

Bodyguard 9831

Chapter 9831 The End

Although at the level of the top combat power, each of them must be a character with extremely distinct personalities, it was rare to see someone as carefree and at ease as her, especially a woman.

Tian Xiangyang was helpless as he watched this scene.

Strictly speaking, Dongfang Yan was a close relative of the Tian family. However, this girl had never taken her family seriously. She was extremely talented and ridiculously strong. He couldn't control her even if he wanted to, so he could only let her do as she pleased.

Fortunately, although Dongfang Yan was arrogant in the eyes of others, he still had his own way of doing things in his opinion.

Even though she was the warden of the Academy's prison, she had taken the initiative to accept Banshi Luo despite the world's condemnation, and she did not really want to walk down this path to the end.

She was the same as Lin Yi-she wasn't completely subordinate to Banshi Luo, and she had her own opinions on many things.

So all this while, Tian Xiangyang had turned a blind eye to her and had never meddled in other people's business.

"Since everyone is here, let's begin."

Tian Xiangyang had never been one to waste time talking nonsense. He went straight to the point and went straight to the point.

The integration of the Academy!

This was the most important topic of this Academy's Summit, and it was something that all the parties involved had long known.

Lin Yi's reorganization of the repeaters was a clear signal. The disaster was imminent, and it was imperative to unite all of Jianghai's forces.

Otherwise, if they continued to act in their own formations, they would be defeated one by one even if they had the same goal.

There was no doubt about this.

All parties were already mentally prepared for this. The core agenda of today's discussion was how to integrate.

Even if today's Academy's Summit could be held smoothly, it already meant that the situation was clear and Tian Xiangyang was able to control the overall situation. However, this was a different matter from the actual integration of all parties.

However, any integration would definitely involve a large amount of profit distribution.

Who has more? Who's the one with fewer?

Whose rank was higher? Whose rank is lower?

The tacit understanding between the various forces was too fragile in the face of cold benefits, and could collapse at any time. Even with Tian Xiangyang personally overseeing the scene, there were many things that couldn't be given up just like that.

"We'll come up with the specific regulations later. There's only one thing to be decided today-the wartime Committee."

Tian Xiangyang's gaze swept across the faces of everyone present,""In the face of a great calamity, all power will be returned to the wartime Committee. The quota is limited to five people, and everyone will vote to make a decision."

The crowd was in an uproar.

Did this mean that they were going to select the five Giants who truly stood at the top of the Academy's pyramid, the Academy's version of the five Giants?

"The voting rules are as follows. Everyone in the meeting will have one vote. Each person will fill in five names. The five people with the most votes will be selected through an anonymous vote."

"In addition, the following representatives have the authority to represent an additional ten votes. They are the School Council, the student council, the repeat school, and ... The Academy prison."

Everyone was speechless and looked at Luo Banshi.

It was the Academy's prison in name, but in reality, it was half a teacher.

It was already an exception for Banshi Luo to attend today's event, and now he was even given the same voting rights as the three traditional parties. This was simply ridiculous!

For a moment, some people couldn't help but suspect that Tian Xiangyang was being controlled by someone.

He had given up the most important power to his arch-enemy, especially one who had an irreconcilable stance!

If he wasn't being controlled by someone else, the crowd couldn't understand why Tian Xiangyang would make such a decision. Even if his brain was damaged, he couldn't possibly make so many mistakes in one go, right?

Tian Xiangyang looked at the crowd, "you seem to have some opinions?"

An extremely experienced board member stood up and said, "It's not a problem to give half-master students the right to vote, but only one vote per person. As for the ten extra votes representing the forces, they are not worthy."

"That's right. With the strength of a half-division, what right does it have to be on equal footing with our school Council, the Academy, and the repeating students?"

Many people stood up and agreed.

At least in terms of scale, the semi-division was far from being comparable to the traditional three forces. This could be seen from the number of top-tier combat forces.

There were at most ten people in the School Council, seven in the Academic Council, and seven in the repeat school.

On the other hand, Luo Banshi only had three people, including Dongfang Yan.

There was such a huge difference between them, yet they had the same right to vote. It was truly unbelievable. If it wasn't Tian Xiangyang who said this, but anyone else, they would definitely be flamed to death in a matter of minutes.

Looking at the agitated crowd, Tian Xiangyang threw out a sentence indifferently, ""I don't like Banshi Luo either. If I could, I wouldn't even want to invite him today.

However, there were some things that could not be done without his agreement.

If anyone here thinks that they can replace him, then fine, I'll distribute the ten representative votes to him. Is there anyone who can step forward?"

The entire place was silent.

Those who were able to stand here today were all peerless figures, and naturally, they all thought that they were extraordinary. However, even they could not help but feel inferior in front of Banshi Luo.

There was no other way. There were different levels of combat power, and unfortunately, Banshi Luo was the one who stood at the top of the field.

"Since no one has come forward, we can only admit one thing."

"Banshi Luo alone is worth 10 representative authority votes," Tian Xiangyang said with a sigh.

Everyone present was shocked, but no one could refute.

Lin Yi looked at the calm Banshi Luo-even he himself was the head of posturing, after all, and he really was nothing compared to this guy.

he didn't say a word, but just by sitting here, he had forced all the top combat power of the enemy to lower their heads.

what did it mean to be cool? this was what it meant to be cool!

"since no one has any objections, let's begin the voting," tian xiangyang announced.

The group of top-tier combat forces were all unwilling, but no one could stand up and say no.

The semi-Master Division was not strong, but with Banshi Luo, they had to be treated as a top force.

If someone were to stand up and object, Banshi Luo would not even need to refute. He would just stand up and leave, putting him in a difficult position.

If Tian Xiangyang were to say that he would do Banshi Luo's work, then he could only wait for his death.

In fact, anyone with a discerning eye could already tell that Banshi Luo's appearance here today had already indicated that he had reached an important tacit understanding with Tian Xiangyang. This matter had already been decided internally, and no one could interfere.

At this moment, a Big Shot from the School Council raised his hand and said, "I have a small question."

"Speak," Tian Xiangyang raised his brows slightly.

"The school of retained students hasn't been fully integrated yet, so it's hard to say who's in charge. Who's in charge of the ten representative votes?"

Everyone froze and turned to look at Lin Yi.

They thought that he would continue to bite Banshi Luo, but in the blink of an eye, the fire turned to this person. It was obvious that he was targeting Lin Yi!

Chapter 9832 Power

Tianji explained, "His name is Chen Yue. He is an elder of the Chen family, one of the three founding families. He is also the only giant in the Chen family who has reached the consummate level. However, he has a deep foundation and can not be underestimated."

Then, another big Shot from the School Council said, "Right now, the repeaters have the most support for Lin Yi, but it's a bit of a stretch to say that he's the one and only person in the entire school."

"His name is Gu Tianshou. He's also an elder of the Gu family, one of the three founding families. His situation is similar to the Chen family."

Lin Yi couldn't help but look at Tian Xiangyang, who was in the middle of the field.

The Tian, Gu, and Chen families were the three founding families of Jianghai Academy.

Although they were led by the Tian family, and few outsiders knew about the existence of the Gu and Chen families, this didn't mean that the latter two families were weak. On the contrary, in terms of Foundation, these two families were definitely the top super families in Jianghai city.

Even the talisman Wang family was only a nouveau riche family when compared to them. They were only lucky to have recruited Yan Jiang as the head of the bodyguards and had two top-tier fighters.

Otherwise, he wouldn't even look at it.

The Board of Directors was within the Tian family's traditional sphere of influence, as well as the Gu and Chen families '. The combined influence of the two families wasn't much weaker than the Tian family.

It's just that the three founding families have always advanced and retreated together. They have always been the most hardcore allies of the Tian family, so the world unconsciously ignored this point.

And now, these two houses suddenly jumped out at the same time to target Lin Yi. It was hard to say if Tian Xiangyang was behind this.

At least in the eyes of many bystanders, this was the sign of a Rift between Tian Xiangyang and Lin Yi.

Killing the donkey when it's done.

Lin Yi didn't say anything, but tyrant replied on his behalf, ""Lin Yi's not the one in charge of the retained area, so why don't you do it?"

The five retained students sneered.

The names of the three founding families were indeed scary, but to these heroes who rose to power with their own strength, they were just a bunch of bones in the grave. They couldn't compare to the pressure Lin Yi gave them.

Plus, following Lin Yi did have its benefits-just that alone made them acknowledge Lin Yi's position as the leader.

The rest of the parties revealed a playful expression.

The five major families from the retained area all declared their support for Lin Yi, and yet two completely unrelated founding families jumped out to question Lin Yi's qualifications. No matter how one looked at it, it was like a dog taking a mouse.

The key was, what were they after?

Although Chen Yue and Gu Tianshou were not the family heads of their respective families, they were the only top-notch combat forces that existed as the face of their respective families. At this moment, they had full authority to represent the two families.

The two wouldn't jump out and make enemies for no reason, especially with someone like Lin Yi, who had a bright future ahead of him.

Every move and action must have a deep meaning.

"Lin Yi has indeed United the five of you, as well as most of the repeaters," Chen Yue said faintly. "But before the most important person makes a stand, all of this can't be counted."

The crowd was stunned for a moment, then immediately came back to their senses.

The Sea King Xiang Yusheng!

"If Banshi Luo alone is worth ten votes, then shouldn't the ocean King be treated the same?" Gu Tianshou laughed.

The atmosphere suddenly became a little strange.

The Sea King had fought with Yusheng and Banshi Luo before, and from the feedback, he should have lost by one move.

However, even Banshi Luo had to admit that they were on the same level. The two of them were peerless figures who stood at the top of the pyramid!

Now that he had given Banshi Luo such extraordinary treatment, it would be disadvantageous to the overall situation if he were to favor one over the other.

After all, looking at the big picture, the Sea King Xiang Yusheng was the person who should be roped in, but he was not present today!

However, if this was really done, with ten votes from the sea King and ten votes from Banshi Luo, they would have the power to change the situation. One must know that these two were contradicting each other. No matter how magnanimous Tian Xiangyang was, he wouldn't dig his own grave, right?

He was in a dilemma.

Tian Xiangyang looked at his two old friends, ""You guys have given me a difficult problem."

"The overall situation is more important."

Chen Yue and Gu Tianshou were apologetic, but their attitudes were unprecedentedly firm.

The three founding families were of the same breath and branches. They would never Tear down Tian Xiangyang's stage in public. However, today, for the fundamental interests of their respective families, they had to fight to the end.

At this time, someone suddenly said, "actually, it's not that difficult to deal with. Let them solve the matter of the repeat Academy internally. Can't we just call senior Sea King and ask him for his opinion?"

Self-determination had always been a tradition of Jianghai Academy, especially when the repeat students were known for their isolation.

If someone were to rashly intervene in the internal affairs of the repeat school, they would definitely be covered in dust at any moment. This was something that even the three noble founding families couldn't do.

"Will the Sea King ... Come?"

Everyone could not help but look at each other.

With the Sea King Xiang Yusheng's perverse character, if he was happy, everything could be discussed, but if he was not happy, perhaps everyone present would be in trouble. He could make a big scene and repeat the old incident. It was not that he could not do such a thing.

As a result, just as they finished speaking, they heard the voice of the sea King Xiang Yusheng above their heads, ""Who said I wouldn't come?"

Everyone was suddenly on guard.

Chen Yue and Gu Tianshou, however, looked at each other, their expressions as calm as ever. This was part of their plan all along.

"Alright." Tian Xiangyang pushed the boat along with the current, "since you're here, tell me what you're thinking."

The Sea King looked at him, then glanced at Chen Yue and Gu Tianshou with a sneer, ""A bunch of skeletons that have castrated themselves into poultry actually want to use this old man as a chess piece. Who gave you the courage?"

Under everyone's gaze, the faces of the two families 'face turned red, and they couldn't help but explode.

However, under the sea King's despotic power, he finally chose to endure it.

Unless they obtained Tian Xiangyang's full support, they wouldn't be able to deal with Sea King Xiang Yusheng, the leader of the rebels, by relying on just the two of them, even if they included the top-notch combat forces they could influence.

If he really attacked, he would only be asking for humiliation.

After all, at this critical juncture, the key was to unite all the top-notch combat forces. Tian Xiangyang would definitely not attack the Sea King easily.

But then, the Sea King's eyes fell on Lin Yi, "Kid, I heard that you've been doing very well in the repeat school recently. You've even managed to tame me, the younger generation. You're going to be a formidable one."

"You flatter me, senior," Lin Yi cupped his hands as he stood up.

Xiang Yusheng laughed. "There's no such thing as overpraising. I've always been a man of my word and never use polite words with others. If I say you deserve it, then you deserve it."

Everyone looked at this harmonious scene and looked at each other.

Chapter 9833 Power

Chen Yue and Gu Tianshou's faces were as black as the bottom of a pot. This was not what they had expected.

If even this person was on Lin Yi's side, then they wouldn't have any reason to interfere in the retained students "Affairs. Most importantly, they wouldn't have the confidence to do so.

With Lin Yi and the sea King working together, it meant that all the senior students were a piece of iron. Who could withstand this?

However, the Sea King's expression suddenly changed the next second."I heard that you used your fists to convince them. So today, as usual, you'll use your fists to convince this old man.

However, I'll say the ugly words first, this old man has never held back when I attack. Once you attack, you'll have to pay the price of being beaten to death by this old man. "

Everyone was speechless.

As expected, this was the true nature of the Sea King Xiang Yusheng.

Everyone looked at Lin Yi, waiting for his reaction.

Lin Yi smiled nonchalantly."I've learned a lot from the last ten-seat battle. I've been looking for a chance to learn from you. It's good that I can do it today."

“.....”

Everyone was looking at Lin Yi as if he was a lunatic.

Now that things had come to this, there was indeed no one who would doubt his strength. On the surface, this fellow was an expert at the peak of the middle stage of the consummate level, but in essence, he was a true top-notch battle prowess.

Furthermore, he was able to suppress tyrant and the other two in a one-on-three battle. He was considered an impressive existence among the top combat forces.

However, he was still incomparable to a legendary figure like the sea King Xiang Yusheng.

Tian Xiangyang, Luo Banshi, and Xiang Yusheng.

The three of them were publicly acknowledged to be the cream of the crop in the Academy. If they had to be divided into levels, they could be considered to be super top-notch combat strength above the top-notch combat strength!

Lin Yi was obviously not on the same level as them.

Now, he actually agreed to fight with the Sea King Xiang Yusheng one-on-one. What was the difference between this and seeking death?

"The journey has been smooth. I didn't expect it to be like this. What a pity."

Some of them felt sorry for Lin Yi. If there was someone in Jianghai Academy who could become a top-tier fighter next, even these prideful guys had to admit that Lin Yi was the one with the highest chance.

But now, this guy had given himself a death sentence.

Xiang Yusheng laughed when he heard this. "Good, you're forthright. It's been a long time since I've met a young man like you. However, it's a pity that you'll die Here today."

"Not necessarily," Lin Yi replied faintly.

If he didn't have an ultimate perfect domain as a trump card, he definitely wouldn't fight with the other party even if he had the top laws of time and space. That was because he would be seeking his own death.

As the previous generation's King of Space, the Sea King's control of the spatial rules was absolutely far from what he could compare with.

Even with the time rule, he would only be completely destroyed.

But it was different with the perfect domain. With this trump card, at least in theory, Lin Yi had the ability to fight against any Big Boss of laws.

Moreover, if he wanted to raise it, he had to absorb as much rule force as possible. This Sea King Xiang Yusheng was the perfect candidate.

It was hard to say if he could win today's match, but he was confident that he could protect himself and not die.

"Then come."

Xiang Yusheng laughed as he made his move and instantly sucked Lin Yi into the void.

If Lin Yi wasn't a space rule user, this would've been over already. This was even more difficult to deal with than King DU's signature spatial banish. King du would've had to hit him, but Lin Yi's attack was a mere thought.

The entire place was silent.

They couldn't see the fight between the two in the void, but they could tell that it must be very intense.

Chen Yue and Gu Tianshou thought that the ocean King would be able to kill Lin Yi in an instant, but fifteen minutes had passed and the ocean King still hadn't shown up. Instead, there were signs of spatial turbulence around them.

This meant that not only did the Sea King fail to take down Lin Yi, but the battle was even more intense!

"I don't think so ..."

Someone couldn't help but Mutter.

They'd already overestimated Lin Yi's strength, but it seemed like they'd still greatly underestimated him!

Even if he lost in the end, the fact that he was able to last for an incense's time against the ocean King proved that Lin Yi wasn't just a top-tier fighter-he was already approaching the threshold of super-top tier!

He was only a Big Shot at the peak of the middle stage of the consummate level!

The only thing that comforted them was that Lin Yi was probably going to die at the hands of xiangyusheng, the Sea King. It would be a tragedy for them to be born in the same era as a monster like this.

However, just as they thought that the battle in the void was about to continue, Tian Xiangyang and Luo Banshi frowned at the same time. Without saying a word, they charged into the crack in the void.

Everyone was stunned.

A thought immediately appeared in everyone's mind.

Could it be that Lin Yi was about to be killed by the sea King, for two super-class combatants to be so nervous?

Whether it was Tian Xiangyang or Banshi Luo, with their relationship with Lin Yi, they both had a reason to save him.

Putting aside their personal feelings, just looking at the big picture, a compound with Lin Yi in charge was far more suitable for them than a compound with the Sea King in charge!

Although the Sea King Xiang Yusheng was powerful, judging from his past performance, he was definitely not an ideal partner.

"What's the situation?"

Tyrant and the others looked at Tianji.

They couldn't see the fight in the air, but with Tianji's ability, they could see it.

"There seems to be a problem with senior Xiang," Tianji frowned slightly.

"What's the problem?"

Tianji looked at everyone and said, "he just shapeshifted."

"Beast transformation ..."

Everyone could not help but look at each other.

Of course, they knew what beast transformation meant. It was a completely different concept from transforming into a ferocious beast through a domain.

The latter was just a way of using one's strength. No matter what form one took, one's mind would always be the same person. However, beastification was different. This was a real Alien Evolution.

Once beastification was activated, not only would one's appearance become like a beast, but even one's mind would gradually be assimilated.

Humanity slowly disappeared, until it became a complete beast.

In fact, there had been many cases of demonization all over Jianghai city. There had even been one within the Academy. However, it had happened at the Academy and happened right under Xu Anshan's eyes, so it had been destroyed at the first opportunity.

These were all signs of a Great Tribulation!

However, the average expert would only be able to shapeshift. Even if their strength would increase to a certain extent after shapeshifting, as long as there were not many of them, it would not affect the overall situation.

However, the Sea King Xiang Yusheng was different!

Once a top-tier combat force like him was completely animalized, no one in Jianghai city would be able to stop him. At that time, everyone would become his prey.

Wild beasts would eat people.

Chapter 9834 The End

The people from the Academy opposite him also noticed this and looked at Xu Anshan.

Now that the three super top battle forces were not here, he was the person ranked first. No one doubted this. If there was any chaos, he would be the one to control the overall situation.

Xu Anshan's expression didn't change at all. He only said four words, ""Don't be impatient,"

Not long after, the surrounding space suddenly trembled, and three figures appeared from within.

Tian Xiangyang, Luo Banshi, and Lin Yi.

"Where's the Sea King Xiang Yusheng?"

Everyone quickly asked as they looked at Lin Yi. Other than looking a little disheveled, he didn't show any signs of injury.

This scene immediately caused their hearts to shiver.

Even if it was the Sea King in its normal state, to be able to exchange blows with him for the time it takes an incense stick to burn without being injured was already shocking news, let alone a Sea King that was suspected to have already shapeshifted!

Tian Xiangyang swept his gaze across the crowd, his expression was slightly complicated as he said, ""The Sea King has betrayed us and fled. If you see him in the future, don't hesitate and run away immediately. That way, you might be able to keep your life."

The beast-formed Sea King was no small matter.

This time, with him and Banshi working together, along with Lin Yi's support, they managed to deal a heavy blow to the opponent, but they still couldn't kill him.

If it were any other top-tier combat power present, once they were targeted, there was a high probability that they would be killed in an instant!

As soon as these words came out, everyone present suddenly panicked.

That was the elusive King of Space!

this meant that from now on, even they would have to be careful when they went out, let alone the high-end combat forces and other students.

seeing this, tian xiangyang consoled him, "however, there's no need to be too nervous. he was seriously injured by banshi lu and i this time. he won't be able to recover in a short time. moreover, we've planted a mark on him. as long as he approaches the academy, we'll be able to sense him immediately."

everyone heaved a sigh of relief.

however, after this incident, no one had any objections to giving banshi lu the privilege of 10 votes.

even though they were on completely different sides, banshi lu was like a guardian angel to the entire jianghai academy. anyone who dared to stir up trouble in the face of a calamity would be the enemy of the entire academy!

tian xiangyang looked at chen yue and gu tianshou, who had a complicated expression on their faces, ""you two don't have any objections to lin yi's position as the head of the repeat division, do you?"

"....."

The two of them shook their heads helplessly.

The Sea King Xiang Yusheng was the only one who could threaten Lin Yi's position. Now that he'd turned into a beast and fled, the rest of the repeaters would naturally be decided by Lin Yi. No one could threaten his authority.

Tyrant, Yan Chi, and Tianji were the most qualified, but now that they were all on the same boat, the others had no right to speak.

"Then let's start the voting."

Tian Xiangyang's expression darkened. The Sea King's betrayal had cast a dark shadow over this important Academy Summit.

After this period of buffer time, the audience already knew who they should vote for.

Soon, the results were calculated.

According to the previously announced rules, the five people with the highest votes would enter the selection battle Committee.

Tian Xiangyang, Luo Banshi, Xu Anshan, Lin Yi, and Gu Weiyang.

Seeing this result, the audience could not help but fall into a strange silence.

There was no doubt that Tian Xiangyang was selected with the highest number of votes, and it was also reasonable for Emperor Xu Anshan to be selected. After all, he was a direct descendant of the Tian family. In addition, his strength and influence were extremely outstanding, so it was impossible for him to be eliminated.

As for Luo Banshi ...

He was supposed to be a Dark Horse. After all, no one had expected him to attend the summit.

In fact, even though everyone was convinced of his strength after what had happened just now, it was not quite possible for them to vote for him.

After all, they were on opposing sides, and their views could not be changed in a short time.

But even if most of the people present didn't vote for him, he and Lin Yi alone had twenty special votes, and Tian Xiangyang obviously approved of him being selected, otherwise he wouldn't have invited him at all.

Therefore, there were at least 30 VIP tickets, which was almost guaranteed to be selected.

Not to mention other things, the group of top combatants from the repeat students looked up to him, so it was only natural for them to vote for him!

Lin Yi was the same.

Both Tian Xiangyang and Luo Banshi clearly supported him. Even if the others did not vote for him, they could not stop him from being selected.

As for the last one, Gu Weiyang, although he was not present, he was the young master of the Gu family and the only person who could represent the Gu family. As a top-notch elder, Gu Tianshou could only be his assistant.

It was not surprising that he was selected on behalf of the Gu family.

However, in this way, the Chen family was the only one among the three founding families who had not been selected, which was a bit embarrassing.

At this moment, Chen Yue's face had already turned as black as the bottom of a pot.

Nominally, the wartime Committee would only take over the Academy during wartime. However, when the great catastrophe came, the Chen family would be excluded, which meant that they would lose the right to speak at the top.

Sometimes, this could be fatal.

Of course, the three founding families were on the same side. Under normal circumstances, no matter if it was the Tian family or the Gu family, it was unlikely that they would abandon the Chen family.

Once they encountered a major event, they would most likely bring them along so that the Chen family would not suffer any losses.

However, the human heart could not stand the test.

Even if the three families had a good relationship now, who could guarantee what would happen in the future?

Moreover, it might not be obvious when things were going smoothly, but once they were in a desperate situation, when it was necessary to use one of them as a sacrifice, who would be the cannon fodder?

The answer was obvious.

Even if we don't consider this extreme situation, just based on the strength of the three families, leaving aside the Tian family, the Chen family and the Gu family, who are on par with each other, will gradually widen the gap as time passes.

One day, the Chen family would completely lose the right to be on equal footing with the other two families and disappear into the crowd.

"Absolutely not!"

Under the watchful eyes of the crowd, Chen Yue suddenly stood up. He was an elder of the Chen family, and he shouldered the heavy responsibility of assisting the young master in taking over the Chen family. The Chen family could not be weakened in his hands.

He couldn't take the blame for this!

"What's the problem with elder Chen?" Tian Xiangyang frowned.

Of course, he knew what the Chen family was thinking at the moment. However, in the face of the big picture, some things had to be made, and some people were destined to be abandoned.

Chapter 9835 Power

Everyone's attention was on him.

Chen Yue pointed at Lin Yi without hiding anything, "I question Lin Yi's position as a committee member. I don't think he's worthy."

The crowd was in an uproar.

It wasn't surprising that house Chen wasn't happy with Lin Yi's loss, but calling him out in public was the same as asking him to die.

With the background of the three founding families, they didn't need to be as afraid of Lin Yi as they were, but Lin Yi wasn't someone to mess with, especially with Tian Xiangyang and Banshi Luo behind him.

No matter how one looked at it, it was not wise to publicly provoke such a great enemy for the family!

"Lin Yi's not worthy? you 're?" the repeaters all laughed.

"Elder Chen, are you questioning the fairness of the vote?" Tian Xiangyang's face turned cold.

This time, the voting was held in front of nearly 30 top-notch combatants, so there was no possibility of cheating at all. Taking a step back, if someone could successfully cheat like this, then that person's means must be heaven-defying.

It wasn't his fault that the crowd didn't choose him to enter the game, but that everyone was blind!

Seeing that he had become the target of public criticism, Chen Yue's heart tightened, but he still pretended to be calm and said, ""The voting itself isn't a problem, of course. House Chen's completely convinced of the other Four's results, but Lin Yi's different.

Everyone, I'm not questioning the vote results, I'm questioning if Lin Yi can take on the responsibility of leading the entire school!"

Everyone looked at each other. These words did have some meaning.

As everyone knew, although voting was more in line with the interests of the majority, there was a huge drawback. Some grandiose people would often take advantage of the situation to rise to power.

They might be good at pulling strings and bluffing, but they didn't have the strength to convince the public.

And this was naturally contrary to the traditional concept of the cultivation world where the strong were respected.

In fact, when the Academy's Summit was first proposed, someone had suggested to Tian Xiangyang that the strongest five people would form the wartime Committee through a martial arts competition.

At least, this would give everyone a reason to be convinced.

However, this was rejected by Tian Xiangyang.

It was true that the duels would determine the strongest of all, but he did not want four more experts to rule Jianghai Academy with him. Instead, he wanted the Academy to be United in the shortest time possible.

No matter how strong a few experts were, they would not be able to do anything in the face of a great disaster. The only way to survive was for the entire Jianghai Academy to clench their fists!

Therefore, voting was the most convenient way. After all, only in this way could the wartime Committee represent the interests of the majority of the people.

However, it was inevitable that such doubts would appear.

It wasn't just Chen Yue who stood up for Lin Yi-the other top-tier fighters who didn't vote for Lin Yi didn't look convinced either, either. They looked at Lin Yi with dissatisfaction and unwillingness.

A vile character intoxicated by success!

This was the image Lin Yi had in their eyes.

Lin Yi's fight with the ocean King for the time it takes for an incense stick to burn was indeed amazing in the eyes of the others, but it was in the air, after all. Other than Tianji and a few others, no one else saw the actual fight.

What if it was just a game of cat and mouse to stall for time?

Other than tyrant and the others who had fought Lin Yi before, it was normal for the others to be suspicious of him. Not to mention, he had the favor of Tian Xiangyang and Banshi Luo, which made many people who thought they were extraordinary feel even more unbalanced.

"This kid is just good at hugging someone's thigh. If I had the support of Tian Xiangyang and Banshi Luo, I would definitely be selected as well!"

This was the truest thought in everyone's mind.

tian xiangyang squinted his eyes slightly and didn't say anything.

chen yue's heart skipped a beat. he knew that he had already aroused tian xiangyang's dissatisfaction. if this continued, tian xiangyang might have some bad thoughts about his chen family, and that would not be worth it.

no matter how the rumors spread about the three founding families, the tian family is the one and only emperor in jianghai academy.

if he didn't even have this bit of strength, no matter how close the chen family and the tian family were, they were destined to not have a good end.

"what i mean is, although the wartime committee is elected by vote, it should also have a challenge mechanism like the ten-seat council of the academy. this way, the authority of the committee can be maintained to the greatest extent," chen yue quickly corrected.

at this moment, gu tianshou stepped forward and declared, "i agree."

"That's right. There should be a challenge system. It should at least leave a memory for us."

The rest of the top-tier combat forces also expressed their opinions under the instructions of the two families.

This was a bit of a forced abdication.

The student council head, Xu Anshan, who had never spoken before, suddenly spoke, ""You have to admit defeat. You don't even understand this logic. A bunch of trash."

"....."

Everyone glared at him, but under the pressure of his Emperor's aura, none of them dared to say anything.

Dongfang Yan looked at this scene and chuckled. ""You are indeed the most loyal dog of the Tian family."

Lin Yi couldn't help but look at him. There was probably only one woman in the world who would call an Emperor-like Xu Anshan a dog.

However, it was quite appropriate for the current situation.

Xu Anshan's sudden appearance wasn't for Lin Yi, but to attract the fire for Tian Xiangyang. Otherwise, if he continued to force Tian Xiangyang to stop, it would be a lose-lose situation for both of them.

Tian Xiangyang smiled indifferently and turned to Lin Yi, ""What do you think? Bring it up, as long as I'm here, they won't be able to do anything. "

The ball was passed to Lin Yi's feet.

"I don't mind," Lin Yi said casually,"but the committee wasn't my work during the election. If it doesn't count just because of a couple of losers, then wouldn't today's voting be a game?"

We're just having fun, are you all so free?"

Everyone was speechless.

The loser, Chen Yue, who was the first to bear the brunt of the attack, had his face flushed red. He had already pissed off Tian Xiangyang by forcing himself to stand up for Lin Yi, and now he was taking such a big risk. If Lin Yi's words were to shut him down, he would really have to find a tree to hang himself to death.

Lin Yi wasn't done yet-he looked at him with interest."Are you hoping that I'll let my emotions get the better of me and agree to your plan so that you can have a chance to turn the tables?

We're all adults here, don't be so naïve. You'll be laughed at if you tell others. "

“.....”

Chen Yue almost spat out a mouthful of blood.

The others were displeased, but they couldn't say anything. If they were in Lin Yi's position, they wouldn't give up on the fruits of victory just because of a few words.

If it was that easy to get into a relationship, how could Lin Yi have gotten to where he was today?

As for face? Face was only worth a few dollars.

Banshi Luo then said,"it's not bad to have a challenge system, but the threshold must be set. Risk and benefit coexist. The Challenger has to show enough chips. Otherwise, the wartime Committee will really be a joke."

Even if it was a challenge for the ten seats of the Academy, the Challenger would have to pay a huge price. The wartime Committee was of a higher standard than the ten-seat Council, so the corresponding price would naturally be higher.

Chapter 9836

Everyone could tell.

Banshi Luo and Lin Yi were playing the good cop and bad cop role, and they were both trying to make house Chen bleed.

Chen Yue endured the humiliation of being ridiculed in public and snorted coldly, ""What do you mean by enough bargaining chips?"

Banshi Luo smiled."You have to satisfy the challenged first, right? otherwise, why would he take this risk for no reason?"

Chen Yue couldn't help but turn to look at Tian Xiangyang. Seeing the latter's indifferent expression and no intention to speak, it was clear that he had acquiesced.

"What do you want?"

Lin Yi shook his head,"you should be asking what your Chen family can give me. This isn't a market. If you want to bargain, then don't ask. I'm not in the mood."

"....."

Chen Yue hesitated for a moment, then walked to the side of the field and discussed with his family. Finally, he returned to the field and said in a deep voice, ""As long as you accept the challenge, the Chen family can give you a right to enter the secret realm of Ares!"

Everyone was in an uproar.

The depth of the three founding families of the Academy was beyond anyone's imagination, and the most important thing that represented their heritage was the mystic realm.

It wasn't an ordinary independent secret realm, but an ancient secret realm with rules and inheritance. Anyone who entered it to complete the trial would definitely obtain great benefits, such as the Assassin's Secret realm, or the wind god Shen family's wind god secret realm.

Each of the three founding families had such a secret realm, and their control over it was much stronger than that of the wind God's Shen family. To a certain extent, it could even be considered an independent secret realm exclusive to their families.

Not only could they train high-end combatants in batches, but they could also guarantee that there would be top-notch combatants for generations. Even if they were not good enough, they could make a lot of money by selling a few slots regularly.

This was the true foundation of a super family.

"Not enough," Lin Yi said, shaking his head.

Chen Yue choked on the spot.

In the end, it was Gu Tianshou who stepped in. "A right to enter the secret realm in exchange for a right to challenge. It's fair and reasonable. Don't push your luck, Sir."

Everyone nodded in agreement.

The secret realm of clomaros was an extremely precious opportunity even for top-tier combat forces like them, not to mention that Lin Yi was only at the peak of mid-stage of complete giant realm. He would benefit a lot from just going in.

Exchanging a qualification for a qualification, at least from common sense, was a rather sincere condition.

After all, Lin Yi wasn't giving up his seat on the wartime Committee. He was just giving house Chen a chance to challenge him.

"I told you, I'm not here to do business. Whether it's fair or not is your business, not mine. I only care if there's what I want, that's all." Lin Yi said faintly.

Tyrant chimed in. "A deal requires mutual consent. If we don't want it, no matter how fair you are, you can't force us to buy it. Do you understand?"

Everyone was speechless.

Chen Yue couldn't help but say, "according to what you're saying, no matter how much we offer, Lin Yi will refuse to accept it. Then wouldn't the challenge rules be useless?"

Tyrant looked at him as if he was an idiot. "You can't give others what they want. That's because you're useless. Who can you blame?"

Everyone was speechless.

What made Chen Yue want to vomit blood the most was that when he thought about it, the other party actually made more sense. After all, the so-called challenge rules were only proposed by him, and he had not truly obtained the approval of Tian Xiangyang and the entire wartime Management Committee!

From the beginning to the end, he was the one who was being played.

Luckily, Lin Yi was a kind person, and he couldn't bear to see this old man explode in anger. "You want to challenge me? sure, but hand over the control of the war God's secret realm."

"....."

Everyone instantly felt that this guy was a devil!

Chen Yue was so shocked that he couldn't even speak. He had lived for so long and had seen people who demanded exorbitant prices, but he had never seen anyone who dared to demand such an exorbitant price!

"The control of the secret realm of clomaros? Do you even know what you're saying?"

The old man's face was filled with disbelief.

"I know exactly what I'm talking about," Lin Yi nodded, "so if house Chen still wants to challenge me to join the committee, we'd better have a serious discussion about it."

Of course, if you change your target, they might offer a lower price. "

The crowd looked at Gu Tianshou in unison.

For people like Tian Xiangyang and Luo Banshi, it would be useless even if they were given a hundred challenge opportunities for free.

As for Xu Anshan, although he was not a super top-tier combat power, he was definitely an Emperor-like existence among the top-tier combat powers. If someone in the Chen family could defeat him, then there was no need to worry about whether he was part of the wartime Committee.

As long as you had absolute strength, no one would dare to ignore you.

The only remaining target that he had a chance to challenge was the Gu family, which was also one of the three founding families. The two families were evenly matched, and both of them had lost their family Masters and young masters. If they really had a challenge, the probability was that they were about the same.

This time, it was Gu Tianshou's turn to have a dark expression.

If it was the Gu family, they would also covet the secret realm of clomaros, but it was still incomparable to the seat of the wartime Council. After all, the former was only a potential opportunity and wealth, while the latter was a real power at the top!

Normally, it would be hard to judge who was stronger, but at this critical moment, it was obvious that real power was more important.

After all, no matter how good the opportunity was, no matter how much wealth one had, one had to be alive to take it.

Seeing Gu Tianshou's lowered brows and silence, Chen Yue's heart immediately turned cold.

However, this also strengthened his determination to seize the seat of the wartime Committee. Once it came to a critical moment, no one could be relied on, and he could only rely on himself!

After re-discussing with his family, Chen Yue finally gave a reply, ""As long as you can win, half of the land of clomaros will be yours. But there's one thing, the battlefield will be decided by us, the Chen family."

The crowd was in an uproar.

This was truly an unprecedented move. The Chen family actually had such courage!

This was completely different from the wind God's Shen family's wind god secret realm.

The secret realms of clomaros and the secret realms of killers were on the same level, corresponding to the top-level rules, while the secret realms of wind god corresponded to the level-two rules. They were not on the same level.

What's more, the Shen family of the wind god only had the right to enter the wind God's secret land. To put it bluntly, it was a long-term ticket.

If wind God's Shen family could enter, so could other people.

Sharing the ticket with Lin Yi under these circumstances was enough to make a lot of people jealous, but that was all. It wasn't much of a loss for the wind God's house.

However, the Chen family's Secret realm of Ares was different.

The Chen family had complete control over the secret realm of Ares. When the secret realm would open and who would be allowed in would be decided by the Chen family. They were the true Masters of the secret realm.

It was easy to imagine how heavy the control of half of the city was.

It was not an overstatement to say that this was the most important transaction in Jianghai city in the past ten years.

Chapter 9837

Lin Yi looked at Luo Banshi and the others, and finally nodded under everyone's eyes, ""Sure. You guys decide on the location and I'll decide on the time. Let's do it tomorrow."

"That's a deal!" Chen Yue was overjoyed.

At this moment, Tian Xiangyang spoke, "this is a matter of great importance. In order to ensure fairness and justice, the wartime Committee will be the witness of this challenge. I hope both parties are mentally prepared."

"Of course."

Chen Yue's eyes flickered. In order to ensure that this challenge was foolproof, his Chen family would have to use all means possible in addition to the home ground advantage.

this was a matter of the clan's survival, and now was not the time to be particular about manners.

however, once the wartime committee got involved, some methods were bound to be useless. although he had always been confident in his young master, he was facing a monster like lin yi after all. he had to use some special methods.

however, he had no other choice.

at this point, if they really used some dirty methods to kill lin yi, it would be the same as provoking the entire wartime committee. even as one of the three founding families, the chen family couldn't afford to take the blame.

even if tian xiangyang were to show mercy, what about luo banshi?

who could guarantee that this world master wouldn't start a massacre for lin yi?

"you look disappointed," lin yi said with a glance.

Chen Yue's heart skipped a beat, but he pretended to be calm and said, ""My young master has heard of your achievements and is quite interested in competing with you. I only hope that you won't disappoint him."

Before Lin Yi could reply, Wang sanjue, who was behind him, said with a weird expression, "Your family's young master Chen Xun? If I remember correctly, he's only a Big Shot at the peak of the late stage of perfection. Is he really that arrogant?"

Chen Yue laughed coldly. "Isn't Lin Wuju only a Big Shot at the peak of the middle stage of the consummate level? you can't judge a person's strength by just looking at their cultivation level."

As soon as he said that, not only the repeaters, but everyone else had a strange expression.

Many of them didn't like Lin Yi, but this was the type of feeling where they couldn't do anything to Lin Yi even if they wanted to, and the thought of doing him was just a flash.

If someone who wasn't even at the peak of a giant's cultivation were to compare to Lin Yi, at least half of the people present would laugh their heads off.

As for the remaining half, they were already looking for their teeth on the ground.

Lin Yi said fairly, "You're two whole levels higher than me. Isn't this taking advantage of me? Shouldn't your Chen family compensate us with something more? you must be kind. "

"....."

Everyone choked on their own saliva as they gave Lin Yi another name in their hearts.

Shameless! He was so F * cking shameless!

This time, even Tian Xiangyang couldn't stand it anymore. He suppressed his laughter and coughed dryly, ""Let's get back to the main topic. Before the duel tomorrow, you're still a member of the wartime Committee, Lin Yi, and you'll have to participate in today's agenda.

As for the others, you can go back first. We'll discuss further after the wartime Committee has come up with a Constitution for the integration of the Academy. "

Everyone acknowledged the order and left.

Chen Yue was extremely unwilling, but he had no choice but to leave.

As the saying went, small matters would be held in a meeting, big matters would be held in a small meeting, and important matters would not be held.

It was obvious that the war time Committee was going to discuss a major matter that was related to the core interests of each family. The absence of the Chen family at such a crucial occasion was already a huge loss.

Originally, the Chen family and the Gu family were on equal footing. However, after today, the gap might be widened!

Her hatred for Lin Yi increased by another level.

Lin Yi, on the other hand, didn't care at all-there was no need to worry about debts. There were more than one or two people in the world who hated him to the core, and there were plenty of famous people in Jianghai city. The first one was the mayor, Li Songzhang, while he, a new member of the Chen family, was ranked lower.

The internal meeting of the wartime Committee that followed was much more boring in terms of the agenda.

Although it was indeed related to the interests of each family, Tian Xiangyang's integration plan had already taken into account the interests of each party to the greatest extent. No matter who it was, it was full of sincerity.

Besides, Xu Anshan was from his direct line of descent, and the Gu family represented by Gu Tianshou was one with the Tian family. Lin Yi and Banshi Luo had already formed a tacit understanding with him, so no one would undermine him.

Even if there were some changes, they were all details.

In the end, Tian Xiangyang's proposal was passed smoothly. This also signified that Jianghai Academy had finally ended its state of disunity and entered a new era.

This was the first time in history!

According to the original plan, the wartime Committee would announce the entire plan to all the top combatants the next day and hold a discussion among all members.

Although the tone had already been set and there were no major changes to the plan, the basic official procedures still had to be followed.

But because of Lin Yi's battle with house Chen, the discussion was pushed back.

Although no one had high hopes for the legendary young master of the Chen family-after all, his opponent was the monster Lin Yi-the fact that the Chen family was willing to pay such a high price meant that they had something they could rely on.

With the foundation of the three founding families, if they really put all their chips on the table at all costs, they could smash people to death. It was not impossible for them to stage a successful counterattack.

And for such an important showdown, there were naturally no lack of corresponding bets in the market.

Surprisingly, Lin Yi's and the young master's odds were even.

"On what basis? That guy's hiding his head and showing his tail, and he's on par with Lin Yi bro? what kind of battle record does he have?"

The little girl Wang shiqing was very angry.

Yan Chi sighed."This is the foundation of the three founding families. Even if they don't do anything, they are born to be regarded highly by everyone. As for battle achievements, they don't need them at all.

The Chen family's name itself is more convincing than any battle record. "

"Will Lin Yi be okay?" Tang Yin asked, worried.

"Tang Yun sis, don't worry. When has Lin Yi bro ever let us down?"

The little girl was full of confidence.""I've already bet all my money on Lin Yi bro, I'll make a fortune this time!"

"....."

Tang Yin didn't know whether to laugh or cry at the money-grubbing look on the guy's face.

But after some thought, she turned around and bet all on Lin Yi as well. After all, she was given money for free, so it would be a waste not to take it.

In fact, many people had the same thought, especially tyrants like tyrant, who had experienced Lin Yi's strength. They bet much more than the two of them.

The only pity was that the battle would be held in the secret land of clomaros and couldn't be broadcasted live.

That's right, the secret realm of clomaros was the home ground that the Chen family had chosen for him.

Chapter 9838 Power

When Lin Yi arrived at the Chen family's base, not only were all the Chen family's combat forces present, but there were also a bunch of Gu family Masters.

The grandness of the formation was somewhat shocking.

If it weren't for the fact that Tian Xiangyang, Luo Banshi, and Xu Anshan were present, Lin Yi seriously suspected that they would've started a massacre with no moral principles.

This was not an alarmist talk. The more profound a super family like this was, the more one could not overestimate their moral integrity.

However, he did not see the main character of this duel, the legendary Chen family's young master Chen Xun.

"Since you're here, let's enter the arena," Chen Yue said on behalf of the Chen family.

With that, a mysterious force from the secret realm wrapped around Lin Yi and he disappeared in an instant.

When he opened his eyes again, he was already in the secret realm of clomaros.

After the experience in the killing God's secret realm, Lin Yi wasn't unfamiliar with this feeling. He quickly adapted to the environment.

"Another identity play?"

Lin Yi lowered his head and looked at his armor-he was a brave general, after all.

But when the information from the secret realm came up, Lin Yi's expression changed.

Hwa Xiong.

He was actually playing the role of Hua Xiong, the unlucky guy who was killed by the second master Guan in the Three Kingdoms play. This was the first time that the second master Guan had made a stunning appearance, and he had slapped the faces of all the dukes and princes.

In terms of face smacking, this was the real expert.

At the same time, the mission that popped up in Lin Yi's mind was to help Dong Zhuo defeat the various Dukes.

One of the most important conditions was that Dong Zhuo must not die.

"The so-called war god is actually Lu Bu."

Lin Yi finally understood-the Asura God's secret realm was formed from the killer god Baiqi's obsession, and this Ares 'secret realm was obviously formed from Lu Bu's obsession.

"It seems that the original forms of these secret realms are not real historical figures, but deified historical figures."

Lin Yi had been suspecting this since the killing God's secret realm.

Although the general direction of that event was indeed based on the historical allusions of Jing Ke assassinating the King of Qin, many details were clearly not true history, but had a deified nature.

In fact, if this was the real Bai Qi, how could he create a secret realm with just his obsession?

Only the God of killing, who had been deified by the later generations, would have such an ability.

It was the same for the secret realm of clomaros.

Thinking back to the path in the Romance of the Three Kingdoms, Lin Yi felt excited for some reason. The Three Kingdoms battlefield was the Holy Land of countless men.

However, he couldn't help but shake his head when he remembered his current status. "This is the structure of the so-called super families."

The identity of Hua Xiong that he was assigned to was obviously not a random one in the secret realm. It was the Chen family's doing.

As the sole controller of the secret realm of clomaros, this was the Chen family's exclusive right.

The experience of killing the secret plane had already proved that the development of events in the secret plane would always be corrected and moved back to the original track. In other words, this was the general trend in this secret plane.

One person could not compete with the general situation.

Even if this wasn't the real main world, but a secret realm created by Lu Bu's obsession, it was still difficult to stand against it. Because what Lin Yi had to face next wasn't just the young master of the Chen family, but the pressure from the entire war God's secret realm!

In fact, he had already felt the suppression from the secret realm of Ares. The most obvious limitation was that he could not use his rule bending power.

The reason why Lin Yi was able to stand at the top of the pyramid, and even surpass the rest, was because he had mastered the rule power of time and space.

Now that his rule force had been sealed, it was no exaggeration to say that more than 70% of his strength had been sealed!

On the other hand, as the master of the secret realm of clomaros, the other party would not have such strict restrictions.

With one side losing and the other gaining, the situation between the strong and weak was enough to be reversed in an instant, and the gap would be infinitely widened!

Even though he was a powerhouse at the peak of the late stage of Great Perfection, it was impossible for the young master of the Chen family, who was the controller of the secret realm of Ares, to not know the rules.

Everyone had witnessed the overwhelming advantage of the big shots of rules over ordinary experts!

This was not all.

Lin Yi's biggest threat right now was the situation in the secret realm. Don't forget how Hua Xiong died.

As expected, before he could properly digest it, a personal guard reported, ""General, a large group of bandits have gathered in front of the pass and are currently fighting!"

"....."

Lin Yi walked out and saw the words "qiushui pass" on the wall.

The 18 Dukes went after Dong Zhuo, and qiushui pass was the place where second master Guan became famous!

"Shameless."

At this moment, even Luo Banshi, who was sitting in the Chen family's Secret realm and watching the battle through the projection, could not help but change his expression.

At his level, there were very few things that could make him emotional, but the Chen family's actions had still successfully aroused his anger.

Not only him, even Tian Xiangyang's face turned gloomy, ""Elder Chen, is this the fair fight you promised?"

This wasn't just a matter of who won or lost. It was a matter of the War Council's position and the stability of the entire Jianghai University!

If it was a truly fair battle, no matter which side lost, there would be nothing to say, so there would naturally be no problem.

However, if he used dirty tricks and forcibly overturned the normal direction of victory and defeat, that would be a big problem.

Not to mention anything else, just the repeating students wouldn't be able to convince the public!

Lin Jue was the main reason why the closed and scattered repeat students were able to achieve what they had today. Tian Xiangyang was also very appreciative of this, and it was because of this that Lin Yi's weight in his heart was extremely heavy.

It was no exaggeration to say that he was no less than Xu Anshan, who grew up in the Tian family!

Xu Anshan was now a Lord-like figure, and to be able to suppress the Academy, which was full of hidden dragons and crouching tigers, was indeed a great contribution that could not be underestimated.

Still, he couldn't compare to Lin Yi.

Although the Academy wasn't within the Tian family's traditional sphere of influence, the Tian family still had a huge influence.

Even without Xu Anshan, Tian Xiangyang would most likely be able to settle the issue with the Academy. It would just be a few more twists and turns.

However, it was different in the repeat school.

Without Lin Yi, even the Tian family wouldn't be able to take down the repeat division in a day. At that time, the school Summit would be missing a corner, and the so-called integration of the school would be greatly reduced.

The Chen family's actions were no different from prying open the foundation of the wartime Committee!

Chapter 9839 Power

Everyone from the Chen family looked at each other and then looked at Chen Yue.

Since young master Chen Xun wasn't around, he was the one with the highest status in the family.

Chen Yue said seriously, "as long as it's within the rules, it's fair to use any resources. We can't force our young master to not use any of the family resources and go up to the stage alone like Lin Yi, a poor grassroots. That's fair, right?"

Gu Tianshou, the representative of the Gu family, chimed in, "It is indeed unreasonable to say that it is only fair that nothing can be used for the family resources that have been accumulated by dozens of generations of ancestors through countless hardships and painstaking efforts.

At least from a logical point of view, there was nothing wrong with his words.

In fact, the one who couldn't refute this was Tian Xiangyang himself. It was because he didn't rely on his own ability to sit in his current position, but the huge Halo of the entire Tian family.

It was very difficult for people to betray their own class, because that was equivalent to a complete denial of themselves.

To put it in a more serious way, once this argument was overturned, it would actually shake Tian Xiangyang's personal authority.

That was why the two families were so fearless.

This was because they were very clear that even if Tian Xiangyang could not maintain his composure for the time being, he would still stand on their side in the end.

The three founding families were of the same breath and branch. This was not a simple saying.

In the end, Tian Xiangyang looked at the two of them coldly, ""Are you teaching me what fairness is?"

"....."

Chen Yue and Gu Tianshou's hearts skipped a beat.

Tian Xiangyang's reaction was completely out of their expectations. From what they knew, although this eldest master of the Tian family would occasionally have a recalcitrant side, he was definitely not a person who showed his emotions on his face.

In front of so many people, especially an outsider like Banshi Luo, who was on the opposing side, what was the difference between directly asking such a question and falling out in public?

Chen Yue gritted his teeth. "You've misunderstood. We have no intention of offending you. We just want to make one thing clear. This battle is still fair.

At the very least, it's not an excuse for someone to not admit their loss. "

The rest of the Chen family members also realized the seriousness of the problem, and none of them dared to breathe.

If they really offended Tian Xiangyang today, even if their young master had the last laugh and successfully obtained the highest-ranking seat in the wartime Committee, they would still lose more than they gained.

If there was anyone who understood the horror of the Tian family the most in the world, it would be the Chen family and the Gu family, the two founding families.

There were many things that outsiders couldn't see clearly. Only those who were closely connected to him had the chance to see a glimmer of extraordinary splendor.

However, just as everyone thought that Tian Xiangyang would continue to act up, the old man of the Tian family suddenly stopped and turned to look at Banshi Luo.

"Half-master, what do you think?"

Banshi Luo laughed and said, "how F * cking fair."

The crowd was silent. Although Banshi Luo was known as the world's teacher because he was good at guiding cultivation, it was also a compliment for his kind and tolerant style of an elder.

This was something that they had to admit even though they were on opposing sides.

But now, such a loyal and honest elder had actually burst out swearing in public. It could be seen how angry he was.

What was even more shocking was that Tian Xiangyang had actually taken the initiative to ask for his opinion at this time. Just this matter itself, in the eyes of those who truly had the intention, was already profound.

"They've sealed the power of rules and are being targeted by the entire arcane realm. On the other hand, the other side has all kinds of cheats and even has a group of powerful foreign aid."

Banshi Luo smiled and spread his hands. "If it were me, I would have admitted defeat. There's no way to fight."

Everyone was speechless.

To be able to make a super top combat power say this personally, it was enough to show how unbalanced the situation between the two sides in the mystic realm was. What was an authoritative confirmation? this was a genuine authoritative confirmation!

As long as Banshi Luo's words were spread, the people outside would be able to make a judgment without even seeing the projection of the secret realm.

If Lin Yi were to lose, the public opinion of the school would be unimaginable to house Chen!

This was especially so for the bunch of animals from the school of repeaters. Once they made a scene, no one could suppress them.

All the pressure would eventually fall on the Chen family!

Although the Chen family had a profound background, it was impossible for them to fight against the entire repeating Academy alone. They wouldn't even know how they died.

"Do you still think it's fair?"

Tian Xiangyang looked at the Chen family indifferently, ""If you still insist on thinking this way, then I won't say anything more. After all, the fairness you speak of is indeed very reasonable."

The Chen family's faces changed completely.

If Tian Xiangyang really did not do anything and allowed the pressure from the repeaters and even the entire Jianghai Academy to fall on them, there was no doubt that they would be crushed to death.

This could be seen from Gu Tianshou's attitude.

From the beginning, the Gu family, as the Chen family's close ally, and to a certain extent, even wanted to join forces to resist the pressure from the Tian family, was now standing silently on the side.

Chen Yue's body instantly turned cold.

He had still greatly underestimated Tian Xiangyang's experience. He thought that Tian Xiangyang would debate with him about what fairness was. According to his expectations, as long as he entered that level, his Chen family would naturally be in an invincible position.

Even if Tian Xiangyang's attitude was more radical, it wouldn't affect the final result. This was because the opponent that Tian Xiangyang really needed to debate with wasn't the Chen family, but himself who was the face of a traditional clan.

However, Chen Yue was overthinking.

Tian Xiangyang didn't want to play this game with him.

Debate? Debate your mother's Scriptures!

As the leader of Jianghai Academy, he did not need to waste his breath on people. Instead, he needed to crush them with his might!

Do you think your logic is invincible?

Alright, let's see if your logic can convince the entire Jianghai University. If it can, then you're good. If not, then you'll have to bear the consequences.

As for whether or not you can withstand it, that will depend on your own fortune.

The Chen family members finally realized something, something that they had neglected in the past but was extremely important.

That was, the three founding families that were on equal footing in name had never been on the same level.

Chen Yue was drenched in cold sweat. After hesitating for a long time, he finally said in a bitter voice, ""Then what does the Tian family's old master mean by this battle?"

The arrow had already left the bow, and it was too late to turn back.

Although the secret realm of clomaros was under the control of the Chen family, it was not a back garden that could be entered and left as one wished. Activating the secret realm once not only required a large amount of resources, but it also required a long cooldown period.

If it were to be temporarily interrupted this time, the next time it would open would be ten years later.

It was impossible for the Chen family to find a better home ground in a short period of time. If they had to wait for ten years, it would be too late.

Without home ground advantage, no matter how strong the young master was, how could he fight Lin Yi?

Chapter 9840 The End

"That will depend on the sincerity of your Chen family."

Tian Xiangyang replied indifferently, "I know Lin Yi's character very well. He's not the kind of person who's calculative. As long as it's not too outrageous, he'll accept it. Of course, the condition is that the price you pay is high enough. Otherwise, don't ask for it."

"This ..."

Chen Yue couldn't help but feel awkward.

At this point, there was no way they could not bleed, but at Lin Yi's level, anything that caught his eye would definitely make the Chen family's heart ache.

As expected, Luo Banshi immediately spoke on his behalf, ""Huge risks naturally come with equal benefits. I think controlling the entire secret land of clomaros is a good idea, I believe Lin Yi will agree."

Everyone's expression changed.

Especially the Chen family experts led by Chen Yue, their faces changed color.

According to their previous agreement, even if they lost the challenge, they would still retain half of their control, even if they suffered a huge loss. At least, they could still maintain the dignity of a super family.

However, according to this logic, once he lost, he would have nothing.

Without the secret realm of Ares, the most important strategic resource, the Chen family would probably fall out of the ranks of the Super families. In the long run, the gap between the Chen family and the other two families would be widened rapidly, and they would never be able to recover.

The Chen family couldn't afford to take this risk!

"Impossible!" Chen Yue's face darkened. "That's impossible!"

Tian Xiangyang and Luo Banshi looked at each other and said, ""I've said it before, it's up to you how you want to bid, but time is of the essence. If we can't settle this in an incense's time, demi-master and I will break through the secret realm of clomaros and call Lin Yi back. We won't have the chance to bid then. "

"Break through the secret realm of clomaros ..."

The Chen family's eyes twitched again.

If this came from someone else's mouth, they would definitely scoff at it, but it was not impossible for Tian Xiangyang and Banshi Luo to join forces!

Once the secret realm of clomaros was broken through by the two of them, it would take at least a few decades or even a hundred years for it to recover, even if it was not completely destroyed. It would be a heavy blow to the Chen family.

Most importantly, Tian Xiangyang's expression didn't seem like he was joking at all.

Chen Yue did not dare to waste any more time. He immediately contacted the young master who was in the secret realm of Ares. A normal secret realm would be completely isolated from the outside world, but the Chen family who had control of it obviously had the privilege of doing so.

After listening to Chen Yue's retelling, Chen Xun, who was in the secret realm, fell into a long silence.

A huge dissatisfaction towards the Tian family was rapidly brewing!

As far as he was concerned, Tian Xiangyang was the one who caused house Chen to lose. Without the ten special votes, Lin Yi wouldn't have been able to get into the committee.

Lin Yi's recent reputation was huge, but a grass root was a grass root. No matter how big his reputation was, it was just floating clouds-he couldn't have any real influence.

The crowd might be cheering, but it was unrealistic to ask them to vote.

In this aspect, Lin Yi couldn't be compared to a traditional family like the Chen family. After all, they didn't rely on their so-called reputation, but their real interests!

One could say that Tian Xiangyang was the one who helped Lin Yi steal the seat that should have belonged to house Chen!

And now, this face of the three noble families wasn't helping house Chen get back their seat, but was pushing it, helping Lin Yi to get his entire Ares secret realm.

Who couldn't endure it!

But in the end, forced by the circumstances, Chen Xun chose to lower his head. "Since he wants it, then we'll give him something to think about. But if he wants to live but doesn't want to take it, then don't blame us."

"But what if ..."

Chen Yue couldn't help but worry, "this Lin Yi, he's evil."

"In my place, there is no" what if. "From the moment he entered the secret plane, he was already a dead man. Don't you know that?"

Chen Xun sneered as he stood up. The person beside him immediately handed over a terrifying weapon that was condensed with the will of the war god. In an instant, his aura surged into the sky, and the weather changed.

The heavenly halberd.

Lin Yi had no idea what was going on-he didn't know that the two bosses were willing to lower their status for him, even bargaining with someone to wring out the control of the entire Ares secret realm from house Chen.

For Jianghai Academy to have such an honor was unprecedented, and there was a high chance that no one would ever come again.

After all, Tian Xiangyang and Banshi Luo were natural enemies. To be able to gain their favor at the same time was already a small probability.

As for making them stand together to attack people, that's a product of this era that can't be replicated, especially when it's against the Chen family, who has always been part of the Tian family.

If it wasn't for the Great Tribulation, Tian Xiangyang would only do such a thing.

But this wasn't something Lin Yi needed to worry about right now.

The biggest problem he was facing now was how to get through the next obstacle.

In this secret realm of clomaros, to die under the Green Dragon Crescent Blade and to bring glory to second master Guan was the fate that he could not avoid!

His intuition told him that the person playing the role of second master Guan was not an ordinary character.

As the master of the secret realm, in order to obtain the maximum amount of power, Chen Xun, the young master of the Chen family, would definitely personally choose Lu Bu. At the very least, he would be able to become a true war god in this secret realm!

At the same time, he wouldn't let go of the other important figures. He would definitely arrange for some powerful allies to consume his energy in advance!

After all, the two sides had only agreed to fight in this secret realm.

As long as the final battle was one-on-one, it would be fair. As for what would happen to Lin Yi before he met Chen Xun, that was entirely his own business.

If he were to fall on the road without even meeting the person in question, then it would be his own lack of strength, and he could not blame anyone.

If you're willing to bet, you have to admit defeat!

Lin Yi had expected this, and he didn't want to waste his time arguing with them. Tian Xiangyang and Luo Banshi were watching him from the outside, so he wouldn't be at a disadvantage.

However, there was a prerequisite. He had to live and win.

After killing Pan Feng with one strike, the morale of the Army behind him soared, and the sound of drums shook the sky!

Lin Yi looked at the camp of the Allied forces in the distance and squinted his eyes.

At this point, he was still following the plot. Including Pan Feng, the bunch of people who had died for him were obviously just natives transformed from the obsessions of the secret realm, not actors like him.

However, that might not be the case next.

According to the plot, the camp should be in chaos by now. Lin Yi suddenly had a thought-what if he led the Army to attack now?

Although the mystic realm had a fixed general trend, it was not completely impossible to change its direction. Otherwise, there was no need to fight at all, and they could just wait for death and escape.

Once the direction was changed, there would at most be some power to correct it.

However, this thought was only a flash. At most, it was just a thought.

Compared to the enemy's Allied army, which had many soldiers and generals, they were still at a disadvantage. They could still grind away at the city if they defended steadily, but if they really attacked rashly, they would most likely die even more miserably than before!
