

Bodyguard 9981

Chapter 9981

"Are we just going to be their puppets?" the other two families looked at each other.

"It's better to be a puppet than a dead man, right? Of course, if you don't want to, I won't force you. If you want to die with Lin Yi, then go now. "

Gu Weiyang snorted.

The other two clans immediately kept quiet out of fear.

They could clearly see the current situation. The other side didn't even need to get serious. Just a few waves of Dark Beast hordes and the entire Academy would be completely annihilated. Not to mention winning, they didn't even have the slightest chance to hold on!

"A wise man submits to circumstances. If we don't have this bit of awareness, why are we sitting here today?"

The other two families immediately made up their minds.

Gu Weiyang laughed. "That's right. This is how a super family should be. However, in order to gain a foothold there as soon as possible, we still have to make some more contributions."

"You mean, you want us to work together?"

"We don't just need to work from the inside, we need to make sure that Lin Yi doesn't get away!"

Everyone nodded in agreement.

They'd all seen Lin Yi's strength-he was someone who could kill a half-step venerable in front of everyone, and if he got away, their lives would be hard.

If they were on Lin Yi's revenge list, no matter how well they were protected, they could lose their lives at any time. Li songzhang was a good example.

Gu Weiyang nodded,"that's what we need to discuss today. That Lin Yi kid may come from an unorthodox background and doesn't know many things, but he has a lot of weird tricks up his sleeve. It won't be easy to trap him."

"If we can get the Lord Fire Phoenix to help us, we'll be safe!"

The scene of ye Tianbei's attack was truly shocking and had directly scared the three founding families out of their wits.

If not for this, they wouldn't have decided to join the darkness demon beast so quickly. No matter how beautiful they looked, the word 'treacherous' wasn't that pleasant to hear.

"He's one of the top ten in the beast God Hall's array, a true Supreme realm master. If he really wanted to, it'd be easy for him to deal with a mere Lin Yi. Unfortunately, Lin Yi doesn't have the right for him to fight personally. "

Gu Weiyang was also helpless.

As far as he was concerned, if ye Tianbei was willing to help, Lin Yi's body would've been cold by now. The two of them weren't on the same level.

Just as everyone was discussing and thinking of ways to kill Lin Yi, someone suddenly rushed into the door.

"Not good! The tyrant is leading his men to capture our people, and a few of them have already been publicly executed!"

Everyone's expression changed.

"Lin Yi really has the balls to do that?" Gu Weiyang's eyes twitched.

The atmosphere in the Academy now was like a huge barrel of explosives. Any random spark could set it on fire!

He thought that Lin Yi wouldn't do anything big even if he were to attack the three houses, but he didn't expect Lin Yi to act so quickly, and use a tyrant!

This guy was famous for his brutal attacks. Otherwise, how could he have such an elegant name?

Now that Lin Yi had touched tyrant, it was clear that he was raising a butcher's knife against the three big families. He was going to start a massacre.

"What do we do? What do we do?"

Everyone was immediately anxious. If they didn't come up with an idea as soon as possible, they would probably be finished today.

At this moment, Gu Weiyang became the backbone of the team again. "What are you panicking for? It's just that they're bringing the plan forward, but they can't prepare more and can't take Lin Yi down with the dark Demon beasts ..."

"Let's talk about killing him later. Right now, it's more important to escape!"

The people of the three great clans immediately started to organize their manpower, and at the same time, they sent out signals to the darkness magical beasts in the outer perimeter. The darkness magical beast tide that had just slowed down a little immediately erupted again on a large scale.

The inside and outside of the Academy were in chaos again.

On the top of Xiao Mountain.

The two figures looked down from above and could see the situation at Jianghai Academy from afar.

"It seems that the Human Academy is about to be finished. Next, it will be the matter between the darkness magical beast and our Sea Race."

One of the figures had a ferocious horn on his forehead, and he was obviously not human.

He was hai Wutian, the top sea God's Wayfarer who ranked ninth in the sea God's temple.

"That might not be the case."

The other figure who spoke was the former beast God that Lin Yi had worked with before.

Hai Wutian looked at him in surprise, 'the old beast God thinks so highly of them? Forgive me for my poor eyesight, but I really can't see what's so special about this group of humans. At most, they're a little resilient, but that's all. "

"Then let's continue reading," the former beast God laughed.

"Alright."

"Why don't we make a bet?" hai Wutian suddenly changed the topic. "Let's bet on whether these humans can survive this wave!"

"What about the bet?" the former beast God's eyes flashed.

"The bet is what we discussed just now. If they survive, I can agree to your request on behalf of the sea god Hall. But if they can't, then your false divinity will be mine."

Hai Wutian didn't try to hide his intentions.

The former beast God was constantly declining, and no matter if it was strength or influence, he didn't have the qualifications to cooperate with the sea god temple. The false divinity on his head was the only bargaining chip that could arouse his interest.

After all, with this thing, it was equivalent to obtaining the recognition of the God of creation. For an ambitious person like him, the temptation could not be greater.

Let alone just giving up some benefits in the name of the sea god Hall, even if he had to personally take the risk, he would still not hesitate.

The former beast God nodded.

In the time it took for the two to speak, the situation at Jianghai Academy had taken a sharp turn for the worse.

Without the Academy's protective array, it was already very difficult for the remaining people to deal with the attacks of the dark Beast tide from all directions.

In the end, at this juncture, the Masters of the three founding families suddenly turned hostile and cooperated with the dark Beast tide outside, which was really adding fuel to the fire.

The originally precarious situation directly showed signs of collapse on the spot.

"It seems like I won."

Hai Wutian laughed as he declared his victory.

The former beast God was unmoved. "There's no hurry. Let's continue watching. The show might just be starting."

Hai Wutian didn't think much of it. "There's a huge gap between us and the enemy. Those humans are only holding on with their energy. Now that there's internal strife, their energy has been destroyed. They can't even maintain the basic formation. How are we going to fight?"

That was the truth.

Under the repeated destruction, the people in the Academy had already been pushed to the critical point. Now that they were stabbed in the back by the three founding families, their morale was directly reduced.

Chapter 9982

In their despair, some of them had completely lost the courage to continue fighting and fled on the spot, becoming deserters.

And this kind of thing was contagious on the cruel battlefield!

Sure enough, after the first one, there was immediately a second, then a third, and a fourth. In the blink of an eye, it had already formed a crushing defeat.

The army was defeated like a landslide.

At this point, no matter how courageous Xu Anshan and the other team leaders were, they could not turn the situation around. The situation was already out of control.

"Lin Yi, Oh Lin Yi, let's see how you die this time!" Gu Weiyang was overjoyed.

He had led the three great families to defect to the enemy. If they could take down Jianghai Academy in one fell swoop, his position in the future would be secured. He would be able to achieve the same status as Li Songzhang, and even have the chance to rise to the next level!

But if the school didn't collapse this time, he'd be in deep trouble in the future. He'd never get a good night's sleep before Lin Yi and the school were completely destroyed.

As such, he was more eager than anyone else for the Academy to collapse!

From the looks of it, his hope was about to come true. Even if Lin Yi came out personally, there was no way he could turn the tide.

After all, if he were to make a move, the big shots of the Beast God Hall wouldn't be easy to deal with.

He would only die faster!

However, just as he thought that the situation was set, a colorless barrier suddenly enveloped the entire scene, and then isolated the endless tide of darkness beasts on the outside. No matter how they attacked, the barrier did not move at all.

"The Academy's protective array!"

The Academy's people who had already fallen into despair were suddenly invigorated.

The reason why they had collapsed was because without the protection of the array, they had lost the confidence to hold on. After all, there were endless waves of darkness beasts coming from all directions. After a long time, even the strongest experts would have a moment of collapse.

But now that there was a protective array, it meant that everyone had enough time to catch their breath.

The key was the effect of the protective barrier. It was more than ten times stronger than before!

It must be known that with the current intensity of the beast tide, if it was the previous protective array, even if it was not destroyed on the spot, it would at least be on the verge of collapse. It would definitely not be as stable as Mount Tai.

This time, his confidence immediately came back.

"How ... How is this possible?"

Gu Weiyang and the three founding families' senior executives all turned ashen.

Their greatest confidence in joining the enemy came from the lack of the protective array. For this reason, they had specially found the top array grandmasters in their respective families to observe it, and in the end, they came to the same conclusion that the protective array could not be repaired.

At least within half a year, there was no such possibility!

This was not the conclusion of a single person, but the joint conclusion of all the formation grandmasters, so they were so certain.

Who would've thought that Lin Yi could fix the whole thing in less than three days with his jokingly-like work?

Escape!

Gu Weiyang and the others felt their limbs go cold, but they weren't so scared that they couldn't move. When they reacted, they immediately ran for their lives.

Fortunately, they had been cautious enough and had escaped outside the academy's boundaries. Otherwise, if they had been trapped in the array, they would not have been able to find their graves even if they cried.

"Damn, these dogs are running fast!"

Tyrant and the others could not help but curse. If Gu Weiyang and the rest of the traitors had not suddenly turned their backs on them, they would not have fallen to the point of collapse no matter how much pressure they were under.

If Lin Yi didn't fix the formation in time, they would've been dead by now!

Everyone wanted to chase after them, but the problem was that the tide of darkness beasts this time was too crazy. Even if they activated the protection array to block the endless tide of darkness beasts outside, just the darkness magical beasts that had already rushed in were enough to cause a lot of trouble for the entire courtyard.

If they left it alone, there would be at least a hundred more casualties today.

The current Jianghai Academy could no longer afford to suffer such losses.

On the top of Xiao Mountain.

Hai Wutian looked at this scene and was slightly shocked. ""He managed to fix the formation at this time and forcefully let these humans live. Interesting."

The former beast God laughed, looks like I've won this time.

"Don't be in such a hurry, things aren't over yet,"

Hai Wutian, however, was not flustered. He looked at Gu Weiyang and the others, who were running away quickly, and said meaningfully, ""The people from the beast God Hall haven't made their move yet. With my understanding of ye Tianbei, he won't be able to take such a rare opportunity."

The conflict between the sea goddess Hall and the Beast God Hall had not been one or two years. It had lasted for a thousand years. Their understanding of each other was even deeper than the other side's on many occasions.

If not for that, why would he bet with someone so confidently?

One had to know that the bet he had placed on the table was not a small thing. If he really lost, even he would have to go through a lot of trouble and even pay a big price.

Moreover, this was directly related to the false divine spark in his body.

Sure enough, as soon as hai Wutian finished speaking, there was a movement from the city Lord's mansion. Although ye Tianbei did not come in person, three of the five half-step Venerables had come, plus a group of super powerful beings. The scene was still overwhelming.

The hearts of the Academy's people who had just caught their breath immediately rose to their throats again.

"They're the bunch of human trash who took the initiative to surrender?"

One of the half-step Venerables glanced at Gu Weiyang and the others with disdain. Because the banquet had been interrupted, his attitude was very unhappy, but he still remembered ye Tianbei's instructions.

"Get over here. From today on, you're members of the beast God Hall. Whoever touches you will suffer a hundredfold of the beast God Hall's revenge. I'd like to see who has the guts!"

The half-step venerable sneered at the students who were still fighting.

All of a sudden, it transformed into a towering ancient blood Lion and spat out a beam of blood-red light at Jianghai Academy. Its murderous aura was so terrifying that Half the Sky was dyed blood-red, as if the end of the world had arrived.

Everyone couldn't help but be on tenterhooks as they subconsciously recalled the fear of being dominated by the Super-large fire Phoenix.

If there was another wave of attacks, they would all be finished.

Tyrant and the others looked at Lin Yi-he was probably the only one who could save the day.

However, Lin Yi only raised his head and looked at the scene quietly. He didn't seem to have any intention of helping.

In the next second, the blood light that soared into the sky directly bombarded the protective barrier of the protective array. In the end, the barrier did not even shake. It was completely swallowed without any signs of being unable to withstand it.

Chapter 9983 The End

Everyone was speechless.

It wasn't strange that the Academy's protective array could defend against it, but to use such a carefree method to defend against it, it far exceeded everyone's expectations.

The three half-step Venerables were also stunned.

From what they knew, Jianghai Academy was nothing. The only reason the beast God Hall had suffered was because their main force had yet to arrive.

With the strength of the Jianghai Academy's people, they could at most take on the cannon fodder at the front line. If not for Zhao Wuji and the others being so trashy, they would not even have been left to fight.

Previously, ye Tianbei had personally taken action and easily wiped out half of the Academy. This was proof.

They had thought that they could easily take down Jianghai Academy, which was on the verge of collapse. Never in their wildest dreams had they expected such an unexpected turn of events.

"This is interesting. It seems like the people from Jianghai Academy aren't that useless after all. I can still have some fun with them!"

The three half-step Venerables looked at each other, and then revealed a mocking smile.

The more the people from the Academy struggled and resisted, the more fun it brought to them. Since they had ruined their mood for the banquet, they might as well make up for it with the people from the Academy.

After saying that, the three of them attacked at the same time.

The eyes of the people below immediately popped out. In addition to the ancient blood Lion, there was also a giant bear and a prehistoric Python over a thousand meters long in front of them.

Even from ten miles away, that powerful sense of oppression still made everyone breathless!

This time, the three primordial beasts attacked the protective formation at the same time. The terrifying scene of doomsday was not much different from the scene when ye Tianbei attacked!

The hearts of everyone in the Academy instantly rose to their throats.

At this moment, Lin Yi's figure flashed and he suddenly rushed out of the formation.

The rest of the people from the Academy immediately changed their expressions.

Could it be that even Lin Yi himself had no confidence in the formation? Was he escaping?

Some people reacted and wanted to rush out, but it was too late. The three overwhelming attacks had already landed on the protective array.

Immediately, a huge shock swept through the entire Academy.

He was finished.

Everyone closed their eyes in despair.

However, after a few breaths, the terrifying impact that they had imagined did not reach their bodies. Other than the slight shaking under their feet, they actually did not feel any substance at all.

Looking at the protective array, it was still intact and not moving at all!

"How is that possible?"

The three half-step Venerables were all dumbfounded. They could no longer keep the banter on their faces, and all of them looked serious.

If they could not even break the protective formation, then what was the point of destroying Jianghai Academy? if they could not even deal with the human trash that ye Tianbei had personally destroyed, then they were just as useless as ye Tianbei was!

At this moment, everyone in the school was rejoicing, but they couldn't help but wonder at Lin Yi's actions.

Since the protective array could withstand it, why should they escape?

"Quickly look! Dean Lin is chasing after the traitors!"

Someone with sharp eyes spotted Lin Yi first.

One more thing, Lin Yi was now the Dean, and although he didn't go through any formalities, there was no doubt that he was already the Dean. Especially after today, the rest of the people would definitely be convinced.

Everyone had their own selfish motives.

However, at this moment of life and death, survival was their greatest selfish desire. No matter what conflicts they had before, whoever could lead them to live on was their Savior.

Now that Tian Xiangyang was dead, Banshi Luo was in seclusion, and the three founding families had all defected to the enemy, Lin Yi was their only choice.

After all, anyone with eyes could tell that even the Emperor Xu Anshan, who was the most popular, had to admit defeat in front of Lin Yi, let alone the rest.

At this moment, seeing Lin Yi chasing after Gu Weiyang and the others, the people in the school couldn't help but feel excited!

But at the same time, they were all worried for Lin Yi.

With Lin Yi's strength, it was more than enough to deal with Gu Weiyang's group of traitors. Even if he was in the middle of a Dark Beast horde, he would be able to stay calm.

But the problem was that there were three half-step Venerables standing outside!

Although they couldn't destroy the formation even when they worked together, their strength was still there. Lin Yi didn't have any chance of winning against any one of them, let alone three of them!

"It's not worth it to exchange your life with a group of traitors. Could Dean Lin have gone too far?"

Everyone looked at each other.

Even tyrant and the others were suspicious of Lin Yi's ability to kill Gu Weiyang and the others and escape unscathed.

"The Academy really needs to take the heads of these traitors to stabilize their morale. But to take such a risk just for this, the gains do not make up for the losses!"

Xu Anshan was the only one in the Academy who looked thoughtful.

He could roughly guess what Lin Yi was thinking-if he could do it, the school would be able to stabilize their position, but even with his eyes, he couldn't see how Lin Yi could win against three half-Venerables at once.

"Could it be ..."

Xu Anshan suddenly thought of a possibility. It was outrageous, but it was the only reasonable explanation for Lin Yi's actions.

As he spoke, Lin Yi had already appeared behind Gu Weiyang and the others. He unsheathed the demonic devouring sword and used a wide-range God-exterminating slash.

With his current strength, he could use moves like the God slaying slash with ease without any burden.

Gu Weiyang and the others' eyelids twitched.

He felt the killing intent locked onto him, and he didn't want to stop fighting Lin Yi. The difference in their strength was too big for him to try anything.

The only way to survive was to run forward without regard for anything!

As long as they could get behind the three half-Venerables, they'd be safe. Even if the three didn't really care about them, they wouldn't let Lin Yi do whatever he wanted, even if it was just for their reputation.

However, with a casual swing of the sword, the bodies immediately fell in pieces, and all the people from the three founding families were killed on the spot!

"Alright!"

Everyone in the Academy roared in excitement when they saw this scene.

Vent! It was really F * cking satisfying!

At this moment, even the most prejudiced people had to admit that the only person in Jianghai college who could stand up for Lin Yi was him!

"Quickly look! Gu Weiyang!"

At this moment, someone discovered that Gu Weiyang seemed to have used some kind of teleportation secret technique to escape the disaster. Everyone in the Academy couldn't help but exclaim in pity.

"This dog is really lucky. He actually managed to escape this time ..."

Chapter 9984 The End

What made everyone unhappy was that Gu Weiyang was already behind the three half-step Venerables. In other words, if Lin Yi wanted to continue chasing him, he'd have to get past the three of them.

This kind of thing was unrealistic.

Gu Weiyang knew this as well-she turned to Lin Yi with a cold smile. "You really want to kill me, right? Come on, I'm standing right here for you to kill, do you dare to come over?"

As for the other members of the three great clans who had died, he didn't even spare them a glance.

In his eyes, this group of trash had never been a true ally. To be able to block a sword for him and let him escape death was already their greatest value.

As long as he survived, the Gu family would be able to rise again, regardless of the other two families.

In the future, as long as he could gain the beast God Palace's attention, he could easily replace Li songzhang and even take a step further. By then, not only would the Gu family not decline, but it would also take this opportunity to soar and become the number one family in Jianghai city!

A wise man submits to circumstances.

This was the Gu family's motto, and also Gu Weiyang's belief.

However, he was still a traitor. He was well aware of the risks involved. If he did not allow the dark Beast horde to take over Jianghai Academy today, he might not even be able to survive, let alone achieve meteoric success.

Today, Jianghai Academy must be destroyed!

Even if he had to take a step back, the biggest threat, Lin Yi, had to die. That was why he stayed behind to provoke Lin Yi.

He wanted to use the three half-Venerables to get rid of Lin Yi!

Lin Yi stopped and raised an eyebrow. "You're so proud, it seems like you're really fearless?"

Gu Weiyang smiled indifferently. "I'm not exactly fearless. I'm just reminding you of a simple fact. It's best for you to remain humble before the three masters of the beast God Hall. If you make them unhappy, you'll probably die a horrible death."

"Is that so?"

Lin Yi suddenly raised his sword again, and a solid sword Qi flew towards Gu Weiyang.

Gu Weiyang's eyelids twitched. Subconsciously, he wanted to shake it off, but this seemingly simple sword Qi gave him a feeling that he couldn't avoid it. No matter which direction he ran in, he would definitely hit!

At the crucial moment, a hand blocked it for him.

The half-step venerable in the lead had returned to his human form, easily crushing the sword Qi with his bare hands as he looked at Lin Yi disdainfully.

"Although I don't like this kid either, he's too scheming. He actually wants to use us, hehe."

As he spoke, he turned to look at Gu Weiyang.

Gu Weiyang's hair stood on end. His knees gave way, and he knelt down on the spot. His life was in the hands of this man. If he really made him unhappy, he would die without even knowing how he died.

The half-step Supreme realm leader sneered and continued, ""But at least he was right about one thing. In front of us, you should at least know how to be humble and respectful. That way, we might give you a chance to be a dog.

Otherwise, you'll really be walking down the path to your death. "

"Let's talk about it after we save the traitor," Lin Yi said, raising his eyes.

"Ha?"

The half-step venerable did not know what was going on, and his expression changed. The sword Qi that he had just destroyed with one hand had reappeared, bypassing him and going straight for Gu Weiyang.

Pfft.

Gu Weiyang's head fell to the ground, his face still filled with shock and disbelief.

The entire place was dead silent.

Everyone in the Academy was also stunned by this scene. What kind of divine technique was this? even a half-step venerable couldn't stop it, and Gu Weiyang was killed right in front of him?

"It seems like even half-step Venerables can't protect him."

Lin Yi looked at him indifferently.

The move he had just used looked simple, but it was actually a compound use of the rules of time and space. Although his control over the rules had not improved, the rule power that he could really mobilize was still limited. However, he was now able to use it with ease, as if it was his arm.

This was something that he had never even dared to think about before. After all, this was at the level of laws. Even true Supreme realm experts could not control it as easily as he did.

If he wasn't careful, he would die in minutes.

However, the moment the perfect realm became a new world, Lin Yi felt some kind of deep chain loosening up on him. His entire perspective had changed.

The high and mighty rule power had become the same as domain power to him. He could crush it at will without any shackles.

If news of this were to spread, everyone's jaws would drop, including the Supreme realm experts!

One must know that there was a famous saying among the Supreme realm.

Only the gods could look down on the rules, and only the God of creation could look down on the rules!

The three half-step Supreme realm experts were shocked. As the closest to the Supreme realm, even though they could not understand the true meaning behind the move, they could more or less tell the technical content of the move.

Although they didn't want to admit it, even they couldn't have such exquisite control of the rules!

Even so, the three of them were still furious. ""You reckless fool, since you're so sincere in seeking death, we'll satisfy you!"

As they spoke, the three of them transformed again. The ancient blood Lion, the prehistoric bear, and the thousand-meter-long Python reappeared in the world, and the terrifying pressure came again.

Everyone in the Academy was extremely worried as they watched this scene.

"Dean Lin, run!"

To be able to kill Gu Weiyang and the others in front of three half-step Venerables was already an incredible feat in their eyes. It was a huge boost to the morale of the entire Academy. As long as they could escape alive, it would be a major victory!

Lin Yi, however, was frozen in place-he didn't move at all.

"This is bad!"

The crowd couldn't help but break out in a cold sweat for him.

The three half-step Venerables' attacks came down on Lin Yi's head without holding back. Lin Yi was swallowed up in an instant, leaving nothing behind.

"It can't be ... I'm going to exchange my life with a group of traitors just like that?"

Everyone fell into great sorrow and hesitation at the sight of the destruction-Lin Yi was their only hope now, and if he died so easily, what would happen to them?

He didn't even dare to think about it.

Killing Gu Weiyang and the other dogs was a relief, but getting Lin Yi involved was too much-there was no need for that.

"It's better for me to go!"

Tyrant and the others cursed. If they died for Lin Yi, the rest of them would still have some hope, but now that Lin Yi was dead, they had nothing left.

However, they were only thinking about it. They knew very well that they couldn't kill Gu Weiyang in front of three half-step Venerables with their strength alone.

Chapter 9985 Power

"And here I thought he would be very strong! Can't even withstand a single blow!"

The three half-step Venerables laughed disdainfully. To be honest, when Gu Weiyang had been killed, they had been afraid for a moment. Now, it seemed that they had been overthinking.

A measly Jianghai Academy, with its so-called "top-tier combat power" at most comparable to their advanced cannon fodder. How could there be anything that could threaten their existence?

Thinking about it, it didn't seem realistic.

Lin Yi's calm voice came from above their heads, "I can see that the so-called half-step Venerables are indeed vulnerable. With my palm, you will all die."

"Ha?"

The three of them did not even have the time to be shocked when they saw the sky above them darken. An unparalleled Golden Palm had already enveloped the three of them.

Great mercy and great compassion palm.

BOOM!

After the earth quaked and the mountains shook, everyone fell into a daze.

Looking at the three huge beasts that had been turned into two-dimensional creatures, not to mention the people in the Academy, even the dark magical beasts cannon fodder who didn't have much spiritual intelligence were collectively stunned. Those who were slightly weaker were directly scared to death!

"What a decisive move. This kid sure is tough. I didn't think that Jianghai Academy would have someone like him. I've underestimated them."

Hai Wutian on the top of Xiao Mountain was amazed.

In front of an existence like him, three half-step Venerables were naturally not qualified to enter his eyes.

However, to be honest, these three were already an overwhelming force in front of any ordinary human force. There were very few people who could withstand a single blow from them, let alone kill them in person.

Especially when it was an instant kill!

The former beast God seemed to have expected this and laughed, ""This person is no small matter. If we want to deal with the beast God Hall, he's a ready-made ally,"

Hai Wutian looked at him from the corner of his eyes. "He's not bad, but that's all. There are plenty of people with this kind of strength in any temple." If he wants to become an ally of the sea god Hall just like that, don't you think you're overestimating him?"

Only when they were on equal footing could they be considered allies. Otherwise, they could only be regarded as vassals.

With Lin Yi's current strength, he might have a chance if he wanted to join the sea god Hall, but allies?

It must be funny.

"It's true that he's not qualified yet, but if he becomes the king of the coastal waters, can he consider it?"

The former Beastman God turned his blade.

Hai Wutian was stunned for a moment, then he suddenly understood. ""The deal you proposed to me, was it for him?"

The former beast God nodded. "Since the sea god temple is preparing to re-elect the Sea King, it's best to give him a chance. After all, he has a close relationship with the descendants of the previous Sea King. He has some connections with you."

"That Tian family?"

Hai Wutian shook his head. "His family did have a king of the sea. But that's a thousand years ago. It has nothing to do with these useless descendants."

The Sea King was an extremely special existence to the entire sea god Hall, and was also a key link in maintaining the stability of the four Seas.

Their status was so special that they could even speak directly to the sea god to a certain extent. If their strength and means were powerful enough, they could even be on equal footing with the sea god!

Of course, that was only an extremely rare exception.

In history, other than that one, the other Kings of the coastal seas were still indispensable and important figures, but they were far from being on par with the sea god.

Even so, the position of the Sea King was already set, and the seagod Hall would definitely not take it lightly when choosing people.

He had to be strong enough and couldn't be reduced to a pure useless decoration, but at the same time, he couldn't be strong enough to break away from the control of the sea goddess Hall. After all, in theory, although the sea coast King was appointed by the sea goddess Hall, he could also form a restriction on the sea goddess Hall!

If not for this, the position of King of the coastal waters would not have been vacant for hundreds of years.

Originally, Tian Xiangyang was a good candidate. Unfortunately, after a few interactions, although both sides were interested, they had not been able to come to an agreement.

Now, he was even gone.

If it were any other time, it wouldn't be too much of a problem for this position to remain vacant. The situation in the four Seas had always been stable under the control of the Poseidon shrine.

However, things were different now.

As the beast God Hall's movements grew larger and larger, especially when they launched a surprise attack on Jianghai city in the name of hunting down the former beast God, anyone with eyes could see that the beast God Hall's all-out attack was not far away.

Under such a dangerous situation, even with the sea God's temple's massive size, it could collapse in an instant if it could not deal with it with all its might.

To resist foreign aggression, one must first stabilize the internal situation.

The sea goddess Hall would not be weak if they were to face the beast God Hall head-on, but the problem was that the sea beasts were the main force of the four Seas, so there was a natural possibility that the beast God would rope them in.

Once the beast God personally joined the battle and used some open tactics to lure and divide them, there was a high probability that there would be internal strife in the four Seas.

Under such circumstances, only King Hai Zhu, who had the duty of protecting the sea, could possibly stabilize the four Seas and become the sea stabilizing pillar in the backyard of the sea goddess Hall!

And one of the powers to recommend candidates for the Sea King trial was in the hands of hai Wutian.

This was the core chip he used to bet with the previous beast God!

The former beast God smiled, "even if we don't talk about this, you've seen Lin Yi's strength with your own eyes. It's not a problem for him to reach the threshold of Sea King, but he's not so outstanding that he'll lose control. From the Poseidon shrine's point of view, he's the perfect candidate."

"That's a little reasonable,"

Hai Wutian fell into deep thought.

"There's another benefit," the former beast deity continued, "if he becomes the Sea King, it'll be like tying Jianghai Academy to your Poseidon shrine's war chariot, and you can use it as a bridgehead.

The beast God Hall has already gained the upper hand. If we wait until they truly launch an offensive and push the Battlefront into the four Seas, it'll be difficult for you to launch a counterattack. You probably won't even have a basic starting point for a counterattack!"

"....."

Hai Wutian fell into deep thought.

The battle between the sea goddess Hall and the Beast God Hall was inevitable, and no one could say how far it would go in the future. It was extremely likely that even the sea goddess and the Beast God would have to personally fight in the end.

However, no matter what, once the beast God Hall successfully forced the Battlefront into the four Seas, the sea goddess Hall would be forced into an absolute passive position even if it had the home ground advantage.

Putting everything else aside, as long as the beast God Hall took the opportunity to destroy the environment of the four Seas, the sea goddess Hall would suffer great losses even if they were forced to retreat in the end.

After all, the four Seas were the foundation of the sea god's Palace.

After a long time, hai Wutian opened his eyes and looked at the former beast God. ""If that's the case, then Lin Yi's a pretty good candidate. But I'm curious, what's your relationship with him?"

Chapter 9986

"We've only met once. We can be considered potential allies."

The former beast deity smiled nonchalantly.

"If that's the case, why are you trying so hard to vouch for him?" hai Wutian became more cautious.

As one of the top ten sea god walkers, he was very clear about the thoughts of these high and mighty gods. Even if they were originally human, they would no longer retain human emotions after becoming gods.

Everything behind the scenes was a cold scheme.

Even if he was no longer a beast God, and with the rapid deterioration of his strength, there might be signs of human emotions reappearing. It was unrealistic to say that he did not have any benefits in mind for such an important matter.

The former beast God looked at the battlefield calmly. "It's just for revenge. Before I die, I must see what happens to that traitor. Otherwise, I won't be able to die in peace. "

"Then why did you choose Lin Yi?" hai Wutian frowned.

"It's very simple. I only saw the future I wanted in him. Without him, be it your sea goddess Hall or me, an old dog in dire straits, they would all be just stepping stones for that traitor. "

The former beast God's tone was indifferent, as if he was talking about a fact that had already happened.

Hai Wutian subconsciously wanted to retort.

He was the sea god Hall, how could his final fate be tied to such a small character?

Don't be fooled by Lin Yi's killing spree just now. If hai Wutian were to make a move, he could kill Lin Yi with one finger. This was no exaggeration at all!

Not to mention other things, the gap between their cultivation levels was there, and it was not something that could be crossed by relying on talent or means.

However, he did not dare to refute the previous beast God's judgment.

A starving camel was still bigger than a horse. Even with the former beast God's current strength, he felt that he could easily crush him with a finger. However, the unique vision of a God was not something he could compare with.

The identity of the former beast God had determined that no matter how absurd and unruly the words that came out of this person's mouth sounded, he had to pay enough attention to them.

Otherwise, he might really be slapped in the face.

Finally, hai Wutian gave his answer. "If that's the case, I can put him on the inspection list, but the premise is that he can survive today."

The former beast God's eyes flickered with a sharp light, and he curled his lips with deep meaning, "Don't worry, he will definitely be able to. "

Even though the three half-Venerables had been killed in an instant, it seemed like Lin Yi and the Jianghai college had passed the most dangerous stage of the day. As long as the college could clear out the remaining darkness demonic beasts, they could relax and celebrate.

But from their point of view, Lin Yi's real test wasn't over yet.

In fact, it hadn't even really started.

Sure enough, before the people of the Academy could rejoice, the Super-large fire Phoenix that had brought them countless nightmares had already descended from the sky.

In an instant, everyone present was trembling in fear.

Those who were less courageous simply fell to the ground in fear.

They couldn't be blamed for being cowardly. The terrifying scene of half of the Academy being wiped out was simply too terrifying. It had already become a shadow of death that they couldn't forget for the rest of their lives.

In the face of such an existence, let alone the ordinary Masters from the Academy, even tyrant, who was a group of top combat forces, would find it difficult to have the slightest intention of fighting against him.

The only thing they could do was watch Lin Yi's tiny figure stand in front of them, facing the Phoenix alone.

"I can't believe a small school like Jianghai Academy would have someone like you. I'm surprised."

Ye Tianbei's voice came from inside the fire Phoenix.

Although it was plain, under the support of the fire Phoenix's huge aura, it actually shook everyone's soul.

If it weren't for Lin Yi standing in front of them, they would've had the urge to kneel down and worship him. The terrifying shadow he left behind had already tamed them subconsciously.

This was a divine beast that was comparable to a God. He must not fight against it!

Lin Yi, on the other hand, raised his head calmly. "I've been waiting for you for a long time. I thought you weren't coming. I was a little disappointed. "

“.....”

Everyone was speechless.

Even Emperor Xu Anshan's eyes twitched. He thought that Lin Yi's target was the three half-Venerables, but this was far beyond his expectations.

He didn't expect Lin Yi to be after this man!

This was a true Supreme realm expert!

The difference between the Supreme realm and the powerful being realm could not be described by a single step. This was the difference of two whole worlds!

The gap between them was like child's play compared to the barrier of a Big Shot's ultimate completion. You have the cheek to call this a realm barrier?

No matter how loud the half-step supremacy from before shouted, he was still stuck at the final point of the Titan stage. Even if it sounded like there was not much difference, without taking that final step, there was no way to compare.

Lin Yi's ability to kill them instantly was out of everyone's expectations, but it was still within the scope of logical understanding.

After all, Lin Yi always had the habit of challenging people above his level, and now that he was at the peak of the giant realm, strictly speaking, he was standing at the end of the giant realm. At most, he was only a few steps behind those half-step Venerables.

But against a true Supreme realm, even with Xu Anshan's imagination, he couldn't think of a way for Lin Yi to win!

"A killjoy? Hehe, then I'll help you with the fun. "

Ye Tianbei sneered. The fire Phoenix opened its mouth and spat out a Breath of Fire. Wherever the sea of fire spread, the space would melt and collapse.

In the blink of an eye, Lin Yi's figure was swallowed up.

Everyone couldn't help but fall into despair.

No one thought that Lin Yi would be able to make it through-the events of the day had been like a roller coaster ride, and they'd all been on tenterhooks. They'd finally seen a glimmer of hope, only for it to be destroyed by a single breath.

If you're tired, destroy.

Everyone had completely lost the will to fight. They wouldn't throw away their dignity like Gu Weiyang, but they really couldn't fight anymore.

This had nothing to do with the quality of one's will, but there was really no hope. All resistance was in vain. It was better to hug one's family and friends at the last moment, say goodbye to each other, and promise to meet again in the next life.

But at this moment, an indomitable Demon God suddenly rose from the sea of fire.

It had a human body, bull hooves, four eyes, six arms, sharp ears, and a huge horn on its head!

Weapon Grandmaster Chi You!

"It's just so. "

Lin Yi's calm voice sounded.

Everyone watched as the ancient demonic god from the legends punched out with all six of his giant arms at the same time, and the sea of fire that enveloped his body was actually extinguished. Everyone could finally see the light of day again.

Chapter 9987

Ye Tianbei was slightly stunned. Although his flaming breath was not his full strength, it was more than enough to deal with anyone below the Supreme realm, including those who were half a step away from the Supreme realm!

She didn't expect Lin Yi to break it so easily.

This was not the end.

Before the Phoenix could react, Lin Yi, who was in his Chiyoun form, exerted strength in his legs and his huge demonic god Body shot up into the sky, directly on top of the fire Phoenix's head!

BOOM!

The six giant arms struck the head of the fire Phoenix at the same time. Even though its wingspan was as long as ten thousand meters and its size was a whole order of magnitude larger than the demon God Chi You, it was still smashed down from the sky by such an attack.

Everyone was dumbfounded as they watched the insufferably arrogant gigantic Fire Phoenix land on the ground in a sorry state.

Even the former beast God and hai Wutian, who were watching the battle from the top of Yao mountain, couldn't help but look shocked.

That was ye Tianbei!

That was the top-tier beast God's Wayfarer, ranked tenth in the beast God Hall!

Not only did he fail to kill Lin Yi in one move, but he even suffered a loss. Wasn't this a little too exaggerated?

Even the former beast God, who'd had high hopes for Lin Yi, was dumbfounded. This was completely different from what he'd expected.

In his expectation, although Lin Yi could survive this disaster, he would have to pay a huge price. At most, he would make ye Tianbei feel that the loss was not worth the gain, and then he would be lucky enough to survive.

But the scene before their eyes, how could there be any meaning of luck?

The key was that Lin Yi's attacks didn't show any signs of stopping. He dragged the fire Phoenix to the ground and continued to hammer it. The fire Phoenix tried to escape a few times, but it was dragged back by force every time.

Whether it was the scene or the actual situation, it was clear that Lin Yi was suppressing ye Tianbei and beating him up!

"This guy is so fierce!"

Hai Wutian swallowed his saliva with a dry expression.

Up until this moment, he was still using one finger to measure Lin Yi's strength, but according to this posture, he'd break all ten fingers one by one if he dared to lower his guard!

Ye Tianbei's status and strength were almost equal to his. Even if there was a gap between them, it would not be too big.

If he were ye Tianbei, he would not be in a better situation.

"I have to go back to the palace and discuss the matter of the Sea King with the others."

Hai Wutian turned to look at the former beast God. They were all confident that they could control Lin Yi easily, but now that Lin Yi had shown his strength, he didn't look like he could be easily controlled.

The former beast God did not say anything.

However, in the depths of his eyes, there was a flash of gloominess.

At this moment, devil Chi You was still holding the fire Phoenix hammer. The scene was so tragic that even the people in the Academy could not bear to look at it.

Some half-step Venerables who heard the news wanted to help, but because they were too close, they were pulled down from the sky by the devil Chiyu, pressed to the ground, and kicked in the face. Their brains burst out on the spot, and they died a horrible death.

Ye Tianbei had brought five half-step Venerables with him this time, and Lin Yi had killed four of them.

Only the last half-step supremacy was left. He watched this scene from afar, not daring to approach.

The spectators couldn't help but have an absurd thought. Half-step Venerables didn't seem to be worth much?

Before they knew it, Lin Yi had raised everyone's view of the world by himself. Before this, not to mention half-step Venerables, even super peak-level combatants were at the top of the pyramid.

Yet because of Lin Yi alone, the value of the company had depreciated to this extent in such a short period of time.

In fact, even the legendary Supreme realm cultivators were about to be knocked off their altars ...

"Unforgivable!"

After being unable to escape for several times, ye Tianbei was finally forced into a corner. He immediately gave up the human form of rules and returned to his human form. This was the only way he could get rid of the demon God Chi You.

Then, it transformed into a gigantic Fire Phoenix in the sky and finally broke away from the embarrassing battle.

But even so, the scene just now was enough to become a dark history in his life.

What a disgrace! An unprecedented humiliation!

It was burned to ashes!

Ye Tianbei immediately went all out, and a never-before-seen fire vortex descended from the sky, once again enveloping Lin Yi's demon Chiyou.

Compared to the flame breath just now, the fire rule power contained in this incinerating spell was at least an entire level stronger. It had at least reached 30% rule control!

Lin Yi didn't have more than ten percent control over any element, and it was a difficult question for him.

The best way to deal with this situation was to retreat.

No matter what considerations they had, going head-on with the man was the worst possible option, but Lin Yi's choice shocked everyone.

He stayed where he was and chose to fight head-on!

"You're looking for death!"

Ye Tianbei sneered. This time, he did not hold back at all. It was the full-force attack of a true Supreme realm master. If he could still be blocked, he would be eating shit.

Did he really think that the complete suppression of a Supreme realm cultivator was just a joke?

Not to mention the power of this incinerating attack, just the suppression effect of a Supreme realm cultivator's attack was a decisive difference!

The so-called rule suppression meant that when one's control of the rules had an advantage in magnitude, a Supreme realm expert could completely suppress all the rule power of his opponent with all his might.

In other words, Lin Yi couldn't even use his basic rule force, let alone face him head on.

That was the truth.

Whether it was the space rule, time rule, the giant rule, or the killing rule and wind rule, Lin Yi couldn't use any of them. They were all suppressed and sealed.

Only the law of bestification could continue to be maintained as the law had already transformed into the demon God Chi You.

But that was all.

With Chiyou's Demon God Body, it was like a Mantis trying to stop a chariot if he wanted to withstand the full-force attack from the other side!

No matter which angle he looked at it from, Lin Yi had no chance of winning.

However, he still didn't retreat. Not only did he not retreat, but he even made a posture of counterattacking.

The six giant arms each drew a domineering trajectory in the air and slammed into the void in unison. Then, dense cracks appeared in the void and spread rapidly at a speed visible to the naked eye.

In the end, the entire space around Lin Yi shattered!

Chapter 9988

"This is ... The Law of Vibration?"

Hai Wutian was dumbfounded.

Just like time and space, the Law of Vibration was also a top-notch law, and it was also the law with the most destructive power in the legends. Its rarity was even above that of time and space.

She didn't expect it to appear on Lin Yi!

The former beast God's expression was also grave. "This is not his own rule power. It should be the exclusive talent of the ancient deity he transformed into!"

No one had a better say than him, the former beast God, about the profoundness of the rules of beast transformation.

Its essence was to obtain the corresponding form of talent power through the transformation of laws. For example, ye Tianbei's Fire Phoenix corresponded to the fire laws, and Lin Yi's Demon God Chiyou seemed to correspond to the vibration laws!

"He's picked up a treasure. His luck is so good!"

Hai Wutian sighed with envy.

The biggest disadvantage of a top-level rule was that it was difficult to increase one's control over the rule. Apart from that, it was absolutely superior to all other low-level rules in all other aspects.

However, the degree of rule control under the rule transformation was in theory synchronized with the rules of bestification. In other words, the degree of rule control of the corresponding form was the same as the degree of control of the rules of bestification.

Lin Yi's control of the vibration law was the same as his beast transformation law, six percent!

In other words, if he wanted to upgrade the rule of vibration, he only needed to upgrade the rule of beastification.

This was definitely a huge profit!

The beastification rule was only a second-level rule. Although it was much more difficult to upgrade it compared to the third-level rule, it was obviously much easier compared to the top-level rule, which was as difficult as ascending to the sky.

The former beast deity nodded his head slightly.

Almost everyone in the beast God Hall pursued the creation of top-level rules through the bestification rules. Once successful, it meant that one had obtained the ticket to the top-rank.

As long as such a figure grew up, he would definitely become a powerful figure in the future, even in the beast God Hall where big shots gathered.

Not to mention, Lin Yi's was using the most destructive rule of vibration!

This was not even taking into account the other rule bending powers that he had displayed before. If all of them were superimposed, just the Super-luxurious configuration on the surface was enough to make a group of so-called geniuses collectively faint.

Hai Wutian frowned. "This is strange. Even if he has the vibration rule, he should still be suppressed by the rule. How can he use it?"

The former beast God thought, this should be another talent of his, the demonic god of transformation.

Many top-tier ferocious beasts formed from laws had more than one type of rule talent. It was not strange for them to have two types of talent. In fact, ye Tianbei's Fire Phoenix had more than one type of fire rule talent.

Hai Wutian shook his head speechlessly, 'a talent that can ignore the suppression of rules? It's really a comparison. "

The suppression of the rules was one of the core signature abilities of a Supreme realm expert. It was also because of its existence that a Supreme realm expert was so unattainable, and even more so for those below them.

Yet, in Lin Yi's hands, the rules were completely ignored. How could these Supreme realm Masters accept this?

With the vibration rule, even though there was a difference in strength between the two rules, the fire around Lin Yi was still shattered on the spot.

The rule of the most destructive power was fully revealed at this moment!

"How is that possible?"

Ye Tianbei was completely stunned. This was completely beyond his knowledge.

However, this was not the end.

Then, Lin Yi's demon Chiyou stretched out his six arms, and the vibration force exploded directly on ye Tianbei's body through the broken void!

Ka!

Everyone looked at the gigantic Fire Phoenix that had been torn into pieces in the sky. For a moment, they did not know how to react and were collectively stunned.

Killing three half-step Venerables wasn't enough, was he trying to put on a show of killing a venerable?

"This is too much ..."

Hai Wutian had no more energy to complain.

He did not think that ye Tianbei would die like this. After all, the fire Phoenix's talent was there. No matter how severe the injury, it could be reborn.

However, based on the current situation, even if ye Tianbei managed to achieve Nirvana in the end, he would definitely suffer a great loss today.

Lin Yi would become a scar that he would never be able to open.

"Unforgivable! This is unforgivable!"

Ye Tianbei did not enter the Nirvana state. Instead, he forcibly pieced his body back together with his own powerful cultivation. Although there were still obvious cracks, he had not lost his mobility.

He was about to go crazy from anger. In his rage, he no longer had any scruples. His faith immediately began to burn at all costs!

His body exuded an unparalleled terrifying aura. That familiar feeling caused everyone in the Academy to panic. This was clearly the state he was in when he had wiped out half of the Academy!

Lin Yi said with a serious expression.

It had to be said that ye Tianbei was not simple in this state. Even he finally felt a little disobedient.

However, it was not to the extent of being helpless.

"Pull him in. If you're lucky, you can make a fortune this time!"

Jiang xiaoshang's voice sounded in his mind.

Seeing that the other was about to release another fatal breath, Lin Yi decided to follow his advice and activated a new world, forcefully dragging the other in!

After all, if they allowed the enemy to wreak havoc, even if the Academy's defensive spell formation had been strengthened to the epic tier, it was still unknown whether it could withstand such a powerful attack.

He couldn't let everyone take this risk.

"What the hell is this place?"

After being forcefully dragged into the new world, ye Tianbei immediately noticed that something was wrong and subconsciously wanted to break out of the world.

But it was too late.

All kinds of indescribable rule power had surrounded him from all directions. Ye Tianbei hurriedly used his flaming breath to dispel the rule power, but it was to no avail.

This scene truly made him feel horrified.

As a Supreme realm existence, he was actually trapped by a piece of trash who had yet to cross the threshold of the giant realm. What was even more ridiculous was that even though he had already used his precious faith points, it was still useless!

Fortunately, as a top-tier beast God's advisor who had experienced hundreds of battles, ye Tianbei quickly calmed down and understood his current situation.

His opponent wasn't just Lin Yi, but the entire world!

"You actually refined a secret realm? Are you already a Supreme realm expert?"

This was the only possibility that ye Tianbei could think of.

Chapter 9989

There were two paths from the Supreme realm to the God Realm. One was to join the gods and be deeply bound to them like he did. The other was to refine a secret realm for himself.

Evidently, Lin Yi was planning on the latter.

At least in his eyes, that was definitely the case.

This also explained everything that had happened before. He had not lost to a weak Titan, but to a Supreme realm expert who had disguised himself as a Titan. Everything made sense now.

"I was too careless ..."

Ye Tianbei was filled with regret. In a battle between Supreme realm experts, the most taboo thing was to be pulled into the other party's world. This was because the opponent's home field advantage would be infinitely magnified.

Unless the strength advantage was so great that it could easily crush the opponent, this home field advantage could not be offset at all.

Because in this place, he was a god-like existence.

But then again, if the difference in strength between the two sides was so great, he would not have been dragged into the other side's world so easily.

"Welcome to my world."

Lin Yi in Chiyu's form appeared above his head without any warning and started beating him up.

The key wasn't just shaking the rules-all the rule power in the New World was under Lin Yi's control. If it was outside, the rule power Lin Yi could mobilize was far less than the other side, but it was completely reversed here.

Ye Tianbei was in despair.

He'd been led around by the nose by Lin Yi even outside, let alone here.

"Break off an arm to survive!"

Ye Tianbei immediately made what he thought was the best decision. He immediately gave up his futile resistance and started the Nirvana ceremony without saying a word.

In just a moment, the fire Phoenix's huge body fell apart, breaking into a large mass of ownerless rule power.

As for ye Tianbei, he had disappeared without a trace.

Lin Yi couldn't help but feel a little regretful. "That's a decisive escape. Phoenix's Nirvana, I thought it was right here."

Jiang xiaoshang chuckled. "When one reincarnates, he can plant a seed in advance. As long as the seed is there, no one can really kill him. But then again, if he can't even do this and can only reincarnate on the spot, wouldn't he be a living target? what's the point?"

"Alright, at least I didn't make a wasted trip."

Lin Yi looked at the new ball of fire rule force in his new world, a rare smile on his face.

This fire-type rule bending power was huge and pure, far beyond the sum of all the previous rule bending powers. After all, this was the inheritance of a Supreme realm expert.

With the fusion of the fire laws, Lin Yi could clearly feel the New World changing rapidly.

In the past, it was just pure chaos. Let alone separating heaven and earth, it didn't even have the concept of temperature.

Now that there was such a huge amount of fire rule power, there was an obvious trace of warmth in the New World. Even though this temperature was still extremely cold compared to the outside world, at least the concept of temperature had begun to take shape.

This was a rather gratifying change.

Only with temperature could there be further evolution. Although it was still far from a complete world that could clearly give birth to life, there was no doubt that this was a crucial qualitative change.

Its significance was no less than the light that welcomed earth.

This was reflected in Lin Yi's body, and the most direct manifestation of this was that his strength welcomed another round of explosive growth!

Before this, although he was already at the pinnacle of the Almighty realm, in name, he was already standing at the end of the Almighty realm. However, in reality, he was still quite far away from Luo Banshi's super top battle power, let alone those half-step Venerables.

The final destination of the Titan stage had never been a single point, but rather a mountain.

After becoming a giant, he had only reached the foot of the mountain. He was still far from the peak.

But now, thanks to the rapid development of the New World, Lin Yi was halfway up the mountain, and could finally be on the same level as Banshi Luo and the others.

Of course, the realm level was just the realm level. For a perverted animal like him, who would jump levels and challenge his family's meal no matter when and where, his true strength could not be measured purely by the realm on the surface.

Whoever believed that would be stupid.

"But there's still a gap between me and Banshi Luo and the others."

Lin Yi sighed, not without regret.

It was not that he could not defeat Luo Banshi with his current strength. Even a venerable like ye Tianbei was defeated by him, so Luo Banshi would not be any better off.

He was referring to his control over the rules.

The improvement of his realm now relied on the overall rule power gathered in the New World. At least in terms of total amount, he was not inferior to Luo Banshi and the others at all, and might even far exceed them.

However, when it came to the control of a single law, it was a huge problem.

Luo Banshi's control over the time rule was already close to 20%, and his highest control over the gigantification rule was only barely 10%.

This was all thanks to Zhuo Qingqing's wedding dress. Otherwise, it would be even worse.

The control of a single rule directly determined the upper limit of his strength. After all, a hundred moves would not be as good as a single move's spirit. No matter how many and how complicated the rules he mastered were, even if he could play around with them, it would only be a gaudy trick in front of a truly powerful enemy.

If he were to fight ye Tianbei again, it would be impossible for him to gain the upper hand like this time.

After all, they weren't stupid. Why would they easily step into a trap a second time after being prepared?

If he couldn't drag him into this new world, with Lin Yi's current strength, there was no way he could suppress him.

This time, he had made sure that ye Tianbei was not in time.

Jiang xiaoshang chuckled. "You've earned so much this time. You don't have to cry about being poor anymore, do you?"

"I'm not crying about being poor, I'm really worried," Lin Yi said helplessly.

This time, ye Tianbei was forced to retreat. Even if he was reborn, his vitality would be greatly damaged. It would take at least a long time for him to recover. However, there would always be a next time.

With his current level of strength, if the enemy were to stage a comeback the next time around, or perhaps even more ruthless, Jianghai Academy would not be able to escape the fate of being wiped out.

It was a good thing that he had obtained a lot of fire rule power, and his gains were indeed huge.

However, it was still not enough.

"You haven't even checked the most important spoils of war, and you're already worried?" Jiang xiaoshang had a strange look on his face.

"What spoils of war?"

Lin Yi was stunned. The only thing he saw was ye Tianbei's fire rule power and nothing else.

"Why don't you try to feel it again?" Jiang xiaoshang was amused.

“.....”

Lin Yi wasn't entirely convinced, but he quickly checked the New World inside out. After a while, his eyes lit up.

Chapter 9990 The End

At some point in time, some mysterious stars had appeared at the edge of the New World. They were very small, between physical and non-existent, and their quasi-existence was extremely thin. If not for Jiang xiaoshang's reminder, he might not have discovered them in his entire life.

"What is this?"

Lin Yi couldn't help but be surprised. The mysterious aura was different from any energy or substance he had come into contact with before. He could feel some traces of the laws of beastification, but the essence was completely different.

Jiang xiaoshang explained with a smile, "this is a seed formed from the power of faith. It's called the seed of faith for short. Of course, you can call it faith. It's an existence that lies between reality and nothingness. It's the most mysterious power in the world."

"The power of faith?"

Lin Yi raised a brow. He'd had some guesses about the gods ever since he heard about them, but he'd never really gotten involved.

Jiang xiaoshang nodded. "Rules are the source of the gods' power. However, if you want to fully develop the power of rules, you have to rely on the power of faith!"

For example, rules were a kind of substantial power. You could use this power to do what you wanted to do, but this power did not appear out of thin air.

In theory, all rules are the foundation of the origin world. It is never a personal item. Without sufficient legitimacy, using the power of rules like what you are doing now is essentially stealing a public tool. "

"Stealing public tools?"

"Then wouldn't we get arrested?" Lin Yi said as he pinched his nose.

Jiang xiaoshang nodded his head seriously. "That's the logic. But in fact, not just you, even the Supreme realm experts will not be affected because they can only steal a limited amount of rule bending power."

"I guess you stole too little," Lin Yi's mouth twitched, "so you didn't catch the owner's eye?"

"That's roughly what it means. However, if you wait until you pass the Supreme realm and reach the level of the God Realm, you will have to pay the price. The so-called God's test is because of this."

Jiang xiaoshang said, "those who can reach the pinnacle of the Supreme realm are all people of great power. However, at least 90% of them will die under the divine tribulation again and again .."

Lin Yi's eyelid twitched, "could it be that the God's test happened more than once?" Isn't it true that as long as one can withstand it once, a carp can transform into a Dragon and advance to the immortal state?"

"Who told you that?"

Jiang xiaoshang's mouth twitched. "The divine tribulation is not a test before a qualitative change. It is a simple punishment. If you can't be struck to death once, there will be a next time. If the next time doesn't work, there will be the next time. It will be endless, until you are struck to death."

"Then isn't that a dead end?" Lin Yi said, tongue-tied.

"It's a dead end. It's just like the theft in your human society. Previously, no one paid attention to you because you only stole a small amount, but once you steal a huge amount, do you think you can hide from it for the rest of your life?"

"According to what you're saying, isn't there no solution?"

Jiang xiaoshang looked at Lin Yi as if he was an idiot,"How can it be unsolvable? as long as you don't steal it, everything will be fine!"

“.....”

Lin Yi blinked,"Is this the effect of the power of faith?"

"That's right," Jiang xiaoshang said."The essence of the power of faith is the recognition of the world's living creatures. To a certain extent, it's equivalent to giving you the legitimacy to use rule power.

Therefore, if one wanted to step into the God Realm, one had to have enough faith. Otherwise, one would be killed by the God tribulation.

Starting from the Supreme realm, faith is the most precious core resource, and there is no other. Even the battles between gods are often triggered by the fight for faith. "

"The conflict between the beast God Hall and the ocean goddess Hall was also because of this, right?" Lin Yi said, deep in thought.

"Smart!"

Jiang xiaoshang praised, "the battle between the beast God and the sea god is essentially a fight for the huge sea beast population. The new beast God is ambitious. If he can win over the sea beast population, his strength will at least double!"

"We can string them together now," Lin Yi said, enlightened.

Although he had a vague understanding of the root of the Great Tribulation, he was not very clear about it. Now, with Jiang xiaoshang's guidance, he had a complete understanding of it.

"But if it's as you said, the power of faith is only useful for immortal state cultivators. It shouldn't be of much use to Supreme realm cultivators who haven't reached the end?"

Lin Yi asked, confused.

Jiang xiaoshang shook his head and said, "how can it not be big?" "In addition to granting you the legitimacy to your rule power, it can also greatly enhance the power of your rule moves. Previously, that stupid bird destroyed half of your Academy because he burned his faith.

Otherwise, he's just an early stage yellow venerable who just entered the sect. How could he have such a powerful aura?"

"No wonder," Lin Yi said, "I thought it was his special explosive talent. The difference in strength before and after was so huge!"

Lin Yi's eyes lit up after a pause. "If I were to burn these faith points, would I be able to reach that kind of seed explosion state?"

"Of course."

However, Jiang xiaoshang immediately changed the topic, "It's normal for others to do that, but if you do the same, then you must be out of your mind. "

"Why?" Lin Yi's eyes twitched.

Jiang xiaoshang chuckled. "That's because you have a more efficient way of using it. You can use it to improve your control over the rules. This is a special privilege unique to the ancient God cultivators!"

"Increase your control over the laws!"

Lin Yi was completely shocked.

How difficult it was to increase one's rule control was something that he had experienced deeply in the past few days. If he didn't have any special opportunities, if he continued to develop normally, he wouldn't be able to increase his rule control to 20% without a hundred years of hard work.

As for a higher level, he didn't even dare to think about it in the short term.

"One point of faith can increase one point of control. Don't you think you've made a killing this time?"

Jiang xiaoshang pointed at the stars in front of them.

Lin Yi was dumbfounded-there weren't many dots, but there were at least fifteen.

15 points of faith, that was a full 15 points of rule control. Without a doubt, it was enough to produce a qualitative change in any top-notch rule!

Lin Yi's first reaction was to choose between time and space.

No matter which one of these two, their current control was 5%. Once 15 points were added, they would reach the key threshold of 20% rule control, and there was a huge room for imagination.

However, it soon got stuck. No.

Jiang xiaoshang reminded him, "faith has its own attributes too. You got all these from that stupid bird. They all carry the label of a beast God. You can only use them to improve the rules of beast transformation."
