

Bodyguard 9851

Chapter 9851

To ordinary people, the Great Tribulation was naturally terrifying. It represented destruction and death. When the time came, it was unknown how many people would be crushed by it, and their families would be destroyed.

However, for powerful people like the Li father and son, it was a heaven-sent opportunity to harvest leeks.

History had long proved that every great calamity was a major shuffle, an ultimate shuffle where the winner takes all.

The weak would become food for the strong until the strongest stood out and became the king of the next era.

This was how the Tian family got their position, and soon, it would be their turn!

Lin Yi, who was in the secret realm, couldn't care about that. With Chen Xun's disappearance, the secret realm of Ares had returned to its neutral position.

One of the most obvious signs was that he was given a final reward.

Because of Dong Zhuo's suicide, Lin Yi's identity mission was a complete failure, but now that the secret realm of clomaros judged him as cheating, his mission was still considered complete!

A huge amount of pure realm energy immediately rushed into Lin Yi's body, loosening the unbreakable realm barrier. Lin Yi's aura started to climb towards the late stage of Big Shot complete realm.

The entire secret realm of clomaros changed in an instant, and the sky above Lin Yi was filled with strange phenomena. It was a shocking scene.

Even Tian Xiangyang and Luo Banshi could not help but look shocked, let alone the audience who was watching the live broadcast.

He was only breaking through to the late-stage of the consummate level of a Big Shot, and he already had such a shocking scene. When this guy officially broke through to the ultimate consummate level of a Big Shot in the future, wouldn't he be able to destroy the world?

This scene lasted for half a day, and only when Lin Yi truly stepped into the late stage of Big Shot completion did it finally dissipate. The entire space finally returned to normal.

Feeling the increase in his base strength, Lin Yi finally felt relieved.

Before this, he had been worried about one thing.

Just the upgrade of the five Element perfect domain was already extremely difficult. He originally thought that as it was upgraded to the ultimate perfect domain, the breakthrough in realm would become even more difficult.

Fortunately, although the difficulty had increased, it was still within the acceptable range.

As long as he cleared the secret lands a few more times and accumulated more power, he would eventually be able to level up.

After all, with his current level as a Big Shot of laws, it was already a towering building for him to review his domain level cultivation. The only thing he was lacking was the accumulation of domain power.

In the future, as long as there were still secret lands to farm, this would not be a problem!

Seeing Lin Yi's excited face, Tian Xiangyang and Luo Banshi looked at each other and smiled, ""Are you itching to fight us?"

Lin Yi was a little moved, but he shook his head in the end. "I'm still lacking a little now, maybe in the future. "

Although the breakthrough this time only increased his basic strength and did not really involve the Supreme level of laws, it did not mean that it was not important.

On the contrary, Lin Yi's strength increase this time was unprecedented!

If rule power was the most lethal edge of a weapon, then the basic realm was the weapon's main body. Now that the entire weapon's main body had been reborn, it was easy to imagine how much its power had improved.

Lin Yi was obviously weaker than the Sea King when they fought.

Although he could barely deal with them, he had no chance of winning if he got serious.

But now, if he were to fight the Sea King again, he might not be able to suppress it for sure, but at least he had the confidence to fight it to a draw.

Furthermore, the control of rule bending power was not completely separated from the base realm. To a certain extent, the latter directly affected the upper limit of the control of the former.

If he were to stay at the peak of the mid-stage of Big Shot realm, five percent rule control would be his limit.

No matter how good the opportunity was, it was hard to have a breakthrough.

But now, he could think of a way to raise it.

Lin Yi was in a good mood after coming out of the secret realm of Ares, while the Chen family members were all on the verge of tears.

Putting aside the fact that young master Chen Xun had been defeated, he had also been completely annihilated. This was a devastating blow to their Chen family.

Although there were other direct descendants of the Chen family, none of them had received the recognition of the entire family like Chen Xun. Now that the clan head had disappeared, Chen Xun was the only pillar of support.

Now that their only backbone was gone, the Chen family's future was obvious.

The direct descendants who had been suppressed by Chen Xun were definitely ready to make a move at this moment. If they were not careful, the Chen family might face the end of falling apart.

As he thought of this, Chen Yue, who was in charge of the elders, could not help but feel mentally and physically exhausted.

However, to them, the trouble in front of them was not over yet.

Lin Yi walked up to him calmly, "Can we start handing over the control rights of the secret realm now?"

The Chen family members immediately glared at him.

A direct descendant stood out with an indignant expression and said, ""Our Chen family is already in such a miserable state, and you're still trying to take advantage of us? Are you still human?"

A few other direct descendants who were more scheming also reacted and quickly stood up to blame Lin Yi, trying to make their presence known in front of the family.

"Huh?" Lin Yi couldn't help but look at her strangely. I'm looting a burning house?"

He really didn't expect that the other party would go back on their word even though they had agreed on this in public, especially with Tian Xiangyang as the witness. The shamelessness of this super clan was truly impressive!

Tian Xiangyang saw this and said lightly, "if you are willing to bet, you have to accept the loss. This is what you said yourself. As one of the three founding families, you should at least save some face for yourself. Otherwise, it will be too embarrassing."

Seeing that everyone was looking at him, Chen Yue helplessly stepped forward and said, ""Old master Tian, we really didn't intend to renege on our debt. Our young master was suddenly taken away by that thing, and the matter hasn't been investigated clearly yet. Can you at least give us some time to catch our breath?"

"What?" Tian Xiangyang looked at him coldly, "does this affect your delivery of the secret realm?"

"This ..."

Chen Yue bit the bullet and said, "it happened in the secret realm of Zhan Shen. The clues must be there. If we hand over the secret realm now, our young master might not be able to come back. Don't worry, master Tian. Our Chen family is not one to go back on our word!"

All in all, it was just one word, drag.

Using the excuse of finding clues about Chen Xun, they could delay the delivery time and find a way to renege on the debt during this period. If they really couldn't renege on the debt, they could also squeeze the last bit of value out of the war God's secret realm.

Then, he'd throw a useless body to Lin Yi-even he'd have to admit that he'd be unlucky.

This little scheme naturally could not escape Tian Xiangyang's eyes.

Chapter 9852 Power

Tian Xiangyang's expression turned cold, "This is a good secret land of clomaros, but you've turned it into a sieve, and anyone can sneak in and cause trouble! You guys actually still have the face to continue holding it in your hands?"

A direct descendant of the Chen family wanted to fight for a position, so he forced himself to say, "We, the Chen family, are not afraid of failure. We will get back up from where we fell!"

Tian Xiangyang laughed, "is that so?" That thing just now could come back at any time, and it might even turn into an even more terrifying existence. Are you sure you want to continue dragging it out?"

"....."

The Chen family members, who had been indignant just a moment ago, immediately shrank back.

The connection between the controller and the secret realm was two-way. While the Chen family controlled the secret realm of Ares, the secret realm could also be connected to the core of the Chen family at any time.

If a terrifying monster like the giant eye came and sneaked into the Chen family through the secret realm of clomaros, the scene would be unimaginable.

Chen Yue's expression changed immediately. "Our Chen family has always been a man of our words. Since we have agreed to the bet in advance, we will definitely fulfill it. No matter what, our family's reputation is the most important!"

With that, he handed the map to Lin Yi and cut off all connections with the secret realm of Ares in front of everyone.

He was even afraid that the cut was not clean enough and took the initiative to ask Tian Xiangyang to help confirm it.

This series of actions dazzled everyone's eyes and made them sigh with emotion. A super family was indeed different, they had such a strong tone!

However, Chen Yue didn't forget to flatter his own family, ""Lin Yi, remember this, we're willing to hand over the most precious control of the secret realm of Ares, not because of your face, but for the sake of the whole school!"

Lin Yi was touched by her words, "As expected, big families are noble and unquestionable. I'm impressed."

Chen Yue snorted coldly and immediately left with the Chen family.

On the other side, Gu Tianshou, the Gu family's elder in charge, unexpectedly came over to greet Lin Yi. Although his attitude wasn't very warm, the act of greeting itself was thought-provoking.

Don't forget, not long ago, his young master Gu Weiyang was chased around by Lin Yi and almost died a few times. He didn't even know where he was now.

A normal person wouldn't have been nice to Lin Yi even if they didn't hate him to the bone.

However, Gu Tianshou had taken the initiative to greet him in front of everyone, and there was no trace of reluctance on his face.

This was the true way super clans dealt with matters.

Personal feelings were one thing, but family interests were another. The two would not be easily mixed up.

From house Gu's point of view, house Chen's traditional Iron Fist was destined to fall. It wasn't a wise move to continue fighting Lin Yi, who was rising up.

On the contrary, only by lowering their stance and maintaining a good relationship at this moment could they stop losses in time. They might even have a lot of opportunities to cooperate with each other in the future.

If a family wanted to pass on their legacy, the most important thing was to be aware of the times.

As one of the three founding families, although the Gu family didn't have as many powerful people as the Tian family, at least they had a much brighter future than the Chen family.

The crowd dispersed, leaving only Tian Xiangyang and Luo Banshi behind.

"What do you plan to do with this mystical realm?"

Tian Xiangyang asked.

Due to the various changes that had happened earlier, although the overall outline of the secret realm of Ares was still intact, it had been broken through several times, leaving behind many gaps and hidden dangers.

Of course, the secret plane could repair itself.

However, with the current level of damage, it would take at least 20 years for it to be completely restored and used again.

If Lin Yi wanted to build a thousand-year-old family, then twenty years would be nothing. As long as this secret realm existed, the family would have the ability to survive.

However, from the perspective of the imminent Great Tribulation, it was meaningless.

Twenty years later, it was still unknown whether Jianghai Academy would still exist, let alone other things.

Moreover, from the situation just now, those things had a way to infiltrate the secret realm of clomaros.

If he left it alone and allowed the mystic realm to repair itself, it would be like a ticking time bomb that could go off at any time!

Anyone else would've hesitated, but Lin Yi didn't even think about it. "I'm planning to move the training camp here,"

Tian Xiangyang and Luo Banshi were both moved.

Using this place as the training camp's headquarters was basically the same as opening the secret realm of clomaros to the entire Academy.

Even they didn't expect Lin Yi to have this kind of courage!

Tian Xiangyang couldn't help but laugh, "you're also a natural prodigal!"

Lin Yi smiled, "actually, I have my own plans. How can I defend such a huge realm by myself?" It's better to pull in more coolies, and I can have some free time. "

"You'd better think about it carefully," Banshi Luo said seriously. "Every time a secret realm like this opens, it will consume its Foundation. Normally, in order to ensure its effectiveness, it will have to be closed for more than ten years after each opening.

If it's opened to so many people for a long time, it'll easily exceed the limit of the war God's secret land. Not only will the effect be greatly reduced, but it might also cause permanent damage, and it'll be difficult to recover it in the future. "

They couldn't be blamed for being long-winded, but Lin Yi's animal behavior of treating a treasure bowl like a rice bowl really made them want to vomit.

Even if they knew that for the big picture, Lin Yi's decision was the best one!

"It's better to have a bird in Hand than to have ten in the forest. If it can't be converted into immediate combat power to help us survive the next Great Tribulation, it's useless no matter how good the arcane realm is."

Lin Yi laughed.

The secret realms of clomaros were precious resources in the eyes of others, but to him, they were just consumables. No matter how impressive you were, you still had to use up your resources when you needed to. You couldn't possibly treat them like your granddad, right?

He didn't have the habit of being a grandson.

Tian Xiangyang took a deep look at Lin Yi and couldn't help but praise,""You can. You're just like me when I was young!"

"What?" Banshi Luo, who was beside him, had a strange expression on his face. "Weren't you a nouveau riche when you were young?"

"....."

Tian Xiangyang choked for a long time before finally saying, "I'm talking about his style as a prodigal. "

Lin Yi couldn't help but to hold back his laughter. So this mysterious man had a dark history like this when he was young.

Unknowingly, Tian Xiangyang and Luo Banshi, the two natural enemies, had already formed a tacit understanding like old friends.

It had to be said that people really changed.

Chapter 9853 Power

Banshi Luo returned to the main topic. "If that's the case, why don't we just downgrade the secret realm of clomaros? this will reduce the damage to our Foundation and at the same time, increase the stability of the secret realm. This will help to fix the loopholes quickly. It's killing two birds with one stone."

Lin Yi blinked. Wasn't this safe mode?

At the cost of limiting various functions, it reduced power consumption while ensuring safety. Indeed, everything was interconnected.

This way, not only did it solve the hidden danger, but it also indirectly guaranteed the effect of the secret realm.

In the original version of this trial mode, although the trial-takers would obtain unimaginable benefits once they passed the level, the threshold and difficulty were extremely high, and the number of trial slots was very limited. It was destined to be a paradise for only a few top-tier cultivators.

If he were to open it to the entire training camp, there would definitely be a lot of twists and turns.

Now that the secret plane had been downgraded, the individual improvement effect wasn't as crazy as before, but it had also greatly lowered the entry threshold, allowing everyone to benefit as much as possible. This was completely in line with the training camp's purpose.

Moreover, the so-called 'poor effect' was only relative to the original version.

To the elite fighters of Jianghai Academy, this was a top-tier resource that could only be found by chance. As long as they were not too weak, they would definitely be able to reach the next level after one round of training!

Seeing that Lin Yi had made up his mind, Tian Xiangyang and Luo Banshi didn't waste any more time. They immediately led him through the entire secret realm of clomaros.

Just the process of leveling up in the mysterious realm was enough to benefit Lin Yi.

He now had a deeper understanding of some of the origin laws that made up the secret plane, especially the operation mode of the space laws.

His control of the rules, which was originally at 5%, also began to slowly increase.

It wasn't a fast improvement, and it wasn't a big one, either, but it was a solid foundation for Lin Yi's understanding of the laws. It was a benefit in the long run.

Just as the three were working on the secret realm of Ares, someone started a new trend on the internet.

They pointed their fingers at Lin Yi.

It was normal for a top-class person like Lin Yi to be attacked, and everyone was already used to it. Lin Yi himself didn't even look at it.

However, this time, it wasn't to belittle his strength, but to change a rather novel perspective.

"I remember that the Chen family said that they would contribute the secret realm of Ares to the whole Academy, right? But now Lin Yi has it all to himself-this is way too unsightly!"

"That's right, the bet was notarized by the Tian family and the wartime Committee. He didn't bet his head on the Chen family for the sake of the entire Academy!"

"Using the name everyone has chosen to gamble with others. It's not a loss if you lose, but it's a huge profit if you win. It's okay!"

"You guys don't understand. Haven't you heard of the saying" 30 - 70 split "in the secular world? We can only be represented by others. Don't look at how he's earning a lot of money, if you want to fish some soup from the cracks of his fingers, there's no way!"

All sorts of enigmatic auras instantly filled the air.

There were quite a few people who stood up for Lin Yi, but they were immediately surrounded and ridiculed.

The general idea was that a lowlife like him didn't deserve to be cleansed by a Big Shot like Lin Yi-did he know who he was?

Under the influence of some people, all sorts of topics targeting Lin Yi's table manners made it to the top of the search.

Even those onlookers who were originally neutral joined the Army of denouncement one after another under the influence of the general environment. The momentum grew bigger and bigger, gradually becoming an overwhelming force.

At the end of the day, it was human nature to be jealous and unhappy when they saw others eating meat.

"Do you really think it's that easy to take the things of the Chen family? Hehe, let's have a good taste of what it's like to be unable to explain yourself!"

Chen Yue looked at this scene and sneered.

House Chen had no choice but to give up on the secret realm of Ares, which was the foundation of their family, but it wasn't that easy for Lin Yi to take it down so easily.

He was looking forward to Lin Yi's rebuttal.

This kind of thing would always get worse the more it was covered up. As long as the opposing emotions were stirred up, the rest would be brainless output.

It didn't matter how honest and objective the person involved was-it'd only turn into even more sinister conspiracy theories, and Lin Yi himself would only get even deeper into the vortex!

Although Chen Yue was not clear about the rhythm and routine on the internet, as an elder of the Chen family, he was well aware of the weaknesses of human nature. This kind of thing was a piece of cake for him.

From the beginning to the end, Lin Yi acted as if he didn't hear or even look at it.

Even his group of repeat students didn't have a single core figure to stand up and respond.

Lin Yi group, from top to bottom, treated this wave of menacing attacks as air.

"Are you trying to act like an ostrich and leave it alone?"

Chen Yue confidently saw through Lin Yi's intentions and laughed in disdain, "Do you really think that you can get over this by pretending to be dead? Is it really that simple?"

There were indeed many public relations cases in the secular world where people pretended to be dead to get away with it, but there was a basic premise, which was that the subject of the discussion had to leave the public eye.

After all, the public's memory was short-lived, and their attention would be quickly diverted by other topics, so the strategy of pretending to be dead was effective.

However, things were different in Jianghai Academy.

Lin Yi's position as the top of the internet was unshakeable, especially after something like this happened. The public's eyes couldn't take their eyes off him, not to mention that there were people adding fuel to the fire!

The public opinion came in waves.

There were some other incidents in between, but under house Chen's influence, the entire internet was focused on Lin Yi.

The more he delayed, the more negative public feelings would accumulate, and the situation would get out of hand!

In just a few days, Lin Yi had a bunch of new nicknames.

The turtle God, the ostrich King, the spokesperson of 'hide your ears and steal your Bell'...

And the ones who put in the most effort to slander Lin Yi weren't outsiders, but the students of Jianghai Academy.

To outsiders, this was just a matter of watching the show. However, to the students of Jianghai Academy, this was a matter of vital interest.

After all, according to house Chen, they were giving the secret realm to the whole school, not just Lin Yi himself. This meant that, at least in theory, every one of them could get a share!

That was the secret realm of clomaros.

After this period of popularization, who didn't know the benefits of this top-tier secret realm?

As long as he casually took a trip inside, he could directly advance a realm. There was no better opportunity than this in the world!

Chapter 9854 The Power Of The Divine Realm

Although many people knew that there must be an element of exaggeration in this, even if it was discounted, this kind of opportunity was still enough to make everyone scramble for it!

At a time like this, it didn't matter what Lin Yi was thinking.

The most important thing was that he had to spit out the secret realm of clomaros so that all the students in the Academy could have a taste of it. Otherwise, the rhythm would continue!

The situation was getting worse.

Wang shiqing was the first one to lose her cool and gave a death order to her newly-trained hackers.

"Dig out all these internet trolls who're slandering Lin Yi bro! I'm going to let them experience what it's like to be on the internet, I'm going to let them have a taste of the iron fist of Justice!"

Tang Yin and the others didn't know whether to laugh or cry at the girl's murderous look, but they didn't stop her.

Although they weren't so indignant, they still had a stomach full of anger.

It's good to let the little girl go out and do something.

Wang shiqing's new team of hackers was very efficient. Soon, professional internet trolls were dug out one after another and exposed to the public.

This group of people naturally did not have a clean background. Not only did they all have dark histories, but most importantly, they had all received benefits from the Chen family!

Lin Yi's fans, who were suppressed to the point where they couldn't say anything, stood up.

The leaders of the Internet Water Army immediately died, and the Chen family, who was the mastermind behind the scenes, was naturally the target of public criticism!

Because of the previous battle in the secret realm, the Chen family's reputation as a super family had already been questioned. Now, it was even more directly exposed. Their originally high and mighty reputation had fallen to the sewers, and it was smelly beyond words.

It was already embarrassing enough to lose, but he still had to resort to such underhanded tricks. What was the difference between this and reporting others for cheating when they couldn't pass the exam?

Was this the style of a super family?

As one of the three founding families, the Tian family and the Gu family had originally stayed out of it. In the end, while they were enjoying the show, they suddenly realized that their reputation had fallen into the sewer along with the Chen family ...

This time, the Tian family and the Gu family couldn't sit still.

Tian Xiangyang, who was busy modifying the secret realm of clomaros, naturally couldn't be bothered with such a matter. However, an elder of the Tian family stood out and expressed that he would draw a clear line with the despicable and shameless Chen family.

Gu Tianshou, the Gu family's head of Affairs, expressed his stance as well.

The Chen family had already given up on themselves, but the two families still had to care about their reputation.

As for the Chen family, they were in an uproar.

The Chen family's direct descendants who had a chance to be promoted all stood out and accused Chen Yue of making decisions on his own.

In other words, this was all Chen Yue's fault, and had nothing to do with the entire Chen family!

Without the secret realm of Ares, the current Chen family needed the protection of a super family more than ever before. In the end, they were completely defeated by Chen Yue in the blink of an eye.

It was really a case of a house leaking when it rained overnight. Every time the car lost control and went down a cliff, there would always be one or two idiots who would step on the gas pedal again.

Chen Yue himself also wanted to cry but had no tears.

To be fair, he had been extremely careful in doing this. At least from his point of view, it was already flawless, and it was impossible for anyone to get hold of any evidence!

Even if the leaders of the Internet Water Army were bribed by Lin Yi's people and wanted to expose themselves, they wouldn't have any evidence and wouldn't be able to hurt house Chen.

To be honest, there were no loopholes in his plan, but he didn't understand information technology.

In the eyes of Wang shiqing and the other hackers, his plan of hiding behind the scenes was no different from taking off his clothes and performing art on the busy street.

It could only be said that Chen Yue did not lose to his opponent, but to this rapidly changing era.

My Lord, the times have changed.

Very quickly, under the unanimous appeal of the Chen family's direct descendants, Chen Yue was removed from his position as the deacons elder.

If it were not for the fact that he was the only top-notch combat power in the clan, he might have been directly expelled from the Chen family this time. After all, strictly speaking, he had to bear quite a bit of responsibility for Chen Xun's disappearance.

He was in charge of the entire battle arrangement and the control of the secret realm of clomaros was in his hands.

It was not an exaggeration to say that he was the first one responsible for the Chen family's current state.

It was only by relying on the strength of a Big Shot at the consummate level of the realm that he was able to retain his last bit of dignity.

Even so, Chen Yue's end was destined to be bad.

It was a foregone conclusion that he would gradually be marginalized in the Chen family, and his words would no longer have any weight. In the future, he would at most be an elder's hired thug, and he might not even be able to keep his position.

Of course, the Chen family's ship itself was already riddled with holes. If this trend continued, it would fall apart in the next wave.

By then, Jianghai Academy would only have the two founding families. The Chen family's name would no longer exist.

As the loser, they were destined to be swept into the garbage dump of history and no one would ever ask about them again.

But even though house Chen had become the target of public criticism, the internet still wasn't completely free from Lin Yi.

Even though they knew that they were in the wrong, many people still wanted Lin Yi to give up. They hoped that under the pressure of public opinion, Lin Yi would give up and spit out the secret realm of Ares.

There were quite a few of them.

They'd be hunted down by Lin Yi's supporters, but they wouldn't let it go.

That ugly face was directly on their faces, and no one could do anything to them.

Wang shiqing's hacker team was helpless.

This group of people was shameless and disgusting, but there was nothing he could do about them.

He couldn't just let Lin Yi's core combat force, led by Duan she, capture them and beat them up, or even kill them as an example to the monkeys, could he?

This wasn't Lin Yi's style at all, and even if it was just for the sake of benefits, it wasn't worth it.

After all, at Lin Yi group's level, their public image was a very important indicator, and if they crossed the line, they'd lose people's support.

It'd be hard to get support from the mainstream, and even the people within Lin Yi group would be affected.

They were all gathered together because of Lin Yi's strength and charisma, but they also recognized Lin Yi's values.

They generally didn't like rigid dogmas, and often went against the rules, but at least they knew that there were some lines that must not be crossed.

Therefore, even though the little girl was angry, she was just sulking alone. Even if she was clever and eccentric, she would not easily step over that line.

She didn't want to disappoint her Lin Yi bro.

Chapter 9855 Power

However, even though he couldn't do anything out of line, he could still be an internet troll.

Just as Wang shiqing was engrossed in the online war of words, calling out the names of all the shameless people, a familiar voice suddenly sounded from behind her.

"You're arguing with someone? You can't do this, you can't hurt their vital points, you can't break their defense!"

Wang shiqing turned around to find Lin Yi smiling at her, and she blushed for the first time.

She was a weird girl, and she rarely cared about her girly image in front of others, but she didn't want Lin Yi to see her arguing with someone.

Just as she was about to close the page, Lin Yi sat down and grabbed the keyboard next to her. Then, he started spewing out a whole new level of insults at her.

"There are so many ways to scold people?" the little girl was dumbfounded.

"Every trade produces a top scholar! There's a lot of knowledge about swearing. In order to kill people, I've studied it in the past, so I have some experience. "

Lin Yi explained humbly.

Wang shiqing didn't know how to react as she looked at the poor guy who was being criticized for being autistic. In the end, she said, ""Lin Yi bro, you're so knowledgeable!"

"....."

Tang Yin was speechless as she watched the two of them, but she rolled her eyes at Lin Yi when he turned around with a smile. "Can't you teach her something better? You only know how to lead children astray!"

"That's what you call "the closer you are, the redder you become,""Lin Yi chuckled.

"It's more like he's stained black by ink!"

Tang Yin shook her head, speechless. "What are you going to do with these people?"

These people were shameless, but they did represent the thoughts of the Jianghai students to a large extent. Lin Yi, of course, didn't have the time to criticize them one by one for being autistic.

However, if they left it alone and continued to let it ferment, it was hard to guarantee that it would not be reused by some ambitious people.

At that time, it would more or less be a problem.

Lin Yi smiled, "since they want me to let go of the secret realm, I'll do as they wish. I'm not a stingy person."

"Ah? Wouldn't that be letting them off too easily?"

Wang shiqing's eyes went wide as she felt wronged. However, she trusted Lin Yi and would support any decision he made.

Even if it was really unpleasant.

Tang Yin, on the other hand, looked at Lin Yi suspiciously. "You're that kind?"

She'd lost her memories, but after spending time with him, she'd more or less remembered some of Lin Yi's memories.

In her impression, Lin Yi was never the kind of person who'd let himself be taken advantage of. It was only people who got scammed by him, not him.

"What's with that expression?" Lin Yi asked, looking innocent. I've always been a great philanthropist. "

"....."

Tang Yin was sure now that this guy was up to no good.

As expected, Lin Yi turned to Wang shiqing, "Make a list of these people and give it to me,"

"For what?" Wang shiqing asked.

"To praise them, of course," Lin Yi said with a bright smile.

It didn't take long for Lin Yi to personally post a statement online, instantly causing a huge commotion in the entire Jianghai Academy.

The repeating Academy's training camp officially opened.

After the warm-up, the entire school was already prepared for this. While they were surprised at Lin Yi's generosity, the repeaters were also eager to try.

The training camp might not be as effective as the secret land of clomaros, but it was still very attractive to most of the high-end combat forces with the top-notch instructors.

With Banshi Luo, the world's master, as their special instructor, and Lin Yi personally leading a group of top fighters from the repeat division as their instructors, they'd never even dreamed of such luxurious treatment. If they still couldn't break through even with all this, then there was only one explanation.

The problem was with them.

If you can't hold up a wall, it's useless no matter how good your cultivation conditions are.

However, that wasn't enough to cause a huge sensation on the internet. The main point was that Lin Yi made two extra points in his statement, and everyone's eyes exploded.

Firstly, the training camp's enrollment scope wasn't limited to the repeating division. As long as one was a Jianghai Academy student and met the hard requirements, they could sign up.

Secondly, the training camp will be located in the secret realm of clomaros and will be open to all members of the training camp for free.

When these two points were announced, not only the Jianghai Academy, but the entire Jianghai city was in an uproar!

It felt like a top-tier University in the secular world had offered a sky-high scholarship that no one could refuse. It was directly open to everyone and the admission threshold was not high!

Everyone would go crazy.

Many of the big shots at the peak of the middle stage of the consummate level pounded their chests, hating themselves for not advancing one more level. As long as they could reach the threshold of the high-end combat power to enter the camp, it was equivalent to climbing the Qingyun stairs.

In the future, it was foreseeable that the gap between these high-end combat forces who joined the training camp and the people outside would rapidly widen, to the point where the people outside couldn't even see the tail lights!

Most of Lin Yi's supporters didn't get to enjoy the benefits of the training camp, but that didn't stop them from being happy.

Most importantly, Lin Yi had used his courage to slap the faces of those people!

A strategic resource like the secret realm of clomaros was taken out just like that, what kind of setup was this!

However, there were still people who were sarcastic.

"If we didn't insist on making a sound and put a lot of pressure on him, do you think he would be so kind as to take out the secret realm of clomaros? You're so naive!"

"That's right. If he really wanted to take it out, he would have done so long ago. Why would he wait until now?"

"Those in power have always been like this. If there's even a little bit of it leaking out between their fingers, it must be because they were forced to, not because they found their conscience!"

"The reason why you guys are able to get close to the secret realm of clomaros is all because of our perseverance! Not only are you not grateful, but you're also in a hurry to lick his stinky feet. How interesting. "

He had to admit that there was always a group of people on the internet who could make people's blood pressure soar with just a few words!

Someone asked Lin Yi.

"There's always a bunch of roosters who think they're the ones who call the sun," Lin Yi smiled.

As for the rest, he was too lazy to clarify.

However, what was unexpected was that he didn't take the initiative to clarify himself. Instead, it was Tian Xiangyang who spoke on his behalf,""Lin Yi decided to open it up to the training camp the moment he got control of the secret realm, and he participated in the whole process of the modification. He didn't open it up to you guys because of some bullshit. In this day and age, you need to use your brain before you hear someone speak. "

With Tian Xiangyang's prestige in Jianghai Academy, no one would doubt him, and no one would dare to do so.

Chapter 9856 Power

His words represented credibility.

As a result, even if those guys were thick-skinned, they couldn't take it anymore. They could only collectively play dead under the warm greetings of the entire internet.

Under normal circumstances, this kind of fake-death strategy was naturally feasible. After all, there was no real-name system on the internet, and no one would associate the weirdos on the internet with them in real life.

In the end, Lin Yi threw out a name list.

On the list was a list of the internet trolls who had previously slandered him, and everyone's message records and identity information were clearly organized.

This group of black Lin immediately exploded.

Although there were a lot of Lin haters on the internet, most of them were paid to do things. These people would never dare to reveal their identities in real life. After all, they were the ones who were really ugly, and they would be despised by others.

Once it was exposed, it would be a social death.

However, the most eye-catching ones among them were not the professional Internet Water Army, but the big shots in the Academy who were at the late stage of the consummate level.

These people were disgusting Lin Yi on the internet, but as high-end fighters who fit the criteria, they had to go to the training camp. After all, who would let go of such an opportunity?

But now, how were they going to get to the training camp?

Even if their skin was as thick as a city wall and they could slap themselves in the face in public, why would the training camp accept them? Did he really think that Lin Yi was doing charity?

All of a sudden, both inside and outside the academy were filled with these few people's melon-eating.

The students who were originally on good terms with them all publicly expressed that they were blind, and each of them directly posted big words to indicate that they had broken off their friendship.

He was completely deserted by his friends and family.

They were clearly high-end combat forces that were revered by others, but in the end, wherever these people went, there was only cheerful air. Even the students at the bottom of the hierarchy could make fun of them in their faces.

One of them couldn't help but burst out in anger. In the end, he was beaten half to death by a Big Shot at the peak of the late stage of the consummate level who was passing by.

It was obvious that this guy wanted to join Lin Yi's training camp, too-it'd be a waste not to accept a gift like this.

Even if Lin Yi himself didn't care about all this, his people would still be willing to give up on him. As long as he could get on their good side, he'd be able to get into the training camp.

Similar incidents were happening all over the Academy.

This bunch of Lin heiresses had never expected a reversal like this when they were madly typing on their keyboards back then. They'd been so aggressive when they were slandering Lin Yi back then, and now they'd ended up in the same miserable state.

The entire Academy did not have the slightest bit of sympathy for this.

One had to pay for what they had done. If they couldn't even understand this basic principle, then it was better for them to quickly pack up and return to their hometown, so as not to waste the precious resources of the Academy.

Then, a tearful confession letter suddenly appeared on the internet.

This was a veteran Lin hei-not only did he analyze his own dark thoughts, but he also reflected on his despicable actions. He even said that he would kowtow step by step, from the Council all the way to the repeating school, as a way to express his sincerest apology to Lin Yi.

The entire internet was shocked.

It would have been fine if this person had only said it, but the key was that he had really taken action and had several big online streamers live-stream his kowtowing journey.

The other colleagues were all dumbfounded. "You don't have to do this just for a place in the training camp, do you? Where's your integrity?"

To be fair, if this kind of person had moral integrity, he wouldn't have been like that.

Although most of the people on the internet were gloating over his misfortune, there were also some people who silently gave him a like.

No matter what, just based on the courage he had to throw his dignity on the ground and trample on it, this guy had a side that was worthy of their admiration.

This time, the ball was kicked to Lin Yi's feet.

With the entire internet watching, if he continued to be unforgiving, it would seem a little too petty. However, if he just pinched his nose and accepted it, he would inevitably be unhappy as if he had eaten a fly.

Lin Yi, on the other hand, didn't seem to be bothered at all. He smiled, "Since you're so sincerely remorseful, then just stay."

Everyone couldn't help but be stunned.

Those who knew him well knew that Lin Yi wasn't the type of person who would be held hostage by public opinion. Was he really going to force him to lower his head with such a disgusting little trick? You must be joking.

Lin Yi explained with a smile when he saw everyone's angry faces. "Every high-end combat force is a scarce resource. Normally, you wouldn't be able to recruit them even if you wanted to. Now that they have offered themselves to you, how can you refuse?

If you have to choose between face and inner, you'll definitely choose the latter. "

Qiu sanniang could not help but say, "but this kind of person is too shrewd, how can we trust his integrity?" What if he's just trying to benefit from our training camp and turn around to target us in the future?"

This situation was not impossible, but highly possible.

"He's already in the training camp," Lin Yi chuckled, "if we still can't get him under our control, then it's not his problem anymore-it's our problem. "

After saying that, he turned around and gave Wei baizhan a meaningful glance, ""He's yours in the future, so spend more effort on him. "

"Understood, boss," Wei baizhan grinned hideously.

The crowd suddenly understood and mourned for this man's tragic fate in the future. The wicked would be tortured by the wicked. He could only pray for his own good if he fell into the hands of Wei baizhan, the pervert.

With this first successful example, the rest of the high-end combat forces that were hung up could not help but be tempted.

Compared to the top-tier opportunities in the training camp, his face and dignity were nothing!

Immediately, the entire Jianghai Academy was in an uproar.

The group of high-end combat forces looked as if they were on a pilgrimage. They kowtowed with every step they took and headed towards the sole king's palace in the repeating Academy from all directions. It became a unique scenery that the Academy had never seen before.

It wasn't just that-even the internet was abuzz with people apologizing to Lin Yi.

At a glance, it was filled with "did you apologize to God Lin today?" It was a spectacular sight.

Lin Yi didn't know whether to laugh or cry.

Of course, he knew that it was just a joke, but it also proved the value of Wang shiqing's hacker team.

Although these people were far from being real hackers by the standards of the common world, they already had the advantage of crushing information technology on Sky Class Island.

With Lin Yi's experience, he naturally knew how powerful this skill would be in the future.

With the rapid spread of modern technology on Tianjie Island, it wasn't an exaggeration to say that Wang shiqing's joking hacker team would become an irreplaceable trump card of Lin Yi group.

Chapter 9857

Its value in the future was immeasurable!

Even if it wasn't for Wang shiqing's hackers, it wouldn't have been so easy to settle the public opinion storm.

He didn't know how much damage it would cause to Lin Yi group, but it would at least leave a hidden danger.

For this reason, Lin Yi set up a celebration party for Wang shiqing's team and gave them a generous reward that would make anyone jealous.

This time, the hacker group, which was originally regarded as a child's play, suddenly became a hot cake.

Only then did everyone realize that this thing was not an unorthodox method, but it really had a great future!

As soon as the news spread, many unpopular geniuses who were not good at mainstream cultivation but had a skill were instantly tempted.

Not all of them were suitable to be hackers, but Lin Yi's attitude showed that he wasn't just looking for talents, he wasn't just looking for combat geniuses.

As long as he could show his value, even if it was an underhanded trick, he would still be put in an important position.

All of a sudden, all kinds of geniuses came to recommend themselves. The lonely king Palace, which was originally a little deserted, suddenly became crowded.

Lin Yi's strategy was starting to work!

Some of the people below did not understand this and felt that it was too much of a waste to invest so many resources on these people.

But Lin Yi knew better than anyone that this was a necessary investment.

If they wanted to survive the upcoming disaster, it was not enough to just rely on cultivating a group of qualified high-end combat forces. They had to be prepared for a long-term battle.

In a long-term battle, it was not a test of the combat power that could be unleashed in an instant, but the overall strength of the entire group.

Only by not leaving any shortcomings in all aspects, and even having the advantage in turn, would they have the chance to have the last laugh.

However, Lin Yi was only at the beginning of all this. He threw it to the poor Shen Yifan and took on the responsibility of being the boss.

Shen Yifan was very resentful about this.

But he had no choice—he had a brother like Lin Yi, and he was destined to suffer.

Fortunately, as the head butler of the group, he could keep up with Lin Yi's wild thoughts.

With his careful personality, he wasn't as creative as Lin Yi, but when it came to execution, Lin Yi couldn't catch up to him.

It had to be said that the two of them were natural partners. If they didn't work together to do something big, even the heavens would feel that they had suffered a loss.

He threw all the stuff at home to Shen Yifan, and Lin Yi managed the training camp himself.

The opening day of the training camp was an unprecedented event.

Tian Xiangyang and Luo Banshi, the two Supreme combat forces, had personally come to support him. Even the Gu family, who had a grudge with him, had sent people over to congratulate him.

Lin Yi's supporters were all proud.

What was face? This was what it meant to be dignified!

However, the most eye-catching thing was not these big shots, but the formation of more than 100 high-end combat forces in front of the palace!

Even the weakest of them were at the late stage of the consummate level. Such a terrifying lineup would be a decisive force no matter where they were placed.

And this unprecedented power had to be addressed as Chief Instructor by everyone from now on!

It was easy to predict that as their strength in the training camp increased, their strategic strength would become even more terrifying.

The most important thing was that Lin Yi would gain unparalleled influence among them.

Normally, at such an occasion, the host would definitely give an exciting speech. At the very least, he would want to show off his achievements and make his presence known.

But there was nothing.

Lin Yi didn't even give a simple self-introduction, opening the secret realm of Ares without a second word.

"Let's go. "

Everyone's eyes fell.

Tian Xiangyang and Luo Banshi smiled in understanding.

If this kid was someone who would play by the rules, how could he have reached such a terrifying height in such a short time?

Although Lin Yi's absolute strength was still a lot weaker than the two of them, it was already showing signs of catching up.

Originally, among the top combat forces, Emperor Xu Anshan was the only one who could stand out and become the new Super Combat force.

No one would doubt this.

But now, it was hard to say. Even if Lin Yi couldn't beat Xu Anshan, he wasn't that far off. It didn't matter who took the first step.

Lin Yi, tyrant, and the rest of the instructors disappeared into the tunnel with more than a hundred high-level combatants. The internet was filled with cries of envy.

They had missed such a great opportunity to take off just because they were not qualified enough. In the future, this would definitely be the regret of their lives.

However, there were still people with discerning eyes who pointed out a clear path for them.

For experts below the late stage of the consummate level of the big shots, the normal path was indeed out of the reach of the training camp. However, there was another path that could be used to save the country.

And that was to join under Lin Yi.

It was rumored that every core combat force under Lin Yi would automatically receive a spot in the training camp.

Many of them clearly hadn't reached the hard threshold of the late stage of the consummate level of a Big Shot. After all, their main bodies were new students.

No one stood up and said anything stupid about it being unfair-this was Lin Yi's own family's training camp, and if his own people didn't even have this little privilege, then what kind of boss was he?!

The group of experts was immediately moved.

But it was an obvious shortcut, and not just anyone could take it. If they wanted to become a core force in Lin Yi's group, they had to get Lin Yi's approval first.

This difficulty was not any lower than advancing to the late stage of the consummate level of a giant. In fact, it was even higher!

It didn't seem like the threshold of high-tier combat strength, but it was a test of all other aspects-talent, potential, and determination-they had to be able to impress Lin Yi in every aspect.

In fact, many times, even if one could barely join Lin Yi's team, it was hard to get the position of core combat strength.

However, everyone was still eager for it.

No matter how difficult this path was, it was better than nothing.

Lin Yi's will was now able to influence the choices of the students without them even realizing it-this was a direct manifestation of his invisible influence.

One must know that even Tian Xiangyang, the leader of the Academy, might not have such a rallying power among the students.

Chapter 9858 Power

"If this continues, something big will happen. Our Tian family must pay attention to this!"

An old man with a sinister aura warned Tian Xiangyang with a serious expression.

His name was Tian Yunkai, the first elder of the Tian family.

Even though Tian Xiangyang himself was strong, the Tian family wasn't like the other two families where they didn't have any authority.

However, Tian Yunkai represented the collective will of all the elders of the Tian family, so his right to speak and influence were still not to be underestimated.

Tian Xiangyang looked at him indifferently, "great elder, aren't you being too serious?"

"We can't let our guard down-I see that Lin Yi's a very unreasonable person, and he's not someone who'd be willing to be beneath others. I'm not trying to scare you!"

Tian Yunkai's face darkened, "how long has it been?" If he already has this much influence in the school, then in the long run, the students will only know of him and not us. Will Jianghai Academy still belong to us?"

Tian Xiangyang raised his eyes, "Jianghai Academy has never belonged to the Tian family. Grand Elder, please don't misunderstand. We're only the Academy's leaders, not the Masters."

Tian Yunkai couldn't help but stammer.

He really couldn't refute Tian Xiangyang's words, because this was the original words of the founder of the Tian family. The generations of the Tian family's family head had also been abiding by the role of the leader of the Academy, so they could be passed down to today.

Only by taking the initiative to restrain the boundary of power can it exist for a long time. Many people may not be clear about this truth, but the previous family heads of the Tian family were obviously people who understood it.

However, there are so many people in the Tian family, and there will always be someone who wants to go further.

Especially the elder Council led by Tian Yunkai, who strongly advocated to increase the control over the Academy.

After all, the more they control, the greater the benefits. Not only the entire Tian family will benefit, but each of them and their descendants will also benefit.

However, due to Tian Xiangyang's existence, this voice was forcefully suppressed within the clan.

That's why the outside world felt that the Tian family has always been very low-key. Compared to other families, especially with their own status, it's simply too low-key.

He didn't know how many people were secretly getting restless.

Tian Yunkai took a deep look at Tian Xiangyang, ""It's good to keep a low profile, but if you're too low-key, some unknown people will overstep their authority and even become a stepping stone for some ambitious people to take the throne. That's too sad!"

"What are you trying to say?" Tian Xiangyang furrowed his brows.

"I don't want to think of conspiracy theories, but just in case, you should take some precautions. This is to prevent the day when the Jianghai Academy's surname will change to Lin and not Tian."

"The training camp shouldn't be a tool for Lin Yi to win people over," Tian Yunkai suggested seriously, "since there are so many high-end forces gathered here, we have to make them realize who they should be loyal to!"

I suggest that Lin Yi give up his head instructor position and let you take it, head of the house. He'll be fine as a vice-head instructor. "

"....."

Tian Xiangyang's expression turned strange when he heard this, ""You want me to jump out at this time and snatch the fruits of his victory?"

"That's what happened, but you don't have to put it that way. If Lin Yi doesn't have the ambition he shouldn't have, then he should give up the title. If we open our mouths now and he still holds the position, then we should be glad. "

Tian Yunkai lowered his voice and sneered, ""Fortunately, we discovered an ungrateful Wolf early on and avoided greater losses in the future."

"....."

Tian Xiangyang suddenly laughed. He laughed so hard that his body swayed back and forth, he was overjoyed.

Tian Yunkai's eyes gradually turned cold, and he said in a deep voice, ""I don't think there's anything funny about this."

Tian Xiangyang couldn't stop laughing. After a long time, he exhaled a breath of turbid air and looked at Chu li indifferently, ""You guys really think that Lin Yi was raised by us?"

"Isn't that the case?"

Tian Yunkai had done his homework on Lin Yi, and from what he knew, Lin Yi's rapid rise to where he was today was mainly due to Tian Xiangyang and Banshi Luo's cultivation.

It might not be appropriate to call him a dog raised by the Tian family, but if he were to resist the Tian family, then he's definitely an ungrateful Wolf!

This was without a doubt.

Seeing his expression, Tian Xiangyang shook his head and sighed, ""You elders should really go out more often. You've been acting like turtles in this small pond of the family for too long. Do you really think that the world is only so big?"

Tian Yunkai choked on the spot, and then his old face turned ashen.

Ever since Tian Xiangyang had assumed the position of clan head, although he had never taken the elders seriously, at least he could still maintain the respect he had on the surface.

This was the first time that she had ever called them by name, pointing at their noses and calling them turtles in the pond.

All because of Lin Yi!

Tian Xiangyang didn't pay any attention to his expression and continued, "Lin Yi's limit is something even I can't imagine. He's destined to grow into a giant in the future. Do you think a small pond like our Tian family can afford to raise him?"

Tian Yunkai was stunned.

He really didn't expect Tian Xiangyang to have such a high opinion of Lin Yi, even higher than the Emperor Xu Anshan!

"Although Lin Yi has some skills, but the head of the house is too much. With a little bit of effort, he can't escape from our Tian family's palm!"

Tian Yunkai still did not give up and warned with a serious face, ""Since you're sitting in the position of the family head, you must always consider the interests of our Tian family. You can't let the whole family take risks with you just because of your personal likes and dislikes. Good advice is unpleasant to the ear. I hope the family head can consider it carefully."

Tian Xiangyang looked at him and casually said, ""You're teaching me how to do things?"

"....."

Tian Yunkai's face was stunned. Although he was also one of the top combat forces in the rankings, there was still a gap between him and Tian Xiangyang.

Even he couldn't bear the terrifying pressure that came at him. His knees went soft and he almost knelt down on the spot!

It was only at this moment that he finally recalled a fact that caused the entire Elder Council to fall silent.

As the clan head, Tian Xiangyang was able to do as he pleased not only because of his noble bloodline, but also because of his extraordinary strength that could crush everyone else!

With absolute strength, he could do whatever he wanted!

Fortunately, Tian Xiangyang didn't take things to the extreme. The terrifying pressure only appeared for a moment before it disappeared without a trace.

Otherwise, if he couldn't bear it and knelt down in front of Tian Xiangyang, then he, as the great elder, would really be treated as a joke. He would never be able to raise his head in front of Tian Xiangyang again.

Chapter 9859 Power

"If there's nothing else, first elder can go back first."

Tian Xiangyang asked him to leave with a faint smile.

Tian Yunkai was silent for a moment before he gritted his teeth. ""There's one more thing that I hope the patriarch will agree to. "

"Tell me more," Tian Xiangyang lifted his eyelids.

"The opening of the training camp is indeed a grand event in the Academy. Our Tian family's experts haven't been able to find a suitable opponent, so our elder group unanimously proposed to let the family's Experts Exchange pointers with the group of people in the training camp. Not only can they enhance their relationship, but they can also exchange their insights!"

Tian Yunkai stared at Tian Xiangyang's expression, ""I wonder what the family's thoughts are?"

This little scheme behind the scenes naturally could not be hidden from Tian Xiangyang.

The elder Council was still eyeing the training camp.

However, Tian Xiangyang didn't reject him on the spot this time. Instead, he nonchalantly curled his lips, "Since the elders have decided, then let's give it a try."

Tian Yunkai was quite surprised.

With how protective Tian Xiangyang was of Lin Yi, he thought that he would seal off all his interference in the training camp to avoid Lin Yi's disgust.

However, it seemed that he was wrong.

Tian Xiangyang did admire Lin Yi a lot, but he wasn't that close to Lin Yi's son. As long as he didn't do anything too big, Lin Yi would be happy to see what he did.

In the end, he was still the head of the Tian family. No matter how important the overall situation was, his ass would still be on the Tian family's side.

Besides, Lin Yi's momentum was so fierce, and he was about to threaten his position as the number one in the school. How could he not have any suspicions in his heart?

Anyway, Skycloud would never believe in judging others by himself.

"Alright, I'll go get ready now. I hope Lin Yi's training camp isn't just a silver spearhead for show, or it'll be hard to get off the stage if the exchange scene gets too ugly,"

Tian Yunkai turned around and left with a sinister look on his face.

Tian Xiangyang looked at his back and shook his head slightly. As the Grand Elder of the family, this man often led the group of elders to go against him. However, after all, he had a lot of experience. Considering the stability and unity of the entire Tian family, he couldn't act rashly.

Moreover, although this person often gave people the impression of a deep and radical villain, his foothold was indeed for the Tian family. Just based on this point, even if Tian Yunkai confronted him in person, he would not easily take him down.

The way people in power used people was that you not only had to use capable people, but also evil people with a treacherous face.

However, this championship was a hard-to-come-by test for the new Lin Yi training camp.

As the number one family in Jianghai city, apart from the various forces in Jianghai Academy, the Tian family had also cultivated a considerable number of backbones.

Although the number of people wasn't as exaggerated as the three-digit number in the training camp, the Tian family's expert team also had more than 500 high-end combat forces.

More importantly, this group of people was different from the Barbarian high-end combat forces outside. They had access to the most complete and top-notch cognitive system from the beginning, as well as the top-notch cultivation resources in Jianghai city that easily surpassed the entire city.

Compared to the so-called core disciples of other families, they were the ones who were born directly at the end.

In terms of Foundation and strength, other than a cheat like Lin Yi, no one could even compare to them, not even the geniuses of Jianghai Academy.

To let them compete with others of the same level, to put it bluntly, they were bullying others.

However, the people gathered in the training camp were all unruly people, and it was a good thing for Lin Yi to have the Tian family's experts come out and suppress them.

Only by seeing the difference in strength would one have the motivation to become stronger. As long as these people focused on practicing and didn't think about running around, Lin Yi would be able to save a lot of trouble as the Chief Instructor.

If Tian Yunkai were to know of Tian Xiangyang's thoughts, he would probably be so angry that he would vomit blood.

You're letting the elites you've trained from your own family be someone else's Whetstone, do you really think Lin Yi's your own son?

A day later, in the secret land of Ares, Lin Yi's training camp and the Tian family had a high-level exchange competition.

The rules were simple.

Each side would send out 30 people. A giant at the late stage of the consummate level would fight against a giant at the late stage of the consummate level, and a giant at the peak of the late stage of the consummate level would fight against a giant at the peak of the late stage of the consummate level. It would be a fair and reasonable battle!

The final result surprised both sides.

23 to 7.

The Tian family's experts won twenty-three rounds, and Lin Yi's training camp won seven.

Just from the score, the Tian family's experts had undoubtedly obtained a crushing victory. The disparity in the score was enough to make the high-end combatants of the training camp, who thought highly of themselves before the game, feel dejected and simply unable to face anyone.

The key point was that every match was a battle between the same level. Although they had just entered the secret realm of clomaros, it was still considered their home ground. They could not even find a decent excuse for such an embarrassing score.

In particular, the arrogance of the experts of the Tian family, who didn't treat them as competitors of the same level, really made them angry!

However, their miserable battle record was right there. The other party used strength to speak, so no matter how angry they were, they could only hold it in.

It was fine if his skills were inferior, but if he couldn't even afford to lose, then it would really be too embarrassing.

However, this way, the high-end combat power of the training camp, who had been acting on their own and didn't take each other seriously, now shared a common hatred for the enemy for the first time.

Although it was hazy, a sense of collective belonging had already sprouted in their hearts.

This was exactly what Lin Yi wanted to see.

This was the best welcome ceremony he could think of. Before this, he was still having a headache about how to find a sparring partner, but he didn't expect the Tian family's experts to take the initiative to deliver themselves to his door.

On the other hand, the Tian family's experts.

Although they had obtained a crushing victory, Tian Yunkai and the others had expected that with their strength, they should be able to deal with these unorthodox experts of the same level without any suspense.

That's right, even if Jianghai Academy's top fighting force was nothing more than a bunch of nobodies in their eyes.

If this group of people in the training camp could be considered a regular army, then the Tian family's Experts Group would be a proper trump card Legion!

With their advantage, the most normal score should be 30 - 0!

Even if there were some accidents in the middle, they could only lose one or two rounds at most. In other words, 28 to 2 was already the bottom line they could accept.

In the end, these people, who they thought were wild, had stolen seven victories from them.

This was more than a humiliation, it was a humiliation!

Chapter 9860 Power

Tian Yunkai's face was as black as the bottom of a pot. This was not the effect he wanted.

If it was 30 to 0, then the blow to the training camp would be enough to make them feel despair, and then they would feel respect and even want to join him.

It wouldn't be like this-not only did he fail to make them respect him, he even made them hate him!

What he couldn't stand the most was that out of the seven battles he lost, five of them were to the core forces of Lin Yi group.

Yan Zhongyuan, Wei baizhan, and Ren tianer, these three beasts of honor, directly crushed the experts that the Tian family had carefully cultivated. Then, Qiu sanniang and Hong Baxian, although there were some twists and turns in the process, also won the battle.

With that, they had established their prestige in front of the high-end combat power in the training camp.

Everyone admired the strong, and if nothing unexpected happened, more and more people would approach them and join Lin Yi's faction.

In other words, tianyun's actions had laid a solid foundation for Lin Yi to control the entire training camp!

He tried to steal a chicken but ended up losing the rice.

Tian Yunkai felt like killing someone-he'd even gone as far as to talk back to Tian Xiangyang! He'd come to the training camp to reap the benefits, not to be Lin Yi's Whetstone!

However, he still had to put on a kind face and even praise Yan Zhongyuan and the others.

Lin Yi smiled to himself and suggested,"I think this kind of exchange is very valuable. It should be held regularly in the future. It's best to hold it every ten days. It's a good opportunity for everyone to promote each other and improve together!"

“.....”

Tian Yunkai couldn't hold it in any longer.

It's not enough to disgust me once, you're going to disgust me once every ten days, right? Are you treating my Tian family's experts as experience bags?

As expected, the experts in the training camp were eager to give it a try.

After such a crushing defeat, there was nothing left for them to lose. Even if they lost another five or ten times, it wouldn't cause them any more serious damage.

Moreover, the Tian family's experts are indeed powerful. If you want to find such a character to spar with outside, you won't have the chance without some luck.

Even if they lost every time, it was still beneficial to them. With Lin Yi and his group of top combat instructors watching from the side, the biggest price they had to pay was just some injuries. They wouldn't die anyway, so it was a sure win for them.

On the other hand, if the Tian family's experts could keep winning, it would still be fine. However, if they were suddenly turned around, it would be fun.

Once he turned the tables, the greater the psychological advantage he had before, the greater the impact he would receive.

To them, this was a pure negative benefit.

Lin Yi thought that the guy would reject him-he'd never heard of this guy trying to steal his Chief Instructor title, but he could tell that he wasn't here with good intentions just by looking at his behavior.

There was no reason for him to agree to such an obvious request of being a sparring partner.

In the end, Tian Yunkai nodded his head, "Mr. Lin's suggestion is very good, and I also think so. However, it's a bit monotonous to just practice with each other. Why don't we go one step further and improve together? what do you think, Mr. Lin?"

Everyone turned to look at Lin Yi.

This was a group of people going to war God's secret realm for free!

Lin Yi looked at him deeply. He didn't think so. If it was the secret realm of clomaros before he was downgraded, the Masters from the Tian family might still have some thoughts about Bai Ling. After all, the spots were precious.

However, the current secret realms of Ares were still extremely precious resources to ordinary experts in the Academy. However, to these experts from the Tian family who were born at the finishing line, it was better than nothing.

Group up for a white flag?

These words were a joke to them. The Emperor used a gold hoe, and that was all their lowly vision could do.

As for Tian Yunkai's so-called "training and improving together," that was obviously nonsense. The children of the large clans all had their eyes on the top of their heads, so who would be willing to waste time with a group of people who in their eyes were unorthodox?

It was obvious that the drunkard had other intentions.

But Lin Yi didn't even think about it and agreed, "Heavenly elder's words are exactly what I want. On behalf of all the members of the training camp, I welcome everyone to join us!"

Tian Yunkai's eyes twitched.

What the f * ck is this? Why did it sound like the training camp swallowed up their Tian family's expert group?

Of course, in this situation, as the Grand Elder of the Tian family, it would be too embarrassing for him to be so formal. Even if he felt disgusted, he could only hold it in and even squeeze out a sincere smile on his face.

For the sake of the family's grand plan, I'll endure!

With the addition of the Tian family's experts, the standard of the entire training camp was obviously raised by one level. After the outside world learned about it, it was even more heated.

No matter how Tian Yunkai sent people to clear things up, in the eyes of outsiders, it was just the Tian family's experts coming to join them!

Was there a second explanation?

It couldn't be that this group of experts from the Tian family had nothing better to do and came to the training camp to help the poor, right?

"God Lin is indeed at the peak of his level. Even the Tian family's experts are willing to join him. I wonder who will be the next one?"

"A tyrant's life doesn't need any explanation! You call that joining Almighty Lin? that's following the tide of history!"

"Sure enough, the Tian family can become the number one family in Jianghai city for a reason. With such a first-class ability to bet, who else is not convinced?"

"What do you mean by being aware of the times? this is called being aware of the times!"

Tian Yunkai looked at the overwhelming discussion on the internet, and his entire body was about to explode.

Following the trend of history?! What the hell?

"As expected, a lowly commoner deserves to be a lowly commoner. A bunch of dogs who don't know a fart actually dare to talk about my Tian family's matters!"

Tian Yunkai was so angry that he started cursing.

Even with his shrewdness and self-restraint, he couldn't help but go up and argue with them.

In the end, he was hung up by a group of Yin Yang grandmasters and then rebuked.

As the Grand Elder of the Tian family, even among all the top combat forces, he was still a first-class existence. However, he was defeated by a group of ordinary people. This was also a great wonder in the internet age.

The key was that he couldn't fight back.

In reality, he could have killed this guy with a sneeze, but on the internet, he could control lightning.

The other party didn't even need to say a single vulgarity. He could directly use a strange move to anger him to the point of vomiting blood. It wasn't easy for him to recover, but in the end, he encountered an even more ferocious wave.

It was a simple foul mouth, but it was an extreme enjoyment.

In the end, Tian Yunkai was forced to shut himself off from the internet. It wasn't that he had finally calmed down, but if he continued to argue with others, he was afraid that he would be possessed by the devil.

The only good news was that he was using an anonymous account to flame others and did not expose his true identity.
