

## Bodyguard 9861

### Chapter 9861 Power

Although the entire process was too humiliating and unbearable to recall, it was fortunate that no one knew about it in reality. If no one knew, it meant that it did not exist, and it had never happened.

What Tian Yunkai didn't know was that the whole process was recorded by a group of unscrupulous hackers, and they became Lin Yi group's personal dinner material.

Tian Xiangyang didn't know where he heard about it, but he called Lin Yi right away and criticized him severely, telling him to maintain peace and unity.

After that, he also asked for a portion.

Tian Yunkai himself was completely unaware of all this. After three whole days of isolation, he finally walked out from the shadow of the internet. He simply turned his grief and indignation into motivation, and threw himself into his family's grand plan with enthusiasm.

There was only one core mission, which was to make use of the training opportunity to let the experts of the Tian family brainwash everyone in the training camp.

For this reason, he had specially found someone to train the experts of the Tian family in this area.

In Jianghai Academy, the Tian family has always held a position of justice. At the same time, they have the best cultivation resources and a natural foundation for brainwashing.

In fact, before the opening of the training camp, the Tian family has always been the first target of the Academy's experts.

"It's my greatest honor to be the Tian family's dog. "

Although this was a joke, it was indeed the most genuine mentality of most grassroots experts.

It's better to sell it to the most powerful family. Not to mention, the Tian family gives the treatment of guest elders, which has always been the industry benchmark.

There had always been people who were worse than his family, but never better.

However, the Tian family's threshold has always been quite high. In addition to hard strength, there are also requirements in all aspects. Most people don't even have the opportunity to be their dogs.

However, with the rise of Lin Yi group, especially with the opening of the training camp, the Tian family had become an alternative.

After all, if they had a choice, who would not want to be a human and take the initiative to be a dog?

Even if he was a dog of the Tian family, he was still a dog.

Joining the training camp would make them suspect that they were on Lin Yi's side, but they weren't completely bound to him, not to mention that joining Lin Yi was completely different from being a guest of the Tian family.

Although there were differences in the former, strictly speaking, everyone had an equal relationship. If you were unhappy, you could turn around and leave at any time.

However, the latter only sounded nice in name, but in reality, they had to sign a contract and had no freedom to come and go.

The nature of the two was completely different, and any normal person would naturally know which to choose.

As the first elder of the Tian family, Tian Yunkai was very clear that once this trend was completely formed, it would be a huge blow to the entire Tian family!

Don't look at how it doesn't seem to have any influence at the moment. The Tian family was able to maintain their position as the number one family in Jianghai city because of their strength that far exceeded any other family.

This kind of strength, it's absolutely impossible to rely on the Tian family's own family descendants to support it. They must continue to suck blood from the Academy.

Only by using the benefits of Jianghai Academy to attract experts from all over the world to join the Tian family can the Tian family maintain its dominance as the number one family.

Once they were unable to suck blood from the Academy, that would be the start of the family's decline.

Lin Yi's training camp was the first domino to the Tian family's invincible aura!

And so, even if they had no past grudges, just the fact that Lin Yi was opening the training camp itself had already become a thorn in Tianyun Kai's side.

Lin Yi's momentum had to be suppressed!

Poaching Lin Yi from the training camp was only the first step. He still had a series of targeted plans. Unless Lin Yi completely joined the Tian family's camp and became their dog, he would never stop suppressing him.

The small movements of the Tian family experts naturally couldn't escape Lin Yi's eyes.

"He's here for an exchange in name, but in reality, he's here to poach. This first elder of the Tian family is really interesting."

Tyrant drank his wine and laughed coldly. "He even came all the way to my feet. It seems like he really doesn't care about an amateur like me."

Yan Chi nodded. "My subordinates have also been infiltrated by them. Their table manners are really ugly. The same grain can feed a hundred different kinds of people. It seems that in addition to a hero like Tian Xiangyang, the Tian family also has such a shady person."

"Don't worry." Wang sanjue reminded, "the Tian family's influence is still there. It won't take long for their infiltration to be effective. At that time, we will all be working for others."

Not only would they benefit others, as time passed, even the core figures under their respective families would be poached away.

At that time, all the top forces of the training camp would be forced to become the workers of the Tian family. No matter how unwilling they were, they could only hold their noses and endure it.

After all, even now, they didn't have the confidence to openly challenge the Tian family, not to mention that they would be all alone by then!

Everyone was waiting for Lin Yi's response.

As the backbone of the entire repeat school, Lin Yi's decision was directly related to their core interests. Once Lin Yi gave in to the Tian family, then they would be in trouble.

Lin Yi looked at the crowd. "Don't get too excited, everyone. He'll do his thing, and we'll do our own thing. It's not that easy to brainwash a group of Masters above the late stage of perfection for nothing."

Everyone could not help but feel disappointed.

Of course, they also knew that it was unrealistic to go against the Tian family for this, but as the leader of the repeat students, if Lin Yi didn't show any temper in front of the Tian family, then his future in the repeat students "courtyard would be covered by a layer of shadow.

Lin Yi smiled at their troubled faces. "I have my own arrangements for this matter. I guarantee that you will not suffer any losses. You just need to go back and appease your subordinates."

Tyrant and the others were still a little worried after hearing his words. However, when they thought about his past achievements, no one had ever been able to take advantage of him.

Although Tian Yunkai was also a rather troublesome character, he was clearly inferior to this fellow.

Tian Xiangyang himself would be fine, but anyone else who wanted to suppress Lin Yi, even if they had the entire elder group behind them, would only be humiliating themselves.

With that, Lin Yi turned to Yan Chen. "It's time to test the intelligence Department. For the sake of the overall situation, we won't have a direct confrontation with the Tian family's experts, but we must be clear of their every move. Otherwise, it won't just be a matter of shame if we fail in an easy task."

Yan Chen nodded. "Don't worry, chief. The intelligence Department is basically complete. In terms of intelligence, we are the best in the whole of Jianghai. If we can't even do this well, we might as well find a piece of tofu and smash ourselves to death."

"Then you'll have to buy a harder tofu."

Everyone couldn't help but laugh.

Chapter 9862 Power

City Lord's mansion.

Ever since Tian Yunkai brought the Tian family's experts into the secret land of Ares, Li Songzhang had been waiting for news of the internal strife in the training camp.

He knew what Tian Yunkai was thinking, and he'd guessed that Lin Yi wouldn't lower his head so easily. He'd predicted that there'd be an internal conflict in the training camp, and it wouldn't be a small one!

There was no result.

Although the training camp was in the secret realm of Clomaros, if there was an internal conflict, the outside world would definitely notice it. However, there was nothing at all. The strange calmness of the situation even made him think that something had happened to the secret realm of Clomaros and that it had lost contact with the real world.

"Is there still no information?"

This was the seventh time li songzhang had asked this question today.

A Deputy city Lord who was in charge of intelligence could only bite the bullet and reply, ""Not yet. We've lost contact with most of the spies we've planted at Jianghai University. Only a few of them are still alive, but they don't dare to make too big of a move because they're probably already being watched."

Simply put, the secret intelligence network that the city Lord's mansion had set up in Jianghai Academy was basically paralyzed.

They were basically clueless about the internal situation of Jianghai Academy, and most of the time, they had to read the news online before they could understand.

Since it was related to the secret land of clomaros and the training camp, such high-level internal information naturally couldn't be leaked to the internet.

"Old man, don't you have a few high-level spies in your hands? why don't you ask them?" li MUYANG raised his eyebrows.

Li songzhang shook his head. "I didn't send them undercover to do this kind of thing. Unless it's the last resort and the most critical time, we must not wake them up easily."

The Deputy city Lord was secretly shocked. Even he didn't know that li songzhang had arranged such a backup plan.

To be able to receive a very high evaluation from this father and son, one must at least be a high-end combat force. To cultivate and rope in a spy of this level, the resources needed were at least ten times more than to cultivate a fighter of the same level!

More importantly, from what the father and son had said, there was more than one spy like this!

"Then we can only wait."

Li Muiyang shrugged nonchalantly-he wasn't really interested in anything other than Lin Yi himself, and he'd have the chance to see him in trouble.

Li songzhang nodded helplessly,"we can only hope that Tian Yunkai isn't that useless. As the Grand Elder of the Tian family, it would be ridiculous if he couldn't even find a way to mess with Lin Yi."

Li Muiyang casually mentioned,"hasn't this old man always been against Tian Xiangyang?" Old man, why don't you just pull him over? wouldn't that be better than those spies?"

"This ..."

Li songzhang was a little moved. He muttered thoughtfully, "It won't be that easy,"

It was true that Tian Yunkai often went against Tian Xiangyang, but his original intention was still for the sake of the Tian family. It was just that they had different opinions. Otherwise, Tian Xiangyang would not have kept him here.

Otherwise, with Tian Xiangyang's current power and status, it wouldn't be difficult to kick him away even if he was the first elder of the Tian family.

However, li Muiyang's words did give him a reminder.

The current tianyunkai naturally would not easily accept his olive branch, but both sides still had many similarities. They were both the most typical conservative members of traditional families.

Putting everything else aside, they were the ones who firmly opposed Tian Xiangyang's decision to disclose the traditional clan's top-class cognitive system.

As long as the two sides had a common language, there was a possibility of working together.

He just needed a suitable opportunity.

While Li Songzhang was looking for a loophole, the highest level of training in the history of the school was being carried out in an orderly manner under the leadership of Lin Yi and the other instructors.

Although Tian Yunkai's Tian family's expert group had ill intentions, their participation in the joint training had indeed objectively raised the level of the entire training camp.

In particular, in order to infiltrate and spread the news to gain influence among the students, it was inevitable that they would always bring out some real goods.

There were many cultivation experiences unique to the Tian family. Even if they only heard a few words, they would still benefit a lot.

In the eyes of traditional families, these unorthodox experts never lacked talent, but this kind of systematic understanding that had been verified and concluded for more than a thousand years.

Even Lin Yi couldn't teach them this.

With Banshi Luo's help, Lin Yi's level of understanding was high. Even the core disciples of the Tian family paled in comparison to him in this.

However, the problem was that he was a genius who played high and high. He couldn't empathize with the problems that the students below would encounter.

One should never expect a top student to experience the pain of a bad student.

In the eyes of the slackers, the barriers that they couldn't cross were just one sentence in their eyes.

On the other hand, a super family like the Tian family, after thousands of years of tradition and accumulation, has already formed a set of comprehensive cultivation model without any dead angles. Any problems encountered in the cultivation process can be found in the most effective solution from them.

This was the irreplaceable core competitive power of the Super families!

And this was the real reason why Lin Yi allowed them to spread it.

Are you trying to Steal My Girl? I'm after your body!

Tian Yunkai would never have thought that his plan to infiltrate the base would be like a service delivered to his door in Lin Yi's eyes, the kind where he didn't have to pay for it.

Of course, even if Tian Yunkai had realized this, he would not stop this plan.

Because he has absolute confidence. With the top resources and appeal of his Tian family, as long as he slightly lowered his state, it's a sure thing to win over the vast number of members in the training camp.

People like Lin Yi, on the other hand, might look powerful at first glance, but they didn't have any Foundation at all-they were destined to be a shooting star that wouldn't last long.

Rest day.

Duan she and Ren Tian 'er unexpectedly received an invitation letter from the Tian family. The location was on the island where the Academy's Summit was held.

"Are you going or not?"

Ren Tian 'er turned to ask Duan she. Since his reincarnation, he was the one who had been beaten up the most by Duan she. Logically speaking, even if he didn't hate her to the core, their relationship shouldn't be very good.

However, people were just that cheap.

He was actually the one who was closest to this Little King du. He said it was for the sake of getting back at Lin Yi, but in the eyes of the others, it was a classic case of pleasure from being tortured.

Either this guy was born with a masochist body, or he had Stockholm Syndrome. In any case, he was not a normal person.

Duan she looked at him and nodded in silence.

Chapter 9863 Power

"Then I should report to boss first, right?" Ren tianer thought for a while.

The Tian family's invitation came out of nowhere, and it was obvious that they had something to do. If they went without saying anything, something bad might happen to them, or if Lin Yi had some bad ideas, then they would be in big trouble.

In the end, Duan she looked at him as if he was an idiot.

Without waiting for him to ask the next stupid question, she put her hand on his shoulder and activated the space ability. In the next second, the two of them directly appeared in the sky above the Tian family's Island.

Very quickly, the voice of Tian Yunkai came from behind.

"I welcome you two on behalf of the Tian family."

Tian Yunkai had personally prepared a banquet, but he was still a little surprised that the two of them had arrived so quickly.

He had expected that although Duan she and Ren Tian 'er would definitely come, they would definitely hesitate and struggle before coming. After all, they were both smart people. Even if there was nothing written on the invitation, the invitation itself already represented his intention to recruit them.

Coming here meant that she had to be prepared to betray Lin Yi.

Even if he looked down on people like Lin Yi from the bottom of his heart, the truth was that with Lin Yi's current reputation, not just anyone would have the guts to betray him.

But it wasn't a bad thing that the two came so quickly, it just proved that they were already dissatisfied with Lin Yi, and the Tian family extended these two olive branches at the right time!

Duan she and Ren Tian 'er took their seats, and without saying a word, they immediately began to eat.

The way he ate looked as if he was going to eat someone, as if he was the reincarnation of a Hungry Ghost.

"Lin Yi's a member of the wartime Committee, one of the highest-ranking people in the school!" Tian Yunkai's eyes twitched. "Is he that strict with you guys? he can't even guarantee you basic food?"

Experts at the level of a Big Shot's perfection had long since abstained from food, so there was no such thing as food.

However, many people still maintained the habit of eating and drinking. On one hand, it was to satisfy their appetite. On the other hand, the food that they ate was not ordinary ingredients. It was the essence of natural treasures.

Eating was a disguised form of eating medicinal pills. It was a part of daily cultivation.

Duan she did not speak.

Ren Tian 'er gobbled up the food and only stopped to take a breath after a long time. He took the time to answer, ""It's not that I can't guarantee it, but it's not as luxurious as your family. Your Tian family really has material."

The corner of Tian Yunkai's mouth twitched. This was obviously a compliment, but it didn't sound like anything good either. He could only smile and say, ""This is just the daily treatment of the guest Masters of the Tian family. If you two like it, you can eat it every day."

Ren Tian 'er blinked his eyes and said, "just for a meal, you came to the Tian family to become a guest master?" I'm not a foodie. "

As he spoke, his mouth was not idle at all.

For a moment, Tian Yunkai didn't even know what to say. 'You're indeed not a foodie. You're much crazier than the average foodie when you eat.'

Pausing for a moment, Tian Yunkai naturally would not allow the situation to get awkward. He immediately smiled and said, "Of course, the Tian family's sincerity isn't just a meal. What I've prepared for you two is a truly valuable gift!"

In the end, no one responded.

Tian Yunkai looked at the two dogs in front of him who were fighting for food, and he really wanted to fall out with them on the spot. However, for the sake of his family's grand plan, he forcefully suppressed his anger.

I wonder if the two of you are interested in the spots for the secret realms of the Tian family?"

Secret realms!

This time, even Duan she and Ren Tian 'er couldn't help but be moved.

Everyone knew that the three founding families of Jianghai University each had a top-tier secret realm. The Chen family had the secret realm of Ares, the Gu family had the martial Saint secret realm, and the number one family, the Tian family, had the secret realm of gods.

Even among all the top secret realms, the Tian family's Secret realms were definitely the most special.

It was rumored that the ancient gods had fallen in this secret realm, and their corpses formed the framework of the secret realm. Their lingering obsessions led the operation of the secret realm, and anyone who entered it would automatically be baptized by the gods.

Some of the lucky ones could even get the favor of one of the ancient gods and obtain the inheritance of the ancient God that countless people dreamed of!

Although in theory, there was such a possibility in top secret realms like the secret realm of clomaros, they were, after all, single gods.

Not to mention that the requirements would be more stringent, the key was that even if they really got the inheritance, they could only get a small part of it at most, because most of the gods' obsessions were bound to the mystery Land.

Unless the secret realm collapsed, it could not be removed.

On the other hand, the secret realms of the Tian family had a hundred times higher chance of being a Lieutenant General. Once they hit the jackpot, they would get the complete inheritance of the ancient God.

It was clear at a glance who was better.

Moreover, even if he didn't win the prize, as long as he could successfully complete the trial mission, he would be able to get a reward that was not inferior to any of the other top-tier secret realms.

A slot to enter the secret realms was enough to tempt even the top powerhouses who had reached the realm of the magnate's ultimate full cultivation, let alone the top powerhouses below. This slot could be sold for a sky-high price. This thing was the real hard currency!

The two of them looked at each other.

Ren Tian 'er smacked his lips and wiped the oil off his mouth, ""Two spots for the secret realms? you're not joking, are you?"

"Do I look like the kind of person who likes to joke around?" Tian Yunkai laughed.

"Is that true?" Ren Tian 'er was excited.

"Of course it's true!"

Tian Yunkai was secretly pleased with his performance. In the face of this level of opportunity, so-called loyalty was nothing.

There was no loyalty that couldn't be bought in this world. If there was, it could only mean one thing: the price you offered was not high enough!

However, compared to Ren Tian 'er, he valued little du Wang more.

Ren Tian 'er was also very strong and was almost invincible among the high-end combat forces. It wouldn't be difficult for him to advance to the ultimate perfection of a Big Shot in time. However, compared to the ready-made top-notch combat force, Duan she, his value was obviously still inferior.

Moreover, severed soul, who had been reincarnated once, was no ordinary top-notch combat power. As long as the resources were right, the upper limit of his strength was even higher than King du in his previous life!

In his previous life, the only King had been one of the top fighters, and only an existence like Emperor Xu Anshan could suppress him.

In this life, if he could improve further, he would be a monster that could threaten Xu Anshan.

For an existence like him who could be said to have the conventional ceiling combat power, it was definitely worth it no matter how much he had to pay, let alone a place in the secret lands. This was a deal that would not be a loss.

Unfortunately, there was no reaction from broken soul.

Chapter 9864 Power

Tian Yunkai didn't expect to catch this big fish so easily. He had spent a lot of effort for today, and he had the patience to slowly grind with this little du King.

If Duan she switched sides, not only would it be a huge gain for the Tian family, but it would also be an unbearable loss for Lin Yi!

Don't forget, strictly speaking, there were only two top fighters in Lin Yi group right now. Other than himself, the only one who could stand out was broken soul.

Once they were dug up, tianyun Kai could imagine what Lin Yi's expression would be like. It would be worse than crying!

Although Duan she looked indifferent on the surface, he must have been tempted in his heart. Moreover, as long as Ren Tian 'er took the bait, there was no need to worry about him continuing to be reserved.

There were many things that might be difficult to do alone.

However, once they had a companion, it would only take a moment for them to overcome that barrier in their hearts.

Therefore, Tian Yunkai's current target was still Ren Tian 'er. Looking at Ren Tian' er's naive and foolish appearance, he didn't need to say anything else and he would take the initiative to take the bait.

In the end, Ren Tian 'er, who was still in high spirits just now, suddenly asked, ""What else?"

"Ha?"

Tian Yunkai was instantly stunned.

Ren Tian 'er looked at him with dissatisfaction and said, ""Since your Tian family wants to recruit us, you can't just give up a place in the secret realms, right? you must have other conditions. Otherwise, do you really think we are fools?"

"The other conditions ..."

Tian Yunkai was stunned. This guy might look stupid, but he was actually a clear-minded person.

The key point was that he even forcefully bound himself to broken soul every time he spoke. It was obvious that he wanted broken soul to raise his own value and did not give him a chance to bargain at all!

If he was a F \* cking fool, then there were no smart people in the world.

"You have no other conditions? Then we'll be leaving. You're not sincere at all. "

As Ren Tian 'er spoke, he motioned for Duan Shengyi to stand up together, not forgetting to pack up the top-grade ingredients on the table, causing Tian Yunkai's eyelids to Twitch again.

What kind of people were these?

Logically speaking, a place in the secret realm might not be enough for Duan she, but to a giant like him, who was at the peak of the late stage of the consummate level, it was definitely more than enough.

If it were someone else, they would have agreed to it eagerly. Why would they need a bicycle?

"Hold on."

Tian Yunkai quickly stopped the two of them. "Please calm down. We have to take things one step at a time. There's no need to be so anxious, right?"

Ren Tian 'er and Duan she looked at each other and immediately sat down again, "Then let's continue the discussion."

"The two of you are experts who have reincarnated. I have some experience in reincarnation."

Tian Yunkai sighed empathetically, "Everyone says that after reincarnating and re-cultivating, each time you reincarnate and re-cultivate, you can improve a level more than in your previous life. But how many of them know the risks of reincarnating and re-cultivating?"

If there was even the slightest mistake in the process of reincarnation, it would be beyond redemption. Even if one was lucky enough to reincarnate successfully, there would be a long period of weakness. In the middle of the reincarnation, any enemy that had been trampled under one's feet in the past could possibly cause one to die prematurely.

It's hard for others to imagine the number of variables and risks involved. "

Duan she and Ren Tian 'er secretly sighed when they heard this.

That's right, if there were other choices, who would take the risk of reincarnating and re-cultivating?

"Strictly speaking, you've both died once at Lin Yi's hands. Don't you hate him?" Tian Yunkai looked at the two.

As soon as the word "hate" came out of his mouth, Duan she and Ren Tian 'er's expressions changed at the same time.

An invisible but powerful spiritual energy instantly enveloped the two of them. However, it did not directly invade their souls. Instead, it continuously magnified and lured the emotions in the depths of their hearts.

The seven emotions formation!

Tian Yunkai looked at this scene and sneered to himself. This was the biggest bargaining chip he had today to win over the two of them.

To make the two betray Lin Yi, no bargaining chip could compare to their hatred for Lin Yi. As long as there was hatred, it would be magnified infinitely under the seven emotions formation.

Even if he didn't increase the price, they would still turn against Lin Yi!

As time passed, Tian Yunkai sat calmly on the fishing platform. The seven emotions formation's special characteristic was that as time passed, its effect of triggering and magnifying the target's seven emotions would become stronger.

With Duan she's and Ren Tian 'er's strength, if they only stayed in there for a short while, there was a possibility that they would wake up. However, if they stayed in there for a long time, their hatred would be deeply rooted and they would be unable to extricate themselves.

"There's no hurry. Let's take it slow. "

Tianyunle was extremely pleased with himself, and he secretly praised himself for pushing the boat along with the current. No matter who saw it, this was a stroke of genius!

The people who'd lost to Lin Yi before weren't that weak, but one thing was for sure-they weren't that smart.

Powerful fortresses were all broken through from the inside.

If they couldn't even understand such a basic principle, they deserved to be unlucky.

However, just as he finished speaking, Ren Tian 'er opened his eyes and said, ""What do you mean by" slowly "?"

"....."

Tian Yunkai was momentarily stunned. What was going on?

For a normal person who was trapped in the seven emotions array, no matter how strong their willpower was, they would still be a little confused. For people like Duan she and Ren Tian 'er, who obviously had hatred in their hearts, they should be deeply trapped in it and unable to extricate themselves.

However, Ren Tian 'er's eyes were clear and there was no sign of him being tricked.

As for broken soul, nothing could be seen on his face. It was no different from his usual expressionless face.

That was impossible! The seven emotions formation couldn't have failed!

When one's strength reached a certain level, other formations that could kill with brute force might lose their effectiveness. However, for formations like the seven emotions formation that directly targeted people's hearts and killed with a soft knife, in theory, as long as one still had human nature, there was no possibility of being immune to the effects of the formation.

"The seven emotions formation is not bad, but you've used it in the wrong place," Duan she suddenly said.

"You know?"

Tian Yunkai was stunned. He had set up the seven emotions formation with extreme care. At least in his opinion, it was impossible for these two people to detect it.

Ren Tian 'er looked at him as if he was looking at an idiot. "Do you really think we're stupid? you want us to turn against our boss with such a small trick? and you want us to be your dogs? you can't even dream like this, right?"

"So that's how it is!" Tian Yunkai could not help but exclaim in shock. "You've already prepared for this. No wonder the seven emotions formation is ineffective against you."

Ren Tian 'er and Duan she looked at each other and said in unison, ""Idiot."

Although they knew that the Tian family's invitation this time must have the intention of poaching, it would be too ridiculous to say that they could even guess the seven emotions formation.

They were not heavenly secrets who could see through the past and the future!

Chapter 9865 -Power

Tian yuankai couldn't help but blush. In fact, the moment he said those words, he had already realized that it was impossible to be prepared for this kind of thing!

Moreover, arrays like the seven emotions array pointed directly to the deepest part of a person's heart. In essence, it was the harshest questioning of one's heart.

This was not something that could be resisted by external forces or props. There was only one way for any cultivator to deal with the seven emotions array. With a strong heart, there would be no loopholes in the Defense of the Heart, and no opportunity to take advantage of it.

This time, Tian yuankai had specially modified the seven emotions formation in order to target the two of them. It could be said to be the most effective at provoking hatred.

In theory, it should be foolproof.

The more it was so, the more incredulous he was. Thinking of the last possibility, he immediately blurted out, ""Don't you guys hate Lin Yi?"

"Who told you that we'd hate our boss after being killed by him once?" Ren Tian 'er laughed.

"How could there not be any!"

Tian Yunkai was still in disbelief. He had been killed by someone, yet he did not hate that person. This was something that he did not understand.

Even if he said he didn't hate her on the surface, it was only because of his strength and status that he didn't dare to express his true hatred.

Ren Tian 'er looked at him as if he was an idiot, "When I fought with boss, I wanted to kill him too. In the end, I was not as good as him and was killed by boss. Isn't that natural? What's there to hate?"

"....."

For a moment, sky cloud did not know how to retort.

In his opinion, these seemingly magnanimous words were only spoken by mouth. How could someone really be so single? Did he really not hate her at all?

However, Ren Tian 'er was a Bachelor who subverted his common sense.

In fact, Ren Tian 'er didn't hate Lin Yi, but was grateful instead.

If he was in Lin Yi's shoes, he wouldn't let her reincarnate successfully, and he wouldn't provide her with the best Resources and Environment to grow so quickly.

Ren tianer didn't think of himself as a random person, but he really couldn't do what Lin Yi did.

After all, everyone knew that they had to be on guard against others. Who would go to great lengths to nurture a potential scourge for themselves?

But not only did Lin Yi Do that, he even treated him the same as the other core members, even making him feel like home again.

The Lin Yi group now was just a title to some people, a protective umbrella that they could use to scare people off, or a place for them to work, doing missions in exchange for resources-it was fair and reasonable.

However, to him, this was his home.

However, such a bizarre thought was simply unreasonable in the eyes of Skycloud. He could only turn to look at Duan she, ""You didn't get killed in a fair fight, did you? Back then, you were surrounded and ambushed by him, and you died!"

Duan she glanced at him but did not speak.

Ren Tian 'er chuckled at the side. "Old man, don't waste your time. Look at old broken's appearance and temperament. Do you think he's the kind of person who would be petty?"

Strictly speaking, although Lin Yi was involved in the battle, he wasn't the one who caused King DU's death.

Instead, it was the group of thirteen heroes led by Hong Batian, as well as the other five big retained students who stood by and watched from behind the scenes.

If Duan shezhen really did hate Tianji and tyrant, it would make more sense for him to hate them than Lin Yi.

Moreover, Lin Yi's kindness to him was even greater than the kindness he gave to Ren tianer.

After all, his reincarnated king status was a huge threat to many people. Lin Yi had to bear a lot of pressure to let him grow up safely.

At this point, Skycloud Kai knew that this poaching operation had completely failed, but he was still unwilling to give up.

"I don't care if you hate Lin Yi or not, as long as you join our Tian family, each of you will get a place in the secret realm trial, plus a special ablution of our Tian family. How about it?"

Tian Yunkai tried to save him one last time.

This price was extremely high. It was rumored that those who went through the Tian family's abhisheka baptism could directly obtain the summary of all the cultivation experience of the Tian family in the past thousand years!

With this summary of his experience, it would not be a problem for him to go out and create a powerful family.

Furthermore, it would also greatly strengthen his cultivation Foundation, which would be of great benefit to his future cultivation.

However, little du didn't even look at him. He turned to Ren Tian 'er and asked, ""Have you finished eating?"

Ren Tian 'er puffed up his cheeks and nodded.

Duan she placed a hand on his shoulder and activated her spatial ability. Immediately after, the two of them disappeared.

They came quickly and left even faster.

Tian Yunkai stared blankly at the table full of cups and plates before him, then suddenly flipped them over and became furious,""Zian, you dare to bully me?"

One could not blame him for having a mental breakdown. This time, poaching the two of them was a stroke of genius that he had deliberately planned. He had thought that it would be easy to capture them, but he did not expect such an embarrassing result.

The point was that Lin Yi would be alerted if he failed to poach the two, and it would be difficult for him to do something like this again.

However, the facts proved that he was overthinking.

The two didn't even tell Lin Yi about this.

Such a trivial matter did not matter to them at all.

The whole process was just a self-righteous guy asking them a stupid question, and then they both called him an idiot. That was all.

What was there to say?

Of course, even if Lin Yi knew about this, he'd just laugh it off. He wouldn't do anything like tianyunkai did-he wasn't that free.

Right now, he was trying to develop a new ability.

The primordial spirit fought on his behalf.

Ever since he came out of the secret realm of Ares, his primordial spirit had also improved and reached the late-stage of the great fulfilment.

This time, other than the usual increase in the strength of his primordial spirit, he had gained an additional ability, primordial spirit connection.

Although communication through the divine sense had always been very common, to a certain extent, every communication through the divine sense was actually a primordial spirit connection.

However, the level of this connection was extremely shallow. It was just a simple message transmission on the surface, no different from the radio communication in the secular world.

However, Lin Yi's new ability was different.

The degree of closeness and depth of this primordial spirit connection, compared to the spiritual sense communication in the past, was like heaven and earth.

If it had been a simple radio communication in the past, it was now equivalent to the complete sharing of information databases between the two sides. The frequency and level of this information exchange was fundamentally subversive.

#### Chapter 9866 Power

What was even more outrageous was that after the spirit was connected, he could control the other party's body and consciousness. It felt like he was controlling his own clone.

In this case, the value of this ability would be worth as much as the sea of stars!

For example, playing on behalf of others.

At this moment, he was controlling Yue Jian to spar with Hong Ba.

Originally, based on the strength of both sides, Yue Jian, a Big Shot at the middle stage of the consummate level, had no chance of winning against a Big Shot at the late stage of the consummate level like Hong Baxian.

Especially Hong Baxian's style-he was one of the toughest to deal with even among the late stage of Great Perfection elites. It might be hard for him to make a breakthrough when fighting someone stronger than him, but he was definitely the most stable one in Lin Yi's group when it came to opponents below the same level.

In short, he was invincible when it came to bullying noobs.

The internal members of Lin Yi group were already used to this kind of sparring. Yue Jian had fought with Hong Baxian twice before, and both times, he had been defeated in a single move.

However, this time, the two sides had already fought for a full quarter of an hour, and there were still back and forth, neither side winning!

The onlookers were dumbfounded.

Hong Baxian, who was in the arena, was more and more shocked.

Yue Jian was clearly still the same Yue Jian. His realm hadn't changed, his moves hadn't changed, and his entire strength hadn't changed. Even his style of fighting was still as fierce and head-on as before.

In this situation, even if Lin Yi's essence spirit was fighting for him, he shouldn't be that much stronger.

However, the reality was right in front of his eyes. He, Hong Baxian, had never gone easy on Yue Jian, but he still couldn't take down Yue Jian, who was two streets weaker than him in terms of raw strength.

"What's going on?"

Everyone was confused.

If it was because Lin Yi was playing for him, they could still somewhat understand why Yue Jian suddenly took out an unprecedented powerful move.

However, from the looks of it, there was clearly no change from before. It was just that Sonic punch. There was nothing different about it.

Not to mention the core Warriors who didn't have a high enough cultivation level, even Yan Zhongyuan and Wei baizhan, who were at the late stage of the consummate level, were dumbfounded.

At this moment, the Smoking Man, Yan Jiang, lazily said, ""Rhythm, the key lies in the rhythm."

Ever since the formation-seal Wang family moved to the repeat school, the head of the bodyguards had nothing to do anymore. He'd come to Lin Yi's place for free food and drinks all day long, and people who didn't know would think that he'd switched over to Lin Yi's side.

Everyone fell into deep thought upon hearing this.

At this moment, when they observed the situation of the battle, a few of the guys with extremely high comprehension ability could see some things.

Although Yue Jian didn't have much of a difference in other aspects when Lin Yi's primordial spirit was fighting on his behalf, the only difference was that the rhythm of the battle had a slight change compared to his own.

"The rhythm is much faster now!"

Qiu sanniang blurted out.

The speed she spoke of wasn't the speed that the public was aware of. In fact, Yue Jian had never been an expert in speed. If she had really forced him to pick up his speed, not only would he not have been able to hold on until now, but he would have lost even faster.

The pace of the battle was fast because he was always one step ahead of Hong Ba!

Although the first move wasn't that big, probably less than 0.1 seconds, it was enough for him to take the initiative in the rhythm.

Hong Baxian, who was two streets stronger than him, was forced to follow his rhythm every time.

And every time Hong Baxian got used to it, the rhythm would suddenly change before he could even launch a counterattack.

Every time, he was led by the nose.

"A battle between experts is all about rhythm. Once you fall into the opponent's rhythm, you can only use 30% of your strength. Then what's the point of fighting!!

Yan Jiang commented with a lazy expression.

Everyone's horizons were immediately broadened.

They had known from the very beginning that they could control the rhythm of the battle. However, knowing was one thing, and how to do it was another. Moreover, the rhythm of the battle was different at every level, so it was not easy to completely control it.

Before this, they had all fallen into a misunderstanding, thinking that only by relying on absolute strength could they control the initiative of the rhythm.

But now, Lin Yi used his performance to show them that even if they didn't have the absolute strength advantage, rhythm could still be seized in their hands!

"The rest is up to you."

Lin Yi suddenly withdrew his primordial spirit and returned control of his body to Yue Jian.

Yue Jian was instantly flustered.

However, just when everyone thought that this fellow was about to reveal his true colors, after a short period of adjustment, Yue Jian actually managed to stabilize himself once again.

Even though he lost to Hong Baxian after a stalemate, his performance was much better than his previous record.

They were like two different people!

Yan Jiang's eyes twitched as he looked at Lin Yi, "The effect is so abnormal? You're invincible as a primordial spirit substitute!"

This was not an exaggeration at all.

Although he was only controlled by Lin Yi to fight in his place, be it in terms of physical body or primordial spirit, Yue Jian's body had clear memories of it.

After that, as long as he fully digested and absorbed it, it wouldn't take long for Yue Jian to be able to completely replicate the scene from earlier.

This was more than just abnormal, he was simply abnormal!

Everyone's eyes were on fire as they looked at Lin Yi.

Compared to normal cultivation, this method was basically cheating, and it had no side effects!

"It's not enough that elder Lin used hacks himself. He even wanted to bring all of us to use hacks together. He's indeed a master of hacks!"

Shen Yifan said with a smile.

Lin Yi smiled, "since you already know, why don't you get on stage?"

Shen Yifan immediately walked into the arena and said heroically, "Everyone, I'm going to take my revenge today. Those who beat me the most, step forward. I'll show you what a loser's counterattack is like!"

Everyone burst into laughter.

Although Shen Yifan's strength wasn't ranked in the top group, if he was considered a good-for-nothing, then no one present could escape.

His talent and potential had been recognized by half-master Luo, and he was definitely one of the top few among the crowd.

It was just that he had always taken on the role of the head butler and was tied up with miscellaneous matters. It was difficult for him to concentrate on cultivation like others, so his progress was slow.

Of course, this slow progress was only relative to this group of beasts. If this were to happen outside, how could a freshman at the peak of the middle stage of the consummate level of a Big Shot have the nerve to say that his progress was slow?

Do you have some misunderstanding of the meaning of the word "slow"?

The crowd looked at each other. Just as someone was about to step out to be the villain, Ren Tian 'er, who had teleported back, jumped into the arena.

Chapter 9867

"Aiyo, head butler, you're looking for someone to spar with. Come, come, come, let this Lord Tian spar with you!"

The onlookers had strange expressions on their faces.

The internal sparring was their daily routine, and the most unpopular sparring partner among them was definitely Ren Tian 'er!

This guy's skin was rough and thick, and ordinary people really couldn't hurt him.

The key was that he had also learned a mouthful of obscenities from the internet that made people feel despair on the physical level, and at the same time, they had to suffer mental devastation. Moreover, one hit would last for a long time, which was really exhausting.

If it was in the past, Shen Yifan would definitely turn around and leave without saying a word when he met this animal. He had a lot of things to do, so where would he find the time to slowly grind away at such a natural pain in the ass?

But today, he had made it in time.

Shen Yifan smiled. "That's great. Remember to cry out in pain later."

"I'm crying out in pain?"

Ren ting 'er was stunned for a moment. Then, thinking that he understood what she meant, he put on a charitable expression and said, ""Head butler, don't worry. You are the one I respect the most among all of us. I will definitely give you face. I will try my best to act as if I am!"

After that, Lin Yi took Shen Yifan's place and beat him up.

Seeing this guy come down from the stage with a bloody nose and a swollen face, the crowd laughed so hard that they almost cramped up.

It had to be said that he was used to this guy's disgust of others in the past. Today, it was rare to see him get beaten up, and it was particularly relieving!

"What the hell is this? Did the head butler take some kind of medicine today?"

The victim, Ren Tian 'er, was still confused.

Shen Yifan didn't have the time to pay attention to him. Lin Yi had given Yue Jian the best control over the rhythm of a battle, while he had left him with the experience of using rule power.

Before this, his wind God's materialization had only touched the threshold of the rules of wind.

But now, he had officially taken one step into the door!

An additional benefit that came with this was that by relying on his understanding of the rules from a higher position, the last barrier that had been blocking his advancement was directly kicked open without any suspense.

He had advanced to the late-stage of the consummate level of a giant!

After Yan Zhongyuan, Wei baizhan, and Qiu sanniang, Shen Yifan became the fourth new student under Lin Yi to reach the late stage of the great complete realm. From then on, he had completely solidified his name as the Golden generation of this batch of new students.

To be able to step into the top tier of the fighting force as a new student was enough to leave his name in the history books of Jianghai Academy.

The key point was that this was far from the end for this batch of freshmen. In the future, there would definitely be more people entering the ranks, such as the terrifyingly talented Bao shaoyou.

The crowd was completely fanatical.

The increase in Yue Jian's combat strength that was visible to the naked eye just now was already ridiculous enough. Now, there was even a direct upgrade for him!

If this news were to spread, the entire Academy would go crazy on the spot!

For the first time, Yan Jiang even dropped his cigarette on the ground. "You're trying to steal half-master Luo's job ..."

"Not really, not really. It's just a normal, unpresentable method," Lin Yi said humbly.

“.....”

The corner of Yan Jiang's mouth twitched. He had a deep respect for this guy's shamelessness.

Lin Yi then gave everyone special treatment for the day. Not everyone could break through like Shen Yifan, but there was no doubt that they all gained a lot!

This was especially true for Yan Zhongyuan and Wei baizhan. They were animals who had secretly established their own paths, so their gains were far greater than the others.

The others followed Lin Yi's example, and the room for improvement was visible.

They, on the other hand, could absorb all of Lin Yi's training and battle experiences, integrating them into their own paths. The results might not be as obvious in the short term, but in the long term, they had a bright future!

After the rest day ended, the training camp reopened.

Tian Yunkai did not give up, and in front of all the students, he said, ""Committee member Lin, there's a huge loophole in our training camp. I wonder if you've noticed it?"

Lin Yi looked at the confused faces and raised an eyebrow. "I'd like to hear the details. "

Tian Yunkai's face was one of business. "All of the rules and regulations of our training camp are only for the students. There is no substantial supervision for the instructors. May I ask how we can guarantee the training results?"

Tyrant and the others 'expressions changed when they heard this.

The most important reason why they were willing to join the training camp as instructors was to protect their own core interests. To put it bluntly, it was to prevent their core combat forces from being poached by others. They didn't really want to be diligent workers.

If Lin Yi really listened to this old man's bullshit and turned around to supervise them, then this wouldn't be fun.

"I've seen all the rules and regulations in the Academy's history, but none of them are aimed at restricting top-tier combat power. Why is that? Can I ask the great elder to dispel my doubts?"

Lin Yi's words stabbed right back into the man's lungs.

Tian Yunkai froze on the spot.

The will of a top-tier combat power must be respected. This was an unwritten rule in Jianghai.

Even someone like Yan Jiang, who had given up his pride as a top-tier combatant to become the head of the bodyguards for the Wang family, was doing so out of his own will.

If he wanted to leave one day, the formation talisman Wang family wouldn't stop him at all. Instead, they would take the initiative to give him a generous gift and part on good terms.

There was no other reason. The threat of a top-notch combat force was too great. No force could afford to provoke them easily.

Even a sacred land like Jianghai Academy would not dare to include restrictive terms specifically for a top-tier combat power. That would be digging one's own grave.

There was no need for them to fight the top combatants head-on. If they ran straight to the city Lord's mansion, it would be a devastating blow to Jianghai Academy.

In the secular world, these top-tier combat forces were like nuclear weapons.

Which family didn't treat their nuclear weapons like their grandfathers, but instead took them out to light up for fun?

All of the top-notch combat forces looked at Tian Yunkai with a playful expression. They wanted to see how this great elder of the Tian family would smooth things over for them. Perhaps this old man's temper was so stubborn that he even dared to step on this red line that was almost forbidden by his ancestors!

Unfortunately, sky clouds had still slipped away in the end.

"Lin Yi, don't go too far. I've never thought of limiting the top-tier combat strength, but the training camp has absorbed all the top-tier combat strength in the school. It's a big deal, and if we don't have any requirements and let them do whatever they want, we'd be irresponsible to the school!"

This was not a head-on confrontation, but a moral kidnapping.

"Then what's considered responsible for the school?" Lin Yi looked at him.

Tian Yunkai was already prepared for this. "No matter what, with so many of the Academy's elite combat forces gathered here, they're not here to waste their time. They must see the results of their training in the short term. I believe that no one has any objections to this, right?"

The students nodded in agreement.

No matter what the old man's intentions were, at least his words were right in their hearts.

## Chapter 9868 Power

No matter how grand Lin Yi's training camp was, no matter how luxurious it was on paper, it was all for nothing if it couldn't turn into actual results.

Even if they didn't have to pay any price to join the training camp, they didn't even have to buy a ticket.

But that was the human heart.

It doesn't matter if I pay the price or not. As long as you can't meet my expectations, it's your problem.

In some people's eyes, I'm already here to boost your training camp's reputation, and I've already paid the tuition fees. If you can't fulfill our expectations, it means you've been harboring evil intentions from the beginning!

Even if Lin Yi didn't guarantee the effectiveness of the training camp from the start, only setting a hard threshold for the school to open.

Tian Yunkai was well aware of the dark side of human nature, so in today's abdication, he had been in an undefeatable position from the beginning!

He'd be more than happy to see Lin Yi reject him in person-he wouldn't even need to do anything, and Lin Yi would be standing against all the students in the camp.

However, Lin Yi wasn't that stupid.

Tyrant threw away the wine barrel and retorted in a rare serious tone, ""Cultivation has never been something that can be done overnight, especially when one has reached the level of a Big Shot's late stage of perfection and above. There are many cultivators who have been in seclusion for ten to a hundred years and still have no progress. How can you see results in such a short time?"

"If the results of the training are only about the same as a normal routine, then allow me to ask you a question. Is there still a need for this training camp to exist?"

Tyrant was at a loss for words.

Seeing this, Wang sanjue stepped forward and said, "from what I heard from the first elder, your Tian family seems to have a way to speed up the cultivation process. However, if we're comparing the cultivation speed, those crooked ways are the better choice. After all, this is their specialty."

"Wang family head, are you secretly ridiculing our Tian family for being evil?"

Tian Yunkai's eyes turned cold, "a frog at the bottom of a well. The saddest thing about it is that it can't see things and thinks that they don't exist in this world."

"I'm not being modest, but my Tian family does have a way to speed up the process without any side effects!"

The eyes of everyone in the training camp lit up when they heard this.

Everyone wanted to level up quickly, which was why evil ways could not be stopped despite repeated prohibitions. However, even though they leveled up quickly, the problem was that they all had huge aftereffects.

Unless one was an unorthodox cultivator, the price to pay for that was definitely not worth it for a normal cultivator.

However, if what Tian Yunkai said was true, that the Tian family had a way to quickly level up without any side effects, it would be a fatal temptation for them!

"Elder Tian Tian, are you serious?" Lin Yi raised his eyes.

"Of course it's true, this old man has never had the habit of speaking in his sleep."

Tian Yunkai said with extreme confidence.

If these words came from someone else's mouth, it would be like someone in the secular world claiming that he had invented the perpetual motion machine. There was absolutely no credibility to speak of.

However, with the Tian family's golden name as a backing, even the most rational person would be shaken at this moment.

Speaking of which, if the Tian family didn't have such means, how could they rely on their own strength to cultivate such a large group of experts?

There was no need to think about it. He must have cheated.

Taking in the expressions of everyone in the training camp, Tian Yunkai chuckled and took the opportunity to suggest, ""If you don't believe me, how about we make a bet? we'll see which side has more people breaking through and leveling up in ten days. How about it?"

Everyone was in an uproar.

To their knowledge, no matter how fast they leveled up, it would take at least half a year.

Ten days? Enough to do what?

"The speed of your batch's advancement is unprecedented in the history of the entire Academy. You, committee member Lin, must have contributed greatly to this!"

Tianyun complimented Lin Yi for the first time before revealing his true intentions, "Since you're able to help so many new students level up so quickly, you must have a way to spread this to the rest of the training camp!

With your magnanimity, I don't think you'd be so selfish as to only take care of your own people and ignore everyone else, right?"

The students couldn't help but discuss.

They'd all seen how fast those freakish freshmen were breaking through-who would believe it if Lin Yi wasn't the one leading them?

They weren't fools, so they could naturally see Tian Yunkai's intention to sow discord.

But the truth was right there-Lin Yi was acting like he didn't know what he was doing!

Even they themselves knew that Lin Yi had to treat them the same way he treated the newborn Alliance. This was simply unrealistic.

It was one thing to go to someone's house for free food and drink, but to make them take out the cake for their own children. A normal person who didn't have a stroke for ten years wouldn't say such ridiculous words.

However, even if he knew his own limits, he would still feel unbalanced in his heart, and it was inevitable that there would still be resentment.

And this was exactly what Cloudsky was aiming for.

As long as he could cut off Lin Yi's relationship with the students, the Tian family could continue to be as carefree as before.

Otherwise, if this trend continued, Lin Yi would become a threat to his position in the Tian family!

Seeing Lin Yi's silence, Tianyun Kai was secretly pleased.

If I can't poach your disciples, can't I poach these people from the training camp?

"What's the bet?" Lin Yi asked suddenly.

"....."

Tian Yunkai had never thought that the other party would actually dare to respond to this.

Other people might think that the new students all relied on Lin Yi to break through, but he had the Tian family's information channels, and naturally knew that Lin Yi's role in this was quite limited.

Those new students were strong because of their talent, not because they were clinging to Lin Yi's leg. The name of the Golden generation was not just for show.

In fact, even his Tian family didn't have the so-called fast leveling method, let alone Lin Yi!

He was bluffing.

Tian Yunkai saw through Lin Yi's thoughts in an instant-it was obvious that Lin Yi was trying to scare him off.

She actually thought that such a small thought could scare him?

Naive.

Tian Yunkai immediately said,"you'll lead the training camp, and I'll lead the group of experts. If more people on our side break through and level up within ten days, that would mean that you're not capable enough. You'll have to take the initiative to give up your position as Chief Instructor."

The crowd was in an uproar. This bet was really a bit big!

In name, the Chief Instructor was just a position, and there didn't seem to be any essential difference between him and the other instructors. However, anyone with a discerning eye would know that this represented the final ownership of the training camp!

Whoever was the Chief Instructor would be the master of this training camp.

Chapter 9869 Power

All the high-end combat forces present had to show respect to him as a disciple.

Many people had already guessed it before, and now it seemed that the Tian family still wanted to keep the training camp under their own account, not giving Lin Yi the chance to become powerful.

"Then what can you give me?" Lin Yi asked.

Tian Yunkai was stunned for a moment. He really didn't have any heavyweight chips in his hands that could match his. After all, he was the great elder of the Tian family in name, but in reality, the power of the Tian family was in the hands of Tian Xiangyang.

As the Grand Elder, he only had the right to make suggestions but not the right to decide on the core resources of the family.

However, he still said indifferently, ""What do you want?"

Tyrant and the others couldn't help but worry for Lin Yi.

This kind of bidding is a skill. If it's too low, you will suffer a loss. Once it's too high, it will inevitably make people feel that they have ill intentions and have ulterior motives against the Tian family.

If this really affected Tian Xiangyang's impression of him, it would only be a loss that outweighed the gain.

Lin Yi, on the other hand, didn't seem to care at all, "You don't need to take out anything, but in the future, if there are any experts of the Tian family who want to join the training camp, the Tian family can't stop them in any name. Is that okay?"

Everyone was speechless.

The Tian family had their eyes on the training camp, and he, Lin Yi, actually had his eyes on a master from the Tian family. He was now evenly matched with a great talent, and no one was easy to deal with.

However, in Tian Yunkai's eyes, this condition was simply nonsense.

With the loyalty of the Tian family's experts to the family, unless the family orders them to join the training camp, none of them would be willing to join.

To him, this bet was completely pointless.

Tian Yunkai looked deeply into Lin Yi's eyes. Naturally, he didn't think that Lin Yi was an idiot. On the contrary, even if Lin Yi wasn't extremely smart, he was definitely a very shrewd person.

It was impossible for a fool to climb to such a height in such a short time!

However, this kind of mistake was made by smart people because they were proud and conceited, thinking that everything was under their control.

"Alright, it's a deal!"

Tian Yunkai immediately agreed and turned to look at the people in the training camp with a faint smile. "I hope that committee member Lin can treat everyone equally and let everyone experience the treatment of your freshman Alliance."

Lin Yi smiled, "let's wait and see."

Both sides dispersed.

All the members were full of themselves, waiting for Lin Yi to show them his trump cards so that they could experience what it felt like to be carried around.

As for tianyun's actions, they did not express their feelings on the surface, but they were secretly grateful.

After all, they were the ones who would benefit.

However, the training camp's schedule went on as usual, and there were no changes compared to before.

Although the training camp's luxurious configuration was enough to benefit them greatly from normal training, now that tianyun Kai had forcibly raised their expectations, they immediately felt the fall.

In just a few days, resentment had already spread among the students.

This was human nature. It was fine if you didn't mention it, but if you didn't honor what you've personally admitted, it was no different from making enemies!

"We can't go on like this, can we?"

Tyrant was speechless as he looked at Lin Yi.

Due to the influence of the wine pool domain, he had always given the impression of a carefree person to the outside world. He was known to be a person who drank and had fun all day long. He would not take ordinary things to heart, let alone get tangled up in some trivial matters.

But compared to Lin Yi, he felt like a small-minded woman.

What did it mean to be open-minded? This is what you call open-minded!

Even the training camp was about to be taken away, and he'd probably go crazy if he were in Lin Yi's position, but he looked at Lin Yi as if nothing happened.

"We know you have a trump card," Yan Chi said. "But if we let the resentment ferment like this, it'll cause big trouble."

Everyone knew that Lin Yi didn't set up this training camp just for charity, but to attract people.

However, if this continued, not only would he not be able to attract people's hearts, he would also attract a lot of resentment.

If he really lost to Tian Yunkai in the end, then he'd lose everything, and the name "Lin Yi" would become the joke of the entire school.

Of course, when that time came, they would also be in trouble.

After all, the Tian family wouldn't be as easy to talk to as Lin Yi. They'd either be taken in, or they'd be pushed aside, or even kicked out of the training camp.

No matter which one it was, it was definitely not the result they wanted to see.

Lin Yi smiled at them, "it's rare for you guys to be so angry. If these students are angry, then so be it. We can't stop them from talking, can we?"

Wang sanjue furrowed his brows. "They've vented to their heart's content, but your reputation has also collapsed. This isn't appropriate, is it?"

"Since they're not suitable, then let's break up."

Lin Yi looked at everyone and said, "I don't think I've ever said that the training camp only allows people to enter and not leave. Even if a couple is living their lives together, there's still the issue of divorce. Since they have an opinion, we can't stop them from leaving, right?"

"....."

Everyone came to a sudden realization.

Damn it, I knew it, how could this person be at a disadvantage with his usual style? so he was waiting here!

In fact, when the training camp first opened, they were already suspicious that Lin Yi didn't make any changes in character or values, even though he set a hard threshold for strength.

Although it was to increase the scale and influence of the training camp, it was completely reasonable to do so.

However, in the long run, a group of people who had not been selected by their values, no matter how strong they were, were destined to be a motley crew. It was impossible for them to form a united force.

There was no way Lin Yi wouldn't understand such simple logic.

It turned out that he was waiting here.

"You're really a cunning old bastard!"

Bao Jun chuckled, and was very glad that he had wisely chosen to be friends with this guy. Otherwise, if he had really been stubborn to the end, the grass on his grave might have already grown.

The other five retained students also felt the same way.

At this moment, Yan Chen, who was the full-time assistant of the intelligence Department, said, "Someone from the Tian family's experts team has already broken through."

"How many?"

"Three,"

Everyone could not help but look at each other.

He didn't expect that the first elder of the Tian family was really something. Only three days had passed, and three people had already broken through. When the ten-day deadline of the bet arrived, there would be at least three more.

Within ten days, six people had broken through. One had to know that these weren't cabbages that could be found on the side of the road. They were all experts at the late stage of the consummate level!

In the entire Jianghai Academy, it was difficult to achieve a double-digit number of such breakthroughs throughout the year.

Tian Yunkai had taken up more than half of the spots all of a sudden, and he was indeed quite capable.

## Chapter 9870 The Power Of The Divine Realm

"The Tian family's experts are all at the late stage of perfection. They are already on the verge of breaking through. With a bit of stimulation, it's not strange for them to complete the final step." Yan Chen explained.

This was also the reason why Tian Yunkai was so confident in his bet. If he didn't have any backup plans, then he would really be a fool.

Wang sanjue laughed when he heard this. "Good! Now, the students below have even more reason to cause a ruckus."

"It's better if they make some noise. If they don't, how can I tell who is worthy of training and who is not?"

Lin Yi smiled nonchalantly and turned to Yan Chen. "I'll leave this matter to the intelligence Department. You keep an eye on it yourself. "

"Understood."

Yan Chen nodded in agreement.

As expected, when the news of the Tian family's experts breaking through came, all the students in the training camp were boiling with resentment.

They didn't dare to criticize Lin Yi in public before, and were only being sarcastic in secret, but now that the crowd was in a frenzy, many of them didn't hide it anymore.

Lin Yi, on the other hand, turned a blind eye to all of this and continued to lead everyone to their normal training. As for the bet with tianyun, he didn't mention a single word about it.

Although everyone was full of resentment, they were not bold enough to question him in front of him, but they had their own guesses in private.

Did he just lie flat?

At this rate, Lin Yi's loss was set in stone, and the camp was bound to change hands!

Everyone started imagining the post-Lin Yi era at the training camp.

If the Tian family were to lead the training camp in the future, the effect would be much better. At least they wouldn't be like Lin Yi, who was always on the toilet.

On the other side, Tian Yunkai was overjoyed when he learned of this situation.

There were only two days left, and Lin Yi was still not making any moves. It was too late even if they went all out now.

The victory was set.

It seemed like it was time for him to have a good talk with Tian Xiangyang. Taking over the training camp was a huge matter, and it wasn't something that he and his elder group could handle. In the end, it still had to be decided by the clan head, Tian Xiangyang.

However, he could also take the opportunity to see what kind of expression Xiang Yang would have the day after he learned about this!

Although he didn't have much hatred towards Tian Xiangyang, he was still very willing to give Tian Xiangyang a slap in the face and regain some of his face.

In the end, after Tian Xiangyang had finished listening to him, he simply did not have any expression, ""Just this?"

"What do you mean by that?"

Tian Yunkai, on the other hand, was confused and immediately became a little anxious, ""This is a training camp with more than 100 high-end combatants. If we can recruit them under the Tian family's banner, the strength of the entire Tian family will be raised to a higher level!

Lin Yi lost the bet to us of his own will, you can't possibly reject him, can you?"

If he didn't even eat the meat that was right in front of his mouth, he'd really have to wonder if Lin Yi was the bastard son of this guy!

Even if he was her own son, she couldn't protect him so much.

Tian Xiangyang looked at him with an indifferent expression, ""Isn't there still two more days? When the dust has settled, come find me again. I'm very busy now, so I won't be seeing you off. "

"....."

Tian Yunkai had a puzzled expression on his face. In the end, he attributed all of this to Tian Xiangyang's embarrassment and could only use this kind of attitude to eliminate the awkwardness.

But no matter what, the entire Tian family will see it in their eyes. This time, he won!

Looking at Tian Yunkai's back as he left in high spirits, Tian Xiangyang had a playful look on his face, ""This Lin Yi kid sure has his ways with people's mindsets-the higher you go, the worse you fall. I wonder if this old man can handle it."

He had been paying attention to the bet between the two of them from the beginning to the end, but he had no intention of interfering.

He knew very well that his elder couldn't beat Lin Yi at all.

After being a domestic fowl for so long, tianyunkai had probably forgotten that the ferocious beasts outside would never play their cards according to his style.

At the same time, Lin Yi received the name list of the training camps.

All the students' names were on it, and they were all the main targets of the intelligence Department.

Their daily actions, their past deeds, and their connections in Jianghai city were all listed clearly.

Even the Academy's officials didn't have such detailed personal records.

"Only half of them can be left?"

Lin Yi grinned helplessly. The selection was part of his plan, and he did plan to get rid of at least 30% of the people. Only then would he be able to get rid of the weeds and keep the fine ones.

In the end, it dropped by 50%.

"Why don't we relax the standards a little?" Yan Chen suggested.

In fact, even he felt that Lin Yi's standards were too strict. One mistake and he would be fired immediately.

Lin Yi shook his head. "Quality is more important than quantity in an Army. Since the standard has been set, don't move it. Let's just leave it at that."

Looking at the list in his hand, he was quite surprised that the few people who had caused the most trouble on the internet and eventually knelt down and begged for forgiveness had all been retained.

Although their resumes had some dark history, they were the most honest and honest members of the team in this bet.

From the beginning to the end, he only cared about training and never went along with the other people's sarcasm.

It was obvious that he had suffered before and learned his lesson.

Lin Yi couldn't help but admire these people. It didn't matter what they were thinking, or whether they were still trying to mess with him, but at least they knew what they were doing.

Nowadays, there weren't many smart people who really understood the current situation.

When the elimination list was announced, the entire training camp was in an uproar.

More than 60 out of the 100 students were eliminated at once. Such an elimination rate was truly shocking!

The key was that no one had heard anything about this beforehand. There was no sign at all. Everyone would be dumbfounded by this sudden wave of attacks. Especially those who had been eliminated.

"No, no one can just kick us out for no reason, we need to get an explanation from Lin Yi!"

The eliminated students were filled with righteous indignation.

Just a second ago, they were still thinking about the wonderful scene after the Tian family took over the training camp, but in the next second, they were kicked out. How could they bear this?

Lin Yi raised an eyebrow at the group of people surrounding him. He turned into the Titan Buddha and slammed the loudest person into the ground.

At the same time, tyrant and the rest of the top combatants behind him unleashed their auras.
