

Bodyguard 9871

Chapter 9871 The End

The shocking scene of the turbulent wind and clouds directly suppressed everyone into silence. The so-called anger that soared to the sky immediately stopped.

All of them kept quiet out of fear, not to mention continuing to shout and demonstrate their might, they could only hold their farts in, not even daring to let out a fart.

What a joke! The sixty of them looked strong, but in front of Lin Yi's group of top-tier fighters, they were nothing.

The difference in quality between top-tier combat power and high-end combat power was not something that could be closed by having more people.

However, the human wave tactic was not completely impossible, at least two more orders of magnitude were needed.

They had too few people.

Lin Yi glanced at them indifferently. "Are you guys trying to rebel?"

“.....”

One of the high-end combat forces was in tears.

The heavens had pity on them. No matter how foolish they were, they wouldn't be so stupid as to openly challenge a group of top-tier combat forces. Even if they wanted to die, this wasn't the way to go about it.

Everyone's eyes twitched as they looked at the unlucky guy who was buried in the ground. They looked at Lin Yi with even more respect, afraid that he'd come for them next.

The atmosphere froze for a moment.

Finally, someone stood up and said, ""Chief Instructor, you've misunderstood. We don't have any intention of being disrespectful to you. We just want to know why you eliminated all of us."

"You should've said so earlier. I thought you were going to reason with me."

Lin Yi turned back to his original appearance, disappointed.

Everyone looked at the human-shaped pit in front of them. Is this how you reason with others?

Lin Yi looked at everyone and said faintly, "The reason for eliminating you is actually very simple. There's only one reason. You don't agree with your values."

Everyone was once again speechless.

What do you mean by "your three views don't match"? are you looking for a partner here?

But the problem was that even with such an outrageous answer, they could not refute it.

If there were clear rules and regulations, they could at least argue about it, but there was no way to argue about the three views.

To put it bluntly, Lin Yi didn't like them. What could they do to him?

Don't forget that the training camp was organized by Lin Yi himself-he was the one in charge here, from the venue to the people.

The rules, he was the biggest rule here!

"Any more questions?"

Lin Yi waved his hand when he saw that everyone was speechless, "Since there's no problem, everyone can leave now. I still have business to attend to here, so I won't be seeing you off."

After he finished speaking, he turned around and left with tyrant and the other instructors, leaving behind the eliminated students who were speechless and staring at each other.

"What do we do now?"

Everyone was suddenly at a loss.

It wasn't that they didn't know why there was such a thing. Just by looking at the people present, they knew that they were the group of people who had caused the most trouble.

They'd guessed that Lin Yi would react, but they didn't expect it to be this big, firing them all!

As a Big Shot, even if it was for the public image, didn't he have to pretend to be magnanimous? he just casually complained a few words and made things so serious, wasn't he afraid of being called petty?

They didn't know if Lin Yi was scared or not, but they were all filled with regret.

He wished he could slap himself 14000 times!

If they had known earlier, they would never have complained. They would have participated in the training obediently and pocketed all the benefits of the training camp.

They could enter the secret land of clomaros as they pleased, and the top-tier combatants would be their instructors. This was a heaven-rank treatment that could not be found anywhere else, and they only regretted it now that they had lost it.

However, it was too late for him to regret it.

Some of them wanted to stay, but Lin Yi couldn't be bothered with them. He used his control of the secret realm of Ares and kicked them all out without saying anything.

The group of people landed on the empty space in front of the palace and looked around helplessly, like a group of stray dogs that had been kicked out of the house.

"Let's go to the Tian family and ask them for an explanation!"

When someone took the lead, someone else followed. A group of more than 60 high-end combat forces immediately came to the Tian family to petition.

Since the matter was provoked by the Tian family, then with their logic, it's naturally reasonable to find the Tian family to solve it!

In fact, they still didn't believe that Lin Yi had the courage to give up on them just like that.

With more than 60 high-end combat forces, they would be popular wherever they went.

Unless Lin Yi was an idiot, he wouldn't shut them out if he had the slightest bit of ambition. This was just a knock on their door.

It must be like this.

"It's obvious that the Tian family wants to recruit all of us. I don't believe that Lin Yi won't be worried when he sees us in contact with the Tian family!"

One of the female students spoke out what everyone was thinking.

Although he said that, in fact, he still hoped to stay in the training camp. After all, he could come and go freely. On the other hand, joining the Tian family would require him to sign a real contract.

No one was willing to take that step unless they had no other choice.

When he learned that everyone had arrived, Skycloud Kai was instantly overjoyed.

On one hand, he was indeed drooling over this group of high-end combatants. If they took the initiative to get close to him, it would be a great benefit for the Tian family. However, more importantly, he liked to see Lin Yi's stupid self-digging action!

If Lin Yi didn't do something stupid himself, there were many things he wouldn't be able to do, but now he didn't have to do anything. Lin Yi was just letting him win without doing anything.

Tian Yunkai immediately led the group of elders of the Tian family to receive the eliminated students with great respect.

Everyone was overwhelmed by the favor.

What was bearing? This was the bearing of a true leader-in comparison, a petty guy like Lin Yi was just a nouveau riche.

Without enough Foundation and Foundation, no matter how strong you are now, no matter how great your reputation is, you are destined to not last long!

After listening to everyone's requests, Tian Yunkai immediately smiled and said, ""Lin Yi's actions are indeed disgraceful, but don't worry, everyone. The training camp is related to the overall situation of the school, and we won't let a single person have the final say in this, much less allow a single person to do as they please."

Everyone was overjoyed.

With the Tian family's attitude, their hearts finally settled down. No matter how arrogant Lin Yi was, he couldn't just ignore the Tian family's attitude.

However, just when everyone thought that Tianyun would pressure Lin Yi, the first elder smiled, "Everyone, please calm down and wait here for a day. Once my bet with Lin Yi is over tomorrow, you can all return to the training camp in a decent manner. How about that?"

Now that the victory was set in stone, it'd be a waste of time to argue with Lin Yi.

Chapter 9872 Power

The best strategy he could think of right now was to wait-Lin Yi would have to give up his position as head instructor tomorrow, and these people would come back to the training camp in front of him.

No matter what level one reached, the thing people liked to do the most was to slap people in the face.

"We'll listen to the great elder," everyone looked at each other and said.

They knew the situation in the training camp better than anyone else. Up until now, there hadn't been a single magnate at the late stage of the consummate level who had managed to break through. As for a magnate at the peak of the late stage of the consummate level, that was even more impossible.

It was at least ten times, or even a hundred times more difficult to advance to the ultimate completion of a Big Shot!

If even the Tian family's experts couldn't do it, then the training camp that Lin Yi had practically raised on its own had even less hope.

However, just as everyone was waiting for Lin Yi to make a fool of himself, tianyunkai received news that the war God's secret realm had been sealed.

"What do you mean? There's only one day left to the bet, are you trying to go back on your word?"

Tian Yunkai couldn't help but sneer at Lin Yi-he was trying to escape from reality by burying his head in the sand like an ostrich. Hehe, so Lin Yi had such a cute and childish side to him.

At this moment, an elder in charge of intelligence said worriedly,""As far as I know, all of Lin Yi's core forces have been improving rapidly, and a few of them have broken through. Could they be preparing for some big move?"

Due to the existence of the information Department of the school of repeaters, the previously heavily damaged school of repeaters was now the area with the least control of the various intelligence agencies.

Especially the headquarters of Lin Yi's group, the hall of Kings-it was a forbidden area for information.

After all, the intelligence Department was good at gathering intelligence, and they were also good at counter-intelligence. The outside world could only guess the situation inside King-only Palace, and they could not get the key details.

However, Tian Yunkai did not think much of this. "Those new students have some skills to begin with. In addition, their own cultivation levels are low, and with enough resources, it's not strange for a few of them to break through.

It's already the last day, what else can he do? don't tell me he can let seven people break through at once? He's Lin Yi, not some God!"

Lin Yi wasn't a God, but he wasn't a dog either.

At the last moment of the bet, tianyun Kai was holding back his urge to stir up public opinion online, announcing that Lin Yi had shut down the secret realm of clomaros and was a coward because he didn't want to admit his loss.

The secret realm of clomaros was suddenly opened to the public again.

"At least it wasn't too embarrassing. Otherwise, he wouldn't be embarrassing himself, but the entire wartime Committee."

Tian Yunkai sneered and immediately led the Tian family's expert team into the secret realm of Ares with the posture of a Victor.

At the same time, he also brought along the group of eliminated students.

He had to share the taste of victory with the others-he'd let them see how he'd completely destroy Lin Yi, and it'd be easier for him to win them over in the future, and then take complete control of the training camp.

That's right, Yunkai had been planning for the post-Lin Yi era of the training camp.

"You actually let us in? Isn't it a little too late for him to be acting magnanimous now?"

The eliminated students looked at each other and smiled.

As the master of the secret realm of Ares, Lin Yi had the right to shut them out of the door, but this time, he let them in for the first time, which was unexpected.

Seeing Lin Yi and the instructors waiting at the front, tianyun Kai smiled, "This old man thought that the bet would be postponed, but I didn't expect that you would keep your word. What a surprise."

"There's more to come," Lin Yi smiled.

"Is that so?"

Tian Yunkai raised an eyebrow and looked deeply at Lin Yi before getting straight to the point, "Then let's not waste any more time. The experts of the Tian family who have successfully broken through in the past ten days, step forward and show your results to committee member Lin."

After that, a row of experts from the Tian family stepped out and immediately released their aura.

A Big Shot at the peak of the late stage of perfection!

Lin Yi couldn't help but raise his eyes in surprise. "Eight?"

"That's right, eight. "

Tian Yunkai really appreciated Lin Yi's expression-he'd told the public six pieces of information before, but in reality it was eight-all to prepare for a surprise!

In ten days, the eight Giants at the late stage of the consummate level successfully advanced. This almost emptied all the available resources in the Tian family's inventory to ensure that there was no mistake.

It was obvious that his strategy was a great success.

He didn't even get to appreciate the shock on Lin Yi's face when Lin Yi said indifferently, "If that's the case, then let's not make Grand Elder Tian wait too long."

As soon as he finished speaking, the row of students behind him automatically stepped out and released their auras in front of everyone.

They were all Almighties at the peak of the late stage of the consummate level. However, there were ten of them who stood out!

Everyone was stunned.

Tian Yunkai rubbed his eyes in disbelief. He had to confirm again and again that these people were all genuine big shots at the peak of the late stage of the consummate level. There was not a single bit of exaggeration in them!

And he remembered these people very clearly. Previously, they were clearly all late-stage consummate level experts!

"Impossible! This was absolutely impossible! They must have taken some kind of pill!"

Tian Yunkai could not believe what was happening before his eyes.

No one could make ten big shots at the late stage of perfection level break through in one day. If the Tian family couldn't do it, Lin Yi wouldn't have the resources to do it.

The only explanation was cheating.

This group of people must have taken some kind of special pill that temporarily stimulated their potential and could disguise the signs of breaking through for a short time. This was the only reasonable possibility!

It wasn't just him, the group of Tian family experts behind him, especially the eliminated students who came in to see Lin Yi's bad luck, all looked like they had seen a ghost.

These were 10 big shots at the peak of the late stage of the consummate level. They weren't 10 dogs that he could casually summon.

The key was that these ten people had trained with them in the past. In terms of Foundation and strength, many of them were not as outstanding as them. Now, only a little more than a day had passed. How did they suddenly change to this state?

It didn't make any sense!

This must be cheating! It must be an illusion!

"Your Tian family also has alchemy grandmasters," Lin Yi said nonchalantly, "we'll know if they're on drugs or not. If you're happy, I can ask them to cooperate. "

"Investigate!"

Tian Yunkai immediately gestured for one of the elders of the Tian family to step forward. This person was a famous alchemy Grandmaster in the entire Jianghai city, and was one of the leading figures in the alchemy world.

after a round of inspection, the elder of the tian family shook his head helplessly.

Chapter 9873 Power

tian yunkai was taken aback, and then he couldn't help but say angrily, ""can you check it carefully so quickly? give them a thorough check from head to toe, everyone!"

the elder of the tian family was helpless. he could only check from the beginning again. this time, he checked in great detail, even including the birth characters.

in the end, he still shook his head.

lin yi smiled, "elder tian tian, if you're still worried, you can try another person. i heard that the old man was also a pill master when he was young. why don't you ask him to come over?"

"....."

Tian Yunkai could only grin with an extremely unsightly expression, ""There's no need for that. To be able to produce ten big shots at the peak of the late stage of the consummate level in one day ... I wonder if member Lin can reveal what kind of Immortal Technique this is?"

"It's not some Immortal Technique, it's just a little underhanded trick. I'm sorry to make you laugh, heavenly elder. "

Lin Yi said casually.

He had initially thought that the ability to fight with the primordial soul was the standard for all cultivators who had reached the late stage of the great circle of perfection in the primordial soul realm. However, he realized that he had been overthinking it.

For one, in the entire Jianghai city, there were very few people who could reach this level of primordial spirit. There were even fewer of them compared to the top combat forces.

Secondly, most cultivators had very limited knowledge of the primordial spirit level. They knew nothing about how various primordial spirit abilities came about and what kind of generating mechanism existed inside them.

In other words, Lin Yi might be the only one in the late stage of Great Perfection to have such an ability.

This could be verified by Luo Banshi and Tianji.

Their spirits had both reached this level, and they had their own abilities, but it was a completely different thing from Lin Yi, who was a substitute with a deep connection between his spirits.

Tianyunkai didn't quite believe Lin Yi's words, but since he'd used this method on the people in the training camp, he'd be able to figure it out with some thought.

Anything, no matter how thorough the measures were, once there were more than ten people who knew about it, there was no possibility of keeping it completely confidential.

However, this way, he would be completely defeated in this bet.

Eight against ten.

Although he didn't lose by much in terms of numbers, he gathered the Tian family's strength while Lin Yi won by himself. Even if it was a narrow win, it wouldn't be glorious, not to mention he lost.

Fortunately, the bet they had agreed on was almost a white silk, so he did not have to pay a heavy price.

As long as they could convince the group of experts, Lin Yi wouldn't be able to poach them, even if he had some connections.

The reason was simple, whatever Lin Yi could give, the Tian family could give too!

Since the benefits were about the same, who would risk betraying their own family to join Lin Yi? Jianghai college was still the Tian family's territory, after all. Unless Lin Yi's benefits were too great for them to reject, no one would even think about it.

At most, they would give the experts a higher level of treatment. In any case, the meat would rot in the pot.

Tian Yunkai's face immediately turned cold as he prepared to leave, ""Since the result is out, this old man isn't someone who can't afford to lose. I, Tian Yunkai, am willing to accept my loss. I'll be leaving first."

"Heavenly great elder, please wait."

Lin Yi called out, "Our bet isn't over yet."

"It's not over yet?" everyone was stunned.

Tian Yunkai furrowed his brows. "The outcome has already been decided. I've already admitted defeat. What else do you want?"

"I don't want anything. It's just that it's rare for us to have a bet, so we should at least show our cards. Otherwise, wouldn't it be a killjoy?"

Lin Yi smiled and snapped his fingers, and a student stepped out from behind him, releasing his aura in front of everyone.

Instantly, everyone was speechless.

The final perfection of a giant!

Tian Yunkai was dumbstruck. The group of experts and the eliminated students all had their eyes wide open. This was clearly the aura of a Big Shot at the ultimate completion!

Strictly speaking, this person could only be considered the lowest level of a giant at the ultimate completion. He had a realm but did not have the rule power of the manager. He could only be considered a fake giant at the ultimate completion.

But even so, it was shocking enough.

The reason why Zhao Rikun was able to make such a big name for himself in the repeat school previously was because he could mass produce high-end combat forces. He was even suspected to be able to produce top-tier combat forces like the fake giant ultimate perfection expert.

If it wasn't for the fact that he'd bumped into Lin Yi, this ability alone would've been enough for him to gain a firm foothold in Jianghai Academy, and even make a name for himself!

Even if the combat power he created had obvious flaws and certain obvious side effects, this ability was still valuable and irreplaceable.

And now, even Lin Yi had this ability. The key was that this giant in front of him was in his peak state. The side effects might not be that big.

This was too terrifying!

Tian Yunkai felt a chill run down his spine-he didn't even need to turn around to know that the way his team looked at Lin Yi had changed.

For people like them, there was no temptation in the world that could resist the temptation of advancing to the ultimate completion of a Big Shot, even if it was the family that had raised them since they were young.

They might not betray the Tian family, but if Lin Yi extended an olive branch to them, and the Tian family became their stumbling block, then they wouldn't be far from betraying the Tian family.

"You guys didn't guess wrong. I can indeed help a Big Shot at the peak of the late stage of the consummate level break through."

Lin Yi's words were like lightning strikes to everyone, but he continued, "However, I can't guarantee a 100% success rate. I can only say that there's a chance. In addition, it doesn't involve rule bending power. It's just a simple breakthrough in realm. If any of you are interested, you can come to me."

He was finished.

After Lin Yi finished speaking, Tianyun Kai knew that he couldn't keep his group of experts here any longer. Any of the Masters who wanted to become a giant at the peak stage couldn't resist the temptation anymore.

If Lin Yi had guaranteed everything right from the start, they might've been suspicious. After all, they were all smart people, and there was no such thing as a perfect ending.

But now that Lin Yi was being so open and honest, putting the pros and cons on the table, it was the same as giving the final decision back to everyone's hands.

This move of retreating to advance was very brilliant.

Just as Tian Yunkai was about to open his mouth to interrupt the crowd's thoughts, someone from the Tian family's team of experts took the lead and asked, "May I ask, what are the chances of success?"

"It varies from person to person," Lin Yi said, lifting his eyes. "I guess it's 50 - 50."

The eyes of the group of big shots at the peak of the late stage of the consummate level immediately lit up.

Only they knew how difficult it was to break through to the ultimate completion of a Big Shot. Even if they were fully prepared, the success rate of breaking through in the end would definitely not exceed 20%.

Even if it was just to increase their chances by 10%, they were willing to pay with all their capital, even all their assets!

Chapter 9874 The Power Of The Divine Realm

Lin Yi's offer of 50% was a huge temptation to them.

"I wonder if there are any side effects?"

Someone couldn't help but ask.

In fact, with such a high success rate, even if there were some side effects, they could still accept it. It was impossible for everything to be good.

As for the lack of rule force, that was even more reasonable.

Rules were something that came by luck, and they'd have to stay as far away from Lin Yi as they could if he could take over everything.

There was no need to think about it. The bait must be up to something else.

"if you really want to talk about side effects, it's not like there are no side effects."

lin yi's words made tianyun happy-as long as there were side effects, he could use it to interrupt everyone's thoughts.

"without the hard training of trying to break through to the final level of a big shot, your state of mind might not be as complete as those who break through on their own. after all, things are going too smoothly for you guys."

"....."

tian yunkai's eyes were wide open when he heard this. 'is this a side effect? aren't you just showing off?

if he was from the secular world, three words would definitely pop up in his mind at this time: versailles.

Lin Yi was the Versailles benchan.

Sure enough, the experts of the Tian family laughed,""That's fine. We can slowly train our mental states in the future. Breaking through is the most important thing. "

The perfection of the state of mind was built on one's strength. If one could not take the final step, no matter how perfect one's state of mind was, or even if one was invincible in the world, in front of those top-notch combat forces, one would still be a piece of trash. There was no difference.

They knew very well in their hearts which was more important.

"Let's go!"

Tian Yunkai looked at Lin Yi deeply-there was no point in saying anything now.

Unless he could be like Lin Yi and let everyone see the hope of becoming a Big Shot at the peak, the more he said, the more disgusted they would be.

At this time, the only solution was to ask Tian Xiangyang to come out personally!

With Tian Xiangyang's authority and influence, as long as he was willing to speak, even these big shots in the clan, who were at the peak of the late stage of the consummate level, would definitely not dare to disobey.

At that time, even an arrogant person like Lin Yi wouldn't dare to push his luck.

After listening to his description, Tian Xiangyang was confused. ""Since we lost the bet, then we should accept our loss. What's there to be confused about? can't my Tian family afford to lose?"

Tian Yunkai's old face turned red. If this matter were to be spread out, it would indeed make people suspect that the Tian family was cheating.

However, this was related to the family's plans, so the criticism from the outside was nothing.

No matter what, he had to give up his face. If he couldn't even understand this, he didn't need to be the first elder of the Tian family.

"Master, think about it, if we let these big shots of the Tian family, peak of late stage of perfection, join Lin Yi's side, even if we only have half of them, what kind of scene would that be?"

"Especially if he really succeeds," Tian Yunkai faintly reminded, "allowing these people to successfully advance to the pinnacle of cultivation of a Big Shot, even if they're just some inferior goods with empty realms. What kind of scene would that be?"

With this, Lin Yi's limelight might really be on our Tian family's head!"

Tian Xiangyang smiled, "you still don't understand Lin Yi. He's not as boring as you think. His mind isn't on this."

First elder, remember one thing. You're not the only one who's exhausted for the Tian family. "

If he didn't see Lin Yi's true nature, he wouldn't be so stupid as to raise a Tiger with his methods.

During this period, Lin Yi group's growth was indeed crazy, but it was too much to say that it would threaten the Tian family's position.

It wasn't that Lin Yi's group wasn't strong enough to do that, but that Lin Yi himself didn't even think about it.

Tian Xiangyang was still very confident in his judgment of people.

Tian Yunkai didn't think much of it,"it's hard to read people's minds. Who can guarantee that Lin Yi won't have that idea? placing the safety of the entire family in someone else's hands? master, don't you think that's too childish?"

"Normally, this is indeed a little childish."

Tian Xiangyang stretched his body lazily,""But in this situation, it's not childish at all. If Lin Yi can get a few more top-tier fighters, I'd be more than happy to see that. I was just worried that I didn't have anyone to use."

One more top-notch combat force would mean one more confidence in the future, even if it was just a second-rate top-notch combat force.

Moreover, these people Lin Yi was talking about were on a completely different level from Zhao Rikun and the others. The latter was forced to change their fate, and they weren't even as strong as Yan Zhongyuan and the others, let alone the same level of peak stage Masters.

On the other hand, Lin Yi's group, other than not having rule bending powers, was no different from other Masters of the same level.

At the end of the day, it was still their own accumulation, but the last step was Lin Yi's soul-it did affect them, but not that much.

As for whether these people would really join Lin Yi's side, Tian Xiangyang wasn't worried at all.

As long as the Tian family didn't do them any wrong, they might owe Lin Yi a favor or work for him, but they would never go against the Tian family.

On the contrary, if the Tian family had any orders, they would not shirk and would still do their best.

They were still members of the Tian family, but they had changed their jobs. Moreover, this job was still within the Academy and was still under Tian Xiangyang's control.

If he had to worry about such a small matter, then he, Tian Xiangyang, had too many things to worry about all day long. He would definitely die on his desk at any moment.

Tian Yunkai could not help but shake his head in disappointment. Without the support of the clan head, Tian Xiangyang, he would not be able to suppress the group of people who were adding experts to their group!

Especially when Tian Xiangyang's attitude was spread out, it would give them great support. By then, even if they were hesitating, they would all come to Lin Yi's side.

Who wouldn't want to take a gamble with a 50% chance of advancement?

The general trend had already been set, and it was impossible for him, Tian Yunkai, to change it by himself.

After a moment of silence, Tian Yunkai changed the topic, ""No matter what, we can't put all our hopes in someone else's hands. Since the head doesn't want to suppress Lin Yi, I won't ask for trouble.

But there's one thing I hope you can agree to, the students who were kicked out because of Lin Yi's personal grudges have nowhere to go now, and we have to make arrangements for them. Otherwise, if someone tries to take advantage of the situation, the consequences will be unimaginable. "

Chapter 9875 Power

"That is indeed a problem."

Tian Xiangyang looked at him and laughed, "then I wonder what wise opinion first elder has?"

Tian Yunkai said seriously, "if we take it directly in the name of the family's guest elder, they might not be happy. It'll be a huge burden for our Tian family."

I've an idea-we can open a training camp for the Tian family as well and take all of them in. This way, we can give Lin Yi a warning, letting him know that the training camp isn't a personal tool for him to do whatever he wants. If he doesn't do a good job, everyone will have a second option!"

Tian Xiangyang couldn't help but smile.

She couldn't leave Lin Yi no matter what-this elder of hers was really going against Lin Yi now.

"Isn't this a little petty?"

Tian Xiangyang shook his head nonchalantly, ""Copying others 'wisdom is not the style of our Tian family."

"....."

Tian Yunkai choked on the spot-he wouldn't have done something like this in the past, but Lin Yi had forced him into a corner.

No matter what, as long as he could open the second training camp, the Tian family would have one more trump card.

For the sake of his clan's grand plan, he, Tian Yunkai, was willing to give up everything. What was this little bit of face worth?

Tian Yunkai was about to argue further when he heard Tian Xiangyang say, ""If we're doing this, then we might as well make it bigger. Only accepting a bunch of eliminated students thrown out by Lin Yi is a joke-we might as well just have a big recruitment for the entire Jianghai city!"

"Great recruitment?"

Tian Yunkai stared blankly for a moment before reacting, ""The entire Jianghai city?"

Although Jianghai Academy was also in Jianghai city, it had always given off the feeling that it was isolated from the rest of the city.

There was an invisible barrier between the Academy and Jianghai city, and neither side would cross it easily.

As a result, no matter how big or small the matter was, including Lin Yi's training camp, the scope of recruitment was limited to within the school.

However, looking at Tian Xiangyang's stance this time, it was clear that he was going to break this unshakable tacit understanding that had lasted for a thousand years.

After thinking this through, Tian Yunkai's eyes immediately lit up. "That's a good idea. As long as we offer a high enough price, all the experts in Jianghai city will take action immediately. At that time, the scale of our training camp will be beyond everyone's imagination!"

Tian Xiangyang chuckled. "The city Lord's mansion has already abandoned their image in the face of disaster. Naturally, Jianghai Academy can't be too polite. Being too polite will only put us at a disadvantage."

From the very beginning, he had the idea of sucking all of Jianghai city's blood. However, the conditions were not good enough, so he had to suppress it for now.

After all the hype at Lin Yi's training camp, the outside world's top-tier fighters were already waiting for them.

This was especially so when the results of this bet were announced. Other things aside, at the very least, those big shots at the peak of the late stage of the consummate level would definitely not be able to sit still!

"But if that's the case, we'll inevitably have a direct conflict with the city Lord's mansion?" Tian yuankai frowned.

"So what if it's a conflict? when has Jianghai Academy ever been afraid of such things?"

Tian Xiangyang was unconcerned.

In the beginning, he had the idea of joining forces with the city Lord's mansion, but now that li songzhang's sinister intentions were clear, it would be good enough if they didn't fight each other directly. How could there be any room for cooperation?

Tian Yunkai did not pay much attention to this. As a typical conservative faction, he was also a Natural Hawk. In terms of his tough and radical attitude towards the outside world, he was far above Tian Xiangyang.

To the Tian family, Lin Yi was already considered as half of their own, yet they were still so afraid of him and even tried to suppress him, let alone those forces outside who had ulterior motives!

"then what should we do?" skycloud turned around and asked.

he wasn't like lin yi, who could level up with his soul. if he didn't have enough attraction, he might not be able to get a strong opponent, and he might even be helping lin yi instead.

tian xiangyang knocked on the table with an indifferent expression, ""ten spots for the secret realms."

tian yunkai was stunned.

what was a big move? this was truly a big move!

the secret realms were opened once every 20 years, and the maximum number of people allowed was 15 each time.

In other words, Tian Xiangyang had thrown out all the slots that should have been digested by the clan. This time, many of the clan's disciples would probably be disappointed.

One must know that the secret realms are the top resources in the fierce competition even within the Tian family.

"Alright, I'll take care of the family."

At this moment, Tian Yunkai displayed the courage of a great elder. If you don't give up the child, you won't be able to catch the wolf. If you want to catch the real big fish, this bit of bait was necessary.

Tian Xiangyang added,"in addition to the ten slots for the trial, there are two slots for team leaders."

"This ... Isn't this a little too much?"

This time, Tian Yunkai was completely stunned.

The biggest difference between the secret realms and the other top secret realms was that they had a special leader position. The value of this position was even higher than ordinary trial slots. As long as one could complete the mission as the leader, the reward would be five times that of the other trial participants.

There were even rumors that it was easier for the leader to obtain the inheritance of the gods.

Although the absolute probability was still not high, it was at least a hundred times higher than that of ordinary cultivators!

For a long time, although the Tian family would give a part of the trial quota to other forces for the sake of Resource Exchange, the leader quota has always been a forbidden area of the Tian family.

The reason was easy to understand. If the other forces in Jianghai city were to obtain the inheritance of the gods, the Tian family's Supreme status would be lost.

And once he lost the absolute advantage in strength, he wouldn't be able to suppress the coveting hearts of all the ambitious people. At that time, not only would the secret realm not be the foundation of his Tian family's strength, but it would also be the root of his family's destruction.

"The recruitment this time is not only targeted at the powerhouses below the peak of the advanced stage of the consummate level. It is also targeted at the top powerhouses in Jianghai city. As long as they are willing to come, they will have a chance to compete for the leader's position!" Tian Xiangyang said calmly.

"So that's how it is. Clan head, you're interested in those top-notch combat forces!"

Only then did Tian Yunkai come to a realization.

Even for those peak combat powers, the leadership positions of the secret realms were fatally attractive. One had to admit that Tian Xiangyang was indeed a natural-born Lord. His boldness and vision were beyond imagination.

If it were anyone else in his position, they would at most think about this kind of grand gesture and would not have the courage to put it into practice.

After all, the risk was too high and he couldn't control it.

However, in Tian Xiangyang's eyes, these were already plans that had been set in stone for a long time. They had already taken shape when he took over the Tian family. Now, the time was just ripe, and it was finally time to announce it to the world.

Chapter 9876 Power

"In addition, all the rewards this time are targeted at the two training camps. First elder, how far you can represent the Tian family will depend on you."

Tian Xiangyang indifferently added one last sentence.

Tian Yunkai subconsciously wanted to refute, but under his overbearing aura, he did not dare to say a word.

From that moment on, he had realized that they were not on the same level at all. He, the head elder of the Tian family who had a high position in the eyes of others, was just an ordinary person in the eyes of the other party.

Before this, he had been unconvinced and wanted to fight with Tian Xiangyang. But in fact, he had never really entered Tian Xiangyang's line of sight.

In the past, all of it was just his own shoddy one-man show. Scenes of his dark history surfaced in his mind, making him feel terrible.

As soon as the news of the Tian family's training camp was announced, the entire Jianghai city was in an uproar.

Especially those top powers who had been silent for many years, after hearing that there were two spots for team leaders in the secret lands, they all reappeared.

There were experts in Jianghai city.

Even though they did not have as many students as Jianghai city, they still had a considerable number of top-tier combat powers.

However, many of them chose to seclude themselves and cultivate in seclusion, so there were very few top-tier combat forces on the surface. Other than the city Lord's mansion, only a few super clans like the talisman Wang clan had one or two top-tier combat forces.

As for the other second-rate families and forces, there was not even a shadow of a top-notch combat power.

However, this time, after being incited by Tian Xiangyang's generosity, nearly 20 terrifying top-notch combat forces had emerged all over Jianghai city!

"Bastard! That bastard Tian Xiangyang! You've ruined my plans!"

When li songzhang heard the news, he was so angry that he smashed the entire office on the spot. The entire city Lord's mansion was silent.

One could not blame him for having a mental breakdown. During this period of time, he had done almost nothing else but specifically set up a plan to deal with these top-tier combat forces hidden in various places. He wanted to capture them all in one fell swoop and bring them all under the command of the city Lord's mansion.

In the end, just as he was about to succeed, he was suddenly intercepted by Tian Xiangyang!

The number of top-notch combat forces under his command was directly related to his right to speak in the great changes in the future. Tian Xiangyang's move was like taking drastic measures to his grand plan that he had meticulously planned.

If it could be tolerated, then who couldn't?

Li Muiyang chimed in from the side, "the leadership position of the secret realms is a good thing. Tian Xiangyang is indeed a man of great achievements. He's really willing to spend so much. Isn't he afraid of losing everything?"

Everyone knew that no one could really limit the freedom of the top combat power.

Even if the Tian family used the quota to attract all the top forces of Jianghai city, it would be unimaginably difficult to keep them.

It was common for fish to not take the bait after the bait was swallowed.

Li songzhang calmed down instantly and revealed an evil sneer, ""Mu 'er, you've reminded me. Since Tian Xiangyang dares to bet, let's have a good bet with him. We'll bet that he'll lose everything!"

"Old master, what do you mean?" Li Muiyang was stunned.

Li songzhang raised his eyebrows."The one from our Li family has slept long enough. It's time to let him out for some fresh air."

"That person?"

Li Muiyang's eyelids twitched, and he was overjoyed.""Could it be that you're already able to control him, father?"

Li songzhang laughed with confidence,""You can say that. Since we're going up against Jianghai Academy, we'll have to at least have some decent capital in our hands."

Looking at the city Lord's mansion, there were only three Deputy city Lords besides him and mu Shen. The number of Deputy city Lords could be counted on one hand.

Even though they were invincible when compared to the other factions in Jianghai city, they paled in comparison to Jianghai Academy, which had twenty to thirty top-tier fighters.

That was why he was so concerned about the hidden top-notch combat forces in Jianghai city. Now that Tian Xiangyang had intercepted him, he was so flustered and exasperated.

However, now that they had that person, the governor's office was no longer inferior to the Jianghai Academy in terms of top-notch combat power.

As soon as the Tian family's training camp was announced, not only Jianghai city was in an uproar, but the Academy's internal department was also cheering.

Even if the Tian family's training camp was targeted at the entire Jianghai city and clearly had the intention of absorbing the top combat forces and high-end combat forces from the outside, in the end, the ones who would benefit the most would definitely be the internal members of the Academy.

Naturally, people compared it to Lin Yi's training camp.

In terms of reputation and gimmicks, the Tian family's training camp was naturally bigger, especially in terms of attraction for top-tier combat power. The two were on completely different levels.

If Lin Yi didn't have his own face supporting him, he probably wouldn't even be able to support the instructors. After all, leading the training camp really didn't bring much benefit to these top-class fighters.

Fortunately, the news of him helping a peak late stage of perfection master to level up had spread after his bet with Tian Yunkai. At least in terms of high-end combat strength, Lin Yi had a stable Foundation.

Of course, this was also because Tian Xiangyang had personally said that the secret lands trial slots were open to both training camps.

Otherwise, he wouldn't even be able to keep his current students, let alone new ones.

After all, the secret realms trial was just too tempting.

Humans were realistic animals, and after the previous incident, the remaining students were more United now. However, in terms of loyalty, they couldn't compare to Lin Yi's direct followers.

Anyone else would've been a little worried, but Lin Yi didn't mind at all.

His original intention in setting up the training camp was not to expand his own power.

It was just to improve the scale and standard of the Academy's high-end combat power, so that when the great calamity came in the future, they would have more confidence.

Of course, if there were people that he liked and were willing to join him, he would not refuse.

He just didn't force it.

Lin Yi wasn't even in the training camp at the moment, let alone being in a terrible situation like the outside world had imagined. Banshi Luo had called him to the Academy's prison.

"Your primordial Spirit's ability to substitute for others is not bad. You can develop it in the future. These are some plans I designed according to your situation. You can use them as a reference."

Banshi Luo handed over a piece of paper.

Lin Yi's eyes lit up after a quick glance.

The analysis of his abilities was so comprehensive and profound that even he himself could not compare to it.

As for the development plan of the primordial spirit substitute fighting ability, it was even more eye-opening to him. It was simply opening the door to a new world!

It had to be said that master Luo's title of being the world's teacher was not exaggerated at all.

Chapter 9877

When it came to guiding people in their cultivation, he was the best of all the people Lin Yi had ever met. No one could compare to him.

His biggest gain in this trip, other than meeting Chu Mengyao and Tang Yun, was getting to know Banshi Luo.

This person's influence on his future was probably no less than that of the ghost.

"Awesome! I didn't know that you could play with it like this. Thank you, teacher Luo. "

Lin Yi accepted it without hesitation. With his relationship with Banshi Luo, there was no need to be polite.

Banshi Luo smiled."These are just some immature ideas of mine. As for how to further develop them, you'll have to think about it yourself. You'll only be able to go further and walk more steadily in the future if you think through every step."

"....."

Lin Yi suspected that they were in Versailles.

If this was considered an immature idea, then his previous ideas could simply be thrown into the sewers.

Lin Yi was speechless for a while before asking,"Is there anything else you want me to do?"

"The Tian family is opening the secret realms this time. You'd better fight for the leader position."

Luo Banshi said seriously.

"Is that important?" Lin Yi raised a brow.

Of course, he had his own ideas about the secret realms. After all, with his current situation, if he didn't rely on such a top-tier opportunity, it would be a fool's dream to level up by himself.

If he were to rely on himself to cultivate behind closed doors, even if he were to cultivate for his entire life, he would probably still be stuck at the late-stage of the consummate level of a Big Shot, unable to make any progress.

Banshi Luo nodded. "At the level of a behemoth's great circle of perfection, there is a limit to our control of rule power. 20% is the limit. No matter how talented you are, you can't cross this threshold unless you can reach that legendary realm."

The legendary realm did not even exist in Jianghai.

To be precise, the concentration of spiritual energy in Jianghai could not support an existence of that level.

The ultimate completion of a Big Shot was already the highest realm here. Otherwise, it would not be called a top-notch battle prowess.

Lin Yi frowned—twenty percent was twenty percent control.

Whether it was space or time, his control over the laws was only slightly over five percent. As for the wind-type laws he had obtained from the wind god Mystic realm, he had less than one percent.

At first glance, it seemed like he was still far from it.

However, this ceiling that could be seen with the naked eye was not a good thing, especially for an animal like him who regarded skipping levels as his daily routine. Once he was locked at the upper limit of the ceiling, the pain in his bones would definitely drive him crazy.

"The only way to break this limit is to obtain the inheritance of the gods," Banshi Luo continued.

"Why?" Lin Yi asked, confused.

"In the unseen world, the heavenly Dao will not allow an individual that is too powerful to exist. Twenty percent control over the laws is already the limit that the heavenly Dao can bear. Otherwise, the entire system of laws will be in chaos, and the heavenly Dao may collapse."

Lin Yi nodded.

This was like an ecosystem in the natural world. The level of the predator at the top of the food chain was limited by the resources and energy provided by the ecosystem itself.

Once the limit was exceeded, the ecosystem could not support it. Not only would the predator at the top die, but the entire ecosystem would collapse.

"Then why are there still gods?" Lin Yi asked.

"The gods are a part of the heavenly Dao," Luo Banshi explained. "Although they control all the rules in name, the upper limit of their control over the rules is 100%.

However, they were restricted by the heavenly Dao and could only use the rule power in the way permitted by the heavenly Dao. They could not subvert the existing rule operation mode.

That's why the heavenly Dao allows them to exist. "

Lin Yi nodded, deep in thought. "So, they're trained and won't mess around. That's why they're protected by the law. Is that what you mean?"

Banshi Luo could not help but laugh. "That's basically what I mean. If you obtain the inheritance of the gods, it's equivalent to obtaining the recognition of the heavenly Dao. Although you will be restricted by the same rules as the gods, you will at least be able to break through 20% of your control limit!"

"I'll give you benefits if you accept the offer. It's fair and reasonable. "Lin Yi smiled.

But then again, he wasn't a madman who wanted to turn the world upside down.

Even without this restriction, he would not have used his rule power to mess around.

If it was divided by factions, it should at least be an order neutral party, and would not fall into the chaotic Evil side.

Banshi Luo nodded. "That's why if you have the chance to obtain the inheritance of the gods, you should try it as soon as possible. If you miss this opportunity, the next time might be ten or twenty years later."

"Understood."

But Lin Yi wasn't confident at all, "This thing mainly depends on luck. Even if I get the leader spot, I can't do anything if those gods don't like me."

Although the leader's quota was a hundred times higher than the ordinary trial quota, it was still less than one percent, which was still a small probability.

"It does depend on luck, but it's not entirely based on luck."

"I'll open up my sea of consciousness now," Banshi said, "you can use your spirit to connect to it. It should help. "

With that, he really did let go of his sea of consciousness, completely defenseless against Lin Yi.

One must know that even at Banshi Luo's level, the sea of consciousness was still his most vulnerable vital point.

If Lin Yi had any ill intentions towards him, he'd be dead on the spot with a essence spirit explosion or God-exterminating slash in his current state.

Lin Yi smiled and connected with his spirit.

This was actually a disguised soul-searching technique, but it didn't have as many side effects. At the same time, it also gave the person who was received enough autonomy.

Under Banshi Luo's guidance, a huge amount of information about the gods entered Lin Yi's sea of consciousness.

Their lives, their experiences, their likes and dislikes, and their abilities were all complete.

"Can these increase the chances of obtaining the inheritance of the gods?"

Lin Yi couldn't help but wonder-this even involved some of the gods "secrets. He really didn't know that Banshi Luo had such a gossipy side.

"You don't have to think too deeply about the inheritance of the gods. You can think of it as an interview."

Banshi Luo smiled."Since it's an interview, you just need to know the interviewer's personality and preferences. That will naturally increase the success rate."

In the end, those gods were not born gods. Although they are ancient and powerful, they also have a human side. As long as we control their pulse, it is not so difficult to deal with them. "

Chapter 9878 Power

"Is that your experience?" Lin Yi blinked.

Banshi Luo smiled.

"I see," Lin Yi nodded.

Without a doubt, this person must have obtained the inheritance of the gods. If he wasn't wrong, Tian Xiangyang should be the same as well. Otherwise, they wouldn't have become a super top-notch combat force that was above all the top-notch combat forces.

It was foreseeable that if one wanted to cross the threshold of Super Combat power, the inheritance of gods was a necessary path.

After leaving Banshi Luo's place, Lin Yi turned around and was dragged by Dongfang Yan for a drink.

Lin Yi was curious about this legendary pretty Warden at first, but after a few encounters with her, the legendary aura he'd built up was shattered.

To this day, Dongfang Yan had always been in the top three of Jianghai's list of beauties because of her beauty and strength. She was the dream girl of countless male cultivators.

However, if they were to see the lady's conduct at the table, half of them would probably lose their fans.

Lin Yi couldn't help but sigh as he watched Dongfang Yan knock the table with a spoon. Distance really makes beauty.

But no matter what, this girl was a good drinking friend. Only tyrant could compete with her forthright spirit.

She was a good person, but he had to tell Tang Yun and the others to stay away from her in the future, in case they were led astray.

Back at the secret land of clomaros.

Lin Yi immediately gave the students and core combat forces a special training session.

After all, this was a rare opportunity. Other than him, who had to compete for the leader's position, the others also had to compete for the ten trial slots. Once they won, they could look out for each other.

What was worth mentioning was that there were a few more peak late phase Masters from the Tian family in the training camp. Naturally, they came to Lin Yi for leveling up.

Compared to the secret realms, it was more important for them to advance to the pinnacle level of cultivation.

Lin Yi didn't reject anyone, unless the situation really didn't suit him.

First, he wanted to accumulate experience. These were all ready-made volunteer white mice, laying the foundation for his subordinates to level up better in the future.

Secondly, he had made an agreement with this group of people that once they advanced successfully, they would stay and work for the training camp. This matter was personally witnessed by Tian Xiangyang, so he was not afraid that they would go back on their word.

The final result was remarkable.

Five of the Tian family's experts successfully broke through. One should know that only eight of them came. This success rate was higher than what they expected!

Once the news got out, Lin Yi immediately became a god-like existence in the eyes of all the big shots at the peak of late stage of perfection. If anyone dared to disrespect Lin Yi, they would be the first to disagree.

Just like that, Lin Yi's personal fame even overshadowed the newly opened training camp, making the proud elder cough up blood.

But the good thing was that the secret realms 'spots still showed its great attraction.

It hadn't even been three days since the Tian family's training camp opened, and other than the sixty or so elites that Lin Yi had eliminated, there were nearly three digits worth of elites who'd joined.

More importantly, there were nearly 30 top-notch combat forces, half of which were from the Academy.

Such a Grand lineup was of a much higher standard than Lin Yi's training camp. It was an unprecedented event in the history of Jianghai Academy.

However, these people were all here for the secret realms, and only they themselves knew how much they wanted to submit to the Tian family's training camp.

Of course, the Tian family wouldn't take out such an important resource like the quota of the secret lands for charity. In order to avoid being taken advantage of, they also had a series of corresponding means.

One of the rules was that once anyone obtained a place in the secret realms, whether it was a leader spot or a trial spot, they must stay in the Tian family's training camp.

In theory, this kind of contract made at the primordial spirit level had a very strong binding force. Even if an ordinary master wanted to break the contract, he did not have the ability.

Moreover, the Tian family's insurance method wasn't only this.

With the completion of the preliminary preparations, the secret realms were about to open, and the highly anticipated contest for the entry slots finally began.

As the spokesperson of the Tian family's training camp, Tian yuankai announced the entire rule to the public.

"This time, the contest will be held in a secret realm specially customized by the Tian family. There will be ten altars and one main altar.

Each altar represented a trial quota. Those who arrived first could take the gods' test first, and those who passed the test would be given a quota.

As for the two leader slots, they would be bound to the main altar and would also have to undergo the test of gods.

When all the spots are settled, the battle will be declared over. Does anyone have any questions?"

Someone immediately raised their hand and asked, "what's the content of the gods' test?" Can you guarantee fairness and justice?"

It was obvious that this was the question that everyone was most concerned about.

Tian Yunkai swept his gaze over everyone and said, "every altar is projected with the will of the gods. As for what they will test, there has never been a unified standard. It all depends on whether they like you or not."

If it was pleasing to the eye, he could pass. If it wasn't, he couldn't pass. There was no reason to talk about it.

If you can't pass it, it only means that you are not the trial-takers that the gods want. You can't force things, and even if you force your way into the secret realms, you won't get any benefits. Instead, you will encounter all kinds of unpredictable dangers.

As for fairness and justice, that's the matter of the gods. My Tian family, as a neutral third party, can't interfere and won't interfere. "

It was naturally difficult to say that such an answer satisfied everyone, but since they came to participate in this competition, they obviously had long been mentally prepared for this. All the right to explain was left to the Tian family.

No matter what the Tian family says, they can only believe and accept it unconditionally.

Soon, someone else asked, "how do we find the altar?" Do you have any relevant distribution maps?"

Tian Yunkai replied indifferently, "there's no map, so you'll have to rely on yourself. I forgot to mention just now that there are actually more than a hundred altars inside. As for which ten altars the will of the gods will be projected on, only they themselves know. You can think of it as random.

"Thus, this contest for the slots will not only depend on your strength, but also your luck.

I wish you all the best. "

After a moment's pause and seeing that no one else was going to ask, sky cloud Kai immediately announced, ""Since there are no problems, let's start the teleportation. The secret realm was created by the Tian family, and the space is not very stable, so we can't teleport so many people at the same time.

In order of cultivation level, from the highest to the lowest, the experts at the peak of the late stage of the consummate level are ranked first, then the experts at the peak of the late stage of the consummate level. Finally, the experts at the late stage of the consummate level are ranked. "

Tian Yunkai gave Lin Yi a meaningful look as he finished, a mocking smile on his face.

Chapter 9879 Power

It was obvious that he was targeting Lin Yi.

In this contest for the spots, although the final success still depended on whether one could pass the gods' test, the person who could be one step ahead would still have a huge advantage.

After all, once the people in front succeeded, the people behind would not even have the chance to try.

The normal trial was slightly better, with at least 10 spots. With luck, even if they set off last, they might not have a chance at all.

However, there was only one main altar for the leader's position. With so many top-tier combat forces fighting for two, the difficulty of the competition was far greater than that of the ordinary trial.

Especially when the top-tier fighters weren't easy to deal with-one step behind, one step behind ... If the teleportation process took longer, Lin Yi would be the last one to leave, and he'd be at a huge disadvantage!

However, no one could say that there was a problem with Tian Yunkai's arrangement. Even Tian Xiangyang wouldn't say anything about this.

If Tian Yunkai forcefully blocked Lin Yi's path, it would naturally cross Tian Xiangyang's bottom line, but if it was just like this, making things difficult within the rules, Tian Xiangyang wouldn't even look at it.

At the end of the day, he was the leader of the entire school, not Lin Yi's personal nanny.

if lin yi couldn't even solve this problem, then it meant that he had no fate with the secret realms. there was nothing to complain about.

"alright, let's begin."

tian yunkai immediately activated the teleportation, and the first batch of nearly 40 experts with the complete realm of the magnates entered at the same time. besides the 30 people recruited by the tian family's training camp, tyrant and the others were also among them.

a leader's position was a fatal temptation for any top combat power, and they were no exception.

although they were lin yi's allies, they were competitors in this matter. this was related to their futures, and there was no room for them to go easy on each other.

besides, there were so many competitors, it was pointless for them to go easy on lin yi. they didn't even know if lin yi would be the one to take the hit.

immediately after, the second group of nearly thirty magnates, who were at the peak of the late stage of the consummate level, arrived.

due to the special nature of their cultivation level, this batch of people was even fewer than the first batch. however, without a doubt, they were definitely the most powerful competitors for the ten trial slots this time.

They had the advantage of absolute strength and the advantage of being the first to move. Especially in terms of realm, it was obviously easier for them to win the favor of the gods than the big shots at the late stage of the consummate level.

With all these advantages stacked together, there was only one thing that could be counted on for the people behind to overtake them.

Luck.

As for the last batch of people, Lin Yi was standing in the middle of a large group of late stage consummate level tycoons.

No one was hostile to him-they all knew that Lin Yi was here for the leader position, and he wasn't a competitor.

Otherwise, there was no need to even think about it. The ten trial slots would directly become nine, and their hopes would be even slimmer.

One thing worth mentioning was that other than Lin Yi, Yan Zhongyuan, Wei baizhan, Qiu sanniang, and the other core members of Lin Yi's group were also in the group.

Even Bao shaoyou, who was only at the peak of the middle stage of the consummate level, was among them.

It was a rare opportunity, but it was still dangerous. Lin Yi didn't recommend the core forces below the late stage of complete realm to get involved-they could lose their lives if they made a mistake.

However, Bao shaoyou was the only exception.

He was also the only peak of the middle stage of perfection here, and if it weren't for the Lin Yi element's Halo and Lin Yi's presence, he would've been laughed at by the crowd.

An idiot who overestimated his own ability was destined to be ridiculed no matter where he went, especially when he was blind.

However, Bao shaoyou himself didn't care about this at all. He knew his own strength better than anyone else.

He had a strong premonition that this secret realm was very important to him. Even if he knew it was risky, he had to come, or he would regret it for the rest of his life!

However, from the beginning, he realized that he had been shrouded in a strong killing intent.

The killing intent was not among the people in front of him. Judging from the timing of its appearance, it should be among the first group of people.

Thinking of this, even Bao shaoyou couldn't help but feel a chill in his heart. Those people were all top-notch combat power!

He was an expert at the peak of the middle stage of the consummate level of a Big Shot. On the surface, he was the weakest on the scene. However, if he were to really fight, most likely even many experts at the late stage of the consummate level of a Big Shot wouldn't be able to do anything to him.

The name of a peerless genius was not just for show.

What he lacked now was only an opportunity to soar into the sky.

However, he was being targeted by a top combat power of unknown origin, especially in such an occasion where no one could care about each other. If he said that he was not under a lot of pressure, he would definitely be deceiving himself.

"Is there a problem?"

Lin Yi said through His Spirit sense.

All this while, he had not had much interaction with Bao shaoyou and rarely had a private conversation with him. Although Bao shaoyou was not as boring as Yan Zhongyuan, he was not someone who would make a big show of his presence.

In the eyes of others, Bao shaoyou should be the most marginalized one among the core forces of Lin Yi group, especially when Wei baizhan, who had a history with him, was at the peak of his career.

It was an awkward position.

However, what they didn't know was that Lin Yi valued Bao shaoyou so much that he could be ranked in the top five in the entire Lin Yi group, no less than Wei baizhan.

As Banshi Luo said, this person could become a pillar of Lin Yi group if he showed his strength.

The upper limit of this person was immeasurable.

"It's nothing," Bao shaoyou replied with a smile. "I'm just a little nervous."

"Don't force yourself too much. You won't lack opportunities under my command. If you can't do it this time, there will be a next time. If you can't do it next time, there will be a next time. There's no need to

risk your life. If you see that the situation is not good, come out quickly. Staying alive is more important than anything else."

Lin Yi said seriously.

Bao shaoyou nodded."Boss, don't worry. I know what to do."

"You've got to know what you're doing,"Lin Yi looked at him deeply.

The teleportation was activated. Under Tian Yunkai's deliberate suppression, the teleportation process seemed particularly long.

In this way, it further increased the first-mover advantage of the previous two groups. This kind of direct suppression on the table really made many of the big shots at the late stage of the consummate level feel stifled.

However, it was clear that they wanted to take care of those who were in a higher realm, which was completely in line with the rules of the cultivation world where the strong preyed on the weak. They had a Grand reason that could not be found no matter where they went.

Therefore, no matter how dissatisfied he was, he could only hold it in.

When the teleportation was finally completed, the hundred or so big shots at the late stage of complete realm immediately dispersed. Lin Yi, Yan Zhongyuan, and the others looked at each other and split up.

Chapter 9880 The Power Of The Divine Realm

Of course, if they wanted to play it safe, it was best for them to form a team.

With Lin Yi's group's strength, unless all the competitors gathered together and went all out against them, they were basically safe as long as they stayed together.

However, even though it was safe, the opportunity had also been lost.

Time was the biggest cost in this entry battle. Whoever could find the altar faster would have a higher chance of getting a spot first, and grouping up was obviously the most time-consuming strategy.

Everyone did not come here for an outing, but to fight for opportunities.

Lin Yi had told them not to force themselves, but whoever came in here had to be prepared to give up their lives. Bao shaoyou was like this, and so were the others.

What's more, once they formed a group, there would inevitably be internal strife. Although they would not turn against each other because of this, it was not a good thing after all. It might hurt their harmony.

He spread out his spirit sense to sense the area and shared the map with Yan Zhongyuan and the others, pointing out a few possible altars.

Only he could do this kind of thing. In the secret realm, the detection range of the divine sense was greatly compressed. If it were others, they would at most have a better vision than him. Wanting to scan a large area like him was simply a fool's dream.

"Let's go,"

With the advantage of this map, everyone's spirits were immediately lifted. Compared to those who had set out before, they might not have much of an advantage, but at the very least, they could turn around a lot of disadvantages and travel a lot less in vain.

Lin Yi wasn't too worried when he saw Yan Zhongyuan and the others split up.

He wasn't an old hen, so he would naturally take care of his subordinates when it was time to take care of them. When it was time to let go, he would naturally not stop them.

In comparison, he was on the nightmare difficulty.

There were nearly forty top-tier combat forces fighting for the two leader positions, especially on the same main altar. One could imagine the intensity of the competition.

Most importantly, the others were the first batch to set off, and there was a time interval of two incense sticks between them. Those who had a smooth journey ahead might have already reached the main altar. Lin Yi was at a huge disadvantage-if it were someone else, they would've been dead already.

Luckily, Lin Yi had mastered the space rules.

Those with the ability of space rules were unparalleled in speed. It was just that he did not know the space coordinates of the main altar, or it would have been a matter of a few blinks.

Even if he didn't know the coordinates at the moment, with the unique range of his divine sense, his efficiency in scanning the map was enough to leave any top-notch combat power in the dust.

In fact, after a short while, Lin Yi had locked onto the position of the main altar. His body kept jumping in the air, and every time he appeared, he was ten miles away.

At this moment, he had already left half of the top combat forces behind.

Looking at the projection of the entire situation, Tian Yunkai couldn't help but feel a pain in his face. Although he was just going with the flow this time, he still felt like he was slapped in the face, burning in pain.

At this rate, it was only a matter of time before Lin Yi surpassed the other half of the top-tier forces.

Up to this day, even Tian Yunkai had to admit that this guy was a F * cking freak. If one wanted to go against him, one had to be prepared to be madly slapped in the face by him.

He had already gotten used to it after the previous few encounters.

This was truly a terrifying habit.

"Even if you can beat everyone else to it, it's hard to say for your underlings. Tsk, tsk."

In Tian Yunkai's vision, the people that were Lin Yi's followers were all marked out, and each of them had no less than ten people chasing after them. It was obvious that they didn't come with good intentions.

When Tian Xiangyang and Luo Banshi saw this, they could not help but shake their heads.

Lin Yi group's core forces were clearly being targeted.

Seeing Tian Xiangyang's gaze turn towards him, Tian Yunkai hurriedly tried to clear his name, ""Master, I didn't arrange this. I don't like Lin Yi, but I don't have to do this."

"....."

Tian Xiangyang was speechless for a while.

The performance of their great elder in the past showed that they were not very ambitious. Moreover, when a super family reached a critical time, they would always do things by any means.

However, Tian Xiangyang believed Tian Yunkai's words. This time, it was indeed not him who was deliberately playing tricks.

As a neutral party, any action against a specific party or person is a taboo and will greatly damage the credibility of the Tian family. It's rare to make such a big scene. If it turns out to be a bad thing, then it would be too stupid.

Tian Yunkai wasn't so stupid that he couldn't even tell the severity of this matter.

Banshi Luo frowned, "Lin Yi and the others are being targeted because someone did a divination, and it showed that they'll get the majority of the secret realms this time."

This divination is quite interesting. "

Divination itself wasn't a very reliable thing to do. Even diviner at the level of a magnate's great circle of perfection were mostly swindlers.

However, this divination was extraordinary. The entire deduction process was directly displayed in the sea of consciousness of all the competitors. Every detail was reasonable and well-founded, making it seem particularly credible.

The most important thing was that the result itself had a high degree of credibility, considering what Lin Yi and the others had done in the past.

Even if they believed that it was better to believe it than not, they would still work together to target Lin Yi's group.

The other option was to make the first move and kill the group of destined winners in advance.

Or, he'd be like the Mantis stalking the cicada, hanging behind the core forces of Lin Yi group and wait for them to find the altar before launching a surprise attack and snatching the fruits of victory.

Judging from the trend of the crowd displayed in the projection of the arcane realm, there were people who chose both options.

But no matter which one it was, Yan Zhongyuan and his men were in a dangerous situation. If they had worked together, it might not have been so dangerous.

But now, everyone was acting alone, which meant that each of them would have to face a double-digit number of high-end combat power alone!

This kind of dangerous situation, other than monsters like Lin Yi who had long become a top-tier fighter, to any practitioner under the ultimate completion of a giant, it was a hopeless situation.

If they didn't handle it well, they would probably be wiped out!

"Can you find the source?" Tian Xiangyang asked in a deep voice.

"What?" Banshi Luo's expression was strange. "I've been interrupted."

"Ha?"

Tian Xiangyang turned to look at Tian Ji, "what about you?."

Tianji also shook his head. "The trajectory of karma has been covered by some extremely pure rule power. I can only see a fog. I can't see anything."
