

## **Bodyguard 9811**

Chapter 9811 The End

If both sides of the five Giants suffered losses, it would naturally be a great thing for the group of people under them. At that time, it would be a new situation where all the heroes rose together.

However, if a big winner appeared in the middle and took the opportunity to complete the integration of the losers, it would be a completely different scene.

The reason why the five Giants had been unable to unify the entire repeat Academy, other than the fact that there were too many people in the compound, was that the five Giants were in control of each other.

Once the five Giants reached an agreement, the forces under them, led by the thirteen heroes, had almost no room to resist.

It wasn't that they weren't strong enough. On the contrary, if they really United all the repeaters outside of the Big Five, their overall strength would be terrifying enough to make any top Big Shot drool.

But the problem was, they were a pile of loose sand.

Even the five Giants couldn't make them submit, let alone them.

Hong Baxian's Overlord's Pavilion was considered strong and ambitious. They did all sorts of things before Lin Yi arrived, but it was like throwing a stone into a pond-it only made a small splash and didn't affect the big picture.

For a time, everyone had mixed feelings.

"So that's what you meant by the gathering of the five peaks."

Under everyone's gaze, tyrant stood up with a wine barrel in his hand. He burped and said, ""I thought it was just an ordinary meeting of the five Giants, where they would sit down and chat. It seems like I've underestimated your courage."

"Well, with your personality, you guys won't be as convincing as fighting, right?" Lin Yi smiled.

"That's exactly what this old man wants!"

Yan Chi walked out of the stands with his long sword and looked at Lin Yi, "How do we fight?"

"Let's go together," Lin Yi replied casually, "it'll be more fun that way. How about it?"

The audience was in an uproar again.

It was already a surprise to be able to witness a battle between the five Giants today, and from what Lin Yi was saying, it wasn't even a 1v1, but a 1v2!

"Isn't this a little too much?"

The netizens were already fainting. A one on one battle between the five Giants was already a big scene that was hard to come by in ten years. They didn't expect it to be a one on two battle. They had eaten their fill of melon seeds today.

In the end, before they could properly sigh with emotion, Tianji also stood up on the other side.

"In that case, count me in."

There was dead silence online and offline.

1v3?

Logically speaking, no matter how strong Lin Yi was, he didn't have much of a chance of winning in a 1v2. After all, those two were tyrant and Yan Chi. No matter where they went, they were the top-tier characters.

Now, with the addition of Tianji, although Tianji was known to be an intelligence source and his actual combat ability should not be as good as the other five, he was still one of the five.

Moreover, no one had ever seen Tianji go all out, so who knew how many killing moves he had hidden?

Perhaps, Tianji was the most unfathomable of the five Giants. This was not impossible.

Tyrant, flame pond, and Tianji.

Lin Yi's 1v1 lineup was supported by his previous record, otherwise the internet would've been booing him already. Even if he was overestimating himself, there should be a limit.

Lin Yi looked at Tianji, and just when everyone thought reason would make him reject, he smiled. "That's good. "

"....."

The audience didn't know what to say anymore-they looked at Lin Yi as if he were a God, waiting for the unprecedented performance to come.

Of course, to li Muyang and the rest, they were waiting to see how he would die!

Even the number one person in Jianghai city, Li Songzhang, was secretly looking forward to Lin Yi's fight with the five retained students.

It was said that at Lin Yi's level, as long as he didn't make a fatal mistake, he wouldn't be killed on the spot even if he was at a huge disadvantage, but what if?

Even if both sides were injured, it would be a great profit for him!

After all, Lin Yi wasn't a good person, and neither were the people from the repeat division.

"If I remember correctly, the last time King Du was in trouble, it was the same situation. But don't get it wrong, we were just giving you a symbolic greeting. We didn't mean to get serious."

Tyrant threw the barrel in front of Lin Yi.

Lin Yi took it with one hand and laughed as he finished half the bucket in one go. "That's why we're going to fight to our hearts' content today!"

Of course, he knew that the other party wasn't trying to regain his face. In fact, with Tyrant's character, he wouldn't care about this so-called face at all. The other party was just stating a fact.

"Then let's cut the crap and start."

Yan Chi grunted and immediately raised his long saber to attack. He was the oldest one present, but he was definitely not the calmest one.

On the contrary, his temper was like a raging fire. He was famous in the entire Jianghai city for his bad temper when he was young. At one point, he had caused a great disaster. If it wasn't for the legendary chief of Affairs, he wouldn't have lived until now.

Even now, he seemed to have restrained his temper a lot, but in fact, he was still a Super Powder keg that could explode at any time!

He slashed out.

A pillar of fire shot up from Lin Yi's feet, and with tyrant's wine barrel, it formed an unexpected combination. Lin Yi fell into the sea of fire.

No matter how fast he moved, the pillar of flames under his feet was like a deep-rooted gangrene that could not be shaken off. With the help of the thousand-year-old tyrant's fine wine, the place had become a large-scale cremation site!

"Lin Wu is in great danger!"

The crowd didn't believe that Lin Yi would fall so easily, but they were worried for him.

A streamer explained, "the signature domain of the flame pool is the Hellfire. As long as you have sinful karma, you can't escape the burning of the Hellfire. Now, with the tyrant's thousand-year-old wine, the power of the Hellfire has at least doubled!"

"If it was Zhao Rikun just now, I'm afraid he would have been burned alive by this!"

"Let's see if Lin Wuju can successfully escape. If he really can't escape, the karmic sinflames will continue to follow him. Even if he can withstand it for a short period of time, it will still cause fatal damage in the long run!"

To most of the experts, this move alone was already unbeatable.

Lin Yi, however, was an exception.

With a thought, the flame pillar under his feet and the Hellfire on his body suddenly withdrew in an extremely strange and abnormal manner, while his body remained intact.

Time backtrack.

The audience was dumbfounded, especially the online players.

Their knowledge was still stuck in the Grand scene of the various elemental domains opening and closing.

Just like how the old farmer imagined the emperor's family's Golden Hoe, the five Giants in their eyes must be earth-shattering, their lethality and coverage were beyond their imagination, but their nature was not much different from the domain masters below.

As for rule force, he had never heard of it.

Chapter 9812 Power

Little did they know that this was the correct way to use top-level combat power. This was the power of rules. No matter how powerful and unsolvable a domain was, once it encountered rules, it would be crushed directly due to the difference in power level. Not even a splash would be left behind.

Just like now, the signature Hellfire domain of the flame pool, even with the tyrant brew, was nothing in front of Lin Yi's time rule.

As long as he could turn back time, everything he had done before would be in vain.

"This is a battle between two top-tier combat forces!"

The thirteen heroes and other high-end combatants on the sidelines, who were able to touch the edge of the field, raised their spirits and cast away all distracting thoughts. They focused on every detail on the field, hoping to get some inspiration from it.

Even in a sacred place like Jianghai Academy, rule bending power was a secret. Other than Lin Yi, who was lucky enough to receive half-master Luo's favor, no one else would teach him this.

Every bit, every drop, they had to rely on their own powerful comprehension to comprehend and explore, at the same time they also needed a great opportunity!

As long as any of them could get the slightest bit of inspiration, today's show would be worth it. Even if their own forces were incorporated on the spot, it would not be a loss.

This was something that could not be bought with any amount of spiritual Jade.

"This isn't a real battle yet," someone said, shaking his head. "It's just a probing greeting."

"You're right, but this way of greeting will kill 99% of the repeaters. People are really different!"

Before he could finish his sentence, Lin Yi's eyelid twitched as he used time rewind to get rid of the Hellfire. The pillar of fire rose up from his feet again, and the Hellfire wrapped around him.

"What is this?"

Those who reacted faster immediately turned to look at Tianji, who was still silent, ""The only thing that can defeat the rules is the rules. He must have made his move."

Everyone knew that Tian Ji's signature domain was x-ray vision.

However, his x-ray vision was completely different from the understanding of ordinary people. Ordinary people's x-ray vision was nothing more than seeing the substance through the surface of an object, nothing more than a kind of ability to see through things. However, he could see through the past, the future, and all the trajectory of cause and effect.

To be more precise, this was no longer a domain, but a true law.

The law of karma.

Everything had a cause and effect-as long as the path of karma was locked, Lin Yi couldn't completely avoid it even with his time backtrack. The reason was simple-the laws of karma were top-tier laws like the laws of time.

In addition, their grasp of the rules was on par with each other. Once the two sides collided, they were bound to be evenly matched.

There was even a faint restraint of karma over time, but it was not as obvious as the restraint of the five elements.

"This move again."

Lin Yi was already prepared for this-he'd seen how strong Tianji was during the solo King incident, after all. There was no way he'd be able to Dodge an attack as long as Tianji was there, and he'd have to take it head on.

The Hellfire was burning on his body. If it was in the game interface, it would be equivalent to him suffering a powerful negative state. His health was dropping madly at all times, and it was by a percentage!

After all, Yan Chi was an extremely experienced veteran of the five Giants. Even if the Hellfire domain was only a domain, it was still fatal once one was hit.

Moreover, the biggest threat he was facing now was not just this.

In terms of damage output, although Yan Chi was strong, he wasn't the strongest.

Tyrants were publicly acknowledged as the most terrifying Kings of destruction!

It was rumored that in the battle when he advanced to the giant five, a burst of brilliant fist directly shattered the secret realm under his feet. The huge secret realm that enveloped the repeat students was in such a state today, and he took at least half the credit!

As barrel after barrel of thousand-year-old fine wine went down tyrant's throat, his terrifying aura surged at an unimaginable speed. The wine pool domain's power was being condensed into his body.

"The special thing about the wine pool domain is that it can store the power of the past in the form of fine wine. Every barrel is equivalent to the tyrant's full power!

Therefore, every time he drank a bucket, it was equivalent to transferring all the domain power he had accumulated in the past to himself.

To put it bluntly, every time tyrant drinks a barrel, his territory power will double. The more he drinks, the greater the increase. In theory, there is no upper limit!"

As the livestream was being explained, a bullet comment suddenly asked,""How many buckets has he drunk now?"

"....."

For a moment, no one could answer.

In their impression, tyrant seemed to have been drinking bucket after bucket from the moment he entered the arena, almost never stopping.

"About a dozen barrels?"

"More than a dozen barrels. Didn't you see his perverted way of forcing himself to drink? even the most conservative estimate would be thirty barrels!"

"It's a pity that the streamer doesn't have a camera that's always on him. Otherwise, we'd be able to count him just by watching the replays."

Everyone felt that it was a pity. It was only at this moment that they realized what had happened and were shocked. If that was the case, could it be that the tyrant had been preparing for this battle since the first moment he entered the arena?

What kind of scheme was this!

"Looking at the big-bellied man's rough appearance, he's also a scheming old bastard. If it was a more simple-minded person, wouldn't he be deceived miserably?"

"How naive. At that level, how could there be anyone who is simple-minded?"

"Tyrants aren't as simple as they look, but you guys seem to be overthinking it. It's always been a tyrant's habit to drink wherever he goes. It's not just like today."

Everyone came to a realization.

It was no wonder that whenever he saw a tyrant, he would always be surrounded by extravagant women. It turned out that this was not just for enjoyment, but to maintain his strength at the peak at all times!

In other words, he had at least dozens of times more territory power gathered in his body at all times, and he never relaxed for a moment.

This was the awareness of the top five Giants.

Tyrant looked at Lin Yi. He couldn't hide his drunkenness anymore, but his tone was serious like never before, "You might die from this punch. Be careful."

"Come on."

Lin Yi was on high alert as he endured the Hellfire.

Lin Yi wasn't exaggerating-it wasn't as if he'd never fought a top-tier Grandmaster before. The mayor's God mu was the closest one, and with the support of the rules, that guy's fist was the scariest one he'd ever seen.

However, when compared to tyrant, his intuition told him that mu Shen was at least an order of magnitude lower in terms of killing power!

This wasn't to say that mu Shen was weak-if Lin Yi were to evaluate them, they'd probably be on the same level.

However, the styles of the two were completely different.

Chapter 9813 Power

Heavenly King Mu Shen threw out a punch after punch. Although each punch was powerful under the enhancement of the powerful rules, it was more of a continuous output.

He could fight with the wind and the wind.

One punch for one kid, and if he was forced into a passive position, he'd be able to defend and counterattack like a mountain-just like last time, even if Lin Yi won, it took him half a day.

However, the tyrant was different.

He made an ultimate outburst, a pure one-shot deal. A burst of brilliant burst fist that was dozens of times stronger was thrown over, and even Immortals would not be able to block it.

However, if he could withstand this punch, the situation would be reversed instantly.

It wasn't that tyrant wasn't strong in his normal state-he was at least at the peak of the average level, but he was far from his peak state. He was like an ordinary person, and the threat he could pose to Lin Yi would be very limited.

The problem was, who could withstand this punch?

Not to mention Lin Yi, even someone on Banshi Luo's level would have a hard time dealing with it. The best way to deal with a fist of ten times explosive brilliance was never to take it head-on, but to Dodge it.

There was no such thing as a perfect move in the world.

The more powerful and terrifying a move was, the greater the drawbacks behind it. The biggest weakness of the ten times brilliant burst fist was its hit rate.

If it was against an ordinary opponent, tyrant would not need to use his full strength. A single burst of brilliance fist would be enough to solve the problem. If the opponent was stronger, he could at most use five or ten times. His hit rate would naturally be guaranteed.

However, once the multiplier was increased to dozens of times, the power would be so great that even he himself could not fully control it, and the hit rate would plummet.

At most, he could only guarantee 70%!

A 70% chance of winning wasn't low at all. If it was someone else, tyrant would've made the bet without hesitation, but Lin Yi was a man who had mastered both time and space. He couldn't afford to be reckless.

Fortunately, this fatal flaw had been exposed by Tianji.

With one punch, everything around Lin Yi was destroyed.

Not to mention the already shattered field, even the surrounding secret realm space had collapsed into a mess. For a short moment, it had actually been forcefully shattered into nothingness.

The laws of destruction.

It was a top-notch rule like time and space, a terrifying rule that stood on the opposite side of all other rules. The meaning of its existence was to wipe out everything in existence, leaving nothing behind.

Lin Yi was gone, and the space he was in was gone as well.

“.....”

Everyone couldn't help but open their eyes wide, staring at the entire area, looking for Lin Yi's possible landing point.

But one breath passed, two breaths passed, and even half an incense's time passed, Lin Yi still didn't appear.

"Lin Wuju isn't really dead, is he?"

Finally, someone said this sentence. The scene immediately buzzed, and the Internet was in a state of shock.

Everything had ended too quickly, so quickly that no one could react. They had thought that an unprecedented show was slowly drawing its curtains, but unexpectedly, it had already come to an end before the curtains were completely drawn.

But no one said Lin Yi was weak.

Lin Yi was strong, and even the most brainless Blackie had to admit that. It wasn't just an insult to others, it was an insult to their own intelligence as well.

However, they couldn't stand up to the strong lineup of the three Big Five!

Tyrant and flame pool were great too. These two top-tier damage-type combatants were a perfect match for heaven's secrets. Heaven's secrets's existence had turned their strength into real damage!

Especially tyrant. After his explosive brilliant fist that was dozens of times stronger was assisted by Tianji, the two of them were simply a natural-born pair of God-killing duo.

If there really were Immortals in this world, I'll kill them for you to see!

"Don't worry, elder Lin will be fine. "

Shen Yifan looked at the crowd and comforted them. However, even he, who had the most confidence in Lin Yi, was starting to panic.

He had control over both space and time laws-other things aside, Lin Yi was one of the strongest life-saving fighters, without a doubt.

However, against such an abnormal combination, it was completely reasonable to lose.

Failure meant death.

Yan Zhongyuan and the others were well aware of this, but they still nodded silently. Even Wei baizhan, who seemed to be the least loyal, had no objection.

On the contrary, his eyes were frighteningly bright. At this moment, he was even more certain than Shen Yifan and the others.

The others surrounded Lin Yi out of trust, but he did it out of respect.

Most of the time, this kind of biological instinct was far more sensitive than human emotions!

Sure enough.

Just when everyone thought that the dust had settled, a familiar figure suddenly appeared behind Tianji, followed by Lin Yi's calm voice, ""Did you predict that I would appear here?"

Before he finished speaking, he kicked him.

Tian Ji's eyelids twitched and he couldn't help but feel shocked. He could see through the past and the future. He could calculate the trajectory of all karma, but he couldn't predict this scene.

Lin Yi was like a human-shaped black hole in his eyes-all information only went in, but not out. He was an outsider, so he couldn't see anything at all.

Without the information, there would be no path of karma. He'd lost his most important trump card in front of Lin Yi.

His rules of karma were no longer effective on Lin Yi.

"Impossible!"

For the first time, Tianji, who had always been able to see through everything, revealed a look of disbelief in front of everyone. Whether it was the rules of time or space, they were all restrained by karma to a certain extent.

It was true that Tianji couldn't use karma to deal with Lin Yi like how he dealt with the others.

After all, space and time were two top-tier laws, and even if they were countered, it would only be a weak counter. These two, in turn, could affect karma, so Tianji's biggest weapon against Lin Yi was to lock on and hit him.

He couldn't take on Lin Yi alone, but with tyrant, this human-shaped killing weapon, at least in theory, it was enough to completely destroy Lin Yi!

The previous scene had indeed proved this point.

But now, everything had suddenly lost its effectiveness.

BOOM!

Tianji was kicked into the ground under everyone's shocked gazes. The power was so terrifying that the entire school of retained students' secret realm kept shaking.

"Are my eyes playing tricks on me?" someone suddenly exclaimed. Why did the karmic sinflames on Lin Wuju's body change color?"

Only then did the crowd react.

The Hellfire in the fire pool was dark purple before, but the fire covering Lin Yi's body now was pure black. It looked similar at first glance, but if you looked closely, you'd realize that it wasn't the dark purple from before.

Chapter 9814 The End

Black flames.

The black flames on Lin Yi's body were still growing, as if he was wearing a black cloak.

From Yan Chi's shocked expression, he could tell that this wasn't his doing. His Hellfire couldn't turn black no matter what, and if the black fire on Lin Yi was really Hellfire, he could sense it.

However, he didn 't.

In other words, the Hellfire that he couldn't get rid of had been completely replaced by the black flames. It had even been eliminated.

"Impossible!"

The same three words came out of Yan Chi's mouth again.

The so-called karmic fire was the fire of sinful karma. As long as there was sinful karma in a person's body, the karmic fire would never cease to grow and could not be eliminated.

Even the most harmless of ordinary people couldn't avoid being burned by karma, not to mention a Big Shot like Lin Yi who killed without hesitation. No matter what the reason was, as long as he killed, the sins he committed would be a thousand times more than ordinary people.

How could he possibly eliminate it?

Yan Chi didn't believe it. He immediately slashed again, but this time, it wasn't just the power of the Hellfire domain.

An extremely pure dark purple flame instantly enveloped Lin Yi.

Those with sharp eyes immediately noticed the difference, but only those who were truly at the top of the hierarchy understood what the flame pool was doing.

He used his rule force.

The law of sin.

A level two rule that existed specifically to judge the sins of the world. Although it was a level lower than the top rules such as time, space, karma, and destruction, it was not completely without a fighting power.

This was because his control over the rules of the flame pool had already reached ten percent, the highest in the entire arena!

Compared to Lin Yi's time and space rules, which had 5% of his total control, it wasn't an overwhelming advantage. However, the double control was still enough for him to have the upper hand in the clash of rules, making up for the disadvantage of the rules.

However, when the pure dark purple flames landed on Lin Yi's body, they were immediately assimilated by his black flames. Other than making his Black Flame Cloak stronger, there was no other effect.

Like a clay ox entering the sea, there was no response at all.

"How is this possible?!"

Yan Chi couldn't help but mumble at this scene. He was the oldest of the five and had seen the most. There were very few things in the repeat Academy that could move him.

Yet today, Lin Yi's performance had changed his perception time and time again.

Tianji was even more shocked than him.

He was caught off guard by Lin Yi's attack just now, so he didn't fully react. Now that he was watching coldly, he should be able to see it more clearly.

At the very least, with the collision of laws, his Karmic Insight should be able to see some clues.

But there was nothing.

Lin Yi, who was surrounded by the black flames, was like a human-shaped black hole in his eyes. He couldn't see anything at all, and he was even forced to use his long-lost intuition.

"This is not a rule."

Hearing Tianji's mumbling, tyrant and Yan Chi's expressions changed. "That's impossible! Only rules can go against rules. This is an iron law!"

The suppression of rules over domains was not a result defined by humans. It was an objective fact concluded by all top combat forces.

This was just like how there was darkness when there was light. It was natural, and there was no possibility of it being subverted by man.

If someone could really overturn the underlying logic of this world, it could only mean one thing: this person was the God of creation.

Of course, Lin Yi wasn't a God of creation, but what was happening to him had completely overturned the iron laws they knew.

It was hard to believe, but there was no rule force fluctuation on Lin Yi's body. Tyrant and Yan Chi could see it clearly.

Tianji himself might be deceived, and there was a possibility that he was wrong, but it couldn't be that the three of them, the old five Giants, were all wrong, right?

"If it's not a rule, then what is it?"

This huge question was completely beyond the scope of their understanding for the other onlookers. They could only feel that it was amazing.

At the same time, Lin Yi's invincibility aura increased by another layer!

Even if the battle had not ended, to be able to force three of the five Giants to stop and even reveal shock on their faces was already an unprecedented victory.

Even for those who had seen Banshi Luo and the ocean King fight before, Lin Yi was starting to look up to them-he was about to become a transcendent existence above the five!

In fact, it wasn't just Tianji and the others who were shocked. Even Lin Yi himself was surprised.

An ultimate perfect domain actually had such an exaggerated effect!

That's right, the layer of black flames on his body was none other than the manifestation of the ultimate perfect domain!

The second-rate houses in Jianghai city had sent him a perfect plant-element domain stone before the battle, and he had all the perfect domain stones he needed now. He went into isolation without a second thought.

With the help of the nine-story glazed Pagoda's time flow, even though time was tight, he was still able to successfully cultivate perfect domains of various elements.

After all, he was already very familiar with this kind of thing and it really wasn't challenging at all.

This was especially so after he had entered the law realm. His understanding of domains was like a towering building, becoming clearer and deeper. Naturally, there would be no difficulty in cultivating them.

The real problem was how to merge these domains into the already perfect five elements domain!

Lin Yi thought that he'd be stuck at this level for a long time, and was prepared for a long battle. If things didn't work out, he'd just wait until the battle was over before continuing.

In any case, with his strength in the time and space laws, even if he couldn't crush everyone present, it wouldn't be a problem for him to at least intimidate the other three old five Giants.

The result was beyond his expectations.

With the foundation of the perfect Five Element domains, he only needed to try a little and the other five perfect domains would merge into it on their own. Lin Yi didn't even need to guide the whole process-he just stood by and watched.

It felt like a chemical experiment. As long as the reaction material and the catalyst were put in, the rest would be completely spontaneous reactions that didn't need to be man-made.

Lin Yi was surprised, but he didn't think much of it.

Now that he thought about it, this point alone already showed how extraordinary the ultimate perfect domain was.

Unlike other domains, which were the result of human cultivation, it was more like a rule power. It was born with it and was a part of the world.

What a cultivator had to do was not to create them, but to gain a deeper understanding of them, understand them, and then master them!

Chapter 9815 Power

Just this point alone had already indicated that the ultimate perfect domain was not the enhanced version of the domain that was known to be ordinary, nor was it the legendary invincible domain, but an existence on the same level as rule power.

Only rules could defeat rules. This iron law had not been broken.

Although the ultimate perfect domain was not a rule in the traditional sense, it was indeed a power on the same level as the rule. There was no doubt about it.

Before this, Lin Yi didn't have a clear idea of what level an ultimate perfect realm could reach.

But now, after experiencing the laws of karma, destruction, and sin, he finally had a rough idea of what kind of existence this was.

From the perspective of an opponent like Tianji, this was a black hole of laws.

Whether it was top-grade rules with single-digit control or second-grade rules with double-digit control, they were all useless in front of it. From the performance just now, they would all be swallowed up!

However, in reality, that was not the case.

As the owner of the domain, Lin Yi could clearly feel that the black flames weren't just devouring the rule bending power like a black hole. It was more like some kind of nourishment, combining it into his body.

At this moment, he could faintly sense the traces of the laws of destruction, karma, and sin in the battle of the ultimate perfect domains. Although they were not obvious, they did exist.

To a certain extent, it was more like a regular collector.

As for how much rule power could be absorbed, how high the upper limit was, and what kind of subsequent changes would occur after the various rule powers were collected, all of these were still unknown and needed to be further explored and verified.

However, Lin Yi's intuition told him that if he wanted to dig out the potential of the perfect domain, he had to find a way to collect as much rule force as possible.

When he reached a certain limit, there might be some unexpected qualitative change and evolution.

"Collecting and nurturing? this style is quite in tune with the ultimate perfect domain."

Lin Yi laughed to himself. The origin of the ultimate perfect realm was to combine all the elements and ten attributes together, not missing a single one. He didn't think that he would have to continue on this path after forming it.

However, collecting rule power was much more difficult than collecting a perfect domain with five elements and ten attributes.

Firstly, there were only so many top combat powers who had truly mastered rule bending power. The combined strength of Jianghai Academy and Jianghai city was only about 20 to 30 people.

More than half of them had been living in seclusion all year round, unlike the five giant students from the repeat students 'compound who were so close to the water. If the timing was not right, they would not even be seen.

Secondly, the rules were not as fixed as the attributes of the spiritual roots. Although there were top-grade rules, second-grade rules, and third-grade rules, no one knew how many rules there were at each grade.

Even Banshi Luo admitted that he had no concept of this.

So even if he knew what he should do next, he still didn't know how far he could go. He could only take one step at a time.

But no matter what, the ultimate perfect domain was still a huge surprise.

Not to mention anything else, just the fact that he could devour rule force alone was enough to make him naturally undefeatable when facing most rule force experts!

"Do you still want to continue?"

Lin Yi glanced at Tianji, tyrant, and Yan Chi. If he didn't have his perfect domain, he wouldn't be able to tell who would win in the end, but there was no doubt now.

At least, before the three of them could come up with a countermeasure that could effectively restrain the ultimate perfect domain, there would be no more suspense. The scene would only become a one-sided beating.

"Are we going to shake hands and make peace?"

The spectators, on the other hand, didn't understand what was going on-from their point of view, Lin Yi had at most dispelled the first wave of attacks from the three veterans, and it wasn't enough to determine the winner yet.

Tyrant, flame pool, and Tianji had yet to use their full strength.

Wasn't it a little too early to say that this would determine the victor?

Tyrant gulped down a barrel of wine and laughed,""Of course I'll continue. I've been waiting for many years for such a rare opportunity to fight to my heart's content. Little ones, clear the field. I'm going to use all my strength!"

"Could it be that the punch just now wasn't his full strength?"

Everyone was shocked. The brilliant burst fist had already destroyed the local secret realm and shattered the space into nothingness, and this was still not his full power?

"Idiot, the monarch's alcohol tolerance isn't just a few dozen barrels, but three hundred barrels!"

The tyrant corporation's top fighters laughed and cleared the area.

When these words fell into the ears of those who were observant, they immediately caused another storm.

300 barrels, that was 300 times the normal state. Just now, it was less than 50 times, and it had already created a void. If it was 300 times, what kind of apocalyptic scene would it be?

After understanding this, the group of people ran for their lives without the tyrant group's orders.

Even the thirteen heroes' leaders hurriedly distanced themselves.

What a joke. It was one thing to watch a show. If they were just bystanders, they would naturally see that the referee didn't mind the hearse being too big. But if he sent them away just to watch a show, that would be too ridiculous.

If tyrant really threw out a 300 times explosive brilliant fist, the aftermath would be unimaginable.

If they were sucked in by the air, they would be wiped out even if they were high-level fighters. After all, they didn't know spatial abilities, and they didn't have a perfect domain like Lin Yi.

With the thirteen heroes taking the lead, the rest of the people present quickly retreated to a far distance due to their survival instincts, even though they did not know what was going on.

Even the live streamers who wanted to leech on the internet traffic knew what to do and retreated to a safe distance.

Although traffic was good, it still had to be alive.

The tyrants, the Yanchi group, and the secret Pavilion didn't stay either, but the people from Lin Yi's group continued to sit in the stands as if no one else was there.

"Are they not afraid of death?"

The rest of the people could not help but look at each other.

As long as there was the slightest possibility, they would definitely try their best to stay on the sidelines. It wasn't just to watch the show, but more importantly, the opportunity to observe a battle between top-tier combatants was truly rare.

Even if they couldn't see through the true secrets behind it, just feeling the atmosphere of the collision of rules was enough to benefit them!

But in the end, his life was more important.

The people from Lin Yi's group didn't have such concerns. With the protection of little du Wang, who was a new giant in the realm of ultimate perfection, especially a space rule ability user, it was enough for them to rest easy.

Not to mention, if it really got to the point of death, Lin Yi would step in to protect her.

Chapter 9816 -Power

Lin Yi didn't have the confidence to protect the crowd in a 1v3 before, but he was confident now.

As for this, the other high-end combat forces could only envy Lin Yi as they understood what was going on. Some of the Masters who didn't have a clear faction even wanted to slap themselves. They should've just publicly joined Lin Yi!

Even a few of the thirteen heroes 'leaders looked at Hong Baxian, who was in the stands, and became restless.

They were all part of the thirteen greats, and that guy was just lucky to have met Lin Yi earlier. Why did he have such a great opportunity, but they didn 't?

At the level of a Big Shot's perfection, the most important core of cultivation was no longer the accumulation of power, but comprehension and control. These were not things that could be achieved by simply closing one's door.

Such a high-level top-level confrontation, a close watch could at least match ten years of their hard work, and it might even directly determine their future limit!

To a certain extent, this was akin to Banshi Luo's personal guidance. It was the best cultivation resource.

However, these were all limited internal benefits.

Lin Yi wasn't in the mood to deal with these people's grudges. He turned to the three tyrants and started fighting.

Even with the help of an ultimate perfect domain, he still had to be on his guard. After all, he was not at Banshi Luo's level yet. He was not strong enough to defeat a group of top-tier fighters.

The demonic devouring sword was unsheathed.

He raised his sword to force back Yan Chi's long blade and used God-destroying slash on Tianji. Then, he transformed into the Titan Buddha and clashed with tyrant's exploding brilliance fist!

The surrounding space immediately collapsed.

This wasn't the most scientific way of fighting, and if he really wanted to win, the most logical way of fighting would be to play dirty and guerilla tactics.

Because of the existence of the perfect domain, Heaven's Fate's karma could no longer predict his trajectory. Naturally, it could no longer lock on to tyrant and the flame pool like before.

This way, Lin Yi would be able to maximize the advantages of time and space.

When it came to playing dirty and guerilla, these two rules were the ancestors of all the other rules. They only had to face Lin Yi, and now they were both in Lin Yi's hands.

It wasn't an overstatement to say that Lin Yi would be letting them down if he didn't do this.

But Lin Yi didn't.

It wasn't that he didn't like to play this game, but he didn't need it at the moment. It was rare for him to be able to fight against three of the five Giants at the same time, so even if he won, it would be difficult to gain anything substantial.

Only by going all out in a head-on battle would he be able to gain a clearer understanding of the limits of his strength. Only by recognizing himself would he be able to have a better understanding of how he should go about his next step.

Moreover, facing such strong opponents like tyrant and Yan Chi was a rare joy in life.

Lin Yi didn't consider himself a battle maniac, but he enjoyed the fun of fighting like this.

"Old Lin is starting to transform again."

Shen Yifan exclaimed from the side. Although he did not manage to achieve a breakthrough like Qiu sanniang and was still at the peak of the middle stage of the great fulfilment, he had already touched the rules of wind and his judgment was better than everyone else.

Especially when it came to understanding and familiarity with Lin Yi. If he said he was second, no one would dare to claim first.

In fact, the biggest change in Lin Yi wasn't his strength, but his confidence.

Until just a moment ago, he was still quite afraid of tyrant and the other veteran five Giants. Even though he had killed the fallen Dragon with his own hands, he still felt a lot of pressure when facing them.

Especially when it wasn't one against one, but one against three!

But now, it was clear from his rhythm of attack and defense that Lin Yi had built up the confidence to face a group of top-tier combatants, and could completely control the entire battle as he pleased.

One of the most obvious signs was that he no longer needed to be careful and tense all the time, and he no longer needed to follow the plan rigidly.

His every movement revealed an unpretentious calmness.

Even tyrant and the other two were caught up in his rhythm. Every time Lin Yi's sudden inspiration changed, the three of them tensed up, as if they were walking on a tightrope.

He had already dominated everything.

This was the aura of a real top boss!

"After today, boss will be ranked in the top five among the top combat forces in the entire Academy!"  
Duan she said in a muffled voice.

Everyone was shocked.

They knew that Lin Yi was strong, but they didn't expect him to be this strong!

If these words had come from someone else's mouth, they might not have been so convincing, but who was Duan she?

He was little du King, and now he had advanced to the ultimate completion of a Big Shot. Even if he was still a little bit off from his peak state in his previous life, he was already a top-tier combat power no matter how one looked at it.

Coupled with his personality, this comment was naturally full of gold!

Top five in the school, that was a great rating. It meant that Lin Yi could at least be in the top two, or even the first place!

One must know that the Academy had Emperor Xu Anshan and Banshi Luo. Just these two alone had firmly occupied two spots.

The Board of Directors was led by the Tian family and had gathered all the Super families with the greatest foundations in Jianghai city's history. Compared to them, even the Wang family seemed particularly young and inexperienced. The depth of their foundations was simply unimaginable to outsiders.

Especially since Tian Xiangyang was personally overseeing it.

Although no one knew exactly how strong this master Tian was, from the analysis of the previous details, this student leader's strength was definitely not below Banshi Luo 's, which meant that he would take up another spot.

In other words, there were only two spots left in the Academy's top five.

If Lin Yi wanted to be one of them, he would have to defeat all the hidden masters in the school, the top ten seats in the Academy other than Xu Anshan, and even the Sea King Xiang Yusheng who was hiding in the repeat school!

If it wasn't for the fact that he had pointed it out, everyone really wouldn't have thought of this. Now that they thought about it, even Shen Yifan and his own people couldn't help but be stunned.

Lin Yi's growth rate was too much.

This battle between Lin Yi and the three veterans was even longer than the one with mu Shen-it lasted a whole day and night.

In the end, when the destructive range of the shockwaves was about to affect the stability of the entire compound, the two sides finally stopped after everyone's repeated reminders.

Immediately after, the same question lingered in the minds of everyone online and offline.

Who won?

"Let's call it a draw. "

Lin Yi said with a smile after glancing at the panting trio.

Chapter 9817

Tyrant gulped down a barrel of wine and stood up. "You really know how to put gold on our faces. A loss is a loss, what's there to not admit?"

Yan Chi rubbed his aching old bones and said, "Do I look like the kind of person who can't afford to lose?"

Tianji, on the other hand, looked at Lin Yi deeply. "If you really wanted to win, the three of us would've been dead long ago."

Tyrant laughed and threw a barrel of wine at Lin Yi. "I've always despised this kind of cat-and-mouse game. But thanks to you, I finally had a good time this time. I've gained quite a lot. I'll remember this favor."

Lin Yi looked at everyone and said, "Since that's the case, let's merge the five Giants from today onwards."

"....."

Apart from Tianji, who had already expected this, tyrant and flame Chi were both stunned.

They knew that Lin Yi wanted to use this opportunity to get to the top, but they thought that he was only going to be the head of the five in name.

Judging from the strength Lin Yi had just displayed, plus his subordinates, including little du Wang and Duan she, there was nothing to criticize about this.

After today, Lin Yi would become the most important name card of the retained students. Even the hidden Sea King Xiang Yusheng couldn't compare to him.

After all, no matter how strong Xiang Yusheng was, he could only represent himself. Only the five Giants led by Lin Yi were the real face of the retained students.

However, this was a completely different concept from the merger of the five Giants!

The merging of the Big Five meant that Lin Yi was serious. He was preparing to merge all the repeaters who were in a state of disunity. He didn't just want to be the number one in name, he wanted to be the actual number one!

If that day really came, Lin Yi would become one of the most powerful people in Jianghai. Other things aside, the repeat school had the most complete Masters in Jianghai.

The atmosphere suddenly froze.

If they had the advantage, they might not oppose the merger of the five Giants. After all, this would become a huge power lever in their hands. Once it was properly controlled, the benefits would be at least several times, or even dozens of times!

But now, Lin Yi was the one and only strong side. Even after the merger, Lin Yi might not treat them badly in the short term.

The few of them had always been used to doing things their own way. Now that there was suddenly a Big Boss giving orders above their heads, not to mention other things, just the psychological barrier alone was not enough.

Plus, who could guarantee that Lin Yi would always protect their interests?

Tyrant put down the wine barrel and stood up again. "If you really want to play like this, we'll have to continue fighting. If we don't fight to the death and get swallowed up, how can I, old Bao, explain to my brothers? It won't be good for my face. "

Yan Chi laughed. "Old Bao is a person who cares about his face, but I'm not. I've been free my whole life, but in the end, I have to listen to other people's orders. It's really awkward."

Not to mention the Lin Yi now, even the legendary Managing Director back then wouldn't give them orders so easily.

As for the remaining Tianji, he didn't speak.

He had already anticipated that the future school of repeaters would be United by a powerful person. However, due to the interference of some mysterious power, he had not been able to see that person's appearance and origin.

Before this, he had thought that it was Banshi Luo.

With Luo Banshi's control over the rules of time, it wasn't strange for him to be able to cut off his karmic spying. When Luo Banshi entered the repeat school and fought with the Sea King Xiang Yusheng, it had already shown his intention to get involved in the repeat school.

Everything was going according to plan.

But now, he knew that he was wrong. The person in the future wasn't Luo Banshi, but Lin Yi!

Tianji was extremely certain about this.

Because he saw the black fire on the future man, it was the same as the one on Lin Yi.

He thought it was a mysterious force interfering with his vision, but now he was sure that the person was Lin Yi.

Only the black flames could completely cut off his karmic spying.

He'd always treated Lin Yi differently from the other five because he couldn't see the future in Lin Yi, only the uncertainties.

In order to deal with the next great catastrophe, stability was no longer an option for humans, because in such an extremely disadvantageous situation, stability was equivalent to waiting for death.

If he wanted to find a way to survive, he could only embrace the huge uncertainty!

That way, he could at least take a gamble.

Hence, Lin Yi's suggestion was within his expectations. He would be extremely disappointed if Lin Yi didn't do it.

Because that would mean that he had completely misjudged.

Tianji's silence surprised tyrant and Yan Chi. At least from the perspective of the old five, Tianji should be on the same side as them.

In fact, Lin Yi might not be able to have the last laugh if he were to fight to the death.

Most of the time, a duel was one thing, but a life-and-death battle was another.

But without Tianji's support, they had no chance of winning against Lin Yi alone. They knew that Lin Yi didn't use his full strength.

Without Tianji's karmic law, they would lose to Lin Yi for sure!

Tyrant and Yan Chi's expressions turned extremely ugly.

Logically, they could not criticize Tianji. After all, they did not have any subordinate relationship or any substantial Alliance agreement. Whatever decision Tianji made had nothing to do with them, and they had no right to speak.

However, they still felt betrayed.

"Tianji isn't that kind of person ..."

Yan Chi looked deeply at Tianji. Although they didn't have much of a personal relationship, they still had a tacit understanding after so many years. Tianji was definitely not the kind of person who would sell his friends for glory.

"Unless they're certain that we won't win," tyrant replied immediately.

Heaven's secrets could see the future, and no one was as good as heaven's secrets when it came to grasping the situation in the future. This was common sense that had long been verified.

Tyrant and Yan Chi, who were full of fighting spirit just a moment ago, instantly lost their confidence.

They were not masochists.

Although they enjoyed the fun of fighting, they were not interested in continuing to fight a battle that they were destined to have no chance of winning. After all, they were not alone, and they had to consider the large group of brothers under them.

Once they died, the fate of their subordinates could be imagined.

Chapter 9818 Power

"F \* ck, just tell me, how are we going to do it?"

Tyrant cursed angrily. The situation was stronger than the person. All along, it had been others who had to act according to his mood. He didn't expect that they would be forced to bow their heads by the situation.

This kind of feeling was really unpleasant.

Yan Chi's state of mind was slightly better than tyrant 's. Although his temper was more explosive than anyone else when he was young and he had been stubborn for his entire life, he was now older and naturally calmer than tyrant.

He had a deeper understanding of the phrase 'the situation is stronger than the person' than tyrant!

Lin Yi smiled as he looked at Tianji. If Tianji wasn't here, he wouldn't have brought up the whole thing today. Things would get out of hand if he did.

He wanted to integrate the repeat school, not destroy it.

If tyrant and Yan Chi, who were both top-notch combatants, were killed, the repeat school would be an empty shell no matter how big it was. Even if they were to forcefully combine them, it would be meaningless.

"Please don't misunderstand me. I don't have any intention of interfering with your territory and internal affairs. To be honest, I don't really care about those things. I'm not that free."

Lin Yi's words made tyrant and the others' expressions look better.

It wasn't a very pleasant tone, and if the same words came out of someone else's mouth, they'd definitely slap their teeth out of their stomach, but Lin Yi really did have the right to do so.

The underlying meaning of this sentence was to ensure their power and status. At least, it would not overturn everything that existed all of a sudden.

"Then what do you want?"

Tianji was the one who spoke up this time. He'd been avoiding direct contact with Lin Yi because he was afraid he'd change this precious uncertainty.

The deeper worry was that his future enemy would notice Lin Yi's existence in advance and kill him by force!

But now, these worries were all gone.

The black flames on Lin Yi's body could hide him from karma, which meant that he could hide him from the eyes of a terrifying enemy in the future.

Other than that, with Lin Yi's current strength, he wasn't someone who would die so easily. Even if the other party noticed him, it wouldn't be easy to kill him.

If he really dared to come, he might be able to do the opposite and take the opportunity to ambush!

As for the live stream, Tianji didn't really care if Lin Yi's exposure was bad or not.

In the eyes of the future enemy, all the human cultivators in Jianghai city and the Academy were just a bunch of bugs. Even the Tian family's head, Tian Xiangyang, might not even be looked at, let alone Lin Yi.

As long as they couldn't see Lin Yi's impact on the future, the person wouldn't look at Lin Yi differently, and naturally, Lin Yi's safety would be guaranteed.

No one knew that Tianji's thoughts were so deep, and everyone was waiting for Lin Yi's answer.

Lin Yi smiled as he stuck out a finger.

"First, integrate all the forces of the repeat school. The repeat school can't be a pile of loose sand in the future. The five Giants must have substantial control over the bottom. In other words, the repeat school can only have Five Forces, not a sixth."

Everyone had expected this, but it still made tyrant and the others breathe heavily.

The retained school was too big and messy, and it was impossible for Lin Yi to organize everything by himself in a short time. He needed the help of the five Giants if he wanted to truly control it.

Once the five Giants came to an agreement, the remaining forces of the retained students would have no chance to resist. This was a pure dimension-lowering attack!

In this process, the five giant forces would inevitably usher in a wave of explosive growth, and it would be a win-win situation.

It wasn't that no one had suggested something like this before, but no one had ever done it like Lin Yi did, suppressing all the other five on his own. With the mutual suspicion, it was impossible to actually do it.

"Five Forces?" Yan Chi asked. Who's the fifth?"

There were only four of the top five retained courtyards. Originally, if Zhao Rikun had won, he would have been able to take over the position of the top five, but unfortunately, he was gone.

"The talisman Wang family has already discussed with the Lord of the Tian family and is preparing to move in. I'm sure everyone has heard of Wang sanjue's name. Oh right, Yan Jiang is also with them. I'm sure everyone is familiar with him."

Even tyrant fell into a short silence when he heard the two names.

As the Grand Elder of the talisman Wang family and one of the leading figures of Jianghai city, even if they had not directly crossed paths with him, they would have heard of him.

As for Yan Jiang.

Back when he was still active in Jianghai University, they were still doing odd jobs in the General Affairs Office. At that time, many of them had silently looked forward to the Smoking man's style.

However, fate really made a fool of them. Now, they were standing at the top of the retained students 'compound, while Yan Jiang, who was once unparalleled in the limelight, had become the head of the bodyguards of the Wang family. It was truly a sad sight.

But no matter what, Wang sanjue and Yan Jiang's cultivation level was there for all to see. With two of the most powerful cultivators at the pinnacle of perfection, the talisman formation Wang clan would be considered a formidable force even in the repeat school.

Especially with Lin Yi's support, even if tyrant and the others wanted to object, they didn't have the confidence.

Otherwise, if Lin Yi really decided to work with the Wang family to destroy him and the flame pool, there would be no problem at all.

After all, there were four top-tier fighters in the two houses, including little DU's severed soul. Plus, Lin Yi was one of them. They didn't stand a chance.

As for Tianji, if such a situation were to really occur, he would definitely not interfere in this matter that was destined to have no chance of winning.

The relationship between the veteran five Giants was not that good.

In the end, tyrant and Yan Chi had no choice but to agree.

Although it was a bit strange for the talisman Wang family to appear among the five major families of the retained students, it was a good thing that the talisman Wang family's strength and reputation didn't lower the threshold of the five major families. Even if there were some criticism, it would quickly pass.

Lin Yi stuck out a second finger.

"Second, establish an Intelligence Department for the repeat students. All intelligence agencies must be merged with it without any reservations. I will be the director, and you three and Wang sanjue will be the Deputy Directors."

These words were not only directed at the five Giants, but also at the Wang family.

The intelligence Department was the most important thing in the future, and Lin Yi had to control it. Making them Vice Division heads was just in name, so it would be easier to convince the public.

Tyrant and Yan Chi couldn't help but look at Tianji.

Both houses had their own Intelligence Department, but their positions in their respective groups weren't high. They were only considered peripheral departments, and it wouldn't be a big loss even if they gave it all to Lin Yi.

Chapter 9819 Power

However, the pavilion of heavenly secrets was different.

Intelligence was the secret Pavilion's Foundation, and if they gave all of it to Lin Yi, it would be like Tianji being forced to take it in. Tyrant and tyrant wouldn't be able to accept that.

However, Tianji seemed to be indifferent to this and chose to silently agree.

Tyrant and Yan Chi's expressions changed. They knew that Tianji was a tactful person. After all, if he was an iron-headed person, he wouldn't have been able to comprehend the rules of karma.

However, Tianji's tactfulness to this extent had far exceeded their expectations!

This only proved one thing-Lin Yi's strength was even beyond their understanding, so strong that Tianji was willing to give up the right to be on the same level as him and lead the entire Pavilion to listen to his orders.

But what they didn't know was that Lin Yi's purpose in building this division wasn't just to gather information.

In fact, if it was just for information, the secret Pavilion would be enough. Lin Yi didn't need to lead the team at all.

For the future intelligence Department, collecting and analyzing intelligence was only the foundation of the foundation. The series of follow-up actions built on the foundation of intelligence were the key.

Tianji was well aware of this.

The establishment of the intelligence Department was a huge blow to the pavilion of heavenly secrets. However, from another perspective, it was also a once-in-a-thousand-years all-around strengthening.

As long as he could gain Lin Yi's trust, his future position would be above tyrant and Yan Chi without a doubt. He might even have the chance to become the second person in Lin Yi's group!

That's right, Tianji had been prepared to merge into Lin Yi group from the very beginning.

This was the most practical choice for a truly smart person.

Lin Yi was a little surprised by Tianji's reaction, but it made sense. After all, Tianji had been taking the initiative to get closer to him from the beginning.

In terms of betting, this person with the law of karma ability was definitely at the historical level.

Lin Yi raised a third finger.

"Third, set up a training camp for the repeat students. In principle, all high-end combatants of any force must join and receive the same training subjects in preparation for the great catastrophe in the future."

"The training camp has its own rules," Lin Yi said with a deep voice, "every Cadet can have someone they're loyal to, but they'll all be separated during the training period. No gangs or personal grudges are allowed in the camp."

I'll be an instructor with all of you, and we only have one goal, which is to squeeze out the greatest potential of every student in the shortest time possible.

Also, I'll invite Banshi Luo and senior Sea King to be my special instructors. "

Tyrant and the others 'breathing became heavier.

With Lin Yi and the others as instructors, it was clear how high the standard of this training camp was. It was beyond the horizon, and there wasn't a training camp of this level in the entire Jianghai Academy.

Under normal circumstances, even the high-end combat forces under them could only obtain a word of advice from any one of them. At most, they would only give a little advice to their own family members.

As for the others, they didn't even dare to dream about it.

This was also the fundamental reason why the five Giants could attract a large number of high-end combat forces to join them. After all, at this level, a word of guidance from them was the greatest cultivation opportunity.

But now, as long as he entered the training camp, he would be able to receive guidance from all of them.

The instructors didn't just include Lin Yi and the few of them-Wang sanjue, Yan Jiang, and Lin Yi's own broken soul were also included.

Such a lineup of instructors was already a dream, enough to make any high-end combat power go after them like a flock of ducks. Not to mention, there were also two legendary specially invited instructors, Luo Banshi and Sea King Xiang Yusheng!

Not to mention the people below, even tyrant and the other veterans of the five Giants were tempted!

Banshi Luo was acknowledged as the world's master, and his ability to guide practicing was clear for all to see. Lin Yi was the best example of that.

Of course, Lin Yi's rise in strength in such a short time was all due to his own talent and comprehension, as well as unimaginable opportunities.

However, even a dog would not believe that Banshi Luo had not contributed to this at all.

In fact, Banshi Luo played a huge role in Lin Yi's success.

Lin Yi's understanding of domains and laws was all built by him. They weren't in a traditional master-disciple relationship, but it was more like a teacher and Ph.D. Student relationship in the common world.

To Lin Yi, Banshi Luo was the leader of cultivation after a giant's full cultivation-this was undeniable.

With a living signboard like Lin Yi in front of them, it was only natural for tyrant and the others to be moved.

If Banshi Luo could guide Lin Yi, he could guide them too.

In the past, they didn't have this extravagant hope because they didn't have a way out. Now that a way out was placed in front of them, if they didn't know how to grasp it tightly, then they wouldn't be called the five Giants in the future. They would be called the five idiots in the future.

However, once the training camp was formed, it would definitely have a profound impact on the power structure of the entire repeat students.

"That's not right," tyrant said loudly. "You said you wouldn't interfere with our internal affairs, but if you send all these high-end combatants to the training camp and then give them a closed training, how many of them will not change their minds under your subtle influence?"

"Yes!" Yan Chi nodded. "You don't need a knife to kill. This is a brilliant move."

This was the truth.

There was no such thing as loyalty without reason in this world. The reason why those high-end combat forces were willing to follow them was, on one hand, because of their past ties and friendships, but there was another more important reason for them to be able to maintain their loyalty for a long time.

The five Giants could bring them enough benefits.

But Lin Yi's training camp, with Banshi Luo and all the instructors there, made all these benefits nothing to anyone with a bit of ambition.

What was an opportunity?

The training camp was their greatest opportunity!

It wasn't an exaggeration to say that if Lin Yi wanted to sell this place, he'd be able to save up a fortune in a matter of minutes. Just this alone would be worth hundreds of years of savings of the Wang family!

At this point, whoever stood in their way to enter the training camp would be their father's murderer.

Even tyrant and the others didn't dare to stop them, unless they wanted to be at odds with their subordinates, or even become enemies.

Once these people entered the training camp, it would only be a matter of time before they became Lin Yi's loyal fans.

Humans were social animals. Moreover, they were social animals that were most easily affected by the environment. This was something that would never change, even if one had reached the level of a Paragon.

At the end of the day, this was an open scheme.

Chapter 9820 The Power Of The Divine Realm

Lin Yi smiled,"if you two really don't want to agree, I won't force you. I'll continue with the training camp. The Masters under you can choose not to participate."

“.....”

Tyrant and Yan Chi immediately cursed.

Well, the training camp would continue to do as they were told, and only the high-end combat forces of their two families would be excluded. What kind of scene would that be?

Lin Yi wouldn't even need to say a word, and they'd be making a mess of themselves.

Not to mention, once the training camp was formed according to Lin Yi's plan, the senior students would experience a wave of growth in strength.

Everyone else's prices had risen, and only their two families had not made any progress. Not to mention what the others thought, just their own families would be very awkward.

At this moment, he looked at Tianji's attitude.

The repeating Academy would have a new structure with Lin Yi as the core. If the two families didn't actively participate, even if Lin Yi didn't actively target them, they would inevitably be marginalized.

Don't look at how they were still the five Giants at the peak of their power today. Once they were rejected outside the door, they might become a thing of the past.

After hesitating for a moment, tyrant and Yan Chi finally nodded helplessly. "Alright, count me in."

The situation was stronger than the person.

In the face of true power, even the veteran giant five had no choice but to bow their heads.

"Nice working with you," Lin Yi smiled.

After these three matters were settled, there was no need to say anything else. The division of territory interests, including the position, were all minor details to him now. He would not care about them at all.

Tyrant and the others looked at each other. They were a little disappointed, but at the same time, they were excited.

They were dejected because they had lost the right to compete for first place in the repeat division. From now on, Lin Yi would be the only face of the repeat division, and they could only helplessly accept the fact that they were just a foil.

As for their excitement, it was because of the unprecedented change that was about to happen in the repeat school. As long as they stood in the right position and operated properly, they would obtain astronomical benefits that they had never dared to imagine before.

In fact, even they themselves might have a chance to experience a transformation in strength!

"Then, announce it."

When the news of the Big Five's reunion came out from Lin Yi and the other old-timers, not only the entire school, but the entire Jianghai city was in an uproar.

Before today, the outside world rarely paid attention to the repeat school, because it was too closed and chaotic. Those who had some knowledge would at most know of its existence, or at most hear of the names of the Big Five, and then that was it.

However, after today's live broadcast, Lin Yi and the repeaters had become well-known in Jianghai. They would be the most important topic of discussion for the next six months.

Not even Lin Yi knew? How outdated are you?

Under the commentary of all the streamers, everyone had a rough idea of how strong the repeaters were.

It wasn't an overstatement to say that even in a situation like this where they were in a state of disunity, the repeat students were still one of the top three terrifying forces in Jianghai!

Only the Jianghai Academy itself could suppress it. The rest, even the city Lord's mansion, did not even have the right to look up to it!

And now, such a behemoth had actually announced the integration!

If this was in the secular world, it was simply a challenge to the Anti-Monopoly Law. Once the integration was completed, what could others do?

Ordinary people were just watching the show and expressing their shock, but some big shots couldn't sit still.

For example, the number one player in Jianghai city, Li Songzhang.

Lin Yi's attitude towards the city Lord's mansion didn't need to be explained-the hostility was written all over his face.

To be honest, they didn't know each other at all, and they didn't have much interaction. He didn't know why Lin Yi was so hostile to him.

The city Lord seemed to have forgotten that his precious son had a lot of grudges with Lin Yi before. Plus, he had no idea how Team Reaper fell to Lin Yi.

But no matter what, once the Repeating Yard was successfully integrated, it would definitely be a huge nightmare for him and his city Lord's mansion!

Lin Yi alone was enough to make him lose face, and if he let this guy control the entire Retained Academy, he'd be able to stomp his entire mayor's residence on the ground!

"No, I can't let him succeed!"

Li songzhang suddenly thought of a possibility and immediately panicked.

If it was just Lin Yi alone, even if he managed to get all the repeaters, he might not really kill the mayor's mansion. But this guy still had Tian Xiangyang's tag on him!

He recalled Tian Xiangyang's various actions recently. Although they had yet to completely fall out with each other, it was obvious that he was targeting the city Lord's mansion.

Once Lin Yi gained control of the retained students 'huge force, along with Tian Xiangyang's own forces, he would have a complete crushing advantage over the mayor's mansion.

If they really got serious, they might even end the battle overnight!

Before this, when li songzhang faced the old master of the Tian family, he was weak, but he still had some confidence.

But now, he was really panicking.

Opening the top secret account book and looking at the top row of names, li songzhang's eyes turned cold. "You've taken so many benefits from me, now it's time to spit them all out!"

The remarks behind these names were actually the school's management Board.

Originally, he would not use this list unless he had no other choice, because this was destined to be a one-time sacrifice. As long as he did something, it would inevitably leave traces.

With the capabilities of Jianghai Academy's top figures, he did not expect them to leave any traces behind.

However, once Lin Yi finished integrating the repeaters, it would be too late for Tian Xiangyang's promotion of the school Summit.

No matter how well this group of people hid, they were destined to be useless when the time came, unable to achieve any substantial results.

If expired, it will be discarded.

"Let's wait for a good show,"

Li songzhang laughed coldly. He didn't expect these people to be able to stop Lin Yi, but it was enough as long as they could slow down the progress of the repeaters.

After all, this was the only time Jianghai Academy had left.

With Lin Yi's announcement, the entire retained students entered an unprecedented period of chaos.

People's hearts are different.

Of course, there were many people who looked forward to this group of top fighting forces that represented the face of the retained students. Many people even dreamed of joining the five Giants. Unfortunately, the five giant wasn't a garbage collection station. Not just anyone could pass their threshold to accept people.

Now that he could get such a ready-made opportunity for free, he naturally couldn't ask for more.

But the rest of the people had mixed feelings.
