back when Wang sanjue was all-powerful, old master Shen was just an ordinary hooligan.

In fact, it was all thanks to Wang sanjue's support that he was able to rise to the top.

Old master Shen hurriedly stood up to welcome him. "I have troubled brother sanjue to grace us with your presence. I have failed to welcome you. I have committed a capital crime!"

Even with his status, he didn't dare to imagine that Wang sanjue would personally appear. In fact, just the appearance of Wang Tianfeng, the new patriarch, was already enough to make the entire Shen family overjoyed. After all, the head of the talisman Wang family was already one of the most powerful people in the entire Jianghai city!

He didn't expect that not only Wang Tianfeng came, but even Wang sanjue came.

This was really a great honor!

Other than Jianghai Academy and the city Lord's mansion, there was no other school in Jianghai city that could enjoy such an honor!

"We are old fogeys with half a foot in the grave, what's the point of welcoming us or not?"

Wang sanjue smiled indifferently. "It's a time of trouble. I didn't want to come at first, but a young friend wanted to come and take a look, so I accompanied him on a whim."

"Oh? I don't know which young swordsman has such a Grand display that even brother sanjue would lower himself to accompany him?"

Old master Shen couldn't help but reveal a look of anticipation. In the entire Jianghai city, there were only a handful of people who were qualified to be Wang sanjue's company. As far as he knew, there wasn't a single one of the younger generation who could be called a "little friend."

Could it be that he came from outside the region?

After thinking about it, even li mu yang, the son of the city Lord, was not qualified to be a young man with such an important status. He could only be from outside the region.

But no matter what, the entire Shen family of the wind god was definitely honored to have such a noble visit!

At the side, Shen Huangshi also revealed an expression of anticipation. In her opinion, the more important a person was, the rarer the gift they would give. Perhaps they might even be able to give her son a great opportunity!

However, just as old master Shen was about to personally head out to welcome them, Wang sanjue stopped him with a smile, ""Don't be so busy, my little friend had something to do and left. "
