

## Bodyguard 9881

Chapter 9881 The End

“.....”

Tian Xiangyang's expression became increasingly strange.

Banshi Luo controlled the power of time laws and could go back to the past. Tianji controlled the power of karma laws and could see the development of everything.

The two of them were the people in the entire Jianghai Academy who could not be deceived. In theory, it was almost impossible to escape their detection, unless it was like the time when Chen Xun was captured in the secret realm of Ares. The other party's level was even higher than Banshi Luo!

However, in order to prevent such a situation from happening again, Tian Xiangyang had specially made preventive measures in this regard. The entire secret realm had been checked back and forth no less than ten times in advance to ensure that there were no loopholes to exploit.

It wasn't that Tian Xiangyang had absolute confidence in this, but things had already come to this point. If he was still going to be taken advantage of by the other party, then he might as well surrender early.

Once the possibility of external interference was eliminated, the only explanation left was that the interference came from inside the secret realm.

To be more precise, the disturbance came from someone in the small secret realm!

The people around them were still confused, but those who had guessed the truth had already collectively stopped talking.

The fact that this person could deceive both Banshi Luo and Tianji meant that his rule bending power was at a very high level, far above the two!

The latter was still acceptable. Although Tianji was also a top-tier combat power, his own level was not higher than the other top-tier combat powers. It was just that his ability was more special.

However, Banshi Luo was different.

This person was truly a top-notch combat power, and that person's level was even higher than his. What kind of concept was this?

Thinking about it carefully, he was terrified.

Tian Xiangyang had a strange look on his face. "I caught a big sea whale in a small pond. Tsk, tsk. I've lived long enough to see what's going on!"

He looked relaxed on the surface, but in his heart, he was already facing a great enemy.

Although there were no signs of further loss of control, if that person really wanted to make a big move, these people in the little secret realm would have no way to resist at all.

Luckily, Lin Yi was one of them.

Lin Yi wasn't at the peak of his strength yet, but with his methods, he could at least give the outside world some time to react if something happened.

After all, this was a matter of great importance. Before they could figure out the identity and motives of that person, neither Tian Xiangyang nor Luo Banshi could easily barge into the sealed secret realm.

Otherwise, if he angered that person, the consequences would be unimaginable.

In the secret realm, Yan Zhongyuan and the other core forces of Lin Yi's group were all in trouble.

Some people were surrounded, some were already fighting, and the situation of the remaining people was not optimistic. The competitors behind them had obviously stepped up their pace to catch the net.

There were a lot of elites from Lin Yi's training camp nearby, but they wouldn't hit him when he was down for Lin Yi's sake.

However, it would be impossible for them to sacrifice themselves to save others.

At this moment, the value of their existence was more to find and occupy the altar, to draw away more competitors, and to take some of the pressure for Yan Zhongyuan and others.

As it turned out, that was enough.

One against thirteen, Yan Zhongyuan's gravitational shock directly caused a violent explosion!

No matter how the remaining people besieged him, they were unable to do anything under his unmoving mountain-like defense. On the contrary, they would be suddenly killed from time to time.

It was clearly a siege with the advantage in numbers, but the group of people became more and more desperate as they fought. In the end, they actually had a mental breakdown and fled in panic.

It was just that Yan Zhongyuan's speed wasn't that outstanding. Otherwise, if he really had the heart to bite back, all of them would have been killed!

Even so, from now on, Yan Zhongyuan's name would be a nightmare for them. If they saw Yan Zhongyuan again, they would definitely have to stay away from him.

"This kid will definitely become a great person!"

Tian Xiangyang was full of praise when he saw this scene.

Banshi Luo also nodded. Yan Zhongyuan's tough and hot-blooded style was indeed to their taste.

In addition to the powerful talent that he had displayed during this process, it was almost certain that he would be promoted to a top combat force in the future. Moreover, once he grew up, he would definitely be among the strongest group!

At the same time.

Although Shen Yifan and Qiu sanniang, who were also big shots in the late stage of the consummate level, were not as hot-blooded and domineering as Yan Zhongyuan, they were both extremely mobile.

Facing the siege of more than a dozen experts of the same level, even if he couldn't face them head-on, there was still space to move and pull.

Once they entered the rhythm of guerilla warfare, they would have the opportunity to launch a counterattack.

Although they were passive and seemed to be in a dangerous situation, both Shen Yifan and Qiu sanniang were as steady as old dogs.

This was all thanks to the high-intensity sparring sessions within Lin Yi group. The opponents in front of him were clearly not as strong as the animals in his house.

Plus, Lin Yi had even trained them before.

Although they didn't level up directly, their actual combat ability had improved substantially. At this moment, they were naturally able to deal with it with ease.

As for the Big Shot Ren Tian 'er, who was at the peak of the late stage of the consummate level, no matter where he went, he would be a pain in the ass. Unless he was targeted by a top-notch combat power who had mastered rule power, a group of experts of the same level would not be able to break through his defense no matter how many people there were.

In the beginning, there were still people who did not believe it and wanted to test his weakness.

In the end, after a round of testing, he finally realized in despair that this guy really had no weakness.

If Yan Zhongyuan, who was as unmoving as a mountain, was suffocating, then Ren Tian 'er was disgustingly disgusting.

After fighting this guy, everyone's feedback was unexpectedly consistent. They would rather face a top-tier combat power than face this guy again.

However, no matter what, when they encountered the four of them, even if the competitors who were involved in the siege did not have much of an advantage, they were still the ones who had the initiative.

Once he saw that the situation was not good, it would not be difficult to retreat in one piece.

However, those who had encountered the lone wolf Wei baizhan were not so lucky.

Facing Yan Zhongyuan and the other three, even if the strength of their prey was far beyond their imagination, their identity was still that of a Hunter. But when it came to Wei baizhan, his identity was completely reversed.

For Wei baizhan, this group of people were all great prey that had delivered themselves to his door. One must know that his Blacktide domain had long been thirsty for them!

Seeing the auras of their fellow experts disappear one after another, and they became the lone prey, this group of people were shocked and could not help but cry.

Chapter 9882 Power

What the f \* ck is this? I'm not playing anymore, alright?

Unfortunately, with Wei baizhan's character, the situation had developed to this point, and they could not avoid it by showing weakness.

Compared to searching for altars and snatching the spots for the secret lands, Wei baizhan obviously enjoyed the thrill of hunting in the jungle more.

Before he was satisfied, this group of people could only continue to play with him as prey. They had no right to stop him.

As they watched Wei baizhan ruthlessly kill their high-end combat forces one after another, Tian Xiangyang and the others outside shook their heads in unison.

"If it wasn't for Lin Yi's suppression, this guy would've become a huge threat to our school. One Yan Zhongyuan and one Wei baizhan, this year's new batch of students is full of monsters!"

tian xiangyang sighed with some regret,""there was originally a ying long, but he's missing now. otherwise, he would also be a master that can't be underestimated."

in fact, after lin yi set up the division, his first order was to find ying long, but there was still no news.

even tianji couldn't find any traces of ying long.

at the same time, the image in the secret realm focused on the last core combat force of lin yi group, bao shaoyou.

as a big shot at the peak of the middle stage of the consummate level, bao shaoyou was now facing the siege of more than a dozen big shots at the late stage of the consummate level. in everyone's expectation, even if bao shaoyou was lucky enough to survive, he would be severely injured.

however, the result surprised everyone.

in just one move, bao shaoyou had killed all of them!

in terms of stunning battle results, he could be said to be the champion of the entire arena.

"the endless great burning heavens! this kid has already touched the threshold of fire-elemental laws. what a terrifying talent!"

banshi luo sighed.

this move clearly had lin yi's shadow in it. the mechanism of endless burning heavens was built on lin yi's five elements extreme fire element great burning heavens.

bao shaoyou had relied on lin yi's primordial spirit to create this shocking endless burning heavens. it wasn't too much to say that lin yi had contributed a lot.

however, this was only limited to the level of moves.

the key to the endless great burning heavens being so terrifying was still the level of its power. it had already faintly touched the threshold of fire-type laws.

and this was all up to bao shaoyou.

although shen yifan had also touched the threshold of the wind-elemental laws, he had relied on the inheritance of the wind god secret realm. on the other hand, bao shaoyou had to rely on his own exploration.

To reach this level by just fumbling around, not to mention Shen Yifan, even Lin Yi didn't have such a precedent.

It was no wonder Banshi Luo was full of praise for his terrifying talent.

Tian Xiangyang turned around and asked, "at his level, are you as abnormal as him?"

"Far from it." Banshi Luo forced a smile.

Tian Xiangyang nodded his head with a gratified expression, ""Fortunately, I'm not the only one. I used to think that I was quite talented, but after seeing the performance of these animals, I'm glad that I wasn't born in the same era as them."

The people around looked at each other.

Back then, when the eldest son of the Tian family appeared out of nowhere, he also broke a series of records in the Academy. He was a figure that shocked the ancient and dazzled the present. From the perspective of these bystanders, even in this golden generation where monsters gathered, he was definitely a top-notch existence that could hold up the front.

If there was anyone who could suppress him, it would be Lin Yi, the unprecedented freak.

Why did his tone at the moment sound like the waves behind surpass the waves in front? even Bao shaoyou and his group might be above him in the future?

That's impossible, right? Even if he was modest, he was too much.

Everyone was confused, but only Tian Xiangyang and Luo Banshi knew that this was not an exaggeration.

It was because of this that the two of them were filled with confidence for the future of Jianghai Academy!

Even if a calamity were to befall them, as long as they could pull through the toughest period and drag the battle into a stalemate, Jianghai Academy would have a bright future when these monstrous freshmen truly matured.

Rather than saying that they were betting on Lin Yi, it would be better to say that they were betting on the Golden generation!

History would eventually prove that their decision was extremely wise!

At this time, Bao shaoyou, who was in the secret realm, had successfully gotten himself out of the situation after the Super explosion of the endless great burning heavens. However, his aura had also fallen into dispiritedness.

This was not strange.

A killing move like the endless burning heavens was not something that a Big Shot below the realm of ultimate completion should have. Moreover, his realm was only at the peak of the middle stage of the realm of completion, not even a proper high-end battle power.

In one move, no matter how solid his Foundation was, it was inevitable that he would be completely overdrawn.

Therefore, unless he could ensure that he could clear the field with one move, Bao shaoyou would not use this move easily when he was alone. Fortunately, the endless Burning Sky was controlled well and no fish escaped the net.

Otherwise, it would be his turn to die now.

Pa! Pa! Pa!

A series of applause sounded in front of him without warning, accompanied by a hoarse voice, ""Wonderful, it's really wonderful. A mere Big Shot at the peak of the middle stage of the consummate level was able to do this. It's really amazing."

Bao shaoyou was stunned.

The place where the voice came from was very close, less than ten steps in front of him.

He was blind now, but that didn't mean his heart was blind. In terms of sensing the environment, he was the best in Lin Yi's group, only below Lin Yi's insane spirit sense.

For someone to be able to get this close without him noticing could only mean one thing-this person was definitely an expert at the pinnacle of perfection!

even if he was at his peak, he would be in a terrible situation if he were to go up against a top-tier combat power one-on-one, let alone in this weak state where he was completely exhausted.

as long as the other party had killing intent, he would definitely die.

judging from the fact that the other party had quietly approached them, it was obvious that they were not here just to watch the show. after all, the top combat forces should be busy rushing to the main altar at this moment. who would have the leisure to stop and watch a group of noobs pecking at each other?

even though bao shaoyou, this noob, was quite interesting, and even tian xiangyang and banshi lu were full of praise for him.

they came with ill intentions.

bao shaoyou immediately became alert and asked tentatively, ""are you here for me?"

"of course i'm here for you," the man laughed. "why else would i come to jianghai academy? are you telling me i'm here for the two spots for the team leaders?"

it's good, but it doesn't match my style. after all, i'm the abandoned son, the kind that doesn't even want my own parents.

Don't you agree, my dear brother?"

Chapter 9883 Power

Bao shaoyou's eyelids twitched wildly.

Then, he saw the other party wipe his face and take off his disguise mask to reveal his original face. It was actually the same face as Bao shaoyou.

Their facial features were exactly the same, but their temperaments were completely different.

Bao shaoyou was handsome and peaceful, but this person had an indescribable aura of loneliness and evil. His emotions were unpredictable. One second he was smiling, and the next second he might pull out his knife and attack.

The audience outside the secret realm couldn't help but be stunned. This was ... Bao shaoyou's twin brother?

"Although the Bao family of the North City is not outstanding in terms of overall strength and can't even be considered as a second-rate family in Jianghai city, the way the family is passed down is unique. Therefore, even though each generation has a small number of people, there are many geniuses." Tianji explained.

After his reminder, everyone immediately reacted. Although the Bao family in the North City was not outstanding, it seemed that there were geniuses in every generation. Moreover, they were all peerless geniuses who were publicly acknowledged to be the most talented!

Starting from Bao shaoyou, the Bao family had at least five generations of peerless geniuses. As long as the geniuses died young, coupled with the fact that the Bao family's Foundation was average, it was not enough to fulfill these peerless talents.

Otherwise, if it was a super family like the Tian family, if these peerless geniuses could all grow up, the scene would be unimaginable.

But even so, the Bao family had produced two top combat forces in the five generations. This was already a miracle for a small local family that was not even a second-rate family.

Even most of the second-rate families did not have a top-notch combat power to hold the fort!

"However, the Bao family's method of choosing their descendants is extremely special. Only one child will be left in each generation. After seven years old, all the other children of the same generation will be abandoned except for the child with the highest talent.

It doesn't matter how talented these people are. This is the ancestral teaching of the Bao family and the foundation of the Bao family!"

Hearing Tianji's introduction, the people who were originally interested in the secret technique of the Bao family to nurture peerless geniuses instantly lost their interest.

For a family, a prosperous population had always been the most important indicator. The Bao family had adopted such an extreme method, and it was already destined that it would be impossible for them to become a second-rate or above family power.

No matter how powerful the peerless geniuses he cultivated were, even if they eventually grew into top-notch combat strength, they would at best be similar to those wild lone wolves. It would be difficult for them to achieve great things.

"This person's name is Bao Tianqi. He is Bao shaoyou's twin. He is also extremely talented, but he is slightly inferior to Bao shaoyou. Back then, there was an internal dispute in the Bao family. They wanted to make an exception and keep him. However, in the end, they still followed the ancestral teachings and kicked him out when he was seven years old."

When everyone heard this, they couldn't help but reveal strange expressions.

"Hehe, the one who stayed is only at the peak of the middle stage of the complete realm of a giant. The one who was thrown out is now a real giant at the peak of the complete realm of the ultimate realm. I wonder what the Bao family will think when they see this?"

"If Bao Tianqi killed Bao shaoyou and I was the head of the Bao family, I would cry in the toilet."

Bao shaoyou, who was in the secret realm, was completely aware of his situation.

However, there wasn't the slightest bit of panic on his face.

Bao Tianqi looked at him from the corner of his eyes, 'you don't seem to be afraid at all? I don't know if you really have the strength or if you naively think that I won't really kill you?"

Bao shaoyou shook his head. "Since you deliberately appeared here, you naturally want to kill me to vent your hatred. It's not strange if you go back and slaughter the entire Bao family. After all, you have enough motive and reason."

"So you've thought it through? Should we just wait for death here?"

Bao Tianqi sneered, "however, my past experience tells me that everyone who claims to have thought things through will die in an uglier manner when they are really about to die.

The so-called "let it go" is just a self-deceiving joke. The great horror of death will teach you to be honest. "

After he finished speaking, he slowly unsheathed his long saber.

Seeing Bao shaoyou's indifferent expression, Bao Tianqi snorted and added, ""But you don't have to be afraid of being too lonely. We're brothers after all. I'll send all the companions you cherish down to accompany you.

You seem to be on good terms with that Lin Yi guy? Don't worry, he and his men will be on their way with you soon. "

"....."

Bao shaoyou couldn't help but look at him strangely, ""Your target is the boss? Who ordered you to come? Didn't he tell you that this is no different from suicide?"

If they were really here for him, Bao Tianqi would not have waited for the entry competition. He could have found a better opportunity outside.

The only logical explanation was that he was just a secondary target, and Lin Yi was the real big fish.

Bao Tianqi's expression turned cold,""I'm really curious. Why would those blind old things in the Bao family think that a useless person like you, who has no courage and no strength, would have higher achievements than me in the future?

That Lin Yi may be out of your reach, but you'd better think it through-that's only in your eyes.

he's only a little stronger than trash like you, but not by much. "

"....."

after hearing this, not to mention bao shaoyou's strange expression, even the people watching the battle outside the small secret realm couldn't help but cough speechlessly.

"does this guy never go online?"

even now, people who went online weren't so ignorant as to treat lin yi as trash.

if lin yi was trash, then tian xiangyang and lu boshi would probably be trash as well, only a little stronger.

it had to be said that sometimes, slacking off on the internet had its benefits. after all, being out of touch with information could really kill people.

"Alright, I'm done with the nonsense. You can be on your way."

As Bao Tianqi said that, he slashed out with his saber. In an instant, saber Qi filled the area within a ten-mile radius.

These weren't ordinary saber Qi, but the manifestation of the domain. Apart from an abnormal person like Ren Tian 'er, no high-end combat force would be able to withstand any of them.

And right now, there was more than one saber Qi. There were at least a million of them!

This was no longer something that could be dodged with movement techniques.

Bao shaoyou didn't even have the chance to react. He was directly covered by countless saber Qi and his body was cut into pieces on the spot!

However, he appeared in front of Bao Tianqi unscathed after a while.

"Incarnation domain?"

Bao Tianqi raised his eyebrows in surprise, ""This is interesting, but it's a pity that you want to take my attack with such a small trick. My dear brother, I can only say that you're really thinking too much."

Chapter 9884 The End

Bao shaoyou's heart sank.

The other party's words weren't purely pretentious. His incarnation domain was indeed tyrannical. In theory, it could be immune to almost all physical attacks. However, it wasn't without limits.

Transforming into a territory was essentially a high-level use of territory power. Like all other territory techniques, it would be limited by the territory power itself.

In other words, the avatar domain also had an upper limit to how much damage it could take.

Once the strength and duration of the opponent's attack exceeded the upper limit, even the avatar domain would be ineffective.

Although Bao shaoyou had successfully survived the first wave, the other party's saber showed no signs of dissipating. Instead, as time passed, the saber Qi became more and more intense!

"This person has actually mastered the law of Infinity!"

Outside the secret realm, a knowledgeable person exclaimed.

Bao Tianqi did not continue attacking after seeing the first blade. Strictly speaking, all the blade Qi came from the first blade Qi. It was obviously a self-replication of the blade Qi.

Normally, even if this person's domain ability was self-replication, there was still a limit to it.

However, from the looks of it, not only did the saber Qi show no signs of stopping, it was becoming more and more exaggerated. It had clearly exceeded the domain level.

Infinite self-replication.

This was the rule force that Bao Tianqi had mastered!

Although the infinite law could not be compared to top-notch laws like time and space, it was still a type of level-two law. It was also a standard law power and could suppress ordinary domains on a higher level.

It was already extraordinary that Bao shaoyou could withstand the first blow. As for taking it head-on, even if he was a peerless genius, he couldn't go against this objective law.

However, in this desperate situation, he was still prepared to force himself to try. This was a method that he had no choice but to do. After all, if he didn't try, he would die!

Bao shaoyou also unsheathed his long saber and slashed out. The raging black flames instantly engulfed the surrounding saber Qi.

The endless great burning heavens!

Although the endless burning heavens was not as violent and Swift as the previous one because he had overdrawn his power, it was still a move that touched the threshold of the fire-elemental laws.

In the blink of an eye, he forcibly opened up a world in the endless saber Qi of his opponent and stood as an equal!

Bao Tianqi's expression changed.

He was no longer as calm as he was. Instead, he was more alert. Even if he was unwilling to admit it, he knew very well that Bao shaoyou's talent was indeed above his!

As an abandoned child of the Bao family, he knew better than anyone how terrifying Bao shaoyou's talent was. Once this monster was given the opportunity to awaken and grow, no one knew how terrifying he would be.

Just like now.

A mere powerhouse at the peak of the middle stage of the consummate level had actually withstood the rule bending power of him, a powerhouse at the ultimate consummate level. If this were to spread, it would definitely cause everyone's eyeballs to pop out.

In fact, everyone watching the battle from the outside was already collectively dumbfounded.

However, Bao shaoyou could not change the fact that he was an expert at the peak of the middle stage of the consummate level. Although his outburst was shocking, it was destined not to last long.

The endless great burning heavens only lasted for an extremely short moment before it was immediately engulfed by the endless saber Qi.

This engulfing meant that all of Bao shaoyou's strength had been completely emptied. The infinite saber Qi had returned, and he had no means of survival.

"I'm really going to die this time. I'm a little unwilling."

Bao shaoyou sighed softly but finally chose to accept his fate, ""It's a pity that there's no other way. I wanted to wait until I fulfilled all my talents before fighting with boss. It seems that it's just a dream."

"It seems like you've finally accepted your fate. Hehe, so the so-called peerless genius is just like this."

Bao Tianqi laughed when he saw this.

However, before he could see the expected scene of the saber Qi dismembering the body, a calm voice suddenly rang out beside him. ""It turns out that there are times when my family's peerless genius is looked down upon by others. This really surprised me."

"Boss!"

When Bao shaoyou heard this voice in his despair, he couldn't help but be overjoyed. The infinite saber Qi that had enveloped him dissipated, and the fatal crisis was resolved.

Lin Yi grinned. "I'm still waiting to spar with you in the future. Isn't it a little inappropriate to report down so early?"

Bao shaoyou was pleasantly surprised. He couldn't help but feel surprised, ""Boss, what are you doing here?"

According to normal development, even if Lin Yi wasn't at the main altar right now, he should at least be on his way to the main altar, or fighting with other top-tier fighters.

No matter how he looked at it, it shouldn't have appeared in this place.

"I just happened to pass by," Lin Yi smiled.

Of course, this was just a joke. In fact, he had already surpassed the group of top fighters who had set off first and became the person closest to the main altar.

If everything went as planned, he would be the first to reach the main altar and undergo the gods' test.

However, just as he was about to step into the main altar, he suddenly received a warning from Bao shaoyou, so he teleported over immediately, which led to the scene in front of him.

By the way, although he said that everyone had to rely on themselves during the entry competition, he had left a primordial spirit seed on everyone.

At the critical moment, it could send out a warning signal and at the same time, provide the most accurate spatial coordinate information, so that he could rush over to save the situation at any time!

After all, Lin Yi's group only had a few core members, and losing any one of them in a place like this was a huge loss. Compared to the secret realms that all depended on luck, Lin Yi clearly valued his friends.

Bao shaoyou knew this in his heart and was secretly touched. However, on the surface, he smiled and replied, ""Then I'm quite lucky."

At this moment, Bao Tianqi's cold voice interrupted, ""You're Lin Yi?"

"Yes, I am."

"What do you need from me, Sir?" Lin Yi nodded.

Bao Tianqi sneered, "you really got it without much effort. Someone wanted to buy your head from me and was willing to offer a price. This time, I can settle my old grudge and make a fortune at the same time. I should really thank you both."

"You're an assassin?" Lin Yi looked at him, confused.

"To be precise, he's a bounty hunter."

Bao Tianqi then laughed. "But don't link me to the bounty Guild in Jianghai. That kind of small organization is not worthy of a bounty hunter of my level."

"If he's not from Jianghai city, then he's from outside the city?" Lin Yi sized the man up.

To him, the outer region was not an unfamiliar term. His dormitory mate, the glutton sun Buyi, was from the outer region.

From what he knew, although there were some passages between Jianghai and the outer realms, they were basically two separate worlds.

Chapter 9885 Power

Traveling from Jianghai to the outer region was easier, but traveling from Jianghai to the outer region was not only extremely difficult, but also extremely expensive. If it weren't for a super clan like the talisman Wang clan, they would have long since moved before the great calamity arrived.

For the other party to rush back to Jianghai at such a critical time, she really didn't know if she should say that he was fearless because of his ignorance or that he was born with bad luck.

"That's right. Only after seeing the vastness of the outside world will one realize how small Jianghai is. "

Bao Tianqi looked at Lin Yi as if he was a frog at the bottom of a well. "I heard that they're praising you to be a God, but I don't think you're anything special. I can only say that people from small places are so sad. Their vision is destined to be as small as the mouth of a well."

His words were full of contempt for the country bumpkins.

Lin Yi couldn't help but smile as he turned to Bao shaoyou, "He's really different from you. He's much more lively and interesting than you. "

"....."

Bao shaoyou didn't know what to say. Only a monster like Lin Yi could handle this kind of liveliness and fun, right?

"To hell with being lively and interesting!"

Bao Tianqi could clearly hear the ridicule in his words. With his superior attitude, how could he bear the sarcasm of this country bumpkin? he immediately exploded in anger.

With one slash, the infinite blade Qi that had just been distributed in all directions immediately whistled towards Lin Yi's position.

In an instant, all the saber Qi fell at the same time.

It wasn't just one or two, but millions of them!

The space around Lin Yi was actually full of holes. The secret realm that the Tian family spent so much effort to create was directly showing signs of collapse.

Fortunately, considering that a large number of top-notch combat forces were involved this time, it was inevitable for them to fight each other. The Tian family had long been prepared for this. When the secret realm was destroyed, it repaired itself at a faster speed, so it didn't collapse directly.

If even space could not withstand it, it was naturally even more impossible for a body of flesh and blood.

"You're not dodging? Idiot!"

Bao Tianqi laughed when he saw this. He was already prepared to block them.

A person's name was like the shadow of a tree-Lin Yi had to have something special if he could make such a big name for himself. Even if he couldn't compare to the powerful beings he faced in the outer realms, he could at least hold them off for a while.

However, he didn't expect that this person would actually be so stupid to stand on the spot and receive his infinite saber Qi!

No one had ever been able to take a direct hit with their physical body. Bao Tianqi had absolute confidence in his infinite saber Qi!

then, he saw lin yi standing there unscathed, as if nothing had happened.

"i thought it would at least be a little challenging since you've made such a big scene. i didn't expect this to be it. brother, are you a scammer?"

lin yi's face was filled with dissatisfaction.

bao tianqi was stunned for a while, then he shook his head fiercely,"impossible! did you use some sort of rule bending ability to avoid my infinite saber qi?"

this was the only explanation he could think of.

only rules could go against rules. this was an eternal truth for cultivators.

However, Lin Yi didn't use any rule bending power at all. He took the attack with his body.

To Bao Tianqi's knowledge, this was definitely an act. He must have secretly used some rule bending power, but he hid it well and pretended to take it head-on with his body.

"That's not necessary-this isn't the real deal, after all. It's just barely enough to warm me up. I'm sorry, but I don't have the habit of using a cannon to kill mosquitoes,"Lin Yi said faintly.

"You're saying that this isn't a true move of the rules?"

Bao Tianqi was so angry that he laughed. "As expected, people from a small place only have such limited vision. You can't even tell if it's a rule move. I underestimated you just now and you were lucky enough to act tough. How dare you talk so arrogantly here? you really don't know the immensity of heaven and earth!"

At this time, Bao shaoyou interrupted, ""That was indeed not a regulated move. Otherwise, I wouldn't be standing here. I would have died just now."

Although his incarnation domain was strong, it had no resistance in the face of pure nomological moves.

The fact that he was able to survive the first round of attacks already explained the problem.

Bao Tianqi's face was as black as the bottom of a pot after being exposed.

This was really his Achilles 'heel.

He had indeed mastered a part of the power of the infinite rule, but due to the limitations of his control and the uniqueness of the rule itself, his infinite rule could not be directly applied to the other party. It could only be displayed in this form of infinite self-replication.

And this, at best, could only be considered a type of rule blessing, and not a rule technique in the true sense.

The power essence of infinite saber Qi was only a relatively high-end domain manifestation.

"Alright, since your level is so high, then continue to hold on. I'd like to see how long you can hold on!"

Bao Tianqi snorted and the blade Qi in the area started to replicate itself. The entire area turned into a giant meat grinder.

Lin Yi and Bao shaoyou were in the center of the meat grinder!

"Why don't you believe me?"

Lin Yi shook his head speechlessly and started his inhuman performance of tearing blade energy with his bare hands.

One punch, one large area.

Although this infinite saber Qi was endless, looking at his leisurely appearance, it made people seriously doubt that this little saber Qi was not enough to fight him.

"Is he still not satisfied after breaking through the shackles of growth five times? He's planning to use this guy's infinite saber Qi to continue tempering his physical body. Does he really want to attempt the unprecedented sixth breakthrough?"

"This is impossible, right?" the spectators couldn't help but Mutter.

To their knowledge, breaking through the shackles of growth five times was already the limit of the body. Even if there were no other abilities, just this abnormal body alone was enough to occupy a place in Jianghai.

If he really broke through six times, he would be heading toward the legendary physical body sanctification.

However, that was only a legend. How could anyone really do it?

Don't forget, humans have their limits.

No matter what the people outside thought, Lin Yi did have that thought in mind, but if he really wanted to train himself, the unlimited blade energy from the opponent was far from enough.

The real reason why he did not use his rule bending power to kill the other party was not because of the other party, but because he was afraid of an unknown existence.

It was a faint yet extremely terrifying existence.

Lin Yi wasn't as clear as Tian Xiangyang and Luo Banshi, but he was in the game, and his sense of danger was real.

Chapter 9886 The End

Before he could confirm the identity and purpose of that terrifying existence, he didn't want to be in the limelight and attract special attention.

Because of that, Lin Yi wasn't really interested in being the first to reach the main altar. This was perfect.

However, Bao Tianqi's situation would be a little awkward.

He may have his eyes on the top of his head, and had a sense of superiority over the local practitioners of Jianghai, but he wasn't an idiot. He could tell that Lin Yi was obviously toying with him.

To put it bluntly, it was like a cat playing with a mouse.

Especially when he saw Lin Yi suddenly stop and let Bao shaoyou take over, Bao Tianqi felt even more humiliated!

"You don't know what's good for you. Do you think he can block my infinite saber Qi with his insignificant strength? Haha, Lin Yi, is your brain filled with sh \* t?"

As if to maintain his image, Bao Tianqi did not increase the bid forcefully.

If his unlimited saber Qi couldn't even deal with Bao shaoyou, then he could really buy a piece of tofu and kill himself.

However, the strange thing was that Bao shaoyou, who could barely hold on for one blow, was now more at ease than before after the repeated consumption of energy. It was clear that his power was completely overdrawn.

"How is this possible?"

Bao Tianqi's eyes almost popped out.

He also admitted that Bao shaoyou's talent was indeed good, but it was impossible to say that he was so talented that he could get stronger and stronger in such a state!

In fact, this wasn't Bao shaoyou's doing alone, but Lin Yi's primordial spirit was fighting in his place.

After the short test, Lin Yi had completely figured out the weakness of his opponent's unlimited Qi of blade. Even if it was Bao shaoyou's alternate account, he could still use it.

however, bao shaoyou still showed his insane talent. he was able to start fighting by himself after letting lin yi carry him for less than five minutes.

in terms of efficiency, he wasn't any weaker than lin yi's immortal soul!

what was even more outrageous was that he had even gone with the flow and achieved a breakthrough during the battle. he had advanced from the peak of the middle stage of the consummate level of a big shot to the late stage of the consummate level of a big shot!

the entire process was uneventful and smooth as silk.

it was just like eating and drinking. when the water flowed, the channel was formed, and he broke through just like that. he didn't give the other party a chance to interrupt.

seeing that bao shaoyou was able to deal with his infinite saber qi more easily after advancing, bao tianqi suddenly felt a silent mockery.

Lin Yi asked with a weird look on his face. "Are you really here to kill? And he was here to be a sparring partner? Do we have to give you more money?"

"....."

Bao Tianqi vomited blood.

Everyone watching the battle was collectively speechless. This person was snatching the bamboo shoots.

Bao Tianqi gritted his teeth and sneered, 'are you proud? Haven't you heard of the saying that the higher you climb, the worse you fall? Have you ever thought that I intentionally let this kid break through successfully?'

Bao shaoyou and Lin Yi looked at each other, "really?" Then I really have to thank you properly. "

"No need, because you'll hate me very soon."

Bao Tianqi laughed hideously and waved the long blade in his hand, ""Unlimited saber Qi, great liberation."

As he spoke, all the blade Qi that trapped Lin Yi and Bao shaoyou instantly dispersed.

However, it didn't disappear just like that. Instead, it turned into an even more pervasive, powder-like saber Qi. In this way, he didn't even have the chance to block or defend, let alone take it head-on.

This was the real killer move.

Seeing this, Bao shaoyou frowned slightly and immediately exploded with all his strength.

As his cultivation level increased, his comprehension of fire-elemental laws also improved. He was even one step ahead of Shen Yifan and had officially stepped into the threshold of rule power.

To a certain extent, he could also be considered a Big Shot of the rules.

Even if it was less than 1% of the control of laws, laws were still laws. It had an overwhelming advantage over territory power!

With a slash of his saber, endless black flames surged out.

The endless great burning heavens.

By the time this move landed, all the powder-like saber Qi in the vicinity had been cleared away, leaving not even the slightest residue.

Bao Tianqi was completely stunned.

If Lin Yi had done it himself, he could still accept it, but he was a giant's ultimate master's killer move. He didn't even put Bao shaoyou in his eyes, but Bao shaoyou just dispelled it. This scene completely overturned his view of the world!

"I'm very sorry about you being chased out of the house, but since you're here to kill me and even attack boss, I can only give you an eye for an eye. I'm sorry, big brother."

Bao shaoyou said indifferently. Then, he took the initiative to rush forward with his saber.

He wasn't in his best condition at the moment-he'd used up too much energy, and even with Lin Yi's miraculous recovery skill, he was still barely alive.

But for some people, the more blood they had, the more terrifying they were!

Bao Tianqi was dumbfounded.

Although he had the fighting instinct of an expert at the consummate level of the realm of the big shots and still had the upper hand in a real fight, under the continuous psychological impact, even if he still said that he was just so-so, in reality, he had already lost his mind.

The most intuitive display was that when the two of them started fighting, Bao shaoyou had the initiative in the rhythm and he was the one being led by the nose.

In just a moment, the situation had turned into a one-sided situation.

"This kid is indeed terrifying!"

Only then did the spectators realize what had happened.

An expert at the late stage of the consummate level of a Big Shot had completely suppressed an expert at the ultimate consummate level of a Big Shot who had mastered the power of laws. What kind of concept was this?

If it wasn't for Lin Yi, this would've been the first time a Scorpion had pooped in the school's long history!

"Not only is his cultivation talent ridiculously high, but even his combat talent is also so terrifying. What kind of scene will it be when he grows to the realm of a giant's ultimate completion?"

Everyone simply didn't dare to think too deeply, and it was extremely terrifying.

"A real beast will never be with cattle and sheep," Banshi Luo said. "The companion behind him must be a beast as well."

At this time, as the number one beast in his eyes, Lin Yi's bad feeling was getting stronger.

"Could it be that they've already been targeted?"

Just when Lin Yi was about to test it out, Bao Tianqi, who was being suppressed by Bao shaoyou, suddenly condensed his unlimited blade energy into twelve giant wings on his back.

Under the extreme concentration of power, the strength immediately welcomed a wave of qualitative change.

With a flap of the giant wings, Bao shaoyou, who had the absolute upper hand a moment ago, was sent flying on the spot.

"This is ..."

Bao shaoyou's heart was beating wildly. In that instant, Bao Tianqi seemed to have changed into a different person.

Chapter 9887

The facts proved that this was not an illusion.

When he regrouped and attacked again, Bao Tianqi's entire battle style had changed. He was no longer as reckless and impetuous as before.

Every move and style had a strange charm. At first, it looked like a Heavenly Horse flying in the sky, but once it landed, it was as unpredictable as an Antelope hanging its horns. It was as if everything was done at will, and there was no routine at all.

"His saber technique is quite interesting. It's profound and unpredictable, but it doesn't have any human touch. Is this a saber technique that a human cultivator can practice?"

A knowledgeable sword Dao Grandmaster outside the arena questioned.

Everyone knew that those who were bound to the routine were definitely not experts. However, it was impossible for human cultivators to not have any routine.

To be more specific, every move and form was a kind of routine. Its essence was the conclusion of experience, a highly efficient way of using power.

Sticking to the routine would naturally be targeted, but if there were no traces of the routine at all, then it would be inhumane.

However, how could a blade technique practiced by a human cultivator be so inhumane?

Unless he was not human.

Of course, Bao Tianqi was a human. There was no doubt about that. Otherwise, he would not have shown so many emotions.

However, he wasn't himself anymore. Lin Yi sensed a familiar feeling from him-it was the feeling of a soul fighting on his behalf.

Bao shaoyou suppressed his injuries and was ready to fight again, but Lin Yi stopped him.

"You've been playing for so long, it's my turn now, my hands are itching too. "

Lin Yi smiled as he jumped up. He was in his original form a second ago, but in the next second, he had turned into a golden Titan Buddha.

BOOM!

The giant Buddha's Palm slammed down, but its target, Wan Tianqi, didn't move at all. He only raised the two giant wings on his back and received Lin Yi's heavy palm.

"Aren't you very awesome? Is that all you've got?"

Bao Tianqi's lips curved into a contemptuous smile.

But maybe it was because he didn't have any human scent on him, Lin Yi couldn't feel any real emotions from him. There was only a kind of indifference to the world that came from his bones.

This feeling was as if he didn't care at all, but he deliberately pretended to care, which made people feel particularly uncomfortable.

"Do you think this is fun?"

Lin Yi asked, testing the waters.

"If it's not fun, why would I play with you?" Bao Tianqi smiled indifferently.

"Why me?" Lin Yi raised a brow.

"Why are there so many whys? Don't think too much about it. I'm not looking for you to play because you're special, but because you just happened to meet me, understand?"

Bao Tianqi attacked again.

This time, the 12 giant wings on his back flew together, instantly increasing the rhythm of his attacks to an extreme that ordinary people could not imagine.

After breaking through the shackles of growth five times and transforming into the Titan Buddha, Lin Yi was actually being suppressed and beaten, shocking everyone watching the battle outside the secret realm.

They knew how terrifying Lin Yi was.

It wasn't an overstatement to say that there were no more than three people in the entire school who could fight Lin Yi without using any rule bending powers!

Even if it were the three of them, they would at most be in a stalemate with Lin Yi, but they would never be able to suppress him like this.

Who was this person?

Could it be that Bao Tianqi had hidden so deeply that everything that happened just now was just an act?

Only Tian Xiangyang, Luo Banshi, and Tian Ji, who was frowning in silence, had already seen through the clues.

The mysterious being was fighting Lin Yi in this way, and it wasn't a bad thing, at least in the big picture.

This was a good chance for Lin Yi to get more information out of him.

However, all the pressure was now on Lin Yi.

He had to deal with the other party, but he couldn't enrage the other party and cause the situation to go out of control. It was easy to imagine how difficult it was to grasp the balance.

However, Lin Yi wasn't walking on thin ice like everyone thought. The more he fought, the more he fought!

It had been a one-sided disadvantage just now, but after a short period of adjustment, the situation was quickly reversed.

The two sides were actually evenly matched!

"Hey, if this continues, your physical body will be shattered. Is this still okay?"

Lin Yi reminded.

although bao tianqi's overall combat strength had increased a lot after he was beaten up by his primordial spirit, his body would definitely collapse if he fought lin yi head-on like this.

"if this kind of trash is crushed, so be it. do i need to care?"

bao tianqi replied with an indifferent expression.

lin yi looked at him strangely, "it's fine if he's broken, but you've lost. is that okay?"

"....."

bao tianqi was silent for a moment before he said, ""what you said makes sense. then we just need to kill you before his body is destroyed, right?"

After he finished speaking, his entire body began to surge madly without any warning. Every part of his body was rapidly strengthening.

Some of them even had their flesh burst open and were quickly filled up by new tissues that grew rapidly.

In the blink of an eye, Bao Tianqi's height had grown to more than five meters. This was a sign that he had broken through the shackles of growth five times!

More importantly, he didn't stop there. His body was still growing in a monstrous way!

The crowd outside the arena was already dumbfounded.

"Could this be the sixth breakthrough of the shackles of growth? Isn't this a little too exaggerated?"

Someone couldn't help but Mutter.

tianji shook his head."this isn't breaking through the shackles of growth. this is simply a physical body going berserk."

"yes." banshi luo nodded."he placed the power of the infinite rules on his physical body, causing it to go on a rampage. this state is destined to not last long. it will probably collapse on its own in less than an hour."

"so you're saying that he's only good looking?"

tian xiangyang couldn't help but be speechless,'how can he only have looks? this state of infinite berserk is extremely unstable, but at least before his body collapses, he is a physical monster that has exceeded the limits. his strength is probably close to the legendary six breakthroughs!"

Everyone was shocked.

Breaking through the shackles of growth six times, could such a monster really exist?

BOOM!

Lin Yi was slammed into the ground without any warning. The strength and speed his opponent displayed in that instant stunned even him.

With the difference in their attributes, the other party did not even need to use any techniques. He had even thrown away his sword and could completely rely on his physical advantage to crush him.

In the face of an absolute difference in attributes, all techniques were meaningless.

Chapter 9888

Bao shaoyou watched as Lin Yi turned into a human sandbag, receiving fatal attacks from all directions without any chance to react. He couldn't help but be shocked.

He wanted to help Lin Yi out of this situation, but the gap between them was too wide. Even with his mind's eye, he couldn't lock onto Lin Yi's position.

Even if they managed to catch a trace, they would be immediately thrown away without any chance to make a move.

Moreover, even if he made a move, the possibility of his attack landing on the other party was also very low.

He could only rely on himself.

With his understanding of Lin Yi, he knew that Lin Yi wouldn't be defeated just like that. He must have found a way to deal with it!

However, he didn't.

This time, Lin Yi really didn't have the strength to fight back. Even after the golden light faded, he still couldn't find a chance to fight back.

In the end, the 100-foot-tall Titan Buddha shattered.

This was shattered by the other party.

“.....”

Everyone who saw this scene was speechless. Lin Yi actually lost to this person, this couldn't be possible right?

"Your shell doesn't seem to be that hard? Do you still think I'll lose to you?"

The contempt on Bao Tianqi's face was much more genuine than before.

For someone like him, breaking a Lin Yi didn't give him any sense of accomplishment, but at least it made him feel a little interested.

Everyone was silent.

However, just when Bao shaoyou thought that Lin Yi really couldn't stand up anymore, Lin Yi's calm voice suddenly came from the ground.

"It's hard to say who will win or lose, but I really have to thank you. "

When he saw Lin Yi's current state, even Bao Tianqi's indifferent face couldn't help but reveal some surprise.

He wasn't in his Titan Buddha form anymore. He'd returned to his normal size, but there was an extra layer of pitch-black bone armor on his body. Even his face was completely covered, only revealing two eyes that were shining with a strange light.

Although it still carried the profound aura of Buddha, at this moment, there was more of an overbearing aura that suppressed everything.

Advanced Titan Buddha, tyrannical Buddha form.

"He changed his appearance and looks more decent now, but it's a pity that it's still useless."

Bao Tianqi laughed nonchalantly, but before he could finish his sentence, he was stomped into the ground by Lin Yi. Before he could even struggle, Lin Yi stomped on his face again.

"....."

This sudden turn of events made everyone's eyes Twitch. The speed and strength Lin Yi displayed in this instant were even higher than Bao Tianqi 's!

"This is interesting!"

As soon as Tianqi Bao finished his sentence, another round of beating came. Lin Yi was just as cruel to him as he was to Tianqi just now, and it was double the amount.

In fact, in terms of absolute power, the previous Titan Buddha form was not bad. It was just that compared to the other party's infinite rampage, the speed was too much worse, causing it to be unable to keep up with the other party's rhythm at all. In the end, it could only become a one-sided human sandbag.

The current form of the tyrant Buddha had increased his speed by more than ten times!

In addition, his absolute power had not decreased. Instead, it had increased. This way, he could naturally turn the tables and control the rhythm of the entire battle.

Bao shaoyou's eyes lit up as he watched from the side. Although his realm level was far inferior to the two people in front of him, his eyesight was not inferior at all.

This was clearly a battle of rhythm.

Whoever dominated the entire rhythm would have the absolute upper hand.

It was clear from the internal sparring that Lin Yi was a master at controlling the tempo-no one could beat him in the same condition.

The scene in front of them proved this point.

Unless his opponent could level up his unlimited rampage and gain the upper hand in speed and strength, he had no chance of winning against Lin Yi.

The other party clearly knew this.

Bao Tianqi's body started to expand again, but this time, it had exceeded the limit of what it could withstand!

After a short while, Bao Tianqi had turned into an extremely deformed monster. If one did not witness this scene with their own eyes, they would not have associated him with the word 'human'.

"Okay, we can continue playing now. The game has just started to get fun. I hope you won't disappoint me."

Bao Tianqi's indifferent voice came out of his mouth. It was strange and terrifying.

"You probably won't even last half an incense's time like this. Is this really okay?" Lin Yi frowned.

"What's wrong with that? Consumables of this level are everywhere, and you can always replace them after you're done. If you suit my taste, I can replace you later. Don't worry, I'll treat you well. "

Lin Yi didn't react to Bao Tianqi's words, but Luo Banshi and the heavenly eye outside frowned.

The two of them had a rough idea of the man's background.

If Lin Yi was really controlled by him, then Bao Tianqi would become his puppet. The consequences would be unimaginable.

Just as the two were hesitating whether they should break through and interrupt the fight, Lin Yi smiled nonchalantly, "Hehe, we'll see if you have the ability to do so."

After he finished speaking, he moved his feet slightly and a Sonic Boom sounded. In the next moment, he had already struck his opponent's body with his palm.

Half of Bao Tianqi's huge body was shattered.

However, it immediately recovered and became even more ferocious and terrifying than before. A strange and contemptuous smile appeared on the face that no longer had a human face.

"You're not bad. You can still hold back at this time and not use rule power first. You're a playful person. I can spend a little more effort to play with you, but I'm afraid you can't afford it."

The man's appearance was getting further and further away from a human, but Lin Yi could clearly feel that he was getting more and more human.

This was a good thing.

For a powerful being like this, who had no emotions, because he had always maintained his absolute rationality, unless one's hard power could reach the same level as him, it was almost impossible to defeat him.

However, if the other party became a living person and was affected by emotional fluctuations, then everything was possible.

"Can we afford to play? You'll only know after you've played. "

Lin Yi laughed lightly and attacked again.

Not using rule power was a silent agreement formed by both sides from the beginning.

Even though they did not know his true appearance, the fact that he could ignore Bao Tianqi's will and take over his body and even his primordial spirit showed that he was much stronger than a Big Shot who had completed the ultimate realm.

Chapter 9889 Power

At least Lin Yi had a chance of winning against Bao Tianqi, who was a puppet that was being controlled.

However, once the other party's true body was forced to make a move, the situation would probably really be difficult to clean up.

So, Lin Yi wouldn't cross that line and give the other an excuse to flip the board.

He was taking a gamble.

They were betting that the other party would take the initiative to maintain the rules of the game, because only with rules would the game be interesting.

Since the other party wanted to have fun, winning or losing wasn't that important. The most important thing was to make the other party feel interesting.

Seeing Lin Yi in his tyrannical Buddha form and Bao Tianqi in an even more violent state, the spectators lost their courage to comment on the battle.

It was the first time in their lives that they had witnessed such a crazy and powerful battle.

Other than shock, he had no other thoughts.

As for the evaluation, they were just a bunch of bronze players. What could they use to evaluate the battle between two kings?

They even seriously suspected that these two monsters could slaughter all the other top-tier combat forces in the secret realm without using any rule power!

Although this was logically impossible.

However, their instincts told them that logic was useless against these two monsters.

Their power had completely exceeded the scope of logic that ordinary people could understand.

"Which one of them will win?"

Someone asked the most crucial question.

However, neither Luo Banshi nor Tianji could give a clear answer.

They couldn't see through the mysterious being, and they couldn't see through Lin Yi, who had an ultimate perfect domain. They could only rely on their experience and judgment, just like the others.

In the end, it was still Tian Xiangyang who said, ""Lin Yi won!"

“.....”

Everyone was confused.

Lin Yi wasn't at a disadvantage, but he didn't have the upper hand either. They were on par, so how did he win?

However, Bao shaoyou, who was watching the battle closely in the secret realm, gave the same answer.

The boss won.

A moment later, Lin Yi stomped Bao Tianqi into the ground again. At the same time, the black bone armor covering his body started to gather on his right palm.

After gathering all the power into one point, he smashed it down.

The wrath of the tyrannical Buddha.

There was a loud explosion.

With Bao Tianqi's landing point as the center, a violent and unstoppable force spread out in ripples, causing the earth's crust of the entire secret realm to shake violently like a huge wave.

Half of the hundreds of altars collapsed.

The group of top and high-end combat forces who were fighting for a position were affected one after another. They were either shocked or spat out blood on the spot.

Everyone looked at each other.

What kind of God was fighting here!

The spectators outside the secret realm were all dumbfounded. Was this a power that a human could possess?

Even Tian Xiangyang could not help but grin, ""If it were me, I'd probably die on the spot if I took that punch. This Lin Yi really is full of surprises!"

Banshi Luo smiled and shook his head.

Of course, he was just saying that. Lin Yi's tyrannical Buddha's wrath was fierce, but it was just a joke to say that it could kill Tian Xiangyang instantly.

With Lin Yi's current level, unless Tian Xiangyang took the initiative to stand there and let him hit him ...

Otherwise, he wouldn't have had the chance to land a hit. He wouldn't even have had the chance to punch. How could he have killed someone if he couldn't even punch?

But no matter what, Lin Yi's strength was deeply rooted in their hearts.

Even Tian Yunkai, who had always found him an eyesore, was now keeping his face straight and not saying a word. He even felt a little scared.

If it's really because of his personal likes and dislikes that he provoked such a terrifying opponent for the Tian family, he, the head elder of the Tian family, would be unable to escape the blame even if he died.

Fortunately, Tian Xiangyang didn't make the same stupid mistake as him.

At this moment.

Lin Yi raised his eyebrows as he looked at Bao Tianqi's body. He stood up, "I'm sorry, I won this round. "

Very quickly, a wave of mysterious information fluctuations was directly reflected in his mind.

"You're more fun to play with than I thought. In that case, I'll choose you as my next toy. "

With that, he was about to enter the depths of Lin Yi's essence spirit, trying to turn Lin Yi into a second Bao Tianqi.

Lin Yi couldn't help but frown, "you're not talking about martial virtue here. The losing side didn't take the initiative to accept the punishment, and instead used cheating to control me, the winner. This isn't how the game is played."

Soon, another piece of information appeared in his mind.

"I have the final say in how the game is played, not you. Do you understand, human?"

With that, he strengthened his attack on Lin Yi's soul.

From the outside, it seemed like nothing was going on, but this was the most dangerous moment Lin Yi had ever been in.

This kind of invasion was not his primordial spirit fighting on his behalf. In fact, it was a disguised form of possession of a higher level.

Once the enemy succeeded, he would lose his self-awareness. Even if his body and soul were intact to others, he would no longer be Lin Yi.

The worst thing was that with Lin Yi's current cultivation of a Big Shot in the late stage of great completion, he had no way to resist this kind of move!

He could only allow it to go straight into the deepest part of his primordial spirit!

"Tsk, tsk. It turns out that you have so many strange secrets. You are indeed a fun guy. In the future, I'll have to use you sparingly as a chess piece. Otherwise, it won't be fun if I break you again."

The mysterious being clicked his tongue in wonder as he browsed through the vast amount of information in Lin Yi's essence spirit. He was filled with excitement he had never felt before.

On the one hand, he had been too bored for thousands of years and wanted to have some fun. On the other hand, he wanted to experience the seven emotions and six desires of humans.

However, a chess piece like Bao Tianqi was nothing to him. Fortunately, he met Lin Yi.

This time, he didn't waste such a big price.

It was not easy for an existence like him to come out. The price he had to pay was so great that mere humans could not imagine it.

"You're Lin Yi, right? Don't worry, I'll treat your companions well. When I'm done using you, they'll be my backup chess pieces!"

The mysterious being was getting ready to send Lin Yi on his way.

At this moment, Lin Yi's voice sounded, "Who you want to choose as a chess piece is your own business. But since you've come to my place, you should just stay here."

"....."

The mysterious being was obviously stunned for a moment, then he laughed strangely. "Do you know what you're saying?"

"If you don't believe me, why don't you give it a try?" Lin Yi smiled. "Can we still get out?"

Very soon, the mysterious being noticed that something was wrong.

Chapter 9890 The End

He realized that he was actually trapped in Lin Yi's consciousness.

An invisible and mysterious force blocked his way out. No matter how he tried, he could not find the exit.

"Divine spark? You actually have a divine spark on you?"

The mysterious being's voice trembled. He was truly frightened by Lin Yi this time.

"What divinity?" Lin Yi was confused.

The mysterious being continued to exclaim, "How could an ordinary human like you have a divine spark?"

It was obvious that something like a divine spark would not appear in a human.

In fact, Lin Yi had never come into contact with anything related to divinity.

However, after the other party's reminder, he did react a little.

"You're saying that the power I used to block you is a divine spark?"

Lin Yi couldn't help but have a weird expression on his face.

The mysterious being was obviously provoked. "There's no mistake! This was definitely the power of a divine spark! But this was impossible!

Even if you've received the inheritance of the gods, you can only master more rule power at most. The gods will never pass on their divinity to you, unless they die!"

The gods didn't have the seven emotions and six desires of humans, so they naturally didn't have the birth, aging, illness, and death of humans.

As long as their divine spark did not fall, they would be one with the various laws of this world.

As long as the divine spark was still there, they would never die.

In theory, no one could kill them, unless someone could change the world and rewrite the rules of the world.

And that would be the end of the world.

The mysterious existence knew that godhood could be snatched away, but it would be the biggest joke in the world to say that this ant-like human in front of him had snatched away a God's godhood with his own power!

The so-called saying "many ants can kill an elephant" had always been a deceptive fairy tale.

No elephant would truly die under the mouths of a group of ants. The only ones who could really kill them were themselves.

The amount of information from the man's words was enough to shake Lin Yi's entire world view.

The mysterious existence continued to mumble to himself, ""No, no, I've dealt with all the gods, and I remember the smell of each of them clearly. You don't have their smell on you!

But why do you have a divine spark on you? Are you creating your own divine spark?"

the more lin yi listened, the more ridiculous it seemed. finally, he kindly reminded, "i'm not sure if it's a divine spark, but the power that's trapping you now is the power of my ultimate perfect domain."

"an ultimate perfect domain? what's that?"

the mysterious being was stunned for a moment before he suddenly exclaimed, ""wait, the first batch of ancient gods seemed to have cultivated some domain to form their godhood. you're actually imitating them. do you want to become the new generation's god king?"

"....."

if it weren't for the fact that he'd already proven how strong this guy was, lin yi would've had reason to suspect that he'd just escaped from a mental hospital.

However, the other party did not care about what he was thinking at the moment. He no longer tried to escape like he did at the beginning. Instead, he took the initiative to integrate into his ultimate perfect domain.

Soon, another cry of surprise could be heard, ""Creating a world's framework and integrating all sorts of rules. Aren't you creating a small world and condensing a Godhead?"

Lin Yi didn't know what to say anymore.

"Interesting! This is so interesting! "I actually met an ancient God cultivator, and an ant-like human at that. If you succeed, Won't You Be the last ancient God?"

At that time, wouldn't those New Gods go crazy collectively?

Fun! It's so fun!"

Lin Yi thought that this guy must be someone hard to get close to since he was so strong.

But now, it seemed that this guy was simply a super-enhanced version of Ren tianer.

No matter how strong he was, he could not hide his idiotic temperament.

"It seems that you're quite happy. Then stay here. I'll come and have a good chat with you when I'm free."

Lin Yi said as he prepared to leave.

The other party was already trapped in the ultimate perfect domain, just like the rule bending power that had been absorbed before. Unless he took the initiative to let go, there was no possibility of escape.

"Wait, don't you want to know my identity? the last ancient God cultivator?"

The mysterious being quickly stopped him.

"There's no hurry for this, right? You'll tell me when you're ready. I've always been patient, so I can wait."  
"

Lin Yi was extremely calm.

The mysterious being was at a loss for words. In just a short while, he found himself much more familiar with human emotions.

"even if you don't want to know my identity, shouldn't you at least be concerned about your own situation? aren't you afraid that my true body will come for you?"

lin yi's interest was piqued."your true body?"

the mysterious being's tone was filled with pride."""i'm sure you've already guessed it. that's right, i'm a member of the gods.

if my true body had descended, even if you are an ancient god cultivator, do you think you can trap me with your half-assed divine spark?"

Lin Yi couldn't help but frown,"so you're saying that I should be more tactful and let you go now so you don't come looking for trouble?"

"No, no, no. I've spent so much effort to escape. How can I be captured by my venerable self and brought back?"

"Let's work together," the mysterious being suddenly said. "Let's work together to kill my original body. How about it?"

"....."

Lin Yi was stunned.

Even though he had seen all kinds of strange people over the years, he was still shocked by this guy's strange way of thinking.

To cooperate with him, the enemy who had just fought and even trapped him, to kill his own main body?

What kind of magical development was this? Do mentally-retarded children have a lot of fun?

As if sensing Lin Yi's shock, the mysterious being explained, "Although my main body and I are one, once I'm captured by him, I'll be swallowed by him again. To me, my main body is my greatest enemy.

And you, an ancient God cultivator, are naturally standing on the opposite side of their New Gods. Once they know of your existence, they will definitely kill you at the first moment!

The New Gods are afraid of the ancient gods, just like how I am afraid of my original body. We are natural allies, do you understand?"

There was too much information in just a few sentences.

Lin Yi couldn't process the information immediately, but he still asked the most important question.

"Those gods want to kill me?"
