

Bodyguard 9761

Chapter 9761 Power

Shen Ming was shocked.

Li MUYANG, who was supervising the battle at the side, was also shocked.

This time, Shen Ming could no longer be blamed for being too useless. At least, he had no problem with the full-power attack just now. Normally, even a Big Shot at the peak of the late stage of the consummate level would not be able to withstand it, let alone a mere Shen Yifan!

However, Shen Yifan had indeed taken the attack head-on and was unscathed. This was definitely not some kind of illusion technique to deceive people.

"You have an air-frozen bead too?" Li MUYANG exclaimed.

This was the only explanation.

As far as he knew, the air-frozen bead was the only way to be immune to all wind-type moves. There was no other way.

"Why do I have to be a Pearl? Can't I be the wind itself?"

Shen Yifan chuckled and released his fingers. The wind arrow shot out.

However, unexpectedly, after such a long time of accumulation, the wind arrow did not shake the world as everyone had expected. On the contrary, it directly turned invisible, without even the slightest sound.

It felt like he was the center of attention. Everyone thought he was going to do something big, but in the end, he just farted.

"That's it?"the crowd almost blurted out in unison.

Shen Yifan didn't even look at the crowd's expressions. He kept his longbow after he made his move, as if the dust had settled in his eyes.

Shen Ming, who was opposite him, could not help but laugh,'you're trying to show off in my face? Who did you learn this from?"

Shen Yifan looked at Lin Yi with a strange expression.

Lin Yi rubbed his nose innocently. Wasn't this the wrong thing to do? what did it have to do with him?

"Pretentious!"

Shen Ming sneered disdainfully. "You know that I have the air-frozen bead. Why did you still come to extort me? you really don't know what's good for you!"

Before he could finish his sentence, his entire body suddenly stiffened. Then, he heard the sound of his body splitting open and a human-shaped breeze broke out from his back.

Not only was his physical body destroyed, but Shen Ming's body and primordial spirit were also annihilated in an instant before he could even make a sound.

The air-frozen bead rolled out of his arms.

It shattered to the ground.

Looking at the figure formed by the wind, the whole place fell into a dead silence.

After a long time, someone finally stammered out two words, ""The wind god?"

Unlike the wind God's image that Shen Tianyang had conjured, this one had a more abstract outline, but it was clearly more divine. Even if it didn't even have a basic facial outline, it made people feel that this was how the wind god should look like.

That kind of genuine divine might could not lie to people.

In mid-air, the human-shaped wind shadow nodded slightly at Shen Yifan, then turned into a breeze and scattered in all directions. The scene was exactly the same as when the wind arrow left his hand.

However, this time, no one dared to underestimate him. Instead, they were all in awe.

The wind started at the end of Qingping, so it should be like this.

"The wind god! The wind God's materialization! This is the real wind God's materialization!"

The Shen family, who had recovered from their shock, suddenly became excited. They looked at Shen Yifan with passion in their eyes. In just a short moment, the hearts of the Shen family, who were on the verge of falling apart, suddenly came back!

"From now on, Shen Yifan will become the spiritual symbol of the Shen family, the god of wind. Congratulations." Wang sanjue smiled as he watched the scene.

"Where's the joy?" Lin Yi turned.

"With Shen Yifan around, the Shen family of the wind god will follow your lead. Don't be fooled by their appearance. To be able to become one of the top forces in Jianghai city, their background is not much weaker than my Wang family of talismans."

Wang sanjue sighed with envy, ""You've earned big this time. "

"I don't think so," Lin Yi replied noncommittally.

"What do you mean it's not that bad! Think about it, if the wind God's Shen family really doesn't have anything good, why would li songzhang use it first?"

Wang sanjue's mouth twitched."It's just that there's no one in the recent generations who can carry the flag. Otherwise, with his family's Foundation, how could they have fallen to the point of being bullied by people?"

Lin Yi said, deep in thought.

Thinking about it carefully, Shen Yifan was able to turn the tables with his wind God's secret realm. Just this point alone was already a Foundation that most families could not hope to reach.

"Jianghai city has the Wang family of formation talisman and the Shen family of wind god. Within the Academy, there are the repeaters and the freshmen Alliance as the foundation. Furthermore, we have formed an alliance with Banshi Luo and have a close relationship ..."

Wang sanjue couldn't help but suck in a breath of cold air."Tsk, tsk. I wouldn't have known if I didn't count. I was shocked when I did. You're already a giant in Jianghai city!"

This was not an exaggeration at all.

Unknowingly, Lin Yi's forces had grown to a point where everyone would look at him. Even if he didn't make the whole city shake with a sneeze, they had to consider his attitude for many big things.

Without his approval, there were many things that could not be done.

Lin Yi, on the other hand, didn't have the self-awareness of a boss. He smiled bitterly,"Now that you've mentioned it, I'm feeling quite stressed."

It was cool to be a boss, but at the same time, he had to consider his underlings and earn benefits for them. Otherwise, he wouldn't last long.

He was used to being a loner in the past, and at most, he made a few friends.

If something really happened, he could escape at any time. At least, it wouldn't be a problem for him to stay out of trouble.

But now, if he still had such thoughts, not only would he be incompetent as a boss, but he would also harm his own people.

"With great power comes great responsibility."

Wang sanjue said a famous line that was widely circulated in the secular world. It had to be said that this Grand Elder of the talisman Wang family must have watched a lot of movies.

Lin Yi rolled his eyes, speechless.

Pa! Pa! Pa!

At this moment, a round of applause could be heard. Li MUYANG raised his eyebrows and said, ""The wind God's manifestation? You seem to have some skill. Very good, you've piqued this young master's interest, so I'll give your wind god Shen family a chance. "

Everyone turned to look at him.

"Hand over the wind God's materialization technique, and I can represent my father to say that we'll let you live."

These words came out of li MUYANG's mouth in a natural manner. With his background, it had always been like this when he asked for something from others.

To him, this wasn't stealing through trickery, but rather, paying Tributes out of compassion.

He wouldn't even spare a glance at ordinary things that were presented to him. For him to take the initiative to speak, at least from his point of view, this was already giving the Shen family a lot of face.

Especially now, whether the Shen family of the god of wind lived or died was all in his hands.

However, it was clear that not everyone had this self-awareness, and not everyone could see the so-called situation in his eyes.

Everyone in the house glared at him.

The other guests were also stunned. The wind God's materialization was definitely the Shen family's core inheritance. Other than the family head, even the core disciples of the Shen family might not be able to come into contact with such a forbidden technique.

Only the young master of the city Lord's mansion could have such an attitude.

Chapter 9762 Power

"So you're saying that I should be grateful to you?" Shen Yifan said with a half-smile.

Li MUYANG replied nonchalantly, "it doesn't matter if you're grateful or not. It's just a fair trade to exchange a secret technique for the safety of your family. After all, there are so many people in your Shen family. It's not a loss, right?"

"What if I say no?"

"Hehe, you have to have the right to say no in front of me."

Li MUYANG looked at him as if he was looking at an idiot. ""You can't be so naïve as to think that a waste like Shen Ming is my trump card, right? When did my city Lord's mansion become so cheap in your eyes?"

At this moment, Shen Tianyang forcefully spoke up from behind, ""So, this time it's not the revenge of Shen Ming, the abandoned son of the family, but the public execution of the Shen family?

May I ask, what is the reason?"

The guests started to discuss among themselves.

Although it was obvious that the city Lord's mansion wanted to take action against the Shen family of the wind god, it was just a cover for Shen Ming.

But even so, Shen Ming's name of revenge was indispensable. This was called a good cause.

From the perspective of the various forces, it was understandable that the city Lord's mansion would support Shen Ming. Even if the essence was still the same, at least it proved that they would abide by the rules on the surface.

If they didn't even want their reputation and didn't even follow the rules on the surface, then it would really make people panic.

Li MUYANG choked on his words.

Although he had never paid any attention to this group of people, this matter concerned the overall situation, so he really couldn't just randomly answer.

If he ruined the big plan with a single sentence, no matter how much Li Songzhang doted on him, he would be embarrassed. After all, the city Lord's mansion did not belong to Li Songzhang alone.

"You want reason?"

A man in a gray cloak landed in the middle of the field and looked at Shen Tianyang and the others indifferently. "Shen Ming is my disciple. Since you killed him, I can kill you too. Is this enough?"

"Who are you?" Shen Tianyang's face changed.

"Heavenly King, God mu."

Wang sanjue's voice came from the side, full of solemnness, ""Li songzhang has two trump cards in his hands. The young king is Qin Renjie's Reaper squad, and the king is this person's Heavenly King squad."

As soon as these words came out, everyone present was shocked.

Qin Renjie's Reaper squad was already enough to make people keep quiet out of fear. God MU's Heavenly King squad was even more mysterious, rumored to be even stronger than the Reaper squad. And God mu himself was widely known as the number two expert of the city Lord's mansion, only second to the city Lord li songzhang!

This person's head and tail were always elusive, and he never easily showed himself. He didn't expect to actually see his true appearance today.

The entire Shen family was on guard.

Shen Ming alone had almost destroyed their family, and it was Shen Yifan who had rushed back to save them. Now that a Heavenly King Mu Shen, who was more than a hundred times stronger, had appeared, how were they going to fight?

Even though they had just witnessed the wind God's materialization and had unprecedented confidence in Shen Yifan, it still depended on the person.

No matter how powerful Shen Yifan's manifestation of the wind god was, he was only a Big Shot at the peak of the middle stage of the consummate level. It was impossible for him to stop God mu. He did not even dare to dream of such a thing.

"If anyone feels that this is not enough, I can say another one."

Mu Shen's indifferent gaze swept across the crowd. Those who met his gaze lowered their heads, not daring to meet his eyes.

He was afraid that if he looked at her incorrectly, she would misunderstand him, and that would be a big joke.

"I don't think it's enough," Shen Yifan said.

"....."

Everyone choked. Some timid Shen family members almost peed their pants in fear. Their respect for Shen Yifan immediately turned into resentment.

So openly fanning the flames, was he afraid that the Shen family would not die fast enough?

Mu Shen's face was still indifferent, but he raised a finger and pointed at Shen Yifan. "You don't even have the right to be killed by me."

After he finished speaking, an invisible fluctuation burst out from his fingertip.

Shen Yifan's eyelids twitched, and he instantly activated the impermanent steps. As he dodged his opponent's finger in the air, a wind god arrow appeared on his longbow and shot out.

The wind started at the end of Qingping.

The momentum of the arrow turned into a breeze and immediately seeped into mu Shen's body.

"You succeeded?"

Everyone in the audience held their breath and focused.

Although they were instinctively afraid of this Heavenly King Mu Shen, they also wanted to take the opportunity to see if the second-ranked person in the city Lord's mansion was really as terrifying as the rumors said.

Soon, a strong wind in the shape of a human appeared behind him. It was the manifestation of the wind god!

In the end, not to mention dying on the spot like Shen Ming, mu Shen was not even scratched. He turned to look at the wind god that had appeared and pinched it with an indifferent expression. ""Fancy."

After that, the wind god was crushed without leaving a single sound.

The entire place was dead silent.

Mu Shen didn't need to do anything else, and the terrifying pressure that naturally emanated from him was enough to make everyone unable to raise their heads. They could only lower their heads to ease up a little.

On Shen Yifan's side, the two shots of the wind God's arrow had already drained most of his strength. His hands were trembling so much that he could not even hold his longbow. It was impossible for him to fire a third arrow.

Of course, judging from the situation just now, let alone a third arrow, even if he shot another 30 or 300 arrows, it would still be useless.

The difference in their levels was too great. Even if the other party stood there, he couldn't break through his defense.

This was not the key.

The key was that mu Shen's finger had not been completely dodged. It had reappeared behind him.

The rest of the people didn't notice it at all, except for Shen Yifan, who felt a chill run down his spine. However, he didn't have any energy left to Dodge at the moment, and could only watch helplessly as the unparalleled power fluctuation approached him.

"Will I die ..."

As this thought flashed across Shen Yifan's mind, a figure suddenly appeared behind him and scolded him, ""Die, my ass."

After saying that, he casually extinguished the terrifying force.

It was Lin Yi.

Lin Yi wouldn't interfere with Shen Yifan's business out of respect for his brother. He knew when to let go and when to help.

The crowd didn't notice the silent collision, but they were surprised to see Lin Yi suddenly appear behind Shen Yifan.

"Lin Yi?" mu Shen was surprised.

"Yeah," Lin Yi nodded.

He was now a highly dangerous figure in the city Lord's mansion. Information about him had been reported to the higher-ups of the city Lord's mansion many times, so it was not surprising that mu Shen could recognize him.

Li Muyang's heart thumped as Lin Yi's gaze swept over him, and he felt an unprecedented urge to run away.

Then, he couldn't help but fly into a rage.

Chapter 9763 Power

Lin Yi used to be a small fry in his eyes, someone he could easily kill with a few words, and he didn't even need to do it himself. Now, in the blink of an eye, Lin Yi had grown to a level where even he had to be afraid of, and even his father had to pay attention to him!

If not for mu Shen standing there, he wouldn't have cared about his reputation and would have run away without a word.

He was very clear on which was more important, his face or his life.

Otherwise, if Lin Yi was just a little more shameless and captured him to threaten the city Lord's mansion, the consequences would be unimaginable.

"You killed Qin Renjie?" mu Shen narrowed his eyes.

"I guess so."

Lin Yi's frankness caused an uproar.

The representatives of the various forces quickly re-evaluated him. To be able to kill Qin Renjie and the death god team, and to admit it directly in front of the Heavenly King Mu Shen, this person's awesomeness had completely exceeded their common knowledge.

However, why didn't such an awesome Big Shot have any sense of existence just now?

They couldn't even remember when Lin Yi came in, and they were all confused.

"Sure, at least I didn't come here in vain today."

As mu Shen spoke, he took out a pair of black gloves and slowly put them on. His aura began to surge wildly.

In an instant, the ground where the wind God's Shen family was located had collapsed by more than ten meters!

The ground cracked open, and the Shen family and the guests were injured.

This was just the power of the aura.

Lin Yi gestured for Shen Yifan and his men to leave. He looked at the demon-like man in front of him with a rare serious expression.

Up until now, he had fought against quite a few powerhouses at the consummate level of the realm, and he had accumulated some experience in dealing with such troublesome characters.

However, the Heavenly King Mu Shen in front of him was different from anyone he had met before.

This person's strength was pure.

Wang sanjue, who was at the side, said with his hands in his pockets, ""If you need my help, just call out. You're welcome."

Mu Shen glanced at him and thought, 'the talisman royal family has such confidence? Hehe, impressive. "

There was no contemptuous expression on his face, but the contempt in his words was obvious.

Wang sanjue did not seem to be angered at all. He said indifferently, ""Your city lord's estate is so awesome, exterminating an entire family just like that. My small formation-seal Wang clan naturally can't afford to offend you. In the past, you should be more cowardly, and there's nothing to be ashamed of.

However, now that you've made a stupid mistake and provoked a strong enemy, don't blame me for stepping on you. "

"A strong enemy?"

Mu Shen shook his head slightly. "He's not that strong. Qin Renjie can't represent the top combat power of the city Lord's mansion. Even if we destroy his Reaper squad, it won't cause much pressure. The city Lord's mansion can easily form another eight to ten squads like that."

These words sounded like bragging. Even if Qin Renjie wasn't a genuine powerhouse at the peak of the realm, he was still a quasi-powerhouse at the peak of the realm.

Even in Jianghai Academy, there were not many people of that level, much less in the city Lord's mansion.

But Lin Yi could tell that it wasn't an exaggeration.

Such a proud and pure person would not even bother to lie, even when facing an enemy like himself.

"So if I kill you here, will the mayor's house feel a little more pain?" Lin Yi smiled.

"You're not worthy. "

Mu Shen's feet burst with power as he spoke, appearing a hundred feet in front of Lin Yi in an instant. His Iron Fist, covered in pitch-black gloves, landed on Lin Yi's face.

Lin Yi exploded instantly.

The entire process was extremely short, so fast that the crowd didn't even have time to blink before the battle was over.

Everyone was stunned.

Only Wang sanjue remained calm. Mu Shen's strength was indeed terrifying, and even he couldn't react in time. It was impossible to say that Lin Yi was killed so easily.

As expected, Lin Yi reappeared in front of everyone, perfectly fine.

Moreover, there were hundreds of them at once.

Clone.

It had been a long time since Lin Yi had used clones on such a large scale. After all, his previous opponents didn't force him to this extent. However, this mu Shen deserved this treatment.

"It's fancy again. "

Mu Shen said indifferently before turning into a shadow again, creating as many clones as Lin Yi had.

Almost at the same time, every one of Lin Yi's clones was hit by the same black fist, and they all exploded, not a single one left.

They cleared the area in an instant.

However, more and more Lin Yi's doppelgangers appeared soon after-there were a few hundred before, and now there were thousands!

Mu Shen's response was as simple and direct as ever. His body flickered into thousands of afterimages, and he punched them all one by one.

The pace of attack and defense on both sides was so fast that everyone watching from a distance could not breathe.

"This is just the appetizer."

Wang sanjue said unhurriedly. Even though he said so, he was also full of fighting spirit and his blood was boiling. Don't forget that he was also a young man.

If it wasn't for the fact that he had to shoulder the entire Wang family, he would have really hoped to have a battle of equal strength. Unfortunately, such a thing was destined to only be a dream.

To be precise, up until now, it could only be regarded as a test and warm-up for both sides.

However, to the people present, just this little warm-up was already unbearable. Most of them couldn't even withstand the slightest bit of aftermath.

If the two of them were to run to their home and start a fight, they would definitely destroy their family in minutes.

It had been a long time since Jianghai city had seen such a high-level battle. People had gradually forgotten how terrifying those top-tier combat forces were. Some people even thought that as long as they were willing to bid, even the top-tier combat forces would do anything for them.

Not to mention others, didn't the talisman King family have one?

However, it was only now that they finally realized how outrageous their thoughts were.

For a time, everyone's thoughts were particularly complicated.

It increased their fear of the governor's mansion, but it also increased their respect for the school. No matter how ill-informed they were, they knew that Lin Yi was one of the five major repeaters, and that there were more than one or two people at his level in Jianghai Academy.

After much thought, the representatives of the various forces came to the same conclusion.

Wall-riding.

At the very least, before Jianghai Academy made its stand clear, they could not fall to the governor's side too early. Otherwise, if the governor's office were to fall, all of them would be in trouble.

But at the same time, they had to think of a way. At least, they could not let the city Lord's mansion forcibly target them, and they would end up in a miserable state where their families were destroyed.

After all, it wasn't easy to ride a wall, especially for small forces. It was a difficult technical job.

Soon, the smart ones among them turned their attention to Lin Yi, who had countless clones.

Chapter 9764 The Power Of The Devil

Since this person was willing to protect the Shen family of the wind god, did that mean that as long as he paid the price, he could also protect these neutral forces?

Although they didn't dare to directly bind it to Lin Yi, most of the forces here were willing to do so if they could get away with it.

Of course, the premise was that he could face the city Lord's mansion head-on. At the very least, he had to be able to suppress the Heavenly King Mu Shen!

"A bunch of idiots."

Although mu Shen looked like a brute with a muscular brain, his mind was very clear. He could sense the mental fluctuations of everyone present at any time, but he was too lazy to care.

This ability was called mind's eye.

However, once this ability was used in battle, it would be a different story.

It was just that he usually didn't use it, because it would affect his enjoyment of fighting.

Just like now.

If he used his heart's eye, it wouldn't matter how many clones Lin Yi created, because he could lock onto the real one in an instant.

At their level, clones had limited use, even if it was a domain clone. Unless Lin Yi could go a step further and create a law-level clone, it would be a new killer move.

Of course, this kind of whimsical thing could only be thought of.

Rule force wasn't like cabbages on the side of the road that he could pick up whenever he wanted. Only by having the opportunity, comprehension, strength, and all other aspects would he have a slight chance of touching it.

As more and more clones were destroyed, mu Shen started to lose interest. He opened his heart's eye and locked onto Lin Yi's position.

He dashed in front of Lin Yi.

To others, this scene might seem like teleportation, but in reality, it was a display of his pure physical strength. He did not use any other abilities, not even the basic movement technique.

"Returning to one's true self, this is the most brilliant movement technique."

Lin Yi, on the other hand, was a little envious.

Every man had an instinctive pursuit of pure power. Although his impermanent steps were brilliant, it was not as simple and crude as the other party's.

However, in order to reach his level, his physical body would need to break through its growth limit at least five times. This required a long period of tempering and accumulation, and it could not be solved by relying on comprehension ability alone in a day.

"You still have the mood to be absent-minded in front of me? Are you trying to provoke me?"

Mu Shen's indifferent voice rang out as countless black fist shadows appeared in front of him. The power of these fists was so shocking that they actually created a series of spatial cracks!

One must know that this was not an independent secret realm.

The space barrier of an independent secret land was relatively fragile, so it was not surprising that a space crack would appear. However, this was the real main space, so the difficulty of creating a space crack was more than a thousand times higher!

The key was that this guy didn't use any moves at all. He was purely relying on his fists to fight.

If the damage from A normal attack was already so terrifying, then the scene would be unimaginable if he used a killer move.

But Lin Yi wasn't going to back down.

At the same time that the other party created a spatial crack, he also gave a small black hole to the other party.

The people watching from afar were completely dumbfounded. Finally, someone woke up and fled without a word. Only then did they finally wake up from a dream and flee in all directions.

A battle between top-tier combatants was not something that ordinary people could watch as they pleased.

If they really wanted to watch this show, they had to be prepared to pay with their lives.

"Now this is interesting!"

Mu Shen was overjoyed. He laughed and punched the black hole, only to be hit in the face by the dimensional turbulence.

If it was an ordinary person, even if they were a Big Shot at the peak of the late stage of the consummate level, their primordial spirit and physical body would have perished on the spot. However, it did not even hurt him!

"As expected, he's also a monster who has mastered the power of rules!"

Lin Yi nodded.

No matter how strong the physical body was, it was impossible to withstand the space-time turbulence and remain unscathed. The only explanation was the power of rules. Only the power of rules of the same level could do that.

However, as to what kind of rules it was and how much he had grasped, he still had to continue probing to find out.

"Again!"

Mu Shen laughed as he dashed in front of Lin Yi again. This time, Lin Yi didn't back off anymore. He activated the five elements ultimate Titan Buddha form and faced mu Shen head on!

BOOM!

The powerful shock wave caused by the collision between the two sides instantly plowed the already sunken ground again.

Although the Shen family of the wind god was not completely destroyed this time, their entire family base was destroyed. Fortunately, as a monopoly of the shuttle industry, they had no lack of spiritual Jade.

As long as the person was fine, rebuilding a family base was a small matter.

Moreover, at their level, each of them had their own secret realm, and the true heritage of their families was hidden in the secret realm. Even if the outside world was completely destroyed, it would at most be a superficial injury.

Just like the Shen family, other than being shocked by this scene, they even felt that they had profited.

After all, they would normally not be able to see a top-level collision of this level in their entire lives. On the small scale, it would be a topic of conversation for a lifetime. On the big scale, some of them might be able to take the opportunity to achieve a breakthrough!

As the pace of the battle increased, the two sides who had passed the probing stage no longer held back.

The battle between the two top-tier combatants had turned into a battle between tough men!

At this moment, conventional combat techniques such as the collision of domains had completely lost their effectiveness. For both parties, the larger the domain, the greater the flaws.

Even Lin Yi's perfect Five Element domain was no different!

Only moves like the ultimate transformation of five elements, which condensed all the power of the domain into one point and exploded, could be put to use.

In fact, even so, it would be difficult to hurt each other.

At the level of a Big Shot's ultimate completion, it ultimately depended on one's control of nomological power. That was the truly fatal killing move. However, the reason why it was a killing move was that it could not be used easily.

Once he made a move, he had to see life and death.

Although the two sides had passed the probing stage, they had not reached the point of life and death. Strictly speaking, this was still a probe, but it was a probe with all their strength.

The five elements Titan Buddha-in this form, Lin Yi was rarely at a disadvantage, even when he was up against existences like the sole King and the fallen Dragon.

However, against mu Shen, other than the first few exchanges where they were barely on par, the rest of the battle was undoubtedly one-sided.

The speed of his opponent's fist was getting faster and faster. The Titan Buddha was forced to retreat, and the light on his body was getting dimmer and dimmer.

"Just this? It's not satisfying!"

Mu Shen was disappointed. He thought that he had finally met a strong opponent after seeing Lin Yi's strong side. He thought that he could finally let go of his restraints and fight.

He didn't expect that it was all for nothing. He hadn't even used his real strength and the other party already couldn't hold on.

Chapter 9765 Power

"Are you very disappointed?"

Lin Yi frowned. In fact, even he himself wasn't too satisfied with the Titan Buddha's shape.

It was true that this was still an extremely powerful physical technique, and it could still kill in all directions under normal circumstances.

But now, his strength was growing too fast, his opponent's level was also rising, the five elements to the extreme killer moves that were useful before were starting to show signs of fatigue.

To be precise, it could no longer be called a killing move.

If he wanted to continue to take on great responsibilities, these moves had to be upgraded and evolved.

Mu Shen suddenly stopped his attack and said, "If you have any other trump cards, take them out. Otherwise, you won't be able to die in peace."

"This is the first time I've seen someone as arrogant as you," Lin Yi smiled.

"Arrogant?" mu Shen raised an eyebrow. "It's not arrogance, it's loneliness."

"Then you won't be lonely anymore."

Lin Yi's body suddenly expanded as he finished his sentence.

It was the fourth time he had broken through the shackles of growth!

God MU's eyelids twitched, and he immediately showed an interested expression, with no intention of interrupting.

Lin Yi's height quickly grew to four meters, and his Titan Buddha form also doubled in size, exuding a sacred and inviolable pressure.

In fact, from the moment he walked out of the land of assassins, he could already break through four shackles.

However, he still wanted to suppress it a little more so that this breakthrough would be more solid and the increase would be greater.

However, he could not do that now.

Unless he wanted to use his trump card to fight to the death with his opponent without fully understanding his opponent's background.

Otherwise, his only option would be to break through on the spot.

"This is interesting."

Mu Shen licked his lips in excitement as he felt the overflowing power under the Buddha's form.

Mu Shen's body flickered, and he once again closed in.

With a loud bang, the ground at the scene collapsed again.

The two fists were locked in a stalemate for a moment before mu Shen was sent flying!

Although he was not sent flying far, it was obvious who was superior!

Feeling the surging power in his body, even Lin Yi himself was shocked, let alone the other party.

He had a faint premonition that the further he advanced, the greater the increase in strength brought by each breakthrough of the shackles of growth.

However, the terrifying increase in strength this time still far exceeded his expectations.

If it was quantified, if the previous increase in strength was ten, then this time it had reached at least three digits!

If the fourth breakthrough was already so exaggerated, then what kind of shocking scene would the fifth or even sixth breakthrough be!

Not to mention in the future, just now, he had already achieved a counterattack, crushing mu Shen with his strength!

"Good! Very good! This is the kind of opponent I want!"

Mu Shen wasn't angry. Instead, he was happy.

This was the first time, the first time since he had officially joined the city Lord's mansion, that someone could finally crush him in terms of strength.

Even the city Lord li songzhang couldn't do this.

"Next, we can finally have a good fight!"

Mu Shen slowly took off his gloves and threw them aside. ""Do you know why I'm wearing this?"

Lin Yi didn't say anything, his eyes focused.

From the very beginning, he had his suspicions about the use of the black gloves.

There was a powerful restriction fluctuation hidden in it, but it was not the auxiliary effect of power enhancement that was commonly known.

If he didn't guess wrong, its effect might be the opposite.

As expected, mu Shen chuckled. "This is a pair of handcuffs, a pair of handcuffs that can lock up 90% of my strength!"

The people who were watching this scene from a distance were in an uproar.

According to this, could it be that he only had one-tenth of his power before?

What kind of monsters were these!

"One force breaks all techniques. In front of absolute power, everything is just fancy tricks!"

Mu Shen laughed as he walked towards Lin Yi.

Lin Yi couldn't help but make a weird expression, "This sounds familiar. What's your relationship with the retained students" quanfu?"

"I remember now. That trash also died in your hands. It's not an injustice at all."

Mu Shen nonchalantly said, ""He's my Junior Brother, the closest kind. "

Although he said this, he did not have the slightest emotional fluctuation. His tone was indifferent, as if he was talking about a stranger.

"No wonder they're the same," Lin Yi raised a brow.

"That trash's talent is too poor. It's an insult to the sect if he's alive. I have to thank you for killing him."

A rare look of disdain appeared on mu Shen's face.

Lin Yi was speechless.

At that time, although quanfu didn't pose much of a threat to him, he was still a monster with a physical body that had broken through the shackles of growth five times. No matter where he was, he was considered a top figure.

In the end, in the eyes of this person, he was just a piece of trash.

If word of this got out, countless people would cry in the toilet, because they couldn't even meet the standard of trash.

"I'm done with the nonsense. Now, I can have a good time!"

Mu Shen burst out laughing.

The two sides clashed again.

However, this time, it was unusually calm. There was no earth-shattering momentum. It gave people the feeling that it was just two ordinary experts exchanging blows. There was almost no technical content.

The crowd in the distance couldn't help but be puzzled.

Only Wang sanjue's eyelids twitched as he cursed in his heart, ""Damn it, both of them are perverts!"

Others might not be able to understand it, but at his level, he could see it clearly.

As their fists collided, spatial fragments kept appearing around them. If this continued, the space would collapse sooner or later!

The collapse of space was a disaster in any place. Even a little bit would form a chain reaction, and even eventually develop into a snowball disaster.

If it was an independent secret realm, it wouldn't matter if it collapsed, but it would recover after a while with the self-recovery ability of the space.

But the origin world was different.

Once a chain reaction really occurred, it would be impossible to stop. Even if the space would recover by itself in the end, the people in this area would all die.

However, the facts proved that Wang sanjue was still overthinking.

The space debris did not spread.

Although mu Shen and Lin Yi were terrifyingly strong, they weren't strong enough to break through the origin world.

There were indeed ripples, but they were just tiny ripples. Even if this world wasn't a sea of stars, it was still a vast Lake.

A few ripples were not enough to affect the foundation.

Even so, Wang sanjue was still frightened.

As the battle went on, both sides gradually became angry and began to use the power of rules.

Lin Yi finally understood the opponent's trump card.

Powerful rule force.

If he were in the common world, Lin Yi believed that this guy could easily become a physics professor.

Other things aside, in terms of understanding of strong forces, this number two figure in the city Lord's mansion, who called himself a Heavenly King, could easily crush most experts in mathematical mechanics.

After all, the other party was at most researching, while he had actual control.

Chapter 9766 Power

In comparison, quanfu, who had broken through the shackles of growth five times, was indeed trash. They were on completely different levels.

Similar to the laws of time and space, the forceful rule was one of the most original laws of the world. Lin Yi estimated that the opponent's control of the rules was about the same as his, around five percent.

However, just this 5% was enough to cause a qualitative change in many things.

Previously, Quan Fu's physical strength was also very terrifying. If he were to concentrate all his strength into one point and unleash it, it would be enough to pose a fatal threat to a Big Shot's ultimate perfection-level top-notch battle prowess.

However, he could not do it.

There were two reasons. One, he couldn't concentrate all his power into one point. Two, he couldn't control such a powerful force and couldn't guarantee that it would hit the opponent.

If it didn't involve the laws, just in terms of the physical body, he was already at his limit.

No matter how hard he trained, these two problems could never be truly solved.

But for mu God, who had mastered the powerful rule, these two weren't a problem. Because he had mastered the powerful rule, he had also mastered the essence of the powerful force!

His current strength was a hundred times more terrifying than Quan Fu 's, but he could still easily condense it.

More importantly, through the mysterious power transmission, all of this would land on Lin Yi's body. Once he was locked on, there was no way to Dodge it. He could only take it head-on.

To a certain extent, this was similar to the law of causality!

Just like now, mu Shen laughed madly as he threw a punch.

Lin Yi had dodged it completely, and no matter how you looked at it, the punch had missed.

The strange thing was that the power of the punch was transmitted through the air, and eventually landed on Lin Yi's back.

Bang! Bang!

The Titan Buddha's form crumbled-this was the first time Lin Yi's Titan Buddha had been destroyed in front of someone!

"Eh? You actually know the rules of space?"

Mu Shen, the Heavenly King, was equally shocked.

Logically speaking, he didn't hold back at all with this punch. According to his expectations, even if he couldn't kill Lin Yi with one punch, he should at least severely injure him.

But looking at Lin Yi's current state, he looked a bit pathetic in his Titan Buddha form, but he wasn't hurt at all.

A mere Titan Buddha wouldn't be able to take the full force of his punch. At most, it could only neutralize one-tenth of the force, and the remaining nine-tenths would fall on Lin Yi himself.

However, the truth was that there was no such thing.

The only explanation was that rules were against rules.

He used the power of the spatial laws to directly transfer the power of this punch into the void.

"It's just a small trick, not a big deal. "

Lin Yi smiled humbly, but it was a mocking smile in the man's eyes.

"He's indeed not simple!"

Mu Shen laughed coldly and raised Lin Yi's threat level to the highest. Even with his pride and arrogance, he had to admit that Lin Yi had the ability to fight him with all he had.

This was the power of the rules of space.

However, if he knew that Lin Yi didn't only master the laws of space, but also the laws of time and wind, he wouldn't think that way.

Even if he was the second-in-command of the city Lord's mansion, he would definitely not hesitate to escape!

Even if he had powerful rules, he had no chance of winning against a monster like this, unless he was at Banshi Luo's level, where he could crush Lin Yi with his control of rules.

Otherwise, he would not know how to win against the most domineering rules of time and space with his powerful rules!

But it was clear that mu Shen had not realized this.

In any normal person's eyes, Lin Yi was at the peak of the middle stage of completion, and it was already a blessing to be able to get even a little bit of space rules!

He didn't even dare to dream of controlling both the laws of time and space at the same time.

The people who were watching the battle from afar were even more confused.

The battle that followed was completely beyond their knowledge. They were all dumbfounded and looked at each other.

In fact, there were many details that even Wang sanjue, a Big Shot who had reached perfection, could not understand, let alone them. Even if they were at the same level as him, even if he had touched upon the level of laws.

But the rules were different, after all, and many things didn't go well with each other. Plus, his control over the rules wasn't as good as Lin Yi's and mu 's!

The clash between the rules of space and the rules of force continued for an entire afternoon, and there was still no clear winner!

Mu Shen was excited to see Lin Yi, and so was Lin Yi.

Both sides were evenly matched!

The people involved were in high spirits, while the onlookers couldn't stand it.

After all, they were not just sitting and watching the battle. At the same time, they had to be on guard against the aftermath of the battle that leaked out. The aftermath of the battle between the two monsters could easily wipe them out.

Only Wang sanjue and Shen Yifan were watching with great interest.

The former's level was obvious. As for Shen Yifan, although he had not touched the level of laws, the wind God's manifestation itself was an alternative display of wind-type rule power. In addition, he had outstanding comprehension, so he would be able to gain something.

BOOM!

With a loud noise, mu Shen appeared on the ground. Before he could get up, a foot was already on his chest-it was Lin Yi.

"You lost," Lin Yi said faintly.

"Lose my ass!"

Mu Shen refused to believe it and immediately struggled to get up. However, for some reason, although he could still feel the endless power in his body, the power was no longer as united as before.

It was as if they had been cut into countless pieces by some powerful and mysterious force, as if they had been locked in individual cages. Each of them kept spinning in place in the cage, but they were unable to break out of the shackles of the cage!

"Impossible! That's impossible!"

Mu Shen still couldn't believe it. He'd been fighting Lin Yi for the whole afternoon, and he knew the limits of Lin Yi's spatial abilities.

With Lin Yi's current mastery of rules, it was impossible for him to do this. After all, Lin Yi's powerful rules weren't lower-level rules, and there was no way he could be one-sidedly crushed by someone of the same level.

"That's the saying of a loser," Lin Yi smiled, "it doesn't really suit you. You should ask me how I did it. "

Although mu Shen was extremely unwilling, he had no choice but to lower his head in the face of reality. He asked bitterly, ""How did you do it?"

"You guess."

The name "Lin Yi" made the second-in-command choke to death.

But as angry as he was, he knew that this was a core card-it'd be stupid if Lin Yi just revealed it to him and gave him a chance to break it.

Chapter 9767

"What will it take for you to tell me?"

It was a very straightforward question-he was completely under Lin Yi's control now, and he didn't have any bargaining power.

Unless they used the city Lord's mansion to threaten Lin Yi.

But from the way Lin Yi admitted to killing Qin Renjie and the Reaper squad, the city Lord's mansion's pressure was probably just a joke in front of this person.

In fact, it wasn't just Lin Yi-the entire Jianghai Academy's elite combat force didn't feel any pressure from the city Lord's mansion at all. It was just that they'd formed a tacit understanding over the years to stay out of each other's business, and rarely crossed the line.

Now that the tacit understanding had been broken, naturally, no one cared about the so-called rules of the city Lord's mansion.

Just like now, Lin Yi was wanted by the city Lord's mansion, and they didn't even care about it.

Now, even the second-in-command of the city lord's estate, mu Shen, had been trampled under his feet. So what if the wanted order was pasted on his face? who in the city lord's estate could catch him?

It can't be that the city Lord, li songzhang, is going to personally take action, right?

It'd be fine if he could take Lin Yi down in one move, but it'd be a big joke if he ended up like God mu.

The entire city Lord's mansion would explode on the spot.

With mu Shen's understanding of li songzhang, he knew that the city Lord wouldn't attack Lin Yi in public, nor would he take such a big risk for a subordinate like him. The most likely thing was that he'd just swallow his saliva and act as if nothing had happened.

Therefore, he could only rely on himself for now.

"Why don't you just jump ship?" Lin Yi said after some thought. "I'll leave you a place in the repeat school. "

Mu Shen's expression turned ugly. ""There's a limit to joking. "

It was true that his relationship with li songzhang was not very close. Rather than saying that they were superior and subordinate, it would be better to say that they were cooperative allies with primary and secondary responsibilities.

He and his team of Heavenly Kings needed a place to stay, while li songzhang needed a strong helper. Both sides got what they needed, that was all.

However, if he were to transfer to Jianghai Academy, it would be a huge blow to the city Lord's mansion and the ambitious li songzhang.

At that time, li songzhang would have to kill him even if he wanted to calm the people down!

If he, the traitor, did not die, the city Lord's mansion's prestige would be completely ruined and they would become the laughing stock of the entire Jianghai city!

"Then I'll change my condition-you'll stay in the city Lord's mansion, but you'll have to be My Spy when necessary." Lin Yi smiled.

"What?" mu Shen's expression changed, "you're eyeing the city Lord's mansion?" Is this your idea or Jianghai Academy 's?"

Lin Yi alone was already this terrifying, far beyond his expectations.

If the Jianghai Academy really set their sights on the city Lord's mansion, the mere thought of it would send shivers down his spine and numb his scalp!

"It doesn't matter whose idea it is, just tell me if we're doing it or not." Lin Yi said with a half-smile.

"I won't do anything that would harm the city Lord's mansion."

Mu Shen snorted.

Lin Yi smiled, "don't misunderstand. I'm not targeting the city Lord's mansion right now. I'm just preparing for the future."

"What do you mean?" mu Shen was confused.

"I'm not asking you to betray li songzhang right now. What you need to do is simple. Go back and do nothing, just do as you normally do, and observe li songzhang's movements. I don't think that's too much for you, right?" Lin Yi said meaningfully.

"....."

"If that's the case, I won't make things difficult for you. But it can't be that simple, right?"

"It's not as complicated as you think. "

"You're not on the same side as li songzhang. As long as you pay attention to him and don't let him fool you, you'll part ways sooner or later. "

"Hmph!" Mu Shen snorted coldly. "Don't use such a low-level method to sow discord. The tacit understanding between the city Lord and I isn't so fragile that a few words from an outsider will cause a crack. You'd better save it."

"Just remember one thing, if you ever find out that you're not on the same side as him, don't tell anyone and contact me," Lin Yi smiled.

"Yes." After a long while, mu Shen nodded. "If that's all you want, I can agree to it."

After he finished speaking, he took the initiative to make an oath with his primordial spirit.

After all, he didn't have any proof, and he'd be worried if Lin Yi let him go just like that.

With the constraint of a primordial spirit oath, if he went back on his word in the future, he would suffer a backlash from his primordial spirit. Even a Big Shot at the consummate level would find it difficult to withstand such a backlash. It could be said to be the most binding kind of oath.

Of course, this was a one-sided oath.

It only restricted mu Shen, but it couldn't affect Lin Yi. Speaking of which, with the tacit understanding they had, it couldn't restrict Lin Yi in the first place.

After all, as long as he let mu Shen go, he would have fulfilled his promise, and mu Shen would have to decide what to do.

"Alright, you can go back now."

Lin Yi said as he retracted his rule force.

Suddenly, mu Shen felt that the countless individual cages that had been separated into different parts of his body had all opened up. The surging energy could finally fuse back into one place, and the feeling of power returned.

Lin Yi raised an eyebrow at the renewed fighting spirit. "Another match?"

Mu Shen was moved. Although he lost to Lin Yi, he didn't think that he was weaker than Lin Yi. He just didn't know his opponent's trump card.

If they really fought again, he might not lose!

However, he wasn't a fool. He could only think about it. Up until now, he didn't even know how he lost. Let alone one more match, even if there were 100 more matches, he would still be a piece of cake.

No matter how much he desired to win, he would not do such a stupid thing that would humiliate himself.

"Let's wait for the future. One day, I will win it back. "

Mu Shen got up from the ground with a cold face.

With a movement of his feet, he instantly jumped out of the center of the battlefield and landed in the middle of the crowd watching the battle in the distance. Immediately, the people who were slow to realize what was going on were so scared that their scalps went numb.

Although it seemed like he had lost just now.

However, their level was too low after all, and they couldn't see the real key to this top-notch confrontation. From the beginning to the end, there was only one person who they didn't understand and felt was impressive.

Such a high-level battle naturally couldn't be understood by normal people. Although it looked like Lin Yi had suppressed mu Shen, it seemed like Lin Yi had won.

But what if it was just a special posture?

What if mu Shen was using this method to exert his strength? what if the truth was that Lin Yi wasn't stepping on him, but was sucking his foot instead? it was just like the star sucking technique in the movies of the secular world, and Lin Yi was the one being controlled?

At the very least, they would be equally matched.

Why else would Lin Yi let him go?

Chapter 9768

According to the destructive scene from before, Lin Yi would've fought to his death if he had the upper hand-it couldn't be that he was afraid of the house, right?

He had even buried Qin Renjie and the Reaper squad, so why would he care about another Heavenly King and Shepherd God?

Mu Shen's face was as black as the bottom of a pot.

His mind's eye could see through the thoughts of the people around him. If these people were just analyzing the outcome normally, it didn't matter even if they ridiculed him in their hearts. With his mindset, he wouldn't care about the attitude of a bunch of weaklings.

However, it was precisely this kind of self-righteous imagination that made him, the person involved, feel particularly ashamed!

A loss was a loss. Next time, he would get it back. Was he, the great Heavenly King Mu Shen, the kind of person who couldn't afford to lose?

Mu Shen couldn't help but want to roar and shake these idiots until they lost their memories, so that they could admit that they had lost!

However, he thought that it would be a little stupid, so he held it in. However, his anger increased, and his aura became stronger and more terrifying.

As a result, everyone was even more determined to make up the story just now.

See, if he really lost, he would have no strength left at this time. How could he still have such a soaring power!

It was indeed the star sucking great skill!

“.....”

Mu Shen really wanted to kill himself.

At this moment, Li Muiyang walked over with a dark expression, "Uncle mu, why don't you take Lin Yi down with such a good chance?"

"I'm already under someone's foot, and you still think I can take Lin Yi down?" mu Shen looked at him strangely.

"At your level, not to mention being stepped on, even if you were dismembered, I'm afraid it wouldn't hurt your bones, right?"

Li Muiyang's reaction was exactly the same as the rest of them. In fact, he was even more professional in his imagination. "My father said that you're invincible in close combat. Even he wasn't sure if he could win against you in close combat, how could Lin Yi be stronger than my father?"

That was impossible.

Lin Yi's strength had become very strong now, this was undeniable, but to say that he was on par with his father Li Songzhang was an exaggeration-that was a dream!

From the battle just now, the only thing he could understand was that Mu Shen had held back.

That's right, as far as he was concerned, it wasn't Lin Yi who let Mu go, it was Mu who let Lin Yi go!

Mu Shen's heart was filled with curses.

'I've lost, so I've lost. Are you all F * cking stupid? why don't you believe me?'

"I don't know if Lin Yi's stronger than the city Lord, but I'm telling you, I can't beat him, at least not now. Do you understand?"

Mu Shen didn't pay any more attention to him after he finished speaking and left with an unlucky face.

Li Muyang looked at his back view, his expression changing. "You can't beat him? You're the second-in-command of the house, someone that even my father fears. You can't beat Lin Yi?"

Hehe, it's fake that you can't beat him. I'm afraid that you really don't want to beat him. "

He had always known that his father was wary of this Heavenly King. Although he was the second-in-command of the city Lord's mansion and his strength was beyond common sense, he had never truly pledged his loyalty to him.

One of the most direct signs was that he didn't hand over the control of team Celestial King!

Qin Renjie's Reaper squad was trained by the city Lord's mansion. Naturally, they were absolutely loyal to the city Lord's mansion.

But the Heavenly King squad was different. It was a team that God mu had brought up himself. In name, they were part of the city Lord's office, and they were even the city Lord's strongest trump card.

However, in reality, all the members of the Heavenly Kings clan were only loyal to mu Shen. As for li songzhang and the city Lord's mansion, in their eyes, they were not so much a superior that they had to be loyal to, but more like pure employers.

Get the money and do the work.

This was the attitude of the entire Heavenly Kings clan.

Although they were on par with the Reaper squad in name and were both the city Lord's mansion's two trump cards, the higher-ups of the city Lord's mansion knew that the Heavenly King squad's true combat power was far above the Reaper squad!

Mu Shen crushed Qin Renjie in all aspects, and the Heavenly King team also crushed the Reaper team in all aspects!

Li Muiyang knew that his father had always been drooling over the Heavenly Kings. He had always been thinking of ways to bring them under his wing. For this reason, he had even offered to let his only son join the Heavenly Kings under an ordinary identity.

Who was Li Muiyang?

In the eyes of others, not to mention joining the Heavenly King squad, even directly taking over the Heavenly King squad was a matter of course.

Everyone could see Li Songzhang's painstaking efforts. At the same time, he had also given up a large number of precious resources to Mu Shen and the Heavenly King squad, including an independent secret realm of the highest grade, so that Mu Shen and the Heavenly King squad would truly be loyal to him.

However, Mu Shen refused.

There was only one reason—Li Muiyang's strength was too weak, and he was not qualified to join the Heavenly King squad.

When he said this in front of everyone, the situation was in a stalemate for a quarter of an hour. The atmosphere was so stiff that everyone thought that Li Songzhang was going to fight him.

However, in the end, li songzhang laughed it off and did not mention it.

However, even though he looked like that on the surface, the knot in his heart was definitely left behind. Even if both parties did not mention it again, the crack was already faintly visible.

Especially in recent years, the Heavenly King squad's frequency of appearance had been decreasing, and their relationship with the city Lord's mansion had become more and more distant. Everyone had a faint premonition in their hearts that this crack would completely split open sooner or later, and it would cause a huge impact on the power structure of the entire city Lord's mansion!

And now, there was another crack on top of the crack.

"Not capturing Lin Yi is a show of force to my father. You're saying that without you, God mu, and your celestial Kings, we can't even handle a Lin Yi, right?"

Li Muiyang glared at mu Shen's back with hatred.

Little did he know that mu Shen had seen through his thoughts.

However, with mu Shen's pride, he would not repeat his words after saying it once. Not only did li Muiyang not have the right to do so, even if li songzhang was standing right in front of him, he would not even bother with him.

As for those groundless selfish thoughts, he disdained them even more.

Li MUYANG looked at Lin Yi from afar and saw that Lin Yi seemed to have sensed his gaze. He jumped in shock and quickly turned around, afraid that he wouldn't be able to leave if he was even a little slower.

Other things aside, he knew that he was no match for Lin Yi right now.

If Lin Yi really didn't care about his morals and took Mu down to threaten the mayor's house, it would be a huge problem for his father!

Luckily, Lin Yi didn't have that intention.

Chapter 9769 Power

He was a decent man. How could a decent man do such an indecent thing?

Of course, another reason was that Li MUYANG was undoubtedly Li Songzhang's exclusive property. The city Lord's mansion might tolerate him for the sake of the overall situation, but if he touched Li MUYANG, he would definitely kill him.

With Lin Yi's current strength, especially after the fight with Mu, he had built up his confidence.

Against the city Lord's mansion, he might not back down.

Even if he couldn't beat li songzhang, li songzhang had almost no chance of stopping him. Having the rule power of time and space at the same time, this was the self-awareness of a top combat force.

However, not being afraid was one thing, and actively provoking the other party was another.

Lin Yi had already predicted that he'd have to fight li songzhang in the future, but it wasn't time yet.

"Old Lin, are you hurt?"

Shen Yifan came up to him. Wang sanjue, who was beside him, said with a faint smile, ""Do you think he looks injured? There's no one else in the entire Jianghai city who can trample God mu under his feet in a one-on-one battle. His prestige is almost reaching the heavens!"

"....."

Shen Yifan was a little embarrassed. He was really not used to Wang sanjue's style.

As the Grand Elder of the talisman House, he'd always treated the old man as an equal, but now he'd put his arm around Lin Yi's shoulder and even treated him the same-wasn't this the difference between an elder and another elder?

Lin Yi smiled, "he's been holding it in for too long. It's his revenge. You'll get used to it, Shen."

"You'll get used to it after a few drinks. "Wang sanjue nodded.

Shen Yifan didn't know whether to laugh or cry, but he wasn't a person who couldn't let go, so he immediately agreed. ""Let's go to my family's Secret realm later. I'm going to get the old master's Secret stash. Let's drink to our heart's content!"

"Don't you have any thoughts about how old man Shen treated you?"Wang sanjue gave him a sidelong glance.

If he was in Shen Yifan's position, he would have distanced himself from old master Shen even if Shen Tianyang would not leave the Shen family, the god of wind. After all, no matter how he looked at it, that old man was not a person who could save himself from trouble.

However, since Shen Yifan had stolen the old man's private collection, it meant that he did not hold any grudges against him. He would deal with him the same way he did in the past.

Shen Yifan smiled bitterly when he saw Lin Yi looking at him. "Which family's elder doesn't have a time when he's being stubborn? if he should give in, then he should. It's meaningless if he really takes everything to heart. It's better to have some smoke and fire in life."

Wang sanjue looked at him seriously for a long time."You can be my grandson. I'm lacking a grandson like you. Really."

"Get lost!"

Shen Yifan blurted out, and even he himself was stunned for a moment. He laughed and scolded,"You were so good at pretending in the past. You don't have any moral conduct of the Grand Elder of the talisman Wang family. Why don't you transfer to our Academy? I'll open a back door for you and let you get a number in the new student Alliance. Your dormitory will be arranged next to ours."

"Bullshit! Xu Anshan has already taken over your new student Alliance's base, and you think I don't know?"

After Wang sanjue finished scolding, he changed the topic."However, your suggestion is not bad. We can forget about the student council. The repeating student's yard is quite big. It should be enough for the Wang family to settle down."

According to his original plan, he was going to put the eggs in two baskets and find a group of family seeds to put in the repeat school. This way, even if something really happened and the talisman Wang family was exterminated outside, there would be a day when they would be rebuilt.

However, after seeing the city Lord's mansion's style of doing things today, he no longer had any hope for the city Lord's mansion to be able to withstand the next great calamity.

It wasn't just because he was weak.

Just from the way Li Songzhang ate, he was definitely not the kind of person who could lead the whole city to live or die.

When the time came, not to mention relying on him to withstand the Great Tribulation, it would be good if he didn't turn around and bite his own people to death.

Knowing that there was no hope, rather than forcing themselves to stay in Jianghai city, they might as well just move to Jianghai Academy.

At the very least, Jianghai Academy would be the final Fortress. That was without a doubt.

If the day came when even Jianghai Academy was taken down, it would mean the end of the entire city. It would be the end of the world for the entire ocean. It would be the same no matter where they went.

Lin Yi looked at him, "you're really planning on doing that?" You're going to throw away the foundation of the talisman formation Wang family in Jianghai city?"

One or two people moving and the entire talisman King's family moving together were two completely different concepts.

Once the talisman Wang clan moved out of Jianghai city, they would have to give up more than just a few things. Not only would they have to give up this large clan estate, they would also have to cut off a large number of clan channels.

It would inevitably cause a disruptive impact on the Wang clan's fundamental business of making talismans.

If they weren't careful, the Wang clan might even lose their position as the Overlord of the talisman making industry and become a second or third-rate clan, never to rise again!

After all, there were more than one or two families eyeing such rich profits.

In fact, even the city Lord's mansion had the same idea.

Once Wang sanjue made this decision, it was no exaggeration to say that it was not as simple as cutting off his own arm, but rather stabbing himself in the back three times!

This kind of courage was really not something that ordinary people could have.

Wang sanjue chuckled. "I've been steady for so many years. It's time for me to be young and frivolous."

"There will be a lot of resistance, right?"

"It's not just big, it might even cause the family to split. "

Wang sanjue sneered.

In the face of benefits, humans had never been able to maintain their rationality. His decision would definitely make the members of the Wang clan give up a large amount of their vested interests, and he was bound to encounter unprecedented resistance.

His greatest enemy wasn't an outsider, but those with vested interests within the Wang family!

"I didn't expect them to have such foresight, but this is a matter of life and death. We can't allow some people to mess around."

Wang sanjue's body emitted a faint domineering aura. "I've been easy to talk to for so many years, but I've been crazy about my youth. At this juncture, it's time for me to be overbearing."

As an expert at the consummate level of a Big Shot, as well as a Grand Elder, if he really wanted to take over the Wang family by force, and if he really had to use the powerful methods of a superior, none of the people under him could contend against him.

However, he had been extremely restrained all these years, which was why Wang Tianwen and the others had the opportunity to jump up and down.

And now, the formation talisman Wang family was about to welcome a new era, an era where in order to overcome this crisis, they had to break the original power structure and have a powerful person lead the entire family through this crisis.

Chapter 9770 Power

"Alright, I'll go talk to the school," Lin Yi nodded.

Suddenly, Shen Tianyang's voice rang out from the side, ""Count our Shen family in."

Lin Yi couldn't help but turn his head, "head Shen, please think this through. Jianghai Academy is not a shelter. No matter which family moves there, you'll have to give a lot of benefits to the school, especially the core business that you're built on!"

At the end of the day, Jianghai Academy was a Holy Land. One had to be at least at the Paragon level to enter the academy. It was not a place where anyone could just move in as they pleased.

Unless they offered a large amount of benefits to satisfy the various factions in the Academy, then they would be accepted.

This was something that Lin Yi couldn't change, even with his current status.

"In the face of life and death, we have to cut our own flesh. The Shen family of the wind god still has this awareness."

Shen Tianyang looked at Shen Yifan and turned to Lin Yi. "From today on, fan 'er will officially take over the position of the head of the Shen family. I'll be counting on young hero Lin to take care of him."

Everyone was shocked by his words.

Everyone turned to look at old master Shen, but he was only carrying the one-month-old baby and did not even look in their direction. It was clear that he had tacitly agreed.

"Father, you don't have to be so anxious, do you?" Shen Yifan was stunned.

"It's not that I'm in a hurry, but there are some things that must be settled as soon as possible. Otherwise, I'm afraid it'll be difficult to say what will happen in the future. "

Shen Tianyang turned around and gave the Shen family a meaningful look.

With Shen Yifan's wind god as a backup and Lin Yi as a top-tier fighter, no matter what shocking decision he made, the Shen family wouldn't dare to cause a scene.

As long as this was passed, even if there were people who opposed it in the future, it would be difficult to achieve anything and would not affect the overall situation.

Of course, the most important thing was that he wanted to use this opportunity to completely bind the wind God's family to Lin Yi.

Shen Yifan was the head of Lin Yi group, and since he was now the head of the Shen family, then the Shen family would naturally be a part of Lin Yi group, and their status would not be too low!

These were all open schemes.

"Mother, they're all smart people. Why don't I have such a son?"

Wang sanjue was halfway through his sentence when he was stopped by Shen Yifan. If he did not guess wrong, this fellow's next sentence would be to be his son.

Shen Tianyang was very pleased to see the two of them messing around, and he looked at Lin Yi with even more gratitude.

He knew very well that Lin Yi was the one who brought him all this.

What kind of person was Wang sanjue?

Even if he had the heart of a youth, he was still the Grand Elder of the talisman Wang clan, an expert at the pinnacle of perfection of a Big Shot. How could he casually mess around with a junior?

Although Shen Yifan was outstanding and was worthy of Wang sanjue's attention, that was all there was to it.

Wang sanjue was using Shen Yifan's identity to get along with Lin Yi instead of Shen Yifan. That was the most important relationship he had right now.

Lin Yi thought for a moment before nodding. "If that's the case, I'll leave a place for the Shen family of the wind god in the repeat school. As for the location, old Shen, you can choose it yourself."

"Alright."

Shen Yifan agreed without hesitation. With his relationship with Lin Yi, he didn't need to be polite to Lin Yi. It would only hurt their Brotherhood if he did.

Shen Tianyang heaved a sigh of relief and continued, "To thank you for saving the Shen family, I, as the head of the Shen family, announce the last decision. We will share the authority of the wind God's secret land with you!"

The crowd went into an uproar again.

With the wind God's family's current situation, it was indeed necessary to get Lin Yi on their side. It wouldn't be strange if they just gave him an independent realm.

However, the wind God's secret realm was different.

This was not an ordinary independent secret realm. The wind God's will was sleeping inside. To any cultivator, being able to enter it was a great opportunity!

Think about it, Shen Yifan had only risked his life to break into it, and he had been reborn to his current level.

One could imagine the terrifying value of the wind god secret land.

It was no exaggeration to say that this was the wind God's Shen family's most important core inheritance, and now it was actually being shared with outsiders. If the Shen family's ancestors knew about this, they might be resurrected from anger.

Even a prodigal shouldn't be so wasteful!

However, Shen Tianyang had taken it out so naturally, as if he didn't think that it was an insult to his ancestors.

Using a part of the Feng Shen secret realm's authority to repay Lin Yi's kindness and at the same time get Lin Yi's sincere acceptance-this was more than worth it in his eyes, it was too worth it.

The wind God's secret realm wasn't an independent secret realm that belonged to the Shen family of the wind god. It wasn't a back garden that he could take as he pleased.

Strictly speaking, this was the same as the killing God's secret land. What was special about the wind God's Shen family was that he had a permanent admission ticket in his hand.

They were not like other cultivators who would fight to the death for a one-time slot.

He was the core descendant of the Shen family, the wind god. People like Shen Yifan could enter the wind God's secret land at any time they wanted.

However, whether they could survive after entering was another matter. Other than this permanent admission ticket, even the descendants of the wind God's Shen family would not get much special treatment inside.

Otherwise, Shen Yifan would not have almost died in there.

If they shared this with Lin Yi, they wouldn't suffer any losses at all. In fact, they could even get Lin Yi's help.

After all, with this connection, Lin Yi would have to help the Shen family when he entered the wind God's secret land.

Of course, it was a good thing for Lin Yi.

Previously, he had only played a supporting role when he saved Shen Yifan, and he had already obtained 1% of the wind-type power rule force. In the future, he would be able to increase his control level after a few more trips.

This was a free instance dungeon that he could enter and exit at any time. To him, it was definitely a profit that he would not lose!

Therefore, Shen Tianyang's proposal was a win-win situation for both parties.

Lin Yi nodded, "Then it would be impolite of me to refuse."

The only people present who were dissatisfied were probably some of the core disciples of the Shen family who thought they had the qualifications to enter the Mystic realm, but were actually rejected outside the door.

However, due to their limited strength, they didn't even bother with Shen Yifan, let alone Lin Yi.

They were just a bunch of frogs in a well.

They didn't even dare to complain in front of Lin Yi-they'd have to be obedient when they reached the repeat division, and they'd be able to calm down in a few days.

Seeing that the Wang family and the Shen family were officially bound to Lin Yi, the other representatives couldn't help but get excited.
