

Bodyguard 9891

Chapter 9891 Power

"Nonsense. The relationship between the new God and the ancient God, in a way that you humans can understand, is equivalent to a group of rebels usurping the emperor's throne. And you, an ancient God cultivator, are the bloodline left by the Emperor. If it were you, would you kill them?"

Not to mention the gods who did not care about feelings.

Even a human with seven emotions and six desires would most likely kill him in such a situation.

After all, if the roots were not removed, the grass would grow again in the spring breeze.

Lin Yi confirmed, shocked. According to you, once I go to the secret realms, I'll be like a sheep entering the Tiger's mouth?"

"That's natural. You're a tender ancient God cultivator. If you take the initiative to deliver yourself to them, not only can those gods kill a hidden danger, but they can also eat your Godhead to strengthen themselves. Why not do something that kills two birds with one stone?"

"You're just lucky to have met me, the traitor of the new God," the mysterious being said. "Otherwise, you wouldn't even know how you died. Oh, no, you'll die of stupidity!"

"....."

Lin Yi immediately activated his perfect realm.

The mysterious existence was directly sucked into the black hole, like being sucked into a toilet. It was only released after a quarter of an hour.

"If you're not happy, just say it. Why do you have to do such a disgusting thing?"

If I let those messy rule bending powers roll with me like human sh * t, wouldn't you feel disgusted?"

The mysterious being was very dissatisfied.

Lin Yi was speechless-this guy was a Living Treasure.

"I'm a civilized person, so I don't like to hear vulgarities. I hope you'll take note of this in the future."

The mysterious being was silent for a long time after hearing Lin Yi's advice. Finally, he said,"Alright, you're the boss now, so you have the final say!"

"Then I'd better get as far away from the secret realms as possible, is that what you mean?" Lin Yi got back to the topic.

The mysterious being could not help but become anxious."Don't! You already have the prototype of a divine persona. Even if you want to be a coward, you can't hide anymore. You'll be discovered by the gods sooner or later.

At that time, you won't be able to resist at all. It's better to take advantage of the fact that they haven't reacted yet and go with me to get a big sum of money!"

"A big one?" Lin Yi raised a brow.

The mysterious being said proudly,"gods are also divided into strong and weak. They also have their own superiority. Do you know how they cultivate?" It was to snatch and devour the divinity of other gods.

If they eat your divinity, it'll be a great supplement, but if you eat their divinity, it'll also be a great supplement, and the effects will be much better than theirs!"

"How is the effect compared to the gods' inheritance?"

The mysterious being scoffed,""They can't be compared at all. You ate the essence of the Godheads of the gods, while that bullshit inheritance was just a little residue that they didn't even care about. Moreover, it was the kind that was pulled out from their stomachs. Which one do you think is more effective?"

Lin Yi didn't say anything.

Other things aside, this fellow was indeed quite talented in making comparisons.

It sounded like it was real, but Lin Yi wasn't going to trust her so easily.

"If I go to the secret realms, how can you guarantee that they won't find me?" Lin Yi continued.

"That's easy. As long as you don't use the power of that domain, and I help you hide your aura, those gods won't be able to detect your existence as an ancient God cultivator for a short time."

The mysterious being saw that Lin Yi didn't seem to believe him and quickly added, "If it were you, would you be so bored as to stare at a group of ants all day long?"

At most, when a few stronger ants occasionally appeared, you would only glance at them when you were bored, and you would not look carefully, right?

You won't be able to react unless that ant starts to bite you and even bites you until it hurts a little. "

Lin Yi was silent for a moment before asking, "Tell me your identity."

The mysterious being chuckled. "My real body is called Jiang Shang. You can call me Jiang xiaoshang."

"Jiang Shang?"

Lin Yi took a moment to react. Wasn't this Jiang Ziya, the Grand Duke?

From killing God Bai to war god Lu Bu, then to martial Saint Guan Yu, and now there was this Jiang Taigong.

Lin Yi was now completely sure that these legendary figures on Sky Class Island were completely different from the real historical figures recorded in the secular world.

Either the historical records of the secular world were wrong, or there was a Supreme existence behind the scenes that was manipulating everything.

"Who's your God King now?" Lin Yi couldn't help asking.

The mysterious existence who called himself Jiang xiaoshang laughed, ""God King was a term used in the past. Only the most powerful ancient gods were called God King. Now that the ancient gods have been wiped out, the New Gods call that guy the God of creation."

"The God of creation?"

Lin Yi blinked.

Jiang xiaoshang sneered, ""You don't even understand this? As the name suggested, he was the one who created this world.

Although he was only a Turtledove occupying The Magpie's Nest and basking in the light of those ancient gods, he was indeed the strongest and most invincible one at the moment. The rules and order were indeed under his control.

I have to warn you seriously that if a new god notices your existence, you, an ancient God cultivator, might have a chance to turn the tables.

However, if that guy finds out, he only needs to think about it and you'll die. No one can save you. "

"How strong is the God of creation, then?" Lin Yi asked.

Jiang xiaoshang thought for a long time and carefully sorted out all the information he knew about human cultivators before finally giving an answer.

"You're at the Titan realm now. When you've grasped the power of rules, you'll be able to enter the Supreme realm. At the end of the Supreme realm mirror is the God Realm. As for the God of creation, he's standing at the end of the God Realm. How strong do you think he is?"

Lin Yi was speechless.

He knew about the Supreme realm. To the top powers in Jianghai city, this was already a legendary realm.

Even Tian Xiangyang and Luo Banshi, the two Supreme experts who were publicly acknowledged to be the closest to the Supreme realm, did not dare to say that they could definitely enter the Supreme realm.

The immortal state was even above the Supreme realm, and the other party was even standing at the end of the immortal state!

It would be a lie if Lin Yi said he wasn't nervous at all when he suddenly had to stand against someone like this.

Anyone would have peed their pants in fear.

Jiang xiaoshang was also waiting for Lin Yi to piss his pants in fear. He purposely said this to see Lin Yi's reaction.

The gods had no emotions, but Jiang xiaoshang considered himself a traitor to the New Gods. Naturally, he could not be as boring as the gods.

Chapter 9892 Power

He liked the human emotions and desires very much, especially the pleasure of revenge. It was much better than being a God like a wooden man.

Other than a slight nervousness, Lin Yi didn't show any other emotion.

Jiang xiaoshang could not help but be disappointed, "Hey, hey, hey, are you still human?" Why aren't you afraid at all?"

Lin Yi smiled back, "no matter if you're scared or not, you still have to live your life. What's the point of being scared?"

"You're right," Jiang xiaoshang said, grinning.

Lin Yi couldn't help but smile, "and according to what you just said, as long as I don't provoke him, the chances of him finding out aren't high. If that's the case, why should we be worried?"

Jiang xiaoshang immediately became anxious again, "don't tell me you're thinking of being a coward again?" You're the last ancient God cultivator, and you might even become a God King in the future. Why do you want to be a coward every day?"

"Did I say I'm going to be a coward?" Lin Yi said, speechless.

“.....”

Jiang Xiaoshang was stunned for a moment, then he was overjoyed, "So you've agreed to join forces with me?"

"That will depend on how sincere you are."

Lin Yi smiled as he exited the consciousness.

Almost at the same time, he received a message from Tian Xiangyang and Luo Banshi.

When the two big shots saw that he was in a daze, they realized that the situation was not good. At this time, they even planned to join forces to break through the realm and attack.

Fortunately, Lin Yi reacted in time and helped the secret realm escape. Otherwise, the whole contest would have to stop once the secret realm was broken, and the others would be in trouble.

Without hesitation, Lin Yi shared everything he'd seen with the two.

On one hand, it was because he had absolute trust in the two of them. On the other hand, he needed the two of them to help him screen them.

Even though everything Jiang xiaoshang said sounded like it was true, no one knew how reliable it was except for Jiang xiaoshang himself.

Lin Yi needed the help of the two big shots.

After all, three heads were better than one. With their experience, the conclusion they came up with would definitely be more reliable.

Both Tian Xiangyang and Luo Banshi were stunned by Lin Yi's reply.

Even the two of them had never heard of the information that Jiang xiaoshang had revealed. It completely subverted their world views.

There was a long silence.

In the end, it was still Tian Xiangyang who spoke first, "I think that Jiang xiaoshang's words are basically credible.

Our Tian family has some secret ancient books that also mentioned the God Realm. Although it's not a system, it can basically verify what he said.

Therefore, there should be some credibility to these words, but this Jiang xiaoshang himself may not be credible!"

Banshi Luo nodded. "I think so too. The information he gave you might not be fake, but he definitely didn't tell you everything. So, you can work with him, but you can't be led by the nose by him."

"I understand."

Lin Yi's heart settled down a bit-he'd thought the same, but this was a big deal, so he wasn't sure.

Now that he'd gotten the approval of the two big shots, Lin Yi had a clear plan for what to do next.

After calling out to Bao shaoyou, Lin Yi's figure flashed and he quickly approached the main altar.

The following gods' test would be an important test for Jiang xiaoshang.

If Jiang xiaoshang's performance could satisfy him, then there would be room for further cooperation. But if he could not even pass the test of gods this time, then there was no need to say anything else.

Unless he died, Jiang xiaoshang could only be trapped in the ultimate perfect domain forever, mixed in with the sh * t rule bending power that he had mentioned.

At this moment, on the main altar.

A top-notch foreign combat force stepped into the main altar before anyone else and was the first to be tested by the gods.

The sacrificial fire of the main altar was lit up.

The people who were lagging behind could only feel indignant. Even if they wanted to destroy it, they could not do so under the protection of the main altar.

A moment later, the sky above the main altar was suddenly filled with stars.

Every star here represented the will of a God.

Once the testee was recognized by any of the gods, the corresponding star would light up. In this way, he could get the precious quota to lead the team in the secret realms.

Even if he passed the gods' test, it did not mean that he would definitely be able to obtain the gods' inheritance.

but at the very least, their chances of obtaining the inheritance of the gods would be much higher than others.

"damn it, don't let this guy get the first move!"

the top-notch combat forces who were one step behind cursed in their hearts.

although the probability of getting the recognition of a single god was extremely low, looking at the stars in the sky, as long as any one of them lit up, the test would be passed. the probability did not seem so low.

there were only two leader positions. once this guy snatched one of them away, the remaining top-notch combat strength would fight over it.

if he really attacked without regard for anything else, people would really die.

fortunately, even after the sacrificial fire on the main altar was extinguished, not a single star in the sky lit up.

seeing the man come out of the main altar with a dejected face, everyone sneered.

It was glorious to be one step ahead of everyone, but now that he was the first to be kicked out, it was more like he was taking the initiative to make a fool of himself, showing his own butt.

However, they didn't waste too much energy on him.

After a series of battles, a second powerful being at the consummate level of the realm soon entered the main altar.

The sacrificial fire was ignited.

However, after a moment, the sky full of stars still had no reaction. He could only follow in the footsteps of the person just now.

Everyone only had one chance to take the test. No matter what happened next, it had nothing to do with them.

This time, the people outside were not so enthusiastic.

Although being the first to be tested by the gods would still be an advantage, it would definitely not be an easy task to light up any of the stars in the sky.

Some people couldn't help but wonder if there was a problem with the testing array.

The first two were only suspicious, but after nine people went in one after another and were all annihilated, their suspicions grew.

Experts who could reach the ultimate realm of perfection were definitely not simple characters.

No matter how difficult the gods' test was, it shouldn't be impossible for so many people to fail, right?

Could it be that the eyes of those gods were so high that they didn't even look at the big shots at the peak of perfection?

The remaining top-tier combatants could not help but stop in their tracks.

This time, the situation was reversed. Just now, they all wanted to be the first to attack, but now, they couldn't wait for the others to attack first.

Anyway, there were two leader slots.

It wouldn't be too late for them to follow up when someone tested out the formation and found that there was no problem.

Chapter 9893 Power

For a time, the situation fell into a strange stalemate.

Finally, the 10th person couldn't help but rush in, but he returned in defeat again.

This time, the people outside were completely motionless.

Duan she, who had been silent all this while, was the 11th person to enter the main altar.

Everyone's heart skipped a beat.

Everyone knew that Duan she was the reincarnation of King du, and was Lin Yi's strongest force. His every move was being watched.

Although they might not be convinced, among the people present, Duan she seemed to be the most likely to be chosen by the gods, whether it was in terms of Foundation or temperament!

However, a moment later, the sacrificial fire spontaneously extinguished again.

Duan she walked out of the main altar with an indifferent expression. Just like the previous ten, he had also failed.

Everyone heaved a sigh of relief.

Tyrant and the others also entered the arena, but all of them failed and were eliminated.

One had to know that the five retained students were definitely at the forefront of the top battle power. If even they were completely annihilated, it could only prove that there was definitely something wrong with the gods test!

Just as the situation was in a deadlock, Lin Yi appeared in the middle of the field with a flash.

Everyone's eyelids twitched.

Just as Lin Yi was walking towards the main altar, someone in the crowd spoke.

"Lin Wuju, it's best if you don't go in. You have so many halos on you. If you were to be kicked out like the others, wouldn't you lose a lot of face?"

Immediately, someone chimed in. "That's right. You might as well save some face and stand outside to watch the show like us. This way, even if someone talks about it, it's because you saw the problem with the array and gave up the opportunity to take the test. It's not a crime of fighting."

There were more than one or two people who agreed.

Lin Yi stopped and glanced at them."Are you afraid that I'll be chosen by the gods and steal your leader spot?"

"....."

Everyone couldn't help but choke.

This was their true thoughts.

On the surface, it seemed like they were doing this for Lin Yi's sake, but they had nothing to do with Lin Yi at all. They just wanted to see Lin Yi make a fool of himself, how could they be doing this for Lin Yi's sake?

They were afraid of losing, so they didn't dare to go on stage.

Therefore, in order to prevent others from succeeding and making them look ridiculous, they could only use this method to exert pressure and make others cower in fear with them.

This way, they could be at ease.

When they turn back, they could still force the Tian family to re-select the spots.

Yet Lin Yi exposed her mercilessly.

Everyone couldn't help but feel a little angry from embarrassment.

"You're really biting the hand that feeds you. We're giving you a kind warning, but you've misunderstood it as jealousy. Hehe, is this how Jianghai Academy's face looks like?"

"Go in as you wish, but when you come out with an ashen face, don't blame others for being merciless!"

"Yeah, good words can't persuade a damned ghost. You're the one who made a fool of yourself. Remember to pull up your pants when the time comes, so that you don't take the initiative to show your butt and become a joke for everyone!"

Lin Yi smiled and shook his head as he walked into the main altar.

The sacrificial fire was ignited.

The entire place fell silent.

The people outside were even more nervous than Lin Yi himself.

If the gods "test was a competition, then Lin Yi was undoubtedly the one with the highest chance of winning. He was also the one who could turn them into a joke.

They wouldn't be putting so much effort into mocking and ridiculing Lin Yi if that wasn't the case.

At this moment, only if Lin Yi failed as well would it prove that they weren't cowards, but were truly wise and farsighted!

15 minutes passed.

There was still no movement from the stars in the sky.

Everyone looked at each other and smiled.

"We've already advised him like this, but he still doesn't listen. He thinks that we're all trying to harm him and be jealous of him. There's no one else with such a petty appearance!"

"Hehe, let's see what expression he has when he comes out later! If any of you bring your phones, remember to take a picture and post it online. It'll definitely go viral!"

Tyrant and the others also looked at each other.

At this time, even they couldn't help but feel that there might be a problem with the array of the gods' test.

If even Lin Yi couldn't pass, were the gods blind?

In the end, just when everyone thought that this was the end, the sacrificial fire on the main altar suddenly soared into the sky. Immediately after, the sky changed color, and the stars in the sky instantly lit up.

The whole place was dead silent.

One star represented a God's will, and all the stars lit up at the same time. Did this mean that all the gods had chosen Lin Yi?

Was such a thing possible?

"There must be a problem with the testing formation, right? Either they don't light up, or they all light up at once. How can there be such a thing?"

The group of top-tier combat forces began to doubt their lives.

As Lin Yi walked out of the main altar with a calm expression, the mocking expressions of the top-tier combatants changed.

Then, they saw the silent broken soul pointing his phone at them, as if he was taking a video.

“.....”

Everyone was instantly speechless.

Wasn't this guy always cold and aloof? How could he still be so shameless, taking advantage of a time like this to hit someone when they were down?

However, just as they were thinking about how to regain their dignity, someone had already taken the lead and rushed to the main altar.

Then, everyone reacted, but it was too late.

In front of the secret realms "leader quota, face was nothing. Now that Lin Yi had proven it, the sky full of stars wasn't completely dark, so what were they waiting for?

However, the result was once again shocking.

Following that, another dozen or so people were completely annihilated.

Everyone's eyes fell back on Lin Yi.

He was the only one who had lit up all the stars in the sky. Who would believe that he had no problems testing the array?

"There must be something fishy here. We must jointly protest to the Tian family and publicly check the effectiveness of this testing array. If there is a loophole of secret operation, then it's too much of a scam!"

"Yeah, if the Tian family is just doing this in private, then none of us can interfere. But now, they used the name of fair competition to trick us all here. In the end, they operated in secret. What is going on?"

"They're treating us like fools!"

Lin Yi looked on coldly as the crowd grew more and more angry.

Don't be fooled by the ruckus they were making. If Tian Xiangyang himself were to stand in front of them, it was likely that not a single one of them would dare to speak out.

Who Do You Think You Are to let the Tian family deliberately play with you? do you think you have that value?

In the midst of the commotion, a middle-aged man dressed as a scholar slowly walked into the main altar with a harmless smile on his face.

Chapter 9894 The End

A moment later, a miracle happened again.

All the stars in the sky lit up again!

Everyone was stunned again.

Even Lin Yi's eyes twitched.

It must be known that if he had only relied on himself, although he could also pass this gods 'test, he would definitely not be able to make all the gods choose him. At most, he would only be able to light up a part of them.

The attack just now was actually the result of Jiang xiaoshang cheating.

However, it was impossible for the Confucian man in front of him to also have someone helping him cheat, right?

Could it be that someone's talent was so terrifying that he could obtain the unanimous approval of all the gods?

"What's this guy's background?" Lin Yi asked tyrant.

"I've taken a look at his information. He's an external expert who's been in seclusion. I think his name is Lu Taiyi, but I don't know his exact identity. I didn't expect such an expert to be hidden in Jianghai city!"

Tyrant and the others could not help but sigh.

They all valued their leader spots, and it wasn't strange for them to lose to Lin Yi, but a monster on the same level as Lin Yi suddenly appeared-it was a huge blow to their confidence.

As he spoke, the man named Lu Taiyi slowly walked out of the main altar.

Under everyone's gazes, he walked up to Lin Yi.

"I'm Lu Taiyi. I've long heard of Lin Wuju's reputation. Now that I've seen him, I can see that he's indeed worthy of his reputation!"

"Nice to meet you," Lin Yi cupped his hands.

But at that moment, Jiang xiaoshang, who was locked up in the ultimate perfect domain, suddenly laughed and said,""I was wondering how this guy could get the approval of all the gods. It turns out that he has your aura on him. Interesting!"

Lin Yi couldn't help but be surprised as he looked at the harmless-looking Lu Taiyi. He quickly asked in his mind,"What do you mean by my presence?"

"Everyone's aura is unique, just like the fingerprints in the mortal world. You should know this, right?"

Jiang xiaoshang explained with a chuckle.

Lin Yi nodded. Of course, he knew that.

When disguising as someone else, one had to imitate his aura at the same time. Otherwise, one would be exposed in front of an expert.

However, this was the gods 'test. Was such a high-end test so easy to deceive?

If this were to spread, wouldn't it be a huge loophole?

As long as one was determined, it was not difficult to imitate another person's aura for a short period of time as long as one was at the top level of combat strength.

Didn't that mean that everyone present could, in theory, light up the stars?

As if sensing Lin Yi's confusion, Jiang xiaoshang laughed, "Those gods are boring, but how can you human cultivators deceive them with these little tricks?

Your so-called imitation is nothing more than drawing a Tiger from a cat. In the eyes of the gods, it's full of loopholes, and there's no possibility of getting away with it. "

"Then what's up with this Lu Taiyi?" Lin Yi asked, surprised.

Jiang xiaoshang said with great interest, "this is not an ordinary imitation. It's a copy on the level of rules. He copied your aura. Unless the gods personally descend, they will feel that he is exactly the same as you."

Or rather, you and he are the same person. "

"Copying the rules ..."

Lin Yi said.

When he looked at Lu Taiyi, who had a harmless smile on his face, he couldn't help but feel a little displeased.

With his magnanimity, if the other party had really achieved this with his own ability, he would definitely not have any thoughts about it. He would even make friends with the other party out of admiration.

But now that he realized it, the man was no different from a thief. Even if Lin Yi didn't suffer any losses, he still felt disgusted by him.

As a result, Lin Yi didn't even bother to exchange pleasantries with Lu Taiyi, who was obviously trying to get closer to him. He only said a few words before leaving with his men.

After all, with his current status, there was no need for him to feign civility with this kind of person. It was already considered the overall situation that he did not fall out with them on the spot.

Lin Yi and the others left, leaving Lu Taiyi with an awkward face.

He did have bad intentions in approaching Lin Yi.

But logically speaking, he didn't think that he'd given himself away so far-he'd thought that Lin Yi would only be alerted after he'd entered the secret realms and made some actual moves.

She didn't expect Lin Yi to blacklist her before they even started dating.

The rest of the top-notch combatants were delighted to see this.

As a group of losers, if they saw the two winners doing well, that would be like sprinkling salt on their wounds.

Now that they saw a dog-eat-dog situation, it was exactly what they wanted.

It was a pity that the two sides didn't fight directly. Otherwise, if one of them was killed on the spot, they would have another chance.

After coming out of the secret realm, the fight for the secret realm spots had finally been settled.

The two extremely precious leader spots were taken by Lin Yi and Lu Taiyi.

As for the ten spots, Yan Zhongyuan, Wei baizhan, Qiu sanniang, Hong Baxian, and Bao shaoyou each took one, and Lin Yi's group took up half of the spots!

When this result came out, it simply blinded everyone's dog eyes.

If Ren tianer and Shen Yifan were to be included, they would have taken up 70% of the shares!

If it really reached that point, even a normal person would suspect that there was some kind of underhanded operation.

In fact, in terms of talent alone, Ren tianer and Shen Yifan were not inferior to the other five. It was just that the former had been reincarnated and had a special situation, while the latter had long been scheduled to Inherit the Wind God's legacy.

Therefore, the two of them knew from the beginning that they were only here to share the pressure with the others. They had long expected this outcome.

"Those who have obtained the quota, follow me."

After Tian Xiangyang called out, he brought Lin Yi and the others to the Tian family's exclusive Island.

Lin Yi's eyes twitched when he saw the group of people waiting for him.

They were all familiar faces.

The one in the lead was Emperor Xu Anshan, and behind him were a few of the senior ten seats of the student council!

Tian Xiangyang explained casually, "they'll be entering the secret realms this time as well. You guys should get to know each other better. That way, you'll be able to work together better."

Lin Yi and the others understood.

The Tian family had a total of three leader positions, and it seemed that the third one was reserved for Xu Anshan.

Of course, with Emperor Xu Anshan's strength and talent, even if it was not an internal competition, no one could beat him.

At this moment, someone in the crowd couldn't help but ask, ""Isn't the secret plane trial completed alone? Why do we still need to cooperate?"

In fact, this was also the doubt of most people present.

Chapter 9895-Power

Those who could come here were no strangers to the secret plane trial, and many of them had even had more than two experiences.

In the vast majority of the secret plane trials, although the trial-takers would belong to a camp, each person's task was individual. Many times, even people from the same camp could not be completely trusted, because the purpose of each other's task could be completely different.

To trust anyone in the trial of the mystery Land was undoubtedly an act of courting death.

This was almost common knowledge among the top cultivators.

Tian Xiangyang waved his hand, and the Grand Elder Tian Yunkai stepped forward to explain, ""Zhu Shen secret realms are different from any other secret realms. The size of this secret realm is beyond your imagination.

It wasn't an independent arcane realm as the conventional knowledge had it, but a public space that connected all parties.

And our Tian family only controls one of the intersections. "

Everyone was collectively stunned.

"That means there are other exits. Other than our group, there will be other participants from other places. Is that what you mean?"

"That's right. According to past experience, each intersection is connected to a different region, including the outer realm."

Everyone looked at each other.

Even though most of them had never been to the outer realms, there were many experts in the outer realms. This was a common understanding among all of Jianghai city's people.

Although Jianghai city was huge, it was not an exaggeration to say that it was a small pond when compared to the outer realms.

After all, in the legends, there were countless powers on the scale of Jianghai city in the outer realms.

"If everything goes as expected, the same intersection represents the same camp, and you will receive the same Camp Quest. If you want to go against the other camps, your only choice is to cooperate with each other sincerely." Tian Yunkai continued.

He looked at Xu Anshan, Lin Yi, and Lu Taiyi as he spoke.

After all, only these three leaders had top-tier combat power.

Especially since Xu Anshan and Lin Yi had brought a group of people with them. Their attitude would decide the overall situation.

"We'll have to see what kind of collaboration it is." Lin Yi and Xu Anshan looked at each other.

There were many grudges between him and Xu Anshan.

There were constant conflicts between them, but Xu Anshan had personally come out and brought him back from Nanjiang Prefecture prison to express his goodwill.

The most important thing was that they had never fought face to face before, so they lacked the most intuitive understanding of each other's strength.

Their positions were naturally conflicting, and they lacked an intuitive understanding of each other. It was not easy to cooperate.

Ji Chi, the fifth-ranked student of the Academy, snorted coldly. "Our newcomer King is really imposing! This kind of thing, of course, only the strong will be respected. You can just listen to our chief directly, why talk about cooperation mode!"

Everyone's expression changed slightly.

Lin Yi was indeed the newcomer King, but it was rare for people to talk about him anymore-they'd still have to call him Lin Wuju.

With Lin Yi's current level, the fact that he was still using the newcomer King as an excuse meant that he was denying Lin Yi's position and strength. It was a provocation!

Everyone thought that Lin Yi would react.

But in the end, Lin Yi only looked at Xu Anshan indifferently and didn't have any intention of talking to him. He completely ignored Ji Chi's existence.

Everyone couldn't help but look amused.

At this moment, being ignored was the greatest form of contempt.

Ji Chi said that he had no right to bargain with Xu Anshan, and Lin Yi's attitude made it clear that Ji Chi, the fifth seat of the Academy, didn't even have the right to speak to him.

“.....”

Ji Chi's face turned red under everyone's gaze.

Back when Lin Yi first entered the school, he didn't even have the right to enter his field of view. He wasn't even qualified to be a chess piece.

But now.

He was still a peak late phase of Great Perfection, and was the high and mighty fifth seat of the Council, but in everyone's eyes, he'd lost the right to speak to Lin Yi on equal terms.

Even though Lin Yi was only a Big Shot in the late stage of completion.

The situation was a little awkward.

In the end, it was the fourth seat of the Academy, Song Jiangshan, who came forward to smooth things over. "It's a win-win situation. Since we have the same mission, it's better for us to work together.

After all, it's a rare opportunity, and if we return in defeat from the secret realms, everyone will be embarrassed. What do you think, Lin Wuju?"

Lin Yi had always had a good impression of Song Jiangshan, so he didn't reject his request. He nodded, "As long as we can cooperate, I will definitely cooperate. However, we have our own ideas, so don't expect us to follow orders unconditionally."

"That's natural. "

Song Jiangshan didn't expect Lin Yi to listen to him.

After all, they were on different sides, and to a certain extent, they were competitors. It was already rare for them to be able to maintain a cooperative attitude on the surface.

Tian Xiangyang didn't say anything as he watched this scene.

Xu Anshan was a core figure in his faction, and Lin Yi had a close relationship with him. If he asked, both Xu Anshan and Lin Yi would do it.

However, it was precisely because of this that he remained silent. This was also where he was smart in using people.

As a superior, he could naturally give orders to his subordinates.

However, every order was actually consuming favors, especially for someone like Lin Yi, who wasn't raised from the start. Once the favors were used up, they would basically go their separate ways.

Good steel should be used on the blade.

Hence, from the first time they met, he never went against Lin Yi's will.

In this situation, even if Lin Yi made it clear that he was at odds with Xu Anshan, he wouldn't interfere. This was the shrewdness and pattern that a real leader should have.

Seeing this, Tian Yunkai continued, "in addition, I have to remind you that our Tian family is a big tree that attracts the wind. Since you are entering from our intersection, you must be prepared to be targeted by the other camps. I'm not trying to scare you. I wish you all good luck!"

Everyone looked at each other and nodded in silence.

The benefits of the secret realms were huge, but so were the risks. If they didn't have this awareness, they wouldn't even be qualified to stand here.

After a short three days of rest, everyone regrouped.

Under Tian Yunkai's guidance, everyone set off from the core of the Tian family's base and entered the secret realms through the transmission channel.

Just this method of entry itself was already different from the other secret realms.

The entrance and exit of other secret realms basically represented personal tokens with clear control of the secret realm. However, the Tian family's one was a proper transmission channel.

It could be seen that Tian Yunkai's words were true.

The secret realms were actually a neutral space that was connected to the origin world. To a certain extent, they were actually part of the origin world, but they were used as a special transportation hub.

Chapter 9896 Power

After coming out of the tunnel, everyone, including Lin Yi, felt their bodies sink.

"Could this be the legendary pressure of the gods?"

Someone couldn't help but exclaim.

The invisible pressure was so heavy that it almost suffocated these high-end combat forces!

If it was a cultivator of a lower realm, he would probably be crushed on the spot!

Hong Ba frowned and reminded him. "With such a heavy divine pressure, I'm afraid we can only use 30% of our full strength at most. If we don't get used to it quickly, we'll suffer a great loss."

Everyone nodded in agreement.

In this state, if he still habitually used the original standards to measure, once he encountered a dangerous situation, he might be screwed to death.

Fortunately, since everyone was able to come to this place, they were destined to have their own extraordinary aspects, all of them at the peak of their respective levels.

After a short while, everyone had adapted to it.

With only 30% of his usual strength, this feeling was naturally not wonderful, but fortunately, they were the same, so they did not lose their minds.

At the same time, a message appeared in everyone's mind.

[Faction mission: within 10 days, choose one of the three altars of the God of heaven, God of Thunder, and god of fire and guard it for a day and a night.]

From the beginning to the end, there was only this one sentence.

There was no notification of the mission success reward, and no notification of the mission failure punishment.

Everyone could not help but look at each other.

The more this was the case, the more people didn't dare to take it lightly. If they failed the mission, they would be directly killed on the spot, and that wouldn't be fun.

"We have to choose one of the three altars. Since they want us to guard it for a day and a night, it means that the enemy's strength can not be underestimated. For safety's sake, we must unite our forces."

The fourth seat of the Academy, Song Jiangshan, looked at the crowd and said, ""The question now is, which altar should we choose?"

Everyone looked at each other, speechless.

We don't even know where these altars are. How do we decide?"

At this moment, Xu Anshan suddenly threw out a map and said with an indifferent expression, ""This is the map information gathered by the trial-takers of previous generations. It may not be completely accurate, but it has enough reference value."

Everyone's spirits were lifted.

Although the map's scope was not particularly large, only about a hundred miles in radius, it was more than enough for a normal secret realm, but in this Zhu Shen secret realm, it could only be considered a corner.

However, it had covered the locations of the three mission altars.

"From the location, the heavenly deity altar is the closest to us. It should be on the peak of a mountain, which is more suitable for defense. The other altars, be it the Thunder God altar or the fire god altar, don't have such an advantage."

Song Jiangshan gave a simple comment and turned to Xu Anshan, Lu Taiyi, and Lin Yi, "What do you three think?"

No matter what, the decision would definitely be made by the three top-notch combat forces, and the rest of the people could only obey.

This was a tacit understanding that was self-evident.

"I don't care," Lu Taiyi said with a smile. "It's up to you two to decide."

Everyone secretly nodded. This was a tactful master.

He was a top-tier fighter, but compared to Xu Anshan and Lin Yi, he was much weaker, not to mention he was alone.

If he really forced himself to make a decision, he would be slapped in the face in minutes.

"The heavenly deity altar," Xu Anshan said.

Everyone's eyes turned to Lin Yi, but considering his attitude earlier, they probably wouldn't object.

After all, from a logical point of view, the heavenly God altar was indeed the best choice. He had no reason to go against Xu Anshan on this.

But Lin Yi said after a moment of silence, "I just used the time law to look into the future. The risk of the heavenly God altar is extremely high. I suggest we change to the fire god altar."

"....."

Everyone looked at each other.

Standing behind Xu Anshan, Ji Chi snorted and questioned, ""Who knows how reliable your so-called vision of the future is? if you want us to listen to you, you have to at least show some convincing evidence, right?"

"No evidence." Lin Yi shook his head.

He really didn't have any evidence. Although it wasn't like he couldn't use what was going to happen in the future as evidence, he only had a total of ten days, and he couldn't afford to waste it.

Moreover, it would be too late by then.

"What are you talking about?" Ji Chi sneered. "You have no evidence!"

The crowd was skeptical and turned to look at Emperor Xu Anshan.

Xu Anshan glanced at Lin Yi, ""There are countless possibilities in the future. If you only see one, it might not become a reality."

"I've seen more than one. "

Lin Yi corrected indifferently before changing the topic, "However, the few possibilities that I've seen might not necessarily come true. However, from the perspective of avoiding risks, I still suggest the fire god altar."

Xu Anshan looked at him indifferently.

It was like a guilty Emperor being examined-Lin Yi felt an invisible pressure on him.

Fortunately, his current strength was there. Otherwise, if it were anyone else present, they would have knelt down on the spot uncontrollably.

The atmosphere in the room instantly became stagnant.

"I choose the heavenly God altar."

Xu Anshan's tone was indifferent, but it carried an unquestionable air.

Lin Yi shrugged helplessly. "If that's the case, then it's over. I can't bring my people to risk it with you. People will die."

If he was alone, it would be fine to take a little risk. After all, wealth came from danger.

But now, with Yan Zhongyuan and the others, he had to avoid all unnecessary risks as much as possible. This was the awareness that a qualified boss should have.

"Hmph!" Xu Anshan snorted. "If you disobey my orders, you'll have to pay the price. Are you ready?"

After he finished speaking, he activated his Emperor domain.

Everyone who was in the middle couldn't help but feel a sense of submission.

Some people tried to resist, but they were directly pressed into the ground, unable to see the light of day.

A qualified Emperor needed to be humble and accept admonishments, but once the emperor's will was made, everyone had to obey it.

Otherwise, they would be considered treasonous, treacherous officials, and would have to accept the emperor's Holy judgment!

"What a King!" Lin Yi grinned.

As he spoke, he took a step forward, and the emperor's pressure on him instantly disappeared.

Ji Chi and the others' eyelids twitched.

They had personally experienced the terror of the emperor's pressure. Even the veteran top ten Masters, the best among the high-end combat forces, might not be able to completely resolve it even if they used all their strength.

Yet, it was so easy for Lin Yi.

The difference in their levels was obvious.

Chapter 9897

Ji Chi wasn't convinced by Lin Yi before, thinking that Lin Yi had a weak Foundation and all his exaggerated achievements were exaggerated. He might have a chance if he were to fight him.

However, looking at the scene in front of him, the unrealistic self-confidence in his heart was directly crushed.

He was thinking too much!

At this moment, no matter how unwilling he was, he had to accept a cruel reality.

Lin Yi and him were people from two different worlds.

Xu Anshan wasn't surprised at all. If Lin Yi didn't even have this level of skill, where did he get the right to fight him?

He raised his right palm slightly, and a huge and majestic Emperor's shadow appeared behind him.

Lin Yi raised a brow-he saw the auras of the Three Sovereigns and Five Emperors in the emperor's projection!

As expected of a man who was born to be an Emperor.

Xu Anshan's palm hit Lin Yi right in the face, and the force of the palm hit him in the face.

However, standing in Lin Yi's position, what he felt wasn't an ordinary attack, but the strength of an entire Empire!

He had never seen such a heavy and invincible force in his life.

Let alone Lin Yi himself, even the spectators who were only slightly affected by the shockwave prostrated themselves on the ground.

The weight of the common people's society and country was so heavy!

There was a loud explosion.

As the dust settled, Lin Yi didn't collapse as everyone expected. He was still standing in the same place, but there was a mysterious and powerful black bone armor on his body.

The extreme transformation of the five elements, the form of the tyrant Buddha.

Everyone was dumbfounded.

Xu Anshan's indifferent eyes flashed with a hint of surprise.

It wasn't surprising that Lin Yi could take the palm of the Emperor, but he was surprised that Lin Yi could take it so calmly.

Under the black armor, Lin Yi's eyes shone with a strange light as he looked at Xu Anshan, ""If you really want to fight, I'm willing to play with you."

There was a hint of unconcealable excitement in his calm tone.

There was no doubt that Emperor Xu Anshan was the strongest opponent he had encountered so far. Even the Heavenly King Mu Shen of the city Lord's mansion was inferior to him.

Banshi Luo had once evaluated that this person's strength was extremely close to the Super top level. Emperor Xu Anshan was publicly acknowledged as the top combat power ceiling.

Even though Lin Yi's name was very popular because of his insane battle record, he was still a little weaker than Xu Anshan in the mainstream's perception.

If he could get past Xu Anshan, it would be a qualitative change for Lin Yi. It could even change the structure of the entire Jianghai College's top class.

However, Xu Anshan had no intention of responding to Lin Yi's battle intent.

"Then let's go our separate ways."

Xu Anshan turned around and left after leaving this sentence. The group of senior ten seats of the Academy immediately followed after him.

The rest of the high-end combat forces looked at each other and finally chose to join the team.

Compared to Lin Yi, they obviously trusted Emperor Xu Anshan more.

Since he was destined to cling to someone's thigh, he naturally had to cling to the thickest one. This kind of simple logic was often more effective in the absolute majority.

Soon, there was only Lin Yi's group left, and they seemed a little weak.

"Lu Taiyi seems to be acting alone," Hong Baxian reminded him.

As one of the three top combat forces, Lu Taiyi's many years of experience told him that he should not be underestimated, even though he had not been noticed from the beginning.

Lin Yi nodded.

He had been paying attention to this person's every move. If he left with Xu Anshan and the others, he was even prepared to warn Xu Anshan.

However, there was no need for that now.

"If I had known this would happen, I would've memorized the map. What a born Emperor! He didn't even leave a map for us. How stingy." Qiu sanniang sighed.

Lin Yi smiled, "you're wrong. When he turned around, he projected the entire map into my mind. It was very comprehensive."

"As expected of an Emperor, you're a very particular person!"

Qiu sanniang's face lit up with a smile, "Since he gave us the map, I won't settle the score with him for crushing us just now."

"Then he really has to thank you properly," the crowd said.

At this time, Wei baizhan suddenly asked, ""If he had continued to attack, what would you have done, boss?"

Lin Yi looked at him with a half-smile, "What do you think?"

From a rational point of view, it was not a wise move to start an internal conflict with Xu Anshan as soon as they entered.

However, sometimes, if one were to remain rational, many things would be difficult to do.

In Lin Yi's eyes, reason was just a method, not the end.

"Time is limited. Let's head to the fire god's altar now."

Lin Yi shared the map information to everyone and led the way, with everyone following closely behind.

"Strange, why are there so many darkness magical beasts?"

After only half a day, everyone noticed something unusual.

Different from other secret realms, the things in secret realms were not created by the thoughts of gods, but real existences like the main world.

It was not strange for all kinds of spirit beasts to appear in this place.

But all along the way, Lin Yi's spirit sense only detected darkness beasts-it was too strange.

It must be known that compared to ordinary spirit beasts, the darkness demon beasts had their own lineage, and rarely appeared in the areas where human cultivators were active.

It was barely understandable for a few to appear.

But within the range of Lin Yi's spirit sense, there were at least a hundred dark beasts. This was obviously not a rare occurrence.

"Could it be that even the secret realms have been invaded by the dark Demon beasts?"

The thought had just appeared in Lin Yi's mind when he suddenly had an idea. Without any warning, he turned into his tyrant Buddha form and punched the ground.

The people behind him were confused.

Then, the ground beneath their feet cracked open, and the corpse of a thousand-meter-long giant centipede was exposed. It had died peacefully.

Everyone was dumbfounded.

Hong Baxian couldn't help but ask, "this is a darkness magical beast?" Its strength is probably at the peak of the late stage of the consummate level of a Big Shot. It's able to hide its aura so tightly despite its huge body. If it were to suddenly attack us, we'd be in deep trouble. "

Everyone nodded in fear.

It was fortunate that Lin Yi was here, otherwise the five of them would've been in a tough battle with the giant centipede alone.

After all, it wasn't the only darkness magical beast here.

If they caused a huge commotion and the darkness magical beasts gathered from all directions, they would have no chance of survival with their strength.

And this was the importance of being a leader.

Chapter 9898 Power

In fact, even though Lin Yi's entire killing process was so Swift and clean, it still attracted the attention of the nearby Dark Demon beasts. Several powerful auras were already closing in on them.

"Clean up. This guy has a lot of good stuff. Don't waste it."

Lin Yi said with a smile as he sent out a group of domain clones to attack in all directions.

For a time, there were terrifying sounds of collision everywhere, accompanied by the wails of many darkness magical beasts.

Everyone looked at each other.

One person was an Army-this saying was true when it came to Lin Yi.

Although there were quite a few darkness magical beasts in the vicinity, it was unlikely that he would be able to kill them all.

"This is really unreasonable."

Wei baizhan clicked his tongue in admiration. He'd experienced the power of Lin Yi's clones before.

A normal practitioner's clones weren't even worth mentioning when compared to the real one, especially Lin Yi's whole bunch of clones. They didn't even have one percent of the real one's strength, and at most, they could only confuse and harass him.

But Lin Yi's domain clones were completely different. Not only were there a ridiculous number of them, but they were also ridiculously strong.

They couldn't compare to Lin Yi's main body, but the weakest one had ten percent of Lin Yi's strength. Lin Yi just had to spend a little bit of time controlling them, and it was enough to fight them all.

If it was Lin Yi's strongest clone, he could even make them unable to raise their heads. Only little du Wang, who was also a top-tier warrior, could handle it easily. He was a freak.

However, there was a disadvantage to using clones.

Using it for a long time was too much of a burden on his spirit, and it might even leave irreversible damage to his spirit. So unless it was necessary, Lin Yi didn't usually use the Army of clones.

And now, it was time to put it to good use.

With Lin Yi's Army of clones clearing the way, the clearing efficiency was shocking.

Even if he did run into a couple of tough guys, Lin Yi only needed to flash over and he'd be able to kill them all in one move.

Without a Big Shot at the peak of the final stage to hold the fort, this group of Dark Demon beasts wouldn't be able to stop Lin Yi's advance.

Of course, Yan Zhongyuan and the others were not idle.

The corpses of the darkness magical beasts were all precious treasures that couldn't be bought on the market. Although he couldn't move them all, he could still cut off their most valuable parts and bring them away.

It wasn't an overstatement to say that even if they failed the quest, the rewards they had obtained were already worth it.

At the same time, Lu Taiyi, who was acting alone, was in trouble.

If it was just a group of high-level darkness magical beasts, they would naturally not be a real threat to him.

However, the problem was that there was a man in green standing on the back of the giant bull.

An apex expert at the pinnacle of perfection!

Lu Taiyi was shocked.

If the other party was just an ordinary top-notch combat power, he would not have taken it to heart. However, the Holy and strange aura that the other party was exuding reminded him of the most terrifying group of people in the legendary secret realms.

The gods walked.

It was rumored that the gods had each chosen a group of powerful agents in the human world, and they would deal with all the matters of the gods in the human world, big and small. These people were called The Walking of gods.

Seeing Lu Taiyi's fearful expression, the green-robed man smiled nonchalantly, ""You seem to have already guessed my identity."

Lu Taiyi forced himself to remain calm and said, "I don't think I've done anything that offended the gods. I don't think I need you, The Walking of gods, to deal with me, right?"

The green-robed man chuckled. "Don't misunderstand. It doesn't matter if you offended the gods or not. This doesn't affect me from killing you. After all, I'm The Walking of the God of killers. Killing is my job."

The God-killing Walker?

Lu Taiyi's heart sank to the bottom of the valley. He could not help but think of the tragic scene of the God of Slaughter, Bai Qi, killing 400000 soldiers. And that was what he did before he became a God.

One could only imagine what would happen after he became a killing God.

Since the person in front of him was a believer of the God of killing, he didn't need a reason to kill, because this was the meaning of his existence.

If Lu Taiyi had encountered any other walk of gods, he would have been confident that there was still room for him to turn things around. However, now that he had encountered such a person, he could only say that his face had darkened to a certain level.

The green-robed man appreciated the change in his expression and laughed, "Do you think you can survive if you encounter other gods' employees?"

Don't be naïve. This time, the higher-ups have given an order. You, this batch of trial-takers who came in from the entrance of the Tian family, are the common mission target of all The Walking of gods.

This is a rare faction quest. You guys are all going to die. "

"....."

Lu Taiyi's hair stood on end.

His first reaction was to wonder if the gods had found out that he had copied Lin Yi's aura.

If not for this, the Tian family wouldn't be so angry and targeted by the gods, right?

"Although I don't have the habit of making people leave their last words, you seem to know a lot of things. It would be a pity to kill you just like that."

The green-robed man paused. "How about this? I'll give you a chance to sell out your companions. You just have to tell me where the others are. After I'm done killing, I might let you live a little longer."

From his words, he did not treat Lu Taiyi as an opponent of the same level. It was as if he could kill Lu Taiyi if he wanted to.

"You want me to betray my companions?"

Lu Taiyi couldn't help but show a strange expression. ""What's wrong? Do I look like that kind of person?"

The green-robed man looked at him as if he was looking at an idiot. "The first thing you need to learn to become a walking of gods is to read other people's minds. Do you think it's useful to pretend in front of me?"

Without waiting for Lu Taiyi's reply, he suddenly kicked the giant bull towards Lu Taiyi.

Lu Taiyi's eyelids twitched as he felt the terrifying killing intent.

A familiar black bone armor suddenly covered his entire body. He threw a punch at the giant barbaric bull and dismembered its corpse on the spot!

This giant barbaric bull was a darkness magical beast at the peak of the late stage of the consummate level. In the end, it didn't even have the chance to struggle from the beginning to the end when it fell into the hands of these two people, and it died with grievances.

If Lin Yi was here, he would've realized that Lu Taiyi was using his own tyrannical Buddha form!

Pa! Pa! Pa!

The green-robed man clapped his hands nonchalantly, "Not bad, not bad. You do have some strength.

I'll say it again, if you ever want to sell out your teammates, I'll welcome you at any time, but you'd better not pretend for too long, because I'm afraid I might accidentally kill you. "

As soon as he finished speaking, the green-robed man's figure flashed and he appeared behind Lu Taiyi in the next instant.

Chapter 9899 Power

God Killer backstab!

Lu Taiyi felt a chill run down his spine and he quickly turned into a black shadow to avoid it.

In the end, the other party followed him like a shadow. Before he could even move ten meters, a palm had already struck his back!

The indestructible black armor instantly shattered into pieces.

Lu Taiyi vomited blood on the spot.

Without his five-time growth-shackled physique, his tyrannical Buddha form couldn't compare to Lin Yi's true body, but it was still no small matter!

In the end, in front of this person, he couldn't even last one move. It was simply inconceivable.

Escape!

Lu Taiyi made the right choice immediately. He opened a crack in the void and jumped in without saying anything.

This was obviously a copy of Lin Yi's spatial ability.

In order to ensure that he could escape, he left a message for the other party before entering the spatial Rift.

"Fire God's altar?"

The green-robed man laughed disdainfully. He looked in the direction of the fire god altar from afar and said, ""Six heads? Hehe, it's barely enough for me to play with, but it's still a little too little. "

Although all of The Walking gods had a common camp mission this time, there was competition between them. The more heads they got, the more generous the final reward would be.

Killing people was his old profession as The Walking killer god. How could he lose to the other half-baked people?

Fire God's altar.

He relied on his clone army to push his way through. Lin Yi and the others arrived at their destination.

"As long as we wait here for a day, we can pass. It doesn't seem very difficult."

Qiu sanniang walked around the area.

The altar wasn't that big, and if it was only surrounded by the dark beasts, it would be a waste to Lin Yi and the others.

Of course, this was just a casual remark. If things were really that simple, it wouldn't be called a secret realm of gods but a secret realm of free.

"Don't rush in, let me take a look first. "

Lin Yi tried to see through it with his time rule power.

Due to his limited control over the rules, the information he could see about the future was very limited. And just as Xu Anshan had said before, the future he saw might not come true.

In fact, even Banshi Luo could not see a certain future.

This was because everything he was doing now was bound to change the future. Even if he did not do anything unnecessary after reading it, just simple observation could cause earth-shaking changes.

The only thing that could be certain about the future was the uncertainty of it.

However ... In the end, he could still get some general clues.

After a while, Lin Yi came back to his senses and said to everyone, "Once we enter, the offering flame will automatically ignite, and all the darkness magical beasts within a hundred miles will be attracted over. There are several Almighties at the level of the consummate level, so you must be mentally prepared!"

Everyone's expression turned serious and they nodded.

One of the most important reasons why they had been able to travel so easily was that they hadn't encountered any darkness magical beasts at the consummate level of the big shots. Otherwise, even if they had been able to pass, they would have had to pay a price.

As everyone knew, at the same realm, human cultivators were generally weaker than spirit beasts, and spirit beasts were weaker than the darkness demon beasts.

If there really was a complete darkness demon beast, especially if there was more than one, even Lin Yi would have a hard time dealing with it.

However, Yan Zhongyuan and the others weren't useless. They might not be able to handle it one on one, but if they worked together, they could help Lin Yi take some of the pressure off him.

He stepped into the fire god's altar, and the sacrificial fire above him soared into the sky.

Sure enough, almost instantly, everyone felt a sense of oppression as if there was a dagger on their backs.

All the darkness magical beasts within a hundred miles were like sharks that had smelled blood. They immediately went berserk and charged toward the fire god altar from all directions.

Lin Yi used his spirit sense to sense everything that was happening around him, and he couldn't help but feel something strange.

"A darkness demon beast at this level should have intelligence comparable to human cultivators, but the intelligence they're showing now is even lower than some of the lower-level spirit beasts!"

Everyone had the same feeling.

Hong Baxian speculated, 'could it be because of the suppression of the divine might? The pressure of the gods has limited their intelligence?"

"It's possible. "

Lin Yi nodded. The divine might not only suppressed their strength, it also suppressed their essence spirit.

However, the primordial spirit of humans was naturally powerful. Even if it was suppressed, at most, it would not be able to use some of the primordial Spirit's abilities, and it would not affect one's intelligence.

But those darkness magical beasts were different.

Other than a few special existences, the primordial spirits of darkness magical beasts were generally very weak. If they were slightly pressured, they might really become mentally retarded.

This was the only way to explain everything that had happened.

Soon, the closest group of darkness magical beasts had arrived and started to attack the fire god altar.

Everyone tacitly took their respective positions.

This was going to be a long battle, and Lin Yi couldn't continue fighting alone. He needed to save his energy for the real trouble.

For example, the dark Demon ape with the stick.

This was the first darkness magical beast that they had encountered. Just the materialized baleful Qi that it exuded was enough to force the other darkness magical beasts to retreat.

Wei baizhan had only tried to exchange a single blow with it, and was almost killed instantly. It was all thanks to Lin Yi's support that he was able to escape in time and save his life.

Even with the five elements extreme tyrant Buddha's form activated, Lin Yi couldn't kill it easily.

The two sides were actually fighting back and forth.

Hong Baxian and the others couldn't help but look at each other.

Fortunately, under the suppression of the gods' pressure, this guy didn't have much spiritual intelligence to speak of, and he was almost fighting purely by instinct. Otherwise, if he used some strategies, his threat to everyone would definitely multiply, and it would be really unimaginable.

But even so, the situation was still not optimistic. This was because other than this darkness demon ape, there would soon be a few other darkness demon beasts at the consummate level of the final stage joining the battle!

Under the suppression of the gods' auras, it was already very difficult for Yan Zhongyuan's group to deal with a large number of high-level darkness magical beasts.

And if any of the top-tier darkness magical beasts attacked them, this fragile balance would be broken.

Luckily, Lin Yi still stood up at the crucial moment and used his clones to pull away the hatred of all the top-tier dark beasts.

Soon, other than the dark Demon ape, a dark blood Python, a dark kui, and an eight-winged Ghost Dragon also joined in the attack.

Chapter 9900 The End

For a time, the situation was dangerous.

Any one of these four could destroy a whole city if they were thrown into Jianghai city. Even the top-tier combat forces could only count on their fingers to take them head-on, but they were all attacking Lin Yi like crazy.

Even Lin Yi was under a lot of pressure.

However, the more he pulled, the more it stimulated his body's potential. The opponents he'd met before weren't strong enough, and in fact, Lin Yi hadn't really developed the physical limit of five times.

This was a great opportunity.

At the same time, Yan Zhongyuan and the other four would also be able to strengthen their Foundation as big shots at the late stage of the consummate level under the continuous attacks of the dark demonic beast tide. They would be able to accumulate more resources for the next step.

At this rate, Lin Yi wouldn't be surprised if one of them suddenly broke through.

This was a difficult trial for everyone, but as long as they could survive it, even if the huge benefits of success were not mentioned, the process alone was enough to make everyone reborn.

"Oh? You're quite skilled. "

The green-robed man was already standing on top of a darkness magical beast's head, and he was watching the battle from afar.

They were less than ten li apart.

However, even with Lin Yi's spirit sense, he couldn't detect his existence.

This was not because his ability to hide his aura was brilliant, but because the existence of the gods' pressure was naturally an impeccable cover for the employees of gods.

As the spokespeople of the gods in the human world, they could perfectly integrate with the pressure of the gods. The entire secret realm was a unique home ground for them.

The man in green paid attention to Lin Yi first.

Although Yan Zhongyuan and the others were powerful existences in their own realms, they weren't even qualified to make him look at them. At most, they were just five heads that he had given for free.

Lin Yi was the only exception.

One against four, he was able to withstand the crazy attacks of four darkness magical beasts at the consummate level of the pinnacle stage. Such a magnificent feat was truly beyond the imagination of

ordinary top-notch battle prowess. In fact, even the green-robed man himself couldn't have done this before he had officially become the killing God's employee.

The key was that Lin Yi was only at the late stage of completion!

"Such a genius guy, he really makes me unhappy."

Killing intent rose in the green-robed man's heart. Although he was now Asura's follower and thought that killing Lin Yi was as easy as killing a chicken, the huge difference in strength between him and Lin Yi still made him feel unbalanced.

In fact, there was a hidden worry in the depths of his heart.

This kid was already so fierce. If he got the inheritance of the gods, or even became an agent of the gods, how terrifying would he be?

The Walking of gods was just an identity and a profession, and there was a difference in strength between them. Although he was not considered weak among The Walking of gods, he could not be compared to the real top monsters.

Lin Yi, on the other hand, couldn't hide his top-tier monster aura at all. Once he became the spokesperson of some God, he'd be able to reach the sky in a single step and step on him.

This kid must die!

However, the more this was the case, the more the green-robed man restrained his killing intent.

He didn't plan on making a move immediately. As Asura's Walker, he looked down on these normal practitioners. Everyone, including Lin Yi, was just prey waiting for him to kill.

But this didn't mean that he would really underestimate his enemy.

On the contrary, as the peak of the assassin profession, the killer God's Wayfarer attached more importance to each kill than anyone else. Compared to him, everyone else was just a layman, and only he was the most professional.

"Four berserk, consummate-level darkness-type magical beasts. This should be enough to force you to use all of your trump cards, right? Hehe, there's no rush. We'll take it slow. "

The green-robed man sat down calmly.

As long as no other gods came to kill him, he had the home field advantage and didn't need to rush. After all, these dark beasts were the same as Lin Yi-they couldn't sense his presence at all.

He could totally sit on the mountain and watch the Tigers fight, and then have a Sandpiper and clam fight each other at the end, reaping the benefits!

As expected, all of Lin Yi's trump cards were quickly revealed to him.

He had a strong physical body that had broken through the shackles of growth five times, including all kinds of powerful killing moves of the five elements in the form of the tyrant Buddha, and abnormal primordial spirit moves such as the explosion of divine sense.

And most importantly, the rule power of time and space!

The only thing he didn't use was the wind rule bending power. It wasn't that Lin Yi was hiding his trump card, but his control over the wind rule bending power was too low, and its power was limited. It didn't even hurt these four Dark Demon beasts, and it was a waste of energy.

At the end of the day, in front of these four berserk dark beasts, Lin Yi would have to use all his strength if he wanted to survive.

Even so, there were a few times when he barely escaped death, and one time, he even got half of his body knocked off by the dark Demon ape. If it wasn't for the five elements reversal, he would've died on the spot!

The green-robed man looked at this scene from afar and sneered, ""Have you reached your limit? I thought you could at least kill one or two of them, but it seems I've overestimated you. "

At least in his eyes, Lin Yi was giving it his all. Who would hold back in the face of life and death?

A hidden trump card? It simply did not exist.

Just as the green-robed man was about to make his move, a sudden change occurred.

Without any warning, Bao shaoyou was suddenly enveloped by a raging fire. This flame was extremely hot, and wherever it passed, circles of space ripples appeared.

This was a sign that the secret plane was being burned through!

"Save them!"

Yan Zhongyuan and the others reacted and quickly helped. However, their power couldn't reach Bao shaoyou at all. It was devoured by the fire as fuel.

Even the spatial barriers of the secret realms were burned through by it. With their current power level, they could not interfere with the trajectory of the fire at all.

If they were not careful, even they themselves would become fuel and be burned to death!

Everyone couldn't help but have a serious expression. They looked at the darkness fire Toad that was closest to Bao shaoyou and frowned. "It's clearly a darkness fire Toad at the peak of the late stage of the consummate level. How can its flames be so terrifying?"

"This isn't its ability."

Lin Yi's voice resounded in everyone's consciousness.

At the same time, as if to prove his words, the giant Dark Flame Toad at the peak of the late stage of the consummate level was suddenly captured by the raging flames. It was immediately burned to ashes in an instant, leaving not even the slightest residue.
