

Bodyguard 9971

Chapter 9971

Which of the experts at the consummate level of a Big Shot wasn't proud and arrogant? this was especially so for the people present. As an expert at the consummate level of a Big Shot with top-notch battle prowess, unless it was absolutely necessary, who would be willing to give up?

Chu jingchen's timing could not be said to not be vicious!

No matter how many elite fighters there were in the main house, if he could defeat all of them in one fell swoop, he would be able to soar to the top and dominate a region with just his apostles!

"I think it's more than that," Lin Yi said.

"Yes, yes. Other than trying to earn a batch of apostles with great potential, I'm also planning to make a fortune. Jianghai college has been running for so many years, it must have a lot of money ..."

Chu jingchen laughed maliciously.

Lin Yi looked at him coldly. "Taking advantage of the situation. You're not the only one with this idea, right?"

Chu jingchen hurriedly replied,"that's for sure. Every time something happens to a Lower Academy, it's a chance to make a fortune. Who knows how many people are eyeing such a lucrative position? I also paid a huge price and got in through the connections of the higher-ups in the main Academy before I got it."

"So this isn't the first time something like this has happened to a lower tier school?" Lin Yi asked, surprised.

"It's not the first time. This kind of thing happens often, especially for those lower-level schools that don't accept direct supervision. Sooner or later, they will end up like this. The main school has already formed a huge net of interests. "

Chu jingchen lowered his voice out of habit."I don't know how many people depend on this business to make a living."

"One million caogong, food and clothing department."

Lin Yi could only laugh in response.

Prior to this, he had held some expectations for the so-called Superior School. He had assumed that it was a Holy Land for cultivation that was even higher than Jianghai Academy.

If there was a chance, or if things in Jianghai were really not going well, he really had the idea of bringing people to seek refuge with the main house.

Now that he thought about it, he could not help but break out in a cold sweat.

According to the temperament of the people in the main courtyard, if he really brought people there, it would be no different from sending sheep into the Tiger's mouth. At that time, not only would he not be able to settle down, but it would also be difficult to keep his personal freedom. He could only be a dog for others.

In fact, even being a dog was a luxury.

"If you want to go to the main courtyard in the future, I'll still be of some use. What do you think?"

This time, Chu jingchen finally understood his position and lowered his attitude to an unprecedented level. He didn't say what he was thinking, but at least he was clear about one thing.

The situation was stronger than the person.

"I can spare your life, but you'll have to ask your neighbors if you can stay here in peace."

Lin Yi smiled. He didn't have any plans to go to the main house anymore, but if he went to the outer realms in the future, this guy would at least be of some use.

"Neighbor? What neighbor?"

Chu jingchen was stunned.

But very quickly, he heard Jiang xiaoshang's mocking voice,""Finally, someone is here to accompany me. I don't have to be bored anymore. Let me introduce myself. My name is Jiang xiaoshang, your senior."

"Senior? Who the F * ck are you to be so arrogant in front of me?"

Chu jingchen instantly returned to his arrogant self.

He couldn't do anything now that he'd fallen into Lin Yi's hands-the thing was, Lin Yi's unknown Whirlpool of methods was terrifying, and he had no choice but to accept it.

But even so, he, Chu jingchen, was still a dignified half-step venerable, a high and mighty figure from the main courtyard. Even if he was in dire straits, he was not someone that ordinary people could afford to provoke!

"Oh? And he has a temper too. That's good, we'll have some fun now. "

Jiang xiaoshang appeared with a chuckle.

Sensing his aura, Chu jingchen's heart settled down. ""You're just an ordinary Almighty at the consummate level of the final realm. You actually dare to act mysterious in front of me? You really don't know what's good for you!"

As he said that, he condensed his primordial spirit and charged over.

Logically speaking, his primordial spirit wasn't weak. It was at the peak of the late stage of the consummate level of a giant. In the earth-class Sea area, it was almost at the top of the Supreme realm.

He had never been at a disadvantage when he clashed with a human's primordial spirit!

In the end, it was like an egg hitting a rock. Jiang xiaoshang did not even move, but his own primordial spirit was smashed into pieces, dismembering his own body.

Lin Yi was speechless as he watched on coldly.

Jiang xiaoshang was a God's clone. No matter what his realm was on the surface, the essence of his primordial spirit was not a primordial spirit but a real divine thought.

They weren't on the same level at all, and even Lin Yi didn't dare to clash with him easily. This Chu jingchen dared to risk his life, this guy was really brave.

"He actually didn't die?"

Lin Yi was stunned to see that Chu jingchen's primordial spirit, which had been split into pieces, not only didn't collapse, but it was actually regrouping on its own. One had to admit that this guy's will to survive was really strong.

Jiang xiaoshang laughed, "if he were to die just like that, wouldn't I be happy for nothing?" However, before his primordial spirit recovers, I have something important to tell you. "

"What business?" Lin Yi raised a brow.

Jiang xiaoshang said mysteriously, "I've been carefully sorting out my memories. I didn't expect to have such a pleasant surprise. I actually found a basic superclass for you ancient God cultivators!"

"Basic superclass?"

Lin Yi didn't understand.

Jiang xiaoshang chuckled. "You'll know when you see it. With this, I can guarantee that you'll be Reborn!"

With that, he projected a thought into Lin Yi's sea of consciousness.

Lin Yi didn't think much of it-after all, he'd gotten to know this guy's personality quite well after spending time with him. He was serious at times, but he was a cheater most of the time.

To put it bluntly, he wasn't scared.

However, when he immersed his consciousness into it this time, the contents of Jiang Xiaoshang's consciousness gave him a pleasant surprise.

The ancient gods cultivated the superclass Foundation!

This was clearly a cultivation manual tailored for ancient God practitioners. It was only the basics, but the meaning behind it was so profound that Lin Yi had never seen it before.

It wasn't an overstatement to say that all the practitioner's Arts Lin Yi had seen before were trash compared to this!

They were in completely different dimensions.

"This is the true great Dao!"

Lin Yi felt as if he'd found a treasure. If it wasn't for the fact that the foundation of this unprecedented path was the perfect domain, he'd even get the others to follow him.

However, he did not believe her easily.

With his knowledge and experience, he was able to determine the authenticity of the superclass and was confident that there was no problem with it.

However, there was a crucial additional problem. Where did this superclass basic outline come from?

Jiang xiaoshang's so-called sorting out his memories was just a lie.

Chapter 9972 Power

Sensing Lin Yi's suspicion, Jiang xiaoshang quickly said, "I know you don't believe me, but I'm sure you know better than me whether this superclass Foundation is good or bad, right? I won't harm you!"

"It's good stuff, but if you can't explain where it came from, how can I just focus on training?" Lin Yi said in a deep voice.

"....."

Jiang xiaoshang was silent for a moment before he finally said honestly, "Well, I recently secretly checked the inventory of the main hall of Gods and spent a lot of time and effort to find this."

"You can still contact the gods" main hall?" Lin Yi frowned.

"I've already told you that I'm in the same boat as you. Otherwise, do you really think that you can trap me here with your ultimate perfect domain?"

Jiang xiaoshang snorted, "although my main body can't leave, I can contact my main body at any time if I want to. However, I will definitely be captured by him. That would be equivalent to death. Of course, I won't do such a stupid thing as self-destruction."

Lin Yi didn't doubt that at all-after all the time they'd spent together, they'd at least developed some chemistry.

"Then what method did you use to check the main hall of Gods?" Lin fan asked.

Jiang xiaoshang immediately regained his smugness. "Of course I'm using my rule bending power. Although I can't use my rule bending power easily to avoid attracting the attention of my main body, it's not a big problem to use it secretly once in a while."

This really piqued Lin Yi's curiosity, "What's your rule power?"

"Knowledge."

Jiang xiaoshang said proudly, "in theory, as long as it's knowledge, there's nothing in this world that I can't find. My main body has always wanted to break through the limits of the rules and become the true omniscient God!

As an avatar, although I can't compare to the main body, as long as I have time, it's not a problem for me to find out the general cultivation principles of you ancient God cultivators!"

"Did you find it in the main hall of Gods?" Lin Yi asked.

"That's right," Jiang xiaoshang nodded.

"According to what you've said, shouldn't the gods hate the ancient God practitioners? why would they leave behind a training summary like this?" Lin Yi couldn't help but ask.

Jiang xiaoshang laughed and pretended to be profound, ""Do you know who wrote this?"

"Who is it?"

"The God of creation himself!"

Jiang xiaoshang explained, ""This superclass was created by the God of creation before he ascended to the throne. He spent a lot of effort to research it in order to deal with the ancient gods.

After the ancient gods were exterminated, the first thing he did when he ascended to the throne was to give an order to erase all traces of the ancient gods, including all the secret books that recorded the deeds of the ancient gods and their cultivation methods!

Only this thing was created by the God of creation, and the other gods' rule power could not erase it, so it was forgotten in the corner of the warehouse and has been kept until now. "

Lin Yi was speechless, "is this the legendary "it's all decided by fate"?"

The God of creation was determined to erase the traces of the ancient gods, but he had personally left Behind the Seeds of the ancient gods. It could only be said that it was the will of heaven.

"How is it? are you going to thank me?"

Jiang xiaoshang had a smug look on his face. "Other than me, there is no one else in the world who can do such a thing. Uh, my original body can do it, but he will definitely not help you."

"Alright, I'll remember this favor."

Lin Yi cleared his mind and started training.

According to the first step of the superclass, the ultimate perfect domain, which was originally growing stronger, began to shrink in reverse, becoming smaller and smaller.

In the void, the radius of the perfect domain was a hundred miles, but under Lin Yi's control, it shrank to only ten miles.

This was far from the time to stop.

It continued to shrink at an increasingly shocking speed. At the same time, the entire ultimate perfect domain became more and more solid.

At this moment.

The audience outside was stunned.

Chu jingchen's whereabouts were unknown, the four great apostles were all dead, and even Tian Yunkai was dead. The way things had developed to this point had completely overturned their understanding.

Although there were some who mumbled that Lin Yi killing Chu jingchen was the same as cutting off all their way to the main courtyard, no one dared to say it out loud.

No matter how much they did not want to face reality, they had to be aware that the situation at Jianghai Academy had changed.

After today, Lin Yi's family's dominance was inevitable.

If they didn't want to be kicked out of the core class, they had to keep a good attitude and welcome the young king of the Academy!

Therefore, no one dared to move at this moment. They were afraid that Lin Yi would misunderstand them if they did anything, and they would become the bad example of Lin Yi!

Then, a strange scene appeared.

Lin Yi didn't move, and so did everyone else. They could only stay there quietly.

After a long time, some people couldn't help but silently speculate. Could this be another kind of intimidation?

Everyone present was a top-notch combat force. Normally, they would be able to remain calm even if they were asked to fight for ten days and ten nights, let alone just accompany him like this. However, they were already drenched in cold sweat after only accompanying him for half a day.

It couldn't be helped-the invisible aura Lin Yi was giving off right now was too terrifying, and everyone felt like they were facing a stormy sea!

Not to mention the others, even Emperor Xu Anshan was bewildered.

This feeling had even surpassed that of Chu jingchen, who was a half-step venerable!

Lin Yi, on the other hand, was completely oblivious to all of this. Of course, even if he did, he wouldn't take it to heart.

As long as it didn't interfere with his cultivation, it wasn't a bad thing to leave everyone hanging here to get a good grasp of their feelings. If he could make some people behave because of this, it would save him a lot of trouble.

Of course, all of this was not important to him. The most important thing was the change in the ultimate perfect domain.

After an entire day of crazy compression, the radius of the ultimate perfect domain had been compressed to less than a meter, but it was still not over.

Lin Yi continued.

Eighty centimeters ... Sixty centimeters ... Forty centimeters ...

Ten centimeters ... Eight centimeters ... Six centimeters ...

The radius of the perfect domain was now less than a centimeter, and the density was far greater than any material in the world, but Lin Yi didn't seem to have any intention of stopping.

According to the requirements of the superclass, this was far from enough.

To compress the ultimate perfect domain to the limit of the limits, to the point where only the last oddity was left, only then would one complete the first step of the ancient God's cultivation!

Lin Yi didn't know what a singularity looked like, but he knew that if there was any possibility of further compression, it meant that it wasn't a real singularity.

Chapter 9973 Power

Millimeter ... Micrometer ... Nanometer ...

Lin Yi didn't stop until the perfect domain completely disappeared from his sight. He couldn't see it with the naked eye, and the perfect domain had become a different dimension to some extent, but he could still feel its existence.

This was the oddity!

At this moment, there was no light, no matter, no space, and not even time around it. Everything was frozen. Anything that passed by it would disappear without leaving any trace.

As the person in control of all this, Lin Yi couldn't help but be shocked.

If he were to fight someone in the future and throw such a oddity at them, what would it be like?

The scene was too beautiful to even imagine.

In the face of this oddity, any technique in the world was simply child's play. They simply didn't have the qualifications to be compared.

Of course, this was just a thought.

In fact, even Lin Yi himself could only sense the existence of the oddity, but he couldn't control it. Perhaps he didn't have the power to control it at all, and could only let it develop on its own.

After waiting for a long time, the oddity suddenly exploded.

The explosion was too sudden, and Lin Yi didn't even have time to react. He felt a whole new perfect domain spread out in front of him, and in the blink of an eye, its radius had exceeded a thousand miles!

This was a full ten times the original!

In terms of area, it was a hundred times larger than the original!

"From now on, it's no longer an ultimate perfect domain. You should give it a more appropriate name-new world."

Jiang xiaoshang, who was watching all of this from the side, was full of admiration.

Lin Yi nodded in agreement and sighed, "So this is the correct way to open the ultimate perfect domain."

The difference between the current New world and the original ultimate perfect domain wasn't just in size. The key was its composition!

Although the previous ultimate perfect domain was mixed with various rule forces and seemed to be self-contained, its essence was just a vortex of various forces gathered together.

However, although the New World still looked chaotic, there was a fundamental difference.

All the rule bending powers in the New World existed in a way that was most in line with the nature of the world. As long as other rule bending powers were constantly supplemented, the framework of the entire new world would become clearer and closer to the real world.

One day, it would become an independent new world, and its level would even be higher than the existence of the secret realms of clomaros!

"When it grows into a truly new world, you will truly become the last ancient God."

Jiang xiaoshang praised with a hopeful expression.

Lin Yi was confused. "According to this cultivation method, every ancient God has their own world. Now that they're dead, where did those worlds go?"

Jiang xiaoshang replied, "of course they were taken over by the gods. In fact, the so-called secret realms you saw before were essentially divided ancient God worlds. The ancient God who created them died, so they were taken over. They became back gardens attached to the edge of the main world."

"I hope I'm an exception."

Lin Yi didn't feel too sad about it.

"With me as your inept advisor, you'll definitely be the biggest exception."

Jiang Xiaoshang gloated and asked, "The New World has been formed. What you have to do next is to continue hunting for various rule bending powers to truly perfect it. But even now, you should have gained a lot of benefits, right?"

"There are indeed quite a few."

Lin Yi smiled faintly, and the aura of a Big Shot at the peak exuded from his body-he'd broken through.

He had experienced how difficult it was to break through to the ultimate perfect Domain Realm before. Even the most ordinary realm advancement required top-notch opportunities to cross.

Now, even for ordinary cultivators, it was as difficult as ascending to the heavens to break through to the ultimate completion of a Big Shot. To him, the difficulty could not be any higher!

Before this, Lin Yi was even prepared to grind it down slowly at the peak of the late stage of the complete realm for eight to ten years.

In the end, he didn't expect that with the formation of the New World, this huge problem that had been troubling him was actually solved. It allowed him to reach the top in one step and complete a qualitative transformation!

Lin Yi's strength was more than ten times stronger than before!

It was more than a hundred times!

With Lin Yi's current strength, even if he didn't use his perfect domain, he wouldn't be at a disadvantage against a half-step venerable. He might even win in a direct battle.

And this was just an additional benefit.

The New World was the foundation.

According to the superclass, as long as the New World was truly formed, he would be the one and only God in the New World. Anyone who was involved in the New World could only be led by his will.

At that time, he would truly be invincible.

Even if he didn't involve anyone, he could still continuously transfer power from the New World. No matter who he was against, he would be able to fight one person with One World. One could imagine what kind of scene that would be.

"The New World is your godhood. When the New World is completed, it means that your godhood is completed. At that time, you will have the capital to confront the gods!"

"If your new world can develop to the point where a civilization can be born on its own, you'll even be qualified to fight the God of creation!" Jiang xiaoshang said with anticipation.

"Giving birth to a civilization ..."

Lin Yi was speechless.

In theory, this was not impossible. The future new world would develop in this direction.

However, at his current realm, although the basic outline of the New World had already taken shape, it was still a mess. It was still thousands of miles away from a world that could really develop life, let alone give birth to a civilization.

His next goal was to supplement enough rule power and let the New World enter the initial stage of chaos.

As long as he could reach that step, his strength would rise, and he would achieve a qualitative change again!

Jiang xiaoshang laughed. "Of course, that's a long-term goal. In the short term, as long as you can reach the initial stage of chaos, you will be able to advance to the Supreme realm."

"What's the situation with the others 'Supreme realm? You can't possibly create a new world, right?"

Lin Yi asked.

Jiang xiaoshang shook his head. "Of course not. Such a high-end item is exclusive to the ancient gods. How can ordinary people have such an opportunity?"

There were only two paths for them to reach the venerable realm. One was to choose one of the gods and walk the Path of the Gods. They would obtain the gods' abilities through a deep binding with them and condense a false divine persona step by step.

Chapter 9974 Power

This path was the most readily available and also the most common. Most Supreme realm experts took this path. The path to level up was the most clear and the easiest to reach the end.

However, a false divine spark would never become a true divine spark. No matter how talented they were, they were destined to never be able to step into the true divine realm.

The false gods that are under the command of the gods are the ceiling they can reach. "

"What about the other path?" Lin Yi asked.

"The other path is a little similar to yours. You don't have to rely on the gods, but instead, you have to refine the secret realm. Through continuous refining of the unique secret realm, you can condense a true godhood and then advance to the godly state!"

"Very few cultivators take this path," Jiang xiaoshang said seriously, "because they were jointly suppressed by the gods, those who can really walk to the end are even rarer.

However, compared to those false gods who are destined to be vassals, the upper limit of these cultivators is much higher. Once they have walked the path, they can become a member of the gods. "

"Then what's the difference between that and me?" Lin Yi frowned.

"Of course there is a difference, and it's the most essential difference."

Jiang xiaoshang chuckled. "At first glance, they seem to be independent of the gods. However, the secret realms that they refine are not an independent world that truly starts from scratch. Instead, they are fragments of the main world. Therefore, they are still vassals of the rules of the main world.

In name, they could condense a real divine persona and stand as equals with those gods. However, in reality, they were still the vassals of others.

However, their level was a little higher than that of the false gods. Like the gods of today, they were all subordinates of the God of creation.

The God of creation can strip them of their godhood at any time with a thought. This is the most fundamental flaw!"

Lin Yi said.

If the gods were regarded as an imperial court, then the God of creation was equivalent to the Emperor, and the gods were equivalent to the high officials of the Imperial court.

If one walked the Path of the Gods, it would be equivalent to being a guest of the court officials.

This way, although you could use the power of the main family to smoothly rise up, there was a natural drawback. Your official position in the future would never surpass the main family, and the main family would always have the power to kill you, which was a congenital deficiency.

By taking the path of refining the arcane realm, although he could not take advantage of the situation in the early stage, the advantage was that once he stood out, he would be able to take direct orders from the Emperor and become a true official of the Imperial court in the future.

In terms of upper limit, it was naturally much higher than the former.

However, no matter which one it was, it was still under the emperor's rule in the end. No one could escape the control of the emperor's will.

As for Lin Yi's own ancient God path, it was essentially building a new imperial court from scratch.

Although this path was destined to be more thorny, one day, he would be able to truly ascend to the top and sit on the Supreme throne, not being controlled by anyone!

These three paths all had their pros and cons. However, to Lin Yi, the ancient God path was the only correct one.

After all, he was born to never bend his back. Even if the other party was the God of creation, he would definitely not be able to suck up to her.

He was not destined to have that kind of fortune.

By the time Lin Yi was done digesting all of this and opened his eyes to the outside world, the crowd had been waiting for him for half a month.

From the beginning to the end, no one dared to leave.

After all, everyone knew that if everyone had left together, it would still be fine. However, if the others did not leave and he left alone, he would definitely be courting death.

A new official still had three fires to burn.

Lin Yi had stepped on the bones of a half-step venerable to get to the top, and this was the time he needed to kill people to establish his might. Who would dare to walk into his gun?

Therefore, she could only accompany him.

The good thing was that the darkness creatures had been greatly weakened by the previous attack, and the protective formation was more than enough to keep them at Bay. Otherwise, if something big were to happen during this period of time, Jianghai Academy would be in deep trouble.

Lin Yi opened his eyes slowly.

In an instant, everyone's nerves tensed, and they all became respectful, afraid of any discomfort.

Xu Anshan frowned. He had felt it before, and now that Lin Yi had woken up, the invisible aura was getting more and more obvious.

"He's actually at the pinnacle of perfection!"

This natural-born Emperor's heart was instantly in a state of shock.

To be honest, to an existence at his level, it wasn't rare for a giant to be at the ultimate completion. After all, every single one of them here was a giant at the ultimate completion.

But the problem was that it was a completely different concept for Lin Yi and everyone else to be at the same level!

Thinking about it, Lin Yi was already comparable to a top-tier giant when he was at the peak of the middle stage of the complete giant. Now that he was at the ultimate complete giant, how powerful would he be?

Before this, Xu Anshan recognized Lin Yi's strength, but the only thing he was afraid of was Lin Yi's mysterious and heaven-defying ability to swallow a half-step venerable.

As for other things, he could totally fight Lin Yi and not be at a disadvantage at all!

But it was different now. Even someone as proud as him had to admit that he was no match for Lin Yi, who was at the ultimate full cultivation.

Even a born Emperor had to judge the situation. On this point, Xu Anshan had never thought too highly of himself, much less undervalue himself.

With his personality, he wouldn't lower his head to Lin Yi, but he'd give Lin Yi enough respect. Just like now, he cooperated with the crowd and chose to remain silent-this was the treatment a true powerhouse should receive.

If even he, Xu Anshan, was like this, then the other people present would naturally be even more submissive.

Especially after sensing Lin Yi's cultivation level, they were all so scared that their heads were almost touching the ground.

He had been criticizing them in his heart before, but now, he did not even have a single word of criticism. In terms of self-management of their emotions, it had to be said that this group of top combatants were all Grandmaster-level!

Lin Yi's eyes swept across the crowd. He didn't have the intention to kill as everyone expected.

"From now on, I'll take over the command of the Academy. If anyone has a different opinion, you can raise it in person. Let's solve the problem first."

Such an unceremonious and overbearing attitude caused everyone to be stunned.

If it were someone else, they'd at least put on a show to calm the people down, but Lin Yi didn't even care about this-he put the bayonet right in everyone's faces.

He was obviously going to deal with the person who raised the problem!

Even so, no one in the audience dared to make a sound.

This was the deterrence brought by absolute strength.

Chapter 9975 Power

Everyone clearly understood that Lin Yi was on a completely different level from them. He didn't need to consider their attitudes anymore.

It was just like how top-tier combat powers like them would never consider the thoughts of those early stage consummate level experts when making decisions.

Because it was meaningless.

"Since no one objects, then it's passed by everyone."

Lin Yi gave his first order, "When you return today, please inform your subordinates that in order to increase the Academy's combat strength, I have decided to reorganize the entire Academy.

From now on, the Academy will no longer be divided into the School Council, the Academy Council, and the repeat Student Court. The various forces will no longer fight for themselves, but will completely break up the original establishment and be divided into the eight departments of the Academy under my direct jurisdiction. "

Everyone was in an uproar.

Many of them couldn't help but protest-Lin Yi's actions touched the lifeblood of their lives!

Although Tian Xiangyang's previous actions had affected their interests in many ways in order to establish a united front for the college, he did not directly attack their core interests.

This was also where Tian Xiangyang was brilliant.

Otherwise, the internal affairs of Jianghai University would be in for a bloody battle, much less a united front.

But now, Lin Yi, as Tian Xiangyang's successor, had abandoned this superficial thought and was going to reorganize the entire school, aiming for everyone's core interests!

However, in the end, no one dared to stand out and say no.

Everyone looked at Xu Anshan in unison.

At this moment, if there was anyone who could stand up and challenge Lin Yi, it would be the natural-born Emperor!

For one, he was undoubtedly the strongest of the group apart from Lin Yi. Secondly, the Academy under him was one of the strongest in the entire Jianghai Academy.

In fact, if it wasn't for the sudden appearance of Chu Jingchen from a Superior School, followed by Lin Yi's sudden rise, the most promising successor to Tian Xiangyang would actually be Xu Anshan.

If they were in Xu Anshan's position, they wouldn't be able to take it.

After all, if he really did what Lin Yi did, Xu Anshan's school would be the one that would be affected the most.

However, unexpectedly, this natural-born Emperor didn't show any expression from the beginning to the end. He directly chose to acquiesce!

Everyone was completely dumbfounded.

Even the great Xu Anshan didn't dare to step out-it was clear how grand Lin Yi's presence was now. They didn't have the confidence to do so.

"The specific reorganization plan will be out soon. I hope everyone will cooperate. Of course, if there is anyone who doesn't ..."

Lin Yi paused for a moment, a faint killing intent on his face. "It's a special time now, and the success of the organization is directly related to the life and death of the entire Academy. I don't like to kill people, especially my own people.

However, this doesn't mean that I can't bear to kill. Everyone, please be mentally prepared. "

Everyone dispersed with heavy hearts.

Even though the future of the school was still a mystery, one thing was for sure. From this day forth, Jianghai Academy would welcome a new era.

An era that belonged solely to Lin Yi.

Everyone went their separate ways, but Lin Yi asked a few people to stay.

They were the student council's Xu Anshan, the repeat students tyrant, Yan Chi, and Wang sanjue, the half division's second-in-command Chen Guo, and the logistics department's old man Zhao Qiong.

Lin Yi may have put on a tyrannical attitude, and he did have the power to suppress the whole school, but it wasn't realistic for him to take over the entire school by himself.

If they were to insist on doing things their own way, the most likely result would be the Academy falling apart, and then completely destroyed by the next wave of the dark Beast tide.

This wasn't the result Lin Yi wanted.

Therefore, even though they were domineering and their strategic intentions had to be carried out to the letter, they still had to pay attention to the methods.

Some people were allies and needed to be roped in and nurtured, while some people were enemies and needed to be trampled to death.

This could be seen from the candidates he had left behind.

There were people from the student council, the repeat Department, and the half-master Department who stayed behind, but there was one person who could represent the School Council.

"Are you trying to harm the school's board?"

Xu Anshan saw through Lin Yi's intentions with one look.

Lin Yi smiled, "this time, some people will benefit and some will suffer. I don't like the school board at all. I have no choice but to let those big shots suffer. What do you think?"

"Of course I agree 10000 times. I've been annoyed by those guys for a long time!"

Tyrant was the first to raise both his hands in agreement.

The rest of them nodded in agreement.

It was no wonder that the School Council had such poor popularity. The traditional elite forces represented by the three founding families were the typical representatives of the vested interest groups in the school.

By monopolizing the Academy's resources, they paid the least for the Academy and gained the most.

The only difference between the Super families was that they looked good when they ate, and they looked bad when they ate. They were all Birds of a Feather.

Even after the establishment of the United Front, this group of people still did not change.

You go for the dangerous missions, and I'll take the fat jobs. The various kinds of invisible pressure on the students at the bottom never stopped, and some were even worse than before!

When Tian Xiangyang was still in power, although he had suppressed them, due to the limitations of his position, all these measures were destined to only treat the symptoms and not the root cause.

But now, Lin Yi didn't have to worry so much.

As for his in-depth reorganization, the Super families in the Board of Directors would definitely be the ones who opposed it the most. Instead of letting them cause trouble, it would be better to turn them into a cake on the table and let everyone eat it.

Not only did this solve the biggest hidden danger, but it also reduced the resistance from other parties, killing two birds with one stone!

In the end, everyone's eyes returned to Xu Anshan.

He was the head of the Council, but he was from the Tian family, and had close connections with the school board. If he wanted to compete with Lin Yi, he'd be his base to some extent.

After a moment of silence, Xu Anshan said, ""The school's Board of Directors isn't completely useless. There are still many talents that can be used. Do you really intend to force them all into a dead end?"

"I don't think so."

Lin Yi turned to old Zhao Qiong. "I've never planned to kill them all. If any of them are willing to forsake the darkness for the light, the logistics department will open its doors to welcome them, right, elder Zhao?"

"I knew nothing good would come out of you keeping me here!"

Old man Zhao didn't know whether to laugh or cry as he cursed, but he didn't forcefully object.

Chapter 9976 Power

After all, his logistics department was indeed short of manpower, and his relationship with the school's Board of Directors was still acceptable. If he were to step in, there would definitely be many people who were willing to take advantage of the situation and save a lot of trouble.

Most importantly, with his relationship with Lin Yi and his attitude, he wouldn't leave any hidden dangers.

If it was Xu Anshan, even if Lin Yi was willing to trust him, there would be all kinds of waves once he took in a large group of Masters from the school.

Seeing that Xu Anshan chose to agree, Lin Yi nodded, ""That's good. I'll talk about my concept of the Academy's eight departments. If you have any ideas, you're welcome to add them at any time. "

Everyone's eyes lit up.

No one had thought that this slightly sloppy meeting would actually determine the structure of the academy for the next thousand years, and each of the forces that they were fortunate enough to participate in would grow into unprecedented behemoths in the future!

Following the conference's implementation, Jianghai Academy was inevitably thrown into a period of turmoil.

On the other side, the city Lord's mansion, which had just suffered a great loss, finally welcomed its first true Big Shot.

It was a demonic man in a long red robe.

He was ye Tianbei, a top-tier beast God Wayfarer from the beast God Hall, ranked tenth.

This was a true Supreme realm expert!

At this moment, in the banquet hall of the city Lord's mansion, it wasn't just him who had arrived. There were also five half-step Venerables and 20 darkness magical beasts that were comparable to the top-tier combat power.

As for the remaining peak darkness magical beasts, they were uncountable!

Such a terrifying line-up, if it was spread out, it would be enough to scare half of the people in the Academy to death. There was no f * cking fun to play with!

"Zhao Wuji, the incapability of one general will exhaust three armies. The divine clan has suffered such a great loss this time. As the supervisor, you are duty-bound. What do you have to say?"

A half-step venerable suddenly attacked Zhao Wuji in the middle of the banquet.

Zhao Wuji couldn't help but secretly complain.

He was only one of the three supervisors, and the one with the highest combat power was li songzhang, who was a half-step venerable. The final defeat really had nothing to do with him.

However, li songzhang was dead. Of the other two beast God's advisors, one was dead and one was injured. The seriously injured Ying long was still in a coma.

Now that these big shots wanted to hold him accountable, he was the only candidate.

"This subordinate did not supervise well, please punish me."

Zhao Wuji didn't dare to argue, and could only put on an honest and guilty posture.

"Punishment? Then, let me devour you!"

This half-step venerable grinned and immediately turned into an ancient blood Lion, opening its mouth to swallow Zhao Wuji.

Zhao Wuji was immediately overwhelmed with shock. In this kind of situation, he basically didn't dare to resist. In fact, with the difference in strength between them, even if he resisted, it would be very difficult to achieve any effect.

The leaders of the beast God Hall, including ye Tianbei, who was sitting in the main seat and drinking wine, turned a blind eye to this scene. No one came forward to interrupt.

This was the beast God Hall's way of doing things. Once it was proven to be incompetent, it was only natural that they would kill you on the spot.

This was something he inherited from the darkness demon beast clan.

However, just as Zhao Wuji was about to lose his life in the ancient blood lion's mouth, a Dark Phoenix Phantom suddenly whizzed in from outside the hall, and actually forcefully sent this ancient blood Lion flying.

Everyone was speechless.

Zhao Wuji narrowly escaped death, looking at that beautiful figure slowly walking in from the main entrance, he couldn't help but be extremely grateful.

"Greetings, Sir Divine Child."

The beast God Hall's elders stood up and bowed to greet the newcomer. Even ye Tianbei, a venerable, stood up and bowed.

It was Chu Mengyao.

She was no longer the advisor of the beast God in the beast God Hall, but even ye Tianbei, who was ranked in the top ten, had to show her respect.

Because she was the chosen one of the beast deity.

Compared to the followers of the beast God, the Son of God might not be stronger, but his status was definitely higher. This was because he had a closer relationship with the beast God. In name, he could even be seen as the highest agent of the beast God.

Once the beast God was gone, the Son of God could represent the beast God and control the entire beast God Hall.

Mengyao scanned the room. "Even if Zhao Wuji doesn't have any merits, he has worked hard. Spare his life, he will be useful in the future."

The beast God Hall's experts looked at each other and finally turned to look at ye Tianbei.

No one else had the right to interrupt, especially in front of the Divine Child Chu Mengyao.

"Since Miss Chu has said so, I'll spare his dog life," ye Tianbei said.

"Thank you, sir Divine Child! Thank you, Lord ye!"

Zhao Wuji hurriedly kowtowed to express his gratitude.

This time, he really had a narrow escape from death. If Chu Mengyao hadn't suddenly appeared, he would've really died. The beast God Hall's way of doing things was just so overbearing and cruel.

In comparison, when the former beast God was around, although he could not help but have a violent side, at least it was not so frightening.

"Come, lady Chu, sit here."

Ye Tianbei took the initiative to give up the main seat, but he did not give up completely, only half of the seat.

The beast God Hall's experts couldn't help but look interested.

Ye Tianbei's interest in the Divine Child was a well-known secret in the beast God Hall.

This was not strange at all.

With Mengyao's status as a deity and her beauty, there were more than one or two big shots who had designs on her. It wouldn't be an exaggeration to say that she was the dream girl of the entire beast God Hall.

However, most of the beast God Hall's experts could only dream about it. They didn't even have the chance to talk to Chu Mengyao, let alone get close to her.

Only the top beast God walkers who were ranked at the top had a chance, and ye Tianbei was one of them.

Among these people, ye Tianbei was recognized as the one with the best chance.

It wasn't that he was stronger than the others, but that he had a special bloodline connection with Mengyao.

Mengyao looked at him emotionlessly. "No need. It's better for Lord ye to call me the Divine Child. I only have this identity in the beast God Hall. I hope Lord ye doesn't forget it next time."

This woman ...

Ye Tianbei's eyes darkened. With his status, he could get any woman he wanted, but he had been targeted by Chu Mengyao. He had even been embarrassed in public a few times.

If it wasn't for the Divine Child's special status, he would have used force long ago.

"Lady Chu, you're treating me like an outsider. You're the Dark Phoenix and I'm the fire Phoenix. We're naturally attracted to each other. Our bloodlines are destined to be a match made in heaven. This is fate, so why do you have to keep me a thousand miles away?"

Ye Tianbei laughed heartily.

Chapter 9977

Mengyao raised her eyes. "But from what I know, the fire Phoenix and the Dark Phoenix have been enemies since ancient times. The only reason they're attracted to each other is because they're destined to kill each other. Am I wrong?"

"....."

Ye Tianbei choked and laughed. ""Who can clearly say the grudges of the ancient era? However, the beast deity has already given the order for all the beasts to be United. As the close followers of the beast deity, we should set an example for everyone, don't you think so?"

"That's right!"

The experts of the beast God Hall echoed in unison as they whistled.

Although Mengyao's status was higher in name, true status was always based on strength no matter where you were. There was no way a title could suppress those who were strong.

Chu Mengyao looked at them and raised her eyes, "Since you guys have the time to care about such meaningless matters, it seems that you are very confident about the upcoming battle. That's good, this will save me a lot of trouble as an Army supervisor."

The commotion immediately stopped.

The experts of the beast God Hall suddenly remembered that this man was not only the Son of God, but also the military supervisor of the beast God Hall. He was directly responsible for the beast God and had the power to deal with them on the spot.

Even though Chu Mengyao couldn't kill them as she pleased with their status, it was still a piece of cake for Chu Mengyao to make things difficult for them.

Even if he couldn't kill them directly, if he said something unnecessary in his report to the beast God Hall, it would be enough to ruin their future in the beast God Hall.

In fact, if they were caught in any way, it would be enough to cause them to be consigned to eternal damnation!

Ye Tianbei was their boss, so they had to flatter him, but they couldn't afford to offend Chu Mengyao either!

Ye Tianbei's face turned ugly when he saw that everyone was frightened by his words.

However, he wasn't going to fall out with Mengyao yet. After all, he still hoped that he would be able to win her back in the future.

"Today is a welcoming banquet, why must lady Chu spoil everyone's mood?"

Ye Tianbei laughed. "We didn't come before because we mistook Zhao Wuji's abilities. That's why the divine clan's operations failed. Now that we're here, the situation in Jianghai city is settled."

One of his half-step Venerables chimed in, ""That's right, that whatever Jianghai Academy, don't think that they've taken advantage of us so many times, it's all just a Cheap Trick. "

"That's right. We don't even have a decent expert, not even a half-step venerable. What's there to worry about?"

The expert from the beast God Palace laughed loudly.

Based on their understanding, if it was just to deal with a single Jianghai Academy, two half-step Venerables would be more than enough to ensure their victory.

Now, ye Tianbei, the venerable, was personally leading the team. In addition, there were five half-step Venerables and a group of super-top-notch combat forces comparable to human cultivators.

If they could still suffer losses from Jianghai Academy, then they might as well commit seppuku together!

Mengyao said with a half-smile.

The more arrogant these people were, the more opportunities they had for Lin Yi and the others to defeat the strong. Not only did she not remind them, but she also added fuel to the fire at the right time.

Ye Tianbei suddenly raised his eyebrows, ""Looking at lady Chu's expression, it seems like you don't really believe in our strength?"

“.....”

Mengyao was just about to throw a few more words when the man suddenly stood up and pointed in the direction of Jianghai University.

"If that's the case, I'll show you what I'm capable of. I'll calm Miss Chu's heart, and at the same time, I'll say hello to those useless human cultivators at Jianghai Academy. I'll let them have a taste of fear!"

As he spoke, a gigantic Fire Phoenix with a wingspan of over 10000 meters shot out from his body, covering the sky in an instant.

The people of Jianghai city, which had suffered from the disaster, were in a state of panic. Everyone looked up at the sky in shock and fled in panic.

However, no one knew where to run. To be more precise, it was meaningless no matter how they ran, because they couldn't escape the range of the Super-large fire Phoenix.

Fortunately, they were not the fire Phoenix's target.

With a single flap of his ten thousand meter long wings, he had already flown across the skies of Jianghai city and appeared before the school.

This time, it was the Academy's turn to be shocked.

Although most of them were experts at the level of a giant's full cultivation, their strength was completely useless in front of such a supernatural existence.

Even the top combat forces who had seen many big scenes were completely dumbfounded.

It wasn't that they didn't know about the manifestation of laws, but they couldn't even imagine such a transcendent level of manifestation of laws, let alone see it!

Only Xu Anshan was able to keep his calm.

After all, he'd seen the battle between Lin Yi and Li songzhang with his own eyes, but he was still shocked. Whether it was li songzhang's nine-tailed fox or Lin Yi's Demon God Chiyou, they were obviously inferior to this giant Fire Phoenix in front of him!

"Supreme realm ..."

Xu Anshan immediately understood the other party's background. This time, it was definitely a true Supreme realm expert!

Although half-step Venerables also had the word "venerable" in their names, which gave people the feeling that they were only one step away from becoming a true venerable, in reality, the gap between

them was huge. It was even greater than the gap between a giant's late-stage complete earthly sovereign and a giant's ultimate complete earthly sovereign.

In front of a true Supreme realm expert, a half-step Supreme realm expert did not even have the right to lift his shoes!

Unfortunately, even if he could see through it, it was still useless.

Jianghai Academy's alarm was immediately set off at full power. Everyone was sent to seek emergency refuge under the organization of a group of top-tier combat forces.

Although there was still the Academy's protective array above their heads, but against this iron wall that could block the dark Beast tide, the entire Academy had lost confidence for the first time ever.

The facts proved that everyone's premonition was not wrong.

The Super-huge fire Phoenix breathed out a sea of fire that descended from the sky. In just a moment, the protective array was burned through by the unprecedented fire.

Immediately, wherever the sea of fire passed, whether it was people, animals, or buildings, everything was directly evaporated into thin air!

Half of the Academy was gone.

Due to li songzhang's surprise attack last time, the Academy had made a more complete emergency plan. This time, under the organization of a group of top combat forces, most people entered the underground shelter at the first opportunity, greatly reducing the number of casualties.

However, they still suffered heavy casualties.

To be more precise, there were many deaths. The flames were too terrifying. No matter what realm the experts were in, they would die if they touched it. Therefore, there were no injured people at all.

As long as they were enveloped by it, even if they had already hidden in an underground shelter, it would be useless.

Chapter 9978

As dozens of meters of soil evaporated along with the surface, the unlucky shelters either evaporated along with it or were instantly burned into a Super Fire kiln, turning the people inside into mummies!

The scene was too tragic to look at.

At this moment, everyone was in despair.

If there was another breath like this, the remaining half of the Academy would disappear with it. They, who were lucky enough to escape the first wave of breath, would immediately follow in the footsteps of those who had come before.

Even if they were lucky enough to escape the second wave, it would be meaningless.

After losing the protection of the Academy, they were left with only this wave of lone survivors. Not to mention facing the Super-large fire Phoenix, even if they were to face the attack of the dark Beast tide, they would not be able to withstand it.

Fortunately, the Super-large fire Phoenix seemed to have exhausted its energy. With a violent cry, it disappeared from the sky above the Academy.

After a disaster.

However, no one in the Academy was happy at all. This sudden wave of dimensional reduction attack was too terrifying, and the psychological impact on everyone was not any less than the actual damage.

From now on, countless people would live in the shadow of today's fear for the rest of their lives, unable to struggle and advance any further!

Most importantly, no one knew if the Super-large fire Phoenix would make a comeback!

Perhaps tomorrow, or the day after, if the enemy decided to do something like this again, Jianghai Academy would be finished.

"We're in trouble this time,"

Lin Yi gathered all the heads of the factions and started calculating the casualties as they discussed.

He was lucky that he had sent his men to the secret land of Ares in advance, otherwise, even the core forces of Lin Yi's group would have suffered heavy casualties.

Very quickly, the results of the casualties were out.

1,373 people had died.

The number of deaths caused by this fire breath had far exceeded the total number of deaths caused by the previous fire breath!

However, they didn't even have time to grieve. The destruction of the protective array meant that they had to face the attack of the dark Beast tide directly. It was not the kind of attack that could be controlled with a controlled intensity like before, but a real attack of death from all directions!

To make matters worse, this was a critical period for Lin Yi's deep reorganization.

The interested parties were already tense and wary of each other. Under such circumstances, no one knew how the situation would develop if they suddenly encountered such a destructive blow.

Jianghai Academy was on the brink of destruction!

"Each family must hand over all their independent Mystic realms and let the eight branches of the Academy manage them together. All the students of the Academy must be organized to enter and occupy them. This is the first priority!"

Lin Yi's face was filled with killing intent, "this isn't a discussion. This is an order. At this time, whoever dares to drag us down will be killed by me!"

Everyone looked at each other, but no one objected. On the contrary, they deeply agreed.

At this time, as the person in charge of the Academy, he should show such courage!

It was true that doing so would be akin to killing the chicken to get the eggs, and it would definitely cause a strong counterattack from the party with the disadvantage. However, he had no choice. He had to do this in order to guard against the next descent of the Super-large fire Phoenix.

The only way to avoid the risk of being caught in one fell swoop was to scatter everyone to the various independent secret realms.

In the face of life and death, any other risks and hidden dangers, even if they were fatal, could only be temporarily put behind.

"All eight departments of the Academy, be it internal or external, operate at full capacity. I don't want to see any man-made disasters at this time!"

Lin Yi ordered.

It was worth mentioning that the eight departments of the Academy under his direct management had already taken shape.

Under him, the eight Chiefs who stood at the peak of the power structure had all been assigned to their respective families.

Zhao Qiong, Xu Anshan, Chen Guo, tyrant, Tianji, Dongfang Yan, Shen Yifan, and Duan she.

These eight were the new Chiefs, each in charge of their own Department, directly reporting to Lin Yi.

The most intriguing thing was that Emperor Xu Anshan accepted this appointment. In other words, this natural-born Emperor was officially Lin Yi's subordinate, at least in name.

Back when Lin Yi first entered the school, they didn't even have the right to see him. It was only a year, but their positions had been reversed. Many people sighed.

However, with his addition, the eight branches of the Academy could be considered to have truly been established, and the voices of the other parties immediately died down.

Otherwise, even if he didn't go against him, it'd take a lot of time and effort for Lin Yi to implement the plan this quickly.

Even so, as the party being targeted this time, the school still stirred up quite a commotion, and they even prepared to rebel at one point.

Unfortunately, the intelligence Department had already set up the operation in advance. The three founding families had just made a little move, but they were immediately suppressed at the speed of light. In the end, they did not have any substantial influence.

However, this time, the entire Academy was in a state of panic. If someone didn't give up and wanted to take the opportunity to cause trouble, it might really lead to a big mess!

Only the three founding families were not a cause for concern, but if the People's hearts were wavering at this time, they would lead the rhythm and cause a large-scale internal strife, then it would be really troublesome.

This was what Lin Yi was worried about.

But with the eight departments doing their jobs, Lin Yi wasn't really worried. It wasn't the time to worry about that-he had to get the formation back to working.

With the degree of damage to the protective array, any other Grandmaster would have been helpless.

The damage was too high, and it would be a super project to repair it. Not to mention that most formation Masters couldn't repair it, even if they could, it would take at least a year and a half.

By that time, this place would already be a paradise for the darkness magical beasts, and there would be no need to repair it.

But in Lin Yi's eyes, it wasn't that difficult. In fact, it was a good thing.

The original defensive formation was strong, but with so many formation grandmasters working together, Lin Yi felt that many of the steps were too cumbersome, and many of its true functions couldn't be displayed.

Especially when it came to the integrity of the formation, it was particularly weak.

Twelve portions of the materials had been piled up, but in the end, only seven portions of its power could be unleashed. It was not an exaggeration to say that it was a waste of natural resources.

Of course, only Lin Yi had the right to say that-anyone else would've just thought that it was profound and couldn't tell what was going on.

With the current damage to the formation, Lin Yi could use it to build a new one from the original framework.

Chapter 9979

It was a huge amount of work, but Lin Yi could finish it in three days.

Don't forget, he was an ability user who had mastered the rules of time. Even if his rule control was only 5%, it was more than enough to accelerate his time.

While the students of Jianghai city were busy with the post-disaster reconstruction, the banquet at the city Lord's mansion continued.

"I'm sorry to have embarrassed you, Miss Chu. "

Ye Tianbei's words were humble, but his face did not hide his pride.

To destroy half of Jianghai city with a single move was already a heaven-defying act. This kind of demonic power was enough for him to do whatever he wanted in Jianghai city.

The other experts of the beast God Hall flattered him in a hurry.

Other things aside, they were indeed shocked by that move. Even the five half-step Venerables present did not dare to imagine that it had such power.

Other than sucking up to him, he was still sucking up to him.

Mengyao was worried for Lin Yi, but kept a mocking smile on her face, "If Lord ye is so powerful, why didn't you just spit out another mouthful of blood and destroy the entire Jianghai Academy?"

"....."

Ye Tianbei could not help but feel a little embarrassed. He forced a smile and said, "I'm just greeting them. It's not the end of the game yet. If we kill them now, wouldn't it be too boring later?"

"It's not that you don't want to, but you can't," Mengyao said faintly. As a top-tier beast God's Walker ranked tenth on the sequence, don't you think it's too childish to squander the faith points of the great beast God so easily?"

Ye Tianbei was speechless.

The move he had just used seemed simple on the surface, but in reality, it had already far exceeded his normal performance.

Although he was already a Supreme, he had just entered the Supreme realm not long ago. He was only in the early stage of yellow venerable.

It was true that even a yellow honor primary stage cultivator at the very bottom of the Supreme realm would be able to take down Jianghai Academy easily. However, if it was a normal attack, no matter how powerful he was, it would not be this unbelievable.

Chu Mengyao was right. He was only able to do that because he used the special technique of a top beast God.

Faith.

The faith from the species of the lower realm was the most fundamental source of power for every God. It was also the key that differentiated them from the other top experts of laws.

As the top beast God's Walker ranked tenth, ye Tianbei had the privilege to share the power of the beast God's faith. To some extent, this was also the core method he used to borrow the beast God's power.

However, there was a limit to how much the beast deity could share with him, and the upper limit was his level of faith.

He had 60 faith points, but in order to show off in front of Chu Mengyao, he used one to increase the power tenfold, which was why he was able to destroy the world.

In fact, he didn't even need Chu Mengyao's reminder. Ye Tianbei's heart ached when he saw his faith level go from 60 to 59.

One had to know that one could only obtain faith from the gods, and the difficulty was far beyond what ordinary people could imagine.

If this thing could be traded, then it was without a doubt the most coveted commodity among all Venerables. Compared to it, all other treasures and resources would only pale in comparison.

He had followed the current beast God for 300 years, and even had some credit from the Dragon, but he only managed to get 60 faith points. It was clear how difficult it was.

However, he still couldn't lose his face as a man.

"Hmph!" Ye Tianbei scoffed. "Now that Jianghai Academy is crippled, there's no need for me to waste my precious faith points. I can destroy it with a single hand if I go there myself!"

Mengyao looked at him like he was an idiot. "Our mission is to destroy Jianghai Academy? Or do you think we'll be able to take advantage of the situation if we just destroy Jianghai Academy?"

Everyone was speechless.

Even though they'd been rebuffed by Jianghai Academy, every expert on the scene knew that the beast God Hall had never been a match for them.

To put it bluntly, a mere Jianghai Academy was not qualified to be the beast God Hall's opponent.

Taking down Jianghai city was only the first step. The real deal was the sea goddess Hall.

They had expected the entire city, including Jianghai Academy, to be wiped out within three days of the dark Beast horde. The city would then become the frontline stronghold for the beast God Hall against the sea god Hall!

However, the reality of the situation was far beyond their expectations. No one expected Jianghai Academy to be so tenacious. Not only did they manage to withstand the attack of the darkness creatures, but they also managed to catch them off guard.

It was one thing for Li Songzhang, a human puppet that he had carefully cultivated, to be killed, but even his beast God Palace's advisor had suffered a loss. It was truly shocking!

If Ye Tianbei, a Supreme realm cultivator, had not personally displayed his might and wiped out half of Jianghai Academy with a single move, the previous battle results would have given Jianghai Academy the upper hand. It was simply unbelievable.

This time, it was all thanks to Ye Tianbei that they managed to regain some of their face.

Ye Tianbei narrowed his eyes, 'according to Miss Chu, does that mean that Jianghai Academy can not be destroyed? I remember that Miss Chu once stayed there for a while. Could it be that you have developed feelings for someone there?'

Mengyao raised her eyes calmly. "It's not that Jianghai Academy can't be destroyed, but that depends on how you do it! If it could be taken down by just sending a few waves of cannon fodder, then it would naturally be annihilated.

However, it was not worth it to pay such a huge price like what he had just done.

Of course, if Lord ye feels that his faith is useless, I will definitely not stop him. But it's hard to say what Lord beast deity will think. "

"....."

Ye Tianbei's expression changed.

Although he was part of the beast deity's old team and was ranked 10th on the beast deity's ranking, he was not exactly favored by the beast deity.

If Mengyao reported him to the beast God, the beast God would think that he was useless, and his future would be bleak.

After all, even though the faith was his, it was still the power of the beast God.

Even at the level of the great beast deity, it was impossible for him to care about this bit of faith. It was one thing to look down on it, but it was another thing to know that his power was being used and wasted by others.

If this matter was serious, it even involved blasphemy against the beast God!

Once this big hat was pinned on him, even he, ye Tianbei, would be destroyed!

Mengyao changed the topic after seeing that her words were effective. "It's not necessarily a bad thing for us that Jianghai Academy is a little stronger. Don't forget, they're at the forefront of coastal city. If the sea goddess Hall strikes, they'll be the first to bear the brunt!"

The experts from the beast God Hall couldn't help but nod in agreement.

Chapter 9980 The Power Of The Devil

"That's right, that's right. Sir Divine Child is indeed far-sighted. Instead of us wasting our energy to fight them to the death, we might as well let them fight the sea goddess Hall to the death!"

"This is a ready-made high-level cannon fodder!"

"Haha, we'll use this group of humans to investigate the sea god Hall's background. Who knows, they might even give us some surprises!"

Ye Tianbei's expression softened. ""It's not that we can't do it this way, but the dark Beast tide still can't stop. It just so happens that a new batch of cannon fodder has arrived this time, let them all press forward. Whether they can hold on or not will depend on the ability of those humans. "

Mengyao didn't reply.

She still wanted to fight for Lin Yi's chance, but she couldn't reveal too much of her identity in her position.

If she really did alert the other party, it'd be troublesome for her in the future. It wasn't the time yet, and she couldn't expose her relationship with Lin Yi.

She could only help Lin Yi as much as she could by staying in the enemy's heart.

He was quietly waiting for the perfect opportunity to deal a fatal blow!

Even though Jianghai Academy had suffered heavy losses this time, with Lin Yi's support, as long as ye Tianbei and the others didn't come out personally, she believed that Jianghai Academy would be able to withstand the next wave of dark beasts.

However, it was inevitable that they would have to pay a high price.

Chu Mengyao's judgement was correct. Compared to the past, the new wave of dark beasts was more threatening, especially now that Jianghai college no longer had the protection of the Academy's formation.

Fortunately, the Academy's eight departments had been formed in the shortest time possible.

Although it was inevitable that they were caught off guard, under the lead of the eight division chiefs, the worst situation of a complete collapse did not occur. After paying a certain price of casualties, the people from the Academy managed to fight for a moment to catch their breath.

Even so, under such a high pressure of casualties, there were still a lot of desperate noises coming from the inside of the Academy.

"More than a hundred people died today. How many more days can we last like this?"

"Yeah, there are only so few people in total. How can they withstand such a life-risking consumption!"

"If only Chu jingchen was still here. At least he would have given us a way out and a chance to study in the main school. What a pity, because of someone's selfishness, he destroyed all of our ways out ..."

All their dissatisfaction was directed at one target-Lin Yi.

The intelligence department's Tianji quickly found the source." "The three founding families are the ones who are adding fuel to the fire. They are contacting each other crazily in private to encourage dissatisfaction!"

"If we let this go on, something big will happen. If we should kill, we should kill. I'll be the villain."

Tyrant immediately volunteered.

The last time they met Chu jingchen, they didn't stand firmly with Lin Yi. Although Lin Yi didn't say anything and treated them the same as before, they felt more guilty the more they felt.

The experts who could reach this level were all the best of the best. Everyone knew that it was not easy to be the bad guy at this time.

Especially when the other party was one of the three deeply-rooted founding families.

If anything went wrong during the process, he'd immediately become the target of public anger. Even Lin Yi couldn't easily side with him.

In fact, they might even be forced to push him out to take the blame, and in extreme cases, they might even have to use him to appease the public anger!

Tyrant had already thought of the consequences, but he had to be the first to step forward.

They were all adults, and they had to pay the price for making the wrong choice. Now, he was paying the price in this way.

The rest of the people present looked at each other. This was a truly smart person.

It was a big risk for tyrant to take on this task, but as long as he could do it, not only would he mend the rift between him and Lin Yi, but he'd also be able to get closer to him.

Anyone with eyes could see that Jianghai Academy was Lin Yi's world.

If she wanted to stand firm in this changing situation, the best way was to become one of Lin Yi's people. Even if she couldn't squeeze into his core group, she needed to at least gain his trust.

Only then could he truly occupy a place in the future!

Everyone looked at Lin Yi, who was busy repairing the formation, waiting for his decision. The attitude he had shown to the three founding families this time largely predicted Lin Yi's future leadership style.

Even the Emperor, Xu Anshan, was concerned about this.

Lin Yi smiled, "if that's the case, then I'll leave it to old Bao. But there's one thing, I don't like to involve my family. You can just do whatever you want with whoever you can find. During times of emergency, just do what you need to do, but don't involve irrelevant people."

"Understood."

Tyrant responded and left.

The rest of the people nodded silently, not surprised by this.

Lin Yi wasn't a soft-hearted person, and they knew that. However, they didn't think of using this opportunity to wipe out the three founding families. It was clear that he was still holding back.

As a person with real power, it was not rare to exercise authority, but it was rare to be able to restrain himself in such a situation.

Perhaps to their own people, not being decisive enough would not be enough to vent their anger, but this was the most crucial cornerstone of their rule.

Only by being able to clearly sense the boundaries of one's power at all times and not overdraw it easily could one go far.

At this moment.

The upper echelons of the three founding families were secretly gathered.

"The three great founding families of Jianghai University are just meeting up. To think that there'd be a day where we'd be so sneaky. It's so F * cking funny just thinking about it!"

Gu Weiyang, the young master of the Gu family, sighed.

The new first elder who represented the Tian family smiled bitterly, ""Well, Lin Yi's the only Big Shot now. If he finds out what we've done, won't he take the opportunity to wipe us out?"

"If you want to blame someone, blame your Tian family's Tian Xiangyang. He didn't know how to judge a person and brought up such a Wolf-like man. Now, not only is he devouring your family, but even we are also in trouble!"

The Chen family was full of resentment.

After a round of complaints, the three families returned to the main topic.

"Tianji's Intelligence Department isn't something to be trifled with,"Gu Weiyang said," I think Lin Yi's going to make his move soon. We need to hurry. "

"Don't worry, now that the entire Academy is full of complaints, we're only adding fuel to the fire at best!"

"That's right, this isn't something that Lin Yi can suppress as he wishes. If he can't solve the dark Beast horde outside, the more he suppresses the inside, the stronger the backlash will be, and the higher our chances of success will be!"

"That's true, but are the darkness magical beasts reliable?"

Gu Weiyang smiled smugly. "Don't worry about that. I've already contacted them, and they've accepted our proposal. Li songzhang is dead, and they need a human face to hold the fort!"
